

Interest rates raising fears

Recession half over?

WASHINGTON (AP) — Early indications from the recession of 1979 point toward the possibility that Americans can escape with comparatively little damage, but the steady rise in interest rates is causing fear that the worst is yet to come.

Lyle E. Gramley, a member of President Carter's Council of Economic Advisers, said Friday it's "quite possible" the recession is already half over and that the economy could show some slight growth in the fourth quarter of this year after declining during the previous two quarters.

But Gramley is assuming there will not be any additional serious damage caused by the rapid increase in interest rates that has occurred since Paul A. Volcker took over as chairman of the Federal Reserve Board a month ago.

A number of major banks raised their prime lending rate on Friday to

an all-time high of 12 3/4 percent in response to pressure from the Federal Reserve. The Fed has been pushing up interest rates on its own, and two weeks ago raised its discount rate to 10 1/2 percent, also a record.

Further increases are not ruled out by financial analysts. Rising interest rates can dampen economic growth since they raise the cost of borrowing to both business and consumers, including homebuyers.

Even more worrisome from the standpoint of the Federal Reserve, however, has been the rapid growth in the nation's money supply, which Volcker said is helping to fuel inflation. He made clear to Congress last week he wants the board to keep pushing interest rates up until money growth is brought under control.

"The Federal Reserve intends to continue its efforts to restrain the growth of money and credit," he said. He said he didn't know whether this

would push interest rates higher, but indicated such a consideration is secondary to the problem of inflation, which has been running at a 13 percent annual rate for most of the year.

Volcker said in his testimony he thinks the current recession, if indeed there is a recession, will be mild, and said it "seems reasonable" to expect the economy to resume moderate growth again next year.

A recession is commonly defined as two consecutive quarters of decline in economic output, as measured by the gross national product. GNP declined at an annual rate of 2.4 percent in the second quarter, which would be the first quarter of the recession.

Gramley said he expects the dip in the third quarter GNP will be less than the second quarter drop and that the fourth quarter would be "close to zero," meaning it is "quite possible" the recession could last only two quarters.

That would make the 1979 recession much more mild than the 1974-1975 recession, when the economy declined for an entire year, resulting in a peak post-war jobless rate of 9 percent.

The current economic downturn did not show up in unemployment statistics until the August figures were released by the Labor Department Friday. The unemployment rate increased during the month to 6 percent, up from 5.7 percent in July and the highest since July of last year.

While Gramley said he expects unemployment to continue increasing in months ahead, he says the trend so far is "consistent with the view" that unemployment will average 6.6 percent in the final quarter of the year.

The administration is predicting unemployment will rise to 6.9 percent next year, as joblessness is expected to increase for a time even after the economy has resumed growth.

But what is clouding the optimistic outlook that the recession will be mild is the steady rise in interest rates.

Rep. Henry Reuss, D-Wis., chairman of the House Banking Committee, reacted in alarm Friday to the latest increase in the prime rate.

Grays returning to Saudi Arabia

Compound not unlike home

Mr. and Mrs. Charles Gray and their daughters, Cheryl, 8, and Andrea, nearing 2, will be starting a journey today which will take them back to Saudi Arabia.

He is employed by Aramco — the Arabian company which handles oil resources for the Arab nation — as a pump mechanic, a position he has held for the past year.

Things are relative, the Grays have found in their new surroundings. For instance, the weather. West Texans admit to Houstonians that the temperature is hotter here — "but you don't feel it." That's what Charles says about the 116 to 120-degree shade temperature in Saudi Arabia. There is almost no humidity and rain comes only in the winter, and then in torrents, only to disappear quickly.

The Grays are stationed in Abqaiq, about 30 miles inland from the Persian (Arabian, they call it) Gulf. At first they had to live in a construction camp, and conditions were not altogether good. Now, in their compound, it is much like living in Big Spring — they have their yards, trees, etc., and a swimming pool about a block away. Cheryl attends a school with American teachers, who are excellent qualified, and have small classes. Almost any of the common needs can be found in the commissary nearby, but anything else can be obtained in the Arab cities not far away. There are no alcoholic beverage sales in Arabic stores.

They have freedom of travel except to Makkah (Mecca) and Medina, the Holy Cities where only Muslims may go. The Arabs are friendly, but in deference to their customs, women do not drive off the compounds and they generally wear dresses that cover the shoulders and avoid low necklines. Slacks, but not tight fitting, are sometime permitted.

Good Muslims take off during work for periods of prayer (the faithful are expected to pray five times a day), but others in the crew continue working. Every Arab village has its mosque, but instead of the minaret some now have loud speakers broadcasting the call to prayer from the mosque steeple, Thursday and Friday correspond to our Saturday and Sunday. Christian do not have "churches," but rather fellowship.

Ministers rotate so that those of different denominations get to hear one of their own at regular intervals. Those in the fellowships contribute to the upkeep of the ministers.

Otherwise, Aramco takes care of just about everything — hospitals, dental service, etc. There is a modest rental for houses, which all are air conditioned and which cost about twice that in the States because of heavy insulation and because everything has to be shipped in. Grocery prices are about twice those here.

Water comes in two varieties — raw for bathing, abolutions and irrigation;

sweet water for drinking and cooking. The latter compares with local water, the raw is definitely on the salty side. Water comes from wells.

Raw water also is used in oil production, possibly to mitigate the high hydrogen sulphide problem. One pump Charles helps maintain has an eight-inch shaft and a 27,000 hp motor. A responsibility is to supervise and teach Saudi trainees.

There are no pump jacks in the oil fields, which are concentrated in about 250 square miles, and much of the gas, after being put through plants, is burned in the desert. There is a tremendous refinery at Ras Turent. There are port and shops facilities at Dahrhan.

Charles has picked up a few Arabic words, being able to understand better than to speak the language. Aramco offers classes in Arabic but he has not had time to sign up. All Saudi trainees speak English.

He is a 1962 graduate of Big Spring High and attended Howard College before beginning a 12-year tenure with Cosden, the last part as a pump technician. Mrs. Gray is the former Rita Saunders, daughter of Mrs. Lucius Saunders.

They plan to return home in about a year since he earns 36 days a year leave, plus four days travel time. After 15 years, he can retire at full scale, payable at age 65.

SEBERG'S BODY DISCOVERED — The blanket-covered body of American actress Jean Seberg was found in the back seat of her car on a Paris street Saturday, ten days after she disappeared from her Paris apartment.

Body of American actress found in back seat of car

PARIS (AP) — The blanket-covered body of American actress Jean Seberg was found in the back seat of her automobile Saturday, 10 days after she disappeared from her Paris apartment, police reported.

They said the cause of death has not been determined and an autopsy will be performed today. A police spokesman gave no indication police suspected foul play.

Police sources said Miss Seberg, who was married four times, had undergone treatment in psychiatric institutions on a number of occasions and police had been searching for her in hospitals and clinics.

Miss Seberg gained instant fame at the age of 17 when she was chosen by Otto Preminger over 18,000 other contestants to play Joan of Arc in the movie "St. Joan." She played in more than 29 films from the mid 1950s to 1976, and one of her major performances was in Preminger's "Bonjour Tristesse."

Among other movies she appeared in were "The Little Mouse that Roared," "Breathless," "In the French Style," "Lilith," "Pendulum," "Airport," "Paint Your Wagon," "Macho Callahan" and "Dead of Summer."

Bible Fund goal still shy \$1,100

The Howard County Ministerial Alliance's Bible Fund has moved to within \$1,100 of the \$12,000 objective.

Donations over the last three days have totaled \$281.50, bringing the sum collected to \$10,956.04.

The campaign to raise the money needed to support Bible chairs at three Howard County high schools formerly ended last week but the sponsoring organization and The Herald, which helps coordinate the drive, will continue to accept donations.

Miss Mississippi captures crown

ATLANTIC CITY, N.J. (AP) — Miss Mississippi, Cheryl Prewitt, a brunette who was told 11 years ago that she would never walk again, was crowned Miss America 1980 Saturday night.

Miss Prewitt, 22, of Ackerman, Miss., is a recent graduate of Mississippi State University who hopes to earn her doctorate in music and then perform professionally.

Miss Prewitt raised her hands to her eyes and cried when master of ceremonies Bert Parks announced her name before a huge nationwide television audience and more than 22,000 people in Convention Hall on the Boardwalk.

"Thank you, thank you," said the 5-7, 110-pound beauty before Miss America 1979, Kylene Barker of Virginia, crowned her as the 52nd Miss America.

federal district courts.

You may wonder what the result of all this paper shuffling is. Here's the box score for 1977:

About 1.2 million disability claims were decided; 721,000 of them were disallowed initially. Of those 721,000, slightly more than 100,000 were reversed somewhere along the line.

THERE SHE IS — Cheryl Prewitt, from Ackerman, Miss., left, is crowned Miss America 1980 by Kylene Barker the outgoing Miss America in Atlantic City, N.J. late Saturday.

Social Security---12

How to get disability

By WILLIAM STEIF
(12th of 14 parts)

In addition to providing monthly checks to retirees, Social Security helps younger workers who become disabled.

Almost 5 million disabled people and many of their dependents receive these payments. The program today represents about one-ninth of the Social Security budget or slightly more than \$14 billion in 1979.

Social Security's definition of disability is very strict. The disability must prevent the beneficiary from engaging in any substantial gainful activity for a year or more or be expected to end in death.

Payments do not begin until the sixth month of disability. They continue until the beneficiary dies or recovers and returns to work.

The first step in applying for a disability benefit is to get in touch with your local Social Security office. After the initial paperwork is done, your case will proceed along these lines:

- A state agency, usually your state's vocational rehabilitation agency, will judge whether you are "unable to engage in any substantial gainful activity by reason of a medically determinable physical or mental impairment that is expected to last 12 months or to end in death." Those are the law's words.
- The agency will consider medical and other evidence produced under guidelines laid down by the Social Security Administration.
- If you are rebuffed by the state agency, you can file a second time. That filing goes to a separate reconsideration section of the Social Security Administration, often with additional evidence.
- If you are again turned down, you can appeal to one of the Social Security Administration's 648 administrative law judges.
- These judges do not operate on the adversary theory of normal courts. You simply present your case in the best possible light; the government does not appear before the judge to defend its denial of the disability claim.
- If you are still rebuffed, you may go to the Appeals Council, a kind of appellate court of Social Security's administrative law judges.
- Finally, after exhausting all these remedies, you can appeal to the

Lavish praise given Herald

The 'wonderful help' offered a client of The Herald is composing a 'people's ad' brought lavish praise recently of the saleswoman who helped compose the ad.

"You need more nice people like her," the subscriber wrote from San Antonio, in forwarding a check for the appearance of the ad in the paper. The client added:

"We got many calls as a result of the advertising."

The ad was for rental of an unfurnished house.

It only takes a phone call to initiate an order for a herald want ad. The number is 263-7331.

Focalpoint

Action/reaction: Car pooling

Q. The share-a-ride idea isn't catching on very fast, is it? What is the average number of riders in a car these days, anyway?

A. It figures out to 1.6, according to government figures. If the average were increased by two persons, by car pooling, the country would save almost five billion gallons of oil a year and 15 million cars would be removed from daily traffic. Rush hour traffic would ease up.

Calendar: Disasters drill

TODAY

Uniform clad Texas state Guards will converge on Big Spring and the former Webb Air Force Base today. They are practicing for emergencies caused by natural disasters.

Final day of H.W. Caylor Art Show, 1-5 p.m. at the Heritage Museum.

A tour of this area entitled "Right in Your Own Backyard Celebration '79" to be staged all-day.

MONDAY

Coahoma Band Boosters meet at 7:30 p.m. in the band hall.

Forsan Booster Club meets at high school, 7:40 p.m.

Sands Booster Club will meet at 7:30 p.m. at the cafeteria.

The Big Spring Assembly, No. 211, Social Order of the Beauceant, at the Masonic Hall, 7:30 p.m.

Howard County Educators Association meeting, Cactus Room of Student Union Building at Howard College, 7 p.m.

Tops on TV: Emmy Awards

The Emmy Awards will bring the stars out tonight at 7:30 on channels, 4, 13 and 8. Cheryl Ladd and Henry Winkler host the proceedings. The Emmy Awards go out this year for the 31st time to TV talent and minds of the industry.

Inside: 'Kick-out' reaps loot

BUD HADFIELD says he was a high school "kick-out, not a dropout," but he still managed to become a millionaire and keeps a note on his desk, in his car, and by his bed at night that reads "Being No. 1 is not life or death, it is more important than that." See page 9A.

Outside: Chance

Partly cloudy through Monday with a slight chance of afternoon and evening showers. Low tonight in the low 60s, high today and Monday near 90. Chance of rain is 20 percent through Monday.

Dog ordinance needing a lot more bite in it

By JAMES WERRELL
Big Spring's ordinance regarding dogs that bite people may not have enough teeth in it, according to city officials.

The issue was raised with the city after Ben Hitt, a local mail carrier, was bitten by a Doberman Pinscher on his route, Sept. 31. Hitt spent the rest of the week wondering whether the dog had been properly confined, and whether he would have to undergo a painful series of rabies shots.

Although city officials put Hitt's doubts to rest Friday, some questions about the efficiency of the city's ordinance lingered.

"They assured me that the dog had been confined, and I went by the house to check and the dog was there," said Hitt, Friday. "But I was not satisfied with the way it was handled; not picking up the dog, I thought that was automatic," he added.

In Big Spring, however, picking up a dog that has bitten a person is not automatic.

An ordinance entitled "Confinement of Dogs Which Have Bitten Persons" states that the victim must first submit an affidavit concerning the attack to the Chief of Police or the Municipal Judge. Once authorities have been notified, it is the duty of the

Chief of Police to "direct the owner or keeper of such a dog to keep him securely confined for not less than 10 days and to release such dog only upon written permission of the health officer or a duly licensed veterinarian."

If the owner fails to comply with this directive, the dog may be confined in the city pound for the required period.

The owner of the dog that bit Hitt agreed to confine the dog, said Bill Brown, assistant city manager. Brown stated that an animal warden checked the dog for possible rabies symptoms beginning the day Hitt was bitten, and that the warden will continue to do so until a 14-day period has elapsed.

Warden Manuel Arciaga confirmed that he has examined the dog daily. "I went over to the house every day about 9 o'clock in the morning. Then I drove through the area at night to check again," he said.

If the dog had shown any signs of sickness or unusual behavior, it would have been transported to a certified veterinarian for further examination, said Arciaga.

Despite the fact that the present system seemed to work in this instance, neither Brown nor City Attorney are totally happy with the present ordinance.

"The question is, does the

ordinance go far enough?" stated Mitchell. It is a serious matter when someone is bitten and may have to undergo rabies shots. Even if the owner agrees to confine the dog for 10 days, it might get loose and wander off, and we wouldn't know about it," he added.

Mitchell explained that the ordinance, as written, relies upon the cooperation of the owner or keeper for its success.

Mitchell wondered what would happen if the owner were less than cooperative: "We might suspect that the dog is inside the house and confined. But this ordinance gives us no authority to go inside the house and check. The way this ordinance is written, I would hesitate to authorize a policeman to go in looking for a dog."

Is there any provision in the ordinance for the monitoring of a dog that has bitten someone?

"No, there is no such provision. If, for example, someone had two or three dogs, it would be tough to tell without the cooperation of the owner whether the dog in question was actually being confined."

Then if the owner were unavailable, or if he left the city, this ordinance would be impossible to enforce?

"Well, yes," replied Mitchell. "If the dog is at large, we can pick it up. But if it isn't, or the dog can't be found, there is nothing we can do."

Brown had nothing but praise for the city's animal wardens, whom, he says, do an excellent job with limited staff and equipment. But he sees loopholes in the city's ordinance.

"Is it (the ordinance) satisfactory in all situations?"

No, there are things that might happen that we can't foresee," he said. "What we really need is an ordinance where the animal will be confined and observed by a veterinarian."

This, however, would raise another problem, said Brown.

"If we were ever to do this, we would need to have an adequate pound," he said. "I don't want the responsibility of confining an animal with the cage situation the way it is. It is not secure."

Brown said that animals at the pound are extremely overcrowded, and that the isolation of one dog would be very difficult. He also cited one instance in which someone walked off the street into the pound and released all the animals inside.

Nonetheless, said Brown, he and Mitchell have been given the go-ahead by the City Council to rework this ordinance. Mitchell also explained that anyone who is interested in seeing the ordinance changed could submit a request to have it considered by the council.

In the meantime, Big Springers would be well advised to get bitten only by dogs with reputable owners.

LUCKY FAN — Valentin Torres, 405 N.W. 11th Place, was winner of the color television set given away as an incentive prize at the Big Spring-Andrews football game here Friday night. Valentin is employed by the Veterans Administration Medical Center here.

A date with who?

ATLANTIC CITY, N.J. (AP) — Joseph Sembrot of Allentown, Pa., is not a typical 10-year-old. While his buddies were getting ready for school, he had a date with Miss America.

Sembrot won "The Time of Your Life" contest sponsored by The Allentown Morning Call, and asked for a date with Miss America. Nobody was more surprised than his parents, Dr. and Mrs. Joseph T. Sembrot.

"He's so bashful," his mother said. "We were totally unprepared for what he won."

Young Joseph was unprepared for many of the bonuses he received during his big day here Thursday, which included being fussed over by at least five former Miss Americas. But it was meeting Kylene Barker, the reigning Miss America, that left him speechless as he presented gifts to her and got a kiss in return.

Dawson county fathers to tackle tax issue

Dawson County Commissioners will decide Monday whether to join the County Tax Appraisal Board.

The alternative will be for the county to do its own appraising. The measure is part of the Peveto Senate Bill 621, which creates a county wide tax appraisal board but does not require county commissioners to enter it.

Their meeting gets under way at 10 a.m. at the Dawson County Courthouse.

In other action, commissioners will:

Approve reports for the auditors, treasurers, fire

department health unit, jail and emergency medical service.

Give audience to members of the Child Services Advisory Committee.

Activity picks up

By DARALYN LAWRENCE
So we are on our way into the new school year. These 173 days we hope will be successful and prosperous. School spirit is picking up again as the Steer football

team stomped out to meet the Andrews Mustangs last Friday night. Also serving our school, is the mighty volleyball team. They played Snyder last Saturday.

Next week the mighty Steer football and volleyball teams will be preparing themselves for their games. The volleyball team vs. Colorado City Sept. 10 and Monahan Sept. 11. The football team plays Hobbs, New Mexico Sept. 14. To close the week, the volleyball team will be at a tournament Sept. 14 and the fifteenth. Clubs in the school are just now hatching and are not all quite on their way. Quill and Scroll, though, is hot on the trail and will start their meetings this Monday night, 7:00, 604 Dallas St.

Also on the move is the "Corral", the school newspaper. The first edition will be on sale in the lunch room Thursday during lunch and advisory. Band tuned its way into the school year with a parade that was held Thursday night in downtown Big Spring. The band club people are early risers as they are up at school every morning at 7:55. They also have meetings every Thursday night from 7:00 until 9:00.

Student Council had its first and second meetings this past week. The Howdy Dance and Carnival was discussed and set for Sept. 22 from 7:00 until 12:00. Larry Barber will provide the disco for the dancers.

Student Council had its first and second meetings this past week. The Howdy Dance and Carnival was discussed and set for Sept. 22 from 7:00 until 12:00. Larry Barber will provide the disco for the dancers.

Tri Hi Y had its first meeting Friday in Birdwell Park where hotdogs and pop were served.

Get involved in your school. Whether it be politics, sports or clubs. Don't regret it once you're out. It's too late then.

Art is being offered for high school students. The course, taught by Jack Woodley, is trying to create appreciation and originality in each individual.

At present, the ten students are making sketches. Later they will work with oils and pastels. Students interested in a drama club need to get in touch with Debbie Gressett.

Stanton High School

Seven new teachers are greeted by students

By ELVIA ACOSTA
After a week of schedule changing, covering new books and helping Freshmen find classrooms, we looked back and remembered that best of all was uncrating those new white annuals with the red footprints walking across them. It didn't take long to find all the pages with your picture on them, especially if you checked the index first.

Seven new teachers greeted returning high school students. New coaches are Dale Ruth and Jim Fryar. In the English department John Styles and Mrs. Maria Martinez are new. Miss Rheaelyn Hershey will teach math and Mr. Gerald Hedrick will teach science. Mrs. Jo Yater took Tom Rayburn's place as counselor.

Cheerleaders Mary Lynn Wheeler, Mandy Swinson, Marcie Young, Lana Looney and Nancy McCalister attended camp at Western Texas in June where they reaped a bevy of awards and recognition.

They were judged Grand Champions of the All-Star Cheerleading Camp and elected Most Spirited Squad. These girls say that their pep rallies will consist of more skits and dances with lots of new yell and chants.

This week they appointed "locker buddies" to girls who volunteered. They will decorate lockers of varsity football players each week and sneak all kinds of goodies into them to encourage and boost spirits.

The Roundup Staff attended workshop at Tech in July. They made plans for the '80 Roundup and turned them in for judging. Receiving a plaque as runner-up, the group surpassed several 3A and 4A schools but lost to the class B staff from Happy, Texas. Elvia Acosta will serve as editor of the '80 yearbook with Leah Flanagan as assistant.

The yearbook will contain no advertising as a result of recent board action. Adviser Mrs. Mary Haislip expressed appreciation to all those firms and businesses in the area which lent support to the school through the purchase of advertising in the past.

Flag twirlers will be featured in half-time performances of the band later in the season. Recruiting of

(AP LASERPHOTO) PRESENT — First grader Vince Williams raises his hand to let his teacher know he's there as school got underway in Columbus, Ohio, Thursday. The six-year-old was part of a court-ordered desegregation plan in the city's schools to achieve racial balance.

Poyner is elected president

By DEANN CANNON
Class officers for the year 1979-80 were elected Thursday, Sept. 6.

The Senior class elected Julie Poyner, president; Louis Macha, vice president; Pat Davis, secretary; and Cheryl Welander, treasurer. Student Council representatives are Valerie Stevens and Sonia Freeland.

The Junior class officers are Ellen Williams, president; Lorri Bristow, vice president; DeAnn Cannon, secretary; and Christi Adams, treasurer. Student Council representatives are Brent Rane and James Bristo.

President of the Sophomore class is Kelly Long; vice president, Ramon Holguin; secretary, David Harrell; and treasurer, Danny Spencer. Diane Bates, Joni Poyner, and Casey Clark are Student Council representatives.

Genia Strickland is president of the Freshman class; Tootie Nichols, vice president; Bobby Bailey, secretary; and Karla Nix, treasurer. Student Council representatives are Tootie Nichols and Karla Nix.

Art is being offered for high school students. The course, taught by Jack Woodley, is trying to create appreciation and originality in each individual. At present, the ten students are making sketches. Later they will work with oils and pastels. Students interested in a drama club need to get in touch with Debbie Gressett.

Drum majors for the Big Red Band are Kelli Birkhead (head) and Lynn Brockman. Twirlers are Rhonda Griffin (head), Kim Thompson, Terri Jo Cook and Louise Shive. Flag Corps captains are Lisa Furlong and Robin Ethridge.

Band officers for the 1979-80 school year are Tim Ballard, president; Rhonda Griffin, vice-president; Kim Thompson, secretary and David Barbee, historian and reporter. Upcoming meetings at Coahoma include:

Coahoma High School

Cheerleaders chosen

By JOURNALISM CLASS
The Coahoma Bulldogs hosted the Wall Hawks in varsity action for the season opener Friday at Bulldog Stadium.

In earlier football action, the Bulldogs traveled to Denver City Aug. 23 for a scrimmage and Coahoma won the workout 7-3. The Coahoma junior varsity also defeated Denver City Aug. 23 in a scrimmage, 4-3.

Friday (Sept. 14) the Bulldogs will meet Stanton at Stanton. Kick-off is 8 p.m. The freshmen and junior varsity teams will meet Stanton at Coahoma Thursday (Sept. 13) beginning at 5 p.m.

The seventh and eighth grade teams will play Stanton at Stanton at 5 p.m. Thursday (Sept. 13). High School pep squad members meet every Tuesday and Thursday in the gymnasium. Pep squad members are Valerie Henry and Peggy Snell is sponsor.

Sponsors for the junior high pep squad are Merlene Brown, Tracey Madal and Beverly Martin. There are 40 members in the junior high pep squad. Bulldog varsity cheerleaders for the 1979-80 school year are Kerri Read (head), Ronna Tyler, Terri Poteet, Tracy Dykes, Andrea Fowler, Sharon Phernetton. Mascot is Brenda Rinard.

Junior varsity cheerleaders are Robbie Ritchey, Cassie Aberegg, Paula Allen. Freshmen cheerleaders are Vickie Buchanan, Cheryl McCoy and Debbie Kirkpatrick. Eighth grade cheerleaders are Kristi Wyrick, Stephanie Dobbs, Rita Uranga and Lawana Ball. Seventh grade cheerleaders are Jenna Brown, Gloria Molina, Ronda Fowler and Donna Myers.

Drum majors for the Big Red Band are Kelli Birkhead (head) and Lynn Brockman. Twirlers are Rhonda Griffin (head), Kim Thompson, Terri Jo Cook and Louise Shive. Flag Corps captains are Lisa Furlong and Robin Ethridge.

Band officers for the 1979-80 school year are Tim Ballard, president; Rhonda Griffin, vice-president; Kim Thompson, secretary and David Barbee, historian and reporter. Upcoming meetings at Coahoma include:

Coahoma Band Boosters will meet Monday (Sept. 10) at 7:30 p.m. in the band hall. Coahoma Football Booster Club will meet Tuesday (Sept. 11) at 7:30 p.m. in the high school cafeteria. OEA will meet Wednesday (Sept. 11) at 7 p.m.

Goliad

Pep rally to boost athletics

By MICHELE BASHAM
New faces, new student handbooks, and new water fountains are on the Goliad scene this year. Besides, the sixth graders, there are many new teachers. The principal is Jim Holmes and the assistant principal, Mr. Ware.

At orientation, students received new handbooks explaining the school rules and regulations; these have been a great help. Everyone appreciates and enjoys the new water fountains. The school offices have also been remodeled. A pep rally is scheduled for Thursday, Sept. 13. Leading the pep squad and the students will be cheerleaders Delia Correa, Priscilla Escanuelas, Melissa Fuller, Julie Miller, Neasa Rhodes, and Tonya Stevenson. Mrs. Roberson sponsors the cheerleaders and Mrs. Lancaster the pep squad. The Goliad Advanced Band will play at the pep rally. Goliad Black Team and White Team will meet that evening at Blankenship Field. Mr. Roberson and Mr. Velasquez coach the White Team, and Mr. Launary and Mr. Ybarra coach the Black Team.

Volleyball girls have been working hard for the beginning of the season. They played a scrimmage with Runnels Thursday. First regular game of the season will be Monday, Sept. 10, when they meet Seminole. The B team will play at 4:00 and the A team at 5:00.

Library orientation was held for all sixth graders Thursday and Friday. The library will be open to all students Tuesday, September 11. According to Mrs. Persons, librarian, school supplies such as pen, paper, pencils, and folders may be purchased in the library.

Mr. Pedigo, choir director at Goliad, is getting the fall concert underway. A Christmas and Spring concert will also be given. There are 37 in Advanced Girl's Choir and 28 in Advanced Boy's Choir. These choirs will combine as Mixed Choir.

THE UNITED WAY IS A GIFT WE GIVE EACH OTHER FOR BEING HUMAN.

Sometimes it's not easy being human. Medical libraries are filled with diseases of the body and mind. And, as if that weren't enough, we humans tend to create many of our own problems. Drugs. Child abuse. Family squabbles. The list goes on and on. Things we don't mean to do, but end up doing to each other and ourselves. It's all part of being human, and all part of why there's a United Way. The United Way is an organization devoted to making it easier to deal with the problems of being human. An organization dedicated to making humanity more humane.

And since each of us is responsible for keeping the United Way successful, it's like a gift we give to each other for being human. A gift in the best of human traditions: sharing. Thanks to you.

United Way

Bands will take part in contests

DENTON — A berth in the 1980 Orange Bowl Parade in Miami, Fla., awaits the overall winner of Music Bowl I-Texas, a unique high school marching band contest to be held Saturday, Nov. 10, at North Texas State University, Denton, for benefit of the United Way of Denton County and the participating bands.

VIEW FROM THE MOUNTAIN

Preparing the back yard

By CAROL HUNTER
 and will succeed. We are fortunate to have him. No college cutie of the middle 50's could have passed up the nostalgic chance to see the Crickets... not when remembering how one's suitemate had the bathroom ceiling papered with Buddy Holly's pictures.

Preparation and community involvement are nothing new to Janelle Davis, Chairman of "Right in your own backyard". Janelle is remembered, above all other endeavors for her co-chairing the highly successful Bicentennial festivities with Johnnie Lou Avery. No two ladies anywhere could have pulled off two years of such hard work, without a reportable hitch in organization or result.

Dene Sheppard, chaired the backyard publicity. Polly Mays the lady most instrumental in documenting Howard County history, joined with others to provide a county-wide celebration. Thanks to Bill Brooks, new maps, beneficial the year-round, are available to spotlight points of interest, old homes and historical markers in the county. Grab an agenda and a map and start at any point. Special tours will be conducted by the docents at te Potton House, by Tom Adams discussing the geology, archeology and artifacts from Howard County at the Big Spring, and by Sue Corson who promises that one will view birds in abundance on her walk through Comanche Trail Park.

Forsan, under the direction of Susan Gaston, has taken special pride and preparation to display memorabilia as well as recipes. On the delightful drive on Loop 821, enjoy the new signs. Thanks to Bill Mims for getting them up in time for this celebration. Coahoma is proud of its Luke West Museum, with early Indian artifacts collected by Mr. West. The Presbyterian Church of Coahoma is the oldest church in this area in continual use. Many communicants have worked on his history and will be on hand to tell your family about it.

Don't miss the Wall of History at the Big Spring. It completes the lovely pavilion designed by Daryle Hohertz during the Bicentennial. The amazing saga on the wall

was composed by some of the best historians and English experts available, i.e. Mary Joy Cowper, Joe Pickle, Polly Mays, Lila Brewster, Ben Johnson, and geologist, Mike Robinson.

Some of the tour passes through many of our lovely buildings. Cathy McCracken will have special displays and slides when she opens the Howard County Library. Mary Crawford arranged not only tours through the Anthony Hunt Library on the Howard College Campus, but also tours through the Coliseum and refreshments in the Student Union Building, hosted by the Presidential Classics. Mrs. Terrazas will open her Doll Museum with its amazing displays, and, as previously mentioned, the Heritage Museum will be open.

Less conspicuous will be points of interest and ghost towns, marked only by a number on the map and historical blurb, but all conjuring up fantasies of an era-gone-by. Read and locate Gold Hill, Ross City, site of Geronimo's encampment, Soash or Fred Hyer No. 1.

The historical markers have to be mentioned when speaking of preparation because, as reported in an earlier article, they are not easily obtained. Criteria is strict; there is a formula for age. All eight markers have involved much work by members of the Howard County Historical Commission, the only group who may apply for a marker in our county. Again, Polly Mays has led the way with special help from Agnes Currie, Harry Jordan, Mary Stipp and Helen Early, coupled with a generous budget from the county. There are other areas such as Cottonwood Park, Rattlesnake Gap and our first firetruck which qualify and will be added soon.

NEW HAND IN THE DA'S OFFICE — Buster McCartney (right) recently took the position of special 118th district investigator. He and District Attorney Rick

Hamby, left, share a light moment while discussing an upcoming case. (PHOTO BY ANDREA COHEN)

Motorcycle, Three-Wheeler Rodeo shapes Special investigator helps DA 'build' cases

Details have been finalized for the Motorcycle and Three-Wheeler Rodeo to be held Sept. 21 during the Howard County Fair.

The Motorcycle and Three-Wheeler Rodeo is sponsored by the American Business Club of Big Spring.

Events will be divided into four classes for motorcycles and three classes for three-wheelers. Each class will have five events.

The entry fee will be \$5 per class. This will entitle the participant to enter all five events in the class entered.

Starting time will be 7:30 p.m. Friday at the Big Spring Rodeo Bowl.

The first 100 entries will receive a t-shirt when the entry fee is paid. Prizes will be awarded for the first three winners in each class.

Admission to the Rodeo will be \$2 for adults, \$1 for high school students and below, and under 6 years of age will be admitted free.

By DON WOODS
 District Attorney Rick Hamby recently appointed Buster McCartney special investigator for the 118th district.

McCartney will gather facts for Hamby in cases where police reports don't provide sufficient amount of facts.

McCartney may have to deal with witnesses to a crime in his investigations or study cases a defendant was previously involved. He has conducted investigations into every case handled by the 118th District Court since his appointment Aug. 13.

McCartney was previously employed by the Howard County Sheriff Office. He had been a deputy there for nine years. Before that he was employed by the Odessa

Police Department for four years.

McCartney worked nights for the Howard County Sheriff Office from 1972 to 1978. It was during that time that he built up numerous contacts he uses in his job as district investigator.

He said the amount of contacts he met working nights with the sheriff's office was not unusually large.

"I have strong beliefs in the rights of the jailed," said McCartney. He often acts as jail liaison between Hamby and unrepresented defendants. He informs them of Hamby's offer in plea bargaining and helps the accused obtain counsel.

"Just because he's in jail is no sign he's guilty," he said.

McCartney is an employee of the district attorney. His salary is paid in part by the county but the state pays most of it. The county, for example, pays his car allowance.

Don Richard was special investigator at one time until he assumed the duties of assistant to the district attorney in January of 1978.

Hamby said McCartney was hired because of an overload in the case load. He was not employed to assist in Hamby's investigation into alleged police department impropriety, according to Hamby.

Richard is now writing answers to appeal briefs as well as handling other aspects of the caseload.

"The appeal caseload has gotten out of hand," said Hamby.

Ezell talks at RSVP meet

The Retired Senior Volunteer Program was honored to have State Rep. Mike Ezell address an orientation held for volunteers who have recently signed up with RSVP. He emphasized the importance of continued involvement of senior citizens through volunteer service.

He stated that retirement doesn't mean sitting in a rocking chair at age 60 anymore, as previous generations did. There are many opportunities for senior citizens age 60, 70, and even 80 and older to continue to have meaningful relationships through volunteer service.

During the recent state legislature, Ezell worked diligently on the Governor's Committee on Aging's budget for the current two year period. The request for increased RSVP funding was approved.

He is especially interested in older Americans. He explained how the Governor's Committee on Aging and ACTION work together for Older American Volunteer Programs.

Joy Decker, local RSVP project director, offered specific opportunities for volunteer service.

The orientation was held at the RSVP Office, Building 625, at the Industrial Park, Thursday afternoon. Twenty-five volunteers and their guests attended the meeting. Refreshment of cake and punch was served following the meeting.

The local project has 125 RSVP Volunteers contributing approximately 2400 hours a month at nine volunteer stations. There are two new volunteer stations, where RSVP is currently recruiting volunteers.

Will fines bonanza be sliced? New law may slow action on DWI cases in county

A newly passed law that will suspend the licenses of drivers put on probation of DWI will further slow the process of disposing of DWI cases.

Before the Misdemeanor Probation Law, recently passed in the waning days of the last state legislature, DWI defendants often entered guilty pleas.

Under the new law defendants will do better to take their chances with a jury than risk the automatic suspensions that will accompany pleas of guilt.

Howard County Attorney Harvey Hooser said County Court could try as many as four cases a week. He said he doesn't believe there will be an increase in dismissals.

"If it looks like we can't

get a conviction, we'll dismiss," he said. In other words, if he believes he has a good case he will prosecute.

He said he doesn't expect a decrease in fines collected.

Before his ability to plea bargain was removed by the Commission on Judicial Conduct, he said, the county collected \$3,000 to \$4,000 in misdemeanor fees. In August the county collected only six fines for misdemeanors for a total of \$1,024.

He said the Department of Public Safety, who were responsible for pushing the bill through, has even asked for an attorney general's opinion.

"It's up in the air," he said. "No one knows what it's all about."

There has been some question by the DPS about whether probated sentences will be accompanied by license suspensions.

Hooser said the defendants' licenses would not be suspended for DWI convictions where the offense occurred before Sept. 1, the day the new law went into effect.

The DPS obtains county court records and suspends the licenses. Howard County Court doesn't have the authority to suspend licenses.

Three DWI cases are set for docket call at 9 a.m. Tuesday but the new law is not expected to affect them because the offenses occurred before Sept. 1.

Kwik-Kopy millionaire kicked-out of school

HOUSTON (AP)—Bud Hadfield never finished high school but wasn't a dropout. He was a kick-out.

He got it together and now is a millionaire.

On his office desk is a note. The same note is on the front seat of his silver high-priced foreign car, and in his bathroom at home and on his work bench and wherever he might stop for a moment or two.

The note reads, "Being No. 1 is not life or death — it is more important than that."

A balding, cheerful,

bouncy man of 56, Hadfield is now the chairman of the board for a major firm (Kwik-Kopy Co.).

He is up each morning at 3:30 a.m., and drives the 70 miles from his colonial-style home to downtown Houston.

By 6 a.m. he has his staff meetings done and is ready to get on with the rest of the work day.

"Look," he said in a recent interview, "I think clear in the morning. By golly, one hour in the morning is worth three in the afternoon. That's why I get up early. That's why I go to bed early."

Born in Virginia, reared in Rhode Island, Hadfield never completed high school.

"I want everyone to know I wasn't a dropout," he said. "I was kicked out twice because I was so darn mean. Couldn't get back in school, and really didn't even try."

As a teen-ager, Hadfield went into the Merchant Marine and saved enough to open a small business. He went broke.

He tried again in Florida, as an ice-cream salesman. He went broke again.

He moved to Houston and opened a one-man printing shop and darn near went broke again before he took over the Kwik-Kopy organization that now has

346 franchise locations throughout the nation and Canada.

ERA Real Estate donates \$1.1 million to fight MD

"We are pleased to have now raised over \$2 million in three years," Jackson told Lewis. "ERA Real Estate has the most dedicated and community-conscious people I know. We're proud of every one of them in all 50 states."

ERA Real Estate is the only corporate sponsor of Muscular Dystrophy Association representing the real estate industry. The company has 3,500 brokers and 40,000 sales associates in

4,000 offices.

Electronic Realty Association Real Estate presented Jerry Lewis a check for \$1.1 million for the "Fight Against Muscular Dystrophy" Sept. 3.

The presentation by Jim Jackson, president and founder of ERA Real Estate, the nation's second largest real estate franchise organization, was made on the Jerry Lewis Labor Day Telethon.

Firebombings investigated

EL PASO, Texas (AP) — Fire department officials said Friday they are investigating a series of small firebombing incidents.

The firebomb devices, resembling Molotov cocktails, were made from beverage bottles. Firefighters said they were aimed at about a dozen businesses in the city.

However, officials said none of the firebombs has caused extensive damage.

DENNIS THE MENACE

"THANK YOU FOR A NICE SUMMER... AN' WE'LL SURE 'PRECATE IT IF YOU DON'T GET CARRIED AWAY THIS WINTER."

THE FAMILY CIRCUS

"Jeffy's gettin' real good. His pitches only bounce once before they reach the plate."

Your Daily HOROSCOPE

from the CARROLL RIGTER INSTITUTE

SUNDAY, SEPTEMBER 9, 1979
GENERAL TENDENCIES: You are most influential when you turn on the charm by an attitude of friendliness. Discuss ideas, plans and arrangements in accordance with what has been found to be acceptable in the past.

ARIES (March 21 to April 19): Be more sure of the practical values of your dealings with others and come to a better understanding with them. Avoid arguments.

TAURUS (April 20 to May 20): Being more interested in the welfare of others gains you their goodwill and cooperation now. Entertain in at home and have a good time.

GEMINI (May 21 to June 21): Relax and concentrate on philosophical matters so that you make the future more as you want it to be. Think about practical ways to solve your problems.

MOON CHILDREN (June 22 to July 21): Contact the right friends who can help you in both personal and public life. Improve your position in your community.

LEO (July 22 to Aug. 21): Plan how to get new and creative ideas working successfully. Make new contacts who can be of help to you. Avoid one who has an eye on your assets.

VIRGO (Aug. 22 to Sept. 22): Good day to keep promises you have made. Talk over the future with mate, kin. Make changes that will lead to greater social success in the future.

LIBRA (Sept. 23 to Oct. 22): Wait another day to handle an important matter with a partner since an argument could start today. Situation arises that can bring you more prestige in the future.

SCORPIO (Oct. 23 to Nov. 21): You are confused about work ahead of you but all clears up later in the day. Explain to co-workers exactly what you have in mind.

SAGITTARIUS (Nov. 22 to Dec. 21): Get practical affairs in order before you go into another new plan. Try not to have an argument with mate, kin. Show more thought and keep the peace.

CAPRICORN (Dec. 22 to Jan. 20): Don't argue with a partner and then the situation resolves itself. Get busy at important home affairs. Clean up your act and all is well.

AQUARIUS (Jan. 21 to Feb. 19): Steer clear of an associate who is in a bad humor and then you can get much done. Study reports well and be sure they are accurate.

PISCES (Feb. 20 to March 20): Gain the approval of others by not being too extravagant or thoughtless in any way. Show that you have good judgment.

IF YOUR CHILD IS BORN TODAY — he or she will be one who is practical and resourceful, so be sure to give the moral and philosophical training that will make this a well-balanced life. Make sure you give the finest education that will help you carry through with routines more efficiently. Show that you are a courteous person.

IF YOUR CHILD IS BORN TODAY — he or she will be one who is practical and resourceful, so be sure to give the moral and philosophical training that will make this a well-balanced life. Make sure you give the finest education that will help you carry through with routines more efficiently. Show that you are a courteous person.

The Stars impel, they do not compel! What you make of your life is largely up to you!

MONDAY, SEPT. 10, 1979
GENERAL TENDENCIES: A good day for studying details of a plan of action by which you could have increased prosperity and abundance in the future. Maintain a cheerful outlook and be more optimistic.

ARIES (March 21 to April 19): Talk over with an expert how to add a present asset. Do whatever will increase your efficiency in your line of endeavor.

TAURUS (April 20 to May 20): Begin the day by finding right method to get ahead where personal matters are concerned. Keep yourself in fine physical shape. Enter into an agreement with a partner.

GEMINI (May 21 to June 21): Plan the days ahead wisely and be more practical about matters. Put in a good day's work and relax later.

MOON CHILDREN (June 22 to July 21): Look to good friends for the help you need in practical matters. Put in a good day's work and relax later.

LEO (July 22 to Aug. 21): Plan any civic work you have to do before engaging in cultural matters. Don't neglect an important credit matter.

VIRGO (Aug. 22 to Sept. 22): You have an opportunity to engage in new interests that can prove profitable. Put your creative talent to work quickly.

LIBRA (Sept. 23 to Oct. 22): Be sure to handle important business matters wisely and well. Make the evening a happy one from a social standpoint.

SCORPIO (Oct. 23 to Nov. 21): Come to a better understanding with a business associate. Be sure not to argue with others today.

CAPRICORN (Dec. 22 to Jan. 20): Take steps to patch up differences with an associate. Work that will help you an important business matter later in the day.

AQUARIUS (Jan. 21 to Feb. 19): Give more attention to family affairs at this time. Side-step what will be detrimental to your progress. Express happiness.

PISCES (Feb. 20 to March 20): Put new ideas to work that will help you carry through with routines more efficiently. Show that you are a courteous person.

IF YOUR CHILD IS BORN TODAY — he or she will be one who is practical and resourceful, so be sure to give the moral and philosophical training that will make this a well-balanced life. Make sure you give the finest education that will help you carry through with routines more efficiently. Show that you are a courteous person.

Moonlight towers fuss flares

AUSTIN, Texas (AP) — Since May 6, 1895, the lights perched high atop a series of towers here have provided a warm moonlight-like glow on the city.

Hobby's dim view of union

AUSTIN, Texas (AP) — Lt. Gov. Bill Hobby said Saturday a state employees' union in Texas could leave the state with New York City-like problems.

"Anything that cuts down the effectiveness and flexibility that a manager or administrator has is at least potentially damaging to an organization — whether it's state government or a private company," Hobby said.

He was interviewed on State Capitol Dateline, a production of the Wendell Mayes radio stations.

Comptroller Bob Bullock recently voiced support for a state employees' union. But Hobby said, "Texas could find itself in the shape of cities like New York that frequently seem to be wracked by strikes by public employees."

The lieutenant governor said state employees' salaries and benefits "have kept up very well with inflation over the years."

Hobby said he saw little need for massive reductions in the number of state employees. Gov. Bill Clements has initiated some cutbacks, and the Legislature — with Hobby leading the Senate — went along by paring thousands of agency jobs.

"The fact is we have a very lean state government. The criticism is usually that it performs too few state services," he said. "I don't subscribe to that criticism."

The threatened cutbacks, however, could spawn union organization efforts, he said.

"Anytime you threaten a person's security you stand the possibility of increasing the likelihood of unionization," he said.

Hobby was also asked for his predictions on the 1980 presidential race. The lieutenant governor, despite saying he is a Jimmy Carter supporter, predicted that Sen. Edward Kennedy could wrest the Democratic nomination from the president. Hobby predicted the Republicans will choose either Ronald Reagan or John Connally as their candidate.

other natural phenomena. They are the only such towers still in existence in the world, Mrs. Baker said.

"Just like the word says," said C.E. Moore of the city electric department, "they provide moonlight."

But Reed, a maintenance supervisor for the city, says the artificial moonlight is too hard to maintain.

"From that standpoint the things are outdated. They're two of them we won't even go up. They've been condemned," he said.

Reed has experienced the unequal thrill of having the decaying steps on a tower give way beneath his feet.

"I was about halfway up — but I've been trained not to try to grab hold of the steps if they give out," he said.

The wrought and cast iron towers were obtained in the 1890s from the city of Fort Wayne, Ind. Austin swapped an old railroad for the lights.

The towers originally supported carbon arc lights that had to be hand-lit each night. City workers would

crank their way to the top on hand-powered elevators. Mercury vapor lights were put up in 1936. The massive towers are steadied by steel wires.

Though Reed has a well-deserved fear of some of the old towers, the structures have never caused a death. There have been some close calls with improbable endings.

In June 1930, schoolboy James Fowler accepted a dare and climbed to the top of a tower. He fell and ricocheted to the ground through the interior metal supports.

He was unconscious for nine days after the fall. But he suffered no broken bones and wound up in "Ripley's Believe It or Not" for surviving the fall.

"The fall is a blank spot in my life as I do not recall any of it," Fowler said in a letter 45 years later.

In 1962, a priest climbed the tower to talk down a local man who threatened to throw himself and his baby off a tower. The trio came down uninjured.

"The lights must be strong enough for a man with normal eyesight to read the time on his watch without squinting at a distance of 1,500 feet from the tower in any direction on the darkest of nights."

The lights must be strong enough for a man with normal eyesight to read the time on his watch without squinting at a distance of 1,500 feet from the tower in any direction on the darkest of nights."

The lights must be strong enough for a man with normal eyesight to read the time on his watch without squinting at a distance of 1,500 feet from the tower in any direction on the darkest of nights."

The lights were not universally popular even when they were considered an engineering marvel. Farmers claimed the artificial moonlight would cause excess crop growth. Others feared confused chickens would lay eggs 24 hours a day.

But in the decades since, the towers have been a bright source of pride among the locals. Mrs. Baker said threats to towers draw more citizen outrage than just about anything else in town.

"It's just automatic that we save them. We're the only city in the world with them," she said.

Fifteen of the towers have been protectively zoned. But the ordinance allows the towers to be moved or dismantled if they become a safety hazard. Parts from already dismantled towers are used to repair the existing structures. Mrs. Baker is confident the towers will be around until they "disintegrate" — even though they probably do not meet the standards set out in the original contract with Fort Wayne.

FINISHES RUN — Mike Lyons, 22, is hugged by a Northern Illinois University classmate in Chicago after completing a 2,900-mile run to raise money for research of spina bifida, a spinal disease. Lyons finished with several others, who began the marathon in Eugene, Ore., more than three months ago.

Daylight rape triggers five murder charges

MIAMI (AP) — Struck by the audacity of a daylight rape on a downtown sidewalk, detectives questioned a 27-year-old suspect about some unsolved rape-murders and then charged him with five slayings.

The attack that triggered the investigation occurred Wednesday. In daylight on a downtown Miami street, a man held a razor to the neck of a five-months pregnant woman, then raped her in front of horrified onlookers.

Jerry F. Townsend was arrested a block away and charged with rape.

"He has indicated to us that there are as many as 14," Detective Bruce Roberson said Friday. "But as yet, we haven't been able to pin them down."

Thursday and Friday, Roberson and Detective James Boone took Townsend around Dade and Broward counties from one empty field to another where the bodies of women who'd been raped and strangled since 1973 have been found.

Townsend, crying part of the time, described the attacks well enough that by Friday night he had been charged with five murders.

Roberson described Townsend as a "street person" who earned money on one-day laboring jobs and was constantly on the move.

"He's a street person," he said. "A lot of times if he had the money to rent a room, he'd rent it. And if he didn't, he'd stay in an alley or anywhere he could rest his head."

Townsend told detectives he bounced back and forth between the Miami and Fort Lauderdale areas since coming to South Florida from Chicago in 1973. He told Roberson he is from Chicago; other officers reported his hometown as Greenville, Miss.

Last Sunday police said 43-year-old Wanda Eloise Virga's nude, decomposing body was found three blocks from the scene of the Wednesday attack. The body had strips of a T-shirt tied around the throat.

Roberson said he and Boone confronted Townsend with evidence — which they wouldn't describe — from the Virga murder.

At first, Townsend denied any knowledge of the killing, but later "he began telling us about the crime and how he saw somebody else doing it," Roberson said. He said more questioning led to a confession.

In addition to the Virga slaying, Roberson said, Townsend is charged with murdering four women in Broward County: Ernestine German, 23; Sonia Yvette Marion, 13; Cathy Loraine Moore, 24 and Terry Jean Cummings, 21.

TESSIE IS Looking At Building Plans

Kalamazoo policemen are rocked

KALAMAZOO, Mich. (AP) — About 75 police officers broke up a huge party near the Western Michigan University campus early today after more than 600 people streamed into the streets and pelted officers with rocks, bottles and full trash bags, city police said.

Officer Wesley Mosher said nine policemen suffered minor injuries and 22 people were arrested, 20 for unlawful assembly, one for inciting a riot and one for resisting a police officer. They were scheduled to appear in court later today.

Mosher said the police were dispatched to the scene Friday night after receiving complaints about excessive noise and an unruly crowd in an area of student housing.

He said that 600 to 1,000 people were in the street and were ordered to leave, but they didn't. Before it was over, officers from the city, the township police department, the sheriff's office, the campus police department and state troopers had to be called in.

Delivery patterns continued about the same for the Colorado River Municipal Water District in August, somewhat off for municipalities and down sharply for oil and industrial users.

For the month the total metered to customers was 1,655,820,623 gallons, or down 11.26 per cent. Oil-industrial users consumed 153,833,623 gallons, or 48.46 per cent less than for August of 1978. All our 20 million gallons of the difference, however, was represented in having cut off Texas Electric Service Company's Ward County generating plant as a conservation measure.

Municipal deliveries for August stood at 1,501,987,000 gallons, off 4.17 per cent from August of last year. Several showers during the month dulled demand for the cities.

For the first seven months of the year deliveries to the cities have aggregated 9,330,280,200 gallons, down 9.14 per cent; deliveries to oil companies and industries 2,015,285,784, down 29.43 per cent. For all purposes, the district delivered 11,345,565,984 gallons, down 13.55 per cent.

Deliveries to the cities during August included: Dessa 674,409,000 gallons, down 8.39 per cent; Big Spring 327,154,000 gallons, up 8.33 per cent; Snyder 94,503,000 gallons, down 10.84 per cent; Stanton 13,870,000, down 6.45 per cent; Midland 392,051,000 gallons, down 3.55 per cent. The Big Spring

total included a correction for a meter error in June and July.

GETTING THE WORD TO THE KIDS — Big Spring Police Chief Stanley Bogard shows some of Dallas Cowboy cards which city policemen in uniform henceforth will pass out to children upon request. The cards, containing pictures of individual players on the Dallas roster, are being supplied by the Big Spring Kiwanis Club. The idea, says Bogard, is to establish friendly relations between the children and the kids.

Cards build friendships

Big Spring policemen are handing out color photos of the Dallas Cowboys to children who ask for them.

The police are trading on the appeal of the NFL team in an effort to establish friendly relationships with the kids.

The idea was first used in Portland, Ore., and has spread to Texas. The cards, featuring individual players on the Cowboy roster, are free and are being supplied by the Big Spring Kiwanis Club.

The cards feature a color photo of a Dallas player on one side and a football rule and safety tip on the flip side.

In the words of John Kuhn, chairman of the Texas

Oklahoma Kiwanis District, Kiwanis clubs everywhere are joining with the Cowboys in a massive effort to plant seeds of good influence in the receptive minds of hundreds of thousands of pre-teen children and strike a major blow against spiraling juvenile delinquency.

The trading cards are 4" x 2½" in size. Such players as Robert Newhouse, Roger Staubach, Cliff Harris, Harvey Martin and Charlie Waters are featured.

Stanley Bogard, Big Spring chief of police, said that children have many negative ideas about police, elaborating:

"To kids, policemen are people who stop you for riding double on your bike, or skipping school for running away from home. That, plus what they see on television, has caused people to form negative opinions about the police."

"We want to change the concept," Bogard added. Only uniformed police will carry the cards, according to Bogard, explaining:

"We don't want people posing as plainclothesmen approaching the children." Bogard added that if the kids get to know the officers as persons, they will feel more comfortable around them, that kids in the future will not hesitate to help an officer do his job.

similar sized houses in similar neighborhoods sold for recently.

Selling prices still are inflated by the price hikes to pay seller points. You don't have to feel badly for the lenders who spent time and money to get a law passed which benefits sellers. They say they aren't profiting any more from the higher interest rates than they were under the old point system. Rather, they say they are losing some because income is spread out over the term of the loan rather than up front. But savings and loans make their real money selling the loans they've made, and the higher rates make their loans more marketable. So far the impact of the new higher rate has been just what was predicted, more available home loan money but at a higher price.

Bilingual education top issue

WASHINGTON (AP) — The fight for Hispanics to develop Spanish as an official language in the United States will be the top civil rights issue of the 1980s, the president of the National Council of La Raza predicts.

Raul Yzaguirre said at a news conference Friday the battle will match in intensity past struggles for integrated classrooms.

The national council's convention ending Sunday is designed to lay the groundwork for the upcoming decade when Hispanics will be the nation's largest minority, he said.

Although Yzaguirre said Hispanics will be willing to look at the cost and benefits of using Spanish and English side by side, he said there will be no compromise on the items considered to be the most essential.

He cited the bilingual ballot in areas of substantial Hispanic population as one of the most important.

Yzaguirre, a native of San Juan, Texas, said bilingual education programs are under attack across the nation.

"We started out with a program that was motherhood and apple pie, and we've evolved to a state where bilingual education is suspect," he said. "People began to see bogymen when they weren't there."

Yzaguirre said the news media has drawn an incorrect parallel with the importance of French-English bilingualism to the secessionist movement in Quebec, Canada. "We are on the threshold of becoming the nation's largest minority," he said. "I think we have the ingredients for making Hispanics the civil rights movement of the '80s."

Between cops, kids

Getting the word to the kids — Big Spring Police Chief Stanley Bogard shows some of Dallas Cowboy cards which city policemen in uniform henceforth will pass out to children upon request.

The cards, containing pictures of individual players on the Dallas roster, are being supplied by the Big Spring Kiwanis Club. The idea, says Bogard, is to establish friendly relations between the children and the kids.

The young fans here, from the left, are Sheri Walker, Michael Walker and David Doportio.

Seller points shifted

By SCOTT CARPENTER and JIM DAVIS

Home sellers are benefiting as much as loan makers under the state's new home loan interest ceiling.

The new ceiling — floating with payments for U.S. Treasury notes — has leaped interest rates above the previous 10 percent maximum.

Lenders, led by the savings and loan industry, lobbied the 1979 Legislature for the new ceiling. Initially the real estate industry took a hands-off approach, worrying that higher rates might slow sales.

But they, like Gov. Bill Clements, changed their minds when it appeared there might be truth in forecasts that the 10 percent ceiling would reduce available loan money.

Actually, the loan money never was cut off. Lenders found ways to circumvent the Texas ceiling limit. What the lenders did was to charge sellers — both Realtors and individuals — for making loans to buyers. We found cases where sellers were charged up to 8 percent of the loan value — \$2,400 on a \$30,000 loan — just to get a lender to make a loan. The lenders could get away with that because seller points — charges to sellers for making a loan — aren't considered interest. In turn, sellers increased the price of homes to cover the added cost. Durwood Curlee, director of the Savings and Loan League, says the new interest ceiling has simply shifted seller points to interest charges. But sellers are benefiting from the old system. The selling price of houses is based on comparison of what

Arson task force funds plea will be voiced Wednesday

Funding for the Big Spring Police Department Major Crime Task Force and for the establishment of an Arson Task Force for Big Spring and Howard County are two subjects that the Permian Basin Regional Planning Commission will discuss Wednesday.

The Planning Commission Board of Directors meets at 1:30 p.m. for its regular monthly meeting in the conference room of its new office building across from Rich Air at the Midland Regional Air Terminal.

The board will consider a resolution to accept the review and comment of the Criminal Justice Advisory Committee concerning a grant application from the City of Big Spring to the Criminal Justice Division of the Governor's Office. The application is for the continuation of funding for the Major Crime Task Force.

The city has requested a grant of \$32,684 from the

Criminal Justice Division. The city will contribute \$8,011 to the funding for a total project budget of \$40,695. The continuation grant would begin October, 1979 and would provide funding for one year.

The funding will be used primarily to pay the salaries of two task force officers and one secretary. Goals for the second year of operation of the task force, which concentrates on major crimes such as narcotics sale and possession and burglaries, are increasing the clearance rate of those crimes.

The task force aims to increase the clearance rate of burglaries to a 41 percent clearance rate as opposed to a 17 percent clearance rate in 1976 prior to the establishment of the task force.

Goals include achieving a 30 percent increase in narcotics sale and possession arrests. In 1978, 42 arrests for sale and 83 arrests for possession of

narcotics were made in Big Spring.

The planning commission board will also consider a resolution accepting the review and comment of the Criminal Justice Committee on a grant application from the City of Big Spring to the Law Enforcement Assistance Administration (LEAA) of the Justice Department. The purpose of this grant is to establish an Arson Task Force for Big Spring and Howard County.

The city requests \$81,363 funding from LEAA with the city supplying a match of \$10,420 for a total project cost of \$91,783. The project would begin Nov. 1, 1979 and would continue through 18 months.

The city experienced 45 fires from Jan. 1, 1978 to July 15, 1979 which couldn't be attributed to any known cause. The city currently has an experienced fireman and certified arson investigator, Ricky Womack, assigned to

arson control to investigate arson-suspected fires. The city has also established an Arson Hotline and the Big Spring Area Chamber of Commerce has contributed \$5,000 towards an Arson Reward Fund.

The goal of the project is to establish a well qualified and equipped Arson Investigative Task Force. The task force would provide maximum exposure to its existence through the new media and public meetings. Emphasis will be placed on dollar losses to citizens through rising insurance rates and tax increases.

Two arson investigators and one secretary would be hired to aid the task force, with one investigator on call 24 hours and every fire investigated for the possibility of arson. For every case for which a conviction is received, the city will pay a reward to any private citizen who offered information concerning the case.

Through the creation of the task force, the city hopes to decrease the arson rate to a point at which the Big Spring Fire Department's maintenance rate will be less expensive. The city proposes to alleviate the possible loss of information and clues to the cause of a fire by enhancing an expert investigation during the crucial time after the fire is extinguished.

The proposal for the program is supported by the city council through a resolution. Joint efforts have been established with the city police, Howard County Sheriff's Department, district and city attorney's office and the fire department to support the program and assist in judicial action.

In other action, the board of directors will consider a grant application made by the City of Midland to the Criminal Justice Division of the Governor's Office for the funding of a Rape Crisis Center in Midland.

Midland has requested a grant of \$42,137.75 from the Criminal Justice Department to be matched with \$1,624.25 by the city for a one-year project cost of \$43,762.

The purpose of the project is to fill a void that the Midland County Sheriff's Department and the Midland Police Department feel exists in serving victims of rape and sexual assault.

Six rapes were reported in Midland in 1978. The FBI estimates that one out of every ten rapes is reported to law enforcement officials, leading Midland officials to believe that the community has a rape problem. Sexual assaults, not included in the rape figures, are reportedly at an all-time high in Midland.

Through immediate and follow-up confidential counseling to rape victims and their families and educating the community to increase public awareness, the project goal is to increase victims' reporting of rape to over 75 percent over a one-year period.

Trial of wrongful death suit moved

AUSTIN, Texas (AP) — State District Judge Herman Jones has agreed to move the trial of a wrongful death suit against former White House press secretary George Christian and his wife to a county away from Austin.

The boy now is a patient in a private psychiatric hospital in Dallas.

The Christians sought the change of venue from Austin because of extensive news coverage given the case.

Jones said he would decide later where to send the case. The Christians' lawyer suggested San Saba or Mason County northwest of here.

George Christian was press secretary to the late President Lyndon Johnson during the 1960s.

Hall Bennett Memorial Hospital
Announces the Association OF Dr. Olan Key
General Practice & General Surgery

The \$9.4 million suit arose from the slaying of junior high English teacher Wilbur Rodney Grayson Jr., 29, by the Christians' 13-year-old son, John.

Grayson's widow alleges the Christians were at least partly responsible for the killing. Laura Grayson said in the suit that the .22 caliber rifle used in the classroom slaying was probably given to young Christian by his parents at Christmas 1976.

MAY RUN — Philadelphia's Mayor Frank L. Rizzo talks to newsmen Friday night to tell them he is giving "serious consideration" to running for the U.S. Senate next year. U.S. Senator Richard Schweiker, R-Pa., has indicated he will not run for a third six-year term. Rizzo spoke prior to a \$500-a-plate dinner dance at which he was the guest of honor.

Baylor rallies past Lamar

WACO, Texas (AP) — Baylor rallied from a 14-0 deficit to defeat Lamar 20-7, Saturday night. Quarterback Mickey Elam, racing toward the sidelines under a Lamar rush, threw a 45-yard touchdown pass to Raymond Cockrell as 5-foot-9 safety Darryl Smith gambled for an interception by leaping in front of the 6-foot-3 Cockrell but missed. Cockrell caught the ball on the Lamar 15 and pulled away from Lincoln Wheeler to score.

JUST MISSES — University of Southern California's Charles White (12) breaks loose for a short gain in first quarter action at Jones Stadium in Lubbock, Texas Saturday night. Texas Tech Red Raider Larry Flowers comes up to make the stop. White was injured early in the second quarter and had to leave the game.

Trojans grind past determined Tech

LUBBOCK, Texas (AP) — Top-ranked Southern California, playing without the services of injured All-American tailback Charles White, rode the passing arm of quarterback Paul McDonald and the rushing of fullback Marcus Allen to hard-earned 21-7 inter-sectional victory Saturday night over tenacious Texas Tech.

White, the leading rusher in Pac-10 history, suffered a bruised shoulder in the second quarter after gaining 39 yards on 10 carries. He watched the rest of the game from the sidelines with his arm in a sling after a trip to the hospital where X-rays proved negative.

McDonald, the poised senior quarterback of the Trojans, threw two second-half touchdown passes while sophomore Allen gained 105 yards on 20 carries and scored a touchdown.

A record opening-game crowd of 52,991 in Jones Stadium watched the services of injured All-American tailback Charles White, rode the passing arm of quarterback Paul McDonald and the rushing of fullback Marcus Allen to hard-earned 21-7 inter-sectional victory Saturday night over tenacious Texas Tech.

White, the leading rusher in Pac-10 history, suffered a bruised shoulder in the second quarter after gaining 39 yards on 10 carries. He watched the rest of the game from the sidelines with his arm in a sling after a trip to the hospital where X-rays proved negative.

McDonald, the poised senior quarterback of the Trojans, threw two second-half touchdown passes while sophomore Allen gained 105 yards on 20 carries and scored a touchdown.

James Hadnot, the Red Raiders' leading rusher,

gained 94 yards on 24 carries. Southern California also was hampered when it lost All-Pac 10 offensive tackle Anthony Munoz with a first half knee injury.

Southern California kept Texas Tech in atrocious field position in the first half.

The Trojans got interceptions from Ronnie Lott and Chip Banks but couldn't cash in as drivers stalled at the Red Raider 16-and 22-yard lines.

Dickerson leads SMU by Rice

IRVING, Texas (AP) — Freshman sensation Eric Dickerson scored three times and gained 123 yards to ignite the once-pass-oriented Southern Methodist Mustangs to a runaway 35-17 victory over the Rice Owls Saturday in a Southwest Conference football opener.

Dickerson, considered Texas' No. 1 high school player last year, burst for 18 yards the first time he touched the ball and scored SMU's first two touchdowns on runs of 11 and 2 yards.

Craig James, another highly sought back recruited with Dickerson, added a 10-yard run for a touchdown that gave SMU a 21-17 lead in the third quarter after a surprising running game gave Rice an early 17-7 edge.

Rice quarterback Randy Hertel ran for 6 yards and passed 2 yards to Robert Hubble for a touchdown and Wes Hansen kicked a 46-yard field goal as the Owls opened their 10-point advantage over SMU, which went into the game a three-touchdown favorite.

But linebacker Byron Hunt intercepted Hertel at the 23 and rambled in for the touchdown on the first play of the fourth quarter to break the game open.

That gave SMU a 28-17 lead and only minutes later Dickerson broke two tackles and ran through a host of

BYU stuns Aggies

HOUSTON (AP) — Brigham Young quarterback Marc Wilson hit tight end Clay Brown with a three-yard touchdown pass and then passed two yards to Edgar Lacey on a two-point conversion with 52 seconds left in the game to rally the Cougars to an 18-17 upset of 14th-ranked Texas A&M Saturday.

The Aggies had taken a 17-10 lead into the final 2:43 of the game when BYU's Tim Halverson blocked a punt by David Appleby from the end zone and BYU got the ball at the Aggie 19.

Wilson, recovering from a ruptured appendix operation then went to work, completing a nine-yard pass to Lacey before the Aggies were penalized seven yards to the Aggie 2 for pass interference.

Lacey lost one yard on the next play, and Wilson then

completed the touchdown pass to Brown.

The Aggies came back for one more shot at victory, but David Hardy's 51-yard field goal attempt with nine seconds left in the game was wide.

A&M quarterback Mark Mosley and fullback David Brothers scored touchdowns, and Hardy kicked a 37-yard field goal to stake the Aggies to the early lead.

Brothers leaped one yard for a touchdown on A&M's second series of the game after A&M cornerback Leandrew Brown set up the drive with a fumble recovery at the Brigham Young 35.

BYU's Brent Johnson kicked a 27-yard field goal in the second quarter, but the Aggies led at the half, 7-3.

The Cougars scored their first touchdown early in the third quarter on a 21-yard

pass from Wilson to Dan Plater who sneaked behind the Aggie secondary unnoticed.

A&M's Curtis Dickey, who needed only 15 yards to become the Aggies all-time rushing leader, won the title easily, gaining 148 yards on 28 carries. Dickey now has 2,998 yards for his collegiate career.

Cougars overcome UCLA Bruins

LOS ANGELES (AP) — Quarterback Delrick Brown ran for one touchdown and passed for another Saturday night leading 16th ranked Houston to a come-from-behind 24-16 victory over UCLA in a college football season-opener at the Coliseum.

Three field goals by Peter

Boormeester gave UCLA a 9-0 halftime lead, but the game turned around midway in the third quarter.

The Cougars hadn't penetrated further than the UCLA 49 yard line when David Hodge made a diving interception of an attempted screen pass by Rick Bashore at the Bruins' 31.

Houston scored in five

plays, the touchdown coming on a five-yard pass from Brown to split end Hubert Miller with 6:10 left in the third period.

The Cougars took the lead for good on the second play of the fourth period when Brown swept left end from one yard out, capping an 89-yard, 13-play march.

The Bruins closed to within five points with 6:40 remaining on a 22-yard pass

from Bashore to Tim Wrightman on a fourth down and five play, ending an 81-yard, 12-play drive.

Kenny Hatfield gave the Cougars their eight-point margin by kicking a 43-yard field goal with 1:51 to go.

UCLA's Freeman McNeil led all rushers with 119 yards on 26 carries.

McEnroe, Gerulaitis to meet in US finals

I WON — John McEnroe jumps and shouts after defeating Jimmy Connors in the semifinals of the U.S. Open Tennis Championships Saturday in New York. McEnroe beat Connors 6-3, 6-3, 7-5 and will face Vitas Gerulaitis Sunday in the finals.

NEW YORK (AP) — Vitas Gerulaitis struggled past Roscoe Tanner Saturday 3-6, 2-6, 7-6, 6-3, 6-3 to make his first venture into the final of the U.S. Open Tennis Championships.

Gerulaitis will play Sunday against John McEnroe. McEnroe defeated Jimmy Connors in a vocal and heated affair, 6-3, 6-3, 7-5.

Earlier, 16-year-old Tracy Austin downed second-seeded Martina Navratilova 7-5, 7-5 to advance to the women's final against four-time defending champion Chris Evert Lloyd.

The fourth-seeded Gerulaitis seemed lost in the first two sets against Tanner, the man who had driven top-seeded Bjorn Borg out of the running with a four-set quarterfinal victory.

But the 25-year-old Gerulaitis, who is one of the fastest players in the game, picked up speed in the third

set. Tanner's legendary big serve sagged badly, and Gerulaitis was making mincemeat of Tanner's second serve.

Gerulaitis' own serve became a force, and in the fourth set, Tanner won only three points against it.

The New Yorker won it on the first match point when Tanner's backhand cross-court was wide.

Tanner was seeded fifth here.

When Lloyd meets Austin Sunday, she will be trying for an unprecedented fifth consecutive U.S. women's title.

If Austin, of Rolling Hills, Calif., wins, she will be the youngest ever to win the women's title. May Sutton, the 1904 champion, was three weeks older when she won than Austin is now.

Lloyd leads her head-to-head competition with Austin five matches to two, but they are 2-2 this year. Austin scored her first win

over Lloyd in March during the winter-tour championship, then beat her in the final of Italian Open a few months later. The latter victory ended Lloyd's 125-match claycourt winning streak.

Austin, who made her debut at Wimbledon two years ago, has won some tournaments, but this is her first venture into the final of one of the majors — that is, Wimbledon or the Open.

Before entering an interview room to meet the press Saturday, she called in to her mother, Jeanne, and insisted that she come out.

Mrs. Austin, beaming, struggled through a small crowd and the two embraced and laughed for a few moments before Tracy began her interview.

"My concentrations wasn't altogether there," she said a few minutes later. "I played really well, but I was thinking about everything else."

Inside the park homer sinks Astros

HOUSTON (AP) — John LeMaster's two-run, inside-the-park homer in the eighth inning Saturday night Houston knocked the Astros out of first place in the National League's West Division.

The loss, coupled with Cincinnati's 4-1 victory over the Los Angeles Dodgers Saturday, put the Reds in the West lead by one-half game.

Houston starter Joe Niekro, who walked Larry

Padres rip Braves

ATLANTA (AP) — Left-hander Bob Shirley hurled a five-hitter and Gene Tenace belted a bases-loaded triple in a seven-run third inning Saturday night, giving the San Diego Padres a 9-2 victory over the Atlanta Braves.

The Padres already led by a run as a result of a sacrifice fly by Paul Dade in the first inning when they sent 11 men to the plate in the third. Before the inning was over, they had five hits, three walks, a stolen base and another sacrifice fly and had chased Atlanta starter Rick Matula, 7-9.

Reds use errors in win

CINCINNATI (AP) — Cincinnati scored four unearned runs in the fifth inning on a pair of Los Angeles errors and RBI singles by Dave Concepcion and George Foster as the Reds defeated the Dodgers 4-1 Saturday.

All four Cincinnati runs came against loser Jerry Reuss, 5-13. Bill Bonham, 8-5, got the victory for the Reds.

Reuss did not give up a hit until Concepcion singled in the fourth inning, but Reuss had to face 10 Cincinnati batters in the fifth.

Ray Knight led off with a single and Dan Driessen walked before Heity Cruz flew out to center field. Bonham reached base on an error and Dave Collins struck out before Joe Morgan bounced a ball to the shortstop that should have been the third out of the inning.

Bill Russell tossed to Dave Lopes at second but Lopes came off the bag too quickly and was charged with an error, allowing Knight to score.

Concepcion followed with a two-run single and Foster drove in another run with a single to center field.

Indians edge Blue Jays

CLEVELAND (AP) — Mike Hargrove scored the winning run in the ninth inning on a throwing error by shortstop Alfredo Griffin and Rick Wise posted his 15th victory as the Cleveland Indians edged the Toronto Blue Jays 5-4 on Saturday.

Hendon to start the eighth inning, was lifted for Joe Sambito with one out.

The reliever struck out pinch-hitter Willie McCovey but LeMaster followed with a line drive down the left field line. Jose Cruz fell as he reached the ball, allowing both runners to score.

Reliever Greg Minton, 2-2, got the victory. Sambito dropped to 7-5.

Cesar Cedeno's fifth-inning single drove in the Houston run.

Phillies outscore Cubs

CHICAGO (AP) — Greg Luzinski's tie-breaking single in the eighth inning scored Pete Rose from second base and gave the Philadelphia Phillies an uphill 9-8 victory Saturday over the Chicago Cubs.

Rose singled with one out, took second as Mike Schmidt grounded out and scored on Luzinski's single off loser Bruce Sutter, 4-5. Rawley Eastwick, 3-4, was the winner.

The Cubs took an early 8-1 lead. Barry Foote hit his 15th homer after Dave Kingman had doubled in the second but the Phils got one back in the third on a double by Larry Bowa and a single by starter Steve Carlton.

The Cubs came back with six runs in the third on Kingman's 44th homer with two men on, a two-run blast by Jerry Martin, his 17th, and a run-scoring double by starter Willie Hernandez.

Jackson, Murcer lead Yanks

DETROIT (AP) — Reggie Jackson and Bobby Murcer each rapped run-scoring doubles Saturday night to help Ron Gaudy post his 10th straight victory as the New York Yankees shaded the Detroit Tigers 5-4.

Gaudy, 16-7, didn't allow a hit until Ron LeFlore led off the fourth inning with a double. Gaudy gave five hits, struck out 10 and walked two before giving way to Rich Gossage with one out in the eighth. Gossage chalked up his 14th save.

Flanagan, Orioles win

BOSTON (AP) — Ken Singleton smacked four hits and drove in a run as Mike Flanagan became the major league's first 21-game winner with relief help Saturday as the Baltimore Orioles edged the Boston Red Sox 3-2.

Boston's Rick Burleson hit a solo home run off Flanagan, who has lost seven games, in the eighth inning, and the Orioles brought in relievers Tim Stoddard, Tippy Martinez and Don Stanhouse to finish the pitching for the American League East leaders.

Veteran Carl Yastrzemski of the Red Sox, two hits shy of 3,000 for his career, went hitless in four at-bats in the game that shoved Boston 13½ games behind Baltimore.

Medich pitches Rangers past Minnesota, 6-2

BLOOMINGTON, Minn. (AP) — Pitcher Doc Medich notched his eighth win, Jim Sundberg collected four hits and Pat Putnam slammed a solo homer to lift the Texas Rangers to a 6-2 victory over the Minnesota Twins Saturday night.

Medich, 8-6, has compiled a 7-3 record since being inserted into the starting rotation July 7. He struck out three, walked three and gave up seven hits before being relieved by Jim Kern with two outs in the seventh. Kern preserved the victory to earn his 25th save.

Sundberg enjoyed a perfect night at the plate collecting four hits, one walk and one RBI. He also scored two of the Rangers' six runs.

Mets win in 15th

NEW YORK (AP) — John Stearns singled home Lee Mazzilli from third base in the 15th inning to give the New York Mets a 3-2 victory over the Pittsburgh Pirates Saturday.

Mazzilli led off the 15th with a double against Jim Rooker, 3-7, the sixth of seven Pittsburgh pitchers. Mazzilli advanced to third on an infield out and held as pinch-hitter Kelvin Chapman popped out for the second out.

Jim Bibby then relieved Rooker and issued an intentional walk to Joel Youngblood before Stearns lined his single to left to score Mazzilli.

Streaking Expos win again

ST. LOUIS (AP) — Tony Perez drove in three runs with a sacrifice fly and a two-run double and Bill Lee hurled a nine-hitter as the Montreal Expos defeated the St. Louis Cardinals 7-2 Saturday night and moved to within one game of Pittsburgh in the National League East.

Perez' sacrifice fly gave the Expos a 1-0 lead in the fourth, then he followed with a two-run double in a four-run sixth inning that helped the Expos to their 11th victory in their last 12 games.

Lee, 15-10, lost his shutout on a leadoff homer by Keith Hernandez in the Cardinals' tworn ninth as he dropped the third-place Cards seven games behind the first-place Pirates.

Rookie John Fulgham, 8-5, who had won his last four decisions, surrendered all five Montreal runs.

Perez' sacrifice fly came after Warren Cromartie had led off the fourth with a double and was sacrificed to third by Andre Dawson.

(AP LASERPHOTO)

HOT HITTER — Cincinnati Reds' leadoff hitter Dave Collins takes a full cut in Friday night's game against Los Angeles. Collins, hitting .327 after taking over for injured outfielder Ken Griffey, credits his success with swinging a lighter bat, playing every day, and hypnosis. He's the second-leading hitter in the league, but probably won't get enough at-bats to qualify for the batting title. Collins is the younger brother of former Big Spring High basketball and baseball coach Tommy Collins.

Oklahoma State pounds NTSU

STILLWATER, Okla. (AP) — An arm and a leg made the difference Saturday as Oklahoma State's Harold Bailey and Colin Ankerson teamed up to kick North Texas State, 25-7, in the home football opener here. Bailey's favorite receiver was freshman Mark Cromer, who made his debut as an Oklahoma State Cowboy by catching five passes for 88 yards.

After the big play of the afternoon came when Bailey and Ron Ingram combined for a 52-yard touchdown pass that gave Oklahoma State its first safe lead of the game.

The score came in the third quarter after the Cowboys took the lead for the first time on Ankerson's third field goal.

STILLWATER, Okla. (AP) — An arm and a leg made the difference Saturday as Oklahoma State's Harold Bailey and Colin Ankerson teamed up to kick North Texas State, 25-7, in the home football opener here.

Bailey's favorite receiver was freshman Mark Cromer, who made his debut as an Oklahoma State Cowboy by catching five passes for 88 yards.

Stanton upsets Tahoka

TAHOKA — Junior quarterback Craig Eiland threw for three touchdowns and ran for a fourth to ignite the Stanton Buffaloes to a 28-14 upset over the Class AA Tahoka Bulldogs. Stanton scored seven points in each quarter of the season opener for both schools. Eiland put the Buffaloes on the board early in the game when he found John Smith on a 32-yard scoring pass. Eiland also kicked the extra point. The Buffaloes increased their lead in the second stanza when Eiland connected with wingback Bobby Mims on a 19-yard scoring play. Eiland booted the PAT to give Stanton a 14-0 half-time lead.

The Tahoka team took the second half kickoff and moved 80 yards to put themselves within one touchdown. Halfback Tracy White took scoring honors, diving over from the one-yard line. The extra point attempt failed. Stanton quickly struck back as Eiland passed 30 yards to wingback Freddie Silva for a touchdown. Eiland again converted the PAT. Tahoka rallied early in the fourth stanza when White returned a punt 60 yards to paydirt, then raced across the double stripes on the two-point conversion to cut the Buff lead to 21-14. But Stanton put the game on ice minutes later when Eiland raced around end on a bootleg from nine yards out to score. His conversion ended the scoring for the evening. Stanton's defense held the favored Tahoka offense in check most of the contest with a gang tackling defense led by Keith Hull, John Parker, Kenneth Cook, Derrick Looney and Bobby Mims. Stanton will go for its second consecutive win over a Class AA school next week when they host the Coahoma Bulldogs in their annual rivalry.

No major surprises in schoolboy football

By The Associated Press Terry Orr crashed over for two touchdowns and quarterback Larry Dycus threw for two others as top-ranked Class 4A Abilene Cooper thrashed Brownwood, the No. 1 Class 3A squad, 50-14, in a bout between schoolboy heavyweights Friday night. Orr scored on runs of two and five yards and Dycus connected on touchdown aerials of 58 and 30 yards. Brownwood, which trailed 29-0 at the half, managed only two fourth-quarter consolation touchdowns. Three of the top ten Class 4A teams in The Associated Press schoolboy football poll took it on the chin during the opening weekend action. Michael Brown dashed for 184 yards and two touchdowns to lead fifth-ranked Lake Highlands to a 19-7 victory over No. 4 Dallas White in the only clash Thursday night between top-ranked 4A teams. Unranked San Antonio Roosevelt walloped ninth-rated San Antonio Jay 54-21.

Emmett Johnson rambled for four touchdowns — including an 85-yard scoring run — and collected 207 yards on the ground. Plainview, rated No. 8, fell to Lubbock Estacado, ranked seventh in Class 3A, 13-7. Seventh-ranked Houston Kashmere — relying on Kenneth Clay's two touchdown passes — overcame six lost fumbles to salvage a 14-8 win over unheralded Houston Wheatley. La Porte, ranked 2nd, staved off a furious fourth quarter rally to nudge Port Arthur Jefferson 24-22. In other Class 4A action No. 3 Seguin edged Austin Travis, 16-14 and 10th-ranked Plano defeated South Garland 14-7. Houston Stratford, No. 6, did not play. Four ranked Class 3A teams, including top-rated Brownwood and No. 2 McKinney, fell during the first weekend of play. Tony Brooks and Dino Kammer each rushed for touchdowns as tenth-rated Paris eked out a 15-14 upset victory over McKinney. Tuloso-Midway, ranked No. 8, lost to Corpus Christi Carroll 25-20 and No. 9 Snyder was shutout by Midland Lee 13-0. Third-ranked Jasper beat Henderson, 27-7; Bay City, rated No. 4, edged surprising Houston St. Thomas, 7-0; No. 6 Kerrville bombed Lampasas, 43-0 and seventh-rated Beaumont Hebert downed Port Arthur Lincoln 25-6. Nine top ranked Class 2A teams posted victories Friday night. Byron Linwood ran for one touchdown and threw for another as top-ranked Pittsburg romped to a 39-0 shutout over Mount Vernon. Second-ranked Childress dumped Quana, 14-0; Kennedy, rated third, clobbered Three Rivers, 45-0; No. 4 Bellville blasted LaGrange, 33-12; fifth-ranked Randolph slipped past Antomian, 11-7; No. 7 Littlefield shelled Friendsip, 35-7; eighth-ranked Whitehouse trounced Mabank, 26-0 and No. 10 Wylie downed Lancaster, 38-21. Ninth-rated Tahoka lost to Stanton, 28-14 and No. 6 Bridgeport fell to Joshua 14-7. Here are the results of teams listed in The Associated Press Schoolboy Football Poll. Season records are in parentheses.

CLASS 4A

YOU BE THE JUDGE

Have you been tempted to buy a big car lately? All cars will be smaller in 1980 and still smaller in 1981. Dealers have big cars parked everywhere and are obviously having a hard time selling them. WHY? The factories can't keep them so they ship them to their dealers to sell off at bargain prices. BUT WHAT IS A BARGAIN, if you can't sell it or trade it in a year later?

We at MESA VALLEY TOYOTA, INC., believe we have an answer. Most Toyota's will get from 80,000 to 100,000 miles on them before any major repair. This is just one of the many reasons your Toyota will always have an excellent RESALE VALUE. Another reason is some Toyota's get in excess of 40 miles per gallon of gasoline, but we feel that the big thing going for Toyota is the quality and pride of the manufacturer. At MESA VALLEY TOYOTA, INC., we add the best service in town. Just ask any Toyota owner.

If you consider all of this before you buy, we feel that we will see you soon at MESA VALLEY TOYOTA, INC., 511 S. Gregg, Big Spring, Texas — WHERE WE TAKE CARE OF OUR CUSTOMERS AND OUR CUSTOMERS TAKE CARE OF US.

MESA VALLEY TOYOTA, INC.

511 Gregg

BULLDOG FIRST DOWN — Coahoma quarterback Gary Gee (11) rolls around the left side for a Bulldog first down in first quarter action Friday night. Spot Paige (25) provides some blocking interference for Gee. The Bulldogs score in the final minute of play to take a 20-14 win over the tenacious Wall Hawks.

Uranga's last minute run save Bulldogs

Coahoma rallies past Wall

Fullback Amrosia Uranga scored on a 25-yard run with less than a minute remaining to give the Coahoma Bulldogs a heart-throbbing 20-14 come from behind victory over the scrappy Wall Hawks in the season opener for both teams Friday night.

Uranga's run highlighted a three-play, 45-yard drive that began with 1:24 remaining to play.

Wall took a quick lead when quarterback Bret Hann connected with flanker Mike Cannon on the first play of the game. The play covered 73 yards. Cannon then converted the PAT to give the Hawks a quick 7-0 lead.

back Gus Hinijsa scored from the five. Cannon's PAT gave the Class A powerhouse a 14-0 lead.

But Coahoma gradually rallied. After the Wall defense held Coahoma on the one-yard line early in the second quarter, the Bulldogs scored on their next possession when quarterback Gary Gee raced in from 15 yard out. Spot Paige booted the extra point.

Coahoma then narrowed the Wall lead to 14-13 when Uranga rambled over from the four with 1:50 left in the

first half. But a bad snap nixed the extra point attempt, leaving the Bulldogs one point short.

The second half was a defensive struggle, with the Coahoma defense finally forcing Wall to punt from their own nine with less than

two minutes remaining. Three plays later, Uranga gave the Bulldogs an opening night victory on his scamper.

Coahoma will go for its second straight win next Friday when they travel to Stanton.

Pecos subdues Lamesa

LAMESA — The Pecos Eagles scored in every quarter but the third in romping to a 26-0 decision over the Lamesa Golden Tornados here Friday night.

Mark Dingler's pass to Danny Garcia, good for nine yards, produced Pecos' first score in the opening round. The try for point failed.

The Eagles scored twice in the second. Martin Arreguy bruised 26 yards for one score and Pecos went to the air in an unsuccessful effort for two extra points.

Later in the third, Gary Rogers romped five yards for Pecos' third score. Larry Mosby added two extra point on a run.

The Eagles waited until the fourth quarter to strike again. Alvin New got into the end zone on a four-yard jaunt. The PAT try went awry.

Rogers led Pecos in rushing with 122 yards in 18 carries. Arreguy was a threat every time he got his hands on the ball. He picked up a net of 105 yards on nine carries.

Fine play by Lamesa's Larry Goolsby kept the score as close as it was. Goolsby gained 37 yards in a dozen lunges with the ball.

5-AAAA Roundup

Rider clips Eagles

WICHITA FALLS — Wichita Falls Rider hung on grimly to topple Abilene High, 14-10, here Friday night.

Rider scored in the first for Rider on a 66-yard run up the sidelines by Ken Montgomery, with 3:57 left. Brad Robertson added the extra point on a kick.

Abilene got on the board in the second when Randy Williams hit on a field goal.

Rider expanded its lead to 14-3 in the third on a 43-yard scoring pass from John Duke to Montgomery. Robertson tucked on the point.

Williams scored Abilene's touchdown in the fourth when he fielded a punt on his own five and dashed 95 yards across the double stripes.

Cooper routs Brownwood

ABILENE — Abilene Cooper humiliated Brownwood High, 50-14, here Friday night.

The top-rated Cougars scored once in the first, three times in the second, once in the third and twice in the fourth. Brownwood didn't get on the board until the fourth round, when it was playing largely against reserves.

Cooper rushed for 299 yards and passed for another 128. The Lions, defending state champions in Class AAA, could gain only 44 yards rushing but tacked on 165 passing.

Terry Orr of Cooper tore up Brownwood's line, rushing for 107 yards in 12 carries. He scored Abilene's first two touchdowns.

Cooper	8	21	7	14	50
Brownwood	0	0	0	14	14

Austin stifles Bobcats

SAN ANGELO — The Austin High Maroons pulled a rare feat here Friday night, stopping the San Angelo Bobcats without a touchdown in riling to a 16-2 victory.

The two teams went to the dressing rooms with Austin leading, 3-2. Henry Hudson had hit a first quarter field goal for the visitors from 26 yards out with 7:59 left in the round. QB Bennie Maldonado set up the score on a 42-yard pass play to Robert Kimble.

The Bobcats scored their only two points late in the second quarter when Maroon center Mark Cannon snapped the ball over the head of punter Ernest Sustaina. Sustaina recovered the errant pigskin in the end zone.

Austin scored once in the third when Kimble gathered in a pass from Maldonado, good for three yards. Hudson booted the extra point.

San Angelo	0	2	0	0	2
Austin	3	0	7	6	16

Lee Rebels stop Snyder

SNYDER — Midland Lee shut out Snyder, 13-0, but the job was far from easy.

The Rebels' defense shut down Snyder's attack, limiting the Tigers to 29 yards net on the ground and 74 through the air.

Lee QB Gary Butler pushed over from the one for Lee's first score in the second period. Larry Linne kicked the PAT.

The Rebels counted again in the third when Mark Thompson barreled over from the two.

Both teams were troubled with fumbliitis. The Rebs lost the ball four times on bobbles, the Tigers five times. Major penalties hurt the Reb cause, too. They yielded 185 yards on infractions called by the officials.

Midland Lee	0	7	6	0	13
Snyder	0	0	0	0	0

Mojo struggles to win

EL PASO — Odessa Permian experienced lots of trouble with El Paso Coronado before pulling out a 14-8 victory here Friday night.

Tailback Ricky Reynolds went over from three yards away for Permian's first score. The play occurred in Round Two.

Reynolds scored again before the quarter was out when he broke loose on a 50-yard run. Roy Dunn kicked both PATs.

In the third, Brian Peer ran 25 yards for Coronado's lone touchdown. The try for the point after was blocked.

Coronado made a splendid defensive effort in the fourth when it added a safety.

OHS nips Amarillo, 15-14

AMARILLO — Odessa High's Georgie Mason added a two-point conversion in the fourth quarter to spoil a late Amarillo Sandies rally and propel the OHS Broncos to a 15-14 win in the season opener for both schools. The win also gave new Bronco Coach Jerry Millsaps a victory in his first game as the OHS boss.

Amarillo's Mark Mathasmier's outstanding effort of 171 yards rushing and two touchdowns was spoiled by the Broncos, who scored in the first quarter before watching the Sandies score twice in the final stanza to take a momentary lead.

Odessa's first score came on a punt return of 67 yards by Johnny Subia.

Midland overpowers Tascosa

MIDLAND — Midland High's explosive offense, led by quarterback Mike Feldt and running back Billy Applin, raced to a 20-0 lead, then let the defense finish off a 26-0 whitewash of Amarillo Tascosa Friday night.

Feldt scampered 33 yards in the first stanza to give Midland an early lead, then directed the Purple Pack on a 12-play, 99 yard drive in the second period, capped by his six-yard touchdown pass to Bill Young.

Midland increased the lead to 20-0 shortly after Jeff Robnett's one-yard dive.

The Bulldogs final score came in the third period when safety Billy Taylor raced 74 yards with an errant Tascosa pass.

Ball leads Bronte past Forsan 30-7

FORSAN — Despite the spirit of a partisan Forsan Buffalo crowd, the visiting Bronte Longhorns used four touchdowns by fullback Mark Ball to coast to a 30-7 victory in the season opener for both schools.

Ball's first score came in the opening stanza on a 10-yard run. The extra point failed.

Forsan's Brent Nichols, a 147-pound junior, stopped a Bronte drive later in the first stanza when he intercepted a Longhorn pass on his 30.

But Bronte added another touchdown before the first period ended, despite the efforts of Buffalo defender Weldon Nichols, a 125-pound senior who enjoyed a good game from his defensive back position. Ball, again took scoring honors, rambling in from the 14. The extra point attempt was stopped.

Ball exploded on a 54-yard scoring romp early in the second stanza to increase the Bronte lead to 18-0. The PAT failed.

Bronte increased their lead to 24-0 late in the first half on a 15-yard pass from quarterback Jeff Schoenfeld to Don Hamilton.

But Forsan rallied in the waning minutes of the second quarter for their only score when quarterback Ernie Strickland connected with Weldon Nichols on a 10-yard pass to cut the Longhorn lead to 24-6. Nichols then booted the PAT.

Bronte's final score came in the third stanza when Ball burst over the stripes from the nine yard line. Again, the PAT failed.

The final half was a defensive struggle, with neither offense able to make a successful drive.

Forsan Coach Ronnie Taylor felt that the Bronte team was definitely deserving of their number four rating in the Class B statewide polls, but was still not pleased with his troops play.

Forsan will try to get on the winning side of things in 1979 next week when they play host to Garden City on Friday night.

EL PASO — Odessa Permian experienced lots of trouble with El Paso Coronado before pulling out a 14-8 victory here Friday night.

Tailback Ricky Reynolds went over from three yards away for Permian's first score. The play occurred in Round Two.

Reynolds scored again before the quarter was out when he broke loose on a 50-yard run. Roy Dunn kicked both PATs.

In the third, Brian Peer ran 25 yards for Coronado's lone touchdown. The try for the point after was blocked.

Coronado made a splendid defensive effort in the fourth when it added a safety.

OHS nips Amarillo, 15-14

AMARILLO — Odessa High's Georgie Mason added a two-point conversion in the fourth quarter to spoil a late Amarillo Sandies rally and propel the OHS Broncos to a 15-14 win in the season opener for both schools. The win also gave new Bronco Coach Jerry Millsaps a victory in his first game as the OHS boss.

Amarillo's Mark Mathasmier's outstanding effort of 171 yards rushing and two touchdowns was spoiled by the Broncos, who scored in the first quarter before watching the Sandies score twice in the final stanza to take a momentary lead.

Odessa's first score came on a punt return of 67 yards by Johnny Subia.

Midland overpowers Tascosa

MIDLAND — Midland High's explosive offense, led by quarterback Mike Feldt and running back Billy Applin, raced to a 20-0 lead, then let the defense finish off a 26-0 whitewash of Amarillo Tascosa Friday night.

Feldt scampered 33 yards in the first stanza to give Midland an early lead, then directed the Purple Pack on a 12-play, 99 yard drive in the second period, capped by his six-yard touchdown pass to Bill Young.

Midland increased the lead to 20-0 shortly after Jeff Robnett's one-yard dive.

The Bulldogs final score came in the third period when safety Billy Taylor raced 74 yards with an errant Tascosa pass.

Grandfalls rips Sands

GRANDFALLS — Grandfalls running back Lenny Motley scored three touchdowns and rushed for 105 yards on nine carries, including a 58-yard touchdown run, to lead Grandfalls to a 33-0 shellacking over the Sands Mustangs.

Grandfalls ground out 278 yards on the ground and added another 114 yards via the passing lanes to rool up over 400 yards in total offense. Sands was held to no yards passing and finished with 87 yards on the ground.

Despite the lopsided score, Grandfalls did not play flawless football. The Cowboys fumbled eight times, losing five. Sands players were jarred from the ball five times, but only lost possession once.

Grandfalls quarterback Ronald Brandenburg connected on three of nine passes for 114 yards, including a 58-yard scoring pass to Danny Santiago.

Andrews corrals Steers

Mustangs run wild in lopsided win

By NATHAN POSS
Sports Editor

Andrews Head Coach Bill Shipman warned those teams that concentrated too much on stellar running back Van Percy that his Mustangs would be a balanced team in 1979. The Big Spring Steers obviously didn't take the hint, as the talented Class AAA Mustangs exhibited more than sufficient versatility in racing to a 40-7 victory in the season opener for both teams Friday night in Memorial Stadium.

Andrews took the opening kickoff, and before many of the estimated 6,000 fans had settled in their seats, Big Spring cornerback Mike Domino intercepted a pass from Mustang sophomore Keith Brooks.

But Andrews quickly regained possession, as Steer signal caller David Coffey fumbled after a vicious blindside hit from a Mustang defender while attempting to pass on Big Spring's first offensive play.

Andrews took over on the Big Spring 38 and moved to the one-yard line. But a crowd of Steer defenders halted the drive inches short of the goal line on a fourth down run by Johnny Madrid to bring the partisan Big Spring crowd to its feet.

Big Spring moved to the 10 on two quarterback sneaks, but the Mustangs stopped Greg Jones for no gain to set up a punting situation. David Coffey, under pressure by an onrushing Mustang, shanked his punt to the left sideline for only a five yard advance at the 15.

Andrews then scored on the second play of the possession as Brooks rolled to his left on a bootleg and connected with wide receiver Robbie Jones in the corner of the end zone from

13 yards out. Van Eisenbach booted the PAT.

The game was a defensive struggle until midway in the second quarter when the Mustangs began another scoring drive after Coffey punted 24 yards to his own 48.

After two short runs and a 15-yard penalty against the Mustangs, Brooks scrambled out of the pocket and found the speedy Percy wide open at the Big Spring 20. Percy hauled in the pass and burst into the end zone to shock the confused Steer secondary. The play covered 53 yards. Eisenbach added the PAT with 6:20 remaining in the half.

Big Spring was again stopped on their next possession, but alert Bradley Files recovered a fumbled punt on the Mustang 18. Big Spring moved to the 11, but quarterback Jimmy Marquez was stopped on fourth down on the Andrews 8.

The Steer defense, very strong against the run in the first half, then backed the Mustangs to their own one-yard line. The versatile Percy then punted to the 30, with Domino returning the boot to the 25.

Marquez wasted no time in hitting Domino on a post pattern at the seven, with the Bovine wide receiver dragging an Andrews defensive back over the magic stripes to cut the Mustangs lead to 14-6 with only 54 seconds remaining in the half. The extra point attempt was blocked.

Big Spring then squibbed what might be considered an onside kick, with the Mustangs recovering on their own 41. Brooks hit Jones on a 13-yard play to the Steers 44, then two plays later, arched a bomb to Kevin Bartley, who made an ex-

cellent reception over a Steer defender for a 40-yard gain. After a two-yard gain by Madrid, Brooks rolled to his right with no time remaining in the half and drilled a bullet to Danny Fierro, who outfought two Big Spring defenders for the score. The extra point running attempt failed, as Andrews took a 20-7 lead into the locker room at intermission.

Big Spring received the second half kickoff, but three plays lost 10 yards and Coffey punted 19 yards to the Steer 34. But Percy fumbled on the second Andrews play, with the Steers recovering on their own 10.

Marquez rambled for 21 yards on the first play following the fumble recovery, but three plays later the Bovines were forced to punt. Coffey boomed a 45 yarder to the Mustangs 16, with a clipping penalty setting the Andrews team back to the eight.

The Mustangs then launched an impressive 11-play, 92-yard scoring drive that once and for all gave the visitors complete control of the contest. Percy had runs of 21 and 15 yards in the drive, with the impressive sophomore Brooks finally leaping over from the two with 1:47 remaining in the third stanza. Eisenbach converted the PAT to bring the score to 27-6.

The Steers were moving in Mustang territory early in the fourth period, but Mark Knight fumbled after snagging a Marquez aerial, with Andrews recovering on the 27.

The Mustangs, now playing many reserves, used a 46-yard run by Bartley three plays later to move to the Bovine 13. On fourth down, Steer defender Bobby

Earl Williams, who was one of the very few bright spots on the night for the locals, stopped Eisenbach short of a first down. But the Bovines were flagged for a personal foul away from the play, giving the Mustangs another chance to score.

The Steers, with the aid of a five-yard penalty and a 40-yard loss due to a blitzing tackle by Greg Jones, forced the Mustangs into a fourth and goal situation from the 21. Bug Andrews wingback Bartley took an inside reverse and raced untouched to the double stripes through an obviously inexperienced Steer defense. The extra point attempt failed with 5:11 remaining.

The Steers met another obstruction two plays later when Mustang safety Alan Foster picked off a Marquez pass and returned it 20 yards to the Bovine 38.

The Mustangs moved to the 21, where reserve signal caller George Gonzales hit Randy Jarvis for 19 yards to the two. Three plays later, Madrid escaped three Steer tacklers and determinedly ran into the end zone as time expired in the contest. Eisenbach added the PAT to run the final count to 40-7.

The game had to be disheartening to both the Steer team and the enthusiastic crowd, which turned out in what had been proclaimed "Stuff the Stadium" night. It was the biggest crowd in two years.

Big Spring will try to stop what has grown into a 19-game losing streak next week when they visit the Hobbs Eagles.

Grady then took the lead for good in the second quarter on a 58-yard pass from Brad Tunnell to Alfonso Cortez. The extra point attempt failed.

STEER SCORE — Big Spring wide receiver Mike Domino (83) fights past Andrews defender Marty Keesee (41) to score the lone Big Spring touchdown in the Steers loss Friday night. Andrews safety Keith Brooks (13) watches as the Steers Joe Willie Jones (25) begins the momentary celebration.

Irion County whips Garden City

GARDEN CITY — Irion County ruined Garden City's 1979 home debut here Friday night, winning, 30-0.

The Hornets started slowly and did not get on the board until half way through the opening quarter when a Bearkat back was trapped in the end zone.

The visitors added 14 points in the second, however, when Randy West and George Savala powered in. Joe Smith added two extra points.

West came back in the second half to score two touchdowns and Smith added two more PATs.

The Bearkats advanced as far as Iron's 12-yard line on a couple of occasions but couldn't get in.

The Kats were starting three freshman and one of

Celebrities pay tribute to Ali

INGLEWOOD, Calif. (AP) — Singer Lola Falana termed Muhammad Ali "my friend and I watched him become champion of all times."

Ms. Falana was one of many celebrities participating in a Tribute to Ali production at the Forum before a crowd of about 15,000 Thursday night.

Ms. Falana was the only one of the group to sing an original song in praise of the former heavyweight champion who recently renounced his World Boxing Association crown.

Jane Fonda said, "I've been taking punches as long as you have. How come you're still prettier? I have never admired anybody like I admire you."

Ms. Fonda pointed out that both she and Ali have had trouble with the political hierarchy.

"I am glad and proud to be here with you," said the

Drug test positive in All-America Futurity

ALBUQUERQUE, N.M. (AP) — The executive secretary of the New Mexico Racing Commission says a drug test was positive on Manifestoh, eighthplace finisher in Monday's \$1.28 million All-American Futurity quarterhorse race at Ruidoso Downs.

Ron Beserra said Thursday the test showed Manifestoh, trained by Lonnie Elam and owned by Donald G. Strole of Abilene, Texas, had been given the drug ritalin, a nervous system stimulant.

Beserra said it was the first time in the 21-year history of the All-American, final leg of quarter horse

TORRES TACKLES — Big Spring strong safety Rocky Torres puts the stops to an unidentified Andrews Mustang running back in third quarter action of the Steers loss Friday night. Moving in to assist Torres is Bobby Earl Williams, a sophomore linebacker that assisted on numerous tackles.

Grady races by Hermleigh

HERMLEIGH — The Grady Wildcats presented Coach Richard Gibson with his first ever opening day victory, as the spirited Cats raced to a 40-22 victory Friday night in the six-man contest.

Hermleigh scored first in the opening stanza on a 24-yard pass from Chip Roemisch to Dale Riley. Roemisch then booted the two-point conversion.

Grady retaliated to tie the score quickly when Ronald Chee scampered six yards to paydirt. Larry Key tied the score at 8-8 with his PAT.

Grady then took the lead for good in the second quarter on a 58-yard pass from Brad Tunnell to Alfonso Cortez. The extra point attempt failed.

Later in the same period, Larry Key connected with Tunnell on a 15-yard scoring strike to increase the Grady lead to 20-8.

Hermleigh's James Jones narrowed the Grady lead in the early stages of the second half on a 70-yard punt return.

Hermleigh then threatened to take the lead midway in the third stanza, but the Grady defense put on a tremendous goal line stand inside the three-yard line. Coach Gibson felt that this was the key aspect of the game.

Grady increased their lead to 27-14 later in the same stanza when Key rambled over from the 14 for a touchdown, then hit Leandro Gonzales on the extra point conversion pass.

Hermleigh narrowed the score when Roemisch found Dale Riley on a 26-yard scoring pass. Roemisch then booted the two-point conversion.

But Grady put the game away soon after when Chee race 60 yards to paydirt. Larry Key converted the extra point.

The Wildcats iced the contest when Key passed to Leandro Gonzales from the eight-yard line for the final score.

Chee led all rushers in the game with 87 yards, while Key contributed 83. Chee also headed the Wildcat defense with 10 tackles, while Gonzales, Ron Deatherage, Tunnell, Cortez and Key also helped thwart the Hermleigh attack.

Grady now plays host to Ira next Friday night at 8:00.

Gibson was pleased with the play of his troops, stating: "We played as well as I had ever hoped. I hope it means better things to come."

Pee-Wee football to begin Sept. 22

Elementary school tackle football is under way as the Big Spring Pee Wee Football League (PWFL) begins its 7th season with the 5th and 6th graders, while the YMCA is signing up 3rd and 4th graders.

Practice has already begun in the PWFL, with six teams looking to a September 22nd opening date. This year the league will be divided into two divisions: The National, with the Vikings, Cowboys and Dolphins; and the American, with the Packers, Raiders and Bulldogs (Coahoma). At the conclusion of the regular season, there will be a playoff, then the All-Star game.

Playek are still needed for each of the PWFL teams, except the Vikings, who have filled their 25-player roster. Interested boys should contact the team in their area of town.

Areas are as follows: Cowboys-basically the center of town plus Highland South (practice at Goliad); Dolphins-the West Side (practice at Goliad); Packers-Kentwood and Washington School area (practice next to American Little League Park); Raiders-Moss and Washington School areas (practice probably at Washington); Coahoma-Coahoma and Sand Springs (practice at high school). The Vikings are Marcy School and Forsan. Boys that are in this area and would like to play could be assigned to other teams, since the roster is full. Third and Fourth graders may sign up by contacting Jerry Zambrano at the YMCA.

PWFL coaches: Leo Williams, secretary of the league and coach of the cowboys; Mike Faulkner, Vikings; Tudor Murphy, Dolphins; Tony Gienetti, Raiders; A. J. Pirkle, Packers; Jerry Robinson, bulldogs.

Lake Spence Report

Good results have been reported from Lake J.B. Thomas where there were numerous strings of big yellow catfish as well as some crappie and black bass.

Channel catfish also were fairly numerous, ranging from one to five pounds. Yellow catfish included one 35-pounder, a couple tipping the above 25 lbs. and several others in the 14 to 18-lb. range.

Yellow catfishing is expected to continue good until late October. Grappie fishing appears to be improving, particularly as larger ones move into the shallow water as the lake cools. Black bass are being caught mainly in the brushy or weedy areas.

Among the reports are these: R. Howard, Brownfield, a 35-lb. and 15-lb. yellow catfish; Ann Rogers, Ira, 14-lb. yellow cat and 2-lb. crappie; Lloyd and Cleve Chambers, Snyder, 25-lb. and 16-lb. yellow cat; M.C. Grigsby, Big Spring, 28-lb. and 14-lb. yellow cat, and 6, and pair of 4 1/2-lb. black bass; Joy Vineyard, Ira, 4 1/2-lb. black bass. An unidentified pair from Big Spring reported 17-lb. and 14-lb. yellow catfish.

Klondike rips Borden County

KLONDIKE — Senior quarterback Tod Airhart tossed four touchdown passes and ran back the second half kickoff 80 yards for another score Friday night as the Klondike Cougars trounced the Borden County Coyotes, 42-0.

The Cougars took a 2-0 lead on a safety early in the first quarter and then Airhart went to work. He hooked up with Lonny Ferguson on a 12-yard scoring strike and came back three minutes later on an 11-yard TD pass to James Martin. Martin kicked both PATs to make it 6-0 after the first 12 minutes of action.

Airhart and split end Mike Arismendez teamed up for two touchdown bullets in the second stanza. The first scoring play covered 25 yards and the second went for 6. Martin added one of the point after kicks to make the score 29-0 at intermission.

Airhart brought the home crowd to its feet as the second half began by darting in and out of Coyote defenders and returning the kickoff 80 yards for another Cougar touchdown.

An 11-yard Clay Holcomb-to-Bobby Hanson touchdown pass in the final quarter wrapped up the scoring for the Cougars.

Klondike picked up 245 yards on the ground and another 87 yards through the airways. Marty Trevino led all rushers with 88 yards on 8 carries.

Lorraine wins

LORLAINE — Lorraine made mincemeat of the Dawson defense in winning its season opening football game here Friday night, 41-0.

QB Casey Market roared 80 yards for a touchdown on the game's opening play to get the Bulldogs off to a good start.

Break for customers who seldom make phone call
'Measured rate' charge rapped

AUSTIN, Texas (AP) — A Public Utility Commission staff recommendation to charge "measured rate" telephone customers according to how long they talk

is a bad one, a West Virginia utility regulator says. Joel Shifman, staff attorney for the West Virginia Public Service Commission, testified Friday during the PUC's prolonged hearing on Southwestern Bell Telephone's request for higher rates.

The hearing resumes Monday, and hearing examiner Phil Ricketts said it probably would last at least as late as Sept. 19. Bell wants increases, primarily for basic local service, that would raise \$145.2 million in additional revenue over a 12-month period.

The PUC staff's recommendations include one that would allow Bell to charge extra for measured rate service, based on the duration of telephone calls. Measured rate service, also called "lifeline" service, provides a lower monthly telephone bill for customers who seldom make

a call. In Austin the rate is \$4.20 per month for 25 outgoing calls or less. Each additional call costs 8 cents. "I don't like it at all," said Shifman, who represented poor people before the West Virginia commission before getting his law degree and going to work there himself. Shifman said there simply was no data on which to base charges on the duration of local calls.

Bell would add \$1.55 a month to the telephone bills of all household customers and \$4.65 monthly to those of single line business customers. That would raise \$105 million of the \$145.2 million Bell wants. Shifman said the entire \$145.2 million and then some could be raised by drastically increasing the charges for private line service.

A NEW ROLE FOR VAN DYKE — Actor Dick Van Dyke, center, and actress Kathleen Quinlan get direction from Stanley Kramer during a scene from Van Dyke new motion picture, "The Runner Stumbles."

Comedy to tragedy

Van Dyke's turnabout

HOLLYWOOD (AP) — Dick Van Dyke's reaction to seeing "The Runner Stumbles" for the first time: "It worried me to sit through one of my movies and not hear a single laugh."

"The Runner Stumbles" is no "Chitty Chitty Bang Bang," and it's miles away from "Mary Poppins." Van Dyke makes an astonishing turnabout from his film and TV portrayals by playing a Catholic priest accused of murdering a youthful nun with whom he allegedly had a romance.

The new movie comes from the Melvin Simon stable and was produced and directed with usual care by Stanley Kramer ("Judgment at Nuremberg," "Guess Who's Coming to Dinner"). Simon, the Indianapolis mall-builder-turned-film-financier ("Love at First Bite"), is releasing "The Runner Stumbles" through his own organization. The premiere is in Seattle Sept. 28, with national release after that.

For Dick Van Dyke, the filming in the one time mining

town of Roslyn, Wash. (pop. 1,000) was "the best six weeks I've ever had."

After 40 years as a light comedian, Van Dyke couldn't believe Kramer wanted him to play the tragic Father Rivard.

"Stanley asked me if I would have lunch with him," Van Dyke recalled. "I had never met him before, but of course I knew and admired his work. When he told me the role he wanted me to play, I said, 'You're putting me on, you've got to be putting me on.'"

"Stanley admitted to me, 'I wanted Oskar Werner to play the role, but he wasn't available.' I thought, from Oskar Werner to Dick Van Dyke is a little bit of a drop."

"I thought about it for a long time, and I read the play. I decided that if I didn't take up the challenge, I would never

know whether I could have done it. So Stanley and I shook hands on it."

As Van Dyke pointed out, Kramer had tried type changes before: Fred Astaire as a scientist in "On the Beach," Judy Garland as a war victim in "Judgment at Nuremberg," Gene Kelly as the reporter in "Inherit the Wind." And Kramer had been impressed with Van Dyke's dramatics in the TV movie "The Morning After," which paralleled Dick's own battle with alcoholism.

Kramer had warned him: "If I see even a glimmer of the Van Dyke personality in your performance, I'll jump on you with both feet." The director never did that. But Van Dyke noted, "Sometimes in the middle of a scene, Stanley would simply say, 'Cut. Let's try it again.' I got the message."

Dicky Lee has a magic touch

Singing career doesn't end at age 30

NASHVILLE, Tenn. (AP) — When Dicky Lee was 21, he recorded a million-seller, "Patches," and figured his singing career would be over by age 30.

He's 38, still recording and making his mark as one of the most enduring singers in the music business. He'd never make it as a fortune-teller, but as a singer he's certainly had a magic touch.

"I'm enjoying it now more than ever," Lee said in an interview at Mercury Records' offices here. "But I don't know if I'll want to do it when I'm in my 50s."

Lee, his black hair now invaded by traces of gray, has 10 albums to his credit and about 50 singles. He's changed styles from pop to pop-country and been successful as a songwriter as

well.

His best-known composition, "She Thinks I Still Care," was Elvis Presley's last hit before his death two years ago. It also was a hit for Anne Murray and George Jones, and has been recorded on albums by dozens of other singers.

So after 17 years in the business, he said he's learned a lot.

"I learned about music and musicianship," he said. "And you learn about people. When I started I didn't know anything. Now I make my own decisions and have confidence. I'm wrong less than I used to be."

Musical taste has changed, he said, as evidenced by the fact some British radio stations would not play "Patches" in 1962 because of a suggestion of suicide at the end of the song.

"England became the home of the raucous Rolling Stones but this ("Patches") was banned in England," he chuckled.

"Patches," a soft ballad about lost love, is still his most requested song.

"A show rarely goes by that it's not requested," Lee said.

He stretched his career by turning his music to a country-oriented sound in the early 1970s.

Story books with records

By CATHY McCracken
Children's Librarian

Have you ever mentioned the names Louisa May Alcott or Edgar Rice Burroughs around your house and been asked what rock group they play in? If you dared to utter the words "Little Women" or "Tarzan," do your kids ask if they are like the rock group "The Village People?" If the answer to these questions is yes, give your kids what they're interested in — records. Each month our record collection at the Howard County Library is growing with music to entertain tots to senior citizens.

The newest addition to our children's collection is a set of comic books and records dealing with super heroes, famous monsters, and space adventure. Each book has its own record so that the story can be heard as well as read, making the action really come alive.

The characters and their stories are really popular with the younger set, and

those who have already checked them out are coming back eagerly for more. Who could resist the beating crime takes when "people" like Batman and The Incredible Hulk are around? The chilling adventures of Frankenstein and Dracula have always been popular. There are thirteen of these story-records available, so your young one should have plenty to keep him busy.

Also new to our record collection are forty Walt Disney record-story sets that will delight your children. We have had a few of these before, and found them to be extremely popular. The new additions include Star Wars, Sleeping Beauty, Brer Rabbit and the Tar Baby, plus thirty-seven classic stories. Wouldn't it be fun for your child to be able to hear those stories you've been reading to him for all these years? Here's your chance to give your voice a rest — just turn on the record player and

let his imagination run wild. With all of these collections available, you could check some out for your children, then slip in and take an album by the "Village People," so that next time you'll know what to say when asked one of those questions

Charlotte Rae doesn't worry about ratings

LOS ANGELES (AP) — Charlotte Rae has turned down offers for her own television series and now that she finally has her own show, she doesn't want to think about it too much.

It's not that Miss Rae, who's starring in the NBC summer series "Facts of Life," isn't excited. "I don't want to worry about the ratings and whether we'll get picked up. You can go bonkers."

After finishing the short series she returns to her co-starring role in "Diff'rent Strokes." After that, she says, the show's fate "is in the laps of Fred Silverman and God. And the public."

CHARLOTTE RAE

She plays the same character in both shows, and "Facts of Life" is, more or less, a spinoff from "Diff'rent Strokes." She becomes housemother to five teen-aged girls at a college preparatory school.

"I've been offered series through the years," she says. "Even when I lived in New York, but things never seemed quite suitable. So I never committed myself to them."

"This idea is a rather nice one. I like the premise. I'm a

housemother with a lot of common sense and a lot of love. Hopefully, some of Mrs. Garrett's character will unfold and I will be able to fill her out as a human being. They asked me what her first name was and I said Edna. It just came out."

Miss Rae, the mother of two sons, says she injects her own philosophy into the show. "She wants to share her own experiences with the girls and illuminate their minds and emotions. Mrs.

Garrett has great joy and celebration of life. It's a great adventure."

She says she'd encountered several such people as a child.

"I had one moment with a math teacher who knew I was so frightened of math," she says. "I knew I couldn't even take the entrance examination for Northwestern University without that geometry. She had a reputation for being very stern, but she was kind and gentle with me and helped me overcome my mental block."

Miss Rae, a native of Milwaukee, studied drama and voice at Northwestern, then moved to New York for work at small clubs. Sheldon Harnick, a college classmate who went on to do "Fiorello" and "Fiddler on the Roof," wrote a mini-musical for her.

"It was a wonderful way for me to earn my living and grow," she says. "In the mid 1950s people used to go to the little clubs. The Broadway people went and that was how I found my way into my first Broadway musical, 'Three Wishes for Jamie.'"

Mystery yarn neatly tied

SKELETONS. By Glendon Swarthout. Doubleday. 328 Pages. \$10.

B. James Butters is by his own admission a coward.

So, how does a gentle, 34-year-old writer of books for children get involved in a situation where he's strapped under a car dragged until he passes out, gets banded on the head, gets shot at, and, finally, gets up the nerve to shoot

back.

Easy. Love.

Seems that Butters is still carrying a torch for his beautiful ex-wife, Tyler Vaught, and when she asks him to go to her home town in New Mexico to look into the death of her latest lover — who was out there researching for a possible novel — Butters screws up his courage to the sticking point and goes.

Glendon Swarthout spins a

spellbinding yarn as he tells in "Skeletons" what Butters find on his trip West. The plot is multi-layered, like an onion, and the reader is held as Swarthout peels off layer after fascinating layer.

As Butters pokes his nose into closets looking for skeletons and finding more of them than he cares to, Swarthout smoothly includes scenes from the past as counterpoint and explanation for the present.

CHECKING INSURANCE FORMS — Not until July 27, 1979 were doctors of chiropractic paid equal to doctors of medicine by insurance companies. According to Dr. Loran Warren, pictured here, insurance companies based their non-payment on the theory that there was no scientific basis for chiropractic care. Dr. Warren, who has been practicing chiropractic in Big Spring 28 years, says they will now get equal payment.

THERE'S THE PROBLEM — Chiropractic is a natural healing art. It's primary function, through spinal adjustments, is the restoration of normal nerve energy flow from the brain to all parts of the body. Pictured here is Dr.

Halvard T. Hansen reviewing a patient's X-ray with two of his therapists Mary Atkins, left, and Gertrude Hamlin, right in an attempt to pin point the exact spot in which the patient's spine is misaligned.

Chiropractors' fight for insurance pays off

Natural healing art gains acceptance

By **ROBBI CROW**
Family News Editor

Once branded as an unscientific cult, the practice of chiropractic has become the second largest healing profession in the world.

Throughout the years, doctors of the medical profession have regarded chiropractic as an unscientific cult whose practitioners lacked the necessary training to diagnose and treat human dis-eases.

Dr. Loran Warren, a chiropractor who has practiced in Big Spring for 28 years, says the reason for such opposition in the past from medical doctors was because "they claimed there was no scientific basis proving the effectiveness of chiropractic care."

Today, as the human race dawns on the year 1980, the past persecuted doctors in the chiropractic profession are steadily gaining acceptance by the doctors on the other side of the examining table.

Chiropractic is a natural healing art. Its primary function, through spinal adjustments, is the restoration of normal nerve energy flow from the brain to all parts of the body.

According to Dr. Halvard T. Hansen, a local chiropractor who operates out of an office located at 1004 11th Pl., "The theory of chiropractic works on the premise of body faults, whether it be nerve root impingement or nerve root irritation which affects function of organs, muscles or body alignment."

Chiropractors are primarily concerned with spinal alignment and the relationship of each vertebra to another as well as all other moveable

parts of the body.

Chiropractic is related to normal muscle balancing, correlation of muscle actions as well as ligamental stability.

"Muscles move you," explained Dr. Hansen, "Ligaments hold you together."

Hansen says postural alterations from the normal have a deleterious affect on whichever weight bearing factor is under stress or strain.

Big Spring is the home of three doctors of chiropractic, including Dr. Hansen, Dr. Warren, whose office is located at 1707 Lancaster; and Dr. W.M. Franklin who operates out of an office at 1311 Scurry.

According to Dr. Franklin, a graduate of Palmer College, Davenport, Iowa, Harvey Lillard was the first chiropractic patient.

"In 1895, magnetic healer D.D. Palmer was treating a deaf, black janitor. During the examination, he noticed a lump in the man's spine that protruded more than it should," explained Dr. Franklin.

"So Palmer proceeded to reduce the lump by massaging it. The protrusion was a vertebra out of its normal position. After it was adjusted, Lillard regained his hearing."

Dr. Franklin explained that the first chiropractic adjustment was not planned. It just happened. And so the natural healing art of chiropractic was born.

"In the beginning, chiropractic care wasn't for spinal aches and pains," continued Dr. Franklin. "In fact, when Lillard regained his hearing, Palmer had his son distribute pamphlets proclaiming he could cure deafness."

Franklin revealed that D.D. Palmer's son, B.J. Palmer, was in actuality, the developer of chiropractic. Since that time, there have been numerous disorders corrected through chiropractic spinal adjustment.

"Chiropractic is closely related to two special fields," revealed Dr. Hansen. "That of neurologists and orthopedists."

"We work together with the best neurological and orthopedical specialists."

All three agree they have a good rapport with the local medical doctors.

"I refer patients that come to me with medical problems to medical doctors, and doctors refer patients with chiropractic problems to me or one of the other chiropractic doctors," stated Dr. Hansen.

Dr. Hansen's office is staffed by his wife, Mrs. Lela Hansen who is a graduate Chiropractic Associate; Mrs. Gertrude Hamlin and Mary Atkins, all of whom perform therapy in the office.

A 1949 graduate from the Texas Chiropractic College of San Antonio, Dr. Hansen did post graduate work in St. Louis, Mo., at the Logan Chiropractic College.

When visiting a chiropractor's office, one can find many pamphlets pertaining to the subject. One reads "For 24 centuries, most of the world has depended upon the doctor of medicine to cure health problems, yet the world is still sick and getting sicker."

The pamphlet goes on to say that more than 40,000,000 Americans have switched their thinking about doctors and health... and each year an additional 2,000,000 are switching to chiropractic.

Chiropractic doctors work on the theory that in order for a person to enjoy sound health, the individual must maintain an exact structural balance of the spinal column. Anything less than that leads to poor health and a constant grasping after good health.

A misaligned vertebra pinching on nerves can cause nearly 400 different diseases or conditions. Misaligned vertebrae which pin nerves are called spinal subluxations. These may be caused by a fall or injury or can result from stresses or strains from lifting the wrong way. Chemical, electrical or emotional shocks may overload the nerve system's protective mechanism and produce subluxations.

When a doctor of chiropractic adjusts his patient, he removes interference in the flow of millions of commands or messages from the brain through the spinal column to every part of the body.

His main objective is to seek out the cause of the condition rather than working with the symptoms of the ailment itself.

Dr. Warren, a 1951 graduate of Palmer College in Davenport, Iowa, says age plays an important role in the length of time it takes chiropractic care to become effective.

"I've treated patients from two days old to 99 years old, but generally, the younger patient responds most promptly to the chiropractic adjustment. As we get older, it takes more time to turn a condition around from ill health to good health," he explained.

The doctors of chiropractic say there are eight spinal pressure danger signs that point to nerve interference. These include loss of sleep, pain between shoulders, stiffness of the neck, numbness in the arms or hands, numbness or pain in the legs, painful joints and headaches.

For more than 70 years, chiropractors have been aiding victims suffering from migraine headaches.

They have developed special nerve tests to determine the precise point in the neck at which the arteries and nerves are being blocked.

In difficult or unusual cases, chiropractors often elect to use X-ray machines especially adapted to take the unique X-ray views that will pin point the location of misalignment.

Since nerves and blood vessels pass through small openings and canals between the neck bones (vertebrae) a misalignment produces a pinching-traction that stretches the nerves and blood vessels leading to the head.

The result? A migraine headache. Once the precise point of pinching-traction has been located, it is usually a simple matter for the chiropractor to release the impinged nerves and blood vessels and the migraine headache subsides.

As far as curing or controlling dis-eases, all three local doctors of chiropractic agree that there is a

general misconception.

"No doctor, whether medical or chiropractic, can say they can 'cure' a dis-ease," explained Dr. Warren.

"In the chiropractic profession, we attempt to control dis-eases and we do, or we wouldn't have the business we do," he continued.

"There are some who say the effects of chiropractic care are psychological," he added, "but yet, we can break the fever in a tiny infant who can't think one way or the other. That's not psychological."

Dr. Warren, who is married and the father of three sons, says the reason he decided to go into the field of chiropractic was because of severe ear aches he suffered from as a young boy.

"When I was young, I was troubled with terrific ear aches and getting an adjustment from a chiropractor was the only thing that would relieve them," he explained.

Although the practice of chiropractic is gaining acceptance from doctors of the medical profession, some are still reluctant to believe that the practice of chiropractic has scientific basis.

"We now have instruments that can detect nerve interference. In fact," revealed Dr. Warren, "there is quite a bit of research being done on nerve interference in Russia."

He explained that researchers go into dogs and block nerves by applying pressure on them with some type of object. While observing where the nerves goes, they can see the interference and the stress caused on vital organs of the body.

"If that doesn't prove our scientific basis, I don't know what does," concluded Dr. Warren.

Mrs. Mike (Sherida) Treadaway, a chiropractic patient for 10 years, believes "it is just as important for a person to receive chiropractic care as it is for them to receive medical care."

"I've been seeing a chiropractor for about 10 years. I can really tell the difference between the way I feel now and the way I felt before getting chiropractic adjustments," revealed Mrs. Treadaway who is employed by Big Spring Cable TV.

She claims the only time she is bothered by headaches or backaches is when she needs an adjustment.

Mrs. Treadaway, a firm believer in the beneficial aspects of chiropractic care, sees that her two children, Tonya, 4½ and Cody, 2, receive that same care.

"Tonya's been seeing a chiropractor on a regular basis since she was two weeks old," said Mrs. Treadaway. "Cody was only four days old when he had his first adjustment."

Mrs. Treadaway concluded by saying "I feel we're all healthier in general. I believe chiropractic care is every bit as necessary as medical care."

Dr. Franklin, Dr. Hansen and Dr. Warren say the years they have spent as chiropractors have seen "very gratifying results."

In some cases, immediate relief from ear trouble, backache or headaches is achieved. In other cases, however, if the irritation still remains, results take a longer period of time.

"I see patients every day that are relieved of aches and pains, but the case that stands out the most vivid in my mind is about 20 years ago when a couple brought in their 6-month-old daughter who had been unable to eat or keep her food down since birth," remembered Dr. Warren.

"She looked just like those children you see on television commercials with the bloated stomachs and bulging eyes as a result of starvation."

Dr. Warren said the couple had taken the child to medical doctors all over the country. Not one could find anything wrong.

"What was wrong," explained Dr. Warren, "was that she had nerve interference."

"In a short time after receiving chiropractic care, the little girl was eating everything she wanted. I still get a Christmas card from her parents every year with a picture of their daughter. She's now 21 and in perfect health."

Dr. Franklin can also recall several outstanding cases throughout his

years of practice.

"The one that I remember the most was a case involving a teenage girl who came to me on the recommendation of her uncle," said Dr. Franklin.

"She was in a hospital with a paralyzed right leg. Prior to undergoing a biopsy in an attempt to analyze her leg muscle and find out what was causing the paralysis, the girl's uncle brought her to me. After her third visit, she began to get feeling back into her leg and by the end of the second week, she was walking well without crutches."

Dr. Franklin revealed he had found she was suffering from a subluxated vertebra in her lower back.

"The last I heard, she was married with two kids," concluded Dr. Franklin.

The chiropractic field is known as the drugless profession.

"We're called the drugless profession because we don't prescribe or use medication in our personal practice," explained Dr. Franklin.

It is a law of nature that different doctors have differing opinions concerning many aspects of treatment. In fact, some chiropractors feel the need to administer medicine to cure the sick is unnecessary. However, all three local chiropractors feel there is a definite need for medicine when used properly.

"I believe the use of medication, drugs and antibiotics is fine when needed. But even the doctors of the medical field will tell you they are overused," revealed Dr. Warren.

"Every time you get a little cold, you don't need to run down and get a penicillin shot. An excess use of drugs and antibiotics for minor things will cause your body to build up an immunity to them. Then, when you really need the medication for major ailments, they're ineffective," he concluded.

Dr. Franklin added "If we see the need for a person to be treated with medication, we will refer them to a medical physician. We're not going to let a patient die of pneumonia when medication is needed."

Franklin, who has been practicing

chiropractic for 26 years, says he became a chiropractor because the physiological mechanics of the human frame fascinated him when explained by a friend of his that was a chiropractor.

"Many become chiropractors because of the benefits they received from it. I just became a chiropractor because the physiological mechanics of the human body fascinated me," he concluded.

In addition to the constant persecution of chiropractors over the years from medical doctors, the professionals of this field have struggled for numerous years for insurance equality.

"Chiropractors have been fighting for years to gain insurance equality to that given medical patients," explained Dr. Warren. "Now, as of July 27, any policy sold in Texas must pay chiropractors equal to medical doctors."

Dr. Warren said insurance companies were reluctant to pay chiropractors because of the disbelief that chiropractic was a proven science.

"Only within the past three or four years did our patients receive Medicare," concluded Dr. Warren who recently attended an insurance seminar in Austin reviewing different forms insurance companies require chiropractic patients to use.

In order to be licensed as a doctor of chiropractic, one must attend two years of pre-college and four years of chiropractic college. Prior to beginning practice, the state board and basic science exams must be taken.

Dr. Warren also explained that chiropractors are required to go once a year to a refresher course to learn the new techniques continually being developed.

People, places,
things

BIG SPRING, TEXAS,
SEPTEMBER 9, 1979.

APPLYING CERVICAL TRACTION — At the office of Dr. Halvard Hansen located at 1004 11th Pl., patients often receive cervical traction as shown here by Mrs. Lela Hansen, a graduate Chiropractic Associate and a therapist at Dr. Hansen's office. According to Dr. Hansen, this process loosens muscles and ligaments and separates vertebrae.

SIDE POSTURE ADJUSTMENT — Dr. W. M. Franklin, a chiropractor whose office is located at 1311 Scurry, says the art of chiropractic "just happened." It was not planned. Here he is shown adjusting 4½-year-old Tonya Treadaway on a side posture table. Tonya received her first chiropractic adjustment when she was two weeks old. Her 2-year-old brother, Cody, made his first visit to the chiropractor's office when he was only 4 days old.

MRS. JIMMY E. DARLING

Miss Findley weds Jimmy E. Darling

Margaret Findley became Mrs. Jimmy E. Darling, Jr. in a candlelight ceremony Saturday evening in College Baptist Church.

Rev. Jim Turner, pastor, performed the 8 p.m. rite before an altar flanked by candelabrams centered with an arrangement of peach carnations and white magnolias in a silver candelabrum.

The bride is the daughter of Mr. and Mrs. James W. Findley, Todd Rd. Parents of the groom are Mr. and Mrs. Jimmy E. Darling, Weslaco, Tex.

Wedding music for the ceremony was provided by organist Katherine Tedesco and soloist David Norvell.

The bride was presented down the aisle attired in a princess style knot gown fashioned with a V-neckline trimmed with lace banding the bodice and long lace trimmed sleeves. The skirt gathered onto a button trimmed front tab at the waistline. The finger-tip veil of illusion fell from a Juliet cap.

The bride carried a cascading bouquet of white feather carnations and Sonya roses.

Mrs. Tercy Hall, Odessa, attended the bride as maid of honor. The bridesmaid was Karla Grace, Big Spring.

John Darling, Houston, served his brother as best

man. Jody Darling, Elk City, Okla., another of the groom's brothers, served as groomsman.

Guests were seated by Mike Gressett and Calvin Johnson.

Immediately following the rite, Mr. and Mrs. Darling were feted at a reception in the fellowship Hall of the church.

Guests were registered by Jamie Findley, sister of the bride.

The reception table was covered with a white embossed full length skirted tablecloth with lace trim, centered with an arrangement of white magnolias and peach carnations set in a silver candelabrum. The four-tiered wedding cake, topped with the traditional bride and groom figures, was served by Valerie Richardson, Charlott Darling, Mrs. Dan Newsom and Mrs. Richard Szczawinski assisted by Mrs. Lee Roy Findley and Mrs. W. E. Anderson.

The bride is a graduate of Forsan High School and attended Howard College. She is a former Cosden Petroleum Company employee.

The groom is a graduate of Brownsville High School and is presently employed by H & P. Oil Company.

The couple will make their home in Elk City, Okla.

Good scents tricks

NEW YORK, N.Y. — Fragrance fadeout. That's what happens when the scent you've applied in the morning starts to disappear after just a few hours. You can prevent it by reapplying your scent every few hours, or you can try the tips on getting the most out of your fragrance in the September issue of Seventeen.

Dab on your fragrance after a bath or shower while your skin is still warm — the warmth will help diffuse the scent.

Remember the science-class rule about warm air always rising? Well, fragrance does the same thing. So to make it last longer, when you apply the scent, dab some on your ankles and the backs of your knees.

Most people don't realize it, but clean hair is an especially good fragrance holder. So if you spray your hair lightly with fragrance, the scent will last for hours and hours.

Good pets not good passengers

NEW YORK, N.Y. — Very good pets don't always make very good car passengers, so before you take Fido or Kitty on the road, check out these travel tips from the September issue of Seventeen.

Introduce your family pet to the family car when it is still very young by placing it in a parked car for just a few minutes at a time. When the animal gets a little older, teach it to get in and out of the car. The next step is to get in the car with your

pet and after a few minutes of sitting still, turn on the engine. In a moment, turn it off. Repeat the procedure, increasing the motor-running time, until your animal gets used to the noise.

Keep a collar on your animal with your name, address and phone number on the tag. There is always the chance your pet could escape from the car.

Open your windows, but only a few inches. If the windows are open too wide,

your pet could leap out at a sudden noise or the sight of another animal.

Park in the shade in hot weather if you must leave your animal locked in. Heat stroke can kill a dog or cat in less than twenty minutes.

Spread a blanket or rug over any bare flooring your pet must ride on, for example, in a van or station wagon. Exposed metal can be uncomfortably hot or cold.

To prevent motion sickness, feed your animal

only a light meal the day before you start out on a trip and a small snack on the morning you leave. If the weather is warm, supply it with plenty of water along the way.

FAIR ENTRIES — Pictured here are Mrs. Alvis Jeffcoat, first time fair entrant, and Mrs. Eston Hollis, rounding up their entries for the Seventh Annual Howard County Fair. Mrs. Hollis' 12-year-old daughter (not pictured) has been entering in the local fair since she was 8.

WHAT KIND DID YOU MAKE? — A number of area women will enter their best preserves and jellies in this year's fair competition. Pictured here comparing items are Mrs. James Lee, Mrs. Rodney Fuqua and Mrs. Joe Mac Gaskins, general superintendent of women's activities for the fair.

BLUE RIBBON HOPEFUL — Pictured here is Mrs. Terry Patterson putting the finishing touches on a painting she plans to enter in the Seventh Annual Howard County Fair which will begin Sept. 17 and end Sept. 22. Mrs. Patterson will also enter some of her canned goods and preserves.

Seventh Annual fair nearing Blue ribbon hopefuls make final preparations for fair

By ROBBICROW
Family News Editor

As the final days leading to the Seventh Annual Howard County Fair are marked off the calendar, area homemakers, canners and artists are applying the finishing touches to the various items they plan to enter.

Mrs. Joe Mac (Lavern) Gaskins is this year's superintendent of women's activities and she says "Numbers of area women have been preparing preserves, canned goods and home decorations all summer long to enter in the fair. It's exciting for them to see how their best compares with the best of others."

Mrs. Gaskins, herself a homemaker, and her husband reside in the Knott Community. They are the parents of three children, Van, the youngest who is a freshman at Texas A&M University; Kayla, who resides in Dallas with her husband Tom McDonnell; and Kelly, who lives in Knott with his wife, Teresa and their son, Dustin.

As the final pre-fair days count down, here is what several women plan to enter in hopes of walking away as blue ribbon winners.

Mrs. Rodney (Terri) Fuqua will be entering canned goods of blackeyed peas and pinto beans as well as peach preserves. She also has completed a wall hanging and Christmas

stocking to be judged in the women's division.

Mrs. Fuqua was born and reared in Big Spring and graduated from Big Spring High School in 1972. She and her husband of seven years are the parents of Amanda Kay, 4½ and Trenton Clay, 2½.

Mrs. Fuqua is an avid canning enthusiast who has entered fair competition before in this division. She enjoys cooking and sewing as well as arts and crafts. She is a member of the Spring City Gals Extension Homemakers.

Mrs. Terry Patterson's summer months have been occupied with making preserves and jellies.

"I have several items I want to enter in this year's fair," revealed Mrs. Patterson, "including a painting I did while I was out in California in the Muier Woods."

Mrs. Patterson is the wife of R. L. (Pat) Patterson and the mother of Dr. James (Jimmy) Patterson, Concord, Calif.; and Joanna P. Darwin, Washington, D.C. She also has two grandsons, James and John Patterson.

Upon the completion of the Howard County Fair, Mrs. Patterson will begin preparation for a "big out of town show."

Mrs. Eston (Faye) Hollis and her daughter will be participants in this year's fair again also.

Her daughter, Tanya, now

12, has been entering items in the fair since she was eight.

"In addition to entering canned goods, we plan to enter some walnuts and pecans from the trees we have," stated Mrs. Hollis of the Luther Community. "My daughter will enter a pant suit she made in 4-H as well as a batik pillow."

The Hollis' began canning the first of July in order to be ready for this year's judging.

The Hollis' also have an eight-year-old son, Randall who enjoys baseball. He played for the Vincent Rangers during the summer months.

Mrs. Hollis, a housewife, enjoys baking and canning for her family.

"I love to try out new recipes," she concluded.

Fair competition will be a new experience for Mrs. Alvis (Beverly) Jeffcoat of the Midway Community.

"This is my first year to enter the fair. Up until this year," she explained, "I've always worked and never had the time."

She will enter canned goods, sewing items and a cotton boll wall hanging.

Mr. and Mrs. Jeffcoat are the parents of a 19-month-old daughter, Krista Anne.

Since Mrs. Jeffcoat has quit working, she has found new hobbies to occupy her time.

"This year I discovered the fun of gardening and canning. My mother, Mrs. B.C. Inell of Ackerly,

provided instruction for canning and preserving various foods," stated Mrs. Jeffcoat whose other interests include cooking, sewing and arts and crafts. She belongs to the Spring City Gals Extension Homemakers.

The Jeffcoats are members of the Midway Baptist Church.

Fair contestant Mrs. James (Pat) Lee spends most of her time decorating the country home she, her husband and their 22-month-old son Brandon Jey reside in. They are expecting their second child this December.

Mrs. Lee plans to enter her Crewell embroidery in addition to her homemade grape jelly. She has been preparing approximately 2 months.

Other hobbies enjoyed by Mrs. Lee who has a B.A. degree in sociology, is collecting antiques, sewing, needlework and cooking.

"I also enjoy woodworking with my husband," she concluded.

These women represent only a small segment of those entering their talents in this year's Howard County Fair.

Other women interested in entering should submit their exhibits between 7:30 a.m. and 1 p.m. Sept. 17. Judging will be at 2 p.m.

Winners will receive blue, red and white ribbons. Participation ribbons will also be given each entry.

This year's Howard County Fair, Sept. 17-22, is destined to be one of the best ones yet. Make plans to attend as a participant or as a spectator.

There's sure to be plenty of excitement and activities for everyone.

TWEEN 12 and 20

Girls bear baby and the shame

By Robert Wallace, Ed. D.

By ROBERT WALLACE, Ed. D.
Copley News Service

Dr. Wallace: I am a 17-year-old girl who had been dating an 18-year-old guy for about three weeks. I gave in to him and made love and now I'm pregnant.

When I told him of my condition, he laughed and said it was my problem. He told me not to tell my parents what happened but to tell them that I was raped. Whenever I call his house I am told that he is not home.

I do not want an abortion, so I will be stuck raising a child with no help from the father.

Dr. Wallace, I don't understand how a boy could not care that his child will have a rough time of it.

I also do not think that it is fair that the girl gets a bad reputation while the guy gets off scot-free. — P.G., Milan, Ill.

P.G.: If you haven't shared your condition with your mother, do it now. Many decisions must be made and health care must be given.

A competent attorney can find out the legal responsibilities of this "man."

To answer your question, I don't think it's fair either, but as long as the female carries the child, this situation will never change.

Dr. Wallace: I'm 14 and I'm "grounded" because I treat my mom very badly. I have a terrible personality and mom says she will not let me go out until I start being more pleasant.

I've been trying but once in a while I still "blow up" at my mom.

Please help. — Sandra, Dixon, Ill.

Sandra: Knowing that you have a terrible personality is the first step in changing. Instead of "not blowing up," be positive. Every day do one or two things that will please Mother.

If you will do this, you will see a great change in your personality and, of course, you won't be on restriction.

Dr. Wallace: I'm 12 and carry 118 pounds on a 4-foot-8-inch frame. Football practice is here and I'm afraid if I don't lose some weight around my middle, I may not be a running back. I think they would put me down on the line.

Please help. — Tommy, Newton, N.J.

Tommy: It's hard to conceive that anyone weighing 118 pounds can be considered fat, but the solution is simple—proper exercise, three balanced meals and no snacks.

By the way, linemen would say that you would be moved "up" to the line.

Planning before cutting can make sewing with plaids fun

COLLEGE STATION — Plaid fabrics seem to weather all fashion change, and this fall's fashions are no exception, says a clothing specialist, Nancy Brown with the Texas Agricultural Extension Service, The Texas A&M University System.

Make sewing with plaids fun by taking time to plan before cutting.

Before buying plaid fabric, study its effect on your figure by holding it up in front of a mirror. Keep the size of the plaid design in scale with your figure.

Choose a simple pattern with few seamlines to

minimize matching.

If the pattern does not give yardage for using plaids, allow about one-fourth to one-laf (23-46 cm) extra for small to medium-size plaids and about one-half to one yard (46-92 cm) for large-size plaids.

Pre-shrink a plaid fabric because shrinking can affect matching. A woven plaid can shrink more in one direction than the other, the specialist points out.

For greater accuracy, cut all plaids on a single layer, she suggests.

Before placing the pattern pieces, look at the fabric to see if it is an even (balanced) plaid or an uneven (unbalanced) plaid.

An even plaid has the same lines on the left and right and the same line above and below a dominate line.

Daughter Disdains Her Doting Mother

By Abigail Van Buren
1979 by Chicago Tribune-N.Y. News Synd. Inc.

DEAR ABBY: Why is it that if a mother is a tramp, her kids have all kinds of respect for her, but if she's a good Christian mother they couldn't care less. I've seen it often.

In my case, we have a daughter in college who attended summer school. All the years she was growing up, her father was "too busy" to attend a PTA meeting or any of her school activities. He was in her grade school only once, never in her junior high, and in her senior high school (field house) once—for her graduation.

On the other hand, I've done all the things a "good mother" should do. I attended PTA, was a Brownie leader, made costumes, took her to all the school activities, baked cookies for classroom parties, etc., yet she shows more respect for her father than she does for me.

Although her weekends were free, she didn't come home for Mother's Day until late Sunday afternoon. She had written earlier that she was bringing me a gift. I don't care about the gift; it's just the way things turned out that hurts me. She came home empty-handed, saying, "I'm sorry. I didn't have time to buy you anything."

I said, "That's all right, Honey, having you home is all the gift I want."

Then she said, "Well, that's good, because that's all you're going to get."

Father's Day weekend she arrived on Saturday, bringing her Dad a beautiful dress shirt and matching tie!

I ask you, Abby, why is it that when I have done so much for her, and her father did so little, she treats him so much better than she treats me?

HURT

DEAR HURT: Perhaps it's because you've always been around and she has taken you for granted. On the other hand, because her father gave so little of himself, and she saw him so seldom, she still considers him a "special treat" and is thrilled by his presence. I'm not justifying her attitude; only attempting to analyze it.

DEAR ABBY: I am puzzled over a common social dilemma that many single women face.

Last weekend at a party I met a guy who was nice to talk to, but not to go out with. Later in the evening he asked if I'd like to go out with him some time. Then he asked for my phone number. I wasn't particularly interested in seeing him again but was at a loss for a gracious way of declining. What would you have done? By the way, I have a steady boyfriend and am not interested in dating others, but I thought it presumptuous to mention my boyfriend since I was asked only for a date—not a lifetime commitment.

SINGLE IN SCARSDALE

DEAR SINGLE: I would have told him that I had a steady boyfriend, but if he'd give me HIS number I'd fix him up with one of my uncommitted girlfriends. (P.S. One girl's leftovers could be another girl's banquet.)

DEAR ABBY: The letter from the woman who was discouraged because she would be 37 when she finished high school amused me.

My mother was born in 1890. She went only as far as the eighth grade because there was no high school where she lived. In 1944 she enrolled in a special high school program for adults, and got her diploma in 1945. In 1952 she graduated from the University of Washington.

She learned to read Latin, Italian, French, Spanish, Portuguese, German and Chinese.

Two years ago, at 86, she wrote an article about the making of 16th century Chinese pottery. It was published in "Forklore," a British magazine.

So what is that 34-year-old lady complaining about?
EDMUND WEST, TACOMA, WASH.

Do you wish you had more friends? For the secret of popularity, get Abby's new booklet: "How To Be Popular; You're Never Too Young or Too Old." Send \$1 with a long, self-addressed, stamped (25 cents) envelope to Abby, 132 Lasky Drive, Beverly Hills, Calif. 90212.

Engagement announced

Mr. and Mrs. Lyndon G. Priest, 4112 Dixon St., announce the engagement and approaching marriage of their daughter, Kathy to Kenneth F. Matthews.

He is the son of Mr. and Mrs. Charles Matthews, Rt. 2, Box 10D.

The couple will be married Sept. 28 in the home of the bride's parents, Chaplain Clayton Hicks, Veterans Administration Medical Center chaplain, will officiate.

For the record

In the picture caption entitled CHOOSING RECIPES TO SHARE on Thursday's Food Page, the names of those pictured were inadvertently listed incorrectly.

The names should have read, left to right, Beverly Rybolt, Yvonne Kimbell and Nelda Reagan, president.

The Herald regrets any embarrassment or inconvenience caused by the error.

MR. AND MRS. GUY DITTO

Mr., Mrs. Ditto will celebrate anniversary

Mr. and Mrs. Guy Ditto will celebrate their 50th wedding anniversary with a reception in their home at 704 Douglas, Sept. 16 from 2 to 4 p.m. Hosts will be their children Darrell, Alton, Dale and Loy of Big Spring and Edwin and Wanda Foster of Kermit.

Guy Ditto and the former Edna Marshall, were married Sept. 14, 1929, in the China Spring's Methodist Church parsonage by C.E. Simpson, pastor. Both were born in McLennan County.

Guy, Sept. 19, 1907 and Edna, Sept. 13, 1911.

Ditto attended China Spring's School, and Mrs. Ditto attended Center Hill School.

He worked on the Delmore Ranch until they moved to Knott in March of 1946, where he farmed until 1972 when he retired and moved to Big Spring.

They have 17 grandchildren and 16 great-grandchildren.

The children invite all relatives and friends to the reception.

CARTER'S FURNITURE
202 Scurry Street

DATE SET — Richard Pachall, Odessa, and Camilla Pachall, Big Spring, announce the engagement and approaching marriage of their daughter, April Marie Skeen, to Patrick Dale Ferguson, son of Mr. and Mrs. Don Ferguson, 1510 Vines, on Sept. 29 at St. Pauls Lutheran Church. The Rev. Carroll C. Kohl, pastor, will perform the 6:30 p.m. ceremony.

Circus coming

The annual Suez Shrine Clyde Bros. Circus will be at the rodeo grounds arena Sept. 17 with performances at 3:30 p.m. and 8 p.m.

Adult tickets are available at the Chamber of Commerce, the First National Bank, Gibson's, K-Mart, the Security State Bank, and the State National Bank.

The advance price for the adult tickets is \$2.50 or \$3. at the gate.

Area merchants supporting the shrine circus are offering tickets to children under 15 years of age for free. Children's tickets will be \$1.50 at the gate.

AARP meets for business and luncheon

Jackie Hancock, accompanied by Susan Joslin, Hillcrest Baptist Church, presented a variety of musical selections to the American Association of Retired Persons meeting Tuesday at 10 a.m.

Mrs. B.M. Keese, president, presided over the business meeting in Kentwood Older Adult Activity Center.

C.R. McClenny gave a report on current legislation of interest to the group. A covered dish luncheon followed with 32 present including one new member. Table games were played in the afternoon.

The group will meet next on Oct. 2 at the Kentwood Center.

APPOINTMENT TO O.U. — Mary John Cherry, daughter of Mr. and Mrs. John Cherry, 417 Edwards, has accepted an appointment to the University of Oklahoma in Norman, Okla. to be a teaching assistant in Speech Communication while working on a master's degree. Miss Cherry graduated in August from Texas Tech University with a BA in Speech communication where she was on the National Deans List and a varsity debater for two years. She is a member of Delta Sigma Rho, an honorary national debate fraternity and Phi Kappa Alpha.

NEWCOMER GREETING SERVICE
Your Hostess:
Mrs. Joy Fortenberry

An Established Newcomer Greeting Service in a field where experience counts for results and satisfaction.
1207 Lloyd 263-2005

Newcomers

Welcomed to Big Spring Aug. 24-30 by Newcomer Greeting Service Hostess Joy Fortenberry were:

David and Beverly Partlow with daughter Bianca, 10, come to Big Spring from Athens. David will serve as Texas Director of Howard College Information Service and manager of the Men's Dormitory at HC. The hobbies they enjoy are reading, skating and swimming.

Barry and Puchree Pomeroy of New Braunfels come to Big Spring with son Marcus, 8, and daughter Courtney, 3. Barry is employed at the Big Spring Federal Prison Camp as an accountant. Plants, handcrafts and reading fill their spare time.

John J. and Mary Lou Abendschan come to Big Spring from Lamar, Colo. The pastimes they enjoy are sewing, sports, jogging and bicycling. John is the administrator of Parkview Manor.

James D. and Linda Quinn, with daughters Kola, 3½, and Donna, 2, are from Eunice, La. James is manager of Sears Roebuck and Co. Cooking, jogging, reading and sewing occupy their spare time.

David and Iris Thayer with son Cameron, 2, are from Wichita Falls. Davis is

employed by Texaco, Inc. Pastimes they enjoy are sewing and needlepoint.

Martin Benson from Kilgore is employed by Sun Oil Co. He rides motorcycles and plays football during his leisure time.

William W. and Ruth Borella come from Houston. He is employed by Yell Specialist Construction, Midland. The couple enjoy fishing, skating and bowling for recreation.

Anthony H. and Sheila Tuck are from Odessa. The couple have a son, William, 5, and a daughter, Raye Anne, 9 months. Anthony is employed by Yale E. Key Well Service. Their hobbies include bowling and gardening.

Ronald N. and Debra Allen are from Lawton, Okla. Ronald is in the army at Ft. Sill, Okla. The couple have one son, Ronald, 3. Their favorite pastimes are hunting, fishing and crafts.

Douglas and Tena Cross, with son, Larry Jack, 2, come from Amarillo. The couple read, sew and attend movies in their spare time. Douglas is employed by Pool Well Service.

Courtney and Lynne Sandy Carroll are from Ft. Worth. Courtney is a management trainee at Sid Richardsons. This talented couple plays the guitar and piano, sings

and writes music. In addition they write short stories and enjoy photography in their spare time.

Ray and Clara Savage come to Big Spring from Osawatimie, Kans. Ray is road foreman of engineers in the M. & P. Railway. Reading occupies their spare time.

Brandon and Vicki Hash come to Big Spring from Monahans. The couple have two daughters, Jo Lynn, 7 and Donna, 6 and one son, Brandon, Jr., 5. Fishing, camping and sewing occupy their spare time.

Robert W. and Brenda Riffe come to Big Spring from Cleveland and he is employed by Damson Petroleum Service. The couple have two daughters, Windy, 2 and Lesa, 1 and one son, Robert, 3 months. Reading is the pastime they enjoy.

Tommy and Beth Crosson are from Monahans. Tommy is employed by Jack Cathy Construction. The couple has two daughters, Shonda, 2½ and Shellie, 6 and one son, Jason, 4. Movies and swimming occupy their spare time.

Sandra Mathews comes to Big Spring from Lubbock and is employed by Medallion Mobile Homes. Fishing, motorcycles and golf are pastimes she enjoys.

PTA officers to be introduced

The first Washington School P.T.A. meeting will be Tuesday at 7:30 p.m. in the Washington cafeteria.

New officers for 1979-80 will be introduced. Mike Faulkner will serve as

president, Linda Cathey, vice president; Linda Baker, secretary; Sharon Anderson, treasurer; Virginia Oliver, membership chairman; Laura McEwen, publicity chairman; Linda Cathey, carnival chairman, Sandra Logback, raffle chairman and Marsha Rodgers, Hospitality.

Tickets will be sold for the raffle for \$1. The item to be raffled is a package for two at the Dallas Cowboy game.

The group asks that each one check with his child's teacher to be sure that each room mother. This is a must for a successful carnival.

The Washington School P.T.A. is hoping parents will become active involved with P.T.A. this year.

Yearbooks issued

The Forsan Study Club met for a Western Dress Outdoor Breakfast at Mrs. W.T. Conger's home Aug. 18.

Twelve members present with one new member welcomed, Brenda White. The roll call was answered with one basic rule of Robert's Rules of Order. The Federation History was presented and the yearbooks were issued.

Hostesses were: Mrs. H.H. Story, Mrs. W.T. Conger, Mrs. L.B. McElrath, Mrs. T.M. Dunnagan and Mrs. Jesse Summers.

Girl Scout organizational meet planned

An organizational meeting for 6th grade Girl Scouts will be held Sept. 13 at the First Baptist Church Activity Building, located at the rear of the church.

The meeting will begin at 7 p.m. and all interested 6th grade girls and their parents are invited to attend.

Increases cooling sensation Fans make comeback

Circulating fans create air movement and increase cooling sensation.

Both the oscillating fan and the old-time ceiling-mounted fan are designed to create air movement within a given space by the use of rotating blades or paddles.

Oscillating fans are portable and can be moved easily from one room to another. Efficiency in circulating air depends on design. The more air a fan moves in a given time, the better its cooling potential.

The less electricity it requires to move the air, the cheaper and more efficient it will be to operate.

Generally, a 12-inch blade will move less air than a 20-inch blade, and the fan with the more power will thrust air further into the room.

An oscillating fan distributes its cooling effect best when set to turn from side to side. Some models permit adjustments in the arc or stationary operation by adjusting a control knob.

A clutch that slips or disengages when the swinging fan meets an obstruction is a desirable feature on an oscillating fan. This feature prevents a serious pinch if fingers are caught between the fan head and the pedestal.

It also keeps the fan from tipping over if it meets an obstruction as it swings. Since fan speed is often related to how noisy a unit is during operation, units that give a choice of low, medium and high speeds offer some flexibility. Expect a higher level of operation noise at higher fan speed than low or medium speed.

If the unit will be used at night or in a child's room, make sure the unit operates quietly on a low setting.

Popular in the early 1900's, ceiling-mounted fans are making a strong comeback because of their energy-saving potential as well as the nostalgic touch they add

to an area.

Today's ceiling fans come in a wider assortment of colors and styles, but their operation is essentially the same as the original models. Paddle blades, propelled with about the same power required for a light bulb, stir up stagnant air to keep room temperatures within the comfort zone.

Because of size and location, the ceiling fan is capable of redistributing sizable amounts of air over a wide area.

Since they use less than 200 watts, they're an economical substitute for air conditioning on those not-so-hot days, as well as an economical and effective supplement for those higher air-conditioning settings.

Units which permit a change of pitch on the paddles or blades will make for more effective use during both heating and cooling seasons.

Heavier, cool air that accumulates near the floor will be drawn upward and recirculated by the revolving paddles during the summer season.

During winter when heated air accumulates at the ceiling, the fan works to move warm air gently downward for a more consistent temperature from floor to ceiling.

Some units accomplish this dual-season feat by a motor that permits direction of the paddles to be reversed, or tilt of the blades to be changed.

While most models are equipped with variable speed motors, this feature is especially important when the unit is used in conjunction with winter heating.

Unless a low speed can be achieved, uncomfortable drafts will result throughout the heated area.

Most manufacturers package ceiling fans for easy do-it-yourself installation. Short-stem mounts are included that provide seven-
