

CLOSE CALL — Charles Johnson, 1106 Sycamore, an employee of Medallion Homes on 11th Place, narrowly escaped serious injury after being caught in an electric scaffold at the business. Johnson had reportedly been attempting to make adjustments to the scaffold when his left arm became caught in the machinery. Fellow workers

freed him, and an ambulance and the Big Spring Fire Department were summoned. Johnson was taken to Malone-Hogan Hospital where he was kept for observation, but it appears that he suffered only bruises on his arm and right leg.

U.S. economy rebounds; seventh recession doubtful

WASHINGTON (AP) — The U.S. economy rebounded from a second-quarter slump to grow at an annual rate of 2.4 percent from July through September, the government reported today.

The figure from the Commerce Department was stronger than expected and added new fuel to the controversy about whether the nation's seventh recession since World War II was under way.

Much of the growth was attributed to a surge in sales, which had suffered from April through June because gasoline lines inhibited shopping and a shortage of crude oil depressed trade, said a Commerce analyst who asked not to be identified.

The third-quarter growth, which some analysts say could be a temporary plateau before the nation's output again turns down, followed a second-quarter decline of 2.3 percent at an annual rate.

Had the third-quarter figure also shown a drop, the statistics would have lined up well with the traditional definition of a recession: two consecutive quarters of declining output.

The third-quarter figure was the strongest so far this year, though still weaker than the 3.5 percent expansion in the third quarter of 1978.

And it occurred, in good part, because Americans saved a mere 4.1 percent of their earnings — the lowest savings rate in more than 25 years, Commerce analyst Adren Cooper said.

Is the economy in recession?

"We don't know from this," Cooper said. "If you look at the figures, gross national product is back almost to the level of the first quarter."

Inflation adjusted gross national product stood at \$1.43 trillion, about \$2 million higher than the first quarter level, the report showed.

Consumer purchases from July through September rose 1.1 percent to \$924.8 billion, more than recovering from the 0.7 percent decline of the previous quarter, the report indicated.

Trade surged 47 percent to \$19.4 billion, again more than making up

for the 22 percent drop in the second quarter.

Although the report indicates that inflation slowed from an annual rate of 9.3 percent in the first two quarters of the year to 8.4 percent in the third quarter, the income of Americans suffered.

Income adjusted for both inflation and taxes was down 0.3 percent in the third quarter to \$990.3 billion. It had fallen 0.4 percent in the preceding quarter.

"Real income is down, yet there's a strong recovery in consumer spending," Cooper noted. "Consumers didn't save. They just spent most of their money."

Before adjustment for inflation, the value of the nation's goods and services stood at an annual \$2.39 trillion in the third quarter, up at an 11 percent annual rate from the second quarter.

The statistics are likely to heighten, rather than depress, debate over whether there is a recession.

There is little debate among analysts that the nation is in for its seventh recession since World War II.

Suspect arrested after local woman raped in downtown office

A 22-year-old transient was arrested 11:40 a.m. today in connection with the criminal assault of a local woman inside the office of a downtown building.

Police responded to a call from the office at 11 a.m., and immediately alerted all officers to be on the lookout for a man nearly six-feet tall, weighing about 160 pounds with very short brown hair.

"We were all alerted, and we were looking everywhere from him," said Sgt. John Minnick, who assisted with the arrest. "The first solid report was when someone told (Detective) George Quintero that the guy had been spotted at Fourth and Goliad."

Combing the area, Patrolman Ray Meek spotted the suspect crouching under the west viaduct of Gregg Street. Officers speculate that the suspect may have been waiting for a passing train on which to make his getaway.

Meek walked toward the man with gun drawn, and advised him that he was under arrest. According to Meek, the suspect at first ignored him despite the gun, but surrendered shortly thereafter.

Minnick and Sgt. Richard Doane arrived at the scene after Meek had made the arrest, and helped to transport the suspect back to the police station.

The victim was taken to Malone-Hogan Hospital. She is reported in "good" condition.

Police looking for young girl possibly bitten by rabid kitten

In a new twist to an old story, Big Spring Animal Control Officers are looking for a "bitch" rather than a "biter."

According to city officials, a resident on Sycamore witnesses a girl, approximately 5-foot-tall, with light brown hair, stop along the street to play with a kitten, 5:30 p.m. Thursday. The kitten struggled to free itself, and in the process may have

scratched and bitten the girl.

The resident captured the feline, and delivered it to local code enforcement officials. The kitten is in quarantine, and may have begun to show signs of rabies.

The girl, or anyone having information about her identity, should contact the city in regard to this matter.

Permian Basin History Society will meet here

Area history buffs will have a chance to learn more about the territory here Saturday when the Permian Basin History Society meets 10 a.m. at the Dora Roberts Community Center. Anyone interested is invited to attend.

Reservations have been received from many points ranging from Abilene to Kermit.

Presentations include Borden County early brands by Edna Miller, who has done an outstanding work in preservation of Borden County Agriculture in the Depression; Polly Mays, chairman of the Howard County Historical Survey committee and head of the Pottion House, on historical Big Spring homes. A short sketch on the historic "big spring" as a pivot point on Indian and U.S. Army trails will be given by Joe Pickle.

Luncheon (\$3.50) will be served at the center. Afterwards there will be a fast-moving tour of the Pottion House, the Heritage Museum, the spring, and Scenic Mountain State Park. Dr. Roger Olien, Odessa, is president of the society, and Dr. J. Tillapaugh, Odessa, is the program chairman.

Focalpoint

Action/reaction: Saving time?

Q. Can you tell me when Daylight Savings Time goes off? This question has come up on the golf course and I said I'd find out.

A. It goes out at 2 a.m. the last Sunday in October (Oct. 28) when you set your clocks back one hour. This is always a source of confusion for most people, especially those who show up one to two hours early for work. The way to avoid this confusion is to memorize this jingle: "Spring ahead, fall back." Daylight Savings Time resumes at 2 a.m. the last Sunday on April, 1980.

Tops on TV: Dallas, feud

Kristin (Mary Crosby) charms J.R. into giving her a job — and also giving into an affair — while Bobby makes the discovery at Pam is pregnant. The "Dallas" saga starts at 9 p.m. on ABC. The All-Star Family Feud Special featuring celebrities swings out at 7 p.m. on ABC.

Calendar: Spaghetti supper

TODAY

The Big Spring Band Booster's sponsored Spaghetti Supper at the Big Spring High School Cafeteria from 5:30 until 7:30 p.m. All the spaghetti, garlic bread, salad, tea and homemade pie that you can eat for \$3 for adults and \$1 for children 12 and under.

Coahoma Bulldogs' Homecoming football game, 7 p.m.

The Women's Aglow Fellowship will meet 7:30 p.m. in the Dora Roberts Blue Room. All local and area women are invited to attend.

The Merry Mixers will be having a salad supper and costume party, 8 p.m. at the Settles Hotel Ballroom.

SATURDAY

Merry Mixers will be having a street dance in Coahoma, 2:30 p.m. prior to Coahoma's homecoming parade.

Two-day art show of Mrs. Jannie Linney of Stanton begins today, 9 a.m. to 5 p.m., at Heritage Museum. Public invited.

Permian Basin Historical Society meets at Dora Roberts Community Center, 9 a.m. Public invited.

The Howard County Library will show two films from 2:30 p.m. until 3:30 p.m. They are: "The White Seal" and "Winter of the Witch."

Spring City Gals Extension Homemakers Club to sponsor Halloween, Bake Sale at Highland Center Mall from 10 a.m. until 5 p.m.

Another in a series of birthday parties celebrating the 50th anniversary of the Veterans Administration Medical Center will be from 2 until 4 p.m. in Room 219. Tom Castle's western band will be featured. Public is invited. Come and say hello to a vet.

Inside: Marathon mania

IT'S MARATHON mania time again in the Big Apple. Some 14,000 men, women and children are lining up Sunday at the Staten Island side of the Verrazano Narrows Bridge, eager to put their bodies through the agony of 26 miles and 385 yards of the run. See page 11-B.

THE TEXAS SUPREME Court rules that illegitimate children born Sept. 1, 1975 have until their 22nd birthday to establish the identity of their fathers. See page 3-B.

Is that Oswald's body buried in Dallas County or isn't it?

DALLAS (AP) — Dallas County medical officials say enough doubt has been cast on the identity of the body buried in Lee Harvey Oswald's grave that the remains should be dug up and verified.

But officials in adjacent Tarrant County, where Oswald's grave is located, have resisted the proposed exhumation. They say they will do so only if ordered by a court.

Oswald was named as the lone assassin of President John F. Kennedy by the Warren Commission. He was shot to death while in police custody two days after Kennedy's assassination in 1963.

"Somebody has raised the question as to who is in that grave. The easiest way to find out is to ... run some tests," Dallas County Medical Examiner Charles S. Petty said Thursday.

Petty's office was approached in August by an attorney representing British author Michael Eddowes, whose book "The Oswald File" suggests a Russian spy is buried in Oswald's grave.

Marguerite Oswald, Oswald's mother, said she would have no comment on the issue so long as a suit is pending in court, as one by Eddowes is. However, she added: "I don't know

what all the sensation is about."

As early as 1967, she had asked that the body be exhumed. However, Eddowes told the Fort Worth Star-Telegram earlier this year that Mrs. Oswald had not cooperated with him in his efforts to have the corpse dug up.

Eddowes says evidence indicates the Oswald who defected to the Soviet Union in 1959 was not the same man who returned to the United States in 1962 representing himself as Oswald.

He said for one thing the autopsy records of 1963 fail to show a mastoidectomy scar behind the body's left ear. Records also indicate a comparison of Oswald's dental X-rays with the teeth of the corpse was never made.

Petty's office decided to compare its autopsy records with Oswald's military records, and obtained them from the Navy Reference Department in St. Louis under a Dallas County court of inquest order, according to Assistant Medical Examiner Dr. Linda Norton.

"The discrepancies were numerous — scars on the body, color of eyes, height," she said. "The differences show up between his (military) entrance records in 1956 and the autopsy. In one his height, for in-

stance, is 5-foot-11. In the other it is 5-foot-9."

Petty said, "If there's a question and a reasonable question that science can resolve, then that's our business." He suggested X-rays and dental records could be used to establish positive identification of the remains in the Oswald grave in Fort Worth's Rose Hill Cemetery.

"We said to Tarrant County, if you exhumate we'll test him. We have more capability along that line than they do," Petty said.

But acting Tarrant County Medical Examiner Nizan Peerwani said, "This is a very delicate situation, and we have to tread very carefully." He said if he authorizes the exhumation, it would only be after he had the support of the district attorney and Oswald's mother, a Fort Worth resident.

Tarrant County Assistant District Attorney Marvin Collins said flatly he would authorize an exhumation only under "an order from a court that has the power to order them to do that."

Eddowes' lawyer Jerry Pittman, said he has contacted a state district judge in Dallas County who Pittman said is receptive to calling a court of inquiry with subpoena power to order the exhumation.

Eddowes was turned down earlier this year when he asked Tarrant County officials to dig up the Oswald grave. He filed a lawsuit, which he lost. It is pending in civil appellate court.

Dr. Norton said, "I feel it would be in the best public interest to conduct the exhumation. However, there are apparent legal disagreements... and political forces who do not want this body dug up."

Petty said he has not received an answer yet from Tarrant County officials on his request.

In his letter to Tarrant County, he said, "If the body had been buried in Dallas County, I would directly order the body to be exhumed and would conduct an autopsy upon the remains so as to be able to compare known dental records, etc., of Lee Harvey Oswald with the teeth of the body. A positive identification, or nonidentification, should result."

Oswald was accused of the assassination as Kennedy rode in a motorcade in Dallas. Oswald was shot to death by Ruby two days later as he was being transferred from the city to the county jail. Ruby died of cancer while appealing his murder conviction.

Weather

Golf ball-sized hail hits Midland-Odessa

By The Associated Press
Hail as big as golf balls lashed the Midland-Odessa area during a heavy thunderstorm that pushed across West Texas Thursday night. But West Texans enjoyed generally clear skies early today, while much of the rest of the state had cloudy to partly cloudy skies.

WEATHER FORECAST
WEST TEXAS - Considerable cloudiness tonight and Saturday. Continued very warm in the afternoons. Highs Saturday in the 80s except mid 90s lower elevations of the Big Bend. Lows tonight mid 50s north to the low 60s south except middle 40s mountains.

EXTENDED FORECAST
WEST TEXAS - Partly cloudy and very warm Sunday. Mostly fair Monday and Tuesday. Cooler most sections first of the week.

WEATHER FORECAST - Rain is expected in the forecast period, today until Saturday morning, for the Pacific Northwest. A band of showers is forecast from Oklahoma to the Great Lakes. Most of the country will be warm.

Clements considers White's court suit politically motivated

AUSTIN, Texas (AP) - Gov. Bill Clements doesn't think much of Attorney General Mark White's federal court suit against SEDCO Inc. and Permargo, a Mexican drilling company, for the Mexican oil spill.

"I don't think his suit is any good against anybody," the Republican governor commented after the Democratic attorney general filed the legal action Thursday in Houston.

"I think it is politically motivated," Clements commented, repeating a charge he has made frequently in his long feud with White over who should pay for oil spill damages to the Texas coast.

Clements was founder of SEDCO, a worldwide drilling firm, but, since becoming governor, has put all his stock in a blind trust. He says neither he nor SEDCO had anything to do with the June 3 oil well blowout in the Bay of Campeche.

White's suit claims that the Mexican oil spill has caused more than \$10 million damage to the state's economy and environment.

However, White told a news conference there would be no legal action against Pemex, the Mexican oil monopoly, "until it is certain that all negotiations by the U.S. Department of State for damages from Mexico in regard to the oil spill have been exhausted."

White stressed the state might ask more than \$10 million when the full impact is known of oil washing ashore on Texas beaches. He asked an additional civil penalty of \$1,000 a day since the oil from Ixtoc I entered Texas waters about Aug. 1.

White said more than 2.4 million barrels of crude oil has poured out of the uncapped well.

Three spill-related damage suits totaling more than \$355 million were filed previously against SEDCO, Pemex and Permargo by Texas fishermen, shrimpers and businessmen affected along the coast.

SEDCO filed a federal court suit in Houston asking that its liability be limited to \$300,000 under maritime law. The Houston court set an Oct. 23 deadline for any other damage suits against SEDCO.

White's suit alleges that under the Federal Water Pollution Control Act, SEDCO and Permargo are liable for the cost "removal of oil, including cost of restoration or replacement of natural resources damaged or destroyed as a result of the discharge of oil."

The suit claims that SEDCO, as owner of the "off-

shore facility," and Permargo, as operator of the facility, could be held liable for damages up to \$50 million each under the federal law.

"I am filing suit against Permargo and SEDCO for injuries and damages to the beds and bottoms of the lagoons, bays and inlands of this state and to their products, and to its

territorial waters, caused by the negligence, trespass and other fault of the defendants. Additionally, the state of Texas has suffered loss of tax revenues due to the impact of the oil spill upon the state's tourism and seafood industries and the general economy of the affected coastal area," White told the news conference.

Doctors rush stretcher use

In an effort to prevent injuries to high school football players, the Texas Medical Association (TMA) has recommended that stretchers be used more often to carry injured athletes off the field.

The TMA Committee on Athletics said a player might make an injury worse by walking. Ankle, leg and knee injuries, which are some of the more common problems, especially might be aggravated because players would be using the injured part to get off the field.

In order to avoid such injuries, TMA urges coaches, booster clubs and other fans to provide the approximately \$50-\$100 needed to buy a quality stretcher. This amount is relatively small in relation to the extra expense that might be caused by complications

resulting from walking off the field.

Bill Farney, University Interscholastic League (UIL) director, said the UIL does not require stretchers yet but does encourage safety practices such as having ambulances, doctors and stretchers at games. Some schools are unable to have all these safety features but they often can provide some equipment or acceptable substitutes.

TMA's stretcher policy is part of a growing move to increase football safety. Just this year the UIL passed a rule designed to decrease knee injuries by further regulating blocking below the waist.

Other TMA athletic committee efforts include encouraging doctors to give pre-season physicals and be present at games.

ATTEND THE BIG SPRING Arts and Crafts Festival

SATURDAY OCT. 20 AND SUNDAY OCT. 21
(This Weekend)

Dorothy Garrett Coliseum at Howard College

Hours: Saturday 10:00 - 6:00 P.M.

Sunday 1:00 - 6:00 P.M.

THIS IS THE THIRD ANNUAL ARTS & CRAFTS FESTIVAL SPONSORED BY THE BIG SPRING AREA CHAMBER OF COMMERCE. THE PUBLIC IS INVITED. ADMISSION IS FREE. COME OUT. LOOK, SHOP BROWSE, HAVE FUN!

Festival boasts wide variety

The third annual Arts and Crafts Festival Saturday and Sunday at the Dora Roberts Coliseum has a wide variety of all kinds of artistic endeavor displayed in 130 colorful and intriguing booths. Pictures in oil, ink, water color, pen and ink, pencil and acrylic are a few of the offerings.

Silver and gold work, tole painting, decoupage, woodwork, fibercraft, rustic frames, ceramics, porcelain, shell craft, macrame, wooden folk toys, art on marble, candles, handmade crafts, dolls, toys, hand-crafted signs and plaques engraved in wood, and handmade Christmas ornaments are some of the craft offerings.

Many of the exhibitors are Texas natives or residents, but one, Dolores Barr, came from Decatur, Ill. to show her hand painted china and glass, among other top artists from all over the nation.

Many items will make beautiful additions to any home or beautiful and appropriate Christmas or birthday gifts.

The Chamber of Commerce expects this year's Art and Craft Festival to draw between 25,000 to 35,000 visitors. The booths have been sold out since June, so this is really a topnotch festival.

Thirty artists have ads in this section

Prior to last year's Arts and Crafts Festival, it occurred to Watercolorist Al Scott, who is also a Herald sales representative, that the exhibitors themselves might like to have the chance to purchase advertising in the Herald to publicize their talents and booth numbers. Scott wrote letters to all of the exhibitors, and the response was overwhelming.

More than thirty artists and craftsmen purchased small ads in last year's special section, and they are doing it again this year.

"Handling a large amount of these tiny ads has been quite a chore," said Scott, "But it was also a lot of fun, and I tried to make each of the ads as individual as the artists themselves."

Scott said he hopes that visitors to the festival will check out these ads. Most all will have the booth numbers, and the Map in this section will help to find your favorite artist or craftsman.

Scott thanks all of the exhibitors who responded to the Big Spring Herald "mail-out" for ads in this section.

INSPIRED BY ART AND CRAFT FESTIVALS — Harley Campbell's metal work reflects Southwestern Heritage in part and is decorative as well.

Campbell features metal sculpture

Harley Campbell of Lamesa created a selection of metal sculpture that is representative of West Texas. He says he did not become interested in metal art until he began visiting arts and crafts shows several years ago.

"I create a variety of artistic objects," he said. "Some of my work reflects our Southwestern heritage, and some of it is decorative only. Included in my display are windmills, ranch scenes, oil wells and pumps, cotton stalks and cotton trailers. I also make wall hangings, butterflies, birds, owls, and water fountains."

The materials used in his work include brass, copper, chrome, and steel.

Food concessions to offer variety

The four food concession stands, which have been leased to nonprofit organizations again this year to help them raise funds during the festival, will feature a wide variety of snack items.

Staying with a good thing seems to be the idea behind the selections by both the Mu Zeta sorority and the 1970 Hyperion Club. The Mu Zeta will sell cokes and Indian bread, and the Hyperion Club will be making nachos again this year. Both groups have participated in the festivals since the first festival in 1977.

Beta Sigma Phi and Alpha Kappa Omicron sororities, who were new entries last year, will feature a larger selection with cokes, tamales, cookies, and Santas bread dough. And the Big Spring Jaycees, who have also been active supporters of the festival, will offer chips, soft drinks, sausage, hot dogs, chili dogs, chili, donuts, and popcorn.

Selfridge is in Hall of Fame

Mary Selfridge, Borger, started painting in 1978. She is, however, becoming a master of the dry brush watercolor technique.

Selfridge's paintings reflect the everyday life of the plains Indians, one of her Indian paintings is in the permanent collection of National Cowgirl Hall of Fame.

"GENTLEMAN OF THE NIGHT"

Roberta Ross portrays nature

Roberta Ross of Big Spring is a free-lance artist, writer, and craftsperson. Ross says that she has a deep and abiding love of nature and that this has played a great part in inspiring her paintings.

A Texas native, she paints in several medias — oil, watercolor, pastel, and mixed media, and gives workshops at various times. She is a member of the Big Spring Art Association, Texas Fine Arts Association, National Society of Tole & Decorative Painters, and Bluebonnet Chapter affiliate of Arlington, and the International Society of Artists.

"Elsie" hunts old houses and barns

Elsie McMillan of Earth, Texas, says that "all painting is fun, but I enjoy painting in oils and doing different drawing techniques the most. My love is hunting for old houses — barns — windmills and doing trees and streams. I am also fascinated with portraiture," he continued.

"I have won numerous awards with my painting and I am always surprised and pleased that my efforts catch the eye of the judge. This always encourages me to work harder," she said. The efforts of her work will be on display at the Big Spring Arts and Crafts Festival this weekend.

Dewey Haragan grinds own

Dewey Haragan of Sudan, Texas, makes all of his picture frames from raw wood. But what makes his frames especially popular is the fact that he does his own frame designing, runs the moulding, grinds his own cutter blades, and builds the frames at his shop in Sudan.

PAINTING IS FUN — Elsie McMillan loves to paint old houses, barns, windmills, trees and streams. She also does portraits.

WELCOME ARTISTS AND CRAFTSMEN TO BIG SPRING

We are proud to be associated with the BIG SPRING AREA CHAMBER OF COMMERCE AND THE BIG SPRING ARTS AND CRAFTS FESTIVAL to be held this weekend and we sincerely urge the public to attend.

Paul Kime travels for his research

P.B. Kime, born and raised in South Texas, now travels and paints on location in western areas for his research. Material is then taken to his studio and either finished or reworked into other paintings, drawings, or whatever form the artist feels depicts the story best. Kime has been practically raised on art of many forms from music to painting. He now works in oil, watercolor, ink and pencil, and is also an accomplished sculpture in wood, stone, clay and wax, which is cast into bronze.

The artist is dedicated to western art, being raised on and around farms and ranches. He has studied his subjects well and experienced most of his stories of ranch life today. His historical works are researched and studied well before a painting is started and then he paints from the inner feelings which guide his thoughts.

Kime sometimes feels as though he is part Indian, although he cannot prove any, but quite often feels as though he has "been there" while portraying some of the Indian experiences. All of this brings out some of the best realism possible.

Not content to be "just an artist," Kime also instructs art students, other artists, and instructors throughout the United States. Through years of painstaking trial-and-error experimentation, Kime has developed a new a la prima method in oil painting, which is a modified version of an OLD MASTERS technique. This method has proven so successful that he is now training instructors who will teach this technique nationwide starting in January 1980.

He and his staff are currently writing a series of books which will outline the technique in detail, giving step-by-step instructions, as well as color illustrations on each step, which will enable even the beginning art student to develop rapidly without the pitfalls and stop-gaps built into other methods.

The Big Spring Arts and Crafts Festival will be Kime's last planned exhibit for 1979. There are plans for him to appear on the Johnny Carson Show.

WINTERTIME TRAVEL — Paul Kime paints a realistic scene of travel in bygone days in the dead of winter.

Ruth Taylor Jerry Seagle must paint

Ruth Taylor of Yoakum County, has paintings hung in several states and abroad.

A native of Corpus Christi, Jerry V. Seagle was graduated with honors in 1964 from the University of Texas and received a B.F.A. degree. He also did graduate work at the University of Texas and studied on a graduate fellowship at the University of the Americas in Mexico City.

The Austin resident says "my approach to painting is to try and interpret the beautiful and the little-noticed parts of nature. From the backwash areas of the coast to the rugged hills of Austin — I find unlimited inspiration and subject matter."

Painting seriously since the age of twelve and winning awards since his high school days, Jerry has grown to achieve an important rank among the artists of Texas. His paintings hang in both important private and public collections. His one-man shows number over fifty; he has shown in over eighty-five juried exhibitions, both state and national; and has received over fifty state and national awards.

"The challenge is placing an object or objects to form a good contrasting, simplified composition will never bore me. Every painting becomes new and exciting when I begin. I may work from drawings or completely from memory — but rarely do I know the outcome," Seagle said.

"I must always paint, there is so much there that needs to be put into words — the words of paint and paper and brushes and canvas — the words that everyone can see, and interpret, and understand — the words that are so beautiful," he concluded.

His impressionistic look at art is refreshing and new, which is one of the reasons he has become one of Texas' most talented and popular young artists, winning numerous awards in Texas, the South, and Southwest.

THE LAST VESTIGE — Jim Thomas' portrayal of an Indian looking at the skull of a vanquished meat supply as his dog observes his anguish.

Jim Thomas is gold medal award winner

Working in sculpture more than paintings, Jim Thomas loves the American West. He strives to make his artwork an accurate documentation of the West and its people. A founding member of the Texas Cowboy Artists Association, Thomas has twice been recipient of that organization. Gold Medallion Award for his sculpture. He was one of the TCA artists chosen to illustrate "XIT — The American Cowboy," an art book published in 1974.

Thomas began his serious interest in art in 1966, gradually changing over from agricultural advertising and marketing to full time artist by 1970. Since that time his work has gained national acceptance, becoming a part of the collections of ex-Presidents Gerald Ford and Lyndon Johnson, Texas Governor John Connally, Congressman Jack Hightower, Lloyd Bentsen, and Bob Price; the Chancellor of Austria, the University of Texas, West Texas State University and numerous other prestigious institutions and private collectors.

The last few years have seen Jim Thomas sculptures increasing in size with plans for several full-scale historical presentations.

Reputed organized crime figure denies involvement

SAN ANTONIO, Texas (AP) — A reputed New England organized crime figure wants a federal grand jury to know he had nothing to do with the May 29 assassination of a federal judge, but refuses to answer any other questions, according to his attorneys.

U.S. District Judge Adrian Spears has ordered Salvatore Michael Caruana, 38, of Boston to appear before the grand jury investigating the sniper slaying of U.S. District Judge John H. Wood Jr. and the attempted assassination last year of a federal prosecutor.

"He (Caruana) didn't have anything to do with the Judge Wood assassination and doesn't know who did it," attorney Gerald Goldstein said Thursday. "He's willing to tell that to the grand jury. Anything more than that is not properly before this grand jury anyway."

"Mike Caruana didn't kill Judge Wood. He had nothing to do with it. I put my honor as a man and my license as an attorney on that," said Boston attorney Martin Weinberg.

Caruana, under investigation by another federal grand jury in Boston,

is scheduled to go before this panel today. His attorneys said they feel any other questions here could be aimed at incriminating Caruana in the Boston investigation and have advised Caruana to invoke his Fifth Amendment privileges.

The panel here is hearing this week from more than 30 witnesses, including Caruana, convicted "hit man" Charles V. Harrelson and members of the Bandidos Motorcycle Club.

The subpoenas do not necessarily mean the witnesses are targets of the investigations.

Harrelson, 41, who served a prison sentence for the 1968 murder-for-hire of a Hearne businessman, is also due back today after Spears refused on Wednesday to quash subpoenas against Harrelson and his wife, Joan

Starr Harrelson. Harrelson's attorney objected that the panel is on "a fishing expedition."

More than a dozen Bandidos appeared before the panel Thursday amid increased security at the courthouse that may soon bear the name of the assassinated judge.

Some Bandidos wore their "colors" — club insignias — emblazoned on leather jackets and roared up on black motorcycles. But at least two others arrived in elegant, latemodel Lincoln Continentals.

All courthouse visitors were screened for weapons by sensitive metal detectors and armed federal marshals and FBI agents were stationed throughout the circular building.

The FBI has said in court hearings that Caruana an-

swers directly to Raymond L. Patriarca, the reputed head of the New England crime syndicate. Caruana was also a close friend of murdered El Paso defense attorney Lee Chagra, the brother of fugitive drug smuggler Jimmy Chagra.

Assistant U.S. Attorney Wayne Speck said in the hearing that the grand jury wanted to ask Caruana numerous questions, including with whom Caruana associated and where he was "at the time the Jimmy Chagra case was set for trial."

Wood, known as "Maximum John" for his stiff sentences in drug cases, was scheduled to preside last summer in Chagra's drug trial. Chagra's attorneys, claiming Wood was prejudiced against Chagra, attempted in bitter court-

room battles to have Wood removed from the case.

Weinberg and Goldstein unsuccessfully asked Spears to limit the grand jury's questions only to those about the Wood slaying.

Goldstein said Caruana might not even answer those questions if it appears that might jeopardize his Fifth Amendment rights on subsequent questions.

Caruana, wearing expensive cowboy boots, a jacket and tie, an elaborate gold cowboy belt buckle and a gold ring with diamonds arranged in a horseshoe, pleasantly deferred all questions to Weinberg.

Asked about the FBI report on his alleged connection to Patriarca,

Caruana said, "I'd like to answer that one, believe me." Caruana has refused to reveal his occupation.

He clowned for television cameras as he left the courthouse, waving and quipping at one point, "Hi Mom."

Advanced Career Training offered at McKinney center

The Advanced Career Training Program (A.C.T.) was established by the Job Corps in the summer of 1978 for Job Corps trainees seeking advanced vocational and academic training through a college or university.

The A.C.T. Program at the McKinney Job Corps Center in McKinney, Texas, has been operational since May, 1978, at Grayson College in Sherman, Texas.

Fifty Corps members from the McKinney Center are enrolled at Grayson College and are completing their job training in advanced vocational programs which include Business Administration, Mid-Management, Law Enforcement, and Computer Science.

McKinney Corps members wanting to enter the College Program must be in the Job Corps 90 days and have a GED or high school diploma.

According to Mrs. Katherine Mitchell, Coordinator of College Programs at the McKinney Center, "We interview every student on Center each semester who qualifies academically for the program. We also look at the attitude and conduct record of the Corps-

members to see how their conduct has been on Center."

In addition to interviewing each candidate and evaluating their attitude and performance at the McKinney Center, Katherine Mitchell is on campus at Grayson College daily to work with both Corpsmembers and College Officials.

As a result of daily visits with students, college counselors, instructors and officials, 20 percent of the A.C.T. Corpsmembers have made the honor roll for academic excellence.

The personal and social development of the Corpsmembers on campus has been a positive benefit for each student.

Fifteen A.C.T. students were members of the college drill team. Corpsmembers have been participants on the Basketball Team, Tennis Team, Newspaper Staff, Annual Staff, Campus Radio Station and a large number of individual clubs and organizations.

Beverly Bell, EEOC Director for Sears in Dallas was recently at the McKinney Center and stated that Corpsmembers completing 60 hours of college credit with good grades would be eligible to interview for management training programs with Sears.

Katherine Mitchell, along with Placement Representatives Carol Buris and James Martin from the McKinney Center, are

working with companies in the Dallas-Ft. Worth Metroplex for college entry level jobs for McKinney A.C.T. Corpsmembers.

The McKinney Center has recently published an A.C.T. College brochure to provide more information to both young men and women, ages 16-21 from Big Spring.

Copies of the McKinney A.C.T. College brochure can be obtained by writing McKinney Job Corps Center, Bill Griffin, Corpsmember Services, P.O. Box 750, McKinney, Texas 75069.

Care of patient on ventilator seminar topic

On Monday, Nov. 5, a three-hour program on the "Care of a Patient on a Ventilator" will be presented for R.N.'s, L.V.N.'s, and nursing students in the Big Spring area.

This seminar is co-sponsored by the Texas Nurses Association, District No. 24 and the Howard College Continuing Education Department, and has been approved for three C.E.A.R.P. points by the Texas Nurses Association.

The course will be held in Room No. 206 of the Horace Garrett Building on the Howard College campus from 6:30-9:30 p.m., and cost of instruction is \$5 per person.

The instructor for the course is Kenneth Randall, a Registered Respiratory Therapist and Director of Respiratory Therapy and the E.E.G.-E.K.G. Department at Malone & Hogan Hospital.

The purpose of the program is to provide participants with an increased understanding of the operation and function of mechanical ventilation. Randall will also discuss various procedures for operating and monitoring the ventilator, as well as methods of weaning a patient off such a machine.

Anyone interested must pre-register with the Adult and Continuing Education Department as registration cannot be accepted at the class. For more information, contact the Continuing Education Department at (915) 267-6311, ext. 70.

Engineers call meeting

James E. (Jim) Hessert, technical services director for Custom Oil Recovery Technology, will address the Permian Basin Section of the SPE of AIME at 6:30 p.m. Tuesday at the Ranchland Hills Country Club in Midland. His talk will be entitled "Gelled Polymer Technology for Improved Sweep Efficiency and Water-Oil Ratio Control."

THE STEEPLEJACK

Look closely . . . in this picture a man is risking his life!
 An old and respected trade is his. It had its beginning centuries ago when Christianity first began to express its devotion in unique forms of architecture. How could Christians proclaim constantly their faith in Christ? How could they lift the eyes of others to behold the Lord of Life?

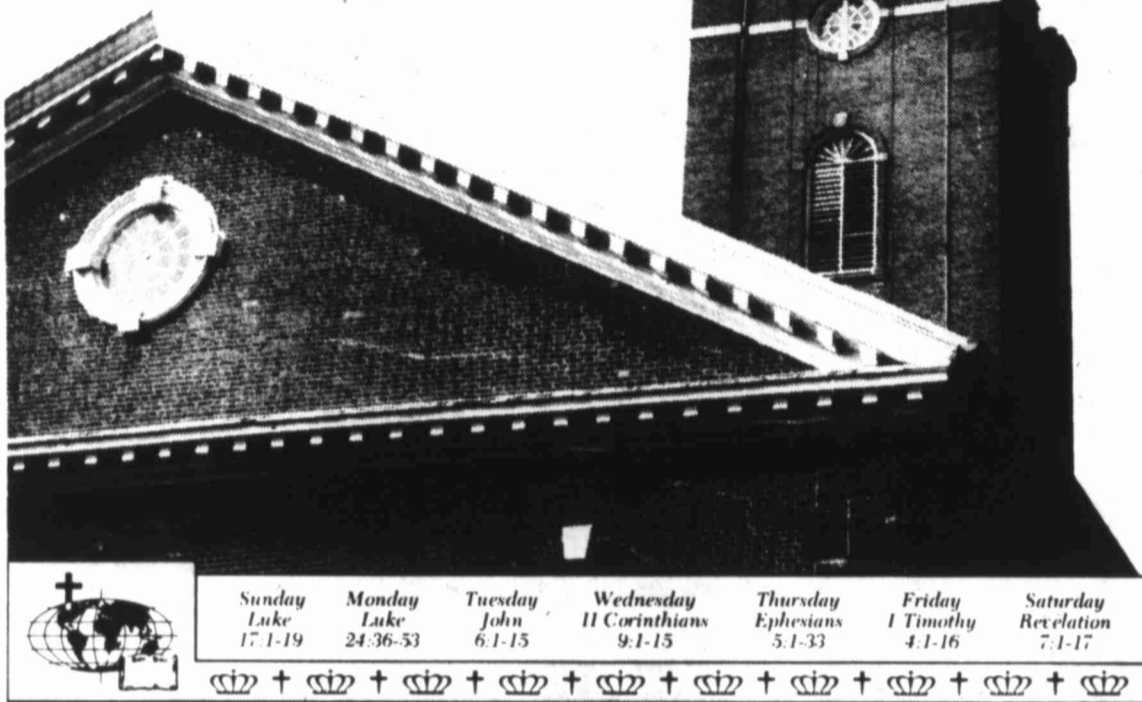

Soon, over gabled village roofs rose gleaming spires. And men who tilled the fields, and men who trod the lanes, rejoiced to behold the symbol of Faith.

Then one day cities replaced villages . . . skyscrapers dwarfed the spires of God. And so, on the day this picture was taken, ten thousand people passed by and never raised their eyes. Only a few looked upward and thought in mild surprise, "Why, isn't that a man way up there on the steeple?"

Yes, A MAN. One of hundreds of millions whose skill and courage continue to be needed as the Church fulfills its mission.

Maybe your church doesn't have a steeple. But it has a task to challenge your skills . . . your courage.

'Realistic and sometimes grubby'

'Jesus' film boasted for accuracy

NEW YORK (AP) — One of the most authentic motion pictures ever made on the life of Christ is being released Oct. 19, in 600 cities in the South and West.

It's to open elsewhere later, with blanket showings by next Easter.

Called simply "Jesus," it is a tightly paced, gripping and exactly accurate film rendition of the New Testament book of Luke.

"A masterpiece," says Roman Catholic Bishop Fulton J. Sheen, one-time famed television preacher and author of numerous books on Jesus and the historical-cultural atmosphere in which he lived.

The movie, produced at a cost of \$6 million by the Genesis Project and being distributed by Warner Brothers, sticks precisely to the Scriptural dialogue and action as well as to historical settings.

"The Bible comes alive and walks into the 20th century," says the Rev. Buckner Fanning of San Antonio's Trinity Baptist Church.

Unlike other films about Jesus which have toned down scriptural material, often subordinating substance and mystery to spectacle, the new one stays with the original script, and does it with dramatic impact.

"A 1st Century 'docu-drama,'" noted British

(AP LASERPHOTO)

PORTRAYS CHRIST — British actor Brian Deacon has the title role in "Jesus," a movie opening in 600 American cities in the South and West next Friday, Oct. 19. One of the most authentic movies ever made on the life of Christ, it cost \$6 million to produce and sticks precisely to the Scriptural dialogue and action as well as to historical settings.

producer John Heyman calls it. "It is realistic and sometimes grubby. Unlike other film versions, our temple has sheep dung and garbage in the courtyard, because that is the way it was.

"Jesus and the disciples did not walk around in pristine robes with halos over their heads. When you

see Christ in this film, you can believe that he is a man who spent 18 years in a carpenter shop before he started his ministry.

"None of the reverence and respect has been

sacrificed but we are dealing with a Jesus who is strong and has muscles. He is a man who can smile and laugh and share his emotions with people."

Five years of research by

archaeologists and historians went into the production, with special workshops set up to turn out accurate replicas of first century pottery, clothes and artifacts, such as the alabaster flask used by the woman who anointed Jesus' feet.

The film was made in Israel.

The movie dialogue is taken straight from Luke's account, as well as the miracles, the crucifixion and bodily resurrection, which are presented as fact, not symbol.

Today's English Version of the Bible is used, except for some particularly familiar passages, such as the Lord's Prayer and the Beatitudes, when the King James version is used.

More than 1,000 subscribers of 35 denominations are using the films in educational work as they come out.

Half the profits from North American showings of the movie will be used for mobile projection units to show it in remote areas abroad, with the rest to help finance continuing work of the Genesis Project.

Local sermon adopts new look Sunday

During the morning service this Sunday, worshippers at the First Christian Church will "experience" a traditional sermon with a brand new expression.

At the 10:50 a.m. service, worshippers will share with an internationally recognized repertory drama group, the "Covenant Players."

Touring this area from Los Angeles, Calif., this drama group has been in existence for over 16 years and has performed over 450,000 times in 17 countries around the world. With 45 full-time touring groups, they have stirred and challenged people to take a closer look at themselves and the practice of their faith.

The drama group utilizes the fact that Jesus preached by telling stories in parable form. Also, the drama group capitalizes on the fact that the early church used storytelling prolifically to communicate the truths of the Christian gospel because its followers could not read the Scriptures for themselves.

The morning service will follow a traditional format except for the "sermon time" which will be devoted to the players. Everyone is cordially invited to share in this service.

Former pastor to lead Methodist services

Bishop Alsie Carleton will conduct worship services at First United Methodist Church Sunday, 7 p.m. Immediately following worship services, a reception will be held in Garrett Hall to honor Bishop and Mrs. Carleton.

The Carletons, before being assigned to the Episcopacy of the United Methodist Church, were the Big Spring parsonage family. While Bishop and Mrs. Carleton pastored in Big Spring, First Methodist Church built a new sanctuary and acquired the church parsonage.

Returning to First United Methodist Church as the director of Christian Education is Mrs. Sara Beth Reid who has recovered from surgery. Her office hours will be from 8:30 a.m.

BISHOP ALSIE CARLETON
to 3:30 p.m. Monday through Friday. The church staff has expressed thankfulness for her recovery and return.

Comedian to speak at Evangel Temple

The Rev. D. Terry Wilson, pastor of Evangel Temple, 2205 Goliad, has extended an invitation to the public to hear Jerry Jordan, a West Texas comedian, at 7 p.m. Sunday.

Born in the hub city of the Plains, Lubbock, Jordan was raised on a farm near Ropesville. Through his experiences on the farm, his country family-style of living, and his joy of the simple humor of country folk, has come his gifted knack for telling stories.

People of all ages and all walks of life have clamored to hear him stammer through "A Phone Call From God" — his funniest yet most soul-searching message. Just as delightful are his stories of country life and the pure "down to earth" hilarity of country people.

An accomplished artist in oil paintings, Jordan has supplied galleries throughout the United States with his works. He is also avid in architectural and interior design.

As Jordan shares his stories with thousands, he

JERRY JORDAN
brings each performance to a close by telling them about the "Greatest Story Ever Told" — that of Jesus Christ. After his personal testimony, he introduces "The Jordans," composed of himself, his wife Marilyn, his brother Bruce, and Bruce's wife Colleen.

The Jordans, with headquarters in Brownfield, annually share their ministry in New England, midwestern and western states. They have a way of relating to people of all denominations. Their youthful appeal, Christ-centered singing and old-fashioned dedication have been the ingredients of a most unusual success among gospel recording artists. The Jordans are featured on MCA records.

Baptist Association meeting hosted in Coahoma today

Milton E. Cunningham, pastor of Westbury Baptist Church, Houston, will be the State Missions speaker for the annual meeting of the Big Spring Baptist Association on Monday.

The meeting will be held at First Baptist Church of Coahoma and will open with a hymn at 3 p.m.

Along with reports, recognitions and presentations will be the delivery of the annual sermon by the Rev. Monroe Teeters with the Rev. Phillip McClendon serving as alternate. Special music will be arranged by David Norvelle. A meal will be served at 6 p.m. hosted by the Coahoma church.

Dr. Cunningham is a graduate of Baylor University and the Southwestern Baptist Theological Seminary. He holds a D.D. granted by the University of Corpus Christi.

He has pastored churches in California and Texas and has served as dean of students and assistant to the president of the University of Corpus Christi.

From 1957 to 1961, he serves as a missionary to Rhodesia and from 1962 to 1966, served in Zambia.

MILTON E. CUNNINGHAM

His responsibilities in Africa included serving as the Central Africa representative on the Planning and

Translation Committee for the United Bible Societies of England and Scotland and as coordinator for mass media in Africa south of the Sahara Desert for the Foreign Mission Board.

Cunningham has served as first vice president to the Baptist General Convention of Texas, as a member of the Texas Baptist Executive Board, and as a trustee of the Houston Baptist University at Houston.

He is currently serving as trustee to the Southwestern Baptist Theological Seminary at Fort Worth and Baylor University at Waco. Cunningham is listed in "Who's Who in Religion."

Church seeks disaster aid

First Baptist Church of Carrizo Springs recently lost its auditorium and remodeled kitchen, fellowship hall and several classrooms to fire.

Insurance covered only the cost of the recently completed remodeling and air

Christianity in China

JOINVILLE, Brazil (AP) — After 30 years of "merciless oppression, fiery trials and deadly silence, the Christian church in mainland China has finally shown signs of life," says a Lutheran leader, the Rev. Andrew Hsiao of Hong Kong.

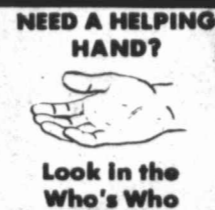

He made the comment to a meeting of the executive committee of Lutheran World Federation, which adopted a resolution expressing hope for deepening contacts and a "resumption of fellowship with Christian groups of China."

conditioning work, according to pastor Preston Taylor. Taylor has written two books, one of which is being offered to the public along with a message on "The Angels of God" in an effort to raise funds to rebuild the church.

Offered to the public is a 14-chapter, 200-page inspirational book on "Moses and the Exciting Exodus" along with the message that reveals what angels do, how many there are, and what the Bible says about these

supernatural beings.

The \$5 postpaid cost goes to the Building Fund, First Baptist Church, 706 Houston St., Carrizo Springs, Texas 78834.

A Farthing's Worth

HAPPINESS
Has happiness in life eluded you? Have you ever wondered why people extremely successful aren't really happy? Have you ever wondered why so many people, even Christians, seem so unhappy? This Sunday I'm preaching part one of a two-part message entitled, "How To Be Happy". Join us for the 10:45 worship time. I believe you'll find answers to the above questions.

Permian Panthers invade Memorial Stadium tonight

By NATHAN POSS
Sports Editor

The Odessa Permian Panthers, perennial state powers in Class AAAA schoolboy football, will come into town tonight to battle the Big Spring Steers tonight in an 8:00 p.m. game in Memorial Stadium that is expected to be a runaway for the Mojo crew.

Big Spring is 1-4 on the year, and have been severely outplayed in their last three games against Snyder, Abilene and Midland. The Steers defense has not been as bad as their record would indicate, but the Big Spring offense has been atrocious in their two district games.

Permian, meanwhile, is 2-0 in District 5-AAAA and 4-1 on the season. The Panthers opened with a win over El Paso Coronado, then lost to Amarillo by a score of 9-0 when the Permian team simply fumbled the game away, before regrouping with wins over Texarkana, Midland and Abilene.

Permian's strength this year is their usual outstanding defense and an excellent kicking game. To complicate the problems of the host Steers, these are the two main problem areas for the Big Spring crew.

Permian, 13-1 and a state semifinalist in 1978, is led defensively by linebacker Bryan Lambert and safety Ricky Reynolds. Lambert is a sure bet for All-District, while Reynolds is a returning second team All-Stater. Other stalwarts in the tough Mojo defense, which Big Spring Coach Ron Logback calls the outstanding characteristic of the Per-

mian team, include tackle Steve Slater and cornerback Mike Fowler.

The Panther defense has allowed fewer first downs than any team in the loop with 11, and are close to the top in total yardage allowed, while Big Spring is last.

The Permian offense has seemingly kicked into high gear after a sub-normal non-conference slate in which the Panthers tried a variety of plays other than their normal attack. But Coach John Wilkins and his staff have gone back to the basics that has been responsible for past success, and the Permian team is currently ranked second in team offense in District 5-AAAA.

Quarterback Kelly Howard spearheads the Mojo offense. He has shown the ability to complement the run with his effective passing. But the Panthers have shown more of a tendency to pass with Steve Guthrie at the helm. Both are seniors.

Permian's tailback, as usual, is a sparkplug in the form of the 168-pound Reynolds. He is the second leading rusher in 5-AAAA with 201 yards on 33 carries for two touchdowns. He has also completed his only pass in conference play for a touchdown and has two receptions for 15 yards. Fullback Philip Crain is the blocking back for most of Reynolds' runs.

Another key to the Permian attack is the play of wingback Terry Brown. Brown has proven to be a most capable blocker, and is the favorite receiver of either Howard or Guthrie.

Another plus mark on the Mojo side is the play of their special teams. The hustling Permian team has played excellent field position football in their two district wins, and their punt and kickoff coverage has opened the door to numerous scoring opportunities. And this has been a downfall in the Big Spring Steers play.

Big Spring will have a few changes this week, but nothing noticeable. Coach Ron Logback and the team encountered some inner-team difficulties after the Midland game, but the Steers are hoping that a different outlook will change the play of the squad.

Jimmy Marquez will probably open at the quarterback slot, with junior David Coffey ready for action. Both experienced their difficulties in the loss to Midland last week. They will be joined in the backfield by fullback Mike Terry and sophomore running back Bobby Earl Williams. Another soph, Richard Evans, is also expected to see action in the backfield.

Defensively, Keith Shedy will be making his first start in the trenches at a tackle slot, while cornerback Mike Domino will hopefully be able to put in a full game at his position. Domino has been suffering from knee complications.

One hope for the Big Spring crew in the game tonight is that Permian could quite possibly be looking toward next week's encounter with the district favorite, Abilene Cooper. If the Panthers do overlook the Steers, Big Spring could make it a most exciting game. The Harris Ratings don't think the Panthers will fall, however, making Permian a 35-point favorite.

Blast Abilene

Steer fems take win

ABILENE — The Big Spring Steers varsity girls volleyball team started the second half of the District 5-AAAA race on a winning note, totally dominating Abilene High in a 15-3, 15-2 victory.

The Big Spring team changed their offensive alignment to a 4-2 look, utilizing only two spikers at a time in the game, and Coach Carole Bartasek was pleased with the results. "We were hurt against San Angelo (in the battle for the first half championship) by their spikers, so we changed our look and worked hard with having four setters in the game at a time," Bartasek stated. "Our backcourt coverage in the game was much better."

Karen Kimble and Linda

Magers were the high point servers with 11 and nine points, respectively.

Others drawing the praise of the Big Spring coach were Cynthia Washington, who was very consistent with her spiking, and Elise Wheat, who did an outstanding job of blocking the Abilene spikes.

The Big Spring Junior Varsity, first half champions in the district, suffered their first loss in league play, falling to the Abilene JVs by scores of 7-10, 12-14. The Big Spring JVs resume play today and tomorrow in the Snyder Tournament.

Both the varsity and junior varsity will be in action next Tuesday when they travel to Midland to meet the Midland Bulldogs. The JV game is at 6:00 p.m., with the varsities of the two schools slated for a 7:00 p.m. start.

SWC Roundup

Longhorns slight favorite over Hogs

By The Associated Press

Asked the other day if he knew Lou Holtz was unbeaten in Little Rock, Fred Akers replied "Arkansas is unbeaten in a lot of places." But the oddsmakers don't figure Holtz and the Razorbacks will be unbeaten at sundown Saturday.

Holtz loves to play in Little Rock. And his players have picked up the vibes. However, a Holtz-coached Arkansas team has yet to beat Texas. And the Razorbacks are picking a tough time to try again.

Texas is riding the euphoria of a 16-7 victory over Oklahoma. The Akers-coached Longhorns are No. 2 in the nation. Arkansas is No. 10.

The oddsmakers say it's Texas by four and one-half points.

"They hit a remarkable number of passes and they have a good offensive line. They get your attention because they have great big play potential."

Kickoff for the regionally televised game is 3:10 p.m. with a sellout crowd of 53,555 fans on hand in War Memorial Stadium.

Mustang Mania is also crippled going into the meeting with the Cougars. Freshman Mike Fisher of Waco Richfield will start at quarterback for the injured Jim Bob Taylor.

"Houston is an outstanding team and we are really beat up," said SMU Coach Ron Meyer.

"We are better than I thought we would be but we're not a real solid team," says Holtz. "I have confidence in this team. But I'm concerned our team may not have the confidence it needs."

Akers said the Texas defense will face a stern test. "Arkansas' offense will be the best balanced we have faced this year," said Akers.

In other SWC action, Houston is a 12 point nod over Southern Methodist in the Astro Dome, Texas Tech is a 21 point selection over Rice in Lubbock, Baylor is a 13 point pick over Army at West Point, and Tulsa is a four-point favorite over Texas Christian in Tulsa.

Arkansas and Houston lead the SWC race with 2-0 ledgers. Texas is 1-0 followed by Baylor 3-1, SMU 2-1 and Texas Tech and TCU, each 1-2.

All-America wide receiver Emanuel Tolbert and linebackers Eric Ferguson and Clarence Bennett are expected to miss the game against the unbeaten Cougars.

BIG SPRING, TEXAS, OCTOBER 19, 1979

SECTION B

Area grid roundup

Coahoma hosts Winters for Homecoming

COAHOMA — The Coahoma Bulldogs and the Winters Blizzards square off tonight in a Homecoming affair here that has great importance to both squads.

Both teams are 1-1 in District 6-AA, and a loss will knock either outfit out of the championship race.

Coahoma opened the District 6-AA season with a 35-7 win over Merkel, then bowed to Abilene Wylie by a score of 22-14 last Friday in a contest in which the Bulldogs lost five fumbles. Otherwise, the Big Red Machine outplayed Wylie.

Winters, meanwhile, took a 35-0 win over Merkel last week after losing to Stamford in their loop opener. Winters has a season record of 1-4.

Coahoma, with a season mark of 2-3, is a 14-point favorite over the Winters crew.

The Big Red Machine will start a lineup tonight consisting of split end Randy Clanton, tight end Jay Hall, guards Gary Bayes and Faron Phinney, center Jerry Roeber, tackles Kyle Bennett and Bobby Joe Tucker, quarterback Gary Gee, fullback Chubby Abrego, tailback Ambrosio Uranga, and slotback Spot Paige.

Garden City at Sterling City

STERLING CITY — The Garden City Bearkats will be hoping for improvement tonight when they hit the road to play the Sterling City Eagles in another revival of their annual grudge match in District 3-B East play.

The Bearkats are 0-1 in district play, losing to Roby last week by a score of 31-8. Sterling City, meanwhile, opened with a 20-0 win over Loraine.

Sterling City is 4-2 on the year, while the Bearkats are 0-6. The Harris Rating System has installed Sterling City as a 37-point favorite.

Stanton at Plains

PLAINS — The Stanton Buffaloes, noted this year for their outstanding defense, hit the road tonight for a game which will knock one of the teams from the undefeated ranks in District 5-A.

Both schools are currently tied with Seagraves for the district lead with record of 2-0, with Stanton defeating Ropes and Shallowater, while Plains has defeated Forsan and Anton. Stanton defeated Shallowater by a score of 39-0 last week, while Plains defeated Anton by 24-0.

Stanton is undefeated on the season with a 5-0-1 record, their only loss coming in a 7-7 tie with McCamey in non-district play. Plains has a mark of 3-2.

Forsan at Shallowater

SHALLOWATER — Shell-shocked Shallowater will try to get back on the winning road tonight when they meet the small but feisty Forsan Buffaloes in a District 5-B contest.

Shallowater, picked by some as the team to beat in the pre-season polls in this district, has been bombed by Seagraves and Stanton to open district play in convincing style. Forsan, meanwhile, has suffered through a 54-7 loss to Plains and a 14-7 loss to Ropes.

The Buffs are 1-4 on the season, with an early season win over Garden City, while Shallowater has a season record of 2-2-1.

Area Players of the Week

Area schools experienced difficulty in their games last weekend, compiling a composite mark of 1-5-1. Despite this record, coaches had numerous reasons to be happy with the play of certain members of their teams.

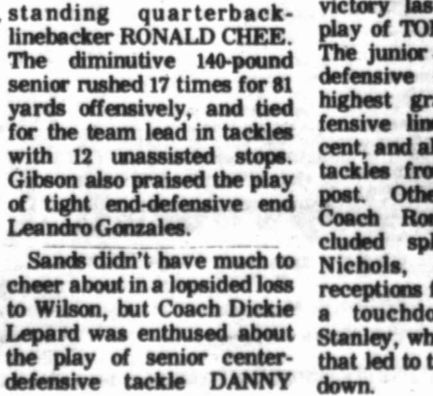

Steve Park

Steve Park to single cut one individual. Those that did draw the praise of Park were quarterback CRAIG EILAND, who completed seven of 11 passes for three touchdowns, linebacker GARY DOUGLAS, who was in on 17 tackles, tailback LEWIS HENRY, who rushed for 110 yards, split end FREDDIE SILVA, and center GREG DOUGLAS, guards STEVE MAKER, and MARK LUNA, and tackles JOHN PARKER and

Keith Hull

KEITH HULL, for opening up some gaping holes, as well as playing good defensively. Big Spring Coach Ron Logback couldn't find much of anything to be happy about in his team's loss to Midland, but he did cite the work of offensive tackle-defensive tackle JACK ODOM for his outstanding play in the contest. Logback lauded Odom's effort, stating: "He did a good job offensively, and was outstanding on defense. It was Jack's best game in his career defensively." Odom amassed 35 points for his tackling efforts in the game, tops on the Steer team, and added a fumble recovery that stopped a Midland drive.

Grady Odom

PEUGH and freshman defensive tackle RONNIE LONG. Both were a high point leaders on the defense for the Mustangs, who have been hurt a great deal thus far by their offensive frustrations. Leppard also mentioned the play of sophomore lineman Steve Blagrove, whose play gives the Mustangs something to look forward to in the future. Forsan outplayed Ropes in a 14-7 loss, and things are looking up for the Buffaloes. One reason for the near victory last week was the play of TOMMY BLEWITT. The junior offensive guard-defensive tackle had the highest grade of any offensive lineman at 75 percent, and also contributed 15 tackles from his defensive post. Others praised by Coach Ronnie Taylor included split end Weldon Nichols, who had six receptions for 119 yards and a touchdown, and D.F. Stanley, who blocked a punt that led to the Forsan touch-

Peugh

down. Coahoma lost a tense 22-14 game to a very large Wylie team, but improvement in many areas was displayed in the Bulldog camp. Coahoma Coach Roy Winters selected the duo of Spot Paige and Chubby Abrego for this

Snyder

week's award, stating: "They both did an excellent job of blocking. (Abrego) at fullback and Paige at the slotback and lead back. They also had good games defensively, with 12 tackles each. That number was the largest amount on the Bulldog team. Grady played Witharral to an 18-18 tie, losing a chance to win the game in the last minute on a blown assignment. Grady Coach Richard Gibson gave this week's award to his outstanding quarterback-linebacker RONALD CHEE. The diminutive 140-pound senior rushed 17 times for 81 yards offensively, and tied for the team lead in tackles with 12 unassisted stops. Gibson also praised the play of tight end-defensive end Leandro Gonzales. Sands didn't have much to cheer about in a lopsided loss to Wilson, but Coach Dickie Leppard was enthused about the play of senior center-defensive tackle DANNY

Ruling extends paternity suit time

AUSTIN, Texas (AP) — The Texas Supreme Court has ruled in a landmark Dallas paternity case that illegitimate children born before Sept. 1, 1975, have until their 22nd birthday to establish the identity of their fathers.

"This brings joy to my heart," said Bill J. Ballard, a Wichita Falls specialist in paternity law. "It's time for rejoicing for many kiddies whose parents neglected to get married."

The opinion in the Dallas case was written by the civil appeals court there. The Supreme Court upheld the ruling Wednesday.

The Texas Department of Human Resources, formerly the welfare department, sued on behalf of the child's mother to compel Edward Charles Delley of Dallas to support an illegitimate child born in 1968. Both parents were 17 at the time.

The ruling is important to the state because child support could erase the need for state welfare payments in many cases.

Before the Delley suit was filed, the appeals court said, Delley signed a sworn

statement, witnessed by two people, acknowledging he was the father.

Delley contended a four-year statute of limitations barred the state's suit.

The Dallas trial court dismissed the suit. It held the statute of limitations barred the suit, because the child had been born more than four years prior to the time it was filed.

However, the Dallas appeals court ruled the four-year limitation for illegitimate children born prior to Sept. 1, 1975, does not start to run until the child reaches 18 years of age.

The appeals court remanded the Delley case to Dallas for a possible new trial.

A law effective Sept. 1, 1975, requires paternity suits for children born after that date to be filed within a year of the child's birth.

Ballard said in a telephone interview the Supreme Court ruling Wednesday "gives hope" that even those children will have a year after reaching 18 to sue.

"As a matter of public policy," the Dallas appeals court said, "we doubt that fathers of illegitimate children should be absolved

from the duty of paying child support because a paternity suit has not been filed within four years of the birth of the child."

The court said it agreed with a 1977 ruling of the Washington Supreme Court which held that "the state has a compelling interest in assuring that the primary obligation for support of illegitimate children falls on both natural parents rather than on the taxpayers of this state."

Ballard said nearly 400,000 illegitimate children were born in Texas during the 20-year period ending last year. "Those who are still illegitimate might rejoice at getting in the courthouse," he said.

Ballard said paternity suits are "relatively rare" and are usually filed to obtain child support.

However, he said, a child might want to establish paternity to inherit his or her father's estate or to collect Social Security payments when the father dies.

"And some folks would just like to know who their father is," said Ballard.

Investigator 'eyes' scribe

TALLAHASSEE, Fla. (AP) — Florida's Department of State plans a hearing to consider possible suspension or firing of one of its investigators who allegedly conducted his own, unauthorized investigation of a Palm Beach Post reporter.

Assistant Secretary of State Ron Levitt said investigator Harvey Matthews was given since Thursday that a hearing will be conducted because of his investigation of reporter Pete Spivey, 28.

Spivey, who has worked on stories involving the secretary of state's office, said he began hearing in early September that someone in the state bureaucracy was investigating him.

On the Light side

Now Fowl Festival

MIAMI (AP) — In Hinkley, Ohio, the return of the buzzard in March is cause for fanfare — it's the town's claim to fame.

But when red-headed, coal-black turkey vultures arrive here for the winter, no one celebrates.

"To my knowledge, no one ever gave a whoop about them," said Sam Griffith, former building superintendent for the Dade County Courthouse. The courthouse's silver dome has served as winter home for dozens of buzzards since its completion in 1926.

The first six arrived this week. They are called turkey vultures, because their wrinkled red heads resemble those of turkeys.

Saved by a box

DENVER (AP) — A false-bottomed box saved the lives of three baby leopards who were snatched from their mother immediately after birth, zoo officials say.

The triplets, born July 9, were raised in the zoo nursery, which is off limits to the public. They owe their lives to zookeepers who resorted to a magician's trick in devising a scheme to save offspring of Duchess, a high-strung African spotted leopard who was born in captivity. She had killed every cub in her previous dozen litters, zoo officials said.

Assistant zoo director Paul Linger said a nesting box with a false bottom was placed in the cage. When the cubs were born, they dropped through the bottom of the box into a drawer, where Duchess couldn't reach them.

Foreign Relations panel falling behind schedule

WASHINGTON (AP) — The Senate Foreign Relations Committee is falling behind schedule as it attempts to get the SALT II treaty in final shape for Senate debate.

The committee had hoped to vote Thursday on at least one of two important proposed changes to the treaty being offered by Senate Republican leader Howard H. Baker. But the committee failed to get a working quorum for its afternoon session.

It had been expected the two proposed alterations would be brought up again today, but Baker's office said the Tennessee senator would be "traveling."

Committee aides originally had expected to finish the work of marking up SALT II in seven full working days and to send the pact to the Senate floor for debate by early November. They now say more time may be required.

Baker is offering amendments to assert the right of the United States to build the MX mobile missile and to convert 308 light U.S. missiles to heavy missiles to match the composition of the Soviet missile force.

Both moves are strongly opposed by the Carter administration.

Government officials contend the United States already has the right to deploy the MX. And they say that asserting the right to match the Soviet "heavy" missiles would kill the present treaty and force new negotiations.

Sen. Frank Church, D-Idaho, says he hopes a committee majority will be able to keep "killer amendments" out of the treaty as it did in votes on Wednesday and Thursday.

By a 10-5 vote on Thursday, the committee defeated a proposed reservation to the treaty which would have required Soviet approval to take effect.

Lorraine man elected to conservation board

Walter Stirl of Lorraine was re-elected to the Upper Colorado Soil and Water Conservation Districts board of directors at an election held recently in the Hermleigh Community Center. Stirl represents Zone 1 of the District.

The purpose of the Upper Colorado SWCD, with headquarters in Snyder, is to promote sound soil and water conservation programs on farm and ranch land within the district and to serve as a voice for farmers and ranchers on conservation matters and other issues affecting private property rights of landowners.

The board of directors coordinates the conservation efforts of various local, state and federal agencies and has authority to enter into working agreements with these governmental agencies and private concerns to carry out its purposes.

As one of the five individuals serving on the district board of directors, Stirl who is the districts Vice-Chairman will be responsible for district

policy and procedures for carrying out the district program within the framework of the Texas soil conservation law.

Other current members of the Upper Colorado Soil and Water Conservation District Board are Carl Williams, Chairman, Hermleigh; W.L. Wilson, Jr., Secretary-Treasurer, Big Spring; Leon Sterling, Snyder; and Burl Belew, Fluvanna.

Organized in June 1941, the Upper Colorado Soil and Water Conservation District serves all of Borden and Scurry Counties.

In Texas there are 199 soil and water conservation districts. Each is a legal subdivision of state government organized by local agricultural land owners with the assistance of the Texas State Soil and Water Conservation Board. Unlike most other legal subdivisions of state government, SWCD's do not have the powers of taxation or eminent domain. All conservation programs managed by the districts are of a voluntary nature to the land owner or operator.

INTRODUCING THE ALL-NEW FRONT-WHEEL DRIVE COROLLA TERCEL.

\$3,698*/33 Est. MPG

Introduce yourself to the lowest priced, highest mileage Toyota you can buy—the all-new Corolla Tercel with front-wheel drive.

Priced to feel good.

At \$3,698, the Corolla Tercel is an outstanding value. Included in the price are Hi-back bucket seats, a sporty 2-spoke steering wheel, side window de-mister, a locking gas tank and much more. For \$3,698, you're well-equipped and ready to go!

What a lot of miles per gallon!

Few front-wheel drive cars offer more. Corolla Tercel is rated at a high 33 EPA Estimated MPG, 43 Estimated Highway MPG. Remember: Compare this estimate to the EPA "Estimated MPG" of other cars with man-

ual transmission. You may get different mileage depending on how fast you drive, weather conditions and trip length. Actual highway mileage will probably be less than the EPA "Highway Estimate."

A unique feel for comfort.

Corolla Tercel's 1.5 liter 4-cylinder engine is in a position to give you a lot of good feelings most other front-

wheel drive cars can't. Like the feeling of more positive shift action, a more natural steering wheel position, plus a lot of leg room in the front. No other small front-wheel drive car offers more.

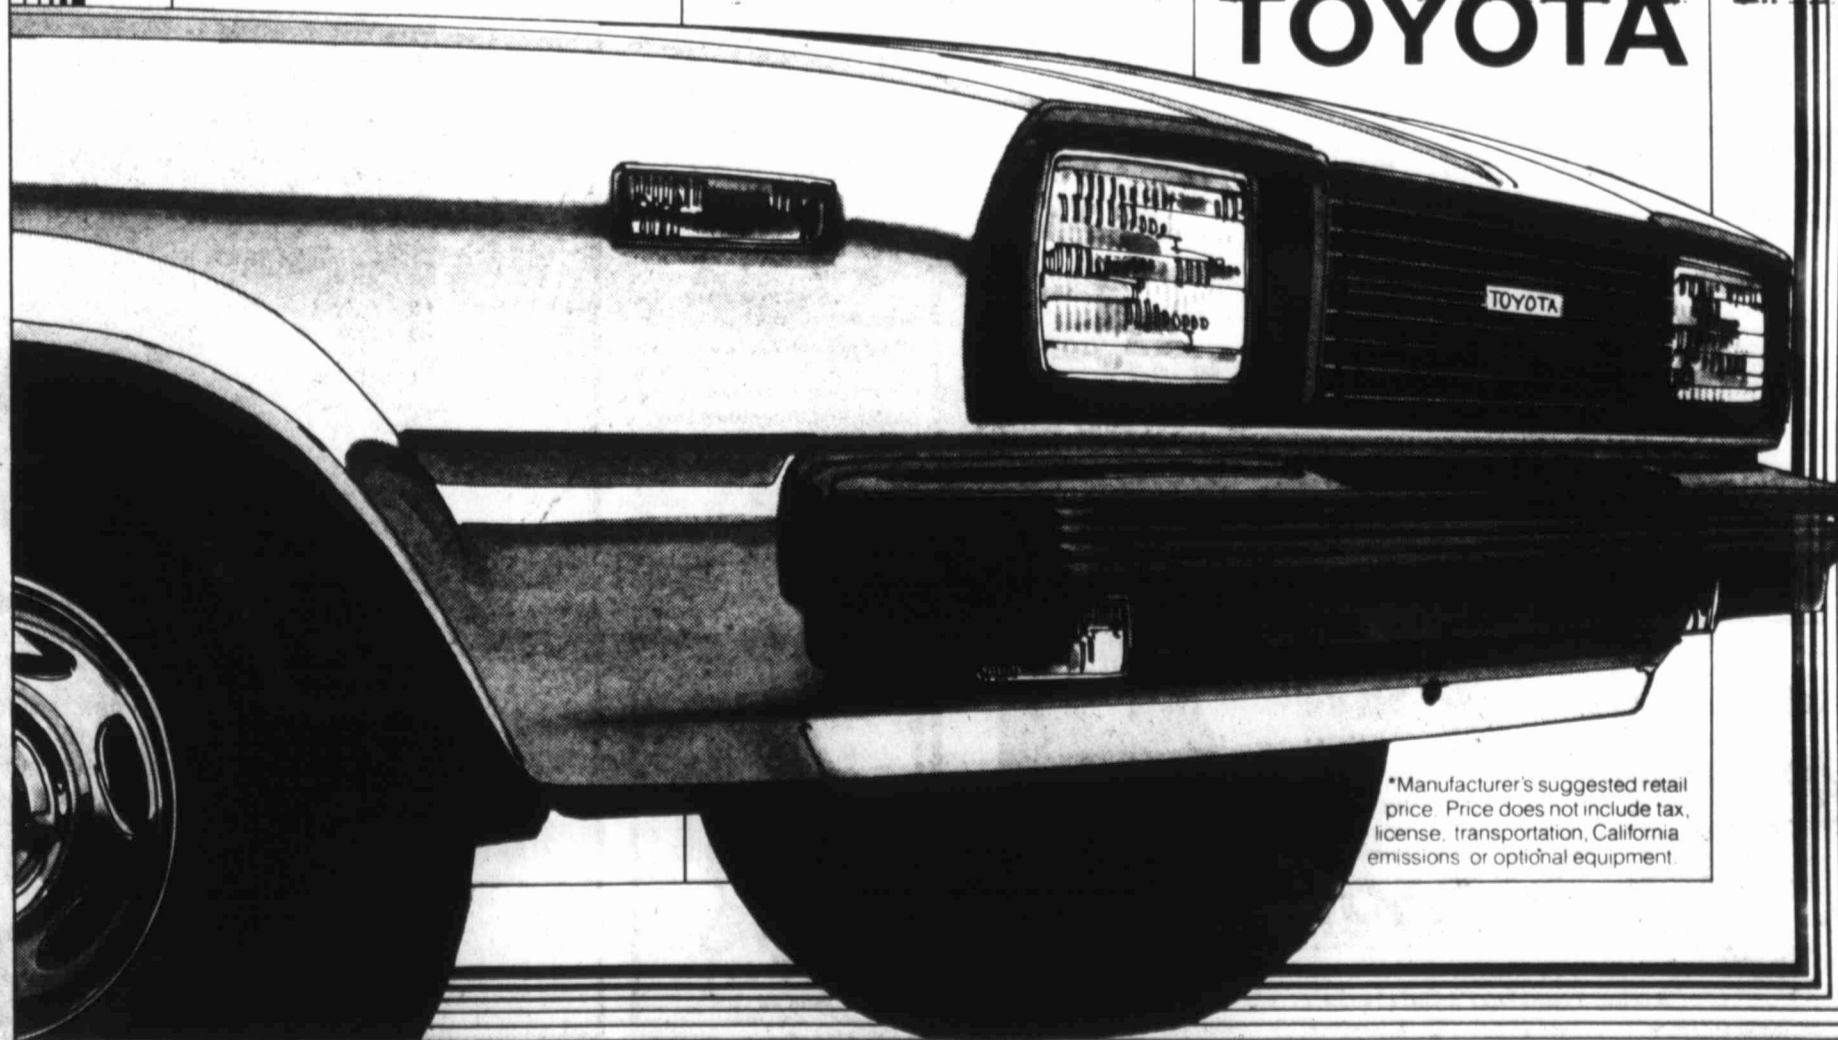

A real feel for the road.

With all this comfortable space (front and back) comes smooth performance, helped by rack and pinion steering, four-wheel independent suspension, and aerodynamic styling. You get the feeling Corolla Tercel can handle just about anything.

A real all-weather friend.

Toyota's new Corolla Tercel. It's the front-wheel drive car that happens to be the highest mileage, lowest priced Toyota you can buy. Because these days, bad weather isn't all you've got to cope with.

TwEEN 12 and 20

She chaperones
kid sister

By Robert Wallace, Ed. D.

Dr. Wallace: I'm 15 and my 14-year-old sister has been seeing this 18-year-old guy for about two months.

My mother thinks it's OK for him to see her on the weekends but I've got to go every place they go. I don't like it and my sister and this guy get mad at me. Help. — Carolyn, Pampa, Texas

Carolyn: I'll admit that this is an odd one. If your sister is allowed to date, you shouldn't be punished because of it. Why don't you see if you can make plans to do something with your friends next weekend?

Personally, I feel your mother is a bit misguided in the dating philosophy for your sister.

Dr. Wallace: At our high school, the latest fad was to bring a squirt gun to school. I admit that I once brought one.

As the problem progressed, teachers made the punishment severe for those who were caught. Then some teachers went so far as to make the girls open their purses and searched them.

I thought that was going too far and I never would have consented to it. What do you think? — Lisa, Zanesville, Ohio

Lisa: First of all, the teacher has the right to search a student's locker, purse, etc., if the teacher

thinks the safety or welfare of any student or students is about to be violated. But in this case, if I were teaching, I would not search anyone to see if they possessed a squirt gun but I'd be severe in my punishment if someone used it in the classroom.

Being a former high school principal, I saw many a squirt gun and had to suspend a few "gunners."

Dr. Wallace: I don't know what to do, so please help. About a week ago, I saw a pack of cigarettes in my brother's car (he's 16). Yesterday I saw another pack in his room.

We are a religious family and are forbidden to smoke, so naturally, they don't know that he is smoking.

My question is this: Do I tell my parents or do I mind my own business? It would be useless to talk to my brother. — Janet, Livermore, Calif.

Janet: These are always difficult questions to answer and I receive mail from irate readers regardless of my answer. But, yes, I think you should share this information with your parents.

For Dr. Wallace's teen booklet, "Happiness or Despair," please send \$1 and a 25-cent stamped, large self-addressed envelope to Dr. Wallace, in care of this newspaper.

SUMMER 1980 — Parisian couturier Guy Laroche presents these two black and white long dresses, split to the knee in front, gathered at the waist by wide black cummerbund and held at the shoulder by spaghetti straps. Outfits are part of his 1980 Spring and Summer ready-to-wear collection.

Disabled American Veterans Auxiliary donates magazines

The Disabled American Veterans Auxiliary No. 47 met Monday evening at the VFW Hall on Driver Rd. Nelda Burkhardt, commander, presided. Barbara Viera and Gertrude McCann were hostesses.

Chaplain Myrtle True reported on illnesses in the Auxiliary.

The group decided to donate to the Christmas Cheer Fund.

Gertrude McCann, community service chairman, reported the donation of several hundred magazines to the Park View

Manor Nursing Home. Mrs. McCann appointed Delores Scott and Lois Ferguson for the January meeting.

Thanksgiving dinner will be served for the November meeting.

Delores Scott, Veterans Administration Medical Center chairman, reported that 70 patients were served cake and coffee at the VAMC by Lou Arnold, Nelda Burkhardt, Gladys White, Vada Morrow and Mrs. Scott Saturday morning.

Joe Roloff, division chief from the VAMC spoke on the VA Volunteer program.

Commander Burkhardt announced that the auxiliary is invited to attend the fiftieth anniversary celebration at the VAMC Oct. 20 at 2 p.m. Tom Castle's Western Band will provide music for the occasion.

The group will meet on Nov. 11 at 8 a.m. at the Howard County Courthouse to place a memorial wreath and hold a flag service commemorating Veteran's Day. Congressman Charles Stenholm will be the guest speaker at 2 p.m. and a band from Abilene will furnish the music.

Texas Federation of Music Clubs hold 12th annual fall conference

The nineteenth Annual Fall Conference of the Twelfth District, Texas Federation of Music Clubs, was held Oct. 13 in the First Methodist Church.

The conference opened at

Birthday celebrated

Mrs. Udonia Bass, 106 Washington Blvd., celebrated her 87th birthday in the home of her daughter, Mrs. Lowell Baird, 504 Highland Dr., Oct. 14 in the afternoon.

Her son, Prentis Bass and family of Snyder, attended as well as her granddaughters Candyce Wallace and great-granddaughter, Tiffany Wallace of San Angelo. Several nieces and nephews and their families were also on hand to share in the celebration.

Joe M. Bass, Enid, Okla., a grandson who shares the Oct. 11 birthdate with his grandmother, was unable to attend.

The table was centered with a large fall floral arrangement and held the large sheet birthday cake and nuts. Punch was served from a large crystal punch bowl.

9:30 a.m. with the theme, "With Knowledge, Enthusiasm."

Mrs. Carl Edward Bock conducted the workshop. Mrs. Bock is the Texas Representative to the Board of the National Federation of Music Clubs, National Foreign Membership Chairman and serves on the committee for Young Artist Auditions. She is an accomplished musician, having played viola with the Austin Symphony for 30 years, and is on the board of directors of the Symphony Society in Austin.

A catered lunch was served at noon for this all day meeting.

The Big Spring Music Study Club hosted the event which was attended by 24

C.E.H. meet October 8

The Creative Extension Homemakers met Oct. 8 at the home of Mrs. Shirley Johnson, 2 Glenwick Cove. There were nine members present. The meeting was called to order by Esther Lopez.

A program was presented by Phyllis Jones on painting on mirrors.

The officers for the coming year were elected as follows: President Gayle Cavner, Vice-President Shirley Johnson, Treasurer Tammy Watt, Reporter Pam Thompson, Council delegate Carolyn Reed, Secretary Ginger Reed.

The service project for next year was voted on. Members will take tray favors to Mt. View Nursing Home for Thanksgiving, Easter and Valentines Day.

The next meeting will be held at the Flame Room of Pioneer Natural Gas Tuesday, Nov. 13. The program will be open to the public given by the home economist from Pioneer Natural Gas.

people including one national representative, one state chairman, six district officers and three club presidents.

Her Kisses Tell—On Him

DEAR ABBY: I'm a man, over 70. My wife died suddenly several months ago, and I found out that I just couldn't get along without female companionship.

As a young man I suppose I had the usual number of girlfriends, but I haven't courted for 50 years, and am rather rusty.

I recently asked a woman in my age group to accompany me to a variety of social engagements. She was most agreeable. She turned out to be a warm, lively, affectionate companion, and I must admit that I am crazy about her!

The problem: Her kisses. Abby, this woman's kisses shake me from top to toe. I don't know why. I hate to call it "technique" or suggest that she has developed her kissing purposefully, but she must be conscious of the effect her kissing has on males. (She is a widow.) I can't learn from her because I don't know what she is doing. I only know that this woman's kisses drive me crazy. All the kisses I have had before are just not in the same league. She is gentle. She is loving, but I am glad that not all women kiss the way she does. There must be a happy medium.

OVERWHELMED

DEAR OVER: Are you complaining? While kissing is basically natural, techniques are developed. This woman is giving you a message. She's probably crazy about you, too, so don't dismiss it as a routine "tongue-in-cheek" matter.

DEAR ABBY: ASKING IN ALASKA says, "Kids who live together before marriage don't deserve wedding presents, so they shouldn't be sent any." And you replied, "It won't work. Most parents (and relatives) are so glad that the kids finally made it legal, they send gifts anyway."

Well, here's how I handle it: Out of respect to the parents, I send a gift. I buy the first low-priced, ugly, useless piece of junk I see, have it gift-wrapped and sent. (If there's a shower, I do the same.)

I figure the gift is as appropriate as the wedding. And if Mr. and Mrs. Sleazy Morals have any perception at all, they will get the message that their wedding is no more meaningful to me than it is to them.

REALISTIC IN MASS.

DEAR REALISTIC: Since you send a gift "out of respect of the parents," how much "respect" do you think a "low-priced, ugly, useless piece of junk" will convey? You'd be ahead to save your time, money and "respect," and send nothing.

DEAR ABBY: Regarding the letter about the man marrying a girl who was six months pregnant with another man's child: that's my son you are talking about, and I am so very proud of him.

He was engaged to this girl, and her brother-in-law took advantage of her. My son went ahead and married her, advancing the wedding date so he could take care of her.

He's claiming the child as his own, and as far as I'm concerned, that child will be treated exactly like all my other grandchildren!

PROUD GRANDPA

DEAR GRANDPA: Congratulations—for more reasons than one.

CONFIDENTIAL TO B. Mc I IN GARDEN CITY, N.Y.: Precious little thanks are due me, but I do owe a great deal to my top-notch advisers: "If a man knows where to get good advice, it is as though he could supply it himself." (Goethe)

Who said the teen years are the happiest? For Abby's new booklet "What Teenagers Want to Know," write Abby: 132 Lasky Dr., Beverly Hills, Calif. 90212. Enclose \$1 and a long, stamped (28 cents), self-addressed envelope, please.

Oasis club makes dried arrangements

The Oasis Garden Club met in the home of Mrs. H.T. Hansen with Mrs. C.B. Lawrence and Mrs. Spencer Wolfe as co-hostesses.

Mrs. J.D. Leonard called the meeting to order and led members in the club prayer.

A note of appreciation was read from Jackie Simpson for the pink chrysanthemums. A litter control letter was read from the National Council of State Garden Clubs suggesting ways to help control litter in the community.

A request was made for volunteers at the State Hospital for which a training session was held Thursday.

Mrs. Charles Harwell made the flower arrangement of the month which was a dried one using rust and beige.

Members brought different types of dried arrangements for the program. One was made of dried wild flowers and weeds, another was apple dolls, a collection of miniature roses and pot-pourri. A formula for pot-pourri was given:

- 1 dram each of oil of Bergamot, Rose Geranium, peppermint, sandalwood and sweet lavender, all obtainable at the drugstore.
- 1 teaspoon orris root
- 2 teaspoons sachet powder (violet, heliotrope or any other kind)
- 1 teaspoon ground cinnamon
- 1 teaspoon cloves
- 1 teaspoon spice

Gather rose petals from fragrant roses. Spread out to dry about two weeks. Put 16 cups of rose petals in large mixing bowl. Drop oil over them with medicine dropper. Add spices and stir well.

Mrs. Charles Creighton, Mrs. C.B. Lawrence and Mrs. Spencer Wolfe assisted with the therapy class for the special education children at Moss Elementary School. A film on the wild flowers of Texas was shown.

The November meeting has been cancelled so that members can attend the Southern Zone meeting to be held at the Country Club Nov. 14.

Rivera's announce birth

Mr. and Mrs. Arcadio Rivera, Post, announce the birth of their first child, a son, Jason Rocky, born Oct. 8 at 3:17 a.m., weighing 8 pounds 7-3/4 ounces and measuring 21 inches in length at Malone Hogan Hospital.

The maternal grandparents are Mr. and Mrs. S.G. Saldivar, Big Spring. Paternal grandparents are Mr. and Mrs. Alcario B. Rivera, Marfa.

Great-grandparents are Porderio Saldivar, Big Spring, Mr. and Mrs. Ramond Estrada, Lamesa and Mrs. Maria L. Nunez, El Paso.

Newcomer's announce son's birth

Rev. and Mrs. Larry Newcomer, Houston, announce the birth of a son, Kyle Glenn, born Oct. 8, weighing 8 pounds 8 ounces and measuring 20-3/4 inches.

Maternal grandparents are Mr. and Mrs. Earl Fairbanks, Houston. Paternal grandparents are Mr. and Mrs. Earl Newcomer, Ackerly.

Great-grandparents are Rev. and Mrs. E.G. Newcomer, Big Spring and Mr. and Mrs. L.B. Nichols, Stephenville.

Dance Friday

The Merry Mixers Square Dance Club will have a Salad Supper and Costume Party at 8 p.m. Friday, at the Settles Hotel Ballroom, with caller James Moore.

They will also be dancing in the street at Coahoma, Saturday, at 2:30 p.m. prior to their Homecoming Parade.

SPRING AND SUMMER — 1980 ready to wear fashion shows have rediscovered the "mini-skirt" as seen in this model presented by France Andrevia.

Make-up club pictures Monday

Attention club presidents! Several weeks ago, the Herald Family News Section mailed out forms to be filled out by your club so that it might be represented in this year's Herald Clubs and Organizations tabloid.

In the event that your club did not receive a form, or if for some reason or another your club president was unable to keep his or her picture appointment day,

Herald photographer Danny Valdes has set aside several hours of his time for make-up pictures.

Make-up pictures will be taken Monday from 2-4:30 p.m. at the Herald.

Please make a special effort to have your club's president present if the first appointment was missed.

Our tabloid won't be complete without you and your club's representation.

DENNIS THE MENACE

THE FAMILY CIRCUS

Your Daily HOROSCOPE

from the CARROLL RIGTER INSTITUTE

FORECAST FOR SATURDAY, OCT. 20, 1979

GENERAL TENDENCIES: The approaching New Moon brings you the chance to take some long-time problems into your consciousness and to solve them intelligently with the aid of another and fair-minded person. Get rid of whatever requires attention now so you have a fresh start in constructive directions.

ARIES (Mar. 21 to Apr. 19) Being kind to one who has been disturbed will get you back into this person's good graces. Try to be more courteous toward others.

TAURUS (Apr. 20 to May 20) A co-worker could have a gripe that should be handled quickly before it becomes worse. Be clever in the way you handle your money.

GEMINI (May 21 to June 21) Reconcile with one whose company you enjoyed very much in the past. Put more effort in maintaining more harmony at home.

MOON CHILDREN (June 22 to July 21) A family tie has been difficult to deal with lately, so treat kindly and with understanding. Handle monetary affairs wisely.

LEO (July 22 to Aug. 21) A regular partner is more willing to go along with your ideas now and you have more success. Discuss contracts so they are clearly understood.

VIRGO (Aug. 22 to Sept. 22) For more security get in touch with an expert and get right results. Give more attention to small duties and clean them up quickly.

LIBRA (Sept. 23 to Oct. 22) Fine day to do as you please, but don't forget to keep promises you have made. Be only with congenials and avoid arguments.

SCORPIO (Oct. 23 to Nov. 21) You have confidential duties to perform so take care of them early. Later, attend social affairs and meet new and interesting personalities.

SAGITTARIUS (Nov. 22 to Dec. 21) Think over whom you want to retain in your life and whom to drop. If you attend a social affair, be charming with everyone.

CAPRICORN (Dec. 22 to Jan. 20) You are able to add to prestige now in a most precise and clever way. Talk over with bigwigs how to become an A-1 citizen.

AQUARIUS (Jan. 21 to Feb. 19) Study new projects and know how to expand in present ones. A more progressive person can be helpful to you.

PISCES (Feb. 20 to Mar. 20) Handling obligations wisely can bring advancement quickly now. Assist kin to gain their own goals. Be more modern-minded.

IF YOUR CHILD IS BORN TODAY... he or she will analyze and then better conditions with the assistance of others by using more up-to-date methods. A patient person here who will work hard and gain the approval of higher-ups and will never be out of a job.

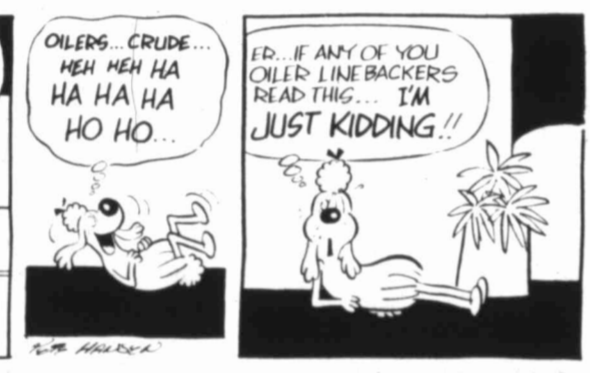

"The Stars impel, they do not compel." What you make of your life is largely up to you!

of their 50th anniversary (and other useful Herald tips).

There are times when you need extra service from us. A 50th wedding anniversary. A daughter's wedding. Research through back issues.

That's great. We want the Big Spring Herald to be more than just a good newspaper. We want to be a useful part of your family.

To make sure you can handle the special occasions that arise now and then, here are a few tips you'll find helpful.

It's a good idea to clip this guide and keep it for reference. As new and different needs arise, we'll update this list for you.

How to get back copies.

Call the Circulation Department as soon as possible after the story you want appears in the paper. Back copies are saved for one year, but sometimes editions sell out and are unavailable. We'll mail them to you if you like, but postage costs are high and must be paid in advance. Picking up your copies at the Herald office, 710 Scurry, can save you a bundle. The charge for back issues is the same as current copies.

How to submit news information to our paper.

Information about news events or people being involved in newsworthy activities are welcome. Because of space limitations, we must adhere to guidelines that are fair to all groups and individuals.

We can't always include everything in the paper we would like to. But we would like for you to call and we will tell you if we will be able to use your news item.

Unless a story is aimed at a particular department such as Sports or the Family section, call City Desk. One of our editors will be glad to talk with you. Or write your information and mail it to the City Editor. Be sure to include your name and a telephone number where you can be reached during working hours so we can call if we have any questions.

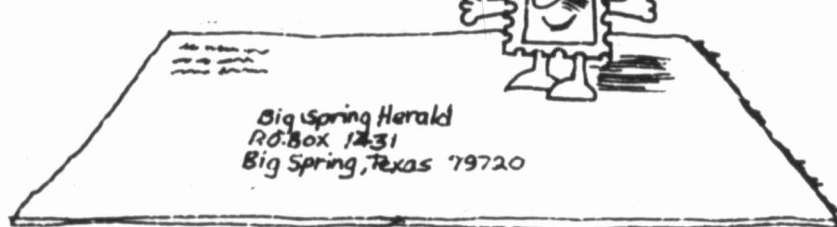

If you are giving information about an event which is upcoming, try to give us at least a week's advance notice. We welcome your opinions on any subjects. These should be addressed: Big Spring Herald, P.O. Box 1431, Big Spring, TX 79720.

How to tell Big Spring that you're engaged.

Besides the ring on your finger, you can inform friends and neighbors of your engagement in the Sunday Big Spring Herald. Just fill in the engagement announcement form available in the Family News department and return it no later than Thursday noon prior to the Sunday publication date. For a picture to appear with the announcement, the notice must be made a month in advance of the wedding. Be sure to use black and white glossy prints.

How to air your views in MAILBAG.

Send articles of 250 words or less to MAILBAG, c/o Big Spring Herald, P.O. Box 1431, Big Spring, TX 79720. Your name and address must be included with each letter. The Herald staff edits typographical and grammatical errors but will not change the intent of the letter. The newspaper reserves the right to publish any letter to MAILBAG.

How to plan advertising for your business.

Our retail advertising staff is at your service to help with your layout, copywriting and design. Our staff can help you budget your media dollars wisely and get your advertising to produce results. Call 263-7331 or stop by the Herald to discuss your advertising with the retail personnel.

Clip services are also available if you need artwork to spice up your ad, show a particular illustration of an item, or just to make your ad the one that captures the reader's eye. Stop by the retail ad department and browse through the clip files to see what advertising inspirations you can find.

How to clean out your closet.

Have a garage sale and advertise it in the Herald classifieds. Or just run an ad to sell all that unwanted merchandise. It's as convenient as your telephone. Just dial 263-7331 to place your ad . . . then wait for the calls to pour in. (Note: some classifieds must be prepaid).

How to get a death notice in the paper.

A relative or funeral home can phone or bring the information to the City Desk. Stories usually include how long the deceased lived in Big Spring, where he or she worked, survivors, clubs and honors. Recent photographs are welcome.

How to get in the Action/reaction section.

Anyone in the editorial department is prepared to accept inquiries you would like answered in the Action/Reaction section, a department created for those individuals who find they often get no results after initiating questions on their own. Questions can either be called in or written in. There often is a wait of several days, but Herald personnel do their dead-level best to get objective questions answered.

How to order home delivery.

For delivery of the Herald, just pick up the phone and dial 263-7331. Home delivery of the Herald is also available in Howard and portions of six surrounding counties.

If you have a delivery problem you may dial 263-7331 or your local distributor and your problem will be corrected as soon as possible.

If you wish to pay for a subscription or file a complaint in person, stop by the Circulation Department at 710 Scurry.

How to find out or report a sports score.

Call our Scorecard, 263-7331 from 8:30-5:00 p.m. Monday through Friday; Saturdays 1:00 p.m. to 11:00 a.m.

How to use our files for research.

Come to the File Section and tell one of the employees the subject or person you wish to research. Full size newspaper files are available, dating back about eight years. Earlier Herald records are stored on microfilm, but are available for public reference.

How to submit ideas, suggestions or complaints to the Herald.

The Herald Citizen's Advisory Board has been formed to improve the content of the Herald through community interaction. The Board will act as your spokesman so to have your voice heard, contact a board member by the 2nd Tuesday of every month, or send your ideas in writing to Big Spring Herald, c/o Community Relations Director, P.O. Box 1431, Big Spring, TX 79720. Public meetings will be held the 3rd Tuesday of every month to discuss viewpoints on the agenda. Check the community calendar for time and place. Plan to attend!

How to arrange a tour of the Big Spring Herald.

Many schools, clubs and other organized groups would enjoy and benefit from a free tour of a daily newspaper. To arrange such a tour, simply call our Community Relations Director at least a week in advance. Phone 263-7331, extension 43.

Congress cannot move fast enough?

Eds: CORRECTS that Senate action on heating aid may not be final; clarifies that O'Neill testified on proposed amendment to Labor-HEW bill

By DAVID ESPO
 Associated Press
 Writemund33nly, members of Congress saw helping the poor pay their heating bills this winter.

"The important thing is to get the dough out before people freeze to death," said Sen. Jacob Javits, R-N.Y., sponsor of a \$1.2 billion emergency fuel assistance provision that received Senate approval Wednesday.
 The measure was added to an Interior Department appropriation bill given overall approval by the House. However, the House-passed version of the Interior bill contains no such provision and a Senate-House conference committee must decide whether it should be retained.

If the conferees decide to keep the aid provision, the full House would have to concur.
 Echoing Javits' sense of urgency, House Speaker Thomas P. O'Neill made an unprecedented appearance before a House panel Wednesday to make a pitch for \$1.35 billion in heating aid as part of an appropriation package for the departments of Labor and Health, Education and Welfare.

"The first session of the 96th Congress faces no higher priority than providing low-income fuel assistance to meet this winter's needs," he said. "I do not believe we can afford to adjourn without addressing this problem."
 O'Neill, who emphasized he was speaking "as the elected constitutional head

of the House of Representatives," said disagreements about details of the program should not delay its approval. "Prompt action is a national imperative," he concluded.

"This matter will be handled in an expedited manner," promised Rep. William Natcher, D-Ky., chairman of the appropriations subcommittee that listened to the speaker.

Natcher did not indicate immediately when he would reconvene the panel for a vote. Rep. Silvio Conte, R-Mass., suggested the House meet in special session Saturday to approve the money, but O'Neill didn't respond.

Meanwhile, the Senate Labor and Human Resources Committee arranged to meet today to debate precisely how to distribute the money senators have agreed to spend. An aide to Sen. Harrison A. Williams, D-N.J., the committee chairman, said it was possible the panel could complete work on the measure by the end of the day.

What is prompting the swift action in Congress is sharply higher prices for home heating fuels. In the case of heating oil, prices have risen by more than 50 percent since the end of last winter and now stand at over 80 cents a gallon in some parts of the country.

The Carter administration has asked Congress to spend a total of \$1.6 billion for emergency fuel assistance this winter, including \$400 million in an existing program that can make cash grants or provide space heaters or other goods in emergency situation.

Marathon mania See how they run

NEW YORK (AP) - A bright blue line snakes through all five New York City boroughs. Big numbers - 23, 24, 25, 26 - are painted on Central Park's winding roads.

Nylon-and rubber-shod feet thud on city streets and sidewalks and crunch on the center path around the Manhattan reservoir.
 It's marathon mania time again.
 On Sunday, 14,000 men, women and children will group on the Staten Island side of the Verrazano Narrows Bridge, eager to put their bodies through agony to run 26 miles and 385 yards through the streets of Brooklyn, Queens, the Bronx and Manhattan.

Before the starting gun, the competitors will seem to merge into one mass, blending into a sea of multi-colored T-shirts and tank tops.
 But the 10th annual New York City Marathon calls for the supreme individual effort. Each runner - consumed for weeks ahead of time with preparation - faces the grueling event alone, trying to pass his or her private endurance test.
 Ed Haggerty, 37, a

seasoned athlete who plays rugby union, has already run two marathons, but he says he would never recommend that someone take up running.

"It becomes obsessive," Haggerty says. "It's a time drain and a mental drain. I get up in the morning and I think about the marathon."

Drew Melton, a 35-year-old bond trader and veteran marathoner, took a week off work to train, ran too much and caught a cold. He realizes his chances to beat his previous time are slim, but he'll be running Sunday.
 "The more time you think about it the more anxious you get about it. I've just started to think about it," he says.

And Bert Berliner, a photo editor and first time marathoner who used to call runners "fanatics," now admits he's one. Berliner, 35, says the race is his personal odyssey: "I can't think of any other goal that is so important to me. When I picture what the Verrazano Bridge is going to look like, I'm just overwhelmed."

Haggerty and Melton say they're running to beat their best marathon times, coincidentally identical marks of 3 hours and 6 minutes.

"I know I can run 26 miles. That's a piece of cake," says Haggerty, who owns and edits Rugby Magazine. "To me it's just a question of am I going to run better than 3:06 or not? If I break my time, then all the training is worth it."

Others run hoping to win or to qualify for next spring's Olympic trials.
 But Berliner falls amid the majority whose goal is simple: To complete the race, to somehow struggle across that finish line at Tavern on the Green in Central Park.

Small and wiry, Berliner sees finishing the marathon as a "quiet sense of accomplishment" that caps an unathletic life. One sharp childhood memory is of always being picked last for basketball games.
 "It's become an odyssey. That's why it doesn't matter how long it takes, as long as I finish it," he says.

Berliner has trained hard for five months, often running 15 and 20 miles at a clip. His view of the marathon is still sacred. "It's like a quest, a trek. I'm still a dilettante. When I run this, then I'll be a tried-and-true runner."

Price control system bureauratic nightmare

WASHINGTON, D.C. — This past week, I was prepared to present an amendment to the House of Representatives which, standing alone, might have been confusing to those who recognize my stand on government intervention in the private sector and, in particular, on the subject of price controls.

The amendment was to be offered to the Department of Energy Authorization Bill and read, "All coal deposits known as of 1973 shall be immediately placed under Federal price controls at 1973 levels."

The purpose of this amendment was not, as it might appear, to add further to the burden currently faced by the coal industry, but to point out the political duplicity of singling out oil and gas as the only energy source to be kept under the crippling yoke of price controls.

The coal amendment, fortunately, was not necessary to achieve the goal I sought: The defeat of another amendment which attempted to reverse decisions to gradually decontrol the price of petroleum.

My logic was simple: To present the choice of either

Congressman
Charles W. Stenholm
Congressional Comment

voting for both the continuation of mandatory controls on domestic crude oil and the placement of such controls on coal, or the choice of opposing both proposals. Obviously, the latter choice is the most sensible and would be in the best long-range interest of all American consumers.

A great deal of attention has been focused on rising petroleum costs and the effect of those increases on our economy. Little note has been made, however, of the fact that from 1973 through 1978, the price of coal rose 224 percent. Rolling back the price of coal to the 1973 level would initiate a savings of \$11.77 billion for the American consumer. A practical course? Not when taking into consideration the need for increased energy supplies in this country. Such a move would break the back of the coal industry and serve only to further decrease current energy supplies. But, when you think about it, is it any more absurd than posing these same restrictions on the petroleum industry, or any other industry in this country?

Short-term answers only serve to promote short-term political interests and prolong the need to take actions which might prove unpopular at home, but which are necessary to solve our nations energy crisis.

Sterling City residents post wins at state fair

Delmar Radde Jr. and Wesley Hodges of Sterling City were among top winners in the Oct. 12 Pan-American Livestock Exposition, held during the state fair in Dallas.

Radde took the reserve grand champion placing in the Delaine Merino Sheep competition with a yearling ram.

Yearling Ewes entered by Radde took grand champion and reserve grand champion placings in the same competition.

Radde also won first and second place in Spring Ram Lamb, first in Fall Ram Lamb, first in Pair of Ram Lambs, second and third in Yearling Ram, first and second in Spring Ewe Lamb, second and third in Fall Ewe Lamb, first in Pair of Ewe Lambs, first and second in Yearling Ewes, first in Pair of Yearling Ewes and first in Exhibitor's Flock.

Radde also took the Premier exhibitor title.

In Junior Delaine Sheep, Radde, a member of FFA, took reserve champion with a yearling ram, champion with a yearling ewe and reserve champion with a yearling ewe.

Radde also won first and second place in Spring Ram Lamb, first in Fall Ram Lamb, second and third in Yearling Ram, first and second in Spring Ewe Lamb, second and third in Fall Ewe Lamb, first in Pair of Yearling Ewes and first in Exhibitor's Flock.

Hodges was named Premier Exhibitor of that division.

He was named Premier Exhibitor of the Junior Delaine Sheep, also.

Hodges, also a member of FFA, took all high honors in the Jr. Rambouillet Sheep Division. He took champion ram with a yearling, reserve champion ram with a spring lamb, champion ewe with a yearling and reserve champion ewe with a yearling.

Hodges took first and second places in Spring Ram Lamb, Fall Ram Lamb, Yearling Ram, Spring Ewe Lamb, Fall Ewe Lamb and Yearling Ewe.

Hodges also won Exhibitor's Flock and was named Premier Exhibitor of the division.

Hodges won all high honors in the Rambouillet Sheep Division, also, taking champion and reserve champion lamb as well as champion and reserve champion ewes with yearlings.

He also won first and second places in Spring Ram Lamb, third in Fall Ram Lamb, first in Pair of Ram Lambs, first and second in Yearling Ram, second and fourth in Spring Ewe Lamb, third and fourth in Fall Ewe Lamb, first in Pair of Ewe Lambs, first and second in Yearling Ewes, first in Pair of Yearling Ewes and first in Exhibitor's Flock.

Hodges was named Premier Exhibitor of that division.

THAT SENSUAL LOOK — Ginger Walden, 24, of Lake Dallas, Texas strikes a sensual pose, one of the poses that caused judges to select her from 50 other contestants as Miss Sensuality of Texas Tuesday night at the Dallas Playboy Club. Her outfit, subdued compared to many, reflects her theory about sensuality. "It's a feeling that has nothing to do with looks," she says. "It's communication with another person."

Davidson in custody

Timothy Allen Davidson, 504½ Douglas, is in custody this morning in county jail on suspicion of criminal mischief. Bond was originally denied by Justice of the Peace Lewis Hefflin then later set at \$10,000.

Hefflin said he was told by District Attorney Rick Hamby that there was no need to hold Davidson any longer. Davidson had been out on bond on two felony counts at the time of his recent arrest.

According to recent state law, when a suspect is free on two bonds a third felony bond may be refused.

Davidson was arrested Tuesday and transferred to county jail Wednesday.

Davidson is accused of inflicting \$300 worth of damage Monday evening to a car belonging to Lavarice Webb, 710 Galveston.
