KING COTTON — Discussing the prospects for the 1981 cotton crop in Mitchell County during the Cascot Tour sponsored by Custom Ag in Loraine Thursday, left to right, are Jackie Warren, Lamesa, James Seago, Lamesa, and Hollis Smith, Sweetwater.

## Settles Hotel owners hit by city tax suit

By BILL ELDER  
Staff Writer

The historic Settles Hotel, in the public spotlight because of efforts to board up as well as purchase the vacant, neglected structure, made news again Thursday when the Big Spring City Council sued the hotel's owners to recover nearly \$16,000 in allegedly delinquent property taxes.

The owners are William Wortley and Harry Hawn of Dallas, who do business as a company called Big Spring Associates and were unable to be reached by The Herald for a comment on the city's suit.

City Attorney Elliott Mitchell asked the council to approve the suit, explaining to The Herald after the council meeting that recent news reports about the possible purchase of the Settles "focused my attention on the hotel."

He knew the owners were delinquent about paying their property taxes on the hotel and a check with tax officials led to the discovery that the owners still were delinquent, he said.

Mitchell said Big Spring Associates owes the city \$15,957.29 in property taxes and interest and penalties dating back to 1978.

He said the city would seek a court judgment "and if the judgment's not paid, then we'd put a lien on the property."

Mitchell added that the city could force Big Spring Associates to sell the hotel in order to pay any court-rendered judgment.

City taxes aren't the only taxes Big Spring Associates has failed to pay, according to county Tax Collector Dorothy Moore. She said it owes the state \$255.15, the county \$3,402.49 and the junior college district \$2,468.93.

All are property taxes and date back to 1978, she said.

The total amount due from Big Spring Associates, including interest and penalties for late payment, is \$22,957.29, she said, adding that the figure is current through the end of August and will increase by one half of one percent from an interest fee if not paid in September.

Moore said the county likely would file a lawsuit to recover its portion of the taxes.

"As a rule, when one taxing entity files, the others join in order not to lose their tax amounts," Moore explained.

Why have various agencies let the allegedly unpaid taxes continue to pile up?

"That's an answer I can't give," said Moore. "It's been known that the

taxes were due, but I can't say why (we let the amount increase)."

Meanwhile, negotiations apparently are continuing between Big Spring Associates and an Odessa businessman to purchase the 60-year-old, 15-story hotel.

While Wortley and Hawn are keeping a thin profile (The Herald couldn't find them in the 1981 Dallas phone book, nor could telephone information operators, the city or county come up with Big Spring Associates' phone number, although a Dallas address is available), Odessa businessman Bo Rich continues to pursue the ownership of the hotel.

Contacted this morning just as he was about to leave the cafe he operates in Odessa, Rich declined to discuss any hotel matters but did say of the city suit: "It's a bad situation. I think somebody's jumping the gun."

Rich said he was traveling to Big Spring today to meet with his attorney and discuss the negotiations.

He declined in an earlier interview to say how much he had offered Wortley and Hawn for the Settles, but the property is valued at \$423,480 on the 1980 tax roll, said Moore. Additionally, the building contains \$14,000 worth of personal property such as furniture and equipment, she said.

## Reagan Brown raps Hippies, praises American farmers

By TOM JAY GOSS II  
Colorado City Correspondent

LORAIN — About 450 farmers and businessmen and women attended the Custom Ag Farm Tour and free barbecue Thursday at Loraine.

Texas Commissioner of Agriculture Reagan Brown was the guest speaker holding forth on a variety of topics, including "long-haired Hippies," Communists, the productivity of the American farmer and the Medfly.

He was interrupted frequently by applause and honored with a standing ovation when he completed his talk. The audience was from all over West Texas as well as from Mitchell County.

Brown said that his men and others were stopping 2,000 cars at the Texas

border checking for California fruit.

He said if the pest shows up in Texas that he has planes ready to roll for a spraying operation. He said that he was prepared to use all the resources of his office to keep the bug out of Texas and "we just want California to do what we have to do."

Brown said that he didn't like Hippies and had his several employees stand up. All were clean-cut types. "There's a lot of Hippies in Austin, but you won't find any in my office," he said.

He told the group that despite the millions of farmers in Communist countries, that "there's not a Communist country in the world that can

feed themselves."

He said that he had just returned from China and had signed a contract to sell 450,000 bales of cotton and 17 million metric tons of grain.

He told the assembly that he had just received figures that indicate this year's wheat crop would be the highest on record: He said the productivity of the American farmer is unequalled anywhere in the world.

"You farmers are producers," he said.

He complimented Custom Ag and the owners Roy Holland and Royce Beights as exemplifying the spirit of productivity that keeps the American farmer producing more and more of everything that people can wear and eat.

## Football junkies get feast today

Big Spring Steers' prospects of contending in the 5-AAAAA conference ... Baylor's chances of returning to the Cotton Bowl ... features on 10 area schools.

The inordinate number of outstanding high school running backs in Texas ... Professional, high school and college schedules ... Cheerleaders in West Texas ... Photos, photos, photos.

And other items for football junkies are covered in the Big Spring Herald's Football Review, a 32-page supplement found elsewhere in today's paper.

## Pilots convince council runway closing unnecessary

By BILL ELDER  
Staff Writer

The Big Spring City Council stood poised to close down a runway at the municipal airport but took off in the opposite direction, leaving the runway open, after two pilots told the council the runway closure wasn't necessary.

The council met at City Hall in a special noon session Thursday to discuss the runway closure — an action prompted by O.I.L.'s plan to take over the airport apron adjacent to the runway and build manufacturing facilities there.

City Manager Don Davis told the council the expansion would be the first phase of O.I.L.'s plan to take over the acreage held by 14 Industrial Park tenants as well as airport acreage

occupied by 77 hangars and the airport terminal. The space O.I.L. initially would incorporate lies at the southwest corner of the park and the southern end of the apron.

O.I.L. Chief Executive Officer Chris Christopher went before the council and explained that his company plans to construct a sandblasting and painting facility on the spot. He said O.I.L. could miss out on \$4 million in gross sales if it can't get in right away and begin to utilize the acreage it wants.

Two pilots who use the airport, however, told the council that closing runway 14-32 — the runway adjacent to the apron — could "take away one more option" for a taxi route into the hangars, said Carl Wyrick, a pilot for Duncan Drilling Co.

Councilman Larry Miller asked the pilots if it would help by leaving the runway open but closing it off at the southern end where O.I.L.'s construction would encroach upon the runway.

Christopher clarified the matter by explaining that all O.I.L. sought was closure of the southern taxiway to runway 14-32, which would keep the runway as well as the two northern taxiways open.

Councilman Russ McEwen asked Wyrick and R.E. McClure, the other pilot, if this was acceptable and they indicated it was.

McEwen made a motion to close only the southern taxiway and the council unanimously approved the motion, with Councilman Robert Fuller absent.

The net result of the action is that pilots who taxi up runway 14-32 after landing must taxi an additional 800 feet before they can leave the runway and get to the apron.

For O.I.L., the action means the company can carry out the first phase of an expansion into airport property as well as the property rented out at the Industrial Park by 14 other tenants. O.I.L. is negotiating the assumption of those 14 leases, while the city is having a master plan prepared to handle the relocation of the hangars and terminal to the western side of the airport property — a \$2 million move the city hopes to finance with a bond issue.

HAPPY TIMES — Ex-Governor Preston Smith (left) speaks to the gathering at a reception for the University of Texas of the Permian Basin Endowment Fund Campaign held Thursday night at the Big Spring Country Club. Smith is now chairman of the UTPB coordinating board. Development board director Ray Herndon, of Midland, enjoys some of Smith's comments as he looks on. See story, Pg. 2A.

## Why grand jury 'passed' murder cases

By BILL ELDER  
Staff Writer

A "clerical error" was blamed by District Attorney Rick Hamby on a murder case the Howard County Grand Jury declined to act on Wednesday, while a delay of action on a second murder case was made to obtain lie-detector test information, Hamby said.

The 12-member grand jury met to consider the cases and possible indictments of Jeff Johnson, 51, accused of the murder of Alfoster Jones a year ago, and Porfilio Rios, 18, accused of the murder of Daniel Ruiz last April.

Johnson, said Hamby, had been "no-billed" (had his murder charge dropped) under the previous grand jury — which was the first time his case had come up before a grand jury for possible indictment.

It was a "clerical error" that his case went before the jury again, Hamby said, adding: "I was out in California last week when they drew this up. I wasn't there to look over their shoulder."

As a consequence of having no action taken on his case by the jury this week, Johnson technically would still be under accusation by the state. However, being "no-billed" by the previous grand jury means he goes off "scot-free," said Hamby.

Johnson had been free after posting bond. He was suspected of killing his neighbor with a .22-caliber shotgun after an argument.

The previous jury felt the evidence was not strong enough for an indictment against Johnson and thus "no-billed" him.

Said police Lt. George Quintero about the jury's action: "We put in everything we had. We're satisfied."

He added, however, that he thought police detectives had supplied enough evidence to bring Johnson to trial.

Meanwhile, Porfilio Rios must again have his case brought before the grand jury as it weighs the evidence and decides whether to hand down a murder indictment.

Hamby said he couldn't fault the jury's decision to pass on Rios's case since his office was "waiting for some polygraph information" crucial to the state's presentation.

He said Wednesday's session was the second time the jury had taken a look at Rios's case. He is accused of shooting to death 20-year-old Daniel Ruiz after an altercation that allegedly occurred on the heels of a drag race down East Third on the night of April 5, 1981.

According to Hamby and Quintero, Rios is claiming he shot Ruiz in self-defense.

Hamby said he hopes to have the lie-detector results by the time the grand jury meets again, tentatively set by District Judge Jim Gregg for Sept. 16, said Hamby.

He added he found "no fault with the investigation" of the shooting and Quintero said he was confident the evidence was strong enough to return an indictment against Rios.

## Home delivery rates increased

Effective Sept. 1, home-delivered papers of the Herald will cost \$4.25 monthly, an increase of 25 cents over the present rate.

The new rate figures out to less than 16 1/2 cents per day, including the Sunday edition.

The newsstand price of the Herald remains at 25 cents, the Sunday paper at 50 cents.

By subscribing to the Herald, buyers can save \$3.25 over the single copy newsstand price per month.

Newspaper carriers will receive 40 percent of the price increase, according to Chuck Benz, circulation manager.

## Focalpoint

### Action/reaction: Marriage data

Q. How would I obtain a copy of my marriage certificate from Memphis, Tenn.? We were married there in 1955.

A. According to the federal publication "Where to write for Marriage Records," United States and Outlying Areas," records for all marriages taking place since July 1945 in Tennessee are kept by that state's health department.

The address is Division of Vital Records, State Department of Public Health, Cordell Hull Building, Nashville, Tenn., 37219. The fee is \$2 by check or money order made payable to "State Department of Public Health."

Records for marriages taking place before July 1945 are kept by the individual county court clerks in the counties where marriage took place.

When requesting a copy of your certificate, include the full names of the bride and groom, their residence addresses at the time, dates of birth, date and place of marriage and the reason you need a copy.

### Calendar: Bible service

TODAY

The Merry Mixers Square Dance Club will dance from 8-11 p.m. at the Oddfellows Lodge on West Highway 80. James Moore will be the caller. All participants and spectators are welcome.

TODAY

Senior Citizens Dance at 8 p.m. at Industrial Park Building 487. Guests are welcome.

Bible Service at the Flame Room, 501 Runnels at 7:30 p.m. This is a non-denominational study of the Bible. All are welcome.

FRIDAY AND SATURDAY

Live, contemporary and gospel music will be featured at the Lion's Den Youth Outreach, 410 E. 3rd, from 8 p.m. to 11 p.m. Friday and Saturday. David Smelise, Odessa, will provide the music. There is no charge.

SATURDAY

The Howard County Library will show the classic film "The Hobbit." There will be two showings of this classic 10 a.m. until 11:15 a.m. and 2 p.m. until 3:15 p.m.

The Immaculate Heart of Mary Catholic Church Choir and Youth Group will sponsor a car wash from 10 a.m. to 2 p.m. Saturday on the church grounds. Donations will be accepted.

### Tops on TV; Linda Ronstadt 'stars'

Linda Ronstadt "stars" in a concert appearance and Eileen Brennan, Martin Mull, Alex Karras and Michael Brandon perform as really wild disc jockeys who defy their boss and take over a FM radio station to keep their kind of music rolling. This rockin' flick starts at 8 p.m. on ABC. The movie is entitled "FM."

### At the movies: More Brooke Shields

New movies on the big screens this week include: "Endless Love" with Brooke Shields (R) at the Cinema. Also opening will be the newest movie from Walt Disney, "Condorman," an action-packed comedy at the Ritz. Hold-overs include "The Blue Lagoon" with Brooke Shields (R), Ritz, "Heavy Metal", animated adult flick (R) at the Cinema; and "Hangar 18," with a cast of locals now playing at the R-70 theater.

# Digest

## Libya ships weapons

WASHINGTON (AP) — Libya has shipped new supplies of Soviet-made arms and ammunition to Palestinian guerrillas in southern Lebanon despite the month-long cease-fire in that troubled country, U.S. and Israeli sources say.

Administration officials are concerned that the deliveries by Col. Moammar Khadafy's government, which the United States has accused of supporting terrorism and subversion, could undercut the July 24 cease-fire which ended 15 days of bloody battling between Israeli and Palestinian forces.

Israel does not consider the artillery pieces and field guns as menacing to its settlements near the Lebanese border as the 130mm howitzers and BM21 rocket launchers obtained by the Palestinians before U.S. mediators helped arrange the cease-fire. But they are distressed about the steady buildup.

Syria is the gateway for the arms shipments, with most of the equipment moving by land into Lebanon, and the arms come from Eastern Europe, South Yemen and North Yemen, as well as Libya, said the sources, who asked not to be identified.

Officials at the Israeli Embassy and the Pentagon said it is difficult to detect the kind of weapons and the exact amount reaching the Palestinians.

Israel's estimate is that Libya, beginning in March and until the cease-fire, provided the Palestinians with up to 30 howitzers and up to 30 of the multiple rocket launchers. Syria and other suppliers raised the stockpile to about 40 howitzers and 50 BM21s, sources said.

With ranges of 27 and 20 kilometers, respectively, the weapons can reach beyond the Christian buffer enclave to fire on Israeli settlements across the border. Attacks by Palestinian guerrillas helped trigger Israel's retaliatory air strikes in early summer.

Libya also equipped the Palestine Liberation Organization with SAM-7 and SAM-9 missiles, according to the Pentagon, and with T-54 and T-55 tanks. All of these weapons were manufactured in the Soviet Union.

## Police indicted

BROWNSVILLE, Texas (AP) — Arrest warrants have been issued for two Reynosa, Mexico, policemen who were indicted on charges of holding an Edinburg businessman and his son for \$7,000 ransom.

An Edinburg resident also was named in the two-count indictment returned Tuesday by a federal grand jury.

The victims, Julian Cantu of Edinburg and his 8-year-old son, were released unharmed July 27 after Cantu's brother paid the money.

Charged were Raul Garza Cantu, no relation, of Edinburg; Luis Casanova, 40, and Jose Luis Arsona, 26, both of Reynosa.

Assistant U.S. Attorney Eddie Medrano said Casanova and Arsona were plainclothes policemen in Reynosa, across the Rio Grande from Hidalgo, Texas.

Prosecutors claim the businessmen and his son were lured to Reynosa on the pretense of a potential heavy equipment sale. Julian Cantu owns Cantu Truck Trailer & Equipment Sales at Edinburg.

When the Cantus arrived, they were seized by the two policemen. The businessman had \$1,500 in cash and paid that to Raul Cantu, the indictment alleged. The rest of the money was later paid by check.

The check was cashed before Cantu could stop payment on it.

The United States and Mexico do not have an extradition treaty covering Mexican nationals in Mexico wanted on charges in this country.

## Priscilla Davis files suit

FORT WORTH, Texas (AP) — A suit filed in federal court Thursday by the former wife of millionaire industrialist Cullen Davis charges that an investment company misappropriated \$50,000 she paid for interests in art works.

Priscilla Lee Davis said she invested the money in a Pablo Picasso linoleum cut and other art works on the advice of Stonehenge Assets Management Corp. of New York City.

The suit said Stonehenge sent Mrs. Davis confidential circulars advising her that it was forming limited partnerships for investors who wanted to purchase an interest in the works it had purchased.

But Mrs. Davis said the company never formed partnerships with the money it collected from her. She said she intended to purchase interests in two limited partnerships.

A Stonehenge spokesman said Mrs. Davis is "a very emotional person who got her facts all mixed up."

The suit filed in U.S. District Judge David Belew's court alleges that Philip Walker Zinke of Lenox, Mass., failed to advise potential investors that their capital contributions would total more than twice the amount he paid for the art works. The suit also charges that Stonehenge's right to do business was forfeited because it failed to pay the state franchise tax.

A Stonehenge vice president said the company has never tried to cheat anyone.

## Attorney seeks court post

AUSTIN, Texas (AP) — Dallas attorney Melvyn C. Bruder said today he will be a Democratic candidate for the Texas Court of Criminal Appeals in the 1982 elections.

Bruder, 40, said he would seek the vacancy created by the retirement of Judge Truman Roberts who recently announced he would not seek re-election after 11 years on the court. Roberts' term ends this Dec. 31.

"I believe my previous experience with the court and as a practicing attorney handling mostly criminal cases qualifies me for the job," Bruder told a news conference.

Bruder, a graduate of the University of Texas Law School, was a briefing attorney for the Court of Criminal Appeals from September 1967 through July 1969. Since 1969 he has been in private law practice in Dallas.

Bruder said he had handled the appeals of seven capital cases to the Court of Criminal Appeals and three to the U.S. Supreme Court.

CUTTING THE YARN — Quilt Box and Yarn Shop owners Bobbie Hanson (left) and Sharon Shanks (right) prepare to cut the ribbon which formally opens their store located at 207 Young. On hand for the ceremony were Jerry Ried, (left), Chamber of Commerce Ambassador and Cliff Clements, (right), advertising manager of The Herald.

## Quilt Box and Yarn Shop is now open

The Quilt Box and Yarn Shop located at 207 Young is now open to help customers with their crocheting needs.

Co-owned by Bobbie Hanson and Sharon Shanks, a mother-daughter duo, the shop has a complete stock of Red Heart yarn, said Sharon Shanks.

"We have every color of yarn that Red Heart makes. Most places have only a limited selection, but we pride ourselves in the completeness of our stock," said Mrs. Shanks.

Mrs. Shanks says the business is a new venture for her and she is looking forward to meeting people and offering her experience in crocheting and knitting.

The shop also has hand made gifts, patterns, and pattern books as well as all sizes of yarn for embroidery and crocheting, said Mrs. Shanks.

The shop also will sell on consignment any goods which people might like to make, said Mrs. Shanks.

The Quilt Box and Yarn Shop is open Monday through Saturday from 9 a.m. until 6 p.m.

"We encourage anyone interested in crafts having to do with yarn to come in and talk over ideas while they browse through the store," said Mrs. Shanks.

## Clayton may enter state race

By BOB CARPENTER Staff Writer

COLORADO CITY — Although Bill Clayton may be stepping down from his office as Speaker of the Texas House, he probably won't be leaving politics.

Elmer Martin, Colorado City mayor and former state legislator, announced at a Mitchell County Farm and Ranch luncheon that Clayton, who was guest speaker at the affair, possibly may run for the office of State Land Commissioner.

Clayton made no formal statement concerning his possible candidacy. Sources close to Clayton say he is seriously considering running. Clayton has said he would like to hold a state-wide position.

Bob Armstrong, who is currently State Land Commissioner, announced several months ago that he plans to retire when his term expires in 1983.

Clayton, in his speech Thursday, told Mitchell county farmers that there is a need for them to band together. Clayton said the agricultural community comprises only 6-8 percent of the population in Texas and that 8 percent needs to unify to be heard in the halls of congress.

"The last session of the Texas Legislature produced some progressive farm legislation. Passed was a right to farm measure, a water trust fund

for conservation projects, and the legislature appropriated more funds for agricultural research than ever before," Clayton said.

The right to farm measure will return to the farmer more of his rights to work his land which concerns what crops to plant, when to plant, and the techniques he uses.

Clayton urged voters to carefully consider a water trust fund amendment which will be put before them in November.

"Right now Texas has enough water, but down the road in the next century, which is only 19 years away, we will face a serious shortage of water resources unless we act now. The water shortage we possibly could be facing will overshadow any of the troubles we have experienced with fuel," said Clayton.

The trust fund will be used for water projects, water conservation, water acquisition, and water loans.

Clayton said he was pleased that the legislature appropriated more funds for agriculture research than any other time in history.

"Even in the days of budget cuts we realize the importance of agriculture and are looking toward the future. We appropriated more funds for research than even what was requested," said Clayton.

Clayton said the population in Texas grew 27 percent in the last ten years

and he believes the trend will continue.

"Texas presents a feasible picture to people in northern states. We have no personal or corporate income tax, the lowest gasoline tax, the state has many diversified locations for businesses, and the need for a labor force is here," said Clayton.

Clayton thinks these features will bring more people to Texas and more people will increase the need for agricultural production.

"Agricultural people are the real thread that keeps the moral fiber of the country together and I'm proud to say I'm a farmer wherever I go," said Clayton.

Clayton made no mention of Mike Martin the Longview Republican who was grazed by buckshot on July 31. Clayton has called Martin an embarrassment to the House and to himself. Martin has claimed several reasons for the shooting such as political enemies and that a satanic group was after him.

The Associated Press reported that Clayton said if 100 House members asked for his help he would ask Gov. Bill Clements to call a special session. It would take a vote of two-thirds of the 150 House members to oust Martin. Clayton has said Martin's resignation would be the quickest and easiest way.

## Money matches anonymous gift

# UTPB reception celebrates raising of nearly \$150,000

By BOB CARPENTER Staff Writer

The University of Texas of the Permian Basin Development Board met with guests and supporters of the UTPB Scholarship Endowment Campaign Thursday evening at the Big Spring Country Club. The reception was to celebrate the raising of nearly \$150,000 to be used for academic scholarships.

The money was raised to match an anonymous gift of another \$150,000 in which the donor stipulated UTPB had to raise the same amount before the donation was valid.

Special guests attending were ex-Gov. Preston Smith, James Powell, chairman of the UT Board of Regents, Donald Walker, chancellor of the UT system, and V.R. Cardozer, president of UTPB.

Cardozer said private gifts like the one received were very important in this day and time. He said the Reagan budget cuts make donations all the more meaningful.

The combined total of almost \$300,000 will be given out strictly to students showing academic achievement. Cardozer said most funds are given out for financial need, but UTPB's newly raised money will be an incentive for students to excel in the classroom.

Former Gov. Smith echoed Cardozer's words: "With the administration we now have in the White House people who attempt to help themselves are going to attract a lot more favorable attention than those that depend on the government."

Chancellor Walker said private donations provide the margin of excellence in education. He believes Texas can and should provide its people with the best education in the United States. Texas now ranks fourth in the nation in quality of education, Walker hopes the academic rating will continue to rise.

UT Regent chairman Powell said the scholarships will help to put pride back into the classroom.

"I believe the student must work for what he gets and the way the UTPB funds are set up now a student will have to apply himself to get reward and this process will make him learn," said Powell.

Cardozer told The Herald that UTPB will be making concerted efforts to increase enrollment in the next few years. He said that since the population of West Texas is growing he feels the definite need for an upper-level institution in the area.

"I hope one day UTPB will be a four-year school, but right now we have to concentrate on getting a strong health enrollment each year to show the UT system we are a viable part of their network of schools," said Cardozer.

Development board members from Big Spring attending were Mrs. Johnnie Lou Avery, Joe Pickle and John Currie.

## Hinckley pleads innocent to charges in Reagan attack

WASHINGTON (AP) — John W. Hinckley Jr. pleaded innocent today to charges of shooting President Reagan and three others and his attorney said defense psychiatrists feel the 26-year-old former drifter is competent to stand trial.

In a firm voice, Hinckley responded "not guilty" after the 13-count indictment was read to him as he stood, sometimes straight, sometimes crossing one leg over the other, before U.S. District Judge Barrington D. Parker.

Parker ruled that Hinckley was competent to participate in the arraignment, but has not yet ruled on his competency to stand trial.

Hinckley's attorney, Vincent J. Fuller, told the judge in response to a question that "in my opinion and the opinion (of defense psychiatrists) Mr. Hinckley is presently competent."

Assistant U.S. Attorney Roger M. Adelman told Parker "there's no information he's not competent" and added that a sealed psychiatric report on Hinckley "provides the basis also to find him competent."

Hinckley's white bullet-proof vest showed through his dark blue suit. Defense attorney Fuller said Hinckley may plead not guilty by reason of insanity, but added that he

needs an additional 30 days to have defense psychiatrists complete their examination of Hinckley to decide whether such a defense will be raised.

Parker set a hearing for Tuesday to argue a motion by Fuller that contends Hinckley's constitutional rights were being violated because prison officials were reading what he wrote while in prison. A bail motion also will be argued Tuesday.

Justice Department spokesman Tom DeCair said Hinckley was moved by "surface transportation" from the Quantico, Va., Marine base to the lock-up at the U.S. District Court building.

Development board members from Big Spring attending were Mrs. Johnnie Lou Avery, Joe Pickle and John Currie.

## Police Beat Officers interrupt burglar

Bob Strapp Jr. complained to police that sometime early Friday morning at Hillman's Saddlery, Rt. 3, someone backed a U-Haul truck up to a hole in the building and loaded \$3,426.35 worth of merchandise into a truck.

The burglar was apparently scared off and left the vehicle with the goods. Police say they recovered all the merchandise, but have no leads.

plained to police that he was assaulted at 4:30 p.m. Thursday in the Kwikie Grocery at 510 N. Lamesa by a person unknown to him. He was taken to Malone-Hogan emergency room, where he was treated and released.

Bert Hillger, 500 W. 4th, reported to police Wednesday night someone unknown to him broke the left door glass of his 1977 Thunderbird and stole the glass T Top. Hillger estimated the T Top to be worth \$1,130.

## Deaths Ex-Coahoma principal, Bill Easterling, dies

BILL EASTERLING

Bill Easterling, 47, of Coahoma died at 3:20 a.m. Thursday in a Lubbock hospital. Services will be at 10 a.m. Saturday at Midway Baptist Church, with the Rev. Rick Davis, pastor, officiating.

Burial will be in Coahoma Cemetery under the direction of Nalley-Pickle Funeral Home.

He was born April 28, 1934 in Avoca. He graduated from Avoca High School and received his bachelors degree from McMurry College in 1956.

He married Sherill Maus on Sept. 12, 1974 in Abilene. He was a member of Midway Baptist Church.

Mr. Easterling received his master's degree and superintendent's certificate from Abilene Christian University in 1975 and worked toward his doctorate at ACU.

He taught at Lorraine High School before coming to Coahoma in 1967. He served as Coahoma High School principal for 16 years. He resigned and joined the faculty of Howard College for the 1981 summer session.

Survivors include his wife, Sherill of Coahoma; a son, James of Post; a daughter,

Lisa Easterling of Dallas; his parents, Mr. and Mrs. Hillard Easterling of Avoca; two brothers, Bobby of Rochester and Jack of Abilene; nine sisters, Dortha Massey, Peggy Hollivell, Ruby Blascyk, and Mattie Elliott, all of Abilene, Wanda Bounds of Tacoma, Wash., Virginia White of Hamlin, Ruth Rogers of Lubbock, Glenna Vivian of Bartlesville, Okla., and Janie Inskoop of Portland, Ore.

Pallbearers are Rip Patterson, Donald Webb, Clay Reid, Rob Etheridge, Larry Freeman, Norman Roberts, Kirby Brown, Weldon Weaver, Harry Herbst, Wendell Shive, Donnie Reid, Barry Stephens. The family requests memorials to the South Plains Dialysis Center, 4110 22 place, Lubbock, Tex. 79410.

Funeral services will be held at 10:00 a.m. Saturday, August 29, 1981, Midway Baptist Church with interment in Coahoma Cemetery.

Bill Easterling, age 47, died Thursday morning. Services 10:00 A.M. Saturday, August 29, 1981, Midway Baptist Church with interment in Coahoma Cemetery.

# Reagan: Interest rates hurting economic plan

SANTA BARBARA, Calif. (AP) — President Reagan says his administration and its economic program are being hurt just like everybody else by high interest rates stemming from the Federal Reserve System's tight-money policies.

But Reagan says the problem is temporary, caused by economic conditions inherited from the Carter administration, and is sticking to his prediction that interest rates will fall by the end of the year.

On a rare outing from the secluded ranch where he is vacationing, the president also told a California Republican gathering Thursday night that both Libyan pilots shot down by

U.S. jets over the Mediterranean last week were rescued.

He also pledged to build the MX missile, although he said he hasn't decided where and how it will be based.

Interest rates, now hovering at 20 percent for short-term borrowing and at 17 percent for mortgages, have driven up the federal deficit and hampered Reagan's quest for a balanced budget by 1984.

Answering questions from the audience, Reagan said, "Let me point out one thing. The Fed is independent, and they're hurting us in what we're trying to do as much as they're hurting everyone else."

The remark appeared to refer to the Federal Reserve, the government's central bank, which has followed the administration's urging in seeking to restrict the growth of money in the belief that too rapid an expansion is inflationary.

After checking with Reagan later, however, deputy White House press secretary Larry Speakes said the president was referring to interest rates.

Reagan said interest rates have soared because the market for private capital "is strained by the fact that the federal government is going into that market and competing for this investment capital."

That's "just the plain law of supply and demand," he said.

Noting that his budget and tax cuts won't take effect until Oct. 1, Reagan said, as he has before, that he believes interest rates "will be coming down before the first of the year."

Federal Reserve Chairman Paul Volcker said last week that federal spending and the budget deficit, expected to top \$60 billion for the fiscal year ending Sept. 30, had to be reduced further before interest rates and inflation could come down.

Asked about last week's clash with Libyan jets, Reagan said he wasn't "macabre about any loss of life or anything" but defended the U.S.

action, which came in disputed waters off the coast of Libya.

"As far as we have been able to learn, both of their pilots were picked up from the sea and there was no loss of life in that incident," Reagan said. "But it wasn't the first time that they have done things of this kind. We just feel that a principle was involved."

Administration officials said previously that at least one of the two Libyan pilots was believed to have been picked up.

Asked if he had heard from Libyan leader Moammar Khadafy since the incident, Reagan replied: "No, but I noticed he has not gone home yet. He's still traveling."

The president said he has several options on how to base the MX missile, a major part of his plan to upgrade the nation's strategic weapons system, but has yet to decide.

"I don't know where we're going to put it, but we're going to have it," he declared.

Reagan said his biggest surprise since taking office has been leaks of government information.

"I've gotten so that I address some things in the Cabinet meetings to the chandelier," he quipped. "I'm sure it must have a microphone in it."

But there has been one big pleasant surprise, too, he added: "After all the horror stories about the job, I'm kind of enjoying myself."

## Former Amarillo chief to head McAllen force

MCALLEN, Texas (AP) — A former Amarillo police chief who resigned amid charges his department mishandled a murder investigation will head the McAllen police department in the wake of allegations of police brutality.

Lee Spradlin, who resigned his Amarillo post in January after six years, will take over Tuesday, city manager Don Sisson said Thursday.

Spradlin, 48, will become the fourth chief here in as many years. When he left Amarillo, the department was under fire for releasing a murder suspect apprehended hours about the slaying and then not taking the man into custody again for 11 months later.

The McAllen police department is the subject of a federal grand jury inquiry into possible criminal civil rights violations involving brutality against defendants. It is under a federal court order to improve training and internal investigative procedures.

The allegations date back to 1976 and have prompted several civil suits against the

LEE SPRADLIN

dispute over the brutality allegations. Before Caldwell, C.D. Mussey had retired.

Videotapes made at the police station booking desk have been aired on national television and show officers beating, kicking and abusing prisoners, most of whom were Mexican-Americans.

The new chief began his law enforcement career in Dallas in 1954. He rose from patrolman to commander of the department's internal affairs division.

Spradlin has a bachelor of science in law enforcement from Sam Houston State University in Huntsville.

Eckhardt, former McAllen city attorney Ted Calisi and at least nine other former or present police employees were subpoenaed to a Thursday session of the federal grand jury.

Also subpoenaed was Gregorio Moreno Vallejo, who has filed a civil suit alleging three McAllen policemen burst into his home on July 29, 1979, said he was wanted on a murder charge in Veracruz, Mexico, and took him to McAllen police headquarters.

## Examiner regrets suicide ruling

HOUSTON (AP) — A county medical examiner who issued a mistaken murder-suicide ruling that took 19 months of investigation to overcome has told the Harris County Commissioners Court that he regrets the error.

Dr. Joseph Jachimczyk issued the ruling in a 1979 case, theorizing that Diana Wanstrath shot her husband, John, and 14-month-old adopted son, then turned the gun on herself.

"I'm truly sorry," Jachimczyk told the panel Thursday. "I can assure you it was not an off-the-cuff decision. It was not an ar-

bitrary decision. And for sure it was not a capricious decision or a malicious decision."

Allen Wayne Janicka has since been convicted of capital murder in the baby's slaying. In a related case, Markham Duff-Smith, accused of hiring Janicka, was convicted of capital murder for paying for his mother's 1975 slaying.

The prosecution argued that Duff-Smith plotted to inherit the Wanstraths'

wealth. The apology came after friends of Mrs. Wanstrath, angered over the damage done to her reputation by the erroneous initial ruling, demanded an investigation of the medical examiner's action.

No gun was found at the scene of the killings. Jachimczyk said he had believed someone had removed it from the scene to save the family embarrassment.

## Weather

WEATHER FORECAST — The National Weather Service forecasts showers Saturday for parts of Michigan, Ohio, Indiana, Pennsylvania, New York, West Virginia, Virginia, Kentucky, North Carolina and Tennessee.

## Showers forecast for most of Texas

By the Associated Press Scattered showers and thunderstorms were forecast for most of Texas today as a weak cool front continued to move slowly southward.

Forecasts called for partly cloudy skies, scattered showers and thunderstorms and warm temperatures. Highs were to be mostly in the 90s except in the Panhandle where the mercury was expected to remain in the 80s.

Heavy thunderstorms were reported during the night in the Panhandle and near Waco in Central Texas, but most of the

heaviest activity died out before dawn. The heaviest rainfall during the night was at Waco where 8.1 of an inch fell.

Except for the Panhandle and Central Texas, most of the state had clear pre-dawn skies. Early morning temperatures were in the 60s in the western half of the state and in the 70s in the northern and southern sections of the state. Extremes ranged from 63 at Dalhart to 80 at Austin.

Isolated showers lingered over the Great Basin. Showers and thunderstorms were scattered over the Ohio Valley, upper Mississippi Valley and the Great Lakes.

Later today showers and thunderstorms were expected from the Gulf Coast to the lower Great Lakes, as well as over parts of the upper Great Lakes and the upper Mississippi Valley. Most other areas were forecast to have sunshine.

**THE LIGHT TOUCH**  
By Sherry Wegner

It probably hasn't cost us more than a \$100 (not counting clothes) for basic supplies so our kids can get a "free" education.

My Father-in-law lamented recently: "Did you ever notice, no matter who you're talking to, they are always right."

I noticed it was do dry on the Navajo Reservation, that they labeled their creeks "washes".

Monday 24th, being our 25th Wedding Anniversary, our kids honored us with a small dinner party at which time Jana commented that she needed to get a "SPA" loan (small party loan) to help finance it.

Bob says he's tired of being sick & tired of being sick and tired.

If you're sick & tired of not getting good service, then you need to go to BIG SPRING SEED & CHEMICAL, 602 N.E. 2nd. We have a good supply of winter small grains, e.g. wheat, rye, & oats. Note to 4-H'ers & F.F.A. participants: Place your orders early for Lamb halters & blankets. Also, we have "Creep Chuck" for show lambs & Hi-protein Capon feed.

## Farming is leading source of income in fewer counties

WASHINGTON (AP) — Farming is a leading source of income in slightly more than one-fifth of the nation's 3,138 counties, a dramatic drop in the last three decades, a new Agriculture Department study says.

Just 684 counties, or 22 percent, derive at least 20 percent of their income from farming, according to the study by Robert A. Hoppe of the department's Economic Research Service. In 1950, the number was 2,016 counties, 64 percent.

"Some counties may have a large farm sector but still had less than 20 percent of their labor and proprietors' income from farming," the report said. "Agriculture was important in these counties, but it was overshadowed by other industries."

For example, Kern County, Calif., a major farm area, was excluded because agriculture did not produce 20 percent of its total income.

In Kansas, Reno and Sedgwick counties — highly ranked in the state's agriculture — were overshadowed by local businesses and employment in such centers as Wichita and Hutchinson.

Ohio, a major Corn Belt producer — but with large population centers and industries — had only three of its 88 counties on the list.

Illinois, one of the richest farming states, scored with 35 of its 102 counties.

The 684 counties cited in the report are concentrated mostly in "a triangular area with its corners in eastern Montana, western Wisconsin and west-central Texas," it said.

Hoppe's report, prepared to aid in the formulation of new farm legislation pending in Congress, has been given only limited circulation among researchers.

The Associated Press obtained a copy Thursday.

"This decline, with an accompanying erosion of farmers' political power, nonetheless introduces economic opportunities for both farmers and their rural communities," it said.

"The growth in non-farm business gives farmers a chance to supplement their income with a job off the farm. And rural economies may become more 'recession-proof' now that they have a more balanced mix of income sources, including farming."

Four time periods were involved in the study: 1950, 1959, 1969-71 and 1975-77.

"Of the 684 agricultural counties in the mid-1970s, 673 had been consistently agricultural since 1950," the report said. "These counties had a disproportionate share of the nation's large farms, those with annual sales of over \$40,000."

Further, those farms "tended to be both physically and financially large," including these characteristics:

—An average size in 1974 of 585 acres, compared with 440 acres nationally.

—More than half the nation's wheat acreage, almost half of the other small grains and more than two-fifths of the sorghum in 1974.

—Receiving more than 40 percent of the nation's farm program payments in 1979.

# Now is time for government to deregulate natural gas

Oil decontrol has been a great success. It is now time for the government to accelerate the decontrol of natural gas.

We have learned, as we knew in the first place long ago, that the energy market works just fine by itself, thank-you, without the federal government regulating it.

Several statutes on the record now, such as the Natural Gas Policy and the Fuel Use Act, actually discourage the development and use of natural gas.

This was because former President Jimmy Carter thought the country's gas reserves would be exhausted before 1990.

One of the mistakes in the Natural Gas Policy Act was to tie the price of natural gas to the price of oil. This has resulted in an unnecessary doubling of the ceiling of the price of gas, a cost that ultimately comes out of the consumer's pocketbook.

A Cabinet-level committee in Reagan's administration has advised him to purpose legislation for immediate price decontrol of

natural gas and to phase out all other controls on natural gas by 1985.

We are wholeheartedly in agreement with that proposal, and in fact, we think the nation could do quite well without a Department of Energy altogether.

It takes \$13.5 billion a year to run the Department of Energy that spends its time enforcing arbitrary regulations that so far have done nothing but discourage drilling.

Producers have enough expense hunting for oil and gas without having to suffer unnecessary penalties. Independent producers drill most of the exploratory wells in the country — and we look to them to help America become self-sufficient in energy.

Thus, rather than have to import millions of barrels of natural gas per day and export our dollars to pay for them, we use our own resources and keep the money at home in our own economy.

It makes sense to deregulate natural gas.

THE I. A. TIMES SYNDICATE

## You'll love this bomb

Art Buchwald

Despite constant assurances of people very high in the government, there are still some skeptics in this country and Western Europe who are not sold on the argument we need to build a neutron bomb. The fact of the matter is that the United States not only needs it — but it's inconceivable that we could have ever lived without it.

The neutron bomb is the greatest thing to come along since white bread. When set off it produces high levels of radiation, cooking people, but leaving structures and buildings standing. Unlike present atomic weapons where blast and heat do most of the damage the neutron bomb actually penetrates its target, frying anyone inside.

The same people who are always standing in the way of progress are asking "Why do we need a neutron bomb?"

The question doesn't deserve a response, but I'll give one anyway. We need one if we hope to fight an integrated war on foreign soil.

The U.S. military's new strategy is to prepare itself for conventional nuclear and chemical war battles. Because the Soviets outnumber the NATO forces, the neutron bomb will give us the parity we need to deter the Russians from attacking the West.

You would think the Europeans would be overjoyed that we were going ahead with an enhanced bomb which might kill them but preserve all their beautiful palaces and churches.

The reaction has been just the opposite. Instead of saying "Thank you, Uncle Sam," they have informed us to

stull our neutron bombs in the ground.

I say if that's the way they feel about it we should keep our bombs in Utah and see what kind of conventional nuclear war they can fight without them. If they want to use the second-rate low-yield atomic weapons they now have at their disposal, good luck to them. But when they start crying for the high-yield mini-nukes that can really do a man's job, we'll remind them of the fuss they made when we offered to place the neutron weapon on their soil.

The point that opponents keep missing is that we are not building the bomb to start a war, but to stop one. If the Soviets know we have a neutron bomb ready, they're not going to attack the West, unless, of course, they have a neutron bomb of their own.

By this time we should have our own laser death beam weapon in production, which will deter the Soviets from starting anything with their enhanced weapons.

In an arms war the trick is always to stay one step ahead of the other guy.

I don't want anyone to get the idea that the neutron bomb is our ultimate weapon and that we can relax after we get enough stockpiled. The bomb, for all its publicity, is just a nice little option a field commander has at his disposal when the going gets tough. It's not the end-all for killing large segments of the population, but if we can save pieces of valuable real estate from being destroyed it will pay for itself in no time at all.

## The Big Spring Herald

All should help clean city

Dear Editor:

Re the letter, Tuesday, August 21, 1981 from Mary Frances Erich, 306 Crescent Dr., Galt, Ca. 95632.

Don't know of a person who isn't fully in accord with her letter — unless it would be those people who are the most derelict in keeping their property up.

And what happened to the "Clean-Up" program this summer? Don't know how much it cost us taxpayers, but as far as I am concerned, it was money wasted. Take a drive down Scurry from Sixth to 11th and over to Main down to 7th. Count the lots that are the most glaring examples of what is needed to be cleaned up — some of them have been that way several years since property was removed from them. Wasn't this the route the Centennial Parade took?

Don't we have a City Ordinance that requires people to clean up their property after being notified or the City does it and puts it against their taxes? If we don't, we should. After cleaning the weeds from around the fireplug on my corner for the fourth time this year, someone the clean-up crew? Finally realized there was a fireplug there and rushed to paint it fire engine red.

It is easy to understand that Ms. Erich would be thinking of running for City Council if she decides to return to Big Spring to make it her home.

Let us each do his part to clean up our property so that our city will be attractive to anyone — business or individuals — thinking of coming here. We need to have more pride in our city. Let's get with it!

## Around the rim Unraveled mystery

Bill Elder

There are mysteries that will never, never be unraveled.

The huge, gaunt stone faces jutting out of Easter Island, for example.

The ships and planes and disco skaters that got swallowed up by the Bermuda Triangle.

The strange, strange rabbit attack against Jimmy Carter.

Whether federal dollars are spent on the upkeep of Ronald Reagan's pompadour.

And more.

But the greatest mystery of all lies before me now as I type this: cold, dark, shrill toned.

My telephone.

My telephone and the cord that twists itself into fat, noodle-like clumps every time I stay away from it for more than five minutes.

No greater mystery, my friend, will ever tempt, discombobulate and lay utter waste to the rational powers of your mind, than the mystery of why my telephone cord is always tangled.

I look around at the other telephone cords in the office and — naturally — they're all long and loose, flexible and stretchable.

Naturally.

But mine — mine sits there all twisted and gnarled and malicious. I pick up the receiver and pull it toward

my face and a huge black knot comes speeding at me.

I think the phone company should pay these dental bills.

At the least, it ought to explain to me why my fate is always to use telephones with sinisterly twisted cords.

I mean, what'd I do to deserve it?

It's not as if I tease or torment, tickle or torture the little hunk of plastic that supposedly is the next best thing to being there.

Sure, I bark into the receiver every now and then, and, okay, one time I couldn't get an outside line and I chucked the little ringling into a vat of gooey printer's ink.

But was that any reason to persecute me?

What that any reason to hound me across the Rockies, tail me over the Great Plains, and corner me in little 'Big Spring, Texas'?

Why can't I be anonymous? Why can't I be just another Joe with a lot of phone calls to make in his line of work?

Why is nobody answering these questions?

Operator, get me the nuthouse; I can't take the hazards of telecommunication in a vast technological society any more.

## 'Boiler rooms' prosper

Jack Anderson

WASHINGTON — The Reagan administration's determination to rebuild the nation's stockpile of strategic materials has helped to open up lucrative opportunities for fly-by-night operators preying on unwary investors.

Working out of "boiler rooms" of telephone banks, these smooth-talking hucksters make a beguiling pitch to individuals with a few thousand dollars to invest. They explain to the victim that the administration's plan to spend \$100 million to restore the dwindling strategic stockpile will soon drive up world prices for the various commodities.

In a typical case, the investor will send the persuasive pitchman \$5,000 or \$10,000 for a certain quantity of some scarce material. In return, the customer gets a warehouse receipt showing the stuff is being stored in Amsterdam, along with a document indicating the purchase is insured by Lloyd's of London. The investor is instructed to wait six months, then call back either to take delivery of the commodity or collect the profit from rising prices.

But when the unwitting victim calls

at the end of the six-month period, he discovers that the telephone has been disconnected. The supposed investment house has disappeared. The investor then discovers that both the warehouse receipt and the impressive insurance policy are fakes.

Authorities have uncovered six of these boiler-room operations recently in New York City and Miami. There are also problems with the strategic stockpile itself.

General Services Administration inspectors reported that the government doesn't seem interested in getting the best possible price for the sale of surplus material from the stockpile. A recent audit showed that between 1975 and 1979, out of 57 contracts for the sale of surplus tin, manganese and tungsten, all but seven were awarded on the basis of noncompetitive "sole source" offers.

To make matters worse, the GSA investigators and sleuths for Sen. Orrin Hatch, R-Utah, found that buyers of surplus materials "are regularly given discounts that are not justified by contract records. For example, in one 43-month period, \$3 million in unjustified discounts and

allowances were granted to 14 purchasers of surplus manganese.

"This practice of granting discounts fails to guard against windfall profits by the purchaser," says an internal GSA report reviewed by my reporters Tony Capaccio and Vivian Marino.

In a June 30 GSA audit, marked "Official Use Only," investigators concluded that there are serious deficiencies in the stockpiling of synthetic ruby and sapphire jewel bearings, which are critical in the manufacture of many weapons and precision instruments.

This is despite the fact that the William Langer Jewel Bearing Plant in North Dakota has been turning out bearings by the millions since the 1950s. The trouble, auditors found, is that "of 68.7 million stockpiled jewel bearings, as many as 53.4 million may be obsolete or substandard." Furthermore, the North Dakota plant is entirely dependent on foreign suppliers for its basic raw materials — the very situation the strategic stockpile was designed to prevent.

UNIVERSITY FOULUPS: As the nation's college students head back to campus next month, it might be worthwhile for their universities' accountants to join them in the classroom. Recent audits by the Education Department's inspector general show that some of the most prestigious schools in the land have been managing the money they get from Uncle Sam in ways that can charitably be described as slipshod. Here are a few examples.

Harvard University: Out of \$37 million Harvard's public health school charged the government for salaries and supplies from 1975 to 1977, the auditors found they were unable to "express an opinion as to the reasonableness or unreasonableness" of \$15.5 million. The auditors did make up their minds about nearly \$2 million; they asked that it be refunded.

Over a six-year period, the Illinois Institute of Technology got \$14 million from the federal government. The auditors could not determine whether more than \$10 million was "reasonable or acceptable."

Texas Tech University in Lubbock charged nearly \$10 million to the federal government between September 1975 and August 1977. But government auditors concluded that the school's bookkeeping was so sloppy that it "did not provide a material degree of certainty" that costs charged to the taxpayers were "reasonable and allowable." The auditors questioned \$5.2 million of the \$10 million provided by Uncle Sam.

The University of Nebraska at Lincoln charged the feds \$20 million from 1976 to 1978.

## My answer

Billy Graham

DEAR DR. GRAHAM: I know that the Gospel is supposed to be very simple, but if that is true, why did Jesus say that the way to eternal life is narrow, and few find it? — A.B.

DEAR A.B.: The problem is not with the Gospel, but with the human heart. Yes, the Gospel is very simple — so simple a child can understand it. It is the story of God's love for us — a love which is so great that God was willing to allow his only Son to be put to death on a cross so that we might be saved.

And it is by simple trust and faith that we come to Christ — just as a child will have trust and faith in his father. That is why Jesus told his disciples, "Unless you change and become like little children, you will never enter the kingdom of heaven. Therefore, whoever humbles himself like this child is the greatest in the kingdom of heaven" (Matthew 18:3-4).

Those verses give a clue to the problem you have pointed out. The

problem is not that the Gospel is difficult to understand, if our hearts are open to receive it. But the problem all too often is pride. We want to feel that we are somehow good enough to earn God's favor. We do not want to admit that we are sinners, totally and completely depraved and unclean in God's eyes. We do not want to admit that our only hope is in Christ, and that apart from complete faith and trust in him we are lost.

It was pride that caused Adam and Eve to be deceived by Satan; Satan said that if they followed him "you will be like God" (Genesis 3:5). "A proud look" is one of the seven deadly sins mentioned in Proverbs 6:17. In fact, throughout Scripture, pride is seen as an enemy of true faith in God.

Do not let your pride keep you from Christ. Instead, face your need of Christ and turn to him. May you be able to say with the Apostle Paul, "May I never boast except in the cross of our Lord Jesus Christ, through which the world has been crucified to me, and I to the world" (Galatians 6:14).

## 'Congenital' does not mean 'inherited'

Dr. Paul G. Donohue, M.D.

Dear DVR, Donohue: About three years ago, my mother had surgery to repair a berry aneurysm. At the time of surgery, the doctor told us she had had it from birth, and that they usually cause problems later on. Recently, I heard of a woman who died from a berry aneurysm. Her mother had died of the same thing. The family was told it was congenital. This news is causing me great anxiety, and I would appreciate your comments. If it is inherited, what do I do to prevent mine from bursting? — Mrs. A.M.

Let me try to clear the confusion surrounding the terms "congenital" and "inherited." Congenital means "born with." Inherited means "due to genes and capable of being passed on from parent to offspring." A berry aneurysm is not an

inherited, but a congenital problem — one present from birth because of an individual developmental quirk in the womb. It is a small weakening in the walls of a brain artery. Berry aneurysms cause no symptoms unless they become enlarged and place pressure on the brain, or if they bleed. The result of bleeding is a stroke.

The bulge from the weakened artery usually occurs between the ages of 35 and 60. When a berry aneurysm is found it is usually incidental to other findings in tests for other problems — a brain tumor, for example. Of course, if there are symptoms — severe headache, eye signs or any symptom suggesting an aneurysm of this type — then special tests, in which dye is injected into the brain arteries, can be done. You should not worry about having such a problem just because your

mother had it. The fact that one mother and her child both died from this problem would have to be considered a medical coincidence. In fact, relatives of people who have had berry aneurysms are not given any special tests to detect one. This fact underscores the confidence medicine has that the problem represents a quirk in individual development and not an inheritable trait.

Dear Dr. Donohue: An elderly relative had a stroke that left him crippled in one leg. I have assumed that one can never regain use of a stroke-affected limb, so why put him through the effort of exercise, etc. Can you comment? — W.L.

This is not the message you should be getting about stroke. For sure, the impairment results from damage to

the tiny part of the brain that controls nerves of muscles in that limb, and this is difficult to remedy. However, the important point is that proper therapy can still help strengthen what potential muscle activity remains there and make a difference in eventual use.

Did you know that 80 percent of stroke victims resume to some degree their former lives? The booklet "Stroke Recovery — Hope and Help" describes the causes and treatment of stroke. For a copy write to Dr. Donohue in care of the Big Spring Herald, enclosing 50 cents and a long, stamped and self-addressed envelope.

Dr. Donohue welcomes reader mail but regrets that, due to the tremendous volume received daily, he is unable to answer individual letters. Readers' questions are incorporated in his column whenever possible.

### Martin says troubles like Clayton's Brilab

LÖNGVIEW, Texas (AP) — Rep. Mike Martin, defending himself against allegations he staged his own shooting to reap political gain, made a pointed reference to earlier troubles of the Texas House speaker who has suggested the representative may be expelled from the House.

Martin, who was wounded by a shotgun blast July 31 in Austin, has denied allegations by his cousin, Charles Goff, that the shooting was a publicity stunt.

The legislator first maintained he did not know who shot him or why, later said a satanic cult was behind the shooting and then again insisted he does not know who shot him or a possible motive.

Speaker Bill Clayton responded to the controversy by saying this week he would suggest to Gov. Clements that the governor "should be thinking" about calling a special session of the Legislature to expel Martin.

"... I remember one other state representative who was accused of something, and before he had his day in court, before he had a chance to cross-examine witnesses, there were some who were calling for his removal from the House," said Martin.

"That representative was named Billy Clayton," he said.

Clayton, indicted in connection with the FBI's Texas Brilab investigation, was acquitted on all charges last fall after being accused of accepting a bribe to use his influence to re-open bidding on a lucrative state health insurance contract.

Gregg County Republican executive committee members met for two hours Thursday night to consider asking Martin to resign. But the committee ended the session without taking a stand against the legislator.

## Bell should be denied rate hike, witnesses tell PUC

AUSTIN, Texas (AP) — Old and sick people on fixed incomes cannot find any more money to send to Southwestern Bell each month, according to several witnesses who made emotional pleas to the Public Utility Commission.

"This is the fourth time in a row that we've had to be here to stop the largest and hungriest corporation in the world from squeezing the low and moderate income people of Texas," said Hannah Lovejoy of Houston.

The Association of Community Organizations for Reform Now (ACORN) asked PUC Hearing Examiner Carolyn Shellman on Thursday to recommend no rate hike. The phone company wants \$469.8 million in increases, including a \$5.45 per month jump in residential rates.

ACORN is particularly upset with Bell's "measured service" proposal, under which local bills would be

calculated according to time of day, duration and distance. Measured service would replace so-called "lifeline" service — flat-rate, lower cost service for customers who make fewer than 25 calls per month.

Related story page 11A

"If we don't have the bucks to pay (\$5.45 more per month), we can just agree to pay for every minute that we're on the phone," said Mrs. Lovejoy. "And if we don't like that we can lump it, because Bell is the only phone business in town."

Paul Roth, Bell vice president for revenues in Texas, said customers now getting lifeline service would be allowed to keep it, but no new connections would be made, if the rate hike package is approved.

ACORN witness Ida Mae Crow complained that Bell is making life harder for the poor, who already face

cutbacks in social services.

"The president is trying to kill us and so is everyone else," she said. "God's a living God and he's looking at all evil things. If that ain't evil, tell me what is evil."

James Tippett of Houston said, "Bell's got plenty of money. They're just robbing the poor."

James Miller of Dallas brought letters of support for ACORN from Rep. Paul Ragsdale, D-Dallas, and Sen. John Leedom, R-Dallas.

Ms. Shellman told the witnesses she would try to "balance all the interests in an equitable way."

The rate hearing began Monday and could last four to six weeks.

Roth met with reporters after the ACORN testimony and said, "We certainly have no intention to rob the poor. We're not as uncaring and unfeeling as those comments indicate."

### Midwife-policeman delivers second baby

BALCH SPRINGS, Texas (AP) — Becky Cook says she never planned on natural childbirth, but then she probably wouldn't anticipate delivering in the back seat of a car with a police sergeant for a midwife.

Sgt. B.W. Smith said he was beginning to feel like a veteran after he infant girl was born Wednesday. Two years ago, he delivered another baby in the driveway of a Balch Springs home.

### Three thefts of crude oil in Texas reported

Three separate thefts of crude oil were reported to the Oil Theft Hotline in Wichita Falls in recent days. The total was more than 700 barrels, which at the going rate amounts to more than \$24,000.

Two truckloads — 425 barrels were taken from Robert L. Glossop of Midland from a site in Reagan County. Staley Oil Company lost 220 barrels from a new well on a lease 1½ miles east of Sagerton in Haskell County on Aug. 16. Between 80 and 90 barrels were stolen in Stephens County from Mecca Energy of Abilene.

Sealy & Co. of San Antonio reported the loss of five 6¼-inch mill tooth drill bits and one set of 4½-inch Wooley Fishing Tools casing scrapers in Shackelford County. Serial number on the bits were VSO344, AF4234, AX2761, BX0193 and AX2613.

Total value is \$4,750.

A small FMC Triflex water pump, valued at \$3,900, was stolen from an Archer County site. The serial number listed is A-247286. The equipment belongs to Mack Knight of Wichita Falls.

Tuthill & Barbee of Amarillo reported the recent theft of a WKM Christmas tree with WKM studded T, earwing valve and choke assembly. There were three values on the tree numbered 63262-1, 635315-3 and 6212942-1. Serial number of the studded T is 81-1564. The equipment was stolen from a drill site in Refugio.

Two Lufkin 57D pumping units with Ajax engines were stolen from Burk Royalty Co., Wichita Falls in Panola County. The pumping units bore Serial numbers 92 and 111, and the engines were numbers 57865 and 57708.

### Mixed drink taxes collected increase

AUSTIN — State Comptroller Bob Bullock said sales of mixed drinks in Texas during the second quarter of 1981 were up over 28 percent over the same period last year.

Mixed drink taxes collected during April, May and June amounted to \$30.3 million, compared to \$23.6 million for the same period in 1980.

Bullock said second quarter taxes pushed the amount collected on mixed drinks this year in Texas to \$58.9 million, which represents more than a half-billion dollars in mixed drink sales in 1981.

In Howard County, a total tax revenue of \$24,005.08 was received, giving the county a 15 percent remittance of \$3,600.76. Total revenue collected for Big Spring was \$20,720.10, giving the city a 15 percent remittance of \$3,108.02.

Bullock said his office is mailing checks totalling more than \$8.8 million to 214 counties and 380 cities as their share of the 10 percent gross receipts tax on mixed drinks for the second quarter.

The state's General Revenue Fund will receive a 15 percent rebate of the tax collected on mixed drinks sold within their boundaries under the law that legalized

mixed drink sales. The tax is collected by the Alcoholic Beverage Commission and the city county rebates are sent out quarterly by the Comptroller.

Here are tax remittance figures for several surrounding counties:

Dawson, total county tax revenue, \$1,971.45. County's 15 percent tax remittance, \$295.72.

Ector, total county tax revenue, \$355,371.27. County's 15 percent remittance, \$53,305.69.

Midland, total county tax revenue, \$265,256.31. County's 15 percent remittance, \$39,788.45.

Mitchell, total county tax revenue, \$2,919.23. County's 15 percent remittance, \$437.88.

Scurry, total county tax revenue, \$21,226.02. County's 15 percent tax remittance, \$3,183.90.

Would you like to be able to go to a retreat like this when you are worried - a place where you could be alone with your thoughts - a place where you could untangle your problems?

If you would, then you are like most people. Everyone needs a retreat at moments. And everyone has one! It isn't a mountain cabin or a seaside cottage - but it is a place far better suited to prayer and contemplation, a place to sort out old errors and make new resolutions. It is your place of worship.

Let it be your sanctuary. Go to it when you are troubled. You will find within its walls your moment of peace and you will walk out into the street again far better able to make the most of your life.

# Hillcrest Baptist Church begins Wayne Copelin crusade Sunday

WAYNE COPELIN

Wayne Copelin, a Texas-based Evangelist, will conduct a crusade at Hillcrest Baptist Church from Sunday through Friday, beginning at morning worship services, 8:30 and 11 a.m. Sunday evening service will be at 7. Monday through Friday services will be at 7:30 each evening.

Copelin has conducted over 250 revivals and crusades throughout America, converting thousands to Christ. Many of these are now in the ministry, some in seminary, some pastoring and others are serving on the mission field.

Copelin was a rebellious teenager, in trouble with his parents, police and school officials. He became a Christian in June, 1963, the summer before his senior year in high school while living with a grandmother. The experience was dramatic and resulted in a total change of lifestyles. He soon sensed God's call to preach and preached his first sermon eight weeks later.

While attending Houston Baptist University, Copelin served with Teen Liberators, a ministry to drug addicts, as a street worker. He served as minister of Youth and Music his junior year at an area church in Houston and pastored a church in Liberty from 1967-70.

Since entering the field of evangelism in 1970, he has preached throughout America, in Africa, and in Australia. He has been the guest on numerous radio and television programs and has spoken in public school assemblies to over 500,000 students on moral issues and patriotism.

Copelin is President of the Wayne Copelin Evangelistic Association, past Vice-president of the Conference of Texas Baptist Evangelists, and is currently serving his second term on

the Board of Directors of Texas Alcohol and Narcotics Education, Inc.

Copelin holds the BA degree from Houston Baptist University, the MDiv and DMin degrees from Southwestern Theological Seminary. He is one of few evangelists with an earned doctoral degree.

Copelin, his wife, and two daughters, make their home in Fort Worth, where they are active members of the Glenview Baptist Church.

Wayne Copelin's preaching combines passion and fervor with outstanding Biblical and theological insight. He is recognized as one of the most dynamic and powerful evangelists on the scene today.

Everyone is cordially invited to the Copelin Crusade by Dr. Phillip McClendon, pastor.

## The Songweaver will present concerts and conduct workshop at First United Methodist

JIM NEWTON

The Songweaver will be at First United Methodist Church Sunday. His program will involve performances at both the 8:30 and 10:45 Worship Services as well as an afternoon workshop on worship for the Youth.

Jim Newton, the Songweaver, weaves a tapestry of music that inspires and entertains, while remaining stimulating and thought-provoking. With a background in the United

associate minister, social worker, chaplain, musician, singer, songwriter. Jim blends the realities of life with the message of love. He has an energy, a commitment and a style which deserves to be appreciated.

The workshop on worship will be held in Youth Hall at First United Methodist Church beginning at 3:30 p.m. Sunday. Jim will lead the Youth in group sharing to ask and to answer questions about the Celebration of

Worship and its place in a Christian lifestyle. The workshop will end at 5:30 followed by a snack supper.

At 6 Jim will play in concert until 7, at which time the Youth will lead the Evening Worship Service.

Living and singing a way of life... The Songweaver will soon be here.

First United Methodist Church invites everyone to come and join the Songweaver.

## Church School teachers to be honored Sunday at St. Paul Lutheran church Rally Day

A celebration, "Christian Education — A Gift from God," is planned for both the 8:30 and 10:45 a.m. services at St. Paul Lutheran Church by Rev. Carroll C. Kohl.

Sunday School and Mid-Week teachers, both present and past, will be honored following the 10:45 service in Parish Hall. Current teachers will be presented

with the following who have taught in the past: Mrs. Jeanette Bentley, Mrs. Elfa Cantrell, Mrs. Alma Foster, Mrs. Ruby Hadley, Mrs. Evelyn Pachall and Mrs. Juanel Roeser.

The Aid Association for Lutherans (A.A.L.) made a \$200 contribution to the church commemorating 200

years of Sunday School in the Lutheran Church, Missouri Synod. Books were purchased to place in the Sunday School library on Sunday.

Perfect attendance awards will be presented during the Sunday School hour to Jeremy Heckler for 2 years; Karen Crandall for 9 years; Carla Bengley for 11

Evangelistic Services ..... 6:00 p.m.  
Mid-Week Service Wednesday ..... 7:00 p.m.

A stranger, passing some mines in Pennsylvania, asked a young boy why the field was so full of mules.  
"These mules are worked in the mine during the week and are brought up into the light on Sunday to keep them from going blind," replied the boy.  
After a week coping with this sin darkened world; let the light of God's word shine into your heart; attend Bible study and worship Sunday.

## St. Paul slates Doctrinal course next 16 weeks

St. Paul Lutheran Church is sponsoring an Adult Christian Information Course each Tuesday for 16 weeks beginning Sept. 3 at 7:30 p.m. This course is taught by the Rev. Carroll C. Kohl and is a refresher course in Christian doctrine with the Bible as the only textbook.

The course is offered free of charge and is open to everyone. Approximately 100 people have taken this course which is offered annually. Some have taken it several times.

The course can best be described as an involvement class by those attending. Questions and answers can be given at will based on the Scriptures. Participants can become involved as they choose.

Thursday has been set as a tentative date for the first meeting. For more information, please call 267-7163, Monday-Friday from 8 a.m. to noon or the parsonage at 263-2764.

## Hillcrest begins Criswell Bible Course Sept. 14

The Criswell Bible classes at Hillcrest Baptist Church will be held each Monday, beginning Sept. 14-Dec. 7, from 6:30-8:30 p.m. Tuition for the course is \$75 instead of the \$125 as originally reported. Three hours college credit may be earned by taking the course.

THEM THERE EYES — Gilda Radner, left, looks at Gene Wilder as Wilder looks at the camera during the filming of a scene Wednesday in Boston of "Traces," a movie comedy directed by and featuring Sidney Poitier.

## Inhaled, absorbed, injected and swallowed poisons discussed

Being on the lookout for poisonous products is no idle pastime — over a quarter of a million potential poisons are offered for sale in stores where the typical retail customer shops. They range from obvious ones like pesticides, which are fatal even in small doses, to such unlikely candidates as vitamins and laxatives, if taken in large quantities. The Food and Drug Administration's Division of Poison Control receives a report on the average of one serious poisoning every three minutes.

Poisons do their damage when they are inhaled, absorbed, injected, or swallowed. One of the best ways to protect against accidental poisoning is to read the label of every product bought, before it gets soiled or falls off, and decide on the safest place to store the substance if it is hazardous. Here are some tips that supplement warnings on packages.

Never operate a gasoline engine in a closed garage or shed. Users of natural gas should always report the odor of gas promptly to their utility company and repair faulty pilot lights, corroded pipes or malfunctioning burners as soon as the first hint of trouble occurs. Never combine household ammonia and liquid laundry bleach, or other common household cleaners containing these ingredients. Mixed together, they produce deadly chlorine gas. Be sure that a responsible adult supervises all renovation and hobby projects that involve paints, varnishes, airplane glue, and other petroleum-based distillates. Store pesticides in a well-ventilated area. Do not inhale pesticide powders when mixing, keep children and pets away while pesticides are being used, avoid spraying or dusting on windy days, and close windows and doors during outside applications so that particles do not drift into the house. Many pesticides can be absorbed directly through the skin. Wear clothing that covers arms and legs, avoid splashing liquids, and wash thoroughly any area of skin accidentally contaminated. If some member of the family requires self-administered injections for an illness such as diabetes,

take special precautions to avoid any opportunity for children to "play doctor" with the medication and equipment. Check the contents of every room, looking for potential poisons and find a place, preferably a locked cabinet or suitcase, where hazardous substances can be safely stored. Keep a roll of reinforced tape handy to reseal lids of products too bulky to lock away. Never store such hazardous substances as oven cleaners near food, even if removing them from the kitchen is inconvenient. Plants — outdistancing aspirin — lead the list of items that most frequently poison children under age five. Particularly dangerous are such common household plants as philodendron, jew, diffenbachia, poinsettia, African violets and begonias. Never mix pesticides in empty soft drink bottles, pitchers, or other containers for food or beverages. When using pesticides indoors, cover all food and dishes, and even toothbrushes. Recap a potential poison between applications if children are nearby while it is in use.

If poisoning occurs, call the nearest Poison Center for advice. Hold on to the container, if any, of the suspected poisonous substance. The Better Business Bureau suggests keeping on hand a bottle of syrup of ipecac and a package of activated charcoal — both available at a pharmacy — for use if a doctor advises emergency treatment before the poisoning victim can be transported to medical facilities.

Chairmen presented their yearly reports. Officers elected were Mrs. Lee Porter, president; Mrs. Ruth Appleton, vice-president; Mrs. M.A. Cook, treasurer; Mrs. Adele Tibbs, secretary and reporter; Mrs. A.C. Moore, project chairman; Mrs. Ervin Daniel, card and gift chairman; and Mrs. Neva Clinkscale, scrap book.

Handwork was done by members and Centennial pictures were chosen to go into the scrap book. It was announced that the Canterbury Ladies are planning a bazaar of all handmade articles in November. A sandwich and dessert plate was served by the hostess. The next meeting will be Sept. 9 at Mrs. A.C. Moore's home, 1907 Main.

## Sew and Chatter Club elects new officers

The Sew and Chatter Club elected officers Wednesday in the home of Mrs. H.V. Crocker. Fifteen members and three visitors, Mrs. Pete White, Mrs. Gladys Choate and Mrs. Imogene Hohertz attended.

## Stenholm holds meeting in Abilene

Congressman Charles Stenholm held a meeting Aug. 20 at K-Bobs in Abilene for persons active in Senior Citizens programs in the 17th District. Approximately 100 persons attended the Advisory Council meeting to discuss proposed changes affecting Social Security. Persons attending the meeting from Big Spring were Joy L. Decker, project director, Retired Senior Volunteer Program; Venora Williams, representing Howard County Council on Aging; and Jim L. Abreo, representing the Spring City Senior Center. Congressman Stenholm suggested that similar meetings be held semi-annually to discuss other issues affecting the senior citizens of the district.

## Dear Abby

## Critical Churchgoer Gets the Needle

DEAR ABBY: I disagree with DISGUSTED IN YAKIMA, who wrote to you complaining about the woman who did needlework during church services. The critical one should be paying attention to the services rather than rubbernecking around to see what others in the congregation are doing. It is entirely possible that the needlework lady is getting more out of the service than her critic who is so easily distracted. (One can knit and still listen to what's being said.) Moreover, the critic appears to be judging her fellow (or sister) worshiper. It's none of her business what others are doing, so long as there is no audible distraction. I doubt if the minister would be disturbed if he knew there was a needleworker in his congregation. Speaking as a minister myself, I'd much rather have a busy knitting needleworker in church than home among the absentees. THE REV. C.W. KIRKPATRICK, UNION CHURCH OF CHRIST, LUDLOW, MASS.

DEAR ABBY: I owe you and your column a debt of gratitude. Because of the letter from DISGUSTED IN YAKIMA, denouncing the young woman who did handiwork in church while listening to the sermon, I now understand what Christianity is all about!

Ecclesiastical platitudes such as "Love thy neighbor," "Judge not lest ye be judged" and "Satan finds work for idle hands," not to mention "Forgive us our trespasses as we forgive those who trespass..." no longer have any meaning. DISGUSTED's signature was off a bit. Since this saintly person has obviously been commissioned by heaven to establish rules of conduct when in church and monitor the department of fellow worshippers rather than pay attention to the sermon, the letter should have been signed, "The Perfect Christian!" A MERRY OLD SINNER NAMED R.F. BARRY, KEWANEE, ILL.

DEAR SINNER: Hallelujah, brother. And amen. DEAR ABBY: DISGUSTED IN YAKIMA has a point. I, too, would find knitting in church a distraction. In fact, any kind of motion would prevent me from concentrating. Were I to encounter a knitter in church, my only defense would be to close my eyes. But then, I wouldn't dare. Others might think I was snoozing. EMILY IN OMAHA

## Mosquitoes becoming more resistant to insecticides, says UT researcher

HOUSTON — Dr. Carl Hacker at The University of Texas School of Public Health is, in a sense, trying to build a better mousetrap. For mosquitoes. "The reason I'm working with the genetics of mosquitoes," Hacker said, "is that in the last 30 years they've become more resistant to insecticides."

The associate professor of ecology has studied mosquitoes for 10 years. He studies models of their populations, their life tables and their natural genetics. He's looking for a weak link, a vulnerable spot. But there doesn't seem to be a simple one. For mosquitoes are incredibly adaptable. When sprayed with an insecticide — the most common method used against mosquitoes — many of them die. But the ones that survive, breed and multiply are immune to the insecticide, as are their progeny. This is due in part to naturally-occurring, mutant enzymes in these individuals that counter the effects of insecticides. Right now Hacker is trying to understand just how these enzymes work in natural populations.

When he does explain how those defenses work, Hacker hopes to be able to use them against mosquitoes.

Hacker's approach is one of biological control, "using special biological properties of a species against itself." He is especially interested in how altering the genetic structure of the population can be used to control mosquitoes. One method is to sterilize the males. Another is to make the mosquitoes more susceptible to parasites. Yet another is to genetically change their behavior so they don't bite humans. A lot of fuss over a minor pest? Not so. Hacker concentrates on two particular species of mosquitoes: Aedes aegypti and Culex quinquefasciatus. The former carries yellow fever, the latter St. Louis Encephalitis.

## Lubbock birth is announced

Mr. and Mrs. Mark Balios, Lubbock, announce the birth of their first child, a son, Jeremy James, Aug. 22 at 3:49 a.m. at Methodist Hospital, Lubbock. Jeremy made his debut weighing 10 pounds 13 1/2 ounces and measuring 22 inches in length. The new arrival's maternal grandparents are Mr. and Mrs. Joe Bessinger, Levelland. His paternal grandparents are Mr. and Mrs. Jimmy Balios, 1709 Alabama. He also has seven great-grandparents.

So scientists like Hacker are looking to genetics. A lot more information is needed about a specific population of mosquitoes to fight them effectively with genetics. "You need to know a lot of information about the biology of the beast," Hacker said: age structure within the population, dispersion of larva sites and other demographics. But while work in genetics progresses, Hacker said environmental management is currently still the most successful tactic against mosquitoes.

## Pep rally is held Monday

Alpha Tau Rho Chapter of Beta Sigma Phi held a pep rally Monday to celebrate Beginning Day. Sheri Lepard, president, presided over the meeting in the home of Jayne Titsworth. Members were dressed in the pep rally spirit and Sloppy Joe's were served. Mrs. Lepard projected the Area Convention in Midland Oct. 2-4 and reported on the executive board meeting. Sherry Woods and Patti Johnke were each granted a leave of absence.

Becky Key was appointed vice president to replace Tracy Fadal who resigned. Tommie Perez was appointed to keep points for the "yardstick". Linda Gibson, social chairman, listed the socials for the coming year. Jo Anne Ezell, program chairman, gave a report on program for the year. Last year's scrapbook was presented to Mrs. Ezell, out-going president. Jane Titsworth was elected Valentine Sweetheart.

A program on Leiter's Fabrics was presented by Mrs. Titsworth and a film, "Clothes That Make It", was shown. Each member received a long-stemmed yellow rose from the social committee upon leaving. The next meeting will be Sept. 14 in the home of Becky Key.

## Bell's enemy may not last through hearings

AUSTIN, Texas (AP) — Garrett Morris, Southwestern Bell's enemy on the Public Utility Commission, might not be around to cast his traditional dissent when PUC rules on the phone company's latest rate hike request.

Morris' six-year term ends Monday. He wants another term, but as a Democrat who has been active in high-level campaigns, his chances of reappointment by Republican Gov. Bill Clements seem slim.

"I have enjoyed the service and would appreciate consideration for reappointment," Morris told Clements in a July letter.

Clements' brief reply said, "Presently, I have not made a decision with respect to this appointment but will certainly consider your desire to be reappointed."

Tobin Armstrong, Clements' appointment secretary, said Morris would serve past the Monday deadline, until a new appointment is made.

Consumer groups hesitate to hail Morris, 66, as a champion of the ratepayers, but they do acknowledge Morris has cast some memorable dissents on the three-member board. Morris, who served as the commission's first chairman when it opened in 1975, endeared himself to Ma Bell detractors in January when he said, "I would deny the rate increase in period, in toto."

He was outvoted 2-1 and Bell got a \$114 million increase.

"I have thought we could do a better job on regulating Southwestern Bell. I thought we allowed them too much in the last two rates cases," he said in a recent interview.

Bell is back before the commission now, seeking a record \$469.8 million increase. The second week of what could be a six-week hearing before a PUC examiner opens Monday.

Is Morris, a veteran of three other state boards, a consumer champion? Not really, says Carol Barger of Consumers Union.

"I think he has been one of the more creative members we've seen on the commission," she said. "On the one hand he's been helpful to us. On the other hand he has not been able to garner that second vote."

Former Commissioner Al Erwin said that's Morris' biggest problem.

"Garrett does have very strong opinions ... the only thing lacking is an ability to try to convince someone else that he is correct," Erwin said.

Clements' file on the \$50,900 post includes about three other applicants.

Several PUC watchers tabbed Texaco lawyer George Schalles of Houston as a possible front-runner. However, the business of predicting appointments is much less than an exact science.

Schalles, a Republican and former PUC assistant general counsel, applied in 1979 when Clements picked Moak Rollins of Austin to replace Erwin, who resigned. Schalles, 33, told Clements in a letter that since then he has "remained closely involved in energy regulatory matters at both the state and federal levels."

Schalles' application is backed by recommendations from Pat Oles of Clements' staff, who said a Clements' appointee to another state board "strongly recommends him."

"He was tops on PUC staff," Oles' memo said.

Other applicants for the post include Robert Wright, energy manager for Union Carbide in Victoria, and Sloan Kirk Jr., a San Saba rancher.

## High interest rates rated top problem

WASHINGTON (AP) — High interest rates, called a side-effect of President Reagan's cure for inflation, now are showing signs of becoming the worst economic woe themselves.

The latest quarterly survey conducted for the National Federation of Independent Businesses says inflation, the leading economic enemy of the 1970s, has given way to interest rates as the top problem of companies.

The president of the National Association of Home Builders, whose members have been especially hard hit, complained this week that "exorbitantly high interest rates are replacing inflation as the nation's No. 1 problem."

And the U.S. Chamber of Commerce says it is receiving more calls about interest rates than inflation.

Some economists and politicians suspect consumers also are starting to regard interest rates as the economy's leading problem, particularly people who are unable to buy a house because of record mortgage rates.

Sen. Larry Pressler, D-S.D., said last week that interest rates could be the "sleeping issue" of the 1982 congressional elections unless they come down.

"I am very much concerned that we are going to be identified as the party of high interest unless the issue is addressed at a high level by the president," Pressler warned other Republicans.

Reagan acknowledged the concern Thursday night at a California GOP fundraiser but said the government suffers, too, because high interest rates drive up the federal deficit.

"Hurting us in what we are trying to do as much as they are hurting everyone else," he said.

Worries about interest rates have intensified in the past few months because the cost of borrowing money is persisting at record levels despite a significant decline in the inflation rate.

Inflation is now running just under 10 percent a year, down from 13.3 percent in 1979 and 12.4 percent in 1980. But short-term borrowing rates are sticking at 20 percent or higher and mortgage interest rates have climbed in recent months to a record 17 percent.

Administration economists say the high rates are a painful but necessary side-effect of Reagan's plan to bring inflation down by restricting the growth of the nation's money supply.

This tight-money policy has produced high interest rates, but only temporarily, according to the administration, which insists interest rates are bound to fall sooner or later as inflation continues to recede and as the president's tax cut encourages increased personal savings that can be tapped for lending.

So far, however, high interest rates are persisting longer than the administration had expected, and businesses are starting to hurt.

## Panel suggests doubling Medfly quarantine area

SAN FRANCISCO (AP) — A panel of government farming experts urged California to double its fruit-fly quarantine area, while state officials considered seeking damages from the federal government or a Peruvian laboratory for the spread of the pests.

State authorities have taken no action on the recommendation Thursday by an advisory group of federal and state agriculture experts that a 3,600-square-mile quarantine area be established around the site of latest Mediterranean fruit fly finds in Baldwin Park, a Los Angeles suburb.

The state has already quarantined 3,249 square miles, mostly in the San Francisco Bay area where the infestation had been limited before the new find.

Los Angeles County officials will put into effect today a 165-square-mile quarantine. Agricultural officials said residents inside the area will be on their honor not to carry produce outside it. No checkpoints will be set up.

The panel reached its decision during a closed meeting in Los Gatos. No explanation for the recommendation was given by the panel members, who did not respond to reporters' questions.

Meanwhile, authorities in the state's capital said they may seek damages from the federal government or a Peruvian laboratory resulting from the release in the state of 50,000 supposedly sterile medflies from the lab. Billions of sterile flies were released in an effort to interfere with the pest's breeding cycle.

The state auditor is trying to find out if the Peruvian flies actually were fertile when they were released as part of the eradication program. The flies were obtained by the state through the U.S. Department of Agriculture.

The investigation could establish whether California has legal grounds to recover damages from the Peruvian lab or the USDA.

Jerry Scribner, on-site medfly project director, said, "I am personally convinced that the release of non-sterile Peruvian flies played a significant part" in spreading the infestation.

Aerial pesticide spraying over parts of Alameda, Santa Clara and San Mateo counties started July 14, a month after the Peruvian fly release.

The medfly hopped to Baldwin Park in Los Angeles County from the north and has emerged in Oakland, adding a new city to the infested region. Aerial spraying in Oakland began today. The area around Baldwin Park has also been sprayed.

In all, seven counties in the state are affected and aerial pesticide spraying of the pesticide malathion has covered 1,178 square miles.

The southern outbreak, 260 miles south of the main Santa Clara Valley one, heightened concern that Southern states could join Japan in clamping restrictions on California's medfly-susceptible produce — estimated at \$4.7 billion a year.

Japan is being asked by the U.S. Agriculture Department to accept lemons from California — a \$67 million export to that nation — without fumigation, medfly project spokesman Richard Steffen said.

Japan, which imports primarily citrus crops from California, is refusing all produce from the state until USDA documents the state's fumigation program. Steffen said, adding that the process should take a few days. Japan has said it plans to accept only treated produce from counties outside quarantine.

## Man charged with threatening mayor, Vice President Bush

SAN ANTONIO, Texas (AP) — A man with a long history of threatening public figures has been arrested here and charged with sending letters threatening Mayor Henry Cisneros and Vice President George Bush.

John Wesley De Shazo, 43, who served five years in federal prison after pleading guilty to making similar threats against former President Lyndon B. Johnson in 1968, was taken into custody at a grocery store Thursday afternoon.

Intelligence officers had kept De Shazo under surveillance all day while state and federal arrest warrants were obtained.

Assistant Police Chief Marion Talbert said that De Shazo had a history of making threats and that identification was made from fingerprints taken from letters received at city hall this week and an "old letter" taken from the suspect's police file.

The Secret Service obtained an arrest warrant from U.S. Magistrate Robert O'Connor charging De Shazo with mailing a threat against Bush, while a city police warrant charged him with making

terroristic threats.

He was jailed without bond pending an appearance today before a federal magistrate.

De Shazo allegedly also had threatened former President Jimmy Carter, former Vice President Walter Mondale and Sen. Robert Dole, R-Kan., in the past.

The state charge is a Class B misdemeanor and the federal charge carries a maximum five years in prison and \$5,000 fine on conviction, investigators said.

Two threatening letters arrived at city hall this week — one containing a .32-caliber bullet and the ominous message: "Mayor Cisneros, you're a dead man."

The other letter said, "You and George Bush are going to be killed," investigators said.

Cisneros declined to comment about the letters and presided over Thursday's city council meeting, which was in session at the time De Shazo was arrested about 20 blocks away.

A man also telephoned city hall last Friday and told a switchboard operator in Spanish that he intended to shoot the mayor.

## 'States' abortion bill begun

DALLAS (AP) — The Senate judiciary subcommittee headed by Sen. Orrin Hatch has begun drafting a revised version of a proposed constitutional ban on abortion that would enable states to regulate abortion, a Dallas newspaper reported Friday.

The compromise measure is intended to broaden the political appeal of the proposed constitutional ban and is considered likely to win more votes than either current versions of the amendment or a pending bill that would outlaw the medical practice by defining life as beginning at conception. The Dallas Morning News said.

The "states rights" version might also be more palatable to the Reagan administration, which opposes abortion and endorses states rights as the foundation of a "new federalism," the newspaper said.

Anti-abortion groups are expected to lobby heavily against the proposal, however. The groups see the states rights approach as a means by which some states might legalize abortion "havens" — as some did before a 1973 Supreme Court decision legalized abortions on demand.

The language of the new bill reportedly will contain a section preserving the right of the federal government to make decisions on abortion, The News said.

## Foreigners mugged in San Francisco

SAN FRANCISCO (AP) — "German Tourists Attacked."  
"Youth Gang Robs Chinese Tourists."  
"British Woman Wounded."

The dismaying headlines point up a problem which has seriously tarnished San Francisco's glittering reputation: its all-important tourists are getting mugged.

Most of the attacks are occurring in the city's Western Addition, a high crime area of rundown Victorian houses, vacant lots and low-income housing projects that lies in the path running from the well-trafficked downtown area to the lush and popular Golden Gate Park.

This month, for the first time, police are breaking down statistics to show how many tourists become victims of violent crimes in the Western Addition. Their first sampling showed that 28 tourists — 17 of them from foreign countries — were robbed in the first nine days of August.

"Going in there is like going into a war zone," said officer Mike Farnham, who regularly patrols the area. "And sending some innocent tourist in there thinking he's out for a walk to Golden Gate Park is like turning a kitten loose on the freeway."

Tourists, particularly foreign tourists, are easy marks for the bands of youths who strike like urban pirates and disappear into the low-income housing projects in the area, officials say.

"Criminals would rather rob a tourist," Rotea Gilford of the Mayor's Criminal Justice Council said. "They know the victims are not going to be here to testify against them, and the chances of being prosecuted are less."

Tourists are also lucrative targets. One family of German tourists lost passports, airline tickets home, \$150 in cash, \$1,500 in travelers checks and a valuable camera.

Sometimes they lose more. A British woman needed surgery after being shot in the chest and left arm during a holdup. This month, an 18-year-old German girl was beaten and raped by a young man who had befriended her after she got off a bus.

Once tourists walk among the housing projects along Fulton and McAllister streets, "they're gone," said Deputy Police Chief James Ryan. "We've had a number of purse snatches and muggings, situations where our men on stakeout have seen the crime go down a quarter of a block away. It wasn't close enough; the crooks still got away."

The problem, police say, is that visitors simply are not aware of the danger that lurks in the Western Addition.

"Tourists are not asking for advice at their hotel or finding out where they can go that is safe," said police spokesman Henry Friedlander.

WAITING FOR WINTER — A Polar Bear at the London Zoo tries to find relief from the heat of the Summer sun

as temperatures reached the mid-eighties for the third successive day, Thursday.

## Coffee may inhibit cancer growth

NEW YORK (AP) — A diet rich in coffee beans inhibits the growth of cancer tumors in experimental animals, researchers at the University of Minnesota Medical School have found.

Luke K.T. Lam said Thursday at a meeting of the American Chemical Society it is too early to tell whether coffee inhibits cancers in people.

The researchers fed a diet consisting of 20 percent green coffee beans to a group of laboratory rats and the same diet without the coffee beans to another group of rats.

The animals were injected with a potent carcinogen that causes breast tumors. Those fed the coffee-bean diet developed fewer than half as many tumors as the rats on the beanless diet, Lam said.

Lam's work is part of an effort by Lee Wattenberg of the University of Minnesota to find substances in the diet that

block the development of cancer.

"Human beings are being bombarded with carcinogens day in and day out," Lam said. The researchers, trying to discover why more people don't die as a result of exposure to those carcinogens, decided to look at diet.

They previously reported cabbage and brussel sprouts contain substances that inhibit cancer.

In their research with coffee beans, the researchers ruled out caffeine as the agent responsible for the tumor inhibition, Lam said, and eventually traced the effect to a chemical called kahwioi palmitate. Other chemicals also seemed to play a role, Lam said, but that one was the most active.

Lam said the chemical appears to be related to a jump in an anti-cancer enzyme found in many animals and people.

## Attempt to dismiss windfall tax suit fails

CHEYENNE, Wyo. (AP) — U.S. District Judge Ewing T. Kerr on Thursday denied a government motion to dismiss a lawsuit aimed at eliminating the windfall profit tax on oil.

That means government lawyers now must file a response within 30 days to the lawsuit, which was filed on behalf of the states of Texas and Louisiana by the Denver-based Mountain States Legal Foundation, a conservative public interest law firm.

Roger J. Marzulla, foundation president, said that with Kerr's decision behind it, the foundation has cleared its first obstacle to resolving the lawsuit.

"We are now free to address the real issue: that the windfall profit tax actually is an unfair burden on domestic oil production, and increases reliance on foreign oil," he said.

Marzulla said that if the tax is not eliminated, it will return \$27.3 billion to the federal treasury by the end of 1988. The tax currently is bringing the government more than \$1 billion a month, he said.

## Steers, Lamesa scrimmage here tonight

The Big Spring Steers and the Lamesa Golden Tors will meet this evening at Memorial Stadium for a scrimmage, with both teams hoping to iron out a few kinks before their season opens next Friday night.

The Sophomore and JV units from Big Spring will meet Lamesa's JV's in

the controlled affair beginning at 5:00 p.m., with the freshmen gridders of the two schools meeting at Blankenship at the same time.

The varsity scrimmage will begin between 6:30 and 7:00 p.m., according to BSHS Head Coach Ralph Harris. Both teams' first string units will

run 20 offensive and 20 defensive plays against each other, and then the backups will battle 15 plays offensively and the same amount defensively.

In this format, the offensive teams will start on their own 35. A fumble or the inability to make a first down after three downs, except inside the foes 35-yard line, will constitute bringing the

pigskin back to the offense's 35.

Following that, the two teams will meet in somewhat of a game type situation, except for the kicking game. One team will start on their own 35, and move from that point. A lost fumble will allow the opposition to take over at that point. If a team reaches fourth down without making a

first, they may either go for it or move the ball 35 yards and surrender it.

"We'll go like that until we feel we've had enough," said Harris.

Harris mentioned that both teams will substitute freely during the evening in an attempt to look at all

prospects in this final week before the regular season begins.

The Steers open their season by hosting the Snyder Tigers next Friday night, while the Lamesa team, coached by Jim Warren, battles Lubbock High in their opener on the road next Thursday.

## Lady Steers seek improvement in Snyder Tournament

SNYDER — The Big Spring Lady Steers volleyball team looks to get on the winning track this afternoon at four when they venture to the Snyder Tournament.

The Steer girls, which lost their opener to Bronte, will meet the survivor of the game at noon between El Paso Burges and the San Angelo Central JVs.

The Lady Steers, coached by Patti Purser, made a rally and went ahead

against Bronte, only to lose 6-15, 15-10 and 7-15. The Lady Steers held a 4-0 lead in the final set before Bronte rallied on their home court to win.

The Bronte game was a rematch of old college teammates turned coaches in Purser and Bronte's Sheila Hutchins. Bronte had played two previous games, and in one of them beat Abilene Cooper in straight sets.

"We lost to a better prepared team," said Purser, taking nothing

away from Bronte, despite the fact she felt her team suffered from the first game jitters.

The Lady Steer tutor believes her team has too much room for improvement. "It's too early in the season to worry about such a minor setback," said Purser. "We have learned that a team beats themselves if they jump to a lead and then don't maintain it."

The Lady Steers start four seniors,

including three returning regulars from last season. Those returning starters are Pam Caudill (set-hitter), Sissy Doss (hitter) and Elise Wheat (power hitter-middle blocker). The other senior starter is Janie Phillips, a returning letter winner who Purser said has made great strides. Other starters include junior Amy Ragan (set), and sophomore Paula Spears (power hitter-middle blocker). Other essential members of the

team include Lisa Majors, Leslye Overman, Sylvia Randle, Stephanie Russell and Tracy Williams.

Purser sighted lack of height and court experience as a key factor in the opening loss, but feels that in time the Lady Steers will count many victories.

The first BSHS home volleyball game will be Tuesday, September 1 against Bronte. The JV units of the two schools will meet at 6:00 p.m.,

with the varsity units meeting at seven.

JV squad members include junior Sharon McCalister, sophomores Debbie Donelson, Esther Douglass, Sherry Graham, Vickie Hallmann, Jana Matthews, Sherry Rogers, Beverly Tubbs and Tammy Yancey, with freshmen Tris Clemons, Tonya Gilstrap and Tony Stevenson rounding out the team.

## Jan Stephenson stays red hot in Denver LPGA

DENVER (AP) — Once more renowned as the sex symbol of the Ladies Professional Golf Association tour, Jan Stephenson has turned serious about her craft, with some eye-opening results.

Two weeks ago, she set an LPGA record with an 18-under-par 198 to win the Mary Kay Classic in Dallas by a whopping 11 strokes. It was Stephenson's second victory of the year and helped boost her into the No. 6 spot on the 1981 money list.

Stephenson moved into position for a third triumph by firing a 4-under-par 68 Thursday to share the first-round lead with Julie Stanger Pyne in the 72-hole, \$150,000 Columbia Savings Classic.

They shared a 1-stroke edge over veteran Janet Coles, with eight golfers another shot back at 2-under 70, including Nancy Lopez-Melton and former champions JoAnne Carner and Sandra Haynie.

Donna Caponi, the leading money winner on the tour this year, and runnerup Pat Bradley were among 10 golfers grouped at 71. Defending champion Beth Daniel, suffering a triple-bogey after hitting into water on the par-3 10th hole,

had an even-par 72.

Stephenson has been bothered by a back injury, but you wouldn't know it from her recent performances. In the past four tournaments, she owns one victory and two second places, making her the hottest player on the tour.

"I had a bad back all last year," she explains, referring to a season when she finished a disappointing 34th on the money list. "It's still pinching me a little bit. But I've been doing aerobic dancing three times a week, and that helps keep my back stretched. I'm seeing a doctor in Dallas and it's been feeling much better."

She said she was distracted by the turmoil that surrounded her posing in some revealing pictorials in Fairway Magazine last year, but also admits she liked the attention she received, appearing on television talk shows and being booked for a future taping of the Love Boat. But she insists her golf is most important.

"When I broke the scoring record two weeks ago, that was important," she said. "It got my name in the record book, and really did something for my career."

KEEPING HER EYES ON THE BALL — LPGA golfer Jan Stephenson of Ft. Worth, Texas watches the flight of her golf ball as she chips to the 15th green during Thursday's opening round of the Columbia Savings LPGA Classic in Denver, Colo. Stephenson shot a 68 and is tied for the lead with Julie Stanger Pyne of Phoenix, Ariz.

## As Chrissie's ex-boy to meet hubbie McEnroe meets No. 193 in 1st round US Open

NEW YORK (AP) — Juan Nunez of Chile, ranked 193rd in the world, will be on center court Tuesday in the opening round of the U.S. Open tennis championships — a spot that very few, if any, players envy.

Nunez will be facing top-seeded John McEnroe, the Wimbledon champion who will be out to annex his third consecutive U.S. Open title, a feat that hasn't been accomplished since the legendary Bill Tilden won his sixth straight title in 1925.

Playing at home on his favorite surface — the hard, fast courts at the National Tennis Center here — McEnroe hasn't lost in the U.S. Open since the semifinals in 1978. Jimmy Connors beat McEnroe 6-2, 6-2, 7-5 enroute to his third Open crown, although not in succession.

Connors, seeded fourth, will launch this year's tournament when he takes on John Lloyd of Britain. Tuesday's other top matches will pit fifth-seeded Jose-Luis Clerc of Argentina against Brad Drewett of Australia and No. 8 Eliot Teltscher against Victor Amaya in men's singles.

The men's No. 2 seed, Bjorn Borg of Sweden, will meet a special exempt player in the first round. A "special exempt player" is one who normally would have to play in the qualifying round in order to compete, but who couldn't because of a conflict in scheduling.

At least two players — Marcus Gun-

thardt and Ivan DuPasquier — have received special exempt status since they are playing for Switzerland in Davis Cup competition this weekend against Mexico.

Third-seeded Ivan Lendl of Czechoslovakia will meet Hans Simonsson of Sweden.

Women's singles play also gets underway Tuesday, with fifth-seeded Hana Mandlikova of Czechoslovakia playing Mary Lou Piatek, No. 16 Dianne Fromholtz of Australia taking on Anne Smith, No. 9 Virginia Ruzici of Romania meeting Wendy White of Atlanta and No. 13 Regina Marsikova playing Rosie Casals.

Connors is the only player ever to win the U.S. Open on all three of the surfaces it has been played: grass, clay and the present hard court. In Lloyd, he will be playing the husband of the women's top seed, Chris Evert Lloyd, who was at one time engaged to Connors.

In 1974, both Connors and Chris Evert captured Wimbledon. Later, they announced plans to marry, but it was not to be.

Chris Evert Lloyd's first-round opponent will be Kathrin Keil of Albuquerque, N.M., while second-seeded Andrea Jaeger will meet a qualifier, third-seeded Tracy Austin will play Anne Hobbs of Britain and fourth-seeded Martina Navratilova will take on Australia's Nerida Gregory.

## R. P. Nicholson wins BSCC Tourney

R.P. Nicholson defeated Jimmy Welch to capture the Big Spring Country Club Match Play Championship here this week.

Nicholson and Welch had advanced to that round by beating all challengers in the championship flight. The consolation winner of the championship flight was Mike Hall.

In the first flight, the winner was Dr. Jim Matthews. He defeated Dr. Howard Schwarzenbach in the finals. The consolation winner was Richard McCormick.

The second flight winner was Bill Burt. Runner-up was Steve Howe, with the Gordon Cavnar the consolation winner.

## 3rd, 4th grade sign-ups today

The 3rd and 4th grade Little Football League sign-up is continuing at the Big Spring High School Gym tonight, Saturday and Monday.

Sign-ups tonight will be accepted from 5:30 through seven o'clock, while Saturday's registration will be from 9:00 a.m. to 2:00 p.m.

Each parent should bring their son to be weighed, along with his birth certificate. There is a five dollar registration fee.

## West German makes big debut in World Series

AKRON, Ohio (AP) — Bernhard Langer concedes his first appearance on the American Tour was unimpressive, but he handed it with the talent that has made the West German a world class golfer at the age of 24.

Langer was matched with two of the United States' best players, Masters champion Tom Watson and PGA winner Larry Nelson. The tournament was the \$400,000 World Series of Golf and the course was Firestone Country Club South, one of the most feared, most respected layouts in the world.

Langer cleared all of those hurdles. He shot 2-under-par 68 for a share of the first-round lead Thursday with British Open winner Bill Rogers and Hale Irwin, the winner of the Buick Open last week.

Langer beat Nelson by three shots and Watson, the defending champion here, by six.

"I was nervous on the first tee. But you have to play your own game. I enjoy the competition," said Langer, a pro since he was 15 and already the winner of four international tournaments.

An 8-iron shot from a fairway bunker to within two inches of the cup for an opening birdie quieted Langer's nerves, although he said he never shed them completely.

"But it's not bad to be a little nervous," said the first West German ever to play on the PGA Tour. "You concentrate more. I

played quite well. I'm not complaining."

Irwin and Rogers, veterans of competition over this 7,173-yard monster, were surprised Firestone did not yield lower scores.

Only five players in the invitational field of 27 could better par of 70. Ed Fiori and Curtis Strange had 69s. Just two more, Peter Oosterhuis of England and Jerry Pate, matched par.

Raymond Floyd, Jack Nicklaus, Johnny Miller and Australian Greg Norman joined Nelson at 71. David Graham, the U.S. Open champion, settled for 72. Bruce Lietzke shot 74 with Watson, and Lee Trevino had a 78.

"There was no wind," Irwin said. "We didn't have the tremendous rough that we've had here. The greens are holding well. I don't understand why this quality field did not shoot lower."

Irwin hit a 6-iron shot around a spruce tree from the rough on the 18th hole to within six inches of the cup for a birdie and a share of the lead.

"That last hole reflected my day," he said. "I hit some bad shots and some fantastic shots in the same round. Rogers played solidly. I was the antithesis of him."

Rogers, firing his fifth straight round in the 60s at Firestone, said, "The really surprising thing is that 68 is leading the tournament."

## Cowboys expecting "I" in battle with Oilers

DALLAS (AP) — The Dallas Cowboys fully expect the Houston Oilers to jump back into their ground-oriented I-Formation for Saturday night's National Football League exhibition game in Texas Stadium.

"We wouldn't be surprised to see them in a two tight-end attack, even with John Reaves starting at quarterback," said the Cowboys' Ernie Allen, an assistant coach who scouts upcoming teams for Coach Tom Landry.

"With the Snake (Kenny Stabler) coming back you've got to figure they will want to start getting their blocking down for the regular season," he said.

With Gifford Nielsen out at least a month, John Reaves is expected to start for the Oilers.

Stabler, who came out of retirement to sign a two-year contract, will be in uniform and available, although he probably won't play.

"I made my decision to come back after Gifford was hurt," said Stabler. "This team deserves to win. The players on this team want to win really badly, and I hope I

can help them."

Stabler helped the Oilers to an 11-5 record last year under Coach Bum Phillips, who now is at New Orleans.

New Coach Ed Biles, who was the Oilers' defensive coordinator under Phillips, designed a split backfield for this season which was designed for a more balanced pass-run attack.

All-pro running back Earl Campbell was not expected to carry as big a load as he had in the past.

However, Stabler's re-emergence signals the return to a ground control offense with percentage, short passes.

Jim Shofner, the former head coach at Texas Christian and now Oiler offensive coordinator, is re-designing the Houston offense.

The Oilers are 1-2 in the preseason, the same record the Cowboys have compiled.

Houston lost 27-17 last week to Tampa Bay as Nielsen suffered his shoulder injury, and Dallas whipped Pittsburgh 24-14 behind the passing of quarterback Danny White.

## Rutledge shines in comeback win over Vikings Rams could have another QB controversy

ANAHEIM, Calif. (AP) — What would the Los Angeles Rams be without a quarterback controversy?

The seeds of a new one were planted Thursday night during their 34-31 victory over the Minnesota Vikings in a National Football League exhibition game when reserve quarterback Jeff Rutledge came off the bench to direct three second-half scoring drives.

Rutledge had replace Pat Haden, sidelined by leg cramps in the third quarter, who got his starting slot back after Vince Ferragamo defected to the Canadian Football League following a long debate on which should be No. 1. But Rutledge did not feel he was ready to take Ferragamo's place in the controversy.

"Yes, I enjoyed playing but Haden is the No. 1 quarterback and I'm not ready for any controversy," said Rutledge.

Rams coach Ray Malavasi also was pleased with the performance.

An Anaheim Stadium crowd of 60,141 saw Rutledge, a three-year veteran from Alabama,

complete seven of nine passes for 156 yards and two touchdowns as the Rams closed out their preseason with a record of 2-2.

Rutledge fired touchdown passes of 38 yards and 22 yards to Preston Dennard to put the Rams ahead for good.

This was Rutledge's first appearance since receiving a sprained neck in the game with the New England Patriot Aug. 10.

Up to that point, the Vikings had established a 17-7 lead behind the play of linebacker Matt Blair, who returned an interception 99 yards for a touchdown in the second quarter, recovered a fumble in the third to set up another Viking touchdown and blocked a Los Angeles extra-point attempt.

Steve Dils, who replaced starter Tommy Kramer after the Viking quarterback injured his knee, brought the Viking offense to life in the fourth quarter, but the rally fell just short.

Dils hit third-year tight end Bob Bruer with a 5-yard pass to make the score 34-24, and then running back Sam Harrell drove over from the

one to bring the Vikings within three points.

Dils finished the game completing 17 of 34 passes for 195 yards.

Both teams were hampered by penalties in a sloppy exhibition. The Rams were penalized 17 times for 104 yards while the Vikings were hit for 93 yards on 11 penalties.

The Vikings lost one of its last links with their glorious past Wednesday when cornerback Bobby Bryant announced his retirement. The 37-year-old former University of South Carolina player was the last player left on the Vikings roster who was with the club in 1967, Bud Grant's first year as head coach. Now only one player, Ron Yary, remains from Minnesota's first Super Bowl team.

Miami seeks its third unbeaten preseason in the last six years when the Dolphins host the Kansas City Chiefs, 1-2, tonight.

Also tonight, Tampa Bay visits Atlanta, Buffalo travels to San Diego and Baltimore is at Seattle, in a battle of the only two teams who have gone winless in preseason.

GOAL-LINE FUMBLE — Minnesota Vikings quarterback Tommy Kramer (9) dives over a pile of players to recover a fumble against the Los Angeles Rams at Anaheim Stadium Thursday night. Officials initially gave a touchdown to the Vikings on the play but it was called back because of a penalty against the Vikings. On the bottom of the pile is Vikings Ahmad Rashad (28) who fumbled after being hit by Rams Pat Thomas and Jim Youngblood. Rams Joe Harris (51) watches play.

## Clerc's winning streak stopped at 25 by 16-year old

WHITE PLAINS, N.Y. (AP) — Sixteen-year-old Jimmy Brown of Nashville, Tenn., an amateur playing only his second pro event, stunned top-seeded Jose-Luis Clerc of Argentina, 7-6, (8-6), 6-2 in a first-round match at the \$50,000 AMP Head Cup USA tennis tournament.

The defeat snapped Clerc's winning streak at 25 matches, which included tournament victories

in Boston, Washington, D.C., and North Conway, N.H., and the U.S. Clay Court title in Indianapolis.

A rain delay of about 2½ hours, forced a quarterfinal match between second-seeded Ivan Lendl of Czechoslovakia and Tim Mayotte of Springfield, Mass., to be suspended. Lendl took the first set 6-3, then dropped the second 7-5 when

his rally from a 5-0 deficit fell short.

The match is scheduled to resume at 5 p.m., EDT, Friday.

In another first-round match, Mel Purcell of Murray, Ky., rallied for a 1-6, 7-5, 6-4 triumph over Sammy Giammalva of Houston.

The finals of tournament will be decided Sunday afternoon with a \$15,000 prize at stake.

28 AUG 28

# AP thinks Steelers will return to throne

By the Associated Press

"It's just a brief interruption," Joe Greene was saying last year as the Pittsburgh Steelers were bowing out of the playoff picture for the first time since 1971.

Was it just that, or was it the end of an era?

We think Greene was right (we tend not to argue with 6-foot-4, 260-pound people, anyway). The Steelers, beset in 1980 by enough injuries to stock your average infirmary, will return to prominence in 1981, leading the Cleveland Browns (barely) to the top of the American Conference's Central Division while the Houston Oilers take a nosedive.

In the East, the Buffalo Bills will prove that 1980 was no fluke. Even without the services of top draft choice Booker Moore, suffering from

## AFC Preview

a nerve disease, the Bills will trip up the often-confounding New England Patriots and win another division title.

In Oakland, the Raiders fans still have their team. Four months from now, will they still want it? The defending Super Bowl champions are due for a fall this year every bit as rapid as their rise of a year ago. And the San Diego Chargers, with a rushing game to go with their passing and a defense bolstered by, of all things, a new coach, should have the AFC West all to themselves.

Here, then, is what we expect to see when the regular season draws to a close:

### Central Division

**Pittsburgh Steelers**  
x-Cleveland Browns  
Houston Oilers  
Cincinnati Bengals

**East Division**  
Buffalo Bills  
x-New England Patriots  
New York Jets  
Miami Dolphins  
Baltimore Colts

**West Division**  
San Diego Chargers  
Oakland Raiders  
Kansas City Chiefs  
Denver Broncos  
Seattle Seahawks  
x-probable wild card

Just how badly does Terry Bradshaw want to win the fifth Super Bowl

ring the Steelers talked about last year? Remember, he was all too happy to chuck pro football until "The Steelers," his proposed TV series, crashed.

If he's still got that drive—on on the field, that is—if he and the rest of Pittsburgh's key players (John Stallworth, Jon Kolb, Franco Harris, Mike Webster, Sidney Thornton, etc.) can stay healthy for a whole year, the offense will regain its stature as one of the league's fiercest. And if the defense can rediscover the pass rush that vanished last year, and survive the loss of linebacker Jack Ham, it, too, will rekindle the "one for the thumb" championship ring talks.

Quarterback Brian Sipe is to Cleveland what Earl Campbell is to Houston—the franchise. He did it all last year (one interception not-

withstanding) and as a result Cleveland emerged from the Steelers' and Oilers' shadows.

In 1980 he and the rest of the offense had to overcome a leaky defense—23rd overall and 28th (dead last) against the pass. The additions of top two draft choices Hanford Dixon in the secondary and Mike Robinson on the line should take some of the heat off Sipe. But he'll still have to be near perfect if the Browns are to repeat as division champs.

Houston is a perfect example of an unbalanced offense leading nowhere. Stop Campbell and you likely stop the Oilers, as Pittsburgh proved in several recent meetings with them. Unfortunately, they'll probably lack a passing game (17th in the NFL a year ago) even more this season. The return of quarterback Ken Stabler

will lift their spirits and give them a few more victories, but not enough to return to the playoffs.

Maybe this year the Cincinnati defense, stocked with past first-round draft choices, becomes the fearsome one the Bengals' fans have been waiting for. And maybe this year Ken Anderson will have more going for him than one third-and-nine after another.

Quarterback Joe Ferguson became a real leader for Buffalo last year. If the Bills' receivers—Frank Lewis and Reuben Gant—remain healthy this year, he may make even more of an impression on NFL secondaries. If Ferguson himself had not been hobbling during the playoffs, the Bills and not San Diego might have been Oakland's competition in the AFC championship.

WINS ELEVEN — Los Angeles Dodger pitcher Fernando Valenzuela pitches towards his eleventh win during the game against the Chicago Cubs in Los Angeles Thursday. Valenzuela beat the Cubs 6-0 chalk-ing up his eleventh win and sixth shutout.

## What's new? Taiwan in LL World Series finals

WILLIAMSPORT, Pa. (AP) — Taiwan goes after its fifth consecutive Little League World Series title Saturday against Tampa, Fla., in a pairing of last year's finalists.

Tampa rightfielder Derrick Pedro cut down a tying run at the plate Thursday to preserve an 11-0 victory over Barrington, Ill., that sent the Floridians into the finals of the 35th annual series.

Facing the South regional winners Saturday will be Taiwan's Tai-Ping team, which defeated Trail, British Columbia, 16-0, in another game Thursday.

Tampa's Belmont Heights squad lost 4-3 to Taiwan's Hau Lian team in the series final last year, which marked Taiwan's fourth straight victory and ninth since 1969.

Trail Manager Andy Bilesky said his team wasn't in the same league with the Taiwanese team that pounded out 18 hits and allowed only one by his players.

Trail lost 23-0 to Taiwan in the semifinals last year.

"There's a special point about this team," said Tai-Ping coach Lai Ta-yuan. "The batting gets better and better as they

get used to the field."

Taiwan had 11 hits Wednesday in its 10-0 opening victory over Monterrey, Mexico, another one-hit shutout.

On Thursday, Lee I-pao homered twice and Wan Yao-hsin added another. Taiwan had seven doubles, three by winning pitcher Tsay Chih-wan.

The righthander fanned 11 and gave up no walks, but hit one batter. Jeff DeRosa singled to left for Trail's only hit to start the fourth inning, but Tsay Chih-wan picked him off first.

Taiwanese teams have now won 28

straight games and are 31-1 overall in series play.

Trail and Barrington play today for third place in the eight-team, single elimination tournament.

Escondido, Calif., downed Monterrey 9-2 Thursday in a consolation game. In consolation games today, Escondido plays Stamford, Conn., for fourth place, and Monterrey and SHAPE, Belgium, vie for seventh.

The finale begins at 2 p.m. EDT Saturday, and will be televised on ABC's "Wide World of Sports" three hours later.

## Valenzuela shows early season form on Cubs

By the Associated Press

Fernando Valenzuela, already in the running for National League Rookie of the Year, the Cy Young Award and Most Valuable Player, could even make a case for Comeback Player of the Year if that award allowed turnarounds within the same season.

The sensational Mexican left-hander had been mired in a terrible slump after pitching five shutouts and compiling an 8-0 record and a 0.50 earned run average in his first eight starts this year. But in his next eight outings, his figures were 1-4 with a 6.51 ERA.

Now he is pitching again like he did in April, winning his last two starts, including a 6-0, four-hit victory over the Chicago Cubs Thursday night. He also had 10 strikeouts, giving him 137 for the season, the most in the majors, as he improved his record to 11-4.

"He was outstanding," said Dodgers catcher Mike Scioscia. "He had outstanding stuff tonight just like every game's pitched. A lot of reporters may have wondered (during his slump), but he never lost it."

"I was trying not to waste any pitches and everything I was throwing was working," Valenzuela, the major leagues' first 11-game winner, said through

## NL Roundup

an interpreter. "I probably surprised them, I used more fast balls tonight."

In other NL games, New York edged Houston 3-2, Montreal bombed Cincinnati 12-0, St. Louis nipped San Diego 3-2 in 13 innings and San Francisco trimmed Pittsburgh 5-4 in 13 innings.

Valenzuela may have slumped a bit after his tremendous start, but he never lagged as a drawing card.

Thursday night's game was his eighth start at Dodger Stadium, and his eighth sellout crowd at home, with 48,191 attending. Valenzuela is 5-1 pitching at home.

Ron Cey drove in three runs with a bases-loaded triple in the seventh inning and Steve Garvey, who has seven RBI in two games, knocked in two with a pair of singles.

Randy Martz, 4-6, pitched the first five innings and absorbed the loss.

Valenzuela, allowed only one runner past first in improving his overall ERA to 2.63.

The Dodgers took a 1-0 lead in the second when Bill Russell doubled, took third on the first of Valenzuela's two singles and scored on an infield out.

In the fifth, Garvey singled home two runs after an error by Cubs shortstop Ivan DeJesus.

Mets 3, Astros 2  
New York rallied for two runs in the eighth inning on a run-scoring single by Frank Taveras and a game-winning double by Hubie Brooks to beat Houston.

Alex Trevino started the Mets rally with a one-out single off Houston starter Joe Niekro, who was replaced by Joe Sambito. Trevino stole second and came home when Taveras singled, tying the game, before Brooks' double.

Tony Scott and Kiko Garcia singled home Houston's runs in the third inning.

Expos 10, Reds 0  
Montreal won its third straight over Cincinnati, outscoring the Reds 27-1 in the series, as Ray Burris pitched a one-hitter for eight innings.

## Tigers, A's learn late inning lesson hard way

By the Associated Press

OK students, the lesson for tonight is: there's no such thing as a sure thing.

The Detroit Tigers and Oakland A's learned that the hard way Thursday night and the beneficiaries were the Minnesota Twins and Boston Red Sox.

The Tigers, coasting along behind Dan Petry, leading Minnesota 3-0 heading into the bottom of the ninth, saw the Twins use an awesome attack of three walks, an error, a fielder's choice and a single to score four times and beat the Tigers for the first time in nine tries this season.

The A's built a 5-1 lead at Boston, only to see the Red Sox rally and take a 6-5 victory on Dwight Evans' two-run homer in the eighth.

Elsewhere, it was Cleveland 12, Seattle 2; Texas 5, Milwaukee 1; Baltimore 6, California 2; Chicago White Sox 3, the New York Yankees 1 in a game called in the bottom of the eighth because of rain, and Kansas City 11, Toronto 5.

Twins 4, Tigers 3  
Pete Mackanin delivered a two-out, two-run single to win the game. Petry walked Rob Wilfong leading off the inning. Gary Ward reached on an error by Lou Whitaker and, with a 2-0 count on Sal Butera, Tigers relief ace Kevin Saucier took over and completed the walk, loading the bases.

## AL Roundup

Saucier then walked Lan Faedo to force in one run and another scored on Dave Engle's fielder's choice. Mackanin singled to right-center off Dan Tobik. Faedo scored easily from second and Engle came all the way around from first, barreling into catcher Bill Fahey.

Fahey held onto the ball and the throw from right fielder Kirk Gibson appeared to be in time but plate umpire Jim Evans said Fahey never actually applied a tag to Engle.

Pete Redfern, 4-7, threw a six-hitter to win for the first time since May 3. He had lost six straight.

Gibson homered for Detroit.

Red Sox 6, A's 5  
Evans' 15th homer of the season was his third of the year with a 3-0 count. It followed a walk to Jerry Remy.

Oakland scored three runs in the first inning on an RBI single by Cliff Johnson, a fielder's choice grounder and Shoety Babbit's single. The A's added two runs in the fourth on Mike Heath's homer.

Boston's first run came on a triple by Tony Perez and Carl Yastrzemski's infield grounder in the second. With one out in the seventh, Rick Miller singled and took third as Remy singled. Jeff Jones replaced

Langford and walked Evans, filling the bases.

Indians 12, Mariners 2  
Cleveland took a 2-0 lead against loser Mike Parrott, 3-6, in the first inning on Toby Harrah's two-run triple.

The first of Jorge Orta's two-run doubles and Mike Hargrove's RBI single made it 5-0 in the second.

Von Hayes' RBI triple, Tom Verzyer's two-run single, Orta's second two-run double, an RBI double by Hargrove and a Harrah sacrifice fly accounted for a seven-run third for the Indians.

Indians pitcher Bert Blyleven and Seattle's Randy Stein engaged in a series of attempted beanballs in the third and fourth innings. Stein was ejected and Blyleven warned by umpire Terry Cooney.

"After being warned, you go out and keep everything low and away," said Blyleven, 9-5.

During the Indians' third a Stein pitch nearly hit Ron

Hassey. Blyleven came back in the fourth and barely missed Bruce Bochte, then nailed Tom Paciorek with a change-up.

In the next inning, Stein sailed a pitch several feet behind Tom Verzyer and was thrown out of the game by Cooney.

Rangers 5, Brewers 1  
Leon Roberts, batting only .163 since the players' strike ended, knocked in four runs on a homer and a double and Danny Darwin, 8-6, pitched a four-hitter.

Texas got two runs in the fourth on Roberts' double. A Jim Sundberg single and Roberts' fourth homer made it 5-1 in the sixth.

Darwin used a newly refined changeup to retire 20 of the last 21 Milwaukee batters and win for the first time since June 7.

# Three pitches beat Astros

NEW YORK (AP) — For the second time in three days, late-inning lightning struck at Shea Stadium. And for the second time, Joe Sambito was hit by it.

"We sure collapsed in a hurry," said the Houston Astros' relief pitcher after letting the game get away Thursday in a 3-2 loss to the New York Mets. "It all happened on just three pitches."

Sambito, who was beaten 2-1 Tuesday night on Mookie Wilson's eighth-inning home run, was talking about another eighth-inning situation that blew up in his face.

With Alex Trevino on first base via a one-out single, Sambito struck out

Wilson on a 3-2 count, but the runner stole second on an extremely close play.

That was the first pitch that Sambito was talking about.

Then in succession, both Frank Taveras and Hubie Brooks tatted first pitches for hits that drove in the tying and winning runs. Taveras' game-tying hit was a looping liner to center that Sambito thought was playable and Brooks' game-winner was a shot just inside third base into the left field corner for a double.

"Taveras' hit was like a golf shot," said Sambito, 3-5. "He hit a pitch off the ground, low and outside. Our outfielder (center fielder Tony Scott)

froze for a while. He was fooled by the ball, I think."

Brooks then hit "a slider, down and in," according to Sambito. "He didn't hit it well, but he did hit it in the right spot."

Brooks, incidentally, was looking for just such a pitch.

"The last time I was up, they pitched me outside," said the Mets' rookie third baseman, who had a single to right in the sixth inning. "So Ellis (Valentine) told me to look for something inside and hard this time. That's exactly what I got."

Brooks pointed out, and rightfully so, that Trevino was the key figure in the Mets' rally.

# Rangers escape to roll by Brewers

MILWAUKEE (AP) — The Milwaukee Brewers muffed two early chances to chase Danny Darwin Thursday night, and Texas' hard-throwing righthander didn't give them another.

Darwin, 8-6, pitched out of a bases-loaded, one out jam in the third inning and retired 20 of the last 21 batters to face him. Leon Roberts backed him with a homer and a double for four runs batted in as the Rangers defeated the Brewers 5-1.

"I was shaky to start with, but getting the bases loaded on me made me concentrate and made me bear down more. When I had to concentrate, it was there," said Darwin, who pitched a four-hitter for his first victory since June 7.

The Brewers scored their only run in the second inning with help of three bunts, one of which Darwin misplayed.

Ben Oglivie led off with a walk and Gorman Thomas, trying to shake a slump, beat out a bunt toward third. Ted Simmons sacrificed, and Oglivie scored when Darwin threw wildly to third on the play.

Roy Howell sacrificed Thomas and Simmons to third and second, but Darwin struck out Robin Yount and Jim Gantner.

The Rangers tied at 1-1 on a triple by Mickey Rivers and a single by Bump Wills in the third, and the Brewers mustered their final threat in their half of the inning.

After Thad Bosley opened with a single and was thrown out trying for a double, a walk to Paul Molitor, a double by Cecil Cooper and an intentional walk to Oglivie filled the bases. But Darwin struck out Thomas and retired Simmons on a pop foul.

### DENNIS THE MENACE

"YOU ASLEEP, JOEY?" "NO ANSWER IS AN ANSWER."

### THE FAMILY CIRCUS

"It's Billy and Jeffy's fault. They were doing their Indian rain dance."

## Your Daily HOROSCOPE

from the CARROLL RIGTER INSTITUTE

FORECAST FOR SATURDAY, AUG. 30, 1981

**GENERAL TENDENCIES:** A good day to improve your health and vitality. Take time to engage in your favorite hobby. You can improve your appearance and become more popular with others.

**ARIES** (Mar. 21 to Apr. 19) Study your surroundings and make plans for improvement. The afternoon and evening is best spent with congenials.

**TAURUS** (Apr. 20 to May 20) A good day for enjoying those pleasures for which you seldom have time. Health treatments can improve your appearance.

**GEMINI** (May 21 to June 21) Make sure that things at home are running smoothly before you venture forth in outside pursuits. Express happiness.

**MOON CHILDREN** (June 22 to July 21) Use care in motion and avoid possible accident. Visit friends and relatives and have a good time.

**LEO** (July 22 to Aug. 21) Make the improvements that are necessary in the home. Be more willing to join with others in outside activities.

**VIRGO** (Aug. 22 to Sept. 22) Improve yourself in many ways now that you have more time to think about your affairs. Show that you have wisdom.

**LIBRA** (Sept. 23 to Oct. 22) Eliminating whatever has kept you from advancing is wise now. Strive to become more efficient in regular routines.

**SCORPIO** (Oct. 23 to Nov. 21) Combining your work efforts with an associate could bring fine results in the future. Catch up with your reading.

**SAGITTARIUS** (Nov. 22 to Dec. 21) Good day to express a fine talent in a public place and gain benefits. Think along more practical lines.

**CAPRICORN** (Dec. 22 to Jan. 20) You may have to travel some in order to obtain the information you need for a plan you have in mind.

**AQUARIUS** (Jan. 21 to Feb. 19) Doing whatever will bring greater happiness to you and loved one is wise today. Plan how to become more successful.

**PISCES** (Feb. 20 to Mar. 20) Meet with associates and discuss joint projects that could lead to greater success in the future. Show that you are sensible.

**IF YOUR CHILD IS BORN TODAY** — he or she will want everything in its proper place, and especially will dislike disharmony in the home. Education should be directed along professional lines such as medicine and law. Don't neglect ethical training.

The Stars impel, they do not compel! What you make of your life is largely up to you!

1981, McNaught Syndicate, Inc.

# Chris Wallace not thirsting after Brokaw's 'Today' job

CHRIS WALLACE

NEW YORK (AP) — Chris Wallace, the man who could be king of morning television, is not thirsting after Tom Brokaw's job on the "Today" show. Get this: He's not even sure he wants it.

"I'm ambivalent. I have my doubts," said the 33-year-old Wallace, whose four-day audition as Brokaw's replacement ended today. "I'm a reporter, and I like being in the street. I'm not sure I want to go into the studio."

Wallace knows that being NBC's morning man is a plum. "It's an exciting prospect to be able to influence 10 hours of TV a week, setting up the agenda, raising issues and bringing people to the public for the first time."

"I wouldn't relish getting up at 4:30. But I do have two small kids. Of course, I'd have to go to bed the same time as my 6-year-old. So it's pretty much a wash."

Don't construe this uncertainty as a lack of aggressiveness or ambition. CBS correspondent Mike Wallace is his father, and the genes are there. He's also been influenced by his stepfather, Bill Leonard, president of CBS News.

"From my father, I gained a sense of energy, a striving to do the best you can. From my stepfather, I got a sense

be affected."

He remembers, as a boy of 16, the energizing feeling of fetching coffee for Walter Cronkite at the Republican Convention in 1964. "That's when the bug bit. It sure seemed like a terrific way to make a living."

He went to Harvard and worked at the school's radio station. When he was arrested during a campus demonstration, he was allowed one phone call. He made it to his public. "This is Chris Wallace, reporting from custody," he said.

He worked at the Boston Globe and then to WNBC-TV in New York, where he proved his versatility. He did interviews and the local news inserts at 7:25 and 8:25 on the "Today" show. He eventually made the jump to the big network, where he's done lengthy pieces for the "Nightly News" and NBC's magazine show.

He became most visible in the past year, when, 16 years later, he scooped Uncle Walter and broke the story that George Bush was Ronald Reagan's running mate. That was the high; the low came earlier this year when he rushed onto the air to say President Reagan was undergoing open-heart surgery, which was vastly different from the open-chest surgery doctors were performing.

It was almost preordained that he would follow their footsteps. "There was no pressure, but the world of journalism was always around and I guess it would have been impossible not to

Wallace says he began living with the Leonards when he was 9, but his father was always around. "It wasn't a spicing thing. My mother met Bill after my parents divorced. It was all very civilized. They like and respect each other, and I grew up feeling I had two fathers."

And of his advice: "Do put the bulk of your portfolio in government pensions and loan guarantees."

And then, he reasons, the Federal Reserve Board, now on a relentless campaign to root out inflation, even at the expense of temporarily ruining the housing and automotive industries, will have to re-inflate.

Ruff is a strong supporter of President Reagan, and says Reagan "got elected president of the Titanic."

Ruff believes in each individual working toward a decent future, but he isn't at all sure that the country as a whole can work things out.

"I support Reagan," he said. "Just because I think it's a lost cause doesn't mean I quit. What I look for is not to keep the Titanic from hitting the ice but to see that the watertight doors work and that it doesn't sink." It seems near to despair. It isn't, he says. He distrusts but he hopes; he says he will work to preserve personal freedoms and free enterprise whatever lies in store for the economy.

And of his advice: "Do put

# Ruff's forecast: 'Inflation'

NEW YORK (AP) — "What are the possibilities for the future?" Howard Ruff asked rhetorically during a discussion of the economy. He listed the possibilities as he saw them: "Inflation, deflation, stability."

"The most likely," he was asked, "is inflation," he said, "throwing in the observation that the likelihood of stability was near zero — a mere accident if it occurred."

He is a reasoning person, he said, and inflation seems to be supported by plenty of reasons. Such as big spending for a military buildup and for Social Security and

government pensions and loan guarantees.

And then, he reasons, the Federal Reserve Board, now on a relentless campaign to root out inflation, even at the expense of temporarily ruining the housing and automotive industries, will have to re-inflate.

Ruff is a strong supporter of President Reagan, and says Reagan "got elected president of the Titanic."

Ruff believes in each individual working toward a decent future, but he isn't at all sure that the country as a whole can work things out.

# Houston busing battle looms

HOUSTON (AP) — The Justice Department's decision not to continue seeking cross-district school desegregation in the Houston area will discourage others from that cause, Superintendent Billy Reagan says.

But the executive director of the Houston Teachers Association said his group will continue its appeal of a federal judge's ruling that the Houston Independent School District is fully desegregated.

"The Justice Department decision will substantially enhance our ability to have the ruling upheld," Reagan said.

Reagan said he hoped Thursday's decision by the department "will put the metropolitan threat off of us and allow us to work even more constructively with the neighboring school districts."

Justice Department spokesman John V. Wilson announced the decision not to appeal a court order that dismissed the department's effort to force cross-district desegregation between Houston and 22 of its suburbs.

Wilson said Assistant Attorney General William Bradford Reynolds reviewed the case, filed by the Carter administration, and that, "Reynolds did not believe there are sufficient legal issues to warrant a government appeal."

Robert Daeschner of the Houston Teachers Association said he did not think the Justice Department's withdrawal would hurt his group's case.

neighborhood school districts."

### PUBLIC NOTICE

NOTICE  
Energex Company, a division of Pioneer Corporation, hereby gives notice of its intent to implement new rates for domestic and commercial type, small industrial and large air conditioning/electric generating customer classes residing in the incorporated areas (serviced by its West Texas System). It is anticipated that the new rates will result in a 1.6% increase in Energex's gross revenues, which increase is not a "major change" as defined in Section 43(b) of Article 1448c, V.A.T.C.S. A Statement of Intent to change said rates was filed with the Railroad Commission of Texas on or about August 7, 1981, and is available for inspection at the Company's Amarillo office, 301 S. Taylor Street.

The proposed increase will not become effective until or except to the extent that the same rates are approved for service within the municipalities on the West Texas System.

**PROUD DADDY** — Actor Richard Thomas proudly holds his new triplet daughters in Los Angeles Thursday. The babies, from left, Barbara, Gwyneth, and Pilar, were born to Richard and his wife Alma Wednesday afternoon at the Hollywood Presbyterian Hospital in Los Angeles. There is a history of multiple births from both sides of the family.

**Braniff zeros in on Texas**

DALLAS (AP) — Braniff International promises to unveil a new strategy next week that company executives say could make the financially strapped airline an aggressive competitor in the Texas and Southwest market.

"A whole new Braniff will take off in September," Braniff president John J. Casey said Thursday.

He said the airline, which gave a hint of things to come with announcement of a new flight schedule Thursday, would detail its new strategy on Tuesday.

"The industry and the public demands are changing and we are meeting those changes with a very competitive and substantial improvement in our service," said Casey.

Company sources said Braniff is removing first-class seats from approximately 50 of its aircraft and replacing them with high-density coach seating for shorter, heavily traveled routes, company sources said.

The airline also plans a more competitive fare structure, the sources added. Casey said Thursday Braniff would suspend service to Atlanta, Boston, Phoenix, Salt Lake City, Albany, N.Y., Hartford, Conn. and Tucson, Ariz. But he said while Braniff will drop 10 daily flights to those cities, it will add flights to an unspecified number of cities it already serves.

He said the airline also will resume service to Fort Lauderdale, Fla., and, temporarily, to Brownsville — two of nine routes suspended after the air controllers strike began Aug. 3.

However, Braniff vice president of routes and regulatory authority Robert Club said the airline would seek permission to stop service to Brownsville and fly instead to Harlingen, 20 miles north, to "better serve the whole (Rio Grande) Valley area."

"We are trying to consolidate the Valley operation and we feel that flying into a central location, like Harlingen, would best serve the entire area," Culp said.

**Crew repairs nuke plant welding flaws**

HOUSTON (AP) — A crew has been working for months to repair welding flaws in structural steel delivered to the South Texas Nuclear Project, a spokesman says.

The bad welds may cost \$1 million to repair, said Don Beeth, nuclear information director for Houston Lighting and Power.

The flaws were in structural steel, mostly large I-beams, delivered to the project by the American Bridge Division of U.S. Steel Corporation, Beeth said Thursday.

Houston Lighting and Power is the controlling partner in a four-member team building the nuclear project near Bay City, 70 miles southwest of Houston.

"We consider it a significant problem in terms of cost and magnitude, but not in terms of safety," Beeth said of the welding flaws.

**Businesses practice communication arts**

By JOHN CUNNIFF, AP Business Analyst  
NEW YORK (AP) — The big thrust in corporate public relations these days is to communicate, the realization having dawned on many companies that piles of numbers and officious statements sometimes tell nothing.

And so they are seeking to talk more directly to you in their annual reports, in executive speeches and in advertising. They need you; they know they can do little without your support, but an awful lot with it.

And so they practice the art of meeting you. Is there an executive who appears regularly before the public who has not been through a training session in how to handle the questions of a

persistent interviewer? There may be; there are always those who know more about handling the public than the so-called experts who advise on what ties to wear, and how to modulate a voice and control an angry, surging blood pressure.

But rare is the executive who hasn't benefitted from a meet-the-public or handle-the-media course, whether run by the Chamber of Commerce, the company's public relations adviser or a host of small consulting firms.

Even the annual report has been dressed up in its best suit and put on television. And soon, it is claimed, the corporate annual meeting will be carried directly into the shareholder's living room on cable TV.

John Budd, a vice president and PR adviser for Emhart Corporation, which began video annual reports last year, has had requests for information from nearly 200 other companies. What does he tell them?

"Television offers the tremendous possibility of regaining the person-to-person communications relationships that companies once had when they — and the world were smaller," says Budd. He tells them "It has the impact and credibility of a personal appearance."

By contrast, the conventional methods of communicating a blizzard of charts and statistics and reports that are intended to inform "tends to overwhelm and confuse shareholders," and clouds the picture.

Greater affluence plays a role too. Companies want your investment dollar and they know they must com-

pete for it. And they want to sell products to you too, and that means they need your confidence.

They need you in other ways too, and the evidence of it is supplied by the recent cutback in income taxes, an issue for which business had fought long, hard and unsuccessfully.

That is, until they won the voting public to their view of things economic.
