NOTICE TO USERS OF PUBLIC WATERS

The Board of Water Engineers for the State of Texas desires to call the attention of all interested persons to some portions of the Irrigation Law of 1913, which created the Board and defined its duties, and also to an amendment to this law passed by the Thirty-fourth Legislature (Chapter 140, Regular Session.)

Sections 12, 13, and 14, of the Act of 1913 provide that any one who, prior to July 1, 1913, had constructed, or partially constructed, any water works intended for any of the purposes named in the Act, and who make use of public waters of the State, may protect his interests and avoid the penalties prescribed by Sections 39 and 40 of the Act, by making certain specifications filings with the clerk of the county in which his works are situated, and with the Board of Water Engineers at Austin.

If a declaration of a water appropriation has been filed with the County Clerk prior to July 1, 1913, the provisions of Section 14 only need be followed. This section provides that a certified copy of the declaration, including a map of the area served, together with a sworn statement showing the use which has been made of the works, must be filed in the office of the Board of Water Engineers before July 1, 1914. In case no declaration has been made with the County Clerk, Section 12 provides that a record of appropriations may be filed with the County Clerk at any time prior to July 1, 1914, while Section 13 sets out the manner in which the County Clerk shall record same. A certified copy of the filing with the County Clerk, together with name and sworn statement of use, must then be filed with the Board of Water Engineers the same as in the case where the filing was made with the County Clerk prior to July 1, 1913.

The Thirty-fourth Legislature amended section 12 so as to permit those who had not already complied with the 1913 act to make filings with the County Clerk at any time prior to March 31, 1916. All who have not done so should make the required filings before that date.

Section 25 of the 1913 act makes the taking and use of public water without compliance with the provisions of this act a misdemeanor, each day of

such unlawful use to constitute a separate offense; Section 40 provides also that the State may, by suit, recover the sum of \$100 per day for failure to comply with the provisions of this Act.

A filing by a canal company will cover the use by all who pay rental for water from the canal, or who hold water rights under same.

No filing for use of water from wells is required by the Act, unless the wells derive their supply from the underflow adjacent to a watercourse, or from other definite known underflow.

For the convenience of all who desire to make the filings required by the Act, forms have been prepared, and also printed instructions, which contain the full text of Section 12, 13, and 14, of the 1913 act, and the essence of the 1915 Amendment, which will be furnished, free of charge, upon request addressed to the Secretary of the Board of Water Engineers, Austin, Texas.

The time in which these certified filings may yet be made is growing short and for this reason the Board urges prompt compliance with the law. Moreover, the fees are small, whereas, the cost of making an appropriation under provisions of other sections of the law is much greater.

Those who have already made the filings with the Board of Water Engineers are not required to make any additional filings.

THANKS! MANY THANKS!

To Sweetwater for her liberal patronage of this Institute during the past year. We especially wish to thank the people of Sweetwater for the many kind things you have said recommending our treatment to your inquiring friends. We have had many of these come to us and after being restored to health, tell us of their being influenced to begin their treatment by your comments. For instance, Will Farris of O'Donnell, Texas, was influenced to come here by relatives residing here; he had not walked a step in over two years; he had been to nearly every reputable sanitarium in the state for treatment but all the time grew steadily worse. His head was drawn nearly to his left shoulder; his left leg was so drawn that the heel touched the hip. He stayed here nearly five months. Many of you met him while here and noted his terrible condition upon his arrival. He is back with us again, but this time only for a short visit and it would be worth your time and trip to come and see him now and note the difference. He is now a strong, robust man, able to work anywhere, and he loves to tell just how it came about. Ask him. Primarily, it came about through an interested friend telling him about Grogan Wells, where sick people get WELL.

DURING 1916, WILL YOU DO SOME SUFFERING FRIEND A SIMILAR FAVOR? Don't miss an opportunity but help humanity just that much. We will do the rest. If any one of you patronized Grogan Wells during 1915 and did not get many times the worth of your money spent, come to us and we will deem it an especial favor to rectify our mistake.

GROGAN WELLS,
Sweetwater, Texas.

A news dispatch received at this office today stated that Mexican bandits had captured seven United States troops in New Mexico. It makes the blood of the average Texan boil to read of the atrocities being committed upon Americans in Mexico, but if the British Mexicans persist in crossing the border and forcibly taking prisoners our people, it will soon be difficult to keep neutral. The U. S. may not be prepared for war, but if the occasion demands Texans could step across the border and teach the Mexicans a lesson that they would not soon forget.

It is gratifying to observe the splendid work that is being done on the streets in the resident portion of the city. The streets on the south side have received a genuine working of lime which adds greatly to the convenience and appearance of those localities. Street Commissioner Fitzgerald is the right man in the right place and is seeing that the taxpayers get the worth of their money.

Only 146 poll tax receipts issued at City Tax Collector Bartlett's office and less than two weeks left in which to secure them. Sweetwater precinct should roll up over 500 qualified voters this year, but if that number is reached a great many visits will yet have to be made to the City Collector's Office.

"THE GREY MASK."
(Barbara Tennant re-appears in World Film.

World Film Corporation presents the five-part photoplay, "The Grey Mask." The story of this wonderfully thrilling drama is by Charles Wadsworth Camp, and it appeared recently in "Collier's Weekly".

Edwin Arden and Barbara Tennant play opposite each other in the picture, which is the production of Frank H. Crane, who has many World Film successes to his credit.

Miss Tennant will be remembered for beautiful work in "The Dollar Mark," "The Marked Woman" and "The Butterfly".

The story relates how the Hennion gang, a notorious combination of crooks, attracted the attention of the police, one of whom, Joe Kridel, is murdered. His fiance, Nora, vows to discover the name of the assassin, and secretly joins the band. The authorities commission a young detective, Jim Barth, to get after the criminals.

Simmons, an experimental chemist, has his face injured in an explosion, and covers the scar with a grey mask. Jim Garth assumes the disguise of a grey mask, and so gets admission to the gang, which is detected and arrested when trying to rob a safe of a valuable explosive.

The name of the murderer is revealed to Nora, who out of gratitude bestows her hand and heart on Jim Garth, who has long loved her.

"The Grey Mask", is a highly exciting and sensational drama, and it will be presented at the Sweetwater Theatre on Thursday, Jan. 10th.

day of December, 1912, and on divers
days before that time, plaintiff at the
special request of the defendant, sold
and delivered to defendant on cred-
it, certain goods wares and merchan-
dise as set forth on the account at-
tached to said original petition, to the
value of \$477.38; that in considera-
tion therefor defendant promised to
pay plaintiff on demand the said sum
of \$477.38, together with interest at
the rate of 10 per cent per annum;
that on January 21st, 1913, prior to
the said sale and delivery of said
goods, defendant entered into a con-
tract with plaintiff, under the terms
of which said goods were sold, and by
the terms of which defendant agreed
to pay ten per cent additional on all
indebtedness contracted thereunder
which might be placed in the hands of
an attorney for collection. That the
amount above set out together with in-
terest thereon is due and unpaid, and
has been placed in the hands of attor-
neys for collection, to-wit, Beall &
Doubbit, to whom plaintiff has prom-
ised to pay the said ten per cent as
their fee for collection, which is a
reasonable fee. Though often request-
ed defendant has failed and refused
to pay said account or any part there-
of to plaintiff's damage in the sum
of \$600.00

Plaintiff prays for citation, for judg-
ment for his debt, with interest and
attorney's fees, and for foreclosure of
the attached lien sued out in said
suit, and for his costs and for gener-
al legal and equitable relief.

Herein Fall Not, but have before
said Court, at its aforesaid regular
term, this writ with your return there-
on, showing how you have executed
the same.

Given Under my Hand and the Seal
of said Court, at office in Sweetwater,
this the 6th day of January, A. D.
1916.
