Nearly seven thousand policemen have been distributed at strategic points.

Mayor Mitchell's notice that he was ready to invoke all the civil and military power at his command to suppress disorder, has resulted in great police activity.

REVIVAL GROWS IN INTEREST

The morning service yesterday was well attended. After Rev. Beavers had made a short but very interesting and helpful talk on "Casting Your Bread on the Waters," he called on others for their testimonies of a religious life.

Inspiring, indeed were the testimonies of real workers, of those who had gone forth to save and were already reaping abundantly.

As a result, it seemed that new interest was aroused and many pledged themselves to go out and win souls to Christ.

On account of the rain there were no services last night.

The Reporter man did not know the Taylor boys were brothers until he was so informed by the last one subscribing.

GOV. FERGUSON SUES FOR 50,000

Brenham, Texas, Sept. 21.—A suit alleging slander and asking for \$50,000 damages has been filed here in behalf of James E. Ferguson, governor of Texas, against C. E. Maedgen, H. C. Glenn and the Temple Telegram Publishing Company, all of Temple. The petition alleges that slanderous statements were made concerning him in the Telegram July 19 and July 22, in connection with Ferguson's campaign for renomination.

It will be remembered that the statements referred to were alleged to be intended to show that Governor Ferguson secured financial assistance from the brewers of the state in his campaign for the office of governor, the charges being made at the eleventh hour of the recent campaign.

Governor Ferguson made vigorous denial of the charges at the time they were published.

Judge Jno. H. Cochran, Sr., is to be congratulated upon the splendid gift of \$20.00 to the Wilson campaign fund. The judge is a Democrat of the old school, believes in her principles with all his heart and is willing to invest his money for the good of the country as he views it. The example of this splendid Nolan county citizen should be followed by a large number of our people. Woodrow Wilson is easily the greatest man before the American people, but it will require an active, vigilant campaign to reelect him in November and it takes the cash to wage a hard fought campaign.

TIME TO VACCINATE, AGAINST BLACKLEG

Now is the time to begin the fight against blackleg by vaccination, states Farm Demonstrator S. A. Minear, who declares the disease has already shown up in this county.

All cattle under two years of age should be vaccinated, he declares, or a man owns one head or a d. It is the only way to combat disease.

Since January 1, 1916, the agent has vaccinated 578 calves, only one of which has died. Many of these were included in herds already suffering with the disease, showing the power of the treatment to ward off attack. The single exception to the rule of 578 was probably due to careless treatment, the agent said.—Abilene Reporter.

Dallas Has Another Murder

Dallas Sept. 22.—Policeman W. D. Jones, charged by affidavit with the murder of J. T. Cobb in South Oak Cliff last night, waived an examining trial before Justice of the Peace Barnett this afternoon and was released on \$2,500 bond.

An affidavit charging murder was filed against Policeman W. J. Jones by J. M. Sinclair, City Marshal of West Dallas, in Justice Barnett's Court this morning. It is alleged that Jones shot and killed J. T. Cobb last night in South Oak Cliff.

Witnesses named on the back of the affidavit include R. L. Winfrey, Police Commissioner, and J. W. Ryan, Chief of Police.

Former First Assistant County Attorney Vavin Muse, who with McCutcheon and Church, have been engaged to represent Officer Jones, at noon asked Judge R. B. Seay to consider an application for a writ of habeas corpus to secure the removal of Mr. Jones to a sanitarium.

Judge Seay held that habeas corpus proceedings were unnecessary and issued instructions that any physician desired by Mr. Jones be summoned to recommend what treatment should be given.

Jim T. Cobb, 36 years old, a brick layer, who lived at 1804 Rice street, was shot and killed by Police Officer W. J. Jones at 9:30 o'clock last night near the south end of Winnetka street, Oak Cliff.

In an exchange of shots between the officer and Cobb, Jones received a bullet which inflicted a flesh wound in his right side.

According to a written report of the trouble made by Officer Jones and corroborated by J. B. Harris and Misses Willie Tummins and Mattie Wilson, Cobb attempted to stop them with a revolver as they passed a clump of bushes on Winnetka avenue.

Says Cobb Fired First

Jones and Harris were accompanying the two ladies when a man stepped from behind the bushes and commanded them to stop. The report says that Jones started to draw his revolver when Cobb fired at him.

The bullet struck Jones in the side and he fell, but got up again and struck Cobb on the head with his revolver.

Cobb shot again, and then Jones fired two more shots and Cobb fell to the ground mortally wounded. One shot pierced his leg and the other plowed through his head.

Jones hastened to the City Hall,

where he told of the shooting and an ambulance was sent for Cobb, but he died before reaching the Emergency Hospital. The body was turned over to the George W. Loudermilk Undertaking Company, where it later was identified.

Jones said no one in his party ever saw Cobb before last night, and no one in the crowd knew why he attempted to stop them.

Bruises on Head.

An examination of the body this morning corroborated the statements of the officer that he first tried to subdue Cobb by hitting him with his revolver.

In his report, Jones said that after he was shot he pulled his revolver and struck Cobb on the head several times, but that Cobb continued to try to shoot, and he was forced to use his pistol in order to protect himself. Cobb's forehead bears evidence of having been struck several times. There are large bruises on the forehead and face.

Indefinitely Suspended.

Today at noon Police and Fire Commissioner R. L. Winfrey addressed a letter to Superintendent Ryan, directing him to suspend Officer Jones for an indefinite period.

The body of Cobb will be sent to Atlanta, Ga., tonight by Undertaker Loudermilk.

BROWNWOOD GIRL COMMITS SUICIDE

Brownwood, Sept. 21.—Supposed to be despondent over her failure to enter the high school this year after being in a grammar school grade longer than one term, and extremely sensitive over the fact that practically all of her school chums had advanced a grade, Miss Helen Terry, aged 16, daughter of Mr. and Mrs. M. W. Terry of Brownwood, ended her own life Monday afternoon at her home 209 West Chandler street. She had been dead possibly thirty minutes when her body was discovered by her mother.

A bullet hole from either a .38 or .41 calibre pistol through the heart told the sad end of a young life which was presumably downcast, discouraged and beaten because of school matters. The bullet from revolver entered the body about two inches below the left breast and passed entirely through the body falling about ten feet away. Apparently the bullet struck the wall of the room, but not having sufficient force behind it to embed itself in the woodwork, fell to the floor.

VILLA CAPTURES THE GARRISON

Washington, Sept. 21.—An official account of Villa's raid on Chihuahua City last Saturday received at the war department today from Brigadier General Bell at El Paso says the bandit chief captured some of Carranza's artillery and sixteen automobiles loads of arms and ammunition and huge quantities of supplies liberated 200 prisoners from the penitentiary and made off after being joined by from 1,000 to 1,500 soldiers of the Carranza garrison.

General Bell expresses the opinion that the raid was completely successful and that Villa accomplished even more than he said he would. Trevino's personal guard deserted him, it appears, and in the confusion many government soldiers were killed by their own comrades.

Bell's Report

General Bell's report follows: "Evidence increases to show that Villa was completely successful in his attack Saturday upon Chihuahua and accomplished all and more than he said he would do. There is a diversity of opinion and statements as to the number of men with whom he entered Chihuahua City. Some reports state he had only about 500, while others give him 1,700; but all agree that he was able to secure possession of the penitentiary, the governor's palace and the federal buildings and hold them for several hours and all this with a Carranza garrison at Chihuahua which some place at not less than 6,000.

"He liberated over 200 prisoners, secured and carried away more than sixteen automobile loads of arms and ammunition and supplies under an escort of deserting Carranza troops. He left Chihuahua with from 1,000 to 1,500 more men than he entered with.

Comparatively Unmolested

"Villa retired leisurely and practically without molestation. The firing by Trevino's artillery occurred after Villa troops had withdrawn.

"On Sept. 14, Trevino received a letter from Villa stating that he (Villa) would be in Chihuahua to shake hands with Trevino on the 16th and he hoped that he would have a suitable reception for him that he might be hungry and would like to have something to eat.

"On Sept. 15 it was reported that Villa personally entered Chihuahua, was seen by many of his friends there, and reconnoitered the city. Of course, he was in disguise. On the night of the 15th the Villistas approached Chihuahua from a camp which he had maintained for two days within twenty-two miles of that city. After Villa's columns had secured possession of the penitentiary the governor's palace and federal buildings Villa himself went to the governor's palace into the main balcony, displayed his face and made a short speech, which in substance was as follows:

Villa Makes Speech.

"Viva Mexico. You do not have your liberty. I will give you your liberty for I am your brother. I am going to return in a few days."

"It appears that there had been a banquet attended by most of Trevino's officers and at about 2 o'clock this banquet was finished and most of the officers of the Carranza garrison were asleep. As soon as Trevino heard of the trouble he started toward the governor's palace, but his personal escort deserted him and went over to Villa.

"The party that attacked the federal building, rode into the building on horseback and the guard there deserted to them. It is reported that many of the Carranza troops who were killed were killed by other Carranza troops, probably as a result of artillery firing from Santa Rosa hill."

Man Crushed In Cotton Gin

Wesley McCracken, a young unmarried man, is lying at the point of death with little hopes for his recovery, at Rowena. It was not thought the man would live through the night Tuesday following an accident which occurred Tuesday afternoon at the Runnels County Gin Co., gin in Rowena, but the latest report from that place today says he is some better.

Young McCracken was employed at the gin and was helping to bale cotton when the accident occurred. It seems that the press operates on a different principle from other cotton presses, in that the ram operates from the bottom of the press. The young man was in the press, or partly in the press, and was cleaning it, when in some way the ram was run up on him and he was caught in the side of the press in such a way that his life was almost crushed out.

The serious injuries sustained consist in a broken back, bruised shoulders, chest and a general smash up of the upper part of the body. He has a slight chance to recover, according to telephone reports received from Rowena Wednesday afternoon.

The young man has been in this county for the past two or three years. His home is in Palestine, Texas, where his parents live. His parents were notified and both his father and mother left at once for Ballinger. They arrived at Ballinger Wednesday after

noon over the A. & S. and were carried to Rowena in a jitney that was waiting for them at the train.—Ballinger Daily Ledger.

Writes Life and Kills Self

New York, Sept. 21.—When Harry Howland, newspaper reporter, ended his life at Los Angeles yesterday after writing his own story of his suicide he went to join his little crippled wife, who was buried with the doll they played with as their baby in the coffin beside her, according to a story published here today.

Howland's death unsealed the lips of one of his newspaper friends here who knew the reporter's secret.

Howland's wife loved children, but none came into their home. Only a few friends knew that behind a locked door in their home in Kansas City they kept a life-sized doll. They pretended it was their baby and went ahead with plans for its future.

Howland was broken hearted when his wife died a year ago. He buried the doll in the coffin beside her and disappeared, turning up later in Los Angeles.

It was grief over his wife's death, according to Los Angeles dispatches, that caused his suicide.

SAN ANGELO HAS PARALYSIS

San Angelo, Sept. 22.—Dr. W. W. Cobb, city health officer, members of the City Board of Health, and the attending physician were interviewed Thursday morning by Standard representatives relative to the reported case of infantile paralysis in the home of Mr. and Mrs. Van C. Kelly, 531 West Beauregard avenue, the patient being the 3-year-old daughter of Mr. and Mrs. Kelly.

City Health Officer Cobb said there is no question but what it is a genuine case of poliomyelitis, and that a strict quarantine has been established, no one being permitted to leave or enter the Kelly home except the attending physician and nurses, and these only under the most sanitary precautions. Dr. Cobb sees no cause for alarm. He thinks the case has been isolated to such extent spread of the disease is practically obviated. He suggested that while the case has been diagnosed as genuine poliomyelitis, the number of its contraction was not determined. The little girl, it is said, has not associated with any child who came from a distance.

Gives Symptoms

Dr. Cobb stated that pain, fever and drowsiness are the symptoms which appear first. He suggested that first treatment should consist of spraying the mouth and throat with a solution of peroxide of hydrogen.

Dr. Cobb does not anticipate the spread of the disease.
