SWEETWATER, TEXAS, TUESDAY, FEBRUARY 27, 1923.

NUMBER 10 of the Presbyterian of Mrs. S. Ed with Mrs. R. H. and cas like

## ALL IS SET FOR A BIG CELEBRATION

Program Arranged for the Jubilee On March 2—School Children Will Parade in Afternoon.

### HAVE YOU DONATED YET?

Finance Committee Report Liberal Contributions But Are Still About \$500 Short Of Enough Money.

The parade of school children will be held in the afternoon instead of the morning in order to better accommodate the children from the rural schools at the Jubilee celebration on March 2—next Friday.

Putting is already beginning to fly from various places of business as the decorator begins to get in his fine touches in readiness for the great day.

There was a meeting of the finance committee held in the First National Bank Tuesday morning and the men who served on it stated that never had they served upon an occasion when the response was so cordially liberal. There were only a few who refused to contribute, a very few. Members of the finance committee stated however, that the fund is still \$500 short. While a very thorough canvass has been made, in some cases they have been unable to get in touch with some people. They request that any one who has not been seen or who can contribute further, to get in touch with either Mr. Brand at the City National Bank, Mr. Willis at the Texas Bank & Trust Company, or Mr. Payne at the First National Bank with their contributions.

There will be a large delegation from Big Spring, a letter from that city assures Secretary McCurdy of the Board of City Development, while Lubbock is planning to send 150 men from there, according to another letter from the Hub of the Plains.

Judge Houser passed through Sweetwater Tuesday morning and advised that Snyder was sending a large delegation.

The weather prophets were looking dubiously at the skies Tuesday, their interest in the Jubilee momentarily dampening their general rain enthusiasm.

W. C. Calvert and Miss Mabel Spann say they will have from 200 to 250 members of the Boys' and Girls' clubs in line in the parade Friday.

The chairman in charge of the meeting of the T. & P. trains is D. A. Clark. Mr. Clark has appointed five ladies and four gentlemen to assist and asks that the men meet in his office at 5:20 o'clock Friday morning in order to meet the 5:45 westbound Texas & Pacific passenger. Then the ladies will be on hand at 7:30 and with the men meet the train from the west, and all the other trains during the day. The members of Mr. Clark's committee consist of Judge Ragland, A. R. Cannon, C. E. Simmons, D. I. Herndon, Mrs. G. E. Bradford, Mrs. F. P. Peffenbach, Mrs. L. D. Armour, Mrs. S. I. Edwards and Mrs. Guy Morris.

Other committees will meet the Santa Fe trains and the Orient with care and render any assistance that may be needed, as well as information for the different events.

The north, west and south sides of the square will be roped off. Chief of Police Johnson announces. There will be a fence built diagonally across the corner from the City National Bank to the Sweetwater Dry Goods Company, from Harrington & Lee Grocery to the First National Bank, also straight across from the County Jail and from Tidwell-Campbell Company to the Court House. This is to give room for the mass meetings to be held on the Court House rostrum. Automobiles will use the outer streets except the east side of the square which will be open.

The program for the day is as follows:

1.—7:30 a. m. Reception Committee with guard of Honor in command, of Captain Sidney C. Mason of Sweetwater National Guard Unit will meet Governor Neff and other guests at the T. & P. Railway depot and accompany them to Hotel Wright.

2.—9 to 10 a. m. The Governor and other guests will be given an auto drive around the city.

3.—9 to 10 a. m. Band Concert from the Grand Stand by Colorado and Sweetwater Bands, massed.

4.—10 to 11:30 a. m. Speaking from the Grand Stand, Hon. M. E. Rosser, of Snyder presiding.

(a) Address of Welcome to West Texas with something of the school movement.—Dr. P. C. Coleman, Colorado, who issued the call that eventually brought about the Texas Technological College.

(b) The Work for the College in the Texas Legislature.—Senator W. H. Bliese, of Lubbock.

(c) March 2 in Texas History.—Dr. J. D. Sandifer, President Simmons College, Abilene.

(d) Something of the Benefits of the Technological College to a State.—Hon. L. T. Carpenter, of Dallas, who put the "Teach" in the College Bill.

(e) What It Has Taken to Get This College for West Texas.—Porter A. Whaley, manager West Texas Chamber of Commerce, who has been with the movement from the first.

(f) Address by Ex-Governor W. P. Hobby, Director in Texas Technological College.

5.—11:30 to 12:30 a. m. Public Re-

## CLARK RESIGNS

J. Stone Rives Elected As Superintendent of Schools For Another Year

J. Stone Rives was re-elected superintendent of Sweetwater Schools for another year at the regular meeting of the School Board Monday night.

At the same meeting D. A. Clark resigned as secretary of the Board. His resignation was accepted by a rising vote of thanks from the Board for his interested and valuable services of the past.

The Board has not announced a successor to Mr. Clark.

Lack of time and pressure, of other business was given by Mr. Clark as his reason for resigning. He has served on the Board four years.

## WOMEN DO WORK

Long Hours the Rule in Many States in South in Mills and Factories—Alabama is the Lowest.

By The United Press.

WASHINGTON, Feb. 27.—Tens of thousands of women in the United States labor in mills and factories 10 or more hours daily at wages far below the accepted standard. Mary Anderson, director of the women's bureau of the department of labor, charged in her annual report.

The "median"—a figure somewhat below the average weekly wage—is between \$10.00 and \$13.90 in five states, she reported.

Sanitary and general welfare conditions were found lacking in most of the plants investigated. The report is based on a survey of 778 establishments employing 46,700 women, in Kentucky, Alabama, South Carolina, Arkansas and Missouri.

Probably the majority of persons whose acquaintance with industry is not particularly profound think that the eight-hour day and something which at least approaches a living wage are standards which are so generally accepted that they no longer need emphasis. Director Anderson stated: "These state studies have shown, however, that long hours of work and low wages are the rule rather than the exception for large numbers of women, and that these conditions are so widespread as to constitute a very definite challenge to the constructive action of all groups interested in these subjects."

"In the five states studied, conditions differed to a certain extent, but on the whole the emphasis is much the same for each locality."

Seldom is the eight-hour day and the 44 hour week found in these states she said. As a general rule the 101 hour day and 55-hour week prevail. In many establishments a still longer day prevails.

### Alabama the Lowest.

Alabama is lowest in the wage scale with "median" earnings \$10.00; Kentucky is next with \$11.60; South Carolina \$11.95; Arkansas \$13.55 and Missouri \$13.90.

Very little attention is given to the comfort or safety of the women workers in these states, she declared. Not even the minimum standards of sanitation, comfort or safety are observed, despite the frequent accidents and general suffering charged to lack of precautionary measures.

Negro women in these states fare far worse than the whites. Miss Anderson stated. "Median" wages for the negro women range from \$6.30 a week in South Carolina to \$11.05 in Missouri. The wage in Kentucky is \$10.15; Alabama \$6.35, and Arkansas \$7.25.

## FINDS GIRL DEAD

Burning House Attracts Attention—Dead Girl Found Therein And Man With a Bullet in His Head.

WOODBURY, N. J. Feb. 27.—Residents of Mt. Royal were attracted to a burning house on Mantua Creek early today and found the body of Cecil Staley, aged 22 with a bullet wound in her temple and nearby Harry Moll, 27 wounded.

Moll was unconscious with a bullet wound in his head. After being revived, he told the coroner that the girl set fire to the house and then committed suicide. He said he attempted to end his own life for fear he would be accused of the murder of the girl. He was rushed to a hospital, where it was announced that he had a chance to recover.

### ISN'T WORRIED

Special to The Reporter. AUSTIN, Earl B. Mayfield left Austin this morning enroute to Washington. He said he wasn't worried any by the contest of his seat in the Senate by Paddy.

caption to Governor Neff in Hotel Wright lobby. 6.—2 to 3 p. m. Review of 5,000 School Children before Governor Neff. Mr. Rosser will introduce Mrs. W. W. Beall of the Sweetwater School Board who will present the children to the Governor.

(f) Address by Former Governor W. P. Hobby, Director in Texas Technological College.

8.—7 p. m. Banquet at Hotel Wright.

## LAST CALL

There are just two more days before the Jubilee. Just two more days in which to have that little job of printing done—that car decoration arranged for—that clean-up you promised the committee to attend to. There are just two days left in which to do those things that will make us all proud of Sweetwater as a city that entertained its distinguished guests in the manner that reflected credit upon all its citizens. Two days in which to remove unsightly posters that have outlived their usefulness—two days to remove rubbish, tin cans or other unsightly impedimenta, or to do the right thing with the finance committee.

## SENATE FAILS TO APPROVE OF SIX COLORED TROOPS AROUSE GERMANS

Thomas D. Barton, Mrs. DeGroff, Boog Scott And Others of Neff Appointees Lack Confirmation

### SENATOR FLOYD, ANGERED, QUIT

Senate Goes Over Heads of Nominating Committee And Chairman Is Grossly Peevish Threat.

Special to The Reporter. AUSTIN, Feb. 27.—Going over the heads of the nominating committee, the Senate today confirmed all of the appointments of Governor Neff except six.

Those who were not confirmed were: Thomas D. Barton, Adjutant General; John W. Willacy, State Tax Commissioner; J. E. Boog-Scott, Chairman of the Livestock Sanitary Commission; W. H. Beasley, State Health Officer; Mrs. Charles De Groff, member of Board of Directors of the Texas Technological College; Joseph S. Myers, Labor Commissioner.

Shortly afterwards, Senator Floyd, chairman of the Senate Nominating Committee, resigned, peevish because the Senate took action on the nominations before his committee had had an opportunity to make a report.

The committee having planned another meeting this afternoon, his resignation was refused, but Senator Floyd was insistent and it is believed that he will make a further effort to resign.

Barton and the other appointees residing in Austin appeared before the nominations committee this morning. They were quizzed as to their affiliation with a certain secret society.

Senator Dudley, elected Saturday as mayor of El Paso on an anti-klan ticket, opposed the nomination of Mrs. DeGroff to the board of directors for the new college.

### ANOTHER CANDIDATE

W. T. Trammell has cast his hat into the city political ring with an announcement for the position of street commissioner, subject to the action of the voters of the city at the April election. He is the third candidate for that race.

Mr. Trammell is a son of Thomas Trammell and was one of the brothers of Lake Trammell, under his father's direction. He has been a resident of Sweetwater for 40 years and needs no introduction to its citizens.

### TODAY'S RADIO WEATHER.

By Sweetwater Vulcanizing Co.

West Texas tonight generally fair. Colder. Frost. Generally fair Wednesday. Somewhat warmer in the north portion.

The prime high pressure area over the Rocky Mountain states and northwest in general causing decreased temperatures and freezing line dropped southward into New Mexico and northern Panhandle region of Texas. Low pressure prevails over the southwest and in the West Gulf coast region resulting in light to moderate to locally heavy rains in the Gulf bordering states. Barometric reading at 7:30 a. m. was 29.76 inches.

Berlin Government Kicks About The Blacks—French Deny They Are Using Negroes In Any German City.

### FRENCH TO REPLACE SOME MEN

Youngsters of 1922 Class May Be Replaced By Others Even Younger In The Army of Occupation.

Special to The Reporter. BERLIN, Feb. 27.—The controversy between France and Germany over whether the former was using colored troops in the Ruhr was continued today by the French government.

Dispatches from Cologne stated that black troops occupied Koenigswinter. The garrison at Bonn also includes colored troops, the Germans maintain. The French have officially denied the presence of colored troops with the new army of occupation. At the same time it was stated that the class of 1922, many of whom are in the Ruhr, may be recalled. These youngsters may be replaced with others even younger.

## RAIN WAS .29 INCH

General Rain Is Report With Snow at Alpine And Amarillo—Best Season in West in Years.

An additional .29 inches of rain fell in Sweetwater in a rain that began about ten o'clock Monday night, bearing out the weatherman's prophecy in spite of the clear sky.

The rain was general on the Orient from Altus, Oklahoma to Alpine, with snow reported at the latter point.

The Santa Fe likewise reported a good general moisture from the Plains east to Coleman, Brownwood and clear to Temple. It was snowing in Amarillo late yesterday afternoon.

A general rain all along the line was the report from the T. & P. men here.

## WORK APPOINTED

Postmaster General Now Secretary Of Interior—New Succeeds Him

By The United Press.

WASHINGTON, Feb. 27.—President Harding today named Postmaster General Hubert D. Work as Secretary of the Interior, to succeed Albert B. Fall of New Mexico, who recently resigned.

Senator Harry B. New, Senator from Indiana, was named to succeed Work as Postmaster General.

Brigadier General Frank T. Hines was appointed Director of the Veterans Bureau.

The nominations were sent to the Senate.

## SHEEP INCREASES

Values Increase More Than Proportionately to Number of Head in U. S. Census Shows.

The United States Department of Agriculture estimates that there were 37,209,000 sheep on the farms of the United States on Jan. 1, 1923, as against 36,327,000 head on the farms of the country on Jan. 1, 1922. The gain, will be noted, was slight. But values increased more than proportionately the number of head, as the total valuation as of Jan. 1, 1923, was \$278,939,000 as against \$174,545,000 for Jan. 1, 1922, and \$235,855,000 for Jan. 1, 1921. The bulk of the sheep production of the country is limited to 14 States, most of them Western States. Texas leads in the number of sheep in the State, while Idaho, second in numbers, leads in valuation of its sheep, with Wyoming third in numbers and value. The 14 States that had more than 1,000,000 head of sheep on their farms as of Jan. 1, 1923, had a total of 25,069,000 head out of the total of 37,209,000 head for the entire country, and the valuation of the sheep in the 14 leading States was \$212,401,000 out of a total valuation of \$278,939,000 for the entire sheep holdings of the country. Kansas is under the million head of sheep class, as it had 314,000 head of sheep on its farms as of Jan. 1, 1923, according to the United States Department of Agriculture report in the livestock census figures announced recently. With the 999 omitted the report of the Government on the sheep on farms as of Jan. 1, 1923, with comparisons follows, each figure representing millions instead of thousands:

### The Sheep Census.

State	Jan. 1, 1923.	Jan. 1, 1922.	Value Jan. 1, 1923.
Texas	2,862	3,077	\$14,882
Idaho	2,642	2,492	21,929
Wyoming	2,396	2,420	21,564
Utah	2,340	2,250	20,826
Montana	2,315	2,270	20,140
Colorado	2,444	2,054	18,574
New Mexico	2,062	2,343	18,197
Arizona	1,155	1,100	7,276
Nevada	1,119	1,190	9,959
Oregon	1,953	1,850	12,499
California	2,402	2,310	19,456
Ohio	2,094	1,957	14,867
Michigan	1,171	1,115	9,386
Missouri	1,106	1,042	7,846
Total U. S.	28,060	27,840	212,101
Total U. S.	37,209	36,327	278,939

### VISITS HERE

J. L. Johnson, vice-president and general manager of the Burton Lingo Lumber Co. spent Tuesday in Sweetwater on business.

## BUTCHER KILLED

Chicago Labor War Claims Another Victim When Gun Battle Breaks Out In The Labor Hall.

Special to The Reporter.

CHICAGO, Feb. 27.—Chicago's labor war claimed its 26th victim today when William "Red" Kensella, notorious gangster, was shot to death in a pitched battle at a meeting of the butcher's union.

Paul Sadeh, a member of the union was wounded in the shoulder.

The gun battle broke out in a heated discussion over the attempt of the Hebrew butchers to secede from the Amalgamated Meat Cutters and Butchers of America.

More than 50 shots were fired. Following the shooting, the members fled and when policemen arrived they found the hall empty. The body of Kensella was found a few blocks away.

### FIND BODY.

By The United Press. PHILADELPHIA, Pa., Feb. 27.—The body of little six-year-old Lillian Gilmore, victim of a fiendish kidnapper, was found frozen in the Neshamony Creek near Croydon last midnight. Wylie Morgan, self-confessed abductor, will be formally charged with murder today.

## TO CUT A CANAL THROUGH EUROPE

From the Head of Navigation On the Rhine Through Switzerland to the Head of the Rhone River.

### SWITZERLAND WILL BE OPEN

Will Achieve Age Old Desire for Water Transportation—Much of the Route is Already Completed.

By HENRY WOOD (United Press Staff Correspondent.)

GENEVA, Feb. 27.—A navigable waterway, extending from the mouth of the Rhine on the north sea to the mouth of the Rhone on the Mediterranean, cutting western Europe thus in half, is one of the latest projects of European reconstruction, which will soon become a reality.

When the task is completed, Switzerland will have attained her century-old ambition of no longer being "interned" and of having direct seaport connections with the north and to the Mediterranean.

The plan for a trans-European waterway involves several different projects now being worked on in different companies but all working into the same general scheme of linking up the Rhine and the Rhone.

The first part of the project which is being provided for in the construction of a navigable canal, paralleling the Rhine from Strasbourg to Bale.

Strasbourg virtually constitutes the head of the navigation on the Rhine owing to the fact that above there the velocity of the current and the presence of rocks, renders navigation, if not impossible, at least too costly to be of general utility.

To overcome this plans have been completed for the construction of a canal of 120 kilometers in length. This will render the navigability of the Rhine continuous from its mouth up to Bale.

From this point, another company will undertake the construction across Switzerland of a navigable waterway that will link up the Rhine and the Rhone. Use will be made of the Swiss chain of lakes and rivers while canals will be constructed where missing links now exist.

This company, which is backed by French, English and American capital, has authorized the Swiss government a loan of 400,000,000 million francs for the enterprise and has just applied to the Swiss Federal council for national support.

Still other companies have been organized in France for perfecting and completing the navigability of the Rhine from the point where the Swiss project will link it up with the Rhine.

Finally, the last great undertaking of the project, and which, as a matter of fact will be the first to be completed, is the construction at Marseille, of a vast tunnel that will link the Rhone up with the port of Marseille. The latter will thus become the point of embarkation and disembarkation of a vast trans-continental traffic.

The tunnel has a length of only seven kilometers but its piercing required the removal of over 2,500,000 cubic meters of earth, more than twice the amount removed from the famous Simplon tunnel. Marseille will have its end of the trans-continental waterway completed next spring.

### FIRST CALL

Sweetwater Gets First Call On New Long Distance Telephone Line.

The new copper circuit toll line the Southwestern Telephone Co. built to connect up West Texas with Fort Worth, went into service today for the first time.

The first man to be called on the new line was Mayor Sheppard of Sweetwater. Manager Shannon of the Ft. Worth Chamber of Commerce, Porter Whaley of the West Texas Chamber of Commerce talked to Mr. Sheppard and assured him that all Ft. Worth was coming to the Jubilee to be held here March 2.

The new line was built from Big Spring clear to El Paso, giving some parts of West Texas such as Toyah, Barstow and Ysleta, telephone service for the first time in their history. Ft. Worth and Dallas can now talk direct to El Paso or the coast without going around by way of Denver or Chicago as was necessary formerly.

Repeaters have been installed at Abilene, Big Spring and other points to boost electric waves carrying the voice so that clear conversation can be carried on between all points or clear to San Francisco if desired.

### SEDAN TURNS OVER

A sedan in which Mrs. B. S. Cox her little son and another child were riding turned over on the pike east of town Monday afternoon, without injuring anybody or hurting the car. Not even a fender was bent.

Dell Cox was driving and in turning around on the slippery road, the car slid into a ditch where it gently leaned over. Mrs. Cox and party were brought back by a passing motorist, and later some men went out and got the sedan.

**EVERY DAY IN EVERY WAY, BETTER BETTER, BETTER**

**KINGDOM IS WITHIN**  
 Neither shall they say, "Lo here! or lo there!" for behold the kingdom of God is within you.—Luke 17:21.

**UNDER OUR NOSES**  
 When Abraham Lincoln finished delivering his Gettysburg address, no one applauded. The 20,000 in his audience merely exclaimed: "Oh!"—in surprise at the brevity of his speech. Accustomed to political orations, they had settled themselves for an uncomfortably long-winded talk.

Such to the recollection of Mrs. Rebecca C. D. Long of Somerville, Mass. She was raised in Gettysburg, and heard Lincoln's famous address when she was 12.

None in Lincoln's audience realized at the time that he was hearing an immortal piece of oratory—and probably the finest composition ever penned in the English language, according to many competent critics.

It takes the perspective of time to distinguish the truly great from the mediocre or near-great.

Most of the really great people and events of our generation are not getting much attention. Later generations will appreciate them at their full worth and will assign them their rightful places in history.

The Wright brothers' first flight in an airplane will be remembered as long as the World War, possibly longer, on into time until their exploit comes legendary and distorted.

Their invention, which enables man to move in the air instead of confined to the earth's surface, is a gigantic step forward in evolution, the same as the first fish that grew fins into flippers or crude legs so it could crawl on land, or fins into wings so it became a bird.

Yes, it takes the perspective of time to distinguish real greatness. That's why so few of the great got recognition until long after they're dead.

Let's continue Mrs. Long's story—and from philosophy turn to something ridiculously ironical, yet too pathetic to laugh at.

Mrs. Long recalls: "In the front of the great stand were 20,000 men, women and children. Edward Everett, who was the spokesman of that occasion, delivered an oration of two hours' length."

After this long introductory tirade, Abraham Lincoln rose slowly to his feet—and "said his say" in 265 words, immortal Gettysburg Address.

Isn't that human nature for you, that long introduction by the chairman! And, no doubt when he got home he confided to his family that he made the better speech of the two. Well, possibly he did, at that, though the odds are heavily against it, especially since great thought never hides itself in a snowstorm of words.

**WEST TEXAS NOTES.**

**Young Man Bags Fox While Hunting**—Albert Hoffman, who makes his home with his grandmother, Mrs. Clara Hoffman in the Pony Creek community, was in the city Saturday and reported that he killed a beautiful gray fox near his home this week. The young man went out in the pasture to cut some wood and carried his gun along to shoot rabbits. He ran onto the fox eating a rabbit and shot it. The pelt measured four feet from tip to tip.—Rowena Review.

**Arizona Ranchers After Bulls**—Wm. Hunter and W. B. Vail of the Vail Company, Tucson, Ariz., have lately been among our stockmen, looking to the purchase of some choice herd bulls for their ranches in Arizona and Southern California. They were not disappointed, and purchased 99 head of E. B. Dickinson and 32 head of Captain Wm. E. Wallace. The buyers expressed themselves as highly pleased and may return a little later for the purchase of still other young bulls. The Vail Company uses the Santa Rosa island off the coast of California as a feeding station, and, we are informed, finish there about 40,000 steers each year.—Midland Reporter.

**Del Rio Gets Fish Station**—Henry O'Malley, United States fish commissioner of Washington, D. C.; G. A. McNaughton of San Marcos, fish, oyster and game warden of Texas; Dr. P. J. Shaver of San Marcos, and D. E. Colp of San Antonio will compose a party coming to Del Rio to designate the location of a fish cultural station on Devil's River, near Del Rio. The appropriation for the establishment of this station has already been secured by C. B. Hudspeth, congressman from that district.—Del Rio News.

**Getting Ready for Sheep and Goat Raisers**—We already hear plans for making the Sheep and Goat Raisers' convention, an event of exceeding great interest. There is a movement on foot to provide a series of entertainments for the lady visitors as well as the gentlemen.—Del Rio News.

**Salter Bros. Buy Kerrville Paper**—Last week's Mountain Sun carried the announcement that J. L. Tullis had sold his half interest in that live paper and that Messrs. C. E. and W. A. Salter had become sole owners of the business. C. S. Salter has been a partner with Mr. Tullis for the past three years, while W. A. Salter recently came from Oklahoma, and has been in the employ of the Sun.—

**Brady Buys Street Sprinkler**—

At the regular meeting of the city council Tuesday afternoon an order was passed authorizing the purchase of a 1,000 gallon street sprinkler which will be mounted on the 3-ton Liberty truck recently secured from the federal government and which will be used in sprinkling the city streets. An order has been placed with a Chicago firm for the sprinkler and it should arrive in about 30 days or six weeks at the outside. According to the arrangements, the Chamber of Commerce is to finance the operation of the sprinkler when it is set up, that is, they are to pay for the services of a man to operate it and look after the maintenance of the truck.—Brady Sentinel.

**ARE AFTER TECH**  
**Hermleigh is in College Race**—To Build School.  
 HERMLEIGH, Feb. 27.—A good rain fell here last night with prospects good for more. The ground is thoroughly wet, and farmers are rejoicing over the prospects. Business conditions are good with prospects for the future better than ever before. Hermleigh is still building. Work will begin on a new Methodist church as soon as the weather will permit, some of the material is already on the ground. Strong talk of a \$40,000 school building which seems to be almost assured. The boosters are going after Texas Tech and a locating committee has been appointed as follows: W. Gentry, C. Karnes and D. S. Leverett. The boosters will be at Sweetwater March 2. We are between Sweetwater and Snyder the garden spot of West Texas.

Joseph Caldwell, blind from birth, is studying astronomy at the University of Michigan. He is a sophomore and 46 years old.

**MAKE YOUR OWN PARISIAN GOWN.**  
 Of course you want to be smartly gowned. But why pay the fabulous prices demanded for imported frocks? The Bel-robe, now with all new Standard-Designer Patterns, shows how you can make gowns that will have all the charm of Paris.

**MRS. WERTHEMER will tell you the secret**

She represents the Designer Publishing Company, and she will be with us on WEDNESDAY & THURSDAY

Be sure and visit the store on one of these days. You'll find her at the Standard-Designer Pattern counter.

**PRIMS**

**ANNOUNCEMENT**  
 NEW DENTAL OFFICE IN SWEETWATER  
**PRE-WAR PRICES**  
 In order to introduce my work, I will make ONE HUNDRED SETS OF TEETH AT  
**\$35.50 PER SET**  
 If interested, call and secure one of these sets of teeth and have them made any time within six months from date of contract. We make FREE EXAMINATION, and if you need any filling, Crown, Bridge work or extracting, I will tell you exactly what it will cost you before the work is done. REMEMBER this is not CHEAP DENTISTRY, but GUARANTEED WORK at REASONABLE PRICES. Office in Crane Building, West of City National Bank.

**DR. J. A. FERGUSON**  
 Hours, Morning, 8 to 12. Afternoon Hours 1 to 5.

**Orphans of Commerce**

On nearly every merchant's shelves are a few unknown left-overs. They have been there a long time. No one remembers just how long. Dingy, faded and soiled, they seem to be edging away from their more brightly dressed neighbors to a place of seclusion. There is a story behind these shabby little stragglers.

A story of how once they were proud and new, dressed in clothes as gaudy and bright as the latest vial of perfume from Paris.

They were sold to the merchant by a salesman who knew their merits. For a time the merchant remembered their merits and told his customers. But little by little these merits were forgotten. The merchant, with his many items, slowly forgot even their names. New clerks never heard of them.

When some of their more fortunate shelf mates were advertised, merchants began to display these lines more prominently and shoppers selected the goods they became acquainted with through printers' ink, leaving uncalled for and unsold the unknown. It takes little effort and little time to sell goods which everyone knows about.

The shabby little orphans are gradually disappearing. They are being given away or thrown away to make room. Tomorrow they will be gone.

The trend of the present generation is to lighten the burdens of mankind. In many sections of the country, "Save Mother" campaigns have been instituted, emphasizing the importance of preserving the good health of Mother, of the Housewife. There is nothing quite so distracting and disagreeable as the washboard or an absent laundress. The Automatic Electric Washer is always a definite servant—it is there at your command at any time. Let us demonstrate to you what a labor and time saver the Automatic Electric Washer is, and show you our easy payment plan.

Notice is hereby given that on the first day of March, A. D., 1923, between the hours of 10 a. m. and 4 p. m. I will sell at Public Auction to the highest bidder for cash, at the City Hall door in the town of Sweetwater, Nolan County, Texas, within the hours prescribed by law, the following described impounded animal, viz: One red sorrell mare mule, about 3 years old, about 14 1-2 hands high, no brands no blemishes. The same having been impounded by me of the 21st day of February, A. D., 1923.

SAM CLARK, Pound Keeper, City of Sweetwater, Tex.

The American Legion Auxiliary will meet Thursday evening at 8 o'clock at the Legion room at the Courthouse and every member is requested to be present.

## FOSTER'S WEATHER BUREAU

WASHINGTON, Feb. 27, 1923—Some errors occurred in my charted temperature lines for Jan. and Feb. There will continue to be minor defects, but, twenty-five years very determined efforts have found the causes and their principal remedies. Every weather forecaster has met the same difficulty. Prof. Bigelow, one time prominent in the U. S. Weather Bureau, an eminent scholar

and the greatest meteorologist of the world, was compelled to acknowledge he could not find why his temperature line occasionally turned upside down. He spent ten years trying to find the cause and I have been making similar efforts for twenty-five. The cause is simple; one of the planets—only one—takes the lead and all the others follow. That is in accord with the electric laws. The electric forces of live wires will concentrate on one wire unless they are insulated. An old, well-known tradition say that each planet rules alone during its own period, but as no reason was ever given for that idea the scientific thinker could not accept it. This new discovery will be partly included in the April and completed in the May forecasts. Local forecasts follow:

Section 1: North of 47, between 90 and Rockies' crest; highest temperatures Feb. 27 and March 2. lowest temperatures Feb. 28 and March 3; average colder than usual; storms and moisture moderate.

Sec. 2: North of 47, east of 90; highest temperatures Feb. 28 and Mar. 4; lowest Mar. 1 and 6; average colder than usual; storms and moisture moderate.

Sec. 3: Between 39 and 47 and between 90 and Rockies' crest; highest temperatures Feb. 28 and Mar. 7, lowest Feb. 27 and Mar. 5; average colder than usual; moderate storms and moisture.

Sec. 4: East of 90, between latitude 39 and 47; highest temperatures Feb. 28 and March 3, lowest Feb. 28 and Mar. 5; average near normal; moderate storms and moisture.

ture. Sec. 5: South of 39, between 90 and Rockies' crest; highest temperatures Feb. 28 and arch 4, lowest Feb. 27 and Mar. 9; average near normal; moderate storms and moisture. (West Texas is in this area.)

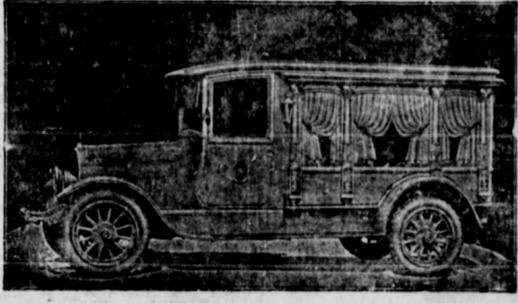

Sec. 6: South of 39, east of 90; highest temperatures Feb. 27 and Mar. 6; lowest Mar. 1; average colder than usual; moderate storms and moisture.

Sec. 7: North of 43 1-2, west of Rockies' crest; highest temperatures Feb. 27 and Mar. 3, lowest Mar. 1 and 5; average near normal; moderate storms and moisture.

Sec. 8: South of 43 1-2 to Mexican line, west of Rockies' crest; lowest temperatures Feb. 28 and March 1, highest Feb. 28 and Mar. 4; average warmer than usual; moderate storms and moisture.

Rough weather is expected during the week centering on Mar. 5. Not far from next Saturday the middle provinces of Canada will begin to feel the effects of a storm center coming from northward. From New Orleans, Galveston, Dallas and Shreveport fresh winds, carrying moisture will blow northward while the storm is in Alberta moving southward. While the storm is far away the principal winds will blow and the clouds move nearly toward the center of the storm, but after the storm has reached you these movements of clouds and winds will be around the storm's center. The storm will turn eastward near St. Louis and cross continent in about three days. That the effects of that storm will be felt in all North America.

Blind students of astronomy are so rare that there are no textbooks with raised type and Caldwell depends entirely upon his memory to keep up his fine record in this class.

## THIRD WIFE A TREE.

Hindus Have Unique Way of Evading Technicality.

Probably the most curious form of marriage in existence prevails in India, where men and women are married to trees. A Hindu in the Punjab cannot be legally married a third time, and when, therefore, he wants a third wife, he is married to a certain tree, so when he does actually take another wife she counts his fourth.

In another district of India there are communities where a tree marriage is solemnized in the case of a man who has lost two wives and is desirous of taking a third, or a man who is too poor to marry in the usual way.

In the latter case, the man is afterwards married to a widow. As however the remarriage of a widow is held by orthodox Hindus to be fraught with every calamity, the wedding is performed at dead of night under an old mango tree. It is not easy to understand the reason of

such an extraordinary custom as tree marriages, but one authority points out that it seems to be intended to avert the curse of widowhood, the "husband" being always alive.

Jacob Greenburg, a shoemaker and bootblack at Boston, Mass., has attended to business so well that his two daughters and two sons will receive college educations. One of his daughters graduated from Rad-

cliffe last June and one son is a senior at Harvard. The other two children are preparing for college careers.

The Bible class of the Presbyterian church met at the home of Mrs. S. Edwards Monday afternoon with Mrs. R. K. McAdams in charge. Mrs. J. H. Wiggins led the lesson on Exodus and after the regular routine of business Mrs. Edwards served delicious cake and tea.

AT THE PALACE.

That crime is largely the product of environment was powerfully demonstrated in Thomas Meighan's latest Paramount picture, "If You Believe It, It's So," which received its initial presentation at the Palace Theater last evening. This drama will be seen at the Palace again tonight for the last time. The story is woven around a young man who while he remains in the city, is a criminal. But when circumstances take him out into the open spaces of the country, he becomes a changed man and soon love and peace transform him. Mr. Meighan gives one of the most masterful performances of his career and he is supported by a popular cast of players. Pauline Stark plays opposite the star with sympathetic effect. In addition, "The Reporter," a mirthful comedy and two news reels are also given.

REGULATION OF GUN TRAFFIC.

From the Infantry Journal. The army knows and appreciates the dangers that lurk in the automatic pistol and the revolver in the hands of the inexperienced man who does not know how to handle these weapons.

The recruit armed with them is given a thorough and careful course of training that covers an extended period before he is even allowed to place a loaded cartridge in the chamber. His first target practice is accompanied with a lot of apprehension on the part of his instructors who everlastingly caution him to keep the gun pointed in the direction of the target.

When all of this is considered one must reach the conclusion that there is something radically wrong with our system of laws that permits an irresponsible youth to go into a sport mart or more often a pawnshop and purchase one of these deadly weapons, fill it up with ammunition and carry it around on his person. In some places they do go through the formality of having the purchaser sign his name (or one of fictitious origin) in a book kept for the purpose. But this means nothing in the great majority of cases.

This traffic in deadly weapons should be stopped. The average citizen does not need a gun and the irresponsible, would-be gunman, should not be allowed to have one in any event. In framing laws regulating the traffic of concealable weapons and the carrying of concealed weapons care should be taken to impose such severe penalties that will make the matter of their possession a most unpopular outdoor sport.

An examination of weapons collected by the police shows that the criminal's gun is either a cheap American product or what is worse, a pot metal European affair. Made in Germany. Very few are from the high class manufacturers of arms in this country. This leads us to the further conclusion that the place to begin regulating the traffic is at the source. Stop the importation of cheap weapons from abroad. Regulate the distribution of all weapons manufactured in the country. Make it impossible for the gunman to secure a gun and at the same time make it practicable for the respectable citizen to secure one for a legitimate purpose without too much trouble.

All of this can and should be done. It would solve a lot of problems that today engage the attention of our police departments.

GOLF TOURNAMENT

The Sweetwater Country Club is planning an open Golf tournament after March 15. Sweetwater golfers will have an opportunity to display their prowess in the tournament.

KILL THE GIMMES!

New Formed League at Minneapolis Would Reform Petty Borrowing Trait Of Americans.

By NEA Service MINNEAPOLIS, Minn., Feb. 27.—If you have the "gimmies" keep away from Minneapolis, or the "Anti-Gimme League" will get you. The "gimmies" is the name of a widespread national disease, signs of which crop out in various forms of petty grafting and in chronic borrowing of small articles. The "Anti-Gimme League" has been organized to cure the disease in this city. The organization was seriously

conceived and has seriously set about its work of reforming this great American character trait. A. E. Root is its president. He has obtained a certificate of incorporation, has established headquarters and enrolled more than 100 members. More are coming in daily. No dues. No special requirements, except a vow to fight the "Gimme" evil.

"This has become an age of 'Gimmies,'" says Root. "It is 'Gimmie this' or 'Gimmie that,' from a cigarette to cold cash, and the purpose of the league is to put a stop to the habit."

If you try to borrow from a member of the league he is pledged to

flash his "Anti-Gimme" button at you—which is your cue to sneak. Borrowers of books, tools and such like are included in the league's anathema, and it is expected that ardent volunteers will be found among housewives whose "upstairs

family," "downstairs family" or "folks next door" have the habit of "I wonder if you'll lend me..." etc. You know when I was at the grocery store, I forgot all about... Silent, scornful opposition is forming among bellhops, check girls, waiters and others who expect gratuities as a matter of right. Also from those concessionaires who get a lion's share cut-in on such donations.

However, and despite opposition, formation of the league goes on and if successful, it is expected branches will be established throughout the country.

ENGLISH AS IT IS SPELLED.

A stranger in our land was he; He tried to learn our spelling. He thought it would be easy to buy or as selling.

He tried to write, but couldn't quite learn when to write or right. He couldn't tell just where he stood when using good or wood or shood. He had to stand a lot of chaffing. When cruel people started laughing. Then other things confused him so. As doe and dough, and roe and row. And mall and male and sail and sale. And many more that turned him pale

A bill has been introduced in New Jersey for the elimination of continuation schools. Certificates of employment may be granted school children of 15 years or to those who have finished grammar school, according to the bill.

Positions are found each year for 6000 to 7000 young women of Chicago, with salaries from \$90 0to \$5000 a year, by the Chicago Collegiate Bureau of occupation. Seventy-five per cent of the women have a college education.

OPEN NOSTRILS! END A COLD OR CATARRH

How To Get Relief When Head and Nose are Stuffed Up.

Count fifty! Your cold in head or catarrh disappears. Your clogged nostrils will open, the air passages of your head will clear and you can breathe freely. No more snuffing, hawking, mucous discharge, dryness or headache; no struggling for breath at night.

Get a small bottle of Ely's Cream Balm from your druggist and apply a little of this fragrant antiseptic cream in your nostrils. It penetrates through every air passage of the head, soothing and healing the swollen or inflamed mucous membrane, giving you instant relief. Head colds and catarrh yield like magic. Don't stay stuffed-up and miserable. Relief is sure.
