VOLUME IV.

SWEETWATER, TEXAS, FRIDAY, MARCH 23, 1923.

NUMBER 44.

ARE INSPECTING ALL YARDS IN CITY

Zone Chairmen With Their Assistants Are Inspecting All Yards In The City Today, Urging Clean-Up.

TO INSPECT AGAIN ON MAY 2
Yards Showing Greatest Improvement Between Now And May 2 Will Be Awarded Nice Cash Prizes.

An enthusiastic meeting of ladies of the city was held in the Court House auditorium Thursday afternoon with emphasis on the clean-up campaign now being conducted in the city. Under the direction of the chairmen of the four city zones, the yards of the city are being inspected today. They will be inspected again, May 2, and the yards showing the greatest improvement will be awarded the cash prizes. Everybody's yard will be inspected, both today and May 2, regardless of whether the owner has registered it in the clean-up campaign or not.

City authorities warned that the only place rubbish and tin cans and other refuse secured from the clean-up could be dumped was at the city dump grounds, out beyond the Santa Fe Lake. There is an ordinance prohibiting this dumping any place else which will be strictly enforced, city officials stated. If anyone has any difficulty getting trash hauled from the residence section, they can phone city hall to secure the name of individuals who do this work.

The following statement was issued by the Clean-Up and Paint-Up Committee:

"It's All For The Texas Tech." Sweetwater wants it and needs it. A spotless town with pretty yards will help us get it. We have a clean city, of which we may be proud. But there is room for improvement! Every home in town should be at its best when the Locating Board gets here in May. All betterment of that kind will brighten our chances then.

To put the good work over, cash prizes have been offered, and the town has been divided into four Clean-Up and Paint-Up Zones. In each Zone, there will be given to the three homes showing the greatest Yard Improvement from March 22nd, 1923, to May 1st, 1923, \$15, \$10, and \$5. Then to the home anywhere in town showing the greatest Yard Improvement and Painting Improvement combined, there will be given \$25. "Yard Improvement" will include anything that tends to make the home grounds more pleasing in appearance. "Painting Improvement" explains itself.

Every home in town has been inspected. They will be inspected again on May 2nd, 1923. Three in each Zone will get prizes and some one will get a special prize. There are three good reasons why each resident of Sweetwater should contest for these prizes. The first one is that it may be the means of our securing the Tech. The next is the satisfaction you will get out of improved conditions about your home and home town, and the very last is you may win a cash prize. Any way you look at it, the proposition holds out a good investment for you. Let's Go!

PAUL B. SORENSON, Chairman.
S. I. EDWARDS,
HARRY R. BONDIES,
Clean-Up & Paint-Up Committee.

SPECIAL NOTICE.
There will be special music Sunday morning and evening at the First Methodist church to which the public is extended a cordial invitation.

BURIED ALIVE.
By The United Press.
FREDERICK, Okla., March 23.—Three men were killed and another severely injured when a well they were digging caved in on them. The men were working at a depth of 30 feet, when the walls of the well caved in upon them.

AUDITING BOOKS.
The semi-annual audit of the city's books is being completed by a certified public accountant. The county's books were likewise audited some days ago.

BUILDING PERMIT.
J. E. Jackson was issued a permit Friday by City Secretary W. H. Barlett to build a residence at the corner of Pine and 5th streets.

HONOR McLAURIN.

American Legion Entertains Tonight At Court House For Pastor.

Rev. E. W. McLaurin will be the honor guest at a reception being tendered him by the Oscar McDonald Post of the American Legion tonight in the Legion headquarters on the third floor of the Court House.

Rev. and Mrs. McLaurin will leave Sweetwater for Ballinger where Rev. McLaurin has been called to the pastorate of the Presbyterian church of that city, beginning April 1.

RECOVER FORD.

COLORADO, March 23.—A Ford car, stolen from the Black & White service line, owned by Briggs Robertson, of Abilene, was recovered here Wednesday afternoon by Deputy Sheriff R. C. Dale. The car was stolen from Abilene Sunday afternoon and driven to Colorado Monday. No arrest has been made in connection with the theft.

HIT WALL STREET

Piggly-Wiggly Head Said to Have Cleaned Up Millions In Recent Sensational Stock Operation—Clever.

By The United Press.
MEMPHIS, March 23.—Clarence Saunders announced today that he was willing to settle with the "shorts" in Piggly-Wiggly stock at \$100 per share. A telegram to this effect has been sent to the New York Stock Exchange, he said.

Mr. Saunders made his demand in a statement in which he scored what he termed "Wall Street and its gang of gamblers and market manipulators" and declared that as a result of the battle in the stock market Tuesday more than 25,000 shares of Piggly-Wiggly are "short" to him on delivery.

"A razor to my throat, figuratively speaking, is why I suddenly, without warning, kicked the pegs from under Wall street," Saunders declared in detailing his fling in the stock market with Piggly-Wiggly, which he declared, was his first experience in trading in the New York exchange.

It was strictly a question of whether I should survive and likewise my business and whether I should be "licked" and pointed to as the 'boob' from Tennessee," he said.

Mr. Saunders, who came to Memphis as a grocery salesman and attained wealth on his idea of a self-serving grocery store christened Piggly-Wiggly asserts in his statement that as a result of his drive in the "street" he now holds 198,872 of the outstanding 200,000 shares of the corporation, 105,000 of which he accumulated within the last few days.

Thus the situation stood today with the next more necessarily to come from traders who Saunders asserts are sold "short" to the extent of 25,000 shares.

Mr. Saunders has not made public any estimate of the anticipated profits to himself and his associates. He declared, however, that \$10,000,000 in cash might be considered his winnings.

ICE GORGE DAMS MISSOURI RIVER

Several Lives Lost And Huge Territory Threatened By Flood As Ice Holds Back Raging Waters.

AIRPLANES USE HIGH EXPLOSIVE

Attempt to Bomb Gorge Falls—Four Men Rescued From Island in Midstream On Shaky Raft.

By The United Press.
SIOUX CITY, Iowa, March 23.—Braving the treacherous waters of the flooded Missouri River on a raft, two deputy sheriffs rescued four men that had been marooned on an island in the middle of the river.

A fifth man also marooned refused to leave the island, deciding to take chances with the flood threatening momentarily to inundate his place of refuge. He preferred to take a chance of this nature rather than undertake the perilous trip over the raging waters in the raft.

Large bombs dropped from airplanes today failed to break the huge ice gorge which is jamming the Missouri River, five miles south from here, and has relieved the threat of a serious flood.

Army aviators, soaring thousands of feet above the ice peaks, dropped the powerful explosives which tore mammoth creaters in the ice, but even this terrific force failed to break the jam of the river.

The river waters, backing up for miles, reached the flood stage at 6 o'clock this morning.

The loss of one life is reported, and a heavy property damage is the destruction thus far done by the large river.

No trace of the body of C. K. Johnson has been found as yet. Johnson, a farmer, was swept away when he attempted to rescue his horses from the flooded area. Efforts of rescue squads today, directed Duncaons Island, where five men were marooned.

The waters are gradually rising, and threaten momentarily to inundate this spot of refuge.

All available aid is being rushed to the scene along the river to help those in distress.

TEN MILLIONS IN LIQUOR IS SEIZED

Warehouse Owners Attempt to Withdraw Huge Quantity Booze On Permits—Were Arrested.

BRIBERY OFFICIALS IS CHARGED

Alleged \$40,000 Offered To Enforcement Agents In New York City With \$20,000 Actually Paid.

By The United Press.
NEW YORK, March 23.—Charles and Ralph Sabbatino, warehouse owners, are under arrest here charged with attempting to withdraw \$10,000,000 worth of liquor on forged permits obtained through bribery.

The liquor was seized by revenue officers. The Sabbatinos are alleged to have offered \$40,000 to assistant prohibition directors John A. Murphy and Lester A. Reeves, who sprung the trap.

The sum of \$20,000 was actually paid Murphy, it was declared.

When the Sabbatino's warehouse was raided, the brothers rushed to their supposed "confederates" for aid and were arrested.

ATTENTION CLOWNS.

Because of unavoidable delay in the construction of the Snell Building, it will not be ready Saturday. Therefore, the entertainment will held at the Army Hall, across the street from the Hotel Wright. Lunch will be served at 12 o'clock and throughout the afternoon and evening, also candy and balloons can be bought for the children. At 4:30 p. m., a program will be given and at 8 p. m. a big performance will be staged, after which the votes for the cleverest clown will be counted.

The proceeds will go for a public library for Sweetwater.

TRAIN DELAYED.

Delayed Cars at Mingo Holds Up No. 15 Three Hours.

No. 15 was three hours late on the Texas & Pacific Friday morning, arriving here at 9 a. m. and leaving at 9:27. The train was delayed at Mingo by some derailed freight cars. A caboose and one freight car were burned up in the Baird yards last night as the result of one freight car being another in the rear end. The caboose and one car were smashed up somewhat and caught fire.

INDIAN KILLED.

By The United Press.
SALT LAKE CITY, Utah, March 23.—One Indian was killed and ten captured in a fresh skirmish between renegade Plutes and sheriff's forces during the night, near Blanding, where a large band of redskins have been holding a sheriff's posse at bay for several days.

MEN ARE GUESTS

Traveling Men To Be Guests of Sweetwater Club at Regular Session Saturday Night.

The regular meeting of the Sweetwater Club will be held tomorrow, Saturday, night at the Hotel Wright at 7 o'clock. This day was chosen in order to better suit the convenience of the traveling men, who will be the guests of the Club at this session.

Traveling men who make Sweetwater their headquarters and home are on the road all week and come in for the week ends only, so that Saturday night was the only night that any of them could be present.

Invitations, some fifty in number were mailed out, and judging from the interest manifested, there will be a large attendance of the Knights of the Road on hand when the meeting is called to order.

Merchants who are unable to be present for the dinner at 7 o'clock owing to keeping their establishments open, are coming in later for the speeches. An excellent program has been arranged.

Mrs. Oscar Majors and Mrs. E. A. Barcroft were in Sweetwater shopping and visiting Thursday from Colorado.

Mrs. Tom Hughes will entertain the Sorosis Club Wednesday afternoon at 3 o'clock in the parlor of the Hotel Wright. The program will be on the Passion Play. Mrs. E. W. McLaurin and Mrs. C. M. Caldwell of Abilene will be the guests of honor.

Miss Lois Geer and Hoyt Rogers were married March 17 at the Methodist parsonage by Rev. D. B. Doak. Mr. Rogers is in the employ of the Texas & Pacific Railway Company. Mr. and Mrs. Rogers will make their home in Sweetwater. Miss Geer is oldest daughter of Mr. and Mrs. L. J. Geer of this city.

JOINS IN PROTEST

Holland And Switzerland Agree to Protest French Occupation In Ruhr—So Does Vatican.

By The United Press.
LONDON, March 23.—Holland and Switzerland have agreed to a joint protest to the International Commission on the Rhine by French Occupation Forces, according to dispatches received here today. Reports also stated that the Vatican is sending an envoy to the Ruhr district.

Reports from Munich were to the effect that Chancellor Cuno went there to make a speech last night. It was stated that the reception received by him was the warmest anyone had received since Hindenburg, was the wording of the information.

Still another report said that Great Britain and France had reached an agreement in regard to the Ruhr trade relations which will prevent a possibility of British goods being taxed by both the French and Germans.

HOLD UP BANK.

Four Bandits Get \$40,000 From East St. Louis National.

By The United Press.
EAST ST. LOUIS, Ill., March 23.—Four bandits held up the Southern National Bank here and escaped with loot estimated at more than \$40,000 today. No trace of the thieves has been discovered.

VALUE PURE BRED STOCK ON THE FARMS IS SHOWN

Agricultural Experts Tell Crowds In Sweetwater What Pure-Bred Livestock Means In Dollars And Cents On The Farm—Some National Champion Dairy Animals Are Shown.

SANTA FE TRAIN DRAWS BIG CROWDS ON ITS ROUTE

Remained Here Over Night, Leaves For the North Friday Morning—Diversified Farming Is Preached By Men From A. & M. College, Who Dwelt On The Expensiveness Of The Scrub Pig, Cow, Or Hen—Facts Given.

"No one can afford to match his or her time against a scrub."

This was the outstanding fact presented by the Santa Fe farm demonstration train here Thursday evening from 8:30 to 10 o'clock, bringing a special message of diversification to the Texas farmer. The cow, sow, and hen were featured, special emphasis being given to better breeding.

Eight meetings were held in Coleman, Taylor, and Nolan Counties on Thursday by the Santa Fe Railway-Texas A. & M. College cow, sow, and hen demonstration train. Starting at Coleman in the morning stops were made at Silver Valley, Novice, Lawn, Tuscola, Buffalo Gap, and Blair, the closing meeting being held in Sweetwater in the evening. The attendance during the day maintained the record set at the start, ten days ago. The total number of visitors at forty-three stops exceeds 40,000.

The train left Sweetwater Friday morning for the Plains of northwest Texas, where forty-six meetings will be held closing the run at Shattuck, Oklahoma, April 3rd. All branch lines on the plains will be covered.

The meeting here was opened by J. D. Tinsley, agricultural agent of the Santa Fe Railway in charge of the train. He stressed the importance of diversified farming with dairying, hogs and poultry as sources of reliable revenues of income on the farm.

"We find," said Mr. Tinsley, "that farmers milking cows, growing hogs, and keeping a bunch of chickens are coming through the depression better than the one crop farmer. We do not ask the farmer to give up any crop that he is raising, but we do ask that he go in for dairying, hogs and chickens at least to the extent of paying the family expenses."

Mr. Tinsley called attention to the splendid work the Texas A. & M. College is doing to increase production in all lines on the Texas farms. The Santa Fe Railway recognizes the value of this and is glad to bring the College to the farmer's door through the College staff of speakers and the compact, well selected exhibits.

Speakers declared that on 435,000 farms in Texas, 130,000 are without hogs, 125,000 without dairy cattle and 100,000 without poultry. This deplorable situation exists in spite of the fact that the Lord gave Texas a climate adapted especially to dairying, hog growing and poultry raising, declared J. D. Tinsley, agricultural agent of the Santa Fe, who is in charge of the train. He said the object of the itinerary was to impress on the people of Texas served by the Santa Fe the great influence of the pure bred sire and to show the utter futility of growing the scrub.

Other upstanding facts presented by the lecturers were that Texas annually buys from her sister states \$50,000,000 worth of hog products, \$20,000,000 worth of dairy products and \$15,000,000 worth of poultry products; and that the lowly hen lends the dairy cow in dollars and cents production in Texas. The value of the state's poultry production in 1922 was \$42,000,000 and the value of dairy production \$32,000,000. "No wonder the rooster crows," said one of the speakers.

High Grade Stock Shown.

The train carries three cars of exhibits; a car of dairy stock, a second of hogs, and third of poultry. It is an unusually well selected lot of milk cattle, hogs, chickens, and poultry, and of a higher class than ordinary carried on a demonstration train.

The four standard dairy breeds are represented: The Holstein, Jersey, Guernsey and Ayrshire. The big Holstein bull, Dutchland Aaggie Tidy Prince 2nd, holds a conspicuous place in the dairy world and is grand cham-

plion in several shows including the National Dairy show in 1922. He weighs 2,700 pounds. His first daughter made 28 pounds of butter in seven days.

The Holstein cow, Queen Natali De Kol, has a record of 26,000 pounds of milk in one year. The net income from this cow in one year was \$1,000 after paying the feed and labor bill.

The Guernsey bull Kitchner's Defiance only 18 months old, has won many prizes at stock shows, including the National Dairy show last year.

The Guernsey heifer Moonlight Coronet, 13 months old, has already won prizes at stock shows. Her mother won twenty-four prizes, and made a record of 20,004 pounds of milk and 1,190 pounds of butter in one year.

The Ayrshire heifer, Master Roy's Sweet Brier, was bred by the Dairy Department of College and comes of stock with fine record.

The Jersey cow Stockwell's Noble Wonder has a record of 10,000 pounds of milk and 6,600 pounds of butter fat. She holds a number of prizes won at fairs.

The 9-months-old Jersey bull comes of noted stock and is one of the individuals that attract much attention from the visitors to the train.

There is also just a common cow without any record for production. Her daughter, Mistletoe Maid, sired by a father with a fine record for production, is a striking example of what may be accomplished by the use of good sires.

The hog car carries samples of the right sort of a market hog and the stocker hog. Next to them is the ordinary pig which by contrast shows what a waste of time and feed it is to carry him through to a marketable stage. Fine samples of standard hogs are shown, including Poland-China, Duroc and the Tamworth.

The poultry car carries standard breeds of chickens and bronze turkeys. The star attracts a great deal of attention from the visitors to the train.

What The Train Is For.

"The purpose of this train," said J. D. Tinsley, agricultural agent of the Santa Fe Railway in charge of the demonstration train, "is to bring practical information direct to the farmers and the business men along the line of dairying, hog raising, and chicken growing. These three industries are essential to put the Texas farms on a profitable basis. The one-crop system, followed in many parts of the state, is not producing satisfactory results, be that one crop cotton, wheat, or anything else. We are not asking any one to give up the raising of any crop that he may be growing; but we ask that he take on in addition some cows to milk, hogs, and poultry, at least to the extent of paying the family living expenses. Texas today depends largely on other states for butter and eggs which could be produced at home more cheaply."

Grout Hits The Bull.

Livestock farming should be looked upon largely as a means of guaranteeing at home a satisfactory market for crops most easily grown in any particular section of Texas, according to George W. Grout, head of the Dairy Department at the A. & M. College, who delivered the first lecture at the meeting here, "Livestock farming," he said, "makes possible the utilization of by-products, such as stalk fields that would otherwise go to waste. It is also a means of using efficiently the available labor throughout the year.

"People who live on specialized farms, such as those devoted entirely to cotton or grain, work only a part of the year; while on stock farms, there is something for every member

LAW AND LOVE.

Love worketh no ill to his neighbor; therefore love is the fulfilling of the law.—Romans 13:10.

OPEN MIND COLUMN.

THE CITY CHARTER.

To The Reporter:
Referring to the local item in The Reporter yesterday crediting me with having written the charter for Sweetwater, it is but just to say that while I got together the materials on which that charter was based, yet Judge H. C. Hord co-laborated with me in the actual work of its preparation, the work being done in the office of my then firm with the aid of our stenographer. Mr. Frank G. Robertson being the third member of the sub-committee selected to prepare the charter not being a lawyer did not attend constantly on our labors, but as occasion required.

The result of the two weeks of intensive labor of preparation was submitted to the committee of fifteen and with only one modification now recalled, and that on a question of the number of petitioners required to institute removal proceedings against an elected officer, was approved by the whole committee and adopted in December, 1913 by vote of the people of Sweetwater.

R. C. CRANE.

Mrs. Guy Morris, president of the Woman's Auxiliary of the Episcopal church called a meeting of the Auxiliary Wednesday afternoon for the purpose of making final arrangements for the Musical which will be held at the Hotel Wright through the courtesy of Mr. and Mrs. Rufus Wright. The date has been set for Tuesday, April 3 at 8:30 p. m. Some of the best talent will appear on the program, also Mrs. Mac Alexander of Abilene and Harrison Ledford whose Lyric baritone voice has had applause from the Pacific Coast to New Orleans. It is hoped to add other artists to this list. The list will appear later.

BIG ASSEMBLY.

Special to The Reporter.
STAMFORD, March 23.—The board which is charged with the location of the Central West Texas Baptist assembly summer encampment will probably not make its decision for nineteen days or two weeks, it was intimated here. Seymour and Stamford are the only two towns being considered for the big annual encampment expected to develop in three years into an assembly of 10,000 visitors.

FOR CONSTIPATION

Black-Draught Recommended by an Arkansas Farmer Who Has Used It, When Needed, for 25 Years.

Hatfield, Ark.—Mr. G. W. Parsons, a well-known farmer on Route 1, this place, says: "I keep Black-Draught in my home all the time. It is the best all-around medicine I have ever found for the liver and for constipation. We began using it 25 or more years ago and have used it whenever needed since. I have never found any other medicine as good for constipation, and that was what I suffered with till I began using Black-Draught. Black-Draught corrected this condition, and now we use it for the liver and for indigestion—a tight and sluggish feeling after meals, for bad taste in the mouth and sour stomach.

"My wife uses it for headache and biliousness. It sets on our shelf and we don't let it get out. It has been a great help to us. I believe a great deal of sickness is caused by hurried eating and constipation, and Black-Draught, if taken right, will correct this condition."

Get Theford's, the original and only genuine Black-Draught powdered liver medicine. Sold everywhere. NC-150

COULD CLAP HER HANDS FOR VERY JOY, SHE SAYS

Another Houston Woman Is Enthusiastic Over Restoration of Health by Taking Stella Vitae Treatment.

"I could clap my hands in very joy for the grand relief I have experienced through taking this Stella Vitae treatment," said Mrs. F. E. Chavez, of 1501 Holly street, Houston, Texas, the other day.

"Why, I was about as miserable a woman as you ever saw before I began taking Stella Vitae; and now I am as happy as the day is long and bless the day I heard of this wonderful treatment.

"It seemed to me that everything was the matter with me. My head-ached at times like it would split wide open and I had the most awful pains around my stomach that griped me so I felt I just couldn't stand it another minute. And that misery in my back seemed like it would never let up, and give me any peace. Even my lower limbs ached at times till I could hardly get about. My food didn't agree with me and soured on my stomach causing me much distress. I would get so nervous at times I could hardly stand anything.

"My experience with Stella Vitae has been most satisfactory. Soon after starting on it I began to improve and now I am feeling better in every way than I have in a long time. It is just the thing for female troubles and all suffering women should try it."

Note—Stella Vitae may be obtained from any druggist and is sold upon the positive guarantee that the purchase price will be refunded if it fails to bring relief.—(Adv.)

AT THE PALACE.

One of the most dramatic stories which Ben Ames Williams ever wrote is "The Brothers Were Valiant."

This gifted artist of fiction has achieved an enviable reputation in the literary world, and his stories in the Saturday Evening Post have won for him a host of admirers. To many of his readers, "All the Brothers" is the best story he has ever produced.

The news that this vivid whaling story has been made into a motion picture by Metro, has made photoplay

fans eager to see it. According to advance reports, the picturization is even more thrilling than the exciting narrative, and its gripping scenes hold one even more completely than the written version.

As those who have read the story will remember that "All the Brothers Were Valiant" tells of a cruise of a whaling schooner, of which Joel Shore is captain. Joel is the last of a long line of seamen, all of whom had met their end valiantly. Mark Shore alone cannot be accounted for. He has suddenly disappeared from his ship, and nothing more has been heard from him.

Mark suddenly appears on Joel's schooner, when the vessel is anchored. He gives a vivid story of his unusual experiences during his absence. He tells of a hunt for pearls; of his affair with a little brown girl; of killing the pearl fishers in order to get their loot; and finally of burying the pearls on a nearby island.

Mark suggests to Joel that they seek the pearls. Joel declines to risk his ship and his life, and so insure the

enmity of his brother. From here the story becomes increasingly thrilling and dramatic. A mutiny, a clash between the brothers, a realistic combat between members of the crew—these are some of the incidents which bring the picture to a swiftly moving close.

In the cast are players of recognized artistry. Lon Chaney is seen in the role of Mark; Malcolm McCreagor portrays the part of Joel; and the charming Billie Dove enacts the part of Priscilla, Joel's wife. Others who have important parts are William H. Orland, Robert McKim, Bob Kortman, Otto Brower, Curt Rehdelf, William H. Mong and Leo Willis.

"All the Brothers Were Valiant" will be shown at the Palace Theater today and tomorrow, and to glance

HOUSEHOLD HINTS.

BEAN SOUP.
Two quarts water, and use a smoked ham bone or bacon, one pint beans; when cooked add 2 spoons flour and 1 egg stirred together and stir into the soup.

CELERY SOUP.
One cup chopped celery; boil in 1 quart beef broth till tender, salt and pepper; serve with crackers.

NOODLE SOUP.
Break 2 eggs in bowl, beat, adding a pinch of salt; then work in flour with your hands until a very stiff dough; turn on board and work, until smooth as glass; pinch off a piece the size of a walnut, roll thin as paper, then with sharp knife cut off very narrow strips; proceed in same way until all the dough is cut. Having prepared some good veal, chicken, or any kind of broth, well seasoned, drop in the noodles, being sure soup is boiling; add a little parsley. If made according to directions, will be superior to macaroni.

ONION SOUP.
Two large onions, slice and stew with 1 quart water, season with salt, pepper and butter; serve with crackers same as oysters.

POTATO SOUP.
Six large potatoes sliced and boiled in enough water to cover, season with salt and pepper, a little butter, and 1 cup of sweet cream or milk.

RICE SOUP.
Soak rice, boil beef, take stock and cook rice in it and thicken with egg same as Bean Soup.

TOMATO SOUP.
One pint of canned tomatoes, or 4 large raw ones, cut fine; add 1 quart of boiling water and let boil; add 1 small teaspoon of soda; while foaming add 1 pint of sweet milk, salt, pepper and plenty of butter; when this begins to simmer, add 8 small crackers rolled fine.

VULCANIZING IS INCREASING—Tires And Tubes Go Higher ALL WORK GUARANTEED Quick Tire Service GEO. C. MASSEY Auto Service Station, Phone 272. Phone 272.

VEGETABLE SOUP.

Scrape 2 carrots, an onion, 1-4 head cabbage and 2 turnips chopped fine; boil 1 hour with water enough to cover and 1 tablespoon butter; prepare 2 large potatoes the same way. Take some meat stock (with all the grease taken off); boil all together half hour, season to taste.

MEATS.

There are two general principles governing the cooking of meats, which are: First—All roasts should be placed in a very hot oven; some cooks prefer to sear them in a hot griddle before placing them in the oven. The outside surfaces become slightly solidified, thus retaining all the rich juices. Similarly the outside surfaces of steaks should be seared for the same reason.

Second—All meats for soups or for stews, in which all or a part of the juices are required to exude, should be placed in cold water, and allowed to come to a boil. This promotes the exudation of the juices, as the outside surfaces are kept soft.

BRILLED BEEF STEAK.

TODAY'S RADIO WEATHER.
By Sweetwater Vulcanizing Co.

West Texas tonight fair. Colder in the southeast portion. Frosts, Saturday fair.

General Weather Conditions:—The prime high pressure area overlies the Rocky Mountain states, causing general fair weather in the western half of the country, accompanied by moderate temperatures. The freezing line being dropped southward into central New Mexico and southern Oklahoma. Scattered showers occurred in portion of Arkansas, Louisiana, Mississippi, Tennessee and Kentucky since last report.

Texas reports temperature extremes as 55 degrees at Amarillo and 62 degrees on the coast.
Barometric reading at 7 o'clock this morning was 29.587 inches.

COW, SOW AND HEN TRAIN.
(Continued From Front Page.)

of the family to do every day in the year.

"Naturally, a steady job pays better than an irregular job. Therefore, investigation indicates that stock farms, properly managed, are the most profitable. Livestock farming increase pro-

duction because fertility is added to the soil from barnyard manure, which is the most ideal fertilizer yet devised."

Diversification The Slogan.
It is not desirable that Texas farmers should specialize in stock farming to the exclusion of everything else, the speaker emphasized, but every farm should be sufficiently diversified with crops, livestock, etc., to insure a well balanced business with a steady and regular income and a constantly improving soil fertility.

"Practically every part of Texas is adapted to some type of livestock production, so that every person should thoroughly inform himself with reference to the different phases and select that type of animal best suited to his personal fancy, and his local soil and market conditions.

"This train," Mr. Grout said, "brings to you examples of what other Texas farmers are doing. The Santa Fe railroad and the A. & M. College simply submit these demonstrations for the farmers' consideration. They offer one piece of general advice, and that is: Do not match your time against a scrub.

Dairying A Steady Job.
"Dairying is the steadiest job in the world, and therefore, on the average, is the best paying type of farming for those who manage it properly. It furnishes light work for every member of the family every day. It furnishes a relief from the credit system because it brings a regular weekly or monthly cash income from which operating expenses may be defrayed so that any cash crop sales at the end of the year may be added to the savings account.

"The requisites for successful dairying are: (1) good cows, (2) proper feeding and management, (3) sensible marketing of the products. Good cows may be selected from any of the regular dairy breeds that suit the ranch, but they must be heavy producers to return a profit. A cow that will produce 600 pounds of butter a year will make more profit than 20 cows producing 150 pounds of butter in a year, with considerably less labor.

"The difference between profit and loss is often determined by the intelligent mixing of a balanced ration. The dairy cow is a high geared machine and will not run in low gear profitably."

Good Send Off For The Pig.
A. L. Ward, swine husbandman at the college, gave the pig a particularly good send off. "The pig," he said, "is the only farm crop that can be produced twice each year, and he is the only crop that can be marketed all in six to eight months. Any good brood sow can have 16 to 20 pigs per year; this means 1,600 to 2,000 per cent increase per year.

"Two of the greatest drawbacks to farming are lack of capital for economic operations and slow turnover. The big type prolific sow of today can do much to overcome these two handicaps. No other line of livestock farming can be brought so quickly to profitable production with so limited an amount of capital invested in stock and equipment as the production of meat from the pig. This fact on practically all farms, large or small.

A Swat At Scrubs.
"Success in pig raising cannot come from the use of scrub boars and common-place or 'cold-blooded' sows. The Golden Text for successful pig production is: Breed right, feed right, care for right, market right.
Mr. Ward pointed out that farmers who own herds of common hogs for pork production have been aroused by the herd jolt given them by the United States Department of Agriculture in the announcement that purebred hogs have an earning capacity for pork production of 38 per cent greater than common or scrub hogs. Purebred hogs of today are of a type adapted to making the greatest gains in the least

meet the market requirements, Mr. Ward insisted. There is no standard breed of hogs from which market topers cannot be raised, he asserted.

No farm animal can manufacture as much meat from a given quantity of feedstuffs as the pig, provided the feeds are not too bulky, Mr. Ward said in conclusion.

Hen, Faithful And Helpful.
The last lecture was Ross Sherwood of the College Experiment Station. He said that the poultry business, if started on a sound basis, generally is a thriving business; at least a small plant in connection with general farming can be made a very profitable side line. It is a fact that a small investment in connection with the farm equipment for poultry production has given larger returns than most any other line of farming, the speaker contended.

"Good birds, given proper houses, a balanced ration, with plenty of fresh water, grit, oystershell, etc., and houses kept clean and sanitary at all times with plenty of sunshine and fresh air, will prove profitable producers in the poultry business," Mr. Sherwood said. This holds true either as a side line or on the commercial plant.

Mr. Sherwood told of numerous instances in which a flock of good hens on the farm had saved the day for the farmer's family when crops had failed. He expressed the hope that the day would come when it would be impossible to find a Texas farm without a good poultry yard.

SPARKS OFF SPECIAL TRAIN.
J. F. Jarrell, editor of The Earth, the Santa Fe publication and A. M. Hove, assistant editor, were members of the party accompanying the train. This makes the twenty-second farm demonstration Mr. Jarrell has accompanied. He says he has never before seen as much eagerness displayed as by the farmers on this trip. Never before have they come to the train with as many questions written out and never before have they been as free to question, he said. "It means that they are catching the vision of better agriculture and are going to be sold on ideas advanced from the A. & M. College, just as is the Santa Fe."

The fact that the Santa Fe is sold on better methods is the reason they are co-operating with A. & M. College in trying to sell the same ideas to the farmers, Mr. Jarrell pointed out. He says the farmer should consider that college his very own and make use of

LADIES! DARKEN YOUR GRAY HAIR
Use Grandma's Sage Tea and Sulphur Recipe and Nobody Will Know

The use of Sage and Sulphur for restoring faded, gray hair to its natural color dates back to grandmother's time. She used it to keep her hair beautifully dark, glossy and attractive. Whenever her hair took on that dull, faded or streaked appearance, this simple mixture was applied with wonderful effect.

But brewing at home is messy and out-of-date. Nowadays, by asking at any drug store for a bottle of "Wyeth's Sage and Sulphur Compound," you will get this famous old preparation, improved by the addition of other ingredients, which can be depended upon to restore natural color and beauty to the hair.
Well-known druggists say it darkens the hair so naturally and evenly that nobody can tell it has been applied. You simply dampen a sponge or soft brush with it and draw this through your hair, taking one strand at a time. By morning the gray hair disappears, and after another application or two, it becomes beautifully dark and glossy.

every day in the year. The results of their experiments are available every day in the year to every farmer wanting to use them, he said.

With the farmer suffering because of the deflation since the war, it has come to the point where he must stay clear of debt, must provide for his family regardless of all other things. That may best be accomplished by making the eggs and butter keep the family, the speakers stressed. If all other efforts then are futile, the living has been made and all that has been lost is the work.

Some of those in the party were: J. D. Tinsley, agricultural agent of the Santa Fe; George P. Grout, professor of animal husbandry, at A. & M. College; A. L. Ward, swine husbandman at A. & M.; R. M. Sherwood, poultry specialist; J. W. Ridgeway, dairy specialist; J. G. Fitzhugh, representing the Santa Fe; J. L. Jarrell and A. H. Hove, connected with The Earth, the Santa Fe publication and other A. & M. specialists.

Mr. Ward said that of the 2,500,000 hogs in Texas, only 17,000 are purebred. In other words, the scrub leads the pure bred 36 to 1. The government census shows that 289,000 Texas

farmers are solidly for the scrub hog. The hog exhibits thoroughly demonstrated the quality porker, indicating that such an animal sold on the market from 1 to 3 cents above the average Texas scrub.

Proper rations for the farm stock

SAYS RED PEPPER HEAT STOPS PAIN IN FEW MINUTES

Rheumatism, lumbago, neuritis, back-ache, stiff neck, sore muscles, strains, sprains, aching joints. When you are suffering so you can hardly get around, just try Red Pepper Rub.

Nothing has such concentrated, penetrating heat as red peppers, and when heat penetrates right down into pain and congestion relief comes at once. Just as soon as you apply Red Pepper Rub you feel the tingling heat. In three minutes the sore spot is warmed through and through and the torture is gone.

Rowles Red Pepper Rub, made from red peppers, costs little at any drug store. Get a jar at once. Be sure to get the genuine, with the name Rowles on every package.
