Firestone Prices on Fabric and Cord Passenger Car Tires and Tubes, also Solid and Pneumatic Truck Tires Will Advance May 1st

The postponement of this price revision is possible only because of our realization of the price danger in the British Crude Rubber Restriction Act which became effective November, 1, 1922. We were fortunate in our rubber purchases before the Restriction Act increased the price of crude rubber 150%.

We have always endeavored to champion the cause of better made tires delivered at lowest cost to the tire user by economic manufacturing and distribution. And we are glad of the opportunity to give the car-owner the additional saving at this time.

Firestone Cords embody certain special processes which result in their producing

mileage records, heretofore unheard-of in the industry. Among the more important of these superior methods are blending, tempering, air-bag cure and double gum-dipping.

Firestone Dealers are co-operating with us in our movement to supply your needs at present prices as long as their stock lasts and we have advised our dealers that we will supply them with additional tires this month only so far as our output will permit.

Black-Draught Found Valuable by a Texas Farmer, Who Has Known Its Usefulness Over 30 Years.

Naples, Texas.—"I have used Thedford's Black-Draught for years—I can safely say for more than 30 years," declares Mr. H. H. Cremer, a substantial, well-known farmer, residing out from here on Pouts.

here on Route 3.

"I am 43 years old, and when a small boy I had indigestion and was puny and my folks gave me a liver regulator. Then Black-Draught was advertised and we heard of it.

"I began to take Black-Draught, and have used it, when needed, ever since. I use Black-Draught now in my home, and certainly recommend it for any liver

"I have given it a thorough trial, and after thirty years can say Black-Draught is my stand-by. It has saved me many sick spells."

Mr. Cromer writes that he is "never

out of Black-Draught," and says several
of his neighbors prefer it to any other
liver medicine. "I always recommend
Black-Draught to my friends," he adds.
This valuable, old, powdered liver
medicine is prepared from medicinal
roots and herbs, and has none of the bad
effects so often observed from the use of lomel, or other powerful mineral drugs. Be sure to get the genuine. Thedford's.

## The Court of Last Appeal

You are the judge and the jury. Your verdict is final. There can be no appeal-for this is the High Court of Public Opinion.

The wares of the world must appear before you-the product of every factory—the merchandise of every store. Those things that fail to measure up to your requirements and quickly condemned to oblivion.

The manufacturer who advertises deliberately places his merchandise on trial. He openly courts your critical attention to his goods and then forces those goods to stand on their own merits.

If he were not sure of his wares he would not dare to advertise. For advertising would put him to a test he could not meet, and thus hasten the end of his business career. It would be business suicide.

You can depend on the man who advertises. He knows his product is good.

That's one reason why it pays to read the adventisements you find in The Sweetwater Reporter. It is through advertising that you are able to keep in touch with the good things that progressive business men are spending their money to introduce and to keep before you.

# way to get this mixture was to make it at home, which is mussy and trouble-some. Nowadays, by asking at any drug store for "Wyeth's Sage and Sulphur Compound," you will get a large bottle of this famous old recipe, improved by the addition of other in-

gredients, at a small cost.

Don't stay gray! Try it! No one can possibly tell that you darkened your hair, as it does it so naturally and evenly. You damen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning the gray hair disappears, and after another application or two, your hair becomes beautifully dark. glossy and attractive.
