NUMBER 150.

STATE HIGHWAYS WILL CONTINUE

Chairman R. M. Hubbard of State Highway Commission Says That Status of Commission Not Affected.

NO APPROPRIATION ENDANGERED

Work Now Planned Will Be Carried Out Regardless of Failure to Vote On State Amendment

Special to The Reporter.

AUSTIN, July 26.—R. M. Hubbard, Chairman of the State Highway Commission, speaking for the entire Commission, stated today that the failure to publish in time the proposed Constitutional Amendment, would in no way affect the funds of the State Highway Department for the next three years, and that it would not interfere with the present program of highway construction or maintenance, and that all unexpired Federal appropriations including those for 1924 and 1925 would not be endangered. Mr. Hubbard stated emphatically, that the Highway Commission would carry out its plans, and the will of the legislature in maintaining all state highways, and to further carry on the construction as rapidly as possible. "We will continue in the future, as we have in the past, to co-operate with the various counties of the state in the construction of a State system of highways," continued Mr. Hubbard. Mr. Hubbard authorized the following statement:

"There is no need of undue alarm at this time on account of our failure to secure the proposed amendment to the constitution, for fear we will lose Federal Aid. The main idea the proponents of the Amendment had in mind was to comply with the provisions of the Federal Aid Act as early as possible, in order that Texas might continue to receive the hearty cooperation of the Federal Government, and in order that we would have ample time to make the necessary adjustments in our statutes. The amended Federal Aid Act gives us until November 9, 1926, to comply with the provisions of the Act, requiring the State to provide State Funds for the construction and maintenance of Federal Aid roads, such funds to be under the direct control of the State, provided, however, that we carry out the provisions of this Act as nearly as our existing Constitution and laws will permit.

Maintenance.
The recent Legislature directed the State Highway Department to take over the maintenance of all state highways, and provided funds therefor. It is the intention of the State Highway Commission to carry out these directions to the fullest extent. We are making our plans to take over the maintenance of all roads in the state highway system January 1, 1923, and unless something of a more far reaching effect than the failure of the Constitutional Amendment takes place, we will carry out these plans.

Will Continue Present Policy.

The State Highway Commission will continue to co-operate with the various counties of the State in the construction of the State Highways. We will continue to aid them in the future as we have in the past, but on a larger scale, due to the fact that the 38th Legislature provided additional funds for this purpose. These increased funds will be used to good advantage by increasing the allotments to those progressive counties that have provided county funds for the purpose of constructing more durable roads. This will be a distinct advantage to these counties. A connected state system is only delayed. In this connection we would like to state that the Legislature in submitting the proposed amendment, and the Texas Highway Association, and the Texas Commission in advocating it, had not the remotest idea of proposing at this time an increase to the tax burdens of our State.

The advocates of this Amendment take sharp issue with those who contend that the adoption of the amendment would have been prejudicial to the educational interests of Texas. In fact, the staunchest supporters of highway legislation including the Amendment. It is true that if the

BOMB BARBERSHOP.

Guests in Chicago Hotels in Panic As Unions Battle.

By The United Press.
CHICAGO, July 26.—Guests in the Hotel Morrison and adjoining hotels were thrown into a panic today when a bomb exploded in the rear of the former hostelry.

A non-union barber shop had been recently opened in the hotel and the bomb throwing was ascribed to this situation.

ARRESTS. TANNER

Stonewall County Man Pays \$36.70 For Operating Auto Without License Plates—Quart Jar of Fluid Found.

Sam Tanner of Stonewall County paid the usual fine and costs in corporation court Wednesday night on a charge of operating an automobile without license plates attached.

Chief of Police Johnson, who made the arrest, searched the car and found a quart jar partly full of a pale colorless liquid, which, upon investigation proved to be water.

Tanner is out on bond, pending appeal from a conviction in the District Court at Anson on a charge of transportation of liquor, returned some months ago.

Chief Johnson is having a lot of trouble lately. A big buck negro has been in the habit of going into local restaurants, eating a hearty meal and then telling the proprietor "to charge it to Buck Johnson."

And folks have been congratulating him on winning the big prize in the Clean-Up campaign of \$25, but he says that it cost him just \$496 in paint to win that \$25.

SEE THE CHRISTIAN.

R. & R. Palace Decorated For Occasion.

Theatre goers who attended the R. & R. Palace Wednesday and Thursday of this week received a different treat, not only by the beautiful arrangement of the interior but by seeing "The Christian" which is being shown there. The house was comfortably full and exclamations of delight and surprise were heard on all sides. Blue and white crepe paper streamers waved over the entrance of the theatre and twenty-two blue light illuminated the front. Potted ferns and flowers graced the lobby and white arched vines covered with clinging roses and vines added a beautiful effect to the color scheme. Blue and green lights cast a mellow glow over the interior and tinkling chimes added to the general effect.

Ushers in white uniforms found seats for the patrons with flashlights. A powerful theme, "The Christian" from the novel of the same name by Sir Hall Caine. It will be shown again tonight.

Between shows, Miss Ruby Hemby delighted the audience by singing "The Holy City," accompanied by Miss Mickey Cuthbert at the piano.

SPEND \$20,348.62.

Mitchell County Storm Relief Fund Helps.

According to a statement issued by the American National Red Cross, Southwestern Division, the expenditures of the Mitchell County, Texas, Disaster Relief, has reached a total of \$20,348.62, at the close of business July 21, 1923. The receipts up to the same date totaled \$56,333.98, with \$45,101.61 of that amount coming from organizations and individuals, while \$6,500 came from the American Red Cross, National Headquarters and \$4,732.37 from Red Cross Chapters.

The biggest expenditure was for household goods, for which \$7,141.27 was spent. Money used to buy tools, and implements reached \$3,324.15 and \$2,743.76 was used for maintenance. The balance of the amount was used for clothing, medical aid, burial expenses, feed and seed, stock, labor, building and repairs and miscellaneous items.

Mrs. E. H. Rowley, who is visiting relatives in Colorado, came over Wednesday night to see "The Christian" at the R. & R. Palace Theatre.

Mrs. George Gray, Sr. and daughters of Hamlin have returned home after a visit here with Mr. and Mrs. Alvin Gray.

BAPTISTS ELECT A NEW PRESIDENT

Head of Baptist Institution at Louisville, Ky., Elected at World Conference Held in Stockholm.

ARE THERE FROM TEXAS POINTS

Are Included Among Baptists Gathered From All Points in United States And Other Nations.

By The United Press.

STOCKHOLM, Sweden, July 26.—Dr. E. Y. Mullins of Louisville, Kentucky, U. S. A., was elected president of the Baptist World Congress being held here. He succeeds the late Dr. R. S. McArthur, who died last winter.

Dr. Mullins is a native of Mississippi and president of the Southern Missionary Baptist Seminary at Louisville, Kentucky.

For the first time in eleven years, the Baptists of the world are holding a world congress and this city has been selected as the place of meeting.

The congress convened here on July 21st. The last world meeting was held in Philadelphia in 1912. Plans were laid then for another gathering in 1916, but this was cancelled because of the war, and post-war developments have made it unwise to hold another congress until this year.

Approximately seven hundred fifty Americans are in Stockholm for the convention, many of whom sailed from New York June 30 on the United States liner "Aemrica," carried the largest party of any going from the United States, but several other groups of 50 to 100 have been reported.

One of these was the Kungsholm sailing of June 20, when more than 400 delegates, mostly Swedish Americans, embarked for Gottenburg. Another party of 60, most of whom were from Texas, sailed on the Berengadia June 26.

Thousands of Delegates.

Thousands of delegates are attending from the United States, Canada, South America, Central Africa, New Zealand, Australia, Japan, the Philippine Islands, China, Burma, India, as well as from Great Britain, Sweden, Norway and the countries of Continental Europe, including the new states of Latvia, Estonia, Poland and Czechoslovakia.

Several topics of special interest to Baptist as well as significance to the world at large are scheduled for consideration. International peace, in which the League of Nations will doubtless be included, the need of help in Europe and relief work, and especially religious liberty and the separation of Church and State, will receive attention.

A special commission of which Dr. E. Y. Mullins of Louisville, Ky., is chairman, presented a report formulating a pronouncement of Baptist fundamental principles and a restatement of the Baptist position. The late Rev. Dr. R. S. MacArthur, for forty years pastor of Calvary Baptist Church in New York, who died February 23, 1923, was president of the Baptist World Alliance and was to have presided at the Stockholm meeting.

By special invitation of the Arch bishop of Upsala, the congress will assemble for divine worship in the famous Cathedral on Sunday evening, July 22, where the sermon will be preached by the Rev. J. H. Shakespear, D.D., of London.

BUILDING GIN.

Special to The Reporter.
CISCO, July 26.—The new Cisco gin is rapidly nearing completion. Arrangements have been made with D. J. Moss, local manager, to hold open house Thursday morning. This is the date on which the locating board of Texas Technological College will visit Cisco and the Chamber of Commerce has forwarded notices to farmers of this section requesting them to be in Cisco on that date and inspect the new gin.

D. J. Moss was formerly a resident of Sweetwater, while here he held the position of Grand Arch Warden with the Elks.

WALTON - WILSON FACTIONS SCRAP

Contend For Support of Farmers and Laborers in Oklahoma As Reconstruction League Splits Open.

COUNCIL OF 12 MEETING KILLED

Meeting of Elective Heads of Various Unions Scheduled For Opposite Time This Fall, Walton Says.

By The United Press.

OKLAHOMA CITY, Okla., July 26.—A contest for the support of farmers and laborers throughout the state is under way between the Walton and Wilson factions of the Reconstruction League.

Following the postponement of the Council of 12 meeting scheduled for August 1, at the Capital, by Governor Walton yesterday, the contest for state favor will be carried to the short grass sections, it was stated.

The governor's statement indicated that the League will no longer be considered the voice of the Farm-Labor group, but contact will be maintained through the elected heads of the various Farm-Labor organizations.

A meeting of the heads of the various unions will be held some time this fall, Governor Walton said, in his statement calling off the meeting August 1.

In the meantime the Langston-Wilson faction of the League refused to comment on the situation and continued to prepare for their meeting here Sunday.

TALKS OF PEACE

President Harding Speaks at Vancouver—First Time American President Has Ever Crossed The Border.

By The United Press.

VANCOUVER, B. C., July 26.—"If the European nations would heed the lesson of Canada and the United States, they would strike at the roots of their own trouble and would remove that which continually inveighs against the peace of the world," President Harding told Canadians in his address here.

It was the first time that a president of the United States had ever officially addressed an audience in Canada and there were many distinguished officials of the Dominion government present.

"It is the public will, and not force, that makes for enduring peace, and it is gratifying that it has fallen to the lot of us living in North America, living amicably for more than a century under different flags to present this most striking example that peace can always be had among nations."

"Europeans should not be reproached for envy of North America. Rather should we sympathize with them in their difficulties, the stultifying effect of old world customs.

"What an object lesson of peace these two countries present! Only a scrap of paper, setting forth but little more than an agreement, protects the vast interests of the Great Lakes, and only slender mile posts stretch across the continent indicating the line.

NATIONS AGREE.

France, Belgium and Italy to Make Joint Reply to Great Britain.

By The United Press.
PARIS, July 26.—France, Belgium and Italy have reached complete accord on the text of the reply to the British note to Germany on reparations. It is unofficially announced.

Premier Poincare, the storm center of the situation, announces that he will go to the country for a few days' rest.

David Cole will leave Thursday in company with Osler Leach to accept a position at Chicago, Ill., with the Western Electric Co. Osler Leach goes to Schenectady, N. Y., to accept a like position with the General Electric Co.

The City Board of Equalization met Wednesday morning at the City Hall on the business of equalizing city taxes. R. A. Ragland, T. H. Hampton and R. H. Fitzgerald compose the Board.

GRADING BEGINS.

Several Teams Are Put To Work By U. S. Gypsum Company.

Work of grading for the railroad switches, etc., at the plant of the United States Gypsum Company has begun. Two teams were at work Thursday morning and several more that afternoon.

While the exact details of the new plant have not yet arrived from Chicago, their general outlines are known and call for a ground area of ten acres.

TOTAL IS \$18,582.00

Revised And Rechecked Figures Given Herewith—Together With Several Names Previously Omitted.

Subscriptions to the pipe line fund total \$18,582, according to revised and rechecked figures from the office of the Board of City Development.

Several subscriptions made during the busy days and one made yesterday not hitherto published are given herewith:

O. L. Stamps	10.00
J. C. Dennis	10.00
R. C. Johnson	5.00
M. G. Cooper	15.00
R. H. Fitzgerald	10.00
Mrs. H. C. Hord	10.00
Miss Willie Elliott	5.00
W. T. Hightower	25.00
Total to date	\$18,582.00

200 ARE DEAD.

Train Wreck in Bulgaria Kills 200 And Injures 300 More.

By The United Press.

SOFIA, July 26.—A total of 160 bodies have been recovered from the wreckage of the two Bulgarian trains which crashed Monday between Sofia and Verna.

The total deaths will reach 200 with 300 injured, according to the latest estimates.

Wrecking crews are still searching for bodies.

Faulty signals are believed to have been responsible for the wreck. One engine and 11 coaches were derailed and demolished. Dozens of the victims were unrecognizable, mutilated by the grinding debris of the wreck.

FOR GAS REDUCTION.

Conference Opens in Chicago Today Of Independent Refiners.

Special to The Reporter.

CHICAGO, July 26.—A national conference to reduce the price of gasoline in the Midwest and Southwest four cents a gallon opened in Chicago today, attended by hundreds of delegates.

Ways to reduce the market prices of gasoline in the artificial market over which the independent refiners had no control were discussed.

WILL GET PRISONERS.

Deputy Sheriff J. W. Butler was getting his chains and locks ready this afternoon, preparatory to leaving tonight for El Paso where three prisoners will be placed in his charge. He will bring them back to Sweetwater where they will await, in the county jail, the coming of Bud Russell, state penitentiary agent. Mr. Russell will probably arrive here Saturday morning and escort the prisoners to the state prison.

Miss Martha Jane Brown of Stamford is spending the week with her aunt, Mrs. W. W. Hudson, while her parents are visiting in Dallas.

GERMAN MONEY COMES IN BALES

Pockets Not Large Enough for Paper Marks Needed On Shopping Excursion—5,000 Marks, 1 Cent

KAISER IS GETTING RESTLESS

Crown Prince Visits Him Mysteriously And Often—Monarchists Stirring in Bavaria—Plots?

By The United Press.

BERLIN, July 26.—The spectacle of a nation of people all striving frantically to get rid of their money presented itself in Germany today.

Bewildered Germans, unable longer to follow the drop of the paper mark into nothing are making desperate efforts to exchange their money for any thing tangible that they can lay hands on.

Panic is in the minds of the people as they find the banks unable to supply the change for a \$10 bill. Citizens are hurrying to the banks with 1,000 mark notes wrapped up in bundles, "Give us anything you have in exchange for these" they say.

In some instances arrest of shopkeepers are being demanded for their refusal to take the depreciated money in exchange for merchandise and find, Midas-like that everything they touch turns into the worthless mark.

Pockets aren't large enough to hold paper money for a trip in the streets of Berlin. Citizens are seen with long bundles of money under their arms and others have it stuffed in large handbags. Everybody knows what his neighbor has under his arm. The big bales are made up of 5,000 mark notes, now worth less than 1 cent each and tomorrow are expected to be worth less.

LIFT BLOCKADE.

By The United Press.
BERLIN, July 26.—The traffic blockade imposed by allied troops in the Ruhr was lifted at midnight last night, it was announced here today.

A serious food shortage resulted in the occupied area from the blockade and foodstuffs piled up at the limits of the forbidden zone. These could not enter unless an "occupied tax" was paid and this the Germans refused to pay. The tax has now been lifted and foodstuffs are flowing across the border.

KAISER ACTIVE.

By The United Press.
AMSTERDAM, July 26.—The German Crown Prince is making frequent mysterious visits lately to the former Kaiser at Doorn it was revealed today. The Kaiser likewise has been receiving more than his usual number of visitors from Germany. These strange activities around the home of the exiled German ruler have caused a feeling of alarm here where it is felt that they may be connected with the monarchial movement in the fatherland.

The Crown Prince has been noted coming and going frequently. His last call was in the yacht Hohenzollern; after the call the imperial flag was hoisted and the boat sailed for Germany. Numerous monarchial demonstrations have been noted in Bavaria the past few weeks.

FIFTH SUNDAY SINGING.

All Day Event With Dinner On The Ground.

MERKEL, July 26.—Preparations are in progress to entertain a large crowd at the Fifth Sunday Singing Convention of this district, which convenes in this city next Sunday at the tabernacle here.

There will be singing all day and dinner will be served to all on the grounds.

Prominent singers throughout this district will be in attendance and the program will be a pleasing and varied one. The public is extended a cordial invitation to attend.

THE WEATHER.

West Texas tonight and Friday partly cloudy.

SWEETWATER REPORTER

Published each afternoon and Sunday morning, except Saturday and its Weekly edition on Thursday by The Sweetwater Reporter, Houston Hartel, President; Minor Shutt, Vice-President; Willie Rowan, Secretary-Treasurer. Entered as second class mail matter at the postoffice at Sweetwater, Texas.

FILTRATION.

The city of Sweetwater has obligated itself to build a filtration plant. It is one of the obligations assumed, one of the promises to the Locating Board of the Texas Tech.

This promise was not conditional upon our securing the college. It was not worded that way. It is set out in our brief in plain black on white.

On August 8th, the tax payers of this city will vote on the matter. On that day the members of the Locating Board will be studying the matter, will be reading the briefs of the various towns in the light of information gained on this tour.

The effect upon the said Locating Board, just at the time when they have seen all the various towns and are inclined favorably toward Sweetwater on that account, can be very readily seen. This Locating Board knows Sweetwater as a town that carries out its obligations. Hence the honor of this town is involved no less than considerations of health. The water in Lake Trammell is undeniably pure now and of superior quality—but you have heard of the man who waits until his building is on fire before taking out an insurance policy.

HOKUM.

American industry is carrying a load of eight billion dollars a year in the form of overhead charges for government expenses. So claims a large banking organization.

The simple truth is that industry is merely doing the bookkeeping, and that the burden is being carried by consumers. They pay in the long run. Taxes are taken out of increased prices. Corporations are as far from the poorhouse as before the war, though—in common with individuals—they are not enjoying the same prosperity as war-boom days when money literally grew on trees.

HIRED.

The steady tendency in our civilization is to get the same results with fewer employed. This constantly releases man power for the operation of new industries and expansion of old ones—that is, a gradual increase in our average standard of living.

Government issues figures showing that American farms in 1920 had 1,765,099 fewer workers than in 1910.

In the same 10 years the auto industry, movies and railroads added nearly a million employees to their payrolls.

THANK YOU.

I don't know a better way than this to tell the members of the Clean-Up Committee just how much their prize awarded to me is appreciated. I have always considered it my duty to do what I could as a citizen and as an officer to help this town in every way that I can. Naturally I did not expect any prize in connection with doing what every good citizen ought to do—clean-up and paint-up his premises—but it is surely none the less appreciated on that account. And when there is anything that I can do in any way to help proceedings, I am not hard to find.

1501c. W. R. (Buck) JOHNSON.

LABOR TO PARADE.

DALLAS, July 26.—Labor delegations of McKinney labor union members and Collin County farmers will march in the Labor Day parade here, officials of the Labor Temple have announced.

Every section of Dallas County will send in a group of farmers to march in the parade. It was said.

PRIZE ESSAYS.

One of the prize winning essays on "Why the Tech Should Be Located at Sweetwater" is published herewith. Others will be published later.

Wesley Doak

East Ward School, High Fourth Grade
"Why the Texas Tech Should Be Located in Sweetwater."

Sweetwater is a good town for the location of the Texas Tech because it is a growing town, and has all the modern conveniences of a town its size. The site to be offered is just outside the city limits. It is in close touch with the best residential section of the city, and is a beautiful location.

The two thousand acres of farming land contain many kinds of soil also level and hillside land. It will make an ideal experimental farm for all West Texas. This site will be supplied with city water which comes from a great lake in the mountains south of town.

The climate and altitude of Sweetwater is ideal. The altitude is not too high for the students from the lower part of the state, and yet high enough to be pleasant for those from the high altitude of the plains. The summers are never sultry, and the winters are not severe.

Sweetwater is centrally located for both farming and ranching interests of West Texas. Sixty per cent of the oil and gas of Texas is within a distance of one hundred fifty miles of Sweetwater. Every part of West Texas is in close connection with Sweetwater by means of its three state highways and three trunk line railways.

This college is to be not only a West Texas institution, but a Technological school for all the state. Such a school should be in close touch with the great manufacturing and industrial centers of the territory to be served. The three trunk lines of railway give Sweetwater direct connection with all the large cities of the state, with the exception of San Antonio, and it has a connecting line with Sweetwater lines. All the second rate cities of the state are either on Sweetwater lines or on connecting lines. These facts make Sweetwater the most ideal location for a state Technological school of any town in all West Texas.

It must be remembered that this will be the only Technological college west of the Mississippi and should be attended by students from all the Southwestern states. The three railways place Sweetwater in direct connection with Louisiana, Arkansas, Missouri, Kansas, Oklahoma, New Mexico, Arizona, and California. It also has direct railway connection with such manufacturing and industrial centers as St. Louis, Kansas City, Topeka, Wichita, Little Rock, Memphis, New Orleans, Shreveport, Los Angeles, San Francisco, and the leading towns of New Mexico and Arizona. If located at Sweetwater, which has such a direct connection with the great territory of the Southwest, it should become the most widely known and the most popular of all the schools in the great Southwest.

The Royal Neighbors of America held their regular meeting at the I. O. O. F. hall Wednesday night, with a large and enthusiastic crowd present.

After the meeting refreshments were served and a social hour was enjoyed.

UNPRECEDENTED.

By Berton Braley.

Whatever the spot you may visit, A mountain or sea-side resort, If you should remark, "Oh, why is it That rain interferes with our sport?" The natives will give you this reason, As though they were chanting together, "It's normally dry at this season, But this is unusual weather!"

And when from the city you're flying To some "breexq country retreat," And find everybody is frying In almost unbearable heat, When all of the countryside blazes With fires of a world that is nether, You hear this most frequent of phrases, "It's really unusual weather!"

"It never was this way before," They say of the heat or the wet, And this is the worst we've had yet. The boosters are always inclined The same sort of bull to untether, Wherever you go you will find It's always "unusual weather."

GAS DISPATCHING DIFFICULT.

Must Outguess Weather Man Every Time, Says Expert.

By The United Press.
RANGER, July 26.—The most ticklish job in the world, next to the weatherman's, is that of gas dispatcher for a large gas company, according to William A. Morehead, of the Lone Star Gas Company.

Morehead said that the gas dispatcher must outguess the weatherman, knowing how much gas to have at a certain place and being able to decide instantly where gas is needed at various points served by the company, depending upon the weather.

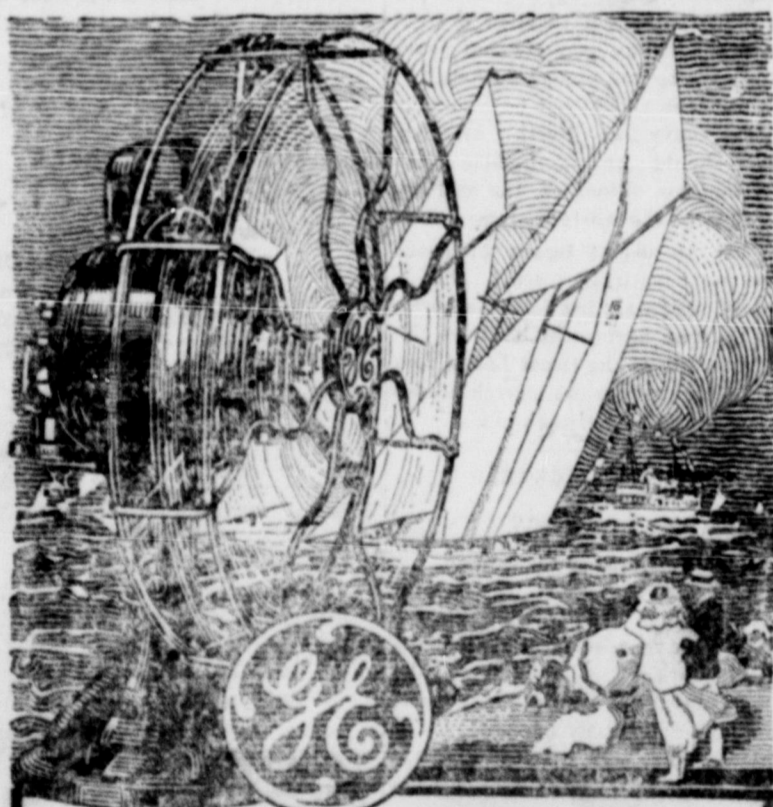

ENGAGE ORCHESTRA.

Dallas Musicians Begin Permanent Engagement At Queen August 6.

E. H. Rowley announces the engagement of an orchestra for the Queen Theatre beginning August 6. Eight instruments will be represented in the organization and the men are experienced musicians from Dallas where they have been playing Dallas theaters.

The orchestra will be a permanent addition to the R. & R. Queen Theatre, Mr. Rowley stated.

STATE MILK RECORD.

By The United Press.
PITTSBURGH, Texas, July 26.—Eight hundred and fourteen pounds of milk in seven days is the record of Aagle Wayne Concordia, milch cow owned by E. E. Prince of Camp County. This record, by the way, is also the state record for such performances.

CLAYTONVILLE "KNOTS."

By J. H. L.

We are still in the midst of a very busy era. Farm work began early in the year and still the plow or hoe has to make a show each day with many of our citizens. The largest cotton acreage planted this season and other crops, now ready to harvest in many parts, makes those who follow this occupation go in "high speed" to complete their work. A few days of very hot sunshine has damaged growing corn and some feed until not much yield can be expected in some fields, while we have already quite a quantity of good milo heads well developed and matured grain. This is to be looked after within the next few days if not hindered by rain which is threatening at date.

No time in the history of our lives has there been such drawbacks with the crops and the interest of the farmer in this community than has befallen us this season, especially to have the crops we now view each day. With an inch and a half of rainfall, there could not be enough gins to gin the cotton, nor pickers to gather the crop.

Going to attend the Reception-Dance
Just this morning there arrived by express a nice assortment of new black satin pumps and oxfords. They are correct and will give the finished touch to your costume.
Tucker Shoe Department
Tidwell-Campbell Co.

by the close of the current year.

Still we hear complaints from most all, about the grasshoppers and the coyote which has bothered and caught more chickens and turkeys than we have ever known in any June and July months.

We had quite a fine bunch of friends come to us last summer and offer their services to help ward off the grasshoppers and other pests they could—and do Reporter readers know, many of these little friends were run after and shot down while on the wing to get out of reach of bird or quail shot? If some of our citizens would only stop to think and appreciate life of the quail, especially the blue quail, probably they could appreciate themselves better.

The quail can be domesticated if properly treated. Our examples set us the example in bring such fowls as we now raise and have to the advantage and income they bring us by proper attention to them.

There must be a stronger sentiment and for the preservation and propagation of these little friends and a more rigid law enforced to protect the lives of quail, or the next generation of farmers and business men are to suffer worst insect disasters than we have ever had.

Mr. and Mrs. W. A. Bellar made a trip to Sweetwater Saturday evening to meet their daughter, Miss Jewell, who came in from Abilene where she attended school at Simmons College to reinforce her certificate power in teaching and managing of the free schools of Texas. She is to return Monday and attend the school until she has completed her course.

Rev. J. A. Kenser, aided by Rev. S. R. Smith, closed a week's protracted meeting at the Bethel Baptist church here. They had splendid success, with several conversions, baptisms and several reclaimed.

ANNOUNCEMENT

The little girls' doll dress making contest and also baby contest, closes the 25th of July.

At 3 o'clock, Saturday, July 28th, the winners will be announced. In our show window will appear the doll dress, made by little girl between the age of eleven and fourteen years winning \$5 gold prize, and the little doll dress, made by girl between age of six and eleven years, winning the life size walking and talking baby doll. The names and ages of winners will be announced at this time.

In this window at the same hour will appear the picture and name of baby winning \$10 gold prize for being the most perfect baby in the country. Also baby winning second prize, a beautiful crepe de chine carriage robe.

Sweetwater Dry Goods Co.
LADIES AND MEN'S WEAR
THE STORE AHEAD

Lots Free
Lots Cheap
Bradford Addition

We have secured the selling of a portion of the lots in the Bradford addition and are offering you your choice of corner lots at \$125.00 and inside lots at \$100.00 each on terms of half cash, one fourth January 1, 1924 and one fourth January 1, 1925, with six per cent interest on deferred payments.

Where we have all the lots in any block, we will give a corner lot to the person building a neat five room painted bungalow or an inside lot to one building a neat painted four room bungalow.

With the spending of more than a million dollars on this side of the city by the United States Gypsum Co. we consider this the best buy in Sweetwater as there will be a big demand for houses on this side of town.

These lots are just west, adjoining and overlook the site offered for the Texas Technological College and the location of the college here should double and treble the value of the lots in this addition.

The lots are offered under their present value, on easy terms and we expect to move them quickly.

Better see us at once and pick your lots. They won't last long at these prices. There is no chance to stage anything but a winning.

Now is the time, while opportunity knocks, to make a start toward that home you expect to own.

Prices on these lots will be changed when the "Tech" is located here.

WOOLEN MILLS.

From San Antonio Express.
Sheep and Goat Raisers held a successful business meeting at Del Rio and voted unanimously to meet in 1924 at San Angelo. Both these flourishing municipalities are embraced in that magic term "San Antonio territory." Texas-grown wool and mohair have opened the eyes and the ears of the textile world, and have claimed the fancies of the good dressers everywhere. The average Bostonian may talk of Harvard, but chances are his thoughts are on the weaver that New England mills make of the raw materials that come from ranches in Southwest Texas. One of these days, and it is hurrying on willing feet, Texas will have her own textile mills and the finished products will do for Texas banks what they have done for those of New England. There ought to be mills enough to go around. But there can be no better place for such factories than San Antonio, capital of the sheep and goat belt and GHQ for all this section. Leaping gas and rushing oil are hastening the hour when the gleam of whirling spindles and the light of furnace fires will flash in the star-lit skies of Southwest Texas like the radiance of the aurora in the North Country.

HOUSEHOLD HINTS.

Wall Marks.
Those marks on the wall made by careless people who scratch matches there may be removed by rubbing with a piece of lemon.

Discolored Water.
If your drinking water seems discolored or dirty looking, tie a thick square of absorbent cotton over the

mouth of the faucet. This will clear it nicely. Of course, the cotton must be changed daily.

Scaling Fish.
When cleaning fish, pour boiling water over the fish until the scales curl. Then they can be scraped off very easily.

Left-Over Potatoes.
To iron your tablecloth to best advantage fold it wrong side out with selvages together and corners open. Then iron both halves of the wrong side.

Browned Beef.
Put a little sugar to the liquor in which you baste the roast beef if you want it to get rich and brown in color.

Turn Mattress.
Turn your mattress frequently, from end to end and side to side.

Then it will wear evenly and be more comfortable.

Wall Paper.
To remove wall paper from the wall use a heaping tablespoon of saltpeter to each gallon of hot water and apply this mixture with a brush.

Salty Soup.
When the soup is too salty add a few slices of raw potato and remove after they have boiled a few minutes. They will absorb some of the salt.

KILLING KITTENS.

By The United Press.
EL PASO, July 26.—Police men are chicken-hearted—sometimes.
Patrolmen Griffia and McClellan "arrested" three cats on the complaint of persons who were annoyed by the midnight serenades. The officers were asked to kill the kittens.
But no one at headquarters had the heart to shoot the "prisoners" and they now have the run of the jail kitchen.

NOTICE TO CONTRACTORS.

Bids will be received at the City Hall August 2nd, 1923, not later than 2 o'clock p. m. for the laying and furnishing of about 3,000 feet of six-inch Cast Iron Class "B" Water Main, pipe to be laid from Halley street east on North Second street to the city's corporation line. The City will open ditch and cover same, \$250 certified check required. The City reserves the right to reject any or all bids, usual reservations reserved.

CITY OF SWEETWATER.
By W. H. Bartlett,
City Secretary.

AN ORDINANCE.

A motion was made by Joe H. Boothe, Mayor, and seconded by W. F. Trammell, Commissioner No. 2, that paragraph No. two (2) of Section three (3) of "an ordinance pertaining to electric wiring and electric apparatus" adopted and approved by the City Council of Sweetwater, August 16th, 1916, be amended so that paragraph No. 2 (2) of Section three (3) thereof shall read as follows:

The City electrician may inspect or cause to be inspected any old wiring or electrical apparatus in any building within the corporate limits of the City of Sweetwater, and shall thereupon issue a certificate, if the work is in accordance with the provisions of this ordinance. In case the work does not comply with this ordinance, the city electrician shall issue a written statement as to the changes necessary to bring the work up to standard.

Under no consideration shall a certificate be issued on work that is concealed in such manner that it cannot be examined.

The motion was declared to have carried, Mayor Joe H. Boothe voting aye, Commissioner W. F. Trammell

voting aye and Commissioner L. E. Musgrove voting aye.
Passed the 22nd day of July, A. D. 1923. Approved the 25th day of July, A. D. 1923.

JOE H. BOOTHE,
Mayor.

AN ORDINANCE.

AN ORDINANCE ORDERING AN ELECTION IN THE CITY OF SWEETWATER FOR THE PURPOSE OF DETERMINING WHETHER OR NOT THE CITY OF SWEETWATER, TEXAS, SHALL BE AUTHORIZED TO ISSUE BONDS OF SAID CITY IN THE SUM OF THIRTY-FIVE THOUSAND DOLLARS, FOR THE PURPOSE OF THE CONSTRUCTION AND INSTALLATION OF A FILTRATION PLANT TO BE USED IN CONNECTION WITH SAID CITY'S WATER SYSTEM, AND WHETHER OR NOT SAID CITY SHALL BE AUTHORIZED TO LEVY A TAX OF TEN CENTS ON THE HUNDRED DOLLARS' VALUATION OF PROPERTY IN SAID CITY FOR THE PURPOSE OF PAYING THE INTEREST ON SAID BONDS, AND CREATING A FUND FOR THE REDEMPTION OF SAID BONDS AT THEIR MATURITY.

On this 22nd day of June, 1923, the City Commission of the City of Sweetwater, Texas, being in regular session, and all the members thereof being present, and there coming before the said Commission for its consideration the question whether or not an election shall be ordered by said Commission to determine whether or not it is the desire of the property tax paying voters of said city to issue the coupon bonds of said City for the purpose of the construction and installation of a filtration plant to be used in connection with said city's water system, and whether or not said city shall be authorized to levy a tax of ten cents on the One Hundred Dollars' valuation of property in said City for the purpose of paying the interest on said bonds and creating a sinking fund for the redemption of said bonds at their maturity.

THEREFORE, BE IT ORDAINED BY THE CITY COMMISSION OF THE CITY OF SWEETWATER, TEXAS, that an election be held on the

5th day of August, 1923, said date being not less than thirty days from the date of final passage of this ordinance, at which election the following proposition shall be submitted to the qualified property tax paying voters of said City, to-wit:

Shall the City Commission of the City of Sweetwater, Texas, be authorized to issue the bonds of said City in the sum of Thirty-Five Thousand Dollars, payable in forty years from their date with such options of redemption as the said City Commission may designate in said bonds, said bonds to bear interest at the rate of five per cent per annum, payable semi-annually, and also whether or not said City Commission shall be authorized to levy a tax of ten cents on the one hundred dollars' valuation of property in said city, or so much thereof as may be necessary to pay the interest on said bonds and creating a sinking fund sufficient to redeem said bonds at their maturity; said bonds to be issued for the purpose of the construction and installation of a filtration plant to be used in connection with the water system of said City of Sweetwater.

Said election shall be held at the City Hall in said City of Sweetwater, and the following named persons are hereby appointed managers of said election, to-wit: L. S. Polk, Presiding Judge, T. E. Crutcher, Judge, and T. L. Hughes and Gerald Fitzgerald, Clerks. Only qualified property tax paying voters shall be allowed to vote in said election, and all voters desiring to support the proposition to issue said bonds and levy a tax as here provided, shall have written or printed on their ballots the words "For the issuance of bonds in the sum of Thirty-Five Thousand Dollars for the construction and installation of a filtration plant to be used in connection with the water system of the City of Sweetwater, Texas, and the levying of a tax of ten cents on the one Hundred Dollars' valuation of property in the said City of Sweetwater, or so much thereof as may be necessary to provide for paying the interest thereon and creating a sinking fund for the redemption of said bonds at their ma-

turity."
Those opposed, shall have written or printed on their ballots the words: "Against the issuance of bonds in the sum of Thirty-Five Thousand Dollars for the construction and installation of a filtration plant to be used in connection with the water system of the City by posting notices thereof at the place of Sweetwater, Texas, and the levying of a tax of ten cents on the One Hundred Dollars' valuation of property in the said City of Sweetwater, or so much thereof as may be necessary to provide for paying the interest thereon and creating a sinking fund for the redemption of said bonds at their maturity."

The manner of holding said election shall be governed by the General laws of the State of Texas and the Charter of said city of Sweetwater. The Mayor of the City of Sweetwater shall issue his call for said election

of holding said election at least thirty days prior to the date of said election, and by publication of such notice in some newspaper published in the City of Sweetwater, for at least twenty days prior to the date of such election. A copy of this ordinance signed by the Mayor shall serve as proper notice of said election.

Approved, June 22nd, 1923.
JOE H. BOOTHE,
Mayor.

Advertising And Its Effect

There are two varieties of advertising. One which carries a personal touch with convincing and sincere copy and the other that states you have for sale everything from "Soup to Nuts."

Result-getting display is no mysticism. It is plain straight-forward copy with your own personality written into it.

Not only does live advertising get you results, but it tends to discourage competition from outside sources. The merchant who is putting his stock before the buying public in an interesting manner, attracts the attention of local trade and at the same time is giving a warning to the out-of-town competition that he is awake and is selling the public his merchandise.

One merchant in Sweetwater used an advertisement in The Reporter announcing that he had a genuine bargain for the public. The cost of the "ad" was only a small item of expense when you take into consideration that he turned his stock, thus paying for the display several times over.

MAY EXTEND OPPORTUNITY.

Cattlemen of Mexico May Purchase Prize Stock At State Fair.

By The United Press. FORT WORTH, July 26.—Progressive cattlemen of Mexico will have an opportunity to purchase the prize winning live stock from the State Fair of Texas this year, if plans now being made are carried to completion.

The tentative plan now is to take the cattle on a special train similar to the one operated following the 1921 fair for exhibition throughout the Southern Republic.

J. E. Boog-Scott, chairman of the livestock sanitary commission of Texas has conferred with representatives of the Mexican National Railroad and with agricultural agents of Texas roads regarding the proposed train.

C. M. Evans of the extension department of the Texas Agricultural and Mechanical college has been assisting in mapping out plans for the proposed train.

HIGHWAYS CONTINUED.

(Continued From Front Page.)

Amendment had been adopted the Legislature could levy a gasoline tax, exclusively for road building purposes. Under our present constitution one fourth of the gasoline tax, which was primarily intended as a road tax to be paid by the consumer, must go to the school funds. Many of the strongest friends of education believe it is unjust to tax the automobile owner in this special manner for educational purposes. They believe that the gasoline tax is a just and equitable road tax, and that it should be used for this purpose exclusively. Under our present Constitution even the three fourths of the funds realized from the gasoline tax have to be appropriated every two years by the Legislature for road construction. The amendment

would have made it possible to make it a settled policy of the State for the money raised by this tax to go to the road funds.

It is a regrettable fact that the proposed Amendment was not published in proper time, but it is possible that the failure to publish the Amendment at this time will eventually result in good. Unfortunately, in the rush of the closing hours of the 38th Legislature, the proposed Amendment was not worded as carefully as it should have been, and we feel that the next regular session of the Legislature will submit to the people an Amendment carefully drawn and unambiguous in its terms.

Future Road Building Policy.

An essential factor in successfully carrying out any road building program is that of forming a definite program extended over a period of years and the burden of financing this pro-

gram be placed equitably upon the shoulders of those who benefit by good roads. The next most essential factor is that those funds be placed in, and the duty of supervision imposed upon the proper agency. We wish to impress upon the public that if we do not want to see millions of dollars in the shape of Federal Aid lost to the state in the future, and if we ever expect to see a connected state system of roads, radical changes in our methods of road construction must be
