FARMERS PROFIT BY ORGANIZATION

Brought Its Members \$25 More Per Bale In 1922.

Membership Drive Now Being Conducted-Cotton Sold Through Bureau Will Be Greater This Year

A cool \$150,000 gained for the county farmers last year, or \$242,000 lost, which ever way one wants to look at it, is the effect of the Farm Bureau M. E. Kyle home, for a visit. Cotton Association on the income of the county last year.

And here is the why of it: Farmers of the county produced 15,-000 bales of cotton in 1922, or 15,689 to be exact. Of this amount, 6,000 bales were shipped via. the Farm Bureau Cotton Association. In 1922, Farm Bureau members received \$25 a bale, on an average, more than the man who sold his cotton on the streets.

Six thousand bales at \$25 the bale looks like \$150,000 when it is multiplied out.

And 9,000 bales, multiplied by the \$25 which the men who sold it did ing. Sweetwater citizens made up a not get, looks like \$242,225 when it is premium for the Nolan County farmer multiplied out. This is the sum of producing and selling the first bale of money that would have come into the cotton of the season. pockets of the farmers of Nolan County, and which would have been spent year to W.
