a fraction over 1.04 inches was recorded by the Sweetwater Vulcanizing Company. The rain early Sunday morning was .60 followed by .37 Sun- ident; Eunice Adan, San Antonio, day night and early Monday, and a fraction over .07 Monday morning Eagle Lake, third vice president; C. when a real storm appeared imminent M. Bartholomew, Austin, treasurer; for a few minutes.

ches of rain fell in Sweetwater dur- cil. ing May. With the shower Monday morning, the total for the year was brought to 9.96 inches.

Rain in the surrounding territory Sunday night was light, according to reports from the railroads and the Southwestern Bell Telephone Company. Light rains were reported by Three Inches of Rain and Hail Storm the Texas and Pacific at Loraine, Roscoe and Big Spring, with a good rain all the way to Monehans Saturday night.

The telephone company reported only light rains Sunday in the Sweet- Pecan and Fruit Trees water trade territory. The telephone line to Lubbock was out Monday morning. The report of a storm near Amarillo could not be confirmed by the telephone company.

Hail which fell here Sunday night was not heavy enough to do any damage. No reports of damage by hail near Sweetwater were received.

La Follette Asks Month Recess-Party Lines Split in House Ad-

journment Vote.

By The United Press.

PLAN

WASHINGTON, D. C., June 2. -The House voted 221 to 157 today to adjourn at seven p. m. Saturday, June 7. The resolution approving adjournment now goes to the Senate, where Republican Progressives are seeking a compromise for a month's recess to return after the conventions and clean up progressive legislation that has not been disposed of at that Time.

Senator La Follette may introduce resolution providing for a compronise for the measure passed by the Railroad and City May Get Together House. His suggested compromise, however, received little support, from party leaders. Special to The Reporter.

Senator Lodge said that he was LUBBOCK, Texas, June 2.-It is 'unalterably" in favor of adjourn- believed that the proposition submitment Saturday. And Continuing This Week.

Refreshments Will Re Served.

This demonstration is being conducted by Miss Fannie Mersam and Mrs. M. Q. Hattom. noted Home Economists with the Raison Electric Appliance Co., Chicago, assisted by Mr. and Mrs. Gand of the West Texas Albertric Co.

The purpose of this demonstration is to show improved electric conking, and the many converiences and economies possible with the Hughes Range.

The many present owners of electric ranges in this city are also cordially invited to attend any or all of these demonstrations and ask any awestions they may wish regarding operation.

Remember that the Meetric littleen is the ideal katchen and Hughes Ranges the ideal nethod of conking.

Place come in tomorrow. We are expecting Now No obligation, of course.

LADIES! DARKEN YOUR GRAY HAIR

Use Grandma's Sage Tea and Sulphur Recipe and Nobody Will Know

The use of Sage and Sulphur for restoring faded, gray hair to its natural color dates back to grandmother's time. She used it to keep her hair beautifully dark, glossy and attractive. Whenever her hair took on that dull, faded or streaked appearance, this simple mixture was applied with wonderful ef-

placed at convenient places around But brewing at home is mussy and out-of-date. Nowadays, by asking at any drug store for a bottle of "Wyeth's Sage and Sulphur Compound," you will get this famous old preparation, improved by the addition of other ingre-dients, which can be depended upon to restore natural color and beauty to the

Well-known druggists say it darkens the hair so naturally and evenly that nobody can tell it has been applied. You simply dampen a sponge or soft brush with it and draw this through your hair, taking one strand at a time By morning the gray hair disappears, and after another application or two, it becomes beautifully dark and glossy.

Goif Charts Teach Strokes and Standing Positions

To check the game of experienced o'fers or to teach beginners, a set of six harts, printed with directions and illus-

trations showing correct standing positions, grips and strokes, and other fine points, has been devised. With them, one may read a lesson in golf technique and follow it at the same time. Printed an heavy paper, the charts are to be placed on the floor. Standing over them with club in hand, the player is able to get the proper grip and position and execute the stroke in correct form. The diagrams afford a constant check and means of comparison for accuracy in every detail.

New Theory of Radio Is Advanced

In the opinion of Carl Pfanstiehl, a Chicago radio engineer, the wave theory of radio will soon be exploded completely, and the radiant-energy theory take its place in explaining radio phenomena. Mr. Pfanstiehl is of the opinion that there is no such thing as "ether" as stems or pull them out entirely. commonly referred to. He says that what are usually spoken of as radio waves are undoubtedly particles smaller than an States is said to be artificial.

electron that are sent flying by an electric current. These particles, it is assumed, bump into each other, thus trans-mitting energy which is picked up as sound in the receiver. When a stream of radiant energy or particles strikes the antenna, it sets up a very weak current. which is transformed into sound or air

waves in the receiving set. The development of this theory, says Mr. Pfanstiehl, has been very rapid and wail. Two large screweyes fastence as startling, and further investigation of the nature of these particles may explain the mechanism of direct communication and telepathy between minds. Also, through the new principle, wireless transmission of vision may become an accomplished fact.

Patching Auto Tops

When patching auto tops it is a good plan to place a board across the top bows inder the covering to provide a firm surface on which to work. After the patch is applied a weight should be placed on it and left until the cement is dry, so that the patch will not curl up at the edges.
