Recommends Harding-Hughes World Court Plan-Raps Over Riding of Veto.

By Associated Press.

CLEVELAND, O., June 10 .- The tional convention to rally about the leadership of Calvin Coolidge.

He regretted that Congress refused to accede to Mr. Coolidge's wishes in enacting the Japanese Exclusion Provision of the Immigration bill. He declared the new tax law abounded in defects and should not be taken as the last word in tax revision. He dismissed el actment of the bonus bill over the Tresment's and with the assertion that "conditions created by it must be met and its provisions must be willingly accepted."

Enumerating the achievements of four years, he paid high tribute to the memory of President Harding, deliberation and planning. told of the accomplishments under his leadership, and pronounced this bene-

Turning to the future, the convention chairman declared economy in public expenditures and reduction of taxes to be of the utmost importance and that "an active campaign of education must be conducted similar to that in the free-silver contest of 1896." Such a campaign, he added, should endeavor to dispel the "persistent fallacies "that the final burden of public levies rests upon those who first make payments to the tax collector and that excessive sur-taxes are desirable and result in greater reve-

As the delegates filed out of the big hall, there was nothing in doubt except the nomination of the vice president to make the race with Presdent Coolidge. Frank O. Special to The Reporter. SAN ANGELO, Texas, June 10 .-The latest producer in the Reagan County oil field, Big Lake Company's well number eight, flowed 115 barrels in 12 hours Sunday.

This showing from 26 feet of sand is the best in a similar period of time made by any of the Reagan County producers, and as a result, the other wells will probably be deepened.

FEW FOLKS HAVE **GRAY HAIR NOW**

Druggist Says Ladies Are Using Recipe of Sage Tea and Sulphur

Hair that loses its color and lustre or when it fades, turns gray, dull and lifeless, is caused by a lack of sulphur in the hair. Our grandmother made up a mixture of Sage Tea and Sulphur to keep her locks dark and beautiful, and thousands of women and men who value that even color, that beautiful dark shade of hair which is so at-tractive, use only this old-time recipe.

Nowadays we get this famous mix-ture improved by the addition of other ingredients by asking at any drug store for a bottle of "Wyeth's Sage and Sul-phur Compound," which darkens the hair so naturally, so evenly, that no-body can possibly tell it has been applied. You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time. By morning the gray hair disappears; but what delights the ladies with Wyeth's Sage and Sulphur Compound is that, besides beautifully darkening the hair after a few applications, it also brings back the gloss and lustre and gives it an appearance of

Declaring "our foreign relations are assuming an importance never before known," Mr. Burton declared members of the Republican party were "by no means lacking in interest in what the most friendly way with less for- ed to be present. tunate nations.

"We have refused to join the League of Nations, and this is in full ac- 112t1dc cord with the wishes of the vast majority of the American people, I bemembership is not for us."

No fear should be felt, that entrance in the world court with the Harding-Hughes reservations would involve the United States in the League, he said.

Illustrative of the willingness of the United States' to aid and associate with other nations, the chairman declared that America stood ready to take the lead in another arms limitation conference whenever the occassion appeared suitable and that in the European reparations tangle "whenever the various nations can agree, whenever they are willing to look to the future rather than to the past, America's aid will be given without stint and our boundless resources will be available in the way for their rehabilitation and development."

Turning to the recent Congressional investigation, Mr. Burton said he Texas. "must enter a solemn protest against the impression that there is widespread corruption in the government at Washington" although "there have been exposed to the scorn of the country instances of bribery and dishonesty on the part of public officials, and of cupidity and over-reaching on the part of those who are ready to use their opportunity to debauch those in office."

"The vast majority of public officials, from the highest in the land to the humblest clerk in any department, are working honestly and faithfully for the public good," he added. "It is time to call a halt upon indiscriminate scandal-mongering, which is largely designed to insult the intelligence and undermine the patriotism of the American people."
