VOL. IV

THE SWEETWATER DAILY REPORTER, SWEETWATER, TEXAS, FRIDAY, JUNE 20, 1924.

NUMBER 121

## POULTRY EXPERT GIVES ADDRESS

Walter Burton Speaks to Nolan County Poultry Association and Guests at City Lake.

**COMMENDS HATCHERY**  
Says Is Step Forward in Development of Industry—Advises Liberal Use Printer's Ink.

The possibilities of chicken, both in a material way as barbecued and from the financial standpoint as an industry to be developed, occupied the place of honor at a picnic supper at the City Lake Thursday night, followed by an address by Walter Burton of Arlington. The affair was sponsored by the Nolan County Poultry Breeders' Association and members of the Board of City Development were the guests of the poultrymen.

Mr. Burton is from Arlington. He is a breeder of White Wyandottes and Texas representative for the "OK" Poultry Journal. His remarks were based on 26 years of personal experience in poultry raising and selling. Earlier in the afternoon, he had shown on the screen at the Queen Theater, a movie of the largest poultry farm in the world—that of Johnson at Bowie, also big duck farms.

Following his introduction by R. M. Chitwood, Mr. Burton went into the problems of poultry raising and marketing in considerable detail. He spoke in part:

"There is money in poultry, good money, and I am glad to see that you folks here have already so well developed the industry. I am especially glad to see that you have established a hatchery in your midst. That is a big step in the right direction.

"When you get into the poultry business, don't get too deep—don't put more money into it than you can get out. But don't be afraid of putting up good, substantial buildings. Not too good, but ones that will take care of the chickens."

Here Mr. Burton gave some excellent advice on raising young chickens, especially advising use of clabber as feed for young chicks. Diseases and how to control them were also touched upon.

Whether raising chickens for breeding or for quantity production of eggs and fryers, Mr. Burton emphasized the vital necessity of advertising. He pointed out that all big successes in the commercial world were due to advertising and advised that all poultrymen use printer's ink in very liberal quantities.

At the close of his address, he answered numerous questions from his audience.

## ORDER RANGERS OUT

To Preserve Order in State at Democratic Primary.

**By The United Press.**  
AUSTIN, Texas, June 20.—Rangers will be used to keep order in at least one section of the State on July 26, the date of the Democratic primary election, it was learned here today.

Orders have been issued for the Rangers to be at Corpus Christi, and they will probably be sent to other parts of Texas.

The decision to use the Rangers is believed to have been reached following a conference between Governor Neff and Adjutant General Barton, just prior to the Governor's departure for the Democratic national convention in New York.

## MUST PAY

County Chairman Hord Advises of Closing Date For Payments.

All candidates must pay their assessments before the Ballot Committee meets on Monday 2:30, advises H. C. Hord, chairman of the Democratic County Executive Committee. Penalty for nonpayment is to have the name of the delinquent candidate dropped from the list, with other candidates for the same office called on for the full assessment against the office. Saturday is the last day.

Mrs. Roberts of Fort Worth who has been visiting her sister Mrs. W. O. Miller, returned home Thursday night.

## NEW OIL STATION

Texhoma Co., Builds on Flour Mill Site.

Carpenters are at work on the site of the old Sweetwater Flour Mill Co., which burned down a year ago and are building office and tanks for the Texhoma Oil Co., who will open up a station here. The concrete foundation of the old mill is being used as a foundation for the office of the oil company and oil tanks will be erected at the rear of the building. The office is located on North Elm street by the Santa Fe tracks. Brack Mitchell of Blackwell is in charge of the work.

## CANADIAN STRIKE HITS BIG CITIES

Postal Service in Toronto, Montreal Impaired—Ocean Mail Ports Reported Open.

**QUEBEC EMPLOYEES LOYAL**  
Few Rail Service Men Out There—Delay Over Entire Dominion Not Yet Serious.

**By The United Press.**  
MONTREAL, Ont., June 20.—The Dominion-wide postal strike seems to have gained its greatest strength in the provinces of Ontario and Quebec, the two largest cities, Toronto and Montreal, being hardest hit.

Reports from a western province indicate that the men resigned at their posts of duty. At Nova Scotia and St. Johns, important ocean mail ports, it was reported that the workers were loyal to the government, and that there was no tie-up.

In Montreal, an important rail center, the employees walked out, but returned after a few hours, and the question of the mails was cleared before midnight last night.

The city employees at Quebec are at work, although several men in the railway mail service went out. No serious delay was reported.

## POSTAL ROBBER KNOWN IN TEXAS

Willis A. Newton, Held in Chicago on Charges Robbing Mail Train, Once Held in Sweetwater.

**BLEW SAFE HERE YEARS AGO**

Arrested Implication Robbery Sweetwater Postoffice—Escaped Ballinger Jail.

Possibility that the Willis A. Newton mentioned in connection with the recent large mail robbery near Chicago was the same man arrested in Snyder some years ago on a charge of blowing the safe in the Sweetwater postoffice has been investigated by local authorities, who have communicated with Chicago officials.

The Willis A. Newton charged with the postoffice robbery in Sweetwater was not indicted by the Nolan County Grand Jury. He was subsequently charged with complicity in a bank robbery at Marble Falls and another at Winters. In the last episode a member of the band was killed. Arrested, Newton broke out of the Ballinger jail and that is the last that has been heard of him in this section.

A man named Oliver Wells arrested in connection with the postal robbery, is at the present time serving a twelve-year term in the penitentiary.

## KLAN ISSUE UP

Democrats in N. Y. Fear Agitation May React Against Certain Candidates.

**By The United Press.**  
NEW YORK, June 20.—The religious issue which for some weeks has been simmering under the pressure of Democratic pre-convention politics has now been cast up.

Leaders who have joined in the agitation of the Klan question are distressed lest it defeat its own end, it is said; and react unfavorably on certain candidates, creating a difficulty for the party.

## PICNIC FUND IS RAISED FRIDAY

Legion Committees to Continue Canvass Saturday For Subscriptions To Finance Celebration

**TO BUILD DIVING TOWER**  
Entries in Water Events May Splash Their Stuff—Base Ball Games Lined Up.

Three committees of the local American Legion Post canvassed the town Friday for donations to finance the American Legion picnic and rodeo to be held here July 4th, and the work will continue Saturday, according to R. D. Cox of the Finance committee.

Committees from the Sweetwater Luncheon Club co-operated in this work and so far the campaign has been very successful, it is reported. The committees are meeting with generous response, the business people of the town seeing to realize the necessity for putting on an entertainment for the local people and for the Sweetwater trade territory. A complete list of the funds obtained and the contributors will be available Saturday.

A baseball game between Law and Hermelegh has practically been assured for the celebration, and arrangements are being made to match Rotan with some team in this section for another game here.

R. D. Cox and "Skinney" Pace went to Roby Friday where they will arrange for a rodeo, ball teams and other attractions to come here for the big event.

Permanent improvements are being made at the City Park, which is to be the scene of the celebration, and the Legion has arranged through the Board of City Development to build a high diving platform in the lake to be used in connection with the water contests and stunts.

## Weather.

Saturday unsettled. Showers in Southeast. Partly cloudy.

## WOMEN MEET SATURDAY

B. C. D. and County Fair Sessions Scheduled.

The Ladies Auxiliary of the Board of City Development will meet Saturday afternoon at 4 o'clock at the auditorium in the county court house. Every member of this organization is urged to attend the meeting.

At 2:30 p. m. Saturday, the Women's Department of the Nolan county Fair Committee will meet at the court house where important business will be discussed.

## AWAIT RECOVERY

R. I. Senate Will Reconvene When G. O. P. Members Recover From Yesterday's Gas Attack.

**By The United Press.**  
PROVIDENCE, R. I. June 20.—Determined to continue their filibuster in the State Senate which has now gone 42 hours, the Democratic members today awaited the recovery of four Republicans from the gas attack of yesterday, to resume proceedings.

The Senate was to reconvene at 1 p. m., having recessed last night. One Republican member remained on guard in the chamber to raise a protest of no quorum in the event the Democrats attempted to transact business. All the Republican members are technically under arrest and supposedly under guard in their hotel rooms, to insure their presence at the opening session.

## FORGOT ABOUT ELECTION

**By The United Press.**  
WASHINGTON, D. C., June 20.—The municipal election of Grimesland, population 200, will be late this year. When the election date rolled around it was discovered that the authorities had forgotten all about it. There were no candidates.

Mrs. U. B. Newmon and children of Abilene are spending the week-end with Mr. Newmon. Richard Butts came home with Mrs. Newmon, and Arthur Comper came to Sweetwater to spend the week-end with Richard Newmon.

## ANTI JAP SPIRIT REACHES CLIMAX

Jap Taken From Home, Threatened With Tar and Feathers in Los Angeles District.

**ENTIRE SECTION POSTED**  
Signs Warn Orientals to Leave—Rush Here Reported to Beat Exclusion Law.

**By The United Press.**  
LOS ANGELES, Calif., June 20.—Anti-Japanese feeling came to a head here last night when a Japanese automobile salesman in the Belvidere residential section was dragged from his home and threatened with tar and feathers.

The arrival of squads of deputy sheriffs prevented the raiders from carrying out their plans, according to a report made to the sheriff's office today.

W. Kawamoto, leader among the Japanese, was the intended victim. Ten women and six men were in the crowd that dragged him out of his house, and planned to exercise their order that he leave the community with a coat of tar and feathers.

The attack climaxed a series of efforts of white residents in the Belvidere section to force the few Japanese residing there to leave town. Signs warning the orientals to leave the district have been posted at various points.

**Oriental Rushing to America.**  
**By The United Press.**

TOKIO, Japan, June 20.—Japanese rushing to the United States in an effort to enter the country before the American exclusion law goes into effect total 4,601, according to figures sent here from Asaki, from which port the majority sailed.

Of this number, 782 are members of families who have formerly lived in the United States, or are there now. The immigrants are now on ships on the Pacific, some bound for Seattle, and the remainder for San Francisco.

## McKISSICK TO RETURN

Will Be in Charge Regular Services Christian Church.

Rev. J. T. McKissick is expected to return Saturday from Kentucky where he took charge of the dedication of a new church. Services are announced as usual at the Christian Church Sunday, with Sunday School at 9:45, and preaching at 11 and 8 o'clock. Rev. McKissick especially wants to meet the members of the men's class Sunday morning.

## NEW PARTY OUT

With Communists in Control, Campaign Over Entire Nation is Planned.

**ST. PAUL, Minn., June 20.—**The most extensive political campaign ever undertaken by "forward looking groups" is to be launched by the national committee of the new Farmer-Labor party, with the Communists in control.

Speakers will tour the country, state conventions will mould sentiment in favor of the party, and funds for "the education of the masses" will be appropriated, it has been decided.

The decision was the outgrowth of the three day "third party" convention here in which the Communists wrote the platform, chose the candidates, and controlled every detail to such an extent that two score Farmer delegates withdrew from the meeting.

## MRS. BELL DIES

Resident Moody Community Funeral at Palava Saturday.

The funeral of Mrs. V. P. Bell of the Moody community will be held Saturday afternoon at Palava following death at the family home Thursday night.

Mrs. Bell was 31 years of age and is survived by husband and family. She is a daughter of Grandma Hamilton, pioneer resident of this section.

## CISCO PAPERS MERGE

Daily News, Weekly American Same Management.

The Cisco Daily News, and the Cisco American, weekly, have recently been merged and will henceforth be published under the same management, according to an announcement in the News recently. The news will continue to publish daily, except Thursday, when the American will appear.

J. S. Huey is president of the consolidated enterprises, and A. B. O'Fleaharty is editor and general manager.

## DALLAS BANKER ENDS HIS LIFE

J. B. Adoue, Head of National Bank of Commerce, Shoots Self at His Home Today.

**SUFFERED RECENT STROKE**

**Fearful Mind Would Be Affected, Family Says—Did Not Know He Had Weapon.**

**By The United Press.**  
DALLAS, Texas, June 20.—J. B. Adoue, 77, president of the National Bank of Commerce, and one of the most prominent capitalists in Texas, shot and killed himself in the bathroom of his home here today.

Adoue suffered a stroke of apoplexy about three weeks ago, which resulted in a temporary paralysis. Members of his family said that he was laboring under the fear that his mind would be affected.

He had partially recovered from the stroke, but was very despondent. Shortly after breakfast, the aged banker went to the bathroom, closed the door, and fired one shot from a pistol. He died instantly.

Members of the family did not know that he had a weapon, it was said. He is survived by his widow, one son, J. B. Adoue, Jr., and two daughters.

## HEAT WAVE OVER ENTIRE MIDWEST

Several Deaths, Many Prostrations in Wake of High Temperature Past 24 Hours.

**THREE DIE IN CHICAGO**

Ohio Reports Six Victims—Missouri Temperatures Range From 92 to 110, Indiana 105.

**By The United Press.**  
CHICAGO, Ill., June 20.—Several deaths and numerous prostrations followed in the wake of a terrific heat wave which swept the middle west during the past 24 hours. Thunder storms early today cooled off some of the affected territory.

Three deaths here were charged to the heat. The thermometer leaped 30 degrees in 12 hours, registering a high of 94. Police were forced to shoot 17 heat crazed dogs.

Ohio reported six deaths. Temperatures there reached a maximum of 92. Two were reported dead in Iowa. Missouri reported temperatures ranging from 92 to 110.

In Indiana the thermometer reached a high of 105. The East reported one dead, a flagman who succumbed to the heat at Niagara Falls.

Storms swept Iowa today. The weather bureau here forecast rain and generally unsettled weather for the Middlewest tomorrow.

## KILLED IN WRECK

Fireman on Passenger Train Dead After Express Crashes Into Freight Train.

**By The United Press.**  
ST. ALBANS, Vt., June 20.—One man was killed and two were injured when the New York-Montreal express of the Central Vermont Railway crashed into a freight train ten miles south of here today.

The man killed was the fireman on the passenger train.

## RESTRICT SALES JAMAICA GINGER

City Commission Passes Ordinance Requiring Physicians Prescription Before Purchase.

**ASK WATER EXTENSIONS**

South Side Residents Want Main From Lamar West on Arkansas—Fire Menace Is Told.

Restrictions on the sale of Jamaica ginger, better known as "jake," were voted by the City Commission at the regular meeting Thursday. Continuance of the arrangement with the Board of City Development for the employment of Harry Le Maire as bandmaster, and listening to a petition from South Side property owners relative to the extension of water mains in that section were the other principal features of the session.

The "jake" ordinance, which passed first reading, provides that all dealers who sell tincture or extract of ginger must register their names and place of business with the city secretary. The sale is permitted only on prescription by a licensed physician. The dealer must retain these prescriptions, together with the name and addresses of all persons to whom it is sold, which will be open to inspection at all times. A penalty not exceeding \$200 for each offense is provided.

The ordinance is based upon a similar one in effect in Mineral Wells, where it has been claimed to be very effective in ridding that city of the use of "jake" as an intoxicating beverage.

The contract with Harry Le Maire, band master, was continued up to April 1, 1925, the expiration of the term of the present city commission. Half of his salary of \$100 per month is borne by the city and half by the Board of City Development.

The petition for water main extensions on the south side was presented by Dan G. Shields, J. L. Stracener and Mack Long, who were among the signers. The extension asked for was some six blocks west on Arkansas Street from Lamar. High insurance rates, fire menace, inadequate water supply preventing much building and the danger to the South Ward School building by its distance from a main were among the arguments presented to the City Commission.

During the discussion which followed, it was brought out that the cost of the proposed extension would be in the neighborhood of \$2,600 and that recent water and sewer extensions on Crane and in Bradford Addition had exhausted waterworks funds available for extensions. The heavy building program of the city has caused increased demand for extensions.

The request of the South Siders was temporarily tabled while the City Commission endeavors to work out the financial aspects of the case.

Complaints relative to the condition of the South Side dumpground as well as the main dumpground on the Roby road were discussed but no action taken. It was pointed out that the South Side dump grounds were for the burning of paper only whereas tin cans and other rubbish had been dumped there contrary to city ordinance.

Twenty couples enjoyed a picnic at Lake Trammell Thursday night given in honor of Miss Lucile Meadow, who is visiting Miss Lorena Kelsey. The party was chaperoned by Mr. and Mrs. L. A. Ritter.

## RESULTS WERE QUICK

"For goodness sake, please take my advertisement out of the paper. Folks are about to run me and Edwards (next door) crazy," Mrs. George Sparks told the Reporter. She advertised a house for rent and got quick results and plenty of them.

John Taber, Santa Fe Section foreman, has a cow that he wants to sell. "Run the ad three days for me. I have tried many ads in The Reporter and have never failed to get results in that length of time," he said. Try one some time and see what they will do for you.

**FLAG RULES TO BE TAUGHT IN SCHOOLS**

Dr. M. W. SHERWOOD  
As a result of a campaign waged by Dr. M. W. Sherwood of Temple, State Commander of the American Legion, the State Textbook Commission has authorized the teaching of "Flag Etiquette" in the public schools. The standard flag rules are to be made a part of the civics textbooks.

**FLAG ETIQUETTE**

Due to the efforts of the Department of Texas of the American Legion, and chiefly to the activity of the State Commander, Dr. W. M. Sherwood of Temple, standard flag rules are to be taught in the public schools of Texas as part of the course in civics.

Dr. Sherwood recently appeared before Governor Neff and the members of the text book commission, making his plea for instruction in the proper flag etiquette among the school children of the state. As the result of his efforts within another year or so the proud parent who takes his family to a patriotic parade may be nudged by one of the children, and told to lift his hat with his right hand and place it over his heart as the American flag comes sweeping by in the procession.

"It will be a glorious day for Texas," said State Commander Sherwood, "when all our children learn the accepted rules for draping and paying proper respect to Old Glory on all occasions, and just as soon as they begin their studies of these rules in the public schools they will put their newly acquired information to good use by assisting their elders in decorating floats and buildings for patriotic occasions.

"All of us are loyal citizens. We would fight for our country at the drop of a hat, if necessary, but few of us have ever been told that we should lift our hat and place it over our heart as the national colors come by in parade, and that is the reason so few of us do it.

"If I could send a Fourth of July message to the people of Texas I would say, let us begin now to help our children learn the flag rules they are going to study in school later. When the flag comes by in a parade, the man should lift his hat and place it over his heart. The woman should place her right hand over her heart. All should remain quiet until the colors have passed."

"One of our local flappers," the Neodesha Kas., Register reports, "says that if a boy treated me that way, I'd kick his ribs in and spit in his eye." Frailty, thy name, whatever it may be, is not flapper, declares a Popeka student of that race.

General Charles G. Dawes and Mrs. Dawes snapped at Marietta, O., shortly after the nomination.

**GHASTLY**

The charge has been made that the same breakdown in morale which has been so evident in the Department of Justice during the current administration has also been gnawing at the vitals of the Navy Department of the United States.

A breakdown due to appointment of ignorant, inefficient, and presumably dishonest officials in charge of various phases of activity through political expediency.

With inefficient and ignorant officials at the head, almost anything can be expected and the explosion of a United States warship the other day, with its ghastly results in casualties, can very possibly be traced to such a source.

It is to be hoped that a careful, impartial and disinterested investigation of the causes of this explosion can be held and truth concerning it published. It must be done.

Dissipation of the public wealth through ignorance or dishonesty is bad enough, but when human lives are also squandered it is plainly time for complete re-organization.

Use of big naval guns has been common for many years. While the exact cause of the accident may never be known, there is no question but what there was a failure somewhere. And when there is a failure, a breakdown in the human equation, the place to begin looking for it is at the top, not at the bottom.

**"COLD AS AMARILLO"**

Residents of Amarillo who visit Sweetwater may now walk through the streets of this city with their heads held high. No longer need they fix their gaze on the sidewalk and slip meekly and unnoticed past the sign on the hamburger stand next to The Reporter office that reminds them of their native weakness: "Cold Drinks—As Cold as Amarillo." For the Monarch of the Arctic Plains has assimilated a bit of West Texas atmosphere, in the strict sense of the word. For the first time since 1918, the year made famous by the defeat of the Kaiser and the rise of the mercury in Amarillo to 106 degrees, the temperature in the windy city crashed through recently and bested the former international polar record by half a degree, halting in its upward climb toward the top of the pole only after it had registered 106.5 degrees.

Amarillo is to be congratulated on

her return to this part of the world. We welcome her with open arms to the parade of progress in which the cities of West Texas continually march. Equipped with a breeze that is not blowing at all until it holds a log chain at a 45 degree angle, if Amarillo can attain the proper heat she will be a true city of the West.

The fact, however, that only once since the Amarillo weather bureau was established in 1891 had the intense heat of 106 degrees been reached until the recent record was established, is discouraging.

The polar equipment staged a comeback as soon as the sun went down, according to the Amarillo News which says: "Visitors to the city commented upon the delightful breeze that lowered the temperature last night."

**BRITISH LABOR**

After several months administration of the affairs of Great Britain, the cabinet of Premier Ramsey McDonald, the first labor organization to hold sway in the Kingdom, has failed to improve the condition of labor and has demonstrated that it can not make any unique contribution to national well being by using the methods of the older parties, says J. W. T. Mason, political writer and staff correspondent of the United Press.

The McDonald Ministry has gained no prestige among its own followers in the country, but has created the impression that the responsibilities of office have tended to make the ministers more conservative than they

can justify, says Mason, who adds that there is no indication that the labor party will be successful at the next general election.

McDonald and his ministers have coped with several strikes since they took office, and are at present facing a walk out of power plant employes that has tied up the subways of London. The dock workers' strike, which threatened to seriously impair the commerce of the world, was settled, although the labor cabinet received no great credit for it.

Severe trials were expected when the middle class rose to power in England. Unemployment, always a great issue in Great Britain, has not been solved by the Laborites. Negotiations with Russia have been disappointing. The proposal of labor that no unemployed working man shall be forced to vacate his house no matter how far in arrears his rent may be, has been changed from the effort to make the landlord give house rent free, to a plan for erection of inexpensive houses, with state aid.

McDonald's foreign policy is given credit for an important victory in the London Daily Herald, official organ of British labor. His courteous and frank methods of dealing with Poincare, and his change of policy are said to have had a great deal to do with sweeping the former French Premier out of office.

It is considered probable that the Labor ministry will dump the intellectuals overboard and get down to real principles of reform with workmen in full charge. This will probably mean losing the next election, but winning the one to follow.

They who fear that wild life is disappearing from America probably haven't been out after nightfall in any of our best social circles.

GRANDSTAND BURNS

Angelo Ball Park Damaged By Fire—Cause Undetermined.

Special to The Reporter.

SAN ANGELO, Texas, June 20.—Fire of undetermined origin, but believed to have been caused by a cigar or cigarette snipe dropped from the seats into the concession room, destroyed the grand stand at Fort Concho Park. Two sections of bleachers along the third base line escaped the flames.

The grand stand was built in 1921. San Angelo's first year in the West Texas League. Temporary accommodations have been made for the crowds attending the Sunday School League games here.

**BE A BOOSTER!!**

Slain

Bill Brennan, heavyweight pugilist, who was shot and killed in his New York cabaret by two underworld characters believed to be members of a bootleg gang with whom the prizefighter had had trouble.

AMUSEMENTS

Rex, the handsome equine star of Hal Roach's new feature production, "The King of Wild Horses," which will be the feature attraction at the R and R Palace theater Friday and Saturday, is not a trick horse. He never will be. He'll never be gentle—never even safe. But he's a magnificent creature and on the screen he is shown in action in all his splendor. His evolution from an outlaw—a captive beast—a "killer"—to a motion picture star is a tribute to the kindness, the patience and the "horse sense" of Hal Roach, of his director, Fred Jackman, and of his chief horse,

Meat Story Champion

Miss Thelma Spivey, a student in the high school at Tyler, who was selected as champion of Texas in the National Meat Story Contest, in which nearly 12,000 high school girls competed. The contest was conducted by the National Live Stock and Meat Board in high schools throughout the United States.

Graceful

This graceful frock of fibre crepe is an excellent model for the short woman since there is nothing to break the long lines that are accentuated by the long tassel. The neckline is very smart and edged as the sleeves are with band of plain crepe. It is shirred slightly at the hips to simulate waistline.

Set Record

George Taylor, Grinnell College, who set a new world record for the 440-meter hurdles at the final Olympic games try-outs, Cambridge, Mass.

trainer, "Chick" Morrison. Rex is a registered Morgan stallion, eight years old. For several years he roamed the wild country of Colorado with a band of horses turned loose on the range. He belonged to the State of Colorado. Jackman and Morrison went to Colorado seeking the right horse for the feature production. Roach was about to make for Pathe release. They found Rex chained in a stall at the Colorado State Reformatory, a dangerous prisoner no one could approach. When the stallion was recalled from the range his wild, free life had made him unmanageable. Then, too, the boys of the reformatory had taunted him until Rex had a disposition like a Bengal tiger.

League Party Tonight.

The Epworth League will be entertained Friday at the home of John B. Embry, 4th and Crane streets, by a lawn party. All leaguers, those interested in league work, and friends of leaguers are invited. Forty-two games, a musical contest, a track meet, games on the lawn, and music and songs are on the program.

CONFER ON GAS

Stone Will Summon Attorneys General From Interested States in Profit-eering Probe.

By The United Press.

WASHINGTON, D. C., June 20.—Attorney General Stone announced today that he would call a conference early in July of attorney general of the states most interested in the alleged price fixing in the gasoline industry.

Stone said that he had received the Federal Trade Commission's report on the gasoline industry, and the department of justice inquiry would be completed shortly.

"After becoming acquainted with the contents of the report, some time early in July, I expect to call a conference of the attorneys general certain states most interested," the Attorney General said. "Thereafter, I hope to be able to make a more specific statement of the results of the investigation."

Stone revealed that the inquiry by the department of justice had been directed "more to especially ascertain whether there had been a violation by the several Standard Oil Companies of the dissolution decree of 1911."

HEAT WAVE BROKEN

Mercury Below 100 First Time in Week Thursday.

For the first time since June 12, heat of below 100 degrees was registered in Sweetwater Thursday. Ninety-six degrees was reported by the Sweetwater Vulcanizing company, volunteer weather observers.

Sunday's temperature of 106 degrees was the high spot of the week. The heat record for the past ten days follows: June 10, 98; June 11, 98; June 12, 100; June 13, 100; June 14, 103; June 15, 106; June 16, 103; June 17, 103; June 18, 104; June 19, 96.

Grand Electric Ironer Demonstration

FOR THE NEXT TEN DAYS AT OUR STORE

You Ironing Done Free

Just bring your whole week's ironing to our store any time this week and have it done on the Grand Ironer by our demonstrator.

You never saw one iron like the Grand. You'll be amazed to see not simply the flat work, but all the pieces, shirts, dresses, anything ironed more beautifully than by hand, five times faster and at less cost than even hand ironing.

Electric Heat

The Grand is not only operated by electric motor but heated by electricity—connects to any ordinary base plug. It's hot, ready for ironing in a few minutes.

It's So Different

So convenient in size that you can use it in the smallest kitchen. So light in weight that it can be moved out of the way when ironing is over. So economical in electricity that it takes less than hand ironing. So low in price that any woman can have one.

Far Lower Price

Never before have you had the opportunity to own a genuine electric-heated ironer at such an astoundingly low price.

West Texas Electric Company

No Ice Shortage

The tremendous demand for ice during the recent unprecedented hot weather has been met by this company without interruption. This city, unlike some, has never been without ice. The 40-ton daily capacity has been ample to take care of all demands. There has been no failure of service. Additional wagons added to our delivery force have been able to take care of the local situation with but few exceptions.

Every ice wagon we operate is equipped with scales. Every deliveryman goes out with instructions to give full weight on every sale. If, in your opinion, you fail to get the number of pounds you are paying for, the management of this company will consider it a fair and helpful service for you to immediately call the office. We will adjust every complaint which we believe is based on legitimate reasons.

Every housewife who questions the weight of the ice she gets will find it an easy thing to go to the wagon and demand the iceman to weigh the ice. Ice scales on our wagons are supposed to weigh correctly. We want every customer to have a little more than they pay for. We want your co-operation in helping us keep our business on the highest standard. We have the human element to deal with in our employees. It is impossible for the manager to watch every transaction. We believe our icemen are gentlemen and we will appreciate any information of discourtesy or evidence of short weights. We believe you will help us in this matter.

FIREMAN KILLED

Comanche Fire Fighter Meets Death When He Seizes Live Wire to Break His Fall.

By The United Press.

COMANCHE, Texas, June 20.—While fighting a fire here last night, J. W. Carter, 38, member of the Comanche fire department, was instantly killed when he seized a live wire.

Carter had cut a hole in the roof of the burning house, and entered the attic. The floor gave way, and he

grabbed the live wire in an effort to keep from falling into the house. He was dead when rescuers reached him.

So serious are invasions of locusts at times that a railway in South Africa maintains a car to spray its tracks and the ground on each side with an insecticide.

More than 36 tons of foods are required daily to feed hogs on a California ranch and it is distributed to their pens by an electric railroad using side dump cars.

## SULPHUR CLEARS A PIMPLY SKIN

Apply Sulphur as Told When Your Skin Breaks Out

Any breaking out of the skin on face, neck, arms or body is overcome quickest by applying Mentho-Sulphur. The pimples seem to dry right up and go away, declares a noted skin specialist. Nothing has ever been found to take the place of sulphur as a pimple remover. It is harmless and inexpensive. Just ask any druggist for a small jar of Rowles Mentho-Sulphur and use it like cold cream.

# Hal Roach presents The King of Wild Horses

Story by Hal Roach  
Directed by Fred Jackman

- THE MOST MAGNIFICENT.
- THE WILDEST, FIERCEST.
- THE SMARTEST, CLEVEREST—
- HORSE IN CAPTIVITY
- In a thrilling romance of INTENSE INTEREST

To every lover of horses; of red-blooded drama; of daring and thrills; of romance, we recommend "THE KING OF WILD HORSES." It is strikingly original—you have never seen anything like it! You'll never forget it—never regret it. We are overjoyed to present it for your entertainment.

Cordially yours,  
R and R.
