VOL. IV. THE SWEETWATER DAILY REPORTER, SWEETWATER, TEXAS THURSDAY, OCTOBER 9, 1924. NUMBER 217

WASHINGTON IS WINNER; TWO-ONE

Harris Double Scores Peckinpaugh and McNeely For Winning Runs In Sixth Game Series.

SERIES IS NOW THREE ALL

Both Washington and New York Have Won Even Number of Games—Crucial Game Friday.

WASHINGTON, Oct. 9.—The results of the World Series again hangs in the balance after the Washington Senators defeated the New York Giants at Washington today, 2 to 1. The Giants scored in the opening inning when Kelly singled, scoring Young. Washington's two counters came in the last of the fifth when Harris came along and with two outs, two strikes, two balls and two men on, knocked a beautiful two baggar, scoring Peckinpaugh and McNeely.

Zachary pitched for Washington and allowed only four hits. Nehf worked for the Giants and was nipped for seven hits before giving way to Ryan in the first of the eighth. The games now stand 3-all, with the seventh game the deciding one. The game play by play:

First Inning.
New York—Lindstrom out. Bluege to Judge. Frisch doubled past second base. Young forces Frisch between second and third. Young goes to second. Kelly singles, scoring Young. Muesel flies out to Rice. One run, two hits, no errors.

Second Inning.
Washington—McNeely walks. Harris singles. McNeely out at second. Lindstrom to Frisch. Harris is caught stealing. Rice singles to right. Goslin is safe at first when Kelly drops an easy roller. Judge fans. No runs, one hit, one error.

Third Inning.
New York—Wilson fans. Jackson grounds out. Gowdy singles. Nehf flies out. No runs, no hits, no errors.

Fourth Inning.
Washington—Bluege grounds out. Peckinpaugh is safe at first when Lindstrom fumbles. Ruel flies out to Muesel. Zachary fans. No runs, no hit, one error.

Fifth Inning.
New York—Lindstrom lines out to Rice. Frisch doubles. Young is out to Judge. Kelly is out. Bluege to Judge. No runs, one hit, one error.

Sixth Inning.
Washington—McNeely is out to Jackson. Harris is out. Jackson to Kelly. Rice fouls out to Lindstrom.

Seventh Inning.
New York—Muesel grounds out. Peckinpaugh to Judge. Wilson singles. Jackson hits into double play. Harris to Judge. No runs, one hit, no errors.

Eighth Inning.
Washington—Goslin flies out. Judge pops out. Bluege is out. Jackson to Kelly. No runs, no hits, no errors.

Ninth Inning.
New York—Frisch out on a foul to Ruel. Young out. Ruel to Judge. Kelly grounds out. Harris to Judge. No runs, no hits, no errors.

Tenth Inning.
Washington—Goslin flies out to Young. Judge out, Nehf to Kelly. (Continued on back page)

Alligator Invades Chicken House, Is Unwelcome Visitor

FROST, Texas, Oct. 9.—If anything happens to your chicken family look for alligators.

Earl Dawson, farmer near here, investigated a disturbance in his chicken house and discovered a lusty two-foot-long sea animal waddling about the floor. Students of animal life in this vicinity claim that it has been several thousand years since the saurian family have been natives here. It is believed the animal escaped from a circus.

ENGLAND HOLDS ELECTION SOON

October 29 Set as Date For General Election to Determine Political Policy.

PARLIAMENT PROROGUED

Premier MacDonald Claims Conservative and Liberals Combine to Oust Labor Party.

By The United Press. LONDON, Eng., Oct. 9.—Appearing in the House of Commons with a plea for the Labor government, Prime Minister Ramsey MacDonald announced that the general English election would be held on Oct. 29.

The Prime Minister spent the morning in conference with his political advisers. This evening he is planning to prorogue Parliament, after which the Labor Party manifesto will be issued.

Premier MacDonald lost no time in starting his campaign making his first speech at 4:30 this afternoon with his entire Labor cabinet on the platform with him. He said "We accuse the Conservatives and Liberals of conspiring to take the Labor Party out of office."

FIREMEN FAST

Team Chosen For Cotton Palace Competition After Practice Wednesday Afternoon.

The Sweetwater Fire Department held their first practice of the week Wednesday afternoon when they made three runs of the drill they will put on at the Waco Cotton Palace Nov. 5 in competition for prizes amounting to \$800.

The exhibition consists of running 200 feet with the truck, connecting the hose at the fire plug, another 200 feet run, connecting the nozzle and sending water into the air.

The first two tryouts were made in 43 seconds each, but on the third run, the firemen put on a little more speed and completed the complete run in 37 seconds. This record will stand a good chance of winning some prize money at Waco, the fire boys believe.

The local fire department will compete against other departments from Texas cities at Waco, before the Cotton Palace grandstand. Fire trucks will be furnished the competing team at Waco.

The probable team to represent Sweetwater in the contest was selected Wednesday after the practice and includes Dan Childress, chief; Zach Taylor, A. C. Cook, Jack Yarbrough, Bob Withers, Louie Galbraith, Ed Patterson, and R. D. Cox. The team will stage another practice Thursday afternoon.

The "mashers," however, never get very far without some co-operation.

WALTON IS HIT

Senator Owen Says Former Governor of Oklahoma Not Worthy of Support of Democrats.

By The United Press. OKLAHOMA CITY, Oct. 9.—"Jack Walton does not deserve the support of the Democratic party," Senator Robert L. Owen declared in a message received here today. Former Governor Jack Walton is Democratic nominee to succeed Senator Owen.

MEAT CUTS ARE SEEN AT SCHOOL

Crowds at Mrs. Chitwood's Classes Increase Daily—Cooking School Closes Friday.

WORK VERY PRACTICAL

Economy stressed in Preparation of Foodstuffs—Shown Saving on Meat Cuts.

The increase in the attendance of the cooking school, being conducted by The Sweetwater Reporter under the direction of Mrs. Ida Chitwood, nationally known cooking instructor, Wednesday afternoon over the attendance Tuesday afternoon was large, according to the number of chairs which were filled yesterday afternoon. Tomorrow will be the last day, from 2 to 5 in the Hotel Wright.

This afternoon, a large crowd was present and saw the demonstrations of preparations of the different cuts of meat which Mrs. Chitwood gave. Mrs. Chitwood said that she would show the women of Sweetwater how to use the cheaper cuts of meat and this afternoon she carried out what she said. Three different cuts of meat were prepared during the demonstration, and Mrs. Chitwood explained just how it was done during the time she was preparing each cut.

She showed the women how to save money by buying the cheaper cuts of meat which at the same time are just as nourishing as the higher priced cuts. An entire animal was cut up at the demonstration and each cut was explained to the women.

The school begins each afternoon at two o'clock and last until four o'clock. A musical program is being given each afternoon preceding the demonstration.

Large crowds are expected and all women of the city are requested to come and see what they have been missing this week.

All Work Practical.

In the preparation of the various foods and in all the recipes offered, Mrs. Chitwood is intensely practical. She uses food supplies obtained in Sweetwater from local dealers, and the kitchen equipment is also taken from stores. Throughout the cooking

(Continued on page 5)

VALUES INCREASE

Assessed Valuations in Sweetwater \$371,000 Over Last Year, Highest in History.

An increase of \$371,000 in assessed valuations in the city of Sweetwater for this year over last year is announced by City Secretary W. H. Bartlett.

Mr. Bartlett's total figures for the year are \$4,312,000.08, the highest in the history of the city. Mr. Bartlett's states. The figures for the preceding year were \$3,861,000.

Mr. Bartlett discovered one honest man, at least, in the course of assessing the city. This man, in addition to real property, turned in cash to the amount of \$1,000 for tax purposes and was the only man in the city to turn in any cash to purposes of taxation.

ADD YARD ENGINE

T-P Has More Switch Crews In Sweetwater Than Any City West.

Sweetwater has a heavier freight and yard business than any other point on the Texas-Pacific west of Fort Worth. That railroad found it necessary to install their fourth yard engine recently in service in the Sweetwater yards. An additional crew was of course added, which meant another five family increase in Sweetwater population.

This is the second switch engine that increasing business in Sweetwater has forced the T-P to place in service here this year. This railroad now has 24 hour continuous switching service with an extra engine in service during rush hours. A general increase in business on the Texas-Pacific as well as on connecting lines is responsible.

Mrs. R. C. Ledford and sister, Mrs. W. W. Turner, of Houston, will leave Friday to spend the day at the San Angelo Fair and visit old friends.

WOMEN VISIT AT LUNCHEON CLUB

Mrs. Ida Chitwood and Mrs. Elena Kent Allan Guests of Club at Noon Thursday.

ATTENDANCE IS LIGHT

Visitors Address Club Members on Their Work—Men Learn Value of Cooking at Home.

Mrs. Ida Chitwood, who is conducting The Reporter's Cooking School, and Mrs. Elena Kent Allan, retiring from the Lyceum and Chautauqua platform and looking over Sweetwater with the view of locating here as an expression teacher, were guests of the Sweetwater Luncheon Club at its regular meeting at the Hotel Wright Thursday noon.

Court and other business interests cut the attendance at the luncheon Thursday. Louie Galbraith acted as chairman.

Mrs. Allen stated that she believed Sweetwater an ideal city in which to make her home and educate her son, who is enrolled in the East Ward school. She is to meet the Self Culture Club Friday and the Delphians Saturday. Mrs. Allan expressed the hope that the field was broad enough in Sweetwater to allow another expression teacher to locate here. She coaches in public speaking, debate and declamation, the speaking voice, women's club work, and sacred reading and expression.

Mrs. Allan has studied under the leading teachers in her profession. She gave one number that was heartily applauded by the Luncheon Club members.

Mrs. Chitwood told of the value of the cooking school to the women of Sweetwater, and how it trained women for their life work, that of home makers, wives and mothers. She stressed importance of good and properly prepared food in family life, stating that poor cooking was causing increasing number of divorces yearly. She declared that food and cooking were the best features that a newspaper could seek to improve for the good of both its men and women readers.

President J. H. Beall Jr., could not attend the meeting. Announcement of the chairman for the next meeting will be made through the press.

TRUCK IN ROSCOE

New Fire Fighting Apparatus Arrives—City Paving Program Making Steady Progress.

Editor King of the Roscoe Times was in Sweetwater Wednesday and reported that the paving program in that city was progressing nicely with three blocks of concrete poured, and bricks laid on one block.

Roscoe has recently received their first fire truck, according to Mr. King. The truck contains a water pump, chemical tanks, and is new and modern in every way. The truck has lowered the key rate of that city's fire insurance.

"Gins have been running steadily up to the rain," Mr. King said, "but are slowing up now until pickers can get into the fields again. There is a bad shortage of pickers in the Roscoe section."

The Roscoe gins have turned out close to 2,000 bales of cotton so far this season.

OFFICIALS HERE

Santa Fe Party Visits in Sweetwater Thursday.

Six officials of the Gulf, Colorado, and Santa Fe and the Panhandle and Santa Fe Railroads visited in Sweetwater Thursday, calling on the trade in this territory.

Members of the party were: W. E. Maxson, assistant general manager; G. C. & S. F.; A. E. Myers, assistant general manager, P. & S. F.; K. S. Hull, superintendent at Temple; J. S. Hershey, general freight agent, Galveston; T. B. Galleher, general freight agent, Amarillo; J. S. Purdy, division agent, Temple.

Miss Edith Bradford and Beattie Johnson will leave Friday night for Dallas where they will spend several days visiting relatives of Miss Bradford and see the State Fair.

Cow Makes Meal on Fabric Of Army Aviators' Machine

SAN ANTONIO, Texas, Oct. 9.—The army world flyers had many novel experiences, but two aviators from Brooks Field ran across something else.

Lieutenant Winsett and Sergeant Harwell sailed to Fort Worth recently, planning to return before night. A few hours after dark, the following message was received by Brooks Field officials: "Cow ate fabric off wings of plane. Detained making repairs. Back in the morning."

CLAIM END CIVIL WAR CHINA NEAR

Pekin Forces Predict That Conflict Will Cease Within Less Than Week's Time.

GENERAL IS CAPTURED

General Tso Lin Captured and Army Routed According to Wireless Messages From Mukden.

By The United Press. SHANGHAI, China, Oct. 9.—General Tso Lin has been captured at Shan Hai Kwan and his entire army routed, according to a wireless message reaching here from Mukden. The same message stated that the Pekin forces predicted the end of the civil war within a week.

Weather.

West Texas—Tonight fair and cooler in southwest portion; Friday partly cloudy.

Mr. and Mrs. Robert Withers are moving into their new bungalow home in the Orient Addition. The house contains five rooms and bath and is modern throughout. All ceilings are of sheet rock and of home manufacture.

HIT DYNAMITE

Steam Shovel Bites Into Stick of Dynamite and Two Men Are Blown into Eternity.

By The United Press. CASWELL, Tenn., Oct. 9.—Two men were killed and four injured today when a steam shovel struck a stick of dynamite in a mound of earth. The men killed were members of a Southern Railway construction crew.

ZR3 Saturday.

BERLIN, Oct. 9.—The ZR3 made a short trial flight in anticipation of its flight over the Atlantic and it was announced that the big dirigible was in good condition.

The flight will be started Saturday if weather conditions check up satisfactorily.

Need Cotton Pickers.

A serious shortage of cotton pickers exists on the Plains according to R. M. Chitwood who returned this week from a trip to Lubbock, Spur and other points in that section. There is a good crop at Lubbock and a better one at Spur that needs pickers badly, he said.

Mr. and Mrs. Hubert Fitzgerald and children returned to their ranch home near Maryneal yesterday following a week's visit here with his parents, Mr. and Mrs. R. H. Fitzgerald, and her sister, Mrs. Roe Bradford.

MOODY TO COLO

Dan Moody to Sepak in Denver October 14 on Behalf of State and National Democrats.

By The United Press.

AUSTIN, Texas, Oct. 9.—Dan Moody, district attorney of Travis County and Democratic nominee for Attorney General of Texas has accepted an invitation to speak in Denver, Oct. 14, in behalf of the Democratic ticket in Colorado and the National Democratic ticket.

FAMED AIR LINER IS SEEN BY MANY

Big Dirigible Shenandoah Passes Over Sweetwater Late Thursday Afternoon.

LEFT FORT WORTH 10:20 A. M.

Passed Over Weatherford 10:42, Ranger 12:35, Baird 1:30 and Abilene 2:18 P. M.

Her shiny sides glistening in the West Texas sun, the Shenandoah, giant dirigible and pride of the U. S. Navy Air Service, passed over Sweetwater flying at an altitude of between 750 and 1,000 feet at 3:20 o'clock Thursday afternoon.

The ship was running at comparatively slow speed, and passed directly over the Nolan County court house. The court house square was lined with Sweetwater citizens out to see the big dirigible, and building roofs in the city held their quota of spectators for nearly an hour before the Shenandoah arrived.

The first blast of the fire station siren put the crowd on edge for the Shenandoah's arrival. When the ship passed over, members of the crew could be sighted at the sides of the cabins.

Her five motors apparently working perfectly, the liner of the air glided slowly and gracefully over the city, veered west from W. N. 3rd street, and continued on her way toward the Pacific Coast.

Two letters were dropped from the giant ship as she passed over Sweetwater. Folded and tied with a string, the messages were dropped from the sky and lit on the building occupied by the Bon Ton Cafe.

They were from J. W. Cullinan, one addressed to Mrs. J. W. Cullinan, Binghamton, N. Y., and the other to C. McKevey at Lakehurst, N. J., the naval air station from which the Shenandoah started her voyage to the west.

"Please post" was written on one of the letters. They were turned over to Chief of Police Johnson, and mailed at the post office here.

Abilene at 2:18
The dirigible Shenandoah passed over Abilene at 2:18 p. m., headed west.

Reported Along Line.

The Shenandoah left Fort Worth at 10:20 Thursday morning. Weatherford was reached at 10:42 and Ranger at 12:35. Baird reported the aerial liner at 1:30.

Called Safest Airship.

The U. S. S. Shenandoah has been called the world's safest airship. It was designed by the Navy department fabricated by the Naval aircraft factory, Philadelphia, and assembled at the Naval air station, Lakehurst, N. J. It is American designed, built of American materials by American workmen, propelled by American engines and is operated by American Navy personnel.

Aircraft experts of the world assert that the Shenandoah can fly to the North Pole safely and with ease and that she could cross either the Atlantic or the Pacific ocean as safely as a great marine liner.

The metal framework of the giant airship is of duralumin, a composition of aluminum, copper and manganese which has the tensile strength of mild steel, although only one-third the weight of steel. The gas bags, 20 in number, are made of gold-greater skin. The outer covering is of cotton fabric, painted aluminum and serves only as a weather protection and to streamline the ship. Helium, a noninflammable, nonpoisonous gas is used to (Continued on back page)

HEAR AUTO TAX

State Supreme Court to Decide Constitutionality Increasing Auto Taxes in Texas.

By The United Press.

AUSTIN, Texas, Oct. 9.—The suit involving the constitutionality of increasing the tax on automobiles has been set for a hearing on October 14 in the State Supreme Court.

The case is filed as the State Highway Department vs. Limestone County, and includes a total of 35 questions upon appeal from the Court of Civil Appeals at Waco.

SUIT CERTIFIED
State Supreme Court Gets Ferguson Injunction Case—Ask For Hearing By Next Monday.
By The United Press.
AUSTIN, Texas, Oct. 9.—The six questions involved in the injunction suit brought by Chas. Dickson of San Antonio involving the eligibility of Mrs. M. A. Ferner of Texas were certified to the State Supreme Court today. The motion to advance the case with request for a hearing next Monday was filed with counsel from both sides signing the certificate.

DISAPPOINTMENT

After 17 years of waiting to get into a world series, Walter Johnson, pitching ace of the Washington American League base ball team and one of the finest men ever produced by the national game, has been twice defeated by the opposing team in the contest for the baseball championship of the world.

Johnson has at last attained his goal, only to taste defeat. One of the greatest ambitions of his life has been gratified, but the bats of the New York Giants have been unmerciful.

To prove his ability as a pitcher and to demonstrate his right to the immense following that is his, Johnson tied the record for strike outs in a world series game when he fanned 12 New York batters in the first game of the series. Two of the hits made against the "Fire Ball King," however, were home runs, and the Giants came out on the long end of the score.

Walter Johnson is one of the most popular men in base ball. The fact that he is scheduled to pitch will fill the stands in nearly any American city. His clean record is an inspiration to the sport lovers of the nation. This year he was voted the most valuable player in the American League, and his name will be placed on the roll of honor on the monument that is to be erected to base ball in the national park at Washington.

Years of hard work gave Johnson his chance in the world series. The greatest day of his life turned out a bitter disappointment. The fates were unkind, and the veteran was defeated. So it may be with any of

us. We may reach the end of the rainbow and find the gold turned to dross. Then it is that the finest test of character and strength is put upon us, and the value of friendship, the greatest blessing in sorrow or disappointment, made real.

SEE A. & M. FIRST

Down at College Station is a young city generally known as A. & M. College. On the main campus of 40 acres, there are 40 modern, fire-proof buildings. These, with the equipment they house, represent a total state investment of nearly four million dollars. Surrounding this main campus are four thousand acres belonging to the institution which are used in the demonstrations teaching of livestock production and breeding, dairying, horticulture, agronomy, vegetable gardening, floriculture and the various other branches of agricultural sciences.

To see A. & M. is to appreciate it. It is a great institution in every definition of the word. To one who has never seen A. & M. College, the advice is given, "See A. & M. First." For Texans at least, considering the necessity of long traveling distance, it would give more favorable results than the familiar slogan "See America First."

AUTOMOBILE TOLL OF LIVES

Fourteen hundred killed in one disaster would shock the nation, yet approximately that number, 1,398 to be exact, met death during the first eight months of this year in New York state alone through automobile accidents, without exciting any particular attention.

While medicine and surgery are working wonders in the saving of human life, the grim toll of the automobile mounts higher and higher each year.

Most of this terrible sacrifice is entirely unnecessary, being caused by reckless or incompetent drivers. The pity of it is that so many of the victims are merely passengers in the wrecked cars, killed and maimed thru no fault of their own.

If irresponsible speed maniacs destroyed only themselves, there would be less cause for grief, but unhappily they often escape, while helpless victims pay with their lives for the folly of these criminally careless drivers.

A CHAMPION EXTRAORDINARY

To win a national athletic championship is a great feat, but to win it five years, in succession is remarkable. This record has been made by William T. Tilden, 2d, of Philadelphia, who recently won the national tennis championship for the fifth consecutive time. He is also tennis champion of the world and probably the greatest tennis player of all time.

This distinction may not be important in point of usefulness to the world, but it stamps its holder as a man of prodigious determination and skill, worthy of emulation and the highest praise.

Double Standard Receives Blow From Dallas Judge.

DALLAS, Texas, Oct. 9.—No longer will the woman alone pay in Dallas.

The double standard of justice received a knockout here recently in corporation court when Judge F. D. Crawford issued an edict that in the future vice raiders must "find the man."

Judge Crawford, in setting a precedent for American vice control declared "that it was not right to drag a woman out of a room and bring her into court bowed in shame to face the cynical smiles of men!"

Dallas police must bring the man along or the woman will be discharged, the judge declared in conclusion.

Va.

ALLENS HERE

Roby Physician and Family to Make Home in Sweetwater.

Dr. and Mrs. R. E. Allen and son, R. R. Jr., of Roby arrived in the city Wednesday to make Sweetwater their home. They have taken possession of their home, on E. N. 4th street, which they purchased from Mose Newman several months ago.

Dr. Allen was a Captain in the World War and saw service in France, and he and Mrs. Allen will be welcome additions to the church and social life of Sweetwater. He will open an office for general practice in a few days.

Choir Reorganized.

The choir of the Methodist Church has organized for the year and the following officers were elected: President, Mrs. J. D. Dulaney; vice president, Mrs. O. E. Collins; secretary-treasurer, J. S. Schooler; pianist, Mrs. Roy Scudday. Regular choir rehearsals at the church every Thursday evening.

Ed Rowley of the R and R Theater, of Texas will leave Thursday night on his return to Dallas, after spending several days visiting his West Texas theaters.

Mrs. J. L. Robinson is enjoying a visit from her niece, Mrs. Ellena Allen and little son, Francis, of Dallas.

Mrs. J. W. Shinn is visiting her mother, Mrs. McCurdy, at Bartlett, and will remain over the week-end.

Money to Loan

on City Residence or Apartment Property. Easy monthly payments. You can either build your own home or take up loans already on same in any desirable part of Sweetwater.

STAR GAZER NOW IN HIS ELEMENT

October and November Present Excellent Opportunity For Celestial Observation.

NEBULAE TO BE VISIBLE

Nebula in Andromeda Can Be Seen Without Aid of Telescope This Month, Report Says.

By The United Press.

WASHINGTON, Oct. 9.—This is the time of year when the 'star gazer' is right in his element, for October and November are two good months to look at the stars, November being the month of meteors.

During October the Great Nebula in Andromeda can be seen without aid of a telescope, says a bulletin from the American Nature Association. You will recognize in the East in November old acquaintances in the Pleiades and Hyades in Taurus, and Aldebaran, the fiery-red eye of the Bull.

November was known in ancient times as the Pleiad month and it was then the ancient Kings of Persia never failed to grant any request presented to them on November 17 the day when the Pleiades came to the meridian at midnight. This exquisite little group, with five stars forming a tiny dipper, and two additional stars visible to keen eyes, will be one of the most noted groups in the heavens. The V-shaped cluster of the Hyades is scarcely less famous.

With the visit of Mars this Summer, when it was only 34,000,000 miles away, and nearer than it had been in a century, a remarkable impetus has been given 'star gazing.' Reports of a new comet discovered by the Bonn Observatory recall the visit of Halley's Comet in 1910.

In November every year several meteor swarms are due. The Leonids, so-called because they come from the general direction of the constellation Leo, appear about November 15, but you will have to be up before sunrise to see them, because Leo is then in the morning sky.

The Andromedes, which will appear to come from the direction of Andromeda, will appear in the evening hour,

however, about November 23 or 24. Then there are the Taurids, several different groups appearing at different times during the month from different points in Taurus. These also will appear in the evening hours from the direction of Taurus, nearly due east. An occasional fire-ball, which is simply a meteor of exceptional size or brilliancy that may succeed in reaching the earth, may appear among the Taurids.

The object that will probably first catch the eye November evenings will be the straggling W in Cassiopeia in the northern heavens high above the pole. You will probably search in vain for the Big Dipper for it is so close to the horizon in November that it is largely concealed from view. Possibly you will be able to make out the outlines of the Little Dipper, though with the North Star, Polaris, at the end of the handle.

Next to Cassiopeia, the Great Square in Pegasus with the constellation of Andromeda joining it on the east, is one of the most noticeable of the Fall groups. It now lies directly on the meridian, due south of the zenith overhead. To the southwest of the Great Square lies Aquarius, the Waterbearer, which can be distinguished by the Y-shaped group of stars the urn from which a stream of faint stars is flowing toward the south and southeast.

Mars, still in Aquarius where it has been for many months, will move rapidly eastward during November and recede from the earth. In Octo-

ber Mars is the only one of the bright planets to be seen. You must get up before sunrise to see Venus, which is glorious at that time.

DEMAND GROWING

Production of Autos Gauged by Orders on Hand—Chrysler Near 25,000th Car.

DETROIT, Oct. 9.—Production in the majority of automobile plants is being gauged strictly by orders on hand. Motor leaders are watching the demand more closely than ever. This is the case in one or two instances because the companies cannot make them fast enough.

The average production scale at present is about 65 per cent capacity. The usual September lull arrived too early this year and stayed too late. The only saving feature so far as total volume is concerned is the gains being made in Ford production. Ford is constantly adding men and stepping up production accordingly.

Possibly the only Detroit automo-

bile plant operating at capacity right now is the Chrysler factory, which is fast nearing the production of its 25,000th car.

Chrysler is now setting one of the most phenomenal records ever achieved in the industry. When we consider that the car went into production only last February and that in the short space of eight months has been demanded by 25,000 people, some appreciation of the feat may be had.

Chevrolet today enters the coach field with the lowest priced model on the market. The Chevrolet announcement follows the announcement of a coach by Oldsmobile, another General Motors unit.

The entry of Auburn into the eight in line business brings total number of manufacturers of this type up to seven and raises the question, "Whither are we tending?" Only a little over a year ago there was only one company in the country making the eight type.

Pears.

Buy some nice pears at Apple House third door west Costephens Hardware. 216t3p

Mrs. R. A. Graham and Mrs. R. C. Gillum of Roscoe were shopping in the city today.

Apples! Apples! Apples!

Fine Ben Davis Apples, \$1.50 bushel at Davis Wagon Yard. 208t6p

It might be worse. Flappers are having their hair shingled, but they haven't all yet begun to use varnish.

"Drought is unusual along the coast," says the geography. Also, strangely enough, along the border.

school the matter of economy in the preparation of foodstuffs is given great emphasis, the object of the series of demonstrations being to give practical help to the housekeepers and home makers of the city.

Women attending the school carry their notebooks and pencils, and are making note of the many suggestions and recipes offered by the demonstrator. The whole school is free, and no one incurs any kind of obligation by attending.

Recipes for the three dishes prepared by Mrs. Chitwood Thursday follow: Stuffed Cushion of Beef—5 pounds of cushion beef; 3 cups of stale bread crumbs; 1 cup Crisco; 1 tablespoon

finely chopped onion; 1 teaspoon powdered sage; 1 teaspoon Gebhardt's chili powder; 1 can Gebhardt's deviled chili meat; 1-2 cup finely chopped fat pork; 1 teaspoon salt; 1 hard-boiled egg; 1 cup stock or hot water.

Remove bone from meat and serve in hot Crisco turning until all sides are brown. Then remove to a tray or plate and stuff with the dressing which has been made with the above ingredients by combining the whole and moistening with the stock or hot water. Pin together with toothpicks, cover and bake in hot oven for two hours. When done slice in rings about one inch thick, slicing dressing and meat together, place in center of platter over-lapping each slice about half way. Decorate around edge of meat with slices of tomatoes, celery, and gherkin fans.

Place meat on table and cover top side with above ingredients. Roll up like a jelly roll and tie with a clean wrapping cord at both ends and in the center, to hold in place until it is cooked. Bast in hot Crisco and dredge

with flour. Place in hot oven and bake one hour. Place on serving dish and decorate with heart-shaped pieces of toast with a heart shaped center of red jelly and sprigs of parsley.

Crown of Lamb—One crown of lamb; chopped meat from end of ribs; 2 cups of bread crumbs; 1 teaspoon salt; 1-2 cup chopped nuts; 1-4 teaspoon Gebhardt's chili powder; 15 small white onions; 1 egg well beaten.

Select the crown of lamb from two sections of the loin containing the ribs. Chop finely the bits of meat which are scraped from the ends of the rib that extends up, and mix the chopped meat and bread crumbs to which the baking powder has been added, also salt, nuts, chili powder, and enough water to slightly moisten, then fold in the beaten egg. Place the stuffing in the center of the crown which has been formed with the sections of ribs. Put in hot oven for 15 minutes, then reduce heat and continue to bake for 45 minutes longer. When done place on serving dish and garnish with creamed onions, roses cut from beets, carrot candles, parsley and French potato balls.

Quart of Water Cleans Kidneys

Take a Little Salts if Your Back Hurts, or Bladder is Troubling You

No man or woman can make a mistake by flushing the kidneys occasionally, says a well-known authority. Eating too much rich food creates acids, which excite the kidneys. They become overworked from the strain, get sluggish and fail to filter the waste and poisons from the blood. Then we get sick. Rheumatism, headaches, liver trouble, nervousness, dizziness, sleeplessness and urinary disorders often come from sluggish kidneys.

The moment you feel a dull ache in the kidneys, or your back hurts, or if the urine is cloudy, offensive, full of sediment, irregular of passage or attended by a sensation of scalding, begin drinking a quart of water each day, also get about four ounces of Jad Salts from any pharmacy; take a tablespoonful in a glass of water before breakfast, and in a few days your kidneys may act fine.

This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for years to flush and stimulate the kidneys; also to help neutralize the acids in the system, so they no longer cause irritation, thus often relieving bladder weakness.

Jad Salts is inexpensive; makes a delightful effervescent lithia-water drink which everyone should take now and then to help keep the kidneys clean and active and the blood pure, thereby often avoiding serious kidney complications. By all means have your physician examine your kidneys at least twice a year.

SAYS RED PEPPER HEAT STOPS PAIN IN FEW MINUTES

Rheumatism, lumbago, neuritis, back-ache, stiff neck, sore muscles, strains, sprains, aching joints. When you are suffering so you can hardly get around, just try Red Pepper Rub.

Nothing has such concentrated, penetrating heat as red peppers, and when heat penetrates right down into pain and congestion relief comes at once.

Just as soon as you apply Red Pepper Rub you feel the tingling heat. In three minutes the sore spot is warmed through and through and the torture is gone.

Rowles Red Pepper Rub, made from red peppers, costs little at any drug store. Get a jar at once. Be sure to get the genuine, with the name Rowles on every package.

CITY GROWING

New Water Taps and Additional Telephone Subscribers Show Development of Sweetwater.

The City Water Works has had a total of 135 new taps on the water line during the first nine months of 1924, records at the City Hall show, and this to some extent records the growth of Sweetwater. Many more taps on the line will be made before the year is out, it is declared. The 135 taps, so far this year show a decided increase over 1923 when only 74 were made. April was the heavy month when there was an average of one tap a day.

The number of new telephone subscribers in the city is also increasing, according to records of the Southwestern Bell exchange here. The approximate number of telephones put in Sweetwater residences and business houses so far this year is 278. September was the leading month for putting in telephones, with a total of 54 installed.

Government figures show:

Chesterfield has 61% of the total increase in cigarette sales this year

*Such popularity must
be deserved!*

LIVE STOCK IS THE ONLY STATE FAIR DIVISION AFFECTED BY QUARANTINE

Full Racing Program, Poultry Show, Kennel Show and All Other Departments as Usual.

Both the poultry show and the Texas Kennel Club dog show will be given at the State Fair of Texas, Dallas, Oct. 11-26, as formerly scheduled, it is announced by Secretary W. H. Stratton of the Fair Association.

J. I. Doogsett, chairman of the state sanitary live stock commission has wired Fair officials modifying the former order as affecting the Fair.

"This is your authority to hold poultry show and dog show," Mr. Scott has telegraphed secretary Stratton.

Modification of the order means that no department of the State Fair except the live stock division, will in the least be affected, Mr. Stratton said.

The poultry show will be held Oct. 11 to Oct. 20 inclusive and more than 5,000 fine birds have been entered.

On Oct. 20 the poultry building will be vacated by poultrymen, and turned over to the Kennel Club for its show, Oct. 24, 25 and 26, the last three days of the Fair. One big feature of this year's kennel show, will be more than a hundred fine dogs.

As has been previously announced the full thirteen-day racing program will be carried out. Entries of more than 250 fine horses for the four stake events and the six daily races carded are already in hand.

"Toyo," the nightly fireworks spectacle; "The Passing Parade of 1924," the big musical production; twenty big hippodrome acts before the grand stand; night airplane flights, and various other specialties, form a part of the gigantic amusement program to be carried out at this year's Fair.

Work done by the destitute children of the Near East, whom the society is endeavoring to aid, will be shown in an exhibit at the State Fair of Texas by the Near East Relief Society. It is said the exhibit will contain some exquisite rugs and other handwork of that character.

DRIVE TO FAIR; COPS WILL AID VISITORS

Visitors to the State Fair of Texas, Dallas, Oct. 11-26 this year, may come in their "flivvers" or their Flats, as the case may be, secure in the knowledge that all will be accorded the same courtesy by local traffic policemen.

The testimony of a recent visitor from Charlotte, N. C., brought a statement from Police Chief Trammel.

James Hardwick, the Charlotte man, he drove into Dallas recently and ran up against the red and blue traffic lights.

"I've never seen a city where the officers were more courteous and friendly," he declared. "When I drove into town my first impression was of kindly treatment. A big traffic officer came to my rescue when he saw I was a stranger, and quickly put me to rights as to the signal system."

Police Chief Trammel says it's going to be that way during the State Fair, too, whether a fellow is riding in a flivver or a five thousand dollar limousine.

John M. Sayeg of Ennis was a visitor in Sweetwater Thursday.

NOTICE TO CONTRACTORS

Sealed bids addressed to Mr. W. H. Bartlett, city secretary, will be received by the City of Sweetwater, Texas, until 2 o'clock p. m., October 13, 1924, for furnishing all labor and materials and constructing, according to plans and specifications on file with the City Secretary, approximately:

11,380 Square yards pavement; 6,491 lineal feet combined curb and 18 in. gutter; 569 lineal feet concrete headers; 40 lineal feet separate 30-in. gutter; 100 lineal feet separate curb; 5,752 cubic yards excavation.

A cashier's check on a Texas bank in the sum of \$2,000.00 payable without reservation or recourse to the order of the Hon. Joe H. Boothe, Mayor must accompany each bid.

Plans and specifications are on file at the office of the City Secretary and at the office of the engineers, The Elrod Engineering Company, 3206 Elm street, Dallas, Texas. Plans, specifications and bidding blanks may be had from the City Secretary upon

a deposit of \$25.00, same to be returned on the submission of a bona fide bid on the work or upon the return of the papers prior to the bidding date; otherwise deposit will be forfeited.

The City of Sweetwater reserves the right to reject any or all bids and to waive formalities.

By order of the commission.
W. H. BARTLETT,
City Secretary.

Anemia

FORCE enriches the blood, thereby is a potent aid to nature in rebuilding persons who are thin, pale, weak or invalid.

Force TONIC

It Makes For Strength

Newer Form of Iron is Red Blood Food

If your blood is thin, pale and watery, keeping you weak, nervous and run-down, you need rich, red blood with plenty of iron in it to give you strength, energy and endurance. It would surely astonish you to see how in two short weeks a little more iron in your blood would help renew the elasticity, the strength and energy of earlier days. It is the iron in your blood that enables you to get the good out of your food. Without iron, nothing you eat does you any good. Your food simply passes through you and your body is literally starving on three big meals a day.

This newer form of iron known as Nuxated Iron is like the iron in fresh vegetables and like the iron in your blood in concentrated form. It may be had from all druggists with a guarantee of entirely satisfactory results or your money back.

NUXATED IRON BUILDS RICH RED BLOOD

MYSTERY MAN AT STATE FAIR

Harry Houdini, most famous "mystery man" in the world, is to be a special attraction at the State Fair of Texas, Dallas, one day only, on the afternoon of Sunday, Oct. 12. Houdini is to present his latest demonstration of the work of "spiritualistic" mediums, in connection with his lecture on the subject, "Can

the Dead Speak to the Living" He declares they can't, and his expose of "fake" mediums is declared to be the most absorbing entertainment ever conceived. It is all the more interesting, because it is given in broad daylight, and with none of the curtains and other appliances used at so-called "seances."

fund, featured the regular meeting of the East Ward Parent-Teacher Association in the auditorium of East Ward school Wednesday afternoon.

The resignation of Mrs. L. T. Tatum as president was accepted, and Mrs. A. W. Canfil elected to succeed her.

Mrs. Lena Kent Allen gave an interesting talk on the needs of public speaking and physical education in the school. Mrs. B. E. Robinson gave a sketch from the president's speech: Mrs. Curry told of "Simple Things Parents can do to aid Pupils and the Teachers;" Leona Ruth Miller gave a reading "The Girl Next Door," and Alice Pittman, Bonnie Ruth Wade, and Katherine Carter sang a song on fire prevention. Miss Rimmer's room won the ban-

ner for having the most members.

The association will launch a membership drive at the next meeting. It is understood that an excellent cast has been chosen for the play to be presented by the teachers of the East Ward School, "Clubbing a Husband."

TAPIRS IN ZOO

Blieved Link Between Hippo and Elephant.

DALLAS, Texas, Oct. 9.—Visitors at the Forest Park Zoo will soon have an opportunity to gaze upon what is believed to be the evolutionary link between the hippopotamus and the elephant.

Two saddle-back tapirs have been prepared for shipment to the zoo by

Frank Buck, agent of the park board, who is now in Singapore, India. The two animals will be the only specimens of their kind in North America, Buck said.

SHE'S LOSING WEIGHT

Bonnie Bess, Down to 567, Is Getting Worried.

EL PASO, Texas, Oct. 9.—Bonnie Bess is all "fussed" because she's losing weight. She's all run down to 567 pounds now. Six months ago she weighed a trifle more than 649 but she is now on a diet to get fat.

Bonnie Bess is the fat lady at the exposition and weight means dollars

to her.

Bess is a spinster. She was asked what she would consider the ideal weight for a life partner.

"Oh, around 200," she replied. "I like 'em thinner. But I'll want to sit on papa's lap."

NEW TREATMENT FOR SWOLLEN GLANDS

People who have enlarged glands ought to know that by freely applying Emerald Oil daily the gland can be brought to a head and all the germs and poisonous secretions discharged and destroyed.

Furthermore the opening will heal surely and speedily and without leaving an unsightly scar. People who

desire this treatment should secure a two-ounce original bottle of Emerald Oil (full strength) and use as directed. It is a very concentrated preparation and a small quantity lasts a long time. It is also used to reduce swollen veins and dissolves goitre.

Mr. and Mrs. J. M. Shade and son, Harlan of Moran, formerly of Sweetwater, spent Wednesday here visiting friends and looking after business.

A man is getting old when he is glad he doesn't resemble the chap in the collar ad.

The chief objection to a "white mule" cocktail is that one can taste the mule.—Muskege, Ok., Phoenix.

And They're Glad It's All Over

Seattle at last! The gallant American aviators who beat the first air trail around the globe are back at their goal, Smith landing field, from where they set out on their earth-circling journey. Seattle's west wind when the fliers landed. Major Martin, ill-fated commander of the expedition at the start, stands extreme left, listening to Lieutenant Eric Nelson's account of their trip.

The Last Picture of Dead Aviator and Plane

This is the last picture of Captain Burt E. Flood of the army air service who crashed down to his death in the Pulitzer trophy event at the international air races in Dayton, O. It was taken just before he started up. An antiquated plane, fit for the scrap heap two years ago, according to officials of the National Aeronautic Association, is blamed for his death.

The Women of Texas

SAY NO!

There is no leavener regardless of price or claims that can be depended upon to produce such uniform and wholesome bakings as

CALUMET THE WORLD'S GREATEST BAKING POWDER

It is the preferred bake-day aid in Texas. Every housewife who uses Calumet will tell you this.

Don't forget that public opinion and constant use for over a third of a century have branded Calumet as being far superior to all others.

Don't practice false economy by using other brands because nothing can take the place of it.

No other baking powder produces bakings that are so satisfactory at such a low cost. Remember this and always use Calumet.

SEE SHENANDOAH

(Continued from page 1)

keep the ship afloat in the air. Further to protect the ship against loss through fire or explosion she has been so built that there are no electric cables anywhere in her, except the few short ignition wires on the motors. All men aboard her wear rubber soled shoes to avoid any possibility of sparks being struck as they walk over the metal plates.

Has Five Motors.
The motors are special six cylinder engines built by the Packard Motor Car Company. They are of 6 5-8 inch bore and 7 1-2 inch stroke and develop 300 horsepower at 1,400 revolutions a

minute. Five motors are used to drive the ship.

When the Shenandoah was designed that it was considered in the dependability of an airship's motors largely rests one of the biggest factors of safety for the ship. To obtain the most dependable motor efforts were made to design the most simple motor possible.

The simplicity of the Shenandoah's engines was demonstrated strikingly when the ship had her successful flight with the gale of last January. Because the regular engineers were at dinner in their quarters when the accident occurred there were only three men on board who were familiar with the engines. Inexperienced men started the motors without a second's delay, which might have been fatal to the ship and the twenty-two men on board. The same inexperienced men kept them running without a miss during the whole fight against the elements until the ship was safe in her hangar.

Reliability, durability, economy and light weight were the characteristics desired in the order given when the Bureau of Aeronautics prepared a set of specifications for an ideal motor for the Shenandoah. Economy was desired above weight as the weight of the fuel to be carried was to be nearly four times the weight of the engines, and the specifications provided that every possible effort should be made to obtain the last ounce of power from the fuel.

The net result of this provision was that in a 300-hour endurance test of the engine a world's record for economy was obtained. Less than .45 pounds of fuel per brake horse power were consumed. On the first long flight taken by the ship when a distance of 600 miles was covered, 600 gallons of gasoline were consumed, making one mile to the gallon. In terms of the family automobile one mile to the gallon of gasoline is anything but economy, but, despite her tremendous size, one mile to the gallon represents with the Shenandoah a greater economy per passenger carried than that shown by the automobile.

200 Men Needed.
On cross country trips wherever the Shenandoah lands she is handled by a ground crew of more than two hundred men. The technique of landing the ship has been highly developed by the naval officers who handle her.

The ground crew is spread out in a big letter U with the closed end of the

line toward the direction from which the wind is blowing. Giant signal boards give the navigators the force of the wind, its direction, barometer readings and the temperature of the air and of the ground. Other signal devices permit the crew to "talk" with the officers in charge of the landing crew.

When the ship's barometer has been corrected by the land barometer and temperatures in the air have been compared with temperatures at the ground to insure against any mistake in determining altitude or in bringing

the ship to the proper equilibrium in the warmer ground air the elevating rudders turn her nose toward earth. The engines drive the ship down against the lifting pressure of the helium gas. Only when such action is absolutely necessary is any of the helium released, because of its great cost.

De Molays!

Election officers tonight. Be on hand seven sharp. All members urged to be present.
