Cross Word Folks Still Have Time For Puzzle Page

Boy Howdy!
We knew that there were a lot of folks reading the Sweetwater Reporter. We also knew that there were a lot of folks interested in crossword puzzles.

But we never dreamed that the crossword puzzle page that ran in the Reporter Sunday would attract so much attention. If there is anyone in town that did not work it we do not know who it is. For it seemed to the Reporter that everyone in town turned in a solution to this office. Other merchants represented on this page also reported a lively business in solution received early Monday morning.

Remember that everybody can turn in a solution to every merchant that is represented on the page. And—if you are not sure that the one you turned in is correct, turn in another. There are some very tricky words in this puzzle. You may think your solution is correct—but is it?

The correct solution and the names of those who solved it correctly will be published next Sunday or thereabouts. Be sure and watch for it. No one will be told what the solution is. The key is locked up in a safety deposit vault.

INDEPENDENCE

Eighty-nine years ago today (March 2, 1836) a group of sturdy pioneers met in the little town of Washington on the Brazos River, and in that meeting declared the Independence of the Republic of Texas from Mexico. At that time the Alamo, hallowed shrine of Texas Independence was under siege by a Mexican army under Santa Anna, and on March 6, just four days later, fell with the loss of the entire garrison.

David G. Burnet was the first President of the new Republic. Four presidents filled five terms of office. Union with an individual history, is (General Sam Houston elected for two terms), and then in 1845 Texas was annexed to the United States and entered the Union.

In 1861 Texas seceded with other Southern states from the Union and became a part of the Confederacy, returning to the Union after Lee's surrender.

Today Texas, the only state of the Union with an individual history, is adding page after page to that history, and playing a leading part in the industrial and economic activity of the United States.

Though discovery dates back to 1528, making it one of the oldest states in the Union, yet it is one of the youngest in development. New discoveries of her rich natural resources are being made. Today Texas, the largest state in the union in size—tomorrow Texas the wealthiest state in the Union.

Towle of this city, but left here to work for Arthur Everts & Company, Dallas jewelers.—Curry County Times.

Holding Noses

Do you do much saving? Do strangers, when they leave our town, go away holding their noses? Do they say that to others that keep others from coming our way? If so, then our town is the loser. And all of us who live here are losing money.

There are two sides to a town—outside and inside.

It's all right to look the outside looking fine—streets, the parks, the lawns, buildings.

But how about the inside—the sanitation, the water, the health breathing air? They are things people remember and about.

Have good plumbing your buildings, and then see that the plumbing is kept in good condition. Watch the leaks. Keep them sweet. There will be no holding of noses. And all of us will have better health and more money.

No Time and Energy Wasted In Useless Labor With Electricity

Have you ever thought seriously of the freedom from hot kitchen drudgery, the saving of time, and the economies in food and fuel which the Hotpoint Electric Range with its automatic operation and its perfect scientific cookery will bring you?

You are spared endless scouring and polishing of pots and pans. Electric heat creates no dirt, soot nor smoke to stain utensils and dirty up your kitchen.

The six inch, 1,000 watt, Hotpoint "Speed Units" fit four out of every five utensils in the average home, giving speed and economy.

The air tight, insulated oven—possible only with electric heat—prevents evaporation with its consequent shrinkage of foods and loss of flavor and food value. Heat is stored up for cooking after the current is turned off. None escapes. The kitchen stays cool and pleasant. There is no danger from fumes or overheating.

If you will come in we will gladly demonstrate these advantages to you and show you a style of range particularly adapted to your needs.

The most remarkable tobacco ever offered to pipe smokers — in quality, in value, in taste

Back about 1870 James N. Willman developed a secret tobacco process which won instant and widespread favor. It yielded a fuller-bodied richness, mildness and fragrance which just seemed to "go" with a pipe. PIMPLES AND BUMPS TAKE THE JOY OUT OF LIFE

Girls, and boys too, whose faces are "broken out," rough, pimply and blotched, imagine all sorts of weird things.

The worst fault it leads to is using just anything which promises them relief from their conditions, which often makes their trouble worse. Never put anything on your skin which has not been proven by the test of time and public opinion to be right. In this connection the phenomenal success which is called Black and White Ointment and the soap, too, offers sufferers from such skin diseases the one reliable and dependable means of relief and restoration of their skin to that clear smooth and lovely condition.

Black and White Ointment and Soap are economically priced, in liberal size packages. The 50c size of the Ointment contains three times as much as the 25c size. All dealers have both the Ointment and the Soap. (adv)

JAZZ ACCUSED OF THWARTING GIRLHOOD

CLEVELAND, March 2—The heavy emotional stress of the present day life of the younger generation, as exemplified by dancing, moving picture joy riders, jazz and the like, has produced a race of prematurely adult women, who are over-stimulated, under-nourished, hypersensitive, and incapable of carrying on their share of the work of the world, Miss Bertha L. Swope, supervisor of physical edu-

cation for girls in the East Cleveland school, declares.

"Responsibility for present conditions is with the parents," Miss Swope declared. "Parents permit their daughter to indulge in all the frivolities of the time, and refuse to cooperate with teachers who are trying to guard their welfare."

Miss Swope said that recently she sent invitations to mothers, asking them to attend a conference designed to take steps to make the girls in the schools better fitted physically, but that "not one mother" in the exclusive residential suburb accepted the invitation.

"I have noticed a great change among girls in the 16 years that I have been doing this work," Miss Swope continued. "Ten a girl of 15 was content to be a child and to play like a child. But a girl of 15 now dresses like a woman and wants to be considered a woman. Modern life has robbed them of girlhood."

This should in our estimation, apply to boys as well. Adv.

Go Back ten years in a night - dat gray hair

There is a simple hair dark and glossy like a girl's. To end all the streaks of gray and thus deduct from 10 to 20 from one's apparent age.

The way is so simple. Apply Sage tea and sulphur. Brew it at home, if you wish, as less women did in the old times. It is a better way.

Now the action comes ready-prepared in a laboratory. It is not messy. Sifted factors in it make the hair beautiful.

Your druggist has this modern preparation under the name of Wyeth's Sage and Sulphur. It costs but little, and will find it vastly better than a comb made at home.

Apply it as directed. In the morning the hair grows. Apply it once or twice until the hair returns to the color, the luster, the softness of youth.

You will be glad to learn that gray hair is curable. That dark hair can always be like a girl's. And the result is so even, so natural that none suspect it.

The old way the best way. Prove it for yourself. Just ask your druggist once—for a bottle of

TO BETTER SEED

Nolan County Farmers Plan Organize
Better Cotton Seed Ass'n—To
Meet Saturday.

Plans to organize a better cotton seed growers' organization are being formulated in the county by a number of farmers. The purpose of the organization is to secure a better grade of seed for individual use and to market the surplus of such seed for planting purposes, at a much higher price of course than could be obtained otherwise.

Members of the organization would start by purchasing a high grade seed then secure the services of an expert from A. & M. College for the purpose of culling out all plants that are not up to the standard for that type during the growing season. When ginned such seed would be kept separate. Practically no cost is involved in the proceedings other than the purchase of a higher grade seed than perhaps would be the case.

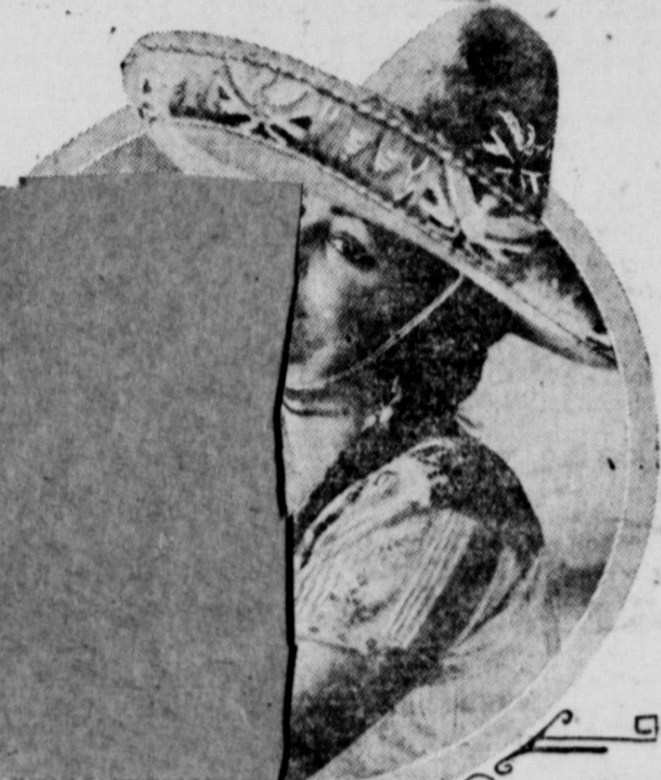

The call for the meeting was issued as follows:

"For the purpose of producing good cotton seed for mutual benefit, and for the purpose of marketing the surplus seed produced, the undersigned farmers issue this call for a meeting at the court house, Saturday at one o'clock, March 7, to consider plans for perfecting an organization to produce high class, quality cotton seed and to market the same. All farmers interested are requested to be present."

Adjournment on March 21—
May Run Over Time.

By United Press.
AUSTIN, March 3.—Tired and glad to get their feet on the ground here after a three day vacation trip and legislative junketing party in the lower Rio Grande Valley, solons of both houses got back to work today. Both houses opened at 10 this morning in an attempt to wind up the remaining work of this session in the 10 working days that remain before the close.

A joint resolution calling for the sine die adjournment on March 21 has been on the speaker's desk for several days.

Several legislators have expressed the belief that it will be necessary to continue for a week after the end of the regular session to complete the work and are in favor of allowing the solons to work on at a reduced salary rather than calling an extra session.

HEATH AND CAFE HAVE FIRE LOSS

Early Morning Blaze Damages Stock
Bon Ton Restaurant and Tailor
Shop \$2,500.

STARTS IN RESTAURANT

Believed Coffee Urn Responsible For
Conflagration—Building Not
Much Damaged.

An early morning fire, which is believed to have started from an electric coffee urn in the Bon-Ton Cafe, damaged the cafe and the Heath Tailoring Co., both located on the east side of lower Oak Street to the amount of about \$4,000 at 4 a. m. Tuesday. The losses are partially covered by insurance.

The blaze was discovered in the Bon-Ton Cafe by night police Hudson who turned in the alarm. Three trucks from the fire station, only a block distant, answered the alarm and succeeded in checking the blaze before it gathered headway. Much of the damage was due to smoke and water. The fire boys showed quick and effective work in fighting the blaze which doubtless would have swept the whole block had it got beyond control.

The principle damage was done to the stock of the two buildings. The buildings proper were only slightly damaged. A large hole was burned through the wall of the cafe into the tailor shop. A large stock of clothing was damaged in the tailor shop, according to Horace Heath, owner of the business. Overcoats, shirts, hats and caps were damaged by fire and water. The loss to the stock and fixtures in the tailor shop was estimated at \$2,500. Insurance was carried on the stock to the amount of \$1,500 and on the fixtures to the amount of \$1,000.

The cafe's loss was estimated at about \$1,500 and was covered by insurance. The cafe was owned by Fred English who only a few weeks ago had bought it from Vic Montgomery.

In response to a previous alarm which was turned in shortly after midnight, the fire boys made a quick run to the south side where a small barn was blazing. The barn, which was part of the property owned by Mrs. Hollis, caught from burning trash, it was reported, and was in flames when the firemen arrived. The blaze was extinguished but the barn was practically destroyed. The loss was estimated at \$150.

REPORT SALES

Sweetwater Has Subscribed \$2,500 To
Nolan County Fair in Drive
Here—Continue Sales.

Fair stock amounting to approximately \$2500 or over 100 shares has so far been sold in Sweetwater by committees in charge of the drive locally, it was reported at a meeting and luncheon of the Fair Board of directors Monday afternoon. Several officials of the fair association were not present and a full report of sales was not available.

Further progress in share sales in the south part of the county, especially in the Blackwell territory was reported. The drive over the County will continue until each part of the county is well represented among the share holders.

The drive which opened at Sweetwater late last week has been slowed up on account of sickness, other business and various delays, but the committees will renew their work in earnest it was reported and endeavor to give every citizen in Sweetwater an opportunity to own shares in the Nolan county fair.

A full report of the progress made in selling the stock in other sections of the county was not available at the Monday meeting but the drive is still going on and it is expected that fully half of the 400 shares to be sold will be purchased by out of town citizens before the campaign draws to a close.

DEFERRED BENEFITS

Return from France of Top Sergeant John T. Loftus, last member of the A. E. F. on overseas duty inspires the Christian Science Monitor to remark:

"America should certainly feel entitled to realize that the war is really over. And might not the question be asked in this connection, with expectation of an affirmative answer, is it not about time that the term 'war tax' was eliminated? If, for example, the government feels that the theatre tax still needs to be collected well and good. But not only does the frequent use of this phrase keep the war thought in consciousness, but also by furnishing a cause of irritation to many people it tends to do anything but make for 'on earth peace good will toward men'."

HERRIN'S COME BACK

Herrin deserves well of the country. Bullet holes in its walls have been plugged with pity, it has buried its dead, and tranquility has endured for a fortnight. Then to secure this compact by which a pastoral community returns of its own motion to community with its neighbors in the walks of law and order, an evangelist is holding forth in that stricken city. Many a citizen is disarming and crowding forward to the mourners bench, pledging no further indiscriminate shooting in the streets, by way of qualification for life in kingdom come. This restoration to grace argues many things, chief of which is that when a city's two-gun men thirst for blood and glory are escorted by their own folly or bad aim to the burying ground, life and happiness are much more likely to be the portion of disinterested citizens who are fortunate enough to survive the carnage.

A PRODIGAL'S HOME-COMING

Lieut. Osborne Wood, repentant but somewhat experienced soldier of fortune, is homeward bound from Europe to give his nation a modern demonstration of the proper return of a prodigal son. His fortune, quickly gained in market gambling, was just as speedily dissipated in riotous living. But he seems to take his losses with the same philosophy that impelled Johnny Walker, hero of a Richard Harding Davis story, to streak it for the nearest recruiting station: "I have made a damn fool of myself in this city but nothing worse". Johnny Walker told the desk sergeant: "I guess its the choice of the navy, where they'll keep me straight, or going to the devil in my own way." Prodigal Mr. Wood's apology follows the same trend: "I danced, so now I'm willing to pay the fiddler." So he too will go back to the service. Over in the Philippines is a general and a father who could tell his wayward son how to get a new start.

If the son is sensible to good advice his European misadventure will not be a permanent set back. In a way his youth's distresses ought to make some of the capers in congress ashamed of themselves. When the young lieutenant was piling up his winnings as the result of stock market speculation a few of these congressmen made no effort to disguise their suspicion that

POLITICAL ANNOUNCEMENTS

The following announce their candidacy for election to the various city offices for the ensuing two year terms, subject to the action of voters at the city election to be held April 7, 1925:

- For Mayor: James H. Beall, Jr. John J. Ford For Street Commissioner: M. C. Manroe. Walter Trammell (re-election). For Water Commissioner: L. E. Musgrove (re-election). Horace Wade. Roy Bardwell For City Secretary: W. H. Bartlett (re-election). S. H. Shook. Mrs. Jia Trammell For Chief of Police: W. R. (Buck) Johnson (re-election) L. G. (Gordon) Headrick.

the incident must have a more or less sinister association with General Wood's administration as governor of the Philippines. They more than hinted that the games came from tips received for favors granted. A few of them even demanded an investigation. Now that the prodigal son has lost his possessions by the same erratic means that he gained them, General Wood's proved disassociation with either the gains or the losses brings no word of apology from the malecontents who were so hasty to bring insinuation against an able and trusted public servant. Of course not. Fairness has no part in their policy.

SEEKING EDUCATION

WASHINGTON, March 3.—The cry of American business for men who are specially trained in particular branches is being answered by colleges and universities.

The air tight, insulated oven—possible only with electric heat—prevents evaporation with its consequent shrinkage of foods and loss of flavor and food value. Heat is stored up for cooking after the current is turned off. None escapes. The kitchen stays cool and pleasant. There is no danger from fumes or overheating.

If you will come in we will gladly demonstrate these advantages to you and show you a style of range particularly adapted to your needs.

Watch Your Daughter!

Dallas, Texas—"After I had the measles I had severe headaches and was very thin. I was all rundown and in a miserable condition. I had two doctors who did me no good. My mother, who had used Dr. Pierce's medicine in her family for years, gave me the 'Discovery' and after taking two bottles my headache stopped and now I am fat and well. I shall always praise Dr. Pierce's Medicine."—Miss Trixie Morrow, 1715 So. Lamar St.

Dr. Pierce's Discovery is a well known tonic and builder that can be procured in tablets or liquid at your neighborhood store.

If Back Hurts Flush Kidneys

Drink Plenty of Water and Take Glass of Salts Before Breakfast Occasionally

When your kidneys hurt and your back feels sore, don't get scared and proceed to load your stomach with a lot of drugs that excite the kidneys and irritate the entire urinary tract. Keep your kidneys clean like you keep your bowels clean, by flushing them with a mild, harmless salts which helps to remove the body's urinous waste and stimulate them to their normal activity.

The function of the kidneys is to filter the blood. In 24 hours they strain from it 500 grains of acid and waste, so we can readily understand the vital importance of keeping the kidneys active.

Drink lots of good water—you can't drink too much; also get from any pharmacist about four ounces of Jad Salts. Take a tablespoonful in a glass of water before breakfast each morning for a few days and your kidneys may then set free. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for years to help clean and stimulate clogged kidneys; also to neutralize the acids in the system so they are no longer a source of irritation, thus often relieving bladder weakness.

Jad Salts is inexpensive; can not injure; makes a delightful effervescent lithia-water drink which everyone should take now and then to help keep their kidneys clean and active. Try this; also keep up the water drinking, and no doubt you will wonder what became of your kidney trouble and backache. By all means have your physician examine your kidneys at least twice a year.

MARY JANE'S MERRY JOURNEYS IN THE ENCHANTED FOREST

"Well," said Mary Jane, "you certainly give yourself a funny name. Where I live you're called a 'possum.'"

ONE evening as Mary Jane was walking home through the Enchanted Forest she saw the fuzziest little animal with a wee one peeping out of its pouch, swinging by its tail from the tree just in front of her.

"Aren't you afraid of dropping your babies?" asked Mary Jane. "Oh! no," replied the fuzzy mother, "I am the Didelphys, and I always swing this way."

"Well, you certainly give yourself a funny name," said Mary Jane. "Where I live you are called a 'possum' and I think you're playing 'possum' with me right now."

Just as Mary Jane said this, the 'possum suddenly dropped and landed on the path. Mary Jane ran over to see if she were hurt, but couldn't get a peep out of her. So she put down her lunch basket and ran to the little stream rippling by, for water to sprinkle on the poor little

'possum's face. But when Mary Jane got back no 'possum was to be seen!

Then she heard a wee voice in the tree overhead. "Ha, ha, Mary Jane, I fooled you that time—I certainly did play 'possum' with you! I know you always have that delicious Mary Jane Syrup with you, and I was so hungry I took what you had left away with me in my pouch for me and my babies. Good-bye and thank you, Mary Jane."

Mary Jane knows how everybody enjoys the delicious flavor of MARY JANE SYRUP and was glad that the hungry little 'possum had been able to find something so good for herself and her family as in Mary Jane Syrup. So she picked up her empty basket and ran home in time for a supper of hot cornbread and MARY JANE SYRUP.
