BOOSTERS ACTIVE AT CONVENTION

Receive Generous Applause From
Huge Crowds—City Can Win
1927 Meeting

BANDS ARE FAVORITES

Returning Delegates Declare Sweet-
water Well Represented at C. of
C. Convention

"Sweetwater's participation in the West Texas Chamber of Commerce convention was very satisfactory from every standpoint; a lively delegation, two splendid musical organizations and tireless boosting made this city one among the several outstanding delegations of the entire three days." This is the unanimous report brought back from Mineral Wells by returning boosters Wednesday night and Thursday.

The majority of delegates returned last night, while others arrived here today. Recent rains lengthened traveling time between the convention city and home, it was stated, although all delegates arrived safely.

Sweetwater folks were loud in their praise of the way in which Mineral Wells handled the big show. It was the prevailing opinion among local citizens that the convention was a great success from every angle, despite the fact that rains interfered with activities toward the close of the convention.

Crowds Hear Bands

A conservative estimate numbered the Sweetwater delegation at 200, including the 30 odd members of the band. Sweetwater's headquarters at the Palace Drug store in Mineral Wells was admitted to be the choicest location in the city. It was the best located headquarters there, and was in the center of activities at all times.

The Sweetwater Boys band and the Saxophone band were the two features of the local delegation that attracted more attention for Sweetwater than anything else. The Boys band, while it did not enter contests, attracted great crowds at every concert. Band men and even contest judges were loud in their praise of the fine qualities of the band. Hundreds of people flocked about the Sweetwater headquarters daily to hear the band play.

The Saxophone band was a favorite with the entire convention. This organization, which is probably the only one of its nature in this entire section played from daylight to dark, almost. The crowds wouldn't let them stop. Hundreds of requests from various delegations for special numbers were granted by the Saxophone artists and all hotels in the city were competing for concerts by the band in their respective lobbies.

Sweetwater made a better showing at the convention than the majority of towns, it was declared, being excelled only by delegations from Amarillo, the convention winning city, Wichita Falls, San Antonio and Abilene.

Towns Pledge Support

"Sweetwater can have the next convention, 1927, if the city wants it," was the universal verdict of local boosters who were close spectators of this year's convention race. Wichita Falls, which had a parade in Mineral Wells four blocks long, will be one of the strongest competitors at Amarillo next year. Sweetwater, however, through boosting and work of local delegates among the Mineral Wells crowd, already has the pledged support of over a score of towns in this section and it is generally agreed that this city will win next year providing the convention is badly wanted. It will take the co-operation and wholehearted efforts of the town as a whole however, many stated, to get the big event.

City Well Policed

Delegations from everywhere declared that Mineral Wells deserved credit for having one of the cleanest and best conventions ever held. Practically no lawlessness existed, it was declared, and the city was the best policed section in the entire state during the three days.

Several Sweetwater people were outstanding in activities of the convention. Jack Yarbrough, Nolan county sheriff and typical West Texas officer, gave his aid to the police department in Mineral Wells and was active in keeping down lawlessness during the convention. John McCurdy, secretary of the Sweetwater B. C. D., was one of the busiest men in the city. He presided over a dinner and meeting of West Texas Secretaries held one night during the convention. McCurdy will go to Marlin May 25, 29 and 30 to the annual meeting of the Secretaries' organization and is slated for an address at that time. M. C. Manroe, Harry Lemair and a number of other Sweetwater musicians played with the famous Fort Worth Shrine band and

Thursday morning, spent a tuncful 30 minutes in the city and departed via Santa Fe for the next leg of their long swing through the Southwest.

The Kansas Citians promptly debarked, formed in line, and headed by their band, paraded around the square, with the attractive red and black umbrellas they carried bobbing conspicuously. At the corner of Third and Oak, the band played several numbers, and then came the song "Sweetwater, How De Doodle Do." Miniature sheep bells and other souvenirs were distributed.

While the trade evangelists were doing their stuff up town, their special train was transferred over to the Santa Fe and the Boosters departed shortly after 9:30 a. m. The special was composed of two diners, two baggage cars and five Pullmans. It left Abilene at 7 a. m. making the trip over in approximately two hours. STEADY RAIN IS FALLING

Downpour Still Continuing at

By United Press.

DALLAS, May 7.—A flood warning was sent out today to residents of the Trinity river bottoms today as weather reports told of continued rain in North Texas.

Streams are running bankfull in many places and floods will result, it is feared.

The Trinity river here reached the 16-foot stage early today and is steadily rising. Little damage is feared until the stream passes the 30-foot stage.

Rain amounting to 3.1-2 inches had fallen in Dallas up to noon and the downpour, which had continued for 14 hours, was still in progress at that hour.

Fort Worth reported 3.75 inches of rain at 8 o'clock today with the Trinity river on a 12-foot rise and steadily coming up.

The slow steady rain is reported to be general over the north half of the state and is generally welcomed by farmers.

Lake Fishermen Are Bringing In Some Weird Tales

Weird tales are floating in from fishermen on Lake Trammell these days. While the bass are not biting to any great extent as yet, stories of monstrous croppie and even a big mallard duck snared by anglers are going the rounds.

The duck was reported to have been captured by Marshal Pior. Mr. Pior said he was casting for bass. Failing therein, he spied a flock of duck on the water and cast among them, hooking a big specimen by the neck. Mr. Pior claims to have several witnesses to vouch for the accuracy of this tale.

Lake Keeper, John Rowland was in Sweetwater Thursday and told of securing a croppie that weighed five pounds and of watching a lad fishing with his father who landed a croppie that weighed all of nine pounds. He says the croppie are responding to treatment very satisfactorily but the bass are not.

There was no rain at Lake Trammell Wednesday night, but Tuesday night a slow rain fell on the watershed all night long, falling however to affect the level of the lake appreciably. Incidentally Mr. Rowland had two fingers decorated with bandages as the result of having an argument with his automobile engine. He was applying rosin to a lazy fanbelt and his hand was carried on around the pulley.

The total for the year up to 8 o'clock Thursday morning stands at 6.27 inches. The rain was much heavier to the east of Sweetwater but did not extend any great distance west, according to the Texas Pacific office here, the downpour ceasing in the vicinity of Westbrook.

Now Hartman is wondering whether some one did some "surreptitious substituting" and how they could have timed the hatching to a nicety—since duck eggs require four weeks for hatching and hen eggs three weeks.

EXPORT THIS LOGIC

Secretary Hoover has issued a proclamation giving a good impulse to Better Homes week, which is set for the period from May 11 to 17. He announces that it depends largely upon home training whether the next generation will move toward "clean government, healthy development of our economic and social system, and fair dealing and good will between nations" or whether it will drift toward "corruption in government, bitter class conflicts, and the international hatreds and jealousies that culminate in wars." America's citizenship is willing to admit the force of these arguments, and will do its best to live them. Now isn't there some way the secretary of commerce can set their principle to working on the other side of the Atlantic to abate the hatreds and jealousies and class conflicts that grow as weeds in a neglected garden?

THE AFTERMATH

Herr Hindenburg's political comeback has produced one certain effect upon world policies. There will be no disarmament conferences next summer. Foreign troops will be slow in leaving the region of the Rhine. Munitions factories will begin to prosper. Standing armies will take on new numbers. Right Sabbath day oratory by Mr. Hibbard will have another vogue. National markets will not grow less in spite of the demand of many European nations for relief from war time burdens. And for the next few years, at least Uncle Sam may whistle for any voluntary effort on Europe's part to repay his civilization-saving loans. It is not every national election that has such an aftermath.

Such popularity must be deserved

THE "man-in-the-street," the "man-in-the-limousine"—men in all walks of life, laugh with Bud Fisher. He draws more smiles, perhaps, than any other cartoonist in America. Depend upon it, the public recognizes the real thing—whether it's cartoons or cigarettes. Witness the sustained popularity of Chesterfield cigarettes. Here again men have found the real thing, in better tobaccos, and in richer, milder, more satisfying taste.

NOVEL TIME REPORT

DALLAS, May 7.—Fire Chief Tom Myers may not be a household name, but city jury would convict him upon circumstantial evidence after reading his daily report. Here's the way the chief turned in the Daily Chronicle: "The fire had a bad day yesterday; no hits, no errors. Is it not wonderful what a little rain will do sometimes?"

NO ONE LIKES TO LOOK AT A "BROKEN OUT" FACE If people who are bothered with pimples, eruptions, blotches, bumps, rash, "breaking out," etc., would just notice or ask their dealer they would find that thousands of people who once were in the same shape they are in are now free from their distressing things, and the secret of it is that they have learned that the one sure way to do it is by using the wonderful Black and White Ointment, together with Black and White Soap. Black and White Ointment is economically priced in liberal size packages. The one size contains three times as much as the 25-cent size. All dealers have both the Ointment and the Soap. —Adv.

Ouch! A touch of rheumatism. Flush it out!

That pain you call rheumatism is caused by acids and poisons in the system. The kidneys and pores should remove them. But cold or dampness may close the pores. Then the kidneys, overtaxed, may grow sluggish and rebel. One must remove those poisons, and the way is this: Drink plenty of water—many glasses a day. To the morning glass add a little Fajal Salt. That makes an effervescent drink. Fajal Salt is made from the acids of grape and lemon juice combined with lithia. It is made to stimulate the organs of elimination. Results usually come in one hour. The poisons removal starts. In the same way, morning for a week. A large amount of poison will disappear in that time. We believe you will find relief. Remember those results. At the first twinge of rheumatism start on water and Fajal Salt. Countless people save much suffering in that way.

CITATION THE STATE OF TEXAS, To the Sheriff or any Constable of Nolan County—GREETING:

You are hereby commanded to summon Roe Irvin by making publication of this citation once in each week for four consecutive weeks, previous to the return day hereof, in some newspaper published in your county, to appear before me, at the next regular term of the District Court to be held at my office in the City of Sweetwater in the County of Nolan, on the 22nd day of June, A. D. 1925, to answer the suit of Commercial Credit Company, Inc., of New Orleans, Louisiana, Plaintiff, against Roe Irvin and F. O. Senter, defendants, being numbered No. 273 on the docket of said County, the Plaintiff's demand being for the sum of One Hundred Eighty and No. 100 (\$180.00) Dollars, the balance due upon a certain promissory note dated December 14, 1923, in the principal sum of \$211.00 payable to the Aspermont Motor Company, which the plaintiff alleges is an unincorporated business owned by F. O. Senter, payable in any county in the State of Texas at the election of the holder, and the holder herein elects to sue in Nolan County, Texas, executed by Roe Irvin containing clause agreeing to pay a reasonable attorney's fee in case said note is placed in the hands of an attorney for collection of not less than 15 percent of the amount then due, and indorsed by the said Aspermont Motor Company by F. O. Senter, owner, to the Commercial Credit Company, Inc., of New Orleans, Louisiana; Plaintiff represents that by reason of the execution of said note and the enforcement of the Defendant, he has become liable and obligated to pay the several sums stated in said note to the plaintiff, but though often requested, he has failed and still fails to pay the same, with the exception of a credit

of \$50.00 on said note of date September 28, 1924, and a payment of \$50.00 upon said note of date October 23, 1924, and a credit of \$180.00 dated November 4, 1924. That said note was placed in the hands of Beall, Beall & Beall, Attorneys for Commercial Credit Company, for collection on October 6, 1924, and that there is a balance due and unpaid of principal, interest and attorney's fees at the present time, of \$180.00, for which amount plaintiff sues. That to secure the above described note, the defendant Roe Irvin on the 19th day of September, 1924, gave a Chattel Mortgage on a Ford Coupe, Motor No. 4877391, which said Chattel Mortgage was filed for record the 19th day of December, 1924, in the County Clerk's office, Stonewall County, Texas. Plaintiff sues for foreclosure of said Chattel Mortgage lien and costs of suit, and for such other relief, both general and special, as to the Court may seem proper in the premises.
