PRESIDENT CLINTON'S cabinet members have been much in the news for the first two years of Clinton's administration. To those of us out in the nation's heartland. the cabinet could almost be called "Misfits and Oddballs, Inc."

history have we had such a collection of strange and unusual people. Oh, well: P. T. Barnum and his partner, Mr. Bailey, perhaps had a group that could outdo the current cabinet, but they were rightfully displayed as "circus freaks," and weren't empowered with the our nation.

Texan Lloyd Bentsen, the Secretary of the Treasury, is no doubt wondering why he agreed to join this cabinet. We never have been much of a Bentsen fan, mainly because his vote always cancelled out the conservative votes of our other senators from Texas, ngton-Atlanta and Chicago-New including the late John Tower and York Jets. present senator Phil Gramm.

But compared to his cohorts, Bentsen almost comes across as Thomas Jefferson.

At the present time, at least two cabinet members are under fire: Housing secretary Henry Cisneros, and Agriculture Commissioner Michael Espy.

San Antonio, is under fire for possibly misleading FBI agents about his financial arrangements with a former girlfriend, Linda Medlar of Lubbock. Late last week, Cisneros admitted that he paid Medlar \$50,000 on three occasions after he took over the Department of Housing and Urban Development (HUD). He had denied this as

recently as two months previously. Espy is under fire for accepting unlawful contributions from private industries, such as Tyson Foods, and for illegal use of government equipment and vehicles. He has made considerable amounts of restitution in recent weeks, but many insiders feel that Espy has been hurt to the point that he may have to be replaced.

Then there is our Surgeon General, Joycelyn Elders, who has managed to insult virtually all americans with any amount of character, in her approach to controlling teenage pregnancies. Ms. Edlers feels that the best approach is to hand out free condoms in our public schools. Her own son has been arrested on drug charges, but it doesn't seem to bother her.

Ms. Elders is somewhat like the mother in New York who wanted to hold the city responsible for her son's murder, after the youth was killed by rival gang members. Never mind that he had an arrest record as long as your arm. People are going to have to admit sooner or later that the shape of our nation and its character begins at home, where the child has to receive some guidance and teaching about right vs wrong.

Clinton made it clear that he was going to appoint cabinet members who were "politically correct." In other words, he wanted a proportional number of blacks and other minorities represented, as well as a good women-to-men balance.

The current cabinet is an excellent example of what happens when you strictly follow the "affirmative action" theory of hiring, where you have to have a fair proportion of members of ethnic minorities, women, etc. It is becoming more blatently apparent as times passes that many of the Clinton appointees were made more on the basis of their skin color or sex (or both) than their qualifications.

Don't get me wrong, I'm all for hiring a proportionate number of minorities and/or women. But the Cabinet, as well as the Supreme Court, is a tough place for on-thejob training.

Attorney-General Janet Reno, after shouldering much of the blame for the Waco disaster early in her term, has managed to stay mostly away from controversy, as have (Continued on Page 3)

Fall Weather Feels More Like Summer

It may have been late September in Friona, the first full week of fall according to the calendar, but after a few cool mornings last week, the mercury topped out at summer-like highs during the last week of the month.

Official highs at Friona's NWS station were 96 on Wednesday and 94 on Thursday. The mercury hit 90 or above four straight days through Thursday, and they were the only days all month of 90 or above.

The 96 reading is probably a record high for the date, as it was at Amarillo.

No additional moisture fell during the week, leaving September with only .72 inches of moisture. The total moisture received for the calendar year 1994 stands at 16.67 inches, close to normal.

students throughout the nation are being honored for their exceptional academic promise. They placed among the top five percent of more than a million students who entered the 1995 Merit Program by taking the 1993 Preliminary SAT/National Merit Scholarship Qualifying Test.

Although the qualifying test scores of commended students are outstanding, they are slightly below the level required to continue in the competition for Merit Scholarships to be awarded in 1995.

A Merit Program spokesperson commented, "It is important to acknowledge the attainments of academically talented students and to credit schools for the key role they play in their development. We hope the recognition received by the able young men and women who are commended in this rigorous, nationwide competition will encourage them to take advantage of their opportunities for higher education and to diligently pursue their professional goals. The nation will benefit from the full development of this precious intellectual resource."

C. L. Mercer Rites Held Wednesday

Funeral services for Charles Lloyd Mercer, 89, were conducted at Friona's First United Methodist Church Wednesday morning, September 28, with Rev. Lee Roark, pastor, and Rev. Steve Stephens of Midland officiating.

Burial was in Friona Cemetery, under the direction of Ellis-Blackwell Funeral Home.

Mercer passed away September 25 at Parmer County Community Hospital.

In 1929 he "broke out" a half section of land near Earth, Texas owned by Alexander Brothers, who had employed him as a young man.

He was born March 3, 1905, in Geneva, Nebraska. He married Edith Bomar June 8, 1930. He worked for a cattleman and farmer, doing all sorts of ranch work, while his wife did housework and cooked for the hired hands.

In January of 1931 he moved to Parmer County, nine miles northeast of Lazbuddie, then later to his "home place" eight miles east and one mile south of Hub.

Recalling the Dust Bowl days for the Parmer County History book, Mercer said "Some storms were so severe the sun was hidden and the day was almost dark. Fences were covered; fields of wheat ruined. Times were hard. Money was scarce. Wheat brought as little as 24 cents per pound; maize brought 20 cents per hundred. Cotton pickers earned 25 cents per hundred for pulling cotton. Young jackrabbits became a delicacy. Pinto beans were raised for food. But all in all we got by!"

Mercer was a member of the First United Methodist Church of Friona, having served as chairman of the board of stewards for many years, as well as teaching Sunday School. He also had served on all of the various church committees through the years.

His wife Edith died January 14, 1977, from a heart attack. He married Mildred Sullivan March 20. 1978 in Miami, Oklahoma.

Chieftains Outscore Dalhart By 22-13

With their 22-13 win over *********** Dalhart, the Chieftains got their second win of the season to even their record at 2-2. The running game intact, the Chieftains worked on improving their passing game as

Juan Gamboa led the offense with 105 yards on 23 carries, which started when he scored on a 20 yard run. Kit Preston added to it with the P.A.T. for an early 7-0 lead.

Jay Belcher followed up with a 17 yard quarterback keep to make the score 13-0.

A safety against Dalhart made it 15-0. The Wolves' Brian Hodo managed a 21-yard touchdown before the half, making the score 15-7 going into the third quarter.

Belcher scored again after the half on another quarterback keeper. Preston's kick gave Friona a 22-7 lead. "The linemen were doing a good job blocking," said Belcher.

And about the passing game, Belcher commented, "I'm starting to be more patient because I have a lot more time to throw. The linemen were doing well pass blocking,

Just as in the Dumas scrimmage, there was another inadvertent whistle by the referee. It was on the play action pass.

"Lance Looper does a good job faking a run," said Belcher. So good, in fact, that the referee called the ball dead before a pass to Jimmy Arias could be completed. That didn't discourage Arias, though. He had three catches for 35 yards and "no trouble getting open."

In the final quarter, Hodo scored for the Wolves again with a fiveyard run. The final score was 22-13.

Colby Carthel led the Chieftain "D" with 10 tackles. Carthel's two big plays took place in the fourth quarter: once on a two point conversion attempt, and once when the Wolves were one yard from the goal on their fourth down.

"We have a blitz where Dale Perez goes inside and I go outside," said Carthel. "They took Dale, so all I had to do really was fall on the

Dale Perez and Cory Hamilton each had nine tackles. "Overall defensively we had a good night,"

Chief Win Snaps DHS Home Jinx

The Friona Chieftains made history last Friday, as their 22-13 win over Dalhart was the first-ever football win over the Wolves on their home turf.

The two schools have met on the gridiron off and on beginning in 1942, but Friona had never beaten Dalhart in their own den. The 1973 Chieftains threatened, dropping a 19-13 decision.

Prior to last Friday, Friona had claimed only seven wins over the Wolves, and all had been at Friona. Also prior to last Friday, eleven Chieftain teams and their fans had a long trip home from the old XIT headquarters having to say "Just wait 'till next year."

Dalhart still leads the all-time series, 17 wins to eight, but Friona has a new-found two-game winning streak over the Wolves, and that's the first time since 1942-44 that has happened.

******* said Hamilton. "We only gave up 220 yards, which was the least

amount of yards we have given up all year." The Chieftains had a lot of penalties: 15 for a loss of 95 yards. Head coach James Morton said, "a lot of our mistakes were mistakes of aggression. The guys were fired

up and trying too hard. I'm pleased

with the effort and intensity displayed." The coaches are pleased with the win and overall performance, but still stress the need for a "killer instinct." When the opponents are down, the Chiefs need to keep them

out of the game. So, there are still a few areas that need improvement to achieve the final goal: the District Championship.

Eighteen members of the and Vernon Petty. graduating class of twenty-three were present. They were Elizabeth Cocanougher Gore, Jim Dixon, Harris Dunn, Teddy Fangman, Wayne Houlette, Clyde Hays, Laura Nell Hardesty Coffey, Lois Latham Stone, Donna Miller Mears, Gay Ann McFarland Cranfill, Kenneth McLellan, Jimmy Norwood, Glenn Reeve, Gaylon Rhodes, Anita Scarborough Howard, Sylvester (Gene) Hartis, W.A. It was also noted that no class members were deceased. Class members unable to attend were Gerald Barnett, Margie Haws Kinsey, Donald Green, Mary Bell McGlothlin Westbrook and Virgil Phipps.

Glenn Reeve received the "growing through your hair" gift. Jim Dixon won the "cowboy" gift. Anita Howard the "woman who had changed the least" gift. Gary Crow won the "first person to retire" gift, and Kenneth McLellan won a special award.

Teddy then asked each person to stand and identify themselves and relate what they had been doing the last forty years. He asked the class if they remembered the quote that was given at their commencement address. Kenneth McLellan was able to quote it: "A vision without a task is fantasy, a task without a vision is drudgery, but a task with vision is the hope of the world." A bond is a loan. It is an I.O.U. issued by a borrower to a lender. Private companies, municipalities, states and government agencies issue bonds to raise money. When you buy a bond, you loan money to the borrower, or issuer. The amount you loan is the principal.

The issuer promises to return your principal at a specified future date (the maturity) and to pay you regular interest for the use of your principal. For example, when you invest \$10,000 in a 5 per cent bond that matures on Jan. 1, 1999, the issuer promises that you will receive your \$10,000 principal on that date. The issuer also promises to pay you \$500 in interest each year for the use of your principal. Bond interest is typically paid semiannually.

A bond's quality is a major consideration. Independent research services such as Standard & Poor's and Moody's give bonds ratings based on the issuer's ability to make timely interest payments and repay the principal when due. Your broker can give you the quality rating on any bond.

The maturity, or length of time until the principal is repaid, affects the interst rate. Generally, the longer the maturity, the more interest a bond pays. New Options In Contact Lens

Today's contact lenses are more comfortable than ever. There are many more choices available now, so even if you weren't happy with contacts years ago, you deserve a second chance at success. Ask us about:

*Improved disposables. These new soft extended-wear lenses fit better than ever. They're ideal for someone allergic to cleaning solutions.

*"Non-stick lenses. Made with a deposit-resistant coating, these gas-permeable lenses avoid buildup of bacteria and other contaminants, a problem that affects some wearers.

*Hybrid lenses. These have a hard-lens center and a soft "skirt" around it. Result: the sharper vision of hard contacts combined with the comfort that soft lenses offer.

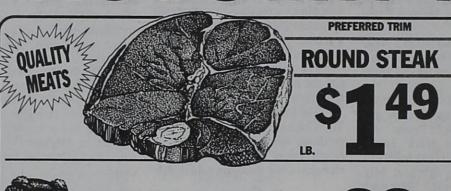

*Bifocals. There's now a wide variety of multivision options. Check with your optometrist.

*Ultraviolet blockers. Some lenses have built-in protection against ultraviolet radiation.
