RESIDENTS CAST VOTES FOR RESTRICTIONS

# Dog Ordinance Is Approved

Put to the ultimate test of public vote, a proposed city ordinance restricting the freedom of dogs was approved here Tuesday.

The vote: 239 for, 69 against.

Tuesday's turn-out eclipsed even the October bond election of last year, when residents approved the spending of \$770,000 for power and water facilities.

The "dog" election interest almost equaled the turn-out for the county last December, when 560 voters approved airport construction and some paving.

Crux of the ordinance, which probably will be enacted when City Council meets Aug. 1, is that any canine, licensed or unlicensed, can be impounded if caught running at large.

The ordinance will "prohibit, among other things, an owner from permitting a dog to run or be at large upon any public highway, street, alley, court, square, park, sidewalk, or any other public grounds within the city limits."

In an attempt to close all loopholes, the proposed ordinance will "not relieve the owner of the responsibility of vaccinating and tagging those dogs which even are penned."

Election judge Tuesday was David Nicholson. Clerks were Lee Fulton, Robert Noble Jr., and E. M. McBe. Voting was in City Hall.

**MOST HAPPY FELLA** — Brownfield Scouts and their leaders returned home Tuesday after three weeks on the road to and from the Fourth National Jamboree at Valley Forge, Pa. Happy though they were to be back, their gladness hardly excelled that of parents on hand to meet the buses. In picture: Kenny Kendrick is welcomed by his parents, Mr. and Mrs. John Kendrick of 1306 East Broadway. On hand to greet the arrivals were Chamber officers and city officials. (Staff Photo)

RE: TEXAS TECH

# Letter To The Editor

Dear Editor,

What! No guts? I waited with patience to see the first issue of the Brownfield NEWS after the "Gestapo-political" purge at Texas Tech.

I waited and wondered what, if anything, you would say editorially about such gag rule:

About such complete disrespect and disregard for freedom of thought and expression as we saw exercised by the summary dismissal of Texas Tech instructors—for no reason on earth except "Cheap political expediency."

But, alas, not one drop of ink did the NEWS see fit to "waste" on such an abominable act of treachery, notwithstanding the fact that both the publisher and the editor are Texas Tech alumni.

Are we to assume that the NEWS sanctions such dangerous tactics — after seeing them practiced by Hitler and Stalin? Or shall we just call it "complacency" and drift along with the same political machine that has domineered Texas for the past six years — a political machine that has given Texas practically nothing but shame, scandal and disgrace.

But I guess we can expect nothing better for the next four years, when we through more complacency stood by and allowed the reins of our state government to be handed from the hands of a politician.

See No. 4 Page 8

**TRULY, A WORK OF ART** — The monstrous drive shaft lying perpendicular to the floor in picture above is all the more wondrous because of its high polish and close tolerances. The shining piece of steel soon will become a part of the 390,000-pound Nordberg diesel engine which Brownfield residents bought last October for their electric power plant. The shaft equals the weight of eighty 500-pound bales of cotton. It nearly will extend from curb to curb across Main street. Workmen shown above are handling the shaft as though it were part of a fine watch — and its delicate balance when it becomes part of the whole will equal that of a fine watch. Shipping weight of the giant Nordberg from Wisconsin equaled that of 792, 500-pound bales. Each of the 10 cylinders are 21 1/2 inches in diameter — an automobile cylinder is about 4 inches. Brake horsepower is 4,630. Its kilowatt output will be about 1,000 more than that of the other Nordberg pictured in background. (Staff Photo)

FOR TCFB

# Contest To Be Talked

Committees setting up the annual Terry County Farm Bureau queen contest will meet at 2 p.m. today in South Plains Health Unit.

The group is expected to iron out final details of the Aug. 30 event, to be held in Brownfield High School auditorium.

Represented at today's meeting will be the entry, foods, program, decorations and publicity committees.

Official entry blank for the contest can be found elsewhere in this edition of the NEWS. See No. 1 Page 6

PRaised HIGHLY BY LEVELLAND

# Brownfield's Babe Ruth Tournament Team Barely Misses District 2 Title

Despite a brilliant 4-hit pitching chore by Eddie Gutterrez, Brownfield's Babe Ruth tournament team fell short of the District 2 championship as they lost to the north division of the Sundown-Levelland league, 8-3, at Levelland Friday night.

Brownfield entered the championship bracket by trouncing the south division of the Sundown-Levelland league, 12-6, last Thursday night.

Doug Coppock and Chuck Anderson provided the only spark in Friday's game as they accounted for five of Brownfield's seven hits. Coppock hit two, including a triple, and Anderson stroked three hits in four times at bat.

Players Are Lauded

Coppock also provided the punch in Thursday's game as he parked one over the wall in the first inning with two runners on base. Johnny Murphy scored four runs in the game as he hit safely three times in five attempts.

See No. 2 Page 6

# Anti-Polio Vaccine Is Used Here

Response to recent pleas that Brownfield adults get their anti-polio vaccine was described as "very satisfactory" this week by the county health officer, Dr. A. H. Daniell.

"At this time," explained Dr. Daniell, "many adults and children have had at least two of the Salk vaccine" shots in their family doctor's office or at South Plains Health Unit.

"Approximately 285 adults," the doctor added, "have taken or have begun their polio shots at the unit, and an equal number, or more, in offices of local doctors."

Vaccine used at SPHU for adults is furnished by the Terry-Yoakum Polio Foundation, whose funds are derived from that of March of Dimes, and is primarily for those who financially cannot provide for the series of three shots for each member of their family.

Said Dr. Daniell: "There is ample supply of the polio vaccine still available at your local physician's office or at the health unit, where an immunization clinic is held from 1 p.m. until 4:30 p.m., each Wednesday."

OPENING DATES SET

# Mickey Mouse To Be Kindergarten Theme

Mickey Mouse... one of America's best loved and most well-known figures... will greet the young student who attend the Mick 'n Minn kindergarten school located at 505 East Reppito this fall.

Operated by Mrs. Oliver (Doris) Grote (pronounced with a long "e") the kindergarten will cater to four-to-six year old pre-schoolers and will give them a basic concept of what "real" school will be like for them.

"Yes, I even plan to send out report cards at the completion of each unit," Mrs. Grote says. Explaining further, she said, "by having each child take home a report card, it teaches them the responsibility of relating messages to their mothers, something they will surely have experience with when their teachers send notes home with them."

The kindergarten will be taught in units, and Mrs. Grote already has set up fruit units, vegetable units, circus units, and various others. Studying

Wage Scale Finding Given by Department

Current wages for cotton hoe hands in Terry range from 50 cents to 60 cents an hour for mixed crews.

The foregoing information was contained in a July 22 telegram U. S. Labor Department to Aubrey Jones, manager here of Texas Employment Commission office. The wire was signed by Ed McDonald of Dallas, director of the department's Bureau of Employment Security.

Jones said... Tuesday that "More hoe hands are beginning to be available here, and farmers needing them should get in touch with the TEC office in the courthouse."

All-Star caps were presented to the group at pre-game ceremonies Tuesday. The youths will open district play at 5 p.m. Monday when they meet the Denver City team on Slaton's Little League diamond, said Pres. Arlie Lowmire.

All-Stars selected by team managers last week include Jimmy Foy, Yankees; Sam Richardson, Yankees; Teddy Howell, Braves; J. W. Harrell, Indians; Archie Jennings, Indians; David Chisholm, Giants; Bob Casstevens, Indians; Ronald Farquhar, Yankees; and Schedule Ends Friday

Mickey Willis, Braves; Connie Vernon, Yankees; Olan Boring, Red Sox; Dale Ruth, Red Sox; Don Chriswell, Cubs; Duane Neal, Cubs, and Buzz Steele, Indians.

Honorable ention votes were cast for Bill McGowan, Braves; David Auburg, Giants; Cecil Brown, Braves; Troy Noel, Red Sox; Mavis Box, Indians; James Kemp, Braves; James Choate, Giants; Gerald Chedester, Indians; Wayland Park-ester, Indians; Howard Moorhead, Giants; Gary George, Red Sox, and Charles Porter, See No. 7 Page 3

# Ruth League Nears Season End; Teams Fight For Top Spot

A 9-inning thriller wound up in an 8-8 tie as the Pirates and Tigers battled until 12 p.m. Monday night at Lions Club Park.

Doug Coppock of the Tigers scattered 4 hits during a 7 inning stint before giving way to a replacement. Jim Howell held the Tigers to 5 hits before tiring in the eighth. He also contributed a three-run homer to help his cause.

In the opener Monday Eddie Gutterrez of the Red Sox tossed a one-hitter at the Yankees to beat them, 6-3. Johnny Murphy rapped one over the wall for the winners.

**SEEK LEAGUE TITLE** — Brownfield lasses pictured above are in the current contest to see who'll be named queen of the Babe Ruth League night of Aug. 5 in Lions Ball Park. From left: Virginia Cooper, daughter of Mr. and Mrs. Andrew Cooper of Route 5; Linda Sue Franklin, daughter of Mr. and Mrs. A. L. Franklin of 602 East Main; Kay Howell, daughter of Mr. and Mrs. Buck Howell of 1301 East Hester; Claudia Chbschir, daughter of Mr. and Mrs. Leonard Chessir of 707

# Terry 4-H Girl Is Named To Position With Electric Camp

Genell Cornett, daughter of Mr. and Mrs. Earl Cornett of Route 5, was named to the 4-H Electric Camp Council in the closing session of the camp held at Lubbock Friday.

The Terry County girl was one of six officers elected from District 2, which covers some 20 counties on the South Plains.

Others who attended the three-day camp from here are Jeannie Solsberry, daughter of Mr. and Mrs. Thurman Solsberry of Pool Community; Linda Henson, daughter of Mr. and Mrs. Joe Henson of Route 1; Jackie Dill son of Mr. and Mrs. Rufus Dill of Union; Freddie Pickett, son of Mr. and Mrs. A. T. Pickett of 818 North D, and Hilbern Briscoe, son of Mr. and Mrs. Harold Briscoe of Route 5.

Jim Foy, county agent, and Bob Etheredge, assistant county agent, accompanied the group.

**AT STATE MEETING** — The four Brownfield Future Farmers returned home last week with Lone Star Farmer degrees presented to them at the annual FFA state convention in Fort Worth. From left: Mike Smith, son of Mr. and Mrs. Cecil Smith of 321 West Tate; Bill Walker, son of Mr. and Mrs. Guy Walker of 317 South First; Miss Janie Norris of Odessa, runner-up for state sweetheart; Johnny O'Neal, son of Mr. and Mrs. Cecil O'Neal of 503 East Buckley, and Kenneth Cason, son of Mr. and Mrs. W. J. Cason of Route 1. Not shown is another Lone Star Farmer, Wesley Britton, son of Mr. and Mrs. A. VV. Britton of Route 4, unable to attend because of illness. His award was accepted by Avon Floyd, son of Mr. and Mrs. Bern Floyd of Route 2. Floyd received an Anderson-Clayton scholarship.

PAGE TWO Brownfield News-Herald, Thursday, July 25, 1957

**AT DUNLAP'S** — Brownfield is very fortunate to have many good store managers. . . one of which is Kenneth Plotner, manager of Dunlap's. Plotner is shown above with one of the many fine articles awaiting your selection at his store. Whenever you shop — always try to let the friendly personnel at our Brownfield stores know how much you appreciate their courteous and helpful service — all you have to do is say: "Thank you."

**Brownfield Teacher To Receive Degree**

**PLAINVIEW** — Adela Oralia Hernandez of Lovington, N.M., is a candidate for the bachelor of arts degree at Wayland College's Aug. 4 commencement. She is the wife of the Rev. Samuel Z. Hernandez, and has been on a leave of absence from Jessie G. Randal School in Brownfield to complete the degree requirements. Mrs. Hernandez taught first grade pupils and conversational Spanish in Brownfield for four years. Her husband served as pastor of Mexican Baptist Mission there for seven years before moving recently to Lovington.

**Jaycee Junior Golf Tournament Opens July 31 At Midland**

Top junior golfers from all over the state will begin pouring into Midland for the 12th Annual Texas Junior Chamber of Commerce Golf Championship to be held July 31 through August 2. Midland's Ranchland Hill Country Club will be the site of the 36 hole medal play. Marion Pfeiffer, golf professional at Riverhill Country Club in Dallas, will stage an exhibition Wednesday. Competition is open to all boys in the state who will not have reached their 18th birthday prior to August 15, 1957. The registration fee for the tourney is \$9 per entrant. The top four winners of the Midland Tourney will receive an all-expense trip to Columbus, Ohio, to compete in the National Jaycee Golf Championship, August 19-24. Sam Coker, Chairman of the Texas Jaycee Junior Golf Championship, reported the deadline has been extended to July 30. Boys who are interested in playing in the tourney should contact Coker, P. O. Box 125, Midland, immediately.

Visitors this week in the home of Dr. and Mrs. Jerry Bailes, 1310 East Buckley, are his sister and family, Mr. and Mrs. Henry Boesch and daughter, Michele, who have recently returned from Trinidad, and Mrs. Bailes' cousin, Miss Susan Munn, of Stigler, Okla.

## Johnson's Newsletter

Senate debate on the civil rights bill has been helpful. It has clarified the issues involved. It has placed important facts before the Senate and the country. It has caused many Americans outside the South to realize that this is no simple yes-or-no proposition.

Senator Russell of Georgia said at one point: "We are dealing with an issue that is vital to the welfare of our states and to the peace and happiness and security of our people."

This has been heralded as a right-to-vote law. Now, everybody wants people to have the right to vote. But this proposed legislation goes far beyond that. Under the terms of the bill presented to the Senate, the Attorney General could haul our people into a Federal court and prosecute them without a jury trial. Federal troops could be sent into the South to enforce the statute.

I doubt very much that the Senate will accept the bill in the form passed by the House of Representatives.

Texas water projects got a big sendoff from the Senate Appropriations Committee. I am a member of that committee. I have been working hard to obtain approval for projects of great importance to Texas. It was a big day for me last week when the Committee recommended appropriations for 30 of these projects.

Ten surveys of Texas streams were included in the list. These surveys, if finally approved by Congress, will enable us to learn just where flood control and water conservation projects should be constructed. That is knowledge we need to have.

Federal expenditures for flood control and development of water resources total less than \$17 billion throughout all our history. We have spent almost four times that much for foreign aid in the last 12 years. Our investment in water development projects have not been large enough. We are going to have to do more.

Small business failures are up sharply. Outgoing Secretary of the Treasury of the Treasury Humphrey dismissed the rising rate of failures as "part of the post-war adjustment." Maybe there are other reasons. The small business share of defense prime contracts is now running at the rate of only 17.6 per cent. It was 19.6 per cent even in 1956. A one-year extension for the Small Business Administration has been voted by the Senate Banking and Currency Committee.

Do you like this News Letter? If so, I wish you would let me know. If you do not care to continue to receive it, I would like to know that.

## Three Are Initiated By Eastern Star Chapter

Brownfield OES Chapter 785 met Tuesday in Masonic Temple with Irma Smith, Worthy Matron, and Cecil Smith, Worthy Patron, presiding.

Three new members were initiated. A total of 31 attended, and refreshments were served in the Banquet Room by Mary Ellen Brown, Bess Noel and Irma Kendrick.

Joe Martin of Sulphur Springs is visiting his aunt and uncle, Mr. and Mrs. J. A. McCraw of Route 4.

## LEGAL NOTICE

STATE OF TEXAS COUNTY OF TERRY CITY OF BROWNFIELD Notice is hereby given that a public hearing will be held by the City Council on a proposed amendment to the Zoning Ordinance of the City of Brownfield and a change of the official Zoning Map of the City of Brownfield, being Ordinance No. 1201 of the City of Brownfield, such public hearing to be held by the City Council on the 15th day of August A. D. 1957, at 10:00 A.M. at its regular meeting in the City Council Chamber in the City Hall in the City of Brownfield, Texas. The proposed amendment affects Block 1 of the Santa Fe Addition to the City of Brownfield. It is proposed to change that portion of Block 1, which is now included in Zone "E" to be included in "H" Zone as defined by the existing Zoning Ordinance No. 1201. Reference is here made to said Ordinance now on file in the office of the City Secretary of the City of Brownfield, Texas. Reference is made hereto as though copied herein in full. This notice is given by virtue of a resolution of the City Council of the City of Brownfield, passed on the 11th day of July A. D. 1957, at a regular meeting of the City Council of Brownfield at which a quorum was present and such resolution as further given purport to be the resolution of the City Council of the City of Brownfield, Texas. Such Zoning Commission has hereto recommended to the City Council of the City of Brownfield that such change as above set out be made. Any person desiring to be heard on the above proposed amendment to the Zoning Ordinance and the official Zoning Map of the City of Brownfield may be heard by attending the meeting to be held on the 15th day of August A. D. 1957, at 10:00 at the City Council Chamber of the City of Brownfield, Terry County, Texas.

And at that time the City Council will hear such objections as such persons shall have. Reference is made to the provisions of Section 6 of the Zoning Ordinance of the City of Brownfield, Terry County, Texas, Sub Division 1, 2, 3 and 4 therefore for all purposes. Executed this 11th day of July A. D. 1957.

ARLIE LOWMIRE, Mayor City of Brownfield. ALVA J. GERSON, City Secretary, City of Brownfield.

**LEGAL NOTICE** CITATION BY PUBLICATION THE STATE OF TEXAS To Nestor Rodriguez, Defendant. Greeting: YOU ARE HEREBY COMMANDED to appear before the Honorable District Court Brownfield, Texas, by filing a written answer at or before 10 o'clock A. M. of the first Monday next after the expiration of forty-two days from the date of the issuance of this citation, same being the 19th day of October A. D. 1957, to Plaintiff's Petition filed in said county, on the 12th day of October A. D. 1956, in this cause, numbered 4658 on the docket of said court and styled Linda Constanto Rodriguez, Plaintiff vs. Nestor Rodriguez, Defendant.

A brief statement of the nature of this suit is as follows, to-wit: Suit for divorce alleging physical and mental cruelty as grounds and asking for the custody of Felix Rodriguez, a child, and for support of said child. There is no community property as is more fully shown by Plaintiff's Petition on

file in this suit. If this citation is not served within ninety days after the date of its issuance, it shall be returned, unanswered. The officer executing this writ shall promptly serve the same according to requirements of law, and the mandates hereof, and make due return as the law directs.

Issued and given under my hand and the seal of said court at Brownfield, Texas, this 2nd day of July A. D. 1957. Attest: Eliza A. White, Clerk, District Court, Terry County, Texas by Lois Blair, Deputy.

**BEHIND THE SCENES IN AMERICAN BUSINESS**

**Whether Rising Interest Rates Contribute To Inflation Or To Deflation is a Question That Continues To Plague U.S. Senate**

By REYNOLDS KNIGHT  
Economic Analyst

NEW YORK—Do rising interest rates contribute to inflation or do they tend to dampen it? A recent Senate hearing exchange failed to generate much light on this subject when Secretary of the Treasury Humphrey said "interest (on borrowings) is both inflationary and deflationary." He went on to explain that higher interest rates add to costs on one hand

and deter business expansion on the other.

The fact is that every economic change sets up counter forces. Any price rise is inflationary in that it adds to someone's costs. But every price rise also tends to stimulate additional production and to drive off buyers.

A rise in interest rates is inflationary in the immediate sense of raising costs. But it also tends to set up forces that ultimately will cancel it out.

It dampens the eagerness of would-be borrowers, and it stimulates saving by people who want to lend at the higher rates.

**PROCESSORS' PROBLEM**—We read volumes about farmers' problems and volumes more about the government's dilemma with farm price supports and vast surpluses, but there's another segment of the agriculture industry that has been suffering too: Recently Cargill, Incorporated, one of the nation's oldest and largest processors and merchants of grain, pointed out to the Senate Agriculture Committee some of the problems faced by firms that buy grain from farmers, store it, transport it, sell it to consumers and export it.

The heart of the matter, Cargill explained, is that too much government regulation and manipulation of the mechanics of the grain trade is causing confusion, disruption and discouragement among those experienced companies that are best suited to deal with the surplus disposal program. For instance, "unrealistic" subsidy rates for the export of grains from different parts of the country overburden some port facilities and leave others

virtually idle—seriously upsetting the normal flow pattern. What the grain trade wants, says Cargill, is a return of its normal functions so the job can be done more expertly and efficiently for the benefit of the entire agricultural economy. **THINGS TO COME**—A self service radio-TV tube tester is being marketed for installation in drug stores, supermarkets and other high-traffic business spots. A solar clock that runs without batteries, winding or electrical connection is about to hit the market. Short exposure to sunlight or household light will run it for days. New space-saving folding doors for the home are made of fine-grained cedar and mahogany and are fastened with full-

length plastic hinges that are said to last a lifetime. **SMOOTHER RIDE**—A Swiss welding machine that saves railroad passengers and freight from the bounce and "clickety-clack" of cars over rail gaps and greatly reduces trace maintenance costs is going to be manufactured in the United States by National Cylinder Gas Company, Chicago. The remarkable flash welder, diesel electric power unit and auxiliaries together occupy three full-size railway freight cars, can weld standard railroad rails into one continuous quarter-mile length in less than two and one-quarter hours. It turns out smooth, continuous welded rail at a rate of 15 rail joints per hour—two to three times faster at costs as low as

half those of conventional methods. Exclusive manufacturing rights to the patented automatic rail welder have been signed with H. A. Schlatter AG., according to Charles J. Hines, NCG president. The license agreement, which also covers Canada, Mexico, Central America and most of South America, marks the first move into the specialized field of rail joint welding for NCG, a leader in the production of welding and cutting equipment and industrial gases. **TOP CUSTOMER**—For the first four months of 1957 sales of British cars in America have been running better than two and a half times the rate in the corresponding period last year. In May alone 8,000 British

**Fleahoppers Show Increase Here; Also Bollworm Evidence**

(EDITOR'S NOTE: Information in the following cotton insect situation release for July 18 is compiled by county agents, vo-ag teachers, USDA and A&M College.)

Weather conditions continued favorable for satisfactory progress of cotton. The somewhat slower than normal growth has possibly been due to very unfavorable earlier weather conditions. The excessive shed of small squares likely resulted more from such conditions than from insect damage. No general serious insect infestations have developed in the area.

Thrips occurred in light infestations throughout the area. Only Briscoe County reported heavy infestations. Fleahoppers were present in small numbers on most cotton which had reached the squaring stage. Medium infestations were reported in Crosby, Lubbock, Lynn, Martin, Terry, and Yoakum Counties. Heavy infestations were reported in Garza and Howard Counties.

Lygus bugs occurred in light infestations on cotton throughout the area. Somewhat larger numbers were reported in some fields in Crosby, Lubbock, and Lynn Counties.

Bollworm eggs, with scattered small worms, appeared in increasing numbers throughout the area. While infestations were light in most localities, more activity of the insect was observed in the southern and western section of the area, where cotton is generally larger and more heavily fruited.

Leafworms were reported in Howard, Lamb, Lubbock, Terry, and Yoakum counties. Only occasional eggs and worms were observed, indicating very light infestations.

The garden webworms (careless weed worm) was reported on cotton in most localities. Infestations were generally not heavy. Damaging infestations were reported in Bailey County.

Cabbage loopers were present on cotton in most fields. Infestations were generally light, although eggs were observed in larger numbers in some localities.

Grasshoppers were reported on cotton in Borden and Yoakum Counties. We strongly urge everyone to consult the Texas Guide for Controlling Cotton Insects for recommended insecticides and dosages. Guides are available at county agent's offices.

**Burglars Ransack The Club Cafe on Monday**

Burglars broke into the Club Cafe, 613 West Main, sometime Monday night and took an estimated \$50 in change, police reported Wednesday. Entry was gained by breaking out a window on the east side of the building, reported officers. The thieves ransacked the building, finding four bank sacks containing the money.

cars were shipped to this country, and the United States took over the No. 1 spot in the British automobile export market formerly held by Australia.

American automobile makers, conversely are selling fewer cars abroad. Exports to countries other than Canada in the first five months of this year dropped 17 per cent from the corresponding period of 1956. American manufacturers shipped 66,995 cars in the January-May period this year compared with 81,233 in the like 1956 months. Shipments of American cars to Canada fell from 30,481 units in the first five months of 1956 to 9,733 in the January-May period this year.

U. S. automotive companies did a much better export trade in trucks, shipping 91,145 units to countries other than Canada this year against 85,269 in the same period of 1956.

**BITS O' BUSINESS**—Dividend increases during first-half 1957 were disappointing when compared with 1956. Only 249 companies boosted payments, against 453 during the first six months of last year. . . . Time-payment debt hit a new high of \$31.9 billion in May, with auto credit making up nearly half of that total. . . . Most retailers of home appliances and other household goods will probably hold the price line despite steel price increases, according to the national sales manager of a major mail order house.

**MORE FOOD . . . In Sight . . . In Reach**  
**When You Own A Marquette Freezer...**

More Easy-to-Reach Fingertip Storage in Door and Cabinet  
More Convenience . . . More Capacity . . . New Space-Saving Models  
Styled Smartly For New Beauty — Designed for Accessibility and Convenience  
Engineered For Safer Food Storage . . . All Marquette Appliances Tested and Guaranteed by Good Housekeeping—

**CABINET FEATURES** Compare Feature For Feature — see how no other upright freezer guards food preservation with so many "Engineered-In" Quality Features.

- **ALL-STEEL CABINET:** Welded into one-piece construction . . . outer case vapor sealed against moisture — rust-proof inside and out.
- **NEW "SAFETY" DOOR LATCH:** Easily opened from inside preventing possibility of a child being trapped.
- **BUILT-IN LOCK:** Dependable auto-type lock in freezer door.
- **THREE ROLLER BEARING HINGES:** Assure proper door alignment . . . adjustable in and out . . . removable pins for easy door removal.
- **LOW WATTAGE HEATER WIRE:** Encircles door edge to prevent condensation around opening.
- **EFFICIENT SHELL TYPE CONDENSER:** Coils attached to sides and back of cabinet prevent condensation and assure a dry cabinet — no fan, no oiling, no noise.
- **HIGH DENSITY INSULATION:** All sides of cabinet blanketed with Density Glass Fibre with Aluminum foil reflector lining.
- **ADJUSTABLE LEVERS ON ALL 4 CORNERS.**
- **MORE EASY-TO-REACH FINGERTIP STORAGE:** Now a "Deep-Door that Stores-More" plus scientifically arranged shelves and roll-out baskets that assure the convenience of having more food up front in plain sight . . .
- **AUTOMATIC TEMPERATURE CONTROL:** Freezer temperature is pre-set at the factory for maximum performance at "Zero-Freezing" . . . adjustments provided for temperature settings from 22 degrees to 42 degrees below freezing.
- **LIGHT FLOODLIGHTS INTERIOR:** Open door, light's on . . . close door, light's off.
- **STURDY "X" GIRDER DOOR:** Eliminates warping or sagging . . . assures perfect alignment and seal.
- **SAFER COLD FROM TOP TO BOTTOM:** Five Fast Freeze Multi-Coil Plates maintain that extra reserve capacity in excess of normal needs.
- **TECUMSEH COMPRESSOR:** Now engineered to operate under normal conditions in climatic temperatures beyond 110 degrees F, to insure world-wide use. Hermetically sealed for life against air, moisture and dirt. Features the latest type internal spring mountings for noiseless operation.
- **5-YEAR WARRANTY:** A written warranty covering the complete freezer for 1 year and an additional 4-year replacement contract on the "Sealed-in-Steel" compressor.

**"BOOK SHELF" STORAGE DOOR:** It's so easy to remove any package . . . just like taking a book off a shelf — the new storage door is engineered to give more capacity . . . and all so accessible.

**CONVENIENT LEFT-OVER SHELF:** Think how much you can SAVE by freezing left-overs . . . a shelf and handy "seal-tite" colored containers are provided for your ready use . . . right at your fingertips.

**2 ROLL-OUT BASKETS FOR "JUICE" AND "FRUIT":** Provides the "perfect freezing zone" and storage for juice cans and fruit packages . . . Sturdy baskets roll easily and silently on lifetime nylon rollers to bring all food in sight . . . in easy reach. No more "hide-and-seek."

**GLIDE-OUT BASKET(S) IN BOTTOM SHELF:** Ideal for those irregular and hard to store items . . . eliminates "bending effort" in removing foods from lower section . . . glides smoothly on nylon rollers.

**LITTLE LEAGUE ALL-STARS** — Above are 10 youngsters who are among some 15 selected to represent Brownfield's Little League at the Region 3 tourney starting Monday. They are, from left front row: Buzz Steel, Olan Boring, Sam Richardson, ready Howell, Mickey Willis, David Auberg, alternate, Dale Ruth and J. W. Harrell. Back row from left: Bob Casstevens, John Jennings (manager) and alternate Bill McGowan.

**MORE ALL-STARS** — These youngsters are the balance of Brownfield's All-Star Team. They are, from left kneeling: Ronald Farquhar, Don Chriswell, Jimmy Foy, Connie Vernon, Duane Neal, David Chisholm and Archie Jennings. Back row from left, Britt Pounds and Bill McGowan, assistant managers. (Staff Photo)

## OPENING FRIDAY AT RIALTO

### Elvis Presley Scores in 'Loving You'

The reasons for singing rage Elvis Presley's position atop the world of show business are strikingly obvious in "Loving You," the drama-and music-packed Hal Wallis production which opens Friday at the Rialto Theatre.

The dynamic youngster has

a way with a song—a range of vocal tones and expression, and a vigorous and uninhibited manner of keeping time—that is quite unmatched by any other entertainer within memory.

What's more, the VistaVision-Technicolor musical makes it clear that he is far more than just a terrific song stylist. Magnetic personality, classic good looks and fresh, downright acting ability stamp him as an all-around performer who is here to stay.

Others in the film are Elizabeth Scott, Wendell Corey, James Gleason, Ralph Dumke, Paul Smith, Ken Becker and alluring Jana Lund.

Miss Scott, Miss Lund and pretty 18-year-old Dorales Hart, who debuts, furnish the romant-

### NEWS

Judges will choose the queen and two runners-up Aug. 30. Prizes will be \$25, \$15 and \$10 in cash. Winner will compete later this year in the District 2 contest, for the Texas Farm Bureau title.

Committee chairmen are Mrs. R. D. Jones Jr., entry; Mrs. Tom Pettigrew, program; Mrs. Leonard Lang, decorations; Mrs. Winfred Tucker, refreshments, and Bob Etheredge, publicity.

Qualifications for contestants: 16 years of age and not older than 22 on Sept. 1, single, and with father or brother engaged in farming and a member of TCFB.

Judging will be based, said Mrs. Jones, on personality, poise and appearance. All contestants will wear formal evening gowns.

ic spice, of which three is good measure.

## No. 2—

Leslie Bryant was the winning pitcher when he replaced Woody Harbin in the second inning after Harbin had allowed a double and two singles. Bryant pitched a 4-hit, 3-run game for the win.

The team was managed by Derrel Lewis, who explained: "Our boys carried their sportsmanship to a new high in the Levelland event. Immediately after the game, several residents rushed onto the diamond to praise the Brownfield group and to say that they appreciated highly the fine sportsmanship."

Last Monday afternoon, Dr. J. Harvey Scott, pastor of the First Baptist Church is Petersburg, visited in the home of Mr. and Mrs. Less Newberry at 216 East Broadway.

A traveling salesman was Harry G. Blows,  
Who could sell ice cubes to an eskimo,  
But he fell for a line slicker than his,  
From a new car salesman—wow! what a whiz!  
The car had style—years out of date,  
The features were new—back in '48!  
Harry's still smiling, the tears hardly show,  
But how he wishes he could get back his dough!

**Moral: Don't get "bargain-talked" into yesterday's styling and features!**

Like a lot of people, Harry was looking for a "good buy" in a new car. But no car is a bargain if it's outmoded before you drive it a mile. For the same money, Harry could have stepped up to a dashing Swept-Wing Dodge—so new it actually obsoletes other cars in its field. Obsoletes their high, boxy design with the low, low look of tomorrow. Obsoletes their old-fashioned features with such advances as Torsion-Aire Ride, Push-Button TorqueFlite and Total-Contact Brakes. So don't do what Harry did—please. See your Dodge dealer today.

## No. 3—

The units will teach the child its colors, numbers, how to count, to recognize letters in the alphabet and even to spell simple words, among other things.

"I am not so much concerned with how much actual scholastic learning the child gets," she said, "because that is the school teacher's job. My primary purpose is to teach the child to get along with other children... how to share, how to respect other children as individuals, how to cope with responsibilities, even how to make decisions for himself."

That she has a world of experience is evidenced in the

fact that Mrs. Grote is the mother of four young sons, Gary is 7, Glenn is 6, Jeff is 4 and Warren is 2. Her children reaching the proper age for kindergarten work prompted Mrs. Grote to set up the Mick 'n Minn School, which she conducted in Floydada prior to moving to Brownfield.

While in Floydada, Mrs. Grote also set aside two days each week for children who did not live in town to attend the school, along with the regular students.

"These children lived on farms and ranches 20 miles from town and couldn't come in every day, but I set up a special schedule for them on Tuesdays and Fridays and everything worked out beautifully," she said. "I hope I can

do the same thing here."

The school, which will begin at the same hour the public school begins, will last for two hours daily, Monday through Friday. Mothers may enroll their children in the school now by either going by to see Mrs. Grote or calling her at 4427. Although the Mickey Mouse sign, which was made by Mrs. Grote, is not yet up, Mrs. Grote hopes to have him beckoning to the public very soon.

The Grotes moved to Brownfield three weeks ago from Floydada. He is manager of the Terry County Farm Bureau Association.

## No. 4—

ical dictator into the hands of one of his gristle-headed henchmen.

"Them's hard words, pardner," but that is what happened.

We don't even have to leave home, Mr. Editor, to see the kind of Gestapo-purge Texas Tech got.

What! No guts? Sincerely,  
W. A. (Judge) Bynum  
802 East Main

(EDITOR'S NOTE: The NEWS certainly is in agreement with Mr. Bynum's concern regarding the method of dismissal used by the Tech board, and adds its voice to the general clamor for redress.

The NEWS however is concerned about only the secrecy of the board's action and not about the personnel who were dismissed, for after all we believe that if a man can be hired he also can be fired.

Complacency? Yes, the NEWS confesses its share.

Shame, scandal, disgrace? Yes, the NEWS is aware that our beloved Texas has suffered from such shadows the past several months.

As for the last paragraph of Mr. Bynum's earnest letter, the "Gestapo purge at home," we never write without knowing exactly what we're writing about.

The NEWS always has sought "letters to the editor," and always will give them placing in the paper. We thank Mr. Bynum for his interest in the Tech situation, a proper public concern.)

## Committee For Economic Development Announces 50 Awards In Essay Contest

NEW YORK, N. Y. — The Committee For Economic Development announced today a competition to find what the best informed opinion of the Free World regards as "the most important economic problem to be faced by the United States in the next 20 years."

Assisted by a grant from The Ford Foundation, the CED invited papers on the question as part of the observance of its 15th anniversary.

Fifty prizes of \$500 will be awarded to authors of papers submitted in competition and judged by CED's research advisory board, a body comprising some of the country's most distinguished social scientists.

Additional awards of \$500 will be made without competition to each of 50 outstanding scholars and leaders in public affairs for papers on the same question.

CED is composed of 150 leading businessmen and scholars who, working together, conduct research and formulate policy recommendations on major economic issues, and promote education on the operation of the American economy.

Donald K. David, chairman of CED's board of trustees, expressed the hope that the competition would "contribute to the growth and stability of the whole Free World by focusing the attention and energies of the American people upon likely trouble spots beyond the immediate horizon."

He was pleased, he said, that the competition was not limited to Americans, but "calls as well upon the best minds of our friends and allies overseas."

"Because the economy of our country plays such an important role in maintaining and strengthening freedom throughout the world," he added, "its functioning and its future have become the concern of thoughtful citizens throughout the free

world." "Out of their thinking," Chairman David asserted, "CED hopes to anticipate economic difficulties and find means to avert them while the situation is manageable."

Papers submitted in the competition must not exceed 2,000 words in length, must be typewritten in the English language on one side of the paper only, and mailed before November 1 to Problems of U. S. Economic Development, Committee for Economic Development, 444 Madison Avenue, New York 22, New York.

CED urged prospective contestants to write a copy of rules for the competition before undertaking a paper.

Members of the research advisory board of the CED's research and policy committee, who will judge the competition, are:

Edward S. Mason, dean of the Harvard graduate school of public administration, chairman; Theodore W. Schultz, economics professor, University of Chicago, vice chairman; Richard M. Bissell Jr., Washington, D. C. economist; Howard R. Bowen, president of Grinnell College; Douglass V. Brown, professor of industrial management, Massachusetts Institute of Technology; Robert D. B. Calkins, president of The Brookings Institution; Solomon Fabricant, director of research of the National Bureau of Economic Research, Inc.; R. A. Gordon, economics professor, University of California; Don K. Price, vice president of the Ford Foundation; Arthur Smithies, department of economics of Harvard University; George J. Stigler, political science faculty, Columbia University; and Henry Wallich of the Yale economics department.

Associate members of the Research Advisory are Roy Blough of the Columbia grad-

## Aztec-Mayan Show To Be Featured By State Fair of Texas

One of the world's most remarkable spectacles will be featured as a free attraction at the 1957 State Fair of Texas, Oct. 5-20.

The mysterious rituals of the Aztecs and Mayans of ancient Mexico will be faithfully recreated by actual descendants of those long-vanished races.

The Aztec-Mayan spectacular will be presented twice daily on the Magnolia Stage, climaxed by the dangerous "ceremony of the flying pole."

This awe-inspiring ritual is performed by "The Birdmen of Teotihuacan." Dressed in feathered, birdlike costumes, these "flying Indians" climb to the top of a 100-foot pole. To the weird music of a flute and drum, the four fliers one by one go through an intricate dance on a tiny platform atop the pole.

They then leap into space, spinning head down, hanging by their heels from ropes wound around the pole. As they glide gracefully to earth, the ropes unwind in ever-widening circles.

Seldom seen outside a few remote villages in the jungles of Mexico, the strange ceremonial of the flying pole is among the oldest of the surviving native rites of that country, dating from the times before the Spanish Conquest. Fliers are trained from the age of 9 for this daring feat.

The colorful dances of the Aztec-Mayan spectacular are performed by a troupe of 20, attired in authentic costumes. In addition to the daily appearances on the Magnolia Stage, they will be featured in three big free Cotton Bowl shows during the fair. The first will be on Mexico Day, Oct. 7.

At the final concert of the University Summer Band, Miss Bainum and Miss Davis were featured twirlers.

Miss Davis has been a major-ette with the Brownfield High School Band for the past two years.

MISS BETTIE DAVIS

## Bettie Davis Places Second In Contest; On Television Show

Bettie Ann Davis, daughter of Mr. and Mrs. C. E. Davis of 104 East Felt, was featured in a baton twirling solo by station KOB-TV in Albuquerque, N.M. She was one of three Brownfield High School students attending a band clinic at the University of New Mexico.

Miss Davis placed second in a National Baton Twirling Assn. contest Beverly Bainum of El Cajon, Calif. placed first. Twirlers from California, Texas, New Mexico, Colorado, Oklahoma, and Arizona competed in the contest which was held July 17.

At the final concert of the University Summer Band, Miss Bainum and Miss Davis were featured twirlers.

Miss Davis has been a major-ette with the Brownfield High School Band for the past two years.

Mrs. Tess Fuller and Jayne, 919 East Cardwell, and Mrs. N. L. Mason of 901 East Broadway have returned from a week's vacation with Mrs. Fuller's relatives in Albuquerque, N.M., and Belen, N.M., and Ruidoso, N.M.

## Two Honored By Tau Phi Chapter

Tau Phi chapter of Beta Sigma Phi sorority met Monday at 8 p.m. in the home of Jo McBride, 1503 East Buckley. Hostesses with her were Ruthette Swift and Letha Feagins.

A surprise stork shower was given for Claudia Maple and Marilyn Noble, and the honorees received gifts of sterling silver drinking cups bearing the club crest.

The serving table was centered with a musical revolving stork flanked with pink and

blue tapers and napkins were printed with miniature baby bottles. Frosted pink lemonade, bread and butter sandwiches and cookies were served.

Following the shower, the opening ritual was read and minutes presented by Willa Mitchell, who also furnished the door prize received by Wanda Cornelius.

Plans were made for members to hold a rummage sale August 17, and it was also voted to sell Christmas cards. Reba Harris was voted a member-at-large, due to illness. Plans for the yearbook were made and approved by the group.

Participating on the program were Ruthette Swift and Willa Mitchell.

Other members present were John Lou Callison, Mamie Terrell, Betty Patton and Betty Smith.

The next meeting will be in the home of Wanda Cornelius, 1203 East Reppito on August 5.

## Birthday Dinner Honors Grandchildren Sunday

Honoring their grandchildren, Janelle Dunn of Post on her 16th birthday and Dan Stephen Miller on his sixth birthday, Mrs. L. R. Pounds and Mrs. L. J. Dunn, Sr. entertained with a dinner Sunday in the Dunn home at 301 East Main.

Those present were Mr. and Mrs. Tommy Hicks and Tommy and Linda, Mrs. E. B. McBurnett Sr. and Mr. and Mrs. L. J. Dunn Jr. and Janelle Lawrence and Glenda, of Post and Mr. and Mrs. Kelton Miller and Cheryl and Dannie.

## County Edges Past Fifty Per Cent Mark In Bond Purchases

Terry County edged past the half-way mark of the 1957 savings bond goal as \$12,729 worth of bonds were purchased in June, reports J. O. Gillham, county bond chairman.

The month's sales brought the county's total to \$84,075 for the first half year and 50.7 per cent of our goal of \$165,860," noted Gillham.

The June total boosted Terry into fourth place in the eight-county District 4. Yoakum is leading with 96.9 per cent and Crosby and Lynn counties follow with 71.8 and 67.5 per cent, respectively.

"I would like to remind Terry residents that there is no safer investment in the world today," continued the chairman. "Both the principal and interest of U. S. savings bonds are fully guaranteed by the faith and credit of our government."

## Family of H. H. Heaths Has Weekend Reunion

The family of Mr. and Mrs. Hubert H. Heath of 703 East Buckley held a reunion over the weekend, highlighted with a hamburger fry outdoors Saturday night.

Children, grandchildren and great-grandchildren present were Mr. and Mrs. Rhea Heath and Linda, Martha and Bill, of Phoenix, Ariz.; Mr. and Mrs. Jerry Holloway and twins, Kay and Gay, of Amarillo; Mr. and Mrs. Dick Heath and Michael Don and Janice Fay of Lubbock; and Norwood Heath of Falfurrias.

NAVARRO REUNION SET  
Navarro County Reunion Association this week announced its annual reunion will be at MacKenzie State Park in Lubbock August 4.

Navarro county residents and ex-residents are urged to attend the meeting. Everyone should bring a basket lunch for the noon meal, according to Mrs. Ted Bryant, association secretary.

Vacationing in Cloudcroft, N.M. this week are Mr. and Mrs. Prentice Walker and Jill, of 617 East Tate.

MISS VIRGINIA GUNN

## Engagement of Miss Ginger Gunn Is Revealed At Tea Given Last Week

A tea, given July 15 in the home of Mr. and Mrs. Gene Gunn, 1015 Tahoka Road, revealed the engagement of their daughter, Virginia Dean, to

Guests were greeted by Mrs. L. M. Lang, Mrs. Gunn and the honoree, Mrs. Milton Addison presented the guests to Mrs. Charles Gunn, sister-in-law of the honoree, who presided at the registry.

A miniature reproduction of Crescent Hill Church of Christ was nestled in blue carnations and white pom-pom mums to form a centerpiece for the tea table. A miniature bridal couple stood at the entrance of the church, and blue satin streamers with the words "Ginger and Paul August 30" proclaimed

ed the wedding date. Alternating at the tea table were Mrs. Bobby Don Lewis of Brownfield and Miss Jo Ann Jackson of Lovington, N.M. Favors of miniature blue lace garters were presented to the 40 guests who registered.

Miss Gunn, a 1954 graduate of Brownfield High School, is a senior music education major at Abilene Christian College. Her fiance, son of Mr. and Mrs. Marvin Vertz of Grandview, Wash., is a junior Bible major at the same college.

Crescent Hill Church of Christ will be the scene of the double ring ceremony.

The daddy-long-legs lives on small insects and is entirely harmless to man.

# SLOW-STUNTED COTTON NEEDS NITROGEN

Does Your Cotton Need Something? Is It Slow and Stunted Due to Nitrogen Starvation?

Nitrogen Is Being Applied To This Cotton In The Form of Anhydros Ammonia Which Is 82% Nitrogen.

Come by today and sign up for your nitrogen to be applied by us. We have the equipment and the operators to apply your ammonia for higher yields.

Here's cotton fertilized with 100 pounds of Anhydros Ammonia. Did it pay? One and 1/5 bales of cotton per acre have already been picked.

Use our drag type or 3-point applicators to apply ammonia. We will show you how to set them, and will furnish 1000 gallon trailer tanks. You can fill in your field.

It's Easy To Apply And Will Give You More Returns For Your Dollar Than Any Operation

## READ THIS STARTLING FACT

5 out of 10 smaller cars wear a Pontiac price tag —yet none gives you any of Pontiac's advantages

### PONTIAC GIVES YOU UP TO 8.9% MORE SOLID CAR PER DOLLAR!

Not one of the smaller cars can give you the heavy-duty construction, the road-hugging feel and solid security that surround you in every Pontiac. Yet Pontiac's the nimblest heavy-weight you ever managed—and your Pontiac dealer can show you more than six dozen advanced-engineering reasons why! Pontiac has gone all out to make this genuine big car the best behaved beauty that you ever had the pleasure of bossing. You'll find Pontiac's exclusive Precision-Touch Controls make steering and braking the surest, easiest you've ever experienced! Park it, cruise it, try it in stop-and-go traffic... this is driving the smaller jobs can't duplicate!

### PONTIAC GIVES YOU 4 TO 7 INCHES MORE WHEELBASE!

The small cars extend bumpers and fenders to look big—but Pontiac puts the extra length where it counts—between the wheels! Pontiac's longer stride brackets the bumps instead of riding on them. And this extra length shows up inside, too, in stretch-out space for six footers. Add to Pontiac's bonus in length its all-new suspension system and you have an exclusive Level-Line Ride no car at any price can surpass... and a built-in sense of direction and security that will spoil you for the smaller cars forever!

### PONTIAC'S PERFORMANCE TOPS THE BEST OF THE SMALL CARS CAN OFFER—BY A WIDE MARGIN!

Not one of the smaller cars can measure up to Pontiac Performance. Whether you judge a power plant by engineering statistics or on-the-road performance, Pontiac's Strato-Streak V-8 stands head and shoulders above anything in the low-price field. Your Pontiac dealer will be happy to show you a complete fact-and-figures comparison—then an eye-opening test drive in traffic or out on the highway will supply all the heart-lifting proof you need that Pontiac has separated the men from the boys when it comes to performance!

### —AND PONTIAC HAS ALWAYS BEEN FAMOUS AS ONE OF AMERICA'S TOP TRADE-INS!

Maybe it comes as a surprise to you that so much more car can be yours at the same price you've seen on the smaller cars. But there's the fact! And Pontiac is a wonderful investment, too! As you know, it has always commanded a top trade-in. So why not step out of the small-car class and into a Pontiac... there's nothing in your way. Your Pontiac dealer has the keys and an eye-opening offer waiting for you right now! So why not look and feel like a million—instead of a million others?

NOW! If you want the ultimate in both economy and extraordinary performance, new Tri-Power Carburetors are available at extra cost on even the lowest priced Pontiac models! It's America's newest power advance and exclusively Pontiac's at so low a cost!

## FERMED TOOL OF DESPERATE POLITICIANS

### Government Borrowing Called Dangerous Boost To Inflation And Should Be Curbed More Extensively, Declares Writer

(EDITOR'S NOTE: John T. Flynn, writer of the following article, is a noted author, lecturer and radio commentator.)

If you find yourself sojourning in Washington, you will very soon become aware of the endless discussion on the very flammable subject. It is called "inflation." Generally it means that the vast streams of money flowing around are losing their value.

A dollar won't buy nearly as much as it once did. But let us be clear on what we mean by money. If you ask how much

money is on deposit in all our banks you will find that while there is about 31 billion in cash drawers and wallets there is about 215 billion on deposit in banks.

Now you may ask—how can there be 215 billion dollars on deposit in the banks when there is only 31 billion dollars of actual money in this country?

The answer, of course, is that this enormous sum of 215 billion dollars on deposit in the banks is made possible through the force of that dangerous element known as inflation.

What can be done about this inflation? And what is the process by which 31 billion of real money can be translated into 215 billion of bank money flowing around through all the agencies of trade?

In searching for the answer it is first necessary to know the very simple process by which bank deposits are created. This process can be dangerous, of course, but not if it is understood and used within rational limits.

And for this purpose the Federal Reserve Board and Federal Reserve Banks have been set up to police this operation—and to ensure that it is not carried to excess.

**Signs Promissory Note**  
Now to understand this, you must understand that when a depositor borrows \$10,000 from his bank, he is not given \$10,000 in cash. He signs a promissory note for \$10,000 and presents this to the bank's cashier. The cashier does not hand him \$10,000.

He takes the note for \$10,000 from the depositor—a promise to pay at some future day—and he then writes in the depositor's bankbook that he has \$10,000 added to his deposits. And, of course, the bank itself owes the depositor \$10,000; that is, it agrees to cash his checks up to that amount. I repeat, this system is perfectly sound, so long as it is wisely policed.

However, there is another performer in this transaction, who must be closely watched. That is the Federal Government. And the government, in these last 15 years, has used this mechanism in the banking

system to borrow over 100 billion dollars.

At present, the Federal Government is the biggest borrower from the banks more than all the private individual and corporation borrowers put together.

**Considered Incredible**  
And this must be adjudged a gravely dangerous performance—doubly so since it is that device used by our Washington politicians to borrow and borrow and spend and spend on incredible activities in some sixty countries all over the globe.

The practice is obviously dangerous. It is a scheme of desperate politicians to create money. The old-fashioned device for creating inflation consisted in setting the printing presses to work turning out the printed bills at whatever speed was needed to create or keep alive a phony boom.

But this is a little too crude in our present world. However, the new system is not essentially different. Instead of printing five and ten and hundred-dollar bills, the government prints a \$100 or \$500 or \$1000 bond, which is a promise to pay these sums sometime in the future.

**Heat Turned On**  
The government then turns on the heat, appeals to the patriotism of the people to buy them, and then forces the banks to buy them in quantities. The government induces the bank to "buy" these bonds and to pay for them by giving the government a "deposit" to cover the "price" of the bond.

At some time or other almost every country in Europe has turned to this dangerous device in one form or another. And now we have it in operation here. The banks have been induced to take around 100 billion dollars in Federal bonds which are paid for by giving the Treasury a "deposit" for a very large part of these inflationary bonds.

And thus, by appeals to the banks plus adequate pressure by printing bonds and swapping them for bank deposits, and by other devices, this government has managed to keep a dangerous and inflationary boom afloat.

## Chemicals Can Help To Control Insects

Many kinds of insects and insect-like pests damage lawns, but this damage can be reduced greatly by proper use of available chemicals, says C. F. Garner, extension entomologist.

Grubs of several kinds of beetles feed on the roots of grass, leaving bare spots where plants have been killed by their feeding. Others, such as sod webworms, armyworms and cutworms, feed on the leaves or stems.

Still others, such as chinch bugs, false chinch bugs, Rhodgrass scale and leafhoppers, suck juices from the grass. Ants and earthworms dig holes in lawns and throw up mounds of earth, and ants may invade the house from their nests in the grass.

All of these pests can be controlled, according to the entomologist with insecticides such as chlordane, DDT, aldrin, dieldrin and heptachlor. For quicker results chemicals should be washed into the soil by watering after application. Insecticides may be applied whenever desired. Follow the application rates on the container and observe all precautions on the label, because insecticides are poisons.

The problem of moles in the lawn is related to insect problems since moles invade lawns and build tunnels in search of

Speaking before juries — the beginning of jury trials—goes back to Greek colonies in Sicily about 600 B.C. in lawsuits over lands seized by tyrants.

Soon Athens itself took over such oratory, but appears to have worked out no rules of evidence or judicial control of the trial.

Juries often cheered or booed the parties. They talked together and shouted back to the speakers. What one man knew about the case he told his neighbor.

All evidence could go: Personal knowledge, hearsay, prejudice, and the juror's opinion.

The Athenian jury had power. Each "dicast" (chosen by lot) was both juror and judge. Each juror got one obol a day—about three cents.

Each accused person had to

**SCOUTS IN A CAVE**—In picture above, members of the Brownfield Scouts delegation to the Fourth National Jamboree in Valley Forge, Pa., prepare to explore Niagara Falls, one of the many scenic wonders viewed by the group enroute to the Pennsylvania camp.

come before the jury personally to defend himself — which was especially hard if he didn't know the art of advocacy, since he was assumed to be guilty.

Indeed, many hold that if Socrates had taken independent advice he would never have of-

fended the boisterous and biased Athenian jury, which sentenced him to the hemlock there on the hillside in 399 B. C.

Less outspoken defendants in those days sought bootleg legal advice.

**Announce Birth Of Son In Cincinnati**

Mr. and Mrs. Robert Wilgus of Cincinnati, Ohio, announce the birth of a son, David Ross, on July 19, weighing 7 lb., 10 oz. The mother is the former Miss Sandra Bailey.

Grandparents are Mr. and Mrs. E. W. Wilgus of 502 East Lons and Mr. and Mrs. Ike Bailey of 603 East Cardwell.

Antiphon ghost-wrote a and sold briefs to clients who had to put their own cases to the jury. He set out four steps of an Athenian trial: (1) the accuser's charge, (2) the accused's reply, (3) the accuser's reply, and (4) the accused's response.

Afterwards the jury let the accused off or found him guilty. The jury sentenced the guilty then and there, allowing some—Socrates, for one—to propose their own penalties, and even to bid them upward if they failed to please the jury.

After the trial, the speakers (or in Socrates' case, his friend Plato) often worked their talks over, and sent them out for friends to admire or criticize.

What appeals were used to win the jury over? Pretty much the same ones we hear today: Aristotle listed a few:

The values the jurors shared with the speaker—reverence for justice, the law, and the city's founding fathers; the sanctity of the juror's oath; the verdict's effect upon public and foreign opinion, and sometimes upon women and youth.

(This column, prepared by the State Bar of Texas, is written to inform—not to advise. No person should ever apply or interpret any law without the aid of an attorney who is fully advised concerning the facts involved, because a slight variance in facts may change the application of the law.)

**SAYS TEXAS PROFESSOR**

**Radioactive Wastes Will Be Valuable Soon**

Radioactive wastes, which scientists now are intently trying to destroy, may be very valuable in the future, a University of Texas physicist suggests.

Dr. R. N. Little says scientists have yet to scratch the surface in finding beneficial uses of radioactive materials now regarded as wastes.

"The atomic energy field is just like the packing industry in its earliest stages. At first the meat packer saved the pork chop and threw away the rest of the hog, but now everything but the squeal is utilized," Dr. Little said.

A few radioactive isotopes already are widely used by scientists as tracers to determine what goes on in various chemical reactions and in cancer treatment.

Another radioactive isotope currently is being used to manufacture luminous signs for isolated railroad crossings without electric power.

Another use for radioactive isotopes is in the aircraft industry. As a source of energy, the radioactive material could be applied to airplane wings to prevent ailments.

Scientists have not done more with the so-called wastes because such material is extremely dangerous and must be handled by remote-control equipment not yet widely available, Dr. Little explains.

He foresees wider use of the radioactive wastes when private business enters the atomic energy field.

"So far atomic energy has been a government enterprise, but as soon as private business enters the scene, businessmen will have to show a profit to their stockholders and will be

them from icing over at high quite interested in developing uses for all the waste products, Dr. Little said.

**Local Students Attend Abilene Band School**

Patsy Hulse, daughter of Mr. and Mrs. Curtis Hulse, was chosen twirler of the week and was featured Friday night at McMurry College in Abilene. She is attending a band school there.

Another student from Brownfield, Mary Jane Brownfield, daughter of Mr. and Mrs. Lee Brownfield of 508 South C, plays second chair of 84 clarinetists attending the band school.

Several other Brownfield students also are participating.

**1956 Accident Loss Reached \$11 Billion**

CHICAGO—The economic loss from accidents in the United States in 1956 would have built about 224 Empire State Buildings, the National Safety Council said today. And that's almost 23,000 floors!

The 1957 edition of "Accident Facts," the Council's statistical yearbook, just off the press, lists the nation's loss from all accidents in 1956 at \$11 billion.

Motor vehicle accidents during the year cost \$5 billion, and work accidents nearly \$4 billion, the booklet states.

Most areas of the state have enjoyed good rains, but good range grasses need help to stage a comeback. A. H. Walker, extension range specialist, suggests a program of resting or deferred grazing.

Turn a Task-Force truck loose on a tough haul and you've got it made. You've got a truck that'll stay and save on any job!

From that big six-wheeler, above, right down the line, Chevrolet trucks offer the most advanced hose- and dollar-saving features

you'll find anywhere. Chevy pickups, for example, offer high-capacity bodies up to 108 inches long with no wheelhousing bulges in the payload area. They bring you the latest in cab comfort, too, with many de luxe features, at no extra cost.

Then look at Chevrolet's advanced truck V8's. These modern, lean-muscle engines are standard equipment in heavyweights and most middleweights. Here are

super-efficient V8's with the shortest piston stroke under any truck hood. Right off, that means less wear, less money going out for upkeep. If you specify a 6-cylinder Task-Force engine, you're sure of the thriftiest brand of truck power money can buy.

Your Chevrolet dealer's the man with the details. See him and start a Task-Force hauler saving on your job right away

**SCHOOLS REQUIRE BIRTH CERTIFICATES**

**Forthcoming School Days Mean Headaches To Bureau of Vital Statistics As Parents Start Rush for Certificates**

"School days, school days, all around the state," may stray somewhat from the original song, but it means that come September, around 260,000 little Texans will be going off to school for the first time.

In anticipation of this the Bureau of Vital Statistics of the Texas State Department of Health is girding itself for the annual last minute onslaught of thousands of requests for birth certificate photostats.

It seems that each year the situation repeats itself. Most school districts require proof of birth in the form of a birth certificate or photostat for students entering school for the first time in the first grade.

Harried mothers all too often forget about this requirement until middle August. By then the Bureau is flooded with thou-

sands of similar requests for photostat copies resulting in a delay in the receiving of the copy for two weeks or more.

In efforts to speed up the process, the bureau each year hired extra help and works overtime, in addition to using certain speed-up techniques to aid in the location of the original certificates kept on permanent file at the Department of Health.

Most of the requests will be for six-year-old children. Knowing this, vital statistics personnel arrange the record books containing the 217,470 certificates of birth for the year 1951 and part of the "stacks" for 1950 so that access will be easier and quicker.

The removal and replacement of the certificates for photostating is done at the "stacks" by the extra personnel instead of at the photostat machine by the technicians in the usual manner.

In this way a staggering pile-up of record books is avoided and the issuance of birth certificate photostats is greatly speeded.

State Registrar Don Carrol ask that requests for photostat copies be made as soon as possible to avoid the rush.

Contact your local health department or send the request to the Bureau of Vital Statistics, State Health Department, Austin, Texas.

Be certain to include the child's name, name of both parents, and the date and place of birth. Enclose \$1 with your request. Cash is requested.

**Range Management Stressed By Expert**

Proper range management is an essential part of any successful ranching program.

The points to stress now for proper range management are feed reserves, deferred grazing and brush control, according to G. O. Hoffman and A. H. Walker, extension range specialists. No chemical weed control now can be used effectively, for the weeds are too large and mature.

A feed reserve means the dif-

**Topdressed Wheat Gives Big Returns**

Topdressing winter wheat with nitrogen fertilizer paid good dividends in extra yields in tests at the Southwestern Great Plain Station near Amarillo.

The plots which received nitrogen fertilizer also produced more wheat per inch of irrigation water than the unfertilized wheat.

Alex Pope, assistant agronomist at the station said application of 60 pounds of nitrogen per acre in the form of ammonium nitrate (33 percent nitrogen) gave the greatest return per fertilizer dollar.

At one of the test locations where no nitrogen fertilizer was applied the yield was 25 bushels per acre, compared

with 53 bushels on wheat which received 60 pounds of nitrogen per acre.

He said also that ammonium nitrate appeared to be a better source of nitrogen that ammonium sulfate for topdressing winter wheat in late February.

ference between profit and loss, dry. Good deep-rooted grass will still make considerable forage should be stored for future use during winter and drought periods. At various times in history counterfeiting has been punishable by death.

Daniel Defoe, creator of "Robinson Crusoe," wrote some 30 books in the last four years of his life.

Davy Jones is the popular name of sailors for an evil sea spirit or the devil generally.
