VOLUME 20 TEN CENTS BROWNFIELD, TERRY COUNTY, TEXAS, THURSDAY, SEPTEMBER 19, 1957 NUMBER 58

JUST A REMINDER — Vickie Bradford, daughter of Mr. and Mrs. Robert Bradford of 605 North Fifth, is one of Brownfield's hundreds of schoolchildren whom police are trying to protect. For the purpose, signs and crosswalks were erected this week. Vickie is a sixth-grader in Junior High School. (NEWSfoto)

WILL ENTER HARVEST FESTIVAL CONTEST

'Miss Oil Progress Week' for 1957 Is Selected in Wednesday Night Judging

"Miss Oil Progress Week" of 1957 was to be selected Wednesday night in the Chamber of Commerce. Judges were to be Brownfield men directly connected with the oil industry in Terry County. In addition, two princesses were to be named. Press time for today's NEWS ruled out printing the results of the judging. However, the Miss Oil Progress and her two princesses will be selected from the following contestants: Jo Ann Fulton, daughter of Mr. and Mrs. D. S. White of 310 East Lake; Sherry Don Spears, daughter of Mr. and Mrs. J. E. Spears of 1014 Tahoka Road; Gretchen Sloan,

daughter of Mr. and Mrs. L. E. Sloan of Searaves Highway. See No. 3 Page 2

Field Tour Information

More than 400 persons are expected to be here today for the annual field tour of the Terry Soil Conservation District. The group will travel in eight air-conditioned buses, leaving from the north side of the courthouse at 9 a.m. A barbecue lunch will await the touring party at Coleman Park.

Field Extended In Northwestern Terry

Glorieta production in the Terryon field of northwestern Terry County has been extended three-quarters of a mile southeast with completion of W. M. and A. P. Fuller's No. 1 Bertha Haybeck. Producing from casing perforations between 6,012-6,022 feet, well pumped 93 barrels of oil plus 37 per cent water on a 24-hour potential gauge. Oil gravity was tested at 37 degrees. Completion was effected after acid treatment with 5,000 gallons regular. Hole was bottomed at 6,071 feet. Top of the Glorieta was called at 5,970 feet. Well site spots 660 feet from north and east lines of Section 34, Block D-11, SK&K Survey, 12 miles northwest of Brownfield. It is three-quarters of a mile east of a 7,010-foot failure.

Quarterback Club Is Pushing Ticket Sale

Brownfield Quarterback Club-ers spent three days this week "making the rounds." Purpose: To sell season tickets to the four games which the Cubs will play at home this year. Price \$6 a book. The groundwork for selling the ducats was laid during Monday night's QB session in the Fire Department, Clarence Griffith presiding. The club voted to meet at 7:30 p.m. each Monday.

Tickets to Friday's, Cub game at Plainview are on sale in the courthouse office of Raymond Simms. Children's tickets here are 50 cents, and 75 cents at the gate. Adult tickets are \$1.50.

Fort Worth Pastors To Deliver Sermons At First Christian

The director of ministerial services at Texas Christian University in Fort Worth, Thurman Morgan, will deliver the 11 a.m. sermon Sunday at First Christian Church. The appearance here of the two ministers was announced by Truett Flache, president of First Christian board of elders. The church presently is awaiting the arrival of a full-time minister who will assume duties in early October.

THE SQUARE AROUND What's New? SQUARE

By Weldon Callaway

Terry County Printing & Office Supply, had their drawing last Saturday and here are the lucky winners: First Prize—Dwayne Brown, Rt. 1, 50.00 in Merchandise. Second prize — Gene Daniel, 1404 East Cardwell, 25.00 in Merchandise. Third Prize — Sandra Sealy, 319 West Hill, 10.00 in Merchandise. Fourth Prize—Michael Webster, 1503 East Cardwell, 5.00 in Merchandise. Gene Gunn's boys have gone wild since he left for Jamaica — they are having a GE 30th Anniversary 30c Sale... only 30c down buys any item in the store. I sure hope they have See No. 2 Page 2

THE LATEST COUNT — Looking over the shoulder of Miss Kerney Scudday in picture above is a quartet of sheriff's possemen. From left: Leo Holmes, Mozell Ratliff, Kyle Graves and James Fulford. They're checking the latest number of entries in the posse rodeo which gets under way tonight. Other performances will be Friday and Saturday nights. Miss Scudday, daughter of Mr. and Mrs. Kerney (Doc) Scudday of 1118 Tahoka Road, is accepting entries for the three-day event at Rodeo Headquarters in the Chamber of Commerce. (NEWSfoto)

8 P.M. AT PLAINVIEW

Cubs Tackle 'Dogs Friday

High spirits and hard workouts marked most Cub practices this week as they prepared to clash with the Plainview Bulldogs at 8 p.m. Friday in Plainview.

Funeral Rites Held For Mrs. Ruby Neal

Mrs. Ruby Neal, resident of Brownfield for six years, died at 1:30 p.m. Monday in the home of her daughter, Mrs. W. N. (Doc) Lewis, 608 East Hill. Mrs. Neal's body was held at Brownfield Funeral Home until 10 a.m. Tuesday before it was transferred to Newsome Wednesday for services and burial. Dr. Gene Colton of Dallas officiated the services. Survivors other than Mrs. Lewis include another daughter, Mrs. H. E. Roark of Corpus Christi; one son, W. J. Neal Jr. of Abilene; two brothers, Ralph Lamb of Oakland, Calif. and Jimmy D. Lamb of Bakersfield, Calif. and six grandchildren. See No. 1 Page 2

WORKING WITH HANDS IMPORTANT

Special Education Classes Under Way in Schools Here

By KLYDIE SCUDDAY NEWS Staff Writer

This is the third year for two classes of special education which show a forward step for the Brownfield public school system.

Mrs. Pauline Collum of 1203 East Lons, head of the two-class program, teaches at the junior high building. Mrs. Collum, taking her degree at Baylor, has been in the teaching profession for five years and is done by the study of objects that can be handled. At the present the class is working on an electric motor. The study of electricity was started after the group witnessed an electrical storm. Mrs. Inez Farrow is teacher is teach for a similar class at Colonial Heights. Her students range in age from 8 to 10. Before entering the field of special education in 1949 Mrs. Farrow had taught for eight years. She took her B. A. degree at North Texas State Teachers College and her masters' degree at East Texas State Teachers College. She took special training in lip reading at S.M.U., and is putting that art to use this year in the teaching of one of her pupils. She has one student with only 20 per cent hearing. She is training the child through the lip reading method. Both teachers feel they can best meet their students' needs by working in small groups.

Visual education is used to great advantage in these classes. As much of their work as possible is done as a unit. It has proven beneficial for the students of this class to take physical education and music with other classes in junior high of the same age level. One of the girls is at the present meeting with the junior high home economics class, and as soon as arrangements can be made one of the boys will start shop. Puzzles and games play a large part in their education. Much of their mathematics

Lamesa Sanitarian Will Direct SP Health Unit

New sanitarian at South Plains Health Unit is R. L. Goolsby of Lamesa. He will take charge of SPHU property and funds until a replacement is named to succeed Dr. R. E. Johnson, who moved recently to Midland. Goolsby has been with South Plains Health Unit since 1950. He will commute between Brownfield and Lamesa.

SHERIFF'S POSSEMEN — Downtowners saw the Terry County Sheriff's Posse ride Tuesday noon. The group, pictured above, also will lead this afternoon's parade which will herald their three-day rodeo. From left: Ray Christopher, Bob Burnett, Horace Fox, James Fulford, Bill Gordon, Leo Holmes, Mozell Ratliff, Crate Snider, Kyle Graves, Byron Ashwunder, Money Price and Doc Settles.

The parade will begin at 5 p.m., today, and will include posses from Hockley, Cochran, Lubbock and Abernathy, in addition to the 104-piece Brownfield High School Band. Stock for the three-day event is being furnished by Morris Stevens, producer of rodeos at Big Spring, Waco and Midland. Entries are being accepted at Rodeo Headquarters in the Chamber of Commerce. The program will include calf roping, bareback bronc riding, saddle

bronc riding, double mugging, bull riding and girls barrel racing. Said Posse Captain Mozell Ratliff: "We're set for one of the best rodeos in Brownfield yet. Our stock is mean and salty. The riders and other participants are rarin' to go." A dance will climax each night's performance, to be held in the Jaycee Barn. Jimmy Lackey and his Texas All-Stars will play. (NEWSfoto)

SPECIAL TEACHERS — In left panel is Mrs. Joe A. Collum of 1203 East Lons, director of the special education program in the Brown-

field schools. Other picture is of Mrs. Morris Farrow of 802 East Lons, teacher in the program. (NEWSfoto)

Guests of TSCD's Annual Field Tour—Welcome!

way; and Kitty Baker, daughter of Mr. and Mrs. Johnny Baker; Neisha Frymire, daughter of Mr. and Mrs. W. F. Frymire; and Patti Wilder, daughter of Mr. and Mrs. Edson Wilder of 913 East Tate.

Banquets Are Scheduled
The six candidates are between 16 and 18 years of age, and their parents derive their livelihood from the oil industry. More than 700 Brownfield families will initiate Oil Progress Week by placing "Oil Is My Business" placards in their front yards Oct. 7.

Oilmen will gather at 7 p.m., Sept. 23, in the Melody Restaurant to fete Miss Oil Progress and her princesses. In addition, the men will take on the task of selling "a minimum of 4,000 tickets of behalf of Miss Oil Progress for the Harvest Festival queen contest." (Tradition has it that Miss Progress also is an entry in the annual HF contest.)

A banquet Oct. 15 will be held in Brownfield Junior High School cafeteria in honor of the oil industry in Terry County.

No. 2 —

have their work cut out for them Friday.

"Plainview has a big team," said Payne. "They hit hard and block hard." Hendley said the Bulldog tailback, Jessie McGuire, is a good runner and an excellent passer.

McGuire turned in a brilliant 92-yard kickoff return for a touchdown in the Littlefield game. "This boy is just a good all-around ball player," reports Payne.

Bob Dalton, a crushing 220-pound fullback for the Bulldogs, also provides a threat in the balanced single-wing attack.

Coach Cox said he plans to take a 24-man squad to Plainview Friday. The team will leave the fieldhouse at 3 p.m. by chartered bus. "We think we will give Plainview a good game Friday so we hope everyone will follow us to the game and give us some back-

ing," said Cox. The Bulldogs will be aiming to avenge a 33-0 licking administered last year by the Cubs.

Insect Infestation Shows Decrease in Most Cotton Fields

(EDITOR'S NOTE: The following cotton insect situation report for Sept. 12 was county agents, Texas A&M and USDA officials.)

Cotton insect activity was decidedly less than that of the previous week. A widespread use of insecticide for leafworm control accounted for such decline in insect populations on cotton. Many fields, where no recent insecticide applications had been made, had sufficient infestations to warrant control.

Leafworm infestations were reported heavy in Floyd, Hockley, Swisher, and Howard Counties. Heavy ragging of leaves occurred in scattered fields in Crosby and Lubbock Counties where control was delayed. The worms are now appearing in sufficient infestations to require control in many fields in the northern part of the area.

Bollworms were reported in light infestations in a majority of fields. Medium to heavy infestations were found in scattered fields of cotton in Crosby, Floyd, Hale, and Lubbock Counties.

Cabbage loopers were present in heavy infestations in Mitchell County. Looper population increased in many fields in other localities. Egg higher than previously observed counts were generally much ed.

Heavy aphid infestations were reported in Hall and Howard Counties. In some other localities populations have declined, due to control by beneficial insects.

Spider Mites were present in heavy infestations in a few fields in Floyd County. Light infestations were found on cotton in scattered fields in a number of other localities.

New Egg Dispensing Machines Noted As Possible Future Expansion For Industry

With the advent of the new standard-setting Texas Egg Law and accompanying changes in egg marketing, farmers with laying flocks might do well to look at some of the latest trends in producing and selling eggs, however far-fetched they may seem at the present.

Latest developments in poultry science tell us, for instance, that laying hens may pay greater dividends when fed rations which are fortified with some of the new tranquilizer drugs. It is believed that tranquilizers may be of special help in hot summer months by bringing birds through hot weather without a serious drop in laying and by lowering hot weather death losses.

Promising studies are also underway to determine if shell and interior egg quality which drops off during hot weather may be improved by tranquilizers. If a suitable and inexpensive type drug is found—and there is some promise that a heretofore unused tranquilizer by-product may work out — feed manufacturers may be spicing summer rations with helpful "Happiness" drugs to help overcome hot weather difficulties.

Something else worth looking into is the spreading use of automatic coin-type vending machines to sell eggs. These refrigerated road-side wonders are solving the marketing problem for a number of producers in various states, including Colorado, Alabama, Missouri, New York, and California, to name a few.

All a farmer needs to sell his eggs mechanically is the machine, a good location such as a shopping center, a service station or just a busy roadside, and some good quality eggs. He's more apt to maintain a stable market with less down price variation and the difference in marketing at the retail level could pay for the machine in a few months.

One New York firm makes an egg vendor which handles two different grades and keeps the eggs cool in summer and warm in winter, selling for \$1.495 F.O.B. The factory. A special shelter that fits over the machine costs an extra \$150.

Usually I'm able to meet emergencies, but last night when Bill marched in unannounced with his old roommate, Joe, I was ready to desert him. I hadn't shopped in days, and dinner was to be of the can opener variety. All I could do was open another can and apologize. Joe was understanding. He told me that if I had to tolerate last minute dinner guests, I deserved a food freezer. "Sounds great," Bill agreed, "but we haven't the space." "You could manage one like ours," Joe insisted. "It's an RCA Whirlpool upright model. Really compact, but what a lot of food it holds! The door alone is almost a pantry."

Bill looked wary, but I was ready to hear more. "Look," Joe advised, "I'm no expert in the food department. Why not talk with my wife? I should call home, any way."

So I got on the phone with the food expert and learned plenty about that freezer. I heard about the first-in, first-out can dispensers and adjustable shelves in the door. A gate arrangement holds packages neatly in place, and a fan in the door keeps them really cold.

Roll-out baskets store bulky packages, I was told, and four primary freezing surfaces make short work of freezing fresh foods. All this in a trim cabinet that reflects the architectural styling of all home appliances manufactured by Whirlpool Corporation!

Well, that was all the sales talk I needed. I just told Bill how we need a freezer and I think I'll get one. Especially if he can depend on little me to produce on short notice a five-course dinner for an old school chum!

So this is HOMEMAKING

Cotton Quiz

How many Americans depend on cotton for their livelihood?

ELEVEN MILLION, OR ABOUT ONE OUT OF EVERY 15 PERSONS IN THE UNITED STATES.

Proper Precautions Necessary In Use Of New Insecticides

The past two decades of agricultural progress have greatly eased the farmer's burden through any number of inventions, developments and general improvements.

One such area of agricultural improvement has been the development of effective insecticides and pesticides which lessen the farmer's fear of crop destruction.

The insect may be asking for a pack of trouble when he invades the farmer's field today; but, so may the farmer be asking for trouble if he fails to use the highest possible caution in selecting and applying

these farm poisons. While highly valuable in holding down infestation when properly used, certain insecticides and pesticides can be harmful if mishandled.

Such a group of insecticides which mix blessing in effectiveness with caution in application are those classified as esters of phosphoric acid or certain of its derivatives. Much of the original work on these compounds was done by the Germans during World War II when they were seeking chemical warfare agents.

This is not to say, however,

that the insecticides developed in this connection are to be avoided. They are of great agricultural value when used with the proper amount of care.

Phosphate ester insecticides on the market today are those which contain malathion and parathion, known under various trade names. They are most effective as farm poisons, but, being dangerous to humans and small animals when absorbed through the skin, inhaled or swallowed, they should never be put to domestic or home garden use.

NOW...get the year's best truck deal! Save on a new DODGE PowerGiant

Most Power of the Low-Priced 3

Extra Dodge power—204 to 232 hp.—lets engine take it easy under maximum loads. In recent competitive tests, such as hill climb above, Dodge outperformed Trucks "C" and "F" in every instance. See complete photographic proof at your Dodge dealer's!

Biggest Payloads of the Low-Priced 3

HONORARY BRIDE HONORED — Mrs. Dave Hopson, the former Miss Linda Pennington, was honored with a miscellaneous bridal shower Sept. 12 in the home of Mrs. Joe Davis, 1206 East Lons. Other hostesses for the occasion were Misses Byron Cabiness, J. B. Jobe, E. V. Riley, Delton Tatum and Coke Toliver. Pictured here, left to right, are Miss Linda Moore, the honoree and her mother, Mrs. Pat Pennington, and Miss Judy Prewitt. (NEWSfoto)

HOSTS SPADE AT 8 P.M.

Union Opens District Slate at Home Friday

Union's Wildcats open a tough nine-game district slate as they tackle the Spade Bulldogs, fresh from a 31-7 victory over Flomot, at 8 p.m. Friday at Union.

Coach Kenneth Sams said Spade looked impressive as they trampled Flomot last week. "They have a well-balanced team and two very fine ball carriers in Martin Young and Phelix Sipes," said Sams. "They run off a Winged T formation and it seems to work well for them as they have some good blocking."

The Bulldogs, who have four returning starters this year, are touted as one of the top teams in the 10-team 2-B six man district.

Muldrow is Pledged To Social Fraternity

Ken Muldrow, son of Mr. and Mrs. A. M. Muldrow of 221 South Club, was pledged to Beta Theta Pi at the University of Oklahoma after rush week which began September 8.

A total of 1,033 men and women pledged membership in 16 social fraternities and 26 social fraternities at the close of the week of rush activities.

Sororities rushed under a quota system of not more than 30 pledges if they started rush with 70 members or more or enough pledges to bring their total membership to 100. Fraternities had no quota system.

looking better after a week's rest. He said the Wildcats have been working on blocking and timing since their opener with Borden, which was rained out in the second half with the opponent leading 14-0.

The Union mentor noted that Wylie Kay and Alfred Newsum have looked sharper in Wildcats practices this week. "Improvement by Jimmy Howell in the linebacker slot also will bolster our defense this week," he said.

Cub Frosh, B Team Entertain Seminole At Stadium Tonight

BHS freshman and B football teams will take the field for their season openers against Seminole tonight at Cub Stadium.

The freshmen, coached by Farris Nowell and Bill Curry, will host Seminole freshmen in a game starting at 6:30 p.m.

The Cub B team, coached by Elroy Payne and Don Hendley will play at 8 p.m. on the same field.

Despite their name, chicken snakes live principally on rats and mice.

Broncos Play Host To Idalou At 8 p.m. Friday At Meadow

Meadow's Broncos will play host to Idalou in a non-conference tilt at 8 p.m. Friday in Meadow Memorial Stadium.

The Broncos, fresh from a 20-0 win over Ropesville last week, will be attempting to make it two in a row as they collide with the Idalou eleven.

Though the visitors are highly-rated, Meadow is expected to win handily.

Held back in the first half by a 14 pound per man weight disadvantage last week, the Broncos ripped loose for three touchdowns the second half — all in a driving rain.

James (Wally) Smith will be the man under and signal caller for the Idalou game.

The 1956 4-B co-champions lost to the visitors, 13-7, in last year's duel.

Brownfield Youth Is Critically Injured In Car-Scooter Wreck

A 15-year-old Brownfield youth remains in critical condition today after being involved in a car-scooter collision at Main and Lubbock Road late Monday afternoon.

Eugene Lynn, son of Mr. and Mrs. J. L. Lynn of 908 Tahoka Road, was transferred to West Texas Hospital in Lubbock after receiving emergency treatment at Treadaway-Daniell Hospital here.

Lynn was riding a scooter driven by Bobby Casebeer, son of Mr. and Mrs. A. E. Casebeer of 521 South Fourth, when it collided with a car driven by Mrs. Fred Adams, 23, who lives 1 1/2 miles east of here. Casebeer was not injured seriously.

Investigating officers said Mrs. Adams turned west on Main from Lubbock Road when the youths smashed into the side of her vehicle. Officers said the youngsters apparently were passing another car on the right as they headed north on Lubbock Road.

Impact of the collision, which occurred at 4:20 p.m. Monday, knocked the scooter 20 feet from the intersection. Casebeer told officers he was driving 30-35 miles per hour when "I looked up and saw a green or light grey 1950 Buick in front of me."

No charges have been filed in the accident.

Scholarship Given To R. E. McDonald

Robert Earl McDonald, son of Mr. and Mrs. R. T. McDonald of 1006 East Lons, was one of 47 graduate students to be awarded scholarships and fellowships for the 1957-58 academic year at Stanford University of California.

Winners represent 39 states, the District of Columbia, Hawaii, Alaska, and 22 foreign countries.

Fellowships and scholarships are awarded on the basis of scholastic excellence, need, and promise of success. Robert has been attending the college for the past four years on a \$6,000 scholarship given him by Wichita County.

Cheques Estates is the official country residence for British prime ministers.

Snow Dessert the Gelatine Way

Cool, low-calorie snow is a light dessert to climax a hearty meal. Here the classic and sophisticated recipe combines the refreshing tang of orange, lemonade, grape or grapefruit frozen concentrated fruit juice with egg whites and unflavored gelatine. The remaining egg yolks go into a custard sauce to top each serving.

Fruit Juice Snow
 1 envelope unflavored gelatine
 1/2 cup sugar
 1/4 teaspoon salt
 1 1/2 cups very hot water
 1 can (6 ounces) frozen concentrated fruit juice
 2 unbeaten egg whites
 Mix together gelatine, sugar and salt. Add very hot water and stir until gelatine is thoroughly dissolved. Add undiluted fruit juice concentrate and stir until blended. Chill until mixture is slightly thicker than the consistency of unbeaten egg whites. Add unbeaten egg whites and beat with rotary or electric beater until mixture begins to hold its shape. (To speed up chilling and beating time, set mixture over ice and water.) Turn into a 6 or 7-cup mold or individual molds, or spoon into dessert dishes. Chill until firm. Unmold (if molded) and serve with *Custard Sauce which utilizes remaining 2 egg yolks.
YIELD: 8 servings.

***Custard Sauce**
 1 1/2 cups milk
 1 whole egg
 2 egg yolks
 3 tablespoons sugar
 1/2 teaspoon salt
 1 teaspoon vanilla
 Scald milk in top of double boiler. Beat whole egg and egg yolks; stir in sugar and salt. Gradually add small amount of the hot milk, stirring constantly. Return to double boiler and cook over hot, not boiling, water until mixture coats the spoon. Remove from heat; cool. Stir in vanilla.

Weekly TV Log To Be Regular NEWS Feature

The NEWS is pleased to announce another service to its readers: the Weekly TV Log.

Contained in the log are a KCB-D-TV and KDUB-TV of Lubbock, Channels 11 and 13, respectively.

The log is printed in such manner that it can be clipped from the paper and placed atop the TV set for quick and convenient reference.

Catnip tea is considered by some as an excellent cold remedy.

First modern cash register was patented by Jacob Ritty of Dayton, Ohio, in 1879.

Balanced Design Means Less Wear — Longer Life — Easier Handling

Use a BIG-CAPACITY JOHN DEERE No.55 Combine

The engine and grain tank are centered on top of the John Deere No. 55 Self-Propelled Combine. This means the No. 55 is balanced at all times, even when the grain tank is full.

Weight being properly distributed—the No. 55 has good flotation and flexibility for soft and rough fields.

Balanced design also means that your crop is evenly distributed over all of the units. There's no overloading to cause grain losses or undue wear.

Come in and let us give you all the details on the 12- or 14-foot John Deere No. 55 Combine—the balanced combine that saves more grain or seed at lower cost.

TIME FOR RETURN OF GRASSES

Heritage of the Plains Neglected As Wind and Water Erodes Land

Grass is our basic heritage. It is the greatest and most neglected resource of Terry County and Texas.

The Terry County Soil Conservation District supervisors and service personnel recommend the use of grasses as a cover for the control of both wind and water erosion.

The widespread removal of native grasses on hillside and shallow soils to make way for cultivated crops and the overgrazing of range and pasture lands, sometimes results in damage to the soil from wind and water.

What takes nature hundreds or even thousands of years to manufacture, man can and often does destroy overnight by improper land use and overgrazing. All of these offenses and more are chargeable to man in his pursuit of temporary advantages at the expense of lasting economy in the use and conservation of natural resources.

Grass Cover Needed Eroded areas rarely will cover themselves with natural grasses during the first year or two. The help, therefore, of a quick grass covering is needed the first year to prevent unnecessary surface erosion.

This can be accomplished by sowing some of the small grain and later sow a mixture of grasses. As most of our severe winds occur during the spring months, a cover should be established early to help this erosion condition.

Switchgrass and Indian grass rank high as a soil conservation plant because of its abundant branching rootstocks and fibrous roots which re-inforce the soil against erosion.

Yield of forage and protective litter is high. Old stems remain erect in winter, thereby protecting the soil and providing an effective snow trap. These grasses not only protect your land from erosion but are used as a cash crop in the harvesting of seed.

Yields from natural stands may vary from a few pounds to as much as three hundred and fifty pounds per acre. Yields from irrigated cultivated stands are higher and more dependable.

Grass cover also is used for waterways. These grass waterways are used to get water down the slope without carrying soil. Natural waterway are widened for large volumes of water, to spread the water and prevent erosion from concentration.

These waterways should be seeded to a combination of native grasses, such as Buffalo, Blue Grama, Sideoats Grama or Mesquite.

Strip Cropping Strip cropping is another use for grasses as a cover. By strip cropping is meant the practice of growing inter-tilled crops in alternating bands or strips with

close growing grasses. The wider and closer together the strips of non-erosive crops are placed the more effective they are in checking erosion from the entire field.

Blue Panicum, often called Blue Panic, is a deep rooted perennial grass. The plant may reach a height of eight feet under the best growing conditions and makes an excellent grass for close growing strips.

Seed yields may run as high as six hundred pounds per acre on irrigated land and under dry land conditions, one hundred and fifty to two hundred and fifty pounds per acre is a good yield. Blue Panicum also a good pasture grass, overseeded on pasture or ranch land, which has been cleared of mesquite by root plowing.

Love Grasses Good To control wind and water erosion, to provide a cover on land too poor to grow field crops and to provide hay and pasture for cattle, plant your sandy soils to the different love grasses.

Weeping lovegrass or sand lovegrass is good for re-grassing abandoned land and should be used for supplemented grazing. Seed yield, under dry land conditions range from twenty five to 150 pounds per acre. While under irrigation, a yield of 600 pounds may be reached.

If grasses planted for a cover-crop you may want to harvest the seed for a cash crop. In learning whether the seed of any field of grass is worth harvesting, several things must be

considered. These include the size, location and condition of the field, the kind of harvesting equipment and the need and demand for seed. For most grasses, two field examinations are necessary.

The early one is made approximately one week after flowering is well along. The second is made a few days before harvest begins.

In the early examinations, consider the moisture conditions of the soil and seeds, and the general appearance of the flowering plant. When soil moisture is low, organs dry up with in the flower and no seed are produced.

If rains do not fall during the period of flowering, a second examination is not necessary. Make the second examination a few days before harvest begins. This is to make certain justify collection.

The combine is the most popular machine for harvesting most grasses. Combines work most effectively when the seeds are mature and have passed into the hard-dough stage.

But the risk of seed loss from shattering is important with some grasses and may offset the low cost of combining. If such is the case, a binder is useful for harvesting grass seed. The advantage of the binder is that cutting can begin several days earlier than direct combining.

list. Tests in Kansas indicate that trials should be made at the beginning of any deep tillage operation to see what speed will produce the greatest cloddiness under whatever local conditions exist.

Spacing, too, is important. Barton points out that chiseling at 27-inch spacing gave 50 percent more roughness and resulted in 75 percent less erosion than chiseling at 54-inch spacings. But it took five horsepower more tractor to pull narrow chisels spaced at 27 inches than for those at 54 inches. Where wide spacing is necessary, duckfoot shovels would be better under some soil conditions to bring up enough clods.

Depth of tillage had less effect than these other controllable factors in the Kansas tests. The most effective depth depended upon speed, spacing of tool heads and other things. As a general rule, deeper tillage produced greater surface roughness, but increased roughness was not enough in most cases to justify the extra horsepower required.

Speed of tillage proved to be one of the most important factors in obtaining maximum surface roughness, notes the specialist.

Unless it's done properly, deep tillage may make soil more vulnerable to the relentless gales of the Great Plains. But when drough strips the land of its protective cover, heavy clods of soil turned up to the surface can help to reduce wind erosion.

Deep tillage is most effective and practical on land where a deep sand 12 to 24 inches deep covers a layer of clay, says Jack Barton, extension soil and water conservation specialist. Turning the clay up can help because a rough surface gives the best resistance to wind erosion. Therefore, the more will be the surface stability.

Speed of tillage proved to be one of the most important factors in obtaining maximum surface roughness, notes the specialist.

PONTIAC MOTOR DIVISION is observing its 50th anniversary of automobile production since the company was first organized on August 28, 1907, at Pontiac, Mich., as the Oakland Motor Car Company. During the half century seven million cars have been built and nearly six and one-half million of that number were Pontiacs, which were introduced in 1926. In 1931 the firm's name was changed to Pontiac Motor Division when the Oakland car was discontinued.

Contest Announced in Sheep-Shearing, Livestock Judging

Expert sheep shearing and judging livestock will pay big dividends this fall to 4-H Club members in the form of college scholarships, U. S. Savings Bonds and other prizes, according to the national committee on boys and girls club work.

Awards are offered on a national basis in the 4-H sheep shearing program sponsored by Sunbeam Corporation, and the livestock judging contest supported by Armour and

Company. Both events will take place during the International Live Stock Exposition in Chicago.

In sheep shearing the contestants will be judged on technique, quality of workmanship and speed. The top ranking national winner will receive a \$300 scholarship, and the second place winner a \$150 scholarship.

In addition, \$50 U. S. Savings Bonds will be given to six red ribbon winners. A specially designed 4-H championship belt

will be presented to the state winner. Sunbeam contributes all of the awards.

The three divisions in the livestock judging contest are beef cattle, sheep and swine. To the highest scoring individuals in each classification will go a \$400 scholarship provided by Armour.

Scholarships To Be Given 4-H Members

Four scholarships of \$800 each are available this year to college students who have completed three years of 4-H Club work and who plan to major in either agronomy or textiles, says G. L. Noble, director of national committee on boys and girls club work.

"The scholarships are offered on a national basis," stated Noble. "To be eligible applicants should have a satisfactory scholastic and 4-H Club record and must have completed their sophomore year in an accredited college or university."

Two agronomy scholarships are made possible for the first time to agriculture students by the California Spray-Chemical Corporation of Richmond, Calif.

The Colgate-Palmolive Company for the second year is offered two home economics

scholarships for girls majoring in the clothing and textile fields.

At the time the two national winners are chosen for the agronomy and home economics scholarships, four alternates for each scholarship will also be selected on a descending basis. If the scholarships are not used by the winners, they will be made available to the first alternates. Half of the scholarship will be granted during the junior year, and the other half will be provided for the senior year.

Students wishing further information regarding the awards should contact the state 4-H Club leader. All applications must be submitted by the state 4-H Club leader on or before October 25, 1957, according to Noble.

Wellman Junior Team Plays Smyer Tonight

Wellman Junior High School will host the Smyer Junior High team in a six-man football game at Wellman at 6 p.m. today.

No admission will be charged for the contest.

Beetle Bailey By Mort Walker

BABY'S FRIEND

The role of 1958 Maid of Cotton is waiting to be filled by a young girl who likes meeting people of all ages. In a tour of major U. S. cities, one of her duties will be to appear in a benefit fashion show for the Protestant Home for Babies in New Orleans. Delois Faulkner, a former Maid of Cotton, (above) makes friends with a baby at the home. Dec is now Mrs. Max Boydston of Oklahoma City. To be eligible to be Maid of Cotton, a girl must have been born in a cotton-producing state. For further details, write the National Cotton Council, P. O. Box 9905, Memphis 12, Tenn.

We almost lost him...

See that young fellow over there? He's one of the town's rising young executives — a real asset to the community. Only three short years ago things were so bad that he was seriously considering moving to the big city. He was working hard at a routine job that failed signally to provide an outlet for his very real abilities.

Luckily someone suggested that he leave his name with the Chamber of Commerce. And you should have seen our members hustle around! After all, what's the use of trying to make the community a better place to live and work in if your best young men start moving away!

When the frozen-foods company built its offices here — invited by the C. of C., by the way — we sent him over with a hearty recommendation. He got the job and he's on his way.

With your help, your Chamber of Commerce can do even more to improve business conditions and thus raise living conditions for everybody. So come on over and join us. Support us with your time and money. And remember: the more useful we are, the more you, personally, will benefit.

Pete Progress

Vol. 20 Brownfield News-Herald, Thursday, Sept. 19, 1957 No. 58

Annual Meeting of Brownfield Baptist Association To Be Today in Meadow

The 50th annual meeting of the Brownfield Baptist Association will be held at the First Baptist Church in Meadow today. The Rev. A. W. Stowe, pastor of Calvary Baptist Church, and the Rev. Alton Polk, pastor of the Meadow church, are moderator and vice-moderator, respectively.

Principal speaker will be the secretary of the Baptist General Convention, R. Hooper Dilday, who will speak at 11 a.m. on "Denomination".

The program begins at 9:30 a.m. today with a song service, followed by scripture and prayer. The business meeting is slated to start at 9:45 a.m. Talks will be made by Dr. Franklin Swanner of Plain-

view, district missions secretary; and Dr. A. Hope Owen, D. C. Hamilton, the Rev. Ray Cunningham, Burl Lovelace and the Rev. Bill Burton. The annual sermon will be preached by the Rev. Don Murray.

Dr. H. W. McIlroy Is Speaker At Lubbock

Dr. Howard Wayne McIlroy of 1201 East Ripley was one of the principal speakers at the national Chiropractic Day dinner held at the Caprock Hotel Wednesday night.

The local doctor's address was on professional unity. He was accompanied to Lubbock by his wife and his parents, Dr. and Mrs. T. H. McIlroy.

Colonial Heights PTA Met Thursday

More than 100 were in attendance when the Colonial Heights P.T.A. met Sept. 12 at 7:30 p.m. in the school auditorium.

A preview of the year's program was given by Mrs. L. C. Webster. Vocal selections were presented by Mrs. John Luckey. Mrs. Lucile Schmidt took first prize on room count. Second prize went to Miss Pat Dillon and third to Mrs. Carrie Dungan.

The organization voted to give a chicken spaghetti supper on October 4. Hours for serving will be 5:30 to 8:00 p.m. preceding the Brownfield-Lamesa football game. Adult tickets will be \$1. and for children under 12 the cost will be 50c.

Proceeds from the supper will be used to finance the year's program which includes buying of provisions and clothing for underprivileged children of the school.

Refreshments of cold drinks and cookies were served by Mrs. J. W. Fitzgerald. Assisting with the serving were Mrs. Bill Neel and Mrs. Jimmie Mackey.

ANNOUNCING ENGAGEMENT—Mr. and Mrs. Jerry Dumas of 607 North Second, announces the engagement and forthcoming marriage of their daughter, Jerri, to Jack L. Key, son of Mr. and Mrs. D. A. Key of Wellman. The double ring rites will be conducted here Oct. 12.

Mrs. Roy Howell Is New HD Head

The Northwest Home Demonstration club met in the home of Mrs. Wayne Cadenhead of Meadow Sept. 9 at 2 p.m.

Mrs. Jewel Bell gave a report on her recent trip to the State Home Demonstration meeting in Houston.

In the business session, new officers were elected for 1958 as follows: President, Mrs. Howell; Vice Pres, Mrs. B. W. Branch; Secretary and Treas, Mrs. Jewell Bell; Council Delegate, Mrs. Cadenhead; Reporter, Mrs. Leona Holden.

A roundtable discussion on the subject of materials was conducted. Also the club voted in favor of promoting an "old time" type annual fair in Terry County.

Ice Box cookies and punch were served. Visitors this week in the home of Mr. and Mrs. Jack Bailey, 1010 East Eate, are Mr. and Mrs. Don Hart of Oklahoma City.

Mr. and Mrs. Leonard Lang of 718 East Broadway left this week for a fishing trip to Buchanan Lake.

Mozell Ratliff Home Keyed to Comfortable Living Combined With Simple Elegance

By GEE GEE PRIVITT
NEWS Staff Writer

VICTORIAN LIVING ROOM — of the Mozell Ratliff home combines both simple elegance with utility to make for lots of comfort. The walls are neutral, as is the tweed carpet, setting off perfectly the jewel tones of the fruit-

wood furniture, greens, golds and browns. Note the scrolled detail of the valance over the heavy raw silk draperies, and the framed prints grouped over the couch. (NEWSfoto)

U-SHAPED KITCHEN — of the Ratliff home is both beautiful and functional. Having the copper built in refrigerator-freezer, two ovens, range top units, and dishwasher all grouped in a U-shape gives Mrs. Ratliff (pictured here)

plenty of work room, and yet cuts down on many steps. Cabinets are birch, with copper pulls, and the floor is a copper-toned inlaid linoleum with tile design. (NEWSfoto)

The beautiful new home of Mr. and Mrs. Mozell Ratliff at 1302 East Tate combines a simple elegance with utility to make it as comfortable as anyone could wish.

Designed to take a lot of living, the red brick home is set on a corner lot and is surrounded with a brick fence. On entering the front door, one steps into a foyer floored with polished quarry tile and separated from the formal living room by a brick planter.

The beige walls and beige tweed carpeting, which extends throughout the house, are a perfect foil for the jewel tones of fruitwood Victorian furniture, upholstered in green velvet, gold satin and light brown brocade fabric. Marble-topped fruitwood tables are placed conveniently near the seats, and a fruitwood chord organ is set against one wall. Framed prints are grouped on the walls of the room, draperies are of heavy neutral raw silk with special scrolled treatment to the valances.

Leading off the living room to the left is the Ratliff's teen-aged daughter's bedroom and bath.

Tiled in black and white, with a black and white Victorian drapery at the window, the austerity of the bath is relieved with vivid red accessories. The bathtub is glassed in, and a dressing table lies along one wall.

A study in white and turquoise is Doris' bedroom. Furniture is modern antiqued white and a slipper chair and loveseat are upholstered in turquoise velvet. Draperies at the window are white with a lace insertion at the hem and on the valance. A large double-doored walk-in closet holds her varied wardrobe.

Leaving the living room to enter the other wings of the house, one steps down into a comfortable den paneled in birch; with windows draped in soothing green raw silk. A Victorian fruit print covers the couch and club chair and here, too, fruitwood tables are marble topped and set at strategic points. A patio opens off the den, scene of many happy times spent by teenagers around the barbecue grill, which is a part of the fireplace wall in the den.

A corner fireplace in the den has a raised hearth, with many pillows for group viewing of the television set, which is set into the wall, along with the hi-fi set. At the side of this group is Mrs. Ratliff's "ham" radio set.

A stationary fruitwood card table and chairs as well as many beautiful framed prints complete the setting.

Another step-up leads to the dining room, furnished in fruitwood and rapped with material matching the furniture covering in the den. Scones of fruit clusters decorate the walls here.

To the right of the dining room is the U-shaped kitchen, paneled in birch and furnished with copper built-in ovens, refrigerator-freezer, dishwasher and range units. The floor is an embossed inlaid linoleum in tile design. A see-through panel from the kitchen to den allows Mrs. Ratliff to watch television while she is preparing the family meals.

Off the kitchen to the right is the utility room, containing the washer and dryer and a double sink, as well as Mr. Ratliff's office. One door leads to the back yard and the other to the double garage, which is equipped with automatic doors.

To the left of the dining room are two bedrooms and a bath. The master bedroom boasts two large double-doored walk-in closets, and is finished with beige walls and dark bedspread. Here is one of the two master panels controlling the remote lighting system. Framed prints over the bed and two comfortable easy chairs, upholstered in a white and brown print fabric, make this a homey room.

The guest bedroom is furnished in maple, with twin beds covered in white chintz with a turquoise print flounce and matching print draperies.

Meadow Girl Is Hospital Patient

Anita Moreno, 7-year-old daughter of Mr. and Mrs. Manuel Moreno of Meadow, was admitted on Friday, September 6, to the Scottish Rite Hospital for Crippled Children in Dallas.

Texas Scottish Rite Masons founded the hospital thirty-three years ago in an effort to provide a chance for a normal life for the handicapped child. The hospital, which is supported by public contributions and bequests, has accepted more than 100,000 children for treatment since 1925.

An expert staff, plus unique physical facilities and dedication to the welfare of the child, make the Scottish Rite Hospital an outstanding treatment center which serves the entire state.

Pool News

By CLARA DUNCAN
NEWS Correspondent

Dr. J. Harvey Scott, pastor of the First Baptist Church in Petersburg, preached here Sunday with 100 present for Sunday school. Dr. Scott held the revival, which was closed Sept. 8.

Mr. and Mrs. Evon Johnson and Maude Dozier of Lubbock and Mr. and Mrs. Lester George of Brownfield visited Sunday in the home of Mr. and Mrs. W. C. Wade.

Tennie Wade and Mrs. Al Hallbauer and Cindy of Brownfield accompanied Leslie Hallbauer to Roswell, N.M. to enter New Mexico Military Institute over the weekend.

Mr. and Mrs. Bernard Bishop and girls of Snyder her parents, Mr. and Mrs. Roy Barrier, and children. Mr. and Mrs. Walter Brenson were dinner guests in the home of Mr. and Ms. Leroy Barrier and boys.

Mr. and Mrs. Elvive Duncan and children were Sunday dinner guests in the home of her parents, Mr. and Mrs. W. M. Joplin, and girls.

The Pool Home, Demonstration Club met Sept. 11 with Mrs. Ethel Solsberry, Mrs. W. W. McNabb and Mrs. W. T. Knight of Lakeview met with us and showed how to make log flower pots. Several visitors met and each one made herself one. Mrs. Maggie Timmons of Lakview also met with us.

Other visitors were Mmes. Arnold Waters, Martha Howard, Nell Barrier, Ralph Spain and Bryan Spain. A new member is Mrs. Odell Holland. Members present were Mmes. Lavere Forbus, James Watson, Elvive Duncan, J. M. Trussell, Dan Day, Don Day, Fred Terry, Ervin Duncan, J. W. Young, Jack Brown and Solsberry.

Mr. and Mrs. J. M. Trussell visited Sunday in Tahoka with Mr. and Mrs. O. A. Allen.

Mr. and Mrs. T. P. Coker and Mary of Lubbock and Mrs. Ethel Young and Warren of Brownfield were dinner guests Sunday in the home of Mr. and Mrs. J. M. Trussell.

Linda Giles Moore Is Winner of Scholarship

Among the 21 outstanding high school graduates who will attend Texas Tech this fall on Dunlap Scholarships is Linda Giles Moore of Brownfield.

A member of band, science club and library staff, as well as class secretary and student council representative while attending Brownfield High School, Miss Moore is the daughter of Mr. and Mrs. Loyd Moore, 1305 East Buckley.

Mrs. E. J. Duncan and family: Evening visitors were Mr. and Mrs. Elvive Duncan and children, Mr. and Mrs. Thurman Solsberry and girls and Mr. and Mrs. Lawrence Dunn and Rhonda of Plains.

Mr. and Mrs. E. L. Howard and girls of Brownfield, Mr. and Mrs. Robert White and son of Brownfield, Mr. and Mrs. D. C. Dunn and family of Seagraves, Mr. and Mrs. James Gunn and family of Odessa and Mr. and Mrs. Freddie Howard and Major Bill visited Sunday in the home of Mrs. Martha Howard and Johnny. Mr. and Mrs. Gene Joplin and Mark of Seagraves also visited Saturday with Mrs. Howard.

The Rev. and Mrs. Alton and family were Sunday dinner guests in the home of Mr. and Mrs. H. V. West in Meadow. Mr. and Mrs. Jack Brown and family and Mr. and Mrs. Robert Berryhill and Pam of Brownfield enjoyed Sunday in Lubbock park.

Mr. and Mrs. Lawrence Dunn and Rhonda of Plains, Mr. and Mrs. August Jones of Abernathy, Mr. and Mrs. B. W. Young of Brownfield, Clarence Hester of Meadow and Mr. and Mrs. B. D. Seaton and family of Brownfield visited Sunday with Mr. and Mrs. Homer Dunn.

Mr. and Mrs. Claude James and dWayland Lee of New Home visited Sunday with Mr. and Mrs. Harold Crooks and boys.

Mr. and Mrs. Roy Barrier went to Big Spring Sunday to be at the bedside of her mother. She was much better and returned to her home at Liberty Hill Tuesday.

Mr. and Mrs. Arnold Waters

Mrs. B. Hackney Gives WSCS Lesson

Mrs. Burton Hackney conducted the lesson on "Christ and the Church and the Race" at a general meeting of the Women's Society of Christian Service held at First Methodist Church Monday.

Following a lecture on the lesson and the scripture reading from Luke 10, Mrs. Hackney showed a film strip.

During the business meeting, conducted by Mrs. J. C. Criswell, a new member, Mrs. W. C. Windham, was introduced, and Mrs. Roy Herod was appointed pianist for the group for the coming year. The meeting closed with the WSCS benediction. Approximately 14 attended.

spent the weekend in Lovington, N.M. visiting Mr. and family.

Pool W. M. U. met at the church Monday night. Mrs. Leroy Barrier had the program. Others present were Mmes. Wade, Neil Barrier, E. J. Duncan, Harold Crooks, Martha Howard and visitors, Clara and Wilmoth Duncan and Kathy Barrier.

Mr. and Mrs. Leroy Barrier and boys spent Tuesday night in Lovington, N.M. with Mr. and Mrs. Otis Aldridge.

New Sunday school officers were elected Wednesday night as follows: J. M. Trussell, superintendent; Marion Duncan, secretary; Homer Dunn, song leader; Mrs. Walter Brenson, pianist; Mrs. M. C. Wade, adult teacher; The Rev. Alton West, young married people's teacher; Roy Barrier, young people's teacher; Mrs. Leroy Barrier, intermediate teacher; Mrs. J. M. Trussell, junior teacher; and Mrs. Glen Maynard and Mrs. E. J. Duncan, primary teachers.

Miss Casstevens Is Named Class Secretary

Miss Sandy Casstevens, daughter of Mr. and Mrs. R. H. Casstevens of 121 West Broadway, has been elected secretary-treasurer of the freshman class of Southwest-ern Medical School in Dallas. A graduate of Brownfield High School and of Texas Tech, Miss Casstevens is one of six girls enrolled in the freshman class at SMS this semester.

Around Union High

School started off with a "bang" on Monday, the second. We broke the cameras Tuesday having our pictures made. The teachers started off all wrong by giving us tests.

Then senior class sold ads for their annual on Tuesday. Our first football game was between the Union Wildcats and the Gail Coyotes. The

score, when it was rained out, was 14-0 in favor of Gail. We are sorry to say.

The Junior class is having a watermelon feast Friday night at the home of Rodney Her- ring.

We are very proud to say we have six new students in our high school this year. They are Janice Howard, Darrene Howell and Leland Duggan, seniors; Robert Duggan and Mary Lou Taylor, juniors; and Wilma Cheatham, sophomore.

We are very sorry to say that our superintendent, M. G. Gary, was injured in an automobile accident Monday night. He is in the Seagraves hospital with a cracked shoulder bone and cuts on his face.

There are 17 girls in our pep squad organization. Mrs. Odus Walser is our sponsor. Doris Howell is our head cheer leader and Genell Cornett and Barbara Gruben are the other cheerleaders. Vada B. Neighbors is our drummer. We were very disappointed because our uniforms were not in for our first game. They have now arrived and we will be wearing them at our next game which will be with Spade Sept. 20 here. Let's all come out and back the Wildcats.

The different classes have elected their sponsors. The seniors elected Kenneth Sams and Mrs. Walser; the juniors have Mr. John Gary as their sponsor; the sophomores have Mr. Walser, and the freshmen have Mrs. J. O. Burnett.

DATERS AROUND UNION HIGH: Vada B. Neighbors-Kenneth Duvall; Paulene Helton-Bobby Howard; Barbara Gruben-Steve Lollace; Doris Howell-Wylie Kay; and Eva Sue Hester-Howard Hungerford.

STEADY COUPLES SEEN Raymond Woods; Genell Cornett-Charles Goza; Welda Hook-Lloyd (Lefty) Hester; Yvette Karr-Jimmy Sargent; Barbara Bishop-David Cabe; Sammie Chambliss-Alfred Newsom.

The freshmen got off to a good start with initiation. The girls had their day last Friday and the boys had theirs on

Junior High PTA Starts New Study

Launching their new study program of the year, "New Ventures in Partnership", the Junior Parent Teachers Association will meet at 4 p.m. today. An executive meeting at 3 p.m. will precede the meeting.

Aimed at seeking more understanding and cooperation between parents and the 12-15 year age group, today's program will be "Operation with Cooperation", with Mrs. Ed Wilder as program chairman.

Mrs. Wayland Parker will lead the parent-teacher prayer, and Mrs. David Nicholson will introduce new officers. Faculty members will be introduced by Joe Collum, and O. R. Douglas, superintendent of the schools, will give the program subject.

Mrs. John Jennings is in charge of the social hour to follow.

In urging all parents to attend this, and all PTA meetings, Collum said, "It is very important that parents seek a greater understanding of their children in their most formative years, those between 12 and 15 years. We urge each parent to meet with our PTA group so that we may work together with them and their children for greater educational gains."

Mrs. Stice Hostess To Gala Bridge Club

Mrs. O. L. Stice, 808 East Tate, was hostess to Gala bridge club last week.

Yellow angel cake and German chocolate cake, with coffee, were served to Mesdames Frank Ballard, Eddie Ballard, Harry Cornelius, Coy Barnett, Herb Chesshir, Burton Hackney, Clovis Kendrick, Joe Christian, Walter Hord, J. O. Rodgers, R. N. Lowe and Troy Noel.

Mrs. Christian was high players and Mrs. Frank Ballard and Mrs. Hood binged.

Monday. They were so "cute" and so "smelly".

MRS. RATLIFF READS—at the fruitwood stationary cardtable in the family den, which is, naturally, the favorite spot of the entire family. Chair in foreground is upholstered in red and a comfortable couch and club chair in the left corner of the den are upholstered in a Victorian fruit print. Note the corner fireplace, the built-in television and hi-fi sets and the magnificent pheasant print on the back wall. (NEWSfoto)

Price of Timber Is Controlled by Care Used in Harvesting

The value of a stand of timber, and the amount of money that can be obtained for it, depend a good deal upon how it is cut. A little planning before cutting can raise the returns considerably.

How much timber and timber quality are lost in ordinary logging operations was revealed in a study by the Central States Forest Experiment Station of the U. S. Department of Agriculture's Forest Service.

Observations were based on 10 different logging operations in Southern Illinois. Logs from more than 200 black-oak trees were measured and graded for quality as they were actually cut by woods workers. The results were compared with the volume and grade of material

that could have been cut from the same trees.

The report shows that 34 percent of the volume of the sample trees could have been cut into high-quality logs, in contrast to the 23 percent so cut by the local woods workers. Board-foot volume could have been increased 4½ percent by improved log cutting.

The unplanned cutting gave a volume of 53,768 feet, compared to 56,242 feet that could have been obtained. Volume is increased when full use is made of merchantable material at the tops of trees as well as at the stumps. And both profit and quality are increased when cuts are made for maximum volume and the log lengths varied to give maximum clear lengths

in certain logs and to throw knots, holes, and bud clusters into poorer logs.

The black-oak tree harvested in the Forest Service survey yielded lumber worth about \$4,100. The same trees cut for maximum volume and value could have been worth \$4,600, an increase of \$500. It is suggested that timber cutters might be encouraged to cut logs for quality by offering higher pay for higher grade logs.

Mrs. Effie Knox Cooper of 714 North Atkins returned Tuesday from Utah, where she spent the summer with her son.

The Women's Missionary Union met at the church Monday at 2 p.m. Mrs. C. S. Carroll gave a book report on Missions in Africa.

There were nine adult members and four Sunbeams present.

Billy Bagwell went fishing at Lake Thomas over the weekend.

Mr. and Mrs. C. S. Carroll had Sunday dinner with the Loyal Henson family. They also visited his parents, Mr. and Mrs. L. P. Carrol, Sunday afternoon.

Mr. and Mrs. Clarence Clark honored his parents, Mr. and Mrs. D. Clark, on their 36th wedding anniversary with a dinner Sunday. Those attending were Mr. and Mrs. D. Clark Sr., and Fred, Mr. and Mrs. D. Clark Jr., Macky and Jimmie Sue, Mr. and Mrs. Mickey Clark, Diana and Lonnie, Miss Carrie Griffin, Howard Griffin and Jerry Lee Johnson.

Mr. and Mrs. Earl McLain of Monahans ate lunch Wednesday with the Floyds Joplin family.

Mrs. Floyd Joplin honored her son, Michael Lynn, with a birthday party Sunday afternoon.

Those attending were Steve and Mona Dell Caswell, Stanley Ashburn, Jerry Caswell, Jerry Williams, Steve Williams, Lynn and Blake Christy, Linda Carroll, Carolyn Corley and Debra Sue Joplin.

Mr. and Mrs. E. R. Slater visited the Woodrow Church

Kitchen Helps Are Offered By AIO

Many housewives dislike kitchen work — and, in many cases, their dislike is justified. Kitchen work, with its reaching, bending and moving from place to place, can be rather tiring and unpleasant.

But why not rearrange that kitchen and make it a place a few shelves and storage devices? Convenient storage

can save you lots of time and energy. Two recently released publications of the Texas Agricultural Extension Service — MP-209, "Kitchen Storage Devices You Can Make", and L-348, "Arrange Your Kitchen for Convenience and Comfort" — give many labor and time-saving tips. Arrangement suggestions and simple storage devices that can be constructed at home with little cost and effort are discussed. Diagrams and illustrations are also given.

These publications are available from local county home demonstration agents or from the Agricultural Information Office, College Station, Texas.

THE BILLY PRICES OF SEMINOLE ARE PARENTS

Mr. and Mrs. Billy Price of Seminole are parents of a son, Rickey Lynn, born Sept. 12 at 1:35 p.m. and weighing 9 lb., 6 oz.. Grandparents are Mr. and Mrs. J. R. Lanier, formerly of Brownfield but now of Naturita, Colo., and Mrs. Lillie Price of Seminole. The mother is the former Miss Charlene Lanier of Brownfield.

well and children visited Sunday afternoon with her parents, Mr. and Mrs. Lee Hogg and son, and Mr. and Mrs. James Hogg in Lamesa.

Those visiting in the Floyd Joplin home Sunday night after church were Mr. and Mrs. C. S. Carroll, Mr. and Mrs. Wayne Bagwell, Mr. and Mrs. L. R. Bagwell, and Pastor and Mrs. Frankie Rainey.

Mr. and Mrs. W. J. Henderson, Mr. and Mrs. M. L. Pate and boys of Brownfield, and Mrs. Sue Post and Keith of Ralls visited in the home of Mr. and Mrs. C. L. Henderson near Gomez Sunday.

Modern Technology Makes Beekeeping Very Profitable Now

Modern technology is helping to make the time-honored art of beekeeping more profitable and efficient, the U. S. Department of Agriculture reports. Already, research has found a way to speed up extraction of comb honey.

USDA researchers have developed a machine that can shorten honey-extraction time. It was made possible by development of a new speed-control unit for radial extractor. It automatically increases rotation speed.

After the extractor has been loaded with uncapped combs, the operator has only to turn the machine on. No subsequent changing of machine speeds is necessary. The new unit whirrs the combs through a cycle of four different speeds, achieving quick, efficient extraction. Varying voltages applied automatically to the extractor motor alter the speeds as required.

Another new development is a device to uncapp honeycombs. It has two sets of aluminum rollers on which teeth are cut. So far, it has very efficient in uncapping combs but needs more study to provide a way of conserving the capping wax worth about 60 cents a pound.

Mechanical handling of large hives may be just around the corner, the USDA engineers report. Four experimental machines, all of which lift and tip the hives horizontally for leisurely inspection, have been

developed. All look promising. They are based on the lift-fork principle.

Two of the models are hydraulically operated and mounted on trucks, one is handoperated and mounted on a tricycle frame, and the fourth is a hand-operated machine on a garden tractor. More study of their efficiency is needed, although it has already been determined that the power-operated models cause less alarm among the bees than simple hand examination of the hives.

TO R. L. RIDGWAY

Miss Donna Newsom Wed

In a candlelight ceremony read at 4 p.m. Sept. 15 in First Methodist Church, Miss Donna Jane Newsom, daughter of Mr. and Mrs. J. L. Newsom of 916 East Tate, became the bride of Richard Lee Ridgway, son of Mr. and Mrs. Weldon Ridgway, of Brownfield.

The Rev. James E. Tidwell pastor of the church, solemnized the double ring rites before cathedral tapers backed with palms and flanked with baskets of white gladiolus.

Traditional wedding music was offered by Jerry Gannaway, organist, who accompanied Mrs. John Luckie when she sang "The Pledge" and "Wedding Prayer".

Father Escorts Bride

The bride, given in marriage by her father, wore a gown of white French rose design lace and tulle, fashioned with a portrait neckline and long fitted sleeves ending in points over the hands, caught with tiny covered buttons. From the bodice her triple floor length-tulle skirt, complimented lace and pearls, fell over taffed by lace panels and motifs of feta.

Her bridal bouquet was a white orchid showered with staphenotis atop a white Bible with a cascade of white satin ribbon, and she wore a strand of pearls, a gift of the bridegroom.

Attendants are Listed

Miss Ruth Corry of Littlefield was maid of honor. Bridesmaids were Lynn Cary, Nancy King, both of Brownfield, Anne Q. Bellomy of Littlefield, and Barbara Newsom, sister of the bride, was junior bridesmaid. Betty Criswell and Avon Floyd, cousin of the bride, lighted the candles.

The attendants wore dresses of sapphire blue chrorespun taffeta, styled with off-shoulder necklines, matching velvet cummerbunds and full ballerina skirts. Headpieces were of matching sapphire blue feather clips, and they carried colonial bouquets of white split

Reception At Church

At a reception held in the church parlor, the couple was assisted in receiving by their parents and bridesmaids.

The serving table was laid with a white linen clothes edged in French fringe and was centered with the three tiered wedding cake. White tapers in crystal holders and the bride's bouquet completed the decor.

Assisting with hospitality were Mrs. Gail Armstrong of Oklahoma City, who poured punch; Mrs. Gene Ridgway of Roswell, who served cake; and Mrs. D. L. Murphy and Miss Freda Newsom, cousins of the bride, who alternated at the guest register. Mary Jane Brownfield offered piano selections during the reception.

Guests attended from Austin, Lockney, Lubbock, Littlefield, Levelland, Midland, Plainview, Oklahoma City, Roswell, Plains, Ropesville and Brownfield.

Trip to New York

When the couple left for a trip to Niagara Falls, N.Y., the bride wore a Dior blue wool crepe sheath dress with short fitted jacket and matching accessories, with an orchid corsage. They will be at home in Ithaca, N.Y. after this weekend.

The bride is a graduate of Brownfield High School and attended Texas Tech, where she was a member of Kappa Kappa Gamma social sorority. Her husband is a graduate of Brownfield High School and of Texas Tech, where his social fraternity was Sigma Chi. He is now a graduate student at Cornell University.

MRS. RICHARD RIDGWAY

REMEMBER?

of Miss Emma Gene Coleman for their regular weekly meeting.

The afternoon was spent embroidering. Refreshments of sandwiches, olives and frosted cocoa were served to the following: Misses Minnie Lee Walton, Helen Gilland, Charlotte Dial, Eldora Lewis, Jacqueline Thompson and the hostess, Miss Emma Gene Coleman. The club will meet next week at the home of Miss Charlotte Dial.

Mrs. Elmer McCollum and children spent the first of the week in Snyder with friends and relatives.

Monday night, the Brownfield Chapter, Order of the Eastern Star, met in regular session with the newly elected Worthy Matron, Mrs. Ona Gore, presiding. Mrs. Jessie G. Randal presented the past-matron, Mrs. Ethel Fulton, with a Past Matron's pin in behalf of the chapter.

After a short business session refreshments of ice cream and cake were served to 13 members by Mrs. Ida Bruton and Miss Syble Nutt.

Marriage license was issued on Aug. 12 to Glen Ryan and Miss Helen Stephens.

Messrs. Murphy and Harryman, new owners of the Brownfield Hotel and Hotel

Mr. and Mrs. Harry L. Crosby have moved to Brownfield to make their home for the next seven or eight months. He is foreman of the Martin Construction Company of Kansas City, Mo., and will be employed here on the new federal building. Mr. and Mrs. Crosby have two children that will enroll in the Brownfield school Sept. 1.

Miss Reva Newsome of Levelland spent last weekend here with her mother, Mrs. R. C. Newsom. Miss Newsome is a teacher in the Levelland public schools.

Miss Grace Murphee of Seminole was admitted to a local hospital recently for medical treatment.

Miss Monah Perry, daughter of Mr. and Mrs. G. C. Perry, underwent an appendectomy in a local hospital this last Sunday. Miss Perry is reported to be doing.

The Double W. sewing club met Wednesday at the home

By VERN SANFORD
Texas Press Association
AUSTIN — Ben Jack Gage has more invitations than a pretty girl with a rich papa.

Gage's "dates" are with some half-dozen groups who want to know what caused ICT Insurance Co. to go under with multi-million-dollar losses. Gage was ICT manager until a year before its collapse.

After a grand jury session and lie detector test in Dallas, Gage moved to Austin. At the head of the line of questioners here is the Travis County grand jury. Other questioners include:

1. House general investigating committee.
2. Senate general investigating committee.
3. Renne Allred, attorney for the state liquidator, handling what remains of ICT.
4. Federal agents — from the postal inspection service and Securities Exchange Commission.

GOVERNOR SOUNDS OUT SOLONS — Gov. Price Daniel has asked legislators for a "frank expression of their attitudes toward the proposed special session.

In an individual letter to each member, the governor outlined the session goals: (1) a lobby registration bill, (2) a bill requiring registration of those who represent others before state agencies, (3) a bill setting up a study on how to prevent spread of crime and (4) legislation to develop a state master water plan.

No new taxes will be needed to finance any of these projects, or the session itself, the governor's letter contended.

Best guesses are that, barring stringer opposition from the lawmakers themselves, the session will be called for Oct. 15.

NAMED TO TAX COMMISSION — Three business experts from over the state will join with lawmakers in making a thorough study of the state and local tax structure.

Named by Governor Daniel to the Texas Tax Study Commission are Dr. John R. Stockton, Austin, director of the University of Texas Bureau of Business Research; John McKee of Dallas, executive in the Ford Motor Co.'s Dallas plant; Hugh Loewenstern Sr., Amarillo real estate dealer.

Three senators and three representatives also will serve on the Commission.

NEW MAP AVAILABLE — A new map, loaded with historical

With schools opening for the fall semester, the matter of segregation is back in the headlines in Texas and elsewhere, and some school boards now may be pondering upon a law passed by the 55th Texas Legislature.

By now everyone knows the Supreme Court of the United States has decreed that segregation of public school pupils by race is unconstitutional. Since the Court's decision, however, the Legislature passed House Bill 65. The constitutionality of this law has not as yet been tested.

In effect the bill provides for local option elections to determine whether dual school systems shall be continued or abolished.

It prohibits any board of trustees or any school authority from abolishing its dual school system (desegregating or integrating) prior to an election on the question. A prerequisite to such an election is petition filed by at least 20 per cent of the qualified electors residing in the school district.

The election is to be conducted in a manner similar to elections for school trustees. It can be called on the same date as a school trustee election if the petition was filed within 90 days of the trustee election.

Otherwise the election must be called within 60 days after the petition has been filed. Subsequent elections upon the same questions cannot be called within 2 years of any prior election.

Under this law those schools which integrated during the 1956-57 term are permitted to continue integration unless this system of operation is abolished by an election held in the manner mentioned above.

Another provision under a section of the law dealing with integrated schools is that a student shall be denied transfer from one school to another because of race or color.

The bill provides that if a school district should desegregate without first being authorized to do so by an election of the qualified electors residing therein, then the district becomes ineligible for accreditation and ineligible to receive any Foundation Program Funds. In other words, it loses State School Support funds.

The same penalty is placed upon a school district, already integrated, which fails to segregate its schools after an election calling for such action.

A fine of not less than \$100.00 or more than \$1,000.00 is provided for any person guilty of violating any of the provisions of this Dual School System Law.

(This column, prepared by the State Bar of Texas, is written to inform-not to advise. No person ever apply or interpret any law without the aid of an attorney who is fully advised concerning the facts involved, because a slight variance in facts may change the application of the law.)

SEN. YARBOROUGH'S

Washington Newsletter

Dear Fellow Texans:

This is one of my happiest moments since I became a United States Senator. I am happy to inform the farmers of our great State — farmers who have been alternately cuffed and belted by a 7-year drouth and 70 days of flooding rains and five years of Ezra Taft Benson — that they at last have access to at least some relief from the disasters of drouth and flood. The disaster of Ezra Taft Benson will be over after next election, I hope.

While in Washington I was able to secure an appropriation of \$20 million to help rehabilitate the land that was blown away in the drouth or washed away in the flood.

There has been some delay in the local county agents finding out the details about this great program. This matter is now being cleared up, and it is my happy duty to tell you farmers who have had your land damaged by soil erosion or by floods to contact your local county agents about this program.

This \$20 million appropriation for rebuilding the soil lasts only until June 30, 1958. So apply now for your land damage grant. If your application is not received soon your proper share of this appropriation will be lost.

I urge you to see your county agent now and discuss your eligibility for this grant.

As I pointed out in the Congress, the seven-year drouth and the 70 days of flooding rains caused the United States Department of Agriculture to classify 244 of Texas' counties as disaster counties. More than 5 million acres of land have been classed as permanently damaged, due to the wind blowing the top soil away or the floods washing it away.

I am grateful to the members of the Senate and House for their wonderful cooperation in voting such a substantial portion of the funds asked.

In the next session of Congress in January I plan to seek more such funds for disaster victims.

I want you to know, that I will be working day and night to help the distressed farmer, the small businessman, the working man, the teachers and

and geographic information about Texas, has just been published by the General Land Office.

Copies are available without charge. Schools are expected to find it particularly useful. Markings include the lakes, mountains, rivers, dams, reservoirs, off-shore tidelands, state-owned lands, old cattle trails and stagecoach routes.

RETAIL SALES UP — Retail sales in Texas during July increased two per cent over June, nine per cent over July of last year.

Latest figures from the University of Texas Bureau Research show Austin merchants out in front compared with cities. Their increases: seven per cent over June, 12 per cent over a year ago.

Other leaders: San Antonio, up 10 per cent from '56; Dallas and Houston, each up nine per cent; El Paso, seven per cent; Fort Worth, two per cent.

THERE'LL BE WAIT — Owners of land in the path of new state highways face a delay before getting their money for it.

Under new law state pays half the cost of right of way buying for state roads. But since the money is to come from higher automobile license fees, the state won't have it until next year after people buy new plates.

In the most recent group of road building projects authorized by the State Highway Commission, it was expressly stated that money for land buying would not be available until after March, 1958.

NO LENIENCY FOR DWI — Motorists who lose their drivers licenses for drunken driving needn't expect to get them back before the suspension period is over.

State Board of Pardons and Paroles said it is no longer even making recommendations for early return for licenses. Governor, who must approve the recommendations, has made it clear, said the board, that he doesn't favor leniency for DWI cases.

Law takes away license for six months on first conviction, a year on second conviction.

MORE MONEY FOR SCHOOLS — State aid to Texas public schools has been raised \$2 per pupil. It's now at a record-breaking \$80 per child.

State Board of Education reported a revenue estimate nearly \$4 million higher than his previous estimate.

Present outlook is that the state's bill for educating its 1,923,849 pupils will be a whopping \$336,116,108.

SHORT SNORTS — Most of Texas' farmers and ranchers will go into the winter with the best supply of hay and feed in years, reports the U. S. Dept. of Agriculture.

Surge of back-to-school activities may push the number of Texas jobholders to the three million mark, says the Texas Employment Commission. July total was 2,998,000. School payrolls are expected to add 20,000 more and provide more business for retail and service industries.

Leon R. Graham, member of the Texas Education Agency post of assistant commissioners staff, has been advanced to the post of assistant commissioner of education for administration. He replaces Bascom B. Hayes who resigned to become superintendent of the Brazosport School District.

Choosing a site of the new state archives building has been delayed, reports Rep. Vernon J. Stewart, chairman of the selection committee. Legislature authorized the building last session, but provided no money to survey property for a site.

Watson Wise of Tyler will serve as chairman for Texas' observance of United Nations Day the governor's office announced.

Citizenship Awards To Furr Employees

Good Citizen Awards were made Tuesday to two store managers of Furr's Super Markets Lubbock Division, Bill Hart of Furr's 22 in Lubbock and Pen Bailey of Furr's 17 in Odessa.

Their awards were presented as a part of the special Citizenship Day activities, for their work in behalf of community improvement a program sponsored by the National Association of Food Chains.

Lee Allen Jones Moves Up To Second Team End Slot as TWC Opens Season

Coach Ben Collins has made several lineup and position changes in his Texas Western College football team, and the result has produced a "smoothing team" after more than two weeks of practice.

The new Miner coach made his most drastic move in shifting end Bruce Black, 175-pound senior, to fullback and placing him on the second unit.

Other changes involved junior transfer Lee Allen Jones of Brownfield who advanced to second team right end, and sophomore guard Bill Hannon, who has been promoted to the first unit.

Black, a fast, hustling player, played fullback in high school, but was on end last year on the Border Conference championship team. He worked out at fullback in spring training.

Jones, a transfer from San Angelo Junior College, was moved from halfback to end this year, and his speed and drive have been the major factors in his advancement.

Hannon, 187-pound transfer who played high school football at Midland, has been one of the most outstanding linemen at Texas Western this fall. Fast, strong and tough, he'll

play linebacker on defense.

However, most of the sparkle has been provided by returning players. Halfback Don Maynard of Colorado City, still is the master of the passing attack and defense, with his tremendous speed. His running mate, Jimmy Bevers of Lovington, N.M., has looked quicker than ever in drills and broken free often on long runs.

Maynard's alternate, Bobby Coleman of Mississippi, has been running well also.

Tackle Dan Boyd of Abilene a 205-pound junior who was, all-conference second team last year, looks as though he will make a bid for all-conference honors this year.

At center, Juniors Vernon Mitchell of Kilgore, and Pool Webb of El Paso, are having a rugged battle for first team honors. Mitchell was first team last year, and is holding on this year.

Collins still is worried over the team's lack of depth, but is working hard to develop the reserves. The guard positions, where graduation hit hardest, looks much improved, but the quality of reserve tackles still is not certain.

However, hustling Dick Rast, 225-pound from Olney,

PASS CATCHER — Jesse Ballew, Lobo End, was a thorn in the side of the Cubs all night as he pulled in five passes Friday. Ellis Cox, in background, cuts across to drop Ballew after one of his catches. (NEWSfoto)

Dove Season Now Open in Terry County

AUSTIN, Sept. 3. Texans will get their first chance at White-winged doves in four years Friday, Sept. 13. What the results

will be depend on the weather amount of food left, according to the Assistant Director of Wildlife Restoration of the Game & Fish Commission.

Two months ago, game department biologists estimated a 600,000 White Wing population in the Rio Grande valley. This week the estimate has dropped to slightly over 300,000 in flights. Flights may build up slightly or may decrease before the hunting season starts.

Lack of feed is blamed for the exodus, according to the Assistant Director.

"Much of the grain has been cleared out and the migration may have started," he said. "There are still plenty of mourning doves, however, and

Football Review Will Start Here Tuesday

Highlight action from four Southwest Conference openers will be featured on Humble's Football-Review next week.

Kern Tips will add his colorful description to action shots from the A & M-Maryland, Baylor-Villanova, TCU-Kansas and Texas Tech-West Texas State games.

The new TV program also will show viewers how Coach DeWitt Weaver trains Texas Tech's centers.

SMU's Bill Meek, new Southwest Conference coach, will give fans an idea of the problems that a new coach faces.

Referee Cliff Shaw will continue his explanation of the job of football officiating and "The Junction Story," Texas A&M's march to the Southwest Conference Championship will be another highlight of "Football Review."

Football Review will be on KDUB-TV at 7:30 p.m. Tuesday.

Tech Has Underdog Role in Saturday Tilt With West Texas

More than a preponderance of returning West Texas State lettermen lies behind the buffaloes being picked as 31-point favorites by at least one predictor over Texas Tech at Lubbock Saturday night.

West Texas State's bulge in returning 1956 lettermen—21 to 9—has featured in most selections of the Buffaloes, but the fact that key performers in their 34-14 victory last year are among the returnees also makes the outlook dreary for Tech.

Fullback Charlie Sanders of Gruver, who scored three touchdowns in the West Texas triumph, as well as halfback Ron Mills of White Deer, who raced 67 yards for another score, will be back in action against the Red Raiders.

Tech's big gun in that game, quarterback Buddy Hill of Lubbock, who made all of the Raiders' points, has graduated. So has Tech's leading pass receiver, both for the game and for the season, end Ken Vahey of San Antonio.

Leo Soltsy, leading picker for the Football News, published weekly in Detroit, is the man who figures the Buffaloes 31 points better than the Raiders.

Tech holds a 16-5 edge in the rivalry that began in 1925, Tech's first year as a college.

In 1950 there were scarcely a dozen writers of merit producing stories for children.

Injuries, Grades Give Tech's Dee Weaver More Headaches

MILTON (RABBIT) VAUGHN
Texas Tech Halfback

If DeWitt Weaver weren't already gray-haired, it's a cinch he'd get that way before Texas Tech opens its schedule against West Texas Sept. 21.

Take what he has been through since last spring, just trying to fill two positions, at right guard and quarterback.

At the conclusion of spring training the Raiders looked pretty good at right guard, a lineback slot in the Tech defense. Possibly the Raiders' best lineman at the close of '56, Floyd Hood of Wellington, was returning, along with Tech's top-rated freshman lineman, a squadman, a second-semester freshman numeral winner.

Spring semester grades disposed of the two sophomores-to-be and the squadman. Then Hood pulled loose two vertebral discs and was ruled out of further play.

Weaver began anew. Center Lynn Elliott of Houston was moved to right guard, a junior college graduate was recruited, and Ed Strickland of Pampa, freshman end in '56, was also shifted.

But, after two workouts last week, the jaycee grad moved out. By the close of the week, Elliott, knocked out in scrimmage, was advised by the team doctor to give up football. So now, at right guard, it's Strickland backed up by a converted tackle, sophomore Homer Rosenbaum of Abilene.

Seven quarterbacks were listed on the pre-season roster, one letterman, two junior college transfers, two squadmen, and a pair of freshman numeral winners.

First, one of the sophomores, David Bourland had to give up football in favor of baseball because he never regained his speed after breaking his leg in a diamond accident his senior year at Abilene High.

During the first week of practice one of the junior college transfers pulled out, leaving the Raiders with five. Then came the biggest blow, when Friday afternoon and Saturday night.

First, the doctor ruled, as in the case of Elliott, that squadman Wick Alexander of Amarillo, to safe, should drop the sport. Saturday morning sophomore Kenneth Talkington of Tyler suffered an arm injury that sidelined him a while. And, in Saturday's scrimmage, the lone letterman, John Riddle of Artesia, N.M., broke his left hand trying to tackle 230-pound Gene Bentley of Panhandle and will be out four weeks.

That leaves the Raiders with Floyd Dellinger of La Vega, Victoria Junior College grad, and squadman Jerry Bell of Ballinger, who was kept out last year while a knee operation mended.

Weaver's taking it in stride. He is still buoyed up by the Raiders' spirit and too busy working on defenses against the powerful West Texas Buffaloes, 34-14 winners last year.

Weaver's taking it in stride. He is still buoyed up by the Raiders' spirit and too busy working on defenses against the powerful West Texas Buffaloes, 34-14 winners last year.

Weaver Optimistic About Small Squad

Texas Tech's Coach DeWitt Weaver makes a bid for optimistic-of-the-year honors when he sees a bright side to his green, 43-man squad.

"With just that many, it doesn't look like we'll make any of our boys unhappy by leaving them at home on trips," he comments. "We're right down to a traveling squad."

"And I don't think we'll be bothered by 'senior-itis,' either," he adds.

Tech has only five seniors.

England, because of its many bells, has been called "the ringing isle."

Cadillac

To the Man Postponing a Dream!

The man you see above—watching a beautiful new 1957 Cadillac as it takes the sweep of the boulevard—is representative of a goodly number of American motorists.

He is a gentleman who would like ever so much to own a Cadillac car—but who feels the time is not quite propitious for him to do so.

Well, we have some sound advice for this gentleman, and for those like him, and it is this: *Come in, sir, and see for yourself!*

First of all, you will find that today's Cadillac car is exceptionally practical to own and to enjoy.

In fact, its relatively modest cost, its wonderful efficiency of operation, its great dependability and its marvelous resale value mark it unmistakably as one of motordom's soundest investments.

And then you will discover that your dealer is currently prepared to give you a most generous allowance on your present car. In fact, the transition to Cadillac is easier today than it has been in many, many years.

And, as if this were not sufficiently gratifying in itself, your dealer can assure you of prompt delivery on your favorite model.

In short, if you are the man postponing his dream of a Cadillac, then the odds are that the "golden moment" has arrived!

You should visit your dealer today—take the wheel for yourself—experience the marvels of Fleetwood luxury—and listen to the revealing facts about Cadillac practicality.

He'll be waiting to welcome you—soon!

als want to give the hunters of all states an equal chance for birds. As far as the seasons dates are concerned, the federals leave that pretty much up to the states.

Add it all up and what you get is the happy fact that doves thrive in spite of drouth and high water, and the outlook for dove hunters is likely to keep getting better and better.

Strange and wonderful things turn up as the scientists of this day and age pursue knowledge. A good example is the new fishing rod material developed by the genius-type workers on guided missiles.

The stuff is called Missillite, which Conolon now is using to make rods that are reputed to be stronger than glass. The new material is a combination of fiberglass and resin.

Another innovation by Conolon is the guide that is anchored to the rod at one side only. The advantage is in greater flexibility of the rod.

One of the outdoors magazines recently published a yarn about "spit" fishing, which is much the same thing we know as skitter fishing. East Texas in particular have been familiar with it for years.

Anyway, these "spit" fishermen used a stout cane pole and a shortish, heavy line. Fishing from a boat at night, in very shallow water right along the bank, they used a longshank hook baited with pork rind. One of their tricks was to run a rubber band from the eye of the hook to the bark, making it practically weedless.

They dropped the bait out on shore, then pulled it in so that it plopped into the inches-deep water. When the bass took it they horsed him right in, taking no chance on losing him in the brush.

The system, with many variations, work—as many old-timers in Texas and elsewhere know very well. It is a form of what you call "meat" fishing, as opposed to "sport" fishing.

Sometimes sport fishing pays off, sometimes it doesn't. When it fails, a man will be tempted to go after fish by whatever means.

The other afternoon, I wished for one of those skittering rigs. The weather was warm, so I figured the bass might be congregated where a spring-fed stream empties cool water into the river.

No fish responded, but I saw a big bass splash twice by an old stump, not 20 feet from where I was fishing from the bank. I dropped a topwater lure on the spot, and the bass took it immediately — took it under the stump where my four-pound spinning line wasn't anything like enough to pull him out.

If I'd been skittering, of course, it would have been a different story. Or maybe if I had been in a boat, casting into the bank with a bait-casting outfit, it would have been all right.

Talk about debates, you

can get into one plenty fast when you bring up fishing tackle.

There's the purist who wouldn't look at anything but fly rod, and who wouldn't think of using anything but a dry fly. He fishes for trout and nothing else.

Then, there's the fly rod man who will not only use his rig to cast wet as well as dry flies, but will go so far as to fish for types other than trout and who, upon occasion, might slip a worm on his hook if nobody is looking.

In our part of the country we favor the casting outfit because the heavier lines help us get our bass out of the lily pads and brush.

Aristocrats of the casting school would never use anything but a topwater lure. Down the scale you find those degraded people who use deep runners, spinners and spoons. Then, there's the fellow who will bait his hook with minnows, worms, crawfish, shrimp

CANCER OF INFLATION STARES US IN THE FACE

That Dollar Saved for the Nest Egg in 1939 Now Is Worth 44 Cents; Writer Says Somebody Stole 56 Cents From the Kitty

(EDITOR'S NOTE: Alfred P. Haake, Ph.D., is a noted economist, public relations consultant, author and lecturer.)

From Dr. Walter E. Spahr,

or anything else the fish will bite.

There are several categories of spin fishermen.

At the bottom of the heap are the cane pole and trotline fishermen. They catch the best fish. I am not going to talk about the bait they use. Least of all am I going to talk about catfish bait.

Who's kidding whom? If somebody tells me I can catch a 15-pound blue cat by using a dog's tail for bait, Poopsie had better get under that house.

Executive Vice President of the Economists' National Committee on Monetary Policy, comes a significant study of loss of purchasing power of the American Dollar in six important financial categories. He shows the face value and loss of eighteen and seventeen year holdings as follows:

United States Savings Bonds	\$ 42,180,000,000
Time Deposits, all banks	50,704,600,000
Savings Capital in Associations	13,786,100,000
Life Insurance in force	203,424,900,000
annuities in force	1,112,600,000
Social Security Trust and Unemployment Funds	17,834,200,000

Total Average Holdings \$329,042,400,000

Loss in Purchasing Power on these average holdings 184,253,744,000

Percentage loss 56 percent

Worse is Ahead

That shows the extent to which inflation with an irredemable currency can steal money out of your pocket. And the process is only well under way. Worse is still ahead of us. You thought you were saving a nest egg for future use. You denied yourself and laid aside the precious dollars in one form or another of savings. You were making an investment for the future. And how you were fooled.

For the dollar you laid aside then, back as far as 1939, is now worth only forty-four cents. Somebody or something stole fifty-six cents out of every dollar out of your pocket.

Cancer of Inflation

But that is not all, or the worst that happens when the cancer of inflation eats through the economic body. On the way it lessens respect for moral values, self-reliance and thrift. It encourages the deadly substitution of expediency for principle in the conduct of our lives.

Government becomes spendthrift and gathers more and more power to itself as people welcome with ever-widening arms their own release from individual responsibility and accept instead the over-powering paternalism of government aid and control.

The tragedy is that warnings sound on less and less responsive ears. Like opium addicts, the people and their leaders seek the remedy for the poi-

son of inflation by taking more and more of it.

"Are Dangerous Waters"

As a Congressman wrote recently — "Official Washington has become so imbued with the idea of prolific spending that it is impossible to get a responsible hearing for anyone who advocates sound money as the basis for real economic stability. We are riding dangerous waters."

The real cure is a return to a redeemable currency, which has been irredeemable since the free-wheeling economics of Franklin Roosevelt.

But that means adjustments in prices and wages, a little tightening of the belt until we are on a sound basis again, just as the cure for opium means some distress while the patient learns to get along without it.

During the Middle Ages chairs were symbols of honor and power.

NEW PATROLMAN — Josquin Jackson has recently moved to Brownfield to assume duties as highway patrolman with Amos Eggen, Jackson, whose home is Smyer, was born and reared in Hockley county and attended schools in Ropesville and Snyder. He attended West Texas State College in Canyon, where he was a member of the basketball squad from 1954 through 1956. A graduate of the state patrol school in Austin, Jackson is serving his first assignment here. He succeeds Weldon Kennison, who was transferred to Lubbock July 1. (NEWSfoto)

No. 1—

between the two there should be plenty of shooting for everyone."

Hunters out after white wings are asked to cooperate with the commission biologists. Throughout the area, the paper bags will be left at highway sign posts, so that dove feet can be gathered for counting and ageing.

Hunters are asked to pick up these sacks on the way in. After the hunt they should deposit one foot from each bird in the bag. There should be only one bag to the party. On the outside of the bag the number of birds killed by the party should be recorded.

This information is very essential to the department biologists in keeping up with the white wing population. Shooting will be permitted from noon until sunset, with a bag limit of ten birds. They can be either white wing or mourning doves or a mixed bag.

A warning also was issued to the hunters against over-killing. There will be both federal and state wardens distributed throughout the area to check on possible violations.

A suggestion was made to hunters to do their shooting away from brush or high weeds. In this way fewer doves will be lost.

"We hope every shooter will do his best to find cripples or birds that do fall in high grass," the Assistant Director said. "At the same time they should be just as careful to watch out for snakes."

On the Island of Jersey off the coast of France, Jersey cattle have been bred pure for more than a century.

**YOU CAN AFFORD
Your Own Grain Storage
with a LOK-RIB**

A LOK-RIB Steel Building is your best answer to this year's storage problem.

A LOK-RIB can be erected quickly. It can be added to, moved or put to other farm uses. IDEAL For Storage Of Expensive Farm Equipment.

LOK-Rib is government approved for grain storage. Grain is kept weather tight, dry and free from rodents.

Convenient finance plan available. LOK-RIB soon pays for itself in extra market earnings. Call us today!

LUBBOCK VISITORS — At the first meeting of the Brownfield Garden Club, which met Wednesday, were Mrs. H. G. Knight and Mrs. A. C. Tanner, who discussed "Color." Shown here, left to right, are Mrs. Joe Jackson, who was program chairman, Mrs. Tanner and Mrs. Knight. Floral arrangements stressing rhythm in the use of a single color were presented by Mrs. Fred Turner, Mrs. Robert Baumgardner and Mrs. Tim Faulkenberry. (NEWSfoto)

Windbreaks Are Deemed Necessity for Farm Homes

Every farm home needs a good windbreak planting that will afford protection from the cold winter winds, prevents snow from piling up around the buildings and lots, and generally make a more pleasant and comfortable place in which to live and work.

During the summer months nothing can add more to the beauty of the home than the background of varying shades of green afforded by a well planned windbreak. Yard beautifications with shrubs, roses, and annual flowers is more easily obtained and much more effective with this kind of background.

Furthermore, the protection from blowing soil in the farmyard makes these beautification planting possible. It also keeps a lot of dust off the window sills, furniture, and floors. It takes work, lots of work!

to successfully grow a good windbreak, but by present day methods it is more a matter of time than hard labor.

For successful results, ground preparation for tree planting should usually start the year before planting. The heavier soils should be summer fallowed for a season to give the best results.

The proper location of a windbreak sometimes requires the changing of fences and relocation of lots and field lanes. Advance planning can help to lessen the work needed and greatly increase the chances of success.

Obtaining the trees and planting them can be accomplished easily and without more effort that it takes to contact the Soil Conservation District Office.

Cultivation of the trees is the major item of labor involved in growing a good windbreak.

Trees must be cultivated the same as any other crop if a high yield of benefits is to be reaped.

Unlike the annual crops, trees cannot be "laid by" in three or four months but must be worked for five or six years until their growth has produced sufficient cover to shade out weed growth.

Modern equipment makes this job chiefly a matter of time to get it done. Such tools as the disc, and various subsurface tillers do an excellent job of cultivation between the rows of trees.

For cultivation of the trees in the row, hand hoeing is the old fashioned, back-breaking method. There now are several machines, easily attached to a farm tractor, that will do this job in much less time and with no more effort than it takes to drive the tractor.

Down Wellman Way

Here: Down Wellman way the school bells are ringing and the time for burning of mid-night oil has come again.

We have a new superintendent, Phillip O'Donnell; high school principal, Mr. Fields; and several new teachers, Mrs. Fields, Mr. and Mrs. Jerry Shaw, Mr. Strong, and Mr. Green. We also have five new students in high school: Beth O'Connell, James Pendergrass, Mary Bolen, Ann O'Connell, and Sue Harlan.

The F. H. A. chose a president and vice-president September 4, to fill the places left vacant when Danny Loe and Pat Runnels left. Tommy Loe will be president and Barbara Bishop vice president. These girls have big jobs but we know they will work very hard at the job.

We had elections last Thursday and here are the results.

Annual staff: Editor, Margaret Ingram; Assistant editor, Buddy Hawkins; Business manager, Bill Adams; Asst. business manager, Barbara Bishop; Layout manager, Martha Goza; Asst. layout, Clara Bolen; Girls sports, Tommy Loe; Boys sports, Kenneth Larry Cabe; Art editor, Billy Rich; and Asst. art editor, Ldean Hughlett. Annual sponsors are Mrs. J. D. Akers and Mr. Cordell Green.

Officers for the senior class are: Sponsor-Jerry Shaw; Room mothers-Mrs. George Ingram and Mrs. Rex; President-Billy Rich; vice-president

Seating Standards Set For Laborers

The U.S. Department of Labor has announced minimum seating standards for buses used to transport Mexican Nationals, effective immediately. William J. T. Robertson, field representative for the labor department's Bureau of Employment Security in Big Spring, said the standards announced in Washington, had just been relayed to him by Regional Director Ed McDonald in Dallas.

At least 16 inches of seating space must be provided for each such passenger, and all seats are to be securely fastened to the vehicle, he said.

Aisle seats are prohibited on buses with a seating capacity of more than 10 persons, unless such seats are designed and installed so as to fold and leave a clear aisle when they are not occupied, he added. If aisle seats are used on buses with a capacity of 10 or less, they must be secured to the vehicle.

In lieu of this regulation, seating space requirements prescribed by the state in which the bus operates, or size requirements by the Interstate Commerce Commission may be followed, but in no case is the individual seating space to be less than 16 inches.

Mr. Robertson said he was particularly concerned with seeing that the new requirements were known and understood by all employers of Mexican Nationals in this area who do not use commercial carriers to transport their workers.

ing their home in Brownfield. The junior class is selling magazine subscriptions for their class fund.

The Wildcats are looking forward to playing their first football game Sept. 13, at Patton Springs. The game starts at 7:30 p.m.

The following students are leaving for college next week: Charles Goza goes to Hardin Simmons; Barbara Falls, Bill Tom Goza and Fokie Oliver will be attending Texas Tech; Oatice Smith goes to Draughon's Business College; and Jerry Carmichael will be going to University of Texas.

See you next week. The Two Ann's

FARMERS' FAVORITE—Sydney Slack of Perryton is the first Miss Rural Electrification of Texas, named during the 17th annual membership meeting of Texas Electric Cooperatives, Inc., in San Antonio last month. The Panhandle miss is 17 and a high school senior this fall.

Carbon occurs in three distinct forms—as coal, as graphite and as diamond. As little as one-half of one per cent of carbon monoxide in the air can be fatal.

OFFICERS INSTALLED — Howard Henson American Legion Post 269 installed new officers in ceremonies at Veteran's Hall Thursday. New officers include, from left front row, J. G. Wieland, second vice commander; J. R. Blackburn, third vice commander; Cecil Davis, chaplain; Joe J. Weatherman, sergeant-at-arms; L. D. Bailey, adjutant; L. L. Lincoln, commander, and Virgil Crawford, installing officer. From left back row are Robert Noble, finance chairman, and Jerry Kehoe, first vice commander. (NEWSfoto)

BHS News

By Patti Wilder

Many activities are well under way, although school is only two weeks old.

To add to the spirit for the Levelland game, downtown windows were well painted by a self-appointed group of SENIORS. Thursday a one-page CUB'S DEN EXTRA was circulated among the student body. Purpose of the sheet was to boost School Spirit. Friday morning we had our first Pep Rally at the gym for the Levelland game. Many students wore booster tags which can be purchased from Pep Squad members. By the way, student tickets for our next game, Plainview, are on sale at school for \$5.00. They'll cost \$7.75 if you wait to buy them at the gate in Plainview.

Paul Arnold, a German exchange student, sponsored by the Rotary Club, visited in our school and spoke in several classrooms. We were very im-

pressed by his knowledge and personality.

The Terry County Youth Center will meet next Saturday night, September 21, in the Party House at 7:30 where there will be games and dancing. The rules for the Youth Center are: 1) Absolutely no drinking. 2) Everyone must have membership cards and each member must be responsible for his guests. 3) It will be from 7:30 to 11:30 for High School Age Students. You may buy membership cards next Saturday night for \$1.

Two Clubs have elected their officers for this year. The FTA officers are: Sharon Kennedy-President; Karen Foshee, Vice President; Delma Fox, Secretary; and Patti Wilder, Student Council representative. Pep Squad officers are: Bobbie Nell Richardson, President; Sharon Kennedy, Vice President; Betty Bragg, Secretary; and Ruth Glen, Publicity Chairman.

Doris Ratliff had a slumber party at her home Friday, September 6. Her guests were: Sherry Don Spears, Carolyn Weathers, Patti Thomas, Donna Sue Nelson, Barbara Knox, Kay Kessinger, Mary Ruth Venable, Bettie Ann Davis, Sue Shewmake, Le Nora Turner, and Patti Wilder.

Roy Lee Chandler entertained Doris Ratliff, Donna Sue Nelson, Patti Thomas, Grace Grissom, Le Nora Turner, Sue Shewmake, Gerald Jenkins, James Franks, Bob Cloe, Leon Henson, Jimmy Rogers, Robert Travis, Gene Mason, Delbert Bradley, and Guy Henson at his home last Thursday night.

About 45 new students have enrolled in our school. Let's welcome them!

Be sure to consult your mirror. Monday School pictures will be taken.

The Rivalry' Slated Oct. 9 In Lubbock

"The Rivalry" will open the fall season of Civic Lubbock, Inc. at the Lubbock Municipal Auditorium on October 9.

It is a Paul Gregory production of a new Norman Corwin play, Raymond Massey starts in the performance as Abraham Lincoln. Co-starring with him are Agnes Moorhead as Adele Douglas and Brian Douglas as Senator Stephen A.

Douglas. Prices for the one-night presentation are \$4.50, \$4.00, \$3.50, \$3.00, \$2.50 and \$2.00.

The auditorium box office will be open from 9 a.m. to 5 p.m. Sept. 2-18 to fill season priority orders for those wishing to see all shows for the season.

Sept. 23 the box office will begin filling orders for single

Oriental Quail Are Spreading in Texas

Hatchery produced coturnix quail are already raising families of the oriental import in parts of Texas, according to the Assistant Secretary of the Game & Fish Commission.

"We have reports of several chicks having been seen, particularly in Travis county," the Assistant Secretary said. "Indications also point to hatches in other areas where the birds have been distributed."

Some 5,300 of these birds have been released in Mason, Tom Green, McCullough, Hud-

speth, Kerr, Travis, Wise, Andrews, Ector and Midland counties. The game department hatchery at Tyler still has between 2,000 and 3,000 more birds to release, he said.

More than 22,000 bobwhites also have been produced and released from the hatchery this year, he said. Land owners with proper cover areas, can buy these birds at 50 cents each for release on their places. Applications should be made through the local warden, or in writing to the commission in Austin.

Here are the winning answers!

Q.

What is the lowest priced car?

A.

Model for model, right across the board... FORD is the lowest priced of the low-price three!*

Q.

Who makes the BEST trade-in allowances in these parts?

A.

Your FORD DEALER makes the biggest trade-in allowance that can be made. And he stands ready to PROVE IT!

Q.

Who makes TERMS that are really EASY?

A.

Your FORD DEALER will arrange terms to suit your budget.

*Based on comparison of manufacturers' suggested retail delivered prices

FORD

IS OUTSELLING EVERY OTHER CAR!

It's easy to see why Ford is first in sales when you look at the way-ahead values in the '57 Ford. Each of Ford's 21 models is styled to stay in style. Interiors have space aplenty for six lanky adults. A new "Inner Ford" gives a ride that's sweet, smooth and gentle. And a choice of five modern engines—four V-8's and a Six—provides power to suit your needs. Why not come in and see for yourself? You'll find all this value and more, when you Action Test a '57 Ford. Do it today!

Mrs. Chas. Smith Honored With Shower

Mrs. Charles Smith of Rt. 1 Meadow was honored with a pink and blue shower Sept. 12 in the home of Mrs. Jimmie Mackey, 1301 East Main. Co-

hostess with Mrs. Mackey was Mrs. J. B. Mackey. Mrs. R. B. Askeg registered Smith and Mrs. Carl Peters. A sheet cake with baby wri-

as center piece for the table covered with a lace cloth over green. Pink candles in crystal holders, matching the punch bowl, and green and pink mints completed the table arrangement. Over 30 guests signed the register.
