

# 'ITS SURVIVAL AT STAKE'

(EDITOR'S NOTE: Plains Cotton Growers, Inc., has published only recently details of a proposed legislative program for cotton. The material is in the form of a pamphlet, being distributed now to 20,000 South Plains farmers. Following is the first of a three-part report which the NEWS will print for its readers concerning the PCG proposal.)

The serious situation in the cotton industry, with markets dwindling due to competition from synthetic fibers and foreign cotton production, has caused widespread alarm. Industry and government are giving deep study to the prob-

lem, and there is a nationwide feeling that something must be done and done quickly if the cotton industry is to remain healthy and to survive.

The national cotton acreage has shrunk from 24,800,000 acres in 1940 to 12,200,000 acres in 1957. Cotton rapidly is becoming the "vanishing American."

Despite a swiftly rising U. S. population and a higher standard of living, cotton has been in a steadily declining position with respect to its percentage share of the total fiber market, dropping from 84 per cent of total fiber consumption in 1935 to only 66 per cent in 1955.

while at the same time man-made fiber consumption climbed from 4 per cent to 28 per cent in the same period.

While acreage and markets were shrinking, costs were rising. Items needed to produce our cotton have risen 54 per cent in the 10-year period, 1945-1955.

The price competition which U. S. cotton has in the domestic (American) market is strikingly illustrated by the fact that rayon was about 7 cents a pound under that of cotton in 1955, an advantage to rayon which is quite attractive to spinning mills.

To increase farm income and

to expand markets for cotton, the following legislative program is proposed — which is same program endorsed by American Cotton Producer Associates, of which PCG is a part. Its chief objectives are:

1. To continue reduction of the present surplus.
2. To prevent accumulation of new surpluses.
3. To increase consumption of cotton through lower prices at both mill and retail levels.
4. To make cotton competitive in price and quality in both domestic and foreign markets.
5. To protect the farmer's

## Football Banquet Is Set Monday by QBC

Brownfield football teams will be guests of the Quarterback Club at a barbecue dinner at 8 p.m., Monday in the junior high school cafeteria, reports C. G. Griffith, president.

Guests will include members of junior high, freshmen "B", and varsity football teams. Short talks by various Brownfield men will highlight the program.

Griffith said fare for the dinner will include barbecued chicken and "all the trimmings."

## RACE WITH TIME

### Stork Gets Help From Patrolmen

It was night, and the weather was cold.

The car, traveling near Meadow in the direction of Lubbock, definitely was in a hurry.

So... Texas highway patrolmen motioned it to stop.

After a hurried conversation... See No. 2 Page 2

## TO CANCER MEETING

### Delegates Are Named

Terry County Chapter of the American Cancer Society held its bi-monthly meeting of the board of directors on Nov. 26 at the Health Unit.

The service committee, led by Mrs. M. E. Hinson and assisted by Mrs. Tom Pettigrew, reported 17 business firms having been contacted and asked to circulate cancer pamphlets to employees. An estimated 2,000 people have been contacted in this manner.

Mrs. O. D. Kennedy will be in charge of preparations for an open meeting for all women in January, at which time a special film "Breast Self-Examination" will be shown. Women's organizations are urged to attend.

Twenty years ago the cancer picture was bleak, said Mrs. Kennedy. One out of every four victims were saved. Today, thank to education and understanding, one out of every three patients is being saved.

This is due not only to early... See No. 3 Page 2

## Mother Advisor Is Honored By Rainbow Girls

DR. D. D. DENISON

## Mother Advisor Is Honored By Rainbow Girls

Mrs. Earl W. Layman of 905 Tahoka Road was installed mother advisor of Brownfield Rainbow Girls when they met in Masonic Temple Monday night.

Juana Jay Barret was installing officer, Mary Joe Christian was installing marshal and Mrs. Wayland Parker, installing chaplain.

Gennie Christian gave Christmas customs of different countries, and the program was followed by the singing of Christmas carols.

## Skating Party Set

Monday night was set for a skating party in Lubbock. Date for the Christmas party will be Dec. 16. Christmas toys will be exchanged and later given to the Goodfellows for distribution to needy families.

Gennie Christian was appointed chairman of a committee to make preparations for a New Year's Day luncheon to be given in the Banquet Room of the temple.

Refreshments were served by Mrs. Claud Buchanan and Mrs. Viola Grace Barret.

## District Session Is Slated in Methodist Church on Friday

An all-day session of Brownfield District, Methodist Church, personnel will start at 9:30 a.m., Friday in First Methodist Church.

Presiding will be the district superintendent, Dr. Dallas D. Denison of Brownfield.

The meeting will be devoted to reports of the 30 pastors in... See No. 4 Page 2

KAPPA ZETA TABULATES — Quartet pictured above is making a Wednesday tabulation of Community Chest donations secured by members of Kappa Zeta Chapter, Epsilon Sigma Alpha Sorority. Clockwise, the Kappas are Mrs. Zelline Morgensen, Maxine Wotipka, Mrs. J. L. Kemper and Mrs. Bill Dugger. They're working in General Telephone offices, where they accepted \$1,404.51 last week from General's Brownfield employees.

Overall tally of donations to the current Chest campaign has not been made. However, Pres. J. C. Powell said Wednesday that the total was approaching the half-way mark in the \$15,000 goal. Headquarters for the drive is Room 6, Brownfield Savings & Loan building, where Mary Salmon will answer the telephone, if the person calling dials 4511. Mary is secretary of the Chest committee here. (NEWSfoto)

## POLICE OFFICER

### Williams Is Given Rank of Captain

Zane Williams, a police officer here since September, 1956, was promoted to captain this week, according to Chief James Tippit.

Williams, whose appointment was effective Dec. 1, has been a policeman about four years. He served with Plainview, Snyder and Sweetwater departments prior to coming here.

The 29-year-old assistant chief was promoted to sergeant in February after about five months with Brownfield police.

Williams' training has included study under the Texas Department of Public Safety and a criminal investigation school recently completed at Odessa.

## Giant Telescope Is Handled by Charles Isbell of Brownfield

A Brownfield student at the University of Texas last week became the first undergraduate ever to operate the giant 82-inch telescope at McDonald Observatory in Fort Davis.

He is Charles Isbell, son of Mr. and Mrs. Terrill Isbell of Route 1 and an astrophysics major at the university.

Accompanied by Fort Davis by his parents, Isbell spent the Thanksgiving holiday working with Dr. H. A. Apt at the observatory.

The project consisted of spectrographic studies of two of the northern constellations. Isbell returned Sunday to Austin.

## Youth Injured When Scooter in Collision With Car on Monday

A 15-year-old BHS student suffered a mild concussion and head lacerations Monday when his scooter smashed into the side of a car just east of junior high school cafeteria.

Charles Hare, son of Mr. and Mrs. Austin Hare of 1203 West Lake, was reported to be in "satisfactory" condition by Treadaway-Daniell Hospital attendants.

Investigating officers said the youth ran into the side of a car driven by Mrs. Bertie Norton Cole of 910 North Fourth.

Officers reported Mrs. Cole, driving west on Main, attempted to make a left turn east of the cafeteria. Apparently Hare did not see the woman, hitting... See No. 7 Page 2

# Union Wildcats Scathe Jayton, 42-38, for Regional Crown

## '58 Cotton Allotment For Terry Not Upped

Terry's 1958 cotton allotment dropped some 45 acres, according to figures released Friday by the District Agricultural Stabilization and Conservation office.

Terry, one of 11 South Plains counties taking a small cut, has a 1958 allotment of 152,136 acres as compared to 152,181 this year. Neighboring Yoakum County

was one of nine South Plains counties that received slight increases in allotment.

Terry ASC manager, Looe Miller, said the reduction here was caused by an increase in cropland. "We use the cropland factor in determining allotments here," said Miller, "and with an increase of almost 4,000 acres of cropland, allotments were reduced slightly." See No. 5 Page 2

By CHARLIE MAPLE NEWS Staff Writer

After trailing, 25-12, at half-time and 32-24 at the three-quarter mark, Union's surpris-

ing Wildcats rammed through for three touchdowns in the final frame to upset Jayton, 42-38, and take the Region 1 Six-Man championship here

Saturday before an estimated 1,200 chilled fans.

The winning tally came with less than two minutes left in the game. After

stopping a Jay drive on the "Cat 29, Wylie Kay moved for 13 yards on the first play before breaking around left end for the final 32 yards and the championship-deciding score.

## Jays Score First

Jayton, which possessed a 11-0 record going into the regional battle, broke the scoring ice mid-way in the initial period when Bob DuBoise flipped seven yards to Jim Bryant to climax a 62-yard drive. Red Murdoch set up the tally with a 46-yard dash to the Union seven.

A Wildcat drive stalled on the Jay 19 and the visitors moved to their second touchdown from that point, DuBoise garnering the final 48 yards on a dash around left end.

The 'Cats rallied for their first score on the last play of the period when Alfred Newsom sprinted 45 yards. Kay's try for point was blocked.

Four plays deep into the second quarter, Murdoch added another TD to the scoreboard with a 27-yard dash around left end. Larry Moore added the point.

After stopping Union on the Jayton 39, by less than an inch, Murdoch faded back and hit his brother, Beryle, for the fourth Jay touchdown on a pass play covering 41 yards.

Minutes later, a Jay fumble recovered by Gene Hungerford, was cashed in for the second Union tally when Kay took a bouncing lateral from Newman and stepped 49 yards down the sidelines, making the score 25-12 at the half.

## Wild Scoring Half

Showing more of the fire and determination characteristic of their play all season, the Wildcats came back in the second half to rally for five touchdowns and the championship. Kay opened the wild-scoring

second half with a 46-yard dash around left end, closing the gap to seven points.

The Jays retaliated minutes later with a 54-yard drive, running the score to 32-18. Red Murdoch slipped around left end for the final eight yards after DuBoise had moved the Jays to that point on two passes—one for 34 yards to Beryle Murdoch and the other to Mack Lauderdale for 12. Beryle Murdoch rammed over the point.

Kay again closed the gap when he took a six-yard pass from Newsom. Kay set up the score with a 47-yard sprint from his own 27. He stepped out on the six, misjudging the sideline marker.

See No. 8 Page 2

MOST HAPPY BUNCH — Coach Kenneth Sams quickly was hoisted to the top spot Saturday when his team, the Union Wildcats, upset Jayton, 42-38, in Cub Stadium. The win gave the 'Cats the Regional 1 Six-Man football championship — the ultimate for small schools. Union posted a 12-0 won-lost record for the season, including playoffs, in their second year of grid play. An estimated 1,200 fans braved cold winds to watch Union win the game in the final two minutes of play. (NEWSfoto by Charles Luker)

## Funeral Rites Held For Mrs. A. Green

Funeral services for Mrs. Mona Hazel Green, 39, of Route 4, were held Wednesday in Brownfield Funeral Home Chapel with John McCoy, minister of Crescent Hill Church of Christ, officiating.

Mrs. Green died Monday following a prolonged illness. She was born in Hamilton County and had been a resident here since 1927.

Survivors include her husband, Alton R. Green of the home; her mother, Mrs. Ida Mae Manning of Route 4; and four brothers, Leo of Bluffdale, Luther of Dimmitt, Earl of Houston, Ivy of Brownfield. Pallbearers were Ruben Leach, Kenneth Winkles, Odell Winkles, A. T. Pickett, Taft Murphy and John Cloud. Burial was in Terry County Memorial Cemetery under direction of Brownfield Funeral Home.

KIWANIANS ACCEPT CHECK — Sponsor of the current Dale Carnegie class here is Brownfield Kiwanis Club, whose president, Harley Stone, right, accepts a check from James E. (Red) Norman of Lubbock, course manager. The club sponsored the course to raise money for its several civic projects, and the reward was approximately \$300. Looking on are two students in the class, Mrs. Darlene Turner of 211 East Buckley and Leonard Ellington, Kiwanian vice president. A second Carnegie class will be organized at 6:36 p.m., today in Brownfield High School cafeteria, again to be

sponsored by the Kiwanians. Coffee will be served at the event tonight, and a door-prize will be offered. Said Norman: "The enthusiasm of our present students and demand from those unable to participate this time — these are our reasons for beginning a new class in Brownfield." In the seventh of the 14-week course, occasion of the event pictured above, Al Erwin of 721 East Tate took honors for best speech, Jack De Voll for most-improved and R. D. Jones Jr., of 1307 East Reppto for most achievement. (NEWSfoto)

**GOOD FOR TWO**—The Cubs' Kenneth Carson flips in a two-point during first period action in Tuesday's season opener against Seagraves. Unable to stop the bucket are Eagles Kinnison (23) and Hamilton (22). Cason dropped 10 points in the game won by Brownfield, 53-37. (NEWSfoto)

## Cubs Grab Season's Opener

After a sluggish first quarter, the Cubs came to life the final three periods to control the backboards and out-shoot the Seagraves Eagles for a 53-37 victory in the opening game for both teams here Tuesday night.

The Eagles jumped to a 12-9 lead at the end of the first period after leading by as much as seven points in its initial frame. However, moving on the shooting of Ken Cason and Larry Meeks, the Cubs came back to tally a 23-19 lead at the half.

A 30-point spurge the final two periods combined with the rebounding of Cason and Johnny Mack Jones proved the difference in the game. Jones and Ivey tallied eight points in the last half to lead the onslaught.

A torrid last-half shooting mark of 68 per cent and the rebound control of Jones and Cason enabled the Cubs to take

the victory. Jones also stopped numerous Eagle shooting attempts as he batted the ball away from the bucket.

**Jim Hamilton of the Eagles took high-scoring honors with 14 points, backed up by Dennis Grimes' 11. Brownfield high-scorers were Ken Cary, with 11 points, and Cason and Meeks, with 10 each.**

Eight Cubs got into the scoring column during the season opener. Though still evidencing early season rough edges, the team showed hustle and spirit in crushing the out-manned Eagles.

In the "B" game, Cary White tallied 13 points to take scoring honors. He was followed closely by John Eldon Jones and Leon Hinson, who hit for 10 points.

The preliminary tilt was a "no-contest" affair as the future Cubs led 19-3 in the first period, 31-9 at the half, and 41-

13 at the three-quarter mark.

ier detection of the disease but to new tricks in surgery and radiation. Cure rates rose one-third in a dozen years, according to statistics taken from an American cancer newspaper feature.

They state, "More and more patients are seeking medical help while there still is time for a cure."

Bobby Jones, chapter president, made the following committee appointments: telephone, Mrs. Maude Pickett;

campaign, Mrs. Tom Pettigrew, and district meeting publicity, Mrs. Leo Holmes.

The district meeting will be held Jan. 14 at Big Spring. Delegates elected to attend are Jones and Mmes. Hinson, Pettigrew, Kennedy and Shafter Bailey.

## No. 5

Cropland for 1957 totaled about 434,815 acres as compared to 435,295 next year. "A lot of the increase is caused by farmers reducing their wheat acreage," explained Miller.

The manager noted the reduction will be only about one-half acre per quarter-section of cropland. "However, this will not affect limited farms—those whose planted cotton acreage is below the allowable allotment," he added.

Only two ASC District 2 counties received acreage from the state reserve to raise the allotments to 98.5 per cent of the 1957 allotments, Bailey received 377 acres and Lamb received 2,527 additional acres. Miller said notices on individual farm allotments will

Did you know that in this day of automation, Campbell's Soup people say they still trim potatoes, tomatoes, carrots, rutabagas, celery and parsnips by hand with a paring knife, which is something I wouldn't believe unless I had seen it in cold print.

All of the 23 employees of the First National Bank gave 100% to the Community Chest. Each person gave one day's pay, which totaled \$397.

A fumble recovery by David Cabe led the Union's sixth TD two plays deep in the final period. After the recovery on the 40, Newsom moved for four yards on the first down. On the second play of the quarter, Newsom broke around left end for the final 36 yards,

narrowing the margin to two points.

On the ensuing kickoff, Bryant fumbled and Hungerford recovered the elusive pigskin on the Jay 19. Newsom and Kay each picked up three yards before Kay tossed to Jimmy Sargent for 13 yards and the tally, giving Union its first lead of the game.

The lead was short-lived, however, when Beryle Murdoch circled this left end and lumbered 46 yards for the final Jay TD.

Scoring thrush by both teams were stymied between the 25's before Kay stepped off the deciding 32 yards for the winning score.

Seconds later Sargent swiped a stray Jay aerial to preserve the 'Cats' narrow margin. Kay ran out the clock on three time-eating lunges into the line.

Hungerford Defensive Star Hungerford, the 'Cats 128-pound defensive giant, proved to be the key to victory as he bottled up Jay backs throughout the afternoon and recovered two fumbles that were converted into scores for Union.

However, with less than two minutes left, he rammed into one of the big Jay linemen and suffered a broken forearm. He immediately was rushed to where the break was set.

Though the 'Cats could not move during the first half and could not contain the Jays, their fighting spirit came through in the final two periods to provide the necessary margin for their 12th victory of the season.

The regional crown especially is dear to Coach Kenneth Sams' charges since this marks only their second year in the gridiron sport. Last year they ended the season in the district's fourth slot.

income, and to permit him to use his land and equipment more effectively.

6. To provide means for orderly marketing and stability in the price structure.

7. To return cotton marketing to its normal channels of trade.

To accomplish the objects as outlined, the following five points are proposed. Details are discussed after the general outline:

1. One price at a competitive level to domestic and foreign cotton mills.

dual allotment plan based on acreages which would be: a domestic allotment, b. total allotment (domestic plus export).

3. Equalization payments to the farmer on his domestic allotment, with no limitations on payments.

4. A loan program at a price level slightly below the world competitive price.

5. Provisions concerning the Soil Bank so long as the acreage reserve section is in effect. (Next: detailed discussion of the five proposals.)

A compliment remains the best way in insuring cooperation.

## The only 1958 car that offers more of everything you want... yet is priced lower than '57

Here's great news! While prices of 1958 cars of other manufacturers are up, the price of Ford's exciting new Custom 300 Series is down. A brand-new 58 Ford Custom 300 with all of its exciting new styling and engineering advances is priced lower than a '57 model, similarly equipped!

World approved styling. A Custom 300 brings you styling that is dramatically new. With its Honeycombed grille, Slipstream roof, Deep-Sculptured rear deck, and Safety-Twin headlights and taillights, Ford styling drew admiring glances from Paris to Saigon... yet it's yours now in any 58 Ford Custom 300 without extra cost!

New handling ease. Slide behind the wheel of a Custom 300 and you'll soon discover just how much fun driving can be. Notice how smoothly it handles. That's Ford's new feather-touch Magic-Circle steering, the next best thing to power steering.

New riding comfort. Notice, too, the solid comfort of your ride. That's Ford's easier acting front and rear suspensions. They soak up the bumps before they reach you.

Thrifty, new engines. You have a wonderful choice of new, more efficient power plants... designed for real gas-saving economy plus greater performance. Six or V-8, they give you more power, smoother power, from less gas!

Priced as much as \$50 lower. A comparison of manufacturer's suggested retail delivered prices shows that a 58 Ford Custom 300 is priced as much as \$50 less than the same model for '57! You'll wonder how Ford can offer so many of the things you want in a car priced so low. One big reason: Ford gives you more car for less money because Ford sells more! See and drive a Custom 300 and we believe you'll agree that these Fords give you more real value for your car-buying dollars than any car on the American road today.

RED SMITH

### Wayne 'Red' Smith Resigns as Chamber Commerce Manager

(Special to the NEWS)

BIP SPRING — Wayne B. (Red) Smith, Chamber of Commerce manager here for the past 13 months, has resigned, effective Dec. 31, to become general agent for Franklin Life Insurance Company.

The chamber president, R. I. Beale, has named a special committee to choose a new manager. He explained that he hopes a successor could be named before Smith leaves office.

Smith came to Big Spring in October 1956 from Plainview, where he also was a C-C manager. He held the same position at Brownfield before going to Plainview, and has been in the work for eight years.

Smith, 40, is vice president of the Texas Chamber of Commerce Managers Association, secretary of the Big Spring Industrial Foundation, and chairman of the Community Services Department of the West Texas Chamber of Commerce. He said he also will resign the posts mentioned above. Smith is a member of several other professional organizations, is a Scottish Rite Mason, Shriner and past president of the Brownfield Lions Club.

### Farmers Union Sets Annual Convention

The 5th Annual Convention of Texas Farmers Union will be in Abilene Friday and Saturday at the Windsor Hotel. Mrs. Frances Halley, service agent for Brownfield Local of the Union, said Tuesday that the following Terry farmers were making tentative plans to attend the Abilene sessions: Doug Lowe, Jap Benthal, Clyde Bond and Frank Jordan.

The speakers scheduled to address the convention includes Senator Lyndon B. Johnson, Senator Ralph Yarborough, and Congressman Omar Burrell and Walter Rogers. Senator Yarborough will address a banquet session at 6:30 p.m. Friday and Senator Johnson is scheduled for 11:00 a.m. Saturday.

Convention Sessions are open to any farmer or individual interested in the well being of farm people.

### Rotary To Host Union Football Team Friday

Union's Region 1 Six-Man football champions will be guests of Brownfield Rotary at their noon luncheon Friday in First Presbyterian Church, according to Morgan Copeland, president.

Coach Kenneth Sams will introduce members of the team and give a short review of the school's 1957 grid season.

### 'Deal a Day' To Be December Program At Smith Machinery

The catchy slogan "Let Us Be Santa Claus" this week starts a dynamic new sales campaign by Smith Machinery at 1361 Lubbock Road, Minneapolis-Moline dealer in Brownfield.

In announcing the timely farm machinery offer, J. E. Smith, owner, says he intends to make "A deal a day" from now until Dec. 31.

Smith quotes MM general manager, Matt Carroll, as saying, "All M-M dealers are acting as Santa Claus this year by making generous allowances right now to all purchasers of M-M tractors and equipment." Said Smith: "December has been accepted by a lot of dealers as a traditional off-season month, but we don't see it that way."

### Final Rites Are Said For Terry Woman

Final rites for Miss Mary Gladys Hill, 50, of Union Community, were held in Union Baptist Church Monday with Joe Chisholm, elder of Crescent Hill Church of Christ, officiating.

Miss Hill, a resident of Terry County since 1920, died Sunday in Big Spring following a lengthy illness. She was born Sept. 25, 1907 at Clovis, N.M.

Survivors are her mother, Mrs. Maggie L. Hill of Route 3; three brothers, Howard and John, both of Route 3, and Joe of New Orleans, La., and two sisters, Mrs. Zenovia Fowler of Gilmer and Mrs. Lillian Copeland of Amarillo. Pallbearers were Vic Herring, Lee Miller, Doc Benton, Frank Collins, Olen Herring and Bill Holiday. Burial was in Union Cemetery under direction of Brownfield Funeral Home.

### Publication Covers Sweetclover Crop

"Growing Sweetclover in Texas" is the title of a recently released Texas Agricultural Extension Service publication. The extension agronomists, authors of the publication, point out that the greatest value of sweetclover is for pasture and soil improvement uses.

The legume is widely adapted and, like other legumes, it utilizes nitrogen from the air. In addition to adding nitrogen to the soil, a good crop of sweetclover will improve the tilth of the soil where it is grown, aid materially in soil aeration and water intake. The authors, Lee Coffey, Ben Spears and E. M. Trew, cover such items species and varieties, adaptability, cultural practices, different uses of the crop, special hints on harvesting seed and diseases and insects.

The authors, in their acknowledgment, say most of the new publication is adapted from research information compiled by Dr. R. C. Potts, formerly associate professor, Department of Agronomy and now assistant dean of the School of Agriculture at Texas A&M College.

### THEY BAG LIMIT

Jim Quinton of Route 5 and A. V. Black of 419 North Bell spent the weekend at the 6666 Ranch in King County quail hunting. They bagged their limit each day.

### FARMERS URGED TO CHECK OWN SITUATION

### South Plains Cotton Growers Advised To Pick Open Cotton And Strip the Rest; Wasty Type Cotton Ineligible for Loan

(Special To The NEWS) Cotton producers of the Plains Cotton Growers, Inc. are faced with a difficult harvest situation on this 1957 cotton crop. Don Jones, former superintendent of the Lubbock Experiment Station, said this week in commenting on the crop.

Jones said that no definite harvest pattern could be devised for all cotton producers, but instead he advised each farmer to check his own situation and consider these points:

1. How much open cotton is in his fields?
2. How much bolly cotton will he have?

Jones said he imagined most farmers this year probably could make the most of their cotton crop by first hand harvesting the open cotton and later stripping the remainder.

The former director of the Lubbock Experiment Station also said farmers should keep in mind the fact that bollies mixed with open cotton will cause such cotton to be down graded. Bales of wasty type cotton — ginned from bollies — this year are ineligible for the government loan.

Because of late planting, a wet fall and abnormal harvest conditions, farmers need to analyze their own individual situation to see how each can get the most net return from the crop.

"In 1956 the quality of all the High Plains cotton was good. This year we have a mixed situation and farmers must do what they can to turn out what quality is present and still get the best possible return off

their crops," Jones continued.

Some agricultural observers have estimated that as much as 90 per cent of the cotton now remaining in the fields will be machine harvested. If this is done, some farmers may sacrifice part of their grade, the observers warned.

Before stripping, Jones said, farmers would do well to go over their field and decide how much good cotton there is in proportion to hard snaps and bollies. If he has a reasonable amount of good open cotton, it would be well for harvest to begin as soon as possible be-

fore the bollies dry out entirely.

"By using an air blast attachment on the stripper, the farmer will be able to obtain a fair amount of separation which can result in better grades. Later after dried out it is more difficult to separate them on stripping," Jones said.

By getting a good job of separation, the farmer could go to the gin with good cotton and dump his bollies on the ground and later gin them, he concluded.

### CONCERNING JUVENILE DELINQUENCY

### Judge Cites Need For 'Ounce Of Prevention'

By Judge Sarah T. Hughes

(Editor's Note: This is the second of a series of articles on the state's growing problem of juvenile delinquency by one of Texas' foremost authorities on the subject, District Judge Sarah T. Hughes of Dallas, who has handled more than 25,000 juvenile and family relations cases, along with an even greater number of other civil cases in 22 years on the bench.)

We no longer are trying to revenge ourselves upon erring youngsters, as they did, not so long ago—1828—in New Jersey when they hanged a 13-year-old boy for theft. We are trying, first to rescue the children, and, second, to protect society.

This is not to say that children should never be punished. A good old-fashioned spanking sometimes gets results in inculcating the "old-fashioned" eternal virtues so much needed.

But society has another role toward children who have to grow up in the drastically changed conditions society has created for them as compared to the old-fashioned days.

It is to try to provide other and countering conditions tending to prevent delinquency, to try to rehabilitate the delinquents, and to protect ourselves as well.

What you, as a member of the community, as a church and club member, as an individual, can do about the first aim includes more than you might think.

It is to help create a climate of public opinion in which more means will be provided to take care of the idle time our soc-

ety has forced upon children... to provide constructive outlets for their energies in stead of destructive. It is to volunteer for work in these projects — scouts, campfire, junior achievement, teen centers, playgrounds, club and church jobs, church youth groups, and similar character building, work and recreation organizations.

Your help in the development of public opinion — and your dollars in support of Community Chest and United Fund drives — are also needed for another means of preventing delinquency.

We do not have nearly enough child guidance clinics, family counseling services, vocational advisers, or similar agencies were trained psychological workers can often do some positive steering in the right direction which may turn a potential delinquent into a prospective good citizen.

Next, how do you as an individual, as a member of the community, do these two things which help discharge the community's responsibility in the effort to prevent delinquency? You can be quite a force in (1) developing public opinion; so how do you go about it?

Conservations with friends is a potent method. Bring your idea of the need into the conversation; ask your friends to urge their friends to spread the idea.

Talks to clubs is another excellent method. Clubs are always looking for a speaker and a subject, and many of us have opportunities to make such talks.

You can also "speak out at

NEW OFFICERS — Pre-School Parent Teachers Association officers were elected Monday night at an organizational meeting held in BHS library. Elected to lead the group — the first in this district — are, from left, Mrs. Ves Hicks Jr. of 1310 East Lons, secretary - treasurer; Mrs. Darrell Knight of 719 East Hill, vice president, and Mrs. Ross Campbell of 501 North B, president. (NEWSfoto)

### USDA Predicts Higher 1958 Consumer Income

An economic report of the Agriculture Department predicts high U. S. consumer incomes in 1958. As a consequence, it said, the domestic demand for farm products is expected to remain at or above present levels.

"The average disposable income per person in 1957, at around \$1,760, was 16 per cent above the 1952 level," the report said.

Planning is what separates the best communities from the average ones.

come per person in 1957, at around \$1,760, was 16 per cent above the 1952 level," the report said.

**Referendum Is Set On Cotton Quotas**

The nation's cotton producers by their votes in the December 10 cotton marketing quota referendum will determine whether quota penalties will apply and also the level of price supports for 1958-crop cotton.

Therefore, reminds Chairman R. G. Shrauner of the Texas Agricultural Stabilization and Conservation Committee, the referendum is of vital concern to every cotton grower.

If at least two-thirds of the votes cast in the referendum favor marketing quotas, the program will be operative for next year's crop, explains Shrauner. Too, price support will be available to growers who comply with their farm allotments for the 1958 crop of upland cotton at a level between 75 and 90 percent of parity, and quota penalties will apply on any "excess" cotton.

If more than one-third of the votes are against quotas, there

would be no quota penalties and the price support level to eligible growers would drop to 50 percent of parity.

The chairman points out that even if quotas are disapproved, acreage allotments will remain in effect as a means of determining eligibility for price support.

All farmers who were engaged in the production of upland cotton in 1957 will be eligible to vote in the referendum and Shrauner urges them to do so. He also says that if growers have questions they'd like answered, they should visit the ASC office in their county.

An unintentional error is often stupid but not as stupid as the derision which often greets it.

A study of the Dark Ages will teach us how to avoid a repetition of that era of ignorance.

**SIGHT-SEEING QUIZ**

*Can You Name This Spot?*

**Clue** — THIS IS A MISSION-FORT IN THE SOUTHWEST; 187 PERSONS PERISHED IN ITS DEFENSE; AFTER IT FINALLY FELL, IT INSPIRED A FAMOUS BATTLE CRY.

**Answer** — **ONYVA**  
Good eyes mean good memories. Care for your eyes at all times.

There are a number of ways to make money quickly; unfortunately, most of them are not honorable.

**By VERN SANFORD**  
**Texas Press Association**

**AUSTIN** — Both special sessions of the Legislature passed all the bills for which Gov. Price Daniel called them. Mostly, by wide margins.

Even so, final days found everyone at sixes and sevens. House members and Senators wrangled among themselves. Each house sniped at the other. And numerous lawmakers found ways to show they were put out with the governor.

Both houses gave lop-sided approval to the two bills requested by the governor to bolster local control of schools. One allows closing of schools threatened with federal occupation. The other empowers the attorney general to assist local districts in fighting anti-segregation suits.

Then, another bill was proposed to allow county judges to require registration of organizations attempting to interfere with public school operations. Sponsors said it was aimed at the NAACP.

Though there seemed to be no large block of opposition to the measure itself, haggling technicalities stretched out the time table.

Some legislators accused others of deliberately prolonging the session to embarrass the governor. Each day (including weekends) made a \$11,600 bite into the governor's emergency fund. House members said Senators were sticking around to have the last word in their feud with the Insurance Department.

Whatever the cause, it seemed evident that the Texas Legislature can't be turned on and off like a faucet.

**HINDSIGHT** — Renewal of the contest over tidelands ownership brought criticism of Governor Daniel's role in the federal tidelands law.

Sen. Dorsey B. Hardeman of San Angelo said he felt Daniel should have seen to it the 1953 law recognized specifically Texas' claim to lands 10 1/2 miles out.

Daniel, then a U.S. Senator, sponsored the federal law. At present a federal suit challenges Texas' claim to land beyond

three miles.

Daniel retorted that if Hardeman would read the bill he would find it gives each state title to boundaries "as they existed at the time such state entered the union." Texas Congress fixed the coastal boundary at 10 1/2 miles into the Gulf, said the governor.

Hardeman replied Daniel should have attached a map to the bill.

**NOT HAPPY** — Dissatisfaction of a number of Senators with the Insurance Department seems unlikely to simmer down.

Senate investigating committee indicated it is still not through with its inquiry into the Department's delay in action on an unfavorable report on Preferred Life. It recessed after hearing two assistant state auditors confirm the examiner's finding of irregularities in the company.

Sen. Grady Hazlewood stressed the committee's findings in a speech explaining why the Senate had turned down the Insurance Board's appointment of William A. Harrison as Commissioner. He said the Senate felt Harrison had been remiss in not taking immediate action against the company.

Senate finance committee turned critical questions on the three board members for having questioned the Senate's right to pass on Harrison's appointment. Board appeared to ask a bill authorizing the department to reduce the number of examiners and raise salaries.

**LAND BUY OKAYED** — Legislature moved forward another step the plan for a consolidated state government center in the heart of Austin.

Both houses passed a bill authorizing purchase of two blocks northeast of the Capitol for a Texas Employment Commission Building.

Overall plan is to ring the Capitol on three sides with five new buildings. Included will be the State Courts Building, state

office building, Insurance Building, TEC Building and library and archives building. Cost is estimated at \$20,000,000, all to come from various special funds rather than general revenue.

**OIL LEASING HELD UP** — Excessive importing of foreign oil was blamed for the Texas School Land Board's decision not to hold an oil and gas lease sale in February.

Board members said the market is too depressed to make a sale worthwhile. "There's no use putting up our school lands at a cheap price to let the oil companies profit still more because of their excess imports," said Governor Daniel.

At least one large oil company has informed the state it may pay rentals on present leases of submerged land under protest pending outcome of a federal suit contesting state ownership of a portion of the tidelands.

**A CHANCE TO SPEAK** — Citizens in every county will be given a chance to say what kind of schooling is needed to equip Texas youngsters to live in a space age.

A school study committee set up by the last Legislature plans to ask local county committees to submit ideas. Called the Hale-Aiken Committee, the 24-member panel is made up of legislators and private citizens.

They've promised to heed the wants of interested citizens in the report they're to make the next session. Already, there's been a large response.

Suggestions range from a "crash" program in science to cutting new building needs by using facilities 12 months a

year. Broad areas being explored in the study are (1) what to teach and for how long, (2) how to get teachers, (3) how to build buildings and (4) how to pay for it all.

**MONEY READY** — State Liquidator J. D. Wheeler repeated an earlier statement that he is ready to start making payments of about 33 cents on the dollar to US Trust and Guaranty Co. creditors.

He's been ready since September, said Wheeler, but a court fight among creditors has blocked action. His statement apparently was prompted by legislative criticism of "too slow" liquidation proceedings.

**SHORT SNOTS** — Texas' January draft quota will be 493 men, highest call since August according to State Selective Service Headquarters. This compares with a call of 340 for December. Also in January, local draft boards are to send some 2,000 men for re-induction examinations . . . Travis County Judge Tom Johnson is making another try at getting the state to pay cost of returning criminals from other states.

Previous Legislature and governor cold-shouldered his pleas. Records show extraditions cost Travis County \$1,117 in 1956. . . A 14-member citizens advisory committee named by Governor Daniel will assist the Texas Employment Commission in sorting out the various jobs of state employees. Last regular legislative session authorized formation of the committee "to develop an orderly classification plan based on actual duties and responsibilities."

**Army Reveals Shortage Of Qualified Officers**

The Army is facing a shortage of qualified young officers due to the high resignation rate particularly among West Pointers, according to a top manpower officer.

Lieut. Gen. Donald P. Booth, the Army's Deputy Chief of Staff for Personnel, listed higher "material rewards" in civilian life as a main reason why junior officers and some higher brass are leaving the Army.

**Nautilus Scores First On Trip Under Ice Pack**

The atomic-powered submarine Nautilus has "scored another first" by traveling 1,000 miles under the Arctic ice pack in five and a half days, according to Secretary of the Navy Thomas S. Gates.

The Nautilus was on a cruise testing equipment and machinery and gathering operational and scientific data.

**Liquor Industry Spends Huge Advertising Sums**

The liquor industry is now investing more than \$110,000,000 a year in advertising and sales promotion, representing an increase of more than 50 per cent since 1950.

Twenty-seven per cent of the budget goes to national magazines, 43 to local newspapers, 10 per cent to local outdoor and transportation advertising and 20 per cent to point-of-purchase advertising.

**IDENTIFICATION TAGS FOR DOGS**

by Bob Bartos  
Prominent Dog Authority

You carry identification in your wallet, so in case it's lost, it can be returned to you. You go to the trouble of putting your name and return address on envelopes. Now how about your best and truest pal . . . your dog? Does he carry proper credentials at all times so that if he strays you'll get him back?

You should make sure that in addition to his license he has an identification tag which bears your name, address and phone number. All pet stores carry them . . . both the plates that you rivet onto the collar and the tag type that you attach by means of an S hook. Many commercial dog food companies offer them as premiums. If your dog wears the tag type, check it from time to time to make sure the prongs haven't loosened.

Identification is useless, however, if the collar isn't on securely or if it's not tight enough. It should be comfortably snug. If too loose, a dog, straining on the leash on a walk, or when tied in the backyard, will slip his collar, wander off and get lost.

Hunters, often run their dogs collarless for fear that the collar may catch on a branch or the barb of a fence, and the dog, unable to free himself, may strangle. As a result of this practice, many a good hunting dog has been permanently lost. There's a simple way to lick this problem for hunting dogs in the field. Take an old, flat leather collar. Cut it in the middle and have your shoemaker sew in a strip of wide elastic. This provides the collar with enough give to allow the dog to wriggle out of it should he get hung up.

**Feeding Tips** All breeds of dogs require more vitamin D to strengthen their bones as puppies than do adult dogs. Top-grade commercially prepared dog foods such as Friskies contain vitamin D from fish oils and irradiated yeast in more than adequate amounts for both puppies and adult dogs.

TERRY  
**WINTER SPORTS**

By CHARLIE MAPLE  
NEWS Sports Editor

With Union's capture of the Region I Six-Man football crown, Terry can put the gridiron sport in monthballs until next spring.

That is except for the hot-stove league that will rehash the 1957 season throughout the winter. Within the next week or so, we should have the results of the official 2-AAA all-district team to kick off winter discussions.

The Odessa American ran their coaches and sports writers all-district team last Sunday and all we have to say is "Ugh!"

For the most part we could go along with the selections with the exception of placing Ector's Del Williams in the halfback slot ahead of Mike Browning.

Granted, Williams is a good ball-carrier — the top one at Ector—but we can't conceive how anyone could rate him above Mike. The Brownfield speedster, one of the smallest regulars in the district, was instrumental in the Cub drive throughout the season — and he did it mostly on guts.

We were glad to see George Fugitt and Bob Cloe named to the first team but wondered why Johnny Mack Jones did not make the grade on either lineup.

Basketball is wasting no time making sports fans forget the gridiron sport. The Cubs opened their season against Seagraves here Tuesday. Union opens in the Ackerly tourney tonight and Meadow started a couple of weeks ago.

We have not heard anything from "Down Wellman Way" so, with the exception of the grade school tourney they are

holding this week, we don't know anything about the WHS hoopsters.

The Broncos are touted to have another tough cage team despite losing three starters from the 1957 state runners-up. Union's chances will be determined by how fast Coach Sams players can recover from their football injuries. At best, the Cubs can be rated as dark-horses in District 2-AAA.

Coach Doug Cox said he plans to start his link team on practice sessions within the next week or so. Cox said he has high hopes that the team will show up better than last year, when they got a late start.

Also working despite cold, windy weather is the BHS tennis squad. R. T. Wilson, who is guiding the team, said they are coming along very well, already having had matches with the Plains Cowboys.

**Quick Clips:** Meadow's Broncos will be honored at the annual football banquet Dec. 16 at the high school. . . The Quarterback Club will fet e Brownfield football teams, both junior high and high school, at a barbecue supper at 8 p.m. Monday at the junior high school cafeteria. . . Union Superintendent M. G. Gary reports the school went into the red slightly in hosting the regional tilt here Saturday but that he felt it was worth it to give Terry County residents a chance to see a Six-Man Championship game. . . The Wildcats will be guests of Brownfield/Rotarians at their noon meeting Friday.

Hard work still represent the main essential of success in life.

**Miners To Open Cage Schedule**

Texas Western College's Conference champion basketball team opened the season this week with one of the toughest road trips in history.

The speedy but comparatively short Miners opened the season Dec. 3 against Kansas State at Manhattan, Kan., before tackling powerful Wichita University (Dec. 4), Washington University of St. Louis (Dec. 6), and Oklahoma State (Dec. 7).

Kansas State is ranked in the top five teams in the nation in preseason ratings, while Wichita and Oklahoma State (formerly Okla. A&M) are both rated high nationally.

Coach George McCarty will take an 11-man squad on the trip. The Miner coach frankly expects "to lose some games" on the trip, but he also expects the pressure and experience against outstanding competition to enable his team to develop more quickly.

The Miners' have several outstanding players, but topping them all is forward Charles Brown, a 6-foot, 175-pound junior who led the Border Conference in scoring last year and was voted the Most Valuable Player award by conference.

**Odessa Fullback Noted As 'Miner of the Week'**

Fullback Charles Ward of Odessa, 190-pound senior fullback, was named "Miner of the Week" by his teammates for his play in Texas Western's 7-14 loss to Trinity University last week.

Ward scored the Miners only touchdown on a 72-yard kickoff return, played an outstanding defensive game and did much of the team's punting on the wet, muddy field.

**MEET STERLING TONIGHT**

**Union Cagers In Ackerly Tourney**

Fresh from a winning football season, the Union Wildcats take to the hardwoods this week when they compete in the Ackerly Invitational cage tourney, starting today.

The 'Cats take on Sterling at 6:45 p.m. today though having only two days practice after the gridiron wars ended last weekend. If they win their initial tilt today, they will play the winner of the Colorado City B-Ackerly B tilt at 1:45 Saturday.

Union's girls team also will compete in the tourney. They will meet Dawson at 3 p.m. today.

Coach Kenneth Sams said normally he would not attempt to enter the cage sport this

soon after football, but the team needs to get some games under their belt before the district season opens.

Sams will have seven returning lettermen around whom to knit his team. All six men who started on last year's district runners-up will be back for the '57-'58 season. Five other cagers have been moved up from the B squad and two report from junior high school.

The Wildcats also will compete in the Meadow tourney next week. They went to the Meadow semi-finals last year before being eliminated by the Broncos.

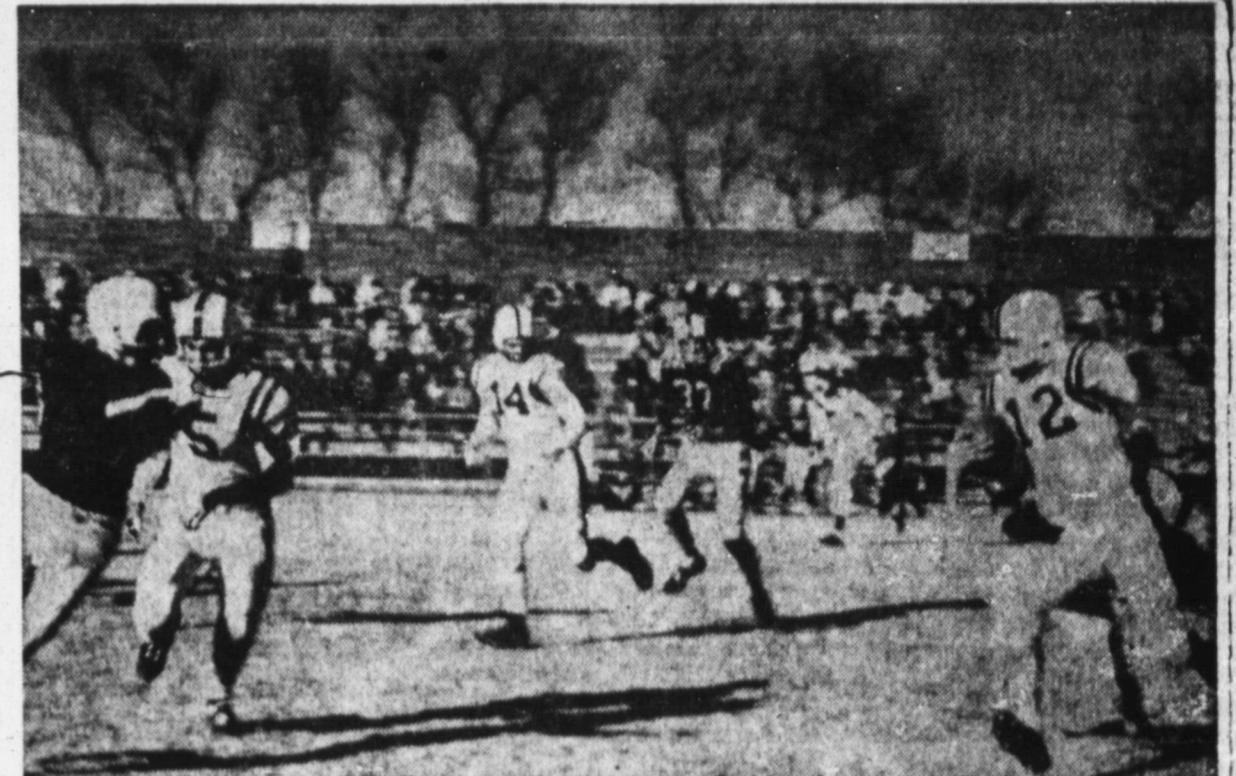

Sams reported the 'Cats will be hampered this year by knee and leg injuries sustained by four of his starters during the grid season. "Our record will depend largely on how these four come around," he said. "Last year we compiled a 17-6 won-lost record — three of the losses were to Meadow."

Members of the team include Wylie Kay, center; Alfred Newsom, guard; Kermitt Shults, forward; Howard Hungerford, guard; Jimmy Sargent, forward; David Cabe, guard; Jimmy Howell, guard; Alton Foster, center; Rodney Herring, forward; Danny Huddleston, forward; Gene Hungerford, guard; Charles Luker, guard; G. W. Dill, forward; Weldon Bell, forward, and Darwin Cheatham, guard.

**Sundown-Ralls Tilt Slated For Lubbock**

Final arrangements were made for the Sundown-Ralls high school football Class A playoff game, to be played in Texas Tech's Jones Stadium at 2:30 p.m. Friday.

The City of Lubbock, Texas Tech's Athletic Department, and the Lubbock Chamber of Commerce have been cooperating with officials representing the two teams, including John T. Morris, Supt. of Schools at Ralls, and Billy Key, Supt. of Schools at Sundown.

Tickets were to go on sale Wednesday in Lubbock, Ralls and Sundown.

Radio stations KFLD, Floyd, and KLBT, Levelland, will carry the game.

Careful driving pays dividends to those who drive carefully.

Those who enforce the law should set the example of obedience.

nents court. H Denotes home game. \* Denotes district contest.

**SOME HAVE TWO YEARS LEFT Tech Stats Leaders To Return Again Next Year**

All of Texas Tech's statistical leaders for the past football season will return for one or two seasons.

Junior quarterback Jerry Bell of Ballinger led in five departments—passing, punting total offense, pass interceptions, and scoring. He completed 37 of 77 throws for 489 yards and four touchdowns, punting 25 times for a 38.5 average, accounted for 664 yards running and passing, scored 31 points, and ran two interceptions back 27 yards.

Another Junior Jimmy Knox of Graham, who completed his second year of varsity play without being thrown for a loss, led in pass receiving with 14 catches for 201 yards and was second to Rice in rushing, with 346 on 78 carries. Those 78 tries added to 14 his sophomore season give Knox a total of 92 consecutive runs from

scrimmage without a loss. Sophomore halfback Ronnie Rice of Lefors led the Red Raiders in rushing offense, with 426 yards on 67 carries for a 6.4 average, and in kickoff returns, with an average of 53 yards on four.

Floyd Dellinger of La Vega, another junior quarterback, paced the Raider punt returners, with 16 for a 10-yard average.

Tech, winner only twice in ten games, was barely edged in total offense, 306.7 yards to 301.8. The Raiders outgained all but four of their opponents; however, a 575 yard outburst by Arkansas in the finale gave the opposition the edge for the season.

The Raiders, in losing efforts, outgained Texas A&M, Baylor, Louisiana State, and Tulsa, and took both yardage

'Gun Battle at Monterey' Has Blazing Action, An Intense Drama, Fine Acting

Blazing action and intense drama, bolstered by splendid performances, a taut, exciting screenplay and deft direction, keynote Allied Artists' action drama, "Gun Battle at Monterey," that shows today, Friday and Saturday at the Regal Theatre.

Hayden, however, is rescued by a beautiful part-Indian girl, Pamela Duncan, who nurses him back to health but is forced to stand aside as Hayden starts on his journey of vengeance.

No. 1

coaches. He is rated one of the finest players in the Southwest. Only one other regular returns from last year's team. He is 6 ft. 5 inch, senior Wayne Jones, an outstanding marksman. Other probable starters are Jon Sanders, 6 ft. 3 inch junior; Jack Burgess, 6 ft. 1 inch junior, and Jerry Gilly, 5 ft. 11 inch sophomore, or Don Martin, 6 ft. transfer.

No. 2

and scoring honors against Arizona and Hardin-Simmons. Tech led in rushing offense, averaging 265.2 yards a game while yielding 197.1, but was outpassed, 109.6 to 97.6. Tech had the most first downs, 155 to 147.

RED SUBMARINES THREAT, HE SAYS

Yarborough Asks for Oil Pipeline From Texas To California 'For Our Safety'

Captain M. V. Carson, administrator of the Nationally Voluntary Oil Imports Program, has just completed hearings in Washington which are extremely important to the economy of Texas and some other oil-producing states.

There are two major reasons why this situation should not be allowed to continue. First, our national safety is in danger when we have to rely on shipping by boat large amounts of oil, because in time of emergency Russia's more than 500 submarines would be able seriously to cut down our supply.

White Bass Furnish Lake Crook Fishing

The white bass is furnishing more fishing in the waters of Lake Crook, north of Paris, according to Marion Toole, director of inland fisheries of the Game and Fish Commission.

supplemented by 79 brood bass from Lake Texoma. Recently the biologists took 16 white bass in their experimental nets. A breakdown showed white bass made up 13 per cent of the fish taken and 18 per cent by weight.

SMU-Notre Dame Tilt To Be Aired Saturday

Hughlan A. Roy, aviation electronics technician airman, is serving with Helicopter Anti-Submarine Squadron 4 at the Ream Field Naval Auxiliary Air Station, Imperial Beach, Calif.

He is the son of Mr. and Mrs. Hubert B. Peathcoat of 216 W. Lake.

Roy reported to Imperial Beach Oct. 14 and has been assigned to the electronics Division.

Thanksgiving Day guests in the home of Dr. and Mrs. E. C. Davis of 501 East Broadway were Lieutenant and Mrs. William Loveland of Webb Air Force Base, Big Spring.

Mr. and Mrs. Barney Vachal of 803 East Buckley are vacationing this week. Vachal will return to his duties Monday with Cities Service Oil Co.

The beauty about youth is its faith and confidence . . . the two worthwhile possessions of the human race.

Three Texas Western College football players are strong candidates to be named to the all Border Conference team for the second year in a row, while a fourth player who was named to the all-star second team last year also may be considered high on the list.

Left end Dick Forrest of Carlsbad, N.M., left halfback Don Maynard of Colorado City, and quarterback Bob Laraba of Niagara Falls, N.Y., are the players who could repeat on the honor team. All were first-team selections by the coaches of the conference last year.

Tackle Dan Boyd, 200-pound junior from Abilene was named to the all-conference team last year, his first full year of action, and could move to the

Mr. and Mrs. Robert Baumgardner of 704 East Lons, spent Thanksgiving Day with his mother, Mrs. Joe B. Baumgardner of Wellington.

first team this year.

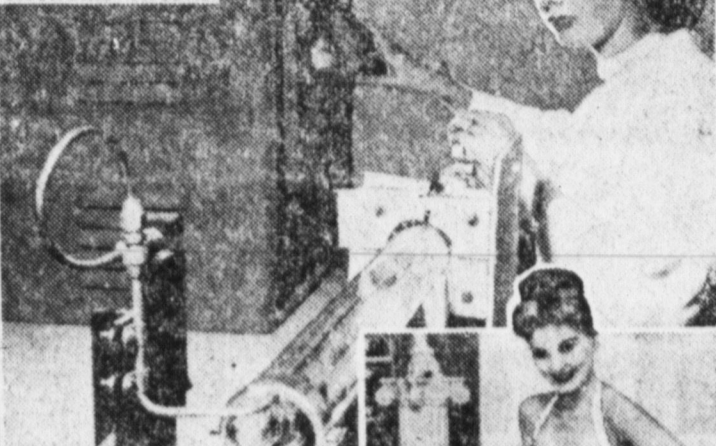

Forrest was the team's captain and is one of the finest defensive players in the conference. He also is the second leading Miner pass receiver. He's fast, and strong, and a four-year regular.

Maynard is one of the finest pass receivers and defensive players the conference has ever seen. He averaged almost 24 yards for each pass caught this year, and scored six touchdowns on passes. He led the team in scoring, in interceptions, in punt returns and was among the top men in rushing. A 9.7 sprinter, Maynard does the team's kicking off and kicks extra points. He is one of the finest defensive players ever to perform for Texas Western.

Laraba was Texas Western's leading passer, is a good runner, and a strong punter. He also is rated "excellent" defensively, and is often called on

**SUNLIGHT** and shadows (plus no water!) accent moon-like appearance of Stump Pond, man-made reservoir near Smithfield, Rhode Island. Pond's present condition is result of drought.

**Kerr Public Hunt Nets Some 25 Deer**

Twenty-five deer were taken this year from the Kerr Wildlife Management Area in Kerr county, on the fourth public hunt to be staged there. There were 132 hunters who went to the area from Nov. 16 to 20, inclusive, according to E. A. Walker, director of wildlife management of the Game and Fish Commission.

On the first day of the hunt 30 men got 7 deer; the second day 29 hunters got 6 deer; third day 25 hunters, 3 deer; fourth day 26 hunters, 5 deer, and the fifth day 22 hunters got 4 deer.

Boyd, a tall, agile honor student, is an excellent blocker and a great defensive player. He has good speed, is a tough competitor, and is one of the smartest players in football. Many of the Miners' best gains were through his hole because of his blocking ability.

The largest deer weighed 111 pounds dressed. It had eight points.

On the Black Gap area 11 Brewster county 23 deer were killed on the first six days of hunting by 116 hunters. All were fat and in excellent condition, according to reports from the area.

On the Red River arsenal area 189 deer were killed for that hunt. Three were does with antlers. One had 4 points and was in full velvet. The other two came up with 4 points and 6 points each, fully polished horns.

There were 26 bucks and 20 does killed on the Gus Engeling Wildlife Management Area in Anderson county. Of the 241 permits issued, 200 hunters showed up.

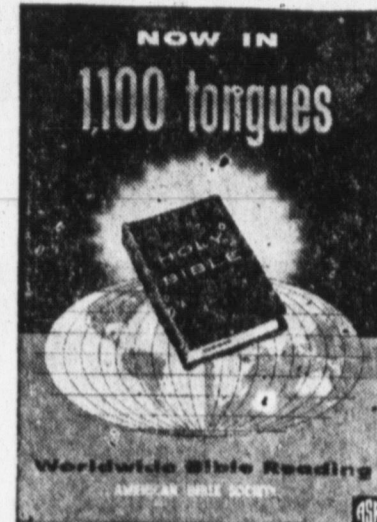

No report has been received as yet from the Panhandle area, except that the deer this year are unusually large.

Trade, based upon taking advantage of another, rare, proves profitable in the long run.

Separation of church and state is still the keynote of religious and political freedom.

**ACROSS THE CATTLE GUARD**  
By LEO W. WHITE  
Yoakum County Agent

About three weeks ago I was down in the southern part of this state and saw some of the country which was all new to me. I learned that in that area the people are pretty proud of Blue Panic grass.

They have it growing in all of the pastures where they can get it established. Some of the pastures are covered with brush, and nothing seems to grow there except brush.

The people have done a great deal of brush eradication, and where the brush has been cleared they have Blue Panic grass started.

Occasionally, there will be an irrigated pasture where they have planted a mixture of grasses, and one of the grasses in the mixture will always be Blue Panic.

Blue Panic grass has been growing in Yoakum County for several years but it does not seem to do the job here that it does farther south.

It may be that soil and climatic differences would keep it from doing as well in this area but our people cannot feel that Blue Panic is our one best grass.

We have other grasses in Yoakum County that also are doing a good job of producing forage. Some of them have not been grown long enough for us to tell if they will do well in this locality.

**SORGHUM ALMUM NEW**

Our newest grass is probably Sorghum Almum grass which is supposed to be a cross between Johnson grass and some of the sorghums. We have some reports on the few acres of Sorghum Almum that were planted in this county this year.

Most of the people who planted this grass were interested in producing a seed crop rather than having something to graze.

Growing seed for the first year was a wise move because seed prices were high at planting time last spring and a farmer well could afford to wait one year to plant the acreage that he wanted to be in grass.

**Seed Was High**  
One acre of Sorghum Almum will produce enough seed to plant several hundred acres. The seed was high only because they were scarce. Farmers who did not grow any seed this year can probably buy seed fairly reasonable next spring.

I doubt if many people will say that Sorghum Almum is going to be our one best grass. I do believe that it is going to be one of our better grasses. It makes an enormous growth and produces a large amount of forage that can be grazed like Sudan grass or it can be stored as dry forage or used as a silage crop.

It is closely related to Johnson Grass and people fear that it will be a problem to get rid of. We will have to grow it for a while before we will know how hard it is to kill.

**Planted 10 Acres**  
The only person that I know of who has grazed Sorghum Almum this year is Rusty McGinty. He had 10 acres that

he had planted. He had 10 acres that

**Head of UCT To Be Greeted in Lubbock By Brownfield Men | Land Board Reports Purchase Of Land**

Several members of Brownfield Council #25, United Commercial Travelers of America, will go to Lubbock on Dec. 12 where they will greet the orders' supreme counselor, Lawrence B. (Larry) Hart of Fort Wayne, Ind.

LARRY HART

**Plainview Jerseys Assist Santa Claus**

Two Jersey cows in the Rook Jersey Farm herd, Plainview, are doing everything to enable their owners to have extra cash for Christmas shopping.

Mr. and Mrs. Homer Rook say that one of their cows, Volunteer Favorite Sable, made a 323-day record of 17,570 pounds of milk with 1,940 pounds of fat on DHIA test. They realized a profit of \$623 from the milk produced during this one record after feed costs had been deducted.

This same cow has made \$1,194 above feed costs during her last three lactations on DHIA test.

Another cow in the Rook Jersey herd, Signal Sable's Knight Doris, made a 365-day record of 17,662 pounds of milk with 1,015 pounds of fat at the age of 2 years and 6 months on three-time milking. This is the highest national butterfat record in this age class on official Register of Merit test.

was planted for grazing and another small plot that was planted for seed production. His 10 acres furnished grazing for about 30 head of cows and calves.

He put in a few head of cows and calves and left them a while to see how they would do and when he saw that both the cattle and the grass was doing well, he turned in some more cows and calves.

He can give you the exact number of cattle and the number of days they grazed on the grass. The important thing is that the cattle did well and gained in flesh during the time that they were eating nothing but Sorghum Almum grass.

Regardless of the kind of grass that is used, my prediction is that Yoakum County will follow along with the idea that grass farming is here to stay.

When an acre of land will produce enough forage to feed one mother cow for 12 months and enough additional to feed her calf up to weaning age, then that acre probably will make more clear money for the owner than a similar acre growing grain sorghum or cotton.

There is a way to grow a number of different grasses on the same farm and fit them into a rotation grazing system whereby year around grazing could be achieved with a minimum of supplemental feeding.

A number of Yoakum County farmers are thinking along this same line and it will take a few years to get it worked out. I would be interested in talking to anyone who has a plan of grass farming.

Texas, said R. H. Casstevens, secretary of the Brownfield group.

The Lubbock meeting, which will be preceded by a banquet, will be held at 7 p.m., in the Directors Room of Plains Co-Op Oil Mill, 2901 Ave. A.

Hart also will be greeted by the grand counselor of Texas, Tom L. Morton of Lubbock.

The national officer was born in LaGrange County, Ind., in 1907, and was graduated from LaGrange High School. He was elected grand secretary of the jurisdiction in Indiana in 1948, still serving in that capacity.

Hart was married in 1929, attends First Church of Christ, Scientist, in Fort Wayne, is a member of Home Lodge 342, F&AM, Scottish Rite and Mizpah Shrine Temple in Fort Wayne.

If your business seems to be sort of slack, try the time-tested tonic—advertising—and see it improve.

**Do This to Stop Peach Tree Borers**

1. PDB (for paradichlorobenzene) is spread in crystal form around the base of a peach tree, staying two inches away from the trunk, as one of the most effective means of controlling costly peach tree borers. One ounce of crystals is sufficient for treating a mature tree.
2. Loose earth is heaped over PDB crystals to form cone-shaped mound about six inches above ground line on tree's trunk. Fumes penetrate borer holes at or below the ground line; kill the borers.

A record crop of peach tree borers is expected to be at work this fall and winter at or below the ground line on your orchard trees, boring holes that can weaken and kill them. Peach tree borers have been known to wipe out entire orchards. Experts like Dr. Don King, entomologist at Texas A & M, are recommending to orchardists that they return to the use of PDB (for paradichlorobenzene) as one of the oldest but still most effective means of controlling the borers.

Fall is the proper time for such treatment, when the soil is dry and the soil temperature is above 55°. Follow these steps:

1. Clear weeds from base of tree and loosen soil lightly.
2. Make grooved ring in soil around base of tree at least two inches from the trunk.
3. Drop PDB crystals evenly in the groove (see figure above) at a rate of one ounce for mature trees, 1/4 ounce for trees 4 - 5 years old and 1/8 ounce for trees 2 - 3 years old.
4. Pile soil in cone-shaped mound over crystals to a height of six inches on tree trunk and firm it (see figure at right). Be careful not to push crystals into contact with tree trunk.
5. In early spring, remove earth mound, level soil.

Your farm chemicals store is the best source of PDB crystals. However, you may also find them in drug and department stores where they are sold for clothes moth control. When buying a clothes moth compound for use against peach tree borers, however, be sure to get paradichlorobenzene crystals, not naphthalene which is sometimes used against clothes moths.

**Land Board Reports Purchase Of Land**

AUSTIN — The Veterans' Land Board has now purchased \$114,143,000 worth of Texas farmland with the \$100,000,000 available to it, Land Commissioner Earl Rudder said this week.

Payments from veterans participating in the program are used to buy more land. Eventually, a \$25,000,000 "profit" will be realized from the first \$100,000,000 in the program, Commissioner Rudder said. This money will be put in a fund which the State Legislature controls.

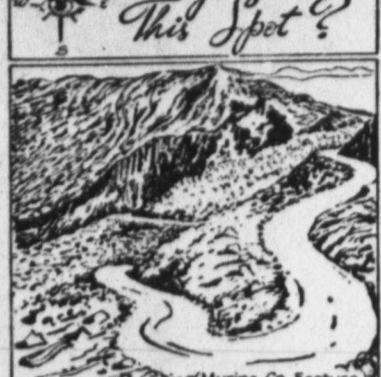

The land commissioner also noted that the bond market continues to block the sale of some part of the second \$100,000,000 worth of bonds in the program.

No more than three per cent interest may be paid to purchasers of these securities. Bonds on the market are now selling at an average interest of 3.43 per cent.

One trouble with a democracy is that too many of its citizens suffer from mental paralysis.

So far, judging from receipts, our neighbors have poor gardens this year.

# Free Enterprise Key To Nueces Man's Life

(Special To The NEWS)  
WACO—J. H. (Harrell) West 77, new president of the Texas Farm Bureau, is a strong believer in the opportunities offered by the American free enterprise system.

J. H. WEST

A share-cropper when he started farming 34 years ago, West now is a successful farmer who lives on his own productive and well-run farm a short distance east of Bishop in Nueces County.

West succeeded J. Walter Hammond, 69, of Tye, Taylor County, as president of the state's largest farm organization Nov. 20, following the annual meeting in Dallas. Both men have been leaders in Farm Bureau for the past two decades, with Hammond serving as president for 18 years. West first was elected to the board of directors of the organization in 1937 and has been re-elected as District 12 director each year since then. He was named secretary-treasurer in 1938, a post he held until chosen vice president last year.

The new president was born in March 1900, in Grandview, Johnson County. He attended public schools there, receiving his high school diploma in 1918. He studied at a Fort Worth business college and attended Baylor University.

West was married in 1924, the year he started farming as a share-cropper, to the former Ola Bostick. They have a son and daughter, Tilden, 19, and Mrs. L. D. (Margaret) Attaway, 25.

West ignored Horace Greeley's advice to "go west" and headed south to make his future in the fertile farming land of the Coastal Bend of Texas. He started out in partnership with a brother, farming on the halves. In two years they had accumulated enough capital to buy their own equipment and then rented land on the traditional third-and-fourth basis. In 1939, he attained a goal he had set for himself when he bought the farm on which he now lives near Bishop. He produces cotton, grain sorghum, flax and winter vegetables.

The new TFB president says he came to the conclusion a long time ago that more of the problems a farmer has to deal with lie beyond his own fences than are found in the fields. He long has been recognized as one of the Farm Bureau's foremost authorities on cotton and has served many years as a producer-delegate to the National Cotton Council. He is part owner and president of the Bishop Gin Co. West is also a grain handler as well as producer. He and a partner operate the Barkley-West Elevator Co. in Bishop, a modern grain storage facility with a capacity of 1 1/2 million bushels. He is on the board of trustees of the huge terminal elevator at the Port of Corpus

TO INCLUDE LEVELING OF CONSUMER PRICES

# Economists Report A 'Moderately Good' Advance In Offing For the Nation's '58 Economy; Shift Seen to Durable Goods

A "moderately good" advance in the nation's economy, accompanied by a leveling of consumer prices, is predicted for 1958 in a detailed economic forecast released this week by Carrol M. Shanks, president of Prudential Insurance Co.

The advance will push the Gross National Product—the value of all goods and services produced in the United States—to a record high of nearly \$450 billion. This represents an increase of \$13 billion over the estimated GNP for 1957.

The "leveling in consumer prices will mean that this advance will be real, and not illusory" like 1957's, says the forecast, which is prepared annually by Dr. Gordon W. Mc-

Kinley and his staff of Prudential economists.

They point out that at least half of the \$21 billion increase that took place this year has been attributable to inflated prices, not to increased output of goods and services.

While they believe that "hesitation" will continue to keynote business activity during the next few months, they look forward to a "brisk advance" in the second half of the year. Prudential economists say the advance will be largely due to a gradual shift in the buying habits of the American public, which will increase its purchases of home appliances, automobiles and other durable goods.

In forecasting the main

segments of the U.S. economy they predict:

1. Business capital expenditures will be down \$3 billion from 1957.

2. Home buying will be up \$1 billion.

3. Consumer spending will rise by \$11 billion.

4. Government spending will increase by \$5 billion, with the federal government accounting for \$2 billion of the increase and state and local governments \$3 billion.

The economists note that volume and distribution of consumer spending have provided the principal key to the business situation during the past year. They point out that consumer purchases of non-durable goods and services have risen steadily and rapidly, but durable goods sales have shown no increase at all.

As a result, in the midst of general prosperity and rising prices, excess capacity has appeared in many durable goods lines and manufacturers have felt the impact. The revival of durable goods buying will stem partly from a normal resumption of consumer interest as goods purchased in previous years begin to wear out or become outmoded, and partly from an increase in new housing construction.

It will also be stimulated through an increase in credit buying. Many of the goods purchased on credit in the big year 1955 are now free of debt. In conclusion the economists say:

"Sound monetary policy has carried us through a difficult period of adjustment, and has succeeded in curbing what

could well have turned into a really serious rise in consumer prices.

"As the threat of inflation eases, and consumer expenditures resume a pattern similar to the distribution of our industrial capacity, it will be possible for the Federal Reserve to provide a gradual increase in the money supply compatible with the growth in our real output.

"This is unlikely to cause a marked easing in interest rates because the demand for loanable funds in the coming year will continue strong. Increased availability of money in 1958 will, however, make possible the undertaking of many projects which have

been deferred up to now because of lack of funds."

Thanksgiving Day guests in the John J. Kendrick home 1306 East Broadway were Mrs. J. J. Kendrick, Mr. and Mrs. B. D. Reynolds and children of Lubbock and Mr. and Mrs. C. J. Smith and Mike of 321 West Tate. Jean returned to Lubbock with her grandmother to spend the weekend.

Mr. and Mrs. J. Fred Bucy Sr. of 605 East Tate, will return this week from Port Aransas, where they have spent the past five weeks fishing.

Leslie Elaine is the name given to the new daughter born to Mr. and Mrs. James Thurman of Route 5. She was born in Methodist Memorial Hospital at Lubbock, Dec. 1, at 11:16 p.m. and weighed 9 pounds 1 1/2 ounces.

The new dispatcher for Halliburton Oil Well Cementing Company, is Albert Combs of 410 East Tate. Combs has just been transferred to Brownfield from Hobbs.

Smartness is never synonymous with vulgarity and improprieties.

## YEAR END TAX TIPS NUMBER 2 How To Plan Federal Income Tax Deductions

This is one of a series of four articles on federal income tax deductions provided by the American Institute of Certified Public Accountants and the Texas Society of Certified Public Accountants.

By waiting until after the first of the year to decide whether to itemize your deductions or take the standard 10-per cent deduction, you run the risk of losing your greatest tax-saving opportunity.

When you are forced to take the standard deduction because your deductible expenses are less than 10-per cent of your adjusted gross income, you literally "waste" your expense deductions, for tax purposes. Don't let this happen to you every year. Plan your expenses out in the years in which you take the optional 10-per cent deduction occasionally. This can be done by pyramiding two years of actual expenses into one.

For example, assume that you expect to have an adjusted gross income of \$7,000 for this year and actual deductible expenses of about \$600—or \$100 less than what you would be entitled to deduct if you took the standard 10-per cent deduction. Not included in your actual expense estimate, however, is \$250 in state taxes and \$100 in home-loan interest charges that will have to be paid in 1958 but which can be paid in advance.

**Beat the Standard Deduction**  
If you act quickly and pay these expenses before December 31, you can bring your total allowable deductions for 1957 up to \$950. By itemizing deductions this year and taking the standard deduction next year—when your actual expenses should be somewhat less because of what you have prepaid—your total deductions for both years will be approximately \$1,650. Had you taken the standard 10-per cent deduction in both years, the total would be only about \$1,400.

A salaried worker who has difficulty finding enough deductions to make itemization worthwhile might consider carrying the pyramid plan one step further. He could set up a system of "lending" and "borrowing" year-end items that would make it possible for him to throw three years of deductible expenses into one.

**Timing Deductions**  
You can begin your own three-year pyramid by postponing payment on as much 1957 deductible expense as possible and planning to take the standard deduction on this year's return. The expenses you have postponed—or "loaned"—will increase your 1958 deductions, and in the final months of 1958 you can "borrow" from 1959 by speeding up the payment of deductible items.

As a result of your pyramiding, you maximize your expenses for 1958 (when you should be able to

beat the standard deduction by itemizing), and minimize your deductible items for 1957 and 1959 (when you will take the standard deduction and waste your actual expenses). The general rule to follow when you are trying to make the most of your actual expenses is keep outlays as low as possible in the years in which you take the standard deduction and pyramid them as much as possible in the years in which you itemize expenses.

**Pyramid Medical Expenses**  
Most taxpayers need look no further than their family medical bills to find a deductible expense that can be pyramided to gain a welcomed tax advantage. The action of the tax law governing the deductibility of medical expenses states that unless you or your wife will be 65 years old by January 1, 1958, you may deduct only those medical expenses for 1957 in excess of 3 per cent of your gross income.

If you find that you are near or over the 3 per cent minimum and you are going to itemize deductions this year, you should pay as many of your medical bills as possible before December 31. And since medical expenses can be deducted only in the year paid (but cannot be prepaid), you might even consider speeding up and paying for the dental work, eye examinations and general physical check-ups your family will otherwise be having in the early part of 1958.

Taxpayers who had low medical expenses for 1957 should reverse this procedure, postponing the payment of their year-end medical bills until after the first of the year. In this way, they may be able to exceed the minimum requirement in 1958 and to gain a benefit from a payment that would otherwise be lost on their 1957 return.

**Plan Premium Payments**  
The premiums you pay on your health, accident and hospital insurance policies can be deducted as a medical expense—so plan your payments accordingly. To give you greater flexibility in the shifting of medical deductions from one year to the next, you might arrange to have these premiums fall due in January.

## Bob Forrest Named Rushing Leader For TWC Miner Team

Bob Forrest, Texas Western's quarterback from Carlsbad, N.M., won the battle for the No. 1 spot in rushing at Texas Western with a total of 365 yards gained in 70 tries, final statistics showed this week.

Forrest, a four-year letterman, averaged 5.2 yards per carry. He edged freshman fullback Charles Bradshaw of Abilene, by 33 yards.

Leading scorer for the 1957 Miners, who won 6 games and lost 3, was halfback Don Maynard of Colorado City. Maynard, also a senior, scored 59 points to beat Forrest by 17 points.

Maynard also was the team's leading pass receiver with 11 catches for 300 yards, phenomenal average of over 27 yards for each reception. He scored 6 times on passes. Maynard was the top man in punt returns, running back 7 for 95 yards, and he led in pass interceptions with 3. He returned the interceptions 107 yards.

Junior halfback Jimmy Bevers of Lovington, N.M., was the team's leader in kickoff returns. He ran back 5 kickoffs for 191 yards.

Fullback Charles Ward of Odessa, a senior, led the punters by averaging 36.3 yards on 14 kicks. The Miners' leading passer was quarterback Bob Laraba,

a tall junior who threw 55 times completed 28 for 510 yards and 9 touchdowns. Forrest completed 11 of 28 for 160 yards and one TD.

## A Masterpiece... Even by Cadillac Standards!

The magnificent Cadillac car for 1958 is, without question, a rare masterpiece in all the things that make a Cadillac... a Cadillac!

Certainly, it has had no precedent insofar as beauty is concerned. In its graceful symmetry of line and in its remarkable look of stature and substance, it is in a class all of its own.

Unquestionably, it is without counterpart by the way of interior elegance. Never before have Fleetwood coachcrafters combined such graciousness and luxury and spaciousness in a single interior design.

And, most assuredly, it has set its own extraordinary pace in modern motor car performance. Its dynamic new engine, its more responsive transmission, and its new air suspension, now available as an extra-cost option, are simply a revelation.

We earnestly hope that you will take the time to see and drive this extraordinary new Cadillac at your earliest possible convenience.

Your Cadillac dealer will be delighted to give you full details on Cadillac's twelve new models, including the incomparable Eldorado Brougham.

**\$50,000 PURSE**

**Futurity Is Scheduled By Ruidoso**

RUIDOSO, N.M., — Gene Hensley, Ruidoso Downs general manager, today announced establishment of the world's richest quarter horse racing stake — the estimated \$50,000 "All-American" Futurity.

Extensive plans for the formation of this juvenile classic, which will have its inaugural running at this colorful "horse racing in the pines" plant on Labor Day, September 7, 1959, were disclosed today when Hensley revealed nomination blanks already had been widely circulated among quarter horsemen throughout the western states.

Describing in detail this innovation that will give quarter horse racing a long-needed jackpot comparable to the Kentucky Derby of thoroughbred racing and harness racing's Hambletonian and Little Brown Jug classics, Hensley said the first running of the "All American" Futurity will be open to foals of 1957 and will be contested at 400 yards with fillies assigned 116 pounds and colts and geldings packing 119.

In estimating the gross value at \$50,000, Hensley stated Ruidoso Downs would put up \$3000, plus five per cent of its pari-mutuel handle on the race, and that six moneys would be awarded, with the winner getting 50 per cent of the pot, 18 per cent to second, 12 per cent to third, eight per cent to fourth seven per cent to fifth and five per cent for sixth.

Altogether, the total cost of keeping an entrant eligible to the "All American" is \$2000, starting with a \$25 original nomination fee for which the deadline is December 31 of this year. From there, eligibility fees gradually increase over each three-month period rising from \$50 to \$100 to \$225 to \$250 to \$350 to \$500 to pass entry box and an additional \$500 to start.

To help cut the cost of keeping up with the payments, Ruidoso is introducing a "bargain-counter" special that will enable horsemen to secure their eligibility upon payment of \$1500—a saving of 25 per cent—with the original nomination.

Supplemental nominations also will be accepted as late as June 1, 1959, upon payment of a \$5000 fee by that date. Additional nominees also may be made eligible earlier upon payment of \$500 on or before June 1, 1958 and \$1000 on or before Sept. 1, 1958.

The starting field will be limited to 10, which will be determined by the fastest in

dividually-timed entrants in the event two or more qualifying sprints are necessary to bring out the best of the final Futurity eligibles.

## Miss Victoria Hook To Be Wed Dec. 24

Mr. and Mrs. Charlie C. Hook of Route 5 have announced the engagement and approaching marriage of their daughter, Welda Victoria Hook, to Francis Lloyd Hester Jr. of Route 3, son of Francis Lloyd Hester Sr. of Bloomfield, N.M.

The Rev. Earl Robison of Foster Baptist Church will perform the ceremony in the home of Mr. and Mrs. C. D. Hester of 313 South Third at 3 p.m., Dec. 24.

Attendants for the couple are to be Miss Fay Howell and Jerry Howell of Route 3.

MISS WELDA HOOK

## Casebeers Entertain Thanksgiving Visitors

Mr. and Mrs. C. W. Chapman and Linda, Sharon and David Ray returned to their home at Weatherford Sunday after spending the Thanksgiving holidays here with her parents, Mr. and Mrs. A. E. Casebeer of 521 South Fourth.

Other visitors in the Casebeer home were Mr. and Mrs. Clarence Casebeer and Eddie, Mr. and Mrs. Allen Elwood Casebeer and Belinda, all of Hobbs, and Mr. and Mrs. W. B. Anderson and Ella Faye of Brownfield.

## Luckie Voice Class To Present Concert Sunday in Church

Mrs. John S. Luckie of 1006 Tahoka Road will present her voice pupils in a special Christmas program at 3 p.m. Sunday in First Presbyterian Church. The public is invited. A guest soloist of Levelland also will take part in the program.

Pupils being presented are Linda Fitzgerald of Plains, Sandra Armstrong, Sue Pettiet and Glynda Whitener, all of Ropesville, Betty Bragg, Laurielle Wheatley, Virginia Cooper, Charla Berry, Carol Christopher, James Hill, Linda Brown,

Nancy King, J. W. Hawkins, Dana Douglas, Carolyn Hall, Cheryl Turner, Beverly Dunn, Carol Cates, La Veda Raynea, Mary Beth Franklin, Emily Risinger, Margaret Blackstock and Joy and Gay Luckie.

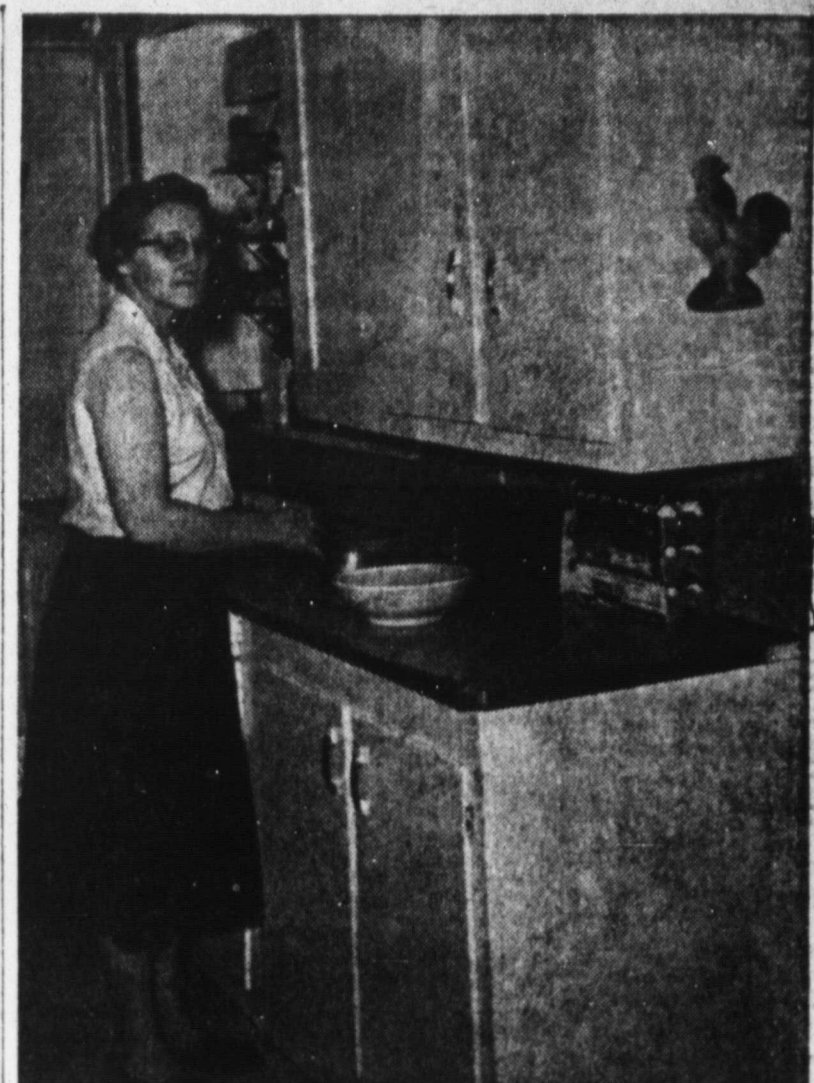

Joe Ned Barker left this week for Galveston where he will be a patient in John Sealy Hospital. Making the trip with him were Mrs. John Cloud Sr. of 401 Tahoka Road, his grandmother, and Mrs. Dee Forbes of 309 East Cardwell, his mother.

## Johnnie Clouds Have Son in Corpus Christi

Mr. and Mrs. Johnnie Cloud of Corpus Christi are parents of a son, Jeffery Lynn, born Nov. 26 and weighing 7 pounds 1 ounce.

Mr. and Mrs. John Cloud Sr. of 401 Tahoka Road and Mr. and Mrs. S. H. Togle of Calallen are the baby's grandparents.

There is a difference between the representative form of government and a democracy.

"MY FAVORITE RECIPE" — Mrs. Jack Tongate of Route 1 is shown preparing her favorite recipe, Jello apple sauce salad. Her directions: Dissolve, by heating, 1 cup of red hots in 1 cup of water. Pour the hot liquid over 1 package of raspberry Jello and stir until dissolved. Add 1 number 2 can of apple sauce and pecans. Mix well and store in ice box to set. Mrs. Tongate, who works at Piggly Wiggly Super Market, says, "It's quick to prepare and keeps well. My family love its tangy taste with meats, especially fowls." (NEWSfoto)

## IN C. A. WINN HOME

### Mrs. North Is Bridal Shower Honoree

Mrs. Lester North, the former Miss Barbara Chesshir and daughter of Mr. and Mrs. Herman Chesshir of 1006 East Tate, was honored Saturday afternoon with a bridal shower in the home of Mrs. C. A. Winn, 1001 East Lake.

In the receiving line with the bride were her mother, her sister, Mrs. Max Proffitt; her sister-in-law, Mrs. Sally Josland of Plainview, and Mrs. Winn. The honoree wore a corsage of pink carnations. Other members of the house party wore similar corsages in white.

Miss Patty Ellis presided over the register. Miss Bobby Neil Richardson was at the tea service, and Misses Beverly Morris and Wanda Cornelius displayed gifts.

Hostesses for the occasion were Mmes. Winn, Ross Black, Edd Richardson, Eldon Cornelius, Earl Brown, Mike Blair, C. F. Crites, L. E. Harrell, Leonard Lang, Virgle Travis, Harry Cornelius, Clarence Cornett, Edd Mayfield, Will C. Brown, Vernon Whitaker, Tom Cornett, Jake Gore and Pete Crump.

## Spankin' New

Treadaway-Daniell Hospital

Mr. and Mrs. Fidel San Miguel of Edinburg, twin daughters, Baldomera and Matilda, born Nov. 23 and weighing 5 pounds 2 ounces and 5 pounds 10 ounces.

Mr. and Mrs. Conrad Wayne Cabe of 814 Tahoka Road, a daughter, Sandra Gayle, born Nov. 23 and weighing 7 pounds 12 ounces.

Mr. and Mrs. William Edward Hand of Loop, a son, Rodney William, born Nov. 23 and weighing 7 pounds 14 oz.

Mr. and Mrs. Robert Blad-saw Holder of Route 1, a daughter, Darla Denise, born Nov. 24 and weighing 8 pounds 3 ounces.

Mr. and Mrs. Jose M. Medina, Box 343, a son, Jose M. Jr., born Nov. 26 and weighing 6 pounds 11 ounces.

Mr. and Mrs. Frank Rodriguez of Route 3, a daughter, Mary, born Nov. 27 and weighing 4 pounds 7 ounces.

Mr. and Mrs. Carlos Vera of 901 North Third, a daughter, Silvia, born Nov. 28 and weighing 6 pounds 2 ounces.

Mr. and Mrs. Lendall Irving Teague of 1006 North First, a son, Jerry Lee, born Nov. 30 and weighing 7 pounds 13 oz.

## Patti Starnes Feted On Sixth Birthday

Mrs. Harley Starnes of 1201 North A honored her daughter, Patti, on her sixth birthday Saturday in The Party House.

The Birthday Express driven by a doll was pulled down the table by miniature reindeer. "Happy Birthday" was spelled out in red on silver Christmas balls. The cake was placed at the end of the table in front of the honoree.

Favors were snowmen and balloons tied to candy canes with red ribbons. Each guest was allowed to blow out his own candle on an individual cup cake. Punch and ice cream were served with the cake.

Guests attending the party were Dianne, Lynn and Gwyn Fitzgerald of Plains, Joyce McCoy, Patti and Peggy Hanng, Marian Bea Perry, Deaun Cloe, Mary Darlene and Karl Jones, Ronnie Eakin, Sharon, Lynn McLroy, Jimmy Jennings of Silverton, Kay and Rita Oliver Kenny Pat Black and Danny Joe Starnes.

## Mr. and Mrs. Cannon Are Parents of A Son

Mr. and Mrs. Donnie Cannon of Hale Center are parents of a daughter, Deaun Donell, born Nov. 20 and weighing 7 pounds 8 ounces.

Mrs. Cannon is the former Miss Alma Duke of Brownfield. Mrs. C. H. Gibson of West Lons is the baby's great grandmother.

Loud talking sometimes passes as intelligence, but not for long.

Whoever runs from an enemy permits that enemy to run his life.

### Many Seemingly Normal Everyday Habits Noted As Cause Of Dental Mis And Often Prove Injurious To Over-All Health

Opening bottle with your teeth may make you the life of the party but it won't give you the sturdiest teeth in town, notes Dr. Henry Holle, State Commissioner of Health.

People often damage their teeth using them for such unlikely purposes. In fact, dental authorities can count at least 36 everyday habits that a great many Americans practice in one degree or another that are injurious to mouth tissue.

For example, the habit of biting pensively on ear loops of glasses can be an important factor in teeth migration — moving out of position, dentists point out.

Chewing on pencil or pen during moments of concentration is almost an occupational hazard for bookkeepers and stenographers. Dentists report considerable erosion of teeth among people in those professions.

Upholsterers, carpenters, and shoe makers who hold nails between their teeth develop typical dental ailments. Seamstresses who bite thread and dress makers who hold pins and needles between their teeth invariably suffer from bad tooth conditions, dentists have found.

Biting on matches and tooth picks, abnormal tongue pressures against teeth, lip and cheek biting, and continued clenching of teeth to control emotions all may have their adverse effects.

Also listed as detrimental to teeth and gums is the practice among women of using their teeth to open bobby pins. Another is the habit of cupping chin in hands while reading or watching television. It causes side pressure that may harm teeth or jaws.

Among children the habit most detrimental to teeth is thumb sucking. However, most authorities agree it will not cause improper teeth alignment providing it is stopped by age four or five.

Related to thumb sucking is the use of pacifiers. Dentists strongly recommend against both pacifiers and nursing bot-

ties after age six, since they are likely to cause protrusion of front teeth and a narrowing of the dental arch.

A sleeping habit known as "pillowing" may lead to incorrect closure of teeth. This is the habit some people — mostly children — have of sleeping with cheek on fist, forcing the lower jaw out of natural alignment.

Ever experience obscure headache, tenderness at the temples, or tenderness in your face muscles? These might be signs of faulty closure of opposing teeth which is reflected in mouth tissue. Faulty closure is often aggravated by poor

dental health habits which can be broken if you try.

### Santa Fe Declares Dividend Payments

The Board of Directors of Santa Fe Railway today declared a dividend of 25 cents per share on its preferred capital stock payable February 1, 1958 to stockholders at the close of business December 27, 1957.

In addition, the Board declared an extra dividend 20 cents per share on common capital stock of the company payable January 10, 1958 to stockholders at the close of business December 6, 1957.

The directors also declared a quarterly dividend of 30 cents per share on common capital stock of the company payable March 1, 1958 to stockholders of record at the close of business on January 24, 1958.

Total dividend appropriations of Santa Fe amount to \$40,187,480, in 1957.

### THANKSGIVING VISITORS

Joe Cloud and Stephen Lynn Brownfield, students at Peacock Military Academy in San Antonio, spent Thanksgiving here with their parents, Mr. and Mrs. John Cloud Sr. of 401 Tahoka Road and Mrs. Wanda Brownfield of 701 East Cardwell.

### Mrs. G. B. Lindly Has Family Reunion

The family of Mrs. G. B. Lindly of 401 South Fifth met in Brownfield over the weekend for a reunion in her home and in the home of Mr. and Mrs. R. E. Smith Jr. of Route 2.

Those attending were Mr. and Mrs. Don Blevins and family and Mr. and Mrs. Hermon Belvins and daughters of Denver City, Mr. and Mrs. M. L. Blevins and family of Spraberry, Cpl. and Mrs. Dewey Lindly of Fort Hood, Mrs. Lonnie Lindly and Tom Lindly of Lubbock and Mrs. R. M. Bagley and children of Post.

Even though the Fall means open season on ducks and upland game, don't forget your fishing rod if you're headed for the wide open spaces. Trout and bass go on a feeding spree when cold nips the water. It's an easy time to fool the lunkers.

of scopes, too... We've been reading a lot about the amazing long-life nickel-cadmium battery. Now Remington has built one into its new Charge-A-Lite rechargeable pocket flashlight. Makes it light, compact, and lasts almost indefinitely.

With all the talk about warmth without weight in apparel, you'll want to see it in action in Ulica Durbak's new "Aircel" dacron-insulated hunting tops. Sure to warm any hunter's heart and hide... A good gift idea is McGregor's all-new Wooloomooloo long-tailed shirt for hunters. Its longer-length back-tail stops ride-up. Plenty of shoulder space for action, too... Before you take off on your hunting trip give a thought to filling your tank with either of Sinclair's two new gasolines: New Sinclair Power-X and New Sinclair H-C. Power-X is a super high-test gas with no price penalty. H-C offers high-test quality at a regular price... No matter what the weather you'll find that Philip S. Oil's new Model O-32 regular pheasant call retains its pitch.

Two outboard motors of the same size will rarely push a boat as fast as one engine twice as large.

Refrigerwear has brought out a remarkable new cold-weather fabric: DQ-10, said to be extremely warm though light in weight, and most comfortable and long-wearing. Dura-Therm Vertical Quilting utilizes an exclusive vertical arrangement of insulating materials, and is available in everything from mitts to undersuits... Four new electric lanterns have been introduced by Delta Electric. Called POWER-HEADS, each consists of a big, brilliant 4 1/2" lantern head attachable to a new double-size 6-volt battery in seconds... If you're in the market for an appropriate gift for a sportsman friend (or for yourself) you ought to see Hickok's line of Champion Sports Tie Bars and Cuff Links. Flying duck cuff links and shotgun tie bars, featuring bass links and spinning rod tie bars — you'll find 'em all.

When the time comes, you'll turn your reading into dollars saved if you follow Boating Editor Willard Crandall's "Outboard Lay Up" in Sports Afield for November. It's hard to wear out a motor, but neglect can make it old before its time.

For further information on all products and services reviewed in this column, consult your local sporting goods dealer, the classified telephone directory or write Sports Afield, Dept. S, 959 Eighth Avenue, New York 19, N. Y.

## Former Resident Is Coffee Guest Here

The home of Mrs. Al Hallbauer of 1386 East Cardwell was the scene of a coffee Saturday morning honoring Mrs. W. C. Burrow of Wichita, Kan. Mrs. Burrow is a former resident of Brownfield.

A Christmas tree with white and red balls centered the table laid with a white linen cloth. The mantle was ornamented with green candles trimmed in silver. The honoree was given a Christmas corsage.

Mrs. Hallbauer and Mrs. Bur-

row greeted guests, and Mrs. Wayne Brown was at the silver tea service. Mrs. Ted Fox and Mrs. James Thurman also were hostesses.

Christmas cake and coffee were served to about 35 guests.

**Shop The NEWS For Your FALL and WINTER NEEDS**

**a Dog's Life**

by Bob Bartos  
Prominent Dog Authority

With fall approaching, your dog is preparing to grow a winter coat. You can speed up the growing of the new coat, if you'll just help it along.

For short, flat-haired dogs, use a hand glove, which is a mitt with short bristles on the palm.

side along with a metal comb with rounded teeth. Even a rub with your hand once a day, a rub with an old Turkish towel or a dry rubber sponge will make the fur fly.

For the wire-haired group you need a stripping knife, which is a special instrument available in any dog-ware store which removes dead hair and shortens and evens the rest.

You'll need a heavy comb with teeth set wide apart and a brush with long stiff bristles for long-haired dogs or those having heavily feathered legs and tail.

For any kind of grooming, stand your dog on a table. He'll be better behaved. Working stooped over, on all fours or cross-legged on the floor is not a million-to-one authoritative with a dog, and nobody knows this better than the dog.

Many dog owners, even those who groom their dog regularly, complain that their pet sheds all year round. This is a common problem with some house dogs. Ailing every ten days or two weeks with olive oil, lanolin or coconut oil helps. Rub any of them into the coat and rub out again with a heavy, coarse towel.

Feeding Tip: Dogs that get a certain amount of fat in their diets are less subject to skin diseases and year-round shedding. To make sure your pet is getting his quota of fat, feed him a top-grade, commercially prepared dog food such as Fishkin.

### LEGAL NOTICE

**CITATION BY PUBLICATION THE STATE OF TEXAS**

TO: BETTIE DUNCAN WILEY AND HER HUSBAND; JAMES A. DUNCAN; DONALD D. DUNCAN; AND DWYNE RILEY, DEFENDANTS.

YOU ARE HEREBY COMMANDED TO APPEAR before O. L. Stice, Lee Fulton and J. M. Teague, Jr., Special Commissioners appointed by the County Court of Terry County, Texas, to assess damages by reason of the construction, reconstruction, and opening of a County Farm-to-Market Road, upon, across and through certain real estate, at the office of the County Judge of Terry County, Texas, at Brownfield, Texas, on the 28th day of December, A. D. 1957, for a hearing to assess said damages fairly and impartially, as is more fully set out in Plaintiff's petition filed in said Court on the 30th day of October, A. D. 1957, in this cause, numbered 1048 on the docket of said Court and styled Terry County, Texas, Plaintiff vs. Bettie Duncan Wiley and her husband; James A. Duncan; Donald D. Duncan; and Dwyne Riley, Defendants.

A brief statement of the nature of this suit is as follows, to-wit: A suit to condemn land in the Northeast One-Fourth of Section 14, Block C-36, Terry County, Texas, for a County Farm-to-Market Road, and to assess damages therefor as is more fully shown by Plaintiff's petition on file in this suit.

If this citation is not served within 30 days after the date of its issuance, it shall be returned unserved.

The officer executing this writ shall promptly serve the same according to requirements of law and the mandates hereof, and make due return as the law directs.

ISSUED AND GIVEN UNDER OUR HANDS, this 5th day of November, A. D. 1957.

J. M. Teague, Jr.  
O. L. Stice  
Lee Fulton

### LEGAL NOTICE

A public hearing will be held in the County Court Room of the Terry County Courthouse, in Brownfield, Texas, at 10:00 A.M. on December 11, 1957, for discussing the improvements of the following highway projects:

- U.S. Highway 360 from Yousum-Terry County Line East approximately 6.0 Miles.
- U.S. Highway 62 from the end of the present divided highway south of Brownfield, southwest to F.M. Highway 396 in Wellman.

Highway Engineers will explain the location and proposed improvements and answer any questions concerning these projects.

All persons interested in these projects are invited to attend the meeting.

### REAL ESTATE FOR SALE

### Gomez News

Visiting in the home of Mr. and Mrs. H. N. Key, for several days the first of the week, were her brother, Will Minor, of Bethney, Okla. and his son, Royce Minor, of Corpus Christi. Minor is 86 years old and it is the first time he and Mrs. Key have seen each other in 17 years.

Mrs. Garvin Smyrl entertained Wednesday afternoon with a party honoring her son, Ronnie, on his 14 birthday.

The birthday cake served as table decorations. Party favors were candy and chewing gum. Refreshments of chicken salad sandwiches, Cokes and cake were served the honoree and friends attending.

Mrs. R. D. Jones of 704 East Reppie was hostess to the Gomez-Johnson Home Demonstration Club when members met in her home Friday afternoon for a regular meeting.

Mrs. Jones led the group in singing for the recreation period. Mrs. Wes Key presided over the business session. Roll call was answered with each telling "How much HD club work means to me."

Mrs. Key gave a report from the council meeting. Handmade inexpensive Christmas gifts were discussed and demonstrated by Mrs. Jones.

The annual Thanksgiving supper for the Gomez-Johnson HD Club was held Thursday night in the Party House at Brownfield.

Table decorations were pyracantha berries down the center of the table with low arrangements of bronze chrysanthemums. Ceramic turkeys completed the Thanksgiving theme.

Menu consisted of ham, candied yams, green beans, creamed potatoes, cranberry sauce, salad, hot rolls, coffee and pie. Games of "42" served as entertainment. Fifteen attended.

Mrs. Red Bell of California is here visiting in the home of her son, Mr. and Mrs. Tyler Martin.

Bill Schofield was able to go home Friday from the Treadaway-Daniell Hospital where he had been a patient following injuries received in a pickup-car accident in October.

Mrs. T. L. Nipp was hostess Friday afternoon to the Darcus Sunday School Class of the Gomez Baptist Church.

Mrs. T. Martin, president, was in charge of the meeting. Mrs. H. N. Key lead the opening prayer and brought the devotional. Group leaders gave monthly reports.

Mrs. Nipp conducted the recreational period. Plans were made for a Christmas supper to be held in December.

Refreshments of coffee and cookies were served to Mmes. Bill Blackstock, Wes Key, Loris Bramon, Martin, B. Stice, Denver Kelly and Miss Imogene Key.

### Luncheon Hostesses Will Be WSCS; Will Be Held on Friday

Methodist Church will be hostesses at a luncheon for Methodist District Conference meeting here Friday according to a vote taken when they met Monday afternoon.

Mrs. J. C. Criswell, president conducted the meeting and brought the devotional. Mrs. E. F. Latham spoke on "How to become better workers in offices we hold in the church."

Two families were adopted for the Christmas holidays. WSCS will see that they have food and presents.

There is nothing you can do to make a man believe something that he doesn't want to believe.

There will be friction in the United States as long as politicians promise minorities more than they can deliver.

The trouble with many individuals is that they worry too much about the sins of the other fellow.

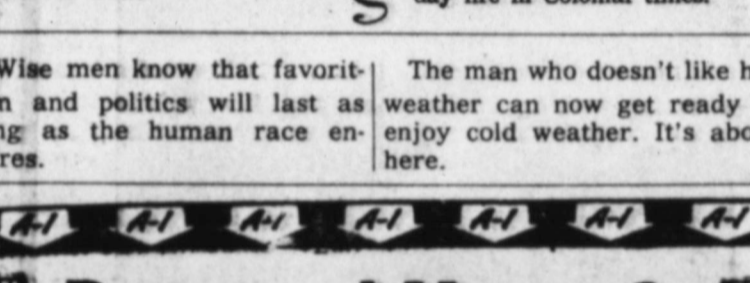

### Great Moments in Motoring

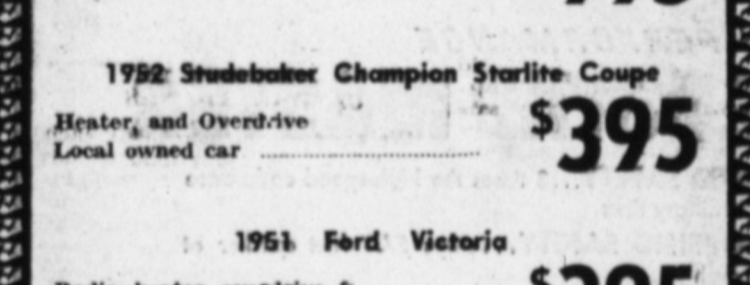

Smithsonian Institute, Washington, D. C. Priceless mementos from Charles A. Lindbergh's Spirit of St. Louis to the gowns our First Ladies wore—can be seen in this American treasure-house. In its six buildings are thousands of displays that mark our nation's progress, as well as art creations from around the world.

Monticello, Charlottesville, Va. Jefferson leveled the top of his pet "little mountain" and built his dream house there. "All my wishes end where I hope my days will end—at Monticello," he said. Beautiful grounds and the majestic home reflect the greatness and ingenuity of one of America's foremost statesmen.

Mystic Seaport, Conn. Even "landlubbers" are fascinated by this living replica of a typical New England seafaring community. The shops and lofts that line its cobble streets depict the actual conditions under which American seamen once lived. The training ship, Joseph Conrad and the Australia, oldest schooner afloat, find snug harbor here.

Old Sturbridge Village, Mass. An age of self-reliance is vividly portrayed in this painstakingly recreated village. Life there goes on exactly as it did more than 150 years ago, with the housewife at her churn and the blacksmith at his forge. The rebuilt Eighteenth Century homes and quaint shops provide a rewarding glimpse of everyday life in Colonial times.

Wise men know that favoritism and politics will last as long as the human race endures.

The man who doesn't like hot weather can now get ready to enjoy cold weather. It's about here.

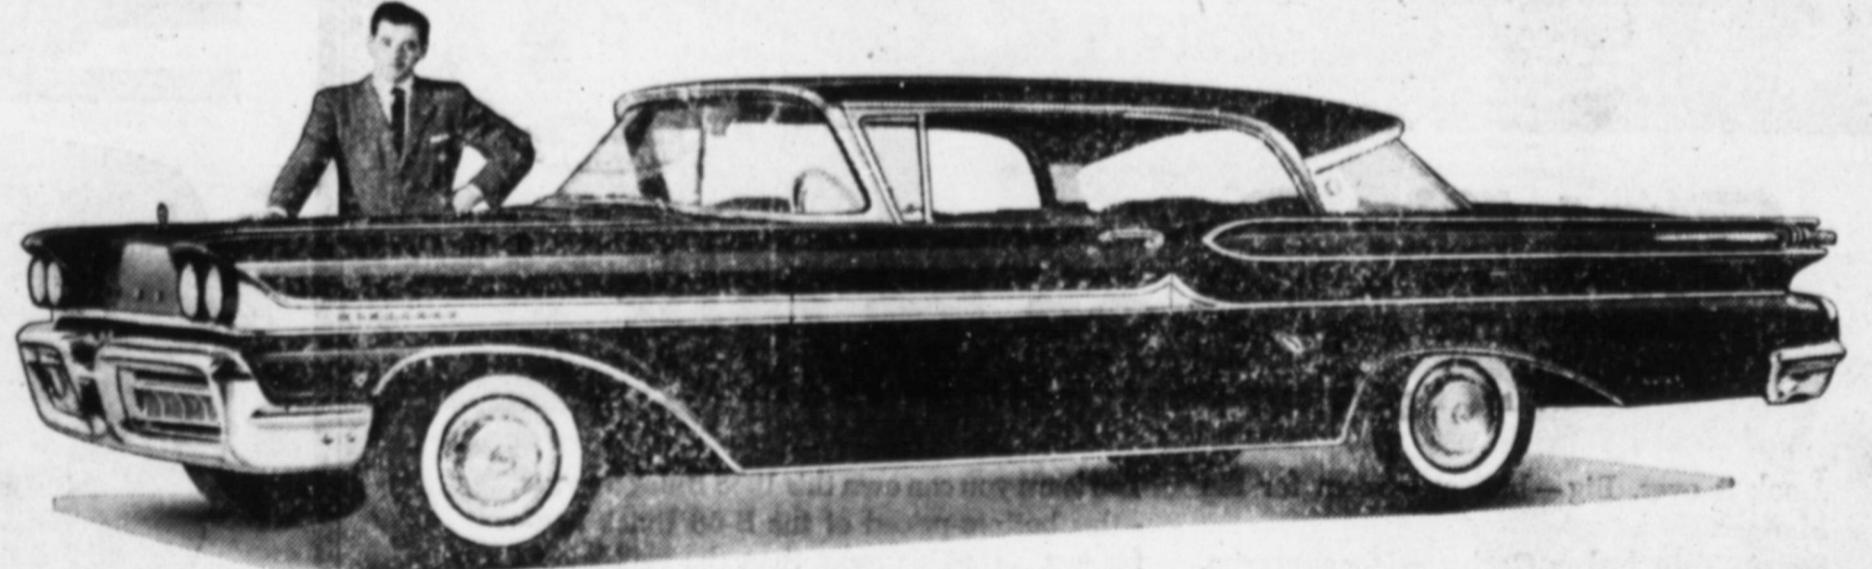

**ENOUGH SAID?** — Self-explanatory is the banner pictured above. A project of Brownfield Chamber of Commerce, the Christmas decoration was strung last week across Main street just off downtown. Two other major Chamber projects to emphasize the rapidly nearing Yule season are the giant Santa on north side of the courthouse square and the huge star atop the courthouse. Said Chamber manager: "With limited funds, we believe we have done our best. Our three Yule projects for the downtown business section are the best." (NEWSfoto)

## THE BIG M

**THIS IS OUR INVITATION TO YOU** to discover how little more it costs to own a new Mercury than one of the "low-price three." But what a big difference you enjoy in looks and road-holding size! What a big difference in value and prestige! For The Big M is the first car to bring you Sports-Car Spirit with Limousine Ride. Stop in today!

# SET YOURSELF FREE FROM THE "LOW-PRICE 3"!

This is the year to make the easy step up to The Big M. And what a wonderful new world of driving you'll discover. Mercury '58 gives you the road-gripping control of a sports car and the smooth, quiet ride of a luxury limousine. Mercury '58 stands beautifully apart from all others in appearance. It has the fresh, new straight-line design preferred by those who stay

ahead in style. And Mercury '58 offers you revolutionary new driving aids like the amazing Cool-Power Marauder engines, self-adjusting brakes, new Merc-O-Matic Keyboard Controls, new automatic power lubrication, a Speed-limit Safety Monitor and many, many more. All these can be yours in The Big M. Come in and pick your favorite, today.

## The 4-H Picture

By BOB ETHEREDGE

On Tuesday, a countywide Christmas party will be held for 4-H girls and boys who are 12 years old or younger, the event to be at 7:30 p.m., in The Party House.

The Tuesday gathering was decided at the last 4-H Council session, and plans are being made at this time for the event. The program is under the direction of the Junior High

Club, with Danny Thurman and Jane Williams as co-chairmen.

Several 4-H'ers have bought pigs this week, among them being Keith Pendergrass, who purchased a Berkshire barrow, Clyde Watkins, Yorkshire gilt, Jimmy Woodard, Yorkshire barrow and Berkshire gilt, Travis Emerson, Yorkshire barrow and Tony Emerson, Berkshire barrow.

All of these boys attend Wellman school and intend to exhibit in the April Jaycee show. I also noted that Tommy Pettigrew Jr., from West Ward 4-H, bought a Berkshire barrow and a Yorkshire barrow for the up-coming show.

The buying of swine for our annual county event seems to be getting under way with quite a bit of enthusiasm. If you need help in purchasing your swine, contact the coun-

ty agent's office.

The new county junior livestock show rules have just been approved by the Brownfield Jaycees. By checking the rules, you will note several changes from last year.

These changes were made with all the contestants interested in mind. We certainly feel that next year's show will be one of the best as far as quality of livestock is concerned.

Swine Division — 1. Weight limit, 180 to 240 pounds, 2. Only two to be shown and sold, 3. Show gilts and barrows as fat hog class, 4. Alvin Davis will present special award to grand champion swine, 5. Hogs will be shown by breeds if as many as five of that breed entered, 6. There will be a cross-breed section, 7. Any breed of hog may be entered, and

Eight. Hogs must be on feed by owner by Feb. 15, 9. A certificate of intent to show must be in hands of superintendent of show by Feb. 15, 10. Contestants must have proof of ownership if required, 11. All breeds must have definite breed characteristics to show in that class, and 12. All hogs must be graded U. S. No. 2 or better.

## MEADOW NEWS

Mrs. Ruby Dalton and Lonnie, Mrs. Roy Gober and Randy visited relatives in Post Monday.

Mr. and Mrs. Brock Gist of California are here visiting relatives, Johnny Bingham and Mrs. Jewell Bell. Mrs. Gist is a sister to Mrs. Bingham and also to the late Jewell Bell. Brock's dad was among Terry County's first set of commissioners serving precinct 2.

Mr. and Mrs. John Cadenhead spent Sunday in Lubbock visiting his mother and sister and her family.

Mr. and Mrs. Dale Fulford and daughter visited Mr. and Mrs. Ray Gober Sunday.

Mr. and Mrs. Joe Edwards and son, Jerry, of Clovis, N.M. spent the weekend in the home of her sister, Mrs. Ruby Dalton, and family and niece and family, Roy Gobers.

Mr. and Mrs. J. H. Gober spent the weekend in Hobbs N. M. visiting their daughter and family, the James Selmans.

and Mrs. Arthur Curtis. Sheeks came after them over the weekend.

Mrs. Idell Westbrook of Lubbock spent Thanksgiving in the home of her mother, Mrs. L. J. Carruth.

Arthur Curtis is in the Treadaway-Daniell Hospital after being injured Tuesday after-

noon while working on his combine.

Mr. and Mrs. Fred Hinson of Lubbock visited relatives here Sunday and attended church at the Baptist Church.

The man who disagrees with you is not necessarily an imbecile.

## Republican Committee Meets in Washington

The Republican National Committee will meet in Washington on December 6 "to obtain a frank appraisal of the status of the Republican party and its organization, it has been announced by Meade Alcorn, GOP national chairman.

These sessions will be closed to the press and the public.

The world would be a better place and more would be accomplished if we stopped talking about other people.

## Game Meats Need Proper Care, Says Extension Experts

Game meats, like domestic meats, are at their best when properly dressed and cooked, remind extension foods and nutrition specialists. The family judges meat chiefly by tenderness and flavor.

Natural tenderness of any meat is influenced by the kind of animal, age, finish of fatness, and cut. Tenderness as served depends upon natural tenderness and method of cooking.

Brownie Troop 147 and their leaders enjoyed a tour Nov. 21 through the local exchange. Brownies were Frances Parker, Martha Thomas, Marcia Adams, Lynda Mackey, Marcey Lynn Creamer, Susan Farrar, Sherry Timmons, Kay Fincannon and Cheryl Fincannon. Leaders are Mrs. Paul Farrar and Mrs. J. L. Fincannon.

Miss Mildred Flowers, secretary to Paul Farrar, our district manager, has completed a week's vacation at her home in Meadow.

Mrs. Reta Bailey, operator, attended a family reunion during the weekend at Wichita Kan.

Miss Marge Henderson, operator, attended the regional championship football game Thanksgiving Day in Plainview, the game being that between Matador and Whiteface.

Mrs. Tommy Lou Drewry, central office clerk, spent Thanksgiving with relatives in Smyer.

New voices heard over your telephone this week belong to Miss Wilma Dean Donaldson, Mrs. Betty Sessoms Ham, Miss Joyce Fern Roe, Mrs. Billie Holmes and Mrs. Winnie B. England.

Miss Peggy Tate of Nashville, Tenn., daughter of Mrs. Louise Tate, Western Division traffic assistant, is a member of the U.S. basketball team which won championship of the International Tournament in Rio de Janeiro, Brazil in October. This team defeated Russia, 51-48, in the finals to take the crown.

We are glad to report that Mrs. Evelyn Hopkins of 1312 East Repto is in good condition after major surgery last week. She is our local plant clerk.

"With General" invites each of our readers to visit our Brownfield Exchange and the Western Division offices. Please get in touch with our chief operator, Mrs. Johnnie Gauntt, who will be pleased to make necessary arrangements for your visit.

Carcasses of larger game animals are cut in much the same manner as beef carcasses and cuts are cooked by the same methods that are used for beef of a similar grade. As with beef, the loin cuts are most tender. Roasts and steaks from the loin can usually be cooked satisfactorily by dry heat. Moist heat is considered more satisfactory for the other cuts.

The loin will give the best roasts and steak (sirloin or porterhouse). Chuck and rump are good for pot roasts and ground meat. The round will make good steaks unless the animal is particularly tough. In this case, it can be ground or used as swiss steak. If the leg is small it may be roasted all in one piece in the manner of a leg of lamb. Shank, neck, flank and spareribs can be best used for soups, stews and ground meat.

Venison is a rather dry meat. Addition of suet, butter, or bacon fat when roasting, broiling or frying will improve this condition. The characteristic venison flavor is concentrated largely in the fat. The removal of the bulk of fat will make it less "gammy". Spices and herbs help to bring out its good flavor.

Most of the over-active civic workers know what they're doing. Your best friend is the one who will tell you the truth even if it hurts.

## Top Dressing Urged For Winter Forage

A topdressing of nitrogen fertilizer on fall-seeded small grain is a good way to add forage for livestock during fall and winter.

William F. Bennet, soils chemist for the Texas Agricultural Extension Service, says that nitrogen fertilizer is generally the main need for topdressing fall-seeded small grains, as there generally is ample moisture to put the nitrogen to work to produce additional plant growth.

The use of the right kind of fertilizer at the right time has provided dividends in most of Texas, he added. To determine the most efficient rate of nitrogen, or any fertilizer soil should be tested. However, on East Texas sandy soils and on the Gulf Coast Prairie application of about 30-40 pounds of nitrogen per acre in December or January or after each time the small grain forage has been grazed down is recommended when soil moisture is adequate, Bennet said.

## Federal School Bill Is Pigeonholed By House

Federal aid for school construction, turned down twice by Congress in the last two years, has been quietly ticketed for a House committee pigeonholed at the coming session of Congress.

## Cosmetic Purchases Show Sharp Increase

American women — with a big assist from men — are expected to shell out some 1 1/2 billion dollars this year for cosmetics and toiletries. This total has doubled within the last ten years.

## Good Soil Management and Cropping Systems Root of Prosperous Agriculture

Good soil management practices and well adapted cropping systems are the basis for a long continued and prosperous agriculture. Those who depend on the soil for livelihood are likely to become too careless with this main resource, and this can prove costly, warns Terry Soil Conservation Specialists.

The physical condition of soil is of much importance in crop production, says Barton. Physical properties can be controlled by good use of crop residues, crop rotations, green

manure and cover crops and barnyard manure.

A deep, moderately porous soil should be maintained, rather than one that is too tight and hard to work or the other extreme, too porous.

Organic matter is of prime importance in keeping soil in good physical condition, points out the specialist. It insures a good population of beneficial soil bacteria, aids in water penetration, increases the water-holding capacity of the soil, improves soil structure and

### New Look Hair-do Is Blissfully Easy!

adds nitrogen and humus.

Texas soils are likely to be deficient in nitrogen, phosphorus, potash and lime, so in many instances fertilization is necessary to insure maximum yields. The addition of these essential plant nutrients can result in much higher production. A soil test is helpful in determining the proper amounts that are needed.

Crop rotations can play an important role in improving soil productivity, and legume or grass should be included in the rotation program, he says. The legume will add nitrogen to the soil and both the legume

and grass can be a good source of organic matter and grazing. Naturally, grazing would take away some of the organic matter, he adds.

Almost every farm operator follows a plan, though sometimes unconscious of the fact, points out Barton. The choice of a good or poor plan is up to the operator. His choice can mean the difference between a profit or loss.

## Farmers Warned To Rid Fences Of Trees And Brush

Worthless trees and brush along fence rows rob crops of valuable moisture and soil nutrients resulting in loss of production and lower profits for the farmer, warns G. O. Hoffman, extension range specialist.

Trees have wide spreading roots that may reach out 100 feet from the tree trunk, says Hoffman. These sapping roots rob moisture from crops and during a dry year can reduce yield on a 50 to 100 foot wide band around the field.

During a wet year the damage is not so great because there is usually enough moisture for all plants.

Winter is a good time to chemically treat fence row brush, points out the specialist. Usually this is a slack season for labor, leaves are shed from the trees and weeds are dead, and it is possible to get closer to the tree, thus a better job can be done. Too, there are few susceptible broad-leaf plants growing at this time of the year which might be damaged by the chemical.

Hoffman says that an ax, a handsprayer, 2, 4, 5-T chemical and diesel oil are all the equipment and materials needed to kill fence row brush.

Mix one pound of the 2, 4, 5-T liquid chemical in six gallons of diesel oil and pour the chemical solution in the handsprayer. On trees less than five inches in diameter apply the solution to the lower 12 inches of the tree trunk allowing it to run down the bark channels to the crown. Chemical solution around the crown prevents resprouting.

## Top 12 Businesses Show Big Profits This Year

At the three-quarter mark of 1957, all but one of the twelve top money-makers of big business report that profits are running well ahead of the nine-month figures for 1956. General Motors was the only one of the top twelve among nonfinancial corporations to show lower nine-month figures than a year ago.

The other eleven are: Jersey Standard Oil, Bell Telephone System, Gulf Oil, Du Pont, The Texas Company, Ford Motor, Chrysler, California, Standard Oil, Socony Mobil Oil, General Electric and Bethlehem Steel.

## Sarnoff Says Cold War To End in Five Years

The time for victory in the cold war is running out under pressure of Soviet success in weapon technology, says Industrialist David Sarnoff.

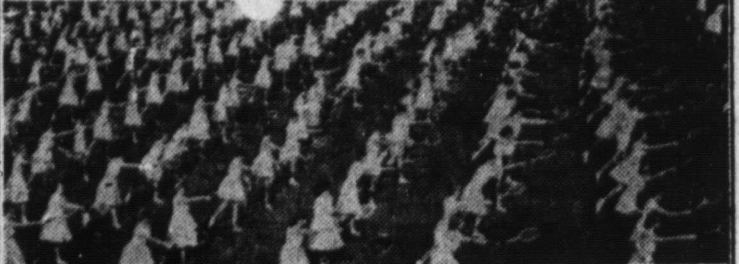

He believes that it is only a matter of time — "within five years and possibly sooner." — that both Russia and the United States will have mass production of the transoceanic missiles, and then will come "dreadful parity."

On trees more than five inches in diameter, a frill should be made near the ground line with the ax. Apply enough solution in the frill to make it bubble out of the cuts. If the tree is cut off, apply the solution to the freshly cut stump allowing it to run down to the crown.

A thorough application of the chemical solution is necessary for best results, advises Hoffman. "But don't apply the solution during a high wind," he warns. The cost of killing a five inch tree is about two cents.

## People, Spots In The News

**TUNING UP**—Hundreds of Australian school children swing tennis racquets in unison at White City stadium during exhibition of "Strokemaking to Music" at opening of Tennis Week in Sydney. (Tennis, everyone?)

**FIRST BABY** rhino born in British Isles, weighing a mere 85 pounds, isn't at all bashful and, as rhinos go, is quite good looking. Proud mom, Mohini, hails from India.

**NEAT JOB**—Long-distance swimming champ Sally Berg, trowel in all, installs gleaming ceramic tile in Miami Beach's new Carillon Hotel. Comely "tilesetter" will supervise pool activities.

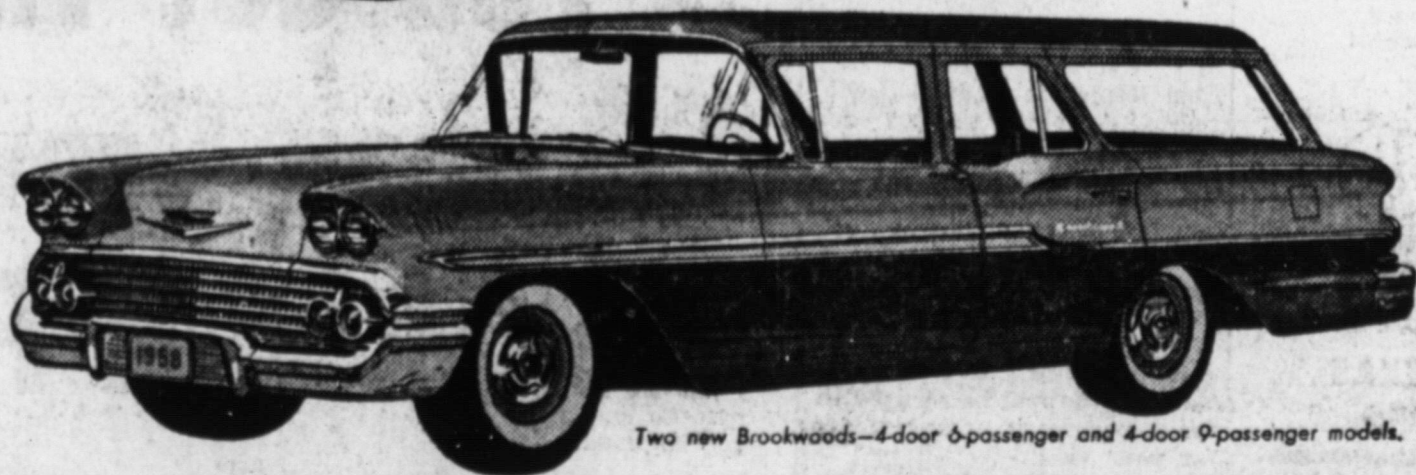

**JOURNEY'S END**—Mighty battleship Wisconsin enters New York harbor on last voyage before joining mothball fleet. Retirement of 45,000-ton vessel leaves nation without a battleship for first time since 1886.

AIR CONDITIONING—TEMPERATURES MADE TO ORDER—AT NEW LOW COST. GET A DEMONSTRATION!

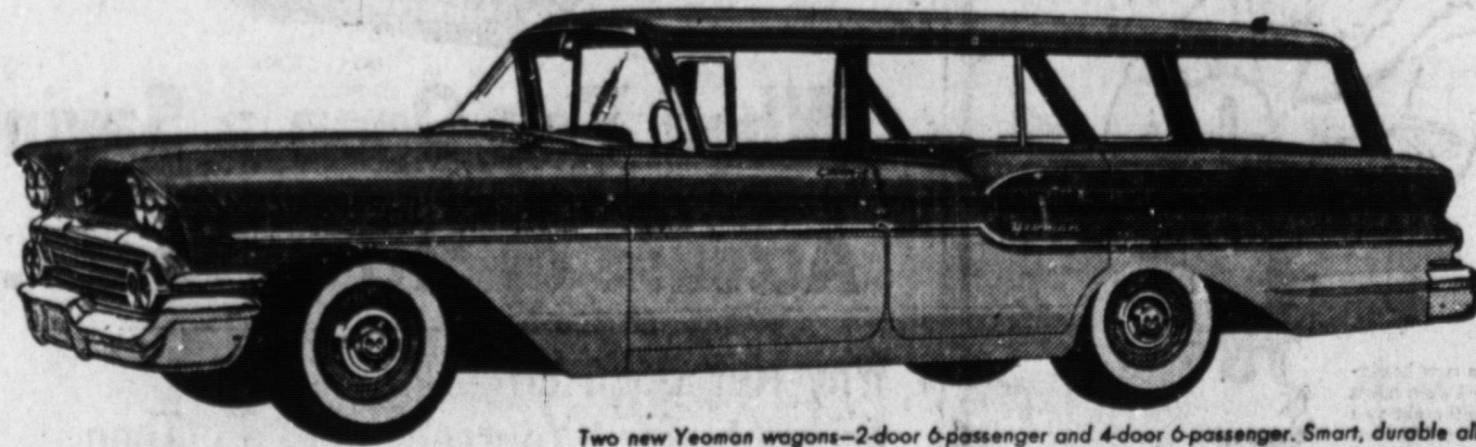

The new Nomad—the last word in station wagon style and distinction... 4-door 6-passenger.

Two new Brookwoods—4-door 6-passenger and 4-door 9-passenger models.

# CHEVROLET SETS A NEW STYLE IN STATION WAGONS!

Two new Yeoman wagons—2-door 6-passenger and 4-door 6-passenger. Smart, durable all-vinyl interiors.

Wonderful's the word for Chevrolet's five new station wagons! They're boldly beautiful with new length and lozenge, new sculptured grace. They're boldly engineered with new ideas that make loading easier, riding smoother, driving happier.

Meet the year's smartest station wagon set—Chevrolet's five new wagons for '58.

They're more than nine inches longer, dramatically lower. The liftgate is hinged into the roof and raises completely out of the way for easier loading. Safety plate glass in all windows gives you crystal-clear visibility.

No station wagon built ever carried

loads with more ease or passengers with more comfort! Chevrolet's new standard Full Coil suspension cradles you on deep coil springs at every wheel. And you can have a real air ride as an extra-cost option.

You can choose from two- or four-door, six- or nine-passenger models with livelier V8 or 6 engines. Stop by your Chevrolet dealer's and look over the year's smartest wagons.
