By CHARLIE MAPLE  
NEWS Staff Writer  
ABILENE, Jan. 23 — West Texas needs to create an atmosphere and generally strong interest in basic research to attract industry, said Dr. Sylvan J. Kaplan, coordinator of research at Texas Tech. at a West Texas Chamber of Commerce meeting here today.

ed the fifth annual conclave despite snow and rain that hampered travel. Dr. Kaplan said, "West Texas has come from a simple existence to a complex economy and way of life in a short period of time. Today's apparent need is to improve this way of life."

He underlined his remarks by showing a film about the steps a small Georgia town took to get a factory. He noted that a large concern is not necessary. "A factory with a payroll of only \$2,000 a week adds up to more than \$100,000 per year."

**FOR NEWSPAPER ADVERTISING POSITION**  
**Special Support Definitely Not Needed**

By WELDON CALLAWAY

Occasionally one of our advertisers requests that we print his advertisement on a certain page.  
Such requests are made in the hope that other content on a favored page will draw more readers to an advertisement. Although most newspapers will honor a position request when possible, there is little evidence that advertising needs special support.  
Readership research of newspapers has shown that interesting retail advertising will be seen and read regardless of its position in the newspaper. In fact, readership studies of more than two hundred newspapers show that a local retail advertisement nearly always attracts more readers than other items of comparable size on any page.

Newspaper advertising holds the unique position of being one form of advertising which the public regards as a positive and valuable service.  
For instance, two University of Michigan sociologists conducted a study in Detroit to determine what parts of the newspaper had been most missed during a strike which closed down all newspapers in the city.

The study indicated that advertising was missed more than such features as comics, sports, society — in fact more than anything except current news.  
“Obtaining basic information on who is selling what, at what price, and when, is a very important function of the newspaper, and one which other mass media can not easily fulfill. Moreover, our data indicates that, advertising in the paper is mentioned almost as

frequently by men as by women as something missed during the strike,” the scientists reported.  
They concluded that no medium can provide a substitute for newspaper advertising.

**Brownfield Sailors Back in San Diego**

Two Brownfield sailors returned Jan. 9 to San Diego aboard the destroyer USS Buck after nearly six months in the southern and western Pacific.  
They were Windell L. McWilliams, machinist's mate second class, son of Mr. and Mrs. William B. McWilliams of 1006 South Sixth, and Reddith D. Neugent, fireman, son of Mr. and Mrs. Hubert S. Neugent of 711 South Second.  
During the cruise the Buck

participated in fleet carrier operations day and night and took part in the Formosa Straits Patrol.

**LEGAL NOTICE**

**NOTICE TO BIDDERS**  
**TERRY COUNTY ROAD IMPROVEMENTS 1958**  
Sealed proposals addressed to the Commissioners Court, Terry County Texas Courthouse, Brownfield, Texas, will be received until Jan. 27, 1958, in the office of the County Judge and on the same day publicly opened and read.  
The work for which tenders are invited consists of grading existing roadway, shaping ditches, caliche base, double penetration asphalt paving and laying culverts. The total length of the proposed 1,004 miles. Location of said project P-58-18 is as shown on the face sheet of the plans. Details of construction and complete schedule of quantities thereof may be obtained by consulting plans and specifications and contract documents on file in the County Clerk's office, Terry County Courthouse, Brownfield, Texas. Copies of the plans and specifications may be obtained at the office of the Engineers, Howard A. Schmieding and Associates, 411 Main, Fortales, New Mexico, by making payment to the Engineers in the sum of \$5.00 per set.  
Payment to the Contractor will be in cash on monthly estimate basis. Bidders are cautioned to bid a balanced bid, i. e. each stipulated unit price to carry its own profit. Limit of cash funds available may make it necessary to reduce final construction proposal quantities on some or all items for the project.  
Bidders must bid complete the project proposal forms and submit a total bid for this project. All proposals must be made on regular forms furnished by the Engineers in the contract documents, and shall be in a sealed envelope addressed to the Terry County Commissioners Court, Courthouse, Brownfield, Texas.  
All bidders must submit cashier's or certified check issued by a bank satisfactory to the Commissioners Court, or a proposal bond given by a reliable surety company authorized to do business in the State of Texas, payable without recourse to the order of Herbert Cheshir, County Judge, in an amount not less than 5 per cent of the amount of the proposal bid as a guarantee that the bidder will enter into a contract under the conditions set forth in the plans and specifications and execute performance bond within ten days after notice of awarding of contract to him. Bids without proposal bond or proposal bond will not be considered.  
The successful bidder must furnish a good and sufficient performance bond in an amount not less than 100 per cent of the contract price, conditioned upon the actual performance of the contract and upon the payment of all persons performing labor or furnishing materials, executed by

a surety company authorized to do business in the State of Texas, in accordance with the provisions of Article 5159A, Revised Civil Statutes of 1925, as amended.  
Bidders are expected to inspect the site of the work and to inform themselves regarding all local conditions.  
Attention is called to the fact that this is a "Public Work" project as defined in Chapter 45, Acts of the Forty-third Legislature, and Chapter 259, Acts of the Forty-fourth Legislature of the State of Texas, and as such is subject to the provisions of said laws.  
The County reserves the right to reject any and all bids and to waive all formalities.  
No bid may be withdrawn for at least thirty (30) days after the scheduled closing time for receipt of bids.  
HERBERT CHESHIR  
County Judge  
Terry County, Texas

## The Farmer's Wife

By ROSE JEAN HENSON

Politics is a term with many meanings and diverse connotations, referring to the art of statecraft, to the science of government and to the technique of the politician. Such definitions include the practice of the highest forms of leadership by statesmen to the demagoguery of the politician and to the manipulation of political bosses.

Politics has been defined as "the art of achieving results in terms of control over man's behavior." "a study of influence and the influential or who gets what, when and how."

George Bernard Shaw once said, "The politician who once had to learn how to flatter kings, has now to learn how to fascinate, amuse, coax, humbug, frighten, or otherwise strike the fancy of the voter." His statement probably contains the instantaneous thinking of most of us. We usually think of a politician as one who possess one or more of the qualities which Mr. Shaw mentioned.

However, in a literal sense that is not always true. We should never confuse our thinking by placing a politician and a statesman in the same category. They are entirely different though a statement as such, of necessity, must at all times deal with politics.

Our own congressman, the Honorable George Mahon, is in my opinion a statesman of the highest calibre and yet he is involved with politics every day. Then there are numerous others whose names I will not mention who are nothing short of a politician of the lowest order. This type of individual is the very reason you and I should pay our poll tax to say nothing of letting your voice be known in the affairs of our time.

Mrs. Earl Layman was installed as Mother Advisor in the same ceremony. Sue's theme was purity and color was white.

**PARTIES**  
Following the Kermit game, there was a party at The Party House. This party broke the record, as far as attendance goes. Hostesses were: Mrs. Mike Barrett, Mrs. Leonard Chesshir, Mrs. George Germany, and Mrs. J. O. Rodgers.

The following night, the Youth Center was active with Coy and Dixie Jones sponsoring at The Party House. After the Monahans game Jan. 24, there were two parties. One at The Party House for all to attend, and a slumber party for F.H.A. girls at Glenna Blake's home.

Dean Eubank, the new president of M.Y.F. gave a party at his home Tuesday night. All M.Y.F. members and their guests attended. Baptist Training Union party was held on the same night. Games were enjoyed by those present.

## Loboes Rap Cubs, 57-42, in 2-AAA Tilt Played Here Friday

The Cubs, suffering from a frigid first quarter, dropped a District 2-AAA tilt 57-42 to the Monahans Loboes here Friday.

The visitors jumped to a 22-6 first period lead on the strength of Jimmy Muldrow's hook-shooting and Mike Kunstadt's jump shots. Brownfield connected only one time from the field, an under-the-basket jump shot by Kenneth Casor mid-way in the quarter.

The tempo stepped up in the second period as the Cubs, within striking distance, made jump shots by Charles Jones. Monahans held a 36-19 lead at the half.

**Cubs Find Range**  
Monahans' tight zone defense again stopped the Cub offense. The Loboes hit a sizzling 60 per cent of their shots the first half and wound up with a 44 per cent average for the night. The Cubs meshed only 25 per cent for the night after a frigid 10 per cent first half.

Kunstadt and Lee tied for scoring honors with 15 counters. Muldrow canned 13 points before fouling out in the third period. The Loboes also took the "B" game, 46-45. Leon Clark led scores with 20 points.

## KERN TIPS TO SPEAK MONDAY

### Tech Stadium Meet is Slated

"Texas Tech Goes Big Time" will be discussed by Kern Tips, "Mr. Football" of Southwest Conference sportscasters, at a barbecue dinner and program sponsored by the Tech stadium expansion committee.

The dinner, to begin in the old gymnasium at 6:30 p.m. Monday, will be followed by a program in the recently completed gym. Included will be trampolining, badminton, swimming and diving exhibitions.

"The program," explains Charles Maedgen Jr., director of the campaign, "will be aimed at explaining the school's expansion plans—there will not be any solicitation."

Waggoner Carr, speaker of the Texas House of Representatives, will emcee the event, scheduled from 7:30 p.m. to 8:30 p.m.

The dinner will be prepared and served by Lubbock Lions

Club. No charge will be made for the meal.

### Rev. Denison Named To Cuban Mission

The Rev. Dallas D. Denison, superintendent of Brownfield District of Northwest Texas Methodist Conference, has been selected as one of 125 Methodist ministers in the U.S. to go to Cuba for special mission work.

Selection was made by General Board of Evangelism and General Board of Missions of Methodist Churches of U.S.A. The Rev. Mr. Denison left Saturday for Miami, Fla., where he will receive his assignment Jan. 28. The ministers will be flown to Cuba. Their preaching there will be done through an interpreter. The evangelistic work will continue through Feb. 7.

### MUST NOT HAPPEN IN ATOMIC FIELD

#### History Shows U. S. Often Fails To Exploit Achievements

Looking back over history, it will be found that the United States sent the first steam-powered ship across the Atlantic in 1819. The ship was the Savannah.

The lesson to be learned from a study of history, however, is that we did not follow up our initiative and achievement in launching the Savannah.

In fact, because the Savannah's operation was inefficient — and any new type of transportation could be expected to be — we turned our attention to the Clipper ships.

For a time, the Clipper ships gave the United States a superiority in maritime trade in the North Atlantic but, by the middle of the Nineteenth century, we lost that superiority to Great Britain, and the British have dominated the field of merchant shipping ever since.

What allowed Britain to replace the United States? It was the fact that the British learned a lesson in our introduction of the steam-powered ship.

While they lost somewhat in the beginning in the transition period to steam-powered ships, they more than made up for it when the more modern types began to become efficient and

more economical.

The suggestion that the first atomic-powered merchant ship built in this country be named the Savannah has been accepted. This is a logical step and may help us to remember the lesson to be learned in viewing our record concerning it.

It would be in the best interests of this country for the Government to encourage the construction of atomic-powered ships, even if a limited program of subsidies were required, in order to give the United States a modern merchant marine.

Such a program could even be justified on security grounds, for more speed and greater endurance is needed and is a valuable asset in wartime in merchant ships.

Four million Americans flew abroad last year . . . which vividly shows the rise in volume in air transportation, and reflects the prosperity of the U.S.A.

Speeding automobiles carry you fast, where you want to go, and sometimes they carry you faster than you do not want to go.

### THE AMERICAN WAY

#### JOB FOR AMERICAN INDUSTRY

By George Peck

EDITOR'S NOTE: George Peck is President of the Laymen's National Committee, sponsor of National Sunday School and Bible Weeks.

During World War II, a distinguished, internally-minded economist of German birth, said: "History will record America's industrial achievement as the outstanding miracle of the war."

No truer prophecy ever has been made. American factories were the one bright spot in the rather dismal picture that existed in the months following Pearl Harbor. Asked to do the almost impossible, America's industries not only met the challenge, but exceeded it. Commenting on this miracle of production, the top executive of one of the nation's leading industries, gave forth as follows: "But you ain't seen nothin' yet."

Here was another prophecy, couched in American slang, that came to pass. American industry went on to even greater miracles of performance.

And what made this possible? Why were our factories able to turn from peacetime production to war production almost more quickly than you could say "Adolph Hitler."

There is only one answer to those questions. It was possible because of our American Capitalistic System of Competitive, Free Enterprise, under which a resourceful management force had been trained to think and plan so as to be able to cope with an emergency that might present itself. These men operating under an economic system that allowed them to galvanize that training, thinking and planning into quick action, were ready to jump into the breach when the Japs made their unexpected, unprovoked and sneaky assault upon Pearl Harbor.

Previously, many of these industrial executives had been held up to ridicule and subjected to unwarranted persecution by the "planning boys" who infested our nation's capital. But now, they were summoned to Washington to take over the nation's war production. In America's hour of need, these "Economic Royal-

ceivers" were given the consideration by the judge when he is placing the animals. All the grooming is or the wool and the judge will be placing the lambs on the carcass qualities that is beneath the wool.

He will be looking for a lamb that has good conformation and is carrying a high degree of finish and firmness.

Some of the lambs in our county show will be well finished and others will probably be lacking in that department. Our feeders are also learning that all lambs do not put on the kind of gain that they heard about.

**Weighed 76 Pounds**  
Two lambs have been weighed three times. The first weighing was on October 26th when the lambs were brought in from San Angelo. On that day Ricky Elmore got a lamb that weighed 76 pounds and Larry Coffman got one that weighed 72 pounds. The next time these two lambs were weighed was on November 16th and during that 21 days Ricky's lamb had lost six pounds while Larry's had gained eight pounds. This is no reflection on the boys who are feeding but it is an example of how different animal will respond to feeding conditions.

Both of these lambs are in See No. 6 Page 6

Texas Press Association  
AUSTIN—Pay your poll tax! Pay your poll tax! Pay your poll tax!

That's the cry from all corners as individuals and groups begin their campaigns for support in the upcoming 1958 elections.

AFL-CIO and strong labor committees are making a vigorous drive to get union members to pay the \$1.75 right-to-vote tax, and become eligible to put labor in the saddle in Texas government.

Gov. Price Daniel is urging all Texans to get that poll tax receipt now, before the Jan. 31 deadline.

Says the Governor, "Bad public officials are elected by good citizens who do not vote. I urge every Texan who loves this State and believes in majority rule to pay his poll tax and take an active part this year in the fight for constitutional government of, by and for the people." He emphasized that "minority groups should not be allowed to take over

financial compensation. They undertook a thankless task to direct our all-out war production, in a messy environment that was distasteful to them.

Despite the fact that the Bureaucaud did not give them an entirely free hand, but hampered them with unreasonable restrictions and red tape, Donald Nelson and Company did a magnificent job. They were faced with shortages of material, but as rapidly as those shortages reared their ugly heads, they met the issues with the aid of the men who were directing production in the factories. And right tribute should be paid to the workers in those factories, who also gave of their best on the production lines.

It is our American privilege to grumble. Mistakes were made, but they were quick-

We owe a debt of gratitude to Donald Nelson and other patriotic businessmen, who for the duration of World War II relinquished all thought of personal gain; disrupted their family lives; worked not only 40 hours a week, but often 70 to 80 hours, without adequate

These events in the news are regarded as part of the pre-

Also busy contacting eligible voters are the State Democratic Executive Committee, headed by Jim Lindsey of Texarkana and Jake Pickle of Austin. Equally active is the DOT, whose chief spokesman is Mrs. Frankie Randolph of Houston. Aiding her are Alex Dickie of Denton, Creekmore Fath of Austin, AFL-CIO heads, and NAACP leaders.

"It looks like a country folks-city battle," said one observer. "With labor determined to swing the big cities, the final decision may rest in the hands of the multitude of smaller Texas towns and the rural folks. Usually they can be depended upon to vote, rain or shine."

**POLITICKING IS ON** — By tradition, the opening of the red bud in East Texas is a sort of starting gun for politicking.

Some seasoned campaigners regard an announcement before red bud time as a farmer would look on planting before the last frost. But for politicking or farming, there has to be some fence mending, tool sharpening, seed buying and ground ploughing before planting time.

Hence, this January, though the air is still frosty, Texas politicians are preparing the ground for a hope-for harvest of votes next summer. In Austin every move by a person in public life is interpreted as tool sharpening.

campaign cultivation:

**INTEGRITY AND ECONOMY** in state departments will be emphasized in 1958, said Gov. Price Daniel in a speech kicking off his second year as chief executive — and the year in which he is expected to seek re-election.

Speaking to some 200 state officials, Daniel asked them to be responsible in their departments for strict compliance with reform laws passed last year. He said two types of people can undermine public confidence in Texas' 56,000 officials and employees — a "very few" wrongdoers and "self-seeking demagogues" who capitalize on the scandals.

He's not ready to sing bankruptcy blues, said the governor, referring to predictions that the state treasury would be in the red by 1959. Nor is he yet convinced, he said, that new taxes will be necessary next year.

But he urged department heads to keep a sharp eye on expenses and offered services of his budget staff to officials needing help in dollar stretching.

**DEMOCRATIC PARTY CONTROL** is expected to be a hotter issue this year than most campaigns for Capitol posts.

Stage is set for the first round of customary shin-kicking and name-calling at the State Democratic Executive Committee meeting here Feb. 1. SDEC is largely made up of conservatives favorable to Governor Daniel. Their critics and opponents are the Democrats of Texas, a liberal group which contends its partisans were in the majority at the last state convention, but were unfairly squeezed out of party posts.

Some of the 4-H club members who are feeding lambs are finding out that there is a great deal of work involved in getting a lamb ready for a show.

Last Saturday January 11 was the first day set aside for grooming lambs. Nine of the boys brought their lambs to the Exhibit Building in Plains and worked on each lamb for two or three hours. These lambs are now wearing burlap blankets and they will continue to wear them until the showing is over.

With 30 lambs on feed, it will take at least two more days to get them shaped up and then each lamb will need only a light working before going into the show ring.

### "Down Wellman Way"

Hi, there! Due to several changes in our spring schedule, everyone has been meeting himself "coming and going." It seems the average student will have to work harder, as there is a new emphasis on the major subjects.

Report cards were given out Wednesday, and there were a few faces around Wellman High that were very gloomy. Better luck next time!

Last Monday, the Juniors and Seniors held class meetings to discuss the Junior-Senior Banquet. Date for the banquet has been set for March 28.

Eight students from Wellman High will participate on a panel discussion, Jan. 30, at PTA meeting. "How To Improve Our School," is theme for the discussion.

A new course will be offered WHS this spring. Spanish will be taught by Green, and this course is open to students of all classes.

We were happy to hear that James Pendergrass's father is improving, and will be allowed to come home sometime in

March. Pendergrass has been in the Methodist Hospital for the past two months.

Several women of the community are having a bridal shower for Margaret Ingram. A light Thursday afternoon, Jan. 30, Margaret is a senior at WHS.

We are glad to welcome several new students to WHS. They are Mary Helen King, Deryl King, and Melvin Jenkins.

Anna Lee Morton, Sammie Adair, and Ann O'Connell were co-hostesses for a T.V. Party last Saturday night at the Morton's house. Late supper and snacks were served while everyone watched T.V.

Jerry Carmichael is home for a visit, after completing his first semester of work at the University of Texas.

Mr. and Mrs. Bill Moreman are visiting the Alton Loe family this week.

The P. C. Goza family is looking forward to seeing Charles, who is a student at Hardin-Simmons.

Phillip Edwards of Lubbock visited his aunt, Mrs. J. D. Akers, over the weekend. She is coaching him in preparation for mid-term tests at Lubbock.

Billy Ray Harlan of Grants, N.M., visited in the home of Mr. and Mrs. E. C. Harlan over the weekend.

Ann Baker was hostess for a slumber party last week at her home. Those attending were Sue Harlan and Georgia Faught.

Mr. and Mrs. Norvel Hulse and family, and Trucene Crowder visited the Jack Wences in Sudan over the weekend.

### Albert Johnsons Have Overnight Guests Here

Mrs. J. Howard Samuel of Abilene and Mrs. Robert Brumal of Borger were overnight guests Wednesday in the home of Mr. and Mrs. Albert Johnson of 805 East Lons.

The two women took part here in a business meeting of Women's Auxiliary, District of North Texas, Episcopal Church.

### Meadow Bounces New Home in Three Tiits Played Friday

Meadow's Broncos downed the New Home Leopards at home Friday, 48-30, in a District 7-B clash. The victory was Meadow's third in a row in conference action.

In the girls' contest, Meadow beat New Home, 51-35, as Linda Hendricks hit 27 points, canning 17 of 20 free throw attempts. Betty Eubanks added 11. Virginia Renfro led New Home with 21 points.

The Meadow B-team girls nudged the New Home B-team girls, 23-22, in the first game. Clara Duncan led the host girls with 14 points.

Jimmy Pendergrass and Donnie Hester each hit 11 points for Meadow, while Don Warren had 10. Poer had six points for New Home.

Meadow's boys and girls have 3-0 records in conference play.

Next game on the ledger is against the Whiteface Antelopes at Whiteface Tuesday night in a District 7-B game.

### Feed Grain Prices Expected To Drop Following Big Crop

Feed grain prices probably will average much lower in the marketing year ending Oct. 1, 1958, than for the same period in 1957-58, according to John G. McHaney, extension economist.

This prediction, he says, is based on lower 1957 support prices, a large 1957 crop and the large supplies already on hand.

Because of record feed crops in 1957, the total feed concentrate supply has increased to a new record of 213 million tons for 1957-58. The utilization of feed concentrates during the present season is expected to be three million tons larger than last year.

But the supply is large enough to take care of this increase and still boost carryover stocks another 10 million tons at the close of the 1957-58 marketing year, says the economist.

The corn supply is estimated at 4,663 million bushels—another new record. Experts are expected to continue heavy but total utilization will be a little smaller than last year. As a result, the carryover at the end of the present marketing year will be larger — maybe 100 million bushels larger — than last year.

towns planning to organize a foundation should keep its goal in sight. "The only reason for a foundation is to collect money and invest it in real estate or loans with an eye toward enticing industry to the town," he said. The afternoon session closed with a discussion of West Texas' industrial resources by Dr. John T. Lonsdale, director of Texas University's bureau of economic geology, and a panel discussion on "Processing

Agricultural Products." J. C. Porter, assistant vice president of First National Bank of Wichita Falls, presided over the panel. Other members were C. B. Senter, agricultural agent for Texas and Pacific Railway; J. L. Ward, electric engineer for Texas Electric Service Company, and C. B. Spencer of Texas Cottonseed Crushers Association. **Munday Bounces Back** Porter highlighted the discussion by pointing out the importance of an ever-expanding agricultural economy. Munday bounced back into the agricultural economic picture through vegetable diversification after it began to die as a one-crop town.

The one-day meeting aimed discussions at showing how the individual town could better its present status through industrialization—both in manufacturing, and agricultural products.

Dr. Kaplan injected hope for an even brighter economic future for West Texas in his opening talk.

"If West Texas can generate a strong interest in fundamental research—and Texas Tech already has begun to do this—industry will be inclined to get near to us," he said.

ped clubhouses in this part of the country. Two chandeliers were given by MAMC in appreciation of their four remaining charter members: Mrs. J. L. Randal, the only member with an unbroken record; Mrs. W. A. Bell, the late Mrs. Dora Smith, passed away this month, and Mrs. W. G. Hardin, now an honorary member of the club.

The Delphian Study Club has since joined in the operation, and the governing body is made up of three members and a president from each of the three clubs. A board member serves three years with each club electing one new member annually.

Those serving on the board at present are Mmes. Ed Wilder, president; Claud Buchanan, secretary; M. G. Tarpley; Winger; E. F. Latham; O. R. Larner; Grady Goodpasture; Fred Smith; Tommy Hicks; K. D. Snedeker; W. T. Pickett, and W. P. Norris. The renting of Seleta Jane Brownfield Clubhouse to other organizations and groups has been an asset, not only to Brownfield but to the county.

Strange as it may seem, Maids and Matrons still find themselves without a place to meet, on occasion. With bookings months in advance. Well... you can see how it goes. But thanks to the dreams of Maids and Matrons.

Initial meeting for members of Brownfield's ground observatory post at 7:30 p.m., Tuesday in Fire Station. An important post here.

are in senior high school here, they want to be in the church's senior high department.

Mrs. Pemberton went on to say that sixth graders, who are in junior high school here, are not allowed to wear junior high uniforms by the National Council of Girl Scouts. "Of course this makes sixth grade students unhappy," she said.

Push Poll Taxes "We also think pushing sixth grade youngsters into junior high school tends to add to the juvenile delinquency problem," she added. "Sixth graders are thrown in with 13 and 14-year-olds, unprepared for the problems they will face."

The group will sell poll tax receipts in Piggly-Wiggly and Furr's grocery stores Tuesday in an effort to "get more residents to pay their tax and vote in the upcoming election," said Mrs. Pemberton.

Mrs. Pemberton urged parents and other interested residents to attend the Monday meeting, which will be held in the trustee room at the high school.

dividual pens and away from any other sheep. All sheep are gregarious in nature and do not like to be alone. Some lambs will become accustomed to solitary environment more rapidly than others and as a result they will eat better and put on better gains.

Were Weighed Again Last Saturday these same two lambs were back at the barn for grooming and they were weighed again. Larry's lamb weighed 105 pounds and Ricky's lamb weighed 80 pounds.

Both these lambs have 41 more days to go and during that time they could gain about 15 more pounds. During the 7 day period the lambs should have gained about 23 lbs per lamb. Following are the gains of eight of the fine wool lambs during that period: Larry Coffman, 23; Bobby Taylor, 21; Billy Stockstill, 16; Freddie Carnley, 15; Lee Tingle, 8; Billy Taylor, 7; Ricky Elmore, 4; and Olan Smith, 3. Billy Stockstill and Freddie Carnley are the only boys in this group who have fed a lamb before.

These boys are learning to feed one or two lambs. Some of them will get disgusted after two or three years and never feed any more lambs. Some of them will enjoy the work and they will get more experience while they are young to be able to do a good job on a large number after they are grown.

Many of the commercial lamb feeders are men who got

some experience with sheep while they were young and they learned the trade on small numbers.

ly corrected. Because of the urgency, the dispatch with which certain things had to be initiated, some mistakes were inevitable. But the over-all performance made under almost every conceivable handicap, was magnificent. The few grumbles soon turned to cheers.

Hitler, who certainly had given ample proof that he knew a thing or two about producing weapons and materials of war, was confident that American industry could not convert from peace to war in time to avoid defeat, and so stated. There were plenty of people in this country who held this same, pessimistic, but understandable opinion. BUT AMERICAN INDUSTRY DID IT—it made a "bum" of Hitler as a prognosticator, just as the armed forces of the U.S.A. and her Allies finally knocked "into a cocked-hat," the illusion that Der Fuehrer was a military genius.

Free Enterprise was "weighed in the balance and not found wanting" during World War II. It stands ready again to serve us, if given a free hand. The Russian satellite, which at this writing is circling the globe, is cause for alarm, but not panic. Will our present administration act with the same wisdom as did the administration in office at Pearl Harbor time? Will it call upon American industry to take over the job of catching up on "Sputnik," and outdoing it; and of keeping America well ahead of Russia in atomic and hydrogen bombs and guided missiles? We hope so, because it has given ample proof that it can do the job.

ed "code of ethics" which, it says, will prevent any fast shuffles at future conventions. At the Feb. 1 meeting DOT representatives will urge the Executive Committee to adopt the code.

**RATTLING THE BARS**—More housing, more paroles, more industries are recommended by the Board of Corrections to relieve "a potentially explosive situation" in Texas prisons.

Board said it will probably ask next Legislature for \$7,500,000 housing appropriation. Mgr. O. B. Ellis, report to the board on prison "rumbling" said that with the inmate population at 16,500, at least 75 per cent have to be crammed into "tanks" (one-room barracks) with 400 sleeping on the floor.

Board also urged speed in getting into operation the paid parole supervisor program, authorized by last Legislature. Supervision system is designed to permit more paroles. About one-third the required number of supervisors has been hired so far.

Federal government threw a monkey wrench into prison farms' cotton acreage, said the governing board. It said more work opportunities for prisoners must be developed.

**GOLDEN AGE AIDS**—Ways to improve the outlook for Tex-

as' older citizens are being sought by a 15-member committee of legislators and private citizens.

Sen. Crawford Martin of Hillsboro was named chairman at the first meeting of the panel.

It's not "just an old age pension committee," said Martin. It'll consider such sticky problems as the number of aged persons in mental institutions because no one knows what else to do with them. Also the difficulty oldsters have finding employment even with valuable training and experience.

Percentage of "over 65's" in Texas population has doubled in past 50 years.

**EVERYBODY CAN APPOINT**—who has the right to appoint the attorney to handle affairs of an insurance company in receivership probably will continue to be a source of controversy.

But Rennie Allred Jr., whose right to that post had been contested, can keep his job as the result of a Supreme Court ruling.

At issue was whether the Board of Insurance or court handling the receiving should name the attorney. Allred was appointed by a local district court.

High court said, in effect, the board has first appointive power, but the court can step in where necessary.

## MISS FREDA NEWSOM IS HONOREE

### Bride-Elect Honored By Shower

The home of Mrs. C. A. Winn at 1001 East Lake was the scene of a bridal shower Tuesday afternoon for Miss Freda Jo Newsom, daughter of Mr. and Mrs. C. V. Newsom of Levelland and bride elect of Bob Wilkinson, son of Mr. and Mrs. T. E. Wilkinson of 1013 East Cardwell.

Receiving guests with Mrs. Winn and the honoree were her mother, and grandmother, Mrs. E. C. Willis, Mrs. Jerry Don Brown, the groom's sister, was at the register.

Miss Patti Thomas poured and Miss Mary Ruth Venable furnished piano selections during the calling hours.

The table was covered with a pink cloth and the centerpiece was an arrangement of pink carnations and tapers to further carry out the color scheme. A crystal punch set and serving dishes completed the table setting.

Members of the house party wore corsages of pink carnations. Those not assisting in receiving guests displayed presents in the bedrooms.

Hostesses were Meses. Alton Logsdon, Winn, Johnnie Venable, Pat Ramsour, Mozell Ratliff, Tom Cornett, Jack Browder, J. W. Nelson, R. D. Shewmake, Charlie G. Street, J. R. Thomas, A. E. Richardson, H. T. Green, Joe-Shelton and Harvey Gage.

### Tech's Myers Tops In Foul Conversions

Texas Tech's cage opponents rapidly are learning the hard way that it does not pay to foul Gerald Myers, the Raiders' peppery little guard. NCAA statistics released this week indicate the 5-10 floor general is the player most likely to take advantage of any opportunity offered. Myers' 59 gratis conversions in 67 attempts prior to Saturday ran his average to .881, good for the top spot in the nation.

Gerald Myers  
Texas Tech

He boosted his average .002 points by meshing the only free throw offered in the Arkansas game. This serves to point up that his rivals have learned to respect his gratis pitching.

In addition to his free tossing proficiency, Myers also can rely upon his tricky dribbling when Coach Polk Robison's Raiders seek the final shot of a half or game, or are protecting a slim lead.

Santa Clara, attempting to steal the ball from the Raider mite, fell victim to a perfect 13 for 13 free throw night by the Berger product. Louisiana State also felt the brunt of the shooter when he connected for 11 of 13 shots at the foul line.

Apparently these pre-conference records served notice to SWC teams. He was averaging about seven free throws per game before the conference race began, but now is averaging only about three.

This voluntary "shunning" by foes has released Myers for his primary mission of setting up plays for his teammates and, when the situation is offered, driving through for a basket.

### IN WILSON MEET

### Wellman Fems Win

Wellman's girls cage team stamped themselves as probable champions by plastering Jaytons lasses, 62-48, in the opening round of the Wilson basketball tourney Thursday night. The boys team was dropped to the consolation bracket when they lost to Jayton, 55-30. Velda Hill led the Wellman fems' attack with 24 points while Bryant meshed 17 for the losers. In other girls games, Tahoka edged New Home, 30-25, and Lorenzo tripped Wilson, 17-38.

DuBose canned 21 points the best effort of the day, to top all scorers and lead Jayton to victory in the boys game. The Wildcats were slated to meet Wilson in a consolation Friday night.

### AT REGAL THURSDAY 'Forty Guns' Is Western Drama About The Arizona Territory Of The 1880's

Barbara Stanwyck and Barry Sullivan head the stellar cast in 'Forty Guns,' an explosive western drama in CinemaScope, which will have its local premiere Thursday at the Regal Theatre. Dean Jagger, John Erickson and Gene Barry have the co-starring roles in this Samuel Fuller Globe Enterprises production released by Twentieth Century-Fox. The picture relates a story of the Arizona Territory in the 1880's when political bosses waged a fierce and bloody battle with the average citizenry for supremacy of the range and Territory. In this instance the boss is a woman—Jessica Drummond, played by Miss Stanwyck, who rules Tombstone and its environs with an iron hand and forty armed horsemen. When Barry Sullivan, the west's "Number One Gun," shows up as a United States Marshall and takes over for law and order the lady boss loses her power but finds love. A gun duel between Barry Sullivan, the Marshall, and John Ericson, Stanwyck's scape-goat brother and killer, furnishes the exciting climax to this explosive story. Robert Dix, son of the late Richard Dix, silent screen star, has one of the important roles in 'Forty Guns' along with Eve Brent, the former "Miss Texas," who plays the role of a lady gunsmith and romantic heart interest for Gene Barry. "Judge" Carroll, rising young recording star, makes his debut in the picture as the hotel keeper. He sings two songs, "High Ridin' Woman," music by Harry Sukman and lyrics by Harold Adamson, and "God Has His Arms Around Me," with music by the late Victor Young and lyrics by Adamson.

### 'Old Yeller' Opens Today at the Rialto

A bull's-eye straight to the heart is scored by "Old Yeller," Walt Disney's most dramatic motion picture, the irresistible story of a family and a dog in early Texas. "Old Yeller" begins its showing today at the Rialto. Dorothy McGuire, Fess Parker, Tommy Kirk and Kevin Corcoran deliver flawless performance as the pioneering Coates family defying a harsh, often dangerous wilderness. Jeff York, Beverly Washburn and Chuck Connors shine in supporting portrayals.

Red Diamond? By Jim Bayless

WALT DISNEY DOROTHY MCGUIRE and FESS PARKER OLD YELLER Technicolor

RUSTIC DRIVE IN Sunday and Monday January 26 & 27

The chances are you haven't. But there are diamonds of that unusual color and—strange as it may seem—there are even green diamonds and some of a cinnamon-pink shade. If you have ever studied much of the history and pagantry of Russia, you know that set on top of the Imperial Russian scepter there is a fabulous yellow diamond that was the envy of countless kings and queens. Another question: Do you know how the diamond got its name? It's interesting. Its name comes from the word, adamant, which means unquarable. And that's precisely what the diamond is in the field of precious stones. Its substance is the hardest ever known to man—and only another diamond, set in a special tool, can cut it. The diamond can be split, but it can never be scratched or destroyed. Brides since time immemorial have wished for a lovely diamond ring to accompany the traditional wedding band. The diamond is April's birthstone, yet anyone born in any month is thrilled to get and wear one. For years we have featured perfect, blue white diamonds of all sizes—to fit all wishes and pocketbooks. I think you will frankly say you've never seen a finer display of diamonds than ours. Visit us today. And remember our convenient budget terms and our sincere desire to serve you. BAYLESS JEWELRY, 507 W. Main St., Phone 2292.

Mrs. Aubrey Russell of Lubbock, District 2 agent of home demonstration work, was present when Terry County HD clubs styled tailored coats and suits at a special program Thursday evening in The Party House.

Garments styled had been made by members of the various clubs in a special tailoring course under the direction of Miss Betty Hillis, county HD agent, over a period of two months. All garments were of wool or woolen mixtures.

Screens decorated with the dressmaker's tools and baskets of greenery served as a background for the show. Mrs. Hubert Henson of Pleasant Valley Club introduced each model, giving high points of her attire and quoting overall cost of the garment.

Those modeling suits were Mmes. Tom Pettigrew, Joe Henson and R. D. Moore of Meadow-Challis Club, W. C. Faulkenberry of Willow Wells Club and Vanoye Riley of Pleasant Valley Club.

Short coats were modeled by Mmes. Elry Jone of Harmony Club, Adrian Hinson of Pleasant Valley Club and Miss Linda Henson, daughter of Mrs. Joe Henson.

Mrs. S. Baucum and Mrs. Orville Williams of Willow Wells Club modeled long coats, as did Miss Jeanette Faulkenberry, daughter of Mrs. W. G. Faulkenberry.

Following the show refreshments were served. The table was covered with a lace cloth and the center arrangement was of yellow sweet peas and greenery.

NEW RECORD

A Michigan ten-ager's hassle with barbed wire produced 144 stitches on his hands and arms, earned him a headline — and probably sewed up some sort of record for wire-pulling. —The New Orleans Times-Picayune.
