Brownfield News

And Terry County Herald... Terry County's Oldest Business Institution

VOLUME 21 TEN CENTS 16 PAGES BROWNFIELD, TERRY COUNTY, TEXAS, THURSDAY, MARCH 27, 1958 NUMBER 25

The main topic right now is EASTER... and the main item in the agenda is shopping... the best place to do this is in Brownfield. Our local stores are "loaded" with beautiful Easter dresses, suits for both ladies and men, frivolous and handsome outfits for the youngsters... in Brownfield you will always find just the right article to make you the best dressed family in the Easter Parade.

Crescent Hill Church of Christ extends an invitation to the public to attend the remainder of the gospel meetings planned through March 30. Evangelist Ernest McCoy is the speaker for the services — with congregational singing, weekday services: 7:00 and 10:00 a.m., and 6:30 p.m. Sunday: 7:00 and 10:00 a.m. and 7:30 p.m. This gospel series will end Sunday evening, March 30.

Cobb's has just received a shipment of City Club Loafers — especially crafted for dress or sports wear. While there, look over the many handsome new sport coats and slacks they have to offer.

IT SAYS Here: Does it not seem quite easy to fold a piece of paper fifty times? Try it some day. You may find that when you have folded a sheet of paper three times, it is eight times its original thickness. If you fold it twenty times, it will be about twenty yards thick; and if you should be able to fold it twenty-four times, you will have a thickness of about 450 yards. The truth is, by the time you folded a sheet of paper thirty times, the thickness would be the diameter of the earth. By the forty-fourth time, its thickness would reach the moon. A sheet of paper large enough to fold fifty times would cover the surface of the United States.

In today's issue of the NEWS you will find a financial statement from the Great National Insurance Co. Joe Stevens is the local representative.

Newton & Webb Implement not only had a demonstration of their new Case-O-Matic Tractor, but they had trouble completing the demonstration... seems everyone wanted to buy the tractor. They sold it to R. L. Montgomery, southwest of Meadow.

Try it: Be wiser than other people, if you can, but do not tell them so. — Chesterfield.

If you are in need of a new or used tractor, expert repair work on your present tractor, plows, and various and sundry items... the place to go is Kersh Implement. Here you will find a cordial welcome and a ready-to-please attitude awaiting you.

Terry County Farm Bureau open house, held last Saturday, is pictorially shown in section 2 of today's NEWS... congratulations TCFB, you have a beautiful new headquarters, and Joe, you fellows keep up the good work.

Only Three More Days — that's what Jim Bayless says — to shop the big store-wide stock liquidation sale at Bayless Jewelry. Sale ends Saturday evening, and drawing for the diamond watch will be held at 7:30 p.m., that day.

Don't forget, mothers, Collins still has a good supply of those new nylon jeans for the kids — and they'll love 'em.

Shed no tears over your lack of early advantages. No really great man ever had advantages that he himself did not

Hospital Meeting April 10

A detailed report by Terry County's "hospital committee" will be made public at 7:30 p.m., April 10 in Brownfield High School auditorium.

The urgent meeting date was announced Wednesday by Brownfield Atty. Burton Hackney, chairman of the committee which was elected by secret ballot Feb. 18.

Since that date, the nine-man committee has been in constant study and research concerning what course best to take when Treadaway-Daniell Hospital closes its doors July 1.

No Details Released Hackney also explained Wednesday that "No inkling of what our group will recommend has been given out, and none will be released to the public until April 10."

The April 10 session has been described as a "town hall" type of gathering, with any and all interested persons from any point in Terry County urged most heartily to attend.

To keep the meeting date and its purpose in the public mind, the committee appointed three Brownfield residents: Mrs. Jack Bender of 1216 East Repetto, Bob Clements of 608 East Tate, and Mrs. Bobby Jones of 703 East Lons.

Authorities Consulted Other members of the committee, which has consulted extensively with realtors, appraisers, hospital administrators, architects and other authorities, are: Mrs. Lee Brownfield of 508 South C, Mrs. J. M. Teague of 410 East Tate, Mrs. A. J. Bell of Needmore, Paul Blackstock of 903 East Buckley, Ben Finley of Brownfield, P. R. Cates of 902 East Buckley, C. K. Kendrick of 620 East Tate, and Carl Golden of Wellman.

—April 10, 1958—

Cub Track and Field Squad Will Compete Saturday in Kermit

Coach Don Hendley will take a 13-man squad to Kermit Saturday to compete in the annual Permian Basin Relays.

The Cubs will attempt to take their second championship this spring, having claimed the Seminole Relays crown two weeks ago.

Larry Meeks and Johnny Jones have been the most consistent point-getters in the spring's first meets. Meeks again is favored to take the top slot in the 120-yard high hurdles after turning in a 14.6 performance in the West Texas Relays last weekend.

The lanky senior will enter both high and low hurdle events and the broad jump. Jones will enter three field events: shot put, discus throw and the high jump.

Full list of Brownfield entries include: 120-yard High Hurdles — Meeks and Leon Clark. 180-yard Low Hurdles — Mike Browning and Meeks. 100-yard Dash — Ellis Cox and Ronnie Bartley. 220-yard Dash — Cox and Browning.

440-yard Dash — Cecil Pendley and Eugene Hughlett. 880-yard Run — Curtis Bry-

IN JUNIOR HIGH AUDITORIUM County Spelling Bee Is Slated Saturday

A pair of eighth grade students will represent Brownfield Junior High in the annual county spelling bee slated at 10 a.m. Saturday in the school auditorium.

Winner of the Lubbock "spell-down" will go to the National meet slated for Washington, D. C., in June. Other entries in the Terry contest are Kathy Goodpasture, representing West Ward fourth grade, and Mary Thomas, representing the fifth grade.

County Superintendent E. G. Brownlee, who is in charge of the annual event, said no other contestants have been entered in the spelling bee.

—April 10, 1958—

AT FRIDAY SESSION ON HOMESTEADS

Sesame Program Will Be Studied

Texas Sesame Growers, Inc., will hold a meeting at 8 p.m., Friday in 106th District Court, with County Agent Jim Foy and Executive Vice Pres. Robert L. Parker presiding.

In addition to Parker, Clyde Black, head of the new High Plains Sesame Headquarters in Muleshoe, will be on hand to discuss a planting program with Terry farmers.

"The outstanding performance of sesame in 1957, despite bad weather and low prices of other crops, has resulted in more interest by farmers this year than at any other time since the start of production five years ago," said Parker.

Parker continued: "High Plains farmers averaged \$80 an acre gross for their sesame crop last year, and some individuals grossed as much as \$120 an acre. Many Plains farmers cleared more money on sesame than on cotton."

—April 10, 1958—

THROUGH SUNDAY

Bible Lectures At Church Continuing

The current series of gospel messages by Evangelist Ernest McCoy at Crescent Hill Church of Christ will continue through Sunday.

ERNEST MCCOY

Exemptions Profitable

Terry homeowners can save \$12.50 in state taxes by filing a homestead exemption prior to the April 30 deadline, according to J. D. (Jot) Akers, tax assessor-collector.

Texas law provides that the first \$3,000 of the assessed valuation of a home is exempt from taxes if it is designated the individual's homestead. "This equals a saving of \$12.50," said Akers.

"Last year exemptions in Terry totaled \$25,806," he added, "saving taxpayers about \$10,838." Akers said the saving would be sizable over a period of years, though it might seem insignificant now.

Under the homestead law, taxes on a home valued at \$10,000 would drop from \$182 to about \$169. A \$15,000 home's taxes would be \$261, where as the total would be \$273 without the exemption.

Akers also urged taxpayers to render their property for tax purposes by May 1. "Though there is no definite deadline for rendering property for taxation, we need to have the information by May 1," he said.

The May 1 date is the deadline for rendering property for school tax purposes, according to Raymond Simms, Brownfield school assessor. Property rendered for other county schools may be submitted when county taxes are rendered, added Akers.

The assessor-collector pointed out that failure to render property does not mean the property owner will not have to pay taxes. "Property not rendered by the owner may be placed upon the unrendered tax roll," he said. "Such property is assessed according to what the assessors feel is a fair valuation."

The property owner sets his own valuation when he renders his property, which normally is advantageous, noted Akers. Then, if the county sets a higher valuation, the owner may appear before a board to ex-

AGAINST CANCER

Crusade Is Scheduled

Preliminary plans for the annual Cancer Crusade in Terry County were approached here Tuesday night.

Meeting in South Plains Health Department, directors of Terry County Unit, American Cancer Society, discussed the plans and the showing of an educational film to all civic clubs here.

Present Tuesday were the president of the Terry unit, B. G. Jones; treasurer, L. J. Richardson Jr., and secretary, Mrs. Shafter Bailey.

Also here to discuss the future work was Miss Barbara Liggett of Midland, the society's field representative for this district.

Richardson reported that at last count there were 58 donors to the Nancy Gee Cancer Fund, which now totals \$493. Contributions still may be mailed to Brownfield Post Office.

Chairman of the unit's education committee, Mrs. Mancil Hinson, explained that the film, "From One Cell," is to be shown soon in all high schools in the county.

The directors scheduled their next meeting for 7:30 p.m., April 1, in the health department.

—April 10, 1958—

Three Hurt In Mishaps

A pair of weekend accidents resulted in injuries to two Brownfield residents and a Denver City man, according to highway patrolmen who investigated the mishaps.

Joe B. Sloss, 25, of Denver City, and Danny Parks, 18, son of Mr. and Mrs. H. B. Parks of 1209 East Buckley, are in Treadaway-Daniell Hospital after a Saturday night mishap.

Investigating officers said Sloss, who was driving east about 1 mile west of Tokio, hit a muddy strip on the pavement and skidded off the south side of the road, smashing into a grading machine.

Officers reported Sloss lost his left eye and suffered severe lacerations and bruises in the collision. Parks also suffered lacerations and bruises.

Passing motorists discovered the wreckage about midnight Saturday and notified highway patrolmen and Brownfield Funeral Home ambulance service. Officers estimated the accident occurred about 11:30 p.m.

A second injury mishap occurred about 4:30 p.m. Sunday when two cars scraped, veering one into a culvert about 1 mile south of here on U.S. Highway 62.

Musings—

To some people perpetual retirement is perpetual sulking, even though the pay is good.—Anon.

WORK AGAINST CANCER — Pictured are members of Terry County Unit, American Cancer Society, meeting Tuesday night in South Plains Health Department to discuss their program with Miss Barbara Liggett of Midland, field representative for the society. From left: B. G. Jones of 703 East Lons, president; L. J. Richardson Jr., of 1014 East Oak, treasurer; Mrs. Shafter Bailey of 1309 North A, secretary, and Miss Liggett. (NEWSfoto)

BESIDES BEING PRACTICAL

Antiques, China Pieces 'Good for Conversation'

By KLYDIE SCUDDAY NEWS Woman's Editor

The hostess with an eye to keeping the conversation going might choose to serve her tea guests or set her table with a collection of china or antique pieces.

The demitasse cups in the collection accumulated by Mrs. Walter Gracey of 323 South First are definitely conversation pieces. Most of the 24 cups with their saucers have their own unique story.

Mrs. Gracey once made the remark, "I need to get a hobby, one like so many people have to get interested in." Thus was born the seed of a hobby. Mrs. Arch Fowler of 121 North C, heard the remark and, making a trip to Canada a little later, brought Mrs. Gracey the first demitasse cup of her collection. Other friends, wanting to assist, brought in others.

She now has cups from Canada, California, New Mexico, Texas, Oklahoma, North Dakota, South Dakota, Colorado and Wyoming. They come in all designs and colors, some pale and some deep and all of them with that dainty, fragile look.

The one hobby led to a second hobby that has been profitable as well as entertaining. Mrs. Gracey paints china now, having her own kiln and molds. She says, "My husband would laugh and say, 'Oh, she is playing with her mud pies.' It is such a pleasant pastime through and I can make gifts for all occasions."

Having tea with Mrs. Jess McWherter of 1218 East Tate, you are apt to be served from a china teapot from Kentucky, and around the room are pitchers of various shapes and colors. There is the antique buttermilk pitcher, known to have been in her husband's family over 75 years.

Did you ever see a lemonade pitcher? Mrs. McWherter's has been in her family the greater part of a century, and going from pale yellow around the bottom to purple at the top with grape designs at the side, it is sure to bring questions.

It might be difficult for a dinner guest in the home to eat because Mrs. McWherter says, "I have nothing I don't put to use. Even the grandchildren love to use the dishes." If there are preserves they are served in a compote from Cottage Grove, Tenn., or it could be one from Harrison, Ark.

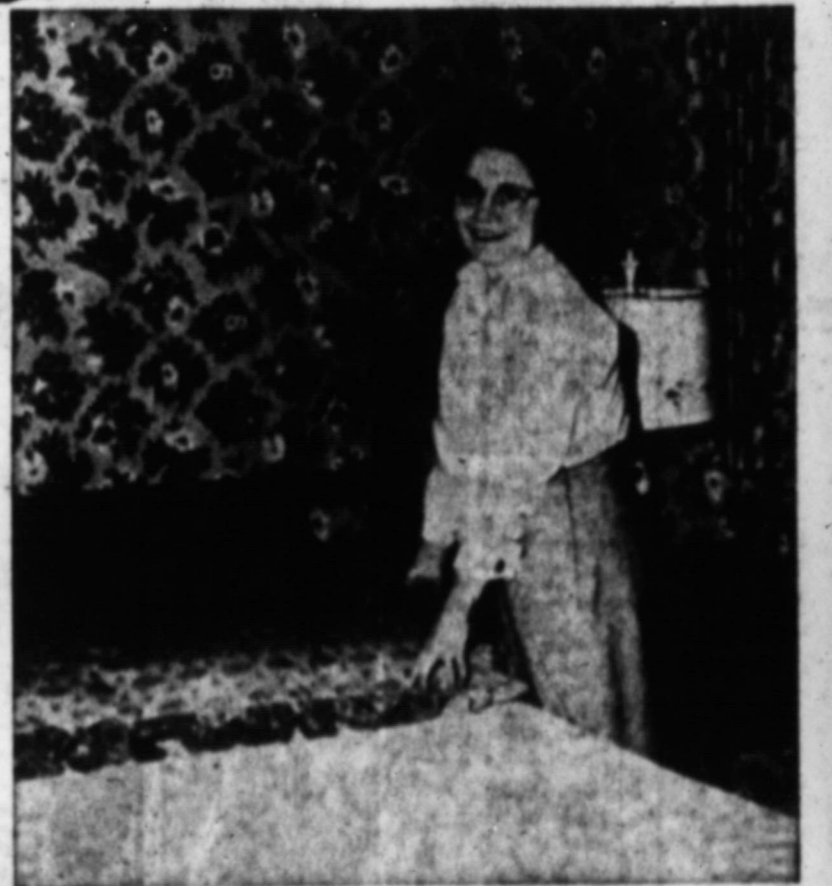

The caster set of crystal with its metal stand and the colt legs for a base came from Portland, Maine. You might even read the inscription on a small platter with a 1860 date on the bottom: "However high a bird may soar it seeks its food on earth." The conversation could go on through plates, mugs, glasses, cake plates and many other pieces.

Antiques, China Pieces 'Good for Conversation'

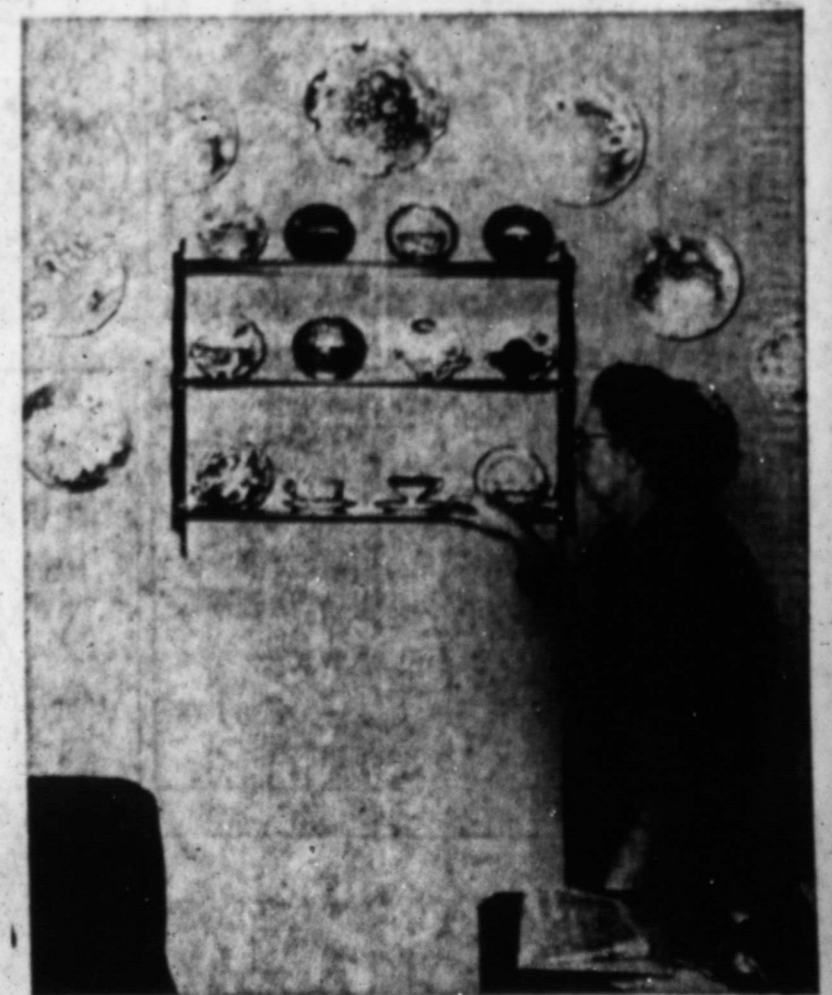

When asked if she used the spread constantly, she answered, "It's according to the present trend. When antiques are being used we get it out, and then put it up during those periods when modern furnishings are the go."

There is the antique sewing cabinet purchased from a dealer in Lubbock and redone to become one of her prized pieces. McWherter, with his marriage license to show the date, April 27, 1889.

See No. 6 Page 5

WEDDING GIFT — 1889—Pictured is Mrs. Jess McWherter of 1218 East Tate as she puts the finishing touches on a pillow cover she made to use with abedspread given to her parents, Mrs. J. H. Eubank of Hereford and her late husband, former residents of Brownfield, when they were married, April 27, 1889. (NEWSfoto)

CONVERSATION PIECES — Mrs. Walter Gracey of 323 South First is pictured as she tells the stories behind some of her collection of 24 demitasse cups with their saucers. (NEWSfoto)

At 8 Tonight in BHS Auditorium: Annual Class Play of 1958 Seniors

Brownfield News Editorials

The Soviet Government recently announced that it had put into operation "the largest passenger aircraft in the world."

There seems to be little reason to doubt the claim.

The aircraft, which is powered by four prop-jet engines, which are twice as powerful as any of a similar type outside Russia, is an impressive one. It can carry 220 persons on flights of 800 to 900 miles and as many as 170 on longer flights.

It is said to be capable of carrying 120 passengers from Moscow to New York in eight or ten hours. This schedule compares with that of the fastest airline now serving western countries over the Atlantic.

That is, the new Soviet airliner could carry more passengers from Moscow to New York in the same time our best airliners require to make the trip from London to New York.

There is little doubt about the fact that the Russians have scored an achievement — another one — in putting this aircraft into operation.

In addition to its capacity and speed (which is not as fast as that of the pure jets), the Russians have announced that the plane has two elevators, a telephone system and a restaurant, for forty-eight people.

The most interesting claim made by the communists is that the plane can carry passengers at a cost comparable to that of railtravel.

This means that the cost of aerial travel can be reduced, and the announcement from Moscow noted that the large capacity, long distance and high speed of the TU-114 make it possible to reduce "considerably" the cost of traveling in it.

While the Russians did not give exact specifications, a photograph of the plane shows that it is similar to the TU-104 which visited the United States in September.

This is another serious challenge to U. S. technical, scientific and industrial leadership. In our opinion, the new Russian passenger plane is probably the most modern plane of its size in the world.

The Fairchild F-27, a two-engine turbo-prop plane which will carry 40 first-class passengers and 44 tourist, with a top-cruising speed of 280 miles an hour, is due for delivery this year, but it is not to be compared with the Russian giant, which is much larger, faster, and an intercontinental plane.

Advice to young men: The business world is not interested in the reason why you can't do anything.

FHA Moves To Offices In Savings and Loan

Mrs. S. Marie Brown of 508 Lanny has been appointed assistant county office clerk for Farmers Home Administration here, according to Walter T. McKay, state FHA director.

A native of Kosciusko, Miss., Mrs. Brown attended Wellman High School and Draughton's Business College in Lubbock. She joined the FHA staff Monday.

It also was announced that FHA offices have been moved from 106 North Fifth to Room 6 in the Brownfield Savings & Loan Building. The move was completed during the past weekend.

Revival Scheduled At Pleasant Valley

Pleasant Valley Church will hold a one-week revival, beginning at 7:30 p.m. April 16, according to the Rev. E. L. Cave, minister.

The Rev. Malcolm Cave of McKinney will be evangelist for services, which will be at 7:30 p.m. daily. The church is in Pleasant Valley Schoolhouse, 6½ miles northeast of here.

The public is cordially invited to attend the services, said the Rev. Mr. Cave. "We will have special song services every night," he added.

Former Brownfield Man Dies Saturday

R. L. Newsom, 45, former Brownfield resident, died about 12 p.m. Saturday in Cowper Hospital of Big Spring. Death was attributed to a heart attack.

Funeral services were held Monday in Rivers Funeral Home Chapel and burial was in Big Spring Memorial Cemetery.

A long-time resident of Brownfield, Newsom moved to Big Spring in 1941. He was an employee of Texas and Pacific Railroad.

He is survived by his wife, nine children, one sister, Mrs. Ernest Burnett of 321 South Third, and one grandchild.

IRRIGATION

Expertly Engineered For Your Farm With Superior Irrigation Equipment

An irrigation system is an important investment and should be protected with expert and experienced engineering. We've provided such service for many farmers in this area to insure dependable, economical performance. For the systems we install, we specify highest quality irrigation equipment, including Alcoa Standard Class 150 Irrigation Pipe.

Come in and let us know what your plans are—we'll work with you in developing a suitable installation for your farm within the amount you are able to invest. Our engineering service is available at no extra cost.

COMPLETE STOCK OF IRRIGATION EQUIPMENT
Pumps • Couplers • Sprinkler Risers and Heads • Alcoa Standard Class 150 Irrigation Pipe in all standard sizes and Alcoa Lite-Line Irrigation Pipe in larger diameters.

Development of The Shoe is Discussed For Alpha Omegas

"Fashion" was topic for discussion when Alpha Omega Study Club met Tuesday afternoon in Seleta Jane Brownfield Clubhouse.

Mrs. Jack Cleveland told of the development of the shoe and its style. Mrs. Lee Brownfield discussed dress, telling of ways in which religion, localities and occupation can affect people's attire. Mrs. Curtis Sterling directed the program.

Mrs. Tommy Hicks brought a report from the district meeting held in Childress and Mrs. Virgil Hamby of Denver City was initiated into the club.

Mrs. W. T. McKinney served refreshments to Meses. Kenneth Browning, Marion Bowers, Brownfield, P. R. Cates, Cleveland, F. H. Farrar, Truett Flache, A. J. Geron, Jake Gore, Roy Harris, Hicks, Earl Jones, M. L. Copeland, V. L. Patterson, Britt Pounds, Frederick R. Smith, Sterling, James Thurman, E. Y. Wilder, Hamby, William Cope and her mother, Mrs. H. B. Elliott of Lubbock, a guest.

—April 10, 1958—
One of the most durable satisfactions in life is to lose one's self in one's work.

LEGAL NOTICE

NOTICE OF INTENTION TO LEASE COUNTY SCHOOL LANDS FOR MINERAL DEVELOPMENT TO ALL WHOM IT MAY CONCERN:
Notice is hereby given that the Commissioners Court of Terry County, Texas, will offer for sale and will sell to the highest and best bidder for cash for the bonus consideration, an oil, gas and mineral lease or leases covering the following described land belonging to Terry County, Texas: The North one-half (N 1/2) of Block 2, and the North one-half (N 1/2) of Block 5, League 302, Terry County School Land Survey, situated in Gaines County, Texas. The said lease to be executed on the usual Texas Standard Revised 88 form, providing for not less

Morton Services To Be Held Here Today

Services were to be held at 2 p.m., today in Calvary Baptist Church for Charlie H. Morton, 52, who died early Wednesday morning in Treadaway-Daniell Hospital after a short illness.

The Rev. Warren Stowe, Calvary pastor, will officiate, and burial will be in Terry County Memorial Cemetery by Brownfield Funeral Home.

Pallbearers will be Elmer Brownlee, Howard Blake, Bern Floyd, Lewis Waters, Lynn Yates and Henry Gaston.

Survivors include the widow; two sons, R. C. Morton of Welch and W. L. Morton of Brownfield; one daughter, Mrs. Doyle Ranson of El Paso, and 10 grandchildren.

Morton, a native of Alabama, came to Terry County 28 years ago, and farmed on Route 2.

Cadillac

He's Putting an End to Compromise!

Every time he accepted the keys to a new car in the past, he knew he was postponing his heart's desire.

For Cadillac was his dream—and Cadillac his goal! So here he is at last—putting a final end to compromise! He's stepping into the car of his dreams, ready to set off on his first glorious miles.

And he is about to learn what he sensed all along—there is no substitute for the things a Cadillac provides!

Once he finds himself surrounded by the great comfort and luxury of Fleetwood coachcrafting . . .

. . . once he has experienced that wonderful smoothness of ride and that great eagerness of response . . .

. . . and once he has felt the pride and contentment of commanding the "car of cars"—he will understand why Cadillac ownership is so uniquely satisfying.

If Cadillac is your goal, you ought to visit your dealer and learn how easily the car could be yours.

Whether your choice is the Sixty-Two Coupe or the Eldorado Brougham—you will find this the perfect moment to put an end to compromise!

SOYBEANS HAVE FOUND A PLACE IN WEST TEXAS AGRICULTURE

ESTABLISHED LOCAL MARKET FOR YOUR SOYBEANS

A point that generally plagues a new crop in a new area is one of markets. This problem has been removed for West Texas growers, since there is an established daily market for soybeans through Western Cottonoil Co.

Western Cottonoil Co.'s Lubbock Mill has new, modern facilities to process both cottonseed and soybeans, thus providing a ready local market for the soybean growers of the Plains of Texas. This program was instituted in 1957 and is designed to serve West Texas agriculture, both present and future.

The rotation of "sorghum-soybeans-cotton" appears to have established a firm foothold in West Texas irrigated agriculture. The major contributing factors have been that soybeans reduce the cotton production costs in hand labor required to hoe the crop when compared to following cotton after sorghums, and increased cotton yields following soybeans. These factors, plus the general improvement of soil tilth, make the rotation of "sorghum-soybeans-cotton" appear to be a permanent part of the farming economy of the High Plains of Texas.

Terry Wildcat Is Swabbed With Acid

Joseph I. O'Neill No. 1 Glen C. Mason, possible Clear Fork discovery in northern Terry was continuing to test after swabbing oil and acid water. Perforations at 6,620-36 feet were swabbed dry natural and acidized with 500 mud acid. Continued swabbing recovered all load and slight show of oil and gas to swab dry. Following treatment with 3,000 gallons regular acid, return was 30 per cent oil and 70 per cent acid water; no gauges reported. Site spots three miles east of Slaughter field production and six miles southeast of Sundown townsite. It is 600 feet from south and west lines of Section 16, Block X, PSL survey.

Honolulu No. 1 Pope Pool, 12 miles southeast of Sundown drilling 11,175 feet in lime and dolomite. A three-hour drillstem test from 11,110-158 feet recovered 990 feet of water blanket and 180 feet of drilling mud.

—April 10, 1958—
MONDAY MIDNIGHT

Deadline for Car Tags Approaching

With vehicle registration deadline less than a week away, slightly more than one-half of Terry's residents have purchased 1958 license plates, reports J. D. (Jot) Akers, tax-assessor-collector. By Wednesday, approximately 2,900 automobile tags had been purchased though the deadline is midnight Monday. An estimated 5,000 automobiles are anticipated to require registration before the deadline. Akers said his office will be open to register vehicles until the deadline Monday night. He urged vehicle owners to purchase plates as soon as possible in order to miss the Monday rush. Failure to have 1958 plates on the car by April 1 makes the owner liable to a fine up to \$200 plus court costs, according to Justice of the Peace Lonnie Rhyne.

—April 10, 1958—
fee and cokes were served to Mmes. J. W. Young, E. J. Duncan, J. M. Trussell, Fred Terry, Arnold Waters and Miss Hillis.

WILL APPEAR PALM SUNDAY — Nearly 100 voices will be heard at 3 p.m., Sunday when choirs of the several city churches appear in concert at Brownfield High School auditorium. Occasion will be the Palm Sunday presentation of Theodore Dubois' cantata, "The Seven Last Words of Christ." From left in upper

panel: Weldon Beckner and Mac Jones rehearse with the tympani. In lower panel, Director Beryl Lovelace leads in rehearsal Monday night. Three soloists appear in extreme left: Beckner, Mrs. John Luckie and A. V. Wall. Pianist is Jerry Gannaway. (SMITH-fotos)

Tulia, Tex., Man Reports— 7,000-lb. Grain Sorghum Using Phillips 66 Ammonia

Morgan Sturgess, who farms 1,100 acres near Tulia, Tex., says: "By side dressing 150 pounds of Phillips 66 Agricultural Ammonia, I harvested 7,000-pound maize. I also side dressed 60 to 150 pounds of Phillips 66 Ammonia on cotton and averaged 2 bales per acre." Other Southwestern farmers have discovered that 82% nitrogen from top quality Phillips 66 Agricultural Ammonia helps them get more profit per acre through higher yields. They get more cotton that classes higher at the gin... yields of sorghum grain and ensilage are increased... more marketable vegetables are harvested... and profits on wheat are increased through higher yields of grain and extended grazing periods. Phillips 66 Agricultural Ammonia contains 82% nitrogen and gives you more nitrogen per dollar than any other form of commercial fertilizer available.

Sesame Produced At Renner Leading All Other Varieties

Renner No. 1 Semi-shattering Sesame, led all released varieties with a yield of 1,335.5 pounds per acre in the 1957 variety test at the High Plains Station of the Texas Research Foundation at Halfway. Renner No. 1 still is considered the best for commercial planting in the High Plains area. In Texas 95 per cent of the commercial planting is Renner No. 1.

The sesame test included 50 varieties of which nine were released and 41 experimental strains. In the semi-shattering released varieties, K9 had a yield of 1,218.88, Early Russian 1,155 and K10 totaled 1,127.21 pounds per acre. Six unreleased varieties ranked high in yields among the tests conducted.

Renner No. 15 was the highest yielding combine or non-shattering type sesame. The yield of 924 pounds per acre is not considered high enough to recommend for any but trial planting in this area. More research is necessary before a non-shattering type will be available for commercial planting.

The planting rate was 1 1/2 pounds of seed per acre. Thirty pounds of nitrogen and 88 pounds of P2O5 per acre were applied at planting time with 50 pounds of nitrogen sidedressed July 18. Each variety was planted in single row plots 20 ft. long and each plot was replicated four times.

The experiment area consisted of Pullman clay loam. A preplant irrigation of six inches and three subsequent irrigations of three inches each was applied. A total of 17.4 inches of rainfall occurred between April 1 and Oct. 1, so a total

Past Matrons And Patrons Preside In Initiations At OES

Past matrons and past patrons conducted the initiation when Brownfield Chapter 785, Order of the Eastern Star, met Tuesday night in Masonic Temple with Worthy Matron Irma Smith and Worthy Patron Cecil Smith presiding. In the initiation ceremony, Florence Parker was Worthy Matron; J. W. Nelson was Worthy Patron; Udell Hamilton, Associate Matron; J. Phares, Associate Patron; Viola Barret, Secretary; Mrs. J. L. Randal, Treasurer; and Mary Ellen Brown, Chaplain; Annie Hunt, Marshal; Dora Lee McCracken, Associate Con-

ductress; Melvina Nelson, Conductor; Grace Buchanan, Ada; Ruth Steele, Ruth; Hazel Portwood, Esther; Erie Proctor, Martha; and Dorine Criswell, Electa; Viola Simmonds, Warder, and Virgil Bynum, Sentinel. A special program was presented by Oleta Tolliver, and refreshments were served to the 39 members and guests in the Banquet Room by Melvina and J. W. Nelson, Ethel and Gay Price and Lilly McPherson.

Terry County 4-H Survey

By LINDA HENSON and STANLEY FARRAR

"Color in Your Room" will be the program for girl's 4-H clubs for the April meeting. That was the program scheduled for March but since most club meetings had to be canceled it was not given. For this program, the home demonstration agent will show colored slides and will discuss the subject.

The district contest for individual and team demonstrations will be held Saturday, May 3, in Lubbock. If you are 13 years of age and older and

interested in entering, please notify Miss Betty Hillis, HD agent, at her office.

The contests you may enter are: Public speaking, safety method demonstration, vegetable team, dairy foods demonstration, electric team demonstration.

Those planning to enter any of these contests should start on them by the first week in April. First and second place winners in the district will enter the state contests at 4-H Round-Up in June.

MORRIS SHEATS

Bethel Temple Will Hold Revival Series

Morris Sheats of Lubbock will be evangelist for a youth revival to be held Friday, Saturday and Sunday in Bethel Temple Assembly of God Church, located at South Second and Reppito, according to the Rev. B. Z. Curtis, pastor.

Morris is president of the student body at Monterey High School, Lubbock, and although he is only 17 years old he is already widely known as an active youth leader and speaker.

He was named parliamentarian of the Texas Association of Student Councils. HI-Y youth governor of Texas and has been active in Boys State. He was selected a member of all-state orchestra in 1955-57.

Services are set for 7:30 p.m. each of the three days and at 11 a.m. on Sunday.

140 Seating Options Are Purchased Here For Tech's Stadium

Terry football fans have purchased a total of 140 seat options in the Texas Tech Stadium Expansion Program, reports I. E. Brownfield, chairman of the drive here.

The total represents an investment of \$34,200 in the move to expand present seating of Jones Stadium to 55,000 by

AT ODESSA

Cub Golf Team 14th

Brownfield golfers came in 14th in the high school division of the Odessa Invitational Golf Tournament held Saturday in conjunction with West Texas Relays.

The Cubs were some 85 strokes off the pace set by Amarillo High School, which won the tourney with a 621 total. Brownfield stroked a 706 total for the 36-hole medal play.

Preston Glenn led Cub linksters with a 155 total. Danny Powers stroked a 160 total, followed by George Glenn, 189, and Tommy Hardy, 202.

Team totals — Amarillo 621; Borger 626; Midland 630; Andrews 632; Monterey 640; Odessa 642; Wink 649; Levelland 656; Tom S. Lubbock 668; Plainview 668; Pampa 670; Monahans 676; Hobbs, N.M. 680; New Mexico Military Institute 685; Brownfield 706; Snyder 712; Big Spring 715; Crane 720; Big Lake 723; Palo Duro 724; Lamesa 726; Kermit 836; San Angelo (only had three players.)

MORE TROUBLESOME
"Every dog has its day," a novelist reminds us. This does not trouble us nearly so much as the fact that cats insist on having nights.

He was ever precise in promise-keeping.—Shakespeare

1960, when Tech enters Southwest Conference football competition.

Options, which may be paid anytime prior to April 1, 1960, entitle purchasers to seats at Tech home games for 15 years. They are available in denominations of \$100, \$200, \$300 and \$1,250. The latter options are for plush air-conditioned press-box seats.

Brownfield announced the option drive will continue here as long as seating is available. Persons interested in purchasing options may contact Brownfield, George O'Neal, Bob Clements or Curtis Sterling.

Texas Egg Law Still Is Confusing Some Poultry Producers

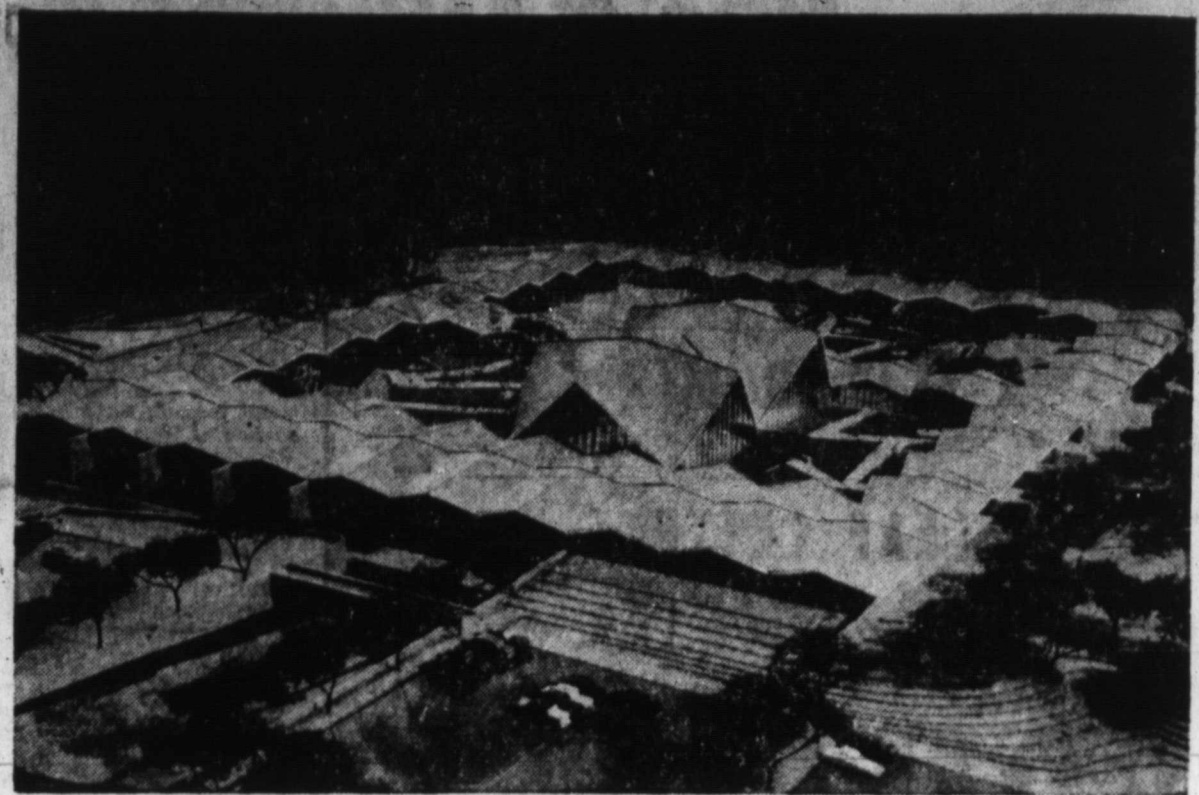

Anything new is eyed with suspicion, and often we tend to place blame for our disappointments on something foreign to us either because we don't understand it or because of convenience, according to John C. White, state agriculture commissioner.

So it is with the new Texas Egg Law. Some misunderstanding and fears have come up on occasion which, although without real basis, are genuine fears and therefore need to be explained.

Reports have reached the Texas Department of Agriculture that certain retailers and buyers have refused to handle eggs from small producers with limited flocks, falsely blaming the Texas Egg Law as their reason for not doing business with the farmer who wants to sell only two or three dozen eggs at a time.

There is no such trade-restricting provision anywhere in the law, nothing whatsoever that interferes with or prohibits this long-standing business relationship between producers and buyers.

A retailer, dealer, or other egg handler can purchase any amount of eggs from a producer at any time. A small producer can market his eggs in the same manner as he has always done —

HALL OF FAME — "The past inside, the future outside." That might well describe the architect's design of the \$5 million National Cowboy Hall of Fame and Museum at Oklahoma City, for which the first \$1 1/2 million unit will be started this autumn. Somewhat unusual in design, the open spaces of the west, cool water in pools and the shape of a trail camp cook fly are all caught here. Among national trustees for the shrine are Gov. Price Daniel, J. Everett Haley of Canyon, and A. M. G. Swenson of Stamford.

either graded or ungraded. If he claims a grade he must comply with the simple provisions of the law.

In other words, eggs do not have to be graded at any level of trade. Ungraded eggs may be sold in the channels of trade but they must be represented as ungraded eggs.

However, it is better for all concerned if producers and handlers do participate in the egg grading program so that high quality eggs will not be sold without the quality being represented by the advertised grade which attests to the value and quality of the eggs. When a grading system is

used, cartons or containers have to be labeled according to actual size and grade of eggs. Anyone having a question on the egg law and its effect is urged to contact the Texas Department of Agriculture in Austin. All inquiries will be fully and promptly answered.

Proper Balance Of Nutrient Important

Maintaining the proper nutrient balance in the application of fertilizer is important in getting top profit from money invested in fertilizer, advises Bill Pennett, extension soil chemist, in charge of the Texas A & M College Soil Testing Laboratory.

Too much nitrogen applied to a crop will often cause a plant to become vegetative and lessen the fruit set. Too much phosphorus or potassium in relation to nitrogen, he adds, will cause a plant to fail to make its top potential yield.

To determine the proper nutrient balance for a soil, Pennett suggests that a soil test be made. A soil test will determine the amount and kind of the various plant nutrients that should be applied to give the proper nutrient balance for the crop that is to be grown. The result is the application of the

most profitable rate of fertilizer. A soil test will also eliminate unnecessary application of nutrients not needed.

Bennett points out that if soil samples are taken, it is necessary to take a sample which will give a true representative picture of the field being tested. A poorly taken sample, he points out, could result in a fertilizer recommendation which actually could be misleading and result in wrong recommendations.

Dairying First-Hand Study for Brownies

Brownie Troop 147 studied dairying first hand when they made a trip to the Burnett Dairy Farm, west of town, Thursday afternoon.

"It takes 2½ minutes to milk a cow with suction and the electric milker," said Mrs. James Burnett, as she explained the working of milkers. She also gave them information on the care of milk.

They viewed the farm's orchard and observed the bees at work in the apiary.

Barbara Jean Quigley and Glenda Kaye Webb were welcomed as new members. Susie Smith was a guest. A check revealed over 12 cartons of Girl Scout cookies sold.

Others making the trip were Shirley and Susan Farrar, Kay Fincannon, Frances Parker, Marcia Creamer, Martha Ruth Thomas, Sherry Timmons, Janice Shoemate, Rochelle Brock, Barbara Bigard, and Mmes. J. L. Fincannon, leader, Jerry Farrar, assistant leader, Jerry Quigley and George Webb.

'Genius in the Jungle' Is Reviewed for Guild

Mrs. George Weiss of 502 East Buckley reviewed "Genius in the Jungle," by Joseph Gollomb, when Wesleyan Service Guild met March 19 in First Methodist Church.

Mrs. Mary Ruth Nelson, president, conducted the opening and introduced the guest speaker. In giving the review,

SORORITY TEA — Pictured in upper picture, from right, are Chris Woods of 1310 North A, Jean Floyd of Route 2, Betty McGuire of 1606 East Cardwell, all rush-ees of Tau Phi Chapter of Beta Sigma Phi Sorority, and Sue Stuart of 701 East Broadway, a member, as they attended a preferential tea given Sunday afternoon in the home of Letha Feagins of 1410 East Tate. In the picture on the right, from left, are Madolyn Noble of 1401 East Buckley and Willa Mitchell of 1021 East Hill, both members, and Jean Floyd. (NEWSfoto)

Mrs. Weiss revealed events in Albert Schweitzer's early life that influenced his actions in later years.

TSCA Meet Attended By Brownfield Doctors

Dr. T. H. McIlroy and Dr. and Mrs. Howard McIlroy of McIlroy & McIlroy of 220 West Lake attended the bi-district meeting of Districts 2 and 3 of the Texas State Chiropractic Association, meeting in Plainview Sunday.

Dr. J. C. Willmon, District 3 president, was in charge of the meeting. Dr. C. T. Harkey, state president of Victoria, was guest speaker. About 70 attended.

Mrs. Denison also gave a report on district conference that met recently in Hereford. Others attending the meeting were Mmes. Burton Hackney,

Preferential Tea Is Held

Tau Phi Chapter of Beta Sigma Phi Sorority held their spring preferential tea Sunday afternoon in the home of Letha Feagins of 1410 East Tate.

The table was laid with a white cut-work cloth and had a center piece of yellow rose buds, carrying out the sorority's colors. "Yellow" tapers flanked the arrangement with a silver tea service at one end. Greek letters trimmed the white cake.

Rushes attending were Betty McGuire, Chris Woods and Jean Floyd. Members present were Sue Stuart, Billy Chambliss, Betty Hippie, Bettye J. Smith, Marilyn Noble, Madolyn Noble, Willa Mitchell, Claudia Maple, Diana Gary, John Lou Callison and Letha Feagins.

—April 10, 1958—

'Customs of Africa' Told To Study Club

Mrs. Bill Gorby of 1207 East Hester spoke on "The Customs of Africa," when Junior Women's Study Club met Monday afternoon in Seleta Jane Brownfield Clubhouse.

Mrs. Billy Blankenship, president, was in charge of the business meeting as they voted to make a donation to the Nancy Gee Cancer Fund.

Mmes. Buddy Orr, Gorby and Alton Martin brought reports from the district convention held in Childress.

Mrs. Orr, program chairman, introduced Mrs. Gorby and Mrs. Tom Adams, speaking on "The Uncut Gem."

An Easter motif was used in decorating the table for the serving of hot spiced tea and ribbon sandwiches by Mrs. Orr.

Those present were Mmes. Blankenship, Harley Rodgers, Adams, Gorby, Baxter Loe, Martin, H. I. Nelson, Don Hewitt, Leo Wenzel and Orr.

'Centerpieces' Are Discussed By Club

Union HD Club met Thursday in the home of Mrs. Oliver Miller.
 Roll call was answered with a "Suggestion for a Centerpiece," followed by a devotional read from Col. Chapter 3.
 Council report was given and the demonstration and discussion on flower arrangements was conducted by Mrs. Miller.
 Refreshments were served to Mmes. Gus Pollard, Bertie Stewart, Rufus Dill, Jimmie Farrah and Aubrey Puryear, a new member.

Letter from the Editor

Many questions come to me in letters I receive from friends in Texas. They are questions about unemployment and what can be done to provide more jobs for our people — questions about the possibilities of reducing taxes — questions about the Social Security program, the farm problem, and many other subjects.
 Many of these questions are of general interest. I have therefore decided to answer some of them in this News Letter — although, of course, I reply directly to people who write me. The answers given are based on the best information available from Congressional committees and Executive Agencies — and, when they involve a question of personal opinion, on my own views.
 Is the present business slump likely to turn into a depression?
 All of us naturally hope not. Personally, my confidence in the future of our country is strong. I do not accept the theory that our nation is doomed to "boom and bust" cycles. I believe the American people have the initiative, the energy and the courage to tackle any problem, no matter how big.
 Between five and six million people are out of jobs. What is the Government doing about unemployment?
 Approximately two million potential jobs could result from enactment of various measures pending before Congress.
 The accelerated highway program would create a potential of 600,000 jobs. The bill providing this has been approved by the Senate Public Works Committee and will be taken up by the Senate in the very near future.
 The Housing Bill could create a potential of 600,000 jobs.
 A speed-up in expenditures of money already appropriated for civil and military public works would create a potential of 480,000 jobs. The resolutions I introduced calling for such a speed-up have been approved by Congress.
 The \$1,500,000,000 omnibus

The Rev. Alton West preached here Sunday with 37 present for Sunday school. The Rev. Mr. and Mrs. West and children visited Mrs. Neil Barrier in Treadway-Daniell Hospital and in the home of Mr. and Mrs. M. C. Wade.
 Mr. and Mrs. Lester Ericson and Tim from Meadow visited Sunday evening with Mrs. Martha Howard and Johnny.
 Mr. and Mrs. O'Neal Watson spent the weekend in Amarillo visiting with Mrs. Watson's sister and family, Mr. and Mrs. Clarence Land.
 Mrs. Bernard Bishop and girls from Snyder visited Sunday with her parents, Mr. and Mrs. Roy Barrier and children.
 Mr. and Mrs. Bill Dudley, Mr. and Mrs. T. P. Coker and Harry, all of Lubbock, Mrs.

AAUW Fellowships Discussed by Club

Miss Ellen Griffin of 901 East Reppito was speaker when Brownfield American Association of University Women met Thursday evening in Seleta Jane Brownfield Clubhouse.
 Speaking on "AAUW Fellowships," she told of the requirements necessary to win a scholarship. The program was under the direction of Miss Creola Moore and Miss Marie Gracey.
 Those attending were Mmes. Virgil Crawford, Byron Rucker, George Weiss, and Misses Griffin, Moore and Gracey.

CONVERSATIONALIST
 She: "Why do you call your boy friend a small-talk expert?"
 He: "If there's nothing to say, he'll say it."

Ethel Young and Eddie, Mr. and Mrs. Warren Young and children, all of Brownfield, were dinner guests Sunday in the home of Mr. and Mrs. E. J. Duncan and children.
 Mr. and Mrs. J. W. Young and children visited Sunday in Lamesa with her sister and family, Mr. and Mrs. W. E. Johnson Jr.
 Mr. and Mrs. O'Neal Watson and children and Mr. and Mrs. James Watson and children had the women's brother and family, Mr. and Mrs. Charles Kirby, as Sunday night visitors.
 Mr. and Mrs. James Watson and children visited relatives in Lenora Saturday.
 WMU met in the home of Mrs. Leroy Barrier Monday evening. Mrs. Barrier gave the program on "Foreign Missions." Those present were Mmes. M. C. Wade, T. J. Duncan, Charles Duncan and Alton West.
 Mr. and Mrs. Neil Barrier have a new son, Terry Neil, born March 15.

SHOULD SAVE EARLY FRUIT
Early Season Insect Control Important To Profit Angle Of Cotton Production

A good cotton insect control program is one that gives protection to the plant and its fruit before damage occurs.
 It also is important that injurious insects not be allowed to build up into damaging numbers. Most growers feel that the early crop is their money crop, and go all-out in protecting the early squares from damage by insects.
 The first fruit or squares of the cotton plant are very attractive to two insect pests — the fleahopper and the boll weevil.
 About the time cotton plants first start squaring, fleahoppers leave their host plants and move to the more attractive cotton fields. This tiny insect sucks the juices from the newly set squares, causing them to turn brown, then black and fall off.
 The loss of this early fruit hurts in several ways. The yield is reduced, maturity is delayed, and the plant is thrown into a vegetative-type growth. When this occurs, the plants require excessive amounts of water and the extra leaf growth cuts down on the number of squares the plant sets.
 Fortunately, the boll weevil is not found in all sections of Texas. But, when they are, they are rough and tough, generally causing greater loss than any other insect.
 The boll weevil usually moves into the field about the time the crop starts squaring. They feed on the small squares and terminals until the squares reach the one-third grown stage.
 Then they lay eggs in these older squares and reproduction starts. It takes about 10 to 12 days from the time plants start squaring until the first squares reach the one-third grown stage. This is the key to economical boll weevil control; for, by killing off the boll weevil before they reproduce, both damage and reproduction are stopped.

Founder's Statue To Be Unveiled at Post; Celebration Is Set

POST—Television stars Danny Thomas and Spring Byington, the mayors of Battle Creek, Mich., and Post, and the Wayland College International Choir will head the program list here April 5, for unveiling and dedication of a statue of C. W. Post, the town's founder.
 The statue will be unveiled at 11 a.m. by Post's daughter, Mrs. Merriweather, Post of Washington, D. C. The dedicatory address will be by Mayor James L. Minor of Post.
 Also on the program will be Russell V. Worgess, mayor of Battle Creek, whose city statue of C. W. Post was used to make the replica erected here.
 The "Danny Thomas With Spring Byington Show" will be presented at 2:30 p.m. in the grade school auditorium.
 Since the auditorium seats only 600, a closed circuit TV network will carry the show to screens located in other school buildings of the city. Thomas is scheduled to bring a small musical group here with him for the show.
 The statue of Post is in place here on the east side of the Garza County courthouse lawn.

Learn about truck comfort in one easy "lesson"!

Take our "comfort course"—drive one of our new INTERNATIONAL Trucks.
 We'd like you to try it on the roads you know are rough. Feel how easy it takes the bumps. See how relaxed you are after handling this sleek new INTERNATIONAL in traffic. Notice the extra room and visibility of its extra-quiet cab.
 Yet with all this comfort, INTERNATIONAL is the thoroughbred truck, built rugged to cost you least to own.
 Treat yourself to a drive on us... today!

About Your HEALTH

A weekly public service feature from the Texas State Department of Health. HENRY A. HOLLE, M. D., Commissioner of Health

AUSTIN — With proper care and prompt treatment from your physician, those unsightly varicose veins, the scourge of pretty legs, can be normal again.

Physicians report that they often have women patients who complain about varicose veins. Some of them admit to the doctor that they are embarrassed because the unsightly blotches on their legs are so noticeable through their nylon hose.

Mental health as well as physical health is involved. Such seemingly unimportant troubles can upset an individual until he or she thinks up excuses to keep from going to a neighborhood swimming party, where the varicose veins would be on display.

Varicose veins are caused by certain disturbances in the normal make-up of the individual. They can be treated. Continued trouble in the veins may lead to noticeable symptoms, such as pains in the legs. Swelling may occur because the skin is no longer properly nourished by the blood.

Continued malnourishment in the skin can lead to an ulcer. A danger signal for this complication is a brownish patch on the leg where one finds the varicose veins.

What can you do about varicose veins? Your first move is to go to your physician. He will want to make sure that there is no underlying disturbance present, before he can

start measures for treatment of the varicose condition.

Treatment will be given to try to remove the difficulties which cause the bulging veins. There is no method for restoring the already troubled veins to normal; however, they can be obliterated so that the women may again wear nylon hose and the man may appear in a swim suit without embarrassment.

There are several methods of treatment available and commonly employed by the physician.

Some of these are: injections of certain drugs which cause a diminishing of the bulging veins and occasional operations which tie off a portion of the affected vein. Another popular remedy is the bandaging of the leg with an elastic bandage to prevent some of the swelling and help overcome the back pressure and pooling of blood.

So if you are not getting justice from the new super-sheer hose styles or are dreading the forthcoming summer for fear of showing your legs — see your physician. Frequently, he can do something about it.

Sgt. Hungerford Is In Marine Exercise Off Carolina Coast

Marine Sgt. Paul H. Hungerford, son of Mr. and Mrs. P. H. Hungerford of Route 5, and husband of the former Miss Betty Steward of Tahoka, is taking part in a major Atlantic Fleet amphibious exercise off the coast of North Carolina with the 2nd Marine Division from Camp Lejeune.

The exercise, designed to train Marines in modern amphibious warfare, got underway March 13 when the Leathernecks boarded ships at Norfolk, Va., Morehead City, N.C., and Vieques, Puerto Rico.

Following preliminary landings by helicopter, the main amphibious assault landing was made March 22 on Onslow Beach, N.C. The exercise will come to an end March 31 after a week of operations ashore.

Speed, dispersal, mobility and the use of atomic weapons are being stressed by the 30,000 Marines, 10,000 sailors, 60 ships and 260 aircraft taking part in the operation.

The Jim Hays Report Birth of New Grandson

Mr. and Mrs. Jim Hays of 1011 East Cardwell have a new grandson, Kirk Allan Heberly, born March 16, in Lincoln, Neb., and weighing 7 pounds 14 ounces.

He is the son of Lt. and Mrs. E. A. Heberly of the Air Force. She is the former Bertha Hays.

"FAVORITE RECIPE" — Pictured is Mrs. W. P. Norris of 1205 East Reppito as she prepares her favorite recipe, buttermilk pie. Cream 1 1/4 cups sugar and 1/2 stick of softened oleo, add 3 eggs, one at a time and mixing well after each addition. Add 3 tablespoons of sifted flour, 1 1/2 teaspoons vanilla extract and 1 cup of buttermilk. Pour into unbaked 9" pie crust and sprinkle top of pie with nutmeg. Bake in 350 degree oven for about 45 minutes. Mrs. Norris said, "The original recipe called for more sugar and oleo but my family prefers it not quite so rich." (NEWSfoto)

You Can't Beat a JOHN DEERE 2-WAY DISK PLOW FOR GOOD WORK!

Engineered for superior work in tough, closely compacted soils, John Deere No. 880 Series Two- and Three-Furrow Two-Way Disk Plows add integral convenience to easy-on hookup, full hydraulic control, low operating cost, and extra-strong, trash-shedding John Deere Truss-Frame construction.

No. 880 Series Plows take their depth quickly . . . hold to their work in the worst conditions . . . trail "like a shadow" . . . have strength to spare for season after season of top-notch tillage in "plow-killing" land.

Come in soon for complete information on these fine, modern, two-way disk plows.

Terry County Farm Bureau Members See Their New Quarters!

TERRY COUNTY FARM BUREAU — Owned exclusively by the membership, new offices of TCFB were thrown open to the public Saturday during open house. The building is located at 208 Tahoka Road, where more than 300 guests attended the event Saturday. Among them were Mr. and Mrs. Alton Loe of Route 2, long associated with the organization. He currently is a director. The building faces Tahoka road, and has much parking space to the rear. It is the realization of a dream long nurtured by TCFB. (NEWSfoto)

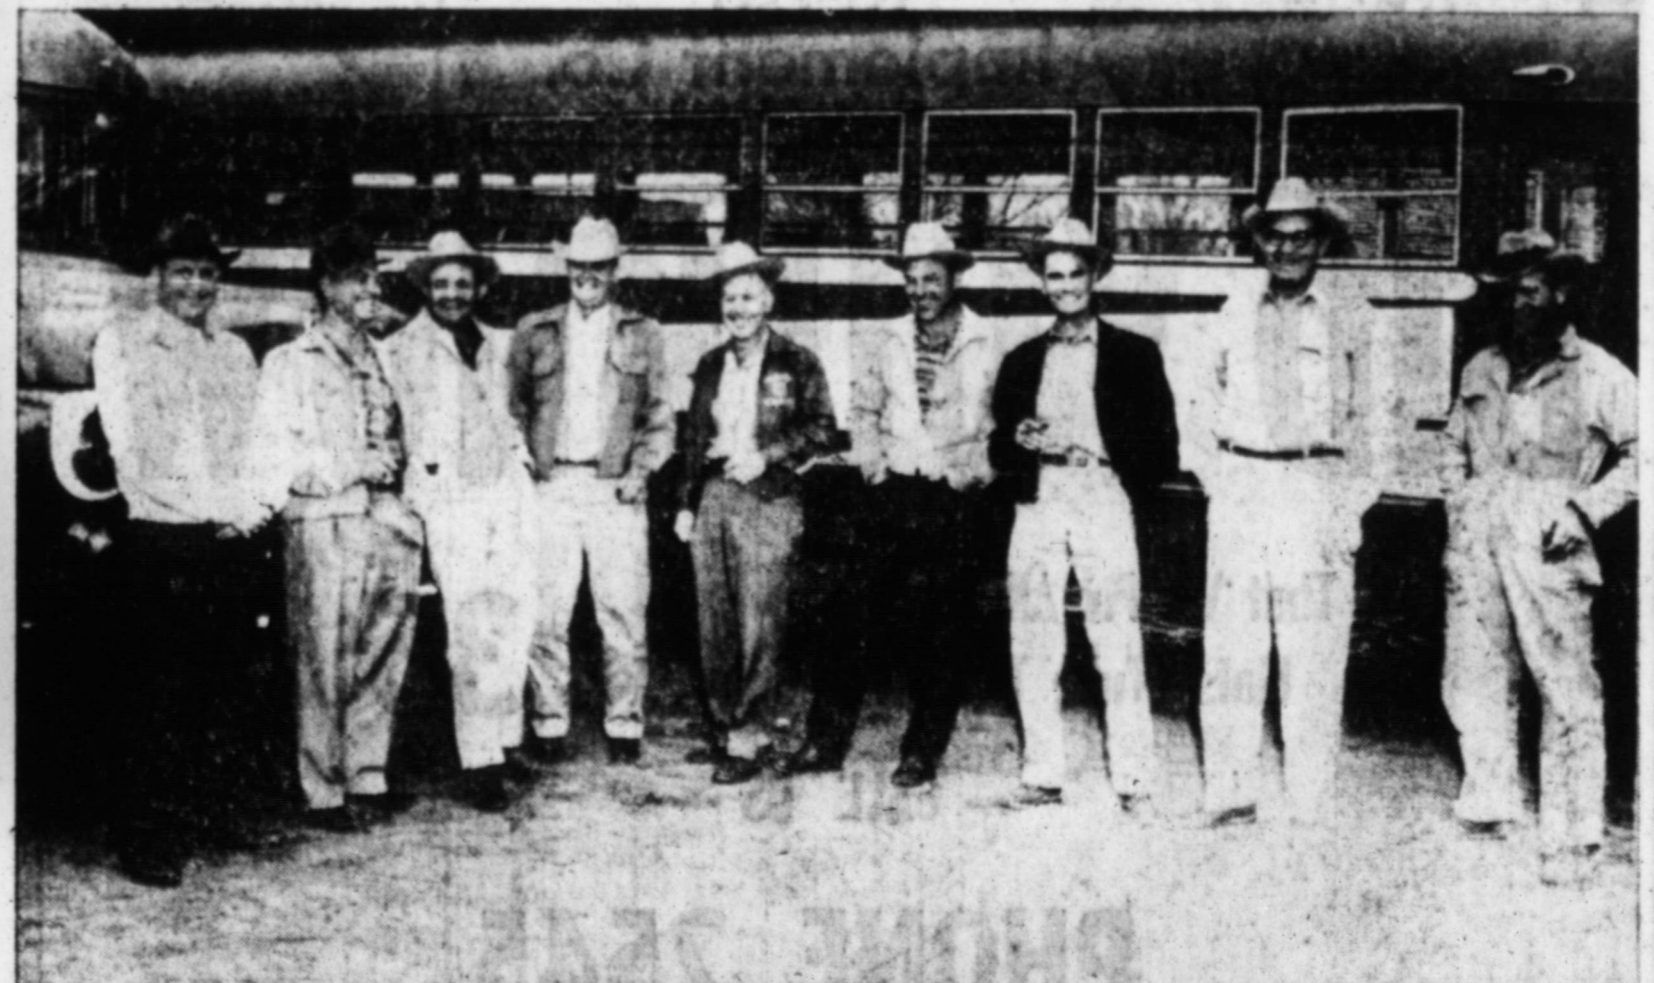

NEW BUILDING SPARKS SPIRITS — Quartet pictured above found the atmosphere of the new Terry County Farm Bureau site at 208 Tahoka Road conducive to relaxation. From left: Henry Williamson, head here of U. S. Soil Conservation Service; G. I. (Bogie) Sims of Route 3, director; Winfred Tucker of Route 1, Meadow, director, and Oliver Grote of 808 East Reppto, manager of Terry County Farm Association. Occasion was the Farm Bureau's open house Saturday, during which most of the group's members saw their new building. (NEWSfoto)

VISITORS CAME FROM ALL AROUND — Main business counter in TCFB's new office served as a refreshment counter Saturday during open house. Dispensing coffee are Mrs. Grote and Mrs. Hogue. Among visitors were, from left, Mr. and Mrs. Bill Carter of Route 2, Mr. and Mrs. J. M. Burlston of Meadow, and Mrs. Alton Loe of Route 2. (NEWSfoto)

WHAT'S AN OPEN HOUSE WITHOUT PRETTY HOSTESSES? — Quartet pictured above was responsible Saturday for the more than 1,000 cups of coffee and 3,000 doughnuts served to guests attending open house at TCFB's new location, 208 Tahoka Road. From left: Mrs. John Hill, office secretary; Mrs. Leon Foots of Route 3, whose husband is a director; Mrs. Carl Hogue of Route 2, wife of the TCFB president, and Mrs. Oliver Grote of 808 East Reppto, whose husband is manager of Terry County Farm Association, an integral part of the Farm Bureau. (NEWSfoto)

OPEN HOUSE GUESTS — Among some 325 guests at TCFB open house Saturday was the group pictured above. From left: Harry Hyman of Route 1, Shorty Forbus of 907 South Seventh, G. I. (Bogie) Sims of Route 3, Ross Ellis of Route 1, County Agent Jim Foy, Winfred Tucker of Route 1, Meadow, James Martin of Route 1, Mon Telford of Old Lamesa Road, and Lee Miller of Route 3. Sims, Tucker and Martin are directors. The group stands beside one of the two huge buses which Terry County Farm Association uses in its bracero program. (NEWSfoto)

Morrow, Sime To Duel For 'Fastest Man' Title

(Special to the NEWS) Some 10,000 persons are expected to be in the stands in Big Spring on April 4 and 5 when the American Business Club Relays get underway.

Universal Newsreel is sending camera men for films. Sports Illustrated magazine is sending representatives. Texas Associated Press sports scribe Harold Ratliff is coming — they are all awaiting the outcome of the race that will determine "fastest living man", in little more than nine seconds.

The heralded duel is between Bobby Morrow of Abilene Christian College, triple gold medal winner in last year's Olympics, and Duke's Dave Sime, the only man to ever de-

feat the AAC flash. Both speedsters have been clocked in 9.3 seconds for the 100-yard dash.

Morrow has beaten Sime once; Sime has outrun Morrow once — and this is the big one.

Almost overshadowed by this match are more than a few other great athletes, all of whom are likely supply record-breaking performances.

Texas University's Eddie Southern is coming, bringing recent publicity of a world record-tying quarter-mile sprint of 46.2. The mark was set by Herb McKenley of Illinois last year; tied by Southern in the Fort Worth Recreational meet, held a couple of weeks ago.

Teammates Hollis Gainey, sprinter, and Don Beard, hurdler, will also carry Longhorn colors with Southern. Gainey emerged highpoint man in the Border Olympics held in Laredo earlier this year.

Other collegiate contenders, these closer to home, will be Texas Tech's Tommy Patterson, hurdler; James Davis, quarter miler, and Dab Thornton, high jumper. Jimmy, a three-time state high school mile-run champion, and Ken Fannon, hurdler from O'Donnell, are other ACC boys enter-

Tech Seat Options To Be Available At Lubbock Auto Show

An opportunity to select seats in Texas Tech's to-be-expanded Jones Stadium will be afforded visitors to the West Texas National Auto Show in Lubbock Municipal Coliseum this week.

The Stadium Expansion Office, directed by Robert Kynoch, will move to the Red Raider Club booth in the Coliseum from 5:30-11 p.m. Wednesday through Friday, from 1:30-11 p.m. Saturday, and 1:30-7 p.m. Sunday.

With the seating chart that will be in the booth, football fans will be able to pick out the exact seat they want in the enlarged stadium.

Options, good for 15 yards, are available at \$300, \$200, and 100, depending upon the location of the seat. Places in the enclosed first floor of the press box are also available at \$2,500 a pair, according to Jimmie Wilson, business manager of athletics.

Expansion of the stadium, from 27,000 seats to 55,000 is to be completed by the fall of 1960, the first year Texas Tech will compete in Southwest Conference football play.

A staff will continue on duty at the Stadium Expansion Office, 2109 Avenue Q. Its telephone is PO 2-0296.

17 WILL BE ENTERED IN MEET

Red Raider Thinclads To Compete In Texas Relays Friday And Saturday

Texas Tech will be represented by nine varsity track and field men and eight freshmen in the Texas Relays at Austin Friday and Saturday.

In the varsity meet, Coach Delmer Brown is entering Roger Crawford of Waco in the relay events; E. H. Davis of Granbury, 100 and relays; Tommy Davis of Granbury, relays; Johnny Henderson of Amarillo, relays; Doyle Herring of Colorado City, relays; James Leonard of Abilene, pole vault; Tommy Patterson of Waco, high hurdles and relays; W. L. Thornton of Aspermont, high jump; Pete Dyson of Fort Stockton, relays.

Freshmen include Reggie Alexander of Lubbock, 100 and relays; James Donahoo of

COOK-OUT — Trio above took part last week in a "cook-out", staged by Sagebrush Neighborhood for mothers of Brownfield Girl Scouts and Brownies. Purpose: to train the leaders, assistants and committee mothers so that they might train the girls. From left: Mrs. Phil Gausch of 1212 East Lons, Mrs. J. D. Williams of 911 East Ripley, and Mrs. Truett Flache of

702 East Buckley. Stuff they're watching cook is dishwasher. They were charged with the "cleaning up" after the noon meal, which was prepared in the open in Coleman Park. Much of the practice in cooking, singing and games learned last week will be applied when Brownfield Girl Scouts have their five-day camp-out early this spring. (NEWSfoto)

Marine Science Studies Along Texas Coastline Urged By SCOT Secretary

AUSTIN — Expansion of the University of Texas Institute of Marine Science to expedite development of coastal resources was recommended by Cecil Reid, executive secretary of Sportsmen's Clubs of Texas, Inc.

Addressing an Austin Civitan Club dinner, he said the University should lead the nation in sea research and thereby provide adequate knowledge for the wisest utilization of the state's last frontier along its 600 miles of Gulf front.

Reid pointed out that the University is the logical agency to spearhead this movement since it is the acknowledged major Texas state institution and because it already has a branch located at Port Aransas.

Love, Draper, Hart, Foster; sprint medley — Foster (440), Janak (220), Alexander (220), Hart (880).

"The present staff has an excellent rating but is much too small for the vast Gulf of Mexico coastal area involved."

said SCOT's secretary, who formerly was a director of marine fisheries for the Game and Fish Commission.

"Research is vitally needed not only in the field of marine biology but in chemistry, geology, meteorology, ecology, physics and hydro-

logy," he added.

"You have heard of foods of the future from the sea being minute organisms, mostly in the form of algae. At this time, the staff of the UT Marine Institute is making studies of algal productivity.

"Also they are perfecting methods of measuring productivity of the bays by chlorophyll measurements. Later this work will be expanded to the deeper Gulf waters.

"In my opinion we need to develop our sea resources. This, the last frontier of Texas, can only be developed and managed properly through knowledge. And this knowledge comes only through scientific research," he said.

CATTLE RAISERS NAME NEW OFFICERS — Left to right are Dolph Briscoe Jr., of Uvalde, first vice president, Leo J. Welder of Victoria, second vice president, and Norman Moser, of DeKalb, president of the Texas and Southwestern Cattle Raisers Association. They were elected March 19 at the Association's 81st annual convention in San Antonio.

AT SAN ANTONIO MEETING

DeKalb Cattleman Is Elected To Head Texas, Southwest Raisers Association

Norman Moser of DeKalb, was elected president of the Texas and Southwestern Cattle Raisers Association, meeting in San Antonio for its 81st annual convention.

Dolph Briscoe Jr. of Uvalde, was named first vice president, and Leo J. Welder of Victoria, second vice president.

Hugh A. Fitzsimons Jr. of San Antonio, and Ed Kenley of Lufkin, were added to the association's board of directors, Charles A. Stewart of Fort Worth, was re-named secretary — general manager and Fred H. Korth of Fort Worth, was elected treasurer.

The convention voted acceptance of board member Ben H. Carpenter's invitation to meet in Dallas next year. The dates, traditionally in March, will be fixed later.

Moser, 44, is a native Texan whose principal ranching activities are in northeast Texas, where he has 15,000 acres in Bowie County. He is married and has four children. Educated at North Texas Agricultural College and Texas A & M College, Moser has been a cattle raiser for 23 years.

A long-time member of the cattlemen's association, Moser formerly served as second vice president.

Improvement in Federal meat grading practices and procedures highlighted recommendations submitted by the Association's resolutions committee and adopted.

The Association called on the United States Department of Agriculture for a program of development and field testing leading to further division and identification of present quality grades of meat, and asked cooperation from the packing and processing industries.

Another resolution made it clear, however, that the cattlemen still favor voluntary observance of Federal beef grading procedures.

The convention voted in favor of adequate appropriations for Federal public health inspection of interstate meat shipments as required by law, and for repeal of the present three per cent freight excise tax.

The group advocated legislation now pending which would transfer Federal jurisdiction over retailers from the Department of Agriculture to the Federal Trade Commission.

The United States Department of Agriculture came in for approbation in several resolutions. Praise was expressed

Let's Talk Livestock!

By TED GOULDY

FORT WORTH — Livestock producers in the Southwest undoubtedly are hearing a great deal of the "recession" talk and comment that is going the rounds these days. They are paying little attention to it, and their position seems to be quite well taken. Livestock prices have been uniformly strong, and a few facts and figures in this area of the nation's business might be a good tonic for some of the politicians squawking along the Washington wall these days.

Hog prices in February, and also this month of March, are at levels which, have been equalled at this season of the year only four times previously. Cattle prices are at the

lowest levels since 1952 and at Chicago fed steers in recent days have been within a short Eisenhower putt of the \$40 level. Monday at Fort Worth three loads of choice steers from George McClung of Cleburne sold at \$30, weighed up without a shrink or a sort, to Texas Meat Packing Co., of Dallas.

One year ago milk fat lambs topped at \$25, and old crop lambs at \$22 and \$22.50 at Fort Worth. Monday the milk lamb top was \$24 and old crop lambs sold at \$21.50. The prices are \$1 lower than a year ago, but the expense of producing lambs this year has been negligible, compared to the high feeding bills incurred in getting lambs to market last year. The profits this year, according to sheepmen interviewed at Fort Worth Monday, are far, far in excess of a year ago.

Another thing, the marketing of lambs has been delayed by wet and cold weather, and as a result lambs have been slower in fattening than had been expected in view of the good range this winter. In fact, it has been something of a shock that so few of the milk fat lambs are really choice or prime.

Best thing the livestock folks have is two fold: (1) Range condition and moisture prospects have seldom, if ever, been better. (2) Apparently the working people who buy meat are still financially able to take care of the supply, else the packers would not be out in the alleys at Fort Worth every day competing for the livestock to such an extent that prices have gotten higher and higher.

In view of these things it is a little bit difficult to convince the livestock producers in the Southwest on the recession idea. In fact the driving optimism in livestock ranks in a direct contrast to any feeling of depression in the national economy.

highest levels since 1952 and at Chicago fed steers in recent days have been within a short Eisenhower putt of the \$40 level. Monday at Fort Worth three loads of choice steers from George McClung of Cleburne sold at \$30, weighed up without a shrink or a sort, to Texas Meat Packing Co., of Dallas.

One year ago milk fat lambs topped at \$25, and old crop lambs at \$22 and \$22.50 at Fort Worth. Monday the milk lamb top was \$24 and old crop lambs sold at \$21.50. The prices are \$1 lower than a year ago, but the expense of producing lambs this year has been negligible, compared to the high feeding bills incurred in getting lambs to market last year. The profits this year, according to sheepmen interviewed at Fort Worth Monday, are far, far in excess of a year ago.

Another thing, the marketing of lambs has been delayed by wet and cold weather, and as a result lambs have been slower in fattening than had been expected in view of the good range this winter. In fact, it has been something of a shock that so few of the milk fat lambs are really choice or prime.

Best thing the livestock folks have is two fold: (1) Range condition and moisture prospects have seldom, if ever, been better. (2) Apparently the working people who buy meat are still financially able to take care of the supply, else the packers would not be out in the alleys at Fort Worth every day competing for the livestock to such an extent that prices have gotten higher and higher.

In view of these things it is a little bit difficult to convince the livestock producers in the Southwest on the recession idea. In fact the driving optimism in livestock ranks in a direct contrast to any feeling of depression in the national economy.

One businessman rancher put it this way: "Inventories in wholesale and retail establishments have reached the point to where buying is almost mandatory. Our range conditions, coupled with big feed carry-over, and current livestock prices, make the view ahead look mighty good to most folks who care to look for anything on the optimistic side."

MOST CATTLE STRONGER FED STEERS HIT \$30

The cattle trade at Fort Worth Monday was strong and active. Exception was fat cows which were weak to 50 cents

In this unpredictable life of ours, it is the law's-business to take a long look into the future and say what would "happen if."

For in your contracts, leases, wills, insurance policies, escrows, and the like, you had better say what would "happen if" some of your best laid plans go awry. Such events the laws calls "contingencies."

Who gets the "earnest money" you put down, if you

lower. Some stockers and some fed cattle and bulls were 25 cents or more higher. Good and choice fed steers and yearlings drew \$25 to \$30, lower grades \$16 to \$24. Fat cows \$18 to \$22, canners and cutters, \$12 to \$18. Bulls \$16 to \$22.25. Good and choice slaughter calves \$25 to \$29, and medium to good stocker steer and heifer calves \$25 to \$30, some mixed calves at \$30. Stocker yearlings \$28 down. Fleshy feeders \$25 down, feeder yearlings \$26.50 down.

LAMBS 50c TO \$1 OFF; HIGHER GRADES SCARCE

The offering of 12,000 sheep and lambs at Fort Worth Monday was featured by a relatively small percentage of strictly choice lambs. Trade was slow and feeder and stocker lambs closed 50 cents to \$1 lower. Sheep and goats sold steady.

Good and choice milk fat lambs drew \$22 to \$24, and good and choice old crop lambs drew \$20 to \$21.50, those at the higher figure with No. 1 pelts. Recently shorn kids sold at \$20, \$20.50 and \$21. Cull to medium lambs drew \$16 to \$20. Shorn medium to good feeders drew \$17 to \$20. Slaughter canner owes \$9 to \$11. Old bucks \$8 to \$9.50. Aged wethers \$16 down. Few slaughter goats \$6.50 to \$7.

HOGS STEADY TO 25 CENTS HIGHER, TOP \$22-\$25.50

Trade was active and choice meat type hogs topped at \$22.00 to \$22.25, a few to \$22.50 at Fort Worth Monday. Mixed grades and weights bulked at \$19.50 to \$21.50. Sows cashed at \$18 to \$20.

cannot go through with buying that house? What if you want to pay up that loan and save interest? What happens if the people you name in your will should die before you do, or, if you all perish in a common catastrophe like a car smash-up?

The law is wise but it cannot do your thinking for you. It settles such questions — but not always to your liking. If you don't make a will, the law says who shall get your property. If you leave certain things out of a contract, the law assumes that you meant to put some certain things in. But how much better it would be in the first place to put them in the way you want them, by asking "what if?"

Take your will now: Your first desire, of course, is to take care of your wife and children — those nearest to you. But it won't hurt anything to put "contingent beneficiaries" in your will in case something happens to thwart your first intentions.

Review your will every year or so to see if it meets the new things that have come up, or arrange with your lawyer to write in "contingent

beneficiaries" — those who will receive your property if your first beneficiaries should die before you do.

You may long ago have had your son provided for in your will, but what about those lovely grandchildren he and his wife have presented to you since you wrote the will? What would happen to them if things go wrong and your son should die before you?

Or take your widowed sister and her children now. Suppose you and your immediate family should be wiped out: Would you want your property to go equally to her and to your well-heeled bachelor brother? Or would you prefer to leave your brother some token of your affection, and then really take care of your sister.

You may be impatient with the law's long memory. Such things never happen, you think, but the court records are full of plans which failed. And so the law has ways in which you can provide for "what happens — if." One way is the device of contingent beneficiaries in your will and insurance policies.

RARE, INDEED — Probably the most difficult award which a Phillips 66 dealer can come by is the "Golden Approach," presented by his own company. Basis of the presentation is that a "mystery customer" — usually a traveling man not associated with Phillips — has his car serviced at the dealer's station. If the service conforms with the "outstanding drive-way performance in keeping with the six steps of the Golden Approach," the dealer may win the award. However, he's in competition with hundreds of other dealers throughout the system. Frank Molina Jr., left, employee of L. C. Webster's 66 Station at 620 Lubbock Road, serviced the car Friday of the "mystery customer." Center is Webster, as he accepted the Golden Approach certificate from John Hansard, Phillips district representative. The six steps are: greet customer properly, give complete under-hood service, clean all glass, whisk broom service, offer to check tires, and thank customer and invite him to return. (NEWSfoto)

YES NO PROTECTION — "Why are you standing there throwing stones at that poor little boy?" "Because I daren't go any closer, miss. He's got whooping cough."

State Capital NEWS

By Vern Sanford

By VERN SANFORD
Texas Press Association

AUSTIN — New names. New faces. But same old problems plague the state insurance liquidation division.

Next Legislature undoubtedly will step in and try to assign authority and responsibility more definitely — possibly overhaul the whole system.

Latest chapter in the division's history of criss-crossed efforts is the appointment of a new general counsel to the liquidator. He is Cecil C. Rotsch, former assistant attorney general.

Significant aspect of this is that Rotsch was appointed by Insurance Commissioner William A. Harrison. Whether the State Insurance Board, which Harrison represents, or judges of the receivership courts have the right to appoint attorneys for liquidation has been at issue for some years.

Last year Austin District Judge Charles O. Betts appointed Renne Allred Jr. counsel for receivership cases pending in his court.

This prompted the Insurance Board to institute a suit to get a Supreme Court ruling. But the high court's opinion didn't help. It said the Board was giv-

en authority to name the liquidator's attorney, but that the courts could step in and name one, too.

Which is just about what has happened with both Allred and Rotsch named by different persons to serve in apparently the same capacity.

FEE STUDY SET — Most interesting aspect of the liquidation study is the amount of money involved.

Senate investigating committee was told that liquidation attorney Renne Allred had received in 10½ months \$22,350 in fees and \$4,311.08 in expenses. Allred has been in charge of winding up the affairs of several large bankrupt firms, including ICT and US Trust and Guaranty.

Liquidation attorneys, unlike regular state employees, are not paid straight salaries, but receive fees taken from the assets of companies they handle.

Former State Liquidator J. D. Wheeler told the Senate panel that during his 3½ years in the post, the office collected \$4,938,927 with an administrative cost of \$2,102,590.

Senate committee asked for a list of attorney's fees paid out during the past two years. They said the list would be made public.

US TRUST PAYMENTS — One of the most celebrated bankruptcy cases in recent years has begun to unwind.

Dist. Judge Charles O. Betts has ordered the state liquidator to pay out \$2,181,464 recovered

People, Spots In The News

BRAVE Chief Warren Spahn tries to amuse fellow Milwaukee ball-players with goofy hurling pose and succeeds (by losing balance).

WAVE OF THE FUTURE won't hurt this modern house-unit in North Dartmouth, Mass. Scientifically designed, concrete-underpinned house meets rigid construction and insurance specifications.

from the assets of US Trust and Guaranty Co. This represents some 31 per cent of the \$7,300,000 in claims made by creditors, mostly holders of US Trust "investment certificates."

Action was made possible after the Supreme Court made final its ruling that certificate holders had no priority in claims.

DOWN AGAIN — No miracle is yet in sight for the ailing Texas oil industry.

Railroad Commission cut the statewide allowable for April to 2,444,571 barrels a day. It's 120,203 barrels a day less than March. Eight producing days will be allowed, one less than March.

Commission set this lowest-in-history producing schedule after hearing most major oil buyers say they could foresee no substantial increase in demand for oil this year. Com-

sion operates on the philosophy that oil should not be produced unless someone is willing to buy it.

Meanwhile, Texas officials, seeking action to reduce importing of foreign oil, received some hope of help in Washington. Prospects are for reduction of import quotas in line with lessened U.S. demand.

MORE GROWTH SEEN — Recession or no, Texas' rate of industrial expansion exceeds

the national average and possibly will gain steam and set a new record in 1959.

So says the University of Texas Bureau of Business Research in a survey of the state's major industries.

Cited as areas of expansion were chemicals, plastics, aircraft and missiles, electronics, construction materials, metal fabrication, apparel, food processing and furniture.

MORE NEW BUSINESS — In the same vein the Texas Employment Commission reported an increase in new firms launched in Texas during February.

Begun last month were 103 new businesses employing 1,273 persons. In January, 62 new firms employing 910 persons.

LANDING FIELDS URGED

—There will be 100 more landing strips in the Lone Star State if the Texas Aeronautics Commission has its way.

At a joint meeting of the commission and the State Aviation Advisory Council — representing all phases of aviation from glider pilots to aviation directors — a program for stimulating state wide enthusiasm for the construction of 100 additional landing strips was outlined by Chairman Paul M. Fulks of Wolfe City.

"Business in any town in Texas can be improved by the simple addition of an inexpensive landing field for airplanes," Fulks advised. "It's

the commission's plan to advise and assist any town that's interested."

The spiraling increase of interest in flying, particularly on the part of businessmen, has centered attention on more access methods to smaller towns. Even a 2,000 foot grass strip alongside a highway will help, said a number of the airmen.

At present 99 county seat towns in Texas have no airports of any kind.

Also cited by the new commission chairman was the fact that there are 36 towns in the 3,000 and above population bracket; and 33 between 2,000 and 3,000, that are completely shut off from aviation.

"LEGEND OF THE LOST" — John Wayne and Sophia Loren watch apprehensively the approach of some Tauregs in the Sahara Desert. Scene is from Technicolor-Technirama film, "Legend of the Lost," a United Artists release which opens today at The Regal.

Wayne Is Relentless And Roguish in His Film at The Regal

"Legend of the Lost," a drama of adventure and romance in the wild Sahara Desert of Africa, will open today at The Regal through United Artists release.

The picture stars John Wayne, Sophia Loren and Rossano Brazzi, with Kurt Kasznar heading the list of featured players.

Filmed mostly in Libya, where the motion picture camera never before had recorded the beauty, starkness and impenetrable mystery of the desert, "Legend of the Lost" took a company of Hollywood stars and a vast unit of technicians half way around the world to bring this story to the screen. John Wayne, who has proved himself a favorite with moviegoers in such diverse films as "Stagecoach," "The Quiet Man," plays a rugged, relentless and roguish guide in the desert.

The lush Sophia Loren, whose charms need no elaboration at this point, is cast as the girl for whose love Wayne and Brazzi contend.

—April 16, 1958—

Commissioner Studies Agriculture Prospects

The between crops period in farming always is a time for weighing prospects both on the farm, at the market place and in the country, says John C. White, State Agricultural Commissioner.

Probably even more people have been set for wondering what's in store for them this year, considering unusual weather, uncertain legislation, and nervous economic conditions of which much has been said and little done.

Following are a few brief sketches concerning late happenings in agriculture, dealing with commodities, weather, economy, and new developments in farm progress:

WET WEATHER has blessed many and burdened many others. Plains-West Texas wheat prospects look generally good, having already attained enough moisture to carry the crop well into spring.

This is good news to Texas farmers if not to surplus-minded government chiefs who have been having some trouble marketing their goods abroad lately.

Farther south, in the Rio Grande Valley, farmers are less happy with the weather. Onion harvesting has been seriously delayed, by as much as a month in some cases. During the delay, old-crop onion prices climbed higher in commercial trade.

THE RECESSION, along with better supply prospects, is expected to help lower beef prices somewhat from the present healthy level. Some livestock men say prices probably have reached their peak and will gradually drop by as much as 20 per cent by early summer.

TEXAS POULTRY PROCESSORS are keeping an eye on the California state legislature which is considering bills to discourage imported chickens. Although California produces only a fraction of the broilers needed to satisfy the brisk local demand, home growers are fighting hard to keep out Southland competition, not a small part of which is Texas competition.

A sample proposed bill would require retailed chickens to bear a "date killed" stamp, hinting that shipped-in products become stale in transit.

HYBRID COTTONS — crosses between older strains which offer higher yields and better quality — are becoming feasible on a larger scale.

Researchers say spraying cotton with chemicals produces a no-pollen plant which can be then fertilized with pollen from another variety, resulting in a true hybrid. Hybrid cottons up to now have been possible only through tedious hand-pollination.

Convocation Attended By Brownfield Persons

The Rev. and Mrs. Rex Simms, Mrs. U. D. Gorton and Mr. and Mrs. Albert W. Johnson attended the annual convocation of the Episcopal Church of the Mission District of North Texas, held in Odessa March 14-16.

Convening in St. John's Church, Mr. and Mrs. J. W. Eastham, former Brownfield residents, were in charge of convocation arrangements.

FRIDAY AT RIALTO — Glenn Langan gets angry at the attention shown to Mari Blanchard (his wife in the film) by young Dr. Jim Ransom (Lex Barker). "Jungle Heat," a United Artists drama of intrigue, opens Friday at The Rialto.

Meeks, Jones Score In Odessa Track Meet

Larry Meeks and Johnnie Mack Jones tallied Brownfield's only points as Abilene and Andrews dominated the high school field in the annual West Texas Relays at Odessa Friday and Saturday.

Meeks ran the 120-yard high hurdles in 14.6 seconds, but came in fourth behind Abilene's Bob Swafford, who set a new record of 14.45. Rex Wilson of Snyder and Bob Johnson of Abilene took second and third ahead of Meeks.

Jones tossed the iron ball 48-8½ to claim fifth in the shot put event, James Byerly of Crane won the event with a flip of 50-6½.

Farmers and ranchers stored 8,408,584 tons of dry forage in 1957, says Trew. This was 57 per cent more than in drouthy 1956. They also reported that a total of 3,535,156 tons of silage was stored, 36 per cent more than in 1956. The more favorable forage supply have resulted in a strong demand for beef cattle, he adds.

The specialist urges county agricultural agents to stress the need for sound forage programs as the basis for sound beef and dairy operations.

Abilene won the high school division with 48 points. Andrews tallied 37, and Amarillo took the show position with 27 counters.

Four new records were entered into the books, two by Andrews' crack relay teams. The Mustang quartet sprinted to a 42.6 440-yard win in the preliminaries Friday and posted a 42.7 mark in the finals despite a wet track.

The mile relay team racked up a 3:22.5 record in the finals, bettering the record set in the preliminaries by .2 of a second.

Bobby Barrett of Midland recorded a third schoolboy record with a 4:29.7 mark in the mile run. Swafford's high hurdle effort posted the fourth mark.

Team totals — 1. Abilene 48; 2. Andrews 37; 3. Amarillo 27; 4. Odessa 25; 5. Midland 18½; 6. Hobbs, N.M., 18; 7. Pampa 17; 8. Snyder 13½; 9. El Paso Austin 10; 10. Artesia, N.M., 9; 11. Monterey 8; 12. Crane 7½; El Paso Jefferson 7; 14. Borger 4; 15. Lockney and

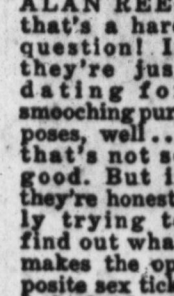

The Inquiring Cameraman

THE QUESTION: What do you think about today's teenagers "going steady?"

THE ANSWERS: MOLLY BEE — Well, love makes the world go 'round ... and what difference does it make how old you are? How else can a girl or fellow learn about life? Not from biology class alone! My going steady with Alan Reed, Jr., works out just dreamy in our new picture, "Going Steady."

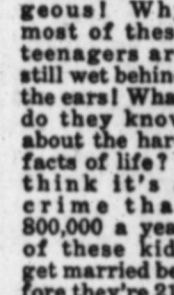

ALAN REED, JR. — Gee, that's a hard question! If that's not so good. But if they're honestly trying to find out what makes the opposite sex tick, I think it's alright. At least, it sure turns out swell for Molly Bee and me in our new Columbia movie, "Going Steady!"

IRENE HERVEY — I think it has some wonderful advantages ... with reservations. Young folks have always been going steady. In Colonial times they called it "bundling." As I see it, there's nothing in life more beautiful than a boy and girl falling in love, marrying and having a family.

BILL GOODWIN — Outrageous! Why most of these teenagers are still wet behind the ears! What do they know about the hard facts of life? I think it's a crime that 800,000 a year of these kids get married before they're 21! There ought to be a law!

Brownfield 3 each; 17. McCamey 2½; 18. Ysleta and Taboka two each; 19. Alpine 1.

Garden-Fresh MORTON'S SALAD DRESSING

Fresher than any other brand on the shelf! As fresh and wholesome as spring vegetables right out of your own garden! Morton's Salad Dressing is made here at home in the Southwest and delivered fresh every single week, direct to your own store, in Morton's little red trucks. Best of all, you'll find that Morton's Salad Dressing gives you the finest quality at a low, low price that really makes a difference in your food budget. Try a quart jar next time you shop.

and just as good as MORTON'S POTATO CHIPS
