

PURCHASE OF HOSPITAL IS GIVEN ELABORATE OKAY AT POLLS BY TERRY COUNTY VOTERS

PARENTS FORGE NEARLY NORMAL EXISTENCE FOR HER

Deaf Deana Rhea Cunningham Refused To Play the Role Nature Had Decried

(Editor's Note: Following is an accounting of deaf Deana Rhea Cunningham, the bitter struggle of her parents to provide a nearly normal existence for Deana, and a happy ending.)

By KLYDIE SCUDDAY
NEWS Woman's Editor
Deana Rhea Cunningham of North Dallas High School will be graduated in May as will thousands of other Texas students.

However, for Deana, deaf since birth, and her parents, Mr. and Mrs. Preston Cunningham of Dallas, graduation will be but another milestone in a struggle which started soon after the girl's birth.

Deana was born in Treadaway-Daniell Hospital on Aug. 7, 1938. At that time, her parents lived on a ranch east of Brownfield. She is the granddaughter of Mr. and Mrs. Jim Cunningham of Tokio and Mrs. Lottie Lance of Dallas.

The Cunninghams soon noticed that their baby laughed and babbled as any other child does in daytime or at night.

DEANA RHEA CUNNINGHAM

when the house light enable them to see things. But in the dark she cried. They also noted that when asleep noises did not disturb her.

Then began their trips to doctors, whose answers and those of friends discussing the case with them were: "You are letting your imagination run away with you. Nothing is wrong with the baby's hearing."

Visits Numerous Doctors
When she did not start talking after a normal length of time they were positive that her hearing was impaired.

The Cunninghams soon lost track of the number of doctors visited in west and north Texas towns and cities. Some doctors began hinting that the baby was not right mentally. One was bold and brutal.

Th Cunninghams did a lot of praying in those days and they were much alone, because friends and relatives were prone to take an attitude similar to that taken by doctors.

When Deana was 2½ years of age, doctors in Lubbock insisted that a tonsillectomy might restore her hearing. It did no good, but they were the doctors who later sent the distraught parents to a specialist in Dallas.

Above Average Intelligence
Imagine the parent's feelings when they discovered they had been sent to a doctor of neuropsychiatry. Living with their child, they knew she was not mentally retarded.

After a thorough examination the doctor assured them, "I don't know why they sent this patient to me. She has normal intelligence, in fact above the average."

He took them down the hall to an otologist, who, in his examination, dropped a large granite tray to the floor directly behind Deana. When the 4-year-old child jumped, he said, "She can hear." Again the

IN JULY PRIMARY

Foshee Will Seek Precinct 3 Post

Burton F. Foshee of Route 4 Friday authorized the NEWS to announce his candidacy for commissioner of Precinct 4 in the upcoming Democratic Primary.

Said Foshee: "After due consideration, I have decided to run for commissioner of Precinct 3 in the coming Democratic election.

"I have lived in the Johnson Community 15 years. I will try to meet all the voters before the Primary.

"If I am elected, I will serve the people to the best of my ability."

Two Bowling Alleys Are Scheduled For Opening Here Soon

Two separate groups of businessmen have advertised in today's NEWS that they will construct bowling alleys in Brownfield.

The A.M.F. Bowling Lanes are said to be opening soon immediately north of the Oil Mill on Lubbock Highway. Builders are E. L. Whitson and E. E. Wesley of Littlefield.

Whitson described the alley as having 12 lanes with automatic spotters.

The second alley, The Terry Bowl, also will be a 12-lane unit, owned and operated by Louis Hochman, former owner of a dry goods store in O'Donnell.

Hochman said his center will feature a snack bar, automatic spotting machines, free parking and Brunswick-Balke-Collendar equipment. It is to be located at 402 West Cardwell.

Copeland Will Head Group Set Up For Traffic Safety Here

County Attorney Morgan Copeland was elected chairman of the Terry Safety Committee which met Tuesday in 106th District Courtroom.

Other officers elected were Paul Rogers of 1308 North A, vice chairman, and Sheriff James Fulford, secretary.

The meeting, attended by 10 Terry residents, was the second attempt to establish a traffic committee here in the past week. It was established at the request of Governor Price Daniel, who last week opened a drive to cut down on traffic deaths in Texas.

The group discussed various factors contributing to deaths on Terry highways. Amos Egen, highway patrolman, noted that alcohol was a major factor in 7 of 15 highway fatalities in Terry last year. Police Chief James Tippitt added, "The use of alcohol was evident in many other non-fatal accidents here last year."

The committee urged the motoring public to report potentially dangerous spots on county highways such as unmarked curves and hills.

Future Brownies Asked To a Tea on Wednesday

A tea will be held at 4 p.m., Wednesday by Girl Scout Sagebrush Neighborhood for all future Brownies and their mothers.

Chairman of the neighborhood is Mrs. J. O. Rodgers of 1308 East Lons, who said the event will be in The Party House, and who has urged all girls who will enter the first grade next September and their mothers to attend.

Climb On The Band Wagon!

The Brownfield News "Good Will" subscription campaign entered the second period April 29 and only 3 weeks will remain . . . where will your favorite finish? At the end of the first period, April 28, votes took a drastic drop. Then again at the end of the second period, votes will again take a drop. NOW is the time to get on the BAND WAGON . . . JOIN THE BIG PARADE OF SUBSCRIBERS.

It is entirely too early to tell who will win the first prize (\$1,000), as the candidates jockey for top position. It looks like a "neck to neck" race from here on in. With only 3 weeks left, the candidates are working harder to cover more territory and reach more and more people and their efforts are paying off. The hardest workers are at the top of the list.

Be a SUBSCRIBER . . . GET THAT SUBSCRIPTION IN TODAY. Get your friends and neighbors who are not subscribers to help these Candidates NOW! NEW subscriptions add to their vote standing. BE A BOOSTER! BE ENTHUSIASTIC! ONE CAN HELP ANOTHER!

If you can't come in call the Campaign Office . . . Ph 3076.

Mrs. Edson Wilder edged into first position, while Mrs. R. W. Horton and Merle Kemper tie for second, with Mrs. Earl M. Fox in third and Mrs. Major Howard in fourth.

PRO-RATING OF VOTES as of Friday

MRS. EDSON WILDER, Brownfield	45,200
MRS. R. W. HORTON, Tie, Meadow	45,100
MERLE KEMPER, Tie, Brownfield	45,100

Lay Group Finds Need for Additional Funds And Teachers In Local Schools

Below are 19 questions and their answers. The questions appeared in the April 3 NEWS, and are among 200 which have been answered for the Hale-Aiken Committee of 24.

The answers are the work of the Brownfield subcommittee which has concluded an exhaustive survey of the Brownfield Independent School District.

The subcommittee was one of four in the county, the other three having been concerned with schools at Meadow, Wellman and Union.

JAMES L. CAUTHEN ASSISTANT CASHIER OF DALLAS BANK

Federal Reserve System Official Tells Rotarians of Its Influence on Economy

The intricate but effective influence of the Federal Reserve System on the nation's economy was detailed here Friday by the assistant cashier of the system's 11th District bank at Dallas.

Speaking was J. L. Cauthen, who appeared before Brownfield Rotarians, meeting for their weekly luncheon in First Presbyterian Church.

Cauthen emphasized to his audience that the top-level governing of the system (comprising 6,000 of the nation's banks and 85 to 90 per cent of all deposits in the United States) was free from political pressure.

He told of the system's method of tightening credit in good times and of easing credit in less good times — the system's board of governors only recently eased credit requirements of its member banks, seeking to alleviate the current so-called recession.

Cauthen was introduced by Pres. J. O. Gillham of Brownfield State Bank, which along with First National, is a member of the Federal Reserve System.

As president of the Rotarians, Morgan Copeland presided Friday, and an invocation was said by Burton Hackney.

Out-of-town (Levelland) guests were Bob Walker, manager of the chamber of commerce, and Dr. Thomas Spencer, president of Hockley Junior College.

Cauthen attended public schools and Texas Western. See No. 3 Page 6

50 ASPIRANTS REPORT FOR SESSIONS

Spring Drilling Opened Here

By CHARLIE MAPLE NEWS Sports Editor
Brownfield's Cubs opened the first half-week of grid drills with gusto when 50 aspirants reported Wednesday to Coach Doug Cox and his staff under perfect cool skies.

Initial drills have been devoted to fundamentals and conditioning, though the squad appears to be in good shape after the winter lull.

As pointed out by Coach Cox, the varsity squad appears to lack depth, especially in the line. The head mentor faces the task of giving his squad thorough training in fundamen-

tioning, though the squad appears to be in good shape after the winter lull.

Q. Is the content of courses, as taught here, adequate and are standards high enough? A. It appears that the content of the courses taught are adequate and that standards are high enough for all practical purposes under the limitations caused by need for more teachers and funds. Writing probably is weak. The committee realizes that the modern child must be educated in many areas and does not spend all of his time on reading, writing, spelling and arithmetic, as did his grandfather.

Q. In your opinion, would a See No. 5 Page 3

Count Is 854 For, 426 Against Issue

Managing Board Listed

Transaction Awaits Sale of the Bonds

Terry County will buy Treadaway-Daniell Hospital.

Widespread anxiety as to what to do when T.D. is closed July 1 was dissipated Friday when voters gave overwhelming approval of the purchase.

The only hospital in Terry, Treadaway-Daniell was scheduled to be closed by the present owners, Dr. T. L. Treadaway and Dr. A. H. Daniell.

Ballots in the 13 voting boxes in Terry tallied thusly: 854 for, 426 against.

Already, a hospital board of managers has been named by Commissioners Court:

Dennis Q. Lilly of 415 East Stewart, vice president and agriculture adviser of First National Bank; Bruce Zornis of 1002 East Tate, vice president and trust officer of Brownfield State Bank; and

C. A. Winn of 1001 East Lake, longtime Terry farmer; Clovis Kendrick of 620 East Tate, Brownfield oilman-banker; Val Garner of 1102 East Tate, veteran farmer, and Lee Bartlett of Route 1 at Meadow, another longtime farmer and civic leader.

Friday's was a bond election in the amount of \$300,000. Of the total, the county will pay the two doctors \$180,000 for the hospital building, all fixtures and equipment, and three-quarters of a city block.

The facilities situate on the 200-block of South Sixth.

Actual purchase transactions necessarily must await sale of the bonds. In addition, \$60,000 will be used to convert the present nurses quarters (unoccupied) into rooms, and \$10,000 will be directed toward minor repairs and painting.

The board of managers will start initial operations with the remaining \$50,000.

The 1,280 votes cast Friday apparently are a record here for a bond election.

Balloting at the 13 polls in the four precincts was as follows:

No. 1 (county clerk's office) 79 for, 33 against. No. 2 (Randall school) 150 for, 56 against. No. 3 (county judge's office) 36 for, 13 against. No. 4 (county superintendent's office) 52 for, 15 against. No. 5 (Union Gin) 12 for, 11 against.

No. 6 (Meadow) 10 for, 101 against. No. 7 (Johnson Gin) 8 for, 23 against. No. 8 (North Tokio) 3 for, 8 against. No. 9 (Pool) 11 for, 27 against. No. 10 (Wellman) 41 for, 9 against. No. 11 (South Tokio) 7 for, 10 against. No. 12 (The Party House) 395 for, 97 against. No. 13 (tax office) 44 for, 20 against. Absentee: 6 for, 3 against.

HEAD SAFETY COMMITTEE — This trio was named to head the Terry Traffic Safety Committee in a meeting of the group Tuesday in 106th District Courtroom. They are, from left, Morgan Copeland, chairman, Paul Rogers, vice chairman, and James Fulford, secretary. (NEWSfoto)

No. 5—

longer period of time—day or term—in school result in a better instructional program. What are your suggestions?

A. The committee believes that the child should spend a certain amount of time under his parents' direction and should be available to them for work a part of the time. Time spent out of school is also educational. Therefore, the term of school and the hours are long enough.

Q. What do you recommend be done by the state to insure effective guidance for every pupil?

A. Brownfield probably has a better system of counseling and guidance than 90 per cent of Texas schools (Parents are not using this service as they should, and they are welcome to information about the aptitude achievement and abilities of their child). This program should be strengthened in the state.

Q. What can be done at the state and district level to assure that vocational instruction is meeting the present needs?

A. It was the opinion of the committee that perhaps other vocational courses should be added, into which children could be counseled who do not have the ability or else the inclination for college. The possibility should be explored to allow this child to take less strenuous courses, that he would not need, and still receive a high school diploma. If he later wanted to enter college he would have to take the entrance examinations because his transcript would not show proper credits for entrance.

Q. How would you define the responsibility of the state and local districts in providing education for the handicapped child? Special instruction for the gifted child?

A. This district has two teachers who teach 22 handicapped children (mentally retarded). The most neglected child in Texas is the gifted child. Better vocational training for the smarter children might be allowed, so that they would not be held back by the lower percentage, as they are now.

Q. What is the responsibility of the state and the local district for driver education?

A. The state should furnish teachers, and the district should furnish the cars and facilities, to teach driver education.

Q. What should be the responsibilities of the state and local district for adult education?

A. The district should furnish facilities and the students should pay tuition to cover cost of teachers and supplies for adult education. This program has worked well in the past.

Q. It appears that in this district, for the purpose of educational efficiency, teachers are at least 10 per cent overloaded, that additional non-teaching personnel is needed and that pupil enrollment continues to grow. What can be done at the state and local level to improve this situation?

A. More funds be provided to the schools by the state to acquire more teachers and personnel.

Q. In your opinion, are the schools adequately provided with textbooks and other instructional materials needed can these be provided?

A. The state of Texas has an

excellent system of selecting and distributing textbooks. A central committee selects several books for each grade and subject, and local schools can select from the committee's choices. There is sometimes a temporary local shortage which is usually caused by the state changing books.

Q. What is the responsibility of the state for developing a statewide program of educational television?

A. There certainly must be areas where television can be used to advantage, and the state should explore every facet of this medium with a view toward furnishing educational TV to schools.

Q. Are transportation services adequate and school lunch programs satisfactory? What changes do you recommend?

A. Compared to the high cost of living, transportation is adequate. Compared to the average parents' will and ability to pay, the lunch program is satisfactory.

Q. There is now a shortage of teachers in Texas, and more will be needed. What do you think can be done to: a. Better utilize the teachers we have? b. Recruit more teachers? c. Keep teachers from leaving the profession?

A. a. Additional non-teaching personnel might relieve teachers from playground supervision and other time-consuming jobs. b. Mainly, higher wages would help to recruit more teachers. c. Mainly, higher wages would keep them from leaving the profession.

Q. Should the state offer incentives to encourage the teacher to complete college work beyond the bachelor's degree? If so, what?

A. The state should offer incentive to teachers to complete work beyond the bachelor's degree. Teachers should be eligible for higher pay, at least to the master's degree.

Q. Are there realistic ways

in which teachers' performance may be related to salary? If so, how?

A. The committee believed that the present method of determining teacher pay is not ideal, but could not arrive at a better alternate. Most ideas that do not have obvious faults already have been tried and have failed.

Q. In your opinion, what maximum and minimum salary would cause young persons of your community to enter college with the specific objective of becoming a teacher?

A. It was the committee's opinion that a minimum salary of \$4,000 and a maximum of \$10,000 — possible in 15 years — would cause young people in this community to enter college with the specific objective of becoming a teacher.

Q. Basing future needs on past experience, it appears that 32 classroom units will be needed here in the next five years. If West Ward building is abandoned, 17 more such units will be needed. What is the responsibility of the state and local district to provide this housing?

Further, will the school district be able to provide enough classrooms in the next five years? If not, what do you suggest? a. Authority to raise and levy additional school taxes? b. Increase property assessment for school tax purposes?

c. State aid for building costs? d. Federal aid for building costs?

A. This school district's ability to provide the classrooms needed in the next five years will depend on the additional help received from the state in other areas and the willingness of the people to support a better educational program. Almost certainly, taxes will have to be raised — probably better to raise assessments.

Q. The permanent state school fund (from lands once granted to schools) grows at the rate of over \$25 million per year. Should there be a maximum limit on its growth? Would it be desirable to purchase school bonds at below the market interest rates?

A. The time will come when the state should limit the capital growth of the Permanent School Fund. At present, it would be of great help to schools if the state would use the income from this fund to purchase bonds at below the market interest rates.

Q. In what area should federal funds be used, if any?

A. The committee was not in favor of using federal funds except as they are now being used; that is in support around federal areas and installations and use of surplus support in school lunch programs.

Said Brownfield: "In conclusion, this committee takes this opportunity to express publicly

its appreciation to the school officials, and in particular to Mr. Douglas, Mr. Webb, Mrs. Weiss and Dr. Hoey.

"They spent many additional hours accumulating information and statistics for us. We also appreciate their attitude of not trying to defend or abate, but to help search for any shortcomings in the school (Brownfield) system in the hope that the shortcomings could be remedied."

BROWNFIELD PRIMITIVE BAPTIST CHURCH

J. W. Garforth, Pastor
Meets each second Sunday at 10:30 a.m.
Also Elmo Edward, each fourth Sunday at 10:30 a.m.

This rose is a glorious creation of God, given to be enjoyed to the fullest. Look at the symmetry and the sheer freshness of its beauty, like a pristine spring morning new from the hand of God. And have you stopped lately to look at a glowing sunset, a moment by moment panorama from His heavenly paint brush. And hush! Listen to the rhythm of life, the singing heart, the pulsing breath, the spaced step of a familiar footstep down the hall.

How wonderful God has made life. Drink in every flavor of it, and turn, give thanks to its Maker, who in this way shares His own beauty with His creation.

Is something wrong with your life—an inner restless dissatisfaction? The answer to every human problem comes only from God our Maker. He alone can forgive and reassure. Through the church God has committed the provision and proclamation of His forgiveness and redeeming love. Without a church relation no one is securely related to God. *Everyone should be in the Church and the Church in everyone!*

FROM SPEAKERS TABLE — Pictured are students taking part on the program when BHS juniors entertained seniors with a banquet Friday evening in junior high cafeteria, with prom following in high school gym. They are, from left, Gene Mason, son of Mr. and Mrs. N. L. Mason of 901 East Broadway; Ronnie Goode, son of Mr. and Mrs. Ray Goode of 1312 North

A; Gary White, son of Mr. and Mrs. L. L. White of 310 East Tate; Mont Muldrow, son of Mr. and Mrs. Al Muldrow of 321 South Club; George Lackey, son of Mr. and Mrs. Ray Lackey of Lamesa Highway, and Mary Jane Brownfield, daughter of Mr. and Mrs. Lee Brownfield of 508 South C. (NEWSfoto)

'Candy Land' Is Theme Of BHS Banquet And Prom

Carrying out the theme of "Candy Land," Brownfield juniors entertained seniors with a banquet and prom Friday evening, with the banquet at junior high cafeteria and the prom following in the high school gym.

Paper cups filled with candies and topped by miniature candy castles were place cards. Junior high school girls, serving, wore white chef's caps inscribed with "Candy Land." Background music was furnished by Jerry Gannaway.

Ronnie Goode said the in-

AT THE REGAL — Audie Murphy helps the wounded Michael Redgrave when they are ambushed on a road during the war with the Communists in Indo-China. "The Quiet American" opens for a two-day stint Wednesday at The Regal.

vocation. Gary White gave the welcome address and the response was made by Gene Mason. Carol Ann Mayfield and Pat Vineyard, accompanied by A. V. Wall, sang "Sugar Time" and "Lolli Pop." Mary Jane Brownfield read the class prophecy and Mont Muldrow the will. George Lackey read the benediction.

A similar theme was carried out at the prom with the candy castle centering the floor. An imitation brick wall formed a division between the dance floor and small tables edging the room. The raised platform for Bernie Howell's orchestra of Lubbock, had an imitation brick siding. An abundance of candy canes accented the brick walls. Overhead draping gave the room a low ceiling with indirect lighting for an enhancing atmosphere.

"Soil erosion is altering the course of world history more radically than any war or revolution." — G. V. Jacks.

Terry Sports Review

By CHARLIE MAPLE
NEWS Sports Editor

Terry Little League is in dire need for announcers for games this summer, according to Lewis Simmonds.

If anyone is interested in helping the youngsters' baseball program here, but feels he doesn't have time to devote a great deal of time, phone Simmonds at 3039.

Apparently Brownfield will have a bowling alley within the next few months.

Two groups, E. E. Wesley and D. L. Whitson of Littlefield and Lewis Hochman of Lubbock, have applied for the franchise here. However, there seems to be some confusion on the matter.

Hochman is backed by Brunswick and the Littlefield men are backed by AMF.

Both groups propose to build a 12-lane alley here, complete with snack-bar and all the fixings.

The Cubs opened spring drills Wednesday and a lot of hustle and spirit was evident through the first half-week. Physically the group looks more solid than last year's squad. However, the inexperience is evident once you get past the first unit.

The record next fall will depend largely upon how quickly reserves gain experience. Though this year's freshmen appear to be a year away from varsity competition, they may be the needed strength after a little more competition.

Spring training's shortness gives little time for the youngsters to gain needed experience, but it serves to ground them in the fundamentals of the gridiron sport. It also is a proving ground to determine if the youngster wants to put out the effort for the game.

Coach Cox and his staff has about 50 hopefuls vying for varsity positions. Though a first unit has been selected, a lot can happen before the first whistle blows next fall.

First unit slots that seem cinched now can be undermined by a hardworking, aggressive player. We hope youngsters playing on second, third and fourth strings do not forget this fact — the spirit of competition often makes the difference between a so-so ball club and a championship contender.

The center section of the south stands are all but down at this writing. Two sections were on the ground Thursday and the others were slated to go by the end of the week.

This means that the north stands will be the only seats available for the spring tilt. While we are on the subject, Coach Cox said the game likely will be played in the afternoon because the lights were disconnected during the dismantling procedure.

The soft snap is one thing that doesn't grow on the farm — Gadsden, Ala., Times.

AT RIALTO—Handsome recording star Ferlin Husky plays his first major screen role and heads a huge star cast in "Country Music Holiday," opening today at The Rialto. Husky sings six of the 14 songs in the Paramount release, a comedy musical also starring Rocky Graziano and Zsa Zsa Gabor.

mother knew the doctor had erred. The vibration from such a din would make her jump.

Enters Pilot Institute
It was on this trip that they were told of a pediatrician in Dallas who had a deaf daughter, and it was through him they learned of a six-week summer school being organized for the pre-school oral deaf. The girl was enrolled.

Deana was one of the six attending the school in 1943, which later developed into The Dallas Pilot Institute For The Deaf, teaching speech and speech reading, formerly known as lip reading.

The Cunninghams rented an apartment in the fall of 1943

and her mother and sister kept Deana in school for the first two years.

The Cunninghams now had a son, Danny, whom they also knew to be deaf, so in 1945 she moved to Dallas to put him in the school.

Moves To Dallas
For two months Cunningham continued his work near Brownfield, but each time he visited his family the parting was more difficult for the children. When Danny got up in the night to take his father's boots to bed with him to make sure didn't leave while he was asleep, Cunningham realized he must move to Dallas even though it would mean giving up his job.

They said, "If the Lord saw fit to send us these two beautiful children He intends for us to

see that they have a life as nearly normal as possible.

People in Dallas weren't renting houses to families with children, so they had to buy a house. It was an old house that had been remodeled. Cunningham began carpentering for the man from whom he bought the house. Later he went into the building business.

At times, during those first few years, it looked like it couldn't be made, and always the first thing to be paid was tuition, first for Deana and then for both her and her brother.

Feeling a need for the training in order to assist her children with their education, Mrs. Cunningham went to the school each day. Having a desire to help other deaf children, she soon became a teacher in the school and still teaches there, even though her children have gone into public schools. Her employment also aided the Cunninghams financially.

Led Class
After entering Pilot, tests proved Deana had no residual hearing and could not benefit from a hearing aid, but her IQ, rated superior, was far above the average. She soon was leading her class.

Pilot takes students through the fifth grade and Deana was valedictorian of the first graduating class. She did her sixth grade work under a special teacher for the oral deaf in the Dallas school system.

The Cunninghams and the special education teacher realized that Deana needed the advantage of the regular class room, but much depended on the cooperation of the instructor.

Through efforts of her parents and interested instructors, in 1952 Deana became the first deaf student in Texas to be placed in public class room situation.

Had Trying Experiences
Most of her teachers were thoughtful and careful to look in her direction when speaking. One substitute had been teaching the class a week when some of the students told her Deana was deaf. A few teachers were not too cooperative, and because of their fight to have the deaf student eliminated from their classroom, Deana had a few rather trying experiences.

Deana has fine sense of rhythm, due to dancing lessons at Pilot and as a member (the only deaf student) of Virginia Self's dancing class for one year. She was in the drill team at North Dallas High School.

Like many other girls, Deana

dreams of things she desires.

There was the year she wanted a TV for Christmas but the budget wouldn't allow it. On Christmas Eve her mother asked her to please tell her something she wanted. Deana finally told her mother that she wanted a radio to put by her bed like other girls had.

When Mrs. Cunningham started to explain that it would be of no use to her, Deana looked up at her and said, "But, mother, can't I dream?" You guessed it, the Cunninghams found their budget was flexible.

Dances Well
Both Deana and Dan are good dancers and few people watching them on a dance floor would believe they were not hearing the music.

The boy dating Deana has to call her mother to make a date. She often dates one of the boys who went to school with her at Pilot. His mother also has to do his calling.

When away from home and desiring to call their parents, the two Cunningham children use a pay telephone. After dialing, they count to 15 and then tell what they want. If their money returns when they hang up they know the line was busy or their mother was out. If they are sure someone is at home they keep trying until their money doesn't return.

Enjoy Sports
When the Cunninghams built their new home they had small red lights that come on when the doorbell rings put in the rooms. They recently have heard of a device to put on cars to flash a warning signal when a siren is heard, and they are investigating it because both children like to drive.

The children like to skate, swim and ride horses. Dan likes to help his father on their ranch just out of Dallas. Cunningham operates the ranch, aside from his job with Dallas Power and Light Company.

A number of their friends have perfect hearing, and even though Deana and Dan do not have the tone or the fluency of hearing people their speech is intelligible enough to be understood.

To Attend College
Last summer Deana took a job with Texas Instruments of Dallas and will take the job again this summer if her health permits. However, during the past winter she has developed rheumatic fever and her doctor says she must have plenty of rest if she plans to enter college in the fall.

Deana, graduating with 18 credits, did plan to enter North Texas State College at Denton,

but in November the Cunningham family went to Washington, D.C., to investigate Gallaudet College (the only college in the world for the deaf). They all feel it is the college for Deana, but it is so far from home, and this time she will be going alone.

The Cunninghams still live in hopes that some great medical discovery will be made to bring hearing to their children, but as they watch Deana take her diploma with 255 hearing seniors, they will be thanking the Lord for the blessings He has given them. They will watch five other deaf students take their diplomas and will rejoice in knowing they had a small part in making it all possible.

mentals and building a depth of adequate reserve strength in the next two and one-half weeks.

Heavy contact work was included in Wednesday's workout. Blocking, tackling and some scrimmage work highlighted activities.

Leon Hinson and Robert (Rabbit) Wright moved well in initial sessions behind crisp blocking in the line. "Timing was slow on handoffs, but the boys did rather well for the first time out," said Cox.

The coaching staff singled out several players, including some freshmen, for their spirit and aggressive play in workouts this week. Included were Jimmy Rodgers, Bob Cloe, Charles Lee, Doug Coppock, Glen Koch, Delbert Hadaway and Junior Knox.

Cox said varsity positions still are wide open though the more experienced boys are

Junior High Teams Tie

Brownfield Junior High sixth-graders played to a rough and tumble, 12-12, tie game Wednesday afternoon, capping four weeks of football drills for next year's seventh grade team.

John Jennings put the Whites, coached by Cliff Niles, into the lead mid-way in the first period with a seven-yard buck for six points. A pass for the attempted conversion failed.

The Reds, coached by Coy Jones, came back to knot the score with a 35-yard dash by James Campbell on a reverse play. The short for point was stopped shy of the goal, leaving the score 6-6 at the half.

The Whites regained the lead late in the final period, when George Lerner slipped through the line for 25 yards and another touchdown. The extra point was good.

David Auburg sprinted off tackle in the waning minutes to give the Reds a tie. Again the extra point was thwarted.

'Youth and Age' Set For Discussion By Delphians

"Youth and Age" is theme of the program planned for 4 p.m. Tuesday when Delphian Study Club meets in Seleta Jane Brownfield Clubhouse.

Mrs. Wayne Brown will moderate a round table discussion with the assistance of Mmes. D. A. Lowe and Paul Ward. Hostesses are Mmes. Buck Howell and E. E. Preston.

"Agriculture is the foundation of manufactures, since the productions of nature are the materials of art." — Gibbon.

holding down first unit slots now. "By the end of spring training we should have a better idea of which combination of boys will give us the best offensive and defensive work," he said.

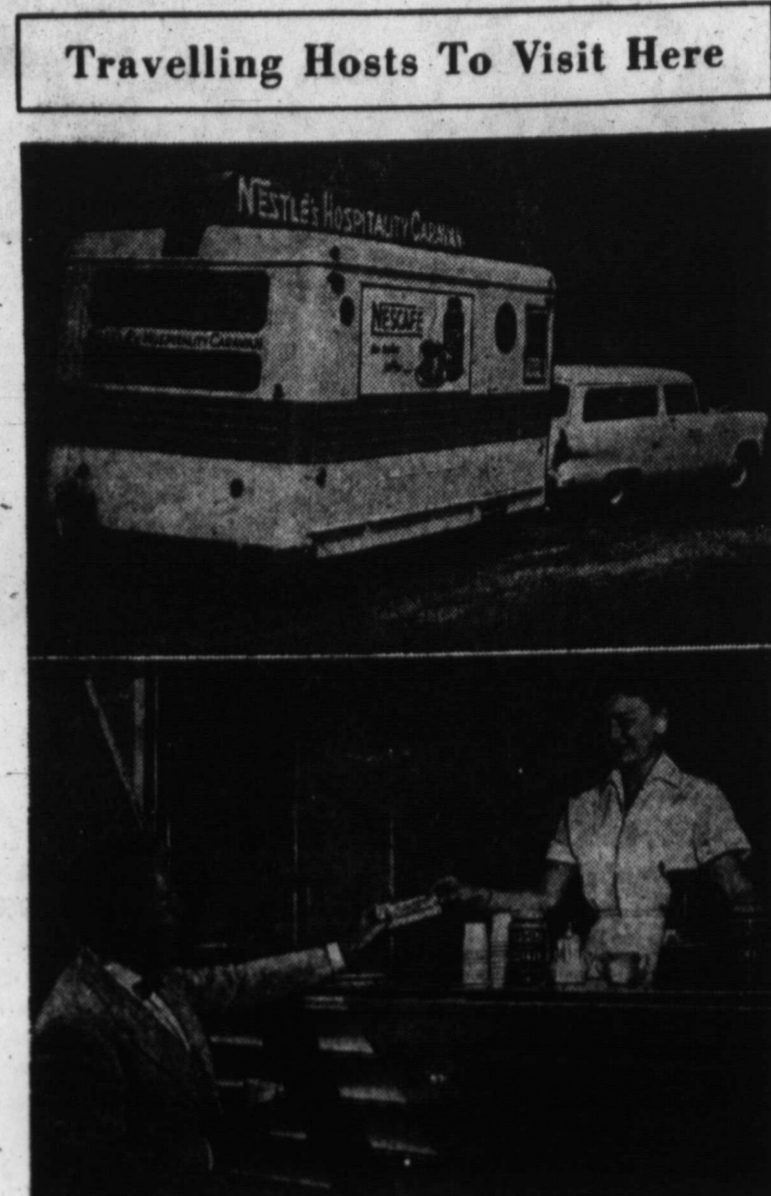

Game On May 20
The annual Red-White spring training tilt will cap training sessions May 20. The tilt likely will be played in the afternoon, noted Cox.

A grandstand crew has begun removal of the center section of the south stands. To allow working room for the crane, light cables have been taken down, leaving the stadium without lighting.

Participating in the spring sessions are Wright, Hinson, Joe Oswald, Ken Willis, Lee, Cloe, Rodgers, Gary White, Ken Kendrick, Curtis Bryant, Ronnie Goode, Larry Jackson, Len Roscoe, Jerry Browning, Leon Clark, Elbert Landes, Ken Donaldson, and

Lonnie Bartley III
C. L. Jones, Cecil Pendley, Coppock, Don Cary, Herman Wheatley, James Turner, Gene Purzell, Koch, Hadaway, Jimmy Tollett, Knox, Ken Snider, Richard Collins, Gerald Keith, Ken Boyer, Duane Steen, Guy Henson, Don Copeland, John Clark, Granville Ward, and Denny Eaves, Carlton Lambert, Clarence Patterson, Jimmy Hackney, Johnny Murphy, Joe Christeson, Frank Beadles, Richard Cooper, Bobby Rosson and George Cox.

Lonnie Bartley, who has been ill, is not expected to participate in spring drills. However, Cox said he is counting on the youth next fall.

AT KYLE'S — Most visitors are guests, but Ralph and Peggy Harrell, shown above, will dispense hospitality instead of accepting it when they and their Caravan stop here all day Monday at Kyle Grocery. From this modern kitchen trailer, the Harrells, on behalf of The Nestle Company, Inc., will serve Nescafe, the modern instant coffee, and Nestle's chocolate products to all who stop at their trailer. Nestle's is among the first of the food manufacturers ever to send a Hospitality Caravan like this on a nationwide tour.

Tour of City Hall Is Made By Brownies

Brownfield municipal building was toured when Brownie Troop 309 met Friday afternoon in The Girl Scout Little House.

After completing work on "Mothers Day" gifts and learning a new song, "Hey Little Lassie," the troop hiked to City hall. A. J. (Jake) Geron city secretary, directed the tour through the building, introducing the group to Mayor Arlie Lowrimore.

Police car radios were explained as they visited the police station. The troop received instructions on safety at both the police station and the fire station with a policeman taking their picture standing beside a fire truck.

Hiking back to The Girl Scout Little House, they stopped for refreshments in Melody Restaurant.

The troop was dismissed through the magic tunnel as they sang, "Goodbye Brownies."

Those making the trip were Sheryl Franks, Sharon Sue Doss, Kaye Boroughs, Vicki Daugherty, Jane Priest, Nora and Lucille Holleman, Nina Williams, Claudine Peters,

Belinda Cole, Billie Hensley, Linda Murphy, Mrs. J. D. Williams and Mrs. Carl Peters, leaders and Mrs. R. E. Franks, visitor.

AMMO-PHOS FERTILIZERS
ARE HIGHLY WATER SOLUBLE
Experiments prove that crops take up more phosphate from water soluble AMMO-PHOS fertilizers than from ordinary mixed fertilizers.

Let Us Demonstrate This Easy Test.

AMMO-PHOS fertilizers are highly water soluble and we can prove it by simply placing a small amount of AMMO-PHOS in water and placing the same amount of an ordinary fertilizer in another equal amount of water. You'll be able to see how water soluble AMMO-PHOS GOES INTO SOLUTION while the ordinary fertilizer collects at the bottom of the glass. You'll know then why AMMO-PHOS fertilizers give the quickest response to crops.

PRE-SCHOOL
Orientation To Be Given At Wellman
A pre-school orientation will be held Friday for children entering the first grade at Wellman next fall, according to Houston E. Stevens, principal. Regular first graders will not attend school all day Friday, he said. The orientation will be held from 9 a.m. to 12 noon. Stevens said at least one parent must accompany their children and have a birth certificate for the youngster. School officials will outline school regulations, needed supplies and immunization requirements during the program. A free lunch will be provided by the school following the orientation, a d d e Stevens. The meeting will be held in first grade classrooms of the elementary building. The ultimate motive of soil conservation is human conservation—Otis Durant Duncan.

Belinda Cole, Billie Hensley, Linda Murphy, Mrs. J. D. Williams and Mrs. Carl Peters, leaders and Mrs. R. E. Franks, visitor.

Miss Georgia Martin Becomes The Bride of Leon Cummings

First Methodist Church was the scene of the wedding of Miss Georgia Lee Martin, daughter of Mr. and Mrs. George Martin of 1214 East Broadway, and Leon Cummings of Lubbock, son of Mrs. Zela Cummings of Austin, at 8 p.m. Saturday.

Candles, pink carnations and palm leaves formed a background as the Rev. James E. Tidwell, pastor, read the double ring ceremony. Mrs. Cecil L. Springer, organist, played wedding music and accompanied Pat Ramseur, vocalist, as he sang "The Lord's Prayer" and "The Pledge."

Given in marriage by her father, the bride wore a white waltz-length gown of tulle and tulle over net and taffeta, featuring a fitted bodice and portrait neckline edged with scalloped lace and a sheer yoke. Long sleeves came to petal points over the hands. Three tiers of lace formed the skirt embroidered with seed pearls and sequins. Her white pointed-toe pumps had cutwork over the top.

Her veil of French imported illusion was dress length with double scalloped tiers. It was attached to a tiara outlined with seed pearls and sequins. She carried a shower bouquet of carnations, stephanotis and gardenias with satin streamers.

Attendees Listed

For something old the bride chose pearl earrings, a gift from her grandmother, Mrs. C. M. Forbus of 210 East Tate. Her tiara was the something new and a seeded pearl Bible, belonging to Betty Kehoe, was something borrowed. A garter was worn for something blue and her father placed a penny in her shoe for luck.

Miss Patsy Stice, maid of honor, and bridesmaids, Charlotte Brady, Doris Dunnivant of Lawton, Okla., Kaye Burr of Culver City, Calif. and Betty Jobe, wore gowns of American beauty organza over taffeta, with matching shoes and tiara, which was embroidered with seed pearls and held a nose veil.

Billy Stafford of Pensacola, Fla. was best man. Bob Gibson of Meadow and Raymond Moore of Lubbock lit the candles. Ushers were Sam P. Modroll of Lubbock and Carson Woodall.

Sherry Brady, flower girl wore a dress similar to the ones worn by the maid of honor and bridesmaids. She wore white slippers and hat and carried a basket of white satin and lace with pink rose buds. The ring bearer, Teddy Van Martin, brother of the bride, wore a black tux with white dinner jacket. The bride's mother wore pink lace with white accessories.

Miss Stice and Stafford assisted the couple in receiving guests at the reception held in the parlor of the church, following the ceremony.

Honeymoon in Colorado
The table was covered with a white net cloth over pink taffeta. Focal point was the three tiered wedding cake with pink rose buds and silver leaves and topped with miniature bride and bridegroom. A crystal punch set completed the table setting.

Guests were registered by Miss Joann Keyes of Azle and Mrs. Ted Hanson. Rotating at pouring, were Mmes. Bob Reeder of Lawton, Okla. and C. J. Jordan of Ropesville.

Mrs. Cummings was wearing a navy blue silk sheath with mellow-colored bolero and gloves and hat, with navy pumps and bag, when they left for a wedding trip to Colorado Springs, Colo.

The bride, a graduate of Brownfield High School, is an operator at Vogue Beauty Shop of 310 West Tate. Her husband is a graduate of Lubbock High School and is now employed by Groom Ingram Auto Sales of Lubbock, where they will make their home.

Mr. and Mrs. Green Are New Grandparents

Mr. and Mrs. Bennie Joe Green of Lubbock are parents of a baby girl, born April 28 weighing 7 pounds 3/4 ounces. Grandparents are Mr. and Mrs. C. C. Perkins of Tokio and Mr. and Mrs. B. G. Green of Crosbyton.

MRS. LEON CUMMINGS

JOPLIN-TROTTER

Engagement Announced

The engagement and approaching marriage of Miss Pat Joplin of Meadow to Clyde Trotter of Brownfield has been announced by her parents, Mr. and Mrs. W. M. Joplin of Meadow.

Trotter is the son of Mr. and Mrs. O. B. Trotter of 806 East Repto, and his uncle, the Rev. Frank Story, will read the marriage vows at 6 p.m., June 5.

The engagement and approaching marriage of Miss Joplin, a graduate of Meadow High School, is secretary for Roberts-Ashburn Fuel Company of Meadow. Her fiancé graduated from Brownfield High School. He is employed by Gausch O'Neal Pipeline Company of Brownfield, where they will make their home.

TEL Class Holds Social Wednesday

The TEL Class of First Baptist Church met for their monthly social and business meeting Wednesday afternoon with Mrs. A. Flache of 514 Lubbock Road.

The four group leaders and secretary gave reports and Mrs. J. T. Auburg was elected reporter. Mrs. H. D. Leech led a round table discussion on the Bible.

MISS PAT JOPLIN

Randal School PTA Elects New Officers

Mr. and Mrs. Walter Johnson of 171 East Hill was elected joint presidents of Jessie G. Randal PTA when they met in the school cafeteria earlier this month.

Serving with them will be Mrs. Bobby Thomson, first vice president; Mr. and Mrs. Alvin Johnson, second vice president; Mrs. Darrell Criswell, secretary, and Mrs. Lonnie Drewry, treasurer.

They will be installed at joint ceremonies, for all Brownfield PTA units at 7:30 p.m., Thursday.

Cake and coffee were served to Mmes. Auburg, Leech, D. P. Carter, Wade Collins, Lillie McPherson, T. C. Hogue, Guest, Carnegie, Evans and E. D. Yeatts.

AWARDS ARE PRESENTED

Brownfield FHA Honors Mothers With A Banquet

Members of Brownfield Future Homemakers of America honored their mothers with a banquet Thursday evening in the high cafeteria.

"Careers in Home Economics" was theme of the program. Speakers were Martha Benn, Rodora Massey and Martha White, all students from Texas Tech.

Glenna Blake was mistress of ceremonies with Betty Bragg saying the invocation. Miss Bragg also gave the welcome address and her mother, Mrs. James Bragg, responded.

Following introduction of guests, the rose ceremony was presented by members with each representing a different part of the rose and explaining how their organization resembled the flower.

Phyllis Seaton and Nancy Graves presented junior and chapter degrees to June Beard and the junior degree to Anita Jo Wooly. Lavonne and Phyllis Seaton were accompanied by Norma Lee Meeks as they sang "Sisters." Lavonne said the benediction.

Guests and members present were Martha Benn, Radora

day in the junior high cafeteria.

Serving on the nominating committee were Mmes. Darrell Knight, Norene Hudspeth and Roy Priest.

COMPLETE BASIC — Army Pvt. Alex O. Langehennig, 22, of Seagraves, recently completed eight weeks of basic combat training at Fort Hood with the Second Armored Division. Langehennig's wife, Dorothea, and parents, Mr. and Mrs. John H. Langehennig, live in Seagraves.

MISS EDNA GREEN

Wedding Vows Are Scheduled June 1

Mrs. Edna Ruth Green of 521 East Tate has announced the engagement and approaching marriage of her daughter, Edna Francis Green, to Manuel Garcia, son of Mr. and Mrs. Moises Garcia of Levelland Highway.

Date for the wedding has been set for June 1. Miss Green is a member of the BHS graduating class and her fiancé is a graduate of Meadow High School. He is employed by Sexton Drapery & Upholstery Shop and they will make their home in Brownfield.

CHALLIS NEWS

By MAE HENDERSON
NEWS Correspondent

WMU met at the church Monday with five members and one visitor present. Mrs. Clarence Clark was in charge of the business meeting and Mrs. C. S. Carroll the program. She discussed stewardship, using Matt. 25 as scripture. The program was closed with prayer.

Mr. and Mrs. Wayne Bagwell, Janice and Donald, visited relatives in Lamesa Sunday.

Mr. and Mrs. Clarence Clark and LuNet visited Mr. and Mrs. Andrews Sunday.

Those visiting in the L. R. Bagwell home Wednesday night were Mr. and Mrs. E. R. Slater, Sam Saxton and Mrs. Marie Floyd and daughter.

Mr. and Mrs. C. A. Edwards of Ralls spent Thursday night with her parents, Mr. and Mrs. W. J. Henderson. Mrs. Edwards also visited other relatives.

Miss Lowta Kirby of Brownfield spent Thursday with Miss Bobbie Jo Bagwell.

Guests in the home of Mr. and Mrs. Loyal Henson Sunday were Mr. and Mrs. L. J. Tarter of Lubbock.

Mr. and Mrs. W. J. Henderson spent Sunday with their son and family, Mr. and Mrs. C. J. Henderson.

Mr. and Mrs. L. P. Price and Mr. and Mrs. E. R. Slater visited the C. S. Carroll home Sunday.

Mr. and Mrs. D. Stephens and daughter from Morton and the Slater family visited in the L. R. Bagwell home Sunday afternoon.

Mr. and Mrs. H. D. Knight honored their three children with a joint birthday dinner Sunday in their home. Shere, age 10, and Dell, three, had birthdays April 26 and Carla was eight years old May 2. Those celebrating with them were Kirby Gresham; Cynthia Taylor; Joe, Johnnie and Theresa Fore; Kenneth, Sandra, Jackie and Brenda Roberts; Linda Franklin; Mr. and Mrs. Jack Fore; Mr. and Mrs. D. Gresham; Mr. and Mrs. Loyd Franklin, and Mr. and Mrs. Billy Yates.

Visiting this week in the home of Mr. and Mrs. Vernon Hoggs, is her niece, Cynthia Taylor, of Lamesa.

Mr. and Mrs. Edd C. McLeroy and daughters, Marilyn and Judy, of Dimmitt visited her sister, Mr. and Mrs. K. Sears, Sunday.

Mr. and Mrs. A. H. Patton and children visited Sunday in Seminole with her sister, Miss Dollie McLeroy.

Mr. and Mrs. R. G. Henson and children spent the weekend with relatives in Abilene.

Alfred Tittle has returned after spending the past week at Granite Shoals, where he fished with Ned Self and Alton Webb.

Mrs. Minnie Decker, mother of Henry Decker, is a patient in Treadaway-Daniell Hospital, after suffering a broken hip in a fall at her home at 316 North Second.

Mr. and Mrs. Lewis Waters and children spent the week fishing at Lake Whitney. They were joined by Mr. and Mrs. Alvin Kelly of Fort Worth, formerly of Tokio, and Mr. and Mrs. B. A. Wilson.

Mr. and Mrs. A. J. McGraw had as their guests during the weekend, their daughter, Mrs. Frank Riley, and family of Ropesville. They were returning from California where they visited her sisters and brothers, Mrs. Hazel Parker of San Bernardino, Calif.; and Gene McGraw and Mrs. Doc Palmer of Long Beach, Calif.

Mr. and Mrs. B. J. Yowell have her mother, Mrs. Rosson, of Abilene as a guest.

"Look, Look The Cities!" by Albert McClellan, was the book reviewed by Mrs. George Ellis when WMU met Monday afternoon in the church for a mission study.

Mrs. Bill Blackstock, president, conducted the business meeting. Attending were Mrs. Blackstock, Grady Dickson, Wes Key, J. C. Wooley, Ellis, Imogene Key and Loris Brannon.

Baptist services were conducted Sunday night at the close of a week revival, with a good crowd at each service. A number were added to the church. The Rev. Warren Stowe, pastor of Calvary Baptist Church, did the preaching with Alton Webb leading the singing.

Mr. and Mrs. Jack Mason and son, Carroll, spent the weekend at Lake Thomas.

MISS BARBARA NEWSON

TODAY AND TOMORROW

Two Recitals Are Set By Gannaway Piano Students

Jerry Gannaway of 720 East Broadway, will present his music students in two piano recitals, today and Monday, in Fellowship Hall of First Baptist Church.

Some 17 students will appear in a recital at 3:30 p.m. today and Barbara Newson, 10-year-old daughter of Mr. and Mrs. J. L. Newson of 918 East Tate, will present her third annual recital at 7:30 p.m. Monday.

Students appearing today are Conrad Vernon, Lynda Beth Geron, Linda Faye Taylor, Lou Ann Conlee, Sandra Taylor, Jeff Pemberton, Judy Akers, Suzie Nelson, Linda Hyman, Caroline Stowe, Margaret Ann Blackstock, Randy Hill, Patricia Turner, Emily Risinger, Barbara Brown, and Emily Blackstock, all of Brownfield, and Merle Smith of Seagraves.

Having won national and international honors in National Guild Auditions for four years, Barbara has received superior ratings in these events. She is a student of Jerry Gannaway.

The program, which includes music of the classical masters, will feature a student concerto, "In Elfland," by Marie Seuel-Hoist. Emily Risinger and Margaret Ann Blackstock will assist in the program, playing second piano accompaniments, and Susan and Cindy Zorns will serve as ushers. The public is invited.

AT STATE MEET

Recognition Given BGC

Three Brownfield residents attended the 30th annual convention of Texas Garden Clubs held in Fort Worth April 22-24, with headquarters at Texas Hotel.

Mrs. Ernest Latham of 414 East Tate went as a delegate from the local club and alternates attending were Mmes. A. J. Bell of Route 1 and J. R. Hissom of Magnolia Camp. Brownfield Garden Club received honorable mention from the state on their yearbook.

Theme of the program was "Texas The Bountiful," with Clifford Cyper of Clifton N.J. speaking on "New Doors To Design Appreciation." Mrs. Inez Hamilton of Wichita Falls gave a demonstration and lecture on stressing color. Robert Rucker of Texas Tech lectured on horticulture.

Included on the agenda was a tour of interesting homes in the city. The K. Kimbell home, furnished entirely in antiques, had an outstanding display of ivy and jade. The Robert Windfohr home featured seven different living areas around their swimming pool.

Adding interest to the program was a tea in Ridgela Country Club, taking honors of being the largest country club in the world.

Driving Contest Set For This Week By Sunset Motor Co.

A \$25 U.S. Savings Bond and \$15 in cash will be awarded to the top three participants in Sunset Motor Company's driving contest to be held Wednesday through Saturday, according to Joe O'Briant, owner. O'Briant said contest winners will be determined by the distance they drive the new International A-100 pickup on one-tenth gallon of gas. Competitors may enter at the business from 9 a.m. to 6 p.m. during the four-day period. A \$25 bond will go to the top mileage driver; \$10 cash to the second place winner, and \$5 to third place. Free coffee, soft drinks and doughnuts will be served during the contest. SOCIETY? CALL 2188

Down Wellman Way . . .

Hi there!
Well, just four more weeks of school to go! And everyone (including the teachers) is looking forward to vacation time.
Juniors took the Merit Scholarship Tests Tuesday morning and the results are due this summer.
Congratulations to the seniors on the success of their play, "This Ghost Business!" According to the class secretary they made approximately \$120. The seniors say, "many thanks," to everyone that attend their play.
A committee made up of the following students are editing the first edition of the "Wildcat," the school paper: Mary Adair, Barbara Watkins, Curtis Morton, Buddy Hawkins, Ldean Hughlett, Virginia Thornton, Karen Hamm, Larry Sims, LeWayne Rowden, and Anna Morton. Anyone else who has an article he would like to have printed in the "Wildcat" should submit it to the editor before Tuesday.
The sophomore class had a class meeting last week to discuss plans for the annual class picnic at MacKenzie Park in Lubbock. Date for the picnic was set for May 17.
Congratulations to James Pendergrass for such fine showmanship in the Terry County Livestock Show last week. He won a trophy for first place with his livestock and a ribbon for his showmanship.
FFA boys are planning a banquet for the third week in May. They also are re-writing their annual reports.

Our Places of Worship Here...

★ ★ ★
POOL CHURCH — Pictured is Pool Church where both Baptist and Methodist meet together for Union Sunday School, and the Rev. J. H. Morrison, pastor of Pool Methodist Church. He preaches there each second and fourth Sunday. Sunday schedule: Sunday school, 10 a.m.; worship, 11 a.m.; training union, 7 p.m., and worship, 8 p.m. Prayer meeting meets at 7:30 p.m. each Wednesday. Baptist and Methodist attending church services usually number about 60 with an average Sunday school attendance of 40. The Rev. J. M. Morrison and his wife live in Lubbock.

★ ★ ★ Meadow Group Is Tops In Ropesville PTA Talent Show

Melba Jordan and the "Teen-Agers" of Meadow won first prize in the group talent division of the Ropesville PTA Talent Show Tuesday night. Prizes of \$10, \$5 and \$2.50 were awarded the winners. "A Dutch Drill" by second grade students of Ropesville took second place honors and "Five Foot Two" by Harriet Burleson, Kathy Blair and Pam Peterson, all of Meadow, took third. Miss Sherrill Banks of Denver City took first place in the individual talent division, with second and third places going to Joyce Bevers and Benny Redman, both of Ropesville, respectively. John Hansard of Brownfield was announcer with Rex Brown and Wayne Allen of Lubbock judging.

SOCIETY? CALL 2188

BAPTIST MOTHER — Pictured is Mrs. J. B. Henley of Lamesa, named 1958 Texas Baptist mother of the year. Besides teaching school most of the time since 1918, Mrs. Henley has reared four children, sending three of them to college. She has taught a Sunday school class for 46 years. At present she is teaching at Klondike in Dawson county.

BY DESS NEWBERRY

A POEM

(Editor's Note: The following poetic lines, entitled "Reaping," were penned by Mrs. J. L. (Dess) Newberry just before her death April 13, a victim of cancer. Her husband lives at 216 East Broadway.)

In living this life of Mine,
 Time is swiftly passing by,
 This Old Sinful World
 Has been a place of sowing,
 Of which I am now about to reap.

Some seed I have sown
 Have drifted by the wayside dark,
 While some have sweetly flown
 And, rooted deep in Love and Tender Care,
 Not soon to be forgotten.

Soon a chair will be vacant,
 And a Voice will be stilled,
 But, Dear Master, "May my good Deeds

"Live on after I have flown
 To Your tender care, so these
 Who are left behind can say,
 "Truly there was a Woman of God."

Ambitious Slate Is Set For ENMU Gridders

An ambitious 10-game football schedule will face the 1958 Eastern New Mexico University Greyhounds.

The Pack, undefeated in 10 games last season (although tied by Southwestern Oklahoma), will open against Colorado State in Gunnison.

Other games slated for opponents' stadiums include Washburn university, Corpus Christi university, Adams State college, and Colorado State at Greeley.

Southwestern Oklahoma will be the homecoming opponent on Nov. 8. The opening home game will be with Sul Ross State. Other home games will find the Hounds pitted against Austin college, Omaha university, and McMurry college.

McMurry, Sul Ross, Southwestern Oklahoma, and Colorado State all hold more wins than losses against the pack.

McMurry has beaten ENMU three times and had one tie; Sul Ross holds four decisions; Southwestern has won five, lost two, and tied one; and State has two victories in three tries.

The schedule:
 Sept. 20 Colorado Western T
 27 Sul Ross State H

Mrs. Thompson Attends Porcelain Guild Meet

Mrs. H. B. Thompson of 821 East Cardwell attended the Porcelain Art Guild, West Texas Chapter IV, exhibit and display tea Sunday in the Bluebonnet Hotel of Sweetwater.

Mrs. Thompson had a few pieces included in the 500 pieces shown. She displayed an original red cardinal that rated 95.

Oct. 3 Washburn University T
 11 Omaha University H
 18 Corpus Christi U. T
 25 Austin College H
 Nov. 1 Adams State College T
 8 Southwestern Oklahoma H (Homecoming)
 15 Colorado State T
 22 McMurry College H

The soil, like freedom, is not appreciated until it is endangered.

TAKE TEST — A total of 18 BHS juniors Tuesday took the National Merit Scholarship test. An estimated \$5 million in scholarships and other awards are at stake in the national competition.

BHS students competing were, from left, Ann McBost, Gretchen Sloan, Pat Runnels, James Turner, Mary Joe Christian, C. L. Jones, Jesse George, Sharon Kennedy and Johnny Chisholm. (BHS photo)

Our greatest asset is the land. Poor land makes poor people. Productive land makes prosperous people.

Meadow Almost Cinches Spring Activity Trophy

Meadow almost cinched ownership of the District-B spring activities trophy Tuesday when James Smith pitched a shut-out, 4-0, first round win over Whiteface in the district softball tournament held at Whiteface.

The girls' team dropped a 9-5 tilt to the host team when Whiteface broke loose with five runs and the victory in the fourth inning.

Both Meadow Junior High teams were rapped by Whiteface in a pair of high-scoring games. The boys lost, 21-2, and the girls were edged, 12-11, in the five-inning tilts.

Second round games with Union have not been set. The wildcats were unable to attend because of rain.

Members of the winning boys' squad were Smith, James Bartlett, Harold Henson, Jeff Kisor, Don Bowman, Ronnie Bell, Bob McCallister, Perry Lockett, Joe Horton, Robert Henson, Donnie Hester and M. Beatty, manager.

Girls team members included Betty Eubank, Shirley Hall, Linda Hendricks, Caudine Beavers, Glenda Belew, Gail Kisor, Kay Settle, Carlene, Russell, Ruby Smith, Linda Barron, Janice Joplin, Evelyn Vest, Jeannie Solsberry and Jackie Carroll.

Junior high girls were Mary Smith, Kaye Martin, Barbara Benson, Lila Solsberry, Diane Garrett, Josephine Holcombe, Precious Lockett, Wanda Dalton, Judy Tongate, Brenda Ingram, Sandra Caswell, Bennie Spain, Robbie Beasley, Beverly Hendricks and Nelda Jordan.

Junior high boys included Paul Castilleja, Gene Finley, Bub Brooks, Loy Lee Terry, Larry Sutton, Eusebio Molina, Gerald Aldridge, Melvin Wylie, Calvin Melcher, Leonard Melcher, Stanley Baker, Ronnie Dunn, Gary Bell, Don Murray and Joe Ed Holcombe.

Coaches for the teams are Phil Wynn and Charlie Rand.

By VERN SANFORD

It seems like more people worry about having a hunting or fishing accident than they do any other type of accident. Probably because more people hunt and fish.

Twice each year — during hunting and fishing season, that is — wives and mothers begin their worrying program about the accidental death of some loved one in a field or water accident.

Despite all warnings, by the time the year is over, there are some terrible vital statistics.

These statistics stand to be higher in 1958 than for any previous year. The reason is simple. We are entering a boating and fishing season with more water, more boats and more people involved than ever before. With this tremendous pressure the list of fatalities is sure to climb — unless!

Perhaps a statewide meeting to be held in Austin on May 5, will help save a few lives. At least it will be the beginning of an organized campaign to reduce gun and water accidents in Texas.

At a planning session with top-level outdoorsmen Gov. Price Daniel told of his desire to bring about a safety program to cut to a minimum accidental deaths in outdoor pursuits. Governor Daniel called the meeting with the support of the Sportsmen's Club of Texas.

George Whittington of Amarillo, president of the National Rifle Association, was made chairman of the program for the May 3 meeting.

NRA has been keeping records on shooting accidents for many years and has some very interesting figures. For instance 46 per cent of the shooting accidents are caused by persons under 20 years of age. The group from 20 to 50, however, run a close second with 44 per cent. Perhaps as we grow older we learn better, because the figure after 50 drops to 10 per cent.

More than half of these shooting accidents resulted from unintentional discharges — the "empty" gun. Stumbling while carrying a gun tops the list. Triggers caught on brush are responsible for 6 per cent of these unintentional accidents.

Another interesting statistic is that 58 per cent of the cases were from shotgun shooting, at small game and land birds.

Educators present pointed to work being done in the public school systems of other states in providing training in the handling of firearms. They pointed out that some states now require persons applying for hunting licenses to pass tests, to prove their familiarity with firearms, before they can get licenses.

Safe driving now is taught in 450 public schools in Texas. It is foreseen that, within a short time, gun and water safety also may be taught in schools, perhaps through permissive education.

Representatives of the Boy Scouts, Girl Scouts, and 4-H groups, present for the Austin meeting, told of work now in progress in teaching water and gun safety.

Current stress is on water safety, because of the increase in the number of boats and the number of persons going on the water.

Boy and Girl Scouts and 4-H club members are being taught to swim, handle canoes and outboard boats. Also with the assistance of the Red Cross they are given life saving methods so they will be prepared

Migration North Begun By Whooping Cranes

Northward migration of the celebrated Whooping Cranes, rare white birds whose fight against extinction has stirred global attention, began this week, according to Sportsmen's Clubs of Texas, Inc.

Word of the unusually early takeoff of three of the 26 Whoopers, on the Aransas National Refuge near Austwell on the Gulf Coast, came through a routine check of the birds' status with Claude Lard, refuge manager.

Lard said a ground and aerial check today showed only eighteen whoopers on the refuge proper and five in the nearby area. All twenty six had been counted late Wednesday.

The refuge chief told Cecil Reid, SCOT executive secretary, that last year the annual northward migration began on April 12 when eight of the big birds departed.

Fly 2,500 Miles

Lard said the fact that nobody observed the actual take-off of the whoopers "is according to the pattern of the mysterious flight to the far north." The refuge manager said nobody has ever chartered the

actual route taken by the mammoth white birds enroute to their summer nesting grounds in the Wood Hole National Park area, approximately 2,500 miles distant.

"But the great interest created in the plight of the Whoopers each year produces more authentic reports on the probably route taken," said Lard.

In an earlier report to the so-called "Whooper Network", Lard said the big cranes "enjoyed a fine winter" on the 47,000 acre wildlife haven on Black Jack Peninsula. He added today that the departing trio comprised two adults and a 1957-born whooper which have spent the winter on Mustang Lake where they have been under frequent observation by thousands of winter visitors to the ancestral habitat.

Now Total 30

New interest in the Whoopers which now total 30, including four in captivity, recently was stimulated by the laying of two eggs by one of two whoopers kept in the New Orleans zoo.

Whoopers are not kept captive on the isolated refuge but

COMPLETES COURSE—Marine Pfc. Alfred L. Tittle, Jr., son of Mr. and Mrs. A. L. Tittle of Route 2, completed the Marine Corps Institute's course, "Pay and Allowances," April 15. Tittle is serving with Headquarters and Service Company, 12th Marine Regiment, 3rd Marine Division, at Camp Hauge, Okinawa.

three birds strangely remained there all last summer without however nesting. Three young, accompanied the southward flight from the north last fall. Twenty-seven whoopers had left the far north area but one never arrived at the spacious winter quarters in Texas after being reported in a tardy take-

Aureomycin Proves Good Liver Abscess Weapon For Cattle

A major gain against the serious problem of liver abscesses in feeder cattle has been scored by the addition of an antibiotic in rations of the animals.

The Food and Drug Administration has allowed a claim made for aureomycin as an anti-liver abscess weapon following three years of field testing of the antibiotic for this purpose.

Liver abscesses in feeder cattle are causing hundreds of thousands of dollars annual losses, shared by cattle producers and packers, in the South.

USDA Meat Inspection Service reports that for the year ended in June, 1957, its inspectors discarded 1 1/2 mil-

lion abscessed livers at packing houses as unfit for consumption in the nation. Only three-fourths of slaughter houses are under federal inspection, so the actual loss is higher than that.

A recommended feeding program to provide insurance against the disease calls for 70 milligrams of aureomycin per head per day from the time they reach the feed lot until they are shipped for slaughter. Aureomycin is the only antibiotic FDA acted on.

Brownfield PTA's To Hold Joint Installation

Brownfield PTA Council and all local PTA units will meet at 7:30 p.m. Thursday, in Junior high cafeteria, for a joint installation of officers.

Mrs. P. R. Cates, vice president of District 14 of The Texas Congress of Parents and Teachers, will be installing officer.

Test work showed that a reduction of about 80 per cent in the incidence of liver abscesses was obtained by an antibiotic feeding program.

The program is heralded as of considerable importance in the South because of the rapid growth of feeder cattle operations in the region.

Accuse not Nature, she hath done her part. Do thou but thine.

Soil is the farmer's bank. It won't stand too many promissory notes. The successful farmer is the one who puts the plan in planting. Good husbandry consists not only in producing but in conditioning to produce good crops.

**Economist Figures
Farm Consolidation
Will Cost Industry**

A North Dakota economist figures that for every farm which consolidates with a neighbor, industry and labor will lose some \$2½ million over a 100-year period, reports John C. White, Texas agriculture commissioner.

E. N. Dornacker of Mayville, N.D., has this theory: The present trend of combining two or more farms into one large one means more land farmed with less equipment, fewer materials and fewer farm hands. "Each time a farmer is forced to leave the farm, industry loses a customer and labor gains a competitor for a job," says Dornacker. "And the neighbors who buy the land will destroy the buildings and operate it from their own farm."

Here is a partial list of the business which industry will lose in the next 100 years from each farm, he says: The sale of 10 tractors, 10 drills, 15 harrows, 10 combines, 10 discs, 5 plows, 10 cultivators, 5 corn planters, 12 fertilizer attachments, 10 trucks or pickups, 5 weed sprayers, 200 batteries, 40 tractor and 60 truck tires, 5 manure spreaders, 15 hog feeders, 20 water tanks, \$50,000 in parts, \$5,000 in tools, 1,000 gallons of paint, 1,000 pounds nails, \$15,000 in lumber, 600,000 gallons fuel oil, etc.

The total of these and other items would amount to \$2½ million over the 100-year period, claims Dornacker.

Of course, his argument has a few holes in it. Actually, two small farms combined into one large one would eventually call for additional machinery over what the buyer owned at the time of consolidation.

The more hours a machine is run to handle a larger acreage, the quicker it will wear out. In addition, larger farms call for more farm buildings—but not as many as two separate farms.

Even so, underneath all the smoke of Dornacker's theory smolders some fire of truth. It can be more economical to maintain one large farm as opposed to two smaller ones from the farmer's standpoint—resulting in a corresponding loss to industry.

**Texas Under
Quarantine
For Fire Ant**

The vicious little imported ant, infamous for its painful bite and destructive habits, is the target of a new federal quarantine imposed in eight states, including Texas.

Six Texas counties will be "blocked off" due to the federal order. In an effort to prevent the further spread of the pest into farm and ranch country, Beginning May 6, movement of plants, soil and other carrying agents of the ant will be closely supervised in the infested areas.

Many East Texas farmers already are acquainted with the fire ant, a native of South America who has also recently become an "unwanted alien" in parts of Alabama, Arkansas, Florida, Georgia, Louisiana, Mississippi, and South Carolina. Texas counties under quarantine will include Hardin, Jasper, Jefferson, Newton, Orange and Tyler.

In these counties, the fire ant has made a name for itself as a pest harmful to crops, livestock and humans. It often attacks small animals, ground-nesting birds, poultry and newborn calves and pigs.

Its fiery sting can bring death to these young farm animals and make the farmer's field work painful, and often impossible. The hard mounds of dirt, sometimes as high as 18 inches and two feet across, cause damage to machinery.

The quarantine order will cause some unavoidable difficulty, especially to nurserymen whose property is infested. Any business whose main activity involves transportation of growing plants, is affected by the order.

Material progress cannot rid us of our dependence upon land; it can but add to the power of producing wealth from land.—Henry George.

USE LIGHTS TO LENGTHEN DAY

Tech Horticulturists Keeping Plants' Awake'

Keep plants "awake" longer and they may grow faster, according to experiments conducted in Texas Tech's horticulture department.

Edward W. Zukauckas, assistant professor of horticulture at Tech, is currently conducting research on plants that are "photoperiodic responsive" — those that grow more under lighted conditions.

"We may influence the hardness of plant materials by garden lighting," Zukauckas said. The process keeps plants from going dormant and stimulates growth by keeping them in continuous day and incandescent light or by just lengthening the day.

He said that variety tests are being conducted with chrysanthemums—normally short day plants — and investigations show that a number of woody plants are also responsive.

Photo-periodic research for plants was originated at Cornell University and is also being conducted at Rutgers University, said Zukauckas.

Experiments with bur oak and photo-periodic responsiveness have been encouraging, said Zukauckas. Some bur oak seedlings in the Tech greenhouses sprouted leaves that eventually began to turn color indicating the seedlings were going dormant. They were then subjected to long day light and new leaves began to appear.

"Our purpose, of course, is getting as large a plant as possible in as short a length of time," he said. "We may be able to produce two or three years of growth in one year's time by manipulating lights."

Zukauckas pointed out there is a practical application of this research for both Tech and West Texas.

Both the Tech campus and West Texas could use more trees. By causing seedling bur oak and other tree seedlings to grow faster, larger, more hardy trees may be planted and have a better chance of surviving in this climate.

Other trees that show they are responsive to extended light periods are cotton wood, sumac, American elm, black locust, and Pyracantha. Post oak is definitely responsive as are some red oaks. All pines are somewhat responsive, Zukauckas said.

The progress report contains much more information about fertilizer sales in Texas including a breakdown of sales for the various regions, the primary components and average composition of the fertilizer.

Kothman Races For Commissioner Of Agriculture Post

Glenn H. Kothman, 30-year-old livestock man and legislator from San Antonio, has announced his candidacy for state Agriculture Commissioner.

In making his announcement Kothman said he felt his wide background and experience in livestock and agriculture and having served on all important agriculture committees while serving in the legislature "qualify me for the post."

He pledged himself to "serve all areas of the agriculture and livestock business in Texas, from the producer to the consumer."

A native of San Antonio, Kothman was educated in the San Antonio public schools. He graduated from Texas A&M in 1950 with a degree in agriculture.

He is in the livestock business with his family who have been a well known Texas livestock and ranch family for more than 100 years. The Kothmans have operated from offices in the San Antonio union stockyards since 1893.

While at A&M Kothman was on the livestock judging and meat judging teams, and a cadet lieutenant colonel in the corps.

After graduation he was commissioned a second lieutenant in the infantry. Later transferred to the cavalry where he commanded Hq. Co. of the famed 112th Armored Cavalry Regiment. At present he is a captain on the Adjutant Generals' staff in Austin.

Kothman belongs to the Texas Cattle Raisers Assn., the Texas Sheep and Goat Raisers Assn., National Guard Assn., Texas A&M Ex-Students Assn., the San Antonio Junior Chamber of Commerce, the Chamber of Commerce, the American Legion and the Texas Farm Bureau. He is a member of the Travis Park Methodist Church.

In 1957 he was chosen one of the five outstanding young men of the year in San Antonio.

HABLA ESPANOL? Labor Department Seeking Employees

If you speak Spanish (habla espanol) and are qualified to perform other duties in the Mexican Farm Labor program, the U.S. Department of Labor may have a job for you.

This announcement came today from William E. Corwin, executive secretary of the U.S. Civil Service Board of Examiners for the Labor Department's Bureau of Employment Security. He said the grade for the position starts at GS-7, \$4,525 per year.

The required civil service examination is not a written test. Applicants will be judged on the basis of their experience and training, and their fluency in Spanish.

Application forms and information are available at most post offices and at the U.S. Civil Service Board of Examiners for the Bureau of Employment Security, 630 Sansome Street, San Francisco.

Men accepted will work for the Labor Department in western states, from Texas to California. They will provide enforcement and information services on the Federal law and international agreement under which Mexican citizens may be imported to work on U.S. farms if domestic labor is not available.

"Man-made erosion is dynamic and cumulative and has no end save complete destruction,"—Stuart Chase.

FOR PLANTING

Cotton Date Approaching

Optimum cotton planting dates on the Texas High Plains are May 5-20, reminds Don L. Jones, former superintendent of Lubbock Experiment Station.

"Later planting usually results in lower quality cotton

and if planting must be done after June 1, select an early maturing variety," advises Jones.

As to prior planting, Jones explained that years of research work at the Experiment Station has shown that the best results for planting comes when the soil temperature averages 60 degrees for 10 days at an 8-inch depth from the top of the bed.

Daily radio and newspaper reports are being broadcast and published which gives the average daily temperatures.

This information is part of the Plains Cotton Growers Educational Program to help High Plains Cotton farmers produce a higher quality cotton in 1958.

In other planting tips Jones urged farmers to use delinted, treated seed if possible, and warned them to check the seed germination per cent and to alter planting rates accordingly.

A uniform stand of approximately four stalks per foot in 40-inch rows is recommended. Plant 20 to 30 pounds of seed per acre, adjusting the rate according to germination tests and the use of a seed press wheel and shallow furrows will help plant emergence to be rapid, he added.

The method of harvest to be used should help determine the variety to plant when practical since storm-resistant cottons maintain quality longer in the field and strip better than open-boll types, concluded Jones.

"To skin and exhaust the land will result in undermining the days of our children." — Theodore Roosevelt.

cording to germination tests and the use of a seed press wheel and shallow furrows will help plant emergence to be rapid, he added.

The method of harvest to be used should help determine the variety to plant when practical since storm-resistant cottons maintain quality longer in the field and strip better than open-boll types, concluded Jones.

"To skin and exhaust the land will result in undermining the days of our children." — Theodore Roosevelt.

RETURNS HOME

Mrs. R. W. Herzberg left Friday by plane to return to Hudson, N.Y., after a ten day visit with her sister, Mrs. J. M. Burleson of Meadow. Mrs. Herzberg, a former resident of Meadow, was accompanied home by her mother, Mrs. J. A. Miller.

"If a man farms his land to the waste of the soil or his trees, he destroys not only his own assets but the nation's assets." — Franklin Roosevelt.

THE AMERICAN WAY

THE GIMMES
By George Peck

In a letter received recently, a reader of this column stated that the U.S.A. should be renamed "The Gimme State." He had come to this conclusion because most of his friends and acquaintances had come down with the Gimmes. "As a matter of fact," he wrote, "I have also become contaminated — used to think I was a pretty self-reliant fellow, but I've fallen a victim to the virus and find myself now reaching out my hand for things which down deep in my heart, I know I do not rate."

"However," he wrote on, "I've a good excuse, because from morning to night all I hear is 'gimme this, gimme that, gimme shorter hours, gimme higher wages, gimme bigger profits, gimme more overtime, gimme less work, gimme more pensions and start them sooner, gimme more social security, gimme greater crop benefits, gimme more Federal funds for schools, free lunches, roads in my town,' and so on ad infinitum, ad nauseam."

Then, my friend went on to say that despite his having succumbed to the contagion, he was still 'agin' paternalistic, welfare government. He concluded by asking me how such a formerly self-reliant, healthy people had contracted such an unhealthy disease as the Gimmes.

That's a tough question he posed. This columnist finds it most difficult to understand or explain the disintegration of our people, but hazards the guess that it is the old story of the demagogues having gotten in their dirty work. And so, a word or so about the demagogue and his methods of operation:

In this or any other nation, every demagogue who has ever risen to power has gained the support of the masses of the people by promising large groups some special economic or social advantage. It is a trick almost as old as time itself, to array the masses against the classes—the "have-nots" against the "haves."

This has happened in contemporary history in Russia, more recently in Italy, still later in Germany and Spain and most recently in France and England. Now the demagogues are operating full steam ahead in this land of the free and the brave.

When a demagogue prevails, it is primarily the fault of the people. He appeals to their vices rather than to their virtues. He arouses envy, fans it into hate, and when it is sufficiently inflamed, uses it for his own selfish ends to the eventual destruction of the very people whom he makes a pretense of protecting and helping.

We have seen the demagogue at work here in America these past few years. We have witnessed a premium being put on the vices — slackness and indolence — while penalties have been exacted on the noble virtues — thrift and industry. The

clamor of the "gimme" crowd has been encouraged, aided and abetted by the demagogue — for the gimmes are part of his stock and trade.

We are forgetting that people must PUT IN to a Republic — not TAKE OUT — if that Republic is to live. Recently we've done nothing but take out and if we continue with that process, we will so sap the government of its strength as to leave it vulnerable to some vulture hovering near, ready to pounce upon it and destroy it. Make no mistake about it — there are counterparts here of Stalin, Mussolini and Hitler, lurking in the background, ready to take over if and when.

Continued appeals to the weaknesses of the American people — to their greed, envy and covetousness — will make for a weak and disunited Republic. Such foibles in the citizens of a nation fortify it neither against external nor internal enemies. Moral stamina manly virtue in a people are what give them unity of action and the esprit de corps necessary to repel any and all attempts at invasion or curtailment of their rights and freedoms.

To be strong, the American people must get out of the "something-for-nothing" trap into which the demagogues have seduced them. It wasn't Shakespeare who said "there ain't no such thing as a free lunch," but whoever it was, he spoke a great, even if ungrammatical truth. Let's get rid of those debilitating GIMMES.

External Parasites Publication Subject

External parasites are a constant menace to livestock and poultry and lower the producers' profit by decreasing production by sucking blood from the animals, transmitting diseases, and causing loss of energy by annoyance.

But there is little excuse for letting these pests exist — something can be done about them, according to a leaflet

About Your HEALTH

A weekly public service feature from the Texas State Department of Health.

Next month Texans will note the fifth anniversary of an event which transformed the neat center of a city into a twisted debris-laden mess in a matter of seconds—the Waco Tornado.

Perhaps the best way to pay homage to the scores of people who lost their lives in the Waco disaster would be to learn and heed the proper means of protecting ourselves whenever a tornado threatens.

An elaborate tornado detection warning system is now in operation throughout Texas and neighboring states, with the central weather bureau in bureau in Kansas City.

Whenever compiled weather data indicate, the Kansas City bureau alerts all weather bureaus in the affected area which in turn notify all local media of mass information such as radio stations and TV stations.

These stations then announce a Severe Weather Alert, carefully describing the areas in which strong weather will occur.

This does not mean a tornado is going to occur, but it does mean that conditions are such that a tornado could develop.

From this point the weather bureau, the Ground Observer Corps and the Department of Public Safety work hand in hand. Whenever radar picks up a likely trouble spot,

Mr. and Mrs. Richard White and children of New Home visited Sunday with Mr. and Mrs. W. J. Stokes.

Mr. and Mrs. Howard and girls of Brownfield visited Sunday in the home of Mrs. Martha Howard and Johnny.

just released by the Texas Agricultural Extension Service entitled "Texas Guide for Controlling External Parasites of Livestock and Poultry."

The leaflet gives detailed information on some of the more common pests including some of their characteristics and the nature of the damage they do.

It also contains a chart which gives some of the more serious and common parasites of beef cattle, dairy, sheep, goats, swine, and poultry as well as the treatment for these parasites and some interesting remarks about them.

Too, it contains a dilution chart for mixing sprays and the tolerances for residues of DDT, methoxychlor, malathion and toxaphene in the meat of certain animals. These tolerances have been established by the Pure Food and Drug Administration.

This leaflet can be of much value to any operator who is faced with the problem of controlling external parasites of livestock or poultry.

EFFICIENT FEEDING AND LIVESTOCK MANAGEMENT

By Dr. Gustav Bohstedt
Emeritus Professor of
Animal Husbandry
University of Wisconsin

Many landlord-tenant agreements specifically provide that no hay or straw may be sold off the farm.

This stipulation recognizes the manurial value of these and other feeds that after having passed through the digestive tract of farm animals are, with good management, worth nearly as much as if these feeds had been plowed under to serve as fertilizer.

Cash crop farming, unless good soil management is practiced, is apt to run down the farm.

Livestock farming, however, is much more dependable in maintaining and even improving the fertility of the farm.

According to Morrison's Feeds and Feeding, each ton of hay, clover in this case, that is sold off the farm, loses the farmer \$8.66 by way of the commercial value of the nitrogen, phosphorus and potash that are contained in the hay.

A ton of oats sold loses \$7.79, oat straw \$4.79 and fluid milk \$2.31.

A ton weight of cattle and pigs contains more nitrogen, phosphorus and potash in their carcasses than any of these feeds.

Nevertheless, considering that on the average they assimilate only about 20 per cent of these chemical elements, while putting 80 per cent back into manure, they lose the owner only \$2.11 and \$1.76 respectively.

To the extent that protein concentrates have been fed in the management of these farm animals, and where the manure both solid and liquid has been well conserved, even these small losses of fertility may be cancelled out.

As a matter of fact, the fertility record may even be placed on the credit side of the ledger and where the farm, under proper livestock management, is being built up and improved so that an owner leaves it in a better state of fertility than when he took it over.

Years ago when many dairy farmers were still cranking cream separators and kept all skim milk on the farm to be fed to pigs, chicken and calves, the loss of fertility sold off the farm was reduced to the lowest.

This is suggested by the fact that a ton of butter contains only fifty-two cents worth of fertility as represented in nitrogen, phosphorus and potassium.

Question: "How do I mix salt or other minor ingredients in bulky mixtures so as to have a good distribution throughout the feed?"
Answer: Feed manufacturers and custom mixers, also many farm operators, especially the larger ones, have good equipment for effective mixing, commonly making use of already prepared premixes. Even so, the same principle applies whether done mechanically or with a scoop shovel on a mixing floor.

As to salt, mix this thoroughly with perhaps ten times its weight of feed before putting this premix into the finished ration mixture.

When it comes to strictly trace or minor ingredients or perhaps a fractional gram or ounce to be mixed with a ton of feed, mix this tiny amount thoroughly with a pound or so of feed.

Birthday Fete Given For Judy Timmons

Judy Timmons, 13-year-old daughter of Mr. and Mrs. Roy Timmons of 1311 North A, was honored with a birthday party Tuesday evening.

Her parents directed the games and served refreshments of cake, ice cream, soft drinks and assorted nuts.

Guests attending were Suzie Nelson, Pat McBride, Gena Cox, Gail Herring; Ann Webb, Dorenda King, Velvet Holder, Janie Rodgers, Teddy Howell, Britt Pounds, Bill McGowan, Butch Parker, Tommy Harris, Eddie Wilder, Buzz Steele and Sam Ritchardson.

Mr. and Mrs. Leroy Barrier are spending a few days in Snyder with his sister and family, Mr. and Mrs. Bernard Bishop and girls.

First Woman Seeks Supreme Court Post

Judge Sarah T. Hughes, for 23 years a Texas District Judge, announced her candidacy April 20 for the State Supreme Court.

Vets' Land Program Sells \$12½ Million in Bonds On April 1

AUSTIN—Further speed-ups in the already accelerated Veteran's Land Program are anticipated when money is received from the April 1 sale of \$12½ million worth of Veterans' Land bonds, reports.

Bill Allcorn, chairman of the Veteran's Land Board and Texas land commissioner. The Board already had speeded up its buying program as funds became available on January 16 from \$12½ million

No. 1

for emergencies.

Meantime plans are under way to do something about the water hot-rodgers who deliberately endanger lives by unsafe operation of boats. Boat dealers of Texas have expressed an interest in legislation to curb dangerous water activities.

Numerous municipally owned lakes already have passed ordinances with safety requirements.

These ordinances usually prescribe areas for skiing and make provisions for proper equipment, such as life jackets, cushions and fire extinguishers. Many of them require that jackets be worn by any child under 12 who is a boat passenger. There must be a jacket or cushion also for each additional occupant of the boat.

LAUNCHING RAMPS NEEDED — Another problem facing outdoorsmen today, especially the boat owners, is the question of access.

It is getting harder and harder worth of bonds sold in December, 1957.

The bonds sold on April 1 went at 2.89 per cent interest, well below the three per cent limit provided in the State constitution.

The Board is now sending out application forms to 300 veterans each week. Allcorn notes that money now available is expected to carry the program through May of 1959.

er to find places where boats can be put into public waters. In many instances they are being fenced in by private ownership. Where there is public ownership little is being done to perfect access, or to provide adequate launching ramps. Ramps that are available are overrun on week-ends when the weather is favorable.

We have a traffic problem with boats and trailers today that has been completely ignored for the most part by city, county and state officials. Perhaps it is our own fault for not doing more about it.

Many of the larger impoundments of the state are under the supervision of the Corps of Engineers. Generally these lakes have fairly good access, over paved or good gravel roads, to the water's edge. Here, however, it stops, unless there is an abandoned black-top road that enters the water. In most instances boat owners have to launch over gravel or mud bottoms.

On a few municipal lakes there are some attempts at launching sites. In Austin recently the city constructed a new concrete ramp on Lake Austin, but it is inadequate to serve all the demand made by boaters.

On lakes that are controlled by river authorities most of the marginal land is in private ownership. Fees of 50 cents to \$1 are charged to launch from gravel or muddy shores. A few camp owners permit free launching by occupants of their

Leader's Laboratory Is Slated in New Mexico

May 6 is the last day to register for the eighth annual Southwestern Recreation Leaders' Laboratory, opening May 11 on the Lazy Ray Ranch, near Jemez Springs, N.M.

Nationally recognized leaders in various fields of community service are to be instructors. A number of youth leaders of this area have made plans to attend. For reservations write Mrs. Jackie McLeroy, Box 995, Dimmitt, cabins.

The state highway department has done nothing to provide launching ramps on right-of-ways that cross lakes and streams. Boat owners who launch their boats under bridges do so with considerable difficulty. This despite the fact that boat owners pay many thousands of dollars annually into the state highway tax fund, on motor fuel tax, to which they might be exempted if they claimed the exemption.

This access problem is one that can be solved, easily and quickly, by local cooperation. Get a few boaters together and call on your Chamber of Commerce. Work out a plan and then take it to the responsible government agency. It might be your city council, the commissioners' court, or even your state highway department.

But you'll find someone sufficiently interested.
