Reports Dominate Monthly Business Session

Chamber Will Initiate A Membership Drive

For the first time in half a year, directors of Brownfield Chamber of Commerce were able to sit down Wednesday in a more relaxed atmosphere for their monthly business session.

Behind the directorate are the multiple and agonizing details of building a new home from the ground up, and construction on the chamber's new quarters is on schedule.

Meeting in The Melody, the officials ate breakfast and then heard individual reports from chairmen of the various committees.

Of particular interest was a brief talk by the president of the Franklin County Chamber of Commerce, Otis Slaughter, who maintains offices in Mount Vernon.

The visitor spoke mainly of the pitfalls which can be met with in a program designed too hastily in seeking outside industry to settle in a city. Slaughter also urged that primary consideration be given to the native economy.

Committee chairmen reported to the group as follows:

Charles Kersh, agriculture: Terry County Home Demonstration Council thanks chamber for its role in last Cotton Week show here; bills paid, and new ideas to be used in next year's show.

Earl Jones, airport: Roy D. (Pete) Harris Jr. of Harris Flying Service named manager of new City-County Airport; construction on the job now three weeks old; board of managers of the airport comprises Chairman Jones, John J. Kendrick, Jake Geron, D. L. Pemberton, R. L. (Bob) Burnett, and Harris.

Burton Hackney, congressional action: Director of U.S. Chamber of Commerce, Southwest Division, will address Rotarians at Friday luncheon, and all interested persons urged to attend.

Lal Copeland, industrial development: Much construction in progress, and much more contemplated.

D. L. (Dip) Pemberton, highways and roads: Plans being studied to route more Lubbock-to-Lamesa traffic through Brownfield by way of Lubbock Hwy., thus avoiding the cut-off west which takes that traffic around the city.

C. E. Ross, housing: Program shaping up for possible low-rent housing in Brownfield; Fort Worth firm acting as consultant; would clear some of areas where housing is not of the best type.

Bruce Zorns, membership: An intensive drive for new members should be initiated immediately. Of 400-plus businesses in Brownfield, only 201 are chamber members. Clarence Griffith of Griffith Variety to be chairman of new drive.

Jimmie Billings, economic understanding: First annual Road-E-O for teen-agers considered a success; Jerry Hahn, son of Mr. and Mrs. Ira Hahn of 509 Lubbock Road to enter state contest, Friday and Saturday in San Marcos. Billings will accompany Hahn.

In other business, the directors approved a commendation for Brownfield businessmen who generously allow their employees to spend time with Little League, Babe Ruth League and American Legion baseball teams.

The commendation also See No. 1 Page 5

PROGRAM FOR YOUTH

Sponsors have been obtained for the youth center to be opened each Friday from 7:30 p.m. to midnight in The Party House. Mr. and Mrs. W. S. Frymire of 710 East Main will sponsor the program to be conducted through the summer with the exception of Aug. 15.

IN ENTERTAINMENT

Three-Day Event Set

Spectators can be prepared for thrills in these departments during the three-day Sheriff's Posse rodeo:

Saddle bronc riding, double muggings, bull riding, calf roping, bareback bronc riding, barrel racing for girls, and goat sacking for boys.

First performance will begin at 8 p.m., today at The Rodeo Arena, and like shows will be presented at the same time Friday and Saturday.

The posse's annual event will be heralded at 3 p.m., today when the traditional western parade is held downtown.

Admission nightly: \$1.50 for adults and 50 cents for children.

Refreshments will be available at the arena in concession stands operated by members of Hand Bros. Post 6794, Veterans of Foreign Wars.

Other entertainment set up this year by the posse will be dancing in The Legion Hall after each night's rodeo performance. Music will be furnished by Hoyle Nix and his West Texas Cowboys.

Mayor Arlie Lowmore has proclaimed the three days as "Rodeo and Western Wear Days" in Brownfield. The mayor, in his proclamation, also urged all-out attendance of the major show.

IN BCC PLAY

Kemper Is Medalist

J. L. (Dusty) Kemper of 401 East Cardwell won medalist honors in the annual City Men's golf tournament which began here Sunday with qualifying rounds.

Kemper outdistanced 27 other golfers who qualified for the meet with a par 72 round. He will be joined by seven other linksters, including defending champion Ray Warden, in the championship flight.

First round matches were See No. 2 Page 5

DON O'NEAL On Tourney Trail . . .

PREPARING FOR 1958-59 TECH VARSITY TEAM

Don O'Neal Of Brownfield Hits The Tournament Trail for World of Golf

By CHARLIE MAPLE

NEWS Sports Editor
A 19-year-old Brownfield youth has hit the summer golf tournament trail, preparing for the 1958-59 Texas Tech varsity season.

Don O'Neal, son of Mr. and Mrs. George O'Neal of 706 East Lons, is competing in the State Amateur Golf Tournament at San Angelo this weekend after capturing fourth place in the annual Wichita Falls Country Club Invitational last week.

The youth was slated to qualify Wednesday for the competition, expected to draw 150 of the state's top amateur golfers. Jimmy Johnson of Leveland, a teammate on the Tech freshman team, will join O'Neal in the meet.

The Tech advertising student opened the tournament trail last week by downing four top linksters in the Wichita Falls meet which required seven 18-hole rounds of play.

He advanced to the finals with a 2-1 victory over Buster Reynolds of Fort Worth, 1-up over Rocky Thompson of Wichita Falls, who was a member of the University of Houston frosh golf team, 1-up over Don Massengale of Jacksboro, Southwest Conference links champion from TCU, and E. J. Rogers Jr. of Wichita Falls by a 2-1 score.

In the 36-hole finals before he ran into trouble on the 14th hole. "I drove into the creek on the 14th, landed behind a tree on the 15th and three-putted the 18th to wind up with three bogies and fourth place," he said.

The Brownfield golfer was one of three freshmen who recently qualified for a position on the next year's Tech varsity. The 72-hole competition qualified O'Neal for one of six golf scholarships offered by the school.

The 1958-59 team will include three seniors, who competed in Southwest Conference play this year, and three former members of the frosh squad. O'Neal was No. 3 man on the freshman team last winter until he suffered a dislocated kneecap in a fall. Two days before the team was scheduled to leave for the Southwestern Recreational meet at Fort Worth, he fell down some dormitory stairs.

The fall held the youth out of competition until the final match of the season, against Odessa Junior College. He still wears a knee brace and a weighted shoe to strengthen the knee and thigh muscles weakened by the injury. O'Neal has played golf about six years after caddying for his father and other members of Brownfield Country Club for two years.

First BHS Team
He was a member of BHS's first golf team, which was formed when O'Neal was a freshman. The team placed second in district competition all four years he competed, and was third in the state his junior year.

The lanky youngster copped the district individual championship his sophomore, junior and senior years. He highlighted his high school career by winning regional honors and placing fourth in the state meet in 1956.

O'Neal said he plans to sandwich as many tournaments as possible around the two-week National Guard camp slated the last of July. He is a specialist 3/C and senior wireman in the Brownfield unit.

He plans to compete in the Hobb Invitational, June 12-15, and the Men's West Texas at Plainview, June 19-22, before attending the encampment.

NEWS Recognized By Future Farmers At Midland Meeting

The Brownfield NEWS was named Saturday by Future Farmers of Area II as having contributed more than any other newspaper to the FFA program the last year.

The recognition was given in Midland, where the area FFA youths meet for their annual association convention.

Attending from Brownfield High School were Gary Moore, Lonnie Bartley, Jimmy Sherin, Dovie Adams (Brownfield chapter's 1958-59 sweetheart), Patsy Hulse (District sweetheart), and Advisors Walter Meyer and Robert Becker.

Wellman, Meadow and Brownfield chapters had a total of 11 applications for Lone Star Farmer degrees approved at Midland and sent to the State Record Checking Committee in Austin.

The three chapters will send about 20 Future Farmers and their advisors to the state convention, July 16-17-18 in San Antonio.

The Brownfield group will enter its award-winning newspaper press book in the judging at San Antonio.

The Brownfield chapter also received recognition for winning two of the five leadership contests (radio and senior farm skills) last fall in Big Spring.

Miss Hulse was named third in the Area II sweetheart contest at the Midland convention.

BEGAN SEPTEMBER 1914 IN FIRST SCHOOL HERE

Retirement Ends Illustrious Classroom Career for Mrs. Will Fitzgerald Here

By KLYDIE SCUDDAY

NEWS Woman's Editor

In September 1914, an eager-eyed teen-ager, Miss Mozelle Treadaway, entered her first classroom as teacher.

It was the primary room of the three-teacher Brownfield public school, located where now stands the Farmers Co-Op Society No. 1 Gin.

Last week and with tears in her eyes, and now Mrs. Will Fitzgerald, the veteran teacher retired.

She said, "It was a difficult decision to make and one which I have been working with all year. I still hadn't gained the courage to take the final step when contracts were brought for our signatures."

She knew the time had arrived. "But I waited yet a few days before telling my principal, because I felt I couldn't bear to discuss it with anyone. After I made myself tell, first one and then another, the telling became easier."

"I will miss the children, but I plan to be with my husband more and to help my mother (Mrs. Elsie L. Treadaway of 326 East Broadway). Mother always has such a help to me in my teaching career, and I feel it's time to return some of that aid."

During that first year the young teacher had over 30 pupils, teaching the first four grades. As she explains, "Every room had its recitation bench and if a class were too large to be seated on the bench, some had to stand."

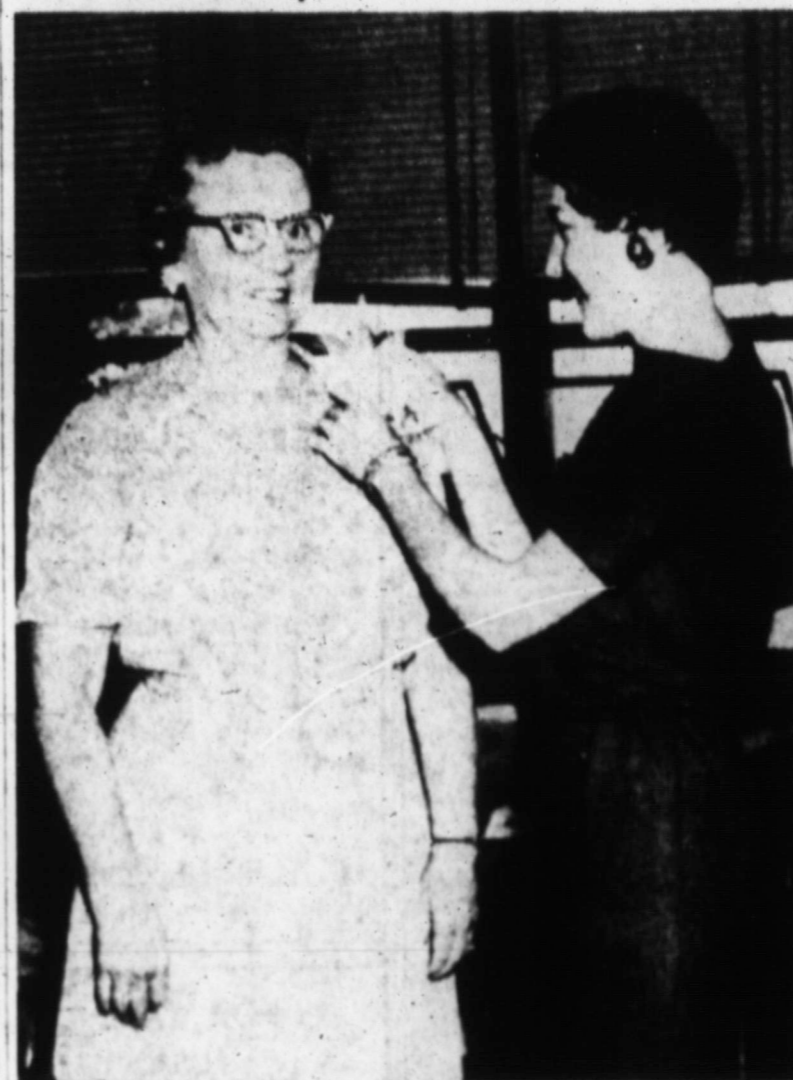

In describing some of the differences between then and now, she told of outdoor toilets and the pot-bellied stoves, with fires to be built every morning. "I was fortunate to have a principal, the late A. K. Huckleberry, who made the fires before we got there in the morning."

Pupils had to cross the road to the home of the late J. L. Randal and Mrs. Randal to get a drink of water at their windmill.

Mrs. Fitzgerald remembers the bad weather days at that first school. "Ruth Turner, now Ruth McCain of Mac's Beauty Shop, was in high school, and on bad days she would come down to our room (the piano was there) and play (the piano for the children. They would come in from the other rooms, too. We really enjoyed those rainy days."

She has been teaching children of some of her former pupils for sometime, but this year brought Mrs. Fitzgerald one of the third generation. Douglas Chesshir, son of Mr. and Mrs. Nathan Chesshir of 807 East Buckley, was in her room. She had taught his grandfather, Hubert Thompson, now a member of the school board.

Miss Margaret Bell, one of her former pupils, was a teacher at Jessie G. Randal See No. 5 Page 5

RETIRING — Pictured, left, is Mrs. Mozelle Fitzgerald of 320 West Broadway, who retired last week from the Brownfield Public School system after a teaching career of 35 years. She is shown receiving a corsage from Mrs. Toby Weaver of 905 East Reppito, the youngest teacher in experience in the Brownfield school system, having accepted her position at mid-term.

IN BABE RUTH ACTION MONDAY

Tigers Hit Cards

An 11-hit attack by the Tigers dropped the league-leading Cardinals into a second place tie, highlighting Monday night Babe Ruth League action.

The attack, led by Don Simmonds with a 3 for 5 hitting record, Charlie Cook with 2 for 3, and George Glenn, 3 for 3, plastered the Cards, 14-3, in Monday's nightcap after the Yankees dropped the Red Sox 9-0, in the first game.

Woody Harbin twirled a 1-hitter for the Yanks while his teammates collected seven hits and the victory off the pitching of Eddie Gutierrez.

The Dodgers moved into first place in the week-old race by rapping the Yanks, 11-8, Saturday night.

Curtis Shadrick, Dodger catcher, blasted two home runs, including a grand slammer, to lead his mates to the

win. Doug Mason allowed only four hits to give the Dodgers their second win without a loss.

The Tigers moved into a second place tie with the Cardinals and Yankees by coupling Monday's win with a 15-5 victory over the Pirates Saturday.

Roy Jones allowed four hits to send the Pirates down to their second loss in as many starts. Duane Steen and Jimmy Hackney each collected two hits to pace the Tiger attack.

Yankees	000 301 4-8
Dodgers	153 020 8-11
Tigers	534 3-15
Pirates	410 0-5
Red Sox	000 000-0
Yankees	410 21x-0
Tigers	805 10-14
Cardinals	100 02-3

IN LEAGUE OPENER HERE

American Legion Nine Clobbers Plains, 21-11

Brownfield's American Legion baseball team, led by home runs off the bats of Ken Kendrick, Jimmy Rogers and Gene Blake, rambled past Plains, 21-11, here in the season opener for both teams.

After a scoreless first inning, Brownfield jumped into a four-run lead in the second on the strength of a grand slam blast by Blake.

Brownfield stretched their lead to 16-1 in the third frame as 18 batters paraded to the plate, gathering four hits, 10 walks and three errors by Plains.

eight runs in the fourth and two more in the sixth when Coach Darrell Lewis sprinkled his lineup with reserves — several not even in uniform — and relieved his pitcher, Joe Oswald, with fireballer Doug Coppock.

Oswald allowed one hit and four walks through the first three innings while striking out five. Coppock allowed six hits during the final four frames.

Brownfield will host the Denver City team here at 8 p.m. Saturday in Babe Ruth League Park.

The team is one of seven See No. 6 Page 3

AT REGAL — Leo Gordon, left, and Steve Cochran are starred with Diane Brewster in Allied Artists' exciting action drama, "Quantrill's Raiders," filmed in CinemaScope and De Luxe Color. It begins a three-day stint today at The Regal.

THE SQUARE What's New? AROUND SQUARE

By Weldon Callaway

Think of this in the first person: "If I have sown one seed that grows to ripened grain, what matter who shall reap? Mine is the gain."

Winner of the 3-piece set of matched luggage, given away at Klein's during their recent "Birthdays Sale" was Judy Glenn, 302 East Oak.

Have you been out to Ed's Standard Service (formerly Winkler's Standard Service) to meet Ed Ball? If not, you are in for a pleasant surprise. Not only is he a good business man, but also a person who is a real pleasure to be around — he's not always "singing the blues." First time you are out the Lubbock Road (607 is the block), drop in and say hello!

You have a dollar, we have a dollar, we swap; now you have our dollar, we have yours, and we are no better off.

You have an idea, we have an idea, we swap; now you have two ideas, and we have two ideas, and that's the difference.

There's another difference: A dollar does only so much; it buys so many potatoes and no more. An idea that fits your purpose may keep you in potatoes all your life, and it may incidentally build you a place to eat them in.

Here is a partial list of the good movies coming your way this month: Regal — "Paris Holiday," "I Married a Woman," "Teacher's Pet," just to mention a few. Rialto — "Snow White and the Seven Dwarfs" and "Black Beauty," "Texas," "California," and "The Rustic" — "Three Faces of Eve," "East of Eden," and "Cowboy."

Today is the day — big down

TO COLORADO Union Graduates Return From Trip

Eleven May graduates of Union High School have returned from a trip which included much of Colorado.

While in the Centennial State, the group visited the famous Royal Gorge, highlight of a tour which included stops at Seven Falls, Ghost Town, Pikes, Manitou Mountain, Cliff Dwellings, Garden of the Gods, State Prison in Canon City.

Students were Alfred Newsum, David Cabe, Jimmy Sargent, Janice Howard, Veneta Ray, Charles Luker, Kermit Shults, Leland Duggan, Doris Howell, Wylie Kay and G. W. Dill.

Parkview Church To Begin Bible School

Parkview Methodist Vacation Bible School begins Monday with classes meeting daily from 8:30 to 11 a.m., through June 13.

Included are worship, activities, refreshments and recreation for children from the ages of three through 12.

Teachers are Mmes. J. N. Reid, C. R. Parker, Bill Rowe, B. A. Floyd, Clyde Morris, Cecil Farrar, Lester Short, Ray Elomer and Miss Norma Meeks. Others will assist.

THREE DAYS AT REGAL

Quantrill Raid on Union Army Arsenal At Lawrence, Kan., Makes Good Movie

One of the most exciting episodes in the adventurous career of the infamous Confederate raider, Quantrill, is dramatized in Allied Artists' "Quantrill's Raiders."

The show begins a three-day stint today at The Regal.

Starring are Steve Cochran, Diane Brewster and Leo Gordon.

Couples Bridge Club Entertains Tuesday

Mr. and Mrs. D. L. Pemberton of 1315 East Caldwell entertained Couples Bridge Club Tuesday evening.

Mr. and Mrs. Curtis Sterling took both men's and women's high and bingo.

Ice cream and strawberries were served to Mr. and Mrs. Bill Anderson, Mr. and Mrs. George O'Neal, Mr. and Mrs. Jim Finley, Mr. and Mrs. John J. Kendrick, Mr. and Mrs. Howard Hurd and Mr. and Mrs. Sterling.

No. 6—

teams competing in the south half of American Legion baseball District 2. Other teams in the south division include Spur, Lorenzo, Plains, Lubbock Auto, Denver City and Lubbock Bell Milk.

Teams will play a round-robin schedule. First and second place finishers in each division will compete in district tournament in Lubbock the second week in July.

The Bell Milk team, comprised of Monterey students, won the district meet last year, going on to defeat Pampa in bi-district, and San Angelo in regional, before losing to Odessa in a three-game area championship series.

Majority of Brownfield's nine are graduates from last year's Babe Ruth League teams. Only Kendrick, Rodgers and Oswald played on the 1957 legion team.

Lewis said he believes Brownfield will have a team well worth watching this summer. "The boys look pretty smooth after only one week of practice and should give a good accounting of themselves

Ten Negroes Caught In Gambling Raid at Night

An early morning gambling raid netted 10 Terry Negroes when Sheriff's officers, Brownfield police and Texas Highway patrolmen joined forces Sunday.

The group, arrested about one-fourth mile north of here, pleaded guilty and were fined \$24.50 each by Justice of the Peace Lonnie Rhyme. Operator of the game was fined \$69.50.

after they have picked up some more experience," he said.

Unwatched Bottle Is Man's Undoing

Money is the root of all evil, according to the old adage, but a Brownfield Negro possibly believes liquor also has a foothold in that department.

The man was arrested Friday night for drunkenness and paid a \$24.50 fine after a night in the county pokey.

As he strolled out the door, sheriff's officers said he lifted a pint of whiskey confiscated in an earlier raid. Within 45 minutes he again was taking bed and board with the county.

He still is in jail in lieu of a \$31.70 fine levied by Judge Herb Chesshir on the misdemeanor theft charge.

45-MINUTE SPREE

Dropped in to see Joe and Ida Mae Shelton, they have recently returned from the Dallas Style Show. Said Ida Mae: "You can't whip them, so you might as well join them." The Chemise, in a modified form, is here to stay for awhile."

It Happens
Genius: "Can't understand why you failed in business."
Friend: "Too much advertising."
Genius: "What do you mean — too much advertising? You never spent a cent in your life on advertising."
Friend: "That's true, but my competitors did."

Mr. Farmer ... Did it miss you last week? I hope your luck continues to hold, but it's better to be safe than sorry. Why not take out Crop Hail Insurance — then your investment is protected.

Finis: No matter how widely you have traveled, you haven't seen the world if you have failed to look into the human hearts that inhabit it.—Donald Culross Peattie.

Freda Oliver Attending Sul Ross State College

Freda Oliver, daughter of Mr. and Mrs. D. B. Oliver of Seagraves, is in Alpine where she will attend the summer session at Sul Ross State College.

This will make her second summer at Sul Ross. She has just returned from Lubbock where she attended Texas Tech for the fall and spring semesters.

Bond Election Is Approved at Union

The sale of school bonds in the amount of \$70,000 was approved in an election Saturday at Union.

The money will finance construction of three classrooms and a cafeteria. Contract for building probably will be let about mid-June, said M. G. Gary, superintendent of schools.

The vote Saturday was 27 for, 2 against.

Gary said that a board of equalization will meet at 9 a.m. June 28 to consider oil and public utility taxes. At 10:30 a.m. same day, the board will be available for consultation with property owners concerning school taxes.

U. S. Chamber Official To Address Rotarians

J. Ledge Craig, manager of Denver District of the U.S. Chamber of Commerce, will discuss congressional action in relation to national affairs when Brownfield Rotarians meet Friday at First Presbyterian Church.

The luncheon meeting is open to anyone interested in Craig's subject, reported Joe Satterwhite, Brownfield C.C. manager.

Craig will be introduced by Rotarian Burton Hackney.

NEW GRANDSON

Mr. and Mrs. Herman Chesshir of 1006 East Tate have a new grandson, Douglas Roy North, son of Mr. and Mrs. Lester North of Hobbs, N. M. He was born May 30 and weighs 8 pounds 8 ounces.

LEGAL NOTICE

NOTICE OF INTENTION TO LEASE COUNTY SCHOOL LAND FOR MINERAL DEVELOPMENT TO ALL WHOM IT MAY CONCERN:

Notice is hereby given that the Commissioners' Court of Terry County, Texas, will offer for sale and will sell to the highest and best bidder for cash for the bonus consideration, an oil, gas and mineral lease or leases covering the following described land belonging to Terry County, Texas:

The South one-half (S/2) of Block 2, and the South one-half (S/2) of Block 5, League 302, Terry County School Land Survey, situated in Gaines County, Texas.

The said lease to be executed on the usual Texas Standard Revised 88 form, providing for not less than the usual 1/8th royalties, and not more than a ten-year term from date of execution and approval, and not less than One Dollar per acre annual delay drilling rental.

The said Commissioners Court will meet at the Court House in Brownfield, Texas, at 10 o'clock A. M. on the 23rd day of June, 1958, to receive and consider all bids submitted and will award said lease to the highest and best bidder, after public hearing and consideration, except that if in the opinion of the said Commissioners Court, the highest and best bid submitted does not represent the fair market value of said lease or leases on all or any portion of said land, then said Court may, in its discretion, reject all bids submitted.

Witness My Hand this 26 day of May, 1958.

Herbert Chesshir
County Judge
Terry County, Texas

Hackney vs. C. G. Grizzell and Leonard Ellington vs. Joe Christian.

No. 3

Albany. Seriously injured in the mishap were her daughter, Mrs. Dorothy Fielder of Route 5, a granddaughter, Carolyn Fielder, 13, and Tommie Lamar, son of Mr. and Mrs. T. J. Lamar of Route 4. All were reported in good condition in Shackleford Memorial Hospital at Albany.

Funeral services for Mrs. Young, who had lived here about 12 years, were to be held at 3 p.m. today in Anson Church of Christ. John McCoy, minister of Crescent Hill Church of Christ, will officiate, assisted by Furman Cauthen.

Burial will be in Bethel Cemetery at Funston.

The accident occurred near the bottom of "nine-mile-hill" west of Albany on U.S. 180 about 5 a.m. Tuesday. Investigating officers said Mrs. Fielder apparently fell asleep while driving. The pickup served off the road and overturned twice.

Survivors include a son, Carroll of Route 5; a daughter, Mrs. Fielder; three brothers, Andrew, Abb and John McKeever, all of Anson; five grandchildren and one great grandchild.

pot's around but the daughter insisted the plant had to be put in a can. "Miss Mozelle told us to put it in a can."

On Christmas day of 1939 Miss Treadaway was married to J. W. (Will) Fitzgerald. She had met him when he visited relatives in Plainview. Christmas is a big day for her because it is also her birthday. She says, "Some women complain that their husbands forget birthdays and anniversaries. I never have that trouble."

As she closed out her teaching career, Mrs. Fitzgerald received a number of gifts, including one she prizes highly, a citation for service rendered. It was issued by Brownfield School Board at the request of one of their members, a former student of Mrs. Fitzgerald.

included the employees who are helping direct the efforts in the various leagues.

In still other business, Zorn explained that a meeting of Terry Soil Conservation District personnel and other persons would be held at 2 p.m. Thursday in Brownfield State Bank. Purpose:

To set up a new program of rules for the "first bale" in Terry. Under new rules, the first bale will probably become a thing of the past.

Instead, recognition or awards would be based on

staple, grade, farm management, etc.

The "first bale" program in the past actually has been a project of the junior chamber, which this year has voted to do away with it.

Pres. Dennis Q. Lilly presided Wednesday, and Curtis Sterling said an invocation.

No. 2

slated for completion Wednesday and second round deadline is Saturday. Finals will be played Sunday, starting at 1 p.m.

Flights Are Listed

First round matches included championship flight — Kemper vs. O. C. Elliott; Paul Woods vs. J. O. Burnett; Warden vs. B. F. Hutson Jr., and Jack Shirley vs. Ted Hardy.

First flight — Harry Goble vs. J. D. Williams; Gene Angus vs. Curtis Sterling; E. C. Taylor vs. Jim Bayless, and Clyde Lewis vs. J. T. Bowman.

Second flight — Cleo Barnett vs. R. N. McClain; John Cadenhead vs. Vernon Townes; Earle Honeycutt vs. Ronnie Parker, and Herb Chesshir vs. Murphy May.

Third Flight — Burton

planted up to July 1 last year, but did not have much return on the crop."

No. 5—

this year. Though Mrs. Fitzgerald was teaching at Colonial Heights when she resigned she has taught in West Ward and Randal as well as the first little school in Brownfield, the one, across the tracks.

Of the 35 years taught, all of them were in Brownfield except three years in Plainview and one in New Mexico. She took out several years at various times to complete her education, attending college in Boulder, Colo., UCLA in California, Teacher's College of Columbia, the old CIA in Denton and Texas Tech.

During her first year of teaching, Mrs. Fitzgerald made \$50 a month. At the end of the eight-month term she still had \$300 of the \$400 made. She explained, "I didn't have any room and board to pay because I was living at home but I'm sure I bought a few clothes."

Primary teachers made more than others in that day and she was drawing \$105 a month when she took out to get her degree at Texas Tech. She laughed about it, "When I came back, instead of getting more my salary dropped to \$90."

Mrs. Fitzgerald told of one pupil making her older than her official age. "Leon Lewis, son of Clyde Lewis and the late Mrs. Lewis, was in my room and he went home and announced to his family, 'Miss Mozelle is my teacher now and he taught my cousins, my aunts, my uncles and I think she taught my grandparents.'"

His grandparents, the late Mr. and Mrs. M. B. Sawyer and the late Mr. and Mrs. R. R. Lewis, were a little old to be my pupils."

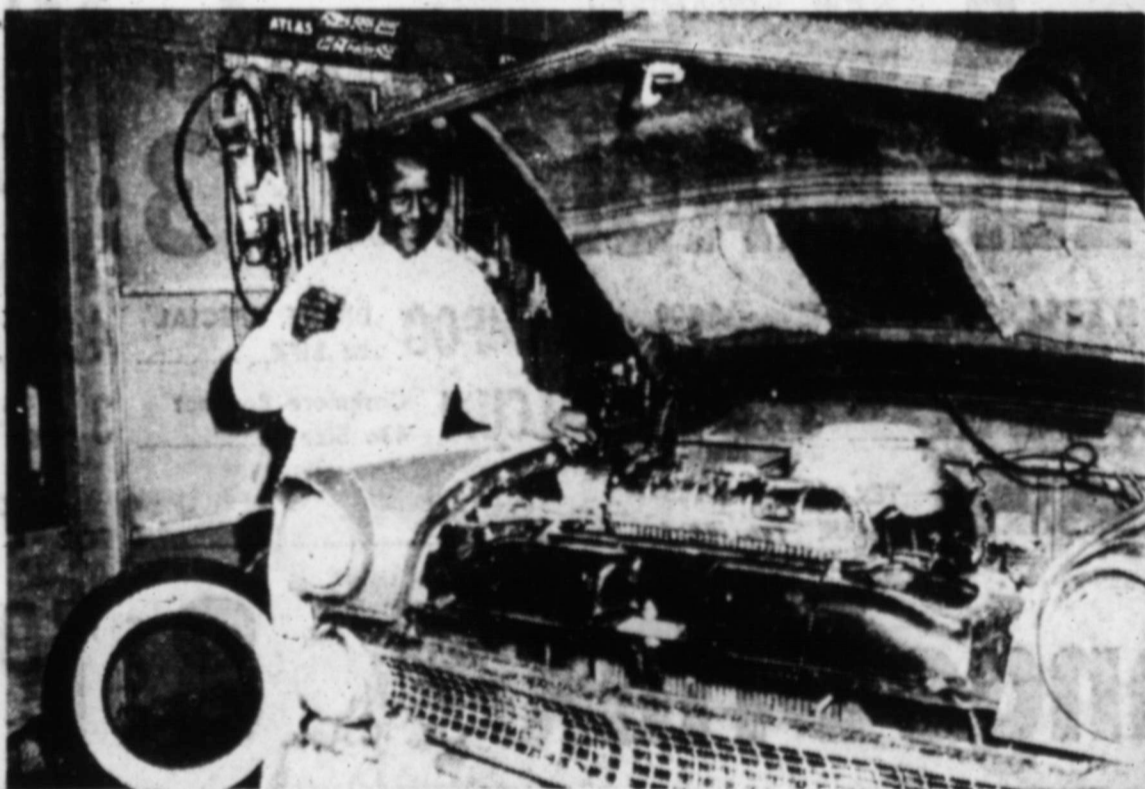

She regrets she did not keep a record of some of the cute sayings, for amusing incidents were happening all the time.

She remembers the time at Randal: "I was teaching at the end of the building away from the boys' rest room. We had just taken up after lunch when one of the boys came and asked to be excused. It was warm weather and I realized doors would be open, disturbing every room as he walked down the hall. Meaning for him to go to the rest room but by way of around the building, I said, 'Why don't you just run around the building.'"

"He was back so quickly I asked if he had gone to the rest room. He looked up, puzzled. 'No, I just went around the house like you told me to.' That little boy is a man now but he still lives in Brownfield."

Co-Workers Present Gift
 She recalls the time she gave each of her pupils a pot plant and gave instructions to take them home and put them in a can. One mother told her later that they had plenty of flower

PICTURE OF CONCENTRATION — Seven-year-old Teddy Griffin, son of Mr. and Mrs. C. G. Griffin of Brownfield Country Club, intently eyes the ball as he swings for distance in a practice session. Watching in the background is his mother. (NEWSfoto)

NMMI Ball Attended At Roswell Last Week

Mrs. Al Hallbauer of 1208 East Cardwell and Miss Patsy Hulse, daughter of Mr. and Mrs. Dan Hulse of Route 2, went to Roswell, N.M., Friday where they attended the Final Ball at N.M.M.I., where Leslie Hallbauer is a student.

The ball room was decorated to represent a show boat with replicas of southern plantations in the background. Mrs. Hallbauer returned Sunday morning with Miss Hulse and Leslie returning later in the

day. Leslie will spend the summer here with his parents.

VISIT HERE

Mr. and Mrs. Guy White and daughter, Nan, of Oklahoma City, Okla., were weekend visitors in the home of Mr. and Mrs. Ben Lee of 811 South 10th. The former Brownfield residents attended Baccalaureate and commencement exercises at Texas Tech, which included their youngest daughter, Beth.

Siren for a summer night!

L'Aiglon's siren fashion combines all the elements for successful luring! A bodice of sheer imported cotton voile, with a mock décolletage of linen-look spun rayon. Plus a billowy skirt of the imported voile! In siren black or ingenuous pink or blue. Sizes 10 to 20. **\$17.95**

Kick-Off Campaign for Henry Gonzalez Gubernatorial Race To Be Held June 9

The campaign kick-off rally for Sen. Henry B. Gonzalez for governor is scheduled the night of June 9.

To be held at La Villita, famed center of historic San Antonio community life, the kick-off follows an unexpected, spontaneous demonstration wherein Bexar County citizens feted the gubernatorial candidates with a \$100-a-plate dinner recently.

Proceeds from this dinner will be used for the statewide TV broadcast. More than \$7,000 was raised for this broadcast at the lavish dinner, believed to be the most successful of its kind ever attempted for a state candidate.

The fiery Gonzalez is expected to draw heavy support from loyal Democrats because of his staunch support of Adlai Stevenson in the last two National elections.

Both of his major opponents are known to have defected for varying reasons. Other strong support for the Bexar County Senator will come from labor, liberals and other minority groups.

Slated to start at 8 p.m. the Kick-Off Rally with the festive air which has thus far surrounded the Gonzalez campaign, will be subdued to permit a full-scale enunciation of the widely-aired Gonzalez platform. At 8:30 p.m., the Television Broadcast will begin.

Henry B. Gonzalez, age 42, married, seven children, was born in San Antonio, within one block of the old Spanish Governor's Palace,

across the street from San Antonio's City Hall.

He is a graduate of Jefferson High School, St. Mary's University School of Law and Texas University School of Law.

He served as Chief Probation Officer for Bexar County Juvenile Office, was twice elected city councilman for San Antonio, and served as mayor pro-tem.

In 1956, he was elected senator from the 26th Senatorial District and is serving in that capacity at this time.

In private business, he has been engaged in script-writing for two local television and radio stations. He speaks and writes four languages fluently and is widely reputed to be a great orator.

His father served as Editor for a daily newspaper; one brother is a physician and 2 brothers are engineers.

In view of the heavy response to the Gonzalez candidacy from areas adjacent to Bexar County, formal invitations have been mailed to Democratic political leaders in those areas.

"This does not mean," said Senator Gonzalez "that we would not welcome with open arms any loyal Democrat from anywhere in Texas to our Rally on June 9th."

RETURN HERE

Mr. and Mrs. Crawford Burrow of Wichita, Kan., former residents of Brownfield, are returning. They will make their home at 208 West Cardwell.

'GOOD MORNING, TEACHER,' IS SPECIAL LESSON

Former Brownfield Youngsters Attend Pilot Institute For Deaf; Learn Useful Way of Life

"FAVORITE RECIPE" — Pictured is Mrs. Bob Jones of 210 Buckley as she prepares her favorite recipe, prize chocolate cake. Her instructions are: Cream one cup of shortening until soft then gradually add two cups of sugar, mixing well after each addition. Add two teaspoons of vanilla and four one-ounce squares of chocolate, melted, mixing well. Add five eggs, one at a time, stirring well after each. Mix in 2 1/2 cups of sifted flour to which one teaspoon of soda and 1/2 teaspoon of salt have been added. Gradually add one cup of sour milk. Beat well and add one cup of coarsely broken walnuts. Bake in three 9-inch pans in a 350 degree oven for about 30 minutes. Ice with chocolate seven minute icing.

By KLYDIE SCUDDAY
NEWS Woman's Editor

To the average instructor, "Good morning, teacher," is a form of greeting, but to the instructor at the Dallas Pilot Institute For the Deaf, it's the first lesson of the day.

Three former Brownfield children received their early training in the school and one now is attending.

Deana Rhea Cunningham was one of the first six pupils of the school and was valedictorian of the first-graduating class. She is the daughter of Mr. and Mrs. Preston Cunningham of Dallas, formerly of Brownfield and Plains. In 1947 Mrs. Cunningham joined Pilot as instructor and is still there.

In 1943, the Cunninghams placed their son, Dan, in the school, just before his fourth birthday. The children's double cousin, Doretta Lance, entered the school in 1947 at the age of 2 1/2 years.

She is the daughter of Mr. and Mrs. Clarence R. Lance of Dallas, formerly of Plains and Brownfield. At the time they deemed it necessary to move to Dallas, he was assistant cashier in First National Bank of Brownfield. He is now pricing clerk in inventory for Metal Goods Corporation of Dallas and his wife works for T. A. Manning Insurance Company.

The three children are grandchildren of Mr. and Mrs. J. K. Cunningham of Tokio, and Mrs. Lottie Lance of Dallas.

This year Keith Sibley entered the school after starting his speech reading training at Line Avenue Oral Deaf School of Shreveport, La. He is the 7-year-old twin-son of Dr. and Mrs. George W. Sibley of Dallas. Dr. Sibley, orthopedic surgeon of visiting staff at Methodist Hospital of Dallas, formerly was connected with Treadway-Daniell and Denver City hospitals.

Pilot Institute was founded in 1943 by the Pilot Club of Dallas, a small group of business women organized to render service for the purpose of providing the deaf child with a well-rounded oral education, to the end that he may lead a useful happy life among normal speaking and hearing people.

Located at 4909 Cedar Springs Mills, where farmers came to have their grain ground, the school is the former picturesque estate of Mr. and Mrs. T. L. Bradford Jr. and their two daughters.

Mmes. Joe Reichman and W. R. Goddard. They donated it to the Pilot Institute in 1947.

The school has grown from one teacher and six pupils to a staff of 13 (including principal, eight teachers, secretary, dietitian, maid and caretaker) and 49 students.

Though the school has no affiliation with any state, municipal or religious educational system, it is accredited through the elementary grades by the Texas Education Agency and graduates students on completion of the fifth grade.

It is financed entirely by voluntary contributions, solicited by members of the Pilot Club in an annual campaign. A nominal tuition meets approximately one-third of the expenses. North Dallas-Park Cities Kiwanis Club, through its trust fund, pays for building repairs as they are needed, improvements to the grounds and the caretaker's salary.

The visitor is quick to note the happy atmosphere of the school. Working with six or seven students the teacher rewards the slightest effort.

Her kiss or hug makes the little face beam or maybe it is a mint or even a bit of blue ribbon for each lesson well done, and the amazing thing is that there seem to be no bad lessons.

Children entering the school at the age of 3 work diligently to master their first word, and even though the sound may be far from fluent the teacher and watching classmates show such pleasure that the new pupil feels a part of the group.

One of the most challenging and satisfying fields of education is the instruction of deaf children. It requires all the essentials of good teaching, plus an extra amount of imagination, devotion, patience and understanding.

Rewards are great for the teacher breaking down the barricades and putting the deaf child in touch with the world around him. Mrs. Woods, teacher for beginners, said, "When they told me they had selected me as one of their teachers, I just couldn't believe it. The work is so fascinating. When you have been working with one and he says a word you day to shout."

The way at the school starts much as at any other school, with children arriving with that scrubbed look. As in other schools pupils soon want to show their independence by arriving alone. A little girl in a dainty pink dress allows her mother to walk to the grounds with her but then is quite firm that she must not go further. With curls bobbing, the little miss dances down the drive, leaving the mother worried.

Some of the children wear hearing aids even though they have no residual hearing and cannot benefit by its use; but by wearing one, some of the students can distinguish vowels, which makes speech reading much easier.

Teachers encourage the spoken word. According to Mrs. Cunningham, "The deaf child tires much quicker than See No. 1 Page 3

Lone Star Agriculture

By JOHN C. WHITE
Texas Commissioner
Of Agriculture

The price of farm land in Texas and elsewhere is more than holding its own. Apparently, the business recession has not had an effect on land prices any more than the recent seven-year drought.

According to a recent nationwide survey, good farm land will continue to be a scarce commodity. During the 12-month survey period, only 31 of every 1,000 farms were voluntarily put up for sale.

This compares with 57 ten years ago. As recently as 1952, more than 55 per cent of all land sales were made by active farmers; now only 50 per cent are.

There is a possibility that social security may result in some slight easing of the tight land supply situation. The acreage offered for sale by retiring farmers is increasing. But competition to buy land is becoming stiffer. Bulk of the demand is by farmers wanting more acres for expansion. The survey showed roughly 40 per cent of all farm real estate purchases were made by active farmers for farm enlargement. And this percentage is increasing.

Not just farmers are bid-

ing furiously for farm land. More and more city folks are in the market, too. Thirty-six percent of buyers were non-farmers, up from 32 per cent five years ago.

Other findings showed the average value of farm real estate increased 6 per cent from the spring of 1957 through the spring of this year. And values in two regions of the country climbed substantially more — the southwest (up 10 per cent, largely because of Florida) and the northern Plains States (up 9 per cent).

Total value of all farm real estate in the U.S. is now figured at \$116 billion — up \$109 billion a year ago, \$74 billion 10 years ago, and \$35 billion 20 years ago.

Want to know how to get a farm? An eight-page booklet is available telling how to find a farm, where to get advice, and how a farm can be financed. This may be old stuff to most farmers but is worthwhile reading for any would-be farmer.

SOCIETY? CALL 2188

About Your HEALTH

A weekly public service feature from the Texas State Department of Health.

If you're like most people, you hate chiggers!

Red bugs, as some persons call them, are those tiny, almost invisible mites that frequent grass lawns (especially Bermuda), tall weeds, and other grassy areas such as undergrowth in wooded sections.

They are usually a light red or tan color. While a hungry adolescent, this pernicious little parasite can send strong men into spasms of itching misery, and into fits of scratching.

The mite itself does not cause much harm; however, scratch-

ing will. Infection can result causing painful boils and leaving a scar. In some areas of the world they are believed carriers of disease, but in the U.S., there is no such proven danger. It is the scratching which causes all the trouble.

Gross infection can bring on general bodily disturbances, fever, and loss of sleep caused by forced periods of scratching during the night. Animals, birds and domestic fowl suffer from chiggers — also, even snakes are not immune.

Chiggers are impossible to control except in cleared areas such as lawns, greens, camp sites, and picnic grounds where the ground may be mowed closely.

when the chigger, in its efforts to feed, injects an anticoagulant material to melt the skin layers so that he may feed. They do not burrow into the skin as commonly believed — they merely feed themselves and drop off, but the itching stays on.

They congregate in tight areas such as sleeves, belt lines and neck. You can protect yourself by the application of a suitable repellent to these critical areas whenever you are about to enter a suspected chigger-infested area.

If this fails, there are known palliatives to soothe the itching such as baking soda solution, ammonia water and alcohol.

Chiggers are impossible to control except in cleared areas such as lawns, greens, camp sites, and picnic grounds where the ground may be mowed closely.

Distractions Cause Of Many Accidents

Death on the highway takes strange shapes — a dropped cigarette, a back-seat tussle among the kids, a drippy ice cream cone.

Unrelated, you say? Not so,

For these areas, a treatment of five percent chlordane or toxaphene dust is effective at the rate of 1/4 to 5/8 pounds per acre (1 to 1 1/4 pounds per 1,000 square feet), and lindane dust of one per cent concentration (10 ounces or more per 1,000 square feet.) Sprays may be substituted. All are dangerous to people!

Fifty to 70 gallons per acre, following the mixing directions on the label, is usually sufficient (1 1/2 to 2 pounds per 1,000 square feet).

Bear in mind the dangers in the use of the dusts or sprays — use caution and put them away safely. Remember, insecticides can kill; chiggers only itch.

the National Safety Council points out. They're all potential accident causes. How?

Well, the Council says that while no official figures are available, many auto accidents are caused by just such otherwise harmless objects as cigarettes, children and ice cream cones.

"Distractions contribute to a great percentage of the nation's motor vehicle mishaps," the Council says.

Let's suppose you're cruising down the highway at 60 m.p.h. and drop your cigarette. Take only four seconds to pick it up and you've gone the length of a football field—and then some!

Same thing with a back-seat squabble. Turn around to break it up and you may find yourself welded to the rear of another car that stopped suddenly in front of you.

Same thing with ice cream cones. Drop one in your lap, and then watch the fun start.

"The tales of woe of persons who've been victims of distractions," the Council says, "are usually good for a laugh — until an accident occurs. Then it's not so funny."

AT BRIDE'S HOME IN LUBBOCK

Vows Are Repeated By Mrs. Jane Holman And Robert Lee Bowers Jr.

In a double ring ceremony read at 10 a.m. Monday, Mrs. Jane Lawson Holman became the bride of Robert Lee Bowers Jr. Parents of the couple are Mr. and Mrs. H. G. Lawson of Lubbock and Mrs. R. L. Bowers Sr. of 406 East Tate.

The Rev. Dr. J. Chess Lovern, pastor of Lubbock First Methodist Church, performed the rites in the home of the bride's parents. A pre-nuptial interlude and traditional wedding music were played by Bernie Howell, Lubbock organist.

The bride wore a street-length dress of bamboo silk-pesante with matching accessories and carried a bouquet of white rosebuds.

Mrs. Don G. Furr of Lubbock was matron of honor. She wore a street-length dress of iris blue silk pesante with white accessories and carried a nosegay of white rosebuds.

Marion Bowers of Brownfield attended his brother as best man.

Honeymoon in Mexico

A reception followed the ceremony. The table was laid with a white Madiera cloth and was centered with the three-tiered wedding cake. Mrs. Ethel Terrell and Mrs. V. L. Lawson served punch and coffee from silver services, and

Mrs. Richard Jennings served cake.

Other members of the house-party were Mmes. Marion Bowers and Thomas Hicks of Brownfield and Fred Brown, Bruce Spencer, Jack Leftwich, William Jackson and David Blackburn of Lubbock.

For a wedding trip to Mexico the bride wore a black and white checked cotton suit with white and black accessories and a white rosebud corsage.

Mrs. Bowers attended Lubbock schools and Texas Tech. The bridegroom attended Brownfield schools, the University of Texas and Texas Tech. He is state representative for the 98th district.

The couple will be at home at 1601 East Cardwell.

the average, because it takes more energy for him to speechread" The TV has proven a source of great entertainment to the deaf that have mastered the art of speech reading.

Some of the children trained in the school will go on to college. Deana, graduated from North Dallas High in May, plans to enter either North Texas State College at Denton or Gallaudet College of Washington, D.C. (only college in the world for the deaf). It will probably be the latter.

Dan is now in the eighth grade at Spence Junior High of Dallas. He tells his parents, "I'll finish high school if you say I have to but then I'm going to ranching." Watching him riding a cutting horse at round-up and listening to him give orders, one feels he will make ranching pay.

Doretta, now in sixth grade in Ben Milam Public School of Dallas, says, "I'll be in school with Jimmie Lou (her sister) next year. I'm going to be an artist."

Keith is still a little young but he knows what he will do. "Me?" I'm going to be a doctor, just like my daddy." He is looking forward to being in school with his twin brother, Kenny, in a few more years.

"Everyone can do more to reduce the appalling number of deaths and injuries on our nation's highways."

In those words, J. O. Musick, General Manager of the Texas Safety Association, launched the June phase of the Slow Down and Live program which is being supported by the Texas Safety Association, with the cooperation of the National Safety Council, to give further support to the nationwide Back the Attack on Traffic Accidents campaign.

Musick said that every motorist in Texas can help two ways — one, by starting his own personal campaign to cut down on traffic injuries and fatalities by adjusting his driving speed to the conditions of the road, weather, vehicle and himself, and two, by backing stepped up speed control measures by the traffic agencies or police Department.

He said that even though drivers stay within the posted speed limit they are still considered speeders if they are driving with their brakes in poor shape or on roads that are wet or crowded.

Urging drivers to keep alert behind the wheel and not to let sleepiness, anger or impatience influence their actions while driving, he also advised against mopey driving which creates traffic delays and sets up accident causing incidents.

"Improper speed can be a murderous act," Musick said. "Control it and you'll be helping to cut down on deadly and tragic traffic crashes. Speed violations were factors in 57 percent of all rural Texas traffic accidents in 1957.

You can't shut out CANCER this way

FEAR AND DELAY are two of cancer's most potent allies. Too many Americans needlessly lose their lives to cancer because they put off going to their doctors.

Many cancers are curable if treated in time. Even 15 years ago, medical science saved 1 out of 4 cancer patients. Today, it's saving 1 in 3. The odds would be even better if people would have a health checkup annually and be alert to cancer's danger signals:

1. Unusual bleeding or discharge.
2. A lump or thickening in the breast or elsewhere.
3. A sore that does not heal.
4. Change in bowel or bladder habits.
5. Hoarseness or cough.
6. Indigestion or difficulty in swallowing.
7. Change in a wart or mole.

If your signal lasts more than two weeks, go to your doctor to learn if it means cancer.

Having a health checkup every year is the smart thing to do.

And it's equally smart to send a check to "Cancer," c/o your local post office to help in the continuing fight against this merciless killer.

Terry County Sheriff's Posse Rodeo: Today, Friday And Saturday!

TOURNEY COMPETITORS — The Brownfield City Men's golf tourney got under way this week with J. L. (Dusty) Kemper, left, taking medalist honors. Paul Woods, center, is competing in first flight and C. G. Griffin, right, is pro at the club. Finals are slated to start at 1 p.m. Sunday. (NEWSfoto)

Humble Oil & Refining Lists Large Drop In Net Income In 1957 Annual Report

Humble Oil & Refining Company in its annual report for 1957 informed shareholders and employees that the company's net income was \$175,910,400, a decrease of \$3,050,700 from the previous year.

Net income per share was \$2.45, four cents less than in 1956, despite additional capital investments. The shareholders' investment in the company increased by \$80,514,100 in 1957 to \$1,338,096,100 at the end of the year.

Commenting on the current situation faced by domestic oil companies, President Morgan J. Davis said that excessive imports of foreign oil and utility-type regulation of natural gas producers are both unsolved problems which are seriously affecting the oil and gas industry. He pointed to the decline in exploratory drilling as one of the effects of excessive imports.

Cutbacks in producing days in Texas, where Humble has about 80 per cent of its crude oil production, lowered the company's average production for 1957 to 360,600 barrels daily. This was 2.8 per cent under the 1956 average.

In December, when only 12 producing days were allowed in Texas, Humble's crude oil production was less than half of its efficient capacity.

Drilling expenditures in 1957 increased by more than \$18,000,000 because of rising costs although the number of completions decreased from 905 in 1956 to 867 last year. One reason for rising costs was an increase in the number of expensive offshore wells. Humble completed 71 offshore wells at an average cost of \$585,200 per well.

Also, extreme difficulties were experienced in drilling several deep wild-cats, two of which cost more \$1,000,000 each and four others more than \$750,000 each.

Humble risked \$290,890,700 to

find and develop new reserves of oil and gas and provide related producing facilities. This included dry hole costs of \$61,792,100, which amounted to 42 per cent of all drilling expenditures.

Favorable developments noted in the annual report include: record high reserves of oil and gas, increased productive capacity, a substantial increase in revenue from natural gas, and a continued expansion of Humble's petrochemical activities.

The company's production of paraxylene, used in making synthetic fiber, more than doubled to reach a record level of 40,200,000 pounds. Paraxylene capacity was expanded and further expansion is underway and will be completed in 1958. A new benzene plant, completed early this year, is the largest of its kind in the world.

Humble maintained its position as Texas' leading marketer of gasoline and materially increased sales in New Mexico in its second full year of marketing in that state. However, gasoline price wars in many areas reduced profits despite the gain in volume.

Humble Pipe Line Company's trunk line deliveries averaged 675,200 barrels daily for the year as compared to 699,700 barrels daily in 1956. At the Baytown Refinery, average crude runs declined to 234,500 barrels a day, down 10.4 per cent from the record level in the preceding year.

Total capital expenditures of \$235,395,400 were the largest in the company's history — \$51,487,400 more than in 1956. Davis said total capital expenditures for the current year are planned on a level considerably below the record of 1957 and Humble expects to reduce its drilling operations by about one-third in 1958.

The 18 Cotton Belt states produce more than a third of the world's supply of raw cotton.

Terry Grand Jurors Return Seven True Bills of Indictment

True bills were returned on seven persons when Terry grand jury met last week, according to Sheriff James Fulford.

Indictments included: James Douglas Roberts of Brownfield, driving while intoxicated, second offense; Earnest Gipson of Big Spring, felony theft and accessory to a felony theft; James Robert Bishop of Greenville, N.C., forgery and passing a forged check; and Clifford R. Coppock, transient, forgery and passing a forged check; Thomas Henry Baker of Roswell, N.M., forgery and passing a forged check; and Doyle Luke Williams, formerly of Brownfield, forgery and passing a forged check.

The jury returned four "no bills."

The National Cotton Council reports that more than 650,000 bales of cotton each year go into cushioning for innerspring and box spring mattresses.

Scientific breeding of cotton to improve existing varieties was instituted in the United States in 1898 by Dr. Herbert J. Webber of the U. S. Department of Agriculture. Cotton is grown in 18 states.

GET A 'DRIVE-IT-HOME' DEAL ON A NEW OLDSMOBILE

You're Always Welcome at Your Local Authorized
OLDSMOBILE
QUALITY DEALER'S

HARDING MOTORS, INC., 321 W. BROADWAY

NEXT BEST THING TO A NEW OLDSMOBILE IS A LOW-MILEAGE ROCKET TRADE-IN!

This is sales action month... a high point of the hardtop selling season. That's why it's the best time to choose your new Olds Holiday... the most-wanted hardtop nationally in the medium price class!

June is traditionally the month for weddings, and many couples will be taking marriage vows within the next few weeks.

A certain symbolic transfer of "worry goods" is often associated with the wedding ceremony, but under Texas law the act of marrying another does not give you the right to take control of his property.

Generally speaking, each spouse has the right to control and dispose of his or her own separate property. The separate property of a husband or

wife includes property owned by either before marriage, and that which is acquired by either after marriage by gift or inheritance.

Any other property acquired after marriage is presumed by law to be community property until the contrary is clearly proved.

Aside from the ordinary community estate, there is a class of property known as the wife's "special community," which includes all the income from her separate real property, and probably the interest on bonds or notes, and dividends on stocks owned in her separate right. While the husband may have similar assets, the law accords them no particular distinction from ordinary community property.

Although the history of the matter is somewhat confusing, it appears that under present day law the husband has control of ordinary community property; but control of the wife's special community property is reserved

to her. Certain restrictions are imposed upon both husband and wife in exercising such control. For instance, the husband cannot legally dispose of community property in such a way as to defraud the wife, nor can he sell the homestead without her signature and acknowledgment.

And the wife's sale or mortgage of her separate real estate, stocks or bonds is not valid unless her husband joins with her in the transaction — he must sign and execute the necessary legal papers along with her.

There are laws exempting the wife's separate and special community property from liability for debts incurred by the husband. Such liability is restricted to his separate property and the ordinary community property.

On the other hand, debts incurred by the wife in obtaining necessities for herself or the children bind all property belonging to either party, including the husband's separate

Bowl 'Em Over

THE STANCE

The stance is a bowling fundamental of prime importance. Always choose a stance that is a comfortable and relaxed one. As a general rule, use a stance that feels natural and produces the best results.

First, determine your starting position. The distance you stand from the foul line should range from twelve to fifteen feet and depends on the number of steps, the length of stride, the side and the speed with which you make your approach. By going through the steps in your approach a couple of times, you can determine what is the best distance for you.

Most bowlers recommend that the body be moderately erect, leaning partially forward, with the knees bent. But as in the selection of a ball, the beginner should try a number of stances and select the one which is most comfortable and natural. Short people generally prefer to stand more erect so that they can get the advantage of a full backswing while taller people tend to bend forward from the waist slightly to cut down on backswing.

Slip your fingers into position, supporting most of the weight of the ball in your non-bowling hand. Face the pins squarely with your eyes on the target. With knees slightly bent and feet slightly apart, you are now ready to begin your approach. JMS

property. For other debts which she has power to incur, only her separate and special community property are liable.

All of these distinctions emphasize the advisability of keeping proper records. By doing so the various classes of community and separate property owned by a married couple will always be easily distinguishable. Each category will then receive the special protection afforded to it by our laws.

State Capital NEWS

By Vern Sanford

AUSTIN — During coming months Texans will ponder and argue the wisdom of adopting sweeping changes in election procedures.

If adopted, the changes recommended by Gov. Price Daniel would alter campaign procedures more drastically than anything since the Terrell election-law became effective over a half century ago.

Governor Daniel's proposals are (1) to abolish precinct conventions and, instead, elect county convention delegates at the first primary and (2), to hold primaries in May and June instead of July and August.

Such ideas are grist for mills that grind slowly. They'll be debated, pro and con, at the party conventions this summer and, probably, again by the Legislature next year.

At the June 9 meeting of the State Democratic Executive Committee, the resolutions subcommittee will recommend support of the changes. Subcommittee members announced they agreed with the governor that a direct primary vote in the precincts would insure wider participation and do away with the "ugly contests, rump delegations and bitterness" that have characterized Texas party politics all the way to the national convention.

Support from the State Committee was to be expected since a majority of its members are friendly to Governor Daniel.

Opposition is anticipated, down the line, from people who regularly participate in precinct meetings. They — or at least some of them — contend the neighborhood gatherings provide the citizenry with a sort of democratic "town hall" experience. Others object to earlier elections on the grounds they would prolong the "lame duck" period for defeated incumbents.

Defenders of the anti-precinct convention plan declare it's the next logical step in a long-range trend. Before the adoption of the Terrell election law, state officials were nominated by political parties at their state conventions. Beginning in 1907 voters were given a more direct say by the use of one primary and a convention vote if no candidate received a primary majority. In 1918 this was amended to provide the present two-primary system.

"CODE" FORTHCOMING — SDEC's resolutions committee also promised to meet DOT's challenge for a "code of ethics" for conducting party conventions.

The Committee said it did not feel privileged to dictate procedures from the state level, to

precinct and county officials. "The overwhelming majority of whom can be trusted to function... with the highest ethical considerations," but it said it would recommend a "declaration of principles which will insure... majority determination" at state conventions.

A "fair play code" has been a rallying cry for the liberal Democrats of Texas led by Mrs. Frankie Randolph of Houston.

ANTI-TRUST INQUIRY — When a city or county needing supplies or equipment gets sealed bids identical to the fraction of a cent, there's a possibility the bidders got together beforehand and agreed on a jacked-up price.

Atty. Gen. Will Wilson says that his office has had several reports of identical bidding. He is making an intensive investigation. Suits will be filed after evidence is complete, probably within six to eight weeks.

Contracts under study involve sales of electric transformers, chlorine for swimming pools, and lime and oyster shell for street topping.

A conspiracy among bidders to raise prices can cost taxpayers in the multi-millions, Wilson commented.

HOLE IN THE NET? — With the state facing a sizable deficit net year, the Senate general investigating committee is seeking to discover if the state is getting all the tax money due it.

Members of the State Comptroller's Department, chief collecting agency, told the committee, in effect, that the collecting net was a little skimpy for the potential match.

They're way behind in their audits of large companies, said Houston area supervisor Harvey J. McKenzie. Reason, he said, is that low state salaries have caused the staff to dwindle from 14 in 1948 to 5 at present.

An audit, said McKenzie, sometimes results in recovery of large sums of additional tax money.

BACK AGAIN — Texas officials are making another attempt to get the Supreme Court to say who's "boss" of insurance liquidation.

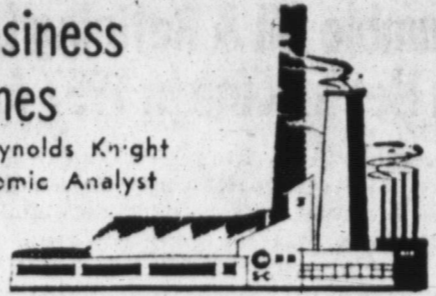

Both the State Board of Insurance and the judge of the local district court handling the liquidation cases have had a hand in selecting liquidation attorneys during the past few years. In a recent test case the Supreme Court said the Board had the first responsibility for naming the attorneys and setting their salaries, but that if it failed to act, the judge could step in.

Now, the attorney general is pressing for a more definite ruling. Acting on behalf of the Insurance Department, he has asked the court to set aside a recent order by Dist. Judge Charles O. Betts raising the salaries of three liquidation attorneys.

Wilson's petition contends that, in changing the salaries of men already appointed by the Board, the judge is over-

stepping his authority.

ALL OR NOTHING — A farmer or rancher cannot get a refund on state gasoline taxes if he uses his "agricultural gasoline" for any other purpose.

This opinion by the attorney general was given at the request of State Comptroller Robert S. Calvert, who said a farmer wanted to correct a previous claim and get a partial refund for gasoline used partly for farming.

A farmer using gasoline on which he receives a tax refund may not drive the vehicle on a public road.

FEWER JOBLESS — Texas Employment Commission's latest report on Texans out of work is cheerful.

For the second consecutive week, the number claiming unemployment benefits dropped substantially — from 86,

NEW YORK — Can we spend our way out of recession?

There is a growing array of economists who believe we can — and when they say "we" they mean you and me as consumers, rather than the government.

Few Americans — either in business or in government — seem to realize that the accumulated backlog of \$28 billion of consumer buying represents an expenditure for so-called standard-of-living articles that should have taken place in the last two years but didn't.

One reason it didn't was that measures were taken 528 to 83,099.

Optimism is tempered by the expectation of a new flood of job-seekers when the schools and colleges turn out graduates and summer workers this week.

deliberately to slow down our rate of expansion, as a means of fighting inflation.

More aggressive selling all along the line can turn the trend of consumer buying upward. Some economists figure there is an opportunity for as much as a 10 per cent increase in sales over the next year and a half, or \$28 billion above the 1957 level of \$280 billion of personal consumption.

Their belief is that a 10 per cent increase in consumer demand would balance the federal budget, provide increased revenue for defense, and at the same time make possible a cut of 10 per cent in personal income taxes.

An increase of only three-quarters of one per cent in consumer purchases could, for example, have as much effect on our gross national product as a \$2-billion increase in defense expenditures or a \$2-billion post office modernization program — and would have that effect immediately, rather than with a lag of up to three years.

PROTECTION PLUS BEAUTY — This year more than ever the value-conscious homeowner will try to get the most for his money when he remodels by selecting projects that both protect and beautify his home. Contractors and building supply dealers who offer customers a wide choice of quality products

that are also eye-appealing stand the best chance of having a good year, home improvement specialists at Allied Chemical's Barrett Division predict.

Barrett, which manufactures insulating materials, gypsum board, plastics and a host of other building products, reports that roofing and siding shingles are now available for remodelers in an unprecedented variety of shapes, colors and applications.

In keeping with the new trend toward practicality and eye appeal, Barrett recently introduced a new asphalt roofing shingle called "ranch line" designed specifically to blend with the long, low lines of ranch and split levels.

THINGS TO COME — There are still 240 shopping days until Christmas, but the nation's toy buyers already have made their selections and placed their orders for such novelties as: an electronic telegraph printer expressly designed for junior commandos... a fish hatchery tank mounted on a truck, complete with plastic fish and a net... an animated puppet band with 20 different instruments and two dancing couples on a stage.

AVIATION FIRST — A California firm engaged in forest service work, power line patrols, geodetic surveys and

charter service operations is the first operator to put a jet helicopter into commercial service. The aircraft is the gas turbine-powered "Alouette II," a five-place helicopter with a medium range of 345 miles.

The Alouette was delivered to Aetna Helicopter Corporation of Eureka, Calif. by Republic Aviation Corporation, which has been licensed to build the craft, developed by Sud Aviation of France.

Two Alouettes last Fall completed a 26,800-mile demonstration tour of the United States to show military and commercial officials the maneuverability, speed, lifting power and versatility of the ship.

Both the U.S. Air Force and the Navy have run exhaustive evaluation tests on the Alouette. An Air Force officer wrote Republic Aviation that besides the jet helicopter's attraction for the military, it "definitely should create enthusiasm within the civilian market."

BACK TO THE CITY — The changing pattern of the nation's population over the next several years will be marked by a growing movement of higher-income groups from the suburbs back to the city in selected areas of the country, says the Econometric Institute, a national advisory and forecasting organization.

By VERN SANFORD

If you are a salt water fisherman, or plan to take your vacation on the Texas coast this year, you'll want to check this calendar of coming events. First on the schedule is the Anahuac catfish fry. This will be held Saturday, June 21. Notices have just been sent out by Judge Guy C. Jackson Jr., who is founder of the Fraternity of the White Heron. For many years this big fish fry, which thousands attend, has been held on the Saturday closest to the Judge's birthday. This is one of the organized mass parties in Texas. It has been held annually for some 14

years and becomes more popular as the years go by. Thousands of pounds of Trinity Bay catfish are fried in tremendous steel vats, heated with bottled gas. Many thousands of pounds of large, white onions, hush-puppies and potato salad also are prepared. A half-dozen lines move the hungry crowd, buffet style, by the huge tubs of sizzling catfish. You get all you can eat. This year's party will be an exceptionally big one. It's a campaign year and most of the state candidates and many district candidates will be there. A huge platform is provided for those who want to

Hale Center, Tex., Man Reports—

"A \$5.60 Investment Netted Me \$54.85 in Cotton."

Jack Shelley, Hale Center, Tex., says: "I put down Phillips 66 Agricultural Ammonia on my irrigated cotton and got an average of 847 pounds of lint per acre. This compared to a yield of 633 pounds on a check plot. My increase netted me \$54.85 an acre. I got more well matured, five-lock cotton bolls, too."

Other Southwestern farmers have discovered that the 82% nitrogen in top quality Phillips 66 Agricultural Ammonia helps them to get more profit per acre, through higher yields and lower production costs.

They have found that, by using Phillips 66 Agricultural Ammonia, they get more cotton that grades out higher at the gin; yields of sorghum grain and ensilage are increased; more marketable vegetables are harvested, and profits on wheat are increased through better forage, and higher yields of grain.

See your Phillips 66 Agricultural Ammonia distributor about profitable Phillips 66 Agricultural Ammonia, the 82% nitrogen fertilizer.

FARM CHEMICAL CO., INC.
Lamesa Road Phone 4642

will be attended by the same people, owners of large boats, or persons who have their vacation cash for just such an occasion.

Although there will be a heavy demand for rooms, the various cities have sufficient accommodations to take care of most of their guests. In any event, if you plan to attend it would be wise to write the sponsor for full information about activities and accommodations.

If you are looking for a vacation filled with excitement one of these fishing tours has it.

WORM FARMING — In an Australian publication the other day we saw a long story about breeding your own bait. It reminded us how we used to raise worms — big, fat, garden worms — many years ago. It will still work today. And for bream, crappie or catfish, there's nothing like a big juicy worm. One of them is better than a handful of little red wigglers.

In our own little worm-farming process we partitioned off a bed about six feet square, in a back corner of the garden. Into the black dirt we worked a generous supply of barnyard fertilizer and sawdust. We wet this down thoroughly and put in a few big brood worms dug out of the flower bed. Then we wet it down some more.

We then tossed out potato peelings, slices of bread and corn meal. Back in those days weevils were bad about getting into corn meal. We talked the corner grocer out of the returned packages and fed the worms with them.

Other good feed for worms consists of old tea bags, poultry mash, oatmeal, etc. Do not put any citrus peels, like grapefruit or oranges in the bed. They will kill the worms.

The earthworm is bisexual. All worms can lay eggs, but they must be fertilized by other worms. They reproduce very rapidly and a small bed will provide all you need.

This little bed supplied us with many cans of big fishing worms all summer long.

ARTIFICIAL WORMS—Catching fish with artificial lures is, of course even more fascinating than with live bait. To satisfy this type of fisherman David A. DeLong, of DeLong Lures in Cleveland, Ohio, has produced not only some excellent imitations of the little wigglers, but also has incorporated taste.

Speaking of his very life-like eels and worms, DeLong says "fish them deep and slowly."

Reduce Delinquency
XIII
MORE SEVERE PUNISHMENT?
(A distinguished Texas judge offers pointers on combating our rapidly increasing juvenile delinquency problem.)

By JUDGE SARAH T. HUGHES

In the face of shocking crimes and a wave of vandalism throughout the country, the cry has gone up for tougher laws to punish teen-age delinquents.

But treating young offenders like criminals isn't the answer. It has been tried before and it has failed.

Looking backward Less than 150 years ago all children over 7 were held responsible for their crimes. Severe punishment, or more aptly, retaliation, was the established pattern for a good many centuries.

As late as 1814 three boys in England, aged 8, 9, and 11, were hanged for the theft of a pair of shoes.

Classifying youngsters as criminals and imprisoning them does not do anything except complete their education as criminals.

They liked the Privileges A royal commission in England found that far more youngsters officially whipped became repeaters than those who had not been. . . The whippings made them "heroes" to their friends.

Those who have studied the causes of delinquency and worked with teen-age offenders recommend probation in the child's home whenever possible — supervision, in other words. Otherwise, the youngsters should be put in an institution where there will be a program of education and rehabilitation.

And the younger and/or less serious offenders must be separated from the hardened repeaters, so that the contagion of badness does not result.

Let them go as near the bottom as possible and in retrieving do not hurry them."

The special odor which DeLong fuses into the plastic does not attract any more fish, but says the inventor "when a fish hits it he seems to like the taste and smell and holds it without spitting the hook."

NEW SPORTS CENTER — A fellow over in Big-D has set about to prove it is possible to get all your coons up the same tree. The time it is in a sports center, where there'll be every-

thing. Angus Wynn and associates are spending \$3,000,000 on this sports center as a part of the development near Arlington, where a few hundred million more will be checked out of the bank.

This sports center will be located on 275 acres. It will have everything from a little perch hook to the heaviest tackle made, and from a 6 foot pram to ocean-going cruisers.

It will have a lake for casting practice, protected rifle range, skeet range and a place to ski.

The sports center will be a clearing house also for information about hunting and fishing all over the world.

This gigantic air conditioned store will be 242x410 feet, the largest sporting goods store under one roof in the world. All of it is supposed to be ready within a year.

Finally it looks like businessmen are recognizing that the outdoor traffic is big business.

TRANQUILIZERS AND DOGS
by E. M. Gildow, D.V.M.
Director, Primitives Research Kennels

Today, tranquilizers are converting many a problem dog into a well adjusted canine. They can help calm them and rid them of some of the neurotic symptoms which beset dogs, such as timidity, anxiety, excessive barking, fear, belligerence, disobedience and hostility. They differ from sedatives and barbiturates in that your pet remains fully aware of

what's going on. He's not lopy, not depressed. He's more likely to act like a normal individual, the only difference being that his nervousness is toned down. What happens is this. The tranquilizers work on the higher brain centers, which are not functioning normally in the nervous dog.

Veterinarians have found the tranquilizers helpful in calming dogs that get panicky riding in cars, soothing to pets that are frightened by loud noises or terrified by thunder storms and 4th of July celebrations. Administered before surgery, they permit the use of a smaller and safer amount of anesthetic. Administering the anesthetic is easier, too. Tranquilizers are also helpful in calming badly injured dogs. The veterinarian is able to proceed with the examination faster and more easily.

While tranquilizers definitely have a place in helping problem dogs, they must be given only on the advice of your veterinarian. So if you think your pet is a candidate for a tranquilizer, do nothing 'til you check with him.

Feeding Tip: Don't get into the habit of giving your dog tidbits between meals. It can spoil his appetite. And if he tends to put on weight easily, it will make him fat.
