THE PLAINS JOURNAL

THE NEWSPAPER FOR THE WHOLE FAMILY

LUBBOCK, TEXAS, "THE HUB OF THE PLAINS"

VOL. II, NO. 37.

THURSDAY, MAY 29, 1924.

CONDITIONS ARE GOOD FOR GREAT CROP YEAR HERE

Recent Local Showers Will Aid Farmers in Production; Hail Damage Has Been Light

Recent local showers on the South Plains with one or two fairly good general rains have brought crop conditions for the section to practically an ideal condition. Wheat around Plainview, Lockney, Hale Center, Petersburg and other South Plains wheat centers is in good condition and will just average weather through June will produce the best per acre yield in three years, according to present indications and estimates.

The early feed crops are up and getting away in good condition. Only one or two local hail areas have been reported thus far and the damage done within these areas can be overcome with immediate replanting. The feed acreage for the section has been increased more than 75 percent over last year—most of the increase being thru increased acreage rather than a greater proportion of feed upon a like acreage.

Cotton Increase More Than 60 Percent
The early estimates for the South Plains indicate an increase of better than 60 percent in the cotton acreage of the section. Dawson, Lynn, Terry and Hockley counties show the greatest possible percentage increase in acreage—running in one or two cases to more than 100 percent. There is a considerable increase in Crosby, Floyd, Lubbock and Garza counties due largely from increased acreage under cultivation through new farms and enlarged acreage on existing farms.

Double Production
The production of 150,000 bales for the past season will be practically doubled if the present crop conditions continue for with the best general season in the ground ever known for the section, favorable showers, dewy nights, and uniformly good stands thus far recorded, the per acre yield will be from 15 to 30 percent greater than last year and the total acreage increase will be around 50 percent.

Farmers all over this territory are pleased with the way things are shaping up and predict a fine yield along all lines of farm production. According to a statement last week by John T. Orr, president of the Texas Farm Cotton Bureau, West Texas can well afford to increase the cotton yield over that of last year at several parts of East and Central Texas, which are usually good cotton producers, have been met with handicaps which will greatly cut down the final production.

DAVIS TO SPEAK TO SECRETARIES IN ANNUAL MEET

A. B. Davis, secretary of the Lubbock Chamber of Commerce, will attend the annual meeting of the organization of Texas Chamber of Commerce Secretaries and will appear on the program during the meeting. It was announced here today. The convention is called for June 6, 7 and 8, at the city of Mineral Wells, nationally known health resort.

"Financing Chamber of Commerce Work" is the topic on which Davis will speak before the convention. His years of experience in Chamber of Commerce work and his acknowledged success in financing all sorts of civic problems makes him an expert along these lines and no doubt his remarks will be well received by his co-workers assembled at Mineral Wells.

Horn Returns Friday From Regent Meeting

Dr. Paul Horn will return tomorrow from a visit to Fort Worth, where he attended a meeting of the regents of the Texas College of Technology recently, according to advices issued by M. M. Dupre, city superintendent of public instruction. Doctor Horn will make the gradulatory address at the services to be held by the Lubbock Sanitarium for eight student nurses who will graduate from their courses tomorrow night, it is understood.

LUBBOCK WALLOPS LITTLEFIELD

Reversing a 2-0 setback here several weeks ago at the hands of the same team, the Lubbock Hubbers journeyed to Littlefield last Sunday afternoon and applied the same white-wash brush to that baseball aggregation. Manager sled Allen's boys having the better of the argument by a lopsided tally of 14-0. Terry, local hurler, again performed brilliantly on the hillcock, letting the opposing maces down with a trio of widely scattered hits while his team-mates were bludgeoning the horse hide for 15 safe aways.

Officials Ready To Consider White Way Bids For This City

As promised recently by city officials the "Great White Way" for Lubbock will soon be a reality. The city commissioners have issued an advertisement for bids to be submitted for the construction of the new lighting features and as soon as all of the formalities of the law have been complied with contracts will be let and actual construction work will be begun.

No changes have been made in the original plan as yet and construction work will cost in the vicinity of \$25,000, when completed. The white way will not only include the lighting of the downtown district but will also be included along one of the avenues leading to the campus of the Texas College of Technology, presumably Broadway.

The addition to the city lighting system will be a welcome improvement and one in which a great deal of pride will be taken.

GIRLS CLUBS TO MEET HERE SOON

Girls Farm Clubs Invited Here From Seven Counties For Day of Contests

A meeting of members of girls farm clubs of this district will be held in the meeting of members of the boys clubs scheduled for this city June 11. Miss Mabel Marsh, Lubbock county home demonstration agent, stated here recently after getting in touch with other home demonstrators in this territory. Nolan, Mitchell, Dawson, Lynn, Dickens, Crosby and Lubbock counties will be represented in the girls work as well as the boys work, Miss Marsh announced.

At a meeting of the directors of the Chamber of Commerce here on Tuesday morning the officials of that organization voted the expenditure of \$75 for entertaining the young visitors at luncheon at the community house where all of the events of the day are to be held. Following the meeting it was announced that suitable prizes would be given the boy and girl winners in the different events, according to James L. Dow, local newspaper man.

Limit Contestants
The number of girls who will attend the meeting here has been decided upon as a poultry team or two individual contestants for the girls and from 3 to 8 contestants from the boys clubs of each county. The events held here will be directly in line with those to be held at College Station in July, when the state contests for boys and girls farm clubs is scheduled to be held.

Poultry Contests Scheduled
Standard bred poultry contests will be included in the program and written tests as well as oral contests will be held, according to Miss Marsh. Each group of contestants will be accompanied by their county's home demonstration agent and farm agent.

W. E. Pope, Candidate For Governor, Is To Talk Here Saturday

W. E. Pope, of Corpus Christi, former member of the state legislature and now a candidate for the Democratic nomination for governor, will speak in Lubbock at 2 o'clock on Saturday afternoon. Early advices from the camp of Pope did not state the place of the meeting but it is thought that it will in all probabilities be either on the courthouse lawn or in the court-house proper.

In addition to his speech here Pope will fill a number of other engagements in this vicinity. He has taken for his campaign slogan, "No more taxes—no time, no place, against nobody—nor nothing," which should make quite a hit with the average citizen of not only this state but any of the other forty-seven. The following is the list of Pope's speaking dates and their time in this vicinity:

Wellington, 10 a. m., May 26th; Clarendon, 2 p. m., May 26th; Clarendon, 2 p. m., May 27th; Vanhackle, 10 a. m., May 27th; Miami, 2 p. m., May 27th; Canadian, 8:15 p. m., May 27th; Stratford, 2 p. m., May 28th; Dalhart, 8:15 p. m., May 28th; Amarillo, 3 p. m., May 29th; Canyon, 8:15 p. m., May 29th; Hereford, 10 a. m., May 30th; Tulia, 2 p. m., May 30th; Plainview, 8:15 p. m., May 30th; Hale Center, 10 a. m., May 31st; Lubbock, 2 p. m., May 31st; Slaton, 8:15 p. m., May 31st.

PLAN LARGE ATTENDANCE
Members of the First Christian Church here are planning for a large attendance at the services of their institution Sunday to greet the new pastor, Rev. Walter P. Jennings, who will render his first services on that date.

Reverend Jennings comes here highly recommended, succeeding Reverend C. D. Poston, who resigned a short time ago.

John Hudson, of Stamford, spent the week end in this city.

ATTRACTIONS OF CHAUTAUQUA ARE MET WITH FAVOR

Clean Entertainment Draws Large Crowds from City and Surrounding Country

The first five days of the Redpath-Horner Chautauqua in Lubbock have drawn large crowds not only from the city itself, but from the entire surrounding country.

The programs have been full of wholesome entertainment and of genuine worth from an educational and cultural standpoint, thus proving the growing appreciation of the human race that anything need not be dull to be good.

It is impossible to cite the outstanding numbers of the week's program for they have all been good. The addresses have particularly pleased the crowds that have attended. The Fine Arts program on Tuesday was especially good. The big play number, "Six Cylinder Love" brought the largest crowd thus far of the week, including a large number of out of town people and was played before a most enthusiastic audience.

Two Big Numbers Left
The two biggest numbers are yet to come. Gilbert's All American Band Friday afternoon and night and Dr. Ellis, world-traveler and water and lecturer for Saturday night are each more than worth hearing. With the lecture by Dr. Ellis the Marionettes will give a specialty program that will long be remembered by the children and grown folks who see it Saturday afternoon and night as a prelude to Dr. Ellis' address.

What the Chautauqua has meant to Lubbock and to America and what it can mean to Lubbock and to the ambitious, growing boy and girl of the city—as well as the grown folks who appreciate clean, wholesome amusement, can never be estimated in dollars and cents. To keep America American is the avowed policy of the Chautauqua, which in itself is a distinct American institution and this it does through clean, wholesome, educational and constructive programs.

Praise Program
A number of prominent and influential citizens have been heard to make most flattering remarks concerning the Chautauqua here this week. Dr. R. B. Hutchinson, local dentist, Mrs. Jewel Hall, assistant secretary of the local Chamber of Commerce, Rev. Jack Lewis, of the First Presbyterian Church, L. C. Ellis, vice-president of the Security State Bank, Mrs. Charles J. Wagner and Mrs. Curtis A. Keen are united in their praise of the program here and all of them are highly in favor of having the same premier circuit, with a different program, of course, appear in Lubbock next year.

PROPOSE SUBWAY UNDER SANTA FE TRACKS IN CITY

Present indications are that the proposition to build a subway for the Santa Fe railway, through the city, is being favorably considered by the railroad men. It was discovered early this morning.

Jack Walters, of Slaton, division civil engineer for the Santa Fe, has been in consultation with Harry N. Roberts, engineer in charge of Lubbock's paving project, and has gotten several drawings of the proposed subway which Roberts originally submitted to the city commissioners. He seemed favorably impressed with the drawings when he took them.

The subway, if decided upon, will cost approximately \$50,000, one-half of the expense to be borne by the city and the other half by the railway company. It will be approximately three or four hundred feet long in the opinion of Engineer Roberts who has investigated the case.

Man Is Found To Be Guilty of Swindling

H. C. Whitehead, of Slaton, was found guilty in District court yesterday of swindling Dr. H. F. Miller, also of Slaton, in a real estate deal and was sentenced to serve a term of five years in the state penitentiary. It was stated by court officials this morning.

Whitehead's attorneys gave notice of filing of appeal to a higher court as soon as the verdict was announced.

COUNTY FEDERATION MEETS
The County Federation of Women's Clubs will hold a regularly called meeting here Saturday afternoon in the county courthouse, beginning at 2 o'clock, according to a statement issued by Mrs. W. L. Baugh, president of the organization.

J. L. NUNN HERE
J. Lindsey Nunn, manager and owner of the Amarillo Daily News and the Amarillo Evening Post, one of the largest individual newspaper operators in West Texas, was transacting business in Lubbock Thursday morning.

Fine Business Last Year Shown Here In Report of Assessor

General business conditions are reflected in the Tax Collector's Report for Lubbock county with a record breaking total of 81 1/2 percent of the 1923 taxes paid previous to the penalty date of April 1st.

The taxable valuation for 1922 was \$12,179,720.99 and for 1923 has totalled \$15,849,945.00 for an increase of more than a million and a half dollars in the one year—based upon a 59 percent actual valuation and without any increase in the per acre rendition.

During the same period of time the number of automobiles registered in Lubbock county increased from less than 3,000 to considerably more than 4,000 and the total receipts have passed the 5,000 mark—over 1,000 over the next largest Plains county.

FIRST MEET FOR RADIO MEN HELD

West Texas Retailers Conclude First Convention in Lubbock After Two Day Session

The first meeting of the West Texas Retail Radio Dealers Association was held Wednesday afternoon and continued through all of Thursday. A large number of retail dealers from Clovis to Sweetwater, Amarillo to Wichita Falls and intervening territory were present. A number of special factory representatives were present from Dallas, Chicago and other wholesale distributing points and took part in the discussions that developed during the two days.

That radio is here to stay and that it is a sound, permanent, dependable business, that it has its problems and that the point of contact between the development of radio and the public is the local retail dealer, were the outstanding thoughts brought out during the discussions.

Large displays of the latest improved types of radio equipment were brought to the meeting by the factory representatives and the latest developments in radio science and radio equipment were studied, discussed and applied to the problem of the retail dealer service.

Radio An Avenue of Service
The point was brought out that the radio is more than an entertaining novelty—that it is a growing factor in the home life, in the educational life, and civic life of America and as such is entitled to a place alongside the automobile, the press and the pulpit.

"Keeping Radio Sold" was a topic for discussion that dealt with dealer service, personal service and emphasized the necessity of a radio dealer keeping pace with the developments in the industry together with the whys and wherefores of important innovations as they occur from time to time.

ANNOUNCE PLANS FOR BANQUET OF TRAVELERS SOON

The final plans for the Third Annual Traveling Men's Stag Party and Dutch Smoker for June 14th in Lubbock are being worked out and the full program will be announced shortly.

The Lubbock County Recreation Park Community and Club House is nearing completion in the park adjoining the city on the East and the Traveling Men will formally open the building with their Stag Party. This is a brick and concrete club building in Mission style architecture that is being completed at a cost of \$100,000 and is one of the most modern community buildings in Texas.

Something new is promised in the form of a chicken barbecue and outdoor banquet for the 14th when it is planned to serve more than 750 traveling men. A golf tournament has been announced for the afternoon preceding the Big Party and a hot program is promised for the night.

Card invitations have been posted in 100 West Texas hotels, more than 5,000 post card invitations have been distributed all over America and invitation stickers have been put on the cars of the 200 local traveling salesmen working out of Lubbock.

Mrs. Josephine Ballinger, who was a member of the K. Carter school faculty here throughout the winter months, has gone to Greeley, Colo., where she will study for two months this summer.

PLANS ARE MADE FOR DECORATION DAY IN LUBBOCK

Memorial Services Begin At 5 O'clock Friday With Judge Mullican to Speak

In order that Lubbock and the surrounding territory may recognize Decoration Day in the manner in which it should be recognized, members of the local Allen Brothers Post of the American Legion are planning for the holding of services here on Friday evening, on the courthouse lawn at five o'clock in the afternoon. At that time a program, dedicated to the fallen heroes of American wars will be held.

In addition to the participation of local ex-service men of all wars invitations were sent to a number of other South Plains communities and it is thought that uniformed delegations will be in attendance from out of the city. Gilbert's All-American band, which will be in this city tomorrow in connection with local chautauqua program, will be included in the memorial services and will furnish music for the occasion. It has been announced.

Program Announced
The program will include the standing of formal retreat, music by the band, the firing of French seventy-five milemeters field piece and address by Judge Clark M. Mullican on the lawn just west of the courthouse. At the cemetery all the graves of World War veterans will be marked by regular grave markers and the graves of all American war veterans will be decorated with flowers and flags.

Officials of the local American Legion post have invited every ex-soldier to participate in the event, either in uniform or in civilian attire. As many uniformed men as possible will be especially urged to enter into the memorial services but all former war veterans are asked to fall in for the program event if it is impossible for them to secure a uniform. Members of the Allen Brothers post also pointed out that not only veterans of the World War were urged to help in the program, but all veterans of all American wars are included in the invitation.

Citizens to Help
Local citizens are urged to submit the names of all former soldiers who have been placed to rest in the local cemetery to H. D. Woods, post adjutant. Anyone wishing to give flowers to be used in the services are asked to get in touch with Ansel Hines. The annual sale of poppies will be sponsored by the post today, under the direction of H. H. Griffith, who reports that the poppies were made for American consumption by French orphan children.

SMALL POX HERE BELIEVED TO BE ON THE DECLINE

Close observation of the smallpox situation in Lubbock by local physicians has again forced the epidemic to the decline, it was reported here this morning. Approximately thirty cases were reported at the beginning of the week and since that time no new cases of the scourge have been reported and it is hoped that the decline will continue.

According to Dr. G. G. Castleberry, city health officer, quarantine rules must be enforced or else the maximum fine of \$100 will be planted on the breakers of the ruling. The only way to bring the epidemic to a successful termination is for every citizen to see that those exposed to the disease and those who have smallpox abide by the quarantine laws.

Local physicians are still advising that vaccination be adhered to by everyone who has never been vaccinated or who has not submitted to vaccination in recent years. That is one sure method of combating the disease and the only way in which the epidemic can be stopped.

Bowens Leave Here On Holy Land Trip

Rev. and Mrs. W. A. Bowen left Monday for Fort Worth, where they will be joined by a number of other travelers and from where they will begin the tour which will eventually take them through the Holy Lands and much of Europe. Reverend Bowen is pastor of the First Baptist Church in this city.

During the time Reverend and Mrs. Bowen are absent from the city Reverend Doctor Morrow, formerly of Dallas, will fill the local pulpit. Doctor Morrow comes here highly recommended.

LET SOUTHLAND CONTRACT
Contracts for the construction of the new school building to be built at Southland in the near future were let last Saturday. Samson and Napier, of Post City, were given the building contract with the Van Buskirk company only a few dollars in advance. The contract price was \$228,396. Reliance brick company will furnish the brick. The school will be one story in height but will be ultra modern in all respects, according to Southland officials.

Mrs. Josephine Ballinger, who was a member of the K. Carter school faculty here throughout the winter months, has gone to Greeley, Colo., where she will study for two months this summer.

West Texas Dental Society Will Meet Here June 6 and 7

The West Texas Dental Society will hold its annual convention in this city on Friday and Saturday, June 6 and 7, according to a statement issued by Dr. R. E. Hutchison, local dentist, yesterday. Plans are being laid now for the meeting which will draw at least seventy-five visitors from over West Texas to this city.

A soft tournament, a banquet and other pleasurable functions are now being framed for the meeting. The banquet has been arranged for and will be served by a ladies Sunday school class of the First Baptist Church. While it has not been definitely decided, it is thought that all of the meetings will be held in the Baptist church here.

In addition to the regular run of business and social sessions two noted dentists, Doctor Hietrick, of Oklawaha, Kansas, and Dr. J. M. Murphy, of Temple, will address the convention.

DIRECTORATE OF C. C. HOLDS MEET

Many Propositions Talked Over By Officials in Regularly Called Meeting

Members of the board of directors of the local Chamber of Commerce held their regular semi-monthly meeting Tuesday morning in the offices of their organization in the courthouse and a number of important topics were brought up and discussed.

The board, upon application of Home Demonstrator Mabel Marsh and Farm Agent D. F. Eaton, voted to appropriate funds to entertain and pay the expenses of the meeting of the district Boys and Girls Farm Clubs here on June 11, and included a luncheon for the visitors to be held at the new county community house.

Talk of Hotel
Plans concerning the building and financing of Lubbock's new hotel were brought up and considerable correspondence was read on the subject. While officials of the Chamber of Commerce are not yet ready to make any definite statements concerning the hotel situation it is believed that the project will be closed in the near future.

The directors also considered the advisability of backing a proposition to encourage the putting down of a gas test well to see if there are deposits of natural gas in the vicinity of this city which might be tapped and used for fuel here in the future. The president has appointed a committee to look into that phase of development.

Davis to Convention
It was also voted that Secretary A. B. Davis be sent to the State Convention of Texas Chamber of Commerce Secretaries, to be held on June 6, 7 and 8, at Mineral Wells. It was also decided that Davis get in touch with Congressman Marvin Jones for the local organization to extend to governmental officials in the investigation of potash resources in this section of Texas, for which congress recently voted an appropriation of several millions of dollars. The Brownwood trip was also gone over and discussed by the directors Tuesday, and a general report of the special train trip was submitted, gone over in full and approved.

State Officials Of Institutions Board Pay Visit To City

Attending to official business, Dr. H. H. Harrington, of Austin, a member of the state board of control for public institutions of all kinds accompanied by Charles J. Gaston, chief clerk of the board of control, also of the capital city, were in Lubbock Monday and Tuesday of this week. While here the state officials were accompanied by R. E. Karpis, of the local experimental station.

After inspecting the agricultural experiment station east of the city both men expressed themselves as being pleased with the way the institution was being operated. They also looked over the campus for the Texas College of Technology and also were satisfied with the choice of the site, and with the conditions of the grounds and with the plans for building already made.

The inspectors came to Lubbock from a visit to the West Texas State Teachers college located at Canyon.

RETURNS FROM TRIP
T. P. Gibson, prominent local citizen, has returned from a trip which ultimately carried him to Denton, where he viewed the graduation of his daughter, Miss Lila Jane Gibson, from the College of Industrial Arts with a certificate of music and a bachelor of science degree. Leaving here on last Friday Mr. Gibson spent Friday night in Roscoe, at the home of his friends, Mr. and Mrs. T. M. Dobbins. On Saturday he was in Sherman, in the home of Mr. and Mrs. B. F. Poole, who Monday accompanied him to Denton for the gradulatory exercises. Mr. Gibson reports a very pleasant trip.

S. H. Stahlifer, of this city, was a business visitor in Dallas Tuesday.

SANTA FE SENDS MANY OFFICIALS FOR INSPECTION

"Prosperity Special" Is Made Up Of Rail Heads Looking Over Plains Section

It might have appropriately been called "Prosperity Special"—the train that brought the largest group of Santa Fe officials to Lubbock that has visited this section at one time in a number of years. The avowed purpose of the tour through the entire Plains divisions of this great railway system was to acquaint the general officers of the company who have offices in Chicago, Topeka and other distant cities, with the actual growth, development and complex needs of this great Plains country.

Among those in the party were the heads of the Industrial Department, whose duties it is to keep in touch with the industrial development and needs of the system, promote a closer relationship between the big users of transportation service and the railroad, and bring the attention of outside capital to the opportunities offered by various cities and sections on the system with a view to developing more business; the colonization and agricultural department, whose duties consist of answering inquiries concerning the farming situation in the various states and sections traversed by the great railroad system, promote substantial immigration, develop agricultural prosperity and co-operate with the Chambers of Commerce, County Agents and other agencies in the up-building of the agricultural business of those towns and counties served by the Santa Fe system; the Publicity Department, who keep the world informed of the growth, development and opportunities to be found on the system and who, through the Santa Fe publication "The Earth" with a circulation of more than 55,000 monthly, reaches thousands of interested prospectors throughout the United States with dependable information upon conditions and opportunities to be found in Lubbock, the South Plains and other sections on their system.

Large Representation
Other departments were represented by their chief executives and assistants. The tour of inspection more than justified the hope of the General Freight and Passenger Agent Mr. Gallagher of Amarillo, under whose supervision it was planned for every official present expressed his very great surprise at the marvelous growth and development found throughout the Plains and especially in the South Plains. They keep in touch with conditions throughout various parts of car (Continued On Page Two)

RETAILERS HERE PLAN TO BETTER LUBBOCK SYSTEM

In a called meeting, held in the offices of the organization in the courthouse, members of the board of directors of the local Retail Merchants association decided upon several constructive changes in the method of operation of the organization. It was stated here this morning.

From now on the directors will hold regular meetings in the offices in the courthouse at 2 o'clock in the afternoon of every second Tuesday in each month and the members of the entire organization will meet on the second Thursday of each month between the hours of six-fifteen and eight o'clock when the session will take the place of a regular business meeting.

At the present time there is a local membership of sixty-five in the association but a membership drive is scheduled to begin soon and the officials hope to double the size of the membership roll. Miss Gladys McSpadden, assistant secretary of the retailers, who attended the state meeting at Tyler, makes a report on her trip to the directors.

Lubbock Sanitarium Graduates 8 Nurses

Eight nurses, who have completed their courses in the training school conducted by the Lubbock Sanitarium, will be graduated as full fledged nurses here tomorrow night at the local Methodist church, officials of the hospital stated recently. Doctor Paul W. Horn, of the Technological College will make the gradulatory address and Dr. J. T. Hutchison, local specialist, will present the diplomas.

The Lubbock Sanitarium has one of the few accredited nurses training schools in the state and the institution is well known over Texas for its efficiency in turning out good nurses.

IMPROVE COURTHOUSE GROUNDS
A number of plants are being placed in the parking of the courthouse square and the grounds in general are being beautified. The parking space has all been spaded up and grass will be given an opportunity to grow.

Mrs. Charles S. Pierce and guest, Mrs. Hoffer, have left the city with Mr. Pierce, bound for the Pierce ranch where they will spend several days.

Lindsey Theatre

Friday and Saturday

The Picture That Made Dare-devils Gasp

A previous showing of "Sporting Youth" was witnessed by the world's greatest auto racing drivers. One and all were swept off their feet by the tremendous thrills of its great racing scenes.

Read What They Say:

"Sporting Youth" is a splendid picture. It has the best race ever screened!"

BENNETT HILL: Winner of the International Thanksgiving Day 250 mile race held at Beverly Hills.

"It is tremendously exciting. The best race picture I have ever seen!"

RALPH DE PALMA: World's short distance record holder.

"Thrilling is the only word!" TOMMY MILTON: International Sweepstakes winner at Indianapolis in 1923.

"It is simply great—I have never seen a better racing picture!"

JIMMY MURPHY: Holder of the world's 250 mile record.

SEE IT FOR A NEWER, BIGGER THRILL THAN YOU'VE EVER ENJOYED BEFORE! A GREAT LOVE STORY—A GREAT CAST—A GREAT PRODUCTION!

CARL LAEMMLE presents

Reginald Denny

50 acres joining Tech View Addition on south, one half mile from Tech site.—John W. Jarrott, Owner. Phone 346.

WANTED—First class collector, prefer girl. Friday and Saturday.—Plains Journal office.

Manager of Laundry Dies Suddenly Here Wednesday Morning

J. J. Adams, manager of the South Plains steam laundry and pioneer citizen of Lubbock, died in a local hospital Wednesday morning at 9:30 following an emergency operation the evening before.

Mr. Adams is survived by a wife and two children, Layton, age 18, and Mrs. W. Von Kovenburg, all of this city. He was 51 years old at the time of his death and had been a resident of Lubbock for more than 14 years.

The funeral services were held at the family residence on 15th street Thursday afternoon at 2:30 by the Christian minister, S. A. Ribble. Interment was made in the Lubbock cemetery immediately following the funeral and both services were largely attended by his many friends and business associates.

DENNY TO SHOW

Life, love, a chauffeur's uniform and the thrill of the "roaring road" are the interwoven elements of drama and subtle comedy in "Sporting Youth," Reginald Denny's new Universal starring feature which comes Friday and Saturday to the Lindsey Theatre, with a host of thrilling tricks.

It is Denny's first multiple reel feature since "The Abyssal Brute," the Universal screen version of the Jack-London novel. It represents the first of a new series of feature length productions in which he is to be starred by Universal under a new contract to portray the spirit of the sporting youth throughout the civilized world.

Mr. and Mrs. D. W. Bondurant have returned to this city to make their home. Mr. Bondurant will be associated with the Charles Reid Insurance company.

Tourist Labor Here Presents Problems Difficult To Solve

An increasing amount of "Tourist Labor" is pouring into Lubbock, working their way either to or from California and other recreational points. "Tourist Labor" includes everything from common day labor on up through the skilled crafts such as automobile mechanics, painters, printers, carpenters, sign painters, brick layers and others. They own a Ford truck or some other automobile, load their goods or at least enough bedding and cooking utensils into the back to keep them going and drive in to town, pitch camp along the canyon or on a vacant lot and start to hunting work.

They pick up three or four days work of whatever kind they can get and at whatever price they can get it for, often skipping the job and when they draw a week's wages float on up the road a hundred miles or two and stop again. They are touring America in this way—taking advantage of the free camps, offering unfair competition to local laborers, and presenting a problem to Red Cross chapters, charity and the citizenship of the towns along the way—for if sickness comes, they run out of work and money, or they break down—they fall back upon the town that they happen to be in to take care of them. Lubbock does not need them but should give preference to local workmen.

Paul Barrier was confined to his home Monday because of a severe cold.

Mrs. Ross Berry has accepted a position as bookkeeper in the Sherrill Brothers hardware store here. Mrs. Berry succeeds Mrs. Mamie Parker, who was forced to return to her home in San Angelo, because of illness.

Schedule First Day For Feeders At Big Spring On May 30th

At the U. S. Experiment Station at Big Spring, Texas on Friday, May 30, will be held the first annual feeders day meeting.

Forty-five yearling calves have been on balanced rations consisting of feed grown in West Texas for 180 days, and the results will be announced at that time. These tests have been held under the auspices of the U. S. Department of Agriculture and the Texas A. & M. College and is the only feeding test being conducted in Texas at present.

Speakers from U. S. Department of Agriculture at Washington, D. C. and from A. & M. College will be present. Representatives of packing plants will be here to class the cattle. Cattlemen from all parts of West Texas are urged to attend and ascertain the value of feeding West Texas feed crops to West Texas cattle instead of shipping them north to be fattened.

SANTA FE MEN

(Continued From Page One)

loadings, volume of business done, etc.—but those are dry facts that can never visualize the homes that are being built, the acres that are being put into cultivation, the spirit of prosperity, progress and advancement that is evidenced on every hand in this great growing section.

The special train was met by cars from the Chamber of Commerce and the officials driven to the Tech site, over the city, through the recreational park to the experiment station and after this a short meeting was held with the directors of the Chamber of Commerce and twenty-five or thirty additional business men of the city for the discussion of the general future of the city, section and an expression of mutual confidence and willingness to co-operate between the railroad and the commercial executives.

Those with the Santa Fe party were: W. E. Goodie, division freight and passenger agent, of Amarillo; J. F. Harrell, of Topeka, Kansas, editor of "Earth," the Santa Fe publication; C. L. Seagraves, general colonization agent, of Chicago; J. B. Finley, assistant general agricultural agent, of Amarillo; M. C. Burton, general agent, of Galveston; J. G. Fitzhugh, assistant editor of "Earth," Amarillo; T. B. Gallagher, general freight and passenger agent, Amarillo; F. L. Meyers, assistant general manager, of Chicago; C. E. Smythers, superintendent of the Pecos division, of Clovis and J. F. Anton, superintendent of the Slaton division, Slaton.

Sam Dunn, a recent graduate of the State University, will be stationed in a local hospital as interne for the next year. Mr. Dunn, who is a brother of Miss Mary Dunn, local piano teacher, has recently completed his course in medicine at Galveston.

A HOME

Gentlemen: Did you know that any man can make a living on 80 acres of land by cultivating it properly? And did you know that you could buy that 80 acres for \$900.00 and pay \$500.00 cash and get 4 years at 6 per cent on the balance? Wire or come to see Weaver Bros., office in Conley Building, Lubbock, Texas.

More Rent to the Landlord or Money in Your Own Home?

DO YOU see that picture of a beautiful Home of Your Own fade every time you hand rent money to the land lord? Stop paying rent this very minute. Instead put that money into something tangible.

Better Homes Week is just a reminder that you can build a home to meet your every need. This can be done on terms as easy to meet as your rent money.

Let Us Help You Start

HIGGINBOTHAM-BARTLETT LUMBER COMPANY

THE RACKET STORE

910 Main

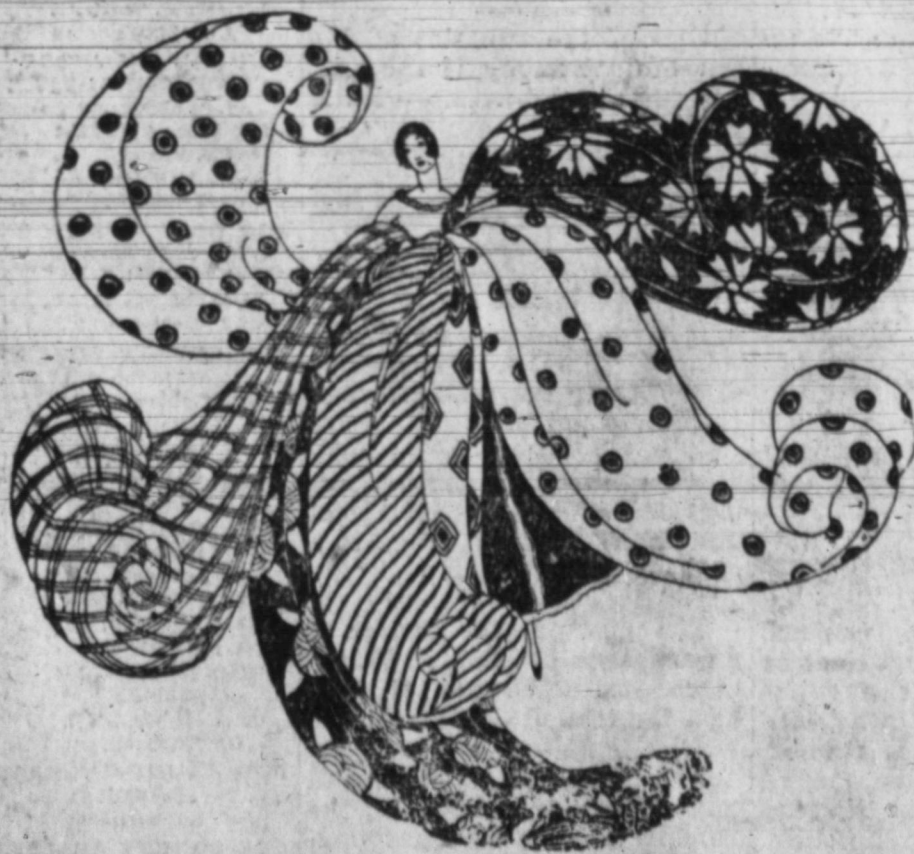

MONDAY, THE LAST DAY!

Monday will ring down the curtain on the greatest selling event in many months at The Leader. Monday is also Trades Day, when it is the custom of The Leader to make each dollar do double duty. Monday at 5:30 o'clock we are going to sell the 4 piece genuine walnut bedroom suite for one dollar to the party holding the lucky ticket. All purchases at our store up until the hour of the drawing will entitle the purchaser to one ticket for each dollar's worth of goods bought. The big values prevail in addition to the opportunity of securing this beautiful bedroom suite.

Jot down these Great Values!

\$1.25 caps	-----	\$1.00
1 lot 75c sox	-----	50c
65c unbleached 9-4 Pepperell sheeting	-----	50c

Editorially Speaking

Our Fallen Comrades

To you, from falling hands, we throw
The Torch. Be yours to hold it high!

Gone they are—these fathers, brothers, sweethearts and comrades of ours whose life's blood has stained the fields of battle since the first pioneer set foot upon this glorious America. Their lives unselfishly given upon the altar of their country for the protection and in defense of those principles for which our nation is exalted among the nations of the world. Honor? They ask it not. Reward? It was not in their thoughts. Pity? Is not for those who attain the supreme heights. Glory? There is none in the gruesome, savage horror of modern warfare. Ambition? America has never fought for gain.

What then has been the impelling motive that has sent our countless thousands to a soldier's grave, a battlefield's bloody oblivion and from the home and fireside of our great nation? The eternal principles of Right, of Justice, of Freedom of Worship and the legitimate, wholesome pursuit of human happiness, human well being, and the right to think, to read, to write and grow in the full measure of humanity's God given ability to rise above the animal instincts.

It is more glorious to die than to live. The glamour of martial music, the cheering multitudes, the flying banners, the white heat of patriotism, the fanned flame of human passion, mud caked fields, roaring cannon, whining shells, stig—and oblivion? Or the daily grind of labor, sickness, of disappointments, of reverses, of thwarted ambitions, of man's inhumanity to man, of the unappreciativeness of friends, of base temptations, of misunderstandings, and fruitless efforts? Which is the more glorious, the more romantic, the more stimulating?

But the flaming torch of human progress has been thrown to us. Shall we sink down in whining despair simply because grafters are found in our ranks, because humanity does not want to progress, or because we, personally, had rather drift slughishly toward the final sea of stagnation; or shall we be worthy of the memory of our Heroic Dead and "Carry On" as becomes a man? Let us not observe the memory of our fallen heroes through empty, meaningless ceremonies that are forgotten ere scarce the echo dies, but let us be worthy of the sacrifice they have made, the hallowed blood they have spilled, the ideals they held and the cause they espoused by living, as they died—**MEN WORTHY OF OUR NATION AND OUR GOD!**

Building for All Time

"The ideals, life and ambition of a nation are written in its architecture." So stated an architect recently who got more out of his profession than the dollars and cents he received for the completed plans and specifications that he prepared. Every building that he supervises is a record of his soul, a child of his mind and an expression of the ideal of this age. He is sometimes called upon to furnish plans for a cheap, shoddy, get-by job that will have a fancy front but be unsafe and more or less temporary in the back structure. But he has consistently refused to accept such work. Moderate priced homes, stores, office buildings and warehouses he will plan—but good from the front face brick to the innermost filler or most hidden recess.

We are architects of our own fate. Our plans are an expression of our ideals and each step in the completion of our life's structure is a permanent record of our innermost souls. Unlike the architect, we each have to live in the house that we fashion and altho each one of us should strive to build as stately a mansion as is possible, the most hidden thought, the most secret act of our lives should be just as solid, true and perfect as the most ornate trimming that we expose to the world.

"Cities Do Not Happen—They Are Built" and every citizen in Lubbock is a workman on a civic structure that will live for all time, whose completion knows no final end, and whose stability, worth, and recognition is dependent upon honesty of purpose and sincerity of the lowliest worker. The Chamber of Commerce is the architect on the job with the Rotary, Kiwanis Clubs, the Pastors Association, the Women's Clubs and the other organizations of the city as consulting engineers, architects and associate builders. Our city officials are our contractors, who work under instructions through the ballot, and in conformity with the spirit of the citizenship of the city.

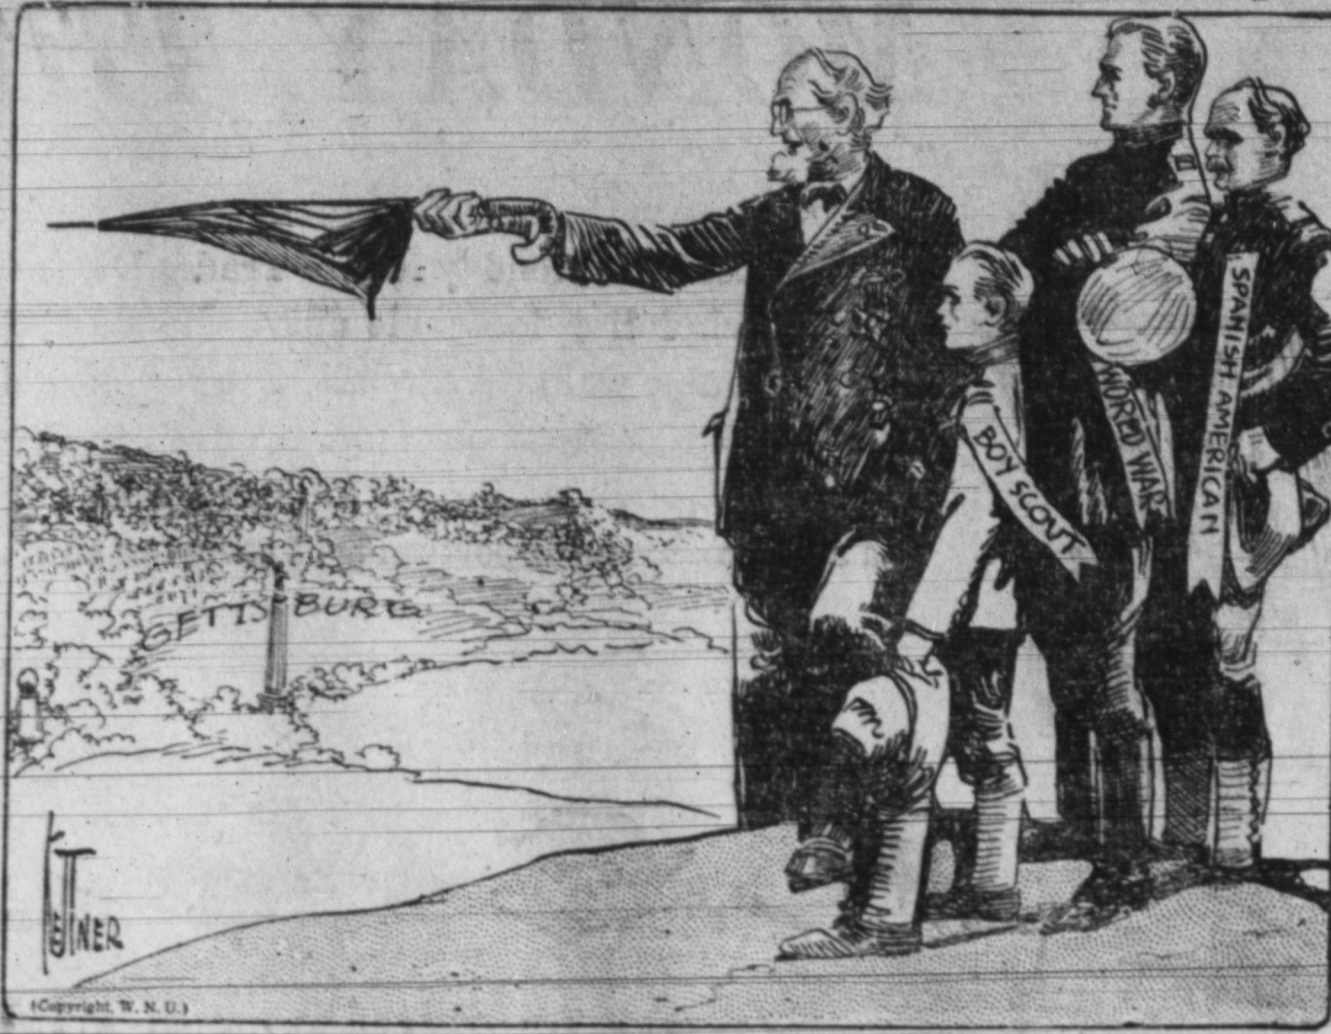

Let us, therefore, plan well, study plans, materials, values and future demands closely, determine upon ideals that shall be worthy of our best and altogether build here a civic structure that shall not only stand out before the entire world as worthy of these great plans of ours from outside appearances, but that shall be soundly and honestly built to the innermost detail. Anything less is unworthy of the kind of manhood and womanhood that composes our citizenship.

Clean Up

Spring is here! Weeds are growing. Trash is accumulating. Flies are breeding. Health is endangered. And it is your fault if you do not keep your premises clean.

The city will have a regular trash wagon working the business and residence sections of the city regularly after a few days. Get ready for them by burning up, sweeping up, picking up and cleaning up every bit of trash, rubbish, or waste around your place.

Memories

Public Highways and Petting Parties

The automobile is one of the greatest factors in the social educational and commercial advancement of our great nation. It is, at the same time, one of the greatest dangers to our American home life. The old fashioned evening around the fireside, the candy pulling party, the children's party, the lawn party—all of these home building influences are giving away and Tom, Dick and Harry, Sue, Kate and Little Mary are jazzing up and down the country on automobile rides, or are parked on the shady side of some by-road staging a petting party.

It's true of Lubbock, it's true of Dallas—where special cops were put on during the summer months last year to keep cars moving along the driveways in the shady parts of the public parks and along the driveways. It's true all over America. And innocent though many of them may be—the tendency is in the wrong direction—and something that makes the average mother and father look at their little kiddies around the home and wonder what the coming years are going to bring in the way of happiness, of manhood and womanhood.

The solution is to be found in the home itself, in public play grounds, civic entertainments, community centers, and properly directed and supervised recreation along constructive lines. What is Lubbock doing toward caring for her responsibilities along this line?

Golf and Gumption

"Cow Pasture Pool," "Millionaire Marbles," "Society Rabbit Chasing," and "A Walking Form of Insanity," are some of the names given the great old Scotch game of golf. But with a public golf course in Lubbock open for visitors, regular players and the citizenship of the entire Plains country a more accurate appreciation of what the game is and what it means is in order.

Golf is a fascinating pastime that attracts any active man or woman between the ages of six and ninety-six. As many or as few can play at a time as may want to play. You can play as hard as you want to play—or as leisurely. It requires physical stamina, a good eye, a cool temper, co-operation of your mind and your muscles and will develop the most truthful man in the world into a confirmed liar if he is not indeed a master of his own will.

Golf is not expensive to play—or the Scotch would never have started it. It does not require brilliant discernment—or the British would never have adopted it. There is always an element of chance, a gamble or risk—or the Americans would never have excelled in it. Baseball is the American sport. Politics is the French sport, beer drinking the German sport. But golf is the inter-national sport of the entire world.

You are neither too old, too young, too rich, too poor, too fat, too slim, too dignified, too silly, too high-brow, too simple, too important or busy to play it—for somewhere, everyday in the year, there is some older, younger, richer, poorer, fatter, slimmer, and smarter than you are playing golf with pleasure and profit to himself and to the distress of his family. You should try it.

Politics and Candidates

In the progress of our civilization the inhuman pastime that has delighted countless millions since the dawn of history has been abolished from our nation. Bull fighting is not allowed under the laws of the United States.

But even before bull fighting became popular, history records a popular sport that originated with the first faint indications of organized community life—even before there were states, nations or world courts. That sport was "Politics." When a dozen of our semi-savage ancestors found it advantageous to band together to beat up a common enemy, the first question that arose was: "who's boss?" The candidates that promptly arose to meet the popular demand for a leader did not pass cards, or wabble mits, kiss babies, or flatter old maids. They squared off, selected well seasoned saplings and to the delight of the common citizenship, held the final election right there. If the losing candidate lived over the election, he accepted the result of the balloting without an investigating committee and the work of the community got underway without delay, charges of graft, or other oily insinuations.

Today the method is a bit more complicated, a little more refined—on the surface at least—but is still almost as amusing to the common citizen that watches the political battle from the side lines. The early candidates grabbed for rocks or clubs. A few of the present day candidates continue to reach for mud, and use any organization available. The battle has a definite time limit, a flock of referees, and other complicated restrictions—but it is our belief that the candidate that is licked should withdraw and stay licked for that term at least.

Come on boys—give the American Voter a show worth the money.

Kurrent Komment

A malarial mosquito swamp in Louisiana has been made healthy by a quantity of Paris Green dust being dumped over it from airplanes flying above the waste spaces. The onward march of invention and science has proven valuable in other than economic instances as the report from Louisiana shows.

Over in France an investigation was recently held in the Chamber of Deputies, the equivalent to our House of Representatives, and it was discovered that of the \$5,000,000,000 francs used to pay war damages only 15,000,000,000 francs went to the actual victims of the war. Charles R. Forbes, indicted former head of the U. S. Veterans Bureau, still has other fields in which he can work his trade of defrauding ex-service men when he finishes paying for that privilege in this country.

Tomorrow we honor our dead. We pause in sacred memory of the boys of '76, '12, '61, '98 and '17, who gave up their all that the spirit of democracy might go forward, the heroes of the blue, the gray and the kahki. Memorial Day has never been made the impressive holiday throughout the country that it should be made, considering the spirit underlying the principle. Tomorrow let us think about Memorial Day and what it means. Let us begin to observe it with the spirit of appreciation and devotion which should accompany it.

Several of the largest religious denominations in the world, in recent conventions, have taken up a great deal of time of the meetings in the discussion of the doing away with wars. A very noble resolve, no doubt, but like a number of methods employed in the running of national church bodies, extremely impractical. A church will never be able to halt a war, and it is doubtful if all of the peace plans, world courts, leagues of nations and every other proposed idea all placed into force at the same time, will ever be able to halt national combats. True, they will make them more scarce and will provide for more arbitration but as for stopping all future wars—impossible. When sifted to the bottom there is no logical reason for war. They cause an enormous waste of man-power and money and little good ever arises from them. Never-the-less human nature is human nature and the future will probably see more wars, wise counsel from the ministers of the nation, notwithstanding.

Best Editorial of the Week

Interpreting Marriage Contract

The departure in divorce proceedings recorded in Texas recently by the filing of civil suits by disgruntled wives seeking pecuniary remedy for alleged breach of the marriage contract has attracted a good deal of attention to Texas' divorce industry which otherwise would have been gobbled up by Nevada and other "standard" regions of relief from galling matrimonial yokes. Some newspapers of other states have assured us that the whole country is watching the experiment in Texas, as a verdict for the plaintiff, if upheld by the highest courts, would do away with divorce suits and substitute civil damage suits. It is pointed out that wives would prefer the latter method, as they would be able to collect damages in a lump sum instead of installments, in states where such under the name of alimony is permitted. Present more or less stringent requirements as to divorceable grounds would be eliminated, and it would only be necessary to prove that the agreement implied or expressed at the altar had been violated. It would make divorces uniform throughout the State, as contract laws are basically the same everywhere. Remarriages would be permissible immediately, as a breach of contract would terminate the contract.

If the country is watching so interestedly, we might as well give it the latest score. One such suit filed in Texas has progressed through the lower appellate courts. The district court's verdict in favor of the plaintiff was reversed by the Court of Appeals upon the ground that marriage was not a civil contract. Further deponents sayeth not.—Fort Worth Star-Telegram.

The Best in American Verse

These are the gardens of the Desert, these
The unshorn fields, boundless and beautiful,
For which the speech of England has no name—
The Prairies. I behold them for the first,
And my heart sweels, while the dilated sight
Takes in the encircling vastness. Lo! they stretch,
In airy undulations, far away,
As if the ocean, in his gentlest swell,
Stood still, with all his rounded billows fixed,
And motionless forever.

(From William Cullen Bryant's "The Prairies.")

- Another advantage that Adam had was that Eve could not go home to her mother, chuckles the Osceola, Mo., Democrat.

Miss Mary Dunn, local piano teacher and a member of the high school faculty during the recent school term, has returned from a visit in the home of her parents in Lorenzo. Miss Dunn will remain in Lubbock this summer, caring for her piano clientele.

H. M. Rockwald, of Houston, was a business visitor here the early part of the week.

Miss Myrtle Dunn, sister of Miss Mary Dunn, will spend the summer months in this city.

County Line News

Tuesday the 28th the demonstration agent from Hale Center met with some of the judges of the neighborhood at the home of Mrs. Daniels and organized a club. It was decided that on Saturday, the 31st the club would sell ice cream at the Union picnic at County Line school house. The proceeds to be used to buy a canner.

On Monday, 19th, Mrs. Lockney James made a trip to Science Hill, Anchor and Bartonsite.

Mr. and Mrs. Pete Robison entertained the young people of the community with a party Saturday night. Everyone reported a very enjoyable time.

Miss Florence Dyess spent the night with Mrs. Pete Robison Saturday night.

Mr. and Mrs. Hugh Brown are very proud of their new 9 1-2 pound boy, named W. E., who arrived Sunday, the 18th.

Miss Floy Turner spent Saturday night with Miss Fannie Mae Turner.

On Saturday, 31st, the farmers Union will have an all-day picnic. There will be open speaking in the morning. Everybody is invited to come and bring their dinner.

Mrs. Will Bohannon of Bartonsite spent Wednesday and Thursday with Mrs. James.

Sunday several families from County Line attended the singing at Science Hill. Those from County were: Mr. and Mrs. Harrel and sons, Mr. Frank Knox, Mr. and Mrs. A. O. Vaughn and sons, Mr. Elbert Brown and Mr. Jason Turner and mother, Mr. and Mrs. Oscar Bibby, Mrs. Wade and daughter, Dimple, Messrs. John Wade and Harvey Jackson, Mr. Powell, Mr. O. C. Home, Mr. H. G. Pettit and family, Mrs. H. M. Barnes, Mr. Sam Pettit. Everybody certainly enjoyed the day.

Mr. Pitt Emery of Abernathy was in our community on business Monday.

Mr. H. O. Pettit made a trip to Shallowater Friday.

Mr. and Mrs. J. H. Pettit and children of Levelland motored to Lubbock Monday and then spent the evening and night visiting at the homes of their daughter, Mrs. H. M. Barnes and their son, Mr. Herbert Pettit, of County Line. They returned to Levelland, Tuesday.

Mrs. Johnson and Mrs. Wade visited Mrs. Frank Barnes Tuesday.

Glen and Betty Lou Pettit took dinner with Dan and Don Barnes, who celebrated their second birthday Tuesday.

The Demonstration Club will hold a call meeting at Mrs. Percy Davies

Wednesday.

The Union of County Line met as usual Monday night.

Install New System Of Traffic Rule In City of Fort Worth

FORT WORTH, (INS)—Installation of the automatic electric traffic control signals in the downtown district here, the great army of "joy-riders" has been increased two fold and the city has found it necessary to enlarge the police department for the sole purpose of guiding the erring foot steps of the pedestrian.

Although the signals are not difficult to follow, it is requiring much patience and close thought on the part of both motorists and pedestrians to remember that the signals are there at all. Violators protest that it isn't their misunderstanding of the light colors that prompts their errors, but the lack of remembering the system's existence.

The extra police have been enlisted to "educate the public" and prevent the forgetful jaywalker, for with the increasing of the downtown speed limit to twenty-five miles an hour, his chances for crossing the street out of order are almost nil.

REAL SHEIKS

Sheiks, handsome and otherwise, sun-scorched Libyan-Desert, glittering lights of London night life and the fulfilled passions of wild youth "neath the starry heavens of a night in Tripoli. This is the theme of the Fred Leroy Granville production that graces the screen of the Lyric Theatre commencing Monday for a two day run.

We have often wondered what sheiks were really like, we have heard a lot of the night life of London and still the question, is the desert as peaceful as it looks, or do the shifting sands that leave no record, cover the sins of those who seek romance under the tropical desert moon? Mr. Granville has endeavored to bring to the American public, the true facts and has woven them into a story which he has called "Shifting Sands." Miss Peggy Hyland is to be seen in the stellar role of Barbara Thayer, the English girl.

If Dollars Could Talk?

ONE wonders what a Dollar thinks about, especially when a pocket is being prodded by a burglar's gun!

J. H. BRYAN

The Function of Your Own Light Company

It is there waiting for you every minute of the day. If you press the button, turn the lever, the response is instantaneous.

Back of this readiness to respond is an investment in plant facilities that represents about five times the total amount of annual receipts from service. In other words, it takes the City Light and Power Co. about 5 years to turn over its investment. Most other lines of business make a turnover from two to five times in one year.

The service must grow as fast as the city grows or else the city can not grow at all. In order for this service to grow, new capital must be secured all the time for investment in the larger plant. Readiness of capital to flow into any business is based on the regularity of the returns from that business.

The City of Lubbock and this company must prosper together. Neither can prosper without the other. Support Your Own Company!

LOCAL AMATEUR TEAM WINS
The baseball team of the Lubbock College turned back the Lemoine amateur club here on last Sunday by the count of 8 to 6, according to M. Witt, manager of the Lubbock team, yesterday. With the score of 6 standing against them in the last of the fifth frame the local athletes hurled two opposing hurlers under an avalanche of base hits to clinch the contest. The Business college team beats Idalou here this week.

BUSINESS TEACHER ARRIVES
Miss Mary Peter, formerly of Fort Worth, arrived in Lubbock Tuesday and immediately took charge of her duties at the Lubbock Business College, where she will instruct the student body of forty-two members in bookkeeping and kindred subjects. Miss Peter is a university graduate and has been an instructor in business schools for over a period of twelve years, Guy M. Witt, manager, stated yesterday. She owns a business college in the state of Arkansas.

BRONSON CHOSEN BY EDITORS FOR 1924 PRESIDENT

Veteran Oklahoman Is Named Head of National Editorial Association Although Ill

OKLAHOMA CITY—Edgar S. Bronson, prominent Oklahoma newspaper man and editor of the El Reno American, generally conceded to be the leading weekly publication of the state, was elected as president of National Editorial Association at the last business meeting of the organization in national convention here recently.

For a number of years Bronson has been one of the leading editors of Oklahoma and through his influence a number of constructive features have been added to the journalistic profession as organized in this state, including the building of a club house for Oklahoma editors at Medicine Park the only club house of its kind in the United States.

In addition to being recognized as a leader in his chosen profession Bronson has also been lauded for his attempts to secure a new building for the state university, to be given over entirely to the use of journalism students. During a recent meeting of the state legislature Bronson offered an Indian curio set, valued at \$20,000 and for a number of years on exhibition at the state capital in this city, to the state if the money would be turned to the construction of the building. This the state solons did not see fit to do and at present the curio are on display in "The Wigwag," a portion of the offices of the El Reno American, which was fitted up by Bronson as a show place for visitors and a community meeting place for civic committees, the only place of its kind in the state at the present time.

Was Boomed for Governor
So prominent has the new head of the national association figured in Oklahoma that prior to the past Oklahoma gubernatorial election he was boomed for candidacy to that office but a desire to remain out of the limelight and poor health made his entrance into the turbulent waters of Oklahoma politics distasteful to him and he refused to consider it. In addition to being known in his profession, civically and socially, he is also known as a philanthropist. He also represented the State of Oklahoma at the World Press Congress several years ago in Honolulu, having been appointed to serve in that capacity by J. A. Robertson, at that time governor of the state.

Is Newspaper Veteran
Prior to entering Oklahoma newspaper circles Bronson, with his present partner, N. A. Nichols, also prominent throughout the state, was engaged in the publishing business in Trenton, Missouri. From Trenton Bronson and Nichols went to Thomas, Oklahoma, where they established and published the Thomas Daily Times, having their office and printshop in a tent in the early boom days of that community. From Thomas they came to El Reno, purchasing the El Reno American, where they are now associated with a third partner, H. Merle Woods, former newspaper man of Welch and Vinola.

Bronson at the time of the election lay on a sick bed at his home in El Reno. It is the custom of the association to name the incumbent vice president as president, but George W. Marble of the Fort Scott, Kan. Tribune present vice president, moved the unanimous election of Bronson, who is given credit for bringing the 1924 convention to Oklahoma City.

Frank Edgecomb, publisher of the Geneva Neb. Signal, was awarded the loving cup for the best editorial page. Edgecomb has been blind for many years.

Mrs. Charles H. Fogg, in the absence of her husband, publisher of the Houston, Maine, Times, was presented with the loving cup for the best "community service page."

The best front page makeup cup went to N. A. Nichols and President Bronson. Next year's meeting place was left with executive committee. Cities bidding for the 1925 convention are New York, Los Angeles, San Francisco, Milwaukee, Rochester, N. Y., Santa Barbara, Akron, Chattanooga and Providence.

NEW CHRISTIAN MINISTER

W. P. Jennings, new minister for the First Christian Church, will arrive here tomorrow from Texarkana. According to all reports Reverend Jennings is one of the leading ministers of his denomination in the state of Texas and his coming into local ministerial circles will be greatly welcomed. Reverend Jennings succeeds Rev. C. D. Poston, who resigned some time ago.

Miss Elizabeth Blattman, of Littlefield, was the guest of Miss Mollie Jackson here Sunday.

Maury Hopkins, secretary of the Ploydada Chamber of Commerce was a visitor here Monday. Mr. Hopkins reports wheat as looking very good in his neighborhood.

Gib Jackson, local insurance man, was a Littlefield visitor on Sunday.

Joe Dick Slaughter has returned from a week-end fishing trip.

Frank Wright of Amarillo, a representative of the Panhandle Builders Supply company, was here last week end.

Miss Grace Boone will spend the summer in the home of her parents in Abilene. Miss Boone served as Latin instructor in the local high school during the past school term.

Mrs. L. M. Simpson is visiting friends in the old home of the Simpson family, Hico.

Dr. Paul W. Hore, of the Texas College of Technology, will return here tomorrow after attending a meeting of the board of regents of the institution, held last week in Fort Worth.

Red Albritton, of San Angelo, a commercial traveler, was attending to business in Lubbock Monday.

John A. Blasingame, of Vernon, was transacting business here on Monday.

To spend several weeks in the home of her daughter and son-in-law, Mr. and Mrs. E. T. Ricker, here Mrs. Mary Marshall has arrived from her home in Clarendon.

A. M. Sullivan, of Tahoka, was transacting business here Tuesday.

Mr. and Mrs. R. B. Haynes have returned from a week's visit at Plevins, Hutchinson county.

J. E. Kettner, prominent Tahoka man, was a business visitor in the city Tuesday.

The Plains Journal's News from Here and There Over Texas

TEXAS RAILROAD WRECK FATAL TO ONE, HURTS PAIR

Movie Directors Would Envy Opportunity to Film Jasper Logging Train Disaster

(By International News Service)
JASPER. — The runaway logging train that killed one man and injured two, in addition to its bit of tragedy was not without the melodramatic that would have brought great waves of emotion over the enthusiastic movie director.

Rail officials described the accident as follows:

A logging train carrying eight cars of logs and one flat car loaded with workmen suddenly developed coupling trouble on a steep grade and the entire train, minus the engine, started a dizzy descent of the grade. With heavy logs adding momentum to the cars the train picked up terrific speed in a few rods and all but three of the workmen leaped to safety from the work car.

At the bottom of the grade a fifteen foot trestle was groaning under the weight of a freight train that had stopped to await the assurance that the logging train would pass over the grade satisfactorily. The crew of the freight seeing that the rapidity of the approaching cars made it impossible for them to rescue their own train leaped to safety. The runaway train crashed into the freight with a deafening roar of exploding boilers and splintered logs. The three workmen who had remained on the logging train were hurled skyward. A Emmington, meeting instant death. The other two men were seriously injured.

Amidst the fire and weight of the demolished rails, the trestle collapsed, throwing the blazing wreckage, locomotive, logging cars and box cars into the ravine below.

MUCH HIGHWAY MONEY
AUSTIN. — (INS) — Through the acquisition of the recent \$192,000 appropriation from the Federal Government, the state highway fund today reported a cash balance of \$5,201,000. The Federal appropriation is to be expended under the joint construction system. Texas was also presented with \$5,000 for joint vocational education work in addition to the highway fund.

Crazed Murderer Of Morchhead To Answer For Act On June 5

BRYAN. (INS) — Commodore Bullock indicted for the assassination of Sheriff L. E. Morchhead here on the night of March 12, and who claims he was directed in his killing by "Heavenly spirits," will come to trial June 5.

Morehead, while assuming the role of a peace officer in a school play, was shot when he made his appearance on the stage and announced himself as "an officer of the law."

The shot was fired through a window of the building. Bullock, later taken into custody, informed officers that "heavenly spirits" and order from his former "superior officer in the Navy" had prompted the shooting.

FIFTH MAN SENTENCED
GEORGETOWN. — (INS) — With the sentencing of G. W. Loftus to one year in the penitentiary here on charges emanating from the sensational flopping of R. W. Burleson in Williamson county a year ago, the fifth member of the flopping band to receive prison sentence was found guilty. The Burleson case has attracted state wide attention throughout the year of trials, retrials and bitter legal skirmishes. The jury deliberating but five minutes after Loftus had finally been brought to trial after "evading" hearing through various legal channels for many months.

START DALLAS FAIR WORK
DALLAS. — (INS) — Construction on the new half million dollar state fair park is expected to begin July 1. It is announced here with preparations being made to offer \$500,000 bonds at 5.5 percent following the signing of the building contract.

RETURN LOST MONEY
CLEBURNE. (INS) — Jury deliberation of but three minutes was sufficient to return to a widow and her several children here, a lifetime's savings of \$3,000. The woman had testified that in depositing her money with a Cleburne bank she was later given a time certificate and the bank failed. She pleaded ignorance of the legal value of the certificate. So convinced was the jury of her earnestness that tears were apt amongst the hardened dozen who heard her life story of saving and sacrifice to accumulate the little nest egg.

FALLS INTO PLATE GLASS
PALESTINE. (INS) — Falling into a huge plate glass which he was installing in a store front here, L. C. Ferguson, was seriously injured. He sustained an ugly gash over the right eye and a severed artery at the wrist.

WOMAN WILL SIT AS GOVERNOR IN N. M. ON JUNE 10

**Female Secretary of State Is
To Succeed Governor When
He Is Absent from Duty**

(By International News Service)
EL PASO. — Over in New Mexico, where men have remained men; a six gun has yet been known to reverse an opinion of the supreme court, there sits a woman in the state capital at Santa Fe, who, on June 10, will occupy the governor's official suite and proceed to dispense the customary gubernatorial tasks.

She is Mrs. Edward Chacon, Secretary of State of New Mexico, who will enjoy the distinction of being the first woman in America to direct the destinies of a state from the executive capacity as governor.

Through the recent death of Jose A. Baca, Lieutenant Governor of New Mexico, Mrs. Chacon automatically falls in line to accept the duties of the office of lieutenant governor—and on June 10, Governor Hinkle contemplates attending the national democratic convention in New York.

In fulfilling the duties as lieutenant governor, Mrs. Chacon will necessarily become governor in the absence of that executive from the state. Her age? Mrs. Chacon when pressed will modestly admit having placed quite a gap between herself and the flapper age. She is regarded as one of the most talented women in the Southwest.

GOES TO WEST POINT
DENTON. — (INS) — Roger Ramsey of Denton, junior at the North Texas State Teachers College has been notified of his appointment to the military academy at West Point. War Department communications order him to report July 1.

FIND DROWNED MAN
CROCKET. (INS) — After a week of diligent search for the body of Louis Supak, 29, who was drowned with his wife in the Trinity river twelve miles from here, the corpse finally came to the surface within three feet of the spot where the tragedy occurred. Hundreds of citizens assisted by a sea diver from Galveston had searched the river tirelessly for a week but were about ready to abandon the task when the body appeared.

British Negro Pauns Lodge Pin; Is Jailed

FORT WORTH. (INS) — "I'm a British subject and us British cul'd gent'mun are the dog-goneest gent'mun what 'is and you ain't respectin' the British flag by locking me up."

This speech from a dusky "gent'mun" charged with pawning a \$250 lodge emblem not known to include negroes in its order, failed to save a subject of King George from a jail cell here.

The negro failed to provide a satisfactory explanation of his possession of the insignia and was escorted to jail where he protested and has either inherited or cultivated an envious English drawl.

OPENS CAMPAIGN
KILGORE. — Tom D. Barton, adjutant general of Texas, in opening his campaign for governor, returned to the town of his birth in firing the open race honestly on his own merits and race honestly on his own merits and "not on the demerits of others." "I come before you asking for the second highest office beneath the American flag, that of Governor of Texas," Barton declared.

JAIL NEGRO EXECUTIVE
TEXARKANA. — With the sentence of J. E. Grimes, negro, of El Dorado, to eighteen months imprisonment in Federal court here, there was recorded it is believed the imprisonment of the first negro in Texas, to head a company alleged to be promoting fraudulent oil operations. Grimes pleaded guilty to using the mails to defraud and was said to have conducted an extensive business with negroes throughout the country.

AGE AND ARTERIES
DALLAS. — A man is as old as his arteries. This was the message broadcast to a "race" suffering with high blood pressure by Dr. J. D. Eathern during the convention here of Texas osteopaths. "High blood pressure is a purely an American disease as baseball and stud poker are American sports," the doctor declared. "The majority of our public men die of high blood pressure before they reach 70 while European men are rarely troubled with it."

SHOOTS SIXTH HUSBAND
HOUSTON. — Police here of the arrest of Mrs. Julia Dorff Stull of Houston who is being held in Richmond, Va., on charges of shooting her sixth husband, R. S. Stull. Mrs. Stull, according to police, has been divorced four times, her first husband dying. The names of her husbands were: Fred Thomas, St. Louis; Robert Meyer, Belleville, Ill.; Nathan Thayer, St. Louis; John Oberpiller, Houston; Lena McIntyre, St. Louis and R. S. Stull, who was slain, of Houston. She will be given a preliminary arrangement in Richmond, May 29. The shooting occurred May 3, and police were not informed of the motive.

DONATES HOSPITAL
WICHITA. — The Axtell Hospital at Newton, Kas., valued at \$200,000, and owned by Dr. J. T. Axtell was proffered as a gift to the South Central Kansas Missionary District of the Church of Christ at a convention of pastors and laymen held at Newton. No action of acceptance was taken until consultation could be had, as the gift came as a complete surprise to everyone present.

ARREST FIVE GUNMEN
HUGO. Okla. — Shooting up a town is not so amusing a pastime in these modern times as it used to be, at least that is the conclusion of five boisterous fellows arrested here for that offense. Becoming super-saturated with the proverbial "corn" five Hugo residents decided to exercising their shooting irons. The sheriff was sent to the scene and quelled the spree, and within thirty minutes after the orgy the principles were looking on the world from behind the bars.

LUMBERMAN DIES
TYLER. — With the death of Judge Jesse F. Odom, 53, here, there passed the operator of one of the largest lumber mills in East Texas and a man known throughout the state in banking circles. Tyler observed a half holiday in turning out to the funeral of the distinguished Smith county jurist.

Patron (crossly) — "Say, waiter, what are these black specks in my cereal?"
Waiter (after a close inspection) — "Dunno, sir, unless it's some of them vitamins every one is talking about now."

"Bib," said a sailor, looking up from his writing, "do you spell 'sense' with a 'e' or an 'e'?"
"That depends," replied his friend. "Do you refer to many or brains?"
"Ah, I don't mean either of them two," was the reply. "What I want to say is, 'I ain't seen him sense.'"

WEST TEXAS HAS FINE PARK WITH PALO DURO OPEN

**One of Nations Most Thrilling
Pieces of Scenery Made Into
"Dude Ranch" by Owner**

(By International News Service)
AMARILLO. — The Palo Duro Canyon, famous scenic spot of Northwest Texas, at last is open to the public.

For 20 years, during which time efforts to make Palo Duro a public park have failed because no money was available, it has been inaccessible to the general public, who were barred by barbed wire fences and lack of roads.

Depression in the cattle business has brought about a change. Henry C. Harding, old-time ranchman, who owns nine miles of this picturesque canyon, late in May converted his property into a modified "dude ranch." Harding has constructed roads down the precipitous canyon walls, erected a club house and log cabins for vacationists, cleared camp grounds of shrubbery and otherwise rubbed the rough spots off nature for the benefit of those who crave the "great outdoors." In doing this, he has made the Panhandle's dream a reality.

The Palo Duro in its setting is one of the most picturesque bits of scenery in the nation. It is a chain extending for forty miles across a level plain, invisible until one is but a short distance away. Its walls range from 500 to 1000 feet in height, offering vistas resembling those of the Grand Canyon of Colorado. Contrasting with the towering walls, the valley is dotted with splendid groves through which a stream alternately winds its way in peaceful fashion and cascades over falls of considerable height. This contrast, together with weird rock formations and the moderate temperature of the plains region, make it an unusually desirable recreation center.

GIVES BABY AWAY
LOCKHART. (INS) — Stopping several Mexican children and offering them a "puppy" a motorist deposited a small box with the delighted children and sped away. Upon examination the box was found to contain a perfectly healthy 24-pound baby. Search is being made for the motorist.

Leaders of Band of Mexican Kidnappers Captured In Texas

BROWNSVILLE. (INS) — The two leaders of the famous Mexican band of kidnapers taken into custody by officers here at the instigation of Mexican police, are said by officers to have shined in ransoms totaling well toward a half million dollars.

Victims of the gang that has been operating for several years have included several millionaires, including one Englishman and a Spaniard, whose total ransoms reached \$200,000.

The band, whose leaders are held here awaiting extradition, are also said to have executed the famous Nunes kidnapping, when the son of the Tampico oil man was held and finally released on \$50,000 ransom.

WINS OWN SUIT
HOUSTON. (INS) — Undaunted by opposition of some of the leading legal talent of Southwest Texas, Dr. D. F. Rosenstein, dentist, acting as his own lawyer, won the \$30,000 damage suit instituted by a woman who claimed the doctor had left a section of hypodermic needle in her jaw. Dr. Rosenstein was complimented by the court for his ability as a lawyer. His main point of contention was that the woman had refused to submit to an examination.

POPE ANNOUNCES DATES
CORPUS CHRISTI. (INS) — Furthering his aggressive campaign for the office of Governor, W. E. Pope announces the following speaking dates: Wellington, ten a. m., May 26; Claremont, 2 p. m., May 26; Claude, 8:15 p. m., May 26; Panhandle, 10 a. m., May 27; Miami, 2 p. m., May 27; Canadian, 8:15 p. m., Stratford, 2 p. m., May 28; Dalhart, 8:15, May 28; Amarillo, 2 p. m., May 29; Canyon, 8:15 p. m., May 29; Hereford, 10 a. m., May 30; Tulsa, 2 p. m., May 30; Plainview, 8:15 p. m., May 30; Hale Center, 10 a. m., May 31; Lubbock, 2 p. m., May 31; Slaton, 8:15 p. m., May 31.

JAIL BOLD THIEF
PARIS. — Held for Colorado authorities on charges of one of the queerest robberies in police history, a man giving his name as Edward Jenkins, was taken into custody here recently, alleged to have stolen 82 telephone poles. The theft was said to have been committed over a year ago at La Junta from the Western Union Telegraph company. The poles were later sold, by Jenkins, police said, to another company.

IGNORANT HOUSE WIVES CAUSE OF MANY ILLNESSES

**Throwing Away of Foods Rich
In Mineral Content Causes
Great Deal of Sickness**

KIRKSVILLE, Mo. — (INS) — The housewife who throws away the coarser parts of food containing minerals, is one great cause of disease of nose and throat, according to George V. Webster, osteopathic physician of Carthage, N. Y., addressing the Eye, Ear, Nose and Throat specialists of the osteopathic profession in convention here.

Dr. Webster spoke on the subject of "Dietic Adjustment in Diseases of the Naso-Pharyngeal Tract."

"The manufacturer takes the bran out of wheat," Dr. Webster stated, "refines the sugar—too much—and in other ways leaves out the mineral bases which make the food what it ought to be. Then the housewife makes matters worse by throwing away mineral bearing parts of the foods which come to her in their natural state. As a result the family craves the part that has been thrown away and eats too much highly refined starches and sugars. The resulting acids load up the blood and cause catarrhal conditions of the mucous membranes."

"There are just three main causes of disease—pressure, poison and pus," Dr. Edward K. Clark, Columbus, O., told the convention. "Pressure," he explained, "may be caused by accident, poison by drugs, alcohol and gasses and pus by germs."

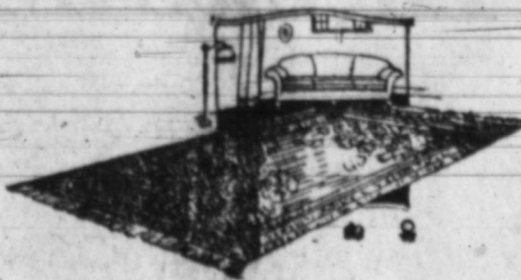

OPPOSES BLUE LAWS
CLEBURNE. — Declaring himself opposed to building a "Chinese Wall around Cleburne," Mayor W. M. Goldsmith has issued a thorough condemnation of the recent Grand Jury recommendation here that Sunday Blue Laws be strictly enforced and the discontinuation of trade campaigns now in progress in Johnson county be brought about immediately. "I believe those things necessary should be sold on Sunday and modern conditions should be taken into consideration," Goldsmith said. "The only effect of invoking blue laws would be the driving of residents to other cities."

Brief News From Over The Southwest

By International News Service

RADIO DIPLOMAS ISSUED. MANHATTAN, Kas. (INS)—Certificates of graduation from the first college course ever offered by radio will be awarded June 1 to some 400 farmers...

AUTOS-KILL 50. ST. LOUIS, (INS)—The automobile death toll for the city of St. Louis for the year 1924, since January 1, stood today at 50, following the death of a carpenter who died from injuries received a week ago...

THORN RE-APPEARS. PRATT, Kas. (INS)—A sand burr thorn imbedded in a finger eight years ago has just made its appearance on the surface of the same finger only one joint lower...

REPLANT KANSAS CORN. ARCHBON, Kas. (INS)—Scores of Atchison county farmers are replanting their corn on account of the drought. Wheat also is in need of rain badly in this part of the state.

MARBLE CHAMP WINS. ST. LOUIS, Mo. (INS)—"Smiling" Sammy Schneider, 12, last year's runner up in the world's championship marble tournament, has again won the St. Louis championship and will represent the Mound City in the national tournament at Atlantic City.

NEED 1,000 HARVESTERS. McPHERSON, Kas. (INS)—McPher-son county will need from 800 to 1,000 imported harvest hands to care for the 1924 wheat crop. M. L. Robertson, county agent stated Saturday, following a survey made during the week on conditions. It was stated that on account of the cool weather of the past weeks, this season's harvest work will not start until about July 1, or approximately two weeks behind that in a normal season...

ARREST NEGROES. KANSAS CITY, Kas. (INS)—Three negro youths were arrested and convicted on a charge of stealing manhole covers here yesterday. They were unable to give satisfactory accounts of their thefts, and sent to the workhouse.

OBSERVE MEMORIAL DAY. McPHERSON, Kas. (INS)—Memorial Day will be observed with the members of the local G. A. R., American Legion and Spanish War Veterans and their auxiliaries, participating in a parade and the memorial ceremonies. The parade will be led by the G. A. R. file and drum corps. The outstanding feature of the day and services will be the decorating with flowers of the statue of General McPherson, after whom the city is named.

GRIND MUCH FLOUR. WICHITA, Kas. (INS)—Working full time a milling concern's mill in Wichita is capable of grinding enough flour to make one and a quarter million loaves of bread each day, according to a statement at the May meeting of the Wichita Manufacturers' club. This number of loaves of bread is said to be enough to give a dozen loaves to each man, woman and child in Wichita, and nearly enough to give one loaf to every man, woman and child in Kansas.

FROGS ATTACK RICE FIELDS. LYONS, Kas. (INS)—Millions of frogs have infested Rice county wheat fields due to the recent heavy rainfall, according to reports received from farmers. The frogs really are a blessing, they maintain, as they seem to be mobilized in squads and work down...

the wheat rows devouring the Hessian flies as they go.

ADD DETECTIVES. KANSAS CITY, (INS)—Additional agents for the department of justice and the internal revenue departments will be sent to Kansas City to assist in the enforcement of federal statutes during the Shrine convention which opens June 3. It is estimated nearly a hundred special agents working in Kansas City during the convention to prevent wholesale liquor violations.

APPLY FOR CAMPS. KANSAS CITY, Kas. (INS)—Applications for the Citizens Military Training camps in the United States are far ahead of the applications received in May 1923, according to Major H. H. Smith, who is handling the applications in Wyandotte county. About 65 per cent of the desired number has been received. It is predicted that if the applications continue to come in as they have been the past month, the desired quota of 40,000 men will be reached by the middle of June.

KANSAS ALFALFA BLOOMS. WICHITA, Kas. (INS)—Practically all of the large acreage in alfalfa in Rice county is beginning to bloom and will be ready to cut within a few days. As a rule the first cutting in that county is made about June 1. It is said this cutting is to be one of the heaviest in years and of a fine quality.

Here and There. BELL MOSLEM MOSQUE.

FORT WORTH, (INS)—Negotiations for the sale of Moslem Mosque by the local Shrine Temple to the Methodist Church are nearing completion, according to a statement of the local heads. The building located on the banks of Lake Worth, is to be purchased under the Methodists' plan for a Summer encampment which is expected by them to attract thousands of visitors.

TEXAS ROADS GOOD. FORT WORTH, (INS)—All Texas roads are in good condition for the summer tourist travel, according to the secretary of the Fort Worth bureau. Central Oklahoma roads are open and are in generally fair condition, he reported.

UNDERTAKERS KICK. DALLAS, (INS)—Objection to the term "undertaker" was voiced at the recent 28th annual convention of Texas funeral directors and embalmers' association. The word "undertaker" is obsolete, they said. "Funeral director" is the proper term.

SEND SPECIAL U. C. V. TRAIN. FORT WORTH—The Cotton Belt train to carry Confederate veterans and Daughters of Confederacy to the annual Confederate union in Memphis, June 4-6, will leave here June 2, according to the committee in charge of arrangements for the special train. The gathering is the thirty-fourth annual affair.

STOP RED CROSS WORK. FORT WORTH.—Due to lack of funds, activities of the local Red Cross chapter will be cut short at once, says a report issued this week by the executive secretary. Lack of funds is caused by the failure of subscribers to the Community Chest fund to pay their pledges. The chapter is a member of the Chest, according to the report.

LINCOLN, Neb. (INS)—Final arrangements have been made for the seventeenth annual Missouri Valley track and field meet to be held here May 23 and 24, in Memorial Stadium. Already many entries have been received. The golf and tennis championships will be held in connection with...

the track meet. Schools are limited to six entries in the tennis games and four men in the golf matches. Preliminaries for the track meet will start at 3 o'clock of the 23rd and the finals at 2 o'clock the 24th, Saturday. A reduction of one and one-half fare for the round trip will apply for members of all competing teams.

NEW SHOE APPARATUS. TOPEKA, Kas. (INS)—A Topeka shoe store has installed an apparatus for making ink impressions of the feet of prospective shoe purchasers. Such an imprint enables the salesman to determine any portion of the foot structure that is defective, and to select the type of shoe to overcome the defect, such as broken arches, sagging bones and enlarged joints.

PLAN HOME-COMING. LAWRENCE, Kas. (INS)—A home coming of the "old-grads" with reception, formal and informal, and three days of the traditional graduation activities awaiting them, will feature the annual commencement week program at the University of Kansas, June 8-10. The class of '24 will celebrate its fiftieth anniversary and the class of '29 will hold a reunion in commemoration of its twenty-fifth anniversary.

PIGEONS HALT CLOCK. WICHITA, Kas. (INS)—Not bats in its beffy, but pigeons on its pendulum, have been the cause of recent vagaries of the city hall clock. Although the clock is more than a score of years old, it has been behaving like a skittish alarm clock of a single summer. Instead of ticking off the minutes and ringing the hours, as they came along, the clock has displayed a tendency to gallop at some times, and to slow down to a walk at others, while on occasion it balks entirely. Pigeons have been holding conventions in the workings.

OPEN NEW BRIDGE. BOONVILLE, Mo. (INS)—The bridge across the Missouri river on state highway No. 2, has been opened unofficially and will remain open until after the Shrine convention in Kansas City, when it will be closed for a week and the approach surfaced. Until the bridge is formally opened July 4, the contractors do not assume any liability in case of accident.

CROPS ARE LATE. IDABEL, Okla. (INS)—Due to the cold weather during the greater part of April and the first 15 days of May, McCurtain county crops are nearly a month late, according to a statement of the county farm agent. "Corn is small and yellow and in many places has a poor stand, having to be replanted. Cotton perhaps has suffered the most, many farmers have had to re-plant entire fields.

START TRAIN SERVICE. OMAHA, Neb. (INS)—Two new daily all-steel passenger trains will be placed in service June 1, between Kansas City and Omaha, by the Union Pacific Railroad, according to an announcement.

announcement of the general passenger agent. The service will be operated via Topeka and the Marysville, Kas. cutoff. The principal cities on the route will be Lawrence, Topeka, Marysville, Beatrice and Lincoln.

JAIL POPULATION GROWS. LEAVENWORTH, Kas. (INS)—The population of the Federal penitentiary attained a new high record today with the arrival of twenty-seven prisoners. Seventeen were received from Kansas City, five from St. Louis, three from Des Moines and two from Jefferson City, Mo. The population is now 2,719. The previous high record, attained about a year ago, was 2,711.

DEPOSITS TREBLE. ST. LOUIS, (INS)—The Telegraphers' National Bank, a St. Louis labor institution, was founded less than a year ago, but in its last report to the comptroller of currency, March 31, it was revealed that its deposits had almost trebled in nine months. The bank was opened June 5, 1923, with a capital of \$500,000. Today the bank's deposits totaled \$4,008,029.51, and its total resources were \$4,984,009.09. The bank was formed by the order of Railroad Telegraphers.

FIND BOOZE IN MINE. TULSA, (INS)—A coal mine that yields chock beer instead of coal was discovered this week near Schales, Okla., by county officers. The alleged owner was arrested and charged with possession. He pleaded guilty. The "mine" was discovered accidentally. The shaft apparently was producing coal. When the officers arrived a small gasoline engine was pumping water and an old fire-blasted mule furnished the motive power for raising and lowering the buckets into the shaft. But instead of hoisting coal the mule, hoisted chock. And the engine was pumping water to be used in the manufacture of the chock. The mine office near the shaft was used as a bar. Nearly 200 gallons of chock beer were seized.

NEW AUTO WORKS. HERE IS MODERN TO HIGH DEGREE.

"We treat you square all the year around." With that as a slogan a new and highly modern automobile shop has opened for business here at 1312 Avenue G. The new shop is owned and managed by C. B. Murphy, formerly of Fort Worth and is known as the Murphy Auto Works. Mr. Murphy, who is an automobile mechanic of years experience, has established more than an ordinary garage in the city. All kinds of machinery of the latest makes has been put into the shop to facilitate quick and efficient service. In placing the machinery here Murphy has filled a long wanted need in this territory for an auto repair works of the latest type.

54 Bank Robberies Attempted In 1923 In State of Kansas

(By International News Service) KANSAS CITY, Kas. (INS)—Fifty four attempts, successful and unsuccessful, were made to rob Kansas banks during the last year, it was stated yesterday by W. W. Bowman, Topeka secretary of the Kansas Bankers Association, in his annual report. Of this number, 34 were burglaries and 20 were hold-ups.

The report showed that the association paid in rewards and other expenses relative to bank robberies, a total of \$4,311.85 during the year. Operations of bank robbers were widely distributed, occurring in 37 counties. Wyandotte county (Kansas City, Kas.) leads the list with six robberies during the year ending April 30, 1924.

Demand On Building Material Exceeding Supply In Territory

Considerable building is being done in this locality and in West Texas and even more will be begun soon, an investigation proved yesterday. According to local officials of brick companies the demand exceeds the supply in many cases and delivery on brick is often delayed because of the large volume of business found here. Contracts were let on the hospital at Hereford Monday, while June second has been fixed as the date for the letting of the Lamasa high school job which will be to the extent of about \$100,000, it is thought. On May 24th the Southland school board let contracts for the construction of that prosperous community's \$100,000 consolidated school building.

Considerable building is being done at Idalou, two new jobs which have been started recently being the erection of several store buildings and the remodeling of a bank.

The teacher was giving the class a lecture on "gravity." "Now, children," she said, "it is the law of gravity that keeps us on this earth." "But please, teacher," inquired one small child, "how did we stick on before the law was passed?"

Even Hundred Will Graduate June 5th At Simmons College

ABILENE — Commencement exercises of Simmons College will be observed June 5, and Dr. Harold Maljors, pastor of the Gaston avenue Baptist Church of Dallas, will deliver the thirty-third annual commencement address of that institution.

Rev. F. C. Dick of Raton, New Mexico, an alumnus of Simmons, will deliver the baccalaureate sermon to the class on June 1, at the First Baptist church of this city.

Stock's Stock Took Bad Slump After An Offer Of \$125,000

(By International News Service) NEW YORK.—In 1920 John McGraw offered \$125,000 and a ball player worth at least \$10,000 to the Cardinals in exchange for Milton Stock, the third baseman. It was rejected.

The depreciation Stock's value is not because his game has fallen off—for Stock is still a brilliant performer and showed as well in 1923 as he did in 1920.

POOR OLD COBB AFTER 18 YEARS STILL BIG STAR

Tiger Leader Disproves Theory Of Sport Critics Last Year That He Was Through

(By International News Service) DETROIT.—Poor Old Ty Cobb! A year ago the "old man" was definitely through. He was slowing up; his fielding no longer was up to big league standards; his legs couldn't carry him around the sacks fast enough to beat a spavined mule; even his batting was falling off.

Whose name appears daily in the Detroit box scores? Cobb's. Whose bat is wreaking havoc against opposing pitchers? Cobb's. Whose twinkling legs are carrying in most of the Tigers' runs? Cobb's.

Cobb's Strategy Is Credited for Three Victories For Team

(By International News Service) DETROIT.—Ty Cobb placed himself second in the Tigers' batting order for this reason. He noticed that Blue, the lead-off man, got on first with astonishing regularity, but usually was stranded there because Bobby Jones wasn't much in the way of an advancer.

It is said that Cobb's strategic shift has won at least three games so far for the Tigers which otherwise would have been lost if Jones had been following Blue.

Kelly Gets Assist, Put-out and Error All for Same Play

(By International News Service) NEW YORK.—George Kelly, elongated Giant first sacker, is credited with an error, an assist and a putout on the same play—a freak incident.

constituted an error—and Stengel was safe on first. But Casey, saving reached the initial station, decided momentarily to try for second. He turned to the left only to see Gowdy, the Giant catcher, spearing the Kelly overthrew. So Casey tried to skid back into first. But Gowdy's throw to Kelly beat him—and Stengel was out.

MAKES LARGE DONATION GEORGETOWN.—The \$100,000 cash donation of R. H. Morris, Pittsburg, Texas banker to Southwestern University culminating his years of planning to establish a suitable memorial to Dr. J. Sam Barcus, president of the institution. The gift was the largest single donation in the school's history.

NEW ORGANIZATION AUSTIN.—The "Half Moon," a corporation formed "to foster a spirit of loyalty to the University of Texas and to maintain a reading room where lecturers will be given for the mental culture and development of its members" with headquarters at Austin, was granted a charter here by Secretary of State. Its organizers were named as C. J. Clements and N. J. Leissander of

MAN AND WIFE SHOT CORSIKANA, May 19.—W. F. Mays was shot and instantly killed and his wife was critically wounded in a shooting affair in the Powell field shortly after midnight Sunday. J. D. Dischen made bond late Monday afternoon in the sum of \$3,000. He claims that the shooting was accidental, but declined to make a written statement to the district attorney.

Mr. and Mrs. Peterson are very proud of their new 4-lb. son, named

Carl Nathan, who arrived at their home the 4th.

Mr. Dyess' sister, Miss Dyess, of Canyon, is here visiting in his home.

Mr. and Mrs. A. O. Vaughn took dinner with Mr. and Mrs. Wils Embry Sunday.

Misses Vera Knox and Nettie Durrett spent a few days with Mrs. Robinson.

The stork left a fine 12 lb. boy at the home of Mr. and Mrs. Aurthur Turner Thursday.

Mr. Ernest Brown who is working in Plainview now, visited his parents this week end.

Bro. Clinton was accompanied by Bro. Campbell Lubbock Sunday. Bro. Campbell preached at the 11 o'clock service. Bro. Campbell is a singing

teacher, he led an hour's singing in the evening before Sunday school. We were glad to have him with us Sunday and hope Bro. Clinton will bring him again sometime.

Mrs. Ernest Durrett and Miss Nettie Durrett visited Mrs. Walter Shores Tuesday.

Mr. Johnnie Pettit, who is working at Hale Center, spent the week end with his sister, Mrs. H. M. Barnes.

Mr. and Mrs. Pete Robison, and Mr. and Mrs. Knox and daughter, Miss Vera, visited Mr. and Mrs. Austin Davis Sunday.

Mr. Hubert Selke took his father to Lubbock Tuesday. Mr. Selke's father has been visiting him for the past week.

Bro. Clinton was accompanied by Bro. Campbell Lubbock Sunday. Bro. Campbell preached at the 11 o'clock service. Bro. Campbell is a singing

Suggestions for Garden and Orchard

BY PURLEY L. KEENE
South Dakota State College
The Flower Garden

We should not overlook the flowers. They add to the cheerfulness of the garden and home. They hope to make life a little more pleasant. There are many annuals which produce flowers in great abundance at very little expense. Why not prepare a bed or two in the edge of the garden or at the rear of the house? These beds should be well enriched with decomposed barn yard manure which should be thoroughly mixed with the soil before planting. The seeds should be sown shallow and the bed kept well watered and cultivated until the foliage of the plants completely cover the bed.

Tender Perennials
These plants may be planted any time now. In dividing the dahlia before setting, care should be taken to leave a portion of the old stem with each tuber since the buds occur near the base of these old stems. In planting, lay the tuber flat, six inches deep, and cover with three inches of soil. As the plants grow, the soil is drawn in around the new shoots.

Gladiolus Bulbs
Gladiolus bulbs may be planted now and every two weeks until the latter part of June. This will give a succession of blooms during late summer and fall. There are many varieties which one may choose. The bulbs should be planted six inches deep and about 6 by 18 inches or 4 by 12 inches apart in the bed or in the border. Deep planting (6 inches) is essential to successful culture of these two plants, since it gets the roots down where more moisture can be obtained and give greater support to the heavy flowering stalks.

Window Boxes
Window boxes may be prepared and put out now. The boxes should be made of substantial wood, painted, preferably green, and kept for several years. Several holes should be bored in the bottom of the box for drainage, a thin layer of coarse gravel placed in the bottom and then filled to within two inches of the top with rich sandy loam. The soil is watered and allowed to settle for a day or two before planting. It is best to set all the plants to be put in a box at one time and to leave inside for a few days after planting. It will be necessary to cover the box on nights when there is a possibility of frost.

Field Transplanting
Field transplanting of tender flower and vegetable plants which have started inside may be done now. The plants should be hardened off by giving them less water and subjecting them to lower temperatures for several days before setting in the field. Choose a damp, cloudy day to transplant into the field. As much soil should be taken with the roots as possible. If water is used it should be applied to the hole before setting, rather than after setting. The soil should be packed around the roots but the surface soil left loose. It may be necessary on cold nights to protect frost tender plants by placing a bucket or box upside down over them.

Miss Gladys Rose, former instructor of political science here, has gone to her home in Abilene, where she will spend the summer.

Roy P. Rhoad, of Wilmington, Del., a civil engineer, has arrived in the city where he will be employed on the local paving project.

Mr. Bell and son, of Greenville, Texas, are prospecting here at the present time. Mr. Bell is a prosperous realty man in Greenville.

HURT TOE KILLS BOY
TECUMCA, Texas. — Silence as to the cause of his affliction until too late for medical assistance resulted in the death of 11-year old Edward Faulk here, who up until a few hours before his death held secret his malady that had baffled physicians. When the lad first became ill, he was treated for meningitis but failed to respond to the treatment. When doctors finally concluded that the end was near, the boy called his mother and whispered the solution to the puzzling case. He had been bitten by a dog, but had withheld the information from doctors who too late discovered he was the victim of hydrophobia.

TEXAS TOWN GETS MILL
CORNICANA.—With the Chamber of Commerce announcement here that Cornicana would secure a million dollar cotton mill to be erected by the Lockwood & Green company of New York. It was revealed that the New York firm, one of the largest cotton mill companies in the world, contemplates the construction of ten large mills in Texas. Officials of the company who conferred here declared final selecting of the ten sites and actual construction would begin as soon as the cost of machinery returns to normalcy and an improvement is registered in labor conditions.

Library Enrollment Is Slowly Mounting

Little by little the enrollment of the local public library is mounting. Mrs. J. J. Smelser, librarian, stated Wednesday. A total of 1,894 are now enrolled in the library here although of that number 229 are county residents and it is the opinion of the library board that at least 1,666 Lubbock city people should be in the fold. No new books have been purchased for the past several weeks but a great number have been placed on the shelves since January 1st.

The World Over

You will find that brick houses are gaining rapidly, the world over, in popularity over the old style frame house. The reason is obvious and the intelligent builder casts his vote for brick.

The First Cost is only 7 percent more — in Three Years the Upkeep and Depreciation on a Frame House has Equalized the Cost.

WE REPAIR SHOES

WITH A SKILL THAT LEAVES NO CLUMSY MARK TO SHOW THAT THEY ARE NOT NEW. IN MANY CASES OUR WORK MAKES THE SHOES BETTER THAN THEY WERE WHEN NEW.
