

FEDERAL REPORT SAYS 1925 CROP WILL BE LARGER

14,759,000 BALES LAST GUESS MADE AND IS ISSUED TODAY

(By Associated Press) WASHINGTON, Oct. 8.—An indicated production this year of 14,759,000 equivalent 500-pound bales of cotton...

Aviator Killed In Trial Flight At National Race

MITCHELL FIELD, N. Y., Oct. 8.—Harry Bunnell, civilian aviator was killed and Clarence D. Chamberlain, pilot, was injured today when their home-built monoplane crashed in the first event of the National Air Races.

EXTENSION WORK ON UTILITIES IS MOVING FORWARD

Weekly Report of Engineer Shows Fourth of Sewer Laid; Water Line Slower

The program for extension of the sewer and water system of the city of Lubbock, Texas, for which were provided at a recent election, and contracts awarded on August 7, setting aside \$150,000 for each division of the work, is progressing satisfactorily.

LINE WILL HELP CLAIM NEW RAIL VALLEY TO GROW

I. C. C. HEARING GOES ON AT BROWNSVILLE AND W. T. C. C. GETS IN

(By Associated Press) BROWNSVILLE, Oct. 6.—Lon C. Hill, of Harlingen, a pioneer, who has seen the lower Rio Grande valley grow in 25 years from a waste to what other witnesses have described as the most fertile spot in the United States, told Thomas F. Woodcock, Interstate Commerce Commissioner, here today that another railroad would hasten and improve valley development.

Wilson Hoped He Could Spend His Days In Virginia

WASHINGTON, Oct. 8.—Woodrow Wilson hoped in vain to spend his last days quietly in Virginia with his books, his friends and his grandchildren.

FIVE COUNTIES SEND EXHIBITS TO THE STATE FAIR

Club Boys and Girls Also To Be Represented At State Exposition

Exhibits of the agricultural products of five Plains counties were loaded out here Tuesday for shipment to the state fair at Dallas, which opens Saturday, and some lively competition will be witnessed at the exposition.

Baby Slayer Has To Face Charges Is New Decision

NEWARK, N. J., Oct. 8.—(AP)—Harrison W. Noel, slayer of infant Mary Daly, of Montclair, and of Raymond Pierce, a negro chauffeur, must face trial in Essex county for the slaying of the chauffeur.

FEDERAL AID IN HANDLING LABOR SHORTAGE GIVEN

EMPLOYMENT BUREAU TO BE OPENED HERE SAT. UNDER R. ROACH

As a result of the efforts of the Lubbock Chamber of Commerce, an employment bureau, under supervision of the Federal government, will be opened here Saturday to give assistance in the threatened labor shortage, especially as it is related to the harvesting of the giant cotton crop on the South Plains.

ALL THREE SHOW \$750,000 ADDED DEPOSITED CASH

INCREASE MADE IN SPITE OF FACT THAT NOW IS LOW DEPOSIT TIME

The three banks of the city of Lubbock have on deposit at this time over three quarters of a million dollars more than was shown by the statements of conditions on Oct. 10, last year.

SCHOOL PETITION SIGNED BY MORE THAN NEEDED

The petition that is being circulated here by citizens interested in the board of trustees' plan to change the public school system, seeking to have at which it will be sought to vote bonds in the sum of \$170,000 for new buildings and improvements on those already being used, had been signed by far more names than is required by the law governing such movements, according to an announcement from the office of Business Director Jack-son.

Woman, 100, Gives Receipt For Long And Hearty Life

MOUNTBOURG, Normandy, Oct. 8.—To those who would live to be 100 years of age, Mrs. Fouquet, a resident of this little village has given her recipe. On her 100th birthday the little old lady, after singing and dancing at a party given in honor of her having rounded out a century of life, gave the following formula:

DALLAS MAN SHOT IN AMARILLO APARTMENT

AMARILLO, Texas, Oct. 8.—(AP)—Potter county Grand Jury was reconvened today to investigate the shooting of C. D. Whitworth, a Dallas traveling salesman, in an Amarillo apartment building, last night.

DAY LABOR PLAN IS KNOCKED BY CONTRACTORS

DALLAS, Oct. 5.—(AP)—War against the day-labor method in public works, directed chiefly against the United States government, as "the largest contractor in the world" was opened here today by the Associated General Contractors of America.

Longhorn Parents Are To Be Let In Grid Game Gratis

AUSTIN, Tex., Oct. 8.—Out of town parents who are visiting the University of Texas on Dads' and Mothers' Day, November 14, will be admitted free to the football game between the University and the University of Arizona through the courtesy of L. E. Bellmont, director of the University Athletic Council.

PANTHERS ARE TO PLAY HERE SAYS ZIGGY SEARS

"The Fort Worth Cats" champions of league play everything, will be in Lubbock next Monday and will oppose Sled Allen's Lubbock champions, with Josephus Tate, star wrong arm, in the box. A wire received today from Ziggy Sears, Panther leftfielder, to S. D. Hunter, read:

Search Continues For Lost Airman

CLARION, Pa., Oct. 8.—The search for Charles Ames, air mail birdman who has been missing for seven days, was continued today by eleven airmen, 350 National Guardsmen, and the hundreds of volunteers who have been entering in their efforts to find the aviator.

MUSIC LOVERS OF THE CITY ARE LOOKING FORWARD TO THE RECITAL WHICH WILL FEATURE MISS VIOLET GRAYSON SCOTT

MUSIC LOVERS OF THE CITY are looking forward to the recital tonight which will feature Miss Violet Grayson Scott, supported by Miss Margaret Huff, pianist, which will be held at Baptist church tonight. Miss Grayson recently came here from Waco and has been added to the music faculty of the Texas Technological College.

MRS. CARL ROBERTS SR. RETURNED THIS AFTERNOON FROM DALLAS WHERE SHE ATTENDED THE MARRIAGE OF HER SON, CARL JUNIOR

MRS. CARL ROBERTS SR. returned this afternoon from Dallas, where she attended the marriage of her son, Carl Junior, better known as "Bud," on Tuesday of this week. Mr. Roberts was married to Miss Lucile People of Dallas, and the young couple will make their home here following a short wedding trip.

State's Figures Given

The indicated productions by states follow: Virginia 48,000 bales, North Carolina 1,150,000, South Carolina 550,000, Georgia 1,065,000, Florida 36,000, Missouri 240,000, Tennessee 465,000, Alabama 1,270,000, Mississippi 1,750,000, Louisiana 835,000, Texas 3,875,000, Oklahoma 1,340,000, Arkansas 1,400,000, New Mexico 60,000, Arizona 54,000, California 114,000, all other states 17,800.

Ginnings Listed

Ginnings for October 1, counting round as half bales and excluding linters compared with 4,527,668 for that date in 1924. Ginnings by states were: Alabama 829,623, Arizona 16,674, Arkansas 536,753, California 8,000, Florida 28,225, Georgia 165,887, Louisiana 554,882, Mississippi 924,808, Missouri 45,977, New Mexico 6,372, North Carolina 392,970, Oklahoma 287,200, South Carolina 538,152, Tennessee 159,961, Texas 1,881,189, Virginia 6,822. All other states 3,195.

Break In New York

NEW YORK, Oct. 8.—(AP)—Cotton prices broke about \$2.75 a bale today on publication of the government crop estimate of 14,759,000 bales, which was about 500,000 bales more than the late trade anticipated. Heavy selling, which precipitated the sharp decline later was offset by trade buying in fairly large volume.

New Orleans Slumps

NEW ORLEANS, Oct. 8.—(AP)—Cotton prices broke 105 points on December and 107 1/2 points on the late month as the government forecast on cotton production of 14,759,000 bales and total ginnings to October 1 of 7,101,719 bales, which was much larger than expected. The decline of December compared with the opening high was 121 points or \$6.80 a bale.

LEGION ACTION- IN AIR SQUABBLES IS POSTPONED

OMAHA, Neb., Oct. 8.—The expected flight on the convention floor over the American Legion's aeronautical committee report was postponed this morning when Commander James A. Drain called for the report and met with no response.

Traffic Density In Detroit Worse Than N. Y., Claim

DETROIT, Oct. 8.—(AP)—The city plan and rapid transit commissions told the Common Council that the density of traffic in Detroit now "far exceeds" that of New York in New York's most noted and congested spots.

The Weather

EAST TEXAS: Tonight and Friday unsettled; probably showers in north portion; cooler in north and central portions. WEST TEXAS: Tonight and Friday partly cloudy; probably local showers in north portion; little change in temperature. LOUISIANA: Tonight and Friday partly cloudy in south; probably showers and cooler in north portion. OKLAHOMA: Slightly cooler in southwest portion; Friday partly cloudy.

Employees at Vera Cruz Hospital Strike

MEXICO CITY, Oct. 8.—(AP)—Dispatches from Vera Cruz report that the employees of the City Hospital there have struck because their salaries have not been paid. They are said to have walked out leaving patients unprotected. The surgeons in the hospital are greatly handicapped because of lack of assistance.

Airman Dies as Plane Bursts Into Flames

CHANUTE FIELD, RANTOUL, Ill., Oct. 8.—(AP)—Lieutenant William L. Wheeler, 34, was burned to death today, when the airplane he was piloting burst into flames, 25 feet in the air and crashed, a mass of fire. Cecil S. Byrger, private first class, a passenger, leaped out, alighting on his feet. He sustained only minor injuries.

LOCAL MAN KILLED IN CAVE-IN AT GRAVEL PIT

Clair Dean, brother of J. C. Dean, of the Lubbock Floral Shop, and manager of the truck crew of the Beebe-Howard Construction company, was killed late Wednesday afternoon when he was caught beneath the sliding sand in a cave-in at a gravel pit of the construction company in the country about five miles northeast of Poyser.

THE CHEERFUL CHERUB Oh, goodness, but I've been so ill; I had to take such awful stuff. My family was worried too - for once they noticed me enough.

Matadors, Unhurt From Saturday's Battle, Prepare To Meet Kangaroos Of Austin College Here On Friday

Showing a greater amount of fight following their near victory over McMurry College here Saturday in their first combat in history, the Tech College Matadors are being shown some of the real stuff that will be expected of them by Coach Freeland this week, and will enter the game against Austin College here Friday in the heart of spirits.

The squad emerged from the fray Saturday unhurt except for minor scratches and bruises, which are more or less expected, and are in excellent physical condition considering the shortness of the training period. Coach Freeland expresses himself as very well satisfied with the outcome of the contest with McMurry College but has been "a little different" in the game Friday is considered as one of the hardest, if not the hardest on the schedule, as the Austin College Kangaroos are three successive times champions of the T. I. A. A. losing last year to Howard Payne in one of the hardest fought contests of the season.

It is recalled, also in this game, that the Kangaroos had played Saturday against Rice Institute at Houston, and the following Tuesday met Howard Payne in the northern part of the state, making the long tiresome jump, the entering directly into the hardest battle of the year.

Last year the Kangaroos went into competition in the southwestern conference, beating Baylor and Rice, two of the best in the conference, and all but scared the Sox off the S. M. U. Mustangs, conference champions, losing to them by a count of 7 to 6.

Many Veterans to Face Coach Pete Pawton, of the Kangaroos, opening his fifth year at Austin College, has three letter men in the backfield, another one that has been used a great deal, one veteran end and three veteran linemen. He has lost Poe and Morgan, all T. I. A. A. linemen, but is filling these holes with men of experience.

In Hill, star backfield performer, Pawton has one of the best punters in the T. I. A. A., and in Nelson, who is husky, powerful and shifty, he has a wonderful backfield man. For his field general in the quarter back position, he has Alfred, a veteran grid star, who in the words of Coach Freeland is just about as high as the average man's bell, and weighs about 140 pounds. Alfred is now in his fourth year, according to available records.

In Freuka and Crawford, Coach Pawton has two of the best linemen in the T. I. A. A., both being veterans of many a battle, and in Cone, who is captain of the squad, he has an end that is hard to stop.

Matadors Have More Weight As far as weight is concerned, it is believed that the Matadors will be slightly the heavier, but they are facing reverse odds that will count heavily against them than this. Their main disadvantage at present, of course, will be lack of experience as an entire team, for the machine work counts heavily in this connection.

FIGURES SHOW STARTLING LOSS BY FIRE IN U. S.

Local Officials Urge Complete Co-operation in National Fire Prevention Week

While no definite steps have been taken locally for the observation of national Fire Prevention Week which opened Sunday, fire department officials are firm in the belief that local people should join in the nationwide movement without formal proclamation of the move, and cited statistics showing that the daily property loss from this source alone amounts to \$1,487,744.00, and that an average of 41 persons daily lose their lives from this cause. On a 24-hour basis the hour loss each day would be \$61,115.00, \$1,615.59 every minute, and \$16.79 every second. The figures are indeed startling.

This is another way of stating what the National Board of Fire Underwriters, the highest authority on the subject tells us—namely that our national annual fire loss is \$535,272,782.

Some Comparisons. What this means may be comprehended from a few comparisons. Our annual production of gold and silver is \$103,119,744—less than one-fifth of our annual fire loss. As a people, we produced wealth of \$1,900,287,900 in our 1922 crop but we wasted more than 25 per cent of that amount by fire. Our 1922 cotton crop amounted to \$1,182,461,000, and our fire loss was 44 per cent of that sum. In 1923 we paid our Government internal revenues, excluding income and inheritance taxes totaling \$495,915,956. We wasted by fire the same year more than half again as much as Uncle Sam collected in these revenues.

What is the cause of this loss? Fire department chiefs, insurance actuaries and other experts tell us that 75 per cent of our fires are partly or wholly preventable, the results of one form or another of carelessness. Carelessness is certainly to be denounced. But it is a delusion to think that the time ever will come when it will not be necessary to forestall the results of carelessness.

The fundamental cause of combustion is combustibility. And the way to forestall the results of carelessness is to build fire-safe. We must either admit that we "build to burn," or accept the challenge of the new slogan "Build fire-safe." Fireproof Material Urged. It is possible for the average home

builder to accept this challenge. The development of modern building materials makes it possible for even the most modest home to be built fire-safe. For instance, fireproof gypsum wallboard may be used in place of highly inflammable pulp, paper or fibre wallboards. A fireproof sheathing of non-metallic mineral may be used as a sheathing or stucco backing to protect the wood studding of the frame. A fireproof gypsum lath may be substituted for tinier-like wood lath.

These are only examples of the protection offered by the home-builder by the modern materials manufacturer. Gypsum is only one of several non-metallic minerals that may be used to encase and protect the wooden parts of a building. Portland cement concrete, asbestos, slate, terra-cotta, lime and other mineral compositions also make it possible to build fire-safe economically.

This is the lesson of National Fire Prevention Week. The National Conference on Home Building, which met recently in Chicago, went on record as "according to preference to fire-resistant methods and materials in the construction of American homes and dwellings." What the experts advise the public can adopt. "Build fire-safe" not only means a reduction of our \$535,272,782 annual fire loss. It means fundamental and economical insurance to the life and property of every home builder.

LINE WILL HELP CLAIM NEW RAIL VALLEY TO GROW

CONTINUED FROM PAGE 1

To complete its testimony today, Frank Andrews, counsel for the Missouri Pacific, opponents of the proposed extension, said he could not determine how long it would require for the Missouri Pacific to finish its case and that it would depend upon developments.

Additional interventions in favor of the Southern Pacific extension were filed today by the West Texas Chamber of Commerce, the San Antonio Freight Bureau and the Mercedes Chamber of Commerce. This brings the total of favorable interventions to 17.

Mr. Bedell was spokesman for a commission which had been appointed at a mass meeting in Falfurrias October 1 to attend today's hearing and urge permission to build the S. A. & A. P. extension. Brooks county, he said, few white families lived in it. Developments really began, he recited, in 1901. "If we made 2,500 bales of cotton 25 years ago," he said, "we thought we were growing as a cotton region."

Mr. Kirkpatrick read a statement which related with figures relating to Hidalgo county agriculture. Farmers, who own and till their farms average 67.2 per cent in Hidalgo county, he said, as compared with an average of 46.1 per cent in the state. He told of the more than 6,000,000 young

Take no chances with your baking

MAKE sure that you get the best possible results every time you cook or bake by using Mrs. Tucker's Shortening. You will find that it makes muffins, hot breads, cakes—light and flaky and tender. That fried meat and vegetables are never greasy. That whenever you use it, it imparts the richness of butter—and none of the heavy indigestibility of lard.

That is because Mrs. Tucker's is a pure, wholesome vegetable shortening. It is made exclusively of choice cottonseed-oil. Buy a pair of it from your grocer today. It will be enough to convince you of its economy.

You'll be delighted, too, with the new container for Mrs. Tucker's. Absolutely air-tight, it assures you shortening that is fresh and pure. It's wonderfully easy to open—a matter of seconds. Once empty, it is useful about the house as a bucket or dinner pail. Interstate Cotton Oil Refining Co., Sherman, Texas.

orange trees now on the road to bearing, the increase in cotton production and the decided increase in valley fruit and truck shipments. He estimated the area in the valley susceptible of more than ordinary development.

Mr. Andrews, on cross-examination, drew from the witness the statement that valley citrus fruit cannot be shipped into California. That state, it appears, has quarantined against such shipments, ostensibly because it fears the introduction of fruit tree disease and predatory insects.

"You do not think," Mr. Andrews asked, "that the California embargo has been laid because are produced down here some of the best oranges and grapefruit in the world and that California is jealous of it?"

DEFENSE LAWYER CLAIMS OFFICER TO KILL MARTIN

DALLAS, Oct. 8. (AP)—The state rested this morning in the trial of W. A. Martin, alleged slayer of Deputy Sheriff B. E. Parsons, after three witnesses had been examined. The de-

fense opened with a statement that it expected to prove that the shooting of Parsons, in Denton on August 6, was the outgrowth of a political campaign in which Martin had supported Sheriff Swinney, predecessor of Sheriff W. S. Fry.

Fry made open threats during the election, defense Attorney Maury Hughes charged in the statement, and said that if elected he would run Martin out of town or kill him.

DALLAS, Oct. 8.—Charges that former Deputy Sheriff R. B. Parsons, of Denton county, for whose slaying W. A. Martin, of Denton, is on trial here, had been employed to kill Martin, were made at a night session of the trial last night. They came during a stormy scene in which Judge Charles A. Pippen and defense and state counsel clashed bitterly.

"Don't you know that when Sheriff Schuyler Marshall, of this county, went to Denton to arrest Martin, that Sheriff Bill Fry begged him to kill Martin?"

"Don't you know that the request was only a part of the general plan to have Martin killed, and don't you know that after Sheriff Marshall had taken Martin in custody that on of Bill Fry's men tried to kill him, even then?"

The defense also asserted that Martin refused to give up to Sheriff Fry and quoted him as saying that "if Bill Fry gets me handcuffed, he would shoot me down like a dog."

 - Violet Grayum.
 - (Violin Obligato) Mrs. Van Rosenberg.
 - Third Violin.....Handel
 - Dr. Flanders.
 - (Accompanied by Mr. Wagborne.)
 - Love of Yesterday.....Speaks
 - Morning.....Speaks
 - Violet Grayum.

MUSIC CLUB WILL MEET HERE ON SATURDAY

The Music Club will have the first meeting of this year Saturday afternoon, October 10th, at 3 o'clock in the Methodist church auditorium. An interesting program has been arranged and will be published later. All members are urged to be present, and a cordial invitation is extended to all those who have recently moved to our city who are interested in better music and real high class entertainment.

The Music Club has done a wonderful and greatly needed work toward raising the standard of music in Lubbock, and will continue this good work this year.

Those citizens who saw the comic opera "Don Pasquale" last year and greatly showed their delight and appreciation of the entertainment shall be more than delighted to know that the Music Club is sponsoring a great "The Elvix of Love" on November 1st.

The course will include three evenings of the very highest and most delightful music and entertainment.

The members are as follows: "The Elvix of Love" on November

FOR TRADE—Ninety-six acres improved Fannin county land for land anywhere on the south plains. Also ten acres well improved northeast Oklahoma land for similar trade. Either town or farm trade acceptable. C. E. Lovelace, Lubbock, Route A. 41

18th, which is an opera similar to "Don Pasquale," but even more beautiful. The cast of characters in the opera are of the world's real artists. "The Smith-Spring-Holmes company" will appear on November 26th. The company consists of a group of very artistic musical interpreters. Their program includes solos on the trombone, cello, violin, saxophone, and voice, also combinations of different instruments. Their instruments are conceded to be the most expensive set ever built. "Te De Marco Harp Ensemble" will appear on January 14th. Unusually brilliant combinations of three harps, violin, cello, piano and voice add charm to the program.

Lubbock is a city now, therefore nothing less than the best of entertainment should be offered.

Julia Johnson Is Honored At Texas State University

With her picture on the front page of the Daily Texan, student newspaper of the University of Texas, Miss Julia Johnson, daughter of Mr. and Mrs. J. S. Johnson of this city, a senior in the college of arts and sciences at the state university, has been proclaimed one of the women leaders of the campus at Austin.

Miss Johnson, in addition to being president of her sorority, Kappa Alpha Theta, and taking other prominent parts in student life, has recently been named as society editor of the 1925 Cactus, the yearbook of the university. Only five women students' pictures were reproduced in the Daily Texan as campus leaders and Miss Johnson was the Plains sole representative. She will receive her degree in June.

IF YOU GET UP NIGHTS YOU'RE OLD BEFORE YOUR TIME

Prostate and Bladder Trouble Makes Many Men Feel Twenty Years Older Than They Are.

It is said that fifty per cent of men past forty and many younger ones are victims of prostate trouble.
One of the commonest symptoms of this dangerous disease which saps vitality and makes you old before your time is the necessity of getting up several times a night.
Other symptoms are dull, drabby, aching at the base of the spine, pain in groin, burning sensation of organs, lack of vigor and frequent attacks of the blues.
But there is hope for you, no matter how old your case, from a wonderful new formula. It seemingly brings new health, vigor and freedom from these troubles to both old and young.
This wonderful treatment is known as Walker's Prostate Specific, and is prepared in convenient, pleasant tablet form. All you need do is take one tablet after each meal and the symptoms seem to vanish like magic.
To prove these statements the Walker Institute, 1288 Gateway Station, Kansas City, Mo., generously offers to send a \$1 treatment under plain wrapper, postage and free of charge to any sufferer who will write for it. If it cures you tell your friends and pay whatever you think is fair, otherwise the loss is ours.
Remember that you are the judge, and you pay nothing now or at any time unless you wish, so send your name today before the introductory offer is withdrawn. It is good for only 10 days and guaranteed in every way.

MR. AND MRS. SIM O'NEAL, of Lamesa, were in Lubbock yesterday visiting Mrs. C. A. Rush and other relatives and friends. Mrs. O'Neal returned to Lamesa last night, while Mr. O'Neal, accompanied by Judge Schenck, of Lubbock and Graham, went to Kemma, New Mexico, where he will transact business.

CHARLES ALLEN, AMARILLO distributor for Rickenbacker automobiles, is in the city today attending to business for his company.

JAMES A. WATSON, of Charleston, South Carolina, representing the Williamson Heater company, is in the city with the company's distributor Gene Wofford, of the Wofford Tin Shop. Mr. Wofford expects a large business in the Williamson line this fall.

MISS VERNON BROWN is teaching in the Amherst public schools. Her term opened on last Monday. This is Miss Brown's second year in the Amherst system.

THE TEXAS UTILITIES COMPANY is erecting a line between here and Littlefield. The line parallels the R. Q. M. highway. County Surveyor Arch Harris is busy signing permits from landowners to permit the erection of poles on the various privately owned tracts of land.

J. LINDSEY NUNN, of AMARILLO, who has been here yesterday and today attending to business matters has returned to his home in the Potter county capital.

Dr. and Mrs. W. T. Reed, who arrived yesterday from New York are at the home of Mrs. E. L. Klatt, 1520 ave. M, for a few days, after which time they will be at 2109 8th street.

MR. AND MRS. W. P. JENNINGS are out of the city for a few days. Mr. Jennings is pastor of the First Christian church here.
PAUL SEBBERE, OF AMARILLO, will arrive in Lubbock Friday for a short visit with friends who live here.

Blanket Sale

Our Introductory Sale OF BLANKETS THREE DAYS ONLY Friday, Saturday and Monday

Putting the house in order for fall and winter the careful housewife looks to it that there is an ample supply of blankets provided for the cold weather not so far away.

And it is very advantageous that this sale occurs just at this time, for it brings savings opportunities that are really remarkable. Blankets of practically every type are included—and the price range is so inclusive that many plans of expenditure are provided for.

All-wool blankets with Ribbon bindings in a variety of attractive plaids, very specially priced.

These blankets are very light and soft yet warm enough to be serviceable for coldest weather. In plaids of yellow, tan, rose and blue. The ribbon bindings are in white or colors to match the plaids. Very unusually priced.

MISSOURI PACIFIC GOES TO BAT IN EXTENSION HEARING TODAY

(By Associated Press) BROWNSVILLE, Oct. 7. — T. B. Kirkpatrick, chief engineer of the Gulf Coast Lines, told Thomas P. Woodlock, Interstate Commerce Commissioner, here today, that for every 1.5 miles of irrigated land in Hidalgo and Cameron counties the Gulf Coast Lines maintain one mile of main line track.

He was the first witness for the Missouri Pacific Railroad system, which is objecting to the petition of the Southern Pacific for authority to extend the Houston, Antonio and Brownsville line into the lower Rio Grande valley.

Bell Takes Slap.

A few moments previously, J. E. Bell, of Washington, Commerce Counselor for the Southern Pacific, had fired a pistol shot at the Missouri Pacific, which today began introduction of its testimony, designed to show there is not enough business in the lower valley for two railroads.

In August, 1923, he told the commissioner, the S. P. and A. P. secured an amendment to its charter permitting it to build the proposed extension and in fact did construct about fourteen miles of it. In December of the same year, he asserted, the Southern Pacific, by court decree, was compelled to relinquish its control of the S. P. and A. P. and in July 1914 the St. Louis, Brownsville and Mexico Railroad, principal artery of the Gulf Coast Lines, entered Brownsville.

HOUSTON PARENTS AND TEACHERS IN PAGEANT

HOUSTON, Tex., Oct. 5. (AP)—Leaders of the Parent Teachers Association here have an idea an example of war may be made to serve the interests of peace. They are planning to reproduce the battle of the Argonne at an Armistice Day celebration Nov. 11 as part of a peace pageant and expect to enlist the interest of all South-east Texas.

Incidentally, while the pageant is expected to be a general peace factor, the fund derived from those who witness it is to be devoted to a student loan fund for Houston High students who may need financial assistance in obtaining an education. The fund, which now amounts to \$2,000, will be increased to \$5,000, it hopes of the P. T. A. are realized. Mrs. Max B. Higgins, chairman of the student loan fund, said.

Reproduction of the Argonne offensive will be made on a considerable scale. In addition to soldiers, 1,200 civilians will take part. Military maneuvers will be directed by Colonel A. M. Tison of Houston, past commander of Veterans of Foreign Wars. Heavy cannon, sharp reports of machine gun and rifle fire, destruction of a fairly large church in the center of a village, wild screams of civilians for safety, and the light of burning buildings are expected to lend realism to the reproduction.

One hundred and fifty former service men in Houston who were in the actual battle have signified their intention of participating. One of these, a dispatch bearer, is expected to perform the same office and carry the same dispatch case he used in the Argonne forest.

Meanwhile the women have issued a call for a "back to Houston" movement for the occasion. The fact that November 11 marks the tenth anniversary of the opening of the Houston Ship Channel which connects Houston by a deep water route to the Gulf of Mexico is expected to increase the out of town attendance.

Texans To Study Plans To Add To Schools Of State

FORT WORTH, Texas, October 5. (AP)—What Texas should do to strengthen rural schools will be considered at the annual meeting of the Texas State Teachers' Association at Dallas, Nov. 28-29. The rural school section of the association has completed its program, an announcement from association headquarters here said. Iuri Bryant of Wichita County, president of the section, is urging all rural teachers to attend.

A. F. Harman, superintendent of Montgomery county, Alabama schools, will direct the discussion and is on the program for the principal address. S. M. N. Marrs of Austin, state superintendent of public instruction, is to outline the Texas high school program for rural schools. H. L. Goddard, superintendent of Dallas county schools, will discuss the Texas School Survey and J. R. Steedman of Valley View is to talk on rural school transportation.

Growth of the association is indicated in another statement from headquarters. Cherokee and Brooks counties are leading the state this fall, with 100 per cent enrollment in the association. Several other counties have reported high percentages of enrollment. E. S. Erwin of Rusk is superintendent of Cherokee county schools and J. T. Ferguson of Falls County reported the Brooks county enrollment.

Plan To Advertise Scenic Highway Is To Be Discussed

HOUSTON, Missouri, Oct. 7. (AP)—Plans for advertising points of interest along the Ozark Trail in Missouri, Kansas, Tennessee, Arkansas, Oklahoma, Texas and New Mexico will be discussed at the national convention of the Ozark Trail Association here October 9 and 10. The main trail is from St. Louis to Los Vegas, N. M.

"We hope," said Judge Sam Hodgson of Clayton, Mo., president of the association, "that at this convention we will be able to arrange for publication of a folder that will give information about the principal points of interest on the Ozark Trail, the state highway numbers on the various routes and their advantages to the people of the United States the Ozark country, making it as well known, if possible, as Yellowstone or Glacier Park. Those placed were comparatively unknown until the railroads began advertising them."

"The Ozark Trail has been designated as one of the Golden Star highways of the United States by the World War Registrars and the trail association proposed to erect suitable memorials of monuments and bridges to those who made the supreme sacrifice in the world war. The association marks the trail as to enable trans-continental tourists to know when they are on the correct route."

Boy Recovers In County Jail And Is Held For Fine

A young boy, held in the county jail here since Saturday night, after he was picked up in an unconscious condition near the incinerator plant just off the Plainview road, Monday morning, gave his name as Claudi Poston, of Tubaoka.

The boy denied reports that he had been beaten, but admitted that he had been shoved out of the car by the ones with whom he was riding, and left to make his way back to town in the best manner possible. He also admitted that he had been drinking, and was in a drunken stupor when pushed from the car.

He will be released from the custody of officials upon payment of a fine, Deputy Ford, of the Sheriff's office said.

CHANGE FOR CITY PAVING PLAN IS PROPOSED

An amendment to the charter of the city government, whereby residents of this city will have largely in their hands the paving of residential streets will be submitted to the City Commission soon, pursuant to the calling of an election on the proposed amendment, according to Harry N. Roberts, Consulting Engineer of the city.

The amendment was given approval by the commission recently, but must again be approved by the body before it is submitted to the people, Mr. Roberts said, differing from a bond issue, in that the action must be legally published so that the people may have an opportunity to understand it before the election is called.

Under the old amendment, the city government is held responsible for one fourth of a voted paving program, which under the program now fast being completed here amounts approximately to the cost of laying the pavement on the street intersections, and across alleyways.

Under the new plan, the city would pay for only one-tenth of the program, leaving the balance in the hands of the property owners. In the opinion of the commissioners is now the best method of procedure, as residents on streets who wish the pavement may agree among themselves on the matter, and proceed with less "red tape," and at the same time a greater amount may be laid with municipal aid.

The proposed amendment probably will come before the next meeting of the Commission for final action.

Fair Attendance Figures Largest In History Here

With a total attendance of 69,877 throughout the four days of its opening, the 1925 Panhandle and South Plains Fair, which closed here Saturday night, eclipsed all former attendance records and surpassed that of 1924, previously the highest known here, by almost double. The attendance by days was: Wednesday, 17,027; Thursday, 9,651; Friday, 11,109; Saturday, 23,160.

Had it not been for rain which fell throughout parts of Thursday and Thursday night, the attendance would have doubtless been much greater. The total attendance in 1924 was approximately 35,000, Manager A. B. Davis said.

NEW STADIUM TO BE READY BY OCT. 10

DES MOINES, Ia., Oct. 5. (AP)—Drake University's new \$230,000 athletic stadium now in the course of construction, should be ready for the football game between Drake and the Kansas Argles, October 10.

While the stadium will not be as large as many similar structures in the United States it will have a number of unusual features. Among them will be a stadium enclosed press stand with a capacity for 64 men. There will be room for 25 telegraph wires and 6 telephones.

The stadium will have 26 entrance ramps and will have a capacity of 18,025 persons. Board seats in the stands will be a quarter mile track, 120-yard straight-of-way of eight lanes and a regulation football field.

While the capacity is limited to 18,029 the foundation is so constructed that additional decks can be added without difficulty, and so the intention of the school's athletic authorities eventually to increase the number to 50,000.

TEXAS MAN FINDS NEW WAY TO AID CROPS

BAY CITY, Texas, Oct. 7. (AP)—L. A. Diepe, county agricultural agent here, has met and apparently vanquished the blister beetle or Spanish fly, which is regarded one of the most pernicious enemies of truck crops in Southwest Texas.

The insect, Mr. Diepe discovered, has a sweet tooth. So, he took two quarts of low grade molasses and stirred it into one gallon of water. Then he mixed one pound of paris green with 10 pounds of bran and stirred this mixture into the sweetened water.

In mixing the ingredients, no utensil with a repellent odor should be used. Broadcast the mixture through the infested field, letting it fall on and under the plants, and the beetles almost immediately will leave the plants for the mixture, Mr. Diepe said. The result of one experiment was that within a short time there was not a live beetle in a field, he declared.

Beetles generally appear in great hordes and without warning. They enter one side of the field and march steadily to the other side, cleaning plants of foliage as they go. Their favorite plant seems to be tomato vines, but they will attack most of the other garden crops. They are also fond of alfalfa.

Until Mr. Diepe began his experiments there was generally recognized that there was no effective remedy for these particular pests. Poisoning with arsenical sprays has been recommended, but to kill the beetles, the application has to be so heavy that the spray burned the plants when white arsenic was used and where calcium or lead arsenate was employed, the remedy seemed to act as a repellent.

Then there was another plan which has been practiced with some success but it was the driving of the beetles from the field into traps.

Mr. Diepe began two years ago to travel, he has been chosen when court adjourned at noon. Martin is alleged to have killed Deputy Sheriff H. B. Parsons of Denton county.

Proceedings were halted today by numerous objections to the lines of questioning by both defense and prosecuting attorneys. This between attorneys were frequent.

Four Men Jailed As Aftermath Of Fair Concession

Charging that they were operating a roulette wheel, LaVerne Kershner, local man, today signed a warrant for the arrest of four men, who were connected with the carnival at the fair here last week. At the signal from the County Attorney O. W. McWhorter, the men were arrested by Sheriff H. L. Johnston. No disposition has yet been made of the cases but attention will be given them immediately, county officials said this afternoon.

Gulf Coasters To Attend State Fair

DALLAS, Oct. 7. — A complete and most comprehensive display of the products of the Gulf Coast country is to be made at the State Fair of Texas, Dallas, Oct. 15-25, by "The Blacklanders," incorporated. In a number of specially arranged passenger cars.

The train will be run into the Fair Grounds on a spur track built from the main line of the Texas and Pacific railway, and will remain on exhibition throughout the progress of the fair. Exhibits will include the products of Nueces, Galveston, Jim Wells and Kleberg counties.

FIREMAN KILLED DURING RUN IN DALLAS

DALLAS, Oct. 5. (AP)—Inability to see a guy wire because of the glare of an approaching automobile, last night, was assigned by the driver of a fire truck as the cause of an accident that cost the life of a Dallas fireman, Captain Thomas W. Ross, 48, was instantly killed when pinned against the seat of the truck as it struck the wire.

Other firemen escaped as a pole was pulled across the fire apparatus. Ross, mounting guard, was his comrades. Firemen said they were accustomed to use a cut-off rod across a vacant lot at a street intersection and were unaware that the guy wire had been installed.

BUSINESS SCHOOL WILL ADD TO FACULTY

With the enrollment of the school over twice what it was last year and with new students coming daily, another instructor will have to be added to the Lubbock Business college in the near future, Joe Witt, vice-president, said Saturday.

According to Mr. Witt, the enrollment of the college is now sixty-five and several new students are scheduled to report tomorrow. A number of desks were yesterday added to the college's equipment.

Guy M. Witt is president of the school and teaches bookkeeping and commercial law. Joe Witt teaches shorthand and office training while Miss Mary Peter is superintendent of the school and instructs in all courses. The school is located at 1316 1-2 Avenue L. It was opened November 1, 1920, and is the oldest school of business training on the Plains.

FLASHES OF LIFE

By Associated Press

MOSCOW. — With Russia off the water-wagon everybody is rushing the growler so hard that the supply of vodka and other such things is dwindling rapidly. There have been lines for blocks outside dispensaries.

NEW YORK.—Ganna Walska is back from Europe. When Harold McCormick met the Mrs. at the pier she wore a costume of yellow Scotch tartan with pastel blue, yellow, green and red in squares. A black hat, lilac-silk shoes, a necklace of 400 pearls and pearl-shaped pearl earrings.

EAST BOURNE, England. — The Archbishop of Canterbury is out with severe criticism of present day sermons because they fail to draw people from church, motoring and other Sunday diversions.

BOSTON. — Art. King, of Welles N. Y. 71, retired merchant, is a freshman in a business course at Boston University.

STOCKHOLM.—A second play by Prince William, novelist, poet and traveler, has been accepted for production. It deals with sea life.

TANGIER. — Abd-el-Krim's foreign minister, accused of being a traitor, has been blown to pieces by the Rifis at the canals' mouth.

PARIS.—Gloria Swanson's husband has traced his ancestry back 654 years to show he is really entitled to be called Marquis de Mouchy. He has no vanity at all. Nor has Gloria. Why, she even had the title removed from the theatre posters.

BOSTON.—Discharged, she says, because she made charges against some other members of the faculty involving morals, Mrs. Louisa Tufts Ford is suing the dean of Boston University for \$50,000.

Automobile Stolen At Plainview Today

A practically new five-passenger Willys-Knight touring car was stolen from the streets of Plainview shortly before noon today, according to reports to the Sheriff's department here. A blue sunshade adorned the windshield. A reward of \$25 has been offered for recovery of the machine.

Memphis Woman Is Held After Fatal Shooting Of Man

MEMPHIS, Texas, Oct. 6. (AP)—Frank Dequa, of Hartley, was shot and instantly killed Monday on the porch of the residence of H. E. Berry, Sr. by Mrs. Berry. Four pistol shots took effect in his neck and chest. Mrs. Berry, formerly housekeeper for Dequa, before she married Berry, is being held under \$1,000 bond.

HOUSTON MAN HAS 15,000 ACRES IN RICE

HOUSTON, Texas, Oct. 7. (AP)—Of the 50,000 acres planted in rice in Matagorda, 15,000 acres are owned by E. W. Turner of Bay City, a fact that qualified him as the "Rice King" of that South Texas rice growing section. W. E. Cook, agricultural agent of the Gulf Coast Lines and the International and Great Northern Railroad, said.

Mr. Cook said Mr. Turner expected to harvest 15 bags of rice to the acre and indicated value of the total yield would approximate one-third of the \$2,000,000, which he estimated the Matagorda county crop would be worth.

"Of course Mr. Turner does not attend personally to growing of the crop on his 15,000 acres," Mr. Cook said. "He furnishes the land, the seed and the money for putting in the crop but grows it on the share basis. His seed is a fairly large scale in order to cut down overhead represented in costly equipment, teams, tractors and irrigation systems. For these reasons, we find the rice farmer to be of a rather distinct type. He probably is the most self-reliant of all our farmers, the natural result of having to solve his own problems and make his way practically unassisted."

"One of the things he has learned to do is to diversify. One may wonder how that might be done when only one crop is grown. Diversification is accomplished by planting a number of varieties which mature at intervals and prolong the harvesting season. Of all crops produced, rice probably is the most difficult to protect in adverse weather. It is grown largely on level land which holds the water back instead of letting it run off freely.

"Rice also has a tendency to fall badly if it is not cut immediately on reaching maturity. Consequently a rice farmer may lose his entire planting if the weather prevents the binders going into the fields for a long period, after the crop has matured. It varieties are planted which will mature at different times the grower has a much better chance of getting favorable weather for a part of his crop."

Mr. Turner has been growing rice for 25 years and has never failed to make a good crop, Mr. Cook said.

Oil Well Fire Is Fatal To One Man

HOUSTON, Oct. 6. (AP)—Lawrence Goff, 27, foreman of the crew at the well of the Humble Oil and Refining company, which caught fire at Goose Creek Monday, died today from burns. The well was still burning late this morning. Goff was one of 12 who were injured when Beaumont number 16, from which the crew had been pulling tubing, burst into flames. The others most seriously burned were reported resting easily.

FOURTH JUROR IS CHOSEN FOR MARTIN

DALLAS, Oct. 6. (AP)—Venuemen were questioned as to their attitude on the suspended sentence law in cases where the defendants' life have been threatened by defense attorneys today in the W. A. Martin murder trial here. A fourth juror had been chosen when court adjourned at noon. Martin is alleged to have killed Deputy Sheriff H. B. Parsons of Denton county.

Proceedings were halted today by numerous objections to the lines of questioning by both defense and prosecuting attorneys. This between attorneys were frequent.

Charter Granted To Goat Raisers At Austin Today

AUSTIN, Oct. 5. (AP)—Goat-raisers of Texas, California, Arizona, Oregon and New Mexico are listed among the 15 directors of the American Angora Goat Breeders Association charter, which was granted today by the Secretary of State. Headquarters is at Rock Springs, Edwards county. To encourage raising of Angora goats by holding fairs and exhibitions is the primary purpose of the organization. Among the directors are Bob Davis, of Rio Prio, Texas; M. L. Conklyn, Newville, California; Morris Higley, Farmington, Mo.; Aubrey Clark, Skull Valley, Arizona; U. S. Grant, Dallas, Oregon; and Mrs. H. Armer, Kingston, N. M.

Terry Co. Judge Slowly Improving After Operation

Homer R. Winston, county judge of Terry county, who underwent an operation for appendicitis at the Lubbock Sanitarium recently, is gradually showing improvement, according to a report from the sanitarium this afternoon. At 3 o'clock, however, he was not resting as well as he did earlier in the day, the report said.

Chinese Troopers Battle With Reds

SHANGHAI, Oct. 7. (AP)—A Japanese report received here says that Canton troops clashed with forces of the anti-Red General Chiang Ming in the Szechwan district, fifty miles east of Canton, on October 3. It is believed the battle resulted in numerous casualties.

Kieth Sentenced To Six Years On Ballard Murder

AUSTIN, Oct. 7. (AP)—The conviction of Paul Keith, in Titus county, as an accomplice to murder with the slaying of Otis Ballard, September 24, 1923, for which Clem Gray was electrocuted at Huntsville, August 7, was confirmed today by the Court of Criminal Appeals. Keith was sentenced to six years.

Texas Ranger Is Legal Victim In English Courts

AUSTIN, Texas, Oct. 5. (AP)—When Ranger Captain Tom Hickman, erstwhile cowboy and wild show performer, was one of the three judges in the rodeo of the International Stock Show at London last year, he learned something about the English courts. And he was not a judge at that time but a witness.

Being the only judge of the rodeo from America, the second judge coming from Argentine and the third from the Canadian cow country, Captain Hickman was regarded as the most important witness at the trial of the rodeo operators, who were charged with cruelty to animals used in the performances. Many of the English people objected to the bull-dogging and steer roping, especially when the leg of one steer was broken and another steer lost a horn.

Called to the stand, Captain Hickman was sworn in, while standing in the witness box. Immediately thereafter he sat on the bench. The bailiff of the court motioned to the Texas to stand, which he did. After answering several questions propounded by the attorneys, the ranger again took his seat. Once more he was told to arise. His performance was repeated several times, as Captain Hickman was on the stand for a lengthy period. Finally, the court turned to the captain and with the deepest concern evidenced in his voice asked, "Are you ill, sir?"

"No," replied the tall, rangy Texas, as he sat down again. "Stand up then," commanded the court.

Somewhat surprised at the laughter from the audience, Captain Hickman asked for an explanation.

He was told that unlike in the United States, the witness in England had to remain standing throughout the interrogation.

TECH ENROLLMENT PASSES 800 MARK

Enrollment at the Tech College has passed the 800 mark, according to an announcement from the office of Registrar Doboney this afternoon, with applicants still seeking the office to register for courses. Officials are now looking forward to an enrollment of not less than 850.

Class room work is now well under way, Dr. Paul W. Horn, president of the college said, and things in general are fast assuming the normal state. Pending completion of the installation of an electric bell signal system to all class rooms, the shrill and sirene notes of the bugle is being used for the call to class rooms. The signal system will be completed within a day or two, Dr. Horn said.

Buck Stuart Will Defend His Title

DALLAS, Oct. 7.—Buck Stuart of Fort Worth, who by winning over a big field of the world's greatest trick riders in Chicago in August, won the championship, will defend his title at the State Fair of Texas rodeo, Oct. 18 to Oct. 28 inclusive. Stuart is one of the most daring horsemen alive, and performs astounding feats with a speed and rapidity that is amazing. The Fort Worth lad and his famous pony "Tony" will be big features of the State Fair show, according to "Foghorn" Clancy, who with Ray McKinley, are the producers for the Fair Association.

Terry Co. Judge Slowly Improving After Operation

Homer R. Winston, county judge of Terry county, who underwent an operation for appendicitis at the Lubbock Sanitarium recently, is gradually showing improvement, according to a report from the sanitarium this afternoon. At 3 o'clock, however, he was not resting as well as he did earlier in the day, the report said.

Judge Winston, only about 28 years old, is probably the youngest man ever to take over the reins of the government of any county in the state.

Czechoslovakia last year increased its production of pig iron and steel to 1,050,000 and 1,350,000 metric tons, respectively.

PANTHERS TO BE HERE ON MONDAY LOCAL MEN PLAN

ATZ'S CHAMPIONS TO BE PITTED AGAINST SLED ALLEN'S HUBBERS

Jackie Atz's Fort Worth Cats, six time champions of the Texas League, and five-time champions in the Dixie series, the base ball classic of the South, are to appear in person here next Monday if plans of local fans do not go astray.

The original Cat machine, with but two exceptions, will be here for the occasion to contest the best club that can be assembled on the South Plains. Konety, stellar first sacker, and Mullen, who has been performing at third base this season, will be missing from the lineup, but these holes will be filled by "Big Boy" Kraft, former Cat who holds the home run record in southern diamond exhibitions, and all but beat out the veteran and widely renowned Babe Ruth of the American League, and Art Phelan, who for so many years was a cog in the actual field play of the Southern champions. These men will hold down the initial sack and the third base position, respectively, as they did in former years.

The picking staff will include Lefty Johns, the veteran southpaw of the Texas League, Jimmy Walkup, in many ways a youngster, but who holds his own among competition in the fast company in the Texas loop, and Joe Pate, another of the veteran moundmen on the payroll of Skipper Atz.

The club that will represent Lubbock will be assembled under the guidance of Skipper Sted Allen, who led the South Plains entry to victory recently in the annual Denver Post tournament, where he met some of the leading amateur competition west of the Mississippi river. He is already beginning to cast about for suitable material for the occasion, and promises that at least a "fair" contest will be offered the hundreds of fans that will want to see the Cat machine in action.

Efforts are being made to bring the Cats here for a Sunday game, but they are already under contract with Lamesa for an exhibition there on this date, and it was decided that a Monday game would offer local people a better chance to see the game than one on Sunday. Either of the dates were open.

A guarantee of but \$300 is required to bring the champions here, and this amount has been underwritten by several local fans, including S. D. Hunter, and M. E. Merrill, both avid Cat fans, and staunch supporters of any move that is for a good athletic contest. The proposal has met with widespread approval among all fans that have heard of the proposal, and visitors are expected here for the exhibition from throughout the South Plains.

Local Churchmen Leave For El Paso Presbytery Meet

Rev. W. K. Johnston, D. D., superintendent of home missions of the El Paso Presbytery, Rev. Jack M. Lewis, Pastor of the local Presbyterian Church, and Jack Adair, left here this afternoon for Toyah, Texas, to be in attendance at the session of the El Paso Presbytery, of the Presbyterian Church.

Young Adair, who is a son of Lookett Adair, widely known evangelist, will be received into the Presbytery, Rev. Lewis said, and will begin his preparation for the ministry. He has appeared in pulpits of local churches several times during the past few months, and is recognized as an excellent young speaker.

Rev. Lewis is state clerk and treasurer of the Presbytery.

Grandjury Probes Charge At Austin

AUSTIN, Oct. 5. (AP)—Grand Jury investigation into office holders in the state capitol land office and Travis county was ordered today by Judge James E. Hamilton in the Travis County Criminal District Court.

Principal among the offices to be investigated the Judge told the grand jury impounded today, will be the records, showing where all funds have been placed and spent. The grand jury was ordered to call auditors and clerks having them give accounts of every expenditure and when violations appear either reprimand the offender or to return indictment.

"It is your duty to look into this and report any violations."

Barbara La Marr Suffers Illness

LOS ANGELES, Oct. 7. (AP)—The Los Angeles Examiner says Barbara La Marr has suffered a breakdown in health that will compel her temporary retirement from the screen. The actress collapsed during the filming of a scene Saturday and physicians advised her to give up work until she regains her strength.

PLAINS FARMERS FACING LABOR SHORTAGE

South Plains farmers are now faced with an acute shortage of labor in the harvesting of what is believed will be a bumper cotton crop...

WOMAN SLAIN AND MAN SHOT IN HOUSTON

HOUSTON, Oct. 6. — Mrs. Edith Miller was shot and instantly killed and Charles A. Clark was seriously wounded in a shooting at the I. L. A. Inn at 3:30 a. m. Thursday near the turning basin here.

Suicide Victim To Be Buried at Bryan Probably Wednesday

The body of Mrs. Ethel Holland, who took her life with chloroform at her home here early Monday afternoon, left here on the early morning train Tuesday for Bryan, where interment probably will be made tomorrow afternoon.

RECENT RAINS IN SOUTH TEXAS BIG AID

HOUSTON, Tex., Oct. 5. (AP)—Rains which recently broke the long drought in many sections of Texas had a tremendous moral effect, H. H. Schultz, government statistician here, said.

OFFICE FORCE OF FAIR BUSY WITH FINAL DETAILS

While the twelfth annual South Plains Fair has gone into history as far as the general public is concerned, the office force and board of directors are now entering upon the real labors of closing up the final business, making up the premium checks for the mail, and ironing out the many small problems that naturally accompany this phase of the work.

Corsicana Auto Accident Fatal

CORSICANA, Tex., Oct. 7. (AP)—Glenn Mott, 6-year old son of Mr. and Mrs. R. K. Mott, was killed here today when he was struck by an automobile in the front of the Mott home.

Henderson Finds Good Grid Games Are Very Scarce

AUSTIN, Texas, Oct. 7. —As good football schedules have been found to be the exception rather than the rule, Roy R. Henderson, athletic director of the University of Texas intercollegiate League, has called attention to the fact that schools may be dropped from final consideration in the League unless if it is apparent that a school is desiring real competition by not arranging a representative schedule.

Fair Management Issues Call For Outstanding Bills

A plea has gone out from the office of A. R. Davis, manager of the Panhandle South Plains fair that all who hold bills against the organization submit same at once, either by mail or in person, so that they may be given the quickest possible attention of the officials in making up the checks.

Relics Uncovered Near Santa Fe By Research Leader

SANTA FE, N. M., Oct. 7. (AP)—Shells and relics dating back to 1,000 B. C. have been excavated from Indian ruins near here by Wesley Flead, of the School of American Research and the New Mexico State Museum.

New Heating Plant Built For U. of T

AUSTIN, Texas, Oct. 7. —To adequately provide for the present physical plant of the University of Texas and for buildings that need be erected in the future a new and modern power house and heating plant is to be constructed. It is stated that the plans for the proposed plant are now being prepared and that as soon as they are in readiness the contract will be awarded.

Circus Worker Is Run Over And Dies

BROWNWOOD, Texas, Oct. 7. (AP)—Odin Littleton, 37, employee of a circus which was here yesterday and last night, was the victim of a fatal accident at an early hour this morning.

Statesmen Favor Economic Probes

WASHINGTON, Oct. 7. (AP)—The inter-parliamentary union in final session here today adopted a resolution calling for investigation of economic barriers between European nations with a view to their ultimate extinction.

ARANSAS PASS, TEX. Oct. 7. (AP)

Contractors Are To Fight U. S. In Private Business

DALLAS, Oct. 6. (AP)—An attempt to marshal all industry in a fight on the government in business is to be made by the Associated General Contractors of America. The executive board of the organization heard the plan outlined here today by General R. C. Marshall, Jr. of Washington, D. C. general manager for the contractors.

Government Meteorologists Great Aid To Army Flyers In Mapping Out Routes Recent Non-Stop Flight Discloses

HOUSTON, Texas, Oct. 7. (P)—When Lieutenant H. G. Crocker of the Army aviation service left the ground at Ellington Field near here Saturday, May 26, 1923, for his non-stop airplane flight from the Gulf to the Lakes, he mapped his route to Selkirk Field, Detroit, on information given him by L. H. Daingerfield, government meteorologist at Houston. Special information was gathered for him for the flight, the first non-stop attempt from border to border. He was told where he might expect storms, the prevailing direction of the wind, and was given such other data in which an aviator preparing for a long flight might be interested.

Nature and extent of the meteorological service of the weather bureau in aid of aviation appears to be less understood than some of its other activities, Mr. Daingerfield said. Telegraphic reports are sent twice each day to the forecaster at Washington from about 275 observing stations, including the one at Houston. As fast as they are received, any information important to aviators is copied on charts and from this information air routes are telephoned directly to certain military aviation fields.

Conditions unusual or dangerous for flyers receive prompt attention at the Washington station and at each of the four district forecasting stations located at Chicago, Denver, San Francisco and New Orleans. Houston is in the New Orleans district, and the state of the weather, forecasts, and warnings for the group of states, of which Texas is a part, are issued from the New Orleans office always with aviation interests in mind.

Pioneer weather observation work, which has resulted in the present comprehensive forecasting system, began more than a quarter of a century ago, before successful aviation became a fact, Mr. Daingerfield said. At that time the weather bureau flew kites with instruments attached which measured the velocity of the wind, air pressure and humidity at varying heights. The bureau has always been interested in conditions of the upper air; hence, when aviation became a reality, it was prepared through some expansion of the system to render aid of the first importance. Now, a chart prepared by a weather bureau attaches who lost his life about a year ago in a balloon flight in Illinois, gives the approximate air pressure up to great heights, a chart calculated from the air pressure on the ground and other factors.

As to general conditions, it appears that radio service is also supplied by the weather bureau, as another branch of its activities for benefit of marine and aviation interests on the Atlantic and Pacific coasts. Weather bulletins and forecasts are broadcast from the Arlington, Virginia, naval radio station at 10:30 in the morning and at the same hour in the evening. They include reports on surface conditions and upper air data based on the regular 3 a. m. and 8 p. m. observations of the weather bureau and as a second feature summarize general atmospheric conditions, barometric readings at high and low centers, wind and weather forecasts for off-shore areas, storm warnings and flying weather forecasts for each of six aviation zones.

During the hurricane season additional ship reports are received by radio from the Gulf of Mexico and the Caribbean Seas and distributed in connection with this service. This feature is of particular interest to shipping off the Gulf coast of Texas. On the Pacific coast aviators are served by special bulletins issued from the San Francisco radio station. These forecasts are supplemented by specific and more detailed forecasts made each morning and evening for definite flying routes, including the transcontinental air mail service, especially aiding night flying from New York to San Francisco. For two sections of the route, forecasts are issued by the district forecaster at Chicago. These sections are from Bryan, Ohio, to Omaha, and from Omaha to Rock Springs, Wyoming.

Commercial aviation interests also are served by the weather bureau. Only recently arrangements were made to serve a commercial route between Detroit and Chicago. The Houston office was called upon in one notable event to furnish weather data when the American eliminatorials for the James Gordon Bennett cup event started at San Antonio. The Houston station was in communication during most of the flight with the pilots through a Houston broadcasting station. The pilots were told where

SCHOLARSHIPS ARE OFFERED TECH STUDENTS

TECH HONOR STUDENTS WILL RECEIVE VARIOUS SCHOLARSHIPS

With the opening of the Tech College, attention of the student body is invited to the fact that various and attractive scholarships have been offered to honor students of the Tech during its first year. These scholarships have reached the number of ten already and cover a field broad enough to reach every student. They are as follows:

1. The W. C. Hedrick scholarship of \$250 for highest standing of student in liberal arts college.
2. The Lynch Davidson scholarship of \$250 for highest excellence in oratory.
3. The John W. Carpenter scholarship of \$250 for student with highest excellence in textile engineering.
4. The Clifford B. Jones scholarship of \$250 for student with highest excellence of work in agriculture.
5. The Star-Telegram scholarship of \$250 for the best all-round athlete.
6. The Nislar scholarship of \$100 for the highest grade in scholarship during the year.
7. The Lee Allen scholarship of \$125 for some worthy young man to be selected by the faculty.
8. The Atheneum Club scholarship of \$100 for some worthy woman to be selected by the faculty.
- 9 and 10. The Dr. J. T. Hutchinson scholarship of \$100 each to be awarded to the young man and the young woman, respectively, who have the highest standing in English during the school year.

These scholarships are not payable to the student in cash but will be awarded in June, 1926, on the strength of the record made by the students during the preceding year, and will be paid to the college authorities to be paid out by them on the expenses of the student at the Tech during the following year. It has been pointed out that these scholarships will pay probably five-eighths of all the expenses of four students at the Tech during the year 1925-27.

All of these scholarships are to be decided in accordance with rules made by the faculty of the college.

J. LINDSEY NUNN, OF AMARILLO, publisher of the Amarillo News and Post and a director of the West Texas Chamber of Commerce, is in the city today on business. Mr. Nunn reports that the annual Tri-State Exposition, recently closed in Amarillo, was an outstanding success save from a financial standpoint. The fair, however, is backed by Amarillo business men and even though they expect to have to put up the money to cover the fair losses they are generally pleased with the exposition.

MR. AND MRS. G. E. KIRBY, formerly of Houston, have arrived in Lubbock and will make their permanent home here. Mr. Kirby will open the South Plains headquarters for the Universal Milling company of Fort Worth. In Lubbock, he reports.

Seven Former All-Star High School Grid Men Seek Longhorn Berths With 4 Almost Certain To Land Others Hustling

AUSTIN, Texas, Oct. 7. (P)—Seven former All-State high school players are trying out for the Texas Longhorn football team of '25, and four of the lot seem certain to hold down regular berths, while the other three probably will see enough action to earn a "T" Each of the seven performers are: Leo Baldwin, Wichita Falls; "Tottie" McCullough, Waco; Rufus King, Austin; Joe King, and "Ox" Higgins, Dallas; Gerald Coffey, Wichita Falls; and Mack Saxon, Temple.

Baldwin came to Texas University with a great reputation as an all-round athlete and he bids fair to live up to this reputation. He won all-state honors at football when playing for "Buddle" McCullum's 1923 Wichita Falls high school that reached the semi-finals of the state championship scrap. "Doc" Stewart, head Longhorn mentor, started Baldwin in the backfield; but Texas coaches have decided he will be of greatest value at end. Baldwin is extremely big, fast and powerful. It is a common saying among Longhorn supporters that "Baldwin doesn't know how strong he really is."

The former Wichita Falls ace is certain to win distinction in football, and he is an excellent basket ball player and track performer as well. Before leaving Texas University he is expected to develop into the best known track and field athlete of Texas history, as he is a talented performer in both the low and high hurdles, the high jump, shot put and discus throw.

McCullough is a product of Coach Paul Tyson's coaching system that has brought so much renown to Waco high school. This last showed to advantage at both guard and center when at high school and was placed at center on the all-honor eleven.

The Waco boy, although not a regular, is certain to get into a number of games. He is very smart, but has considerable to learn as yet about university football. Then, too, the Longhorns have in "Heinie" Frankkuhe, line captain, the best defense center in the conference, and it is only to be expected McCullough should play second fiddle to him. "Rocky" Randall, substitute center of last year also likely will get the call over McCullough, provided he recovers from a badly injured shoulder.

Rufus King, captain of the 1923 Austin high eleven, appears to be a certainty as first string fullback. In 1923 King was not universally hailed as all-state high school fullback, though every sport writer who saw him in action gave him that distinction. He is the type of football player that tears a line to shreds. Already he is being recognized as the equal if not superior of Jim Marley, captain of the '24 orange and white eleven.

King weighs about 185 pounds, is very sturdily built, and if his forwards give him the slightest bit of cooperation is certain to plunge for gains against any line. He is also a splendid defensive back, tackling with much force.

Joe King and "Ox" Higgins may well

be mentioned together. They played together four years at Drilas Oak Cliff high school; last year were members of the Texas University freshman team, and now bid fair to play together for three years as members of the Longhorns' eleven. Twice these sterling athletes brought the state basketball title to their school.

King is second-string quarter, yielding first honors at that post to Captain Stuart Wright. Higgins is a first string tackle, and many believe he will come close to winning All-Conference honors his first season in university football.

King is a heady quarterback, in fact, the Longhorn coaches will tell you he is about the headiest man on the team. He is a bit light, weighing only about 145 pounds, but he makes up for his lack of Avardupolis by his speed, smartness and shiftness. He is particularly adept at gathering in punts and carrying back the pickets for a long gain. His passing is accurate.

Higgins, a powerful lad who loves football has just the right physique and disposition to make of him a "mean" tackle. In high school he was an all-state end; but shifted to tackle he made good from the start. Gerald Coffey was captain and an all-state tackle on the 1923 Wichita Falls eleven. Since he weighs only 165 pounds, Gerald has been placed at end by Coach Stewart. Before Baldwin was shifted to end, Coffey was a first string wing guard. Although of rather slight physique, the Wichita Falls boy is hard to take out of a play. He is also a fair snatcher of forward passes.

Mack Saxon played football one year for Austin College before coming to Texas University last fall. He is a

regular Longhorn back, and many orange and white enthusiasts believe he will be the most consistent ground-gainer of Stewart's machine. At backing up the line on the defense, Saxon has few equals in the Southwest.

MR. AND MRS. WILLIAM B. POWELL, Mrs. Oscar L. Slaton and Miss Ruth Slaton left this morning for Dallas where they will spend ten days or two weeks. They will attend the State Fair, which opens in Dallas on Saturday.

HARRY TAYLOR, WHO REPRESENTS the Branch-Middlekauff company, bond buyers, of Wichita, Kan., is in Lubbock on business today. Mr. Taylor not only represents his company here but over the entire South Plains territory, as well.

Advertising Rates Upon Application

Charles A. Guy Editor
Dorance D. Roderick Manager

Entered as Second Class Mail Matter at the U. S. Post-office at Lubbock, Texas, permit issued in April, 1922, according to the provisions of the act of Congress of 1879 and under the rulings of the Post Master General.

The Journal will honestly strive to be clean and fair in the dissemination of news. If through error or misinformation, undue reflection is cast upon the good name of any person or firm, the Journal stands ready and willing to make correction in the same manner that such mistake was printed. The paper invites suggestions and criticisms. It is by these only that it may improve.

The Plains Journal, Incorporated, will not be liable for the loss of any manuscripts sent unsolicited to this publication. Contributions of any constructive nature are always welcome but the editors alone shall be the judges as to whether or not they shall be admitted to the columns of this publication. The Plains Journal is a member in good standing of the Panhandle and Eastern New Mexico Press Association.

THE PLAINS JOURNAL PLATFORM

- Diversified farming on the South Plains.
Closer co-operation between town and rural people.
A Community Auditorium in keeping with our City Hall.
More building with lower rents.
Continued improvement in County Parks.
A cleaner, prettier town with more civic pride.
A faster, bigger South Plains Fair.
A more uniform distribution of civic work.
City Play Grounds and Recreational Director.
Better highways throughout the county.
Less politics and more unselfish citizenship.

Editorially Speaking

Cold Summers

Texas' advantageous position as regards climate, viewing the comparative narrowness in the range of temperatures, may stand in good stead during the next two summers, if, as some long range weather forecasters predict, they are to be cold ones.

Frenchman Gabriel gives a list of past winters and asks that it be compared with the coming winter to verify his prediction of excessive cold. Here are some notable years from his list:

- 401. Black Sea frozen.
764. Black Sea, the Hellespont and Dardenelles frozen.
1063. River Thames frozen in for fourteen weeks.
1194. Cattagat covered with ice seven feet thick.
1323. Baltic Sea frozen over during three months when travelers passed from continent to Sweden on the ice.
1460. Baltic again frozen over.
1544. Cold so severe in Holland wine was cut in blocks and sold by weight.
1594. All rivers of North Europe frozen before Christmas; sea at Venice and Tiber at Rome frozen over.
1658. Bays of North Europe frozen before Christmas.
1691. Canals of Venice frozen; floating ice blocked mouth of River Nile.
1863-4. Mississippi river frozen from St. Paul to Cairo in single night; thermometer 60 degrees below zero in Northwest.
1899. Floating ice emerged from mouth of Mississippi for first time on record.

Lincoln's Bust

Some time ago the Reporter expressed the view that the objections to the placing of Abraham Lincoln's bust in the Texas Technological College at Lubbock were lacking in a proper spirit of charity and broadmindedness.

The Reporter has not changed its view on that question, even though the U. C. V. and the S. C. V. meeting in Abilene Friday bitterly assailed it.

It was placed there because Lincoln was considered one of the five greatest Americans. History has given him that place, and it will be impossible for it to be taken away from him.

Three of the men honored by Tech were all Southern men—Washington, Lee and Wilson, Lincoln was himself a Southerner by blood and birth—born in Kentucky of Virginia parentage. The fifth member of the Tech's gallery of the great is Columbus, who never saw America and who died in ignorance of its existence. There might be some grounds for criticism in Tech in placing Columbus among the American great it is not worth while to deny greatness to the man who in his second inaugural address used these immortal words: "With malice toward none, with charity for all, with firmness in the right as God gives us to see the right, let us strive on to finish the work we are in; to bind up the nation's wounds, to care for him who shall have borne the battle, and for his widow, and for his orphans—to do all which may achieve and cherish a just and lasting peace among ourselves, and with all nations."

Greatness of that sort doesn't need a marble bust to perpetuate it.—Abilene Reporter.

Radio

"I never thought I would live to coax a grand organ recital out of something about twice as large as a cigar box," says George Ade.

That sentence well expresses the amazing development of radio in this country during the last few years. It is typical of the way American business develops something the public wants.

At first it was necessary to string wires on top of your house, fool around with three or four dials and have unsightly batteries, wires and loud speakers in your home.

But the newest sets have no aerial, no batteries, visible or invisible, one dial control and everything contained in one beautiful cabinet that makes an attractive piece of furniture.

But radio development is far from perfection. It is almost certain that still more amazing changes will be made.

It may be only a short time until the music of the famous cathedrals of Europe or the sing-song melodies of the Orient will be heard by the Kansas farmer whenever he wishes to turn on the radio.

A generalizer says "the theater is the index to a city's intellect." Its schools and colleges and libraries then must be the index to its tired business temperament.

Converted at Last

By Dorman H. Smith

When Is Advertising?

Lubbock business men could save themselves a good many thousand dollars every year if they would insist on having all so-called advertising schemes and donation lists approved by a committee of the Chamber of Commerce or the Retail Merchants Association before lending it their support.

It seems sometimes that the less merit a proposition has, the easier it is to get the support of many business men.

Clocks for hotel lobbies, thermometers for the street corner, desk blotters with half a hundred ads on them, roadside sign boards that are supposed to be a business directory of the city, mileage leaflets that are supposed to be presented to travelers are merely a few of the schemes that business men fall for in Lubbock almost every week.

Nine times out of ten these schemes have no merit as an advertising medium, but their promoters can sell them readily at prices no legitimate advertising medium would dare charge.

The average retail business man will find the newspaper about his most economical advertising medium. Then there are legitimate billboards, where a merchant buys an individual showing for a stated period of time, backed up by a responsible local man who can and will see that the merchant gets what he pays for.

The city directory and telephone directory come within the realm of legitimate advertising, and are so recognized.

The secretary of an organization of Denton business men recently made the statement that the vigilance committee had saved the merchants of that city no less than \$10,000 on seven specific advertising schemes that were refused approval during the last year. That much money is worth saving. It is worth a lot to the men who saved it. It would accomplish wonders if added to the usual Chamber of Commerce budget or expended in some of the many legitimate ways of advertising.

Perhaps the local newspaper should be the last to complain, because the average fake advertising scheme means a good job of printing at a liberal price. The fake advertising promoter doesn't quibble about printing prices as a rule. He gets plenty and then some from his patrons. A local business man suggested the other day that we ought to quit visualizing the easy mark as a greener from the back woods. He said the easiest of the easy marks are the smartly dressed, sophisticated fellows who sit behind desks and call themselves business men.

A Terrible Remedy

A famous writer on New York topics says Broadway is sobering up.

Fear is doing what the combined forces of nation, state and city could not do.

Broadway saw several of its best (or worst) tipplers keel over after taking one whiff of bootleg stuff, and it threw a scare into the revelers.

Used to be, said this observer, that a man could go on a week's drunk and soon get over it; now he wakes up six months later, attired in a straight-jacket.

It is a terrible remedy for liquor law violations, to be sure, but so far it is the only kind that has made Broadway hesitate.

Chuckle Awhile

Relativity Again

From the Boston Transcript: Some of the sunspots are said to be thousands of miles in diameter, and yet think of the fuss a girl makes over an ordinary freckle.

Excusable

From Tit-Bits: Two commercial travelers were discussing the careless way in which trunks and suitcases are handled by some railway companies.

"I had a very smart idea for preventing that once," said one of them smiling reminiscently. "I labeled each of my bags, 'With Care—China.'"

"And did that have any effect?" asked the other. "Well, I don't know; you see, they shipped the whole lot off to Hong Kong."

That's That

From the Bucknell Belle Hop: "Why are you always playing golf?" "Oh, it keeps me so fit!" "Yes—what?" "Oh—"

Women may be slaves to fashion. But, in summer, their burdens are very light.

A family tree isn't worth a darn unless it produces peaches.

Comfort is great stuff. We can't see why hens expecting to set don't lay flat eggs.

When a man starts out to raise a nice quiet family he finds that he must raise a rough house now and then.

A man can't understand why a woman can't understand why he can't understand.

The world could be worse, much worse. It could be almost as bad as we often think it is.

Another nice thing about the cooler weather is five toes in one shoe don't seem so many.

With Our Contemporaries

WILBUR

Curtis E. Wilbur is called upon to resign his post as secretary of the navy in the leading editorial in the New York World.

Pointing out that during the Harding and Coolidge administrations the navy has lost 12 vessels, more than twice as many as were lost during the World War, the newspaper blames Secretary Wilbur for what it terms the "demoralization" of the navy.

"Secretary Wilbur has forfeited the care of the public," the World says, "in deeming his record neither fortunate nor wise."

"His resignation is in order."—Sweetwater Reporter.

SLATON FAIR

The success and the large attendance at the Slaton Community fair last week has demonstrated the necessity of planning early for a permanent fair grounds buildings, equipment, etc. The fair this year was twice larger than the fair last year, both in displays and attendance. The need of room last year was keenly felt and more so this year. We would have had as many again displays had we had the room for same. There was a great demand this year for individual booths which had to be denied on account of space.—Slaton Times.

Stewart's Washington Letters

BY CHARLES P. STEWART

NEA Service Writer
WASHINGTON—Senator Curtis has succeeded finally in throwing a real scare into the Washington bureaucrats.

Talk about abolishing some of them, consolidating others, cutting down their personnel to a business basis and eliminating a lot of the waste that most of them have been responsible for has been going on ever since the war.

It hasn't worried them much, so long as congressional action was necessary to trim them in size and reduce them in number, it was pretty clear to the bureaucrats themselves, as well as to others, that they were in little danger.

SENATORS and congressmen, it hardly necessary to say, have found places in these bureaus very hard to pass out to political henchmen and henchwomen. Naturally they don't like to see an end put to their patronage.

For one thing, losing it will cramp them in future. For another thing, each little bureaucrat whose job is abolished will blame his particular congressman for it, and so will his friends, and it may make a difference to the congressman himself when the next election day rolls around.

In a general way a majority of the lawmakers recognize that the government is overburdened.

But when it comes to putting the Indian sign on some one particular bureau, all those who have a personal interest in it object strenuously.

"We need consolidation and reduction," they agree, "but not in this spot. This bureau's essential. Let's economize elsewhere."

Each lawmaker is also aware that if he votes to abolish some other lawmaker's pet bureau, the latter will vote to abolish his pet. That's why the bureaucrats remain so care-free while nobody but Congress discusses retrenchment.

NOW, however, comes Curtis with the announcement that he intends to introduce a bill giving blanket authority to the president to do all the executive reorganizing, consolidating, readjusting and reducing as he sees fit. Congress, incidentally, whatever he does in advance, and letting it go at that.

The bulk of the senators and representatives won't like this, but it's a plan they will find it very difficult to reject, inasmuch as they admit a reshuffle of the executive subdivisions is badly needed, and everybody can see that they themselves are unable to do anything about it.

Best Editorial Of The Day

His Work Goes On

Thousands of men have died in the United States who had far more said about them than was said of Victor F. Lawson, owner of that great newspaper, the Chicago Daily News, yet no man who ever played a part in the activities of this wonderful country ever deserved greater praise.

He was that rare combination—a business man of outstanding ability, a great editor, a public spirited, useful citizen, and a man of deep religious convictions, who illustrated his profession by his "daily walk and conversation."

He made much money, and gave much money away, and did so without any fanfare or blowing of trumpets. He was the embodiment of kindness and sympathy and helpfulness in his dealings with his employees. He set a most admirable and commendable example of clean, upright, unselfish living.

Having used his money while he lived to promote the welfare of his fellowmen, he so invested it that it will continue to carry out his far-reaching and generous plans for the support of good works in several spheres of benevolent activity.

Believing in the power for good of that religion in which he profoundly believed, he bequeathed three-fourths of his residuary estate to the Chicago Congregational Missionary and Extension Society, the Chicago Theological Seminary and the Y. M. C. A. of Chicago.

Schools, colleges, a nursery, and half-orphan asylum and music and art were all made beneficiaries of the great fortune which he had accumulated by his ability, and with clean hands.

Victor F. Lawson reflected alike by his work in life and by the benevolences which he created and which survived him, immeasurable credit on the newspaper profession.

There is no commercial standard by which to appraise the value of such a life as he lived. That will be possible only in the day of final reckoning when all men will lay before the judgment seat the sheaves they gathered in the harvest of this life.—Houston Chronicle.

IN SOCIETY

By Mrs. Rufus Bush—Phone 482

MARY HELM AUXILIARY TO HONOR NEW MEMBERS

The Mary Helm Auxiliary of the Methodist Church, will entertain Monday afternoon, October 12, at 3 at the home of Mrs. E. E. White, 1417 Broadway, honoring Mrs. Richardson, who has recently moved here and whose husband is assistant pastor of the church, and other new young married ladies of the church.

NEW MEXICO VISITOR TO ARRIVE SATURDAY

Mr. Herace Randall, father of Mrs. La Verne Kershner, will arrive Saturday from his home at Santa Rita, N. M., for an extended visit with relatives and friends here and Brownfield.

1921 NITE BRIDGE CLUB TO MEET FRIDAY

Mrs. J. R. Germany will be hostess Friday night, at 8:30 at her home 1242 Main to the 1921 Nite Bridge Club.

CLASS PARTY AT METHODIST CHURCH ONE OF NICEST AFFAIRS

The party given last night at the Methodist church by the Builders' Class honoring the young ladies of the Lubbock Business College, was pronounced by many to be one of the nicest affairs ever to be held at the church.

The receiving room was pretty and inviting with a large crowd of fifty or sixty was present to enjoy the splendid program and join in the spirit of the "get-acquainted" meeting.

The program opened with a song, by all, followed by responsive reading led by Mrs. Robinson who later gave a talk that was greatly appreciated.

CHRISTIAN CHURCH SOCIETY MET MONDAY

The Missionary Society of the First Christian Church met Monday afternoon at 3 for a lesson on "Stewardship or the Unfinished Task." The theme for the devotional "Our Money" was interestingly led by Mrs. Homer Pharr, followed by a song, and a sweet prayer by Mrs. Hinton.

LUBBOCK FOLK ATTENDING A CONVENTION IN OKLAHOMA CITY

Rev. and Mrs. W. P. Jennings and Mr. and Mrs. O. G. Kershner are in Oklahoma City attending the convention of the Christian Church, being held in that city. They left Sunday and will be out of town for several days yet.

GLEANNERS SUNDAY SCHOOL CLASS POSTPONE MEETING

The Gleaners Sunday School class of the Baptist church will not meet Thursday afternoon as had been announced, on account of the death of the sister of one of the prominent members.

JUNIOR 20TH CENTURY MEETS FOR INTERESTING STUDY

The Junior 20th Century club met Tuesday afternoon at the Methodist church and a lesson, enjoyed by all, on Clyde Fitch's, "The Climbers," led by Mrs. Joe Flagg, was unusually interesting.

MISSIONARY SOCIETY OF METHODIST CHURCH

The Missionary society of the Methodist church met in regular business session Monday afternoon at three.

flowers were read and showed good and effective work being done. The society voted to send cards of thanks to the Lubbock Poultry and Egg Co., Cloverleaf Creamery, and Hunt Grocery Co., for liberal donations recently given for the luncheon served by the society.

CAMP FIRE SPARKS

Camp Fire girls of the Sunnyside group met Friday afternoon with Mary Conby.

MR. AND MRS. WHATLEY OF DALLAS HERE FOR VISIT

Mr. and Mrs. Harvey Whatley, of Dallas, are visiting friends here and in Plainview for the past several days.

MRS. GEORGE COOPER OF PAMPA, ILL.

Mrs. George Cooper, who lives in Pampa, is quite ill at the Lubbock Sanitarium. Mrs. Cooper came here from Amarillo on advice from doctors.

PARTY AT METHODIST CHURCH TONIGHT

The Builders' Class are entertaining the ladies of the Lubbock Business College tonight at the Methodist Church at 8.

MR. AND MRS. TAYLOR GO TO RANCH FOR VISIT

Mr. and Mrs. Albert Taylor, accompanied by Mrs. Arthur Clayton, who has been visiting here for several days, left today for the Clayton ranch in Borden county, where Mr. Taylor goes on business.

SHOOK-JONES NUPTIALS

A wedding of interest to many Lubbock people occurred recently at Pearl, Texas, when Miss Ouida Shook and Mr. Dan D. Jones were united in marriage at the home of the bride's parents, Mr. and Mrs. Shook, in the presence of relatives and a few friends.

MR. AND MRS. W. W. NEWMAN, RECENTLY OF CORPUS CHRISTI, ARE MOVING HERE TO MAKE THIS THEIR HOME.

Mr. and Mrs. W. W. Newman, recently of Corpus Christi, are moving here to make this their home. They are at the home of their brother at 1518 Ave. J, until a permanent residence can be secured.

FAMILY MOVES HERE

Mr. and Mrs. W. W. Newman, recently of Corpus Christi, are moving here to make this their home. They are at the home of their brother at 1518 Ave. J, until a permanent residence can be secured.

MARY HELM AUXILIARY

The members of the Mary Helm Auxiliary met Monday afternoon at the church in study session. A lesson well taught and made very interesting by Mrs. Crawford was heard.

DR. REED OF TECH COLLEGE TO ARRIVE TUESDAY

Dr. and Mrs. W. T. Reed will arrive Tuesday from New York and be located at 2108 8th street. Dr. Reed is head of the chemistry department at the college and on his arrival is anxiously awaited.

CIVIC LEAGUE TO MEET SATURDAY

The regular meeting of the Civic League was postponed from last Saturday on account of the Fair, to Saturday, Oct. 10. Please keep this in mind and be present at 3 at the court house.

START THIS WEEK

The drive to secure memberships for the "Little Theatre" organization will be started one day this week. On account of the crowded program at the Fair, no booth was maintained as had been planned at first, but the drive will be put on by officials of the organization and no doubt but the goal will be reached and passed.

BUSINESS GIRLS TO BE ENTERTAINED TUESDAY

Tuesday evening the Builders' Class of the Methodist church will entertain the girls of the Lubbock Business College at the church in the parlors.

MRS. CARL ROBERTS TO RETURN THURSDAY

Mrs. Carl Roberts, who is in Dallas to attend the wedding of her son, Carl, Jr., better known as "Bud," to Miss Louise Peoples, which will take place Tuesday evening, October 6, will return to Lubbock Thursday.

Settlement Of Foot And Mouth War Shows Curious Ways Of Chance And Opportunity In Every-Day Events

GALVESTON, Texas, Oct. 5. (AP)—Settlement of the issues involved in the foot and mouth disease injunction suit here a few days ago shows the curious ways in which chance, opportunity and propinquity work.

Apparently introduction in evidence of the rules under which the Texas Livestock Sanitary Commission proceeds, and which it had fixed for itself as a rule of conduct was one of the major factors in bringing together the commission and Maco Stewart of Galveston, attorney for J. K. Aaberg and about 36 other Galveston county dairymen.

"That is what I have been looking for," exclaimed Mr. Stewart when W. G. Love of Houston, counsel for the commission, introduced the rules after the hearing had been on for more than two days.

"No attempt has been made to conceal them," Dr. E. F. Jarrell, member of the commission and one of the principal witnesses at the hearing, told Judge J. C. Canty who was hearing the evidence.

The proposition before the court was whether a temporary injunction obtained by Mr. Aaberg should be made permanent against the commission to prevent it killing certain cattle in its struggle to eradicate the foot and mouth disease in Galveston county.

The commission had been endeavoring to show the urgent necessity of destroying animals on a more or less extensive scale to prevent spread of the disease. Mr. Stewart, for his clients, questioned its justice and asserted that agents of the commission had seized cattle of his clients and destroyed them, without previously arranging for appraisal of their value.

For two days witnesses had testified pro and con. The dairymen had told in straightforward language that their means of livelihood had been taken away when their cattle was seized.

Dr. W. E. Cotton, expert of the department of agriculture, Department of Agriculture, had urged the necessity of extermination and other witnesses had told of the peril to business and commerce if eradication methods were hampered.

On the third day of the hearing, after Mr. Stewart had continually stressed the apparent lack of machinery to compensate his clients for their seized stock, Mr. Love introduced the document containing the commission's rules, which Dr. Jarrell acknowledged had not been given general circulation.

The rules became effective September 8, by proclamation of Governor Miriam A. Ferguson. They authorize the commission to establish quarantine districts and set out in detail how they may be maintained. They ex-

and from all reports will be the hardest of the entire season's schedule. The Austin College Kangaroos, under the coaching of Pete Cawthon, who led his boys to a win for three successive times in the Texas Interscholastic Athletic Association, and was defeated last year by the Howard Payne crew only after a stubborn battle, this year present practically as strong a squad as was shown last year, despite the fact that three good men were lost by graduation.

Coch Coach Freeland plans to start the game at 3:30 and is planning to entertain one of the largest crowds in the history of football on the South Plains.

He is running his boys through a series of new plays this week, and although time has not permitted him to do much in connection with offensive play yet, his defense is indisputably of the highest type, and will be hard to handle.

Tickets for the student body of the college may be secured from a committee that will be appointed to handle them on the campus, but townspeople are urged to secure their tickets from one of the above named firms.

BECAUSE PROF. W. E. STANGEL, of the Tech college, who was in charge of the ticket selling at the first Matador game Saturday, is in Wichita Falls, there has been no announcement concerning the crowd of the game, college officials say. Mr. Stangel will return in a few days and while in Wichita Falls is one of the judges of stock at the fair there. Dr. LeRoy Patton, head of the Tech geological department, is with Prof. Stangel.

SLOAN KRITZER, OF AMARILLO, owner of extensive ranch properties in the Panhandle, was in Lubbock this morning, en route to Levelland. Mr. Kritzer has a number of cattle in the vicinity of Levelland and it was to see them that he was making the trip to the Hockley county seat.

Moore Dry Goods Co. NEXT MOORE BROTHERS

NEW PLAN TRIED TO YIELD RUBBER

HOUSTON, Texas, Oct. 5.—High prices of crude rubber have revived the dormant guayule industry in West Texas, where four rubber extraction plants have resumed operations after 19 years of intermittent activity.

Guayule, which grows wild much like mesquite, covers a considerable range or less arid area in half a dozen counties contiguous to El Paso. The plant also is grown in Arizona. It produces about seven per cent of its bulk in rubber of a quality best suited to water proofing cloth and to the manufacture of rubber goods, such as boots and other rubberized footwear.

The extraction process destroys the plant. It is pulled up by the roots and taken in bulk to the extraction points where it is boiled. The rubber residue does not combine with steam rubber, but has the effect of loosening the pressure on the crude rubber market which otherwise would be based on for imported rubber for a portion of the lesser rubbering processes.

Under the best conditions, as much as 1,000 pounds of rubber may be extracted from an acre of guayule. Even though the plant grows wild, and anyone may go out on the semi-desert and collect it, guayule gathering and extraction of its rubber content is not a profitable business when crude rubber prices are low. Considerable effort is required to clear an acre of guayule and boil it.

The principal guayule extraction plant is located at Marathon. Three smaller plants are located away from railroad facilities in DeWitt and Freestone counties in the Big Bend country of Texas.

Guayule has a bright future, Dr. Hunter believes. Several years ago one of the widely known rubber factories started a guayule experimental farm near Tynock, Arizona. It sowed guayule in rows, cultivated the crop and, within five or six years produced a strain of guayule which yielded 20 per cent of its bulk in rubber as against seven per cent under average natural conditions. To reproduce so much rubber would be practically impossible under desert growing conditions, Dr. Hunter said.

While the desert is the natural habitat of guayule, Dr. Hunter said it responded to improved conditions and to culture. He believes it can be grown in the vicinity of Laredo and El Paso, Texas, where it is not now being grown.

WESTERNERS GO TO POST FOR GAME THURSDAY

The Westerner squad, led by the Lubbock high school for state football honors this year, resumed their training with a win this week following their win Friday afternoon at the Pankhandle South Plains fair over the Florida Whirlwinds recognized as one of the strongest football combinations in South Plains high school circles, preparatory to their second contest of the season when they meet Post Thursday on the latter's home grounds.

Encouraged somewhat, but not "heated" as it is sometimes expressed, over the win, the boys are getting in only the border, and are getting set for some of the hardest battles in the history of football in this section for if present indications are any criterion of what is to come, these battles will soon be seen as a reality. Other squads, however, seem to be undergoing the same transitional shift in lineup that is the case here. About every three years this situation must be met by the coaches as the school year forth their graduates, many of whom will now be candidates for higher positions which may be found in Coach Fred's Tech College Matadors. This condition seems to be prevalent this year, especially in all schools that will be contestants of hands on the part of the coaches the Westerners, but it seems not more than ever before on account of the wealth of young material that is annually turned out by second string coaches.

Contrary to the first impression which gained some degree of credence the Westerners are not a bevy of crude toddlers, especially in weight, but they are handicapped somewhat in experience as the bulk of the crew have had very little of this.

In the Coach Davis has a field general that has had experience with some of the larger schools of the state and in high school circles will stand equal to many of the best. For also carries sufficient weight to bolster the line if it becomes necessary.

Orville Brothers, the one-handed sensation of the last baseball season here, likewise is a man that is worth a great deal to Davis, especially on defensive play. Brothers makes use of his low in punting in a manner that would do credit to any high school squad ever to trot onto the grid, and in addition to this is a hard hitter in racking.

Other members of the squad, though possibly not so sensational as individual performers, are in there at all times with the right and "pepper" which is very necessary for a winner in athletic contests.

DALLAS, Oct. 6.—Fort Worth Manufacturers have been assigned no less than 2,000 feet of floor space in the Manufacturers and Automobile Building at the State Fair of Texas for their showing of Texas-made goods in the 1925 Texas Manufacturers' Association display at the State Fair. Many other Texas cities will also be represented with exhibits of the products manufactured therein.

TRY JOURNAL CLASSIFIED ADS

The following telegram was received by the Texas Utilities Company from Mr. I. R. Kelso, President of the Texas Utilities Company, St. Louis, Mo.:

TEXAS UTILITIES CO.

LUBBOCK, TEXAS,

With the approval today of a flat reduction of ten per cent (10%) in power rates effective November 1st, 1925, applicable to October bills, in the form of allowing ten per cent (10%) for prompt payment within ten days after date of power bills, is the third substantial reduction in rates recently made by Texas Utilities Company, viz: (1) Development rate to Municipalities; (2) Flat reduction of one cent (1c) per kilowatt hour off of top rate of every lighting consumer; and (3) The above mentioned 10% reduction in power rates.

The spirit of co-operation manifested by city officials and the public generally in various cities and towns served has made it possible for Texas Utilities Company to work out a development program which enabled it to voluntarily make substantial rate reductions in the midst of tremendous building program throughout its entire territory.

The Engineering Department has assembled information concerning the practical benefits and advantages derived by the various cities and towns which have adopted the development rate. The result of this investigation is hereinafter set out, which you are at liberty to pass on to the interested communities or disregard entirely at your pleasure.

DEVELOPMENT RATE TO MUNICIPALITIES

A word of explanation in respect to the development rate to municipalities may be helpful in clarifying the following: (1) The schedule of charges is so arranged that as the requirements of the municipality increase, the unit charge of energy decreases, so that the development of any municipality is not hampered on account of indefinite costs for energy for pumping water or for sewerage disposal; and (2) the minimum charge per month is one dollar per horse-power connected to the Company's lines. This minimum charge is neither a service nor a demand charge, and is neither added to the energy charges set out in the development rate schedule ranging from a maximum of four cents (4c) per kilowatt hour to as low as two cents (2c) per kilowatt hour, and this minimum charge can only be effective if, and when the consumption of energy per month is less than one dollar (\$1.00) per horse power each horse power connected to the Company's service, and in such cases the charge per month would be one dollar (\$1.00) per horse power for each horse power connected. The minimum charge is never applied to emergency motors that drive pumps which are used for fire protection only.

The fact that the Texas Utilities Company is a pioneer in the matter of eliminating the demand charge, or ready-to-serve charge, naturally causes more or less confusion. Many persons unfamiliar with the rate, take it for granted that the Company has adopted the customary demand charge which would make a radical difference in the application of the rate. The minimum charge is the same sort of a rate that the customers are in the habit of paying for their lighting service, and they understand that they actually get current for the money paid on account of the minimum charge if they desire to use the current while in the case of the demand or ready-to-serve charge the customer does not get any current on account of money paid for ready-to-serve or demand charge. This development rate is of course, available only to Municipalities.

APPLICATION OF RATE

Application of the development rate shows the wonderful advantages derived by the Municipalities served, Slaton, Texas, for the summer months at which time the demand for water is, of course, at the maximum (May, June and August) according to available reports, paid to the Texas Utilities Company for pumping the City water on an average of less than one-sixth (1-6) of a cent per day per inhabitant. Because of this low cost of less than one-sixth (1-6) of a cent per day for electric energy for pumping, the City of Slaton was in a position to supply the public with water during said period (May, June and August) at the low rate of an average of less than one cent (1c) per inhabitant per day.

It should be borne in mind that the computations made are for summer months, and that everybody knows that for any other month during the year the revenue received by the Texas Utilities Company per month per service and per inhabitant would be much less than one-sixth (1-6) of one cent (1c) per day for electric energy for pumping, for domestic purposes, for commercial purposes, for manufacturing purposes, for sprinkling purposes, for fire protection and for sewerage purposes.

Slaton, Texas, according to available reports for March, April, May, June, July and August of this year paid the Texas Utilities Company on an average for pumping the City water under the development rate less

than one-seventh (1-7) of one cent (1c) per day per inhabitant. Because of this low energy charge for pumping, the City of Slaton was enabled to supply water to the public for all purposes, at approximately one cent (1c) per day for each inhabitant.

Plainview, for the months of March, April, May, June, July and August of the present year, paid the Texas Utilities Company on a basis of an annual average for pumping the City water, less than one-third (1-3) of one cent (1c) per day per inhabitant. According to available records the City of Plainview supplies the water service to the public at an average cost of approximately one cent (1c) per inhabitant per day. The rate of one-third (1-3) of one cent (1c) per day per inhabitant for Plainview, is substantially the same as the rate of one-seventh (1-7) of one cent (1c) per day at Slaton. At Plainview, the city is operating under an agreement with Texas Utilities Company which has been in force for many years that requires the Texas Utilities Company to furnish electric energy to pump the city water and to own the water pumping plant, for which the City pays to the Texas Utilities Company less than one-third (1-3) of one cent (1c) per day per inhabitant. You will recall that in our effort to work out a satisfactory development rate with Cities served by Texas Utilities Company we found that the City desired to own and operate their own water plants and purchase their electric energy from the Company. The experience shows that the Cities that own their own pumping plant are paying for electric energy as above indicated, approximately less than one-sixth (1-6) or one-seventh (1-7) of one cent (1c) per day per inhabitant for electric energy for pumping.

DEVELOPMENT RATE WITHOUT PROFIT TO COMPANY

Under all circumstances and at all times, Texas Utilities Company has made it possible for the Communities served with electric energy for pumping, to supply water at less than one-cent (1c) per inhabitant per day. While the Texas Utilities Company has been supplying electric energy under its development rate without profit to the Company it feels that the rate is entirely justified and that it will, in the end, prove to be advantageous to the Company as a result of the growth of the Communities served. On the other hand, experience has demonstrated the wisdom of the City officials and other public spirited citizens in the various towns served by the Company, in co-operating with the Company in an effort to work out a development program. The development rate will not only encourage the use of water for sewerage purposes as well as other public conveniences and necessities, but will prove to be a great saving to the tax payers of the various cities which have adopted this development rate.

STREET LIGHTING

The development rate includes the supplying of electric energy to Municipalities for street lighting.

These charges take care of the maintenance, operation, and energy charges. The Company owns the street lighting system in all of the Municipalities served. A computation on the street lighting service of the various Cities shows that the Company is maintaining the street lighting systems and supplying the energy at less than one-tenth (1-10) to one-ninth (1-9) of one cent (1c) per inhabitant per day under the development rate.

CO-OPERATION PRACTICED

The Texas Utilities Company management has always appreciated the support and co-operation of the press and civic and commercial bodies of West Texas. This appreciation has been recognized in the literature sent out by the Texas Utilities Company from time to time. The West Texas spirit of co-operation was accurately described by a Banker during a recent visit to the territory served by the Texas Utilities Company when he said: "I find co-operation practiced more and preached less in West Texas than any place I have ever been."

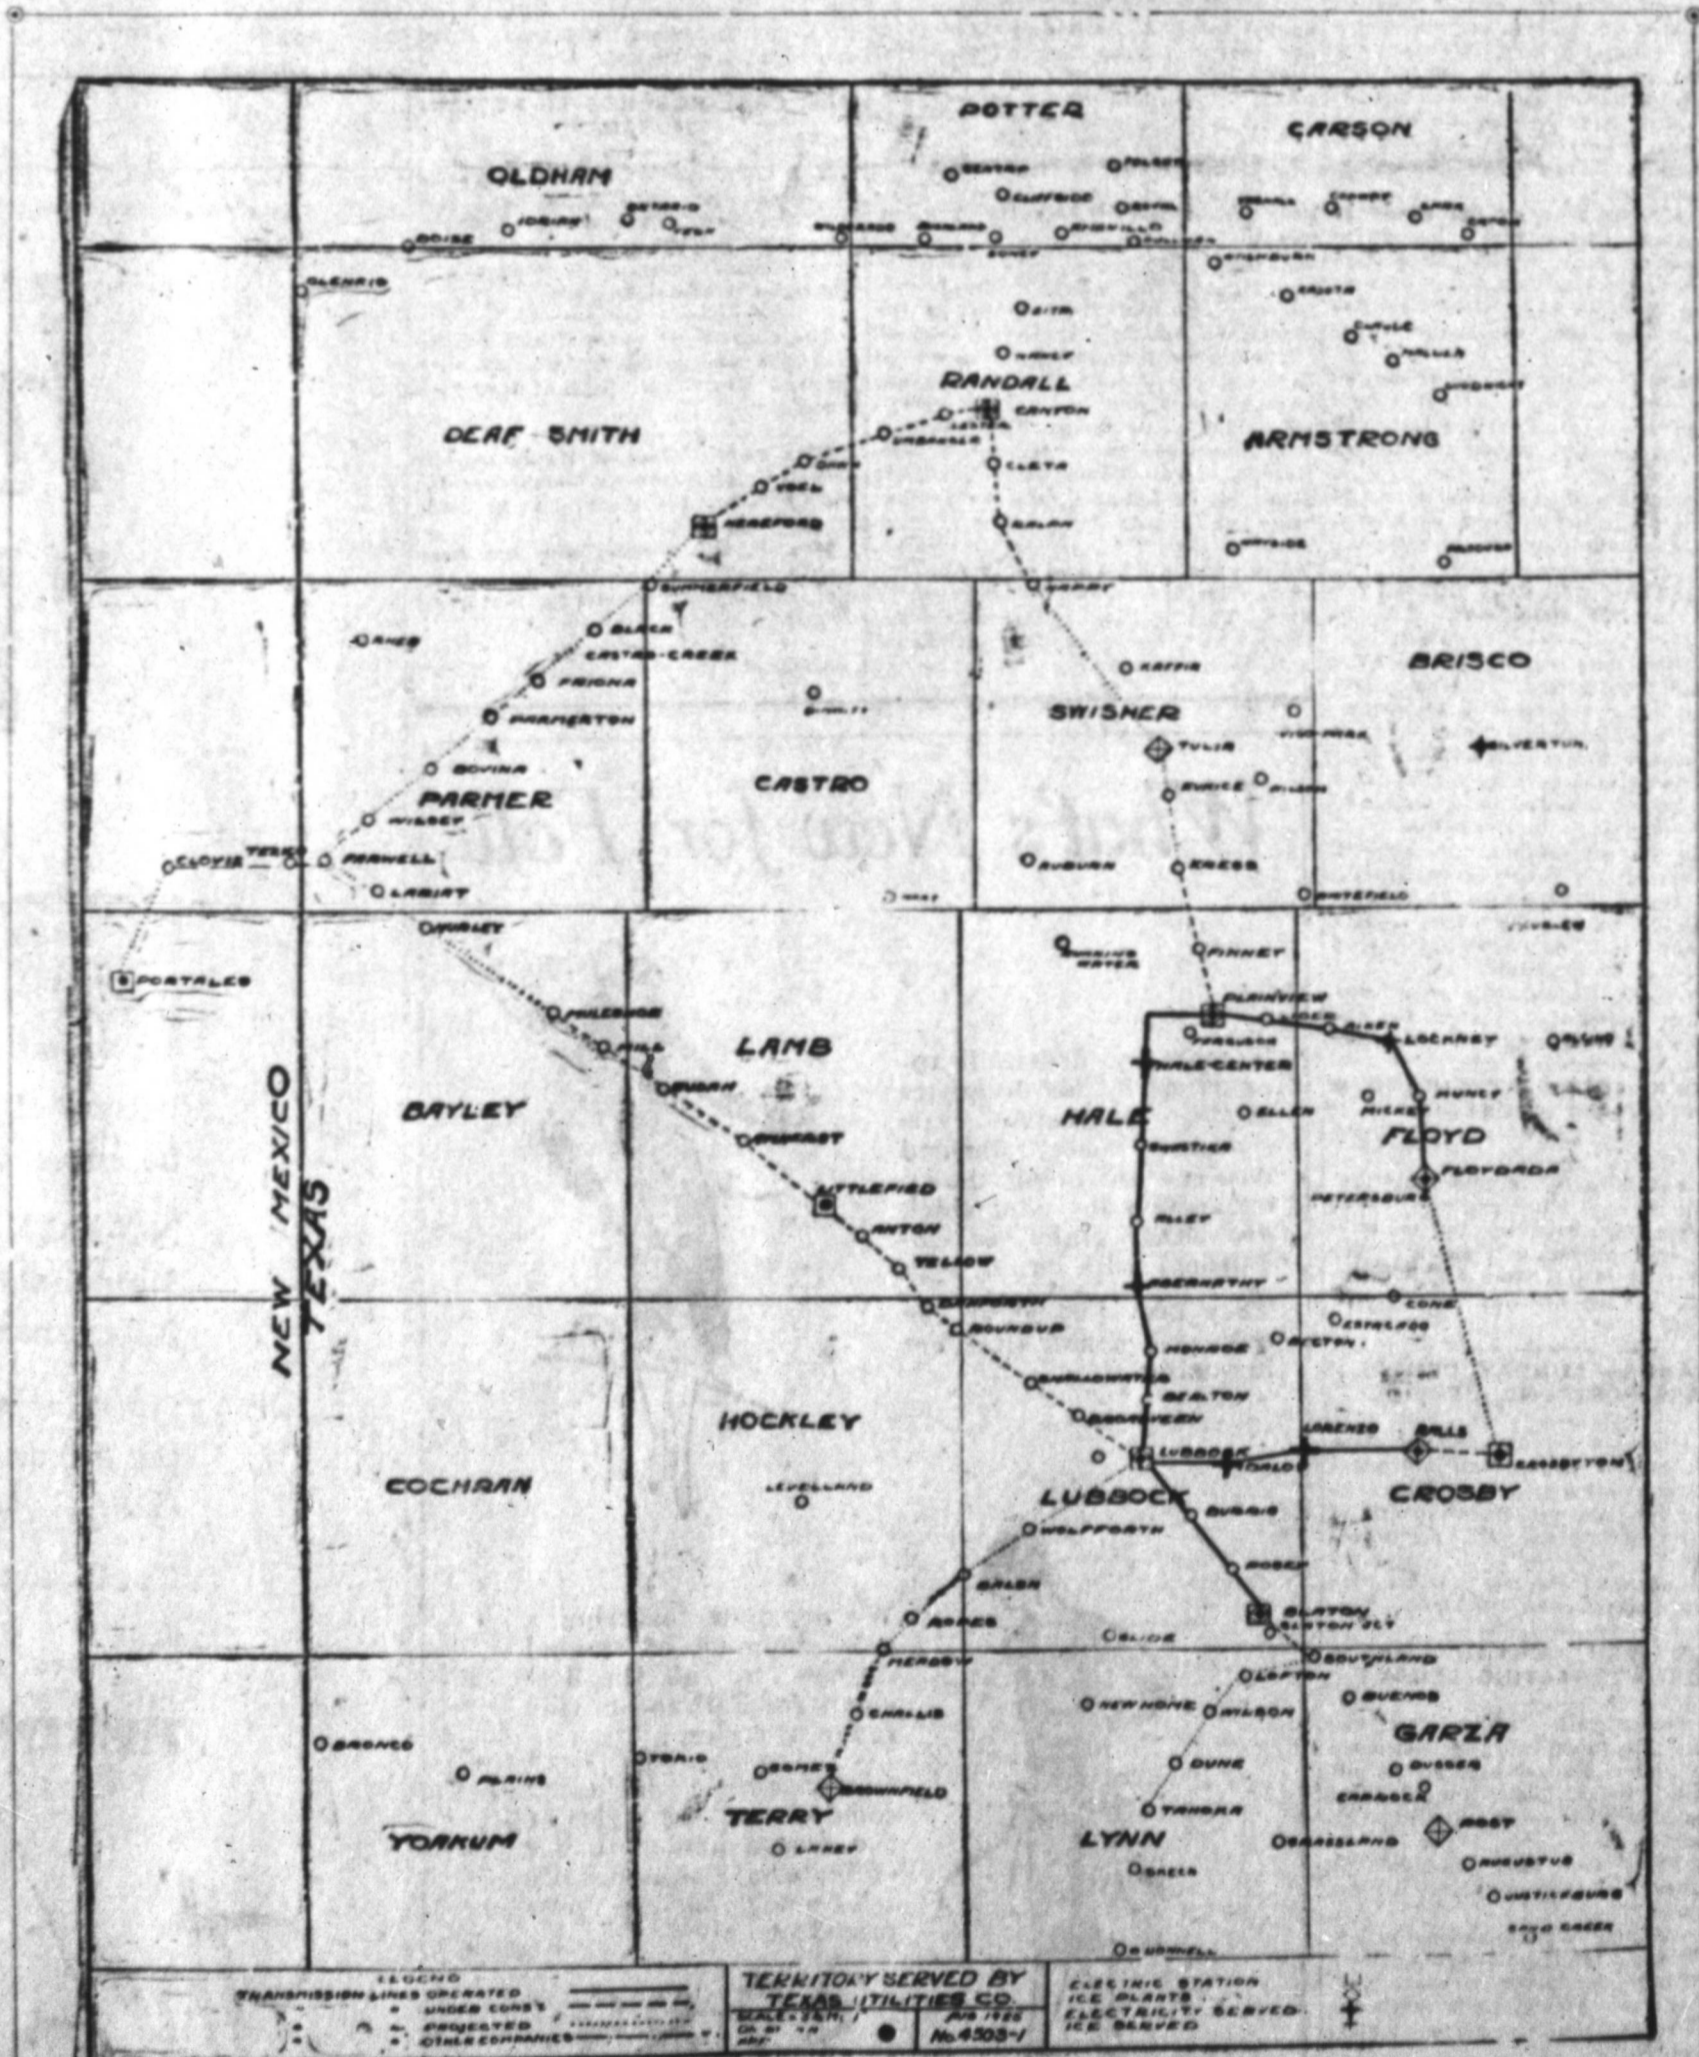

The facts, are, that the world has never seen such progress as has been made within the last half century. And yet, the protection and development of our present day civilization demands a gigantic program of education that will require much of understanding among men, much of patience, much of perseverance and much of hard work.

In West Texas, in a spirit of open hearted accord, the solution of present and future community problems is being brought about through centralization. Already nearly a score of community services have been developed and are being administered by the West Texas Chamber of Commerce, the Empire's single, yet all embracing voluntary organization, whose memberships number thousands of citizens, men and women who, shoulder to shoulder, freely, fairly and squarely strive daily for the Empire's progress through service.

Its field is as far flung as the interests of this great Empire. Its functions are defined by only the problems that arise. Its interests are the interests of all who think, work and sacrifice for the right-educational, social, civic, agricultural, commercial and industrial. It is supported by those it serves in proportion to their individual or corporate means. Its program is as limitless as the future. They plan to help West Texas. The West Texas Chamber of Commerce, the press and the civic, commercial and agricultural organization of West Texas are responsible for the spirit of co-operation that has been developed in West Texas.
