Insurance rate hike proposed

Harte-Hanks Austin Bureau
AUSTIN — Automobile insurance premiums will rise 4.3 percent statewide if the State Board of Insurance follows the recommendation of its staff.
That increase covers the cost of basic liability protection, as well as comprehensive and collision coverage.
Rate increases proposed earlier by the insurance industry call for an 11.4 percent average statewide increase for minimum liability and comprehensive protection. That proposal would boost insurance premiums by about 9.2 percent, or \$54 over the \$584 now being paid by the average motorist in Howard County.

The staff proposal, meanwhile, would increase the total premium in Howard County by 2.4 percent, from \$584 to \$598.
Both proposals will be presented to the State Board of Insurance during rate hearings Sept. 30. New rates adopted by the board will go into effect Jan. 1.

The staff recommendation would increase premiums that motor vehicle owners pay in 1984 by about \$97.5. See Insurance, page 2A

FUTURE HOME OF NUCLEAR WASTE — A worker stands before a tunnel leading into the test site for the storage of nuclear waste. The plant is being built near Carlsbad, N.M., by the federal government to handle the growing stockpile of radioactive refuse throughout the United States. Government officials say the test site should be ready by 1988.

Carlsbad tested for N-dump site

By BOB CARPENTER
Staff Writer
For 40 years, since the beginning of the Atomic Age in World War II, radioactive waste has been literally piling up in places like Inel, Idaho, Hanford, Ore., and Los Alamos, N.M.

In many of these places, the waste sits on concrete platforms protected by a plastic bubble; in others the waste is stored underwater.

First of a two-part series

"Clearly, this situation should be remedied, but many communities are hesitant and sometimes adamant that nuclear waste should not be stored in their backyards," says Bob Dintaman of the U.S. Department of Energy.

Dintaman said, however, if an ac-

cident should occur in areas where waste is simply sitting on concrete, the public would be outraged at the federal government's lack of preparedness.

Because the scenario above could happen, the government realizes that common sense dictates action in the matter.

At present 8,000 tons of waste from public nuclear power generators are in temporary storage throughout the U.S. By 1990, that figure is expected to quadruple. Also, the military has 100 million cubic feet of radioactive waste stored in Washington, South Carolina, Idaho and New York.

"It's time we (the government) faced up to our responsibilities," Dintaman said.

Before now, the federal government was unable to establish firm See Carlsbad, Page 2A

Pets strut their stuff at county fair show

By GAYLE MORAN
Special to the Herald
They were puttin' on the ritz and struttin' their stuff Friday night at the Howard County Fair Pet Show. They were decked out in top hats and straw hats and pistols and chaps. They were cute and large and well-behaved and exotic. They were whiny and sleepy and stubborn and playful.

Most of them knew this was important stuff. After all, you don't usually get bathed and brushed and combed and cuddled on a Friday afternoon.

Some of them appeared to be veterans. Lady, a Rodesian Ridgeback, gazed about with the cool indifference of someone who had been entered before in the biggest dog category. And Coco the lamb, with pom poms glued to her back and ribbons in her hair, seemed accustomed to the hoopla.

Some were obviously new at this. Keesie, a fluffy little Keeshond, felt comfortable just sitting and would have preferred to stay in hiding all night. Twin lambs, only one week old, were wide-eyed with wonder and wary of all the activity around them. And the turtles didn't seem to know how to act in the middle of the arena.

Some weren't impressed with the bright lights and the flurry and the noise. A pair of Boston Terriers, Kizzy and Lacy, romped together playfully with an abandon that showed an indifference to the pressures of winning. Bebe, a Labrador retriever puppy, slept soundly until it was his turn to enter

the arena. And it is doubtful that Hardcastle, a tree crab elaborately dressed in yellow feathers, was aware that this was his time to shine. And of course the cats...well everyone knows how cats react to these things.

They all did well during their turns in the arena. That is if you don't count the stubborn puppy who had to be dragged into place by a determined child or the fight between the Collie and the Beagle.

It was obvious that the judges were impressed and that their job was a tough one. They consulted with one another for some time before awarding ribbons in several of the categories.

But everyone left happy and satisfied. The parents were proud of their kids and the kids were proud of their pets and the pets began to look as if they couldn't wait to get home so they could take a good old-fashioned dirt bath.

Classes and winners were: Exotic animal, Tree Crab-Amy Beck; Exotic animal, turtles-Gena Grizzard; Exotic animal, rabbits-Donny Dendard; Best Groomed (amateur)-Paul Foresyth; Best Groomed (professional)-David Foresyth; Farm Animal-Kim Roman; Prettiest Pet-Brandon Ramey; Largest Cat-JoAnn Stowers; Smallest Cat-Brandon Ramey; Largest Dog-Randy Walk; Smallest Dog-Paul Foresyth; Best Behaved Dog-Dane Driver; Best Dressed-Cassie Henkel; Cutest Dog-Rodney Robertson; Best of Show-Cassie Henkel, first place and Kim Roman, runner up.

Oil drilling declines slightly through '83

By NICK GREENWALT
Staff Writer
Oil production in the Permian Basin will be from 10 to 50 million barrels less this year than it was last year, oil producers say.

Ed Thompson, vice president of the Permian Basin Oil Co., said 525 million barrels have been produced in the basin through August of this year, while 684 hundred million barrels were produced in the first eight months of last year.

Production in Howard County has been 8,055 million barrels through August of this year. Last year this area's production was 13,467 million barrels.

Last year barrels produced in the basin, which covers 100,000 square miles and includes part of Eastern New Mexico, accounted for 21.6 percent of the country's overall amount.

Thompson said the reason for the

slight slowdown is due in part to the government's windfall profits tax and caution on the part of operators.

"People are being more careful and waiting for wells to develop; they're not doing as much wildcatting," he said. "There's a better opportunity to get a producing well when working on an infill drilling prospect, which is proving an area that has already had some production."

Thompson also said that he is optimistic about the future of the oil industry because of the economic upturn and the development of better drilling techniques which enable wells once thought of as dry to be tapped.

Drillers now often "take old fields and drill them out, clean them up, and go deeper to a new pay zone," he said.

Texas Demo congressmen favoring Glenn or Mondale

Harte-Hanks Washington Bureau
WASHINGTON — Ohio Sen. John Glenn and former Vice-President Walter Mondale are several lengths ahead in the race for endorsements from Texas Democratic congressmen, according to a survey of the 22 Democratic members of the Texas congressional delegation.

"It's clearly between those two (Mondale and Glenn)," said Rep.

John Bryant, D-Dallas. The Harte-Hanks Washington Bureau survey showed that congressmen endorsing or "leaning" toward Glenn are: Reps. Charles Stenholm, D-Stamford, Ralph Hall, D-Rockwall, Sam Hall, D-Marshall, and Michael Andrews, D-Houston.

None of the congressmen now support or lean toward three other announced Democratic candidates.

Bulgarian spy arrested carrying nuclear secrets

NEW YORK (AP) — A Bulgarian business official was arrested and charged with espionage Friday evening after he left a New York restaurant carrying nuclear secrets, the FBI said.

Penyu B. Kostadinov, 41, was arrested as he left the Gulf & Western building, where he was given the documents by an American citizen during a dinner meeting. The citizen, who was not identified, was cooperating with the FBI, a statement said.

If convicted, Kostadinov could be sentenced to life in prison.

The FBI statement described the documents as highly classified U.S. government material relating to nuclear energy. They were seized by the FBI when Kostadinov was arrested. FBI spokesman Joseph Valiquette said the agency would not disclose the source of the documents.

Kostadinov had established a close relationship with the American over the last year and was unaware the citizen was cooperating with the FBI, the agency said. The documents were exchanged during dinner at the Top of the Park restaurant.

While the two dined, undercover agents had dinners at other tables of the rooftop restaurant, said FBI spokesman Ed Gerity. Restaurant employees and management were not aware of the agents' presence, he said.

Other FBI agents were waiting downstairs and made the arrest when

Kostadinov left the building, Gerity said. The Bulgarian went along peacefully.

Kostadinov was being held in the Metropolitan Correctional Center and was to be arraigned in federal court in Manhattan on Saturday, the FBI said.

Kostadinov allegedly is a member of Durzhavna Sigurnost, the Bulgarian state security service which collects foreign intelligence, the FBI said.

Kostadinov, who lived in New York since 1979, is an assistant commercial counselor for the Bulgarian Commercial Office. His job involved arranging the placements of Bulgarian exchange scientists and researchers in assignments with U.S. universities and institutions, the FBI said. He does not have diplomatic immunity.

In Washington, State Department spokeswoman Anita Stockman refused to comment on Kostadinov's arrest, saying his liability for prosecution made it a criminal, not diplomatic, matter.

A telephone call to Kostadinov's home reached a man who said Mrs. Kostadinov would not comment on her husband's arrest.

"We only found out about his arrest through the press," said the man, who identified himself only as a friend of Kostadinov's. "Nobody has told us anything, and we have no evidence he did anything."

There was no answer Friday night at the Bulgarian Commercial Office.

FORECAST FOR MONDAY 9-25-83
GENERAL TENDENCIES: Until mid-afternoon you are apt to get involved in an argument over a slight of personal nature or where your pride is concerned, so watch out and don't let this happen.

ARIES (Mar. 21 to Apr. 19) Arguing over some practical matter is not wise and then you can come to a fine agreement with a partner and gain benefits.

Taurus (Apr. 20 to May 20) Get right at the work that you have promised to do and handle it efficiently. If you need a favor, ask a fellow worker for it.

GEMINI (May 21 to June 21) You have a habit of criticizing unmercifully, so control that urge. Later be with a charming person who is good for you.

MOON CHILDREN (June 22 to July 21) Once your work is done, it is best to be at home with your family and be safe, happy. Driving could be hazardous.

LEO (July 22 to Aug. 21) Begin the week properly by not arguing with others, be they employers, partners, or co-workers. Then you can achieve a stable home and a happy life.

VIRGO (Aug. 22 to Sept. 21) Stop worrying about some personal or business affair you can do nothing about, and an outlet that does not harm you.

LIBRA (Sept. 22 to Oct. 21) You have control over conditions today but take care you don't argue with one in authority or one in power.

SCORPIO (Oct. 22 to Nov. 21) Don't enter into any argument between a partner and a higher-up otherwise you could become the scapegoat.

SAGITTARIUS (Nov. 22 to Dec. 21) Avoid that argument between a friend and an outsider which does not concern you. Get busy with your own affairs.

CAPRICORN (Dec. 22 to Jan. 19) Your main may be having alterations with an outsider, but don't mix in and it is soon over. Impress those in authority.

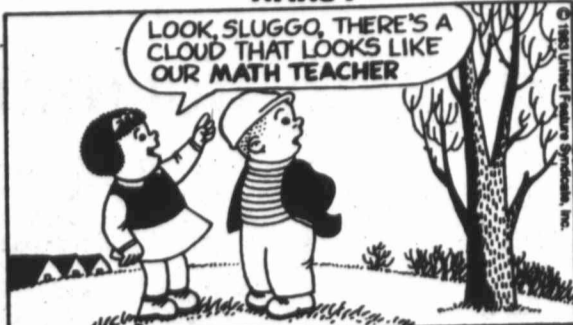

AQUARIUS (Jan. 20 to Feb. 18) A close tie could argue with an associate, if you are not diplomatic with both. Be sure some one contacts who can be most helpful to you.

PISCES (Feb. 19 to Mar. 20) A co-worker and a higher-up could be at odds, so stick to your job and keep focused on the work you have to do.

IF YOUR CHILD IS BORN TODAY... he or she will be one of those charming young persons who easily understand the intricacies of modern machines and methods. It is important to slant the education along innovative lines for future success.

A Time Line of the Past

A Communications History

We are entering the "Information Age." This is a time in our history when, thanks to many new inventions, it will be easier to communicate.

This Mini Page is the first in a series of two about how we have kept in touch with others through the years.

(To Be Continued Next Week)

FROM THE STONE AGE... TO THE SPACE AGE.

Story Pictures 20,000 B.C.

Drawings were made on cave walls, antlers and rocks. 1.

Gestures and grunts

Early man probably used gestures and grunts since he had no language. 2.

Sticks and stones

Counting sticks and stones was an early way to record numbers. 3.

Smoke signals

The first signals were probably warnings. Later the puffs became codes. 4.

Drums

African tribesmen beat out messages that would carry for miles. 5.

Writing before 3000 B.C.

The Sumerians developed the first writing using symbols for words. 6.

Hieroglyphics about 2000 B.C.

The Egyptians developed a way of writing and, later, made a type of paper from papyrus leaves. 7.

Libraries about 2000 B.C.

Egyptians started their first libraries by storing scrolls of papyrus. 8.

Alphabet 2000 to 1500 B.C.

The Semites developed the first alphabet. The Greeks and Romans developed their alphabets later. 9.

Runners

Runners carried notched sticks. 10.

Knots

Knots tied in different colored strings were used to send messages. 11.

Watchtowers 300 B.C.

The Greeks built a series of castlelike watchtowers close enough to send messages. 12.

Carrier Pigeons

The Greeks used carrier pigeons to carry messages. 13.

Flashing shields

Persian soldiers flashed messages by reflecting sunlight off shields. 14.

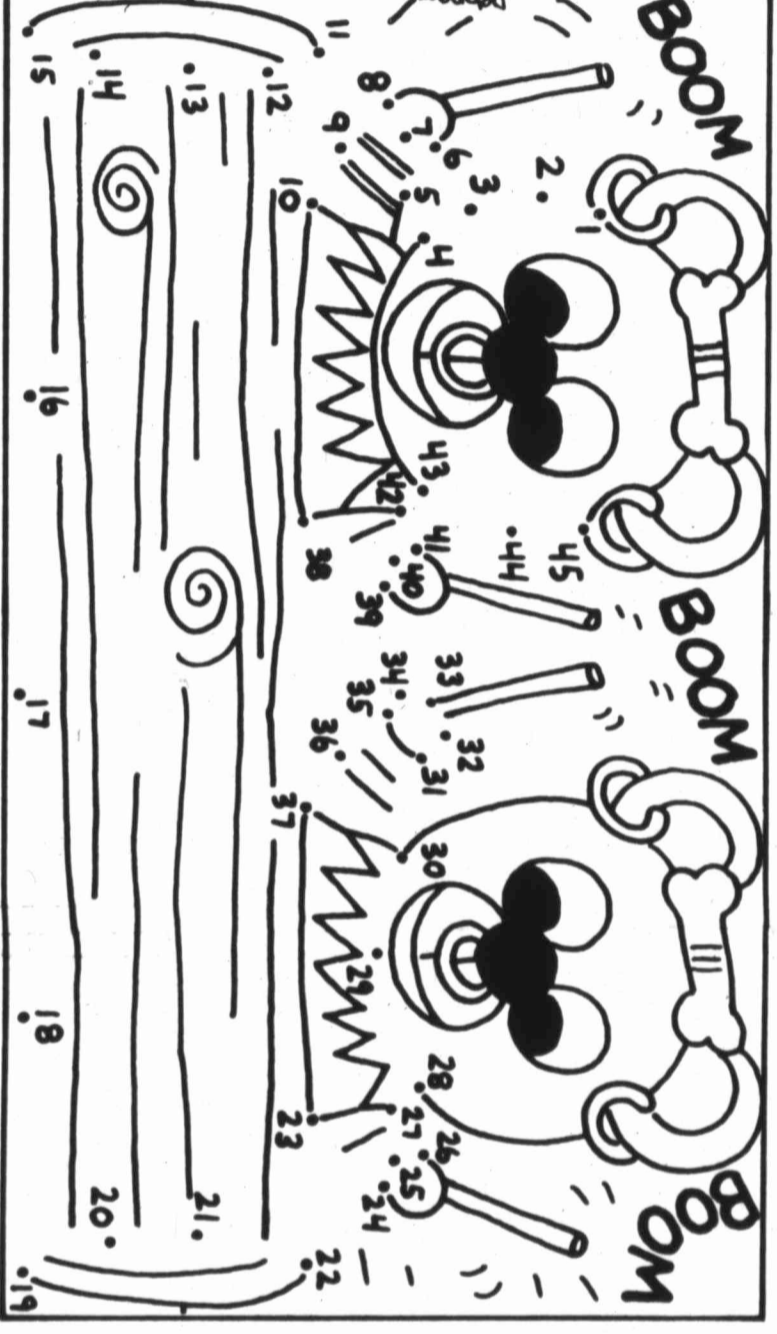

ALPHA BETTY'S

Gus Goodsport sneaked a kiss from Alpha Betty under the mistletoe. How many other words beginning with MI can you find?

Answers: mirror, microscope, microphone, milk, mixer, mistle, mitten, milk, mite.

Phillies drive toward NL East, while Orioles eye AL East title

By The Associated Press. Steve Carlton became only the 16th pitcher in major league baseball history to win 300 games, hurling the Philadelphia Phillies to a 6-2 victory over the St. Louis Cardinals Friday night. Although the historic victory came in a subpar season — lifting Carlton's record to only 15-15 — it came with the Phillies in their drive for the National League East championship. The victory was Philadelphia's eighth straight and mathematically eliminated the 1982 World Champion Cardinals from the NL East race. The Phillies are three games ahead of Pittsburgh, while the Cardinals fell nine games out. In support of Carlton, Bo Diaz drove in two runs in Philadelphia's three-run fifth inning.

Baseball Roundup

The Pirates kept pace with Philadelphia by beating the Montreal Expos 10-1 as Mike Easler hit a first-inning grand slam and Tony Pena followed with a solo home run. In the NL West, Dusty Baker blasted a home run and knocked in four runs and Ken Landreaux also homered and drove in three as the Los Angeles Dodgers buried Atlanta 11-2, stretching their lead to 5 1/2 games over the Braves. The Dodgers reduced their magic number for clinching the division title to five as they continued their mastery over Atlanta, lifting their season lead to 11-5. Elsewhere in the NL, Jody Davis had two home runs and Keith Moreland added another to back the seventh-inning pitching of Dick Raddven as Chicago defeated the New York Mets 4-1. Ruppert Jones drove in five runs with a home run and a double to lift San Diego to a 11-8 victory over Cincinnati. Fred Breining pitched eight shutout innings and Don Gladden hit a two-run single to lead San Francisco to a 3-2 victory over Houston.

In the American League, Scott McGregor and Sammy Stewart teamed up on a four-hitter and Cal Ripken Jr. had four singles to lead Baltimore to a 4-2 victory over the Milwaukee Brewers, reducing the Orioles' magic number in the American League East pennant race to two games. Roy Smalley's three-run homer capped a four-run rally in the eighth inning as the New York Yankees defeated the Cleveland 7-4. Wayne Krenchicki and Larry Herndon doubled to key a three-run fifth inning as Detroit beat Boston 7-0 behind the combined six-hit pitching of Juan Berenguer and Dave Rozema. John Wathan and Willie Aikens stroked home runs to lead Kansas City past Minnesota 3-2 and allow Frank Wills his first major league victory. Pete O'Brien drove in one run and scored another to lead Texas past Seattle 2-1. In late AL action on the West Coast, rookie left-hander Tim Conroy fired a five-hitter for his first major-league shutout as the Oakland A's beat the Toronto Blue Jays 2-0. Rich Dotson scattered seven hits for his 20th win and Rudy Law's second-inning single drove in both runs as the Chicago White Sox edged the California Angels 2-1.

Giants 3, Astros 2. Fred Breining took a three-hit shutout into the ninth inning before allowing two runs on three hits. Greg Minton got the final three outs for his 20th save, preserving the victory for Breining, 11-12. Don Gladden, batting just .198, singled home two runs for visiting San Francisco in the second. Dodgers 11, Braves 2. Dusty Baker and Ken Landreaux each homered to highlight a 14-hit attack as Jerry Reuss and visiting Los Angeles continued to haunt Atlanta. The victory stretched the Dodgers' lead in the NL West to 5 1/2 games over the Braves. Los Angeles, which reduced its magic number to five, has nine games left; Atlanta has 10 remaining. The Dodgers have now beaten the Braves 11 out of 16 times this season.

Southern Methodist to debut bluechip running back at TCU

By DENNE H. FREEAN AP Sports Writer. Jeff Atkins, the schoolboy bluechip running back who triggered a fierce recruiting war between Texas Christian and Southern Methodist, makes his collegiate debut Saturday night in a football showdown between the two Southwest Conference schools. "We're going to play him, and play him early," said SMU coach Bobby Collins. "We're going to play him very early." Atkins has carried only twice for eight yards but a bruised shoulder suffered by Reggie Dupard has speeded the development of the freshman. Atkins gained 2,333 yards and scored 25 touchdowns last year for Fort Worth Eastern Hills. Collins said Dupard may return Saturday night, "but unless we see a big, big improvement with Dupard, I'll be inclined to hold him out. I think it's safe to say that Atkins will alternate at tailback." Gary Hashaway will start at tailback and Byron Collins also was expected to see duty. No. 18-ranked SMU owns the nation's longest unbeaten string at 18. The Mustangs have not lost an SWC opener since 1964 when they lost to Rice 7-6. The defending SWC champion Mustangs rated a 12-point favorite over the Horned Frogs. In other SWC action, No. 2-ranked Texas was a 24-point pick over North Texas State; Baylor was a seven-point choice over Texas Tech in an 11:35 a.m. (ABC-TV) regionally televised match in Waco; Arkansas was a 10-point favorite over Mississippi in Jackson, Miss.; Houston was a 12-point pick over Oregon on the

road; Texas A&M was a field goal selection over Oklahoma State in a 2:50 p.m. (CBS) regionally televised game from Kyle Field, and Southwestern Louisiana was a field goal pick over Rice.
