Knott: Living with poison

KARA HUGHES ties her cat to an empty water bottle.

By LUIS RIOS
Staff Writer
KNOTT — Whatever you do, don't drink the water.

No, it's not a line for a beer commercial. It's a warning issued to residents in the Knott community almost a year after the state Department of Public Health reported having found high levels of arsenic in several water wells in the area.

And the Texas Department of Agriculture has been unable to determine in 12 months where the arsenic originated. And all the residents know is that they are still are not allowed to drink the water.

The testing of the well water was prompted after 11 cows belonging to local farmer Bud Hughes mysteriously died sometime in late November last year. Tests conducted by two local veterinarians revealed that the cattle had died from fatally high levels of arsenic in their systems.

Despite the extensive testing by the Department of Agriculture and Department of Health, several residents are skeptical of the findings. Initial findings have led officials to believe the arsenic came from the use of herbicides and pesticides (as a cotton defoliant) containing arsenic.

"They say it is the farmers' fault," said Leah Hughes,

Teachers, parents blast school reform

AUSTIN (AP) — How far a school bus has to drive to take students to athletic events became a critical question Saturday afternoon before a State Board of Education committee.

"This proposal of eight hours a week for practice and travel gets into an urban-rural problem," Rep. Mike McKinney, D-Centerville, told the committee that heard almost 100 witnesses testify about suggested rules concerning extracurricular activities.

"In Houston they can go a few

blocks to another gym for a game," McKinney said. "When the Centerville team drives to Mart it takes an hour and a half each way. This will effectively eliminate sports in small towns."

Jack Strong, chairman of the committee on students, explained the proposed rule would let a school count two hours for travel for the first performance during a week, no matter how long the trip took.

"If they travel more than one time a week it would take too much time away from studies," said

Strong. "With that explanation, I think we can live with the 8-hour rule," said Julian Shaddix, superintendent of schools at Clint, near El Paso, "although some of our competition is 200 miles away. But we would like for you to do something about this six weeks penalty for failing just one course."

The proposed extracurricular rules, which will be voted on by Strong's committee Sunday and then by the state board on Dec. 8, say a student must be making at

least 70 in all courses in order to take part in any out-of-class activity. A failure in just one course brings a six-weeks ban on extracurricular activities, including sports.

"We would like for you to make that a 7-day suspension," Shaddix said. "Six weeks is too long to make it up. We already require our players to be passing every week. The teachers check them."

"We feel this is wrong," said Merkel Superintendent Bill Everett. "The vast majority of students in extracurricular ac-

tivities are not the ones that are failing, yet you are punishing them."

"It is too much, too soon to require a grade of 70 in as many as six courses," said Janice Canion, White Oak teacher and mother of a college football player.

"We vigorously support this," said Karen Miller, representing the Austin Parent and Teachers Association. "We think it will have strong academic and strong extracurricular results."

Parade heralds holidays

By CAROL BALDWIN
Staff Writer
Santa flew in to Big Spring on a chartered helicopter Saturday morning just in time to join elves, snowmen and angels taking part in the annual holiday parade down Gregg Street.

The day was sunny and there was virtually no wind as spectators crowded along the sides of the street to watch more than 40 floats and cars make their way to the Howard County Courthouse. Several hundred marchers also joined the parade.

"Kids 9 and under were definitely in the majority," one spectator said later. But hundreds of adults watched too as highly decorated floats rolled by and bands from Big Spring High School, Runnels Junior High and Goliad Middle School provided music.

Taking first place in the commercial and manufacturing float division was an entry by Cameo Homes featuring a replica of Scenic Mountain and Cabbage Patch dolls playing in the snow.

Second place in the division was Citizens Federal Credit Union, another snow scene with elves, a sleigh and plenty of candy canes. Third place was an entry from

The good ole days

Former Western stars twinkle at Kerrville's Y.O Ranch

KERRVILLE (AP) — The ballroom of the Y.O. Ranch Hilton looked like a set for an Old West movie. Amidst a sea of cowboy hats and boots, dozens of Western stars of yesteryear sipped bourbon and branch and reminisced about the good ole' days when Hollywood was still interested in tales of the Old West.

The occasion was a charity benefit honoring the grand opening of the Y.O. Hilton, a one-of-its kind Western hotel built by Mountain Home rancher Charles Shreiner III and his four sons.

But the old Western heroes were the stars of the show, and they all said films about the Old West will make a comeback.

"Some of us that know the West, if we don't keep it alive, it's gone," said an aging Ben Johnson, who won an Academy award for his performance in "The Last Picture Show."

"There's quite a span of history that's going to be lost," he said, a red bandana around his neck and a stiff white cowboy hat on his head. Johnson started out as a stuntman, making his first movie in 1940 with Jane Russell in "The Outlaw."

He later doubled for Gary Cooper and Jimmy Stewart and says he has been in 200 to 300 movies.

Westerns, Johnson says, are coming back.

"I've got three or four Western scripts I plan on doing," he said at a press party for the stars Friday night.

Johnson is perplexed about vulgarity in the motion picture industry.

"I'm trying to make entertain-

ment you can take your family to see," he said. "I don't appreciate all these freaks using all these dirty words. There's a lot of things that go on out there I don't approve of."

Another stuntman turned actor, Dick Farnsworth, agrees that westerns will make a comeback. "I've got two scripts at home right now," he said, predicting several western films would be released next year.

But Farnsworth, best-known for his performances in "Comes A Horseman" and "The Grey Fox," said the westerns will most likely be for adult audiences who enjoyed that kind of entertainment as children.

"Kids today are more interested in space stuff," he said.

Westerns hit the skids, he said, when there were so many on television.

"Then the cars, cops, robbers and space stuff got big. But the cycle's coming back," Farnsworth said.

"I know I never get tired of a good Western, especially if I'm in it," he said.

June Lockhart, best known for her role as Timmy's mother on the "Lassie" television series, says the Western type hero has never died on the screen.

"The Clint Eastwood, Dirty Harry movies have the same type of hero, just a Magnum and not a Winchester for a gun," said the star, who also appeared in dozens of television westerns.

Ms. Lockhart made guest appearances on Wagon Train, Have Gun, Will Travel, Gunsmoke, Death Valley Days and other shows.

"I love Westerns. Oh, my God,

are Westerns fun," said Ms. Lockhart, who was dressed in a black and white gown.

"First of all, I love period shows. You get to play dress-up," she said. "I would kill to do a Western, always."

Stars and crews on a Western set had a unique camaraderie, she remembered.

"Much like there is here tonight," she said. "A gregariousness among the group. A feeling of community like they had in the Old West."

Ms. Lockhart also liked those old scripts because she always played a strong pioneer woman and acted out themes that are popular today.

"I rarely played meek women," she said. "It was always a doctor or a teacher, a person with authority."

"The agriculture department said it comes from the gin trash. We put the burrs back into the land as fertilizer.

"But they can't convince me. Why is it high (arsenic level) at one time and low another time?"

The Department of Agriculture has been conducting monthly tests on water wells and presenting the farmers with the test results, she said. The level of arsenic in the wells varies from month to month and from well to well, she said.

Bud Hughes is a hard man to convince. He said he is not sure the agriculture department knows exactly where the arsenic is coming from.

"Some people around here say we've had it in the water all along," he said. "Some told me you can't live and drink arsenic water."

But Bud Hughes has another problem — nitrate in his well water.

Hughes said the Agriculture Department office in Midland notified him that nitrate, another harmful chemical, has been detected in his water as well.

Hughes' wife, Jo, said the arsenic test findings just "aren't logical."

"I just don't understand it," she said trying to explain why one well can have a high level of arsenic and a well across the road have no arsenic at all.

"I think this will be a continuous problem. We are using the water to bathe and wash clothes but not for drinking and cooking. We use lots of bottled water and it's very inconvenient; but it is something we have to do."

Her family uses about 20 gallons of bottled water every two weeks,

148 killed in Sri Lanka

COLOMBO, Sri Lanka — The government said Saturday that 148 people perished in guerrilla attacks on two prison camps and ensuing battles with troops, and that Sri Lankan ships and planes drove off 19 boats believed to be carrying an invasion force of Tamil guerrillas.

It said that 10 people were killed aboard one of the boats.

Labor wins Aussie vote

SYDNEY, Australia — Australian Prime Minister Bob Hawke's Labor government kept power with a clearcut victory in general elections Saturday, but with nowhere near the landslide that pre-election polls had forecast.

BOB HAWKE

Hawke blamed confusion over new voting procedures for the relatively disappointing showing, but he was also hurt by the emergence of a minor party calling for nuclear disarmament.

The small, single-issue Nuclear Disarmament Party pre-empted the traditional Labor Party left wing that supports nuclear disarmament and the removal of American military bases from Australia.

BAGHDAD, Iraq — Iraqi jet fighters made 28 bombing raids across the eastern border Saturday, scoring direct hits on Iranian positions.

The Armed Forces General Command said Iraqi jets "returned safely to base after launching 28 bombing raids and scoring direct hits on enemy positions and troop emplacements" in the southern sector of the 733-mile border between the two warring nations.

Jordan's king tells Egypt it's time for peace

CAIRO, Egypt (AP) — Jordan's King Hussein, on his first visit here since Egypt made peace with Israel, began talks with President Hosni Mubarak Saturday on reviving efforts to end Arab-Israeli conflict throughout the Middle East.

The monarch, who broke ranks with 16 other Arab countries last Sept. 25 when he restored relations with Egypt, was met at the Cairo airport with an embrace by Mubarak. After lavish welcoming ceremonies at Kubbah Palace, the two men met privately for 1 1/2 hours.

Later, a senior adviser to Mubarak told reporters the two heads of state were determined during their three days of talks to "intensify cooperation" on a joint Arab peace strategy. The adviser, Osama El-Baz, said the two leaders also urged Syria and other Arab countries to join in the dialogue.

"In Mubarak's and Hussein's talks, there was a joint concern for achieving movement and advancement in the interests of the Palestinians, which will of necessity be coordinated with the Palestine Liberation Organization, it being the representative of the Palestinian people," El-Baz said.

"It does not mean there is an intention to create a Jordanian-Palestinian axis," he added.

Hussein, who had not visited here since 1976, arrived two days after the Palestine National Council, the PLO's top policy-making body, formally urged the PLO leadership to pursue his offer of a negotiated settlement with Israel.

The council, meeting in Amman, Hussein's capital, also endorsed PLO chief Yasser Arafat's trip to Egypt in 1983 and called on the PLO executive committee to "define" a new relationship with Egypt despite its diplomatic ties to Israel. Those ties, growing out of the Camp David accords, triggered the diplomatic boycott of Egypt by other Arab nations.

Egyptian sources said Mubarak would be eager to hear Hussein's assessment of prospects for a Jordanian-PLO joint peace strategy in light of the Palestine National Council decisions. The Egyptians believe an agreement between Jordan and the PLO would enable moderate Arabs to ask the United States to launch a new Middle East peace initiative next year.

Lebanese army extending control

BEIRUT (AP) — The Lebanese army is preparing this week to take over the coastal highway south to Israel's occupation zone, a road that has been closed by fighting since February.

The rival militias who have been controlling the road and doing the fighting say

they welcome the troops, but add that they are skeptical about the motives behind the move and about the chances of its leading to an end to Lebanon's nine-year civil war.

Under a plan approved two weeks ago by their representatives in Lebanon's coalition Cabinet, the Druse militia, the Shiite Moslem "Amal" militia and the Christian "Lebanese Forces" militia would all give up stretches of the road they control when the Lebanese regulars move in.

The army has made no official announcement, but troops are expected to begin taking up positions Thursday.

The plan calls for the army to take over not only the highway south, but also a 58-mile stretch of territory from Israel's defense line at the Awali River to the first Syrian position at Madfoun in Syrian-controlled northern Lebanon.

The Israelis are involved in talks with Lebanon.

Students jam computer

BERLIN, Ohio — Oberlin College students have tried to overload the school's main computer and a library computer to protest the school's ownership of stock in companies that do business in South Africa.

Students opposing South Africa's policy of racial segregation said about \$23 million of the college's \$130 million endowment is invested in companies doing business in that country.

Friday's protest coincided with a quarterly meeting of the college trustees at the library.

Shooting victim robbed

ROCHESTER, N.Y. — Passers-by robbed a man of his wallet as he lay wounded in a driveway after being shot five times during a domestic argument, police said.

Elijah Chaney, 46, staggered out of the house where he was shot Friday night and collapsed in the driveway with wounds in his upper body. Two unidentified passers-by spotted him and made off with his wallet before medical help could arrive, said Lt. John Sensabaugh.

Jet crash test bombs

EDWARDS AIR FORCE BASE, Calif. — An unmanned jet carrying 73 dummies crashed into the Mojave Desert today in a government-sponsored test and burst into a fireball despite a new fuel additive designed to prevent deadly post-crash fires.

Test pilot Fitzhugh Fulton, sitting in a ground-based cockpit, used remote control to guide the Boeing 720 jetliner off a runway at 9:13 a.m. He made it climb it to 2,000 feet, flew it in a broad loop and, at 170 mph, bellyflopped it at 9:23 a.m. onto a gravel-covered runway, where its wings and fuel tanks were torn open by rows of obstacles.

Congressmen arrested

WASHINGTON — The arrest of two more congressmen and a labor leader outside the South African Embassy has raised to 16 the number of those detained in recent protests here against that nation's racial policies.

As the three protesters were being arrested, however, U.S. Attorney Joseph E. diGenova dropped charges Friday against 11 of the non-violent demonstrators held earlier. He said the cases lacked "prosecutive merit."

freely.

While Schroeder was given a bath, he relaxed with country-western music, the spokesman said.

Hijacker claims he's not to blame

Area roads to receive new coating next year

State roads in both Howard and Borden County will receive seal-coat applications under the Texas Highway Department's 1985 State Highway and Safety Betterment Program. The program, which was temporarily discontinued last year because of limited funds, is designed to protect and extend the service life of roadways, particularly those with cracking and slick surfaces. The five projects in Howard and Borden Counties are part of 501 projects in the program, which was allocated \$128.7 million to apply coating to 3,185 miles of roadway.

By LILA ESTES

Q.: We are looking for a new house. Can you suggest the best way to handle offers and counteroffers?

A.: Yes. Choose a good real estate agent who can guide you in each situation. As a very general guide, houses generally end up selling for about 5% less than the original asking price. Therefore, a typical first offer might be about 90% of that price, leaving room for negotiation. Depending upon the situation, your agent's knowledge of the house and seller, slightly higher counteroffers might be suggested. However, the agent may recommend you offer the bottom line, on a take-it-or-leave-it basis. However, most experts agree if the house is listed at a fair market price, and you want it, don't play too many "barter" games.

Cosden 25-Year Club inducts 56

The Cosden 25-year-club inducted 56 new members into the organization Friday night during an annual banquet at the Dorothy Garrett Coliseum.

The club now has 498 members. Inductees received gold and diamond rings. Ken Perry, president of Cosden Oil and Chemical Co., presented the awards.

Employees inducted included James E. McMullen, Earl Taylor, Leo Reeves, Ray Mize, Forrest Yancy, Eldon Grisham, Stafford R. Smith, Price Morris, Robert Don Miller and Billy F. Hammond.

Also Acie W. Phillips, George R. Hudson, Grady M. Sloan, Billy Winnett, Joe A. Clark, Rocky W. Allen, Robert D. Bradshaw, Marvin E. McCutchan, Frank Mashburn, Clois N. Snell, Billy G. Greenfield, Weldon M. McCollum and Ralph Wilkerson.

Also Donald G. Miller, Charles W. Ruppard, James A. Herm, Paul D. Jenkins, John R. Damron, Ray Fortson, James O. Murphy Jr., Paul M. Allen, William A. Davey Jr., Kirby L. Brown, Jerry E. Barton, Ray L. Dabney, Grover C. Bayes, Merel Ringener, Johnnie D. Wright, Delano Shaw and Mary Ellen Bartlett.

Twenty-three of the employees began their careers with the Col Tex Refinery in Colorado City. They transferred to Big Spring when the Colorado City refinery closed.

Roy Bennett, president of the club, greeted the group and Ken Perry gave a short history and highlights of the club.

Perry told inductees that Alma Gollnick was the first member to be inducted into the club in 1951. Raymond Tollett, president of Cosden, started the idea of service awards for employees having completed 25 years of service with the company. At that time, employees received a month's pay and a month's vacation on their 25th anniversary.

The first banquet held by the club was in 1961 and 55 employees were inducted. The first president was Marvin Miller. Sonny Fuller is the active member with the most seniority.

Only one man, the late R.W. Whipkey, was ever made an honorary member of the club.

New officers are Connie Wade, president; Bill Grigg, vice president; Vi Ballou, secretary; and Garrett Patton, treasurer. Western Electric provided music for a dance following the banquet.

Wacker SWC's top coach

DALLAS (AP) — Texas Christian Coach Jim Wacker, who turned the hapless Horned Frogs into the most improved football team in NCAA Division I, has been named The Associated Press Southwest Conference Coach of the Year in balloting by his colleagues.

TCU posted an 8-3 regular season, best by the Horned Frogs in 25 years, and got their first bowl invitation (Bluebonnet) since they played in the Sun Bowl in 1965.

The Horned Frogs were 1-8-2 in Wacker's first year at the TCU helm after building Southwest Texas State into a national small college power.

"That (Coach of the Year) really is an honor and it's more of a reflection of my staff than what Wacker does," Wacker said. "Another reason you get those honors is players play like crazy. Those are the people responsible. For TCU I'm thrilled."

"We've been fortunate enough to turn it around. It (the award) was very gracious of the other

coaches."

Wacker added, "I went out on a limb and said we have to win five or six games this year. I was taking a risk. I had my neck on the chopping block. But we went 8 and 3 and won six in a row. I'm proud."

Kenneth Davis, TCU's junior running back, was named The AP's SWC Offensive Player of the Year with his 1,611 yards rushing. Davis scored 15 touchdowns and averaged 7.6 yards per carry, best in the nation.

Davis, a junior from Temple, Texas, finished second rushing nationally.

The Defensive Player of the Year was Texas safety Jerry Gray, of Lubbock, a senior who had six interceptions.

Southern Methodist landed seven players on the mythical first team offense and defense while TCU had six.

The first team Mustangs included quarterback Don King, running back Reggie Dupard, tackle Dale Hillestrae, guard Andrew Campbell, center Chris

Jackson, defensive lineman Jerry Ball, and linebacker Anthony Beverley.

Besides Davis, the Horned Frog first team contingent included wide receiver James Maness, tackle James Benson, tight end Dan Sharp, and defensive backs Sean Thomas and Byron Linwood.

Other first teamers on offense included wide receiver James Shibest and guard Marcus Elliott, both of Arkansas, and placekicker Jeff Ward of Texas.

Other defensive first teamers were linemen Tony DeGrate of Texas, Ray Childress of Houston, Ervin Randle of Baylor, linebacker Dwayne Jiles of Texas, defensive backs Kevin Wyatt of Arkansas and Audrey McMillian of Houston.

The punter was John Teltschik of Texas.

Newcomer of the Year on offense was TCU's Tony Jefferey and Newcomer of the Year on defense was Arkansas' Tony Cheric.

Marino out to break passing record

By The Associated Press
 Dan Marino has a target in sight when the Miami Dolphins meet the Los Angeles Raiders in the Orange Bowl Sunday — the National Football League's single-season record for touchdown passes, just one TD toss away.

Howie Long also has a target — Dan Marino.

"I don't really think Marino has been pressed," says Long, who had two sacks as the Raiders beat Indianapolis 21-7 last week. "Miami

has got to look at the film and wonder how to contend with our defense. The last three weeks we have been playing great."

Sunday's game is crucial for the Raiders — they're 9-4 and a loss combined with a New England win over St. Louis would leave the defending Super Bowl champs tied with the Patriots for what figures to be the AFC's last wild-card playoff spot.

Raiders Coach Tom Flores is happy with his defense, but his of-

fense has sputtered since quarterback Marc Wilson bruised his thumb four weeks ago.

"We've got to score some points," says Flores. "It's pretty tough to shut them down. You've got to outscore them. They're rolling along offensively and giving up some yards defensively."

There are eight other games Sunday with bearing on the races for playoff spots.

Cowboys 'must win' against Eagles

PHILADELPHIA (AP) — The Dallas Cowboys need a victory Sunday against the improving Philadelphia Eagles to remain #1 for the lead in the National Football League's National Conference East.

The Cowboys and New York Giants fell a half game off the pace, each with 8-5 records, when the Washington Redskins beat the Minnesota Vikings, 31-17, Thursday night to boost their record to 9-5.

Dallas Coach Tom Landry has announced that Danny White will start at quarterback against the 5-7-1 Eagles, who in their last three games have lost by a point to Miami, beat the Redskins and lost by one to the St. Louis Cardinals.

White, who lost his job this season to Gary Hogeboom, will be starting his fourth game. He has completed 76 of 132 passes for 882 yards and three touchdowns. He's had three interceptions.

Tony Dorsett, with 979 yards on 246 carries for a 4.0 average, is the key to the Cowboys' running game.

Joe Pisarcik will be the Eagles' quarterback in place of Ron Jaworski, who suffered a broken bone in his leg and torn ankle ligaments in the St. Louis game and is out for the season. Jaworski was injured on the game's first series, so Pisarcik played virtually all of the St. Louis game.

The last time Pisarcik started a game was four years ago when he was with the New York Giants. Eagles Coach Marion Campbell

says he has confidence in Pisarcik. "He's a very fine player and can get the job done."

Pisarcik has completed 33 of 57 passes for 307 yards, most of that against St. Louis (24 of 39 for 226 yards). He threw a 16-yard TD pass to wide receiver Mike Quick in the fourth quarter of the game the Eagles lost with eight seconds left on a field goal by Neil O'Donoghue.

Pisarcik's chief targets are running back Wilbert Montgomery, who has caught 50 passes for 403 yards, tight end John Spagnola (49-505) and Quick (48-833).

The Eagles will count on Montgomery to establish a running game against the Cowboys. Montgomery has carried 160 times for 607 yards, a 3.8 average. He'll be aided by fullback Hubie Oliver (68-239).

Dallas is hurting in the offensive line, where, because of injuries, Landry is forced to use five guards. The Dallas offense, third highest scoring unit in NFL history last year, is down 10 points per game in 1984.

The Cowboys have been living on their defense.

College basketball roundup Illini trip OU Sooners, 73-70

CHAMPAIGN, Ill. (AP) — Illinois forward Efreem Winters tipped away an Oklahoma inbound pass with 31 seconds to go Saturday to help give seventh-ranked Illinois a 73-70 victory over No. 10 Oklahoma in a nonconference basketball game.

Oklahoma center Wayman Tisdale led all scorers with 22 points, despite running into foul trouble in the second half. Illinois had six players in double figures, led by Welch's 15 points.

Other Illinois players in double figures were Winters with 13, Bruce Douglas and Tom Schafer with 12 apiece, Montgomery with 11 and Doug Altenberger with 10 points.

The victory gave Illinois a 5-1 record. Oklahoma dropped to 2-2.

(No. 4 Duke 59, St. Joseph's 46)

DURHAM, N.C. (AP) — Forward Mark Alarie scored 20 points and grabbed a game-high eight rebounds to lead fourth-ranked Duke to a 59-46 victory over St. Joseph's in non-conference college basketball Saturday.

The Blue Devils, 3-0, led 26-24 at the half but went to a spread of offense in the second period and slowly pulled away from the Hawks, 1-1.

Duke switched to a man-to-man defense to start the second half and limited the Hawks to 8 of 27 shots from the floor. The Hawks were also hurt by 26 turnovers and 27 team fouls.

Alarie, a 6-foot-9 forward, scored 10 points in each half to lead a balanced Blue Devils scoring attack. Johnny Dawkins and Jay Bilas hit for 15 apiece — for Dawkins, the 41st straight game in double figures.

Marice Martin paced the Hawks with 12 points, while Bob Lojewski and Rodney Blake added 10 each.

Texas Tech 71, Texas-San Antonio 49

LUBBOCK (AP) — Texas

Tech's tenacious man-to-man defense limited high-scoring Derrick Gervin to just nine points as the Red Raiders raced to a 71-49 non-conference basketball victory over Texas-San Antonio Saturday night.

The 6-foot-8 Gervin — the second leading returning scorer among NCAA Division I players with a 23.2 points-per-game average a year ago — scored six points in the first half and only three in the second before fouling out with 8:32 remaining.

(No. 20) Kansas 86, Detroit 64

LAWRENCE, Kan. (AP) — Led by Ron Kellogg's 19 points and a stingy second-half defense, No. 20 Kansas cruised to an 86-64 college basketball victory over Detroit Saturday.

Kansas had taken a 44-36 lead with 13 seconds left in the first half on a string of seven straight points, the first two on a Kellogg layup, but saw it cut in half after two technicals on Coach Larry Brown.

Veteran's day observance

Veteran's day is a national holiday set aside for remembrance of the people who fought and died to save our country and to keep its peace. The Big Spring high school student council officers Julie Miller, Lori Griffice, Sam Gladden, Jim Cowan and Tonya Stevenson held a Veteran's day ceremony over the loudspeaker. The pledge of allegiance was recited, Taps were played and all the veteran teachers of BSHS were acknowledged. A wreath was placed in front of the Memorial plaque to honor all BSHS exes who gave their lives in battle.

Last week, students got out of school early for Thanksgiving and returned Monday to receive report cards once again. Now that Thanksgiving is over, the Christmas spirit is already here. Classes are beginning to plan the

decoration of the door for the annual Christmas door decorating contest. Another contest to be held is the canned food drive.

The Big Spring high school choir held their annual Fall Concert Wednesday in the high school auditorium. Admission was free to the one hour concert, lasting until 9 p.m. There were a variety of musical styles on the program.

On Monday, the Navy provided an education van where students were invited to visit during their lunch hour. A world geography class was accompanied by Virginia Miller who explained, "It's an enlistment type thing. It showed you all of the job opportunities given by the Navy and you even got free book covers and pencils." The van was located across the street from the school in the parking lot.

A representative also came to the government classes last week, promoting all of the career opportunities and advantages of this fast-becoming computer-oriented world we live in. There was a short, informative film shown after a slide presentation. Students were shown how computers are becoming a part of every field.

The newspaper staff at BSHS is preparing a special Christmas issue of the Corral to be given out the last day before the Christmas holidays. Staff members were seen last Thursday doing polls in the cafeteria for Santa Claus letters and New Year's resolutions. Pick up a paper to see what your friends want for Christmas. The annual staff is also busy meeting deadlines, making dummies and quad-packs and taking pictures.

Coahoma studies reform bill

Concerned Texans for Traditional Values met Thursday in Coahoma to study the education reform bill, or House Bill.

Sen. John Montford, who opposed the bill, sent two of his aides, Glenna Lane and Linda Wischkaemper, to answer questions and offer suggestions and information about the bill.

A group representative said the loss of local control was the primary problem members of the group wanted to talk about. The group was also concerned about controls which will be exercised by the State Board of Education.

Parents and teachers expressed concern over students no longer being eligible to attend piano guilds, family functions or church related activities because of a rule about

unexcused absences. Five unexcused absences constitute failure.

Other concerns were extended time in school, discipline and paper work.

Sen. Montford's aides told the group that amendments may be made to the bill in January. The public should inform their legislators of desired changes by Dec. 15.

The next meeting will be in the Big Spring High School auditorium at 7 p.m. Dec. 6. Administrators from area schools will be on hand for a panel discussion and question and answer period.

For more information about the group, call 263-1929, 965-3464, or 398-5506.

Canned food drive slated

Goliad students are doing their part in helping the needy this Christmas. Students are encouraged to bring at least one can of food to school between Dec. 3-7. The cans will then be turned over to the Salvation Army to provide food baskets to needy families of Big Spring.

A special thanks to Mrs. Lee and

Mr. Felty for all their hard work in arranging the Thanksgiving Choir-Band concert. It was enjoyed by the students, teachers and parents.

The Golden Mavericks were treated to an afternoon of skating at the First Baptist Church Wednesday. The second six weeks report cards were handed out on Tuesday. Students should have

them signed by their parents and returned to school. Mrs. Slate will provide a tutoring program in room 115 each Tuesday and Thursday morning from 7:45 to 8:15 a.m.

Sixth and seventh graders walked to the high school on Monday morning to see a musical based on the life of the late, great physicist Albert Einstein.

College budgets may be cut

AUSTIN (AP) — Unless taxes are raised, state universities and colleges could face up to 15 percent budget cuts next year, a budget analyst says.

Jim Oliver, director of the Legislative Budget Board said that \$640 million must be cut at the Dec. 12 budget board meeting to keep the state budget with the projected revenues of \$26 billion for the next two years.

But such large cut, say University of Texas officials, would make it almost impossible for some UT campuses around the state to

operate effectively and would lead to layoffs of non-academic personnel.

The budget board, which includes Lt. Gov. Bill Hobby and House Speaker Gib Lewis, recommends expenditures to the Legislature.

Prisons and mental health are under federal court orders that dictate expensive improvements. Lawmakers also raised taxes this summer for public education and highways and appear reluctant to retreat from those commitments.

Tour features homes in holiday splendor

By TINA STEFFEN
Lifestyle Editor

The Big Spring Symphony Guild's tour of homes not only offers the enjoyment of seeing six homes decorated for Christmas, it offers a chance to view different architectural and interior decorating styles.

The homes of the Travis Brackeens, the Dr. Dickey Stanleys, Mrs. Elmo Wasson, the Jimmy Moreheads and the Ford Farris will be featured in the second annual "Homes for the Holidays" tour, along with the Pottton House. Visitors may visit the five homes from 1:30 to 5 p.m. Afterwards, they may go to the Pottton House for a tour and refreshments.

Tickets are \$7.50 per person and are available at the Big Spring Area Chamber of Commerce, from Guild members or at the homes during the tour. The price includes the tour of the homes, the Pottton House and refreshments.

Dr. and Mrs. Dickie Stanley and their two children live in a five year old contemporary home located near the Big Spring Country Club. Mrs. Stanley's interior design background is evident in her home's interior, which is decorated in peach, sea green and beige. Their Christmas decorations are incorporated into the same color scheme.

The Stanleys wanted to participate in the Christmas tour in order "to help out with the Symphony," Cinda Stanley said. "I enjoy decorating for Christmas, and I enjoy sharing it."

Mrs. Elmo Wasson's Christmas tree sits out in her enclosed patio room and can be seen in the living room through a full-length window. The tree is decorated in cranberry and white, Mrs. Wasson's favorite Christmas colors. Her family usually spends Christmas Eve at her home around the tree and Christmas day at her daughter's home.

Mrs. Wasson lives at 508 Edwards. She has Kelly Draper from Faves Flowers and Joyce Crooker from Mr. G's Nursery decorate her home's interior and exterior annually. "I'm too old and brittle to do it myself. I did it myself for years, but I can't do it anymore," she said. "I'd rather do without something else and have a professional do the decorating."

In addition to the home tour, Mrs. Wasson also will entertain her club friends in her decorated traditionally-furnished home this Christmas season.

The Ford Farris' home, 900 Highland, sets high above others on its street as it is perched upon a hill. The Farris designed, built and decorated the home 2½ years ago. It has a panoramic view of the

city, which is especially beautiful at night or when a rain cloud passes through the city, Farris said.

The Farris thought showing their home in the tour of homes would be fun. "Debney is interested in houses and decorating them," Farris said.

The 3,400 square foot home will be decorated with a Christmas tree, garland, lights at the door and wreaths at the driveway's entrance. Red and antique cream colors will be used in the tree's decorations, along with antique balls and baby's breath throughout and a baby's breath wreath.

The Jimmy Morehead home at 704 Highland features many windows and panels of stained and leaded glass made by Mrs. Morehead. Making stained and leaded glass is one of her loves. Another is decorating for Christmas.

"I love Christmas. I'm a Christmas person," she says. Mrs. Morehead enjoys decorating her entire home for Christmas. "I'd leave it up all year if I could without looking stupid."

In her den, situated by the stairway, is the family Christmas tree decked out in red bows, plastic candy garlands, and sentimental ornaments from the Moreheads' travels and friends. "Everywhere I go, I try to buy an ornament." She has a trolley car from her trip to San Francisco.

"I always have a bird's nest in my Christmas tree to bring good luck," she said. "Years ago when they cut down trees, if it had a bird's nest in it it was a sign of good luck." This summer, she found a little nest in her yard that had blown out of a tree and saved it for Christmas.

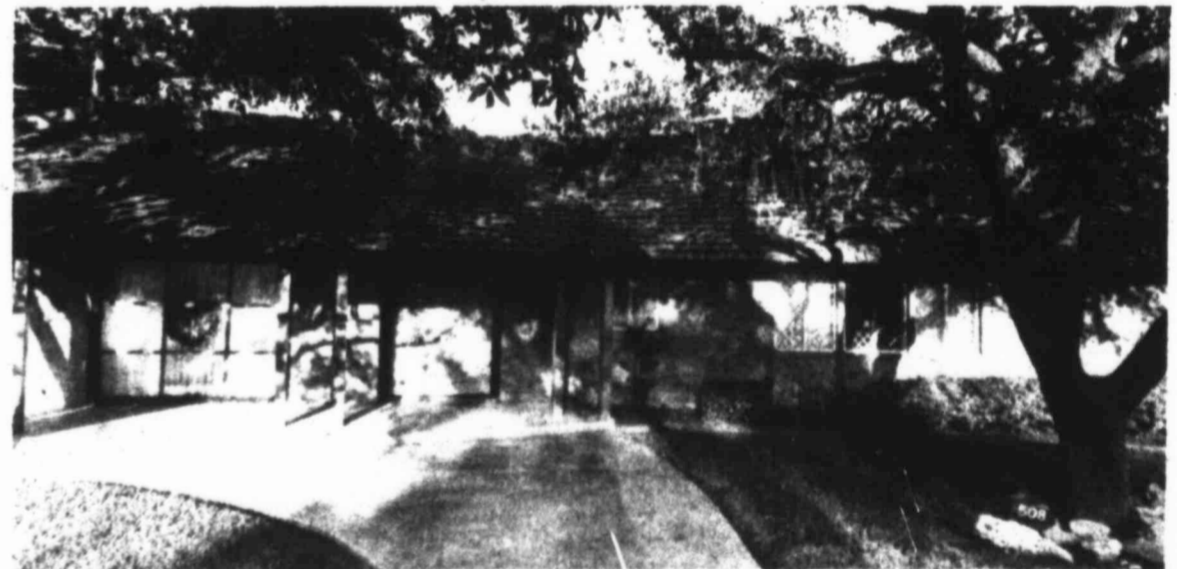

In the Morehead's garden room, a memory wreath hangs on the west wall. It contains mementos of her family's 50 years.

The Travis Brackeens, Country Club Rd., agreed to have their home featured in the tour because they wanted to help the Symphony. "We are supporters, and they asked us," Jackie Brackeen said.

The home, with its Southwestern decor, will be simply decorated in mauve and plum bows, greenery and mesquite reindeer. They will have a Christmas tree outside by the front door and a lighted 28-foot Christmas tree on the balcony outside, which will be noticeable from Country Club road. The tree lights from the bottom up and darkens from the top down. Brackeen claims it slowed down the traffic on Country Club Road last year.

The Pottton House will be open at the end of the home tour from 3:30 to 5 p.m. for refreshments and tours. Weather permitting, Pottton House volunteers will give horse and buggy rides for \$1. The buggy belonged to the Pottton family.

Volunteers will serve wassail, champagne and cheese balls at the decorated landmark.

CHRISTMAS EXTERIOR — Mrs. Elmo Wasson has her home's exterior decorated with wreaths and greenery, accented with red bows and streamers. The Wasson home is located at 508 Edwards Blvd.

'I always have a bird's nest in my Christmas tree to bring good luck. Years ago when they cut down trees, if it had a bird's nest in it it was a sign of good luck.'

WELCOME — Mrs. Jimmy Morehead opens the way for visitors to her home at 704 Highland Dr.

PUT ON THE MUSIC — Jackie and Travis Brackeen ready for guests by putting on light Christmas mood music. Their home is simply decorated with mesquite reindeer, plum and mauve bows and greenery. The Brackeen's Southwestern style home is located on Country Club Road and Brackeen Lane.

IN THE OLD DAYS — Tom Ferguson and Lea Whitehead dress up to see what Christmas must have been like in the days of the Joseph Potttons. They are members of the Pottton House Commission. The Pottton House will be open from 3:30 to 5 p.m. for tours and refreshments as part of the Guild's tour of homes.

County 4-H Food Show date set

4-Hers will match their food and nutrition expertise against each other in the Howard County 4-H Food Show Dec. 8. About 30 youth will compete in senior and junior divisions.

This year's theme is "Building Blocks to Good Nutrition". Entries will be on public display at 5 p.m. at the First Baptist Church in Ackerly.

For the contest, each 4-H entrant will compete on one of four classes, including main dish, side dish,

breads and desserts, or snacks and beverages.

Because the program focuses on nutrition, each contestant will have to demonstrate what she or he knows about nutrition, meal planning, food buying and meal service, as well as preparation techniques.

Senior division entrants are ages 14-19, while junior division youth are 9-13 or enrolled in at least the third grade, and little chefs are youth who are not old enough to be

considered in the youth division.

Howard County 4-H Food Show is sponsored by the Texas Agricultural Extension Service, The Texas A&M University System.

All educational programs conducted by the Texas Agricultural Extension Service serve people of all ages regardless of socioeconomic levels, race, color, sex, religion, handicap or national origin.

Pickle reports on water's scarcity

Water conservation and its impending scarcity was the program topic for the Nov. 15 meeting of the 1985 Hyperion Club.

Joe Pickle, who has been associated with the Colorado River Municipal Water District, prepared a manuscript for the meeting. He was unable to attend and Chesley McDonald of Sterling City presented the material.

"Our number one problem facing the state of Texas is water," stated

Pickle's report. "By the year 2005, Texas will be using more water than it has in total supply. By that time all the practical reservoirs will have been impounded and all the significant well fields or aquifers developed."

Considerable time was devoted to a decision handed down by the Texas Supreme Court regarding Stacy Dam in the Ballinger area, said McDonald. "It appears we not only face a hostile environment

which makes us subject to droughts and water shortages but also to a hostile court that wants to give the lower part of the state all the water that does fall in West Texas."

Water conservation was cited by McDonald as the best means of stretching the meager water supply.

The next meeting will be Dec. 13 in the home of Jessie Nalley.

H. Reagan named 'Hunter of the Year'

By TINA STEFFEN
Lifestyle Editor

FRANCES WHEAT'S father, HORACE B. REAGAN, was honored as "Hunter of the Year", Nov. 20, at the Annual Sutton County Game Dinner in Sonora.

Reagan is a Big Spring hunter who has returned to the Jim Cusenbary Ranch, south of Sonora, for 32 years. JIM CUSENBARY dominated Reagan for the honor because he believes Reagan is "one of the best all-around hunters the country has had."

"He has accomplished and perpetuated more conservation projects than anyone I know," Cusenbary said in a recent San Angelo Standard Times article.

CHARLY MCTEE of KKYX Radio in San Antonio announced the Hunter of the Year award, which is presented annually by the game dinner association, to the hunter or group of hunters who has done the most to improve hunting in Sutton County.

More than 600 people feasted on exotic game at the event, such as bear, bore, venison, buffalo, Barbados sheep, quail, dove, wild turkey, cabrito, and mountain oysters. Hunters add a lot to Sutton County's and Sonora's economy each year, says Sutton County rancher BILL STEWART. "The dinner is primarily to honor the hunters, but it also is a big event for the townspeople."

FELECIA FORD was among 11 semifinalists chosen in a preliminary competition for the Miss Lubbock Scholarship Pageant of 1985 recently. She will compete in the pageant Dec. 8. This is her second year to compete in the pageant. Last year she was among the runners-up.

Should she win, she will compete as Miss Lubbock for the Miss Texas title this summer. Should

she win the Miss Texas pageant, she will compete for Miss America 1985.

And speaking of Felecia, people have been wondering how she did in her Star Search audition in New York. According to her mother, JERRI DUNBAR, the audition was "real good." The Star Search people said they would be in touch with Felecia in five to six weeks. So far the Dunbars do not know the results, and they believe it will be awhile before they hear any news.

COMPARE YOUR BUSINESS (A Management Tool)

Industry standards that allow you to compare your business with others across the nation can be of great assistance to the business manager. They are available from several sources including your own trade association.

One such standard is "inventory turns," determined by dividing the cost of sales for the year by the "average inventory" carried during the year. It's often less accurately determined by dividing the yearly gross sales by year-end inventory. If your business's industry standard for inventory turns is four times per year and you are turning inventory only three times, you should review your inventory to see what stock is not moving and what promotional efforts you might undertake to improve sales. "Inventory turns" significantly below your industry standard indicate that you have too much money invested in inventory in relation to the sales you are producing.

Other commonly used standards include:

1. Gross profit percentages.
2. Current ratio (Current assets divided by current liabilities).
3. Accounts receivable turnover (Net sales divided by average trade receivables).
4. Profit margin on sales (Net income divided by net sales).
5. Rate of return on assets (Net income divided by total average assets).
6. Bad debts related to sales.

Anytime you find a significant difference between your business and the standards, take time to investigate what may be causing the differences and what changes you might employ to improve your net profit.

Weddings

Darden-Davis

The Second Baptist Church in Lamesa was the setting for the Nov. 16 wedding ceremony of Angela Denise Darden and Lonnie Lynn Davis. The Rev. Clifton F. Igo, pastor, officiated at the rite.

The bride is the daughter of Jody Harris of Lamesa and G.A. Darden of Big Spring. The bridegroom is the son of Mr. and Mrs. Floyd Davis of Welch.

The couple was wed before an altar flanked by a brass archway decorated with emerald greenery and orchid ribbons. Two 12-branch candelabra held white wedding tapers with floral arrangements, greenery and orchid ribbons entwined. A brass unity candle with greenery was centered behind the archway.

Leslie Gibson, pianist, Gerry Maule, organist, Dennis Brackeen and Debbie Norris, vocalists, provided music. The bride was given in marriage by her stepfather.

The bride wore a white cotton voile and satin tea-length gown fashioned with several layers of lace and embroidery. The gown was trimmed with a Chantilly lace ruffle, and had Schiffl and tatting interspersed with tiny tucks. A soft gathered ruffle trimmed in lace bordered the tea-length hemline. To complete her ensemble, she wore a matching Victorian picture hat with silk illusion streamers in back.

Denise Davis was matron of honor. Kirk Davis, cousin of the bridegroom, was best man. Nikki Darden, niece of the bride, was flower girl. Bradley Scott of Lamesa was ring bearer. Ushers were Terry Darden, brother of the bride, Zane Ham of Lubbock, and Kiley Gruben of Lamesa.

Following the ceremony, the couple was feted at a reception at the

church's Fellowship Hall. A three-tiered wedding cake topped with a miniature bride and bridegroom figurine was featured at the bride's table. The cake's tiers were centered with tiny lavender rosebuds. The table was covered with a lavender cloth and white lace overlay. It was centered with a navy, mauve and lavender floral arrangement in a crystal vase. The bridegroom's table featured a German chocolate cake. The table was covered with a navy blue cloth and decorated with a navy floral arrangement in a brass vase.

The bride is a graduate of Lamesa High School and American Commercial College. She was employed by Lamesa National Bank. The bridegroom is a graduate of Dawson High School and is employed by Union Texas Petroleum.

The couple is living in Welch.

Hernandez-Rodriguez

Annette Hernandez became the bride of Tony Rodriguez III during a Nov. 24 wedding ceremony at Alberto's Barbecue House. Justice of the Peace Bobby West officiated at the rite before an arch covered with gypsophelia and two seven-branch candelabra intertwined with gypsophelia.

The bride is the daughter of Mr. and Mrs. Jose Hernandez, 3307 Maple. The bridegroom is the son of Mr. and Mrs. Tony Rodriguez, 4215 Muir.

The bride was given in marriage by her father. She wore a formal-length gown fashioned with Schiffl embroidery and Venice lace. The gown featured a molded bodice, sheer yoke and wedding band collar, all accented with Schiffl embroidery, lace and pearls. Her mitten sleeves ended in cuffs trimmed with lace and pearls. The skirt fell from a slightly raised waistline in front and natural waistline in back into a chapel-length train edged with embroidered lace.

The bride carried a bouquet of white roses, lily of the valley, and gardenia.

Annette Rodriguez was maid of honor. Connie Garcia was bridesmaid. Albert Valencia was best man. Gus Ramirez was groomsmen. Nicholas Rodriguez of Adrian, Mich. was ring bearer. Candlelighters were Steve Hernandez and Denita Rodriguez.

Following the ceremony, the couple was feted at a reception at the same location. The bride's table featured a two-tiered cake trimmed with burgundy roses. The bridegroom's cake was chocolate and horseshoe shaped. The table was covered with a white cloth and lace and centered with a 10-branch candelabra. A dance was held at the reception.

Lifestyle guidelines

We will be pleased to announce the news of your engagement, wedding, silver or golden anniversary in the Lifestyle section of the Big Spring Herald. We try to use the story on the date you request, but sometimes space does not permit this.

The information must be submitted to us on a form available at the Herald no later than Wednesday noon before the Sunday it is to be published. The form must include a name and telephone number of a person whom we can reach during the day for more information.

We will use a picture of the couple in the announcements. Or in the case of engagement announcements where a picture of the couple is not available, we will use one of the bride-elect. The picture must be a professional quality studio photograph. We prefer a 5 x 7 glossy black and white print. We ask for this kind of photograph so that it will reproduce well in the newspaper. Following the picture's publication, it may be picked up at the Lifestyle department.

The information for the story may be brought to the Lifestyle department of the Herald, which is located at 710 Scurry. Or it may be mailed to Lifestyle Department, Big Spring Herald, P.O. Box 1431, Big Spring, Texas 79720. Call us at (915) 263-7231 if we can help with more information or clarification of our policies.

ENGAGEMENTS
Information on engagement announcements must be submitted to the Lifestyle department of the Herald anytime after the engagement is a reality until at least three weeks prior to the wedding. Anything closer than three weeks will not be published. The engagement form must be submitted no later than Wednesday noon prior to the Sunday it is to be published.

If the bride-elect, prospective bridegroom or their parents do not now or have never lived in our area, we need to know why you are submitting your engagement to the Herald. If only grandparents live in our area, please, give their names

and addresses.

WEDDINGS
If a wedding writeup is submitted to the Herald after the wedding has occurred, the space allotted to it will diminish according to the length of time that has passed since the wedding.

BIRTHS
Local hospitals supply information for Storichub. If a child is born elsewhere in the newspaper's circulation area, or is born to out-of-town parents with local or area grandparents, please contact the Herald Lifestyle Department with Storichub information.

Information needed for Storichub is: newborn's name, sex, time and date of birth, weight, place of birth, parents' name and address. If the baby is born outside the circulation area but has local grandparents, please include their name and address. The local grandparents serve as the area connection for the information.

Plan may help in getting into savings habit

People who say they "just can't seem to save any money," may need a plan to get in the savings habit, says family finance expert Nancy L. Granovsky.

"Waiting to see if you have any money left over at the end of a pay period is seldom an effective way to save," explains Granovsky, a home economist with the Texas A&M University Agricultural Extension Service.

If you feel uneasy about not saving enough money, either for financial emergencies or long-term goals like a downpayment or your child's college education, take some steps now to develop a savings plan, she advises.

Begin by taking a hard look to see where your money has gone over the last several months. Look at old bills, cancelled checks and credit card statements to decide if all the spending was necessary or whether some of that money could have been saved, says the home economist.

Then overhaul your family budget so some savings money can be set aside each month before you do anything else, recommends Granovsky. Make it a routine, like paying a bill. The amount doesn't have to be large, she says, what matters is that money is set aside regularly.

If your willpower is limited, try a payroll savings plan or have automatic withdrawals made from your checking account, she says.

Also reduce the temptation to spend by separating savings from checking account money. If necessary, put your savings in a different financial institution than the one which handles your checking account.

In addition to getting some money into a savings fund, make sure you put those savings to work for you, Granovsky says. Compare interest rates, and as soon as you have enough saved, move your money to higher paying accounts so your nest egg will continue to grow.

CLEAN COMBS

There is one salon recommendation that almost no one ever follows at home. Combs should be cleaned whenever you shampoo. What good is cleaning your hair if you immediately put dirt and bacteria back into it? Keeping grooming tools clean is especially important for men with oily scalps. The more oil there is on the hair, the more oil that rubs off on the comb, causing the comb to attract more pollution. Soaking combs in dishwashing detergent, rinsing them in water and then with an antiseptic mouthwash does a good and thorough job. If this method seems primitive, swish some shampoo in a small amount of water then drop the combs into the mixture.

Keeping your hair in peak condition requires proper care between visits to the beauty salon. Our job is to know the condition and texture of your hair and how to keep it shiny, soft and manageable. We can help you select a style that will allow you the flexibility to meet your busy schedule looking your best. Call LA CONTESSA for the finest in hair care. We are located at 1508 Marcy. We are available Tues.-Sat. Tel. 267-2187.

Czech pianist to offer master class

The leading Czech pianist, Boris Krajny, will present a Piano Master Class in Big Spring Jan. 12 from 9 a.m. to 12 p.m. and 1:30 p.m. to 3:30 p.m.

This event, sponsored by the Big Spring Piano Teachers Forum, will be in the Chapel of the First Baptist Church, 705 W. Marcy Dr. All area teachers, students and auditors are invited to attend.

Teachers and active participants who want to perform for Krajny's critique must register by Dec. 15. Advance registration applications and fees can be mailed to Mrs. Mary Skalicky, Piano Master Class chairman, P.O. Box 622, Big Spring, Tx. 79720. Fees are \$15 for active participants, \$15 for teachers, and \$5 for auditors.

Boris Krajny, piano soloist of the Czech Philharmonic Orchestra since 1981, is a concert pianist of world-class stature. In 1982, he was awarded the coveted "Grand Prix

du Disque" by the French Academie for the best piano recording of the year.

Boris Krajny will present a piano recital at 8 p.m. Jan. 11 in the auditorium of the First Baptist Church. Admission is \$4 for adults and \$2 for students.

In addition to the Master Class,

Dr. Donohue

Arm curls part of conditioning

DEAR DR. DONOHUE: I've been trying to bulk up my arms for six months, with very little results. I do arm curls every other day and lots of them. But I have added only about a quarter of an inch to my arm circumference. What am I doing wrong? — J.W.

If I get you right, you are doing arm curls only. You're concentrating too much on a single exercise.

For the benefit of other readers, an arm curl is the exercise done with a weighted barbell. The weight is raised by bending the elbows up from the waist to the shoulders. It's an excellent exercise for developing biceps muscles, those to the front of the arms.

But the biceps make up only about a third of total upper arm bulk. The triceps, those muscles at the back of the arms constitute two-thirds of arm bulk or arm circumference. You need exercises for both muscles.

Triceps extensions are good to add to your program. In that, you hold the weighted barbell behind your neck, resting it on your shoulders. With your elbows bent and pointed straight ahead, you then straighten them, raising the barbell over your head. That's only one triceps exercise. There are others listed in any good conditioning book. Try to get an illustrated book, one that shows you all the muscles involved and exercises for each.

DEAR DR. DONOHUE: I am a female volleyball and runner. When I started I had normal periods. After some months I noticed my periods getting less heavy, and they even stopped. I saw my doctor. When she examined me she said there was nothing wrong, only that I had lost too much fat. She said if I eased up and gained some weight back, I'd start being regular again. It was true. The periods returned. Please comment. — Miss P.D.

This is one of the most discussed topics in sports medicine — the association between strenuous exercise and menstrual diminishment. The loss of fat is one explanation for why this happens. A woman has to have a certain amount of body fat to make female hormones. More correctly, she has to have that to activate the hormones she makes.

There's another theory, too. When you exercise you make a brain chemical called beta endorphin. That's the natural, narcotic-like chemical (like morphine) that may account for the runner's euphoria you hear so much about. That chemical inhibits the release of pituitary hormones necessary for a normal menstrual cycle. When activity is great, endorphin production is great and periods decrease.

All of this theorizing is fine, but there is one important point to bear in mind if you're a female athlete to whom this happens. Don't assume that your athletic activity is the cause of any change in periods. There are too many other conditions that can affect a cycle, and homemade assumptions are not trustworthy.

DEAR DR. DONOHUE: If an athlete suffers from leg cramps

does that mean he has depleted his electrolytes and should take a supplement, like salt tablet? — C.G.

No one can be definite about the cause of muscle cramps. Hot days and dehydration are certainly common settings for their development. So is fatigue and sudden bursts of speed.

A cramp is a violent and sustained muscle contraction. Muscles contract on signal from nerves and that signal depends on minerals in and around muscle cells — sodium, potassium, and calcium. But it's never been shown that depletion of

any of those minerals sets up the actual cramp.

Salt (sodium) tablets are not a preventative. Stretching the muscles prior to activity will help minimize cramping. So will a gradual warm-up of muscles, as will proper nutrition to assure that muscles don't run out of stored fuel.

Dear Abby

Hotline gives teens, parents another chance

DEAR ABBY: Because you advertised the Runaway Hotline last November, our 15-year-old son came home to us after being on the bum for five months. We didn't know if he was living or dead.

Please run the same column again before the holidays for the thousands of runaway kids who really want to come home but are ashamed to make the first move. Thank you.

DANNY'S MOTHER IN ST. PAUL

DEAR MOTHER: Here it is: DEAR ABBY: Our problem daughter, not quite 17, ran away from home 14 months ago. She had been giving us a rough time for about a year — skipping school, staying out late and lying to us constantly. After a noisy scene, she stormed out of the house with only the clothes on her back. We didn't have a clue as to where she went.

Only a parent who has lived through this kind of nightmare can realize what we went through. After a year of heartaches and sleepless nights, we were told by police to give up and assume she was dead. But parents never give up. We continued to search and hope and pray that she'd return to us one day.

Well, our prayers were answered when, out of the blue, we received a telephone call from someone who said he was a volunteer with Runaway Hotline (formerly Operation Peace of Mind) in Houston. (We live in Michigan.) We were told that our daughter had read of the toll-free number in "Dear Abby" and she wanted to let us know that she was well and happy in Fort Lauderdale, Fla. The volunteer said our daughter would call him again on the following morning in

case we had a message for her.

We told him we would welcome a collect call from her. Sure enough, she called us the next day! She sounded wonderful and said she was working and was going to night school to finish her education. This story has a happy ending. Our daughter is coming for Christmas!

Abby, will you please publish that toll-free number again so other runaway kids can establish communications with their families? Our daughter said that she had seen your column with the number posted near telephones where runaways hang out.

We will never be able to thank you enough for giving us the happiest holiday we've ever had!

GRATEFUL IN MICHIGAN DEAR GRATEFUL: Runaways, call this toll-free number: 1-800-231-0946. If in Texas, use this number: 1-800-392-3352.

An operator will take your call and telephone your parents anywhere in the United States with a message from you. There will be no lecturing or recriminations. Your call will not be traced. And only one question will be asked: "Do you need anything?" If you do, you will be told where to get it,

free. I repeat, no attempt will be made to contact you or bring you back home — regardless of your age.

If you are a runaway, I beg you to forget the past and send a message to your parents now. They will sleep better tonight and so will you. And you will all have the best holiday season you've had in years. God bless you.

ABBY P.S. Runaway Hotline was established 11 years ago by a handful of public-spirited volunteers with the support of the governor of Texas. To date it has placed over 700,000 calls from runaways.

New Grapefruit 'Super Pill' Gives Fast Weight Loss

No Dieting - Eat All You Want Pill Does All the Work

BEVERLY HILLS, CA. (Special) An amazing new "super" grapefruit pill has recently been developed and perfected that reportedly "guarantees" that you will easily lose at least 10 pounds in 10 days. Best of all, it allows you to "eat as much as you want of your favorite foods and still lose a pound a day or more starting from the very first day until you achieve the ideal weight and figure you desire."

This "super" grapefruit pill is a dramatically improved version of the world famous grapefruit diet. It is far more effective than the original and eliminates "the mess, fuss, and high cost of eating half a fresh grapefruit at every meal."

"Pill Does All the Work"

According to the manufacturer, "the pill itself does all the work while you quickly lose weight with NO starvation "diet menus" to follow, NO calorie counting, NO exercise, and NO hunger pangs." It is 100% safe. You simply take the pill with a glass of water before each meal and the amazing combination of powerful ingredients are so effective they take over and you start losing weight immediately.

Pill Has ALL Daily Vitamins

The powerful and unique combination of ingredients are what make this a "super-pill". It contains highly potent grapefruit concentrate and a diuretic to help eliminate bloat and puffiness. No need to take any vitamins to maintain your good health and energy. The pill is fortified with ALL (100%) of the U.S. Government daily vitamin requirements.

Contains Japanese 'Glucosannan'

Each pill also contains an amazingly effective amount of "glucosannan", the remarkable natural dietary fiber discovery from Japan (used successfully for over 1500 years) that expands in your stomach and gives you a full and satisfied feeling all day long.

The super-pill is already sweeping the country with glowing reports of easy and fast weight loss from formerly overweight people in all walks of life who are now slim, trim, and attractive again.

Now Available to Public

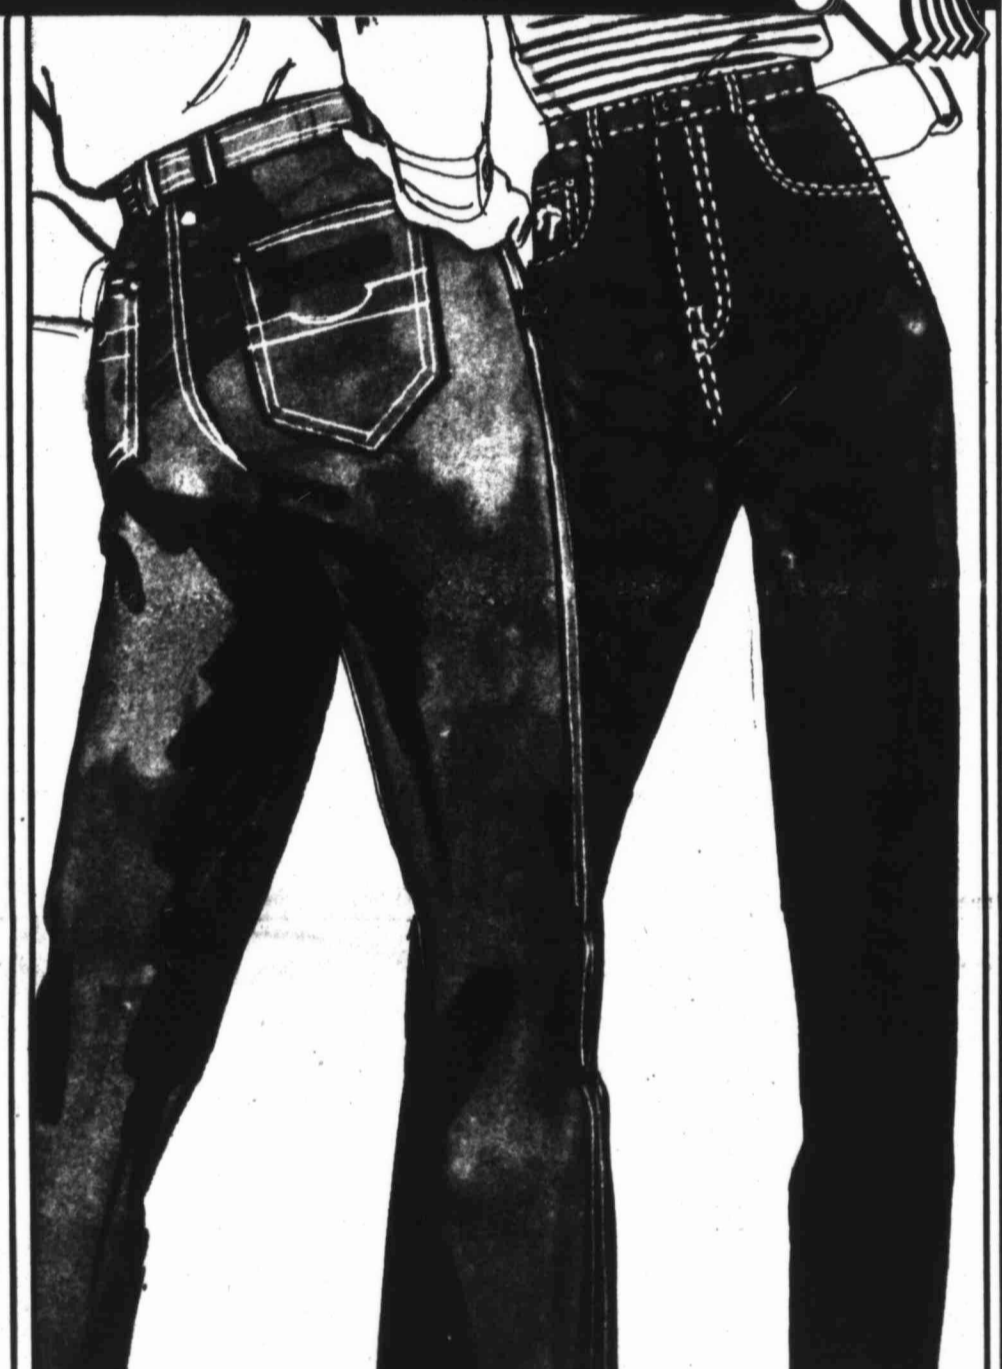

You can order your supply of these highly successful "super" grapefruit pills (now available directly from the manufacturer by mail order only) by sending \$12 for a 14-day supply (or \$20 for a 30-day supply, or \$35 for a 60-day supply) cash, check, or money order to: Citrus Industries, 9903 Santa Monica Bl., Dept. 842., Beverly Hills, Calif. 90212. Safe holiday season begins with fresh tree

Over 30,000,000 homes will enjoy a real Christmas tree this year. The best advice for maximum enjoyment and safety is to select a fresh tree and keep it fresh.

To select a fresh tree, lift the tree a few inches off the ground and drop it on its stump. Very few of the green needles will drop off a fresh tree. Also, the green needles when flexed between your thumb and forefinger should bend rather than break.

If you can purchase from the grower and cut your own tree, or have a tree shipped direct from the plantation to your home, you will be assured of a fresh tree.

To preserve your tree, keep it in a cool area out of the wind and sun. Be sure to keep it in water at all times while stored and in use. Before placing it in water, make a fresh cut completely across the stump about one inch from the bottom to allow the tree to absorb water freely. Do not remove the bark from the base of the tree — this prevents the tree from taking in water.

If you have lights on your tree, do not leave them on for extended periods of time. Never leave the lights on if you are not home.

Following these simple rules should ensure a safe and enjoyable tree for this holiday.
