After a considerable discussion Texas lines could not be blamed. Plunkitt.-Dallas News. There the matter was permitted to drop. Just why the Railroad Commission arrogated to itself mission to mean that they can they anticipate, but the proploye is asked about the arrival much, and the money spent with of a train he finds the question them is put in circulation at home, ally grow into hours before the une. train arrives. On two occasions lately this road has kept large udiances waiting for hours at the Dallas opera house on its delayed trains. It makes no difference to what inconvience and annoyance the people of Texas are put, so long as a few passengers from other states make connection. This question of delayed trains is getting to be a serious one. The Railroad Commission should reconsider its action. It should make roads run their regular trains on scedule time and if the roads are so anxious to make outside connections they should run specials. The Commission should make this particuar road, which has become such a great offender of late, change its time-worn, meaningless motto from "No trouble to answer questions" to "No trouble to run train on time" and it should be made to live up to that motto.-Times-

About Charlie Ross.

A great many people are under the impression that the fate of Charlie Ross has never beer revealed, but according to statement recently made by Senator Plunkitt in the New Yorl Legislature, this is a mistake The facts as set forth by the New York Senator confirm the story published by the press long | West Texas stockmen. ago. However, as the Senator based his statement on knowledge obtained at first hand, the facts are interesting in their repetition. According to his statement, Charlie Rross was abducted by New York river thieves-a notorious ruffian named Mosher and his companion. The former hired the wagon in which the boy was placed, near his father's home in New York, and drove it to Philadelphia to destroy an important clew. The wagon was driven about thirty miles out of Philadelphia and was there abandoned. Mosher and his companion, accompanied by their victim, are going to place our paper be- cell taking passage on the train for fore every reader in the county.

Charley Lockhart, county reasurer of Scurry county came lown yesterday with the Snyder delegation and attended the opera. He is the smallest county officer in Texas, and as he was boarding the conveyance to return home this morning, quite a crowd gathered, to size up the midget, and made a noticeable scene. This young man doesn't often visit here, but is known by a good nany of our people and regarded as a very clever and intelligen ellow. He is less than four feet high, but has head and body a well developed as the average man. He is rather handsome and those who know him say he as a social side that makes him ha'e fellow well met.
