## Salvation Army facility may be used

### Outreach center discussed

By SCOTT FITZGERALD  
Staff Writer

A decision regarding the location of a proposed activities center for outreach patients from Big Spring State Hospital may be reached by next week.

An 11-person hospital advisory board will have two options to consider during its Nov. 6 meeting. The choice is between renting building space at 116 E. Third St. and the neighboring building, or locating the center in the present Salvation Army building at 308 Aylford St.

Captain Carroll Braun of the Salvation Army attended Wednesday's noon meeting at the state hospital to tell concerned merchants, persons from the hospital's outreach program, and some hospital board members that an advisory board from the Salvation

Army would consider offering space at the Salvation Army building, rent free.

Someone would have to assume financial responsibility for utility costs, he later said.

The proposed space, located on the bottom floor of the facility, would be temporarily available every day of the week except Sundays and Tuesdays until the Salvation Army relocates to its new building. The space presently serves as a youth activities hall, Braun said.

He later explained that he discussed the matter with some Army board members, after being notified of the meeting, by Downtown Coordinator Teri Quinones, a few

hours before it began. The offer would have to be formally approved during the army's board meeting on Nov. 7, he said.

The hospital board has previously entered into an oral agreement with local bondsmen/property owner Danny Heckler to rent building space at the East Third Street locations for \$350 per month.

Howard County commissioners approved a motion during their Monday meeting to allocate \$350 of county funds per month for building rental fees.

Braun also said at the meeting more space would become available in March at the Aylford Street building, because the Salva-

tion Army would be relocating then at its new facility on the southeast corner of Fifth and San Antonio streets.

"Here in West Texas, a fellow's word is his bond, and I don't like to give my word and go back on it," said Jack Stovall, state hospital director of community programs, about the board's prior agreement with Heckler.

He said the dilemma involving location of the activities center was further compounded by county commissioners assuring and taking action on providing funds for building rent to Heckler's offer made last month.

Heckler said he was not opposed in any way to the proposed activities center. He also voiced his interest in renting space in his East Third Street buildings, because he owes delinquent taxes on the structures.

### Halloween buddies

Don Coppock, left, and Gerald Sheid pose in their disguises with a skeletal friend inside the haunted house at the Canterbury Retirement Center. The facility is located at 1700 Lancaster and will be open Friday 6-9 p.m. for children to come trick-or-treating.

## Arabia's top OPEC powerbroker ousted

RIYADH, Saudi Arabia (AP) — Sheik Ahmed Zaki Yamani, OPEC's principal powerbroker and the architect of Saudi Arabian oil policy for almost a quarter century, has been fired as oil minister, the government announced today.

The official Saudi Press Agency, in a terse statement issued before dawn, gave no reason for Yamani's dismissal, but said he had been replaced by Planning Minister Hisham Nazer.

Nazer, considered a key minister in this kingdom of 11 million peo-

ple, is thought to have close ties to the royal family but little else is known of him.

Saudi Arabia is the world's largest oil exporter. Oil analysts said Yamani's dismissal could profoundly affect short-term oil prices.

There had been rumors the 56-year-old Yamani was ill and on the outs with the royal family, and that King Fahd had been making key oil policy decisions in recent months.

But there had been no direct

evidence Yamani was in danger of losing his job.

He had been responsible for Saudi oil policy since 1962, and is considered the architect of the 1973 Arab oil embargo that triggered the first major oil price rise and reshaped the world economy.

Yamani's tenure made him the longest-serving oil minister in the Organization of Petroleum Exporting Countries, which Saudi Arabia helped create in 1960.

His whereabouts were not immediately known. He was last seen

at a Cabinet meeting Monday, summing up OPEC's Oct. 6-22 meeting in Geneva, where the cartel agreed to extend interim production curbs through Dec. 31.

The 13-nation oil cartel has scheduled a meeting Dec. 11 to try to line up a new production-sharing agreement, or quotas for members.

From a price of \$30 a barrel in December, oil fell to less than \$10 a barrel by late spring because of overproduction. It since has crept up to between \$14 and \$17 per

barrel.

In recent statements Saudi Arabia has made it clear it will demand an increase in its own production quota of 4.35 million barrels a day, about a quarter of the cartel's total output.

Yamani carried an aura of power and influence at OPEC meetings that made him stand out among his colleagues. Dressed in tailored Western-style business suits, he moved quietly about a room and commanded attention with quiet, measured tones.

## Spook day declared

Mayor Cotton Mize, in cooperation with the Big Spring Independent School District, has proclaimed Saturday official Trick or Treat Day in Big Spring, from 5:30-7:30 p.m.

Citizens of Big Spring who wish to participate should display an outside porch light. Drivers are asked to be extra cautious.

The decision was made because Halloween falls on a Friday this year, and activities could conflict with the football game between the

Big Spring Steers and the Monahans Lobos.

Trick or treating is a traditional activity for Big Spring children and it deserves its own separate evening, a mayoral proclamation states.

Because Central Standard Time is in effect, darkness will occur at 6 p.m., the proclamation states, and an official trick or treat time will contribute to participants' safety.

Scenic Mountain Medical Center will X-ray candy from 6 to 9 p.m.

## City not to take bids

The Herald was in error when it reported Wednesday that the city council appointed councilmen Russ McEwen and Johnny Rutherford to negotiate with ambulance service bidders.

Actually, the negotiations will be with Lee Ambulance owner Charles Ginn, said City Manager Mack Wofford.

McEwen and Rutherford had indicated at the council meeting Tuesday night that the period of time until Dec. 1 isn't sufficient to obtain a quality ambulance service. That is the ending date of the contract extension between the city and Lee Ambulance.

The council decided not to bid the contract at this time, and hasn't decided if it will go to bid, although specifications have been presented by Fire Chief Carl Dorton, Wofford

said. "They felt that with a Dec. 1 deadline, it might pose some problems," he said. "Although it could have been done legally, it (the time factor) could inhibit some other bidders," who would have to come to town, set up shop and be in business by Dec. 1.

Ginn has said if no agreement has been reached by Dec. 1, he won't leave the city without ambulance services. However, he doesn't want another extension under the same contract, Wofford said.

A new contract could have different terms, he said. Wofford and Dorton had asked Ginn to extend the contract until Dec. 31, but the ambulance service owner replied that his employees shouldn't "be left hanging."

## Cable TV channel undergoes change

By SPENCER SANDOW  
Staff Writer

Big Spring Cable TV Channel 5, KERA from Dallas, has been replaced with KOCV from Odessa as of Monday, said systems manager Larson Lloyd.

Lloyd said he hopes the change will be temporary. Both KERA and WFAA are brought to Big Spring and surrounding cities by West Texas Microwave. Lloyd said he was told the company is replacing a faulty transmitter at the Spade Ranch near Abilene.

The transmitter is the relay station which broadcasts the channels to this area, as well as Sweetwater, Snyder and Colorado City.

WFAA has been disconnected since Sept. 20. Country Music Television has been broadcast in its place. Lloyd said he has been told it will be rebroadcast beginning today.

However, the possibility exists that KERA will not be rebroadcast, he said.

"Because we weren't sure what they (West Texas Microwave) are doing, we went ahead and started

looking at alternatives" to KERA, he said. Keeping a public broadcasting station is a high priority, he said. In addition to the popularity, many schools use PBS programs.

Big Spring Cable has been broadcasting KOCV because its programming is similar to the other PBS station. Lloyd is seeking public comment about the Odessa station.

WFAA has been a point of negotiation between Big Spring Cable owners and the microwave company since last fall. At that time, the microwave firm threatened to cease broadcasting the station.

West Texas Microwave officials said then that the company lost a lease on a Sweetwater relay station.

Later, after a grass-roots petition drive to continue transmission of the station, the company offered to continue the service, but at a higher rate.

West Texas Microwave is the only firm which broadcasts WFAA and KERA to West Texas, Lloyd said.

## Answer filed in Shigella suit

By SCOTT FITZGERALD  
Staff Writer

ODESSA — A Midland attorney has filed an answer denying all allegations claimed in a Sept. 26 civil suit petition that names a Big Spring restaurant owner as plaintiff.

James Boldrick of Midland also demands that Sherman Cox and Gary Cox doing business as Taco Villa and Texas Burger, give strict proof to their claims that Creative Food N' Fun Co., Comark, et al (and others) is contributing to the financial decline of Texas Burger and Taco Villa restaurants owned by the Coxes.

Together they own and operate a Taco Villa franchise operation in Big Spring, a Taco Villa franchise operation in Snyder and a Texas Burger restaurant in both Midland and Big Spring.

The suit petition was prompted by an outbreak of shigellosis in the Permian Basin region during the latter part of August and early September.

Health officials in both Ector and Midland counties confirmed a few days before the suit was filed that persons who suffered from shigellosis had contracted the virus by eating contaminated lettuce distributed by Comark in either the Odessa Taco

Villa, Chili's in Midland or Texas Burger in Midland between Aug. 29 and Sept. 6.

Howard County's only confirmed case of the illness involved a woman who had eaten a salad at the Big Spring Taco Villa during a nine-day risk period that ran from Aug. 29 and Sept. 6, said County Sanitarian James Luck.

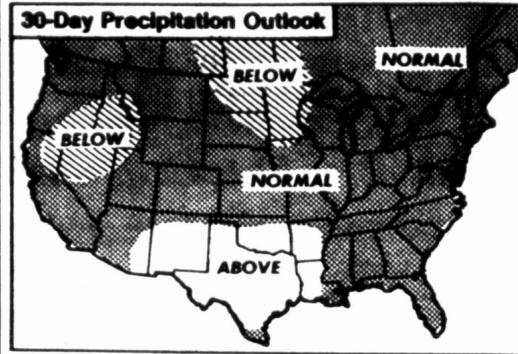

The petition also claims that additional suits are "foreseeable, against a Comark employee, individually, at least one member of the area broadcast media, and potentially against an area county government due to the actions of an elected official." The suit did not identify those potential defendants.

A spokeswoman from attorney Gary C. Riley's office in Odessa, said this morning that no other suits had been filed resulting from the Coxes' original petition.

Riley has been retained by the Coxes as their legal representation.

The petition claims that the Coxes have suffered economic damages that exceed \$100,000 and that jurors reward them an unspecified amount of additional money.

## Area briefs

### Antlerless deer permits available

Antlerless deer permits for Howard County, issued Monday, Oct. 27 at the courthouse remain available.

The Texas Parks and Wildlife Department announced that the issuance of the permits will continue for this season's hunting. To qualify, a landowner must own or control acreage equal to at least one-half of the permit issuance rate of the compartment where the tract is located.

In order to obtain such a permit, hunters now must visit the courthouse of neighboring counties when the permits are distributed at those locations. Issuance dates for other counties include: Nov. 3, Glasscock and Sterling Counties; Nov. 5 and 6, Mitchell County.

### County Horsemen meet Monday

The Howard County Youth Horseman Club will meet at 7 p.m. Monday at the club arena on Garden City Highway. Anyone interested in horses is invited.

### Photographers' show postponed

The professional photographers show that was to be underway in the Howard College Library has been postponed, according to Elizabeth Taylor, manager of the Convention & Visitors Bureau for the Big Spring Area Chamber of Commerce.

The show has been rescheduled for Nov. 17-23. For more information, contact the Chamber office at 263-7641.

### Horsemanship clinic Nov 15-19

Ray Hunt will conduct a horsemanship and horse training clinic Nov. 15-19 at the Big Spring Rodeo Bowl. Classes are for children and adults, beginning and advanced.

Hunt teaches colt training by putting the rider on an untrained animal with no bridle or harness, said Jon Hillman, organizer.

The method allows the rider to communicate more effectively with the animal, rather than trying to control him, he said.

"It makes a world of difference," he added. "They respond and communicate a whole lot better the first time."

The colt training class will cost \$300, and a horsemanship class will cost \$250. A \$50 deposit is required. Spectators may attend for \$10 a day, and stalls rent for \$5 a day.

For more information, contact Jon or Kim Hallman, Garden City Route Box 134, Big Spring; or phone 263-0753.

## Crash details revealed

WASHINGTON — Federal investigators are revealing new details about the collision of a jetliner and a small plane near Los Angeles, but the revelations are not expected to answer whether a flight controller should have noticed both planes and sounded an alarm.

The National Transportation Safety Board was scheduled to release documents today in its investigation into the Aug. 31 accident, including a transcript of the cockpit voice recording which is expected to shed light on the last seconds aboard Aeromexico Airlines Flight 498.

The cockpit tape will "curtail speculation" about the significance of the controllers' distraction with a third airplane, said one source, suggesting the collision might have occurred as much as half a minute before the controller became embroiled with the intruding aircraft, a Grumman AA5 bound from Fullerton to Van Nuys.

## Waldheim aided Nazis

WASHINGTON — Austrian President Kurt Waldheim ended months of denial by acknowledging he had played a role in a brutal Nazi "pacification" operation that cost thousands of lives in Yugoslavia, according to reports published today.

Waldheim, the former U.N. secretary-general, had denied in a 13-page memo sent to The Washington Post in April that he was involved in the 1942 operation, staged to remove all 80,000 residents, including 3,500 armed partisans, from Kozara, a mountainous area of Yugoslavia.

## Gorbachev plans tour

WASHINGTON — Mikhail Gorbachev plans to visit Mexico and several other Latin American countries in what appears to be the most ambitious diplomatic initiative ever by a Soviet leader in the Western Hemisphere, administration officials say.

In addition to Mexico, Gorbachev tentatively plans next spring to visit Cuba, Moscow's closest ally in Latin America, as well as Brazil, Argentina and possibly other South American countries, the officials told The Associated Press.

## Boston divided

BOSTON — A campaign to carve 12.5 square miles out of the heart of Boston and make it an independent city named after Nelson Mandela has split minority politicians, raised editorialists' doubts and created a new concern for Mayor Ray Flynn.

The secession question will appear on the Nov. 4 election ballot in the city, but the voters' decision on whether to rechristen the inner city for South Africa's imprisoned black nationalist leader will be non-binding.

# Shootings

## Religious sect tied to fatalities

OPA-LOCKA, Fla. (AP) — Two people were fatally shot at an apartment complex purchased by a religious sect which this week began evicting tenants, police said today.

Twenty police units arrived on the scene after the shooting to find an angry crowd of approximately 60 tenants, but the streets were back to normal before dawn, said Metro-Dade Lt. Robert Brown.

A busload of tenants, mostly women and children, took the city up on an offer of shelter at a nearby center. Others left in their own cars.

Brown said the shooting victims were believed to be tenants who had loudly criticized members of the Yahweh sect, which planned to empty the five buildings.

One of the victims, Anthony Brown, died before he could undergo surgery at Jackson Memorial Hospital, said Bruce Fresko, administrator on duty. The other victim was dead at the scene. His identity was not disclosed.

One person, believed to be a Yahweh, was held for questioning, Brown said.

A woman who answered the telephone early today at the Yahwehs' Temple of Love Inc., refused to give her name, and responded to all questions, "We don't have any information."

The sect believes American blacks are the true descendants of the biblical tribe of Judah, living in the land of the "white devil."

Temple of Love Inc. assumed a \$480,000 mortgage on the drug-ridden complex Monday, and planned to maintain the buildings, recently assessed at \$710,000, said John Martin, one of the former owners.

The Yahwehs, who assumed the mortgage after the former owners decided the complex was too drug-ridden to be profitable, arrived Tuesday in six buses, and began telling tenants to leave, according to police and Martin.

The white-robed Yahwehs pro-

Residents of an Opa Locke, Fla., apartment react after learning that the second of two men shot at the complex early Thursday morning had died at a hospital. The other victim died on the scene. The shootings followed the takeover of the apartment complex by the Yahweh religious sect after the former owners declared the buildings to be too drug-ridden to be profitable.

gressed from knocking on doors to moving furniture out of apartments Wednesday, police said. A volley of shots was fired nearby but no one was hurt that time. It was not clear if the shots were connected to the eviction effort, police said, and no suspects were caught.

The Yahwehs said they are only cleaning unoccupied apartments. Residents claim they have moved furniture from occupied apartments as well.

Mayor John Riley on Wednesday ordered police to protect residents' rights, saying the Yahwehs need a court order and 60 days' notice to evict renters.

## Hasenfus goes on trial

MANAGUA, Nicaragua — A revolutionary tribunal today weighed prosecution evidence against U.S. mercenary Eugene Hasenfus, ranging from what Nicaragua says is a card giving him access to a military base in El Salvador to an Arkansas fishing license.

Sandinista prosecutor Ivan Villavicencio handed evidence one piece at a time Wednesday to the secretary of the People's Tribunal, made up of a lawyer, truck driver and laborer.

Villavicencio also asked the tribunal of the leftist Sandinista government to view the videocassette of an interview Hasenfus gave to the CBS program "60 Minutes."

The program, translated into Spanish, was shown on Nicaraguan television. In the interview, Hasenfus said he believed he was working for the U.S. government.

## France denies report

PARIS — The French government today denied a published report that, aided by Syria and Algeria, it negotiated a truce with a Lebanese terrorist clan implicated in a wave of bombings in Paris.

France has "no contact, no negotiations with terrorists," said Denis Baudouin, a spokesman for Premier Jacques Chirac. "We categorically deny it."

Syrian officials said the secret services of the two countries are cooperating to prevent terrorist attacks in France.

The French interior minister said the two countries planned to cooperate on security matters in the future.

## Falklands at issue

BUENOS AIRES, Argentina — Argentina and Britain both promised to use force if necessary to assert what they claim to be their rights to waters around the Falkland Islands, the scene of a war between the two countries in 1982.

Britain on Wednesday declared a 200-mile fishing zone around the islands, which it retook from Argentine occupation forces after a 10-week battle that killed about 1,000 men.

Argentine President Raul Alfonsin rejected the British move as a provocation and an encroachment on Argentine sovereignty.

## Computer market down

LONDON — "Big Bang," the London stock market's historic switch to high-powered computer technology, has so far been more like a big bust.

Press reports today described growing lack of confidence in the computerization of the 250-year-old market, which sputtered along three days after its much-heralded startup.

The \$112 million system, dubbed the Big Bang for its presumed cataclysmic effect, has been constantly breaking down.

## 99th Congress completes task

How to describe the 99th session of Congress? Was it a noisy and fractious melodrama with everything wrapped up nicely at final curtain?

Was it a huffing, puffing little engine that could — once it struggled to the top of its daunting legislative agenda and glimpsed mid-term elections just down the track?

Was it "Rawhide," with drovers Dole and O'Neill overcoming storm and stampede, infighting and impasse, to get the herd to Dodge on time?

However we describe the complicated, messy and often frustrating exercise in democracy that came to an end earlier this month, we have to admit that much was accomplished.

On the domestic front, for example, Congress gave final approval to a massive tax-reform package, which the president has signed.

It passed a landmark immigration bill, the product of a decade's work. It sent to the president legislation expanding a national effort to clean toxic wastes at a cost of \$9 billion, as well as a bill to extend the Clean Water Act for eight years and to provide \$18 billion for sewage treatment.

Lawmakers also tried to confront the nation's drug problem with a bill authorizing \$1.7 billion worth of anti-drug enforcement and education programs.

In foreign affairs and national security, Congress took upon itself the task of dealing with South Africa, after the Reagan administration was reluctant to impose sanctions.

It also pushed the administration to disassociate itself from the Marcos government in the Philippines. And it began to take an interest in arms-control issues when the administration seemed less than enthusiastic about reaching an agreement with the Soviets.

Much remains to be done. The budget deficit, of course, is the most pressing problem that's not going away. Congress used "smoke and mirrors" to pretend to meet Gramm-Rudman deficit-reduction targets, but we're further from a balanced budget than ever. Economists predict a deficit of about \$172 billion next year.

Next year, says Senate Majority Leader Bob Dole, R-Kan., "we won't be able to avoid being serious about the deficit."

That has a certain ring of "Gone With the Wind" procrastination to it, though we hope Dole is right. If he is, we'll see a new 100th Congress — and the Reagan administration — giving serious consideration to a realistic combination of budget cuts and tax increases. Smoke and mirrors just won't do.

### Today in history

Today is Thursday, Oct. 30, the 303rd day of 1986. There are 62 days left in the year.

Today's highlight in history: On Oct. 30, 1938, Earth was invaded by Mars, or so it seemed in the radio play "The War of the Worlds," starring Orson Welles. The CBS broadcast, which employed fake news bulletins, caused panic among listeners who thought the invasion was real.

On this date: In 1735, the second president of the United States, John Adams, was born in Braintree, Mass.

In 1885, poet Ezra Pound was born in Hailey, Idaho.

In 1941, the U.S. Navy destroyer "Reuben James" was torpedoed off the coast of Iceland by a German vessel, even though the United States had not entered World War II.

In 1945, the U.S. government announced the end of shoe rationing.

In 1953, Gen. George C. Marshall was awarded the Nobel Peace Prize. Dr. Albert Schweitzer also received the Peace Prize for 1952.

In 1961, the Soviet Union tested a hydrogen bomb with a force estimated at 58 megatons.

In 1961, the Soviet Party Congress unanimously approved a resolution ordering the removal of Josef Stalin's body from Lenin's tomb in Red Square.

In 1972, the worst U.S. rail accident in 14 years occurred when an Illinois Central Gulf commuter train collided with another train in South Side Chicago during the morning rush-hour, killing 44 people.

Ten years ago: With the 1976 presidential campaign winding to a close, President Gerald R. Ford appeared in Houston while Democrat Jimmy Carter stumped in New Orleans.

Five years ago: Treasury Secretary Donald T. Regan told the Senate Budget Committee that President Reagan's goal to balance the federal budget in 1984 was "not probable."

One year ago: The space shuttle "Challenger" blasted off from Cape Canaveral with a crew of eight aboard. (One of the spectators who witnessed the launch was New Hampshire schoolteacher Christa McAuliffe.)

Today's Birthdays: Movie director Louis Malle is 54. Movie director Claude Lelouch is 49. Rock singer Grace Slick is 47. Actor and executive producer Henry Winkler is 41.

Thought for Today: "Show me a thoroughly satisfied man — and I will show you a failure." — Thomas Alva Edison (1847-1931).

## Federal Building officials fight to keep embassy work

By JACK ANDERSON and JOSEPH SPEAR  
WASHINGTON — Some influential members of Congress are so disgusted with the performance of the State Department's construction specialists that they want to turn the \$3 billion job of building new, terrorist-proof American embassies over to the Army Corps of Engineers.

As the traditional executor of congressional projects, the Corps has many friends and much influence on Capitol Hill — something that can rarely be said about any subdivision of the State Department.

So far, the only objection outside of Foggy Bottom was a Senate staffer's jocular concern that the Engineers might "build embassies that look like dams."

Among those seriously considering the Army Engineers as saviors of the chaotic building program is Rep. Jack Brooks, D-Texas, chairman of the House Government Operations Committee and of its Legislation and National Security Subcommittee, which has direct responsibility for the costly effort to make embassies less vulnerable to terrorist attack. The Senate Foreign Relations Committee is also considering the Engineers option.

Officials in the State Department's Foreign Building Office are "fighting like hell to hold on," in the words of one congressional source. But the FBO has the State Department's own inspector general to contend with — and he has made some scathing critiques of the FBO bureaucrats.

For example, in one internal report obtained by our associate Lucette Lagnado, the inspector general offered this biting summation: "FBO construction projects continue to experience a myriad of systemic problems that have resulted in excessive costs to the U.S. government. Many of these problems could have been avoided by better construction management. ... (The FBO) has no assurance that funds appropriated for construction are adequately

Jack Anderson

safeguarded from waste, fraud and mismanagement."

As just one of many examples, the inspector general's auditors cited a 26-unit apartment building for embassy personnel in Hong Kong. It was four years behind schedule and was plagued by endless problems of substandard workmanship.

While the \$7.2 million building was under construction, "potential occupants of the units (were) living in leased quarters costing approximately \$50,000 per month," the report stated. Rental costs caused by the construction delays totaled \$1.7 million at the time of the report last year. The project has finally been completed.

The inspector general's sour view of the FBO is no recent development. In another report four years ago, the inspector general observed that, to do its job right, the FBO "should have complete information on the nature of the overseas property universe, including numbers of properties, their condition and their contents." The report added: "It does not."

The auditors expressed "fundamental doubts about FBO's capacity to engage in either effective real property management or policy planning." This criticism, it should be noted, came long before the Foreign Buildings Office was given the additional job of building dozens of new embassies around the world.

In an apparent effort to forestall congressional action that would

strip away its embassy construction responsibilities, the FBO recently advertised for and selected outside "program managers" who might take over the chore of supervising embassy construction. But congressional critics are skeptical.

The "privatization" option is an attractive one, but the critics suspect the FBO's tentative step in that direction is simply window dressing, and that the bureaucrats have no intention of relinquishing ultimate control over the construction projects.

CLOUDED FORECASTS: A General Accounting Office study of economic predictions over the last six years concludes, that the Reagan administration's repeatedly inaccurate forecasts were not the result of rigging for political purposes.

The GAO decided that the cracks in the administration's economic crystal ball were simply the result of incurable over-optimism and old-fashioned incompetence.

If it's any consolation, the GAO report said none of the other professional prognosticators, public or private, had a particularly stellar record, either. The Congressional Budget Office was best overall in predicting the economy's performance.

UNDER THE DOME: Overlooked in the debate over the omnibus drug bill was a colloquy touched off by the proposal of Sen. Jesse Helms, R-N.C., that a special mark be put on passports of those convicted of drug-related offense.

"Would it not be better," asked Sen. Thomas Eagleton, D-Mo., "if (the senator) would just brand them on their forehead, in the manner of cattle?"

To which Helms riposted: "The senator makes a reasonable proposition. Maybe we ought to have a brand on senators' foreheads who talk too much. We might consider that." Observed Sen. Phil Gramm, R-Texas: "We would need a hundred."

## Alumni giving a matter of winning

By ART BUCHWALD  
It isn't easy to raise money for your school when you have a losing football team.

As Tuna University's leading alumnus fund-raiser, I made a house call at Marvin Bromfield's the other day.

"As you know Bromfield, we have a drive on for the new library and I've been assigned to find out what you will pledge to further the educational goals of your alma mater."

"One hundred thousand dollars." "That's very generous of you. The school needs a library in the worst way."

"Library? I thought you said linebacker!" Bromfield yelled. "I don't give to libraries when we don't have anyone who can sack a quarterback."

"The chancellor is aware that the university is weak on the line, but you know the school's financial policy as well as I do — one year the money goes for books and the next three years for athletics. We want our university to be a cathedral of learning."

for the school as well. But he'll never get it unless he fires the coach."

"Do you honestly believe Tuna U will be a better place if the coach is fired?"

"It will be if we find a decent replacement. Look, I'm not one of those fanatic alumni who is always yelling for a winning team, but I have priorities too. When I go out to a bar no one ever asks me how Tuna U's library is going to do against Notre Dame.

"I love Tuna and I say if there is any money left over after we pay the players, then use it to buy books. All I ask is that you don't take it away from the boys breaking their butts for ole T.U."

I told him, "We're never short-changed big-time football at Tuna and we never will. But we're still obligated to educate our non-playing students. That is why we are hoping you would throw a few bucks into the academic pot."

"I don't ask for a Rose Bowl invitation every year, but you can't expect a Tuna alumnus to give to a school that is two and 7 and going down fast."

"Nobody likes to be two and 7. At the same time we can't shut down the entire institution just because we're having a losing season."

"Why not? It will give everyone a chance to reflect on where we're going as a serious university."

"What would you do if you were the head of Tuna?"

"For starters I would allow the players to cut back on study time so they can concentrate on their game plays."

"We'd like to do that too, Brom-

## Around the rim Halloween 'rim'iniscent of juvenility

By SPENCER SANDOW  
Staff Writer

October 31st always brews childhood memories of pumpkin carving, creative costume design and lighthearted fun.

Our jack-o-lanterns invariably sported a lopsided, snaggle-toothed grin and two triangular eyes. A pattern was drawn on paper before eager youngsters cut into the fleshy, colorful pumpkin.

Expressions of disgust were inevitable as our hands encountered the stringy, orange goo inside the fruit — but removal of every morsel was necessary before we could begin the artistry of the face.

Purchasing store-bought Snow White or fairy princess costumes, complete with plastic, cartoon-style masks was a delight when I was very young. After passing my first decade, though, I discovered the fun of creating my own, original disguises.

A trip to the Salvation Army or Goodwill thrift store was the first step. The best costumes were possible from others' cast-offs, a needle and thread — and a big imagination.

By the time I reached high school age, costumes were accepted Halloween Day attire. A prize was awarded to the student with the best costume, determined by fellow students.

An old sheet and the purchase of a few fabric daisies enabled me to become the Mother Nature of the old margarine commercials.

It didn't matter that I never won, the fun was in participating — and seeing how friends dressed.

I'll never forget two friends who created mirror images through the use of black and white T-shirts and make-up. They cut the shirts in half and each sewed half a black shirt to half a white shirt.

Coupled with painting their faces half black, half white, and the use of colored hair spray they made the look complete to the top of their heads.

Among the college crowd, the costumes were more ironic or parodic: students came as Yasser Arafat, Ronald Reagan, Tip O'Neill and Adolph Hitler.

I once dressed as Mrs. Roper of the television show, "Three's Company." The character in question wore gaudy, flowing caftans, huge mock-jewelry beads and a round, frizzy hairdo.

At the thrift store, I found a garish, fluorescent pink-orange-and-green, mock-African style caftan. I paired it with fuzzy blue house shoes and dime store plastic beads — enhanced by the removal of much of the paint.

What'll I be this year? You'll just have to wait and see.

field. But the conference insists on the team members, keeping up their grades, and there is nothing we can do about it."

"Then the chancellor should pull us out of the conference."

"The chancellor feels the way you do. He's hurting because not only does he love T.U. — but his job is at stake."

"If he really loves the team why doesn't he allow the alumni to give the players better cars? How can we have players who drive Fords go up against ones who drive Audis?"

"The chancellor believes cheap cars give our kids moral fiber?"

Bromfield said, "Hogwash. All he is doing is de-emphasizing football."

"Bromfield, I'm not supposed to tell you this, but we're after an all-American high school quarterback who happens to be an A student. We can get him if we improve our library."

Bromfield took out his checkbook. "Why didn't you say so in the first place?"

## Jury of police shooting concludes

SAN ANTONIO — Grand jurors concluded their probe into the shooting death of a police officer who allegedly committed vigilante acts over a three- or four-year period without returning additional indictments.

The jury ended its eight-week investigation Wednesday into the Aug. 18 shooting death of Stephen Smith by fellow police officer Farrell Tucker. It indicted Tucker last week on a charge of murder.

Tucker claims the shooting was in self-defense and that Smith had threatened to kill other police officials.

Sources told the San Antonio Light that grand jurors walked

away from their investigation concluding the city had a troubled, but fundamentally sound, police department.

The grand jury did not issue a report of its findings. In Texas, grand juries don't have that statutory authority, State District Judge Pat Priest said.

"If grand juries issue a report, they hold themselves open to civil liability," Priest said.

But the jurors, during their investigation, identified several management problems they believe must be solved to restore confidence in the police, sources said.

## Casa Romero closed by church

SAN BENITO — Catholic church officials have indefinitely closed Casa Oscar Romero, a controversial shelter for Central American refugees, while they look for another location.

More than 500 refugees were to be bused today to the U.S. Immigration and Naturalization Service for processing, Hernan Gonzalez, a spokesman for the Diocese of Brownsville, said Wednesday.

"We could stay at Casa Romero indefinitely, but we have been ordered by the city to vacate. We have not been told there are any or-

dinances that we violate," Gonzalez said.

Gonzalez said it could take six months to find a new facility. The city of San Benito asked the church in August to move the shelter, which opened in December 1982.

The church moved the male refugees to the county fairgrounds, leaving their families behind in the shelter.

Gonzalez said the male refugees, who were staying inside a sheet metal building normally used for livestock shows, also were to be bused to INS headquarters.

# Court: assets must be given full trial

Austin Bureau

AUSTIN — A dispute over assets of a drilling company in Dawson County must be given a full trial in that county, the Texas Supreme Court agreed Wednesday.

The dispute between Texas American Bank of Fort Worth and Southern Union Exploration Co. involves claims on property owned by Double Eagle Drilling Co.

Southern Union obtained a judgment against Double Eagle in Dallas County in 1983 and filed an abstract of judgment in Dawson County seeking collection. On Feb. 5, 1985, a sheriff's sale was held for Dawson County land held by Double Eagle, and Southern Union purchased the property.

Several months before the sale, however, Texas American Bank had filed a deed of trust in Dawson County resulting from its claims against Double Eagle and seeking any of the company's property as payment.

The dispute led to a suit between Texas American and Southern Union to settle their claims to the same property. Texas American claimed that the abstract of judgment filed by Southern Union was not proper because it lacked some information, such as the last known address of Double Eagle.

But Southern Union won a summary judgment in its favor in district court in Dawson County.

Texas American appealed that judgment to

the 11th Court of Appeals at Eastland, and won a reversal of the district court ruling. The appeals court said there were fact disputes that should be covered in a trial of the case and not settled by a judge issuing a summary judgment.

The Texas Supreme Court on Wednesday accepted that appeals court ruling.

Two Dallas law firms filed friend-of-the-court briefs in support of Southern Union in the Supreme Court case. They said the appeals court ruling was too narrow in holding that Southern Union's abstract of judgment lacked necessary data.

## Blondes get mixed review in this high-flying survey

**DEAR READERS:** While flying from Tampa to Los Angeles recently, I read an article in USA Today concerning the old theory that gentlemen prefer blondes. According to a recent survey in which 1,000 men were polled, over one-third said that they prefer blondes, brunettes were a close second, and redheads trailed. I decided to do my own mini-survey aboard Northwest Airlines Flight 1, so I dashed off this note on my Dear Abby stationery:

**Fellow passengers:** For years we've heard that gentlemen prefer blondes. Do they really? Please let me know how you feel about that age-old theory. You need not sign your name, but please indicate the city of your residence. Thank you!

**—ABBY**  
I sent the note to the two gentlemen in the cockpit first. Here are some responses:

**DEAR ABBY:** Blondes are not my preference. The color of the hair does not matter to me; it's what is under the hair that counts. I

Dear Abby

prefer an intelligent woman, personable, feminine, with a sense of humor and one who is knowledgeable about current events. In my work I meet many women — flight attendants, pilots and passengers. They are wonderful! Many surprise me with their depth and intelligence. Others open their mouths and their brains fall out.

**YOUR CAPTAIN,  
RICK OSBORNE**

**DEAR ABBY:** I always take a

second look at a blonde, particularly if she's wearing dark clothes. I can't say that I really prefer blondes, but I tend to notice them more, simply because they stand out from the crowd.

**GARY BERG, CO-PILOT**  
**DEAR ABBY:** Speaking as a brunette (former blonde), I don't believe gentlemen prefer blondes. Although the fair-haired beauties are more conspicuous and attract more attention initially, what men really prefer is a woman with a charismatic personality.

**SALLY TRELAND, FLIGHT ATTENDANT**  
**DEAR ABBY:** I do not prefer blondes. In fact, I have always had an aversion to obviously dyed hair, and unfortunately, the majority of blondes seem to have become blondes via that route.

**ED SIEGEL,  
PALM BEACH, FLA.**

**DEAR ABBY:** I prefer brunettes. I had better; I've been married to one for 20 years. But I have to admit if I am walking behind a

blonde, particularly one with long hair, she arouses my curiosity more so than a brunette would.

**STAN OLSON,  
PALM HARBOR, FLA.**  
**DEAR ABBY:** As a native Japanese gentleman, my preference is naturally for dark-haired women. Perhaps it is because we tend to be more trusting of the familiar.

**N.T., TOKYO**  
**DEAR ABBY:** After con-

siderable experience, I definitely do not prefer blondes!

**SHERMAN C. VOGEL,  
FREEPORT, N.Y.**

**DEAR ABBY:** I believe that most men, given a choice, really do prefer blondes, but only if they appear to be natural blondes. Men are greatly turned off by women with bright yellow, obviously dyed hair. It looks cheap.

**J. FROM ST. PETERSBURG**  
**DEAR ABBY:** You asked the

wrong man. My wife is sitting right beside me and, as you can see, she is a natural redhead. She also has a fiery temper to match, so naturally this gentleman definitely wouldn't look twice at a blonde.

**R.L., LOS ANGELES**  
**DEAR ABBY:** I married a brunette and have never asked her to change the color of her hair, which should be sufficient proof that this man does not prefer blondes

**G.H., TAMPA**

## Eating healthy foods is the key

**DEAR DR. DONOHUE:** I like to eat breakfast and commonly eat "non-breakfast" foods, like tuna fish salad, for example. I have been told that this may harm my digestive tract. I feel fine, though. I do try to eat food that is healthful. Is my breakfast OK? Please comment. I am being ridiculed. I am 34. — A.V.B.

Sure, it's OK. Whatever floats your boat, as they used to say. You can ignore the ridicule and discard the warnings of your friends if you can answer yes to the following questions:

- Are 55-60 percent of your calories coming from carbohydrates, the complex kinds, like pastas, wheat bread, legumes?
- Are you limiting fat intake to 30 percent of your total calories?
- Are you maintaining your body weight in accordance with what the tables say it should be for your age, sex and height?

- Do you feel healthy? (You answered that one.)
- Is your diet balanced, meaning are you getting fruits, vegetables and grains as well as meats and dairy products?

- Fish is a great protein source no matter when you get it, and protein

Dr. Donohue

is the third essential part of any diet, ideally totaling 10-15 percent of it. I don't know whether I could face a plate of tuna salad at 7 in the morning, but if I liked it then I'd have it.

**DEAR DR. DONOHUE:** Can you please tell me a nice fast and easy diet to follow to lose up to 40 pounds, including exercise? I'm 15 years old, 5 feet 6 inches tall. I weigh close to 160 pounds. I love your column. — Alisa F. (not real name)

I can't do it. I can't give you a fast, easy, and safe way to lose weight. It's a contradiction in terms. You have to be patient in

this weight-loss business. You shouldn't gun for more than two pounds a week loss. That means cutting out about 7,000 calories for the week, a thousand a day without exercise. If you shed much faster than that, you will be losing muscle tissue along with fat.

If you decide to add exercise (500 calories a day worth of it, for example, which would be a good decision), you will be far better off. That along with, say, a 500-calories-a-day reduction in food intake would get you to your 40-pound loss in 20 weeks. All this assumes that you have no illness that might prompt your doctor to veto the idea of that much loss.

Doing it slowly has another great advantage. It gives you time to learn the sound nutritional habits you put into practice to get to your goal. That can stick with you and help you keep off those pounds. The booklet "Lost Secrets of Reducing" might help you out with food calorie costs and such. Other young readers interested in reducing can order a copy by writing me in care of the Big Spring Herald, enclosing a long, stamped, self-addressed envelope and \$1.00.

## Thursday Notes

By EDDIE CURRAN  
Staff Writer

### Goliad gridders are perfect

With all due respect to the Steers, the hottest football team in Big Spring is the Goliad Middle School A-team. The Mavericks sport a spotless 7-0 record, with wins over Andrews, Sweetwater, Pecos and two wins apiece over Snyder and Monahans.

Goliad is coached by E.C. Roberson and Mike Ritchey. Offensively the Mavericks are led in the backfield by running backs Travis Sinclair, Kevin Rodgers and Ralph Labrew. At quarterback, the team is blessed with three equally talented quarterbacks in Nick Roberson, Abel Hilario and Gerald Cobos.

Cort Petersen, Pat Chavarria and Brant Laster do the catching, and Jason Helms, Lance Reeves and Jonathon Downey do most of the blocking.

The Mavericks are led on defense by Shannon Crenshaw, Fernando Alvarez, Donald Cervantez and Fred Williams. Many of these names should be familiar to those who watched Little League baseball this summer.

Coach Ritchey said his team has one more game, at Sweetwater a week from Saturday. He said Sweetwater hasn't lost since losing to the Mavericks in the first game of the year. Ritchey added he'd heard the little Mustangs had been talking revenge, so the last game could be a real battle.

Also at Goliad, the B-team is undefeated, with a 3-0-4 record.

\*\*\*\*\*

Big Spring netters notched several big wins over the weekend in tournaments in Midland and Abilene.

Tracey Owen won the 14-and-under girls competition at the Greentree Fall Junior Open in Midland, then teamed with Tammi Mason to capture the doubles. In the finals, Owen and Mason defeated another Big Spring pair, Ashley McCann and Stephanie Stevenson.

In Abilene, Rocky Tubb captured the 14-and-under title at the Coca-Cola Open.

\*\*\*\*\*

In other tennis news, Figure 7 Tennis Center is hosting the Novemberfest, a junior tournament, this Saturday.

The entry fee is \$8 per player per event and deadline is Friday at noon. The tentative starting time is 9 a.m. Age divisions will be from 12-18-and-under for boys and girls in singles and doubles play.

Give entries to Charleen Sparling at Figure 7. For more information, call 267-7777.

\*\*\*\*\*

Here's a sign of the good times — a Big Spring Steers' fan tells me he waited in line 35 minutes early Monday evening for tickets to Friday night's Monahans game.

In a related matter, the Big Spring Sports Booster Club is encouraging everyone to support the Steers Friday night at Memorial Stadium. The Booster Club will sell Steers' caps and bumper stickers at the game.

Next week's Booster Club meeting, by the way, will be at the same time — Monday at 7 p.m., but will be in the library rather than the cafeteria. The next week things will move back into the cafeteria.

\*\*\*\*\*

The Coahoma Peewee Basketball League will have an organizational meeting Sunday at 3:30 p.m. at the Coahoma Community Center. Anyone interested in coaching, officiating or helping in some other capacity is urged to attend. For more information, call Mona Moore at 267-5694.

\*\*\*\*\*

Big Spring Bowl-A-Rama will be the site of a No Tap Singles Tournament Friday through Sunday. The entry fee is \$25.

\*\*\*\*\*

Local basketball fans who have nothing to do Saturday are urged to take a free seat in the Howard College Coliseum and watch the Hawk Club Basketball Tournament. Eight teams from Big Spring, Coahoma, Snyder, and San Angelo will be competing. The action starts at 8 a.m., and concludes with the championship game at 7:30 p.m.

Local fisherman Bill Thompson, pictured here, caught this five-pound large-mouth bass Monday afternoon on a popper lure. Where, you ask, did he catch the beauty? Right here at Comanche Trail Lake.

# Steers brace for Lobos

By STEVE BELVIN  
Sports Editor

Another important chapter in the Big Spring Steers' banner season will unfold Friday at 8 p.m. when the district leading Steers host the Monahans Lobos at Memorial Stadium.

This is perhaps the biggest game of the season for Big Spring, ranked ninth in the Harris Poll. But Big Spring coach Quinn Eudy has a calm approach towards the game against the 16th ranked Lobos.

"This is the highest game of the year we have this week," he quipped. "In other words, they are all big games and we're just taking 'em one at a time."

Taking them "one at a time" has worked so far for the Steers, as they bring a perfect 5-0 district record and 6-1 overall slate into the contest against the Lobos, who are tied for second place with a 4-1 district record. The Lobos are also 6-1 overall.

Monahans lone defeat came last week at the hands of Sweetwater — a 34-14 drubbing in Monahans. Sweetwater's only loss was a 22-17 setback to the Steers.

If Monahans does defeat the Steers and Sweetwater, and Big Spring and Monahans all win their last two games, the district race would end in a three-way tie. Thus the two playoff teams would be decided by the best point differentials against each other.

The Steers beat Sweetwater by five, so Big Spring is up five. Sweetwater was down five but beat Monahans by 20 last week, so the Mustangs are up 15. Monahans is down 20. If Monahans wins by 13, the Lobos would be down seven

and the Steers down eight.

In essence, Monahans must win by at least 13 points.

Both Eudy and Monahans coach Bren Holland say the point differentials won't change the game plans. "I don't think Monahans will change its game plan. I just think they'll score as many times as they can," said Eudy.

"I'm not really thinking about the point differential. The main thing is that we do the best we can and win," said Holland.

Holland said his team is ready after suffering their loss to Sweetwater, a game in which they turned the ball over five times. "The kids bounced back from the loss well. They are fighters and they know how to come back. That's the nature of the game, you fall down and then you get back up."

"This game is just as important as we thought it would earlier in the season," said Eudy. "It's probably more important to Monahans because they have a loss. They'll probably come out with fire and brimstone in their eyes."

The game will match two of the most potent offenses in the area. Monahans, led by the one-two rushing punch of Charles Thompson and Dana Amos, is averaging 388 yards total offense per game. Big Spring also has a one-two rushing punch in Charles White and Phillip Mathews, not to mention a capable backup in James Harlin.

Thompson, a speedy 155-pound junior, is the district's leading rusher with 1,082 yards and 22 touchdowns. He is followed by Amos, a 190-pound senior blue chipper, who has 819 yards.

DANNY WISE  
...coming off knee surgery

For Big Spring, White is the league's fourth leading rusher with 729 yards. Mathews, who's been hobbled by an ankle injury, has 392 yards. Harlin filled in well for Mathews last week against Pecos, gaining 76 yards in 14 carries. Eudy said that Mathews ankle is doing better and he will get the starting nod.

When Monahans does go to the air, quarterback Jeremy Denman likes to go to Thompson, who has six catches for 125 yards. Big Spring can counter with the Paul Decker to Cedrick Banks combination. Banks, a senior flanker, has seven catches for an average of 26 yards per catch. Last week he snagged a 34-yard TD pass.

The Steers also got some good

DANNY WILLIAMS

news with the return of offensive linemen Danny Wise, who is coming back after knee surgery. Defensive back Danny Williams played for the first time last week, after coming off knee surgery. So now the Steers are at full strength.

"I think there will be some points put on the board Friday night," said Holland. "With two potent offenses like this, it's got to be some points scored."

"I'd like to control the ball and keep it away from their offense. Sweetwater did a good job of doing that last week."

So the stage is set for another all-important District 2-4A clash. Hopefully, like the other chapters in this year's Steers' story, it will have a happy ending.

## Hawk-Queens win opener

WACO — The Howard College Hawk-Queens made a successful basketball debut as they defeated Temple 54-48 in the opening game of the McLennan Classic.

Coach Don Stevens' Hawk-Queens never trailed in the game, but it wasn't one of their better shooting performances. Howard led by eight most of the first half, then hit a cold streak and Temple tied it up 26-26 at intermission.

"We shot well for some of the first half, then we hit a cold streak that lasted the rest of the game," Stevens said. "Everyone got some playing time and with it being the first game I think everyone was uptight."

Sophomore guard Terri Powell led Howard with 18 points.

STEFANIE MASSEY

Freshman post player Stefanie Massey was next with 11 and fellow post player Carolyn Willand added nine points.

Howard will play host school McLennan tonight at 8. "We played pretty good defense but we couldn't get our shots to fall. We'll have to shoot better to beat McLennan," Stevens said.

In other tournament action, Western Texas defeated San Jacinto 103-54 and South Plains nipped McLennan 66-64.

## Lanier named Manager of the Year

HOUSTON (AP) — Hal Lanier, who led a Houston team picked as a preseason also-ran and turned it into National League Western Division champions, was named Wednesday as Manager of the Year by The Associated Press.

Lanier, who was named Astros manager in the off-season after serving as a coach on St. Louis Manager Whitey Herzog's staff for five years, received 53 votes in easily outdistancing Boston's John McNamara in the nationwide voting by sportswriters and broadcasters.

McNamara, whose Red Sox lost to the New York Mets in the seventh game of the World Series Monday night, received 14 votes. Texas Manager Bobby Valentine, a rookie like Lanier, was third with 12 votes followed by Davey Johnson of the Mets with 10 votes.

New York Yankees Manager Lou Piniella, Pat Corrales of the Cleveland Indians and Gene Mauch of the California Angels each received one vote.

Herzog won the award last year and his aggressive style of baseball was reflected in Lanier's 1986 Astros, who lost to the Mets in six games in the NL playoffs.

"Whitey taught me how to run a pitching staff and I think that is a major part of managing," Lanier, who was the Cardinals' third-base coach in 1985, said. "I think I added to that a knowledge of how to recognize the talent we had and what we could do and couldn't do."

Lanier pulled the right strings with a pitching staff composed of Mike Scott, the major-league leader in strikeouts and earned run average, Nolan Ryan, baseball's all-time strikeout king, and left-hander Bob Knepper.

Lanier also transformed the Astros from a one-base-at-a-time attack to an aggressive running team in 1986. The Astros almost doubled their stolen bases from from 1985 stealing 163 compared to 96 the year before.

"That was a key to the Astros' charge to their first divisional crown since 1980, when former Astros Manager Bill Virdon was named manager of the year.

"I knew we had more speed on the team than had been used," Lanier said. "And I feel that the players were ready for a change to the brand of baseball we wanted them to play."

Lanier drew skeptical looks in preseason when he forecast five Astros could steal 25 to 35 bases. He named Kevin Bass, Bill Doran, Billy Hatcher, Jose Cruz and Terry Puhl.

Doran led the team with 42 stolen bases followed by Hatcher with 38 and Bass with 22. Cruz and Puhl were slowed by injuries and did not figure in the new-style attack.

Lanier said the Astros also were assisted by several players having career-best seasons and he named Glenn Davis, who hit .265 and led the team with 31 home runs, and Bass, who hit a career-high .311.

"My philosophy is to give credit to the players who did the job," Lanier said. "A manager is only as good as his players and I'm glad I had this team for my first year as a manager.

"They gave me 100 percent from start to finish."

The players gave credit back. "There were times early in the season where he would move a player over a little bit, and he'd be in the right spot to make the play on the next pitch," third baseman

HAL LANIER  
...Houston manager

Phil Garner said. "Right away, we knew he knew what he was doing. That goes a long way toward building confidence in someone."

"He's made me feel comfortable," Davis, only the second Astro to hit more than 30 homers in a season, said. "I respect him but I'm not intimidated by him. He's like a 10th person on the field."

The Astros battled the Mets before falling in Game 6 which lasted 16 innings.

"We had a great playoff, I don't think you could ask for much more excitement in the six games," Lanier said. "I think we're the same type of club as the Mets."

"In that last game we had the winning run on second base when the game ended. The Mets have done the same thing all year.

"They never gave up until the last man was out and neither did we."

## Mets' trial in Houston set for January

HOUSTON (AP) — A January 26 trial date was set today for New York Mets pitcher Ron Darling and second baseman Tim Teufel, who are accused of assaulting two police officers during a scuffle outside a Houston nightclub in July.

An alternate date of Feb. 2 also was set in case of scheduling problems.

During the hearing before State District Judge Joe Keenan, defense attorney Dick DeGuerin asked pro-

secutors to turn over any physical evidence pertaining to the case.

DeGuerin reiterated that the players would not accept a plea bargain offer from prosecutors.

Assistant Harris County District Attorney Mike Anderson said that during the National League Championship series in Houston, DeGuerin called him during one of the games to discuss a plea bargain.

## Stanton seeking playoff spot

By EDDIE CURRAN  
Staff Writer

The Stanton Buffaloes had a shot at first place in District 6-2A last Friday, but Forsan put a dent in those hopes by administering a 32-7 whipping last week at Forsan.

Friday night, this time at home, Stanton will have a last shot at a playoff spot. If that can be shot the always tough Reagan County Owls, they will almost certainly go to the playoffs as the districts' second place team. Only lowly Ozona would remain in their way. The Buffaloes have not been to the playoffs since 1982 and they should be hungry.

"We have a sure shot at the playoffs. The kids know the big game is Friday night. We're playing at our place in front of the home fans and we just hope we can come up with the big game," said Stanton Head Coach Dale Ruth.

Last week against Forsan Ruth was without fullback Derek Sorley and backup halfback Eddie Jordan. The Buffaloes need Sorley for his blocking and running, and there's a good chance he'll play against Reagan County Jordan, who has been sick, is still questionable.

Against Reagan County, a healthy Sorley would be nice. It might even be necessary, because the Owls have a very strong squad. The tied the same Forsan team that whipped Stanton last week, and they demolished Ozona 55-0 last Friday.

"They're a pretty solid team, very similar to Forsan. They have good skill people and an excellent quarterback and running back. They also have a 200-pound fullback.

Owls' Head Coach Ronnie Reeger is in pretty much the same position as Ruth. Though his team is undefeated, it sports a tie with Forsan that in this case is worse than a kiss from your sister. Forsan had three penetrations to Reagan County's two, and that will be the difference if both teams end the season undefeated.

"I'm not making any excuses for Dale or Stanton, but they were missing some key people they'll have back. From the films we've seen I think they're a quality ballclub.

"Anybody that has a 6-2 record is a good football team. They've played quality people and we're preparing for a quality team," Reeger said.

"We've got to win and the kids know that and the kids have got to get after it. The kids realize they have a second chance against Reagan County," Ruth said.

# AP names baseball's all-star performers

NEW YORK (AP) — Jesse Barfield began the season thinking he could hit 35 home runs.

An ambitious expectation for someone who had never hit more than 27 in his career. But, as it turned out, an accurate one as Barfield went on to lead the major leagues with 40 homers.

"I consider myself a home-run hitter," Barfield, also considered one of the best all-around players in baseball, said.

On Wednesday, Barfield celebrated his 27th birthday and was named the right fielder on the 1986 Associated Press All-Star team.

Barfield was joined on the team by Toronto teammate Tony Fernandez at shortstop, first baseman Don Mattingly of the New York Yankees, second baseman Steve Sax of the Los Angeles Dodgers and third baseman Mike Schmidt of the Philadelphia Phillies.

The team also includes left fielder Jim Rice of the Boston Red Sox, center fielder Kirby Puckett of the Minnesota Twins and catcher Gary Carter of the world champion New York Mets.

Roger Clemens of Boston is the right-handed starting pitcher, Fernando Valenzuela of Los Angeles is the left-handed starter and Dave Righetti of the Yankees is the reliever. Earlier this week, Houston's Hal Lanier was selected manager of the year.

The All-Star team was picked in a nationwide poll of writers and broadcasters prior to postseason play. Voters selected

one player at each position. Clemens, who led the majors with a 24-4 record, was the top vote-getter with 94. Carter was second with 93 and Mattingly received 91.

The closest balloting came in right field, where Barfield edged out Cincinnati's Dave Parker 31-30.

Barfield, in addition to his 40 home runs, batted .289 with 108 runs batted in. He also tied for the major-league lead among outfielders with 21 assists.

Parker hit .273 with 31 homers and 116 RBI.

"My goal this year was 35, but I didn't go up there looking for home runs," Barfield said.

"I try to help the team anyway I can. To me, throwing out a runner at home plate is just as good as hitting a home run."

Clemens, who helped the Red Sox into the World Series, had little competition in the voting. Clemens, 24, led the American League with a 2.48 earned run average and began the season with 14 straight victories. Houston's Mike Scott was second with four.

Valenzuela went 21-11 for his first 20-victory season. He got 73 votes and outdistanced 20-game winner Ted Higuera of Milwaukee, who got 14.

Righetti, who set a single-season save record with 46, was picked 71 times and finished ahead of St. Louis rookie Todd Worrell's 20.

Carter and Mattingly were overwhelming choices.

Carter, an eight-time All-Star,

## 1986 AP Baseball All-Star Team

was third in the National League with 105 runs batted in. He hit 24 home runs and batted .255. Tony Pena of Pittsburgh was runner-up with five votes.

Mattingly, the 1985 AL Most Valuable Player, was second in the majors with a .352 average and hit 31 homers with 113 RBI. Mattingly, 25, led baseball with 238 hits and 53 doubles, both all-time Yankee records, and his .573 slugging percentage also

was best in the majors. Houston's Glenn Davis was second, with three votes.

Sax batted .332, second in the NL, and stole 40 bases while making only 16 errors, his fewest ever. Sax got 51 votes and Bill Doran of Houston had 14.

Schmidt, 37, had one of the best all-around seasons in his brilliant career. He led the NL with 37 home runs and 119 RBI while batting .290, and made just eight er-

rors. Schmidt received 83 votes and finished in front of major-league batting champion Wade Boggs of Boston, who got 15.

Fernandez, at 24 one of the most exciting young players in the game, batted .310 with 65 RBI, stole 25 bases and did not miss a game. He was picked 61 times with Baltimore's Cal Ripken runner-up at 18.

Rice hit .324 with 20 home runs and 110 RBI. He got 47 votes with

George Bell of Toronto second at 28.

Puckett, the Twins' leadoff hitter, batted .328 with 31 homers and 96 RBI. He stole 20 bases and was among the leaders in outfielder assists. Puckett got 79 votes with Rickey Henderson of the Yankees at 16.

Cleveland's Joe Carter, who led the major leagues with 121 RBI, got seven votes as a right fielder and three as a left fielder.

**NOTICE OF PROPOSED REDUCTION IN AT&T'S TEXAS RATES**

The Public Utility Commission of the state of Texas has entered orders in two recent cases that would substantially reduce the charges which AT&T pays to the state's local telephone companies and which could allow AT&T to reduce prices for most of AT&T's customers on calls placed within the state of Texas.

The total amount of the reduction to AT&T's customers is expected to be between \$115.3 million and \$120.6 million. This is in addition to the \$19.8 million reduction in AT&T's Texas basic long distance prices that went into effect on March 1, 1986 and is in addition to the approximately \$2 billion in AT&T interstate price reductions that took effect earlier this year.

If the changes are approved, all of AT&T's direct dialed long distance, directory assistance, WATS and 800 service customers would be affected, and would experience a decrease in their prices for these services when calling within the state of Texas. The following tables show the anticipated impact of the changes on AT&T customers by service category:

Class of Service	Approximate Overall % Reduction	Approximate Overall Dollar Reduction (in millions)
Long Distance	9.2	\$ 68.4
Directory Assistance	20.0	1.0
WATS	29.1	29.7
800	19.9	21.5

The rate reductions are presently anticipated to occur in two phases on or about October 22, 1986 and November 12, 1986. The matter has been assigned as Docket Nos. 6926 and 7113. Persons who wish to intervene or otherwise participate in these proceedings should notify the Commission as soon as possible. A request to intervene or participate or for further information should be mailed to the Public Utility Commission of Texas, 7800 Shoal Creek Blvd., Suite 400N, Austin, Texas 78757. Further information also may be obtained by calling the Public Utility Commission Consumer Affairs Division at (512) 458-0223 or (512) 458-0227 or (512) 458-0221 teletypewriter for the deaf. A complete copy of the tariffs reflecting the potential rate reductions will be on file with the Commission on or before October 23, 1986.

Genesis 1:1 "In the beginning God..." The word "God" (as used in Bible scripture) means: to go to and fro in fear of". God is an infinite, perfect Spirit whom we are to fear (hold in reverence, awe, pious caution). God is the Spirit in whom all things have their source, support and end. He is, He was, and He shall always be in existence. God is always the "I AM". His name is "Jehovah", or "JAH" (some authorities indicate the word should be "Yahweh" or "Yehovay"). God is an eternal, uncaused, independent, necessary Being who has active power, life (self-existent life) in and of Himself, wisdom, goodness, and excellence in the highest perfection to an infinite degree. He is the first cause and last end of all things, invisible to human eyes, and He is indestructible. As great as the universe that he has created may well be, God is not limited to it, nor wholly absorbed by what He is doing in it. And God would still be God (what He is and who He is) if He had never created anything. May we learn that nothing can be added to God. Nothing outside Himself is necessary to Him, His Being.
