INSURGENCY BREAKS OUT

LEADER OF REPUBLICAN INSURGENTS BOLTS NOMINATION MADE BY REGULAR LEADER MANN

UNCLE JOE IN FIGHT

Democrats Urged to Support Nomination Made by Regular Republicans

By Associated Press. Washington, D. C., Jan. 11.—Republican insurgency broke out in the House today when insurgent leader Morris (Nebraska) bolted Regular Republican Leader Mann's selection of Phillip Campbell (Kansas), regular, to succeed Madison an insurgent on the rules committee. Morris nominated Victor Muddock (Kansas). When Mr. Norris nominated Mr. Muddock, Speaker Clark ruled that Muddock's nomination would have to be voted on as a substitute for Campbell. The Democratic leader urged all Democrats to vote for Campbell and sustain the Republican leader, Mr. Norris said he was not bound by any caucus.

Former Speaker Cannon, Representative Berger, socialist, and others broke into the fight. Berger said if Norris and Muddock could not agree with Mr. Mann they ought to get out and start a party as we have done. An old time political debate then followed.

TO SAVE HUSBAND'S LEG SUFFERS OPERATION

Wife Allows Surgeons to Remove Slab of Bone From Limb

St. Louis, Mo., Jan. 11.—With a slab of bone four inches long, an inch and a half wide and an inch deep taken from his wife's left leg, and grafted upon his own left leg, Fred Bottonhoff is recovering from the effects of an unusual operation.

In an adjoining room the wife appeared happy as she told how she had sacrificed the slab of bone because she loves her husband better than herself. She is recovering and the surgeons say neither she nor her husband will be permanently lame.

Nov. 13 Bottonhoff was struck by an automobile and the leg was broken a few inches above the ankle. The bone had splintered on either side of the break. Dr. C. M. Nicholson, chief surgeon at the Robokah Hospital, found it necessary to chisel away some of this splintered bone leaving a groove the size of the slab grafted on.

Dr. Nicholson prepared to remove a slab of uninjured bone from Bottonhoff's right leg, but finally yielded to the wife's importunities and prepared to allow her to furnish from her own body the necessary tissue. The transferred piece of bone was reunited in place by small silver tacks. The doctors say they believe the operation will prove completely successful.

Will Conduct Negotiations at St. Petersburg.

By Associated Press. Peking, Jan. 11.—Negotiations between China and Russia on the subject of Mongolia will henceforth be conducted at St. Petersburg. It is understood China is prepared to discuss the project of the construction of a Trans-Mongolia railroad which will include the linking of Kiakhta on the Siberian side of the frontier, and Urga, the capital of Mongolia with the Siberian railroad system.

Men are like rivers, the deeper they are the less noise they make.

JONES' APPLICATION FOR HABEAS CORPUS WAS GRANTED

Judge Martin in the district court yesterday afternoon granted a writ of habeas corpus to Jim Jones, charged with the murder of C. Morgan at Electra on Christmas day. Jones bond for his appearance before the grand jury was fixed at \$5,000. The bond has been sent to Texarkana, where Jones has relatives and friends who it is believed will subscribe to the bond. A blacksmith named Henry testified that he had seen Morgan and Jones in an argument before the stabbing. He said that Morgan had a heavy piece of scantling while Jones was leaning on an axe handle. He was some distance away but heard Jones say that he did not want to quarrel with Morgan but wanted to talk over their differences in a reasonable manner. Finally Morgan drew back and made a rush at Jones. Blows were exchanged, then Morgan turned walked a few steps and fell.

JUDGE WILL FIND DETECTIVE BURNS "NOT GUILTY"

By Associated Press. Indianapolis, Ind., Jan. 11.—Federal Judge Anderson indicated today he would rule Detective Burns not guilty of kidnapping John J. McNamara.

Judge Anderson's intimation came during Burns' petition in the habeas corpus proceedings for his permanent release from an indictment charging him with kidnapping. The counsel for Burns claimed that in the arrest of McNamara all the requirements of the Federal laws regulating extradition had been complied with. Burns' lawyer said the indictment against the detective was based on the Indiana law which imposed conditions not contemplated by the federal statutes.

NO MENINGITIS CASES FOUND IN THIS CITY

Rumors that there were several cases of meningitis in the city were traced today by City Health Officer J. A. Jones this morning and no foundation could be found for them. It is far as is known there is not one case of meningitis in the city and the physicians are hopeful that the contagion will not develop here.

Dr. Jones wishes to call the attention of the physicians to the importance of promptly reporting any suspected cases of meningitis so that prompt measures for isolation and an absolute quarantine may be taken.

Dr. Steiner, the state health officer has issued the following instructions to city and county health officers: "Isolate and place in absolute quarantine all cases cerebro spinal meningitis." "On appearance of the disease in our city close public schools and discourage public gatherings." "Insist upon general sanitary measures, clean and disinfect sidewalks, streets and alleys." "Carriers convey the disease by means of the nose and throat operations." "Insist upon the enforcement of the anti-spitting ordinance and advise the use of an antiseptic spray in the nose and throat, as a precautionary measure." "See that all street cars and public conveyances are disinfected."

Embassador to France Resigns.

Paris, Jan. 11.—Robert Bacon, an ambassador of the United States here has resigned to become a fellow student at Harvard University. Anyway, the grass widow is no partial to weeds.

IMMENSE SUM IN SECURITIES SAFE

Contents of Vaults in Burned Equitable Building Have Withstood Flames

By Associated Press. New York, Jan. 11.—Wreckers began today the work of clearing the debris and ice which incase the deposit vaults in the burned Equitable Building. The vaults are said to be intact and their contents, a half million dollars in securities, safe. The wreckers are hampered by the fact that the walls may fall at any time. The vaults of the Equitable Life Society have been found to have successfully withstood the flames, though they will not be opened until they have completely cooled off. Officers say there is no doubt that the \$300,000,000 in securities of the society are unharmed. It is announced that \$120,000,000 in policies on which the insurance society had loaned something between \$70,000,000 and \$100,000,000 had been found to be unharmed in the steel boxes in which they were kept.

LESS THAN FOUR THOUSAND BALES

Total Ginnings in Wichita County Up to Jan. 1st, Were Only 3,955 Bales

According to reports received from every ginner in Wichita county the total ginnings up to January 1 had been only 3,955 bales, nearly five thousand bales less than the previous year and the smallest number of bales ever ginned in any year since cotton became an important crop in this county. At the same date Archer county had ginned 2,114 bales. Last year Wichita county ginned 8,098 bales at the same date a year ago while Archer county had ginned 4,972 bales at the same date.

COUNTY BUSINESS IS QUIET AT JAY

Judge Hall Denies Bias and Says He Has "Friends in Both Places"

Grove, Okla., Jan. 11.—The records of the county offices are still in the original townsite of Jay, where they were moved by order of Governor Bruce, Adjutant General Frank Cannon, moving the records from a place called New Jay, representing the "Creekmore" addition to the town of Jay.

The business of the county is practically at a standstill, except that of the county court, which was convened Monday morning promptly by Judge W. C. Hall, who, in the town of Grove, proceeded with the business of the regular January term of the county court.

Judge Hall expressed surprise when he was informed that the plaintiffs in the injunction case in the supreme court, which on Friday issued its restraining order against the adjutant general, that their petition set up that he, the county judge, was interested in the matter and was disqualified to pass on the case. The judge stated that the petitioners never raised such question until their petition had been formally presented to him and the relief denied.

Judge Hall says that he does not own a dollar's worth of property at either Jay or New Jay. He contends that he passed on the question strictly on a proposition of law. "I denied the petition because to have done otherwise would have been without authority of law. I have no prejudices or bias as to the two places, like heaven and its opposite. I have friends in both places," said Judge Hall.

GAS EXPLOSION AT DALLAS TODAY

By Associated Press. Dallas, Texas, Jan. 11.—A gas explosion blew up the front of an animal museum and picture show in the downtown district this morning. Six persons were cut and bruised. Many windows in the neighborhood were broken. Snakes, monkeys and birds escaped from their cages but were recaptured soon.

ZERO WEATHER AGAIN IN SIGHT

PRESENT COLD WAVE MAY BRING LOWER TEMPERATURE THAN ITS PREDECESSORS

VERY COLD IN THE NORTH

56 Below Zero Reported From Cook, Minn.—Snow 12 Feet Deep in East

Another cold wave, which will probably prove colder than any of its predecessors this season is sweeping over Northwest Texas. Below zero temperature is forecasted tonight with indications that there will be little abatement in the cold tomorrow. The cold came on suddenly this morning, the temperature dropped more than twenty degrees in a few hours. At 3 o'clock this afternoon the thermometer on The Times building stood at thirteen degrees above zero around which mark it had been hovering since ten o'clock this morning. Snow fell furiously for a short time this morning, but not enough fell to cover the ground. A heavy snowfall is reported from points in the Panhandle.

Last Night's Report.

Chicago, Ill., Jan. 11.—Status of the weather: Coldest spot, Cook, Minn., 56 below. Coldest spot in Canada, Edmonton, 42 below. Warmest spot in United States, Los Angeles, Cal., 51 above. Warmest spot in Florida, Tampa, 38 above. Deaths—Chicago 3, Montana 2, Michigan 1, Wisconsin 1, Iowa 2. Snow falling last night in Michigan, Wisconsin, Pennsylvania, Idaho, Montana.

Rain in Utah, South Dakota, California, Oregon, Washington. Blizzards and sleetstorms, Montana, Wyoming, Michigan, Wisconsin.

No respite is in sight from the record-breaking wave of cold weather. Temperatures throughout Canada and the Northwest sank from 6 to 20 degrees last evening, and this influence will be felt generally by tomorrow.

The fresh storms are already sweeping Michigan, Wisconsin and Minnesota. From Cook, Minn., comes the banner cold record of the season, so far recorded. Thermometers there registered 56 below and all burst at that figure. A fierce blizzard is still raging there and the temperature probably never considered lower.

Indications of the weather in store for the country today are these: temperatures at 8 o'clock last night, all below zero: Cook, Minn., 56; Custer, Minn., 49; Duluth, 34; Moorhead, Minn., 24; St. Paul, 22; Green Bay, Wis., 22; Madison, Wis., 14; Milwaukee, 12; Williston, N. D., 24; Bismarck, N. D., 24; Devils Lake, S. D., 32; Hare, Mont., 30; Helena, Mont., 14; Huron, S. D., 14; Marquette, Mich., 18; Charles City, Iowa, 18; Dubuque, Iowa, 6; Omaha, 4; Chicago, 6.

Winter laid an especially heavy hand upon the Southeastern Gulf the great fruit fields of Florida, Mississippi, Georgia, Alabama, and portions of Louisiana. This is indicated by 22 above at Atlanta, 32 above at Mobile, 38 above at Tampa and 36 above at New Orleans. This freezing temperature will destroy the hopes and crops of thousands of small gardeners.

Along the Upper Atlantic, Boston reported 10 above, New York 8 above and Washington 6 above, or the same temperature as Pittsburgh. In the central part of the country there is no let-up in the cold, as indicated by 4 above at St. Louis, 5 above at Cincinnati, 2 above at Indianapolis. In the Southwest, El Paso, Texas, reports 44 above, San Antonio 28, or the same temperature as Tampa. Oklahoma has 26 above. In the Canadian stations, Edmonton is the coldest, 42 below, Battleford 40 and Winnipeg 38, which shows that winter has taken a much firmer grip upon its source of supplies. Show twelve feet deep is reported over Northern New York, Maine and portions of New England, and trains have been practically abandoned. No hope for relief is held out by Government forecasters, who say the cold wave, now general over Canada, will sweep to the Southeast, and will probably be followed Friday by another general drop in temperature, preceded by blizzards and snow. Train service in all directions is badly crippled and food and fuel supplies in numerous localities are down to the minimum.

TWENTY-SIX MOROS WERE KILLED

Shot While They Lay in Ambush For American Troops On Island of Jolo

By Associated Press. Manila, Jan. 11.—Twenty-six Moros were killed today while attempting to ambush a body of American troops on the island of Jolo. Lieut. McGee, of the second cavalry was shot twice and one soldier was wounded. Brig. Gen. John Pershing, commander of the department of Mindanao, declared he believed the fight would end the Moros' armed opposition to rule on the American island of Jolo, and more especially in regard to the resistance against the order for the general disarmament of the natives. The band of Moros who lay in ambush for the Americans on this occasion compromised the last of the remaining malcontents.

When a man tells a woman she is the only one he ever loved she tries to believe it, although she knows he's lying.

MACHINERY INSTALLED AT NEW LIGHT PLANT

The big engine and dynamo in the plant of the Citizens Light and Power Company was started up last evening for a test and ran steadily all night without a hitch.

The engine is the latest model gas engine with a capacity of 150 horse power, while the dynamo has a capacity of 2000 16-candle power lights. The two machines are directly connected by shaft, and no belting is used. The machines will be run empty for three or four days to train them, after which the company will be ready to furnish current to any portion of the business section. The company intends to install another engine and dynamo of the same style and dimensions as an auxiliary plant, within the next couple of months.

WOMANHOOD IS NOT RESPONSIBLE

Washington, D. C., Jan. 11.—"The fashions and foibles of the women of today are something for which womanhood is not responsible," asserted Clara Barron, founder of the American Red Cross Society, yesterday at her winter home at Glen Echo, Md., near Washington. "It is mercantile pressure that is responsible for the oddities of feminine attire in 1911."

"I love womanhood the world over. The true woman is the grandest gift of God. We all know she has foibles; that she glances into the mirror of fashion. Still, I love the good woman wherever she may be found, and it is painful to comment on her foibles."

"I think only of the lesson—that womanhood is changeless, constant, enduring and ennobling. Her fashions have changed almost as swiftly as the sands of the seashore. Not the external investiture, but the internal embellishment of qualities of soul and heart and courage are the paramount characteristics and qualities that have animated women throughout the ages."

"Whether she has worn tight-fitting skirts or the loose-fitting garb of classic Greece has mattered little—provided only she has not stunted her soul as a true woman."

"It pains me to think of the extent to which mere dress plays a part in the world today. I am sorry, still I have no desire to criticize. I have seen in my time styles, fashions, follies—the hoop, the crinoline and other momentary fancies come and go. I have seen skirts so tight in recent years that the wearers were hobbled in walking and almost unable to board the street cars. I hope and trust there will come a change. I believe there will come a change. Woman's sphere is higher than mere dress."

"But woman is not wholly to blame; for is she most to blame. It is mercantile pressure, the temptations set by the merchant desirous of selling his fashions, that is more responsible than the feminine sex for many of these foibles of dress."

"That grand and good woman, the late Queen Victoria, learned early in life to know some of the bitterness that comes out of this mercantile pressure upon the fashions. I was in London soon after she had lost by death her husband and consort,

TAREE QUARTERS MILLION DOLLARS LIFE INSURANCE

The Wichita Southern Life Insurance Company passed the three quarters of a million mark in business written yesterday, winding up last night with \$754,000 worth of insurance in force on its books. This insurance is carried in 282 policies, which are written for men all over North Texas and Southern Oklahoma. In view of the fact that the company wrote its first policy in the latter part of May last year, and has therefore only been writing business a little over seven months the showing is a most flattering one.

Card of Thanks. I wish to express in this public manner my sincere thanks and appreciation to the friends who gave their assistance during the illness and extended their sympathy upon the death of my wife. Their kindness will not be forgotten. Respectfully, O. R. RIGSBEE and Family.

Albert, Victoria dearly loved Albert. It was a marriage of purest love. She worshipped him. After his death she went into deep mourning. It means mercantile loss.

"No, it is not always the woman who is responsible for the fashions but the makers of fashions, those who profit by the vogue of foibles, and mercantile pressure."

HOBBLE SKIRTS MUST GO IS DAME FASHION'S DECREE

Chicago, Ill., Jan. 11.—This is what American women will wear the coming year as disclosed today by the style congress held here by the Ladies' Tailor and Dressmakers' Association of America: No hobble skirts. Dresses must be two and one-half yards wide three-fourths of a yard wider than the hobble. They must be short—three inches from the ground. Blue and white are the colors and the materials whipcords. Jackets are to be twenty-six or twenty-eight inches long and close-fitting. Empire effects must not be forgotten. If any waist line is affected, it must be at the waist or lower. Reverse and sailor collars will be tabooed. No changes are ordered in plain tailored gowns or suits. The announcement was made last night after all visitors had left the headquarters and in advance of the showing today.

GARNEGIE BEFORE STEEL COMMITTEE

By Associated Press. Washington, D. C., Jan. 11.—Andrew Carnegie was again before the Steel Investigating Committee of the House today. Representative Beal of Texas began questioning Mr. Carnegie.

Carnegie declared the day of competition had passed because of the ability of manufacturers to fix and maintain prices.

"Men," he said, "have been able to sit down and fix prices and maintain them."

Mr. Carnegie was asked if he agreed with his views expressed two years ago urging Government control of corporations and the regulation of prices. "I still adhere to that," he said. "I believe the Government should regulate minimum prices. I think the time has come when it is necessary and I point to the Interstate Commerce Commission which has brought order out of chaos in the railroad business."

HIBBEN CHOSEN PRINCETON'S HEAD

By Associated Press. Princeton, Jan. 11.—Dr. John Grier Hibben today was chosen president of Princeton University. He was professor of logic.

Two Deaths Reported. Dallas, Texas, Jan. 11.—Two deaths from meningitis, and four additional cases in the last 24 hours were reported at noon today.

Sixty per cent of the laborers in Kansas mines are Europeans. Street car conductors in Segui, Japan, make thirty-five cents a day. In 1850 but one woman worked to

SENTENCE WAS SUSPENDED

YOUNG MAN FOUND GUILTY OF FORGERY OBTAINS CLEMENCY FROM THE JURY

WAS HIS FIRST OFFENSE

For Second Time New Law Invoked To Suspend Penalty When Defendant Found Guilty

The youth of the defendant, his previous good record, the standing of his family and the fact that this was his first offense for which he had ever been under indictment influenced the jury to recommend a suspension of the sentence of two years imprisonment which they had just assessed against H. C. Conway whom they found guilty of forgery. In conformity with the recommendation Judge Martin suspended sentence and the young man was discharged with the understanding that if he reported four years hence and showed that he had been a good citizen, the charge would be expunged from the record.

Conway was twenty-three years of age and his home is at Baird, Callahan county. He passed a forged check here several months ago and was indicted. The county judge, district clerk, a banker and many other prominent citizens of Callahan county came here to testify that the young man had always borne a good name in his home town.

necessary and I point to the Interstate Commerce Commission which has brought order out of chaos in the railroad business."

TESTIMONY ON TEST COSTS

By Associated Press. Chicago, Ill., Jan. 11.—Henry F. Moyer, accountant for Armour & Co., contained his story of how the packers figured test costs of slaughtered animals in the packers trial today. The government claims the test cost was the basis of the packers' an intricate system of fixing profit margin and the selling price of fresh meat.

District Attorney Wilkerson continued his direct examination of the witness. "Can you tell us when the practice of making credit allowance for hides was abandoned by the packers in figuring the test cost of cattle?" he asked.

"I cannot remember the date," Moyer replied.

Moyer said there was no change in the style of forms used in figuring the cost in the past six or seven years.

ROBBERS BROKE INTO HARDWARE STORE AND POSTOFFICE AT IOWA PARK WEDNESDAY NIGHT

Burglars at Iowa Park last night broke into the postoffice and the J. A. Tanner hardware store and robbed the money drawers of small sums of money. At the postoffice a quantity of stamps was also taken. At the hardware store \$3.30 in small change left in the drawer of the close of business was taken, and at the postoffice about \$15 was secured. In both places entrance was made by prying open the rear doors. Tom Pickett and Deputy Sheriff George Hawkins went up on the noon train, but so far have failed to locate the burglars.

Boyce Will Stay at Dalhart. Dalhart, Texas, Jan. 11.—Information has been received that Albert Boyce, who went to Winnipeg, Canada with Mrs. J. R. Sneed, will remain there and enter the cattle business.

"Mr. Well Dresser" ALLEGED HARROLD BANK ROBBER CONFESSES CRIMES

Any happening that affords you an opportunity to save money should interest you and secure a few moments of your time—as it is customary with us at this time—we are closing out our FALL and WINTER Merchandise now on hand. This includes everything, but what we wish to call your attention to right now is the line of SUITS and OVERCOATS. There are not many of these garments because most of our stock was sold during the season at regular prices; but those who can be fitted and satisfied will be the lucky possessors of mighty good values at mighty low prices

FRANK HOLLOWAY CLAIMS HE BLEW SAFFES FROM CANADA TO PANAMA—KILLED 7 MEN

POLICE DISCREDIT TALE

Requisition Asked and Prisoner Will Be Brought Back to Vernon For Trial.

Special to the Times.

Fort Worth, Texas, Jan. 11.—The confession of Frank, Holloway well known in Fort Worth and West Texas, in Chicago, Tuesday to robbery and murders from Canada to Panama, is discredited by the Chicago police, but is believed by the detectives of the Fort Worth bureau who photographed Holloway when he was brought here following his arrest for the Harrold, Texas, bank robbery last April, and whose investigation had led to verification of many of the statements made by Holloway in Chicago.

Holloway's widowed mother now lives in Mineral Wells. He was arrested in Chicago as a pickpocket after having jumped his \$13,000 bond under which he was placed while waiting for the Harrold bank robbery. Mineral Wells bankers signed his bond and have paid part of it, to the state on a compromise.

After listening to Holloway's confession, Chicago detectives came to the conclusion that he is a boaster but detectives in Fort Worth are inclined to give his story of his crime full credence.

"Holloway is smart and it is possible, even probable that his claim that he participated in the New Westminster, British Columbia, bank robbery is a ruse to get taken to Canada, temporarily beyond the reach of the Texas authorities," Detective Captain Connelley said Wednesday, but most of the other statements made were verified. Detective Tignor, who studied Holloway painstakingly, is of the same opinion.

Holloway is 32. He was born in Mississippi, the son of a well known criminal lawyer. He was the black sheep of the family, the "only one who ever went wrong," according to his confession.

His Texas record so far as known, had to do only with the Harrold bank robbery, when \$2,000 was secured.

Holloway, under the name of Robert Huxley, was arrested by a constable at Frederick, Okla., with Al Inman and Dan O'Connors. Inman is serving a eleven-year sentence and Conno's an eight-year sentence for the robbery.

Holloway, in his Chicago confession related the following as his recollections of "many other persons" in robbery the Bank of Montreal at New Westminster, British Columbia, last September, getting \$375,000 in gold and paper money. His share nearly \$85,000.

Was one of a gang of six who "busted" the safe of the Panama City Banking Company at Panama, in February, 1910. Got \$84,000 all told.

In gun fight with fellow robber near Panama shot and killed or Shafer in quarrel over division of spoils.

Shot and killed Edward G. West when the latter "double-crossed" him in a later division of proceeds of the same robbery. This was in Bogota, Columbia.

Killed a notorious bank robber in Tulsa, Okla., five years ago, when the latter "crowded him" for a "split" of the proceeds of a small robbery.

Shot "Bob" Reynolds, and two men named McGivney and Smith, who were working for him in St. Louis during the World's Fair, when he kept a saloon at 2116 Chestnut street. Of this he said "the three were trying to put me out in the cold and we had a row. I shot all three of them and later Reynolds died. I was pinched but worked out of the case."

Forfeited a bond at Fort Worth, Texas, where he had been arrested charged with a bank robbery at Harrold, Texas.

Was questioned by Burns detectives in Portland, in connection with another matter, but eluded them.

He said he had \$74,000 in Canadian money in a Chicago hotel, and "lots more" hidden elsewhere but said he would not disclose where it was. He refused to name others implicated in the crimes he enumerated.

He said his home was in Texas, where his mother, brothers and sisters lived. His father, he said, was the late Capt. Frank Holloway, a well known Southern criminal lawyer. He called himself the black sheep of the family.

Holloway said he served in the Spanish-American war in the Second Mississippi infantry and formerly had a hotel in Memphis, Tenn.

Fort Worth detectives know nothing of Holloway's exploits in Panama and Canada.

"But he was after big game, there is no question about that," Captain Connelley said, commenting on this feature of the confession.

It is known here, however, that he killed Frank Starr, the noted bandit, in Tulsa, Okla., five years ago. He

Here's the criminal record of which Frank Holloway, arrested in Chicago Tuesday, "confesses." Chicago police say most of his statement is fabrication.

Robbed bank at Westminster, B. C., getting \$375,000.

Robbed bank at Panama City, getting \$84,000.

Killed fellow robber by name of Shafer in Panama in a quarrel over division of the spoils.

Shot and killed Edward G. West at Bogota, Columbia.

Killed a notorious bank robber at Tulsa, Okla.

Shot Bob Reynolds and two men named McGivney and Smith in St. Louis during the World's Fair in 1904. Reynolds later died.

Killed a man in stabbing affray at Winona, Miss., 13 years ago.

Killed two men in row on excursion train near Birmingham eleven years ago.

Robbed bank of Harrold Mercantile Company at Harrold, Texas, in 1910.

The Harrold bank robbery is the only crime with which police have any record of Holloway's connection, he having been arrested in Oklahoma shortly afterward, but jumped bond.

As tried and acquitted on the plea of self-defense.

It is also known by the Fort Worth bureau that he was tried and acquitted for the killing of Bob Reynolds in St. Louis during the World's Fair.

The Fort Worth detectives do not believe that Holloway is a boaster in the contrary he impressed them as a singularly reticent and sullen person.

He deeply resented having a picture made and his Bertillon measurements taken when brought to Fort Worth from Frederick, along with Inman and Connors and resisted to the extent that the picture secured is not at all a good likeness.

Sheriff J. D. Key of Wilbarger county has applied to Governor Colquhoun for requisition papers for Holloway, soon as the requisition application is granted, Sheriff Key will go to Chicago for Holloway, and bring him to Vernon for trial for robbery of the Harrold Bank. It is believed that the Chicago authorities will not oppose bringing Holloway over to the Texas authorities, as the Texas indictment in the nature of a prior claim upon the confessed safeblower and killer.

Known in Memphis.

Memphis, Tenn., Jan. 11.—Frank Holloway, who, according to the police of Chicago, has confessed to a series of crimes, formerly conducted hotel in Memphis. Several relatives reside in this city. He was born in Winona, Miss., where his father was a prominent

criminal lawyer. The elder Holloway died fifteen years ago. His mother and other relatives, according to members of the family in Memphis, reside in Mineral Wells, Texas. The first escapade charged to Holloway occurred at Winona thirteen years ago, when, it is alleged, he killed his opponent in a stabbing affray. A year later in a difficulty aboard an excursion train returning to Greenville, Miss., from Birmingham, Ala., it is charged he shot two men to death.

When his family removed from Mississippi, Holloway came to Memphis and secured employment as clerk in an insurance agency. He tired of this after three months and left for Oklahoma. He returned to Memphis in February, 1910, and assumed control of a local hotel. Several months later he sold his interest and was next heard from at Harrold, Texas. There he was arrested charged with complicity in the robbery of a banking institution.

"Confessed" in Seattle.

Seattle, Wash., Jan. 11.—Frank Holloway, who confessed in Chicago that he took part in the New Westminster bank robbery, gave the same information last October to a detective agency which was put to some trouble to make sure that he was not telling the truth. Investigation in Oklahoma proved Holloway had no connection with the New Westminster robbery.

The detectives learned that Holloway had a habit of boasting of committing crimes he did not commit.

WATCH YOUR HAIR, LADIES

Eternal Vigilance is the Price of Luxuriant and Radiant Hair

If dandruff germs are devouring the nourishment that belongs to the hair it will soon begin to fall. Furthermore it will lose its life and lustre and will become dull, faded and even look slovenly.

If you have any signs of dandruff you ought to go right to your druggist today and get a bottle of PARISIAN SAGE. This delightful and refreshing hair tonic is guaranteed by Coshee & Lynch, to kill dandruff germs, clean the head of filthy dandruff, stop falling hair and itching scalp or money back. And it does just what it is guaranteed to do and that's why its sales are so enormous the country over. PARISIAN SAGE is the favorite of refined women. One bottle proves its superiority.

No Changes Expected in Circuit.

Milwaukee, Wis., Jan. 11.—The club owners and officials of the Wisconsin-Illinois baseball league rounded up at the Hotel Pfister today for their annual meeting. The league last year did not come up to the expectations of some of the magnates from a financial standpoint and for some time rumors have been current of possible changes in the circuit. A new man for president in place of Charles Moll also has been discussed. Statements made by several of the owners before the meeting began behind closed doors this afternoon indicated however, that the league is likely to begin the season of 1912 with the circuit unchanged and that in all probability Moll will be selected to pilot the organization for at least another year.

At H. Wilson is to have a new play called "It Was in Potsdam." The new songs in the piece will be composed by Mr. Wilson himself.

A Delicious Tid-Bit— Fried Sealships

PHONE NOS. 432 & 232

There are a number of ways to prepare oysters for frying—cracker crumbs and egg, corn meal and egg, and fry in plain butter.

All are good if you use Sealship.

The style of frying isn't half so important as the quality of the oysters themselves and Sealship come to you just as they come from the shell.

That makes them ideal for frying and for this purpose I suggest the Sealships which are larger than the Standards.

Try a Pint Fried Tomorrow. Selects.....35c

Eat the Cracker that BROWN makes

SALTINE FLAKES

Cracker Delicacy

Exquisite care in the mixing and in the baking mark the process by which BROWN bakes SALTINE FLAKES. Choice, soft winter wheat, perfectly milled, to make the flour. Recipe—exclusively our own. Pure water from our own deep Artesian Wells. Mixed and cut by clean (and cleanly) machinery—no hand-labour used. Baked in our white tile ovens. Packed in packages that are dust, dirt and moisture proof. Remember the name of this peculiarly crispy cracker—

Saltine Flakes

Saled just enough to give it a delightful piquancy. Differently better.

If your grocer says he does not keep "The Crackers that BROWN Makes" ask him to get them for you. If he is unwilling to trouble himself for your pleasure and convenience, write us and we will see that you are supplied. And just remember—the factory where are made "The Crackers that BROWN Makes" is not controlled by a trust—that's why we say

Well Known Favorites Will Be Seen Here in "Naughty Marietta" at the Wichita

Messrs. Marlow and Stone announce that they have booked "Naughty Marietta," one of the biggest and best comic operas that will be in the Southwest this season for the Wichita Theatre on the night of January 30. They have put up a big guarantee to secure this attraction and are depending on the liberal patronage of the people of Wichita Falls to make them whole.

The opera will be presented by Oscar Hammerstein. It is written by Rida Johnson Young, and with music by Victor Herbert.

"Naughty Marietta" has gained the strong commendation of New York audiences as was shown by its long and successful run of six months at

the New York Theatre last season. A special augmented orchestra has been assembled to bring out the beauties of Mr. Herbert's score and the chorus will be one of the most proficient vocally that ever added to the success of a comic opera. A variety of handsome costumes of the eighteenth century, together with appropriate scenery, will make striking stage pictures.

Besides Miss Florence Webber in the cast are to be seen such well known favorites as Madame Cara Crendell, Blanche Latell, Billy Wood, Fayles Hilton, Edith Booth, Viola Garrick, Mr. Juan Cardo, Edouard Beck, Sid Braham, George Burke, Dan Morrison, Walter Hearne, Willard Reynolds, and R. J. Mullican.

AMEED PASCHA AND HARRY FAUST GO ON THE MAT TONIGHT

Ameed Pascha, a Syrian Turk, who is to wrestle here tonight with Harry Faust, is quite an interesting character. In his native costume he has created not a little interest, and his splendid physique and iron-hard muscles have been the subject of much comment.

Ameed is less than 18 years old, and weighs 184 pounds. He has been acclaimed by many experts to be the most perfect specimen of physical manhood of his age in the world, and while he does not make this claim himself, he says that many surgeons, both in this country and in Europe have said that he was. He comes of a family of athletes, and is a born wrestler and fighter. He intends in the next four or five years to give more attention to boxing and believes when he will have arrived at maturity he will be able to enter the ring with any of the champions, and certainly one might judge from his appearance that he had it in him to make a white man's hope.

Both Pascha and Faust say the match tonight will be for blood, and either is ready to battle on the condition that the winner take the entire receipts, although these details have not been arranged. If successful in tonight's battle the Turk wants to meet any other wrestler in this section and will issue a challenge to that effect. Faust is somewhat heavier than the Turk, weighing 190 pounds, and is also somewhat taller, but this the Turk says is no handicap, as he is in perfect condition and weighs more than ditto to throw Faust. The match will be particularly interesting to many of the oil men in the city from the fact that the Turk has wrestled in many of the oil towns in Oklahoma and has thrown every man who has entered the ring with him.

Mrs. Harry Faust, who claims the title of champion women wrestler of the world. With her husband she will give an exhibition at the Wichita Theatre tonight showing all the wrestling holds.

A LIBERAL OFFER

We Guarantee to Relieve Dyspepsia. If We Fail the Medicine Costs Nothing.

It unquestionably prove to the people that indigestion and dyspepsia can be permanently relieved and that Rexall Dyspepsia Tablets will bring about this result, we will furnish the medicine absolutely free. If it fails to give satisfaction to any one using it.

The remarkable success of Rexall Dyspepsia Tablets is due to the high degree of scientific skill used in devising their formula as well as to the care exercised in their manufacture. When the disease present, together with rigidity of the muscles of the neck and extremities, giving rise to muscular contractions. Eruptions upon the skin very much in frequency in these epidemic outbreaks. Usually these resemble small flea bites. Headache is a frequent initial symptom and is usually severe. It is more often frontal than elsewhere, and may be associated with vertigo. There are acute pains in the back of the neck so intense that any movement of the patient causes an outcry. This is one of the most striking symptoms of the disease. The pupils of the eyes are also generally contracted in the early stages, but toward the close of the disease they are usually widely dilated. The disease is nearly always attended by high fever.

rebro-spinal meningitis is contagious. Whether this is in any way communicable has not yet been established. The fact that in a considerable number of cases—about 15 per cent—has been identified as meningococcus has been in the noses of children in some grounds for believe disease communicable. When it is considered in fully 70 per cent of the but one person in a household affected, it becomes apparent that the danger of spread of the disease in this way is not negligible. Sporadic cases of meningitis occur after epidemics from parent cause and without connection with one another. Children of all ages are about equally susceptible to this disease.

Fights Scheduled For Tonight
Johnny Coulton vs. George Kitson
Matty Baldwin vs. Pat Moore
Conna, at New York.

"He and She" is the title of the comedy by Miss Rachael Crothers, in which Miss Viola Allen will be seen at an early date. The play was tried earlier in the season by a cast headed by George Fawcett and Miss Emma Dunn.

E. M. Holland has so far recovered from the injuries he received in the fall down the elevated stairs, that he is able to rejoin James K. Hackett's company.

Mrs. Fluke has three new plays for presentation this season: "The Macon," by Langdon Mitchell, "Julliet," by Gertraude Atherton, and "The War of Souls," by Hyacinth Loysen.

FORMER WICHITA FALLS WOMAN IS HONORED

Mrs. J. F. DeMar, formerly of this city, but now living at Denison, has been appointed chairman of the club extension committee of the Texas Federation of Women's Clubs. The following notice of her appointment appeared in a recent issue of the Denison Herald: Denison feels quite honored by the number of State appointments brought home by our club ladies from conventions or received from the State president. The most recent honor is the appointment of Mrs. J. F. DeMar as State chairman of club extension to farm home and school clubs. Mrs. DeMar has long been interested in this work, and Mrs. Ely Hertzberg, State president of the Texas Federation of Women's Clubs, who is the right woman for the right place in her appointment. The object of the office is that through organization of rural women, the

Committeeman Guffey, it also accepted Mr. Bryan's idea of a presidential primary, and honors are about even.

Financial News Item on Wall Street: "The continued lack of demand for money for business purposes caused a decline in rates and increasing competition for the limited supply of mercantile paper. In some instances prime securities were placed as low as 3 1/2 per cent." How do that sound to the fellow in the West who is glad to pay his banker 10 per cent in order to secure the necessary money to continue his business?

Misrepresenting the Democratic Party

Houston Chronicle. The democratic national committee is in session at Washington, selecting a city in which to hold the national convention, and attending to other business affairs of the party organization. Colonel Bryan made his sparks fly the first day, coming in with a proxy from the Nebraska national committeeman, Colonel Bryan offered resolution declaring A. M. Palmer, contestant to be national committeeman from Pennsylvania in place of James M. Guffey. He attacked Guffey savagely, charging that Guffey had made secret deals with the republican machine in Pennsylvania and had been disloyal to his party. It was the old story of the bipartisan political machine, familiar in many states. Lorimer's election to the senate from Illinois illustrated workings. Lorimer, the republican boss of Illinois, and Roger Sullivan, the democratic boss of that state, both serving the great Illinois corporations which finance both political committee notoriously did precisely what Bryan charges Guffey has done in conjunction with the republican boss of Pennsylvania. Lorimer, it will be remembered, was elected with the aid of democratic votes.

Bryan's protest was against such bipartisan arrangement. He well understands that when the bosses of both the party organizations are controlled by the corporations the democratic party can not honestly serve the people. Knowing in advance that he would be defeated, Bryan did his duty as he saw it, raised the issue and took his medicine. In this, as in a hundred other similar instances, the Nebraskan proved he values party sincerity above party harmony under corporation control.

In so far as concerns the democratic national committee, Bryan's defeat was a victory for Harmon. Needless to say, the Texas national committeeman

voted against Bryan and in favor of Guffey's retention on the committee. If Texas democrats wish to be represented on the national committee by a progressive democrat, they must procure the election of a new national committeeman.

The Chronicle desires party harmony, as without it the party can not accomplish anything for the country. But we do not desire that party harmony shall be secured by submission of the progressive elements to the corporation-controlled reactionaries since that way, in our opinion, spells defeat for the party candidates. Even if the party should elect candidates controlled by the reactionary interests, nothing would be gained by the people.

It is only fair to state that, while Colonel Bryan did not and probably could not produce court proof evidence that Guffey has been guilty of being a party to a bipartisan machine arrangement in Pennsylvania, yet the fact remains that the situation in Pennsylvania affords the strongest circumstantial evidence that Guffey is guilty as charged. Most of the men who voted to retain him on the committee are "practical politicians." They are concerned chiefly to win the offices, secondly to protect the trusts and monopolies against the trouble that would come to them if a progressive democratic president

DEMOCRAT WINS IN KANSAS

ELECTION OF NEELY IN KANSAS DAZES REPUBLICAN CONTINGENT IN CONGRESS

FULL IMPORT OF VICTORY

Hammering Especially at Tariff and the Administration. Contrasted with Discussion of Generalities

Washington, Jan. 10.—Not only the Administration's following in Congress did the election of George A. Neely, a Democrat, of Hutchinson, Kan., to succeed the late Representative Madison fall as a staggering blow, but the whole progressive Republican contingent from the Sunflower State in Congress is in a sort of daze over the situation.

The figures tonight show that Neely defeated former District Judge F. L. Martin, also of Hutchinson, by 1200 votes.

To catch the full import of what this Democratic victory means, these facts should be borne in mind:

Judge Martin was nominated at a popular primary as a regular

STRANGE-WHITE SHOE COMPANY
814 Eighth Street

Japan's Mission Is to Unite the East and West

By Dr. INAZO NITOBE
Head of Imperial College of Japan

WHEREVER a white power enters the east and seizes a piece of territory and when, as always follows, the country that has suffered the loss raises a great hue and cry you always hear it said that Japan is somewhere behind the eastern country. The INFLUENCE OF JAPAN IS ALWAYS SUSPECTED. But I can assure you that the suspicion is not just.

WE THINK OF OURSELVES IN JAPAN AS THE GO-BETWEEN OF THE EAST AND THE WEST AND NOT THE LEADER OF THE EAST AGAINST THE WEST. WE PREFER TO BRING TOGETHER THE NATIONS WHICH HAVE SO LONG TROD DIFFERENT PATHS AND UNITE THEM BY BONDS OF SYMPATHY AND RESPECT.

The location of the Japanese empire in the Pacific so far from the shores of America and from the centers of the world had made the Japanese GREATER STRANGERS TO THE WORLD than almost any other nation. The difficulty of passing from Japan even to California was enough to make understanding a matter of time.

The tendency to explain the character of a people by their environments is often OVERDONE. Some western travelers have tried to explain all Japanese life by our volcanoes and our earthquakes. But I think the mental influences have been small. In the Shinto religion, where there is a god for everything, there is only one mention of a god of earthquakes. The volcano and the earthquake have had an effect on our art and our architecture, but not an appreciable effect on the psychology or emotional life of the Japanese.

The insularity of Japan had made the Japanese a homogenous people with a STRONG PATRIOTISM.

American Schools Should All Adopt Folklore

By Dr. JOSEPH JACOBS, President of the American Folklore Society

THE chief trouble with education at present is its tentative and formless character, culminated in the academic elective system which has undermined the vitality of the American intellect.

Might we not begin at the very beginning and remedy this in the kindergarten by giving to all American children a common set of folk tales, of folk songs and folk games, and should not this nucleus be formed by the COMMON ELEMENTS OF EUROPEAN FOLKLORE in these branches, which could easily be put into form by a competent folklorist?

EVERY AMERICAN CHILD SHOULD KNOW THE SEVENTY-TWO FAIRY TALES, THE THIRTY OR FORTY BALLADS, THE TWENTY OR THIRTY GAMES WHICH ARE COMMON TO ALL OF THE CHILDREN OF EUROPE, FROM ONE OR OTHER OF WHOM HE TRACES HIS ORIGIN. THUS ONE TOUCH OF FOLKLORE WOULD MAKE THE WHOLE CIVILIZED WORLD KIN.

EDITORIAL REFLECTIONS

Someone has observed that Friday is an unlucky day—for those that believe it is.—Brownwood Bulletin.

Let's see, before the doctors coined appendicitis what did they use with which to open rich men's pocketbooks?—El Campo Citizen.

Boston seeks to elevate the drama. The ticket buyer feels the drama has already been elevated beyond the average man's reach.—Corpus Christi Caller.

He who would be great must become the servant of all. And yet a great many people think that their greatness entitles them to make servants of other people.—Bowie Blade.

What a woman can never understand is how her husband can remember the name of the president of the United States and yet not what date her sister's third child was born on.—Paris News.

While he who laughs last may laugh best, still it is mighty trying to have the other fellow laughing while you are waiting for your laugh. It usually looks like this is to be the last laugh.—Beaumont Journal.

Follette movement has fought shy of, just like Judge Martin fought shy of it when he went down in defeat before Neely, the progressive Democrat.

QUAKER MEDITATIONS
Is it possible for a man to be straight, and make both ends meet?

Some people are so wrapped up in themselves as to suggest human balls of twine.

"Are you interested in psychology?" asked the Boston girl. "St. Colog? Who's he?" asked the girl from Chicago.

Sillicus—"Is there any cure for love?" Cynicus—"Yes, the gold cure. In other words an injection of all-moony."

Honz—"I wonder what has become of all the Alime museum freaks?" Joax—"I understand most of the India rubber men are now employed in saloons as bouncers."

A woman isn't necessarily a society leader because she leads her husband around by the nose.

Many a dramatic critic doesn't know a good thing when he sees it—at least, many playwrights think so. You can flatter a man by saying that his fool actions indicate budding genius.

A man with more money than brains is apt to have more friends than enemies.

LIVED ON RAW EGGS

Mr. Richard's Experience With Different Diets. Peaches and Buttermilk for Three Years.

Cecilton, Md.—Mr. George Richards, of this place, during the past 12 years, has probably tried more different diets than the average person would ever use in a lifetime.

What he has to say about his experiments, must therefore be highly interesting to anyone suffering from indigestion or stomach troubles of any kind.

He says: "For more than 12 years, I suffered with stomach troubles, and paid hundreds of dollars for doctor bills and medicines. I was also operated on for piles."

I lived on dried peaches and buttermilk for nearly three years. The only thing that would not give me pain was saw eggs. I was a physical wreck, I could not sleep, and was as near crazy as a man could well be.

I must say that after taking two 25-cent packages of Thedford's Black-Draught, it did me more good than all I ever spent for other medicines.

I have been working daily on the farm ever since, and I am as hard as iron. This purely vegetable remedy has been successful in use for more than 70 years. Try it. But be sure that it's Thedford's.

Oil Men:

Do You Want to Buy a Modern Home Here?

I have for sale a MODERN 7 room house on large east front lot, well located. It is new, complete and elegant, a "Peach." The price is right and the time is right. If you are in the market you will buy this. See me in the lobby of the Howard Hotel.

Phases of Meningitis

According to the medical books, three distinct varieties of acute meningitis are met with in children. They are: Cerebro-spinal meningitis, which prevails epidemically but also occurs sporadically, and which is regarded as a general infectious disease; simple acute meningitis which may be due to a wide variety of micro organisms and which is usually a secondary disease, and tubercular meningitis.

Epidemics of cerebro-spinal meningitis are separated by long intervals and occur without any assignable cause. The hospital records of New York city show that there have been two epidemics of that disease there within the last half century. The first was in 1872, when there was a death rate of 85 out of 100,000 of the population, and in 1894-5 when the list ran as high as 180 to every 100,000. There are a limited number of cases of this disease in all larger cities of this country practically all the time. Epidemics are usually seen in the winter and early spring, lasting for several months, generally reaching their height in March or April and slowly subsiding as the warm weather approaches.

With reference to the cause of epidemics, very little has been settled. When the disease prevails in the largest cities it is usually credited to overcrowded private houses. Many cases occur in certain districts, while in others not very far removed there may be but few. These facts suggest a connection with insanitary conditions, but nothing that is positive has been demonstrated. A local physician of wide practice said yesterday that it had been his experience that the disease is more likely to occur in the home that is the poorest ventilated and which has the poorest sanitary conditions in general.

Cerebro-spinal meningitis is not contagious. Whether the disease is in any way communicable has not yet been established. The fact that in a considerable number of cases—about 15 per cent—an organism resembling meningococcus has been found in the noses of children and adults exposed to the disease affords some grounds for believing the disease communicable. However, when it is considered that in fully 70 per cent of the cases but one person in a household is affected, it becomes apparent that the danger of spreading the disease in this way is slight. Sporadic cases of meningitis occur after epidemics from no apparent cause and without any connection with one another. Children of all ages are about equally susceptible to this disease.

The symptoms of cerebro-spinal meningitis do not differ essentially in the sporadic and epidemic cases, except that the most severe forms of the disease are seen in the latter. They may be divided into several distinct groups.

1. "Hyper-acute form," which is rarely seen except in an epidemic and which usually occurs when the epidemic is at its height. The onset is very abrupt, the course short and intense, sickness and death may take place within twelve to thirty-six hours. The earliest symptoms are usually intense headache, repeated attacks of vomiting and a very high fever. There is great prostration and the nervous symptoms increase so rapidly that in a few hours the patient may become comatose and death may occur within a short period. The temperature rises rapidly to 104 or 105 degrees. There is usually no rigidity, but rather general relaxation. The pulse becomes weak and in most cases rapid, but sometimes slow and irregular. The respiration is usually irregular, both in frequency and depth.

2. "Usual form," in which the onset is also generally abrupt but not so violent as in the cases just described. It may be marked by intense headache, vomiting, convulsions, delirium, chills and fever, with general rigidity. The initial temperature is high, and there are severe pains in the back of the neck and along the spine. The muscles are also generally rigid. The pulse is generally rapid, 120 to 150. As the disease progresses the nervous symptoms often change but little from day to day for two or three weeks. The affected child can not lie upon its back, but reclines upon its side with the head thrown back. The bowels are usually constipated.

Oddities in a Day's News

Father and Daughter Fooled; Think Each Other Dead Ten Years.
Dr. Marie E. Megall of Asbury Park, New Jersey, has found her father in Texas after he had believed the other dead for ten years.

White Eating His Oysters.
Councillor H. A. Archibald of New Rochelle, N. Y., began his career as a city official by eating oysters in a restaurant there.

Two Santa Fe Brakemen Live Week on Jackrabbits.
Two Santa Fe brakemen, marooned by snow for a week on a car of a freight train near Laird, Western Kansas, are living on jackrabbits. The men are obeying an order not

to abandon the train, the rest of the crew having floundered through the snow to Laird.

Receiver's Held as Hostages For Wages by Laborers.

When J. L. Heard and J. T. Reid went to Smithfield, Va., to take charge as receivers, named by the federal court, of a transportation company, they were held as hostages by Italian laborers who clamored for their wages.

Babies Are Barred From Fashionable Girls' College.
Miss Virginia C. Gildersleeve, dean of Barnard, does not believe that the cooing of babies harmonizes with the higher education, and on her complaint the police chief will detail policemen to the college precincts to keep the infants away.

Married Forty-six Years; Gets Divorce for "Cruelty."
Alleging that her husband frequently struck her, Mrs. Zacharias A. Roberts of Middletown, Del., 70 years old, got a divorce from her husband, age 72 years.

Girl of Four Able to Talk in Four Languages.
Askey Tercoye Martin, 4-year-old daughter of Mr. and Mrs. Johnson, Turkish, Greek and English. The child has picked up a wonderful knowledge of all four.

They had lived together 46 years and are the oldest couple ever divorced in Delaware.

that the goo-goo and howling interfere with the girls' studies.

Policeman "Treed" by Goat He Would Drive From Park.
Policeman Michael Casey tried to round up a goat in Riverside Park, Pittsburg, and the animal butted him so industriously Casey climbed a nearby tree.

The goat spent an hour ramming the tree in an effort to dislodge the cop. Then, as Casey had failed to report, the reserves were sent out to ascertain the cause and rescued him.

Striking Katy Carmen Returning to Work
Six Take Back Their Jobs at Denison and Others Go Back at Other Points.

Denison Herald.
The first break in the strike of Katy carmen in Denison occurred yesterday, when four of the old employes returned to work.

At 9 o'clock Friday morning, September 22, a strike of men employed in the car department of the Katy was called and every man employed in that department in Denison laid down his tools and quit. Many of the men who did not belong to the Car-men's Union, left their work to help their fellow men as well as themselves.

It was said that practically every man walked out over the system, and remained out for some time. Several weeks ago most of the old men returned to work at Greenville, Mineola, Hughes Springs and Houston, while it is said that many of the older employes returned to work in the Sedalia, Mo., shops.

The men struck on account of the Katy refusing to recognize their union as a system organization. The Missouri, Kansas & Texas Railroad officials north of Red River were willing to meet with the men employed in their territory, while the Missouri, Kansas & Texas Railroad company of Texas officials were willing to meet with the men employed in Texas. This was not agreeable with the carmen, and the strike was called.

Up to yesterday there was no break in the ranks of the strikers in Denison. Yesterday morning four of the old employes returned to work in the local shops and today two more returned. Those who returned today are employed doing passenger train work near the Union Station. What effect the six men returning to work in Denison will have on the men here is not known. Some men say that others will return, while many of them say that they will leave the city before they will return to the shops under the present conditions.

150 M. K. & T. Strikers Return
Sedalia, Mo., Jan. 10.—Master Car Builder Mitchell of the M. K. & T. R. R. reports that 150 additional shop men who have been on a strike since September 23, returned to work Monday. The appropriation for January has been cut materially and there are few more vacancies.

TO CALL SYMPATHY STRIKE.
Federated Shop Employees of Harriman Lines Seek Support
San Francisco, Cal., Jan. 10.—Sympathetic strike of more than 100,000 members of the federated railroad shop employes, to be called within a month, and possibly within two weeks, was predicted today by Ernest L. Requin, president of the federated shop employes of the Harriman lines. The strike, he said, will include every road in Texas, the Denver & Rio Grande and the Hill lines and possibly roads in the East that are members of the General Managers' Association.

According to Requin, plans for this sympathetic strike have progressed to the point where only the formality of taking a vote remains. Of the result of this vote there is no doubt, he said. "The strike on the Harriman lines," said Requin, "has reached the stage where the roads would be compelled to deal with the employes were it not for the assistance received from other roads. Before the strike there was an ironclad rule that one road would not take rolling stock from another road unless that stock was in first-class condition, but now anything is accepted, and union men in shops of the roads not directly involved in the strike are compelled to repair the rolling stock of the Harriman lines. We figure that once these roads now lending assistance to the Harriman lines have trouble of their own, the Harriman lines will soon capitulate. The strike probably will be called from Chicago."

To Join Forces.
San Antonio, Jan. 10.—The Texas Sheep and Goat Raisers' Association has presented a resolution to Governor Colquitt requesting the executive to use his influence with the governors of the states of Arizona and New Mexico and in the northern part of the Republic of Mexico to take action toward exterminating predatory wild animals in these states when Texas begins the

A Hold-Up

An Oppressive Trust.

Before the Coffee Roasters' Association, in session at Chicago on Thursday, Thomas J. Webb, of Chicago, charged that there is in existence a coffee combine which is "the most monstrous imposition in the history of human commerce."

There is very slight exaggeration about this statement. It comes very close to being literally true. There is a coffee combine in Brazil, from which country comes the bulk of the coffee used in the United States, which is backed by the government of Brazil and financed by it, which compels American consumers, as Mr. Webb said, "to pay famine prices for coffee when no famine exists."

The worst thing about this is that the consumers of the United States have been compelled to put up the money through which this combine, to further cinch them, has been made effective. There were formerly revenue duties imposed upon all coffee entering the United States. Those taxes were denounced as an imposition upon the people; as taxing the poor man's breakfast-table, and the like. The taxes were removed. Immediately thereafter Brazil imposed an export duty upon coffee up to the full amount of the former customs taxes in this country. The revenue which formerly went into the treasury of the United States was diverted to the treasury of Brazil. The poor man's breakfast coffee continued to cost him the same old price.

But this was only the commencement. The "valorization" plan was evolved in Brazil. Through this plan the government, using the revenues derived from the export duties for the purposes, takes all of the surplus crop in a season of large yields and holds it off the market, thus keeping the supply down to the demands of the market and permitting the planters to receive a much higher price than they would otherwise have done.

The United States consumes more Brazilian coffee than does the rest of the world. We are the best customers of Brazil, and Brazil buys little from us. Now Brazil is promoting, financing and maintaining a trust designed, and working effectively for the purpose, to compel American consumers to pay an exorbitant price for the coffee they use. What is the remedy?—Seattle Post-Intelligencer—Nov. 19, 1911.

Standard statistics of the coffee trade show a falling off in sales during the last two years of over two hundred million pounds. Authenticated reports from the Postum factories in this city show a tremendous increase in the sale of Postum in a like period of time.

While the sales of Postum invariably show marked increase year over year, the extraordinary demand for that well-known breakfast beverage during 1911 is very likely due to a public awakening to the oppression of the coffee trust.

Such an awakening naturally disposes the multitude who suffer from the ill effects of coffee drinking to be more receptive to knowledge of harm which so often comes as a result of the use of the drug-beverage, coffee.—Battle Creek Evening News—Dec. 19, 1911.

POSTUM

is a pure food-drink made of the field grains, with a pleasing flavour not unlike high grade Java.

A Big Package About 1 1/4 lbs. Costs 25 cts. At Grocers

Economy to one's purse is not the main reason for using Postum.

It is absolutely free from any harmful substance, such as "caffeine" (the drug in coffee), to which so much of the nervousness, biliousness and indigestion of today are due. Thousands of former coffee drinkers now use Postum because they know from experience the harm that coffee drinking causes.

Boil it according to directions (that's easy) and it will become clear to you why—

work September 1, next, under the wolf-scalp bounty-law of the Thirty-second legislature. It is also requested that Governor Colquitt communicate with the Federal Secretary of Agriculture and obtain that official's co-operation in presenting the need of extermination of the predatory wild animals to the governors of these several states.

The governor is heartily in accord with the purpose of ridding West Texas of wolves, its own and those that cross the Rio Grande at seasons when it is shallow, and with other plans to protect and improve the sheep and goat industries of the state, and has promised to assist in every way within his power.

The log of our deep well continues identical with the formations encountered at Electra, and when Mr. Robbins and his wife returned yesterday from their Christmas visit home and found the drill working in a likely looking sand at a little over 900 feet he stopped work and wired for his partner, Judge Trice, who came up from Electra on a night

Demenciau Again Breaks The French Cabinet During A Stormy Session Tuesday

Associated Press. Paris, Jan. 10.—Theophile Demenciau, now minister of marine in the cabinet, has accepted the nomination of minister of foreign affairs yesterday after a dramatic session of the Senate committee M. Calliaux denied there had been secret negotiations between France and Germany on the Moroccan subject. M. Clemenceau sprang to his seat and buried the question at M. De Selva's, "Will you confirm the Premier's statement?"

It is said that David Belasco has commissioned Brand Whitlock, Mayor of Toledo, novelist and sociologist, to write a political play dealing with the submerged tenth.

A play of the Maine woods by Owen Davis called "Making Good," is shortly to be produced by Wm. A. Brady. William Courtney will be featured in the production.

The present season of the "Three Romances" is closed, but Dreifuss and Felner will revive the piece in the spring for an all-summer run in Chicago.

Henry Arthur Jones, the English playwright, will be in New York for about six weeks. He has with him the manuscripts of two new plays.

One Hundred Miles an Hour In an Aeroplane

By WALTER BROOKINS, Aviator

AEROPLANES VERY SOON WILL BE ABLE TO MAKE FROM NINETY TO A HUNDRED MILES AN HOUR, WHERE THEY NOW MAKE FROM FIFTY TO SIXTY MILES. THEY WILL BE ABLE TO MAKE LONG VOYAGES OVER SEAS, TO ALIGHT IN THE OCEAN, START AGAIN FROM THE WATER AND "TRIM SAIL" AFLOAT IN THE AIR.

We need aeroplanes that can stay aloft at twenty miles an hour and under, and if we get them in a condition to do that and then can reef in the sail spread after we get up we can send them to ONE HUNDRED MILES AN HOUR on the present engine development. A single aeroplane capable of running at twenty and then at one hundred miles an hour—how would that be for a development? Wouldn't it make the automobile look sick?

The railroad train doesn't haul the load of the steamship. Yet as between steamships and railroads we prefer the latter where speed is requisite. We are now facing a chance to go between fixed points at from SEVENTY-FIVE TO ONE HUNDRED MILES AN HOUR OVER THE SHORTEST POSSIBLE ROUTE, and we must not belittle the aeroplane's capacity.

When we can see these things ahead of us it amazes us.

Results From Panama Canal to Astonish Business World

By G. W. LUCE.

WE know that the canal is going to hit the railroads pretty hard in a way. We will lose freight. It means that New York manufacturers will be able to quote practically New York prices to San Francisco consumers.

Just as soon as the canal is opened the big employers of labor in the west will be able to solve the labor problem of many years' standing and by importation of unprejudiced men handle the labor market in such a way as to clear the whole atmosphere. This is not a fight, but simply an adjustment, and will be ALONG NATURAL LINES.

Another thing that is not known is that oriental goods will go DIRECT TO NEW YORK instead of transshipping to rail at San Francisco and Seattle. This will greatly increase New York's trade. The popular idea that the ships will all go one way is wrong. They will GO BACK AGAIN WITH AMERICAN GOODS.

SO VAST IS THE TRADE MOVEMENT ALREADY STARTED NOW IN THE SHAPE OF TANGIBLE NEGOTIATIONS, SUCH AS MANUFACTURERS' AGENCIES, THAT HONGKONG, SAN FRANCISCO AND NEW YORK WILL FORM A CHAIN OF INTERDEPENDENT MARKETS, SO LINKED TOGETHER THAT THEY WILL FORM A DOMINANT FACTOR IN WORLD TRADE.

Under an apparently quiet surface this gigantic movement has made such headway that when its actual operation sets in motion the BUSINESS WORLD WILL BE ASTONISHED.

It Is Woman's Influence That Rules Our Country

EUGENE N. FOSS.

THESE are days of popular unrest, a wholesome unrest. It signifies that both men and women are not satisfied to remain stationary, but are resolved to reach out to larger opportunities and to better conditions.

The enfranchisement of women is not yet accomplished, but it is coming. Political leadership is not yet established as one of women's tasks, and yet it is coming. Political leadership is not yet established as one of women's tasks, and yet it is coming. Political leadership is not yet established as one of women's tasks, and yet it is coming.

Where such a choice of delegates for the State is made, the delegates and the wives and mothers of America. It is that it always will be.

Miss Key College has been appointed her parents, Mr. and Mrs. Austin street, left Sherman to resume her studies.

BOB FITZSIMMONS PARTS FROM WIFE

Ginger Ale Highball Caused Trouble Between Ex-Pugilist and Act'ess.

New York, Jan. 11.—Bob Fitzsimmons, ex-champion heavy-weight, declared that he and his wife, Julia Gifford, had parted. "I am through with her forever," said the freckled marvel of the ring, when told that his actress wife had made the formal announcement she would never tolerate his company unless he quit drinking.

"Listen to me," said Fitzsimmons, who wags found last night in Patterson, N. J. "The whole trouble was that I had one ginger ale highball when her folks were being entertained at my farm at Dunellen, N. J. I did try to patch up the affair of that one highball. I went out to St. Paul, where she was playing, and I saw her, but it was no use, and now I am through.

"I have discharged by chauffeur, Harry La Fontaine, and am now living the rugged life of a farmer and am perhaps 'appy. I don't want to see 'er again. I'm done and I'm 'appy to say so."

Julia May Gifford was an actress in minor roles when she became enamored of the lanky prize fighter five or six years ago. She played the boy part of Robert Pemberton in "When Johnny Comes Marching Home," was prima donna in light opera and starred with her husband in "A Fight for Love."

"This is My 73rd Birthday."

Franklin Simmons.

Franklin Simmons, the well known sculptor, was born in Webster, Maine, January 11, 1839. His education was received principally at Bates College. After some preliminary work in portraiture in his native state, Mr. Simmons spent the winters of 1865 and 1866 in Washington. Of late years he has resided the most of the time in Rome. He has executed more than 100 portrait busts in marble, many of them American military and naval heroes, including Admirals Farragut and Porter and Generals Grant, Sheridan, Sherman, Thomas, Hooker, Meade and others. Among his other notable works are the statues of General Logan in Washington, D. C., the Longfellow and Soldiers' monuments in Portland, Me., and the statue of Roger Williams in Providence, R. I. In 1898 the sculptor was knighted by the King of Italy.

Congratulations to—

Lord Curzon of Kedleston, former governor-general of India, 53 years old today.

1871—Paul DeFord, noted English comedian, died. Born in 1798.

Probably a Lot of Your Troubles Wouldn't Trouble a Want Advertiser at All!

Want advertisers and answers of want advertisements ACCOMPLISH THINGS that other people simply "worry about," and hope that they "will work out somehow, sometime."

With want advertising, the property owner finds either buyers or tenants, while the non-advertiser WAITS for someone to "come along" and search for him and for his property.

With want advertising, the worker finds work—the employers finds workers—and the machinery of daily life does not slip a cog.

With want advertising, the used articles are sold to advantage—the business plan finds a "backer"—the buyer and seller discovers each other without any "blind searches," and people come to manage their affairs with the smallest possible amount of vexation, worry or delays.

There's not much nourishment for the "trouble-germ" in any of your affairs if you utilize want advertising to the fullest possible extent.

Oddities in a Day's News

Father and Daughter Fooled; Think Each Other Dead Ten Years.
Dr. Marie K. Megall of Asbury Park, New Jersey, has found her father in Texas after she had believed the other dead for ten years.

A Family of Hoaxes.
A family of hoaxes were responsible for the hoax. He collected money from each for the funeral of the other and showed photos of the supposed tombstone he had erected at the grave of each.

Finds Four \$100 Pearls.
White Eating His Oysters.
Councillor H. A. Archibald of New Rochelle, N. Y., began his career as a city official by eating oysters in a restaurant there.

The something that lodged in a tooth proved to be a pearl and he found three others. A jeweler appraised them at \$100 each.

Two Santa Fe Brakemen Live Week on Jackrabbits.
Two Santa Fe brakemen, marooned by snow for a week on a car of a freight train near Laird, Western Kansas, are living on jackrabbits. The men are obeying an order not

to abandon the train, the rest of the crew having floundered through the snow to Laird.

Receiver's Held as Hostages For Wages by Laborers.
When J. L. Heard and J. T. Reid went to Smithfield, Va., to take charge as receivers, named by the federal court, of a transportation company, they were held as hostages by Italian laborers who clamored for their wages.

Babies Are Barred From Fashionable Girls' College.
Miss Virginia C. Gildersleeve, dean of Barnard, does not believe that the cooing of babies harmonizes with the higher education, and on her complaint the police chief will detail policemen to the college precincts to keep the infants away.

Married Forty-six Years; Gets Divorce for "Cruelty."
Alleging that her husband frequently struck her, Mrs. Zacharias A. Roberts of Middletown, Del., 79 years old, got a divorce from her husband, aged 72 years.

They had lived together 46 years and are the oldest couple ever divorced in Delaware.

that the goo-goo's and bawling interfere with the girls' studies.

Policeman "Treed" by Goat He Would Drive From Park.
Policemen Michael Casey tried to round up a goat in Riverside Park, Pittsburg, and the animal butted him so industriously Casey climbed a nearby tree.

The goat spent an hour ramming the tree in an effort to dislodge the cop. Then, as Casey had failed to report, the reserves were sent out to ascertain the cause and rescued him.

Girl of Four Able to Talk in Four Languages.
Askey Tercoye Martin, 4-year-old daughter of Mr. and Mrs. Johnson Martin of Brooklyn, can talk in four languages, understanding Armenian, Turkish, Greek and English. The child has picked up a wonderful knowledge of all four.

STRIKING KATY CARMEN RETURNING TO WORK

Six Take Back Their Jobs at Denison and Others Go Back at Other Points.

Denison Herald.
The first break in the strike of Katy carmen in Denison occurred yesterday, when four of the old employes returned to work.

At 9 o'clock Friday morning, September 22, a strike of men employed in the car department of the Katy was called and every man employed in that department in Denison laid down his tools and quit. Many of the men who did not belong to the Car-men's Union, left their work to help their fellow men as well as themselves.

It was said that practically every man walked out over the system, and remained out for some time. Several weeks ago most of the old men returned to work at Greenville, Mineola, Hughes Springs and Houston, while it is said that many of the older employes returned to work in the Sedalia, Mo., shops.

The men struck on account of the Katy refusing to recognize their union as a system organization. The Missouri, Kansas & Texas Railroad officials north of Red River were willing to meet with the men employed in their territory, while the Missouri, Kansas & Texas Railroad company of Texas officials were willing to meet with the men employed in Texas. This was not agreeable with the carmen, and the strike was called.

Up to yesterday there was no break in the ranks of the strikers in Denison. Yesterday morning four of the old employes returned to work in the local shops and today two more returned. Those who returned today are employed doing passenger train work near the Union Station. What effect the six men returning to work in Denison will have on the men here is not known. Some men say that others will return, while many of them say that they will leave the city before they will return to the shops under the present conditions.

150 M. & T. Strikers Return.
Sedalia, Mo., Jan. 10.—Master Car Builder Mitchell of the M. & T. R. R. reports that 150 additional shop men who have been on a strike since September 3, returned to work Monday. The appropriation for January has been cut materially and there are few more vacancies.

TO CALL SYMPATHY STRIKE.
Federated Shop Employees of Harriman Lines Seek Support
San Francisco, Cal., Jan. 10.—Sympathetic strike of more than 100,000 members of the federated railroad shop employes, to be called within a month, and possibly within two weeks, was predicted today by Ernest L. Requin, president of the federated shop employes of the Harriman lines. The strike, he said, will include every road in Texas, the Denver & Rio Grande and the "fill lines and possibly roads in the East that are members of the "General Managers' Association."

According to Requin, plans for this sympathetic strike have progressed to the point where only the formality of taking a vote remains. Of the result of this vote there is no doubt, he said. "The strike on the Harriman lines," said Requin, "has reached the stage where the roads would be compelled to deal with the employes were it not for the assistance received from other roads. Before the strike there was an uncodified rule that one road would not take rolling stock from another road unless that stock was in first-class condition, but now anything is accepted, and union men in shops of the roads not directly involved in the strike are compelled to repair the rolling stock of the Harriman lines. We figure that once these roads now lending assistance to the Harriman lines have trouble of their own, the Harriman lines will soon capitulate. The strike probably will be called from Chicago."

To Join Forces.
San Antonio, Jan. 10.—The Texas Sheep and Goat Raisers' Association has presented a resolution to Governor Colquitt requesting the executive to use his influence with the governors of the states of Arizona and New Mexico and in the northern part of the Republic of Mexico to take action toward exterminating predatory wild animals in these states when Texas begins the

A Hold-Up

An Oppressive Trust.

Before the Coffee Roasters' Association, in session at Chicago on Thursday, Thomas J. Webb, of Chicago, charged that there is in existence a coffee combine which is "the most monstrous imposition in the history of human commerce."

There is very slight exaggeration about this statement. It comes very close to being literally true. There is a coffee combine in Brazil, from which country comes the bulk of the coffee used in the United States, which is backed by the government of Brazil and financed by it, which compels American consumers, as Mr. Webb said, "to pay famine prices for coffee when no famine exists."

The worst thing about this is that the consumers of the United States have been compelled to put up the money through which this combine, to further cinch them, has been made effective. There were formerly revenue duties imposed upon all coffee entering the United States. Those taxes were denounced as an imposition upon the people; as taxing the poor man's breakfast table, and the like. The taxes were removed. Immediately thereafter Brazil imposed an export duty upon coffee up to the full amount of the former customs taxes in this country. The revenue which formerly went into the treasury of the United States was diverted to the treasury of Brazil. The poor man's breakfast coffee continued to cost him the same old price.

But this was only the commencement. The "valorization" plan was evolved in Brazil. Through this plan the government, using the revenues derived from the export duties for the purposes, takes all of the surplus crop in a season of large yields and holds it off the market, thus keeping the supply down to the demands of the market and permitting the planters to receive a much higher price than they would otherwise have done.

The United States consumes more Brazilian coffee than does the rest of the world. We are the best customers of Brazil, and Brazil buys little from us. Now Brazil is promoting, financing and maintaining a trust designed, and working effectively for the purpose, to compel American consumers to pay an exorbitant price for the coffee they use. What is the remedy?—Seattle Post-Intelligencer—Nov. 19, 1911.

He did
"Compels"
tax Americans
Get this clear
Then this

Standard statistics of the coffee trade show a falling off in sales during the last two years of over two hundred millions pounds. Authenticated reports from the Postum factories in this city show a tremendous increase in the sale of Postum in a like period of time.

While the sales of Postum invariably show marked increase year over year, the extraordinary demand for that well-known breakfast beverage during 1911 is very likely due to a public awakening to the oppression of the coffee trust.

Such an awakening naturally disposes the multitude who suffer from the ill effects of coffee drinking to be more receptive to knowledge of harm which so often comes as a result of the use of the drug-beverage, coffee.—Battle Creek Evening News—Dec. 19, 1911.

POSTUM

is a pure food-drink made of the field grains, with a pleasing flavour not unlike high grade Java.

A Big Package
About 1 1/4 lbs. Costs 25 cts.
At Grocers

Economy to one's purse is not the main reason for using Postum.

It is absolutely free from any harmful substance, such as "caffeine" (the drug in coffee), to which so much of the nervousness, biliousness and indigestion of today are due. Thousands of former coffee drinkers now use Postum because they know from experience the harm that coffee drinking causes.

Boil it according to directions (that's easy) and it will become clear to you why—

Probably a Lot of Your Troubles Wouldn't Trouble a Want Advertiser at All!

Want advertisers and answerers of want advertisements ACCOMPLISH THINGS that other people simply "worry about," and hope that they "will work out somehow, sometime."

With want advertising, the property owner finds either buyers or tenants, while the non-advertiser WAITS for someone to "come along" and search for him and for his property.

With want advertising, the worker finds work—the employers finds workers—and the machinery of daily life does not slip a cog.

With want advertising, the used articles are sold to advantage—the business plan finds a "backer"—the buyer and seller discovers each other without any "blind searches," and people come to manage their affairs with the smallest possible amount of vexation, worry or delays.

There's not much nourishment for the "trouble-germ" in any of your affairs if you utilize want advertising to the fullest possible extent.

Times Want Ads Bring Results

Dr. M. R. Garrison, Dentist, office First National Bank Bldg. Phone 40. MAY CANCEL RATES ON BRICK.

Texas Railroad Commission Considers Matter of Making Void All Special Tariff Quotations.

Austin, Texas, Jan. 11.—The Railroad Commission proposes to cancel all special rates applying in Texas on brick and make all brick take the published tariff rates based on the mileage transported.

It was only last month that the commission canceled out all special rates applying on crude petroleum in this State. Today it issued notice of hearing for Feb. 4 to consider the matter of cancelling all special rates on brick. Vigorous objection will be made by a number of brickmakers. Several months ago it proposed to cancel all special rates on coal and lignite, but after a hearing took no action.

The commission will also at said hearing consider the advisability of such readjustment of the rates provided in Title No. 1 of said tariff applying on common vitrified brick, as may be deemed necessary in the event the special rates as above outlined are, in pursuance of said hearing, canceled.

About 120,000 women are employed by the French government and the number is growing considerably.

MAY NOT RAISE SHOE PRICES

MANUFACTURERS MAY AFTER PLAN TO RAISE PRICE FIFTY CENTS A PAIR

AFRAID OF SHERMAN LAW

Leading Factory Representatives Discuss Trade Conditions, But Fear To Act.

New York, Jan. 11.—Public protest and threats of government action may cause the footwear manufacturers to abandon their plan of raising the price of shoes fifty cents a pair. Officials and representatives of all the leading shoe factories of the country are in New York today in attendance at the annual meeting of the National Foot and Shoe Manufacturers Association and are discussing the proposed advance, which was originally scheduled to take effect last fall, but has been postponed.

MR. CIGAR SMOKER:

Did you ever get handbagged on a short piece of lafiat rope wrapped in a painted rag and sold for a dime? One that smells like a fire in a business factory, tastes like a spoiled T-bone steak, and is as rotten as a snake show hand-voile. That kind of a cigar has No-To-Bac and Keely Institute nine in line down the speedway with a bursted tire and a dead engine when it comes to making you quit the weed, but if you enjoy worshipping at the shrine of My Lady Nicotine—why should you punish yourself trying to worry down one of these human torture sticks that is liable to get you in bad with the police on a charge of maintaining a nuisance. Let us hand you a quiet hunch. Salt this down in your brain barn for future reference. We have them all. If you want a bad one don't pass us. If you want the very best hitch right here most any old time as we are on the job all the time except about six hours on the far end of each night we go to roost to let the moon change and it was cigar quality that put us in the nut department of the bug house division and if you own a taste for the real Raz Ma Taz queen-of-the-islands don't forget we are the court of last resort when it comes to giving a dime's worth of high grade smoke for ten cents. The Prince of Navarre when translated into United States conversation means the best in the world for the dime.

The increase in the cost of raw materials, but they are inclined to be cautious, since the statement recently made by United States District Attorney Asa P. Church of Massachusetts, that he will investigate and take action in the near future against the Sherman act. Attorney Frieze is quoted as saying that if the manufacturers engaged in interstate commerce combine to raise prices they will be violating the Sherman act. John H. Hanan of this city, who is president of the association of shoe manufacturers, says that the association is not authorized by any of the officials of either the National New England shoe and leather association or the National Foot and Shoe Manufacturers Association to take any such action. He says that the association is not authorized to take any such action, and that the association is not authorized to take any such action.
