NUMBER 208.

ASK EXEMPTION FROM TRUST LAW

SAMUEL GOMPERS OF OPINION THAT SHERMAN LAW SHOULD NOT APPLY TO UNIONS.

TEDDY PROMISED RELIEF

Strenuous One, However, Federation Chief Declares, Took No Steps to Make Promise Good.

Washington, D. C., Jan. 12.—Backing up his demand that the Sherman anti-trust law should be amended as to exempt labor organizations from its provisions, Samuel Gompers, president of the American Federation of Labor, who appeared before the senate interstate commerce committee today, quoted an interview he had with former President Roosevelt in 1908.

President Roosevelt, according to Mr. Gompers, said that the law should be so construed that it would affirmatively state that which is unlawful and omit references to labor organizations. He said he would take it up with his cabinet during the summer, but that was all that came of it except that he frequently made reference on his swing around the western states to the fact that the law should be amended.

Mr. Gompers declared that he had been given assurances that the Sherman law would not affect labor organizations, but never took them seriously.

"We do not want such assurances; either we exist or right or we should be dissolved. We do not want to be hoodwinked or lulled into fancied security that we do not possess. We men of labor want to know our status."

Referring to a court decree, where the laboring men were enjoined from "going out," Mr. Gompers said:

"It is nothing more than the establishment of slavery to attempt to suppress a strike by a court decree and force men to work at their own price. No man in this country should be compelled by a court to go to work."

Mr. Gompers appealed to the committee to amend the law so as to make labor organizations immune from its operation.

Dr. Lyman Abbott also appeared before the committee today. He favored legislation—supplementing the law and advocated a corporation commission or bureau. He did not think the government should dictate prices but that when a corporation became large enough to fix prices and shut out competition it should be done under the control of the government.

AMERICAN TROOPS LEAVE FOR CHINA

Battalion of the Fifteenth Infantry Sailed From Manila Today.

By Associated Press.
Manila, Jan. 12.—The U. S. transport Logan left this afternoon with a battalion of the Fifteenth Infantry for Chin Won Tan. The American troops are to be employed in guarding the section of the Peking Railroad from Tang Shan to Lanchow against possible attack of either the Imperialist or Republican troops.

Troops and civilians witnessed the sailing, while women crowded the quay bidding tearful farewells and wishing God speed to the troops.

No one was allowed to accompany the expedition.

Major General Franklin Bell, commander in chief of the army in the Philippines, made a short parting speech to the men and officers, urging the troops to show pride in their American citizenship while on foreign soil. The Chinese, he said, were worthy of a square deal and he expected the American soldiers to treat them in a worthy way. In conclusion he explained the desirability of making the most friendly relations with all foreigners with whom they should come in contact. General Bell made a short speech on the ship.

SOME RELIEF IS PROMISED

WARMER WEATHER PROMISED TOMORROW FOLLOWING COLDEST SINCE 1908.

COLD MOVES EASTWARD

Coldest Yet to Come in Eastern Louisiana and Along East Gulf and Atlantic Coasts.

Temperatures of 16 and 18 degrees below zero in Oklahoma, western Kansas and Missouri with snowfall in the Southwest and in the Ohio Valley constitute uncommonly bad weather conditions that set in yesterday afternoon and continued today, but the weather bureau gives warnings that the worst is not yet over.

Cold wave warnings were issued today for Southeastern Louisiana and the Gulf states, and storm warnings issued yesterday along the east Gulf coast and the Atlantic States come in effect.

Today's cold weather in all sections of the South marks the season record. In the western section of the South the next twenty-four hours. Locally warmer weather is forecast tonight and tomorrow. The lowest temperature recorded here was two degrees below zero early this morning. The mercury rose slowly during the morning and at 2:30 o'clock stood at fourteen degrees above.

Reports from over the state give temperatures ranging from 18 above at Texarkana to ten below at Hot Springs at San Antonio for the first time in thirteen years. Cisco reported five below zero; Denton, zero; Fort Worth, 1 above.

One death is reported in Texas, Mrs. Lucindy, a negro, aged 90 was found frozen to death in her cabin at Waco this morning.

HEARING POSTPONED.

Wilmington, Del., Jan. 12.—By mutual consent the hearing before the U. S. court to decide on the form of the decree in the case of the so-called powder trust, declared a combination in restraint of trade and order to dissolve has been postponed to March 4.

FIGHTS SCHEDULED FOR TONIGHT

Loach Cross vs. Bert Keyes, 10 rounds, at New York.

REPORTED FRANKLIN WOULD PLEAD GUILTY

Detective Charged With Bribery of Mc Namara Jury Said to Have Confessed.

By Associated Press.
Los Angeles, Cal., Jan. 12.—A morning paper says: "Bert Franklin, the detective arrested on a charge of bribery in the case of John J. Mc Namara, has agreed to enter a plea of guilty."

Brought Home a Bride.

Mr. M. L. Brittain surprised a group of his friends this afternoon by returning to the city after several weeks absence, accompanied by a charming bride.

Mr. Brittain was married on Dec. 25th at Cisco, Texas, to Miss Lull Beavers. Intimate friends had received notice of the marriage, but the affair was not generally known until the couple came in today. For the present they are at the home of Mr. and Mrs. W. F. Turner, 110 Bluff street. Mr. Brittain is engaged with the Wichita Southern Life insurance and will travel much of the time in Oklahoma, although he will

HE DAY'S DOINGS IN CONGRESS

Congress—The senate is not in session. Senator Lorimer is before the inquiry committee. The Pennsylvania-letysburg commission urged a \$500,000 appropriation before the Gettysburg congressional committee for a permanent memorial.

The House met at noon. Carnegie discussed trust regulation before the steel committee.

Another Case at Dexter.

Gainesville, Jan. 12.—Another case

SOCIALIST GAINS ARE EXPECTED

MOST PORTENTOUS ELECTION EVER HELD IN GERMANY IS NOW IN PROGRESS.

THE HIGH COST OF LIVING

And Refusal of Government to Reduce Tariff on Meat, Has Been An Issue.

Berlin, Jan. 12.—Germany today holding one of the most portentous parliamentary elections ever held since the establishment of the empire in 1870. It is not surprising therefore that the whole country, fully realizing the importance of tomorrow's election is in a state of ferment quite unusual with Germans, who take politics and elections coolly and deliberately, as a matter of fact and are not given much to election demonstrations.

There are many causes which combine to make today's election of great importance. The most portentous feature is the probability that the result of the election will completely change the political situation in the Reichstag, by giving to the socialists, heretofore in the minority, the control of power during the Thirtieth session of the Imperial Parliament. That would be a severe blow to the government which has hitherto been able to carry through its policies national and economic, foreign and domestic with the powerful help of the two leading parties, the Roman Catholic or Center party and the Conservatives. Supported by the "Blue Back" coalition the Government continued the development of its army and navy at a tremendous cost, which made it necessary constantly to add to the heavy burden of taxes resting upon the shoulders of the people. The high protective tariff, particularly upon agricultural products, which was maintained by the Government to satisfy the demands of the conservative Agrarians, the high railway rates and other factors forced the cost of living to a level of unprecedented height and made it almost impossible for the poorer classes to make both ends meet, even with the most rigid economy. If the Government is defeated today and the socialists win the great victory which they evidently expect, it will principally be due to the stress of economic conditions existing throughout the empire.

Germany has about seventeen or eighteen political parties, but only

(Continued on Page Five)

WEATHER INTERFERES WITH Y. M. C. A. CAMPAIGN

On account of the extremely cold weather which has prevailed since the first day of the Y. M. C. A. campaign for new members, the campaign has not been as successful as it was hoped that it would be, but as soon as warmer weather begins, it will be prosecuted with vigor.

During the one day which was anything like warm enough for the members of the soliciting teams to work, thirty-one new members were secured, and the thermometer in front of the City National Bank marked up accordingly.

Since that time, the thermometer has not been marked up at all, on account of the weather practically no work has been done pertaining to the prosecution of the campaign this week.

It has also been decided to call off the Y. M. C. A. reception, or open house, which was expected to hold tonight, and the date for this affair will be announced later, when a chance will be given to the public for inspecting the new quarters of the Y. M. C. A.

R. A. Shannon, and Mr. Dillon, two prominent oil operators with headquarters in Columbus, Ohio, arrived here yesterday to look after their interests in the Electric field. Mr. Shannon, in speaking of the future of the oil industry in this county, stated that many new comers will arrive here in the near future, who will bring thousands of dollars to invest. He says that the recent bringing in of the Hohaker well has attracted attention to Electric from all parts of the United States.

SPLENDID RECORD FOR PUNCTUALITY

A remarkable record has been made by the senior class of the Wichita Falls high school in that, although the class has thirty-two members, not a single tardy has been made during the last two months, an achievement which probably has not been attained by any other class in the high school, in spite of the fact that all previous graduating classes were smaller than this one.

Prof. George Medders, who has charge of the senior class, says that the members are trying to go through the remainder of the year without having a single tardy record against it.

Other classes at the high school will probably try for a similar record.

MUCH SUFFERING FROM THE COLD

ASSOCIATED CHARITIES FIND MANY CASES OF DESTITUTION AND SUFFERING

BEDDING MUCH NEEDED

Women and Little Children Found Without Food in Shacks Through Which Wind Howls

Stinging and biting even through heavy garments and keeping rooms chilly in well constructed—houses where fuel is in abundance, the severe cold weather has caused great suffering among the poor of the city where food, fuel and clothing and bedding are scant and the houses poorly constructed to keep out the zero blasts.

The Associated Charities Organization is receiving calls for help from many such homes and where necessary, is providing food and fuel and in some instances has given the applicants room and board.

A pitiable case was found yesterday afternoon. A woman whose husband had just left for another town to take a position as a skilled mechanic was found sick with two young children with nothing to eat in the house. They were being cared for by the lady in whose house they were staying in the hope that the husband would send money to bring them relief. The associated charity organization was called upon and is providing food and fuel, and the services of a physician.

In another house a woman and her two children were found scantily clothed in a miserable shack with nothing to eat, and only such fuel as the children could scrounge in the neighborhood. They are being supplied with food fuel and necessary clothing to keep them from suffering.

At another place a woman was found hanging out by a washing in the bitter wind to earn a small sum with which to buy food. Not a scrap of food was found in the house and the woman and her two children were half sick from lack of food.

Another woman and her little daughter poorly clad applied at the headquarters of the organization for aid. They were penniless and had no place to stay. They were sheltered in a boarding house last night and today tickets were bought to send them to an Oklahoma town where the woman's people live. Numerous other cases of actual hunger and suffering from the cold have been reported and the organization is doing its best to give relief where actual necessity exists.

A committee of ladies, has been busy all afternoon distributing warm clothing and other supplies to worthy families who are in need, and any one who knows of such persons will enter a favor on the officials of the associated Charities organization by reporting the same to J. C. Bayer, secretary at the Y. M. C. A. headquarters, corner of Scott avenue and Tenth street.

Last night Adjutant Johnson of the Salvation Army found a family in a shack, practically without bedding or fuel. He took them to his own home where they were given shelter during the night.

In many homes there is not enough bedding to cover all the members of the family who hover around flickering fires throughout the day and night to keep from freezing.

Adjutant Johnson was asked over the phone today to call at the home of a well known family. When he called he was given a check for five dollars to buy fuel for some family in need. Another lady contributed

SCOUT LEADER TO VISIT U. S.

GEN. BADEN POWELL, HERO OF MAFEKING STARTS ON A WORLD TOUR.

ON BOY SCOUT MISSION

His Purpose is to Unite All Scout Organizations into International Organization.

Washington, D. C., Jan. 12.—Official and military circles in the national capital are looking forward with undiminished interest to the prospective arrival in this city toward the end of the month of Major General Robert Stephenson Smyth Baden-Powell, the Hero of Mafeking, who has started from England on a tour of the world and is expected to spend several weeks in the United States, visiting a number of the large cities in various parts of the country. One of the objects of his tour is the solidification of the Boy Scout movement, of which he is the father, into an international organization.

Gen. Baden-Powell, who is considered one of Great Britain's greatest and most brilliant military men, was born February 22, 1857, the son of the late Rev. Baden-Powell, of Oxford and Langton Manor, and Henrietta Grace, daughter of Admiral W. H. Smyth, of the British Navy. Robert Stephenson, the builder of the first locomotive, was his grandfather. He received his education at Charterhouse and, at the age of nineteen joined the 13th Hussars. He was made Adjutant and served with that regiment in India, Afghanistan, and South Africa. He served on the Staff as Assistant Military Secretary in South Africa from 1887 to 1889, took active part in the operations in Zululand and was mentioned for his bravery in dispatches. From 1890 to 1893 he was Assistant Military Secretary in Malta. In 1895 he was sent on special service to Ashanti, in command of native levies and for his eminent services he was decorated and brevetted Lieutenant General.

During the campaign in Matabeleland, 1894 to 1897, Col. Baden-Powell was Chief Staff officer and for his bravery he was again mentioned in dispatches and made brevet Colonel. Shortly afterward he was made Colonel of the Irregular Horse in South Africa and in 1897 he was placed in command of the 5th Dragoon Guards.

As Lieutenant-Colonel, commanding the 5th Dragoon Guards, he took part in the early operations during the Boer War. Saydam, the Boer Commander, shut him up in Mafeking on the morning of October 15, 1899, only three days after the declaration of war. Cronje came over from Ladysmith and drew

(Continued on page 5)

STATE INSTITUTIONS CLOSED TO VISITORS

Austin, Texas, Jan. 12.—Orders were issued today that all state institutions be closed to visitors temporarily on account of meningitis. No additional cases were reported from the state this morning. State Health Officer Steiner is encouraged.

The physicians of this and some in adjoining counties have been asked to meet here tonight, at which time Dr. Steiner will discuss with them the state situation and outline a campaign for the protection of their communities in event the disease should develop in them.

Dr. Steiner is in receipt of notices that a number of conventions which were to be held in the State have been postponed.

Died of Diptheria.

Loretta, the 5-year-old daughter of Mr. and Mrs. W. Q. Ramsey, died of diptheria at the family residence eight miles west of Burkburnett at an early hour Tuesday morning, January 9.

The little one was stricken early Monday night, and although medical assistance was summoned promptly and two physicians exercised their best efforts in the little sufferer's behalf, she never rallied.

Of four children in the family, bright little Loretta was the only daughter of Mr. and Mrs. Ramsey and the loss of her is indeed sad for the parents.

Funeral services were conducted by Rev. W. J. F. Horstmann and the remains tenderly lain to rest in the Clara cemetery—Burkburnett Star.

Advice Against Quarantine.

Waxahatchie, Jan. 12.—Dr. Sopian, the meningitis specialist, now in Dallas, has advised Mayor Prince against a quarantine against other cities.

MINERS' STRIKE IS THREATENED IN ENGLAND

London, Jan. 12.—The balloting by the Miners' Federation of Great Britain to determine whether or not the organization shall stand firm in its present dispute with the mine owners concluded today. The votes of the members, numbering between 600,000 and 700,000, will be forwarded to the general secretary and the result of the election will be made known at the national conference which is to assemble in Birmingham next Thursday.

Though hopes are still expressed that the threatened strike may be averted, there is no denying the fact that the outlook is causing much uneasiness. Two months remain to the peace-makers, as the present agreement between the miners and operators will not terminate until the end of February.

The question of a minimum wage is the bone of contention. The miners appear to be determined in their demand that such a clause shall be incorporated in the next agreement. The great majority of the mine owners, on the other hand, are strongly opposed to it, and they argue that the granting of the men's demands would lead at once to the closing of many collieries which are at present being worked on a small margin of profit.

TURKISH BOATS ARE DESTROYED

ITALIAN WARSHIPS ANNIHILATE FLOTILLA OF TURK VESSELS IN RED SEA

THE BATTLE WAS SHORT

Turkish Fire Was Ineffective and Their Light Armored Boats Soon Shot to Pieces

Rome, Italy, Jan. 12.—A severe naval engagement was fought today in the Red Sea when seven Turkish gunboats and an armed yacht were destroyed by Italian warships.

The Italian fleet encountered a flotilla of Turkish gunboats and opened fire. The Turks replied with a spirited fire but the feeble armor of their gunboats withstood the Italian raking fire only a short time.

The Italian warships which took a principal part in the battle were the cruiser, Piemonte, and the destroyers Garibaldi, and Artigliere. The commander in chief had received orders to destroy or capture the Turkish gunboats as advised had been received that they were transporting from Arabia, Turkish troops destined to re-inforce the Turkish army in Cyrenaica by way of Egypt. At first the warships sent shots across the bows of the gunboats and called on them to surrender. The Turkish vessels gave no sign of compliance. The Italian fleet immediately opened a terrific fire throwing a hail of shells from their broadsides. The Turkish gunners did not succeed in striking the Italian vessels.

Only one person is needed to operate a new range finder for military purposes in which two telescopes are mounted at the ends of a compass tube, their eye pieces being close together.

The use of automatic machines for selling stamps has become general in German postoffices, effecting a saving to the government as well as proving a great convenience to the public.

AWFUL BARBARITIES ARE REPORTED

Chinese Imperialists Torture and Skil Alive a Republican Leader and Commit Other Atrocities.

Will Not Permit Persons From Cities Having Meningitis to Come Into City.

Shreveport, La., Jan. 12.—Acting independently of the city health board, the city commissioners by an unanimous vote this morning put into effect a rigid quarantine against all Texas points which have meningitis. The ordinance provides for inspections on trains to prevent the coming of Shreveport of any persons who have been exposed to disease within ten days, and all railroads entering the city from Texas have been ordered to discontinue the sale of tickets from infected communities to this city. Dr. Oscar Dowling, president of the State Board of Health, will be permitted to manage the health affairs of the city or the members of the city health board asked to resign their positions.

A hog's habit of scratching itself against a post has led to the invention of an automatic disinfector for animals, which are sprayed with a fluid as they rub against a supporting column.

2 HOUSES BURN THIS MORNING

FAMILIES FORCED OUT INTO THE BITTER COLD BY FLAMES BEFORE DAYLIGHT.

FIREMEN ARE HANDICAPPED

Frozen Fire Plugs and Temperature of Two Below Zero Made Effective Work Impossible.

Fire originating in the house occupied by Ralph Ricketts, yard master for the Fort Worth & Denver Railroad, at 607 Lamar avenue early this morning destroyed that house together with its contents and the house adjoining on the south occupied by Wes Bell and family and E. B. Pryor and family. Mr. Pryor occupied the side of the house next to the Ricketts' house and lost nearly all his furniture but Bell succeeded in getting out most of his belongings.

The fire started in the kitchen of the Ricketts' home. The family was awakened by the barking of their dog to find the whole back part of the house in flames. Flinging a blanket over her shoulders, Mrs. Ricketts picked up her child and fled to the home of the Bell's only to find refuge for a few moments when it was discovered that that house was afire also. In leaving the Bell house the blanket which Mrs. Ricketts had thrown over her became ignited and she was compelled to abandon it and escape to a house across the street clad only in her night clothes.

The house of S. E. Cockrell adjoining the house occupied by Ricketts to the north was also endangered. Mr. Cockrell who is an engineer, was out on his run, but with the assistance of neighbors and members of the fire department Mrs. Cockrell succeeded in getting all of the furniture out of the house.

The exact origin of the fire is unknown. About 3 o'clock in the morning Mr. Ricketts had been up and heated some cloths before a fire in the kitchen for Mrs. Ricketts who was suffering with a headache, but had turned out the fire and had taken, as he thought, care to see nothing-bed become ignited.

The house occupied by Ricketts was owned by George Davis and the other house was owned by J. B. Stokes. The loss will be about three thousand dollars and is partly covered by insurance.

The fire department responded promptly to the alarm but were greatly handicapped by frozen fire plugs and the freezing of the water in the hose. Only one fire plug in the vicinity was not frozen. Several of the boys suffered frost bitten ears and feet and also suffered greatly from the exposure.

In this connection Mrs. Cockrell desires to extend her heartfelt thanks and appreciation for efforts of the fire boys and the neighbors in removing her furniture and household effects and for their successful efforts in saving their house. The fire boys are just as appreciative of the good hot coffee served them by Mrs. Cockrell.

SHREVEPORT, LA., STARTS QUARANTINE

Will Not Permit Persons From Cities Having Meningitis to Come Into City.

Shreveport, La., Jan. 12.—Acting independently of the city health board, the city commissioners by an unanimous vote this morning put into effect a rigid quarantine against all Texas points which have meningitis. The ordinance provides for inspections on trains to prevent the coming of Shreveport of any persons who have been exposed to disease within ten days, and all railroads entering the city from Texas have been ordered to discontinue the sale of tickets from infected communities to this city. Dr. Oscar Dowling, president of the State Board of Health, will be permitted to manage the health affairs of the city or the members of the city health board asked to resign their positions.

NEW BASEBALL RULES ARE MORE BINDING

According to the new rules just promulgated by the national commission baseball players in all leagues must make affidavit that they have not directly or indirectly signed up to receive more money or other form of remuneration except that stipulated in their contracts with the club on which they are to play.

This year the player himself must sign an affidavit that he is not receiving, or is to receive, any more pay, gift or bonus than that which is set forth in the document before him.

Under the former regime a player when asking for a boost had stereotyped things to say when the club president told him that the salary limit made it impossible for him to grant an increase in pay.

Under the new rules and regulations the shoes are so fashioned that they will pinch both feet. If the magnate swears to a falsehood the player would be compelled to go the same.

Both manager and player would face the peril of dismissal from organization if the magnate would lose his franchise, and the player his means of earning a living on the diamond.

Hundreds of ways of dodging the salary limit have been practiced by baseball men in the past. On one occasion a manager, feeling the necessity of procuring a new pitcher, and being just \$100 inside his limit, was "up against it" when the pitcher demanded \$200 a month for his services.

The opening of the first co-operative lines, was celebrated recently by the Co-operative Leagues of New York City.

LABOR NEWS

Women reformers of Germany have asked the Reichstag to wipe out the barmalud evil.

In England and Wales the average weekly wage for skilled carpenters, masons, plumbers, painters, pattern-makers and printers does not exceed \$9 a week.

Minneapolis electrical workers unions are making an effort to have that city chosen as the 1913 meeting place of the international organization.

The contest will be between Minneapolis and Boston.

Milwaukee cigarmakers' union proposed an amendment to the international constitution providing that on and after May 1, 1912, there shall be no more open shops under the jurisdiction of the International Cigarmakers' Union.

Scottish miners' representatives have made a demand for an individual district minimum wage to be paid in all circumstances to all men working at the coal face; that the wages of all boys employed be standardized in accordance with the scale proposed.

St. Paul and Minneapolis contractors will ask the union carpenters to accept 47 1/2 cents an hour, beginning April 1 and continuing through the summer until September 1, when the rate of pay is to be increased to 50 cents an hour.

British postal workers have been for some time now moving strongly in favor of better conditions. Mass meetings are taking place from week to week all over the country and the seven or eight unions comprised in the Postal Workers' Federation are united in strong support of their common demands.

The Labor Copartnership Association now embraces 111 societies in Great Britain. The aggregate capital of these workmen societies is approximately \$10,000,000 and their trade amounts to nearly \$22,000,000 a year.

It is expected that some time during the present month the Employers' Liability Commission will present its final report to the two houses of Congress. The report will embody a bill providing a graduated scale of compensation through Government instrumentalities for injuries to employees of railroads engaged in interstate commerce whether due to negligence or not.

Wanted: A Bright Agronomist. Washington, D. C., Jan. 12.—The United States is in need of a capable agronomist. Anyone filling the bill may take the civil service examination tomorrow and if successful will be placed on Uncle Sam's pay roll for \$2,400 a year.

DELAWARE RIVER IN THE LIMELIGHT

Special to The Times. San Antonio, Texas, Jan. 12.—The Delaware River in Texas has been brought into the limelight through an inquiry from a resident of Nebraska asking if water rights could be had on that stream.

Probably few persons in Texas have heard of the Delaware River, but it is on the map, extending through a portion of the new county of Culberson, in the western part of the state, and flowing into the Pecos river.

Stiles says the Delaware River country is one of the most beautiful in Texas; in the level land sloping from the high mountains to the river the grass is knee high, and on the ranges a found some fairly good timber, uniper and piñon.

TEXAS WANTS HOLLOWAY IN OWN CONFINES

Austin, Texas, Jan. 12.—Governor Quinn today requested the governor of Illinois to grant requisition for Frank Holloway, alias Robt. Huntley, held in Chicago and wanted in Wilbarger county in connection with the robbery of the bank at Hargold, Texas.

If Gov. Cullitt would take just as great interest in abating a reduction of taxes as he has and is devoting to the reduction of cotton acreage, it might result in some real benefit to the people.

The greatest blessing so far accomplished for the year 1912 has been the saving of the wheat crop. This means more for Wichita Falls and this entire section of country than almost any other one thing.

January 12, 1912, will long be remembered as the day the temperature in Wichita Falls dropped to two below zero, and when every plumber in the city had more work on his hand than he could possibly do even if he worked 16 instead of 8 hours per day.

All that nature could be asked to do has been done to put the soil in proper condition for fine crops in 1912. It is now up to the farmer to do his part, and if that is done there is but little doubt that big crops of all kinds will be produced.

 - 1816—Bonaparte family banished from France.
 - 1828—Boundary line between the United States and Mexico settled by treaty.
 - 1861—Florida seceded from the Union.
 - 1911—President Taft asked Congress for an appropriation toward the fortification of the Panama Canal.

Judge S. P. Huff of Vernon, is considering the matter of becoming a candidate for Chief Justice of the Court of Civil Appeals at Amarillo. Besides being well qualified to fill such a high office, he is an honorable, high-toned gentleman in every sense of the word, and the district could do no better than to elect him, unless, of course that some member of the Wichita Falls bar might consent to become a candidate for the same office.

Hon. Clarence Ousley is not a candidate and will not be unless some emergency arises which I cannot now foresee." Judging from the tenor of Mr. Ousley's announcement and his expressed belief that the legislature should elect Senator Bailey's successor, is it stretching one's imagination too far to suggest that a deadlock may be just such an "emergency?" Mr. Ousley has, he says, always favored the election of senators by the people instead of by legislatures, but he doubts "the wisdom of the reform if pluralities are to govern." Which, we think, is pretty good doctrine. But, on the other hand, Mr. Ousley is opposed to the elimination primary, which would insure the senator representing the choice of a majority. We don't perfectly understand the differences.—Denton Record and Chronicle.

Detective Burns, the man who trailed the McNamara and finally succeeded in landing them where they belong, was on yesterday acquitted at Indianapolis on the charge of having kidnapped the dynamiters and taken them to Los Angeles to face the charge of blowing up the Times building and the killing of twenty-one innocent people. In dismissing the charge against Burns, Federal Judge A. B. Anderson said: "If I see this court had anything to do with the arrest of Mr. Burns in this instance, I should certainly now tender him an apology. The order which the court shall enter will make it impossible for any prosecutions to be brought under the indictments."

THE TARGET PERIOD.

In his fight for the presidential nomination, Woodrow Wilson is now undergoing what may be termed the target period.

The reconvening of congress and the meeting of the national Democratic committee brought to Washington the consensus of opinion that if the convention were held now Wilson would without doubt be the winner. His enemies admitted as much.

There remains, therefore, but one thing for his enemies to do and that is to change, if they can, this condition before the convention meets.

Wilson is to be made the target for all sorts of attacks. His life, both public and private, his speeches and writings are being ransacked for ammunition for political broadsides.

Some preliminary salvos have already been touched off. But they have been abortive like their successors will undoubtedly be. First came the college-service pension exposure. Wilson's straight-forward manly reply coupled with the irrelevance of the entire matter soon sent it to the limbo of nothing-at-all. Now it is said that he wrote a letter in 1905 denouncing Bryan. This was sprung just at the meeting of the national committee in order that it might be given emphasis and do Wilson harm among the Nebraska's followers.

But Bryan, himself, said: "The publication of the Joline letter is calculated to help Wilson with the people who are interested in its circulation." Another shot fell short and sank out of sight.

Wilson survived the target period in New Jersey and survived it triumphantly. It is not hazardous to say that he will survive it now and likewise triumphantly.—Atlanta Georgian.

"THIS IS MY 58th BIRTHDAY."
Sir Henry Bale.

Sir Henry Bale, Chief Justice of Natal and for many years a prominent figure in South African affairs, was born in Pietermaritzburg, Natal, January 12, 1854. He attended the schools in his native place and later went to England to finish his education. Upon his return to Natal he entered upon the practice of law and speedily attained a position of prominence in public affairs. He was made a member of the Zulu War-relief fund in 1879 and later served on the council of education and as a member of the legislative assembly of Natal. From 1897 until 1901 he was attorney-general and minister of education of Natal. He became Chief Justice in 1901 and during the reconstruction period following the last South African war he served for a time as Administrator of Natal.

"Bill, can you give me the correct time?" says one of Bill's friends.

"Sure," says Bill, dragging out his watch. "My watch was just seven seconds slow at twenty minutes of 4 day before yesterday afternoon, and I don't believe it's varied more than a quarter of a second since. It's now twenty-two minutes and seven seconds past 5."

"Thanks, old man," says Bill's friend, who then drops his own watch into his pocket and goes on his way.

Really he wasn't so particular about knowing the time himself as desirous of giving pleasure to Bill, for he knows that Bill is one of the few million men in the world who think each that his watch is a wonder and who feel themselves flattered when their friends ask them for the correct time.—New York Sun.

Caught Her Secret.

Old Podkins lay back in his chair in calm content, and, though his wife was quite near him, he was happy, for she had not broken the silence for nearly five minutes.

He had been married for five and twenty long years, and Mrs. Podkins almost daily during twenty-four of them had disturbed the domestic peace by a too full exercise of her tongue.

"My dear," broke in Mrs. P., thinking it time she said something to interrupt the quiet. "I see by the papers that a petrifed jaw two yards long has been found in Cornwall."

"What?" cried Podkins, starting up. "Now I know your secret. But you never told me your ancestors came from that part of the world."—Dundee Advertiser.

Painted Advice.

There was a traveling man once who found himself short of funds. His first thought, of course, was to wire his firm, which he did. In a night letter he explained the situation and asked:

"How shall I act?"

The next morning he got a day message which was nothing if not illuminative:

"Act as if you were broke."—San Francisco Chronicle.

The Uplift.

"Is she a help to her mother?" asked one woman.

"Yes, indeed," replied the other. "She has taught her to say 'colleague' instead of 'cookin'."—Exchange.

The Division.

He—So young March and his father are carrying on the business? She—Yes. The old man runs the business, while young March does the carrying on.—New York Globe.

The most changeable things in the world are the course of waters and the humor of women.—Plutarch.

MORALS ARE BETTER HENCE CONFESSIONS

Scientific Reasons Are Given For Recent Admissions of Guilt.

(Muskegon Okla.) Phoenix

Why will the years of nineteen eleven and twelve go down in the history of the criminal world as two years of confessions? Two years in which the doers of the most horrible deeds, criminals who have been partners in the most revolting crimes, murder, rapine, arson, butchery and torture, have, before they have paid the price which justice has marked against them, confessed and done all in their power at their last moments to make their peace with God, and the world.

Not in many years have the prosecutors of the law breakers of the country had such success in securing confessions from the men who have broken the laws of the land and have committed crimes—which have been as revolting as some practiced during the Spanish Inquisition.

An old question that men who have made a life long study of the work of running to earth the criminals and men who have taken charge of the cases after they have been captured and brought forward for trial are answering the question, "Why do they confess sooner or later?"

Many reasons are given for confessions which are made.

One of the most noted criminal lawyers of the state who has given some little thought to the subject comes forward with the following reasons which he believes are the causes of the confessions on the part of the criminals after they are confronted with the evidence.

"Throughout the whole country there is a great upheaval for better government. This movement is started by the people who have at some time been given the title of 'common people,' or 'people of the class.' These people who are always striving to see justice done are backing any movement which will uphold the laws of their land and the rights of the citizens.

"This movement is growing until there is no power which will be able to stop it. It is a feeling that no matter who the guilty party is the law must be enforced and the scales must weigh the evidence.

"When a man commits a crime and is brought into a court room to face the charges he is brought face to face with the knowledge that the whole people of the country are standing by to see that justice is done. He sees on the wall the picture of justice with her balance, in his cell he is left with the thoughts of the crime and the blot he has placed upon the government of which he was but a short time before a part. Either through fear of living a life with the thought of blood upon his hands, no matter where he may go, or at the very last wishing to leave behind the best he can for the betterment of conditions he confesses his part to the time and does his share in ridding the country of his class of people.

From police and detectives who work in another law enforcing field comes another side of the question and as it is they who are responsible for many of the confessions their side of the question and their argument as to why the past several months have seen the great number of confessions is given.

"Our methods of finding, tracing locating and finally getting criminals is far ahead of what it was a few years ago," said a man who has spent many years in running down criminals. "We have the help of the latest and most up to date measuring implements, we have the help of the camera and the finger-print system, we have a system of photograph interchanging with other police departments which covers the whole of the country and it is a hard matter for a man after he is once spotted to get away from one of us. His picture is sent to every city where he might be found and in this way we can get the goods on them.

"They are brought to trial and are confronted with the evidence which leaves no room for them to escape. They are left to confess."

A banker in speaking of the wave of confession which has been sweeping over the country offers the following solution for it.

"The commercial world has been taught that it was worth more to it to protect its interests in a way that will leave no room for a guilty man to escape.

"It has found out that no matter what the crime a man can be found out by a good detective and a system under which he works.

"It has been taught that to spend several thousands of dollars in running down a criminal will save it many thousands of dollars by the moral effect it will have."

Other men say that it is just a case of coincidence.

Some of the murderers who have made notable confessions recently when confronted with the evidence or the fear of the rule of the people, are Rev. Clarence V. T. Cheson of Boston, who murdered his sweetheart; Governor Brown, who shot his father and confessed to a farm-er in Nebraska; George Robincan, who murdered Mrs. Hattie Kaufman of Chicago and was later captured and confessed in Los Angeles; Dr.

The Farmers Supply Co.

Handle Everything in the Line of Staple and Fancy Groceries, Buggies, Wagons and Farm Implements, Also Grain, Hay and Coal

We buy in large quantities, and sell on a close margin. In that way we are able to serve our patrons with the best goods, and at a saving to them. We run two delivery wagons, and groceries purchased by us are delivered to any part of the city free of charge.

A trial is all we ask, and a trial will convince you that we are in a position to do all we say.

Moon Brothers Buggies and Studebaker Wagons and Buggies

Are the best vehicles made. In purchasing the stock of wagons, buggies and farm implements of the Panhandle Implement Company we took over the exclusive sale of these goods in this territory. Well, Well, Well!

1912 Found Us

right here on the job with the best stock of lumber, dimension, siding, casing, base, shingles, etc., on hand that we ever had at this time of the year and our only excuse for having it was our strong belief that the people of this community in 1912 are going to try out good, sound home investments in preference to a lot of those far away "Get Rich Quick" schemes that are like the song of the sirens. This lumber we have come from some of the best "quality" mills in the United States and we are not afraid to put it up against any material in the world for home building—price, quality, durability and long time satisfaction considered. You've got to see it to appreciate it, so come in and we'll talk over that new home of yours.

Cotton Bulls Romp on Bears; Prices Show Sharp Advance July Passes Ten-Cent Mark

New Orleans, La., Jan. 12.—Bulls were in complete control of the cotton market yesterday. At the highest they put the trading months in the future department 23 to 25 points, or a quarter of a cent a pound over yesterday's close.

They put July over the 10-cent mark and marked spots up 3-16 of a cent a pound. Futures closed for the day very steady at a net advance of 21 to 24 points.

The stiff rise of the days' session caught many big shorts unawares and their covering operations had not a little to do with the upward course of prices. Local shorts covered from the opening when Liverpool was better than expected, private cables expressed hope of a quick settlement of the Lancashire lockout and the weather map and forecast spoke of unfavorable weather conditions over the cotton belt.

It was said in the gossip of the floor that Memphis shorts alone covered 50,000 bales of cotton. Leading

At Pennington's This Week

Extraordinary Values in most every department. Read these prices over carefully and don't fail to visit our store tomorrow.

PERSONAL MENTION

Dr. Mike Walker returned yesterday from a business trip to South Texas.

W. E. Cobb, a local real estate man, left this afternoon for Fort Worth, where he goes on business.

Mr. and Mrs. Jack Wilkie, after a few days visit with relatives and friends in this city, left yesterday for their home in Wolfe City.

S. A. Searight, a prominent citizen of Henrietta, left this afternoon after remaining in this city since last Wednesday, on business.

A. C. Heuson and wife, of Beaver Creek, after remaining in this city for several days, doing some shopping and attending to business, left this afternoon for their home.

C. L. Fontaine left this afternoon for Oklahoma City, to appear before the Railroad Commission in a case in which the Wichita Falls Route is interested.

J. B. Marlow and J. M. Peters returned yesterday afternoon from San Marcos, Austin and other points in South Texas, where they have been for several days on business.

Edison Jlonick, a student of Washington-Lee University, in Lexington, Va., who has been spending several weeks with his grandparents, Mr. and Mrs. H. C. Canfield, left yesterday afternoon for Lexington to resume his studies.

T. A. Marth, chief clerk in the transportation department of the Wichita Valley lines, and who is also connected with the Ruby Theatre, left yesterday for Mexico City, where he goes to spend several weeks on business and pleasure.

Frank Kell, vice president and general manager of the Wichita Falls Route returned last night from Leedy, Okla., one of the new towns along the route of the extension of the North western, where he went on a trip of inspection.

Tom Burnett, a prominent ranchman and stockman with headquarters near Burk Station, above Iowa Park, left this afternoon for his ranch, after remaining here for a few days on business.

Dr. Brown, Dentist, Room 306, Kemp & Kell Building. Phone 879.

Dr. J. W. Du Val Eye, Ear, Nose and Throat. Glasses Fitted. Lady Attendant. Best equipped office in West Texas. First National Bank Building.

Spirella Corset. A simple house gown looks neat if worn with a Spirella Corset. Fitted to your individual measure brings out beauty lines, subsides irregularities. Let me show you how to wear it, also the Spirella Boning—the "heart" of the comfortable, snap-retaining Spirella Corset. Phone 464.

WRESTLING MATCH WAS POSTPONED

The cold weather which prevailed last night brought about the postponement of the wrestling match which was scheduled to take place at the opera house, beginning at eight thirty o'clock. However, it was announced this afternoon that the affair will take place tomorrow night beginning at the same time notwithstanding the condition of the weather. Both Faust and the Turk announce themselves as being in the best of condition, and the match will probably prove to be an interesting one.

NEW ORLEANS RACING DOOMED.

Old City Park Race Track, Famous Realm of Sports, Gives Way to Residences.

New Orleans, La., Jan. 11.—The last hope for racing at New Orleans seems to have gone glimmering with the sale of the City Park Race Track, in which the now bankrupt Corrigan was a prime factor, to the City Park Realty Company, capitalized at \$250,000. It will be formed into a residential park and cut up into building lots. There has been lingering hopes that racing would be revived, but this sale appears to end the dream. George G. Friedrichs purchased the property several months ago for \$263,375. He sold it to the City Park Realty Company, of which S. T. Woodring of Lake Charles, La., president and general manager of the Calcasieu Lumber Company is president and James W. Gardner clerk of the Court of Calcasieu Parish is vice president. Louis D. Lagarde is secretary. From the fact that Mr. Lagarde, Mr. Friedrichs and other New Orleans' names are connected with the new concern it is inferred they still have an interest in the property.

To hold a vessel in a set course a Scotchman has invented electrical apparatus, connected to a compass, to operate the rudder, which, however, can be moved by hand when necessary.

Lydia Margaret Theatre

Matinee Every Afternoon at 2:30 Doors Open at 7:00 O'clock, night.

VIRGINIA BURNETT the little girl with the big voice.

TANNIS BURNS & CO. a novelty with a little of everything thrown in.

Brown's Saline Flakes are the most delicious and economical crackers to buy. Family size Tins weigh about 7 pounds. Ask to see them at your grocer's.

The regular monthly business meeting of the Women's Foreign Mission Society of the First M. E. Church, South, will be held beginning at 3 o'clock Monday afternoon, January 15th, in the church building, corner of Lamar avenue and Tenth street. At this meeting officers for the ensuing year will be elected, and for this reason it is especially urged that every member of the society be present. Letters will also be read from the church missionaries in China, who have been engaged in relieving the sufferings of the Chinese caused by the terrible floods there.

E. G. Hill, undertaker, office and parlors 900 Scott Ave. Phone 225. Prompt ambulance service.

See Kell, Perkins & Gravens for all kinds of insurance. Phone 694. Ground floor, Kemp & Kell Building. 62-tc

Miss Lillian Deany of Sulphur Springs is the guest of Mrs. E. P. Greenwood, 2401 Ninth street.

Dr. Proctor, Dentist, Suite No. 1, Ward Building. Phone 186. 62-tc

MR. CIGAR SMOKER:

Did you ever get sandbagged on a short piece of rope wrapped in a painted rag and sold for a dime? One smells like a fire in a harness factory, tastes like a snake show yaunder, and is as rotten as a T-bone steak. That kind of a cigar has No-To-Bac and Keely Institute miles down the speedway with a bursted tire and a dead engine when it comes to making you quit the weed, but it enjoys worshipping at the shrine of My Lady-Nicotine. Should you punish yourself trying to worry down one of human torture sticks that is liable to get you in bad with police on a charge of maintaining a nuisance. Let us give you a quiet hunch. Salt this down in your brain for future reference. We have them all. If you want a bad one don't pass us. If you want the very best hitch right in most any old time as we are on the job all the time except about six hours on the far end of each night we go to rest. Let the moon change and it was cigar quality that put in the nut department of the bug house division and if you taste for the real Raz Ma Tag queen of the islands don't get we are the court of last resort when it comes to giving you the worth of high grade-smoke for ten cents. The Prince of Navarre when translated into United States conversation means the best in the world for the dime.

THE PALACE DRUG STORE

Only the Best.

Phone 341. Free Delivery.

A NEW YEAR'S BARGAIN
