BRIER GROUND HOG SAW HIS SHADOW

ACCORDING TO OLD TRADITION WINTER WILL CONTINUE SIX WEEKS LONGER

ALSO CANDELMAS DAY

In Roman Catholic Church Candles Are Blessed On This Day.

Washington, D. C., Feb. 2.—This is ground-hog day; this is Candlemas day; and on Candlemas day, if the sun appears, there'll be two winters in the year.

Candlemas day, in popular parlance, is nothing more nor less than "ground-hog day." "Ground-hog day" from the ranges of Hudson Bay to the pines of Carolina and from New England to California. According to the popular fable if Br'er Arctomys Monax, the ground-hog, creeps out of his hole between sunrise and high noon this day and sees its shadow outlined by the sunshine, the little animal promptly scampers back into its aperture and there remains for six weeks more. But if he fails to see his shadow, according to popular tradition, it is a sure sign that winter is practically over and there will be an early spring.

There is some dispute as to the origin of Candlemas day, but most authorities are agreed that this ecclesiastical festival was instituted by Pope Gelasius in the year of 492 in commemoration of the presentation of Christ in the temple and of the purification of the Virgin Mary. February denotes purification and in this month the Romans performed the ceremony of purification of the people. When the church changed this feast of Propertine, as it was called by the Romans, it retained the processional feature and associated the occasion with the purification of the Virgin. The festival is celebrated throughout the Christian world annually on February 2, and derives its name from the fact that in the Roman Catholic churches candles are blessed on this day and carried in procession in commemoration of the words of Simeon spoken of the infant Christ, "A Light to Lighten the Gentiles."

COTTON CONTINUES UPWARD TENDENCY

New Orleans, Feb. 2.—The rise in cotton prices was resumed this morning. Half hour after the opening futures averaged one quarter of a cent per pound over the initial figures and two dollars a bale over Wednesday's closing. May opened at 10.24 and July at 10.33. Continued good Southern inquiry was one of the causes of the rise.

AWFUL CRIME IS RECALLED BY PARDON

Trenton, N. J., Feb. 2.—Within the next ten days the big gates of the State prison here will be opened for the exit of George J. Kerr, one of the four Patterson men convicted about eleven years ago in connection with the death of Jennie Bosscheter, the milk girl, whose fate attracted country-wide attention. With the commutation allowed for good behavior Kerr will complete his fifteen-year term one week from next Monday, on which date he will be set at liberty. He will be the first of the four men concerned in the murder to regain his freedom.

The young men convicted with Kerr were William A. Death, Walter McAllister and Andrew J. Campbell. On October 18, 1900, the four were found guilty of murder in the second degree for the killing of the Bosscheter girl by the administration of chloral and subsequent assault. The crime was described at the time as one of the most revolting ever committed in New Jersey. The four young men, who were out for a "good time" and considerably under the influence of liquor, picked up the young milk worker as they were riding about the outskirts of the city at night. The next morning the girl was found by the roadside and died from the shock of her mistreatment.

All four of the young men belonged to respectable families in Patterson and strenuous efforts were made to save them from severe punishment. The efforts, however, proved futile. McAllister, Campbell and Death were each sentenced to thirty

INVESTIGATING DEATH OF WITNESS

"I'VE BEEN DOPED" WERE LAST WORDS UTTERED BY DYING STATE WITNESS.

GRAND JURY IS PROBING

Mysterious Stranger Who Approached Veniremen Was Seen Drinking With Throckmorton.

Fort Worth, Texas, Feb. 2.—The grand jury this afternoon began an investigation into the death of E. C. Throckmorton, the State witness in the Sneed case. He said as he died he had drunk "doped" liquor. Physicians said today there were no indications of poison but the apparent cause of his death was too much liquor. A strychnine watch is kept over the five jurors thus far chosen.

PREPARATIONS COMPLETE FOR C. E. BANQUET

Final preparations has been made for the first annual banquet of the local Christian Endeavor Societies to be held at the Westland Hotel this evening. Dr. W. M. Anderson of Dallas, who is to be the principal speaker on this occasion arrived in the city at noon. The musical program, which is to precede the banquet, to be served in the dining room, is to begin in the parlors of the hotel. The following program will be given: Nocturne in F (Schumann)—Miss Allen.

(a) French Serenade (b) Years at the Spring—Mrs. F. C. Barron. Adoration—Misses Bernice and Maybelle Jackson. Solo—Mrs. J. P. Boone. Faust (Gounod)—Misses Jackson. Following the serving of the banquet the toasts will be given as enumerated below: Toastmaster—Dr. J. L. McKee. C. E. History and Efficiency Campaign—Dr. W. M. Anderson. Christian Citizenship—Judge A. H. Carrigan. Response—Rev. J. P. Boone. San Antonio 1912—Patrick Henry.

ANOTHER STRIKE IS THREATENED AT MANCHESTER

Manchester, Eng., Feb. 2.—Another general strike of cotton operatives is threatened February 5th. The trade unionists refuse to recognize the Roman Catholic weavers who have organized a union of their own. An extra body of police has been drafted for the protection of workers not belonging to unions.

Asks For Strike Investigation. Washington, D. C., Feb. 2.—In the House yesterday Berger introduced a resolution for an investigation of the strike of machinists and shompen of the Harriman lines in the South and West.

GOOD SHOWING IN WELL ON JENNINGS TRACT AT ELECTRA

A good showing is reported in a well being drilled on the Jennings tract south of Electra yesterday afternoon at about nine hundred feet. This well is the farthest south in the field and the showing therefore is of unusual importance. The Pierce-Fordyce Company is reported to be interested in this well and many oil men who saw the showing yesterday declare that it would have been a hundred barrel producer if it had been baled in. It is understood that it will be drilled for the deeper sands.

Big Ranch Sold. Alpine, Texas, Feb. 2.—J. B. Irving has sold his Leoncito ranch to the Orient railroad, for nine hundred thousand dollars. The ranch will build a big dam on it.

WILBERGER COUNTY PAID 2048 POLLS

Poll tax payments in Wilbarger county were 1966 in addition to which there were 82 exemptions making a total of 2048. The total in Wilbarger county was 2583. The comparison is interesting from the fact that Wichita and Wilbarger county now comprise a legislative district.

PROSECUTION. WE WANTED THIS TESTIMONY, THOUGH.

Throckmorton's death is a deplorable affair.

A CONFERENCE OF NATIONS

Authority Asked to Invite Nations of World to Join In An Investigation.

Washington, D. C., Feb. 2.—President Taft in a message to Congress today urged an international inquiry into the high cost of living. The President asked authority to invite the nations of the world to a conference in this city or elsewhere to make plans for the investigation of the "high prices that have so distressed the people of the world."

Mr. Taft also urged the appointment of a Federal commission to have searching inquiry into the subject of industrial relations. "For some years past," said the President, "the high and steadily increasing cost of living has been a matter of such grave public concern that I deem it of great public interest that an international conference be proposed at this time for the purpose of preparing plans to be submitted to the various governments, for an international inquiry into the high cost of living, its extent, causes, effects and possible remedies."

"There is no doubt but that a commission could be appointed of such unprejudiced and impartial persons, experts in investigation of economics facts, that a great deal of very valuable light could be shed upon the reasons for the high prices that have so distressed the people of the world, and information given upon which action might be taken to reduce the cost of living."

Those who have conducted investigations have found that the phenomenon of rising prices is almost if not quite general throughout the world; but they are baffled in the attempt to trace the causes by the impossibility of making any accurate international comparisons. This is because, in spite of the number of investigations already made, we are still without adequate data and because as yet no two countries estimate their price levels on the same basis or by the same methods."

As to the commission of industrial relations, the President said: "There should be an inquiry by the Federal government into the general conditions of labor in the United States, notwithstanding the fact that some of the remedies will lie with the separate states, or even entirely outside the sphere of governmental activity, in the hands of private individuals and of voluntary agencies. One legitimate object of such an official investigation and report is to enlighten and inform public opinion, which itself will often induce or compel the reform of unjust conditions or the abatement of unreasonable demands."

"Unquestionably the time is now ripe for a searching inquiry into the subject of industrial relations which shall be official, authoritative, balanced and well grounded, such as only the Federal government can successfully undertake. The present widespread interest in the subject makes this an opportune time for an investigation which in any event can not long be postponed. It should be non-partisan, comprehensive, thorough, patient and courageous."

New League Organized. Marshall, Texas, Feb. 2.—The South Central baseball league was organized here yesterday evening with Texarkana, Marshall, Longview, Texas, and Monroe, Shreveport and Alexandria, La. Paris and Tyler will be invited to join, but the league will be limited to eight clubs. Dr. D. M. Shively of Kansas City, is president.

Armed Peace at Juarez. El Paso, Texas, Feb. 2.—A queer sort of peace reigns at Juarez today. The mutineers have reinstated their former officers but with the distinct understanding that the officers take no action without the permission of the soldiery. The soldiers have granted the officers permission to repair the dynamited bridges so that trains from the south are expected to arrive tomorrow. The mutineers say that Madero must not only give them back pay, but assure them he never intended to demiss Orozco and must replace with insurrection help street car service to Juarez.

REP. HENRY WILL OPPOSE UNDERWOOD

Letter Will Offer Resolution to Have Money Trust Probed by Regular Committee.

Washington, Feb. 2.—House Leader Underwood announced he would on Wednesday present a resolution to send the money trust and other proposed investigations to the regular standing committees of the House. Representative Henry and other money trust probers strongly oppose this, wanting special committees.

The Underwood resolution to send the money trust investigation to the regular committee will be presented at the Democratic caucus. He said he was confident his plan would be approved. This would send the money trust investigation to the committee on banking and currency. Representative Henry and William J. Bryan strongly oppose such actions. The opponents of Underwood's scheme promise a lively fight. The shipping combine investigation is another which Underwood proposes to send to the regular committee.

FOR EXHIBITION AT AUTOMOBILE SHOW

The Wichita Falls Motor Company is preparing to ship two trucks to Kansas City for Mrs. McIntyre and Mr. Alken who last Saturday purchased 150 of them. These two trucks will be placed on exhibition at the big automobile show that opens in Kansas City next week.

WHY IT COSTS SO MUCH TO LIVE

PRESIDENT TAFT PROPOSES INTERNATIONAL INQUIRY INTO OPPRESSIVE FACT.

RECOMMENDS GOV'T RAILROADS

TAFT SAYS CONDITIONS IN ALASKA WARRANT CONSTRUCTION OF RAILROAD LINES BY GOVERNMENT

Washington, D. C., Feb. 2.—President Taft today sent to Congress his promised message on Alaska and the public domain in Federal. In urging the construction of a government railroad, a commission form of government and other needed legislation for the far away territory. President Taft declared there was nothing in the history of the United States which afforded such just reason for criticism as the failure of the federal government to extend the benefit of its fostering care to Alaska.

"I am not in favor of government ownership where the same certainty and efficiency of service can be had by private enterprise," said the President, "but I think the conditions presented in Alaska are of such a character as to warrant the Government, for the purpose of encouraging the development of that vast and remarkable territory to build and own a trunk line railroad which it can lease on terms which may be varied and changed to meet the growing prosperity and development of the territory."

President Taft said there was little likelihood that the Morgan-Guggenheim interests would open up a railroad under the present conditions in Alaska. The President would have a commission form of government for Alaska, one half of the commission to be elected and the other half appointed by the President.

A leasing system was proposed by the President for government coal and phosphate lands in Alaska, as well as in the United States. The reclamation laws of the United States should be modified, in the opinion of the President so that a home steader might be granted a patent at the end of five years of cultivation and three years of occupation. The President also would relieve homesteaders from the requirement of occupation at a time when the condition of the land would make it burdensome and difficult.

Following a suggestion of Secretary of the Interior Fisher, President Taft declared in his message that the control of waterpower sites should remain in the national government rather than be turned over to the States. He would have the sites disposed of by direct lease from the government, the rental to be used in improvement of the stream and for the benefit of the local community where the power site was located. The President would give to the States the right to regulate the rates at which the converted power was sold. The proper disposition of waterpower sites has been one of the most serious subjects discussed by conservationists. President Taft believes that the leasing system he now suggests is the best solution of the problem; that it would mean honesty of administration and the prevention of abuses which a monopoly of absolute ownership in private persons or companies would make possible.

Well Known Cotton Man Dead. Paris, Feb. 2.—A. N. O'Neal, for thirty years a well known cotton man here, died of apoplexy today, aged sixty. For eight years he has been general manager for the Transcontinental Compress Company's plants at Clarksville, Paris and Honey Grove.

Miss Willie Mae Kell returned this afternoon from Fort Worth, having accompanied her grandmother Mrs. E. F. Kemp, as far as that city. Mrs. Kemp will continue the trip to Comanche, where she will remain for several days as the guest of her daughter.

Cotton Broker Suicides. New Orleans, Feb. 2.—Chas. D. Findley, a member of the cotton brokerage firm of Findley and Simpson, suicided today and an announcement of the failure of the firm was made. This is the second failure in two days. The rise in futures are blamed.

Miss Beatrice Hembry of Henrietta, and Mrs. Moryce of Hastings, Okla., are the guests of Mrs. M. E. Franklin, 1206 Travis street.

STATE READY TO ACT

If Federal Government Doesn't Take Steps to Prevent Outrages Texas Will, Says Governor

Gomez May Be Implicated. Mexico City, Feb. 2.—It is rumored that Emiliano Vasquez Gomez may be concerned in yesterday's Juarez outbreak.

Colquitt Wires Capt. Hughes. Austin, Texas, Feb. 2.—Governor Colquitt has wired Capt. J. R. Hughes of the State Rangers at El Paso to notify the Juarez rioters they must not fire into El Paso.

Arozoco's Men Leave for Juarez. Chihuahua, Feb. 2.—A detachment of one hundred of Orozoco's men under Gen. Rosa left on a special train last night for Juarez. Orozoco with several hundred more expects to leave today for the same destination. This city is quiet.

Gomez Says He Will Accept Presidency. San Antonio, Texas, Feb. 2.—Gomez who is here says he will accept the Mexican presidency if the revolution is successful, but will not participate.

Orozoco's Brother Killed. El Paso, Texas, Feb. 2.—(Bulletin)—Five Federals are known to have been killed in the Chihuahua fighting including Silvario Orozoco, brother of Gen. Orozoco. The Juarez troops are mobilizing apparently against the federals expected from the south.

Fighting at Chihuahua. El Paso, Texas, Feb. 2.—An admission of Chihuahua fighting is made by Mexican counsel Llorente here. He received the news from acting Governor Gonzales at Chihuahua. Private advices reaching here at noon stated the fighting was then ranging in the vicinity of the penitentiary. The report about Gomez came from the American secret service men here. They claimed he came here from San Antonio. It is believed he will place himself at the head of the mutineers.

By Associated Press. Austin, Tex., Feb. 2.—Colquitt today wired President Taft that he will take drastic measures to protect the citizens of El Paso from a recurrence of the battle of Juarez conditions unless the Federal government prevent shooting in to El Paso. He did not say what these measures would be. "My advices indicate serious conditions at Juarez opposite El Paso. I have disbanded the extra Ranger force as per your suggestion. I ask that you give directions to the War Department to protect citizens of Texas from the firing of Mexican bandits across the border. I ask that you give notice to mutineers and the Mexican government that they must not shoot into El Paso as they did at the last battle of Juarez. If necessary I will take drastic steps to prevent this recurrence. Please advise me."

COLQUITT WIRES PRESIDENT TAFT

ASKS U. S. GOVERNMENT TO SEE THAT EL PASO CITIZENS ARE NOT ENDANGERED.

The Big Busy Store

PRACTICAL TEDDY HONEST WOODROW

SENATOR GORE COMPARES ACT OF FORMER PRESIDENT WITH THAT OF NEW JERSEY MAN.

SILENT THIRD TERM VOTE

The Great Masses Will Not Stand For Roosevelt Again—Dinner Fall Brigade For Taft.

Special to the Times. Muskogee, Okla., Feb. 2.—Said Roosevelt to Harriman, "You and I are practical men."

Said Wilson to Ryan, "I cannot accept your money."

And here is the sharp issue between Theodore Roosevelt, in case he is nominated by the Republicans, and Woodrow Wilson, in case he is nominated by the Democrats, according to Thomas Pryor Gore Oklahoma's blind senator, who arrived in Muskogee yesterday to be the guest of local Democrats interested in the cause of Woodrow Wilson.

"Wilson's unwillingness to accept Ryan's money shows that he wants to be free from obligations to special interests: His action in this connection will aid in nominating him and will bring a sharp issue between him and Roosevelt in case the latter is the Republican nominee. On the one hand Wilson, refusing Ryan's aid, on the other, Roosevelt's 'you and I are practical men,' and its consequence."

In regard to the Watterson incident, Senator Gore expressed his belief that it had helped rather than injured Governor Wilson's chances.

"Governor Wilson will have all the Democratic vote, nearly all the independent vote and a considerable vote from dissatisfied Republicans. Clark's chances would have been better if he had avoided the Missouri imbroglio involving himself and former Governor Folk. We could nominate a man who could not go in on a side track. I want her to go in hitched to the lightning express when it comes by." And although Senator Gore did not mention Governor Harmon's name and stated that he had not a word to say against any candidate or against any candidate's friends, it was evident that he was referring to Governor Harmon's chances.

"It has been intimated to me since I arrived here," he said, "that if I undertake to do anything for Wilson, the Harmon and Clark people may make common cause against him. But I couldn't desire the opposition to make a more egregious blunder if I could dictate their policy. My preference is founded on the ability and the availability of Woodrow Wilson. He has a decided lead over all the other candidates combined."

Coming directly from the east where he has kept in touch with politics both Democratic and Republican, he expressed the following opinion: "It looks as if the 'black and tan' delegation from the south combined with the bread and butter brigades from all other sections of the country may be able to put Taft over and weather the Roosevelt storm. There is in this country a large silent vote that will never consent to a man's being elected president for a third term."

Senator Gore arrived in the city yesterday morning. At lunch at the Turner he was the guest of Benjamin Martin, Jr., and C. B. Law, and throughout the afternoon he was in consultation with leading Democrats. Former Governor Haskell was one of these.

Suffragists in Trolley Campaign

Danbury, Conn., Feb. 2.—A part of prominent woman suffrage advocates who are making a "trolley campaign" is regarded as one of the most unique and successful plans yet devised to bring the equal suffrage cause before the people. The tour began a week ago at Bridgeport and will be continued until virtually every city and town of importance in the Nutmeg State has been visited. The touring party includes a number of the most noted suffragists of England as well as America.

INTERESTING FACTS ABOUT TEMPERATURE IN JANUARY

January 1912 averaged 12 degrees colder than the corresponding month in 1911, according to records kept by Mrs. E. G. Cook of this city. Mrs. Cook recorded the temperature six times daily and the average for the month was 32 degrees above zero. In 1911 the average was 47 degrees above zero. The coldest day of the month was the 12th when the average temperature was 8.5 degrees above zero. January 2, was the coldest day in 1911 when the average temperature was 10 above. The warmest day of the month was January 26, when the average was 56; the warmest January day in 1911 was January 31, when the average was 67.

The gigantic steam turbine recently installed in a New York electric station is powerful enough to light a million sixteen-candle power lamps.

Since the Government authorities have begun to "Round Up" a few of the men who have so long brought odium upon the name of honest labor, I have been urged by some editors to publicly define the reasons for my seven years' newspaper campaign on the tyrannies of many Labor Union Leaders.

Some men endow colleges. Others build libraries. Both educational.

I preferred to devote to newspapers my contributions toward education, warning the people to protect themselves against the greatest, most tyrannical and dangerous trust this country has ever seen.

Especially insidious and dangerous, because its inner plans were not understood by the average citizen who, seeing no immediate slavery to himself, peacefully followed his own pursuits and blindly allowed the self-seeking Labor Leaders (?) to weave their web stronger as time went on. Not one word in my entire campaign has been uttered against peaceful trade associations.

I have only tried to defend the several million honest and law-abiding workmen who protest against the bullying and abuse of those in power.

No one seemed to sympathize with the few thousand widows and orphans of the men murdered while faithfully trying to earn a living under God's permission but against the "orders" of the "Labor Trust." So I tried to present their cause from time to time.

The healthy average common citizen is perhaps deserving of at least some of the inconvenience and loss put on him from strikes and other labor leaders' tyranny as a reward for his indifference. I knew years ago that the plan of this big labor trust was to ultimately gain control over every workman, clerk and employe in the U. S., including farm hands and government employes.

This has been partly accomplished in some localities; then followed acts which clearly show the intent.

First, to harvest initiation fees, sometimes up to \$100.00 each to "join the union."

Next, monthly dues. Say \$2,500.00 a month in a town with 10,000 "members" at 25 cents each.

Next, "fines" assessed for some infraction of "rules." Then the lash of the slave driver came forth. Orders to strike; what to buy; what not to buy; how to vote; when to parade (to show power); and to contribute from the hard-earned pay envelope for strike benefits to other men forced into idleness pending negotiations between crooked leaders (?) and crooked employes who hire said leaders to call strikes on competitive jobs, thus making the workmen tools, kept idle while the chiefs scrap for control or bribe money.

One of the hardest strokes of the lash is the money forced from members to defend dynamiters, sluggers and murderers when caught.

But let an honest workman, who, perchance, has been driven into "the union," dare to disobey one of these "orders" and he is taught a lesson through the slugging or dynamiting committees.

The slavery of the honest American workman is pitiable when "closed shop" full control is obtained by the tyrannical leaders.

Now, observe the plan of this gang to govern men and affairs. "Organize" every trade. Insist on closed shop. Then use the power of numbers to induce government officials to permit organizing all government employes. Some of the oaths defining that the union rules shall "precede Church, State and Family."

Then force Congressmen to pass anti-injunction laws to prevent courts from stopping proposed outrages.

Force merchants to hire only "union" clerks and sell only "label" goods. Use union funds to support slugging and dynamiting crews to drive back the protesting ones or "remove" them.

Of course, in carrying out the plan for complete control by the gang, some were caught.

Whenever openly exposed the men "higher up" immediately begin to assess members to protect the criminals and always rush into print with loud cries and much mock sentiment about "the brotherhood of man" and the "defense of the wage worker," with such play upon the sympathy of the people they cover their own greed for fees and insane desire to read their names in the papers.

It would be hard to convince the widows of the twenty-one murdered men in the Los Angeles tragedy, and hundreds of others, that their husbands received much benefit from "the defense of the wage worker," nor could they well understand such working of that particular brand of the "brotherhood of man" scheme.

Late events have stripped the lamb's coat from the body of the wolf and shown most clearly the lying deceit and horrible portent underneath, which I have tried time and again to explain to the public.

Men who preferred to work and support their families have been waylaid. Fingers chopped off, with the comforting assurance that "now you can set type if you will." Crow bars and heavy weights dropped on heads. Fathers beaten unconscious and many times crippled for life; little homes blown up and many and many a corpse brought to the destitute family.

These are not "occasional cases." Such crimes run literally into thousands, and judges and juries have been threatened with death, bribed, and witnesses slugged or put out of the way.

In the Government cases now pending the witnesses must be guarded from the agents of the "Labor Trust" with its tentacles reaching to the most remote corners of our country.

Don't permit yourself to be misled by the vapors of sentimental, drooling degenerates who assert that these murders are justified because "society" has oppressed workmen.

In no other country in the world are they paid as high, and as much earnest effort devoted to their welfare. Nor is there as abundant opportunity in any other country in the world for workmen to gain fortunes.

Our great railroads and industries are largely headed by former wage earners.

These murders are instigated by that class of men, always in evidence, who hate success. They coolly and cruelly plan and execute assassinations and murders to satisfy their own hate and show their power over the slaves who dare protest. The nightly talk of strikes, given in many a union meeting, develops the hate and murderous instinct which waits only for opportunity to carry out.

Take the Los Angeles case as an illustration. The Times had withstood about 16 years of all kinds of attacks, not because its faithful employes were underpaid. They received wages higher than the union scale, but they refused to bow down and place themselves under control of "the gang," hence they were persistently assailed and finally 21 were murdered. These men only asked to be let alone to support their families, but union leaders determined to rule over them, hence the murders.

The whole set-up of the leaders of the great "Labor Trust" the American Federation of Labor, points toward a diabolically adroit plan to secure to those leaders complete control over their

A Round-Up

own members who dare not protest, and also over all workmen, legislators, congressmen, merchants and the balance of citizens.

Think it over and you will see in part what the tyranny would be if they were permitted to completely carry out their plans.

Now that the facts are known the people can protect themselves by refusing to do any act that would add power to this aggregation.

Remember, any act. When their grip on the throat of honest labor is broken, working men can either select better leaders, or join some of the law-abiding trade organizations.

I was not driven to write this series of articles by reason of disagreements with my own thousand workmen. No troubles have arisen between us.

They have had fifty-two weeks a year steady work for many years, are a contented, high-grade class receiving the best wages in Michigan for like service, and protected from the frequent onslaughts of these "Labor Leaders" (?).

Mr. Gompers has repeatedly announced in public that I sought to destroy all organizations of labor.

This is in line with his regular habit of distorting facts. I have for a long time been a member of the National Association of Stationary Engineers and the National Trades and Workers Association. These are non-strike and peaceful organizations which negotiate their trade agreements legally, with peace and honor.

I have given to the Trades and Workers Association a \$400,000.00 home for their old members in furtherance of an honest desire to help solve this most important industrial question.

In addition, I have offered to contribute a quarter of a million dollars cash to help along a workingman's movement, as defined in a letter sent Mr. Gompers Dec. 11th, 1911. Copy herewith.

December 11th, 1911. Mr. Samuel Gompers, Pres., American Federation of Labor, Washington, D. C.

Dear Sir:—

Press reports indicate that you are greatly depressed and harassed by fear and the disrepute brought on your Federation.

The query has arisen whether you are big enough to sense the movement of a great Power which guides humanity, and to conclude that the time has arrived when "Labor" should be honestly represented instead of misrepresented.

If the thought of truthful and earnest effort has come, and you honestly desire better conditions for the wage earners, may I tender to you an invitation to come to Battle Creek for a conference with the President of the Trades and Workers Association, Mr. J. W. Bryce?

If you will permit it, your expenses will be paid from the time you leave Washington until you return.

You will be put up at the Sanitarium for a week or ten days' rest and freedom from worry, as a guest, either of the Association or of myself, as you prefer.

When rested, let us consider the new movement for the workmen of America, enlisted under the banner of the National Trades and Workers Association, free from strikes, slugging, picketing, tyranny, fines, dynamiting and murder.

Belonging to the American Federation of Labor are hundreds of thousands of self-respecting and law-abiding workmen who are members under pressure, and who deplore the tactics you and your associates have employed and forced upon them.

They want steady employment fifty-two weeks in the year and do not relish being forced by strikes into idleness pending the "negotiations" between crooked labor leaders seeking bribes, and crooked employes who hire said leaders to call strikes on competitive jobs, thus making the workmen tools kept idle while the chiefs scrap for control or bribe money.

You will perhaps reject this proposal, believing that strikes are a necessary weapon to preserve the rights of workmen. But the new way has been in very successful operation over two years and found to have more power than the old way.

The honorable Brotherhood of Locomotive Engineers, The National Association of Stationary Engineers and the National Trades and Workers Association perfect trade agreements without strikes, secure the highest wages and yet preserve the respect and esteem of employers and of the members themselves.

Workmen are aroused to resentment from being forced to contribute from their hard earned pay envelopes to defend known sluggers and murderers, and to being heavily fined for not obeying the orders of leaders when they know those leaders are simply using them to insure complete domination over the daily lives of the American workman.

He seeks to maintain his position as an honest, peaceful citizen not to be forced to affiliate with and support thugs and murderers.

Personally, I have only sincere and open denunciation for the past methods of you and your associates. Nevertheless, if you are ready to join in an earnest and truthful step forward for your members and will accept this invitation in the spirit in which it is given, you will be most welcome, and will be treated with the greatest consideration we are capable of, and in addition I will agree to contribute a quarter of a million dollars in cash to the new movement.

The Trades and Workers now have a splendid \$400,000.00 home to care for their indigent members, and with the addition of the members of the American Federation of Labor and its endorsement we can merit the support of the public, all working for the new day of peace with honor in the industrial field.

Yours very truly, C. W. POST.

No reply has been received. It seems evident the present Leaders will not accept any offer of industrial peace which takes from them the fees, control of workmen, and curbs their trust methods.

When any combination either of Capital or Labor goes outside its own business and attempts to oppress, tyrannize, or forcibly dictate to others and thereby "restrains trade" it becomes dangerous and should be prosecuted.

Talk about restraint of trade! All the capital trusts in this country couldn't bring about a minus fraction of the loss, inconvenience, misery and crime set in motion by strike conspirators.

The time has come when every home-owning patriotic citizen should speak in most unmistakable terms, if liberty is to be preserved.

Write President Taft asking when he will apply the law to the Labor Trust as well as the Capital Trusts.

Then write your members of Congress, telling them clearly that you will expect them to protect yourself and other common, every-day citizens by voting down the bills these Labor Trust leaders are pressing to give them more control.

One is a bill to prevent courts from issuing restraining orders to stop proposed acts of violence in strikes. Another is to allow labor leaders to restrain trade without being subject to the law.

You are one of a tremendous majority but you must tell your public officials your needs. Then they can act in your defense.

Then question candidates and don't accept any equivocal answers.

Insist that trade organizations can be peacefully conducted and that no laws be enacted giving leaders arbitrary control over the masses.

A few of the facts are now known and have been proven true. Many more will follow as the government investigation proceeds. Will you be patriotic and painstaking enough to write, talk and vote for your own safety?

My work in the way of public and expensive announcements on this subject is done.

There's a Reason, C. W. POST.

Nagel to Speak in Boston.

Boston, Mass., Feb. 1.—Secretary of Commerce and Labor Charles Nagel is to be the chief speaker tomorrow night at the annual dinner of the Boston Chamber of Commerce.

Mr. Nagel's address is anticipated with considerable interest as it is expected he will set forth the views of the Administration in regard to the proposal of leading business men to make existing Government agencies more useful to commerce by creating possibly a semi-official body analogous to the British Board of Trade, which would represent in concrete form Government co-operation in the activities of commerce and industry.

News From the Oil Fields

From Tillman County.

J. M. Smith, one of Frederick's leading merchants, has decided to sink an oil well on his farm, four miles south of Frederick, and has already started the necessary preliminary work, with that object in view. This well will be nearer to Frederick than any other that has yet been sunk in the county. Mr. Smith's farm is bisected by the Frisco railroad, and if a strike is made, he will be in a convenient position for shipping. The farm will be divided into oil lots which will be put on the market for the purpose of providing a development fund. What are considered favorable signs for the existence of oil have been found on the Smith farm, in well digging, and as there is good reason to believe Frederick is in the oil belt, Mr. Smith will start on his project with good prospects for success.

C. A. Swartz, president of the Big Pasture Oil and Gas Development Company, returned Wednesday evening from a visit of the company's well at Loveland. Since the completion of the company's water system, work is progressing without delay, and a night shift probably will be put on soon. Some very encouraging indications have been found, which strengthen the belief of the officers, that Big Pasture No. 1 will certainly prove a paying well.

Just at the time when the bringing in of the Campbell well, 13 miles south and east of Frederick, seemed to be at hand, an accident occurred which caused operations to temporarily stop. Saturday afternoon at 3 o'clock, the big drill had reached a depth exceeding 1000 feet when the bit got caught beneath the casing and efforts to dislodge it with the tools that the drill had at hand were futile. A message was sent to Electra, Texas, to have additional tools sent over, and work was suspended until they should arrive.

At this time there was little if any doubt that the drillers of the Campbell farm had found oil and were about to bring in the well. Oil sand was reached and there were other indications of a dependable character to show that a strike was about to be made. So confident did the men who were digging the well feel about it that they expected to bring in the well by Monday.

It is understood that five more derricks are to be erected by the men who are boring this well in that vicinity in the near future. The materials for these derricks are expected to be on the ground soon, and the bringing in of Campbell No. 1 is to be followed by the erection of a series of other skyscraping frames that probably will be but the beginning of a forest of derricks in that vicinity.

Excitement over the oil-prospects for Tillman county continues to grow, very naturally. Leases which have not been given in the vicinity of the Campbell well are steadily advancing. Some few are still holding out, and refusing to lease. Not much of this is being done, however, as it is realized that refusing to lease under the proper conditions offily retards the development of the county.

There now seems to be but little doubt that a great part of the area of Tillman county is underlaid with rich deposits of oil. If this is not so, the experienced oil men are much deceived. It will require but a short time to tell the story, now. Derricks are rearing their heads in many places in the county, and big drills are biting their way into the earth, making it give up its secrets.

In a pool near the Campbell well may be seen some asphalt, this being one of the veins that the drill there passed through.

Mr. Morgan, one of the men financing the boring on the Campbell farm, has been spending several days at the home of T. W. Face, near the Campbell farm, putting in his time idly while awaiting developments. He expects to move his family from Oklahoma City to Frederick in the near future, and to make this city his headquarters.

Tools sent for arrived from Electra Monday evening, and efforts were started at once to lift the bit from the well. Work to this end was continued throughout Tuesday, without success. The cable was cut, Tuesday afternoon, to permit further rescue work being done.—Frederick Lender.

Reports From Vernon.

The Record has taken pains to make considerable investigation this week of the oil developments at the test well four miles west of town, so that the information given by the Record is as nearly accurate as is possible to obtain.

It was announced last week that the well was being bailed but the only oil ascertained as nearly as possible the exact amount of oil and gas being furnished by the well. The test was completed and it was found that oil did not exist in paying quantities, though both oil and gas were found. The experiment is said to be entirely satisfactory to the owners of the well, and all this week the big rotary drill has been working day and night in an effort to reach the next oil bearing sand, which is thought

not to be very much further down. Those watching the oil and gas indications say that the prospects are good for a paying well at about 1,200 feet. In talking with one expert in the oil business, were told that the contract depth of 2,000 feet would never be reached, his suggestion being that oil would be found in paying quantities at a much less depth. However, this may be, it is safe to say that a paying well has not yet been brought in. Reports will follow from time to time.—Vernon Record.

From Iowa Park.

Dismuke & O'Neal received their second Star rig Monday morning over the Fort Worth & Denver, and workmen were busy unloading it Monday afternoon and Tuesday morning.

This rig is also a Star, but much larger in size than the one they are using in putting down the well on the John T. Overby farm. This new rig will be used on the Roberts farm, one and a half miles west of Iowa Park. Staples & Company, who installed a Standard rig on the J. B. Winfrey farm one mile south of town a few weeks ago, began drilling Monday morning. At the end of their first day's work, a depth of 40 feet was reached. Now, that they have things going nicely, and with favorable weather, here's hoping they will bring in a gusher in the near future.

Patterson & McAlester, who have the Fasset ranch lease, did not resume work on their well on last Thursday as stated in the Herald last week, on account of new material they had ordered failed to arrive.

At the Beerbaum well, seven miles northwest of Iowa Park, work is progressing nicely on the second well. We understand they are not using a night shift, but the day shift starts early in the morning and works until late in the evening.—Iowa Park Herald.

The Developers' Oil Company brought in a well in the shallow sand at Petrolia yesterday. The well will produce only about five barrels. Other shallow wells are to be sunk on the tract.

The Avis Oil Company is still drilling in solid rock at a depth of about 90 feet. Rock was encountered just beneath the surface and the drilling has been very slow.

The suit of J. H. Marriott vs. the Texas Company for the cancellation of a lease on 217 acres at Electra was compromised yesterday after the selection of a jury had been begun and a new lease contract was entered into between Mr. Marriott and the company.

THE STATE OF TEXAS

To all persons interested in the estate of Jesse Benham et al, minors: J. B. Winfrey, guardian of the estate of said Jesse Benham et al, minors, has filed in the county court of Wichita county his final account of the condition of said estate, together with an application to be discharged as guardian thereof, which will be heard by our said court on the first Monday in February A. D., 1912, same being the 5th day of February A. D., 1912, at the court house of said Wichita county in the city of Wichita Falls, at which time and place all persons interested in said estate are required to appear and contest said final account and application, if they see proper.

Witness W. A. Reid, Clerk of the county court of Wichita county. Given under my hand and seal of said court at my office in Wichita Falls, Texas, on this 11th day of January A. D., 1912.

Copper Inquiry Begins.

Boston, Mass., Feb. 2.—A number of leading copper men appeared today before General Charles K. Darling, as a United States Commissioner, to give testimony in the suit of William E. Wall and Louis Foss of Boston against the Parrot Copper and Silver Mining Company. The plaintiffs are the owners of 1210 shares of Parrot stock and instituted suit in the United States district court at Butte, Mont., to have set aside the sale of the Parrot properties to the Anaconda Company on the grounds of insufficient consideration and of fraud. It is charged that in 1899 men in control of the Anaconda Company formed a conspiracy to deplete the Parrot assets for the purpose of getting possession and that they have succeeded. The inquiry into the transactions of the Parrot and Anaconda companies is expected to have an important bearing upon the affairs of other leading copper companies, but the far reaching effect cannot be determined at this time.

GROWS HAIR ON BALD HEADS.

Bald-headed People May Get a New Chance in Life.

In these days when youth is the moving factor in business, when a man makes his mark at thirty-five and is ready to retire at forty-five, when business houses, pension the man we call "middle aged" rather than allow his lagging influence to intrude upon the commercial rush, a bald head is almost fatal to any man's hopes. The following must therefore prove interesting to people who are losing their hair or who are bald.

Resorcin is one of the latest and most effective germ killers discovered by science, and in connection with Beta Naphthol, which is both germicidal and antiseptic, a combination is formed which destroys the germs which rob the hair of its nutriment, and also creates a clean and healthy condition of the scalp, which prevents the development of new germs.

Pilocarpin is a well known agent for restoring the hair to its natural color, where the loss of color has been due to a disease of the scalp. Yet, it is not a coloring matter or dye.

This combination of curatives mixed with alcohol as a stimulant perfects a most effective remedy for hair and scalp troubles.

The famous Rexall "93" Hair Tonic is chiefly composed of Resorcin, Beta Naphthol, and Pilocarpin. It helps to make the scalp healthy, to nourish the hair, to stimulate the follicles. Where the hair is already bare it enters the follicles, revitalizes the roots, supplies nourishment, and stimulates a new growth.

We want you to try a few bottles of Rexall "93" Hair Tonic, on our personal guarantee that the trial will not cost you a penny if it does not give you absolute satisfaction. That's proof of our faith in this remedy and we should indisputably demonstrate that we know what we are talking about when we say that Rexall "93" Hair Tonic will grow hair on bald heads, except, of course, where baldness has been of such long duration that the roots of the hair are entirely dead, the follicles closed and grown over, and the scalp is glazed.

Remember, we are basing our statements upon what has already been accomplished by the use of Rexall "93" Hair Tonic, and we have the right to assume that what it has done to hundreds of others it will do for you. In any event you cannot lose anything by giving it a trial on our liberal guarantee. Remember, you can get Rexall Remedies in this community only at our store—The Rexall Store, Fooshee & Lynch Drug Store.

Job Printing.

The Times Publishing Company has more money invested in presses, type and job printing equipment than most printing plants in cities of 10,000 inhabitants, and is prepared to do printing of all kinds with neatness and dispatch. If you want good printing call phone 167.

Keep a Bottle of This on Your Table

Phone Nos. 432 & 232

Try Hardeman Service

Blue Label Catsup has in it the power to add zest, snap, and appetite to so many different dishes both hot and cold, that to be without a bottle on your table all the time is not only unwise but really wasteful.

A half pint costs you 15c, a full pint 25c. You save 5c on a pint bottle and a pint bottle will last an ordinary family from two weeks to a month and the last drop in the bottle will be as good as the first. Keep it capped.

Let me send you a bottle or two today.

Your February Account is Solicited

- 1897—Pennsylvania State Capitol at Harrisburg destroyed by fire.
- 1911—Revolutionary outbreak in Haiti.

THE ANONYMOUS LETTER WRITER.

Of all the cowardly creatures that are most to be despised is the anonymous letter-writer. No one better than himself is aware that he is little thought of in his community, and for that reason he is probably excusable for withholding his name. Here's a sample of some of the letters that have been received by Hon. W. J. Bullock.

"You try to and can't. Politically you are dead. If you don't believe this run for office. People are tired of always seeing your name in print, you are a fanatic."

Mr. Bullock has never been defeated for any office for which he was a candidate. The fact that his name was placed on the ticket as a candidate for alderman a year ago, together with several other gentlemen, and was not elected, should not be counted a defeat. He was serving at the time as president of our school board, an office to which is attached a great deal of responsibility and no salary. He is now in that position, and has proved his efficiency and honesty in every respect. Two or three splendid new school buildings have been erected, and furnished and equipped since he has been serving as a member of the Wichita Falls school board, costing more than \$100,000 and every dollar of this public money has been well spent, and there is not the slightest suspicion that any grafting has been indulged in. He served this representative district in the legislature for a term with both honor and distinction to himself and his constituents, and later served Wichita county for three successive terms as its tax assessor, and could have continued in that capacity or any other that he might have desired. In other words, Will Bullock is the kind of a man, or "a fanatic," if you please, in whom people who believe in honesty and uprightiness want to honor and desire to serve them. No, Mr. Bullock is by no means a "dead one," political.

Announcement.
I have sold my drug store, at the corner of Eighth and Ohio to Messrs. Thornberry & Shaw. I take this means of thanking the public for the generous patronage accorded to me during the time I have been in business. I also want to ask a continuance of that patronage for the new firm, as I unqualifiedly assure my friends that their wants in the drug line will be carefully safeguarded. Messrs. Thornberry & Shaw are both efficient druggists, and having been in the store for a long time, are thoroughly acquainted with the trade. I shall continue to make headquarters at the store for the practice of medicine, and those who are indebted to me, either for drugs or medical service are requested to call at the store or at my office in the Kemp and Kell building and make settlement at once.

ty, and if the time should come when the people want him to serve them in any capacity, they will find him ready and willing to answer their call. He stands "four square" on every proposition, is not a truckler or boot-licker. In short, he is the type of men that have the courage of their convictions and the ability to give public expression to them when occasion demands.

TRIUMPH OF INSURGENT IN LOUISIANA.

Hats off to Louisiana. The Pelican State has stepped forward into line with California. Its democratic voters have risen in wrath and broken the political machine which for two generations has made Louisiana one of the worst boss-ridden states in the Union. The public nominating primaries afforded the people an opportunity to dump the bosses, and they did it with a will.

As long as nominations were made in party conventions the ring ruled with a grip of iron. When the primaries opened the way for party government, the ring control was smashed.

United States Senator Murphy J. Foster has been defeated by Congressman Joseph E. Ransdell.

Judge Luther E. Hall, good government candidate for governor, has been nominated over John T. Michel, ward boss of New Orleans and ring candidate for governor.

Governor Jared Y. Sanders' candidacy for the United States senate against Congressman Robert F. Broussard, received its deathblow. Broussard led Sanders by 10,000 votes in the first primary, and the latter has since withdrawn.

The democratic good government league has nominated a majority of the legislature and will put through a new charter for New Orleans, giving that city a commission form of government and finally destroying the city ring.

This victory in Louisiana may well cheer progressives all over the United States. It is new proof that the American people have determined, without respect to parties, to get rid of boss rule and establish genuinely democratic governments.

The effect of this Louisiana primary has been to throw a deadly chill into the leaders of the political machine that has dominated Texas politics for many years. They read the handwriting on the wall.

A large measure of credit for the victory in Louisiana is due the New Orleans Daily Item.

While the other New Orleans dailies have been content to plod along in their rut, mirroring the desires of the ring, the Item, animated by the spirit of modern constructive journalism, has fought day in and day out for political reform.

Among the earlier good causes to which the item contributed was the abolition of race track gambling in 1907.

The Chronicle congratulates its useful and powerful evening contemporary in New Orleans, and wishes for it a long life of prosperity based in honorable public service.—Houston Chronicle.

"THIS IS MY 52nd BIRTHDAY."

Curtis Guild, Jr., the new American ambassador to St. Petersburg, was born in Boston, February 2, 1860, the son of a well known publisher. After completing his preparatory education he entered Harvard College, from which he was graduated in 1881 with high honors. After leaving college he entered the publishing business with his father. He took an active interest in military affairs and at the beginning of the war with Spain he was appointed by President McKinley as inspector-general on the staff of General Fitzhugh Lee, Seventh Army Corps, serving until the close of the war. In 1902 he was elected lieutenant-governor of Massachusetts on the Republican ticket. Three years later he was elected to the governorship and served two terms. Ambassador Guild is noted for his knowledge of foreign language and has represented the United States Government in several important international conferences.

Congratulations to—
Alexander C. Rutherford, first premier of Alberta, 55 years old today.

Robert L. Owen, United States senator from Oklahoma, 56 years old today.

Knute Nelson, United States senator from Minnesota, 69 years old today.

Samuel E. Kiser, noted newspaper humorist and author, 50 years old today.

Dr. Rev. Edmund M. Dunne, R. C. bishop of Peoria, Ill., 48 years old today.

Dr. Rev. Mgr. Emile Grouard, Vicar Apostolic of Athabasca and pioneer missionary among the Indians in the Canadian Northwest, 72 years old today.

When the Big Men Of Our Nation Cry

Back to the traditions of our forefathers and emphasize the importance of the home to our prosperity, it causes thinking people to stop and consider. Truly, the home is the most sacred of our possessions, not alone because of its far-reaching influence on our morals, but also because it is the bulwark of our comfort, happiness and success. Too much sacrifice to attain a home is almost impossible, but the sacrifices required these days with the high quality of lumber we offer are nothing compared to those of your parents. This lumber is laid down at your door smoothly dressed, kiln dried and cut mostly to the exact size, so that the question of labor is reduced to the minimum. "I would surprise you how far a few hundred dollars will go towards building when properly spent. Come in and we'll talk it over."

McCLURKAN'S GREATEST SAVING OPPORTUNITY EVER OFFERED IN SEASONABLE MERCHANDISE McCLURKAN'S

The February Sale of White Goods

Begins Monday, February 5th, 1912

WONDERFUL assortments of charming styles and novelties that will appeal to women of critical and refined tastes. A sale of greater attractiveness than any of its predecessor. MONTHS ago, during the manufacturer's dull season, we placed immense orders in anticipation of this event and secured savings which are unobtainable at any other time.

THIS IS THE SALE EVENT FOR WHICH YOU HAVE WAITED

White Sale Specials

Embroideries

A choice selection of dainty patterns in embroideries, as pretty as any in the world. Also the extra wide flouncings at prices to please the most economical buyers.

Table Linen

Special table damask, in both plain and beautiful figured designs, with napkins to match, at low prices especially made for this big sale.

White Waists

We want you to see this line. It is the prettiest we have ever shown, and one that we feel justly proud of. The goods are made in the latest spring fashions and the prices range from

\$1.00 up

Come Early

Wanderlust and Heimweh

By Wilbur D. Nesbit

"As a bird that wandereth from her nest, so is a man that wandereth from his place."—Proverbs xxvii, 5.

My feet they have the wanderlust— They fair would lead me on— Adown the gray road soft with dust Through eventide and dawn To where there lift the distant hills, A many ways to roam; My heart with one deep cadence thrills— A whispered song of home.

My feet would set themselves to go Still on and up and down, To seek the pathways to and fro Through country and through town, To find the sunshine here, and there— The shade of city wall; But softly on the pulsing air— The home place ever calls.

O, fair the path! And fair and far The countries I would see, And morning glow and evening star Show forth that path to me; My eyes look east, my lips are singing, But be it night or noon, There comes to me, irrevocable, The homeside in a dream.

The wanderlust it lures my feet To where the pathways part; But now there flames with sudden heat The heimweh in my heart, And so farewell to reaching trail And fading, wind-blown foam; My heart but heeds the stronger call— The backward path, and home.

Copyright, 1911, by W. D. Chapman

PRINCESS SUZANNE

THE SMALLEST WOMAN IN THE WORLD.

Princess Suzanne, known as "the Doll Lady," is attracting a great deal of attention at the Lydia Margaret, and tomorrow afternoon announces she will receive the ladies and children on the stage at the matinee performance. The little woman is 27 years of age, weighs 33 pounds, and is said at the time of her birth in Austria Hungary, she could lay very comfortably in a cigar box. She is now only 34 inches in height. She

Thornberry-Friberg. Mr. A. L. Thornberry spent the first of the week in Wichita on business and witnessed the start off of the new drug firm of Thornberry & Shaw.

M. J. Thorman and wife are spending a few days in Iowa Park at the family reunion. The wedding of Mr. Thorman's sister is an interesting event of the occasion.

Mrs. Mary Neal goes to Mineral Wells Monday for treatment. Her friends wish for her a speedy return to health.

R. Godfrey's niece came in from Allia yesterday on a visit.

V. P. Brooks has the contract for hauling fuel oil to the new Thornberry well. Hats off to the people who have backed up their faith in this district by action and have begun their search for oil. Here's hoping for the best.

S. W. Carpenter is convalescing from a four weeks' attack of rheumatism.

J. M. Nichell is beautifying his place by planting some selected back-

berry trees for shade. C. D. Sears is finished the first half of his twenty acre onion patch. A big venture but he knows how. Joseph Stephenson and his friend, S. H. Hogsett, from Illinois, returned yesterday from the land of good oranges and big fish (stories). Of course it is in the southern part of our own beloved state. Mrs. Stephenson stopped over in Fort Worth to visit her daughter, Mrs. Edith Reed. The climate affected the party in different ways. They report a good time but glad to get home.

Casper Geyer is performing one of the duties of an American citizen this week at the court house.

J. H. Musgrave, our road overseer, assisted by his neighbors, has been doing the scientific road work this week along the ridge road. Of course it will be a joy to ride where they have been.

For testing the power of X-ray apparatus there have been invented skeleton hands, made of paper, which are about as opaque to the rays as real hands.

An electric fan of more moderate speed than usual has been designed for increasing the circulation of hot air from a residence heating plant.

Oddities in a Day's News

Court Forces Man to Kneel and Kiss Wife.

Frank Leventusky, charged in the Bayonne, N. J., police court with beating his wife, was penitent, but this did not satisfy Recorder Mars, who first ordered the husband to kneel at his wife's feet and ask her pardon.

This being done, the husband was ordered to kiss his spouse, which he did with a resounding smack that seemed to please her. Then he was allowed to go.

Nurse Wins 60 Years' Savings To Children of Her Employer.

Miss Catherine Conway, who had been a nurse in the employ of the family of George H. Earle in Philadelphia for 50 years, left her savings, amounting to \$4000, to the presents for the five Earle children. She had attended them all from the time they were born, and said she wanted them to remember her.

Admits Spending \$250,000 For Charity is Hard Job.

Charles A. Purcell of Chicago, executor of the will of his sister-in-law, Mrs. Mary B. Purcell, who left \$250,000 to charity, admits that spending the money is too big a job for him.

"I am absolutely at sea as to what to do with the money," he said. "I tried handing out cash to the poor on Christmas and got rid of only \$6000 after working a month."

"I guess I'll have to build a home for the poor."

Offers \$30 For Leap Year Proposal; Gets It Himself.

Arthur Zimmerman, proprietor of a hotel at Point Pleasant, N. J., offered \$30 to the first woman who would swear she had made a leap year proposal.

A woman signing her name "Mrs. L. Burge" of Asbury Park, won the money in a unique way. She wrote and proposed to Zimmerman and claimed the \$30 reward in a postscript.

"Great Scott!" said the hotel man. "I never expected a woman would claim the \$30 and me as well."

STOMACHS REPAIRED

Do you know that the best stomach prescription in the world is called MIONA.

That it is put up in small tablets which most people call MIONA stomach tablets.

Do you know that Foonsee & Lynch guarantees MIONA to banish indigestion or any upset condition of the stomach, or money back.

MIONA is not a purgative, it is made of ingredients that clean, renovate and disinfect the stomach and bowels; it puts strength and energy into the stomach walls so that in a short time perfect digestion will be a regular thing. Fifty cents is all you have to pay for a large box at Foonsee & Lynch Drug Store and druggists everywhere.

Rohatch's Mineral Water. Is highly recommended by physicians and patrons who have tested its merits, for indigestion, catarrh of the stomach, kidney and bladder trouble. This water stimulates the secretion of the stomach, increases digestion and favors a more complete absorption of the food and prevents the action of germs that cause typhoid and other infectious diseases.

This water can be purchased at the wells or delivered in jugs or cases. This well is located one mile south of Alamo school building in Floral Heights; two deliveries daily morning and afternoon. G. J. Rohatch, Owner. Phone 1601—1 long—4 shorts.

MRS. MCGILL BROKE DOWN

Gives the Real Facts in Regard to Her Case and Tells How She Suffered.

Jonesboro, Ark.—"I suffered a complete break down in health, some time ago," writes Mrs. A. McGill, from this place. "I was very weak and could not do any work. I tried different remedies, but they did me no good.

One day, I got a bottle of Cardui. It did me so much good, I was surprised, and took some more.

Before I took Cardui, I had headache and backache, and sometimes I would cry for hours. Now I am over all that, and can do all kinds of housework. I think it is the greatest medicine on earth."

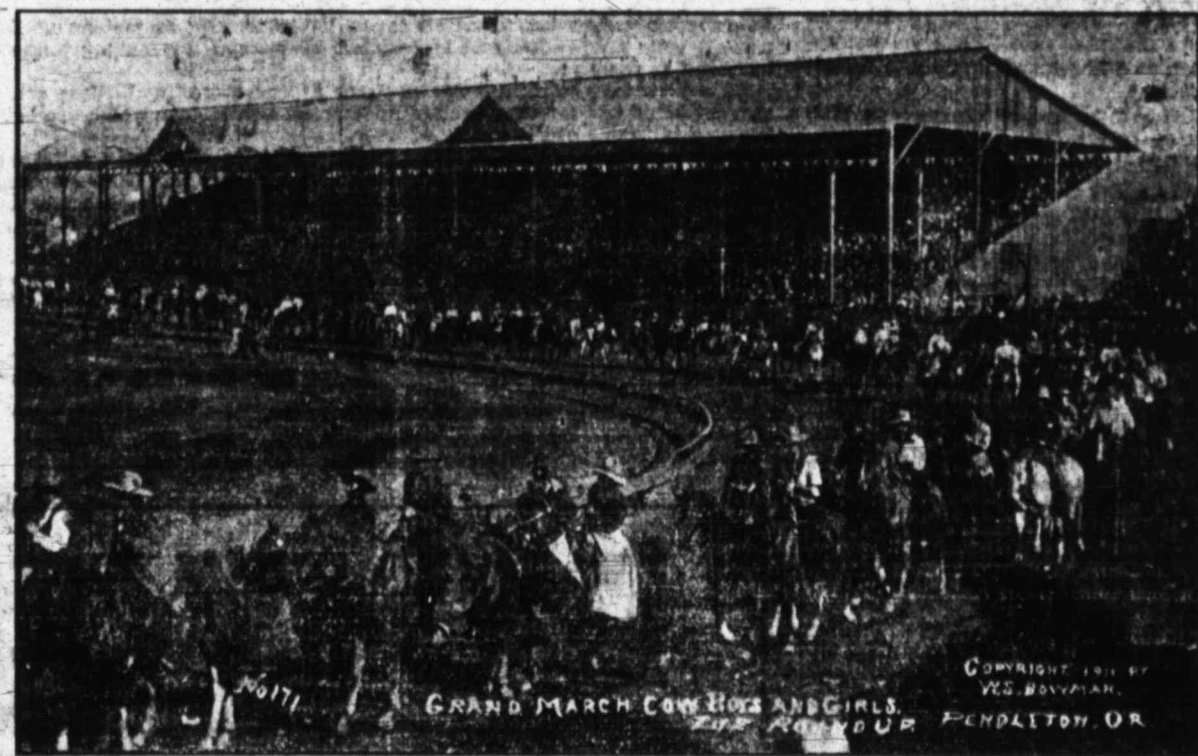

In the past fifty years, thousands of ladies have written, like Mrs. McGill, to tell of the benefit received from Cardui.

Such testimony, from earnest women, surely indicates the great value of this tonic remedy, for diseases peculiar to women. Are you a sufferer? Yes? Cardui is the medicine you need. We urge you to try it.

N. B.—Write to: Ladies' Advisory Dept., Chattanooga Medicine Co., Chattanooga, Tenn., for Special Instructions, and 64-cent bottle. Home Treatment for Women, sent in plain wrapper, on request.
