The Federals used machine guns. Their loss was slight, while the rebels lost two hundred killed, wounded or captured. This is the official report.

Machine Guns Caused Great Damage By Associated Press. Mexico City, March 11.—The Mexi-

can rebels lost a hundred and fifty in a battle near Gomez Palacio, according to a dispatch from Torreon today. The federal casualties are unreported. The rebels who had been routed by rural guards and forced out of Gomez Palacio on March 9th concentrated on a ranch nearby for a fresh attack but the cavalry, infantry and artillery under General Aubert rushed from Torreon and attacked them on the plains of San Ignacio Aubert's rapid fire guns did great cartnge among the rebels routing them completely.

PREDICTED FOR WEEK

General Rise In Temperature For Few Days Promised By Weather Bureau

Washington, D. C., March 11 .- Rains

The mutiny of Chinese troops at Peking is regarded generally by the other powers as an indication of the new government's lack of control and as possibly meaning the failure of the republic. The arrow points to the United States legation, where the foreigners sought refuge from the violence of the soldiers. The cross indicates the marine hospital. The lower picture shows the American minister and staff going through the streets in their sedan chairs.

Washington, D. C., March 11 .- Cur tailment of the Democratic tariff evision with a view to speeding up ongress to permit adjournment be fore the National conventions is the expressed aim of the Democratic ma jority in the House.

Republicans and Democrats in the Senate and House are chafing over the delay in the actual legislation which threatens to crowd Congress later on. Democratic Leader Under yood of the House, chairman of the Ways and Means Commitee, indicat d today that the wool tariff revision bill, which is to be reported probably within ten days, will be the last o the revision measures at this session of Congress. The idea has been dis cussed by leaders of both parties in ooth nouses, and those who have con ferred have expressed the view that ongress is likely to be away from

Washington before the gathering of the Republican clans in Chicago or June 18 and the Democrats in Balti more on June 25. "I think our tariff revision bills

will end with the woolen schedule. which we expect to report within ten days," said Mr. Underwood today There is no use for us to go any farther until we find out what the Senate is going to do with the bills already passed and what the President is going to do. We have passed a steel bill and a chemical bill We will pass a sugar bill and then have a wool bill

"We will have made our record or the tariff with these schedules, and am opposed to going any farther if the work is wasted."

"Will Congress adjourn before the National conventions meet?" Mr. Un derwood was asked.

"I am doing everything in my ower to bring that about and I con fidently believe that it will be accom plished. As soon as the sugar bill is out of the way I may bring in the excise tax bill. I have not quite made up my mind whether to follow with t immediately after the sugar bil is passed but probably will as I view the situation now. If not, the appropriations bill will be taken up. The diplomatic bill and others are ready

and can be hastened through. "I see no reason now why adjourn ent can not be reached before th onventions." The Democratic program in the **MINERS STRIKE** Senate is to stand solidly behind the House steel bill, and in a general way to support the Democratic measures that come over from the House. The regular Republicans, standing on what they assert to be definite assurance that the President will veto any tar iff legislation, not based on the Tarif Board's report, will oppose the Demoratic measures. DEMANDS The House Democrats are talking of a free wool bill, though Mr. Un derwood insists that even silk or rub ber would not raise the necessary revenue to offset the loss from free wool. Political conditions make the fate of any such measure on which the House Ways and Means Committee will begin final work next week problematical in the Senate. While progressive Republican Sena tors, it is reported are not acting generally in concert on the tariff, some of them believe that failing is concessions from the regulars of their own party, some common ground may yet be reached with the Democrats to achieve revision success in the Senate. Senator Cummins is now preparing a measure with this end in view. Democratic Leader Martin and some of his party colleagues share in the belief that this co-operation may be possible after the Democratic Sena tors have gone on record for the straight Democratic measures. It is a question how far the progressives and Democrats may be willing to yield. The/House steel bill will be nega them can be sought. tively reported to the Senate Wed nesday. At the full committee meet ing on Tuesday the Democrats will vote to make a minority report in favor of the bill. The tariff discussions will not be precipitated in the

Fort Worth, Texas, March 11 .- The rial of Rev. Frank Norris on the indictment charging perjury in connecion with his testimony before the grand jury concerning the authorship of threatening letters received by himself and members of the First Bapist Church of which he is the pastor, was set this morning for April

The letters out of which the indict ment grew and which were received by Rev. Norris and G. H. Connell were as follows:

Worth Hotel, New Worth Hotel 'ompany, European plan. Fort Worth, Feb. 1st. 1912.

Mr. G. H. Connell-I and others have tried to warn that damb reacher of yours-he continues to slander the best men in town we have the dope on him where he was aught with a woman from Fort Worth in a St. Louis hotel last year, how can you keep such a man when the above is known all over town if he remains the proof will be coming.

The following notation upon the econd page of a publication known as the X-Ray, under the date of Satirday, Jan. 13, 1912, "Stop this paper or take consequences," with the name of G. H. Connell underscored in ink. J. Frank Norris-You have been duly warned-you have got to gowe will give you ten days to leave.

We have the goods on you-have notified your deacons that we ha-it on you-you know it does not matter whether its so or not it will do you np just the same. Clouds of mystery which heretofore have hung about the burning of the First Baptist Churca here Feb. 4 may be disseminated if persistent rumors, which are becoming more and more detailed, are founded on fact, as some who are in a position to know are beginning to believe. According to these rumors, an outside detective has under surveillance three men said to be foreigners, who is expected will be charged with setting the fire that destroyed the church. This officer, it is claimed, has had the men watched for many days, and meanwhile has been gath. ering evidence on which to have a charge that may be preferred in Fort Worth. None apparently are in a position o give the nature of this evidence. though it is said that proof almost positive has been obtained, to the effect that they received pay for their part in the work of destruction. Fort Worth officers have not been notified that these men are being watched, but it is understood that notification will come as soon as a few snarls in the chain of evidence have been straightened, if such may be, and immediately after such notification, charges, will be preferred

Although apparently not a man festo of approval of the personnel of the Administration, there has no been seen in the capital such an out pouring of the people of all classes since the triumphal entry of Madero last June. Every grade of society. from the sandal-shod laborer to the frock-coated business man and office holder, was to be seen in the many divisions of the marchers.

There were few vivas for Mader but many "deaths" for Orozco and for Vasques Gomez. The sentiment expressed by the hundreds of banners to be seen was fidelity toward and support of the organized Government. The President hung for three hours over the railing of the central balcony of the palace, listening to impassioned speeches delivered by orators of the movement from the top of a convenient bus or from any point of vantage available. Occasionally he responded briefly and his efforts were always rewarded with respectful attention, followed by wild applause. He was visibly moved by the excitement and with gratification. One speaker said he brought "a message from the whole people that they would turn their influence toward the good of the Nation." Still manother gave assurance that the lives and property of foreigners were safe at the hands of Mexicans.

Orozco will never reach Torreon, in the opinion of a member of Madero's Cabinet. Three kilometers of railroad track have been removed by the National Railways near Santa Rosalia. seventy miles south of Chihuahua, and the rails carried away. Between there and Torreon he will find from 3.000 to 5.000 Federals, well support ed by artillery, barring his progress.

Anthracite Operators Will Not Grant Demand for Wage Increase of Twenty Percent.

Wichita Falls doesn't share the un easiness of many cities of the Southwest over the fear that their fuel supstrike of the miners, because very fort inately we have at our door a vast supply of natural gas which has to a great

extent supplanted coal as a fuel here But this fear is very real elsewhere The last of this month the contracts between the miners and the operators in the Southwest will expire. In an ticipation of a possible failure to reach an agreement and the consekuent clos

ing of the mines, the railroads have quietly been accumulating stores of coal for several weeks, and big manufacturing concerns have been doing likewise. A considerable supply has been stored in Wichita Falls.

Today's dispatches indicate that a world wide strike of the coal miners is a possibility and in event of such a strike the conditions that would result are not imaginable.
