

## NOW IN OIL SAND IN KELLY WELL

DRILLER SHAFER BELIEVES NEXT FORTY FEET OF DRILLING WILL BRING IMPORTANT DEVELOPMENTS.

## NOW CENTER OF INTEREST

Believed Sand About to Be Entered Corresponds With 1050 Sand at Electra.

The drill in the Jack Kelly well at Dean Station is reported on the top of the sand at a depth of 990 feet. Frank Shafer, the driller, expects to bring in a well in the next forty feet of drilling. Following the strike in the Developers' well northeast of this location Saturday—interest is now centered in the Kelly well and if it comes in as good as expected that field will go ahead with a big start.

The driller, Mr. Shafer, who by the way is one of the well known Pittsburg family of oil men and who has had experience in nearly every oil field in the country, believes that the sand now about to be entered is the same sand that is producing the oil at Electra at varying depths around 1050 feet. The drill is now in the blue shale formation under which this sand is found at Electra. Until the developments in the Developers' well, the Kelly well has been going down without attracting much outside interest and little was known about the progress of the well. The Times has obtained the following information about the well which is believed to be an accurate statement: Fifteen feet of sand was found at a depth of 150 feet; 28 feet of sand with small pay at 210 feet; 16 feet of sand with small pay at 322 feet; 18 feet of sand with a small pay at 595 feet and 30 feet of sand that will produce about 5 barrels per day at 715 feet. After this last sand there has been considerable flow of gas.

Much the same formations have been reported in the Benson-Little well drilling at Old Thornberry west of Dean station. These facts together with the fact that not a single hole has been drilled to the southeast of Petrolia that has not been a producer now makes the interest all the greater in the next few days' developments at Dean station.

Mr. Kelly and associates have about four thousand acres under lease in one body around Dean station, and will put down other wells at once.

Dr. Hirsch, the noted Swiss expert upon whose report the Union Petroleum Co. purchased the Barnsdale holdings in the Mid-continent field and elsewhere, when here a few months ago as Mr. Kelly's guest, visited the location and at that time gave Mr. Kelly an opinion that has kept him in an optimistic spirit ever since. Mr. Kelly is just in receipt of a letter from Dr. Hirsch saying that he is leaving Holland with a party of capitalists and will reach Tulsa about April 5th. He has asked Mr. Kelly if he is thinking of selling his holdings to wait until he comes here. Dr. Hirsch and Mr. Kelly were together in South America and the friendship formed there has been continued. Dr. Hirsch will probably be in Wichita Falls the latter part of April or the first of May.

## REPUBLICANS OFFER WOOLEN BILL

Washington, D. C., March 22.—Republican members of Ways and Means Committee today introduced a minority bill revising the woolen schedule of the tariff law. The bill would reduce duties on wool and manufactures of wool about forty percent. The equivalent ad valorem duty would be about thirty-five percent on raw wool compared with twenty cent in the Underwood bill introduced yesterday.

## SMALL ARMY DIGGING GRAVES FOR MINERS

By Associated Press. McCurtain, Okla., March 22.—A small army of men this morning began work digging graves for the dead miners. Men of all walks of life are helping as there are not enough laborers to meet the demand. The disaster has left sixty widows and two hundred and fifty fatherless children.

Dead May Reach 100. Fort Smith, Ark., March 22.—Sixty-one bodies have been taken from the McCurtain mine this morning and it is expected to remove more this afternoon. The death list will probably reach one hundred. Twenty-five have been rescued alive.

## OPERATIVES ACCEPT INCREASE OFFERED

Thirty Thousand Textile Workers Will Participate in Ten Per Cent Wage Advance

By Associated Press. Fall River, Mass., March 22.—An advance of ten per cent in wages on March 25th was offered to the operatives unions by the cotton manufacturers' association this afternoon. Assurances have been given that the increase will be accepted. It affects thirty thousand workers. There will be no general strike Monday.

Rain and Sleet at Abilene. Abilene, Texas, March 22.—Rain and melting sleet have fallen in the past twenty-four hours. Crops except small garden plants are benefited. The fruit crop is late and was unhurt.

## CHARGES AND COUNTER CHARGES

ROOSEVELT MANAGERS ALLEGED TAFT MANAGERS ATTEMPTING TO COERCE TEXAS FEDERAL OFFICEHOLDERS

## TAFT COMES BACK AT THEM

It is Charged That Cecil Lyon is Collecting Funds From Office-Holders For Roosevelt Campaign

By Associated Press. Washington, D. C., March 22.—Counter charges that efforts have been made to coerce the Federal office-holders of Texas were made by the Taft and Roosevelt headquarters here today. The Roosevelt managers declare the Taft workers are making open and unblushing attempts to coerce the Republicans of Texas into selecting Taft delegates to the Chicago convention by means of the patronage club. In a counter statement the Taft bureau declares Cecil Lyon, the Republican National Committee man, has been trying to force Federal office-holders into line for Roosevelt's candidacy, and that attempts have been made to collect funds from office-holders for Roosevelt campaign purposes.

## INDICTMENT QUASHED CASE OF CAPT. BYARS

Charged With Killing Which Took Place in 1865, During Street Duel

Greenville, March 21.—The case of the State of Texas vs. Daniel W. Byars was called in the district court of Fanning county, at Bonham, yesterday and the court sustained a motion to quash the indictment. This is the case in which Captain Byars was charged with killing L. J. Harris, in Bonham, March 5, 1865. After the killing Byars moved to South Texas and resided there until a few years ago, when he moved back to North Texas and settled at White Rock, six miles north of Greenville, where he has lived ever since.

The indictment against him was presented in December, 1865, but he was not arrested until April of last year. The evidence shows that the killing was accidental. Mr. Byars and the son of L. L. Harris were engaged in a street duel when the latter ran between them and was shot accidentally and killed.

## TO SAVE RICHESON

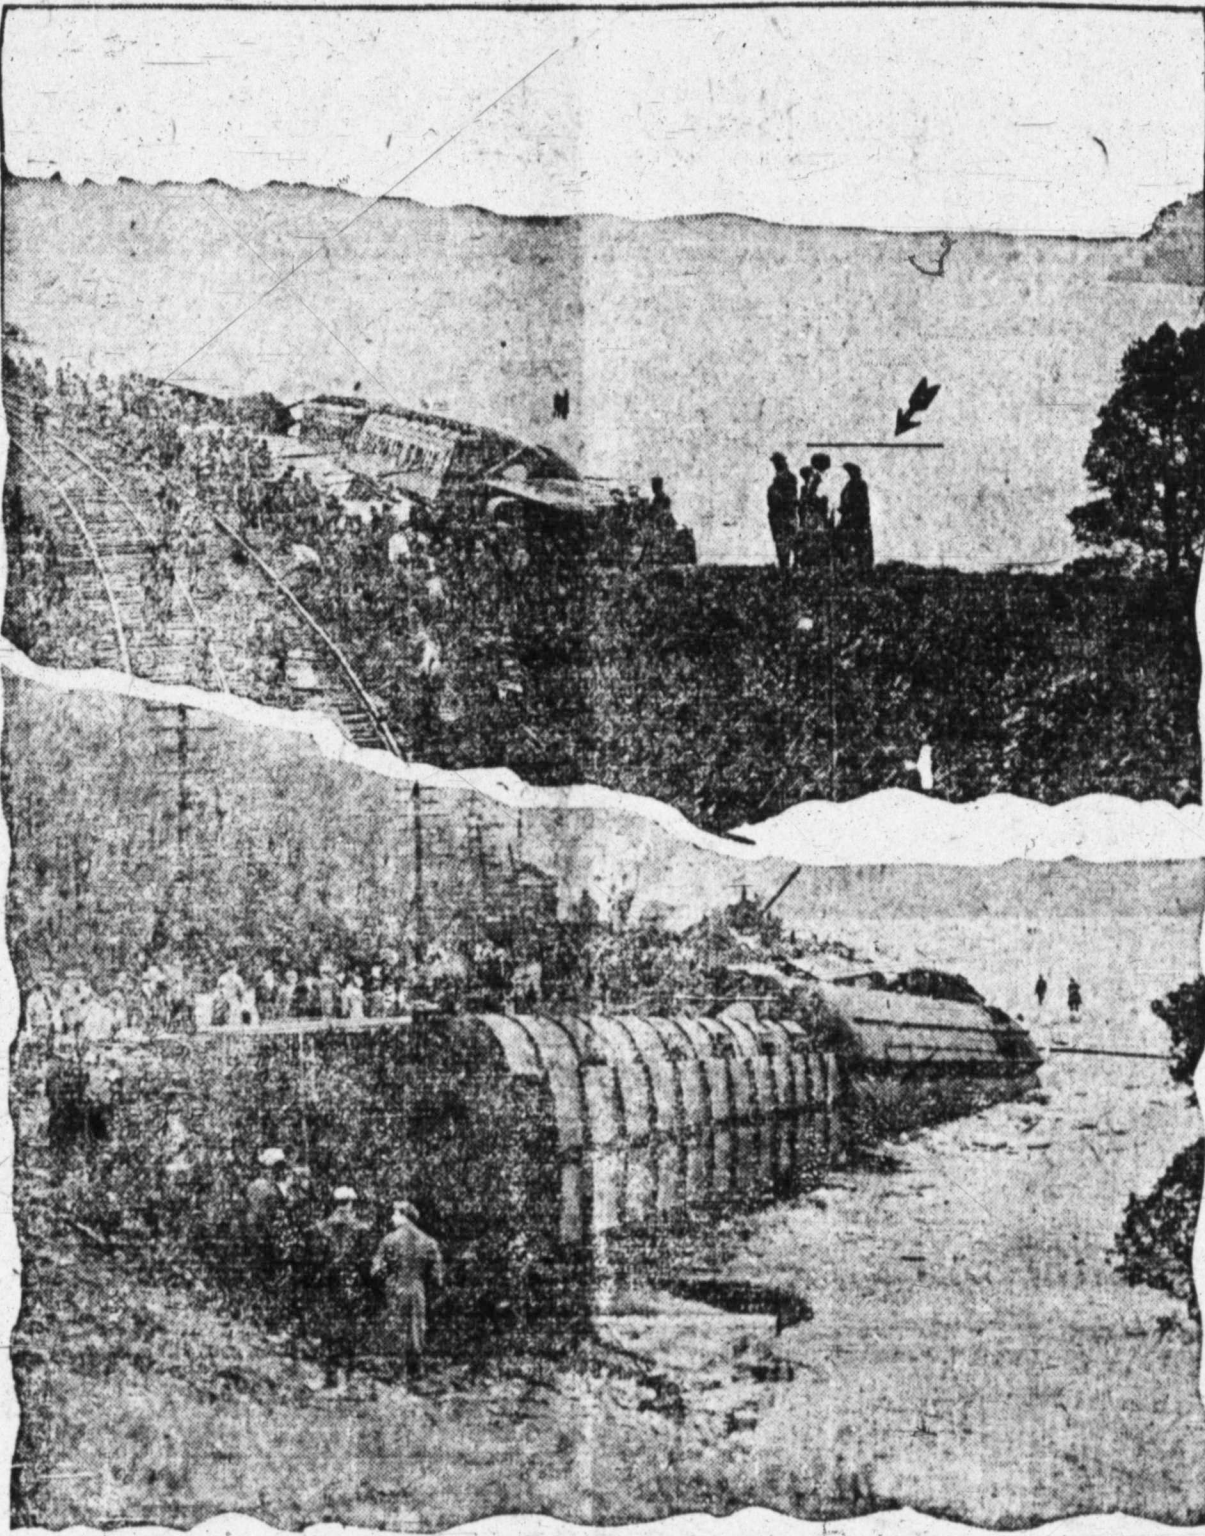

Efforts Begun to Have Sentence of Death Commuted

Boston, Mass., March 22.—Efforts to save Clarence V. T. Richeson, the confessed murderer of Avis Linnell, from death in the electric chair began today when his counsel, William A. Morse, conferred with Governor Ross. The date set for the execution is May 19.

While Attorney Morse did not present a formal petition for commutation of sentence, he assured himself that a petition would be read by the governor and that it would probably be submitted to the pardon committee of the executive council for action. It is optional with the governor whether he shall submit such a petition.

Mr. Morse said that no petition for commutation would be sent to the governor for two weeks at least, and he further intimated that the matter would not be pressed until the date of the execution was less than a month away. Richeson's friends hope to obtain a life sentence for him.

## Scenes of Twentieth-Century Limited Wreck; Overturned Cars and Rail That Caused Accident.

Copyright, 1912, by American Press Association. Ice and steel saved the lives of probably most of the passengers of the Twentieth Century limited when a broken rail snapped five cars of that tier over an embankment that edges the Hudson river a few miles above Poughkeepsie, N. Y. The heavy river ice stopped the plunge of the cars, bore their weight and gave time for passengers to escape drowning. The steel cars withstood a shock that would have broken and splintered wooden coaches. The ground beneath the broken rail that caused the accident. It was thrown 200 feet away on the ice.

## WILEY EXCORIATES DRUG MANUFACTURERS

Pure Food Expert Modifies the Term When Representatives of Drug Firms Make Protests

Washington, D. C., March 22.—Dr. Harvey W. Wiley, appearing today as a private citizen before the pure food board in advocacy of a regulation regarding very strictly the use and sale of opium, morphine, cocaine and other habit-forming drugs, aroused the anger of drug representatives by referring to them as "dopers." A heated argument ensued and for a moment it looked as if blows might be passed.

After several interchanges Dr. Wiley consented to withdraw the term "dopers," but said he would still insist on calling them "manufacturers of poison."

"For that," he added, "is what you yourselves are willing to have the drugs and preparations containing them called."

As soon as the former chief chemist had used the word "dopers" J. J. Queeny of St. Louis, a manufacturer of saccharin, interrupted, insisting that Dr. Wiley should withdraw his remark.

"I refuse to withdraw it," came back the doctor. Representatives of drug manufacturers argued that exception should be made of preparations containing only small portions of opium, morphine, cocaine and the other drugs named.

They held that there were so many of these preparations scattered through small drug stores all over the country that it would require years and be a heavy expense for the manufacturers to have all marked with skull and crossbones, as regulations of the pure food board would require.

## WEATHER FORECAST

Unsettled; rain tonight or Saturday; warmer.

## SHERMAN'S METHODS EMPLOYED IN MEXICO

Federal General Laying Waste Strip of Revolutionary Area in South

City of Mexico, March 22.—Carrying out a plan that was agreed upon immediately after the recent change in the Ministry of War when Angel Garcia Pena succeeded Gen. Gonzales Sales, the Federal forces in the South are laying waste a strip of country through what has been the most troublesome area of revolutionary activity. Villages have been burned all along the line of march of Gen. Juvenio Robles' army.

In its conception and execution, the present movement of Gen. Robles' army is not unlike that of the famous march of Gen. Sherman. Sparing neither her nor hacienda, his soldiers are rifling and destroying every habitation that shelters an enemy.

Villages of thatched dwellings which for months have furnished comfort to the guerrillas of Emiliano Zapata are being obliterated, the women and children being sent back to Jofuta and other points which are well guarded by Federal troops.

"May I ask who you represent," asked Mr. Hough of St. Louis.

(Continued on page four)

## DECLARES HE IS GOD JUROR ADJOURNS COURT

C. L. Gunn Upsets Court Proceedings at Waco—Is Mentally Unbalanced

Waco, March 21.—Seized with the sudden hallucination that he was judge of all the courts, and God as well, C. L. Gunn, a juror in the county court, created quite a commotion at the county courthouse this morning by announcing that he was judge, that all courts were adjourned for the day, and by preaching a short sermon and quoting abundant scripture.

The courthouse was crowded at the time, due to the fact that both district courts, county court and two justice courts were in session, and a number of women and children attending the Clements murder trial, filled the corridors. All of these were thrown into a panic before Deputy Sheriff Tom Moore and Alva Hatch succeeded in overpowering the man and carrying him to the county jail. He is a large man, weighing 200 pounds, and it was necessary for the deputies to handcuff him before they could carry him to jail. There he was attended by a physician and was soon quieted. He was carried to his home this afternoon.

Mr. Gunn is 48 years of age and has a wife and several children, who live with him on a farm near Moody. Once before he has become mentally unbalanced, the weakness of his mind being attributed by his family and friends to the fact that he was thrown by a mule and seriously injured about the head several years ago while residing in North Texas.

Before he was captured and afterward he persisted that he was God and was immune from arrest.

Rain Benefitted Crops. Columbus, Texas, March 22.—Rain accompanying a norther yesterday benefitted crops.

Fruit Safe at Marshall. Marshall, Texas, March 22.—Fruit in this section is reported safe this morning despite the cold weather. It did not freeze here.

## CASHIER PUT IN VAULT; ROBBER GETS \$2,150

Longview, Texas, March 22.—Gary, a small town fifty miles south of here on the Santa Fe Railway, which has a bank and a few stores had a daring bank robbery yesterday afternoon.

When Cashier J. A. Knight of the First State Bank, who was alone in the bank, stepped into the bank vault the door was closed and fastened. He was unable to make a statement for quite a while.

Physicians say the cashier would have been dead in fifteen more minutes.

Two thousand dollars and loose change to the amount of \$150 was taken.

The only clew are tracks on some soft ground in the rear of the bank. It is thought a hold-up man was at hand when the cashier went into the bank vault, saving the robber using force.

## 800 TO THOUSAND BARRELS A DAY

THIS IS THE ESTIMATED PRODUCTION OF THE DEVELOPERS WELL AT PETROLIA.

## FLOWS INTO THE DERRICK

It Will Be Necessary to Pump Oil, However, As the Gas Pressure Is Light.

C. W. Bean, of the Developers' Oil Company came in at noon today from Petrolia, where he went this morning to see the company's well which was drilled into the sand Saturday brought in. He says that when the drillers went to the well this morning they found the oil running over the top of the casing into the slush pit which was soon filled.

The bailer was run down into the well and when it was pulled out the oil shot up into the derrick sixty or seventy feet, flowing several minutes. The oil has flowed into the derrick in this manner every time the bailer has been lowered into the well but the flow is not continuous and there is little gas in the hole.

Driller Hammond and other expert oil men say that the well will pump from 800 to 1000 barrels per day and it is by far the best producer ever brought in at Petrolia.

All the mud has not yet been cleaned from the hole and the bailing will be continued until the hole is thoroughly cleaned.

Mr. Bean said this afternoon that a pump would be ordered at once and the well pumped. Other wells are to be drilled at once and the tract which is owned in fee simple by the company developed with many wells.

The stock in the Developers' Company is owned by Wichita Falls people and is the first big strike in the oil fields in which local people have participated.

The volume of oil found in this well indicates that the Petrolia field may become as large a producer as the Electra field.

## SIDNA ALLEN'S NEPHEW CAPTURED

Hillsville, Va., March 22.—Sidna Edwards, nephew of Sidna Allen, who figured in the court house assassination was arrested today at Lanesburg without resistance by a posse of detectives. Edwards is expected to arrive here at three o'clock this afternoon.

The arrest was made by Detectives Felts and Phauts, who have been in the mountains since Tuesday. Edwards' feet were sore and he had been unable to keep the swift pace made by the fugitives. After an investigation, Governor Mann had increased the reward for Edwards to one thousand dollars, the same as offered for Sidna Allen, the leader of the gang.

Death of W. A. Lloyd.

A telegram to T. J. Taylor, president of the First State Bank and Trust Co., Okla., announces the death of W. A. Lloyd at his home in Hobart on yesterday. The telegram also stated that the remains would reach here tonight, and that the funeral would take place from the Hill undertaking establishment tomorrow at 10 o'clock.

Mr. Lloyd formerly resided in this city and for a number of years was a photographer and undertaker. At his death he was about 50 years of age.

## GREAT DAMAGE NEAR GRANDFIELD

ONE MAN KILLED IN WEDNESDAY'S STORM AND SCORES OF BUILDINGS WRECKED.

## MANY NARROW ESCAPES

Between Twenty and Twenty-Five Residences in Grandfield Alone Wrecked.

P. C. Maricle who went to Grandfield Thursday morning sent The Times a postal card this morning saying that Joseph Logsdon, a farmer living four miles from Grandfield was killed in Wednesday evening's storm. Logsdon was caught and overtaken by the storm and stopped at a neighbor's house for refuge. The house was demolished and Logsdon was killed.

The Frederick Leader this morning gives the following list of damage from the storm in and around Frederick:

At the edge of town the wind struck the Williams & Miller and the Fox cotton gins, playing havoc with them. At the Williams & Miller gin all the smaller buildings, including the cotton house, seed house and office were demolished and their timbers piled and scattered about over a wide area, while part of the wreckage was piled up against the main building. The top was blown off the engine room and the main building moved from its foundation and so twisted as to be seriously damaged.

The Fox gin suffered in almost the same way, but not quite so severely in damages to its main buildings. Its smaller houses were blown to pieces. The main buildings of both of these gins were partly unroofed.

The wind veered about sufficiently to miss the business section and the main residence part of the town but tore a wide path of ruin through the south portion, passing out at the southeast part of town. In the south part scores of houses were blown to small pieces, others were wrecked either almost entirely or only partially. A great many of these houses were small shacks which had been moved to Grandfield from the old townsite of Eschite, in the early days and a large per cent of these were vacant. But many good houses which were occupied suffered destruction and their occupants found safety by heading a timely retreat to storm collars.

The Southern Methodist Church was in the path of the storm and was blown ten feet off its foundation, and severely damaged. The brick school building opposite was also wrenched and cracked and while it can easily be repaired, the school officials were so confident that it had been rendered unsafe, that no school was held yesterday.

Just how far the storm pursued its way of ruin could not be ascertained yesterday at Grandfield, but reports came in constantly during the day which added to the damage and made it apparent that it would take many thousands of dollars to repair the havoc done.

As soon as the wind abated, residents of Grandfield came out of their places of safety, and the more fortunate began to care for those who had lost homes and for the injured. The list of injured luckily was not large. As told above, it was on the T. P. Logsdon farm, five miles southwest of Grandfield that the storm left its greatest trail of sorrow.

Mr. Logsdon and his nephew, Joseph, were in the fields working, when they noticed the storm approaching. Mr. Logsdon started to drive his team home but seeing that he could not reach his residence, drove to the home of Mr. Owens, across the road from the field where he had been working, and found shelter there. Joseph, however, anxious to be at home in order that he might give assistance to his aunt and her children, mounted a pony and started to ride for the house. The onrushing winds came more rapidly than the pony's hoofs could travel, and the young man, realizing that he had lost the race for the house, turned into the yard surrounding a tenement house on his uncle's farm, which was occupied by Mr. and Mrs. Palmer and their children. Mrs. Palmer is a daughter of T. P. Logsdon.

Joseph was followed into the house by Palmer. The two had hardly got into the door when the storm found gathered it up in his deadly grasp. Palmer grabbed hold of his wife and children and succeeded in saving them and himself. But Logsdon did not fare so well. The wind with a mighty shake shattered the house into hundreds of pieces, and blew

# RICHELIEU FOOD PRODUCTS

UNIFORMITY in quality of food products grown in widely separated latitudes, and subject to the uncertainties of climatic conditions, is a difficult attainment and only acquired by the most exacting and insistent efforts.

No matter what difficulties are encountered RICHELIEU never fails in uniformity. This refers to every product under the RICHELIEU brand.

Occasionally some other brand may be found satisfactory one season and utterly fail short the next.

Again, in other brands may be found an occasional package with no assurance that the next will be equally as good.—the proof is against it.

In RICHELIEU products whether one can or a thousand, whether a single package or a car load, whether this year, last year or the next, you can bank on it that every article bearing the RICHELIEU label will compare with the other, like needles in a jar, or coins from the mint.

THE RICHELIEU LABEL. Beautiful isn't it? But don't mind the label. Examine the goods, open a package, pour the contents into a glass receptacle. Ever see anything more tempting? Taste it. Let the flavor linger on the palate. Can you beat it?

These are tests that make people who once enjoy RICHELIEU foods refuse to be content with any other.

Order RICHELIEU goods and smile.

## Stray Topics From Little Old New York

New York, March 22.—The woman's suffrage advocates of New York City are extremely active just at present, carrying on their fight in Albany as well as in their home city. The other day a large delegation went to Albany to urge the legislature to pass the suffrage resolution introduced some time ago. The delegates, dressed in their most gorgeous finery, intended to impress the legislators by their fine clothes and good manners, but a shocking incident, not scheduled upon the program came dangerously near upsetting the whole delegation, and throwing the delegates into hysterics.

With utmost dignity the suffrage delegates filed into the gallery of the Senate chamber while the Senate was in session. But they were not the only occupants of the gallery. Among the visitors was a little, middle aged woman, who had evidently imbibed freely, altogether too freely, of the cup that cheers. She began to address the Senators from her seat. In the gallery and her comments created quite a disturbance. The suffrage delegates were greatly mortified by the woman's action, as they were afraid the Senators might think the disturber a member of their delegation. The President used his gavel strenuously and threatened to have the gallery cleared if the disturbance should not be stopped. Finally two of the suffrage delegates, having more presence of mind than their sisters, prevailed upon the disturber to leave the gallery.

The churches of Greater New York or at least some of them, are beginning to appreciate the value and efficiency of systematic advertising. Some pastors have realized the importance of publicity for some time and have employed various and occasionally quite sensational methods to attract attention. But, in a general way, the employment of paid display advertisements in newspapers and of electric signs in the streets is rather a novelty in religious propaganda. The publicity commission of the Christian Conservation Congress, making the preparations for the organization of the Men and Religion Forward Movement planned for next month, is making good use of the advertising columns of the daily papers by running display advertisements on their sporting pages.

The members of the commission are newspaper men and thoroughly up to date in their methods. If any young man wishes to get married without letting the members of his family and his friends into the secret, it will be necessary for him to use discretion in obtaining his marriage license. Not under any condition should he give his right address. The experience of a certain young man in this city, who neglected this precaution, may serve as a warning. He was married a short time ago, but for certain reasons wanted to keep the marriage a secret for a while. He continued to live with his family, while his wife continued to live in her home. A few

days after the marriage a large amount of mail arrived at his home, offers from various furniture and house-furnishing firms, which had learned from the public marriage records the name and address of the young benedict. For a few days the young man managed to deceive his mother as to the nature and meaning of his voluminous mail, but finally, during his absence, when another bundle of letters for him was delivered at his home-address, his mother opened one of the unsealed envelopes and the working of the advertisement enclosed made her suspect that her son had become secretly married. When he came home she openly accused him and he had to confess.

In many of the large department stores a system of checking babies has been introduced to make it easier for women with babies to do their shopping. The babies are taken care of by competent nurses, while the mothers, unencumbered by their darlings, can devote themselves to the fascinating task of picking up bargains. The scheme worked fine and proved very convenient for women with babies. But the system also had its serious drawback. In the excitement of bargain hunting many of the mothers forgot all about their precious darlings and their respectives homes without having reclaimed their checked babies. In most cases, of course, this meant hysterics, a hurried trip back to the store and a tearful though happy reunion of mother and baby. But in other cases the trouble was not so easily and promptly corrected. Some times the mother

could not reach the store where she had checked her baby, before closing time and the women in charge of the baby check room had to take the babies to their own homes. Quite a number of mothers either forgot entirely that they had checked their babies or for some good reason, did not wish to remember it. At all events quite a considerable number of babies remained unclaimed and had to be turned over to some public institution. Some department store managers are seriously considering the advisability of discontinuing this checking system for babies.

Trains on the southbound track of the Second Avenue surface line was held up for more than half an hour the other day by a rather peculiar cause. When the car, which caused the blockade, had reached Twenty-fifth street, one of the passengers, a young woman, accompanied by another woman, became ill. There was some whispering and the conductor, having been taken into the secret, stopped the car and requested the other passengers to leave the car. A few moments later, an additional passenger in the shape of a boy baby, arrived in the car. An ambulance was hastily summoned and mother and child were hurried to the Bellevue hospital.

A more disappointed crowd than that which gathered the other day to watch the fire which destroyed property valued at \$25,000 at one of the up-town breweries, could scarcely be imagined. When the fire broke out, a rumor spread that the brewery employees were using beer instead of water to fight the fire. That rumor was sufficient to draw an enormous crowd to the brewery and soon the streets in the immediate vicinity were so packed that the work of the firemen was interfered with. Police reserves had to be called out to drive back the crowd and clear the way for the firemen. But, after all, water, common ordinary water and not a drop of beer was used to fight the flames and even the firemen afterwards complained—that it was one of the driest fires they had ever fought.

**Fight For Missouri Governorship.** Jefferson City, Mo., March 22.—What promises to be the hottest gubernatorial battle that Missouri Democrats have waged in years will be launched in earnest tomorrow, when Elliott W. Major, attorney general, will formally open his campaign for the nomination for governor in an address before the "Major for Governor" Club, in De Soto. Major plans to make a vigorous fight to head the Democratic ticket. He has already formed strong political alliances in every county, his friends say and they believe he will be able to win the fight.

Major will be opposed by Senator Stone and practically all of the old machine leaders. The latter have picked upon former Congressman William S. Cowherd of Kansas City as their choice for governor. Cowherd was the Democratic nominee in 1908, but was defeated by Governor Hadley.

### AL G. FIELD MINSTREL HERE MARCH 29

J. W. Pickens, advance manager for the Al G. Fields Minstrel Company, left last night for Amarillo, after remaining here yesterday on business connected with the appearance in this city of the company which he represents. The Al G. Fields Minstrel Company will appear at the Wichita Theatre Friday, March 29th. It is the largest minstrel show at present in the United States, and carries a total of more than fifty people who take part in every entertainment. It has a special orchestra of twenty-five trained musicians, and a band of thirty instruments to furnish the music for each performance. The minstrel company travels in a special train of several coaches, this train during the present season having been operated through almost every state in the Union.

On the present trip, the Al G. Fields Minstrel Company will appear in only two cities in Texas, these being Wichita Falls and Amarillo. The route on this tour includes Muskogee, Okla., Fort Smith, Ark., McAlester, Okla., Wichita Falls, Amarillo, Pueblo, Colo., and Denver, where after fulfilling a week's engagement, the present season will be brought to a close. The company has already made one trip through Texas during this theatrical season and on that trip performances were given in only six cities in the State, which will be given on the present trip, makes only eight cities of Texas in which the Al G. Fields Minstrel Company has appeared.

A special feature of the musical program of the Field Minstrel Company, said Mr. Pickens yesterday, is some inspiring music which will be rendered on one of the world's rarest instruments, a Glockenspiel, which is shaped like that instrument made famous in Grecian mythology, an Aeolian harp. This Glockenspiel is probably the first which has ever been brought to Wichita Falls, as only a very limited number have ever been manufactured. The playing of music on the Glockenspiel is a part of the regular performance of the Field company and no extra charge is made for one to hear it.

Mr. Pickens came directly here from McAlester, Okla., where he was sitting in the lobby of a hotel when news came of the terrible mine explosion at McCurtain, Okla., twenty-six miles away. Mr. Pickens is an Associated Press correspondent, and immediately joined a hastily organized relief party which set out for the scene. He arrived at the mine only a short time after the explosion, and says that no newspaper account which he has seen of the affair has adequately described the horrors of the situation. He says that without warning more than one hundred and twenty men were entombed in the depths of the earth, and that it is doubtful if more than twenty-five or thirty will escape. The explosion he said was believed to have been caused by fire damp, and hundreds of tons of earth and rock piled in front of the entrance to the mine renders the work of rescue almost impossible. Before Mr. Pickens left the scene last night, some twenty-five or thirty miners had escaped in various ways but it is his opinion as well as the opinion of experts on the scene, that the others will all perish before they can be reached by a relief party. The appearance of the Al G. Field Minstrel Company will probably terminate the present theatrical season in this city, although Marlow and Stone are in communication with the managers of several successful musical comedies and it is possible that at least one more of these shows will appear here, before the season ends.

Southern Boy in "Graustark"  
Henry King, who claims Roanoke, Va., as his home town, will be seen as Grenfall Lorry in Baker and Castle's production of "Graustark," which appears at the Wichita Theatre on March 25th.

Although Mr. King was born in

### SHE GAVE UP ALL HOPE

Physicians Failed To Help Mrs. Green, But She Finally Found Relief in Cardul.

Meetez, Va.—Mrs. J. C. Green of this place says: "I suffered with womanly troubles so that I could hardly sit up. Two of the best doctors in our town treated me, and I tried different medicines, until I gave up all hope of ever getting well. One day I decided to try some Cardul. It did so much for me that I ordered some more, and it cured me! Today, I feel as well as I ever did in my life. The pains and the trouble are all gone. I feel like another person in every way. I wish every sufferer could know what Cardul will do for sick women."

A few doses of Cardul at the right time, will save many a big doctor bill, by preventing serious sickness. It tones up the nervous system, and helps make pale cheeks fresh and rosy. Thousands of weak women have been restored to health and happiness by using Cardul. Suppose you try it. It may be just the medicine you need.

N. B.—Write to: Ladies' Advisory Dept., Chattanooga Medicine Co., Chattanooga, Tenn., for Special Instructions, and 64-page book, "Home Treatment for Women," sent in plain wrapper, on request.

Christainburg, Va., he spent most of his early life in Roanoke, his parents having moved to the latter city when he was five years old. Mr. King attended the public schools there and graduated from Roanoke College. It was while at college he became interested in theatricals and determined to adopt the stage as a profession. During his school days he was prominent in amateur entertainments and was very successful in leading roles. His first real training for the stage was obtained in stock companies, appearing in juvenile parts for three successive seasons. During the season of 1906-07, Mr. King played his first real road engagement, appearing in the juvenile lead in "The Orphan's Prayer." The following season he played the leading part in "The Devil," and last season he was with the Hackett Theatre production of "The House of a Thousand Candles."

Toledo and Burton in gymnastic novelty "The Girl and the Frog" are the feature attraction at the Lydia Margaret. Their act pleased a large crowd last night.

### AVOID HARSH DRUGS.

Many Cathartics Tend to Cause Injury to the Bowels. If you are subject to constipation, you should avoid strong drugs and cathartics. They only give temporary relief and their reaction is harmful and sometimes more annoying than constipation. They in no way effect a cure and their tendency is to weaken the already weak organs with which they come in contact.

We honestly believe that we have the best constipation treatment ever devised. Our faith in it is so strong that we sell it on the positive guarantee that it shall not cost the user a cent if it does not give entire satisfaction. This preparation is called Rexall Orderlies. These are prompt, soothing, and most effective in action. They are made of a recent chemical discovery. Their principal ingredient is odorless, tasteless, and colorless. Combined with other well-known ingredients, long established for their usefulness in the treatment of constipation, it forms a tablet which is eaten just like candy. They may be taken at any time, either day or night, without fear of their causing any inconvenience whatever. They do not gripe, purge, nor cause nausea. They act without causing any pain or excessive looseness of the bowels. They are ideal for children, weak, delicate persons, and aged people, as well as for the most hearty person.

They come in three size packages, 12 tablets, 30 cents; 36 tablets, 25 cents; 80 tablets, 50 cents. Remember you can obtain them only at our store—The Rexall Store, Fooshee & Lynch.

Basin Oil Co. Drilling  
The Basin Oil Company started drilling operations three and one-half miles east of Madlet on last Saturday and the work is progressing nicely, according to Jerry Crowley, of that city, who was a business caller in Lawton Tuesday. The Basin company is composed of Texas capitalists, Mr. Crowley being the only local member of the company. A rotary machine is doing the work and drilling is to be pushed just as rapidly as possible. An expert driller is in charge.

Mr. Crowley states that the community is strongly confident that oil and gas will be forthcoming. Five miles from this well, at Cache creek, there are strong indications of gas, an experiment in burning it several feet from shore having been successful. Oil is being used as fuel. The Basin company have fifty-five leases in the vicinity of the well which is now being drilled.

Hearing on Iowa Rates  
Washington, D. C., March 22.—The so-called Iowa rate cases, which have been pending before the Interstate Commerce Commission for a long time, came up for hearing today before that body. The complaints were filed against several of the large Western railroads by the State of Iowa and commercial organizations of Cedar Rapids, Fort Dodge and several other cities. The complainants allege that the present freight rates on interstate shipments to and from Iowa points are unjust and unreasonable as compared with the rates existing in other sections of the country.

Job Printing.  
The Times Publishing Company has more money invested in presses, type and job printing equipment than most printing plants in cities of 10,000 inhabitants, and is prepared to do printing of all kinds with neatness and dispatch. If you want good printing call phone 167.

### BALLOONIST COOK'S HAIR LIFTING EXPERIENCE

(Bowie Cross-Timbers)  
Thos. Cook passed through Bowie this week on the Rock Island, en route to his home at Fort Worth. He is the son of District Clerk S. W. Cook of Montague.

Mr. Cook, together with J. H. Wade, Jr., another balloonist of Cleveland, Okla., recently had a thrilling experience. They started in the balloon "Buckeye" from San Antonio, at 7:15 p. m., March 13, in an attempt to lift the world's record in long distance flights. After traveling in rain all night and in snow the next morning, they were forced to attain an altitude of from 12,000 to 14,000 feet, to keep from being forced to earth by snow. At 12:20 p. m., March 14, the men decided 17,000 feet was too high for the proper course. They accordingly pulled open the gas valve and began a descent. At 15,000 feet the snowfall was so heavy on the balloon that it weighed the craft down to such an extent it dropped 14,000 in about 20 minutes. The sand on hand, overcoats, provision and instruments had to be thrown out to check the balloon's speed to earth.

This plan enabled the men to make a landing that proved a safe one, in the tree tops of the Ozark Mountains in Texas county, Missouri, 25 miles from a railway station.

Mr. Cook said he was on his way to San Antonio, where he is interested in the building trade, and expects to manufacture the Cook aeroplane.

### GEORGE STEWART AND THE S. W. U.

Notwithstanding the inclemency of the weather, the inimitable George Stewart, of Chattanooga, Tenn., was greeted by a fair audience at the First M. E. Church, South, last night. His lecture was greatly enjoyed, and at the close he presented the claims of the Southern Methodist University which is being located at Dallas, and toward which the city of Dallas has given more than one million of dollars.

In the course of his remarks, however, he left the impression upon some that the church was just now beginning the work of building a great school in this state. Those who are informed knew we already have the Southwestern University, as large an institution as there is in the state, and which has furnished more successful candidates for the Rhodes Scholarship than any other school in the southwest. My predecessor, Dr. C. M. Bishop, is now president of the university, and in this week's issue of the Texas Christian Advocate, he furnishes us with the following facts: 1. The total enrollment this year runs up to the 1000 mark; 2. For the benefit of needy students, the school furnishes \$12,000. This amount is the regular income of the school outside of its current expenses. It has as rich an equipment as any school west of the Mississippi river, and is well prepared to do—and is doing—all work of a first class university, according to its classification by the General Board of Education. So far as I know no such a group of magnificent buildings can be found on the campus of any other school in the whole state—at least none worthy to write.

I merely wish this to keep the record straight, and for the information and encouragement of the people who are "new to the state," and do not know what is going on in our educational circles. Bro. Stewart knew all this, and had no intention of misrepresenting the facts; but he should have made it clear that in addition to our splendid equipment at Georgetown, the three hundred thousand Southern Methodists in Texas proposed to take a step forward and build a yet greater school at the great and growing city of Dallas. We have thirteen denominational schools in the state, and they are all doing well, but we are specially proud—and with good reason—of our Southwestern and of our Southwestern University and of Dr. Bishop its present head. J. W. HILL.

### NO CASES OF MENINGITIS AT STAMFORD NOW.

R. G. Fitzpatrick, superintendent of the Wichita Valley Railroad, returned yesterday afternoon from a trip to Fort Worth via Abilene on the Valley. While on this trip he stopped off at Stamford for a few hours, and while in that city met his friend Homer D. Wade, secretary of the Stamford Commercial Club there. Among other things they discussed the meningitis situation in that part of the State.

Mr. Wade told Mr. Fitzpatrick that the city of Stamford had suffered severely as a result of malicious tales circulated regarding meningitis there and that he desired to correct the impression that the situation was beyond control or was likely to become so at any time. In fact, said Mr. Wade, there is not a single case of meningitis in Stamford at the present time and has not been since last Sunday. During the last forty days, there has been a total of fifteen cases with fifteen deaths, stated Mr. Wade, and the numerous reports which have been circulated throughout Northwest Texas indicating that there have been more than fifteen cases of meningitis in Stamford are false.

My motto: Miller sells it for less.

This Date in History

- March 22, 1707—Meeting of the general Presbytery at Philadelphia. 1817—Gen. Braxton F. Bragg, noted Confederate commander, born. Died Sept. 27, 1876. 1819—State bank of Illinois incorporated with four branches. 1861—Louisiana ratified the Confederate Constitution. 1870—William H. Holden, governor of North Carolina impeached and removed from office. 1891—Roger Q. Mills elected United States senator from Texas.

The straw hat and the straw vote season will strike in about the same time.

Archer county is having a soil survey of the county made at the expense of the government, and the Times is informed that six government surveyors have been at the work for the past month or more. A soil survey, as the Times gets it from J. W. Campbell, special agent of the Agricultural Department of the National government, consists in making tests of the soil and determining what it consists of, and what crops they will produce best. Also, to show that if the soil needs to be enriched by the use of some kind of fertilizer, the kind that can be used without injury to the soil. Maps of the county will be made showing the results of their work. Archer county, in showing this spirit of enterprise and progress is to be congratulated, but what that county has done others, perhaps can do by making the proper effort. The Times will make the suggestion that it might be a very good idea for the Chamber of Commerce to take this matter up and make a soil survey of Wichita county.

SHERMAN METHODS EMPLOYED IN MEXICO

(Continued from page 1)

Aside from a brisk engagement at Huamula, where a party of Zapatistas puts up a fight against the advance columns of the Federals, there have been no important encounters. The Council of Administration of the Society of the American colony today prepared a resolution for presentation to Tiboltejo Calero of the Foreign Office, offering the assistance of that organization in prosecuting authors of untruthful and dangerous reports of conditions in the capital, transmitted for publication in newspapers of the United States. The preamble of the resolution cites published interviews and communications from correspondents wherein it is made to appear that the situation in the City of Mexico borders on a condition of anarchy, that the doors of houses are barricaded and their roofs provided with machine guns; that rioting and fighting is occurring in the streets of the city and that the population is crying "Death to Americans."

The resolution declares these to be "pure fabrications, entirely void of the least basis of fact or reason, and that the authors thereof well knew them to be such when they gave them utterance."

Orders from the Department of Communications have been transmitted to newspaper correspondents in Puebla advising that no news dispatches giving information of the movement, number of location of Federal troops will be transmitted.

Local authorities in the State of Vera Cruz are trying to trace a band of robbers who attacked the home of a French subject, Count Lafette, at Coatepec, carrying away several hundred dollars in gold. Count Lafette, who occupied an isolated place on the outskirts of town, has been engaged in literary work. The French Minister has interested himself in the case.

Rio Grande, hacienda Fuerte and Sombrerete, in the State of Zacatecas have passed into rebel control in the past two days, according to reports from the State capital.

That no man is worthy to represent the people in any capacity who denies their right to know and conceals from them the sources from which money comes to aid in the success or defeat of any proposition or candidate for office before the people. But Col. Walters has been trained in a different school. He has been for many years the Texas representative of the Pullman Car Co., and the representative of the brewers and big liquor interests and it will hardly be contended that these interests felt very much regard for the people as a whole, and Col. Walters' silence on the matter of campaign contributions, though a Democratic doctrine, was no more than was expected.—Wichita Point Chronicle.

In the event Col. Walters triumphs in his ambition for a seat in the United States Senate, it means simply this: That the people of Texas are not unlike the people of some other states, and have come to the conclusion that money for campaign purposes can be contributed in any amounts and used at the will and pleasure of the campaign manager as he sees proper and that no one will have the right to question how or for what purpose this

### GREAT DAMAGE NEAR GRANFIELD

(Continued from page 1)

him with a mass of wreckage about 100 yards east. There he was picked up after the storm had passed, fatally injured. A timber had struck him in the back, ramming a great hole in his body. He was bleeding from a large gash under his jaw, his jaw bone was broken, while blood running from his mouth showed that he had been injured internally. He lived about an hour after his injuries. None of the other occupants of the house were injured. Joseph Logsdon was 21 years old and was an orphan, making his home with his uncle.

J. H. Huff was hit on the head by a flying timber, but was not seriously hurt.

James Russell, son of C. H. Russell, of Grandfield, was injured while he and his father were trying to care for their horses. The boy was blown down between the horses. The barn was demolished and one of the flying timbers from it hit the boy in the side. His injuries are not serious.

Two children of J. F. Hatfield, of the Spring Valley neighborhood, were slightly injured when the Hatfield home was demolished.

A negro woman on the farm of Carl Cassidy, eight miles west of Grandfield, was injured. It was reported in Grandfield during the day that a negro had been killed on the Cassidy farm or on one of the farms in that neighborhood, but this report could not be verified and it is not believed to have been founded on fact.

In two instances fire followed the wind and completed the work of ruin.

When J. S. Thomas and family living in the northwest part of Grandfield, fled to their cellar, they left supper on the table and fire in the cooking stove. The storm overturned the house and when they emerged from the cave they found the house in flames. It was totally destroyed. The insurance on this house had expired 12 days before and had not been renewed and house and contents were a total loss.

The house of R. A. Rasmussen, a half mile south on two miles east of Grandfield, was blown down and burned in the same manner.

On the J. N. Huntington farm, northeast of town, the house was blown away.

The Robert Brown house, southwest of Frederick, was destroyed.

J. D. Townsend's barn, west of Grandfield, near the Spring-Valley school house, was blown away.

The W. W. Gilbert cotton gin, southwest of Grandfield, was destroyed.

At the Simmons gin the damage was confined to the destruction of a pump house and the twisting of the cotton house.

A large section of the roofing was torn from the sheds of the Southwestern Lumber Company.

A house belonging to Harry Mar-

le, near the Williams & Miller gin, was wrecked.

The tenant house on the J. N. Huff farm was blown away and the Huff residence damaged.

J. F. Harrison's house was blown down. The home of J. C. Margus was wrecked.

The house on the Marshall Getty's farm was blown from its foundation.

The Spring Valley schoolhouse was wrecked.

At the Victor hotel, the guests were eating their supper when the storm struck. The windows of the dining room, including two large plate glass ones, were blown in and there was a wild scramble on part of the guests for a place of safety.

Some of them found their way to the storm cellar, while others took refuge in the office. The hotel is owned by Dr. Cherry, of Mangum, and is conducted by Mr. and Mrs. J. P. Miller. A slaughter house on Mr. Miller's farm, north of town, was blown away and the farm was swept clean of fences and sheds.

It is impossible to tell how many houses were destroyed in the south part of Grandfield, because many of them were blown so far away that their former location to make the count. Residents of Grandfield told a Lead-reporter yesterday that probably fifty houses had either been demolished or damaged. That part of town is strewn with timbers and wreckage.

The E. P. Sessions home was demolished.

Three houses belonging to H. H. Parks were all blown away. They were all unoccupied.

The Winchell home was blown from its foundation and wrecked, its contents being shattered.

The James Boyles house was unroofed.

The E. P. Stewart home was damaged.

Edward McCall's house was blown away completely.

R. H. Opdike's rooming house was unroofed and his bilposting plant suffered similarly.

Several heavy timbers were blown through the house of George Ballor. A vacant house in which Mrs. Goodloe had her household goods was blown away and her goods scattered and carried away.

The R. A. Rasmussen barn was demolished and his residence blown from its foundation.

The Gochler schoolhouse, three miles south of town, was blown from its foundation and wrecked.

A house belonging to R. G. Spaulding, of Lindsay, one mile east and two miles north of Grandfield was demolished. The Spauldings were not at the house. Their furniture was carried away by the wind.

H. H. Parks was on his farm near the Spaulding place when the storm came. He was blown over a fence and vainly endeavoring to find his way to the cellar in the storm, crawled into his orchard, where he lay until after the storm passed. His automobile, which had been standing in the road, was blown into the orchard.

The residence of R. A. Edmundson on his farm southwest of Grandfield, was demolished and carried away. Mr. Edmundson and his family were caught in the road and lay on the ground until the danger was over.

E. A. Barrett, Mrs. Barrett, their two children and a negro servant were driving home when the wind overtook them. They jumped out of the wagons with the children in their arms and ran to the side of the road. The wagon was torn to pieces and with one of the horses, was blown into the creek. None of the party were injured.

W. W. Wade, residing two miles north and three miles east of town, suffered the loss of his house and barn. When he went to what was left of the barn after the storm was over, he found part of a timber to which his horses had been hitched gone, but that part to which the horses had been tied had been left and the horses were still standing there securely tied and unhurt.

The home of A. M. Clark was torn from its foundation with such violence that it broke into four pieces.

In the business part of the town the damage was done to awnings and plate glass windows. Awnings were blown down at the Parker, McCinnel & Company store, and in front of the Lear drug store, and the building formerly occupied by the Teeters drug store. A window was broken in the Lear store. Across the street the plate glass window in the Smith and Mapel building was blown in.

On the William Linkugel farm, a mile east and half a mile north of Grandfield, the house was blown ten feet from its foundation.

The A. N. Chambers house, two miles west and two and a half south, was blown to splinters.

The C. C. Clark house, 1 1/2 miles south of town, was blown away.

The Kerr home southwest of town, was blown away.

Joseph Herdick's home southwest of town, was wrecked and carried away.

The Robert Brown home, five miles southwest, suffered the same fate. The Center Point schoolhouse, three miles east of town, was wrecked.

The barn of J. D. Townsend, southwest of Grandfield was blown away.

Samuel Buford, residing seven miles southwest, emerged from his storm cellar to find his house gone,

#### POLITICAL ANNOUNCEMENT

The following rates will be charged for announcements appearing in The Daily and Weekly Times:

District Offices ..... \$15.00  
County Offices ..... 15.00  
Precinct Offices ..... 10.00  
City Offices ..... 5.00

These rates are cash and must be paid in advance.

(City Election, Tuesday, Apr. 2, 1912.)  
For City Attorney:  
J. M. BLANKENSHIP  
WM. BONNER  
FRED W. HOUSEHOLDER

For Mayor:  
DR. J. M. BELL

For City Marshal:  
R. V. GWINN,  
TOM ROARK,  
A. J. HUMPHRIS  
C. P. YEARY  
HENRY SPARKS.

For City Tax Assessor and Collector:  
HARRY F. ROBERTSON.

For City Secretary:  
V. G. SKWEN,  
W. A. (Arthur) McCARTY.

DEMOCRATIC PRIMARY.  
All nominations under this heading are subject to the action of the Democratic primary.

For District Attorney 30th Judicial District:  
S. M. FOSTER

For Representative 10th District:  
E. W. NAPIER  
PATRICK HENRY.

For District Clerk:  
ALEX KERR.

For County Judge:  
C. B. FELDER  
re-election.  
H. A. FAIRCHILD

For Sheriff:

JOHN GLEN  
W. J. HOWARD.

For Constable Precinct No. 1:  
R. T. (Tom) PICKETT,  
HENRY M. ALLEN

For County Commissioner Precinct 1:  
JOHN P. JACKSON.

Jefferson Palmre lost his home. Charles Cochran, residing two miles east and two miles north, suffered the loss of his barn.

The house on the O. E. Maple farm, southeast of town, was demolished. It was occupied by Mr. and Mrs. Thomas Gunn. This house was uninsured. Mr. and Mrs. Gunn took refuge in the storm cellar, and while they were standing there a two by four timber was driven through the wall of the cellar and into the ground between them, leaving them uninjured.

Telephone lines were badly damaged. Many of the houses blown away had telephones in them. O. E. Mapel, owner of the exchange, made a trip to the south part of town yesterday afternoon and gathered up five telephones which had hung to the wires when the houses had blown away.

A revised count of the oil derricks at Electra shows that 117 were blown down in Wednesday evening's storm.

Haddon Chambers, author of "Passerb" is at work on another play.

One of the new productions in New York is to have a red-headed chorus.

George M. Cohan is writing a playlet for the use of Tom Lewis in vaudeville.

Roehatch's Mineral Water, is highly recommended by physicians and patrons who have tested its merits, for indigestion, catarrh of the stomach, kidney and bladder trouble. This water stimulates the secretion of the stomach, increases digestion and favors a more complete absorption of the food and prevents the action of germs that cause typhoid and other infectious diseases.

This water can be purchased at the store or delivered in jugs or cases. This well is located one mile south of Alamo school building in Floral Heights, two deliveries daily morning and afternoon. G. J. Rohatch, Owner. Phone 1601-1'long-4 shorts.

Miss Constance Bryan, who has been attending Stamford College passed through this afternoon enroute to her home in Sherman.

# Cottolene

is Sunshine in the Kitchen-

Plenty of sun and air have cured more invalids than have the doctors. *Cottolene* is a sun-kissed product. It comes from the cotton fields of the Sunny South, where the choicest seed is selected, the oil extracted and refined, making a wholesome, healthful, vegetable product that makes "sunshine food."

Lard, on the other hand, never has, never can be anything but hog fat.

You take chances when you use it. It may not injure you; but it may cause indigestion and other troubles.

*Cottolene* makes food that any stomach can digest, contains no hog fat, and is the most healthful and economical cooking fat on the market.

Made only by THE N. K. FAIRBANK COMPANY

More Economical than Butter or Lard—Use 1/3 Less.

## Wichita Theatre ONE NIGHT Monday March 25th

# GRAUSTARK

AN IDEA, DRAMATIZATION OF THE FASCINATING FICTIONAL STORY OF LOVE AND ROMANCE BY GEORGE BARR McCUTCHEON

(A LOVE BEHIND A THRONE) PRESENTED WITH A CAST OF NEW YORK PLAYERS

MOST GORGEOUS & MASSIVE PRODUCTION ON TOUR BY THE AUTHOR OF "BREWSTER'S MILLIONS"

SEATS Saturday at Foosee & Lynch's--Prices 25c to \$1.50

### TEXARKANA PAPER ON GRAUSTARK

Four States Press, Texarkana, Texas. One would think that the public would begin to tire of "Graustark" by now, but the attendance at both matinee and evening performances yesterday of this dramatization of Barr McCutcheon's book of the same name, at the Grand Opera house proved otherwise.

Of course, we know that the play is frankly impossible as a slice out of real life, but then it is so romantic. And that is what the feminine portion, largely in the majority, of the audience revelled in, especially in the emotional scenes where a liberal display of handkerchiefs was always in evidence.

And these scenes were very effective in the hands of Miss Janet Waldorf as Yelva, Princess of Graustark, who possesses a great attractiveness as a romantic actress, her voice, full and deep being one of her strongest assets, and that is probably why the character of this mythical princess appeared more life-like than usual; Miss Waldorf has a personality that grows upon one until she wins her audience from passiveness during the

first scenes of the drama to sympathy and liking in the last that comes not alone from her acting, which is good, but also because of the woman behind it.

And Miss Waldorf's support was good. Henry King playing a very pleasing opposite as Grenfall Lorry, despite the fact that his voice was annoyingly husky, possibly caused from a cold.

Van Sheldon, as his friend, Harry Kingish, was delightfully fresh and boyish, giving one of the best characterizations in the play. No less charming was Miss Allene Durano, as Countess Dagmar, who added life to the whole performance. She was ably seconded by Miss Louise Huff, dainty and pretty as peasant and countess.

Joseph C. Gonyea, as Baron Dan-gloss, won his share of applause from his audience, while Louis Epstein succeeded in making himself thoroughly disliked as the villain, out from bad acting, however.

Another good bit of work was given by Joseph Belmont as Sitsky, the American bell boy at the hotel.

Women May Decide the Issue. Santa Cruz, Cal., March 22.—Arrangements have been completed for the holding of a special election in this city tomorrow to vote on the expenditure of \$120,000 for school improvements. More than ordinary in-

terest attaches to the election, as women will be qualified to vote for the first time here. The registration of the fair sex is heavy and the result of the election probably will depend on their judgment.

### FROM HOT SPRINGS

Famous Remedy for constipation, Sick Headache, Sluggish Liver, Etc.

Hot Springs, Arkansas, is the world's greatest sanitarium. There scientists study, experiment and investigate, constantly striving to give to the suffering a better remedy for every disease.

For constipation, sluggish liver, for stomach misery, sick headache, dizziness, biliousness or that blue, down and out feeling, every resident of and every visitor to Hot Springs knows that Hot Springs Liver Balm is the best remedy in the world.

If you want a perfect laxative that will keep your bowels in fine condition and make your blood tingle with health, get a 25 cent box of Hot Springs Liver Balm today. You will quickly learn why tens of thousands of people from Maine to California prefer them to any other similar remedy. Stonecipher-Smith sell them. Hot Springs Chemical Co., Hot Springs, Ark.

### MASONS HAVE A JOLLY GOOD TIME

Two Candidates Take the Third in a Lunch and Smoker Followed By Toasts Are Enjoyed.

The initiation of two candidates for the third degree in Masonry brought nearly one hundred members and visitors to the Masonic Hall last night; and at the conclusion of the work a luncheon and smoker was enjoyed.

The candidates taking the third degree were Messrs Hosea C. Dakan and Z. A. Jetar.

After the lunch had been served several toasts were offered, Dr. J. M. Bell acting as toastmaster. Judge Morris of Burk Burnett was the first to be called upon, followed by C. J. Cox on "How It's Done in Old Virginia." T. C. Thatcher responded in a neat after-dinner speech on "Food Victuals and Grub," and proved himself a pastmaster in dealing with his favorite subject. In fact, opinion was about equally divided as to whether Mr. Thatcher should be placed in the class with the Dr. Tanner, whose reputation of a 40-day fast made him famous or with Dr. Wiley, the great pure food expert. It was finally decided that he was a mixture of both—in that he could do without food longer and consume more of it when opportunity afforded and exhibited rare judgment in selecting only that which was the best.

The two newly made Masons, the gentlemen who showed such rare sticking qualities in making the journey on the backs of the untamed Angora, that is the property of the lodge, spoke entertainingly on "Do I Know the Secrets of a Mason?" and "How I Was Most Impressed."

Several other short talks were made after which a few old-time Masonic songs were sung.

The out-of-town visitors were as follows: W. C. Vickers, Rosebud; W. C. Walker, Fort Worth; J. H. McMillan, Childress; W. O. Williams, O. A. McWhirter, T. B. Washburn, W. C. Morris, T. R. Bruce, Burk Burnett; J. H. Grace, Olney; George Wash, Amarillo; H. J. Bryan, Waurika, Okla.; C. O. Cox, Wharton, Va.; W. J. Calver, Chickasha, Okla.; J. Paul Sweetwater, E. Crane, Altus, Okla.; C. S. Irwin, Grand Saline and others who did not register.

### COUNCIL MET LAST NIGHT

MAYOR TELLS COUNCIL WANTS LAST MEETING TO BE HELD UNDER OLIVE BRANCH.

### COUNCILMAN WANTS ROW

Half In Jest and Half in Earnest, Schedule for Final Meeting is Discussed.

Mayor Noble wants to complete his term as mayor without any more rows in council. He told the members of council this at their meeting last night, a big half in earnest and just half in jest. Contrasted with the Mayor's expressed wish Councilman Hughes declared that he "wanted just one more row." Mr. Hughes said this more in jest than in earnest, but just to show that he was not altogether joking he announced his intention of calling up the proposed ordinances regulating public utilities corporations which has probably been the subject of more discussion and difference of opinion among the members of council than anything that has come before them.

The Mayor said that if there was any way to keep this ordinance from being brought up at the final meeting of the present council that he was going to attempt to prevent it as he didn't believe anything would be done with it anyway. Judge Hughes was just as certain that he would bring it up if there was any way to get it before council.

All the members of council were present at the regular meeting last night. The special committee which was sent to Fort Worth to investigate the street lights made a partial report but asked for further time in which to complete their investigations and to make a final report. This was granted.

Owners of property situated on the west side of Ohio avenue between Seventh and Eighth streets asked council to take some steps to stop the jarring of their buildings by the vibrations from the engine at the Citizen Light plant. It was claimed that the vibrations from this engine which is located in the alley shook all the buildings in the block. It was reported even that goods had been jarred from shelves in the stores and that in some of the offices the tenants claimed that the jarring made writing difficult.

The property owners were informed that the city had no ordinance under which the alleged nuisance could be reached. It was the opinion of some that the jarring resulted from all the foundations of the buildings in the block being connected. It was suggested that if the foundation of the building in which the engine is located be separated from the other buildings the jarring would stop. It is understood that this has already been done.

A bill from the Hanover National Bank of New York for \$2.76 for the collection of interest on bonds was rejected. Other bills were allowed.

For the past several months the council has not allowed full amounts of the bills presented by the Wichita Falls Light and Water Co. for street lights. The company has refused to accept warrants allowed by council. It was agreed that all the bills of the company be audited at the next meeting so that the company would know what the city would pay and could take what action it saw proper. It is probable the company will file suit for the collection of the full amount of the bills rendered.

Something Good for Wichita Boys. Bonham, Texas, March 22, 1912.—You remember how cold it was last fall, I suppose it was cold in Wichita Falls, it was very cold here. There were about 500 boys in this county which were in hard shape. They did not know just what they were going to do. They were besieged on all sides and there did not seem to be any escape for them. They were about to be robbed of about \$10 apiece, when a good Samaritan appeared on the scene. Although many did not think so at first. However, it did not take long or them to find out, for as quick as one was saved he would tell others and in a very short time the whole 500 boys were saved \$10 each on a suit of clothes. Now this same good Samaritan is now in Wichita Falls and is going to the boys and ladies gentlemen he gave the boys of Bonham, Sherman and a dozen other places where their stores are located. Now do not forget they will save \$5.00 to \$10.00 on each suit, will guarantee a fit, the workmanship and the goods. If you have not already taken this opportunity, now is the time to call and see them for they have just received their spring shipment of speckled Easter patterns; look in window for them. Remember they are going to give away a suit of clothes absolutely free; for particulars call on

STIMMON & ANDERSON. One price tailor—the good Samaritan across street from postoffice.

Rebels Steal Texas Cattle. By Associated Press. Austin, Texas, March 22.—Reports have reached here that in the past ten days several big bunches of cattle in Presidio and Brewster counties have been stolen and driven into Mexico, presumably by the revolutionists. Rangers report much stealing of a general nature. It is said the greater portion of these counties are without sufficient protection.

**Iowa Park Notes.** The funeral services of Mr. John Cunningham were held this morning at 10 o'clock in the Methodist Church. Rev. H. B. Johnson conducting the services. Mr. Cunningham was killed on last Monday at his home at Fort Arthur, by the train while driving in his buggy. Both legs and one arm were cut off. Mr. Cunningham was a son-in-law of Mrs. Mattie Parker of this place and was married less than one year ago to Miss Jessie Parker on her graduation from the Mary Immaculate school at Wichita Falls. Interment took place at the Iowa Park cemetery. Mrs. Walter Tyson of the Falls is the guest of her mother, Mrs. W. L. Jaeger. Miss Childers of the Falls is visiting Miss Freda Conig. Rev. and Mrs. Clements of Oklahoma, were visitors in the Park Sunday. Grandma Cottrell who was stricken with paralysis last Saturday is reported better. "Ten Nights in a Bar Room" was presented here last Tuesday night by Ellers' Stock Company before a large crowd. Grandma Smith, father of Mrs. W. P. Dooley has been on the sick list or some time. John T. Dempsey of Scranton, Pa., representative of the

## URGES ALL WILSON MEN TO JOIN IN PETITION

to the Democrats of Texas: In harmony with the spirit of the address of Governor Wilson, and that every Democrat in Texas may certainly be given opportunity for expression, as between candidates for the democratic presidential nomination, we wish to emphasize the importance of the greatest possible publicity of the memorial recently addressed to the Democratic State Executive Committee, by friends of Governor Wilson, asking for a presidential preference primary.

We urge all "Wilson for President" clubs, other democratic organizations and individual democrats, who favor a presidential preference primary, to, at once, join us in our appeal to the Democratic State Executive Committee for favorable action on "Our offer and pledge to furnish one-half of the judges and clerks required for the holding of this primary, without cost, or to furnish upon the same terms whatever other reasonable quota of such judges and clerks as may be apportioned to us, as between other candidates."

Newspaper reports say that the Democratic State Executive Committee will meet March 30th, when this matter will doubtless be considered, consequently, prompt action is imperative.

In an address delivered at Brooklyn March 9th, when speaking of the "popular vote," Governor Wilson said: "I am not afraid of the judgment so expressed if you will give men time to think, if you will give them a clear conception of what they are to vote upon, because the deepest conviction and passion of my heart is that the common people, by which I mean all of us, are to be absolutely trusted."

CATO SELLS, Chairman Wilson State Executive Committee.

**Iowa Miners May Strike.** Des Moines, Ia., March 22.—The joint conference of Iowa coal mine operators and miners assembled to-day to discuss the question of a new wage agreement to come into effect when the present agreement expires on April 1. The Iowa miners are independent of the negotiations that are being conducted for a new interstate agreement between the bituminous miners and operators of western Pennsylvania, Ohio, Illinois and Indiana. At the same time their demands are virtually the same and it is believed that if a new interstate agreement is arrived at it will be made the basis for a similar agreement to apply to the Iowa field. Failure to reach a satisfactory agreement by the end of this month probably will be followed by a general strike of the Iowa miners.

The government of Uruguay plans to make the telephone business of the country a state monopoly.

## Some Reasons Why the People of Wichita Falls, and Wichita County, Should Insure With the Wichita Southern Life Insurance Company

- 1st. It is safe, because it puts up the same percentage of reserve that all old line companies put up, and therefore, affords the same protection.
- 2nd. The laws of Texas make it impossible for a policy-holder to lose one cent in an old line life insurance company.
- 3rd. Our assets are all new and up to the highest standard; no worthless paper has accumulated, as could be the case with older companies.
- 4th. Our risks are all up to the highest standard, having recently passed a very careful examination. Our death rate will naturally be very low for a number of years. Have not had a single death since organization.
- 5th. Our Capital and Surplus is greater in proportion to business in force than nine-tenths of the companies doing business in Texas or elsewhere; greater even than some of the largest companies in the world.
- 6th. There are approximately one hundred good citizens of this county interested in the Wichita Southern Life Insurance Company as stockholders, many of whom are customers of yours in your line of business.
- 7th. Your money remains at home; is loaned and invested in this territory, and in the ordinary channels of trade, drifts back to you.
- 8th. The Officers and Directors of the Wichita Southern Life Insurance Company, are men whom you know to possess honor, integrity and business ability. These men would not permit your dependent ones to suffer the loss of your insurance, even were it possible under the State laws.
- 9th. The Wichita Southern Life Insurance Company has on deposit with the State Treasurer of this State, gilt edge securities amounting to \$120,000.00 for the protection of policy holders.
- 10th. Our policies are as good as the best.

Wichita Southern Life Insurance Company

## A Continuance of the Great Economical Sale at Miller's

Being greatly encouraged with the patronage I have received in this sale, and seeing the people of this town appreciate good goods at low prices—my object at present being more to get acquainted, and get myself before the people rather than the profit.

I have decided to continue this sale another week.....

You will still find on sale \$20.00 suits at \$15.00, \$18.50 at \$13.50, \$17.50 at \$12.50, \$15.00 at \$10.00, \$12.50 at \$8.50.

Ladies' Shoes, Nu-Buck Pump worth \$3.50, my price \$2 98  
Ladies' Shoes, Black Suede, Pump, worth \$4.00, my price \$3 25  
Ladies' Shoes, 2 strap Canvas Slipper, worth \$2.50 my price \$1 98  
Men's low quarters, tan and gun metal, worth \$4.00 \$3 50  
Men's low quarters, canvas, leather trimmed, cheap at \$2.00 my price \$1 50  
Men's Elk work shoes worth \$3.00, \$3.25 and \$3.50 at \$2 75 \$3 00 and \$3 25  
Misses Shoes, all kinds in low quarters and high top, in tans, gun metal, and vel. All at bargain prices.  
Boys' Shoes, low quarters and high top, lace and button, in tan and gun metal. At a great saving to you.

I still have a few shoes on sale that are off a little in style, and some on a narrow last, all good serviceable shoes; the Hamilton Brown make; many of them at less than half factory prices. I carry a full line of hosiery for men, women and children. Ladies' white, black and tan, silk, the 65c kind at 50c; the \$1.00 kind, this sale 93c. Men's 35c silk hose at 25c; 45c at 50c. Also a fine line of cheap hosiery in cotton and linen ranging from 5 to 25c a pair. All kinds of underwear, piece suits and union suits from 25c per garment and up. Work shirts and dress shirts, hats, overalls and a splendid line of new ties just received, all at cut prices. Come in and be convinced; you will always receive courteous treatment. I appreciate your business, and will always aim to please you in every respect, as to quality and price of goods.

My motto—"Miller sells it for less"

## KLAUS GOT DECISION OVER JACK DILLON

Fight Was One of Roughest Ever Seen in San Francisco Ring

By United Press. San Francisco, Cal., March 23.—I one of the roughest fights seen in San Francisco ring, Frank Klaus defeated Jack Dillon this afternoon, being awarded the decision at the end of the twentieth round.

It was a buffing, heeling and wrestling match all the way through, Rederee Polish becoming so disgusted with the tactics of the men that he permitted them to break every rule known in the Queensbury code, although in the early part of the fight he cautioned both men a number of times. Dillon started off like a winner, easily taking the first two rounds. Klaus, however, refused to stop and forced in almost every round. He did his best work at close range, hammering Dillon about the body with white mitts, scuffed at long ONLY 50 CENTS

## That's All It Costs to Put Your Bad Rebellious Stomach in Fine Condition

In just five minutes that distressing lump will pass away if you take one or two little MIONA tablets. It's really a crime for any person to go on suffering from an out of order stomach because such a condition leads to blood poison, causes dull eyes, sallow skin, pimples, blotches and unsightly blemishes. Why not get rid of indigestion, sourness, gas, nervousness, biliousness? It's easy enough. MIONA stomach tablets banish all stomach misery, or money back.

## Eternal Hustle

won't bring success unless systematically directed and accompanied by sane thinking. Calm, clear, brain-work—the kind that not only sees but comprehends; not only plans but executes—that's what wins "first prizes." Brains work best only when properly fed.

## Grape-Nuts

made of whole wheat and barley, contains also the phosphate of potash (grown in the grains) used by Nature in rebuilding brain and nerve cells used up by every-day work—and worry. Stop worrying, eat Grape-Nuts regularly and the hustle comes naturally and it is followed with successful work.

**MAN ON THE BOX**  
HERE TOMORROW

For Matinee and Night Performance  
Bert Leigh and a Strong Supporting Company.

The Dorothy Reeves Company give way to "The Man on the Box" at the Wichita Theatre tomorrow, at both matinee and night performances. "The Man on the Box" was booked here some time ago, but owing to the meningitis scare was cancelled after the sale of seats had been opened and the prospects good for a most successful engagement.

"The Man on the Box" is one of the cleverest of the modern comedies and one of the prettiest love stories ever written. It will be produced here by Bert Leigh and a strong supporting company, the members of which are better perfect in their parts and well qualified to bring out the best that is in the play.

Lovers of good clean comedy will be more than pleased with "The Man on the Box."

**Instead of going to the theatre make the theatre come to you**

That's better than going out on a stormy night, or not getting good seats, or sitting out a show that is tiresome in parts—it's better no matter how you look at it.

And you can easily do it if you have a Victor. That gives you an all-star performance right in your own home—front seats, and a program of your own making that starts whenever you are ready.

Why not come in today and hear the Victor and find out how you can easily own one? Victors \$10 to \$100. Victor-Victrolas \$15 to \$200.

**The Al G. Field Greater Minstrels.**

Indications are that Al G. Field, the favorite minstrel man, will receive a great ovation upon his annual appearance here. So favorable are the reports of this year's production that a packed house is predicted for the performance here.

The Greater Minstrels, with Field at their head, appear at the Wichita Theatre Friday night, March 25 are Bert Swor, John Healey, Governor Bowen, Harry Shunk and Nick Glynn are the comedians. Swor's inimitable work is a "Revolution" in minstrelsy. No minstrel in years has been able to reach the perfection in dialect, dancing and singing that seem to come so easy to Swor, Healey, Shunk, Bowen and Glynn are old members of the Field company.

The electrical scenic effects and stage accessories and embellishments are of the high class as in all Field productions, though the veteran has far surpassed his other productions in those features. The singing is truly beautiful in both the choral and solo lines.

In this, his twenty-sixth tour of the country, Al G. Field has what is said by all critics to be the best production of his long career on the minstrel stage. It has been called his masterpiece and the perfection of the art of minstrelsy.
