# ITS THEORY **WAS ERRONEOUS**

WAYS AND MEANS COMMITTEE FINDS SERIOUS FAULT WITH TARIFF BOARD'S REPORT ON WOOL TARIFF.

## REPORT IS FRAGMENTARY

for Guidance In Tariff Legislation.

Washington, D. C., March 27. to Congress on the wool schedule roceeded upon an entirely erroneous ory and that its report was "untenable" is the conclusion of the ocratic members of the Ways and Means Committee of the House set forth in a report prepared by Representative Underwood, chairman of the committee, in connection with the re-introduction of the wool bill and proper manner. This analysis pleading a 20 per cent ad valorem duty on raw wool.

This bill, which after slight revision in conference last summer, committee is constrained to present was vetoed by President Taft, who gave then as his principal reason for exercise of the veto power that Tariff Board had made no report on the subject. Last December the Board reported and the democratic members of the Ways and Means Committee, after an analysis of this report, re-introduced the old bill claim ing that there was nothing in that

report to justify any change.
" Summerizing the conclusion committee, Chairman Underwood

"A careful and painstaking analysis of the wool report of the Tariff Board dictates conclusions as fol-

"The theory of applying tariff duties according to the difference in this it says: the cost of production in this and in "The view foreign countries, upon which the for tariff duties is found by compar-board has projected and prepared its ing money costs of production, rests upon the opinion that money costs tenable. Furthermore, if this the ory could have been systematically and carefully applied, it would not have afforded trustworthy results for countries. For instance, if it be asguidance in preparing tariff legisla- sumed that if a given unit of a cer-

The board's report is fragmentary and incomplete, and rests on an incorrect statistical basis. Hence it has no claims to confidence for the results set forth therein, even should the reilability of the theory of the cost of production be conceded.

"Those persons who are willing to overlook the lack of theoretical endness and of statistical accuracy will find the data of the report too fragmentary and incomplete to admit of conclusions with reference to rates of tariff duty. Even under the most favorable interpretation of the report, conclusions as to duties can be reached for only a few paragraphs it is not possible to formulate definite conclusions, because the figures vary widely, and seriously lack uniformity and comparability. So much is this the case that justification is apparently afforded in the report for rates that are in conflict with one another. It is thus seen that the report leaves the question of the tariff duties on wool as much unsolved as before the Tariff Board was formed.

"So far as conclusions can be drawn from the beard's report, it furnishes nothing to justify any bell's hands following Edwin Hawley's change in the rates proposed in the death, but had consented to rema present bill

"In making the computations from which have resulted the rates as justified by the Tariff Board's data, the most expensive and difficult conditions indicated by the data as at York Central lines west of Buffalo, tending production have been employed with a view to being more as probable successor of W. T. Brown, than just in the conclusions. The president of the New York Central, necessity of protections to equalize the difference in the cost of production beyond the rates carried by this bill exists in but few instances, and these are in all probability the result of high costs which have been presented by the board and used in the

sion and H. R. 22195 to this session no intentional provision was made for protection, the endeavor being to reduce and adjust rates with a yiew producing the largest amount of venue consistent with the proper consideration of the consumer. It is believed that the rates of this bill A few weeks ago Mr. Allen suffered approach very closely, at least, to a nervous shock, being caught in a the best revenue producing points, and that rates should, if enacted into law permit such quantities of imports as will effectively regulate estic prices. Such competition would be an important service to the people, as it would encourage increasmaking more nearly nermal the con-ditions of supply and demand. The report of the Tariff Board, so far as it admits of conclusions, shows that the rates which meet the consumer's

needs also sufficiently satisfy those of the producer."

After reviewing the Democratic attempt of last year to secure revision of the wool schedule and the President's veto, the committee quoted the report on the original wool bill to the effect that "it would be trifling with the people to give further consideration to Republican counsels of more delay in this matter.'

"Notwithstanding this conviction," the report continues, "the Democrat ic majority of the House of Representatives, impatient to respond to the demands of the people for the speedy revision of a schedule of in defendsible rates, was forced to de-Does Not Afford Trustworthy Results lay further effort to respond to the protests of the American people."

The message of the President submitting the report of the Tariff Board and his recommendations that Puat the Tariff Board in its report the Board's findings be used as a basis for a reduction of rates, is then quoted and the committee comments: "The committee has made a careful analysis of the report of the Tariff Board in order to interpret the findings and to discover in what particulars the committee's bill of the last session was defective, or failed to adjust the duties in an equitable has failed to reveal anything that requires a single change in the rates fixed in the committee's bill, and the again the results of its investigations of last summer, as emboided in the bill presented to the House at that

time. "As shown in the analysis, the data of the report of the Tariff Board have been found to be diffuse analysis of the money expenses inficant findings and, as stated to afford the committee no valid reason for any change in its recommenda tions of last session with regard to the rates of Schedule K."

The report of the committee further states that the Tariff Board's report largely consisted of a study of what is called "comparative cost of production of wools and manufactures of wools in various countries, and of

"The view, that the proper basis for tariff duties is found by comparsacrifice involved in turning out commodities of a given kind in various tain commodity can be produced in lent of that sum, while in the United States the money expenses of pro duction at \$1.25, it is necessary to have a tariff duty equal to the difference in these money expenses of production, or certainly to the difference in money expenses minus the allowance for variations in freight rates, in order to place the producers in the two countries upon an equal market footing. If this is not done, it will be possible for the produce (Continued on page four)

# A. A. ALLEN RESIGNS PRESIDENCY OF KATY

St. Louis, Mo., March 27 .- A. Allen here last night confirmed a report from New York that C. E. Schaff had been elected his successor as president of the Missouri, Kansas and Texas Railroad, but said he had not been officially notified of Schaff's election, Allen explained that on account of his ill health, he had placed his resignation in Chairman Trumwith the road as consulting director. Mr. Allen said he will go to Europe to recuperate.

A special dispatch from New York this afternoon announced that C. E. Schaff, vice president of the New the man most frequently mentioned was elected president of the Missouri, Kansas and Texas, with headquarters in St. Louis, succeeding A. A. Allen,

resigned.

This action was taken at a meet ing of the board of the Missouri, Kansas and Texas held today in New York, Chairman Frank Trumbell presiding. For a long time past Pres dent Allen has been in very poor health and he has frequently expressed to friends his desire to relinquis the cares of active railroad manage ment and seek a much needed rest. Only recently he centemplated a vacation and solourn at one of health resorts. Three years ago he was seriously ill at Excelsior Springs. wreck on the Pennsylvania enroute to New York to attend a loard meet-

Charles E. Schaff, vice president of the New York Central lines, west of Buffalo, is located in Chicago. For many years he was general manager of the Big Four at Cincinnati, as he of the Big Four at Cincinnati, as he represents that company's proprietory interests in St. Louis terminal board. His railroad career, like that of Mr. Allen, has been marked by steady promotion in the service of railroad operation and his executive ability is recognized throughout the West.

# CRIES FRAUD

SAYS METHOD OF TAFT MEN MORE OUTRAGEOUS THAN EVER TAMMANY EM-PLOYED.

### TAFT MAKES CLEAN SWEEP

President Secures Delegates of Every District and Victory is Over-

Riotous Roosevelt Delegates.

By Associated Press. Colorado Springs, March 27. -Roosevelt delegates to the state convention forced the doors of the convention hall today taking seats directly in

front of the stage.

Associated Press. Ft. Wayne, Ind., March 27.—Roose velt on a train to Chicago this morning declared that yesterday's New York fourths of the delegates elected yestional convention have no right to sit, for they were "elected by methods more outrageous than the worst methods Tammany Hall itself, ever employed." The Colonel said he will Chicago about these primaries. .

Taft's Victory Overwhelming New York, March 27 .- The Taft organization won over Roosevelt yesterday in New York in every district. Where the Taft men had made any claims of victory the Taft victory was overwhelming.

Pays Compliment to Indiana Leaders ly Associated Press. Fort Wayne, Ind., March 27.—Roos velt also paid his compliments to the men who ruled the Indianapolis convention yesterday. He charged that nachine politics were employed and that leaders in the convention were not fit for "affiliation with the Republican party."

Taft Apparent Winner in Colorado. Colorado Springs, Col., March 27 .-The first test vote in the Colarado Republican state convention here today showed that the Taft forces were aprently in great majority

Last Night's Report. New York, March 27.—Chairman Charles H. Duell of the Roosevelt city committee, said the primaries were characterized by a reakdown for the election machinery had been a farce." He asserted an effort would be made by the Roosevelt committee to "get a real primary in his city with a full expression of Republican oninion.'

"Governor Dix should be called upon to convene the legislature in pecial session," declared Mr. Duell in his statement late last night, "for the purpose of passing a presidential primary law so that there may be an nonest expression of the wish of the voters. In no surer way could Gov. Dix meet the wishes of the people.' Chairman Duell's statement as to he working of the primary law were based in part upon the mixup in the distribution of the primary ballots, which old campaigners said was the worst within memory here. Samuel S. Koenig, chairman of the

Republican county committee, speak-ing for the organization, alluded but (Continued on Page Five) briefly to the operation of the new

"The primaries of New York county gave the voters an opportunity to express honestly and their preferences for a presidential " Mr. Koenig declared. As to the result of the balloting,

Chairman Koenig said: "With 132 election districts miss-ing, President Taft in the primary contest in New York county today eceived 29,402 and Col. Roosevelt 14,011 votes. It was the most re-markable victory ever achieved by he organization when we consider that Col. Roosevelt is a resident of New York. We hope now that the primary contest is over that all Republicans will unite in support of

he President " Revised returns from all of the thirteen congressional districts in New York county, with returns complete from 781 out of the 885 elec-tion districts, give the following

Organization, 28,636; opposition 13,733; organization plurality,

The total vote thus far, shown 42,371) is less than half the num er of enrolled Republican voters. The last revision for the night of the returns of New York made with figures from all but fortynine election districts complete gave organization a plurality of 15, Failure to obtain returns from me of the missing districts was reported to be due to the fact that no vote had been cast on account of non-

elivery of ballots. re seemed every probability to-There seemed every probability tonight that contests would be institutled by defeated candidates in many
districts because of the alleged disfranchisement of many voters, even
if an effort were not made to have
the entire election declared invalid.

WEATHER FORECAST

Unbettled, showers tonight or Thursday, colder Thursday. . . . . . . . . . . . . . . .

Organization men were loud in their complaints about the way the election was conducte.

The primaries pened at 3p. m., amid-great confusion, owing to the delay in delivering the ballots in many voting districts.

In one case on the west side the police officially reported that the ballots designed for use at eighteen polling places did not arrive until about 6 p. m., and in the three-hour wait some early comers left the polis. The polis closed at 9 p. m.

There was further embarrassment

There was further embarrassment because the green ballots for the Democratic primaries were delivered to many places instead of the Re publican pink ones. It was well into

Bresident Britt of the board of elections declared the delay was due largely to the eleventh-hour litigation which the Roosevelt committee began over the positions of delegates on the ballots, resulting in court orders which handicapped the printer.

After the polls had closed at 9 o'clock, in some instances only about half an hour after they had opened.

half an hour after they had opened primaries were a farce, and that three- on account of the delay in the delivery of the ballots. Roosevelt superday from New York City to the Na- porters said the mixup would lay the ground for a contest as to validity of the election. It was the first trial of the

primary law and the working of it had been looked to with special intermake a "fighting speech" tonight in est on this account. Ballots in many of the districts ranged from ten fourteen feet long and so great had been the baste to get them out that n some cases they were in sections, there having been no time to paste them together.

The Democrats, who elected dele-gates only to their state convention and members of prganization committees, had little trouble, but Republicans, Independence League vot-ers and prohibition voters in some instances were unable to vote. Not-withstanding the confusion there was no disorder of importance, voters venting their complaint in ridicule of

the primary system.
County Chairman Koenig declared tonight his organization was in no of a police wise to blame for the ballot mixup to charge as the ballot delivery was in the hands of the board of elections. The Republican county committee issued the following statement on the matter:

ported that the official ballots had not been delivered the inspectors were advised that unofficial balots might be used. For this purpo spectors were advised to send to the nearest polling places having sample ballots containing the names of the candidates and to use them in the same, manner as official ballots. No person should have lost his vote by reason of the absence of the official ballot.

At the Republican county head quarters the contest was described as between "Taft and Roosevelt."
This is because the county organiza tion has indorsed President Taft and claims all delegates nominated by the party committees in the various dis tricts favor the President's renomin ation. In accordance with the primary law, however, none of the dele gates are specifically instructed. County Chairman Koenig late to-night called the White House on the long distance telephone and told Secretary Hilles that President had swept New York county and that

FOLLOWING LAST NIGHT'S RIOT ING IN WHICH THREE WERE KILLED UNKNOWN FIRES AT MAYOR SCHRIVER.

Officers Shoot When Mayor's Oppon ents Hurl Bricks Through Windows of Prison House.

By Associated Press.
Rock Island, Ill., March 27.—An unsuccessful attempt was made to assassinate Mayor Schriver this morn ing by an unknown who fired a rifle bullet through the mayor's office window from the top of a building several blocks distant. Otherwise there was no repetition of last night's rioting in which three were killed,

Whole Regiment Ordered to Rock Island.

By Associated Press.
Springfield, Ill., March 27.—The tire Sixth Regiment of the Illinois National Guard has been ordered to Rock Island to preserve order.

Story of the Riot,
(Fort Worth Record)
Rock Island, Ill., March 27.—Three
persons were killed and nine seriously wounded last night in a riot that grew out of strained relation between Mayor Schriver and many of his opponents. The riot was the climax to a

ries of clashes in the past few nights, which, however, previously have not resulted in anyone being hurt. Early Wednesday morning it is be

lieved, authorities have the situation in hand. The local and the Moline companies of state guardsmen, with the police, are preventing whatever trouble might have come after the first clash. A mob of 500 last night stormed

the police headquarters, where two leaders of previous disorders were in Bricks and stones were hurled through the windows. Unable to quiet the rapidly swelling mob. of a police squad, ordered the officers

A volley was fired. For a moment all was still. The horrified citizens slowly retreated. On the ground lay twelve prostrate forms. twelve men, victims of the police badly wounded that they sent to hospitals.

Gathering their composure in short time, the mob reorganized and charged a hardware store, bent upon obtaining arms and ammunition. Be lieving this action might come after the onslaught of the autho lice were guarding the hardware store when the mob arrived. Fearing another volley of lead might gree them, the mob members recoiled from the sight of the blue uniforms

and began to disperse. Some time ago Mayor Schriver an nounced that he intended to run undesirable persons out of the city. His political opponents said this move was to rid himself of formidable op-position. He was combated on many

Recently a newspaper published strong editorial denouncing the may or. Hearing of this, Schriver order ed the edition suppressed. No pa pers had been distributed.

At a mass meeting last night the mayor's action was commented upor and after the meeting adjourne ose who attended went to the news paper office to get copies of the pub lication. The police attempted to stop them and there was some trot ble, but so far as known, at that time no one was hurt. Arrests were made The body of Frank Potts was found in a hallway today and it was reported he had been killed by the police in the trouble of the night be fore. This, however, proved untrue, as doctors say he died of apoplexy. With the minds of the citizens in this state a mass meeting for last night was called at which petitions asking the recall of Mayor Schrive and Commissioner Hart were circulat ed. After the meeting adjourned the mob formed. During a previous drenched with water from fire department hose and last night's mob mem-bers said that after the attack on the police station the fire headquar-

ters would next fall victim to stones and bricks. The volley from the police however, stopped this. John Looney, editor of the ly paper whose edition was suppress ed is in a hospital suffering from wounds received in a personal enounter with Mayor Schriver, There has been much political and

ditorial friction in Rock Island for nearly fifteen years. Occasionally there have been violent outbreaks and once two editors fought a duel in the streets as a result of a quar-rel between rival publications over political and city affairs.

Company A Sixth infantry, last night mobilized and reported to the sheriff of Rock Island county. As oon as word was passed around that troops were to take charge of the sit-nation persons who had remained in

and threats and the unruly element had been poisoned against him by assertions that he was going to make life unbearable for all but his friends. He said his only intentions were to rid the city of undesirable persons.

storm the police station. He said he had been made the target of attacks

# ELKS WILL PUT ON MINSTREL SHOW

The local lodge of Elks is to produce another of its great fun making minstrel shows. The exact date has not been decided upon, but is scheduled for the latter part of April, and the performance will be on a larger and more elaborate scale than any previous effort. While it is to be styled a minstrel show, it will be in fact a dramatic and minstrel performance combined, and will withal be an entirely original production in as much as the manuscript and stage setting is the work of one of the members of the local lodge. Mr. M. A. Brin. Mr. Brin has not heretofore been known to the world as a playwright, but in this his first attempt he has produced a most beautiful ensemble of both pathos and humor, and combined the two in a way that should make a most enjoyable enter

tainment. The curtain goes up on a pathtic scene in the study room of an Enk's home, which serves to introduce the characters in the dramatic part, which are as follows:

Thomas W. Keene-Harry Caston. Sunshine, Keene's daughter-Geo. Thatcher-Eyerett Stoneciph

Jan Keublik-Harry Templeton. Al G. Fields—Abe Marcus. Primrose—Claude Woods. West-Wade Hampton.

Italian Fruit Vender-M. A. Brin The parts as writen give opportunifor some strong dramatic scenes and the arrangement of the stage has een planned in every detail for most effective work. Following this comes the regular

minstrel program made up of jokes, and music and singing and closing in grand finale. Mr. Brin has aranged to have his play copyrighted and will present it

to the Elka lodge. Committees to carry out the plan for the play will be appointed and those who are to take part in the program will begin active study at once in order that no bitch will come

in the production.

# COOKING CLASS FOR BRIDES THE LATEST

A class in cooking for the newly wedded brides and those aspiring to ecome brides is the latest innovation at the high school. Upon it being anjounced not long ago that such a class vould be organized, a meeting of those interested was held in the basement at the high school building, and it was decided that henceforth a meeting will be held every Monday and every Wednesday afternoon beginning at four o'clock in the Domestic Science room, and at these meetings Miss Etta Allder, head of the Domestic Science Department, will furnish scientific in struction in cooking to the members of the class. Those who wish to join the class may do so by communicating with either Miss Allder or Prof. Toland A small fee is charged to pay for the expense of keeping the department open after school hours and to provide for the wear and tear on the

equipment. This newest class in Domestic Science work at the high school has een organized for several weeks, and already sixteen of the young matrons and ladies of the city have identified hemselves with the work, and a num per of others have expressed an intention of doing so in the near future. It is thought that at the end of a few months study of the science of the art. ome of the best cooks in the State will be devoloped as a result of the A SETTLEMENT who are members at present are Mes dames Orville, Bullington, A. B. Huff O. H. Bower, Montague Staniforth, and Misses Jewell Kemp, Carry Kell, Ester Gorsline, Mabelle Clopton, Frankie Smith, Temple Thompson, Kell, Kate McSpadden, Hattie Stallings Lavina Randell, and Willie May Kell Since the introduction of Domestic which the founders of the

Science work into the curriculum of the high school, the department has atthined a success and popularity bardly imagined would result. Practically every girl in the high school is a member of oneof the departments of Domestic Science, and it will probably be necessary to order additional conin ment before the beginning of the fall term next September. The girls of the high school who elected to take cooking in connection with Domestic science, have inaugurated the plan of selling aportion of their pastries to the students, and the plan has been found to be very successful. The girls in the sewing department have made and are still making a number of useful articles which can be used in their own homes, and their mothers are finding that the new department is of great benefit not only to the students who receive the value of its instruction, but to the relatives of the students, who often receive the products of the student's work. The department of Manual Training has also proven very successful, there being a total of one hundred and eight boys who have been enrolled in that department.

Of Interest to Wichita Falls Readers. For months Wichita Falls citizens have seen in these columns enthusiastic praise of Doan's Kidney Pills these prominent people recommend a remedy that had not proven relia-Would they confirm their statesonal experience had not shown the remedy to be worthy of endorsement? No stronger proof of merit can be test of time. The following statement should carry conviction to the mind of every Wichita Falls reader.

J. E. Sport, Wichita Falls, Texas, says: "We still use Doan's Kidney Pfils in our family whenever occasion requires a kidney medicine and are always greatly benefited. We have previously endorsed this remedy and you may continue using the statement."

For sale by all dealers. Price 50 ents. Foster-Milburn Co., Buffalo, N. ., sole agents for the United States. Remember the name-Doan's-and take no other.

THE FAVORITE LAXATIVE

one at Night Makes the Next Day Bright; No Charge If It Does

Because of its extremely gentle nd effective cation, Rexall Orderlies have become the most popular Remedy for constipation.

We are so positive that Rexalf Orderlies will do all that is claimed for them that we positively guafantee to hand back the money you paid us for them upon your mere request, if you are not entirely satisfied.

Rexall Orderlies are eaten like andy, are very pleasant to taste, do not gripe cause nausea or any other annoyance usually experienced when ordinary cathartics are

Rexall Orderlies have a positive regulative effect upon the bowels and tend to provide permanent relief from constipation and the myraid of associate ailments. Besides, they help to overcome the necessity of the constant use of laxatives to keep the bowels in normal condition. We honestly believe there is no

similar medicine so good as Rexall Orderlies, especially for children, aged or delicate people. They are prepared in convenient tablet form in three sizes of packages. Prices 10, 25 and 50 cents. Why not try them at our risk on our guarantee? Remember, Rexall Remedies can be obtained in this community only at our store-The Rexall Store. Fooshee & Lynch Drug Store, Wichi-

# GIRL UMPIRES

BASEBALL GAME

The boys from rooms four and five at the Austin school played a most exciting game of baseball yesterday afternoon on the Thirteenth street school grounds, the game being a hotly contested one and finally resulting in a score of eleven to eight in favor of the boys from room four. The feature of the game was the perfect umpiring of Miss Myrtle Oliver, from whose decisions practically no protests were made, to be able to say which is a rare occurrence in a baseball game. The same teams will cross bats again. next Thursday afternoon at the same place with the same umpire, and the public is invited to attend.

The line up yesterday was as fol-lows; Room three, catcher, Joe Mc-Mullen, pitcher, Willie Bauer, 1st base, Bob Trotter, 2nd base, Sonny Williams, 3rd base, Lee Haney, short stop, Wiley C, left field, Ford Lee, center field, Horace Short, right field, Vaughn. Room Four, catcher, Tiner Coker,

pitcher, Talbert Moore, 1st base, Jesse Warren, 2nd base, Robert Stayton, 3rd base, Homer McConkey, short stop, Richard Stone, left field, Gerard Boone, center field, Lawrence Hagy, right field Leslie Harris, substitute, Ostar Snider.

Removal Notice. The offices of the Wichita Falls Water and Light Co. and the Wichita Traction Co, have been moved from the Joline building to the basement of the Kemp & Kell building. 270-6te

Statistics Compiled By Association Here Show That Most People Pay Bills Promptly.

"This is to certify that John Smith paid his accounts with members of this association promptly and that he is leaving no unpaid debts in this city. Dealings with him have been pleasant and satisfactory and we can recommend him as being worthy of credit." Signed: Wichita Falls Retail Merchants' Association; per John Thomas, secretary.

In the future persons who leave Wichita Falls will probably carry with them a certificate or "clearance card" of this character provided of course promptly while here. If they have been delinquent in the payment of their bills because they have not made an honest effort to pay, of course, they will not carry away a certificate of this character, but it is duite probable before they get settled in a new town working and believe I owe my life to the merchants there will know all has cheated the grave of another about their credit dealings in Wichita victim." Its folly to suffer with

oughs, colds or other throat and The credit certificate or clearance card is a new idea and has not been that's safest. Price 50 cents' and definitely adopted by the Wichita Falls Merchants but a committee has been appointed to consider the matter and it is not improbable that their decision will be favorable and will be adopted by the association. The idea was suggested by the frequent requests to the Merchants' Association from people leaving town for a statement of their credit with the merchants here. Such a statement will avoid annoy ance to those leaving the city and will enable them to open accounts in their new homes without delays. It is probonger form in the nose; mucus will able that these credit certificates will be taken from one town to another and within a few years they will be as necessary and as useful as a letter from the church or a demit from the

In these days it is constantly becoming easier for the person entitled constantly decreasing to credit to obtain it and harder for those who abuse the privilege to get it. The millenium for the merchants will arrive when no person not enti-Hed credit will get it. Of course this day may never come, but in these days when the retail merchants associations and credit bureaus are doing such efficient work and when every clegates at large to th enational conassociation to protect its merchants rendition law is accurately determingainst dead beats, and these are forming into state and interstate asso-

their bills will be overcome. them, and to go off to the next town value. leaving the grocer, the doctor, the dry goods merchant and all the rest with souvenirs that eventually were charged to the profit and loss account There was no way by which the account could be collected by process of law and the dead beat went to the next town and lived easy at the expense of the merchants and his customers, because the customer must pay the bills the other man failed to pay in the final accounting. Often these accounts ag gregate hundreds of dollars and the man who was beating the bills was earning a good salary and if he had been inclined to pay could have done so without entailing any suffering on himself or his family. Those were the halycon days for the dead beat and he waxed and flourished as the green bay

TAR AND GRAVEL ROOFING But suppose he comes here new. is probable that before his account is more than a week old at the grocery store, the groceryman will know quite a good deal out his credit dealings in the town from which he came. The groceryman will innocently ask him where he came from and will more like ly ask him whom he traded with before coming to Wichita Falls. This information will be given to the secretary of the association who will write to the association or the merchants in the town from which the man came and soon in the bulletin issued period ically by the association, a copy of which is delivered to every member may appear something like the fol-

lowing: "......Information from..... Oklahoma says he left there owing nearly every merchant in town. They do not advise credit in any amount Call secretary for further information. Or maybe it will be something like

this: ".......Information from...... Texas that he had bad luck there and

DR. GARRISON, DENTIST

was not, therefore, prompt in meeting his accounts. They say he is honest and has paid his accounts as he could Again it may be something like this

Texas, in the......business. Merchants at.....say he is A-1 cus tomer and good for all obligations and sell him all he wants."

"..... boilermaker, information from ......that he is all right and good for all obligations." "......barber. Left no accounts

unpaid at ..... Texas." These bulletins are in addition to the rating book issued once a year by the association which contains the names and ratings of all customers in this city. In this book the customers are rated as "good," "slow," "doubtful" and "demand cash." During the year the rating of some customers in the book may be subject to change. These changes are given in the bulletin. The following are taken from a bulletin just mailed out:

"..... Rating changed from "Good .....Rating changed from "slow" to

"good" by ..... account error. Of course it is possible that some worthy person entitled to credit and who really needs it may be denied, but such instances are rare, as the secre-This startling statement was made they have met their obligations tary keeps a card index record of every credit customer, which is always at the service of any member of the association, and the man who is honestly trying to meet his obligations is rarely denied credit.

> If perchance a man does get into the local merchants it will be very difficult for him to get away without his whereabouts being learned, and before he is likely to get any credit in his new location it is probable that he will have to make settlement of his

> In the last annual rating book issued by the association here 6376 credit customers are rated, and it is a most encouraging fact that 4214 of this number are rated as good and prompt payers. This means that they are not in the habit of letting their accounts run over unpaid from one month to the other. Of the remainder, 758 are rated as slow, 309 doubtful and 1095, demand cash. It is probable that only a small percentage of those rated as "demand cash" in the last rating book are now receiving credit from any members of the association.

Merchants say that since the association has reached its present efficiency their losses from bad accounts are much less than before and that the number of demand cash patrons is

(Continued from page 1)

The Greenville Herald in speaking of are lowest to drive out of business to use says that muddy water has its money expenses are highest. This advantages, and that when a member assumption is based upon an erof the family gets sick, they know in roneous view of international trade, most instances what the trouble is and finds no warrant whatever in economic reasoning."

The Democratic report discusses this matter at great length and A beautiful statue of a girl adorned, points out that in every country as the press dispatches state, merely there is a great range of difference

"Beside these considerations," the report says, "it should be noted that has been amply allustrated by work of the Tariff Board itself. In

would have been, therefore, that while protection was not needed by the best factories in the United States against the Canadian, it was needed by the poorer factories in the United States against the better factories in this country, but not against those in Canada. Owing to this variation in cost of production within the same country, it is not possible to compare in absolute terms

the produttive power of one country "Even if it be granted, however,

in money cost of production-wheth er highest, average, or lowest-would furnish a guide to the proper amount of tariff duty needed for protective purposes, the problem would remain whether money expenses of production could be ascertained in such a way as to render the method available. Experience, as well as theoretical considerations, show that this is not the case."

The committee, averring that the report of the Tariff Board "is not a tariff document," says on that point: "Probably the most striking feature of the report of the Tariff Board is that it contains little with referce to the tariff. It is primarily an and unsystematic, to present insignivolved in the production and manu facture of wool.

"Volume I of the report, containing the message of the President, letter of submittal, summary of findings, and glossary, will undoubtedly be of use in explaining to the public the significance of the existing tariff and of the terms used in it. The volnme probably contains little that was not already available to any member of Congress who chose to avail himself of the facilities at his command It is essentially a clerical or library compilation from printed sources, and as such affords little other than its convenient form that is of service to the practical legislator.

"Volume IV, Wages and efficiency of labor and machinery in the United States, treats a subject which has already been exhaustively discussed by the United States Immigration commission in reports on the woolen industry, and the Tariff Board undoubtedly drew upon this source. Whatever may be the intrinsic value of this volume and however service able it may be to students for reference, as a contribution to tariff dissussion at the present time it has no value, because it does not contain. or profess to contain, comparative material on efficiency in foreign countries. It deals only with American conditions.

"Volume III contains a discussion of manufacturing costs, tops, yarn and cloth, and ready made clothing About one-fourth of the volume is devoted to a study of ready made clothing-a subject fully covered by the Immigration Commission in a report that has been available for some time

which was prepared at great expense. "Apparently the chief reason for undertaking this inquiry was the opinion that it would thus be possible to demonstrate the relative insignificance of woolen goods as an item of common consumption. WAS ERRONEOUS may be concluded that, so far as the question of tariff rates on wool and woolen cloths is concerned, that part of the board's report which relates to ready made clothing is largely irrelevant."

> The committee charges that the Tariff Board in its investigations proceeded upon the theory that maintenance of existing tariff was necessary, stating:

"Throughout its investigation of costs of production, the Tariff Board apparently considers the maintenance of the existing tariff, or something approximately to it, fundamental and Thereby it adds very greatly to the cost stated as representative of the necessities of the American wool and woolen industry under existing conditions. This is an error which runs practically throughout the whole report and which needs to be considered very carefully in order to realize the far reaching character of the modifica

tions which it involves." The committee discusses at length the conditions relating to the production of raw wool in this country and abroad, and, after reviewing the three classes of wool as considered in the report and in the Payne-Aldrich bill the committee says, in justification of the bill placing a revenue duty of 20 per cent on raw wool:

"Class III wool needs no protection because it is scarcely produced at all in the United States.

"Class II wool needs no protection because those of our wools which compete with it are produced at a very low cost of production.

"Class I wools need no protection as indicated by actual figures of sales. As shown by estimated cost of production the needed duty would not exceed 15 to 20 per cent. A duty of 25 per cent would be considerably in excess of the requirements of production in the West that are indicated by the figures of the Board; while in the Ohio region the industry is partly at least, incidental to general farming and can not be considered

on the competitive footing." Every item in the wool schedule as treated by the Tariff Board analyzed at fength by the committee, such as tops, notis, yarns, cloths, carpets etc., and the report submits that there is nothing to justify a change from the rates proposed in the Un-

derwood bill. Regarding clothing the report says: There is no definite information n the board's data regarding the cost of manufacturing clothing, inasmuch as costs do not appear to have been ascertained a broad upon the same basis. About all that can be said. therefore, is that so far as the Board's information goes, there is no reason for increasing the tariff on ready made clothing above the rate of tariff imposed upon the cloth and material out of which such clothing is made. The rate of duty fixed in this bill upon ready made clothing was 45 per cent, which was the highest rate given upon any article provided for in the bill except carpets. The Republican members of the committee submitted a minority report favoring a forty per cent reduction from the present duties on wool. BEAN & SON.

We will send you a booklet on request, telling all about our Rural Line Plan, adopted by so many farmers. Address our nearest Manager or The Southwestern Telegraph & Telephone

Company Dallas, Texas

# Every Dollar

Sent away for life insurance that can be purchased in Wichita Falls is contributed to the building up of another city, and a corresponding discouragement toward the development of your home city and its institutions.

### It is Certainly a Convenience

To have a life insurance company in Wichita Falls, owned and officered by Home people, with whom you can place your insurance and be absolutely safe and fully protected, and at the same time build up and develop your own home city. WHY? Because your money remains at home, is loaned and invested in this territory, and in the ordinary channels of business, drifts back to you.

### Thinking People

Will not be inclined to any course tending to stifle the growth of their home city and State.

(Continued from page 1 )

districts had given pluralities for In twenty-six of the forty-three congressional districts of the state there were no contests. These districts, including those of Brooklyn, Long Island and most of the upper state districts. Among the delegates selected without opposition from

these districts were: Smith Cox and William Carr from the First, or Oyster Bay district; Timothy & Woodruff and City Comptroller W. A. Prendergast, from the Fourth district; National Committeeman William L. Ward, in the Twenty-fifth district; Louis F. Payne in the Twenty-seventh; Cornelius V. Collins, one of Colonel Roosevelt's aids at the last Republican state convention, in the Twenty-ninth; former Congressman Lucius N. Little in the Thirtieth: George Malby in the Chirty-first; George N. Fairchild and afayette B. Gleason, secretary of the Republican state committee, in the Thirty-fourth; Congressman Sereno E. Payne in the Thirty-sixth; George Aldridge in the Thirty-eighth and J. W. Wadsworth, Jr., former speaker

f the assembly in the Thirty-ninth. While in most cases the control of the district organization is claimed by friends of President Taft, in a few nstances Roosevelt suporters declare the delegates will support their candidate. This is notably the case. n the Twenty-fourth and Twentyfifth districts, controlled by National Committeeman Wiliam L. Ward; the Thirtieth district, where former Congressman Lucius N. Little is a delegate and the First district which inludes the colonel's home at Oyster In the main, however, the organization delegates chosen without contest are considered favorable to

Taft. Late tonight Chairman Duell of the Roosevelt committee, issued this statement:

"In view of the almost complete paralysis of the election machinery, not to speak of other features of this so-called primary, the Roosevelt com mittee will take steps to see if there is a way to have a real primary in this city with a full expression of Republican opinion."

The regular weekly prayer meeting services at the First Baptist church will be suspended tonight, in order to give the members of the church an opportunity to attend the revival meeting of the Fourth Baptist church.

# **WOMAN'S RIGHTS**

Woman's rights from a brand new angle forms a sailent feature of the new comedy, "Introduce Me" that will be seen at the Wichita Theatre on Saturday night. This comedy is from the pen of the talented young author, Della Clark and while she is not in any sense a suffragette but is in every way a womanly woman, she believes firmly that the weaker sex is weak merely through an implied term and not so much as a matter of fact.

In her new play Miss Clarke has shown the wife as the source of success and income of the Nichol family. Herein shows the novel manner of Miss Clarke's handling of the situation for it is all done in a manner that does not lessen the audience's respect for the husband nor yet place him in the position of a dependent upon his wife.

"Introduce Me" finds George Nichol as an unsuccessful author, but his wife, under the name of Francis Everton. has written several books that have made her famous as well as giving the family a fine income. The husband does not even know his wife has written the books; she has kept it a secret from him, letting him believe an old aunt is giving her an allowance.

In an adroit and intensely interest-

ing way Miss Clarke has developed her story so that the element of suspens is sustained to the very drop of the last curtain. She has worked in little details of domestic infelicity that always did come about just to have the "making-up" all the sweeter. In the end she has established the husband in secure position of manly dignity and independences but she has not failed to show that women have rights in this world and are of value and importance. And it might also be said that "Introduce Me" appeals as strongly to men as to women and it was just

did you know that HINDS' HONEY AND AFMOND CREAM is the greatest of American foilet requisites. Used by the queens of the footlights, used by America's richest and most pampered society queens and is in reach of the peorest working girl. The price is fifty cents and is the best investment in the world for the woman who cares. The lines of age and care disappear under its soothing effect. It is used and preferred by women who are as able and willing to pay ten dollars a bottle as fifty cents; it is a matter of merit. See our window. This ad is not as strong as our window and both fail to do justice to the cream itself.
