# AT DALLAS FAIR

Wichita county and Wichita Falls will be represented at the Dallas Fair next fall with a more comprehensive and thorough exhibit of the products of this section than ever before. Afthough it is still five or six months before the fair will be held, the directors of the Chamber of Commerc have already taken steps to see that this county's products are duly ex hibited.

While there has been a Wichita county exhibit at the fair for several years, the erop conditions have prevented this section sending a very substantial display of farm products This year, however, there bids fair to be a much better showing. In addition to the farm exhibit, the finished products of local factories and industrial plants will also be on display.

colquitt has sent a letter to every ounty"judge advocating the estab ishment of free dispensaries and th employment of visiting nurses for the Mrs. Colquitt also urges the establishment of County Hospital with special and separate provision or the care of consumptives. uitt said: "The care of consumptives nd other persons suffering from any contagious or infectious illness in iospitals is the best way to prevent the spread of tuberculosis and all communicable diseases. The Texas Anti-Tuberculosis Association, of which I am president, will devote its rights to the work of securing County Hospitals and Dispensaries with visiting nurses serving in connection in every count yof the State. hope that county judges will take up this matter at once and give it serious consideration, and act for the benefit of their people."

Mrs. Colquitt's letter follows: Because of my deep interest in the velfare of our people, I submit the

ollowing suggestions to you. There are some persons in every county who need medical attention md treatment, and who can not always afford to pay a physician. A few counties have provided for such persons a free Dispensary and Clinic where the county physician, assisted by volunteers from among the local physicians, attends to the needs of

persons applying for treatment. The value of the work of the Free Clinic and Dispensary can be more than doubled if a visiting nurse, or a woman without hospital training, but some aptitude for nursing, is employed, to visit patients in their homes, to advise and assist them and to in-struct members of the family in the care of the patient, and especially to teach the necessary precautions to be observed to prevent the spread of

contagious or infectious disease, if the patient is so afflicted. Room for a Free Clinic and Dispensary and the nurse's office can gen-erally be found in the county courtuse, and no expense for such quarers is contracted. The only expense would be for the home visitor's salary, medicines and some money for relief of indigent persons; \$100 a month should cover all of this expense, and I am sure the people of your county would gladly bear this expense, as this sum could not be spent in any more beneficial way. I also wish to suggest that some provision be made for hospital care of the sick of your county. Wifl you not give serious thought to the establishment of a County Hospital? A beginning could be made by the erecof a small building on the arated from the farm by a fence that no one need hesitate abou epting treatment for fear of being

# FINAL SCORE WAS 10 TO 3

Durant Players Showed Complete Reversal of Form—Sharp Fielding,
Good Hitting.

The truth of the old saying that even a worm will turn if you slap it on the wrist too often was manifested yesterday afternoon when Durant, after dropping the first three games of the series, capped the fourth in the easiest kind of style. The score was 10 to 3.

The Educators led off with five runs in the first inning and there was never even a possibility that they would be headed. A combination of hits, passes and errors was responsible for the scores.

Hetty Green pitched for the visitors and looked as natural as life, especially when he expressed his opinion of the umpire, which was pretty often. If you could figure out an average on an umpire's work, Murphy's would be about .00024 for yesterday's game. Nobody expects an umpire to be absolutely accurate in every decision, but the public has a right to demand temperate language on the part of the players and it is the umpire's business to see that noth-

The Durant players showed complete reversal of form in yesterday's game. They pulled off a number of sharp fielding stunts and their stickwork was all too good.

Up to the seventh inning the locals had not scored and had scratched only twice in the hit column. Two errors and two hits netted three runs and gave the "crowd" a glimmer of hope, but in the next inning Durant annexed three runs herself and wound

of the game. Sporn, Bonham's new up seven runs to the good. About half a street car load of people witnessed the game. There will be a few more days like that in the attendance line and some other town will be called upon to support the team. The score:

Entered at the Postoffice at Wichita Falls as second-class mail matter

Wichita Falls, Texas, May 2nd, 1912.

The ballot should not be forced omen, but if they want it they should have it, and the matter of who shall give it to them should be decided by themselves. Generally speaking, the laws, or many of them, are manifestly unfair to women in most of the states and should be changed. In this State for instance, a woman with property in her own name cannot dispose of if without the consent of her husband; if she and her husband are not living together, it is difficult for her to man age her affairs in the event the husband is disposed to make trouble. If she has money to her credit in the bank, the husband, though living apart from her, can prevent checking on the account. To that extent, women are discriminated against in our laws, and unless those who are opposed to woman suffrage can see the injustice of such laws and amend or change them, they may expect the agitation for woman suffrage to be kept up. That the sentiment is gaining in strength there can be no doubt, and at the present rate of gain, if not interfered with, in less than ten years every state in the Union will be a woman suffrage State.

The result of Tuesday's presidential preferential primary election in Massa chusetts seems to have been a rather mixed-up affair. Both Taft and Roose velt get consolation from it. The returns show that Taft carried the State over Roosevelt by a majority of about 5000, while the Roosevelt delegates at-large defeated the Taft delegates at-large by even a greater majority, and had Roosevelt been so disposed he could have claimed the eight delegates at-large, together with the ten district delegates, which would have given him 18 in all, or split the delegation even with Taft. But the ex-president in order, we suppose to be consistent. has renounced all claims to the eight delegates at large, and wired them that nuch as a majority of the people of Massachusetts had expressed a preference for Taft, they should vote the eight votes for the State-at-large for Taft. This leaves Roosevelt with only the ten district delegates, and gives to Taft 26. As for the Demperats, the vote was very light, but Clark was the favorite, though the delegates-at-large elected favor Gov. Foss for president, and are pledged to vote for him at the Baltimore cenvention The Clark delegates at large ticket, headed by Georiga Frederick Williams was badly defeated.

The campaign lie started to the effect that Gov. Wilson sent a telegram to Booker T. Washington, the negro educator, consoling Washington and expressing confidence in him at the time Washington was caught in the act of peeping through the keyhole into a room in an apartment house occupied by a white woman, and was severely beaten by the white man who detected the negro in the act, has brought forth a prompt denial from Mr. Wilson. Such under-handed campaign tricks, put affoat just before an election may accomplish the object intended-that of driving a few votes from Wilson to some other Democratic candidate, but the white man who consents to the slander of another white man in such a mapner as that is not entitled to any more respect than the negro who was caught peeping into the room of a white woman. Wilson is a Southern man by birth, and the effort to cause Southerners to believe he would stoop to such a dirty trick as sympathizing with such an offense will and should

## TWO CONGRESSIONAL CANDIDATES HERE

Two candidates for congressman-atlarge have visited Wichita Falls this week, Joe Lancaster of Plainview and D. E. Garrett of Houston. Judge Lancaster spent yesterday here, while Judge Garrett is here today. Both met a large number of the voters in this city.

According to the latest count, there, are twenty-three candidates for congressman-at-large who have already filed their names with the State executive committee. Only two are to be elected and these will probably be called upon to serve only two years as it is considered almost certain that the State will be congressionally redistricted when the next Legislature meets.

The Texas Welfare Commission

The Texas Commercial Secretarles and Business Men's Association, recognizing that a wholesome public schtiment is the most powerful asset that a state or nation can possess, has launched the Welfare Commission for the purpose of providing the people with dependable informetion essential to a more intelligent analysis of economic conditions, to the end that our citizenship as a whole may be able to more readily distinguish lines of industry conducive to its progress and to more easily recognize and maintain public policies which promote the general welfare of the people.

This body of men will sit as a tribunal reviewing the material life of State and there will pass before it for inspection some of the grandest, the most stupendous and some of the saddest events in 20th century civilization.

In this line of march will be seen the Texas farmer hauling \$425,000,-000 per annum of raw material to the foreign factory-forming a proession that will reach from the earth to the moon; the Texas cowboy will be there driving a herd of sixteen million head of live stock to the market. Our lumber mills loading a hundred thousand cars of their ducts for the factories of the

, 293-tfc their journey to the factory. More important than the mighty surrent of commerce that is sweepng our raw material from our State resources for an opportunity to pour a golden stream of wealth into the hannels of trade. We have less than one fifth of our area under cultivation; our mineral wealth is sleeping andisturbed; our cotton factories can handle only one bale of cotton out of every seventy produced. The op-OIL WELL MACHINERY, SUPPLIES, ening of the Panama Canal will LEASES, ETC. lood us with a new world of opportunities and we have many possi-

pilities yet undeveloped. The return of the tide of comnerce brings with it from the forign factory \$100,000,000 of finished products per annum and we ship Rugby bicycle. ## TOMORROW SPECIAL **VISITORS' DAY**

While the parents and patrons of the public schools have always been welcome visitors at the public schools, tomorrow has been set aside as a special "Visitor's Day." The school board extends a special invitation to the parents to visit the class rooms during the day and see what is being done in the schools.

Tomorrow night from 8-to 11 o'clock here will be an informal reception at the high school. All the departments will be open, including the manual training and domestic science rooms, and the school board extends an invitation to the general public to attend and enjoy the evening.

The school authorities believe that we many Wichitans who are infamiliar with the work of the public schods, the equipment and the which the schools may "show off" it is felt that the public may get better acquainted with what is being done

AMERICAN FLAGS TORN DOWN.

(Continued from page 1)

Edward Cassidy and other officers of the Socialist party of New York under whose auspices a big parade and meeting were supposed to be held, in attempting to explain how it happened

"The tearing down of an American flag was not the fault of the Socialist party. It was done by men in the ranks of the Industrial Workers of the World. The Socialist party will, in a few days, officially repudiate this

Flag is Trampled in Seattle. Seattle, Wash., May. 2.-In a Socilist May Day parade here a man reached a red flag from its staff, rushed into a saloon and escaped. Another man threw an American flag into the street and jumped on it. He was knocked down by by-standers, who seized his flag and waved it from the curb at

the paraders as they passed. The stolen flag was of silk and valued at \$50. The announcement that the revolutionary Socialist and Industrial Work ers of the World would march with the red flag drew a great-throng to the place where the parade assembled. At the head of the line was an amateur band. Then came a number of women and then two men, one carrying the red flag and the second the American flag. The Mayor had refused permission to parade without the Stars and

Stripes. No arrests were made.

200 Socialists Hold Parade. Duluth, Minn., May 2.-Behind red flags and headed by a band, 2000 So cialists paraded the business streets of Duluth and held a meeting at which fiery addresses were made demanding social and industrial reforms.
