PRESBYTERIAN SCHOOLS

By Associated Press. Louisville, Ky., May 22 .- In its an nual report to the General Assembly

of the Presbyterian Church in the United States of America made today the College Board answers in the affirmative the question, "Is the Bible thoroughly and heartily taught in our colleges?"

The board says in part:

So far as the colleges co-operating with the Boar dof this Assembly are concerned, the Board is able to give definite and satisfactory reply. The policy of the Board makes it a condition of co-operation with any college that it requires all regular students to take systematic Bible study as a part of the curriculum required for geraduation, in accordance with

the agreement between the College Board and the Annual College Conference.

5

+4

The Board makes a further condition "that the college has in its faculty only such teachers as can be regarded as exerting a positive Christian influence over the students." Once a year each college president whose college receives ald from the Board-gives a signed statement to the Board that these conditions have been compiled with. If in any college there is neglect or indifference to such Bible teaching and Christian influence it arises from a temporary cause, which under the pressure of the general Christian spirit of our colleges, soon passes away.

It has come to pass that there is no other place today but the Christian college where a comprehensive knowledge of the Bible as a book is requirged to be taught as a part of the curriculum required for graduation. The Christian college has a freedom in the matter of Bible study that is denied to State schools. I It has the greatest opportunity in American educational life today to give a working knowledge of the Bible to its students. The time has come for the Christian college to take still greater advantage of that freedom and that opportunity.

The annual market has just bee held. The Austrian steamer Mari-Theresa brought 125 boys and 30 girls ranging in ages from 11 to 16 years across the Boden Sea. They were quartered at the "Golden Whee" Hotel" as appropriate place for this children's lottery.'.

market was held under the auspices of the Rev. Caim, of the Tyrolean Children's Society, who had charge of them for the society.

From daylight to dark and after, the children labor, which in south Germany means about 17 or 18 hours

daily. It 'is but natural that the lessees chief interest is to get as much out of them as possible. What the fate of some of the children is, is indicated by the Tyrolean Grenzboten, a paper which has started an agitation against this child market.

It says: "The children retun to their par ents and homes on October 28, in they do not fall a victim to the heavy labor, long hours, intense longing for father, mother and brothers and sisters, during the summer and are buried in the regions where they were

leased. "We ask, in what land or country would the authorities permit such a slave trade to exist? That many of these children have a hard time of it under the strangers to whom they have been leased, is evident from the fact that the Children's Society has a number of farmers on its blacklist to whom they refuse to lease chil-dren again. But what good does that do the little ones whom they may have ruined physically and morally?' The Morgenpost of Berlin also marvels that the authorities of Bavaria, Wurtemburg and Baden would toler ate dealing in little slaves.
