

CHURCH SOCIETIES' RECEPTION AT Y. M. C. A.

One of the most pleasing events of the week was the reception tendered last Thursday to the members of the young people's societies of the local churches. There are reasons to believe that such an organization will be formed in the near future.

cake and bananas were served to all present as refreshments.

Class Gives Recital. Mrs. S. M. Foster's music class gave an afternoon recital at the home of Mrs. Amos Morris last Friday.

The Weasel class of girls at the First M. E. Church, South, invited a number of friends to spend several hours at Lake Wichita with them yesterday afternoon.

beginning promptly at eight fifteen o'clock, follows:

Mrs. S. E. Eppley after visiting her daughter, Mrs. H. B. Patterson on Tenth street for a few days, has returned to her home in Amarillo.

Mr. and Mrs. J. F. Waggoner are absent from the city visiting relatives and friends in Fort Worth.

Mr. and Mrs. Orville Bullington left a few days ago for points in Michigan, where Mr. Bullington will transact business.

Within a few days after the last examination had been completed and commencement exercises had been held, a number of the teachers in the public schools left this city to spend the holidays with relatives or to attend summer sessions of normal schools or State universities.

Those who left were Misses Lavinia Randle, who returned to her home in Waco; Miss Clara Parker, head of the Latin department, who after spending a few days at her home in Aubrey, will go to Austin to teach in the summer session of the State University; Miss Murtel Oliver, a teacher in the Austin school, who returned to her home in Cleburne; Prof. and Mrs. George Medders, whose home is in Leonard, Texas; (Prof. Medders has been head of the English department at the high school); Prof. Owen, who will spend several months in Old Mexico, making a personal study of the Mexican revolution and of the Spanish language as it is spoken there; Miss Helen Hickman, a teacher in the eighth grade, who will spend the summer in Sherman, Texas.

Fritz, the little son of Mr. and Mrs. Geo. Taylor, 1005 Eighth street, was five years old Thursday, and to celebrate the event Mrs. Taylor invited about thirty little friends, who spent a pleasant afternoon in the usual children's frolics. Ice cream and cake were served for refreshments.

Proposed Trip By Scouts. The following taken from the Hollister, (Mo.) News of recent date relates to the trip which the local Boy Scouts propose to take during the first part of the month of August, under the supervision of Rev. J. L. McKee, pastor of the First Presbyterian Church, and head of the Boy Scout movement in this city.

The Scouts plan to leave this city twenty-five strong on the first day of August, a special car probably being chartered for their use. They will go to the Presbyterian Assembly of the Southwest, at Hollister, where an entire evening will be given up to them. The clipping is self explanatory:

"Since going to press, Rev. J. L. McKee, D. D. of Wichita, Falls, Texas, has been in Kansas City and has held a long interview with Superintendent Stringfield.

Dr. McKee is to bring 25 boy scouts from Wichita Falls, Texas, to the assembly. The scouts will be accompanied, not only by Dr. McKee, but in all probability by several other citizens of Wichita Falls. They are to have scout headquarters at the Assembly grounds apart from the other camps, and to occupy nine tents arranged in a quadrangle. The scouts will occupy the program for one evening and will give a detailed exhibit

in Scout Craft with special emphasis on the features of scout life adapted to the western prairies.

And we are authorized to issue in their name a challenge to any other scout organization in the Southwest to meet them in an athletic contest on the Assembly athletic field.

It is Texas against Missouri, or Arkansas, or Oklahoma, or Kansas. Where is the bunch that will meet these Texans? For particulars write the Superintendent of the Assembly.

The scouts will also learn a special Hollister yell to use on the train and will scatter advertisements for the Assembly en route. They will come over the Katy to Joplin and from there over the Missouri Pacific—though it is probable that at Joplin the squad will separate and a part will make a cross country "bike" from Joplin to Hollister."

Miss Haynes Entertains. The teachers in the primary department of the Sunday school at the First Presbyterian Church were entertained by Miss Kate Haynes at her home on Eleventh street last Thursday evening.

Her two sisters, Misses Emma and Jodie assisting in the entertainment. Talks on primary work were given by a number of those present among which the talks by Miss Catherine Brothers on a primary model course, Mrs. J. L. McKee on the Sunday school teacher, were especially noteworthy.

Mrs. McKee emphasized the importance of being punctual in attendance and related a number of humorous personal experiences. Dr. J. L. McKee gave an interesting talk on the Sunday School Mission Work. During the course of the evening the question was asked each one present, "Why did you become a Sunday school teacher?" and the answers which were given furnished entertainment as well as instruction.

Ice cream and cake constituted the refreshments served. Those present were Misses Catherine Brothers, Jewel Kemp, Laura Leach, Mrs. E. L. Stone, Mrs. Ed Howard, and Rev. and Mrs. J. L. McKee, in addition to the hostesses.

Plan Ice Cream Festival. The ladies of the Civic League are planning to hold a big ice cream festival in the city park next Tuesday afternoon beginning at eight thirty o'clock in order to raise money to place in the league treasury.

They expect the patronage of the entire city and expect to make elaborate preparations for the event. For the last several days a force of laborers have been at work in the park clearing away weeds, and getting the ground in good condition for the ice cream festival, and there will be plenty of space to accommodate all who attend the festival.

Clyde Smith, aided by his sisters, Misses Theresa and Emma, pleasantly entertained a number of his friends last Thursday evening at his home on Tenth street.

Two furnished the principal amusement for the occasion, although other games were played. Refreshments of ice cream and cake were served.

Those present were Misses Lillian Fain, Helen Stone, Audrey Addicks, Abbie Thompson, Alice Burnside, Bernice Jackson, Zelma Bell, Celia Stayton, Adele Mackechney, Dorothy Beavers, Lucile Hagy, and Messrs Earl Fain, Wilbur Lee, Harold Hamlin, Charley Nolan, Claud Montgomery, Luther Robertson, Henry Robertson, Joe Kall, William Robertson, Otis Nelson, James Barnard, Ell Morgan, Ivy Lawler, and Alfred Carrigan.

Hold Social Session. Members of division of No. 6 of the Woman's Alliance of the First Baptist Church held a social session Thursday evening at the home of their leader Mrs. Judd Presley, 1616 Eleventh street. Each member brought as many pennies as she was years old and the aggregate of the offering was more than \$15. Refreshments of punch and cake were served.

A Girl of the Limberlost

She's the dearest girl in Bookland—a sweet and noble character—beloved by thousands young and old. Her appeal is universal. The story of her life, before and after she met the grand old fellow, is one of the most charming "girl" tales ever penned. "A Girl of the Limberlost" has done for American girlhood what "Freckles" has done for American boyhood. "A Girl of the Limberlost," "Freckles," and "At the Foot of the Rainbow" are the three

TEXAS NEEDS GREAT MEN

XXXV. CUSTOM

PLATO reprehended severely one of his pupils for committing a wrong and the young man said, "Why do you censure me so severely for so small a matter?" and Plato replied, "But custom is no small matter."

Many of our citizens vote a ticket according to custom without reference to party platform or to the ability of candidates. We can permit ourselves to be such complete slaves of custom that we lose our identity and become the property of politicians. No country can prosper where the noble impulses of progress are fettered by the coils of custom and whose citizens follow in blind adherence the paths of habit.

PLATO REPREHENDING HIS PUPIL.

Let him who would mount the rostrum of progress break the shackles of custom and give liberty to thought, and freedom to action; loose the galling chain of habit that binds industry and fetters progress and demonstrate to his fellow-citizens that a scrap heap is a most powerful factor in civilization. Texas Needs Great Men.

TEXAS NEEDS GREAT MEN

XXXIV. BEAUTY

THE GREEKS loved beauty, but ugliness gave them a pain like a blow. They planted in human life a love for the beautiful which has lifted mankind into a brighter world and widened the horizon of human happiness, and the lives of their great men were models of human effort and examples of marvelous achievement which have encouraged and inspired the world.

There is no nobler deed than to plant in the garden of civilization flowers that will blush and bloom and shed their fragrance to future generations.

THE GREEKS LOVED BEAUTY.

Let those who would pluck roses of fame, plant seed thoughts that will blossom along life's highway and laden the atmosphere with progress; scatter prosperity germs in the life of state that will flourish and bring forth the fruits of industry and open up the gates of wonder on a world of opportunities as inviting as a night full of stars. Texas Needs Great Men.

BOTTLE GLASS FACTORY BUILDERS REACH CITY

Fourteen Cars of Material Have Arrived—Work to Be Started Next Week

Thomas S. O'Beare and Robert H. Miller of St. Louis, arrived in Wichita Falls last week to look after the building of the bottle glass factory here. The Lone Star Bottle Company is the name that has been selected for the corporation. Fourteen carloads of material and machinery are on the ground and work will be started on the plant next week. More than forty cars of material are to be used in the construction of the plant. Messrs. O'Beare and Miller have come to Wichita Falls to locate permanent.

PINER AVIS' AUTOMOBILE RECOVERED AT BONITA

The automobile stolen from Piner Avis last Thursday night was found Friday evening stuck in the sand near Bonita, in Cooke county, about seventy-five miles east of this city. Mr. Avis was notified of the discovery by telephone from Gainesville Saturday morning and left Saturday afternoon to recover the machine. Up to the time Mr. Avis was notified of the finding of the machine no arrests had been made.

It is believed daylight came upon the thieves when the auto became stalled in the sand and fearing capture they abandoned it and probably boarded the Katy passenger train at Bonita or walked the remainder of the way into Gainesville.

WICHITA FALLS YOUTH WILL ENLIST IN NAVY.

Ray Spangle and Morris Blank, who for the last year or eighteen months have been engaged in the chicken and horse business in this city, left last night for Dallas, where they expect to enlist as sailors in the United States Navy. They will probably leave in a day or so for San Francisco, where after six months service on a training ship, they will be transferred to one of the big battleships in the United States Navy. Sol Blank, a brother of Morris Blank, left for San Francisco to join the navy several days ago.

One of the First Duties of School In Training of Children

Teach Them to Be Kind, Regular and to Have a Regard For Others

By Dr. MARTIN G. BRUMBAUGH, Superintendent of Schools of Philadelphia

TO FIT THE CHILD FOR EFFICIENT CITIZENSHIP BY TRAINING HIM IN THE COMMON VIRTUES IS THE FIRST DUTY OF EVERY SCHOOL, WHETHER SECULAR OR RELIGIOUS AND WHETHER PUBLICLY SUPPORTED OR PRIVATELY ENDOWED.

A child may reach a high degree of technical perfection, yet if he has been allowed to acquire habits that are offensive to society he is a FRAUD, and education has for him failed of its fundamental purpose. When a child's conduct shows that he is acquiring the principles of KINDNESS, DECENCY, REGULARITY, A REGARD FOR THE RIGHTS AND INTERESTS OF OTHERS and the other qualities that are the very FOUNDATION OF DEMOCRACY you need have no fear about his classroom studies. They will follow logically and naturally. The thing of most importance is the development of moral fiber, a willingness for each to do his share and a determination to do the task before him thoroughly and conscientiously.

For next to a grounding in the common virtues the boy and girl should be taught that whatever the lesson may be it must be tackled CONSCIENTIOUSLY and without the slightest hint of SHIRKING. The secret of a child's success lies in the fact that the habit has been established to do the given task to the BEST OF HIS ABILITY.

When the child enters school he is trained to surrender his own idiosyncrasies and conform to the common law which is built upon the rights of the many. Unless we train the child at the beginning in the broad laws of co-operation he will carry business competition into the conduct of government. He will GRAB FOR WHAT HE CAN GET, and you have the political leech and sucker.

Americans Are Too Tired to Enjoy Their Home Life to Its Fullest

By Madame de TASTAVIN, French Writer

THE American man and woman, the one with his business, the other with philanthropy and outside interests, exhaust themselves mentally and physically to such an extent that they BRING TO THE SANCTUM OF THE HOME ONLY FRAZZLED NERVES AND WORNOUT BODIES. Their exhausted mental condition cannot withstand the strain of extra hard-ship or annoyance, so that a DOMESTIC EXPLOSION OCCURS at the least friction, an occurrence which would be quite impossible if man and wife were not in an abnormal condition of fatigue due entirely to the effort of KEEPING UP WITH AN ARTIFICIAL STANDARD OF LIVING.

I'm always surprised to see how little the idea of the future home enters into the education of the girl of today, American girls especially.

NOW WITH THE FRENCH IT IS QUITE DIFFERENT. EVERY GIRL EXPECTS TO GET MARRIED, AND THE HOME IS HER ESPECIAL PLACE OF BUSINESS, DOMESTIC LIFE HER CALLING, AND, THOUGH SHE MAY NOT ALWAYS FIND HAPPINESS IN IT, SHE TAKES SOME PRIDE IN MASTERING HER PARTICULAR TRADE OF WOMAN, WHICH IN THE HOME IS THAT OF DISBURSEE OF THE INCOME TO THE BEST ADVANTAGE TO HERSELF AND HER FAMILY.

The French girl is taught at school that the HOUSE IS TO BE HER FIELD OF ACTION, and no matter how much interest she takes in outside matters she is impressed with the fact that she must keep the best of her powers, both mental and physical, for her work there. Consequently she LEAVES IT LESS THAN DOES THE AMERICAN WOMAN, who often even entertains at hotels and restaurants.

Japan Will Never Forget Its Debt to This Nation

Baron T. OZAWA, Vice President of the Japanese Red Cross Society

EVER since our country was awakened by the voice of an American prophet-like man calling in the wilderness—I mean Commander Perry on his visit to Japan—we have NEVER BEEN ABLE TO FORGET OUR DEBT TO THIS NATION, which knocked so gently at our doors, like a mother awakening her child in the night.

JAPAN HAS BEEN WARMED UNDER THE WINGS OF AMERICA.

Nevertheless there has been much comment on a war between the United States and Japan. We Japanese never dream of anything like that and never shall. It is utterly ridiculous.

Your country has been OUR BENEFACTOR from the start, nor can we forget, dear friends, that it was under American intervention and on American soil that the treaty of peace after the late war in which our country was engaged was concluded.

WHO CAN DARE BE UNMINDFUL OR UNGRATEFUL TO MOTHER AMERICA FOR HER KINDNESS TO HER CHILD JAPAN?

News From The Oil Fields

SHALLOW PRODUCTION ON DOUGLAS TRACT

Benson and Little are rigging up a gasoline engine to pump oil from their shallow well on the Douglas tract at Electra. They have found a very promising shallow sand on their lease and have already drilled one well with a Star machine and are well down on the second well. Their well is to the 1100 foot sand on the same lease is holding up nicely. With two good sands already discovered and no test made below the 1100 foot sand things are looking pretty good in that part of the field.

Oil News From Baylor County
R. E. Galloway was here Friday and says everything will soon be in readiness for work on the well just north of town. All the machinery and tools will be on the ground this week and he thought drilling would begin in ten days.

A bit for Thompson Bros. on the Hash Kniff went out Tuesday morning. The oil gas well on this lease has been drilled out and enough gas found to run the machinery for the deep well. The finding of this gas encourages the promoters to believe that a valuable strike will be found lower down. The deep well will be drilled close to the gas well and the derrick for it is being erected.

The casing has been straightened up in the Stephens well and drilling started again.

It is said that a heavy salt vein has been struck in the Webb well on Godwin and drilling has been temporarily stopped. According to reports the salt water is thickly coated with oil.

Iowa Park Company.
Iowa Park Herald.
A new oil company has just been organized here taking over the interests of the Dismukes & Oneall interests in this vicinity and also some lot in Woodruff Heights Addition in the Electra oil field, also some leases further up the Denver railroad. The officers of the new company are as follows: John T. Overby, President; R. W. Hyde, Vice-President; J. M. Overby, Secretary and Treasurer.

The main office of the company will be at Iowa Park and they intend to drill on their holdings at Electra. Of course oil should be struck on the Roberts farm west of town, plans might be changed. J. F. Oneall has sold his entire interests in the new company. Mr. Dismuke remaining with the company. Drilling at the Roberts well will be begun again in a few days when the new drillers arrive, and it will be their intention to drill 2000 feet.

The Best Tea Costs You The Least Money

AUTO DELIVERY PHONES 422 & 232

That to the average mind is a paradox which it is hard to believe until tested. A really good tea such as Tetley's Gold Label brand will cost you 35c per 1.4 lb. and if you judged by the price per lb. you would say that it was too high priced for you. But when you spread that cost over the number of cups of tea which that pound of tea will make then you will quickly see the economy, for in this blend there is so much flavor in each leaf that it takes only about one-third as much to make a really good cup of tea as is necessary when cheap blends are used. This tea is packed from the first pickings of the season and that means the most delicate flavor as well as the most flavor per leaf. It is fragrant and every cup will be full of satisfaction and enjoyment. It comes in sealed tins at 35c per quarter pound or 65c per half pound.

HARVESTING WHEAT ON GARDNER FARM AT JOLLY

Believed 500 Acres There Will Produce From 15 to 20 Bushels Per Acre
M. J. Gardner came in from his ranch near Jolly Saturday morning where wheat harvest is now on in full blast. Mr. Gardner has 500 acres sown in wheat there and when he

left Saturday morning 60 acres of it were in the shock and the binders were going ahead steadily. Mr. Gardner says the wheat is shocking up well and he does not believe it has been greatly damaged by the dry weather. Mr. Gardner has long since learned that the best time to discuss the yield is after the grain has come from the separator but he ventured a guess yesterday that the average from his 500 acres would be between 15 and 20 bushels per acre. Others who have seen this wheat estimate the yield higher.

Mr. Gardner says that corn has not been damaged by the dry weather and that if it would stay cool like yesterday could stand fifteen or twenty days more without rain. Oats, he said, was the only crop suffering from dry weather.

DECREASE IN POSTAL RECEIPTS DURING MAY.
Postal receipts in Wichita Falls last month show a falling off amounting to \$256.25 compared with the same month a year ago. The decrease results from a falling off in the sale of stamped envelopes and postal cards. A decrease in these sales means that more will be bought in the month just opened. The May receipts were \$3,105.09.

When Will Our Merchant Marine Again Come Into Its Own?

By Commodore E. C. BENEDICT, Traveler and Explorer

One who can remember the forest of shipping which in 1849 encircled Manhattan island, particularly on the East river, nearly all under the stars and stripes, it is exceedingly humiliating to note the ALMOST ENTIRE ABSENCE OF THAT BANNER AT THE PRESENT DAY.

At that period this country was just recovering from the hard times resulting from the Mexican war, yet our shipping merchants, who did 93 per cent of our foreign trade, made fortunes which are still enjoyed by their descendants. At present the ratio of our foreign shipping is exactly reversed.

AT BUENOS AIRES, ARGENTINA, RECENTLY I SAW AND COUNTED FIFTY-FOUR LARGE OCEAN GOING STEAMSHIPS ANCHORED JUST OUTSIDE THE HARBOR WAITING TO ENTER THE WHARVES, SIX OR SEVEN MILES LONG, ALREADY OCCUPIED BY OTHER STEAMSHIPS. THERE WAS NOT AN AMERICAN FLAG IN THE LOT, WHILE NEARLY EVERY OTHER COUNTRY WAS REPRESENTED.

How long is this condition to continue, and how can the situation be remedied? To one who knows so little about the details as I do it seems simple. Repeal all the legislation which alone has driven this great rich country from the sea and restore the legislation which made this comparatively poor country of 1849 a MONARCH OF THE OCEAN.

We Are a Commercial Nation—The Colleges Should Train Youth Accordingly

By JAMES G. CANNON, Bank President of New York

WE are essentially A COMMERCIAL NATION, a very large proportion of our population being engaged in commercial enterprises. The people of this country are workers in the best sense of the word, and the day has arrived when we must EQUIP THESE WORKERS WITH AN EDUCATION THAT WILL BETTER FIT THEM FOR THE DUTIES THEY ARE OBLIGED TO PERFORM. Our population is shifting very fast in its endeavor to obtain a livelihood, and education must keep pace.

I have read with great interest from time to time the addresses delivered by college presidents expressing their dissatisfaction with the colleges and universities as they are today.

I believe the principal trouble has been that they have NOT RECOGNIZED THAT GREAT CHANGES ARE CONSTANTLY OCCURRING in our population, and, while there has been no lack of students in the majority of our colleges and universities, due to the large increase in our population, there is an unsettled and unsatisfactory note through all of them indicative of the fact that something is lacking.

I FEEL THAT THAT SOMETHING IS A CLEARER VISION OF WHAT THE YOUNG AMERICAN MAN NEEDS TO EQUIP HIMSELF FOR THE COMMERCIAL PURSUITS OF THIS DAY AND GENERATION.

People Must Be United to Fight the Five Great Burdens of Society

By LYMAN ABBOTT, Editor and Author

THE solution of questions of human brotherhood will call for the highest powers of the present generation.

The race problem, the extension of democracy, the lessening of denominationalism in the church, industrial warfare and amelioration of social burdens are THE LEADING QUESTIONS FOR SETTLEMENT IN AMERICA.

We have yet to learn how an inferior and a superior race can live together and preserve their integrity.

THE FIVE GREAT BURDENS OF SOCIETY ARE FAMINE, PESTILENCE, CRIME, POVERTY AND WAR. WE HAVE MADE FAMINE IMPOSSIBLE IN THE UNITED STATES AND ARE MAKING PESTILENCE IMPOSSIBLE. THE OTHER THREE REMAIN.

COTTON BILL IS REINTRODUCED

MEASURE VETOED ONCE BY TAFT IS AGAIN PRESENTED BY DEMOCRATS

EARLY REPORT EXPECTED

Claim That Cost Will Be Reduced to Consumer by Eighty Million Dollars

By Associated Press.
Washington, D. C., June 1.—Representative Underwood, at the direction of Democratic members of the ways and means committee, today reintroduced the cotton tariff revision bill which was passed by the House and Senate at the extra session at Congress and vetoed by President Taft. The ways and means committee will report the bill favorably to the House early next week. The Democrats estimate the revenues from the bill during the first year of its operation would be about \$10,500,000 compared with \$13,000,000 in 1910 and \$12,300,000 in 1911. In its behalf they claim the cost of cotton clothing to the consumer would be reduced by eighty million dollars.

THE BEST PROOF

Wichita Falls Citizens Cannot Doubt It

Doan's Kidney Pills were used—they cured.
The story was told to Wichita Falls residents.
Time has strengthened the evidence.

Has proven the cure permanent. The testimony is home testimony—the proof is convincing.

It can be investigated by Wichita Falls residents.

R. F. Reding, Avenue A Wichita Falls, Texas, says: "My back bothered me for two or three years and the spells often came on without warning. I was so lame across the small of my back that I could hardly bend. My kidneys became disordered and the kidney secretions were too frequent in passage, causing me annoyance. I finally got a box of Doan's Kidney Pills and began their use. They cured me and I have not felt a return of the symptoms since."

The above statement was given June 19, 1908, and when Mr. Reding was interviewed on December 27, 1911, he added: "When occasion requires a kidney medicine we always use Doan's Kidney Pills and know that they will act quickly in bringing relief. You are at liberty to use my statement as best you please."

Stampede in Wheat.

By Associated Press.
Chicago, Ill., June 1.—A selling stampede in wheat today resulted from general rains throughout Kansas and Nebraska, where drought and heat had made the crop situation critical. Prices broke as much as 2 5/8 cents a bushel and closed unsettled, 1 7/8 cents under last night. Corn suffered a setback of three cents. Oats declined from these quarters of a cent to 1 1/8 per bushel. Notwithstanding the big slumping in prices, the wheat market was rallying when trade stopped. Much of the late buying that caused this reaction came from shorts who were taking profits. An important share of this purchasing rally, however, came from leading bulls who believed that western rains were not as beneficial as reported.

No Nation Protects Its Citizens Abroad Better Than Our Own

Native Born
or Naturalized,
All Have the
Backing of This
Great Country

By OSCAR S. STRAUS, Diplomat and Statesman

NO nation has from its foundation on frequent occasions taken a more positive stand upon the principle of nonintervention than the United States.

YET NO NATION HAS STOOD MORE FIRMLY UPON THE RIGHT OF EXPATRIATION AND THE PROTECTION OF ITS CITIZENS, NATIVE BORN OR NATURALIZED, IN FOREIGN LANDS THAN OUR OWN.

Which protection has again and again been exercised on behalf of naturalized citizens, who on their return to the country of origin have been SUBJECTED TO PAINS AND PENALTIES imposed chiefly because they had emigrated and become naturalized in the country of their adoption without first obtaining the consent of their country of origin.

In 1859 Mr. Cass, the secretary of state, in his instruction to our minister to Prussia, said: "The moment a foreigner becomes naturalized his allegiance to his native country becomes severed forever. He experiences a new political birth. Should he return to his native country he returns as an American citizen and in no other character."

This American doctrine of expatriation, coupled with our LIBERAL LAWS OF NATURALIZATION, under which we freely received the emigrants from other countries, incorporated them into our body politic and endowed them with the rights of citizenship, naturally had the effect of more directly AROUSING OUR SYMPATHETIC INTEREST FOR THE OPPRESSED.

In the Hands of Women the Future of the Nation is Now Held

By Dr. J. J. WALSH, Dean of Fordham University
Medical School

JUST before the republic became the empire IMMENSE FORTUNES BECAME VERY COMMON at Rome, and the men made their money in the five classic ways—by speculation in land, by cornering foodstuffs, by insurance and speculation in stocks and bonds, by graft in politics and by subsidiary collecting of taxes.

They collected the taxes directly as proconsuls in the provinces, not indirectly by means of the tariff. THE WOMEN SPENT THE MONEY THAT THE MEN MADE.

With the growth of wealth and luxury CHILDREN BECAME FEWER, divorces more frequent.

Rome fell, and luxury and the desire for wealth with the disappearance of real patriotism were the causes of the fall.

WHETHER HISTORY SHALL REPEAT ITSELF DEPENDS APPARILY MORE ON THE WOMEN, EVER THE ETHICAL ELEMENT IN RACES, THAN ON ANY OTHER FACTOR.

Every City Should Have Ample Facilities For Uplifting Juvenile Delinquents

By Dr. A. S. ORNE, Sociologist and Humanitarian

EVERY CITY SHOULD HAVE AMPLE FACILITIES FOR THE CARE OF THE HUNDREDS OF GIRLS AND BOYS WHO HAVE BEEN DECLARED DELINQUENTS FOR THE COMMISSION OF MISDEEDS, WHICH ARE OFTEN DUE TO THE IGNORANCE OF THEIR PARENTS AND TO THEIR ENVIRONMENT.

We need houses of detention, public buildings where the moral and educational wants of these poor unfortunates can be properly satisfied.

At present in large cities we have no accommodations for these unfortunates and are forced to place girls who are guilty of nothing more serious than truancy in the same institution with the girl—and often the woman—who has fallen entirely from grace. This is a great injustice, and we should never cease in our efforts to see that this wrong is righted.

Miss Anna Trimble, primary teacher in the San Jacinto school is spending a few days with relatives at Quannah. She will next week leave for Chicago at which place she will attend the Chicago University.

NEW WHEAT BIN TO BE PUT ON SALE HERE.

W. C. Heath and C. R. Hine have procured the exclusive right in Wichita county for a patent metal grain bin with a ventilating system, invented by W. T. Paton of Nebraska, and they will place this bin on sale here in the near future.

It is said that the attractive features connected with the new invention include a system by means of which wet or damp wheat or other grain may be placed in the bin and within a few hours will have been dried. The bin keeps wheat from heating, moulding or drying out, and will not permit weevils to congregate inside of it.

In speaking of the invention yesterday afternoon, Mr. Hine stated that more than thirty of the bins are at present in use in Denton county and that not one of them has failed to give satisfaction. They may be bought at a price materially cheaper than the old wooden bins now in use by most of the farmers and can be used not only for wheat and oats, but for almost any other grain that is to be obtained in this section of the state.

OPEN AIR SCHOOL IS ITALIAN IDEA

PLAN IS MODELED AFTER BOY SCOUT MOVEMENT IN THIS COUNTRY

BIG CAMP FOR CHILDREN

Those Who Make Best Grade in School Are Chosen For Summer Outing

By Henry Wood, Rome Correspondent of the United Press.

Rome, June 1—Rome will this month conduct its second annual experiment with the "Campi Scolastici" or open Air Schools for the merit pupils of the public schools. Although it was admitted that the inspiration for this new phase of the public school system of Italy came from the Boy Scouts movement, its promoters claim for it not only many original ideas but also the distinction that it is the only experiment of its kind now being made in the world.

Under the system that was put into practice last year for the first time, eighty children are selected at the close of the spring term of schools from among the most studious, the best behaved and always from among the poorer pupils of the entire school system of Rome. These pupils are then sent on a summer camping and studying trip of 46 days in the famous Alban Hills some fifteen miles out from Rome.

The children who always range from ten to fifteen years of age, are equipped as Boy Scouts, and are then divided into four parties of 20 pupils each. They march out from Rome under the guidance of masters and assistants, with a full commissary department behind and after reaching the Alban Hills, establish four separate camps in different parts of the mountains. Ten days are spent in each camp, the four parties alternating with each other in the four separate localities.

Each camp is provided with masters, two drummers, a person who oversees the cleanliness of the children as well as the sanitation of the camp; a steward who attends to the expenses of living and producing of rations; a post boy, a librarian, a library of 10 volumes and a study tent for the various classes that are held daily.

Ajude from the study and actual work done by the boys themselves the camps serve as an experiment station for the observation of the children studying under various conditions, various diets and under various methods of discipline. One phase of child life in Italy to which special attention has been given is the effect upon the students of the wines of the country, which are drunk in all the homes of Italy and to which the children are accustomed almost from infancy. It has been definitely established that the children when deprived of the wine at the camps, make not only much better progress in their studies, but withstand much better the fatigue of the marches and other physical exercises that are always a part of camp life. The data secured on this one subject alone is already being made the basis of a crusade in Italy to keep the children from being given wine with their meals.

Last year when the first scholastic camp was held, Queen Elena motored out one day and dropped in unexpectedly and unannounced upon the camp. The boys were allowed to give her a rousing cheer and then under the military discipline of the camp returned instantly to their studies. This year a repetition of her visit and possibly a visit from the King himself is being looked forward to with great pleasure.

With all the patriotic enthusiasm of which the Italian people are capable, they have just made known their determination that the national popular subscription for the presentation to the nation of an aerial fleet is not to be closed until it exceeds the similar subscriptions now under way in both France and Germany. It is also the announced intention of the Italian people to make this subscription so much larger than that of either of the above mentioned countries as to insure Italy's having the largest aerial fleet in the world.

To the enthusiasm for this subscription which has been created by the accomplishments of the aeroplanes and dirigibles in actual warfare in Tripoli has been added fresh impetus by the lionations that have just been made by the Royal family. From his private fortune, King Victor Emanuel has given 100,000 lire, enough to buy five aeroplanes, and Queen Mother Margherita has added another 20,000 lire for a sixth royal addition to the aerial fleet.

The entire popular subscription now amounts to 2,000,000 lire and this sum has been raised in less than half the time that was necessary to raise similar amounts in both France and Germany. A large representation in the aerial field is also being maintained by the Italians living in other countries, especially those in the United States and South America.

United States, Ambassador Thomas J. O'Brien has just deposited with the Banca d'Italia nearly \$4,000,000 as Italy's share in the Carnegie Foundation Fund. The investments which

have been provided for this by Ambassador O'Brien, as President of the Italian branch of the Carnegie Foundation, will insure an annual revenue of about \$2,000. The distribution of this as rewards for acts of heroism will be in the hands of Ambassador O'Brien's local committee.

Synopsis—A pilgrim starting out the morning of life is perplexed and the way divide into two paths, one leading up a rough height, the other winding down through trees and flowers. On turning to the left she is warned by a science to consult her guide before making choice of a new road. While thus deliberating, the dwellers of the Valley and of the Heights enter, and, each in turn, strives by fair promises to win her to their cause.

"The Man Who Wants to Shed His Skin and Sit in His Bones"

as a warm weather solace was in the mind's eye of the man who planned these two-piece suits of craveneted mohair. Anything lighter or cooler, or more comfortable in the way of men's attire would be hard to imagine. You know how light your mohair office coat feels—Well, just picture a whole suit of specially woven mohair, with just enough lining in it to insure stability.

BOYS THROW WALNUTS AMONG CROWD AT CONCERT

The Wichita State Band gave an unusually good program at the court house yard Sunday afternoon and it was enjoyed by a large crowd. Complaint, however, has been made of the actions of some small boys, who in throwing sticks into the walnut

rees to knock down green walnuts and afterwards in throwing the walnuts at each other made women and children present apprehensive for their safety. No one was hurt and the officers will see that the antics of the boys are not continued next Sunday.

Should Trusts Be Curbed by Government Ownership or Regulation?

Trusts Controlled Properly Are All Right

By SAMUEL UNTERMYER, Lawyer, of New York

SAMUEL UNTERMYER

Operate Them For the Advantage of All

By MORRIS HILLQUIT, Lawyer, of New York

IF the government acquired our railroads it would presumably have to pay for them by some sort of interest bearing obligation. On the unwarranted assumption that they were always as prosperous as they are today could the government get this money on any basis of less return than is now being paid?

The return on invested capital is about 3 per cent, while 75 PER CENT OF THE TOTAL ANNUAL REVENUE HAS BEEN DISTRIBUTED TO THE LABOR INCIDENT TO THE OPERATION of the properties in one form or another, while the return by way of dividends and interest has been less than 25 per cent of the operating revenue.

How much better distribution of the revenues of this industry could be expected under any other system?

GOVERNMENT MONOPOLY WOULD RESULT IN THE DECLINE OF THIS COUNTRY AS AN INDUSTRIAL NATION.

THE recent attempts to break up the Standard Oil company and the American Tobacco company were futile. Nobody could see that prices had gone down nor can anybody see any competition between the parts.

As for regulation, it won't work either. GOVERNMENT OWNERSHIP IS THE ANSWER. THE GOVERNMENT WILL MANAGE THE INDUSTRIES, DIRECT THE OPERATIONS AND DO THE ACCOUNTING OF THE TRUSTS AND LEAVE TO THE OWNERS PRACTICALLY NOTHING BUT THE TASK OF COLLECTING THEIR PROFITS. THERE IS NO ESCAPE FROM THIS CONCLUSION.

Government ownership would mean that trusts would be OPERATED FOR THE ADVANTAGE OF ALL, the owners being also the consumers. It would not tend to corrupt practices in politics, and there would be NO MORE STOCK GAMBLING and no more abnormally rich men and no more paupers.

Best and Manliest Boys Are Those Taught By Women Teachers

By Miss GRACE STRACHAN, President of the Interborough Association of Women Teachers of New York

AMERICAN boys and young men are not effeminate because of their being taught by women teachers in our schools.

I BELIEVE THAT THE BEST AND MANLIEST AND MOST WORTH WHILE BOYS ARE THOSE WHO ARE UNDER THE GUIDANCE OF A COMPETENT WOMAN TEACHER.

I believe that she, better than most men, can bring out the fine natural traits; can make her boys HIGH MINDED AND CLEAN AND STRONG. She doesn't weaken them, but she does refine them, and her influence is exactly what they need most at the critical formative period.

The games, the work, the companions, of the average boy are so intensely and invariably masculine he needs something to BRING OUT HIS GENTLER CHARACTERISTICS. Sometimes his mother effects this, but in the large cities the teacher is thrust into the mother's place on many occasions. She gives the REAL SOFTENING MATRERNAL INFLUENCE to many a growing boy. But she doesn't make him effeminate. "The bravest are the tenderest," you know; "the loving are the daring."

The Bravest Men Are Those Who Are Best Educated

By Rev. WALTER T. SUMNER, Social Worker

THE BRAVEST MEN ARE THOSE WHO ARE THE BEST EDUCATED. CULTURE BEGETS RESTRAINT, AND THOSE WHO WIN PRAISE FROM THE WORLD FOR ACTS OF HEROISM ARE THOSE WHO ARE FAMILIAR WITH THE WORKS OF OUR NOTABLE AUTHORS.

This is aptly shown by the recent Titanic disaster. Those who gave up their lives the most willingly, those who stood back that the helpless might take their places in lifeboats and go to safety, were the men of the world whose names are known to everybody through their great enterprises, which were MADE POSSIBLE ONLY BY EDUCATION.

They had studied and learned. When they were put to the test they were not found wanting. If we educate the poor they will LEARN TO CARE FOR OTHERS AS WELL AS FOR THEMSELVES.

Henderson Reducing Corsets---

It has been convincingly demonstrated that the only hygienic method of anatomically displacing and reducing superfluous flesh is by means of the *Henderson Reducing Corsets*. This corset, which has been specially designed for large women, is patterned upon scientific principles that will enable the wearer to reduce and modify her figure to fashionable, pleasing lines.

We can fit you accurately in a *Henderson Reducing Corset* that has been individually designed to reduce your figure to harmonious proportions. This corset has attached reducing appliances that enables the wearer to make reductions up to five inches. This is done while the corset is on the figure which is the only hygienic method of reduction. These adjustments are made gradually until this desired reduction is obtained. The appliances release instantly when given a reverse pull.

WICHITA, KANSAS, WANTS WICHITA FALLS ROUTE

Interview Published in that City Points Out Advantages of the Northwestern.

The following is from a Wichita (Kan.) paper:

A Wichita business man today wanted to know why Wichita does not go after the Wichita Falls & Northwestern railroad and try to get it to build to Wichita. The road is being constructed rapidly and has train service as far as Woodward, Okla. It is headed toward Denver, Colo.

"This road is one that will do things," he said, "and I think that Wichita is a little slow that she does not try to get this road. It goes through a country that Wichita does not touch and which will mean plenty of business for the town which is the outlet. It looks now like this section of the country through which the road will go would send its products to a Texas or Colorado port."

"With Wichita claiming to be the peer among cities of the Southwest it seems to me that something should be done to turn the business from this territory to Wichita. That road is making progress like it means business. If the right inducements were offered this road I think that something could be done toward letting Wichita in on the benefits."

According to F. C. Fox, general manager of the Santa Fe west lines, who was in Wichita Tuesday, unless Wichita gets after the business which the Wichita Falls & Northwestern railroad is bound to haul, Wichita is going to miss a rich field.

"Wichita has controlled that territory," he said, "for several years but this new road offers better transportation advantages which those living in that section will use. Before this road was built, it was necessary to make long hauls to get the products to the railroads. These brought it in to Wichita."

"It cannot be expected that these farmers will continue to make their long hauls with a road handy. As a result there is going to be a falling off in what Wichita goods had from that section of the country."

When Mark Twain Wrote to Queen Victoria

(Chicago News)

Mark Twain once wrote a letter to the late queen of England—a characteristic letter. He never mailed it to her, but she undoubtedly read it for all that; for after it was printed in the English edition of Harper's Magazine for December, 1887, it was reprinted in the London newspapers, which sold several thousand extra copies thereby. Its burden was that the author was nontaxable, being an author.

"Madam," he wrote, "you will remember that last May Edward Bright, the clerk of the island revenue office, wrote me about a tax which he said was due from me to the government on books of mine published in London—that is to say, an income tax on the royalties. I do not know Mr. Bright, and it is embarrassing for me to correspond with strangers, for I was raised in the country and have always lived here, the early part in Marion county, Missouri, before the war, and this part in Hartford county, Connecticut, near Bloomfield, and about eight miles this side of Farmington, though some call it nine, which it is impossible to be, for I have walked it many and many a time considerably under three hours, and Gen. Hawley says he has done it in two, and a quarter, which is not likely; so it seemed best that I write your majesty. It is true that I do not know your majesty personally, but I have met the lord mayor, and if the rest of your family are like him, it is but just that it should be named royal; and likewise plain that in a family matter like this I cannot better forward my case than to frankly carry it to the head of the family itself."

"I have also met the prince of Wales, once in the fall of 1873, but it was not in any familiar way, but in a quite informal way, being casual and was, of course, a surprise to us both. It was in Oxford street, just where you come out of Oxford into Regent Circus, and just as he turned up one side of the circus at the head of a procession. I went down the other side on the top of an omnibus. He will remember me on account of a gray coat with flap pockets that I wore, as I was the only person on the omnibus that had on that kind of a coat; I remember him, of course, as easy as I would a comet. He looked quite proud and satisfied but that is not to be wondered at, as he has a good situation. And once I called on your majesty but you were out."

"But that is no matter; it happens with everybody. However, I have wandered a little away from what I started to write about. It was this way: Young Bright wrote my London publishers, Chatto & Windus—their place is the one on the left as you come down Piccadilly, about a block and a half above where the minstrel show is—he wrote to them that he wanted them to pay income tax on the royalties of some foreign authors, namely, Miss de la Rame (Ouida), Dr. Oliver Wendell Holmes, Francis Bret Harte and Mark Twain. Well, Mr. Chatto diverted him from the other authors and tried to divert him from me, but in this case he failed. And for only that, but he sent me a printed document that the more you study the more it underlines you; and so, while in that condition and not really responsible for my acts, I wrote Mr. Chatto to pay the tax and charge it to me. Of course, my idea was that it was only for one year and the tax would be only about 1 per cent or along there somewhere, but last night I met Prof. Sloane of Princeton—you may not know him, but you have probably seen him every now and then, for he goes to England a good deal, a large man and very handsome and absorbed in thought; and if you have noticed such a man on the platform after the train is gone that is the one; he generally gets left, like all those specialists and other scholars who know everything but how to apply it—and he said it was a back tax for three years, and not 1 per cent but 2 1/2."

"That gave what had seemed a little matter a new aspect. I then began to study the printed document again to see if I could find anything in it that might modify my case and I had what seems to me quite promising success. For instance, it opens thus—polite and courteous—the way those English government documents always are: I do not say that to hear myself talk, it is just the fact, and it is a credit."

"To Mr. Mark Twain. In pursuance of the acts of parliament for granting to her majesty duties and profits, etc."

"I had not noticed that before. My idea had been that it was for the government, and so I wrote to the government; but now I saw that it was a private matter, and that the proceeds went to yourself not to the government. I would always rather treat with principals and I am right glad I noticed that clause. With a principal one can always get at a fair and right understanding, whether it is about potatoes or conditions, or any of those things, or something entirely different; for the size or nature of the thing does not affect the fact, whereas as a rule subordinates are more or less troublesome to satisfy. And yet this is 'hot' against them, but the other way. They have their duties to do, and must be hardened to rules and not allowed any discretion. Why, if your majesty should equip young Bright with discretion—I mean his own discretion—it is an even guess that he would discretion you out of house and home in two or three years. He would not mean to get the family into straits, but that would be the upshot just the same."

"Now then with Bright out of the way, this is not going to be any Irish question; it is going to be settled pleasantly and satisfactorily for all of us, and when it is finished your majesty is going to stand with the American people just as you have stood for fifty years, and surely no monarch can require better than that of an alien nation. They do not all have a British income tax, but most of them will in time, for we have shoals of new authors coming along every year; and of the population of your Canada upward of four-fifths are wealthy Americans, and more going there all the time."

"Well, another thing which I noticed in the document was an item about deductions. I will come to that presently, your majesty. And another thing was this—that authors are not mentioned in the document at all. No, we have quarries, mines, iron works, salt springs, alum mines, water, fishings, fairs, tolls, bridges, ferries and so forth, and so forth and so on—well, as much as a yard or yard and a half of them I should think—anyway—a very large quantity or number. I read along down, and down and down the list, further and further and further, and as I approached the bottom my hopes began to rise higher and higher, because I saw that everything in England—that far, was taxed by name and in detail except perhaps the family, and may-be others. Apparently they were going to be overlooked. And sure enough they were. My heart gave a great bound. But I was too soon. There was a footnote in Mr. Bright's hand, which said: 'You are taxed under schedule D, section 14' I turned to that place and found these three things: Trades, offices, gas works."

"Of course, after a moment's reflection, hope came up again, and then certainly. Mr. Bright was in error and clear off the track, for authorship is not a trade; it is an inspiration; authorship does not keep an office, its habitation is all out under the sky and everywhere, where the wind sows holwing and the sun is shining and the creatures of God are free. Now, then, since I have no trade and keep no office, I am not taxable under schedule D, section 14. Your majesty sees that; so I will go on to the other things that I spoke of, the deductions—deductions from my tax which I may get allowed, under conditions. Mr. Bright says all deductions to be claimed by me must be restricted to the provisions made in paragraph No. 8, entitled 'Wear

and tear of machinery or plant.' This is curious and shows how far he has got away on his wrong course after he has got started 'wrong, for offices and trades do not have plants, they do not have machinery, such a thing was never heard of; and, moreover, they do not wear and tear. You see that, your majesty, and that is true. Here is the paragraph No. 8: 'Amount claimed as a deduction for diminished value by reason of wear and tear, where the machinery or plant belongs to the persons or company, so that the lessee is bound to maintain and deliver over the same in good condition.'

"Amount—
"There it is—the very words.
"I could answer Mr. Bright thus: 'It is my pride to say that my brain is my plant, and I do not claim any deduction for diminished value by reason of wear and tear, for the reason that it does not wear and tear, but stays sound and whole all the time. Yes, I could say to him, my brain is my plant, my skill is my workshop, my hand is my machinery and I am the person carrying on the concern; it is not leased to anybody, so there is no lessee bound to maintain and deliver over the same in good condition. There, I do not wish in any way to overrate this argument and answer, dashed off just so, and not a word of it altered from the way I first wrote it, your majesty, but indeed it does seem to pulverize that young fellow; you can see that yourself. But that is all I say, I stop there; I never pursue a person after I have got him down.'

"With always great and ever increasing respect, I beg to sign myself, your majesty's servant to command."

"MARK TWAIN."

Christian Tent Meeting.
Evangelist A. W. Young, who is conducting the meeting with the Church of Christ, under the tent at Fourteenth and Travis streets, preached at both services yesterday. His subject last night was "The Devil's Sarcophagi," which, he said, were the excuses which Satan helped folks to invent, and which they offered as reasons for not becoming Christians, or living the Christian life. He said there was no such a thing as a reason for not being a Christian, while there were plenty of excuses. Some men's excuse was that they are hypocrites in the church, and it was true but the hypocrite competed with no one who was not in the same line of business, he said, and if one stumbles over a hypocrite he must admit that he was ahead of him or he was going backward.

Large crowds attended both services, the seats not being sufficient to accommodate the night congregation. The meeting will continue throughout the week. The subject for the sermon tonight is "The Witness of the Spirit."

ICE CREAM FESTIVAL AT CITY PARK TOMORROW

Ladies of Civic League Will Use This Means of Raising Funds—Program is Prepared.

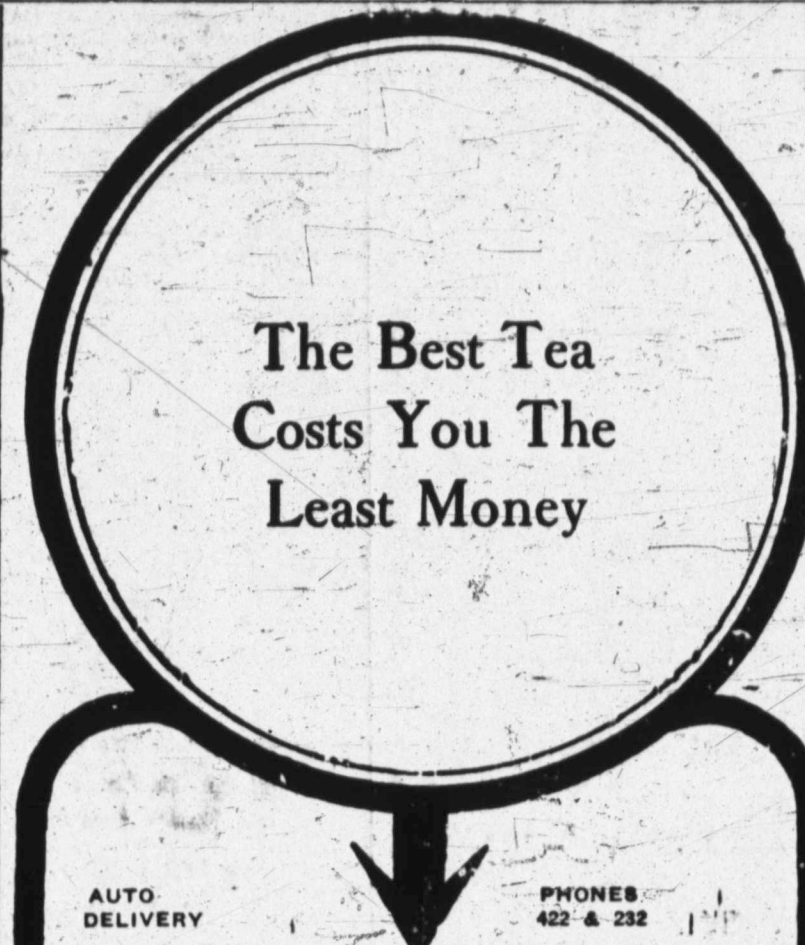

Plans for the Civic League's ice cream festival tomorrow evening at the City Park are progressing in a most satisfactory manner, and it bids fair to prove one of the most successful events of a like nature ever held in this city.

For the last week or more a large force of laborers has been employed in clearing the park of weeds, and grass and that work now being practically completed, there will be plenty of room to accommodate all who attend the festival. Speeches by one or two prominent citizens, and the playing of music will furnish features of entertainment for which no charge will be made, and it is expected that the occasion will call forth a large attendance.

During the course of their work along lines of civic improvement and in other ways, the members of the league discovered several years ago that it is almost essential that they keep on hand a reserve fund of cash, yet it has proven a difficult matter for them to keep any money in the treasury on account of the many matters which are always demanding attention. They have resorted to various methods of raising money; in most of which they have proven successful and the sums secured have been expended in improvements. The ice cream festival tomorrow evening is being held for the purpose of relieving a temporary lack of funds.

TWO NEW PASSENGER CLERKS ON NORTHWESTERN.

T. H. Ewing of Chillicothe, has been appointed to a position in the general passenger department of the Wichita Falls Route. Another clerk will also be put on tomorrow. The additions are made necessary by the increase in business growing out of the extension of the line, and the general improvement in traffic.

That to the average mind is a paradox which it is hard to believe until tested. A really good tea such as Tetley's Gold Label brand will cost you 35c per 1-4 lb. and if you judged by the price per lb. you would say that it was too high priced for you. But when you spread that cost over the number of cups of tea which that pound of tea will make then you will quickly see the economy, for in this blend there is so much flavor in each leaf that it takes only about one-third as much to make a really good cup of tea as is necessary when cheap blends are used. This tea is packed from the first pickings of the season and that means the most delicate flavor as well as the most flavor per leaf. It is fragrant and every cup will be full of satisfaction and enjoyment. It comes in sealed tins at 35c per quarter pound or 65c per half pound.

Your account for June will be appreciated.

TWO GERMAN AVIATORS KILLED IN SUNDAY FLIGHT.

Bremen, Germany, June 3.—Albert Buchtaetter, one of the best-known of the German aviators, and his passenger, Lieutenant Stille of the German army were killed Sunday when their monoplane plunged to the ground just after starting on the northwest aviation circuit of 425 miles.

The monoplane, guided by Buchtaetter, rose and was taking a curve preparatory to straightening out for the long journey when the accident occurred. Apparently the aviator overbanked his machine. The monoplane dropped so heavily that it was half buried in the earth and had to be taken apart before the bodies of the men could be extricated.

Fifteen professional aviators, with members of the army aviation corps, as passengers, had entered the contest, but after the accident the flight was abandoned. The calamity was witnessed by a distinguished gathering, among which was the Grand Duke of Oldenburg.

to Germany last summer began with good weather today. They met the president's boat at Old Point Comfort.

SEVERAL TOWNS SEEKING THE ARDMORE FRANCHISE.

There seems to be little doubt in Texas-Oklahoma league circles that some changes will be made in the league line-up after June 10. The Ardmore franchise, it is understood, has been put on the market, with Ada and Hugo, Okla., and Gainesville, Texas, seeking it.

CHIEF STAMPFELI HURT WHEN GOING TO FIRE.

Chief V. E. Stampfli of the fire department desires to express his thanks to the Wichita Falls Ice Company for a letter containing a twenty-dollar check sent to him by the ice company in recognition of the services which the fire department rendered last Friday when a quick response was made to an alarm of fire, and the flames were brought under control in record time.

Oklahoma Fruit Crop. (Leedy Herald) Reports from over the state are to the effect that the peach crop is going to be the best it has been for years.

The Fruit Growers' Association of Logan county have already ordered nine car loads of packing material and the estimates on the probable outbound shipment of fruit will run all the way from three to five hundred carloads.

Pottawatomie county which for years has been a great shipper will also have a record harvest this year.

Prospects for a fruit crop throughout Western Oklahoma are said to be good. Since we have railroad facilities our farmers should extend their orchards, crops as there will now be a market for everything grown on the farm.

Text: 'It is only natural that a powder which soothes and refreshes your skin will bring comfort and beauty. No housewife would think of paying the same price for every baking powder on the market. There is just as much difference in talcum powders, but few people know it, and all powders sell at about the same price. You owe it to yourself to be careful what you put on your face. It is just as important as what you eat. The talcum we sell is made from the purest and best materials. It costs us more than the other kind but it DOESN'T COST YOU ANY MORE. If it pays us to sell this kind on a far smaller margin of profit, it stands to reason that it pays you to buy it.'

Does Old Pide

act like a one legged man trying to do a skit dance while you are milking her? Does she squirm around like a chicken on a hot stove and dip her candle appendage in the milk bucket and slap you in the face with it? These are some of the pleasures of milking in fly time. We have solved the fly problem with our FLY CHASER, a twenty-five cent bottle is worth a dollar to milk one time. Get a bottle and quit kicking your toes sore and wearing out all the surplus lumber around the barn on the cow when she is not to blame. We have several things that we would sell besides fly chaser, but right at present we are busy comforting the cows.

DECLINES TO SUPPORT ROOT FOR CHAIRMANSHIP. Madison, Wis., June 3.—Governor Francis McGovern of Wisconsin, chairman of the Wisconsin delegation to the Republican National convention, in a telegram answering an appeal by William Barnes, Jr., of New York refused the support of Wisconsin for Senator Elihu Root as temporary chairman of the convention. Gov. McGovern's reply said Senator Root represented political views and methods that should not be sanctioned at the Chicago convention and that Root's election would invite defeat in November. In a telegram to the Governor Mr. Barnes had sought the support of twenty-six Wisconsin delegates, all of whom had been pledged to Senator La Follette's Presidential candidacy.

DEMOCRATS GETTING READY FOR CONVENTION.

Baltimore, Md., June 3.—With the removal from Washington to this city next week of the National headquarters of the various candidates for the Democratic Presidential nomination, the real activities of the contest will center here. Headquarters to be moved here are those of Governor Woodrow Wilson, Speaker Champ Clark, Gov. Judson Harmon and Oscar W. Underwood.

Secretary Urey Woodson of the National committee is expected in the city the first of the week to open headquarters. The meetings of the National committee will be held in the Fifth Regiment Armory and the Belvedere Hotel.

The committee will have few, if any, contests to pass upon, its chief work being to select the temporary officers of the convention and approve arrangements that have been made at the armory.

CUNARDER IS BADLY DAMAGED AT LIVERPOOL.

Liverpool, June 3.—A serious fire broke out on the Cunard steamer Carmania, lying at her dock Sunday afternoon. The damage is estimated at many thousands of dollars. The hull was not injured, but a large quantity of cargo aboard was probably badly damaged by water. The origin of the fire is not known.

The scheduled sailing of the Carmania, June 4, has been canceled. The Carmania had a narrow escape from total destruction. The flames towered above the bridge and smoke poured from every aperture amid the ship. So much water was poured into the vessel that she listed heavily and was prevented from capsizing only by her moorings. Much apprehension was caused by a report that the Carmania had 1,000 barrels of oil aboard.

The whole dining and reception saloons and a great portion of the superstructure were destroyed. Repairs will likely occupy two months.
