

BASEBALL SALE NOT YET CLOSED

ATTENDANCE ON REMAINING DAYS OF FIRST SEASON TO DECIDE

LADIES' DAY TOMORROW

Fair Sex Will Be Admitted Free—Two Offers For Franchise Are Received

Wichita Falls still has a franchise and baseball team this morning, but it still remains to be seen if she will have them by the day after tomorrow.

Two offers to buy the team and franchise have been submitted. One is known to come from McKinney and the other is understood to come from Hugo, Oklahoma.

With tomorrow's game the first part of the season will end and the new club with only six clubs entered, will begin. This schedule is to be arranged this morning at Sherman, where a meeting of the club owners will be held.

At tomorrow's game the management will admit free of charge all ladies accompanied by an escort. This is the first time this has been done here and it is expected to prove a popular innovation.

Some idea of the financial end of the baseball management may be obtained from the fact that there must be at least 350 paid admissions to a game to make expenses. The expenses include the guarantee paid to the visiting club, the salaries of the home players and of the necessary attendants, and other incidentals.

As is generally known the local team is backed by the traction company. That company, however, is operating the team as a business proposition and cannot keep it going indefinitely without some semblance of support from the fans.

During the past three weeks the Wichita Falls team has made a record that would draw a crowd of one thousand people out in any other city in this league.

The attendance today and tomorrow more particularly tomorrow, will determine whether the team will be kept here. Needless to say the management of all those backing the team financially want to see it kept here if it is at all possible, but they feel that the limit has been reached and that it is now up to the fans.

OKLAHOMA'S ORGANIC LAW MODEL FOR CHINA

One of Chinese States Said to Have Adopted Constitution for Its Own

By Associated Press. Tulsa, Okla., June 8.—The Oklahoma Constitution has been adopted by the State of Foo Chow, China, according to a statement made here today by Rev. John C. Magee, a Tulsa minister.

STEAM ROLLER IS ON THE JOB

REPUBLICAN COMMITTEE HAS DECIDED FOR TAFT EVERY TIME SO FAR

SOUTHERN REPUBLICANISM

Interesting Sidelights on Party Organization Shown—Negro Attorneys Heard by Committee

By Associated Press. Chicago, Ill., June 8.—Forty-eight was the total number of delegates to the Republican convention turned into the Taft column today by the National committee's decision upon contests from Arkansas, Florida and Georgia.

The Roosevelt contestants lost every case, as they did yesterday. Ten of the Georgia districts, twenty delegates, went to Taft. In one blanket decision, both sides agreeing to their being decided upon the same argument as had served in the case of the four delegates-at-large which had just been given to Taft.

The cases passed upon today were: Arkansas, third, fourth, fifth and seventh congressional districts, twenty delegates each; eight in all. The sixth district was not contested; the delegates are listed as unopposed.

Florida—the six delegates-at-large and all three districts, the entire State representation, twelve in all. Georgia—the four delegates-at-large and all of the twelve congressional districts, each with two delegates in all.

This clears the docket for the taking up early next week of the cases upon which Roosevelt is laying far more stress than those from the South. For example, the cases from Indiana which probably will be taken up when the committee convenes Monday. There still remain in alphabetical order the six delegates-at-large from Arizona and the fourth congressional district of California.

It was a day of publicity for Southern Republican organizations. Starting with the last three districts of Arkansas the committee went through that State and Florida and Georgia in which all the Taft delegates had been contested. In each instance decision was reached after full hearing of the facts in the case and in only one instance did the Roosevelt leaders ask for a full test of strength. That was in the fifth Arkansas district, where charges of violence and fraud were made by both sides.

On roll call, one who has hitherto usually voted with the anti-Taft contingent, DuPont of Delaware, voted with the Taft people.

Not all the viva voce votes were unanimous. Negatives were heard on many, but there was no way of surely identifying the voices. In such other cases as the roll call was asked for, especially by the Taft men, it was desired in order that the committee might go unanimously on record in favor of seating the delegates.

Roosevelt men on the committee or those who have indicated support of Roosevelt contestants ask searching questions and repeatedly prolonged the allotted half hour of discussion in their desire to establish the merits of the contest. At the noon hour the demand for test votes became less numerous and in the majority of the Florida and Georgia cases the Taft delegates were seated viva voce.

A scattering of "no" greeted the majority in the Georgia contest. With opposing negro attorneys presenting the question of regularity in Florida and Georgia and with the Taft and Roosevelt contest managers asserting their opinions in vigorous language as to the character of Southern Republicanism today's session took on an interest that held the committee closely. The Georgia contests were of a distinctly legal character.

Ormsby McHarg, the Roosevelt attorney, contended that the Taft convention was held at a time and under a call that could not be legal because the annual registration list had not been approved.

This contention was denied by the Taft delegates. Their negro attorneys furnished however, but part of the argument. The Taft forces led by Henry L. Johnson, a negro attorney of Atlanta, whose argument was frequently applauded by the committee members, characterized the Roosevelt contest in Georgia as an "after thought" and declared there had been no objection.

STEAM ROLLER IS ON THE JOB

(Continued from page 1)

been no question in Georgia as to the interpretation of the State law "until the advent of a stranger from the north," who reached the State about April 15. They did not name "the stranger" but the committee laughed as if they thought they guessed his identity.

After the Arkansas case had been decided, Committeeman Lowden of Illinois insinuated laughingly that Gen. Howell Clayton, the veteran leader of the Arkansas delegate at large had himself instigated the contest against his faction. From Florida in the cases of the delegation at large came two contesting delegations each regarded as pro-Roosevelt and each hostile to the other as well as to the Taft delegates.

Some interesting sidelights were thrown upon the Republican situation in the South and in spite of the intensity of feeling between factions the committee was several times in roars of laughter over the recital of amusing episodes without regard to factional sympathies.

Some of the hottest contests were from districts where white Republicans are scarce.

The case of the six Florida delegates at large was decided in favor of Taft delegates and the first, second and third districts with two delegates each went to Taft. Mr. Chubb, as National committeeman, demanded a record roll call on the Florida delegates at large.

"I want this committee," he said, "to eternally set down on such damnable contests as these." The motion to seat the "Chubb" delegates, was unanimous, 44 to none. The only fight in the day culminated in a test vote of 42 to 10.

It was over the fifth district contest of Arkansas that the first test vote came. The majority stood solid and decided in for Taft.

Cecil Lyon of Texas and Bjerben of the District of Columbia were listed as "not voting." Senator Borah who has thus far led the Roosevelt contingent was not present at the morning session, even by proxy. When the fifth district contest was put to a vote, Committeeman Burnam of Kentucky, a Roosevelt man, moved to substitute for the motion to seat the Taft delegates, a provision for the seating of both delegations with half a vote each. This was defeated by the first test vote of 42 to 10. The original motion then carried by a viva voce vote. The next case was the last from Arkansas, that of the seventh district.

William Flynn of Pittsburg, Roosevelt leader whose claim was heralded by reports of possible demonstrations in and about the Republican National committee headquarters arrived today and declared rumors which preceded him were less substantial than this air.

"I am not here to start a rough house. I have no monkey wrench to throw into the steam roller to break its bearings," said Mr. Flynn. "I am here simply to do what little I can to further the nomination of Col. Roosevelt. I don't think I shall attend and sessions of the committee."

Mr. Flynn said that whether Col. Roosevelt would come to the convention depended on circumstances.

"The question of a possible bolt," he said, by the Roosevelt men was carried by Mr. Flynn who added "it all depends on the outcome of the contests. If the steam roller crashes along without regard to justice, it will be time enough to think of that question."

Those in close touch with Roosevelt headquarters say it has been decided to have Roosevelt come to Chicago as soon as possible. He is said to be in personal communication by phone with Senator Dixon and Mr. Perkins and also to have made numerous suggestions to them during the progress of a conference lasting most of the day.

The National Roosevelt committee in a statement issued this afternoon indicated that all of the Roosevelt strength would be centered against the seating of contesting Taft delegates from Georgia and that the big fight in the deliberation of the national committee would come with the calling of the Georgia contest.

The arrival of William Flynn, of Pittsburg, the departure of George W. Perkins for Ohio, an all day conference of a score of prominent leaders and announcements that the demonstration for their candidate would take place here Wednesday marked the activities of the Roosevelt campaign managers today. Tonight further interest was aroused by semi-official announcement that Roosevelt would be here in person by Thursday, possibly earlier.

Ge. W. Perkins, just before leaving, was quoted as stating that he had made reservation for Roosevelt at a Chicago hotel. John G. Clinch, an officer of the Spanish American War Veterans also said that he had received information direct from Oyster Bay that Roosevelt would be in Chicago by next Thursday in time to address a reunion of the veterans on Thursday night.

Tonight, Senator Dixon, of Montana, Roosevelt's manager, said the Colonel would not come. The expected Wednesday afternoon demonstration was the outcome of today's conference at Roosevelt headquarters. Telegrams were sent to Roosevelt men in several states urging them to reach Chicago Wednesday morning. During this meeting also an organization was perfect-

ed for the purpose of advancing Roosevelt's candidacy and to act as a "round up" committee in meeting Roosevelt delegates upon their arrival here. Mr. Flinn, of Pittsburg, was made president of this organization and Frank Knox, of Michigan secretary. Medill M. McCormick, of Chicago; Gov. W. E. Stubbs, of Kansas; Geo. Priestly and Geo. M. Disney of Oklahoma; E. C. Carrington of Galvestute, Maryland and S. S. McNich, of North Carolina were among those at the conference.

Activities at Taft headquarters while second in interest to Roosevelt's were continuous. Robert C. Bailey, assistant secretary of the treasury, arrived from Washington and met Congressman McKinley with several other Taft adherents.

Congressman McKinley, reviewing the acts of the national committee in seating Taft delegates declared that nine tenths of the decisions had been by unanimous vote.

"So much for Senator Dixon's charge that a steam roller is operating in the committee," said Congressman McKinley, "the had faith of all the Roosevelt contests, however, is amply reflected by Theodore Roosevelt himself, when after one contest after another thrown out by the unanimous vote of the committee he said he never expected more than two votes in Alabama anyway."

Senator Borah said: "The ninth Alabama and the fifth Arkansas were the only contests heard so far which in my opinion had any merit. I do not believe contests should be presented which are not based on merit."

HAVANA IS SCENE OF RACE RIOTS

(Continued from page 1)

The principal hotels and cafes have locked their doors and storm shutters are on the windows. Beginning tonight all the police are armed with new matchetes, discarding their clubs. Race rioting among the longshoremen which began last night was resumed this afternoon. One negro was killed. The police finally restored order.

Juan G. Gomez, the Liberal leader and Congressman Marquetti visited President Gomez this afternoon and demanded protection for the negroes. The president assured them he would spare no effort to protect all law-

abiding citizens. Numerous arrests of negro suspects continued thirty being taken into custody at Marianao alone including several women, charged with contributing money to the rebels.

Small arm parties seem to be springing up in Havana province. A band of 30 men was seen today near Guanajay including several negroes who recently escaped from jail there. Rural guards and citizens are pursuing them.

The opinion is becoming very general that it is hopeless to expect the government to crush the rebels in Oriente, despite Gen. Montenegro's assurances that he expects to crush the rebellion within three weeks. Gen. Ureza has offered a corps of 1500 veterans to reinforce him but they must await the arrival of orders from the United States.

Preliminary steps are being taken to organize veterans. The question most frequently heard is "who will be the American governor-general?" The impressions is that in the event of such an appointment becoming necessary it probably would fall to Gen. Wood.

As indicative of the bitter feeling against the negroes the editors of several papers have agreed not to publish any news of negro clubs or societies. Gomez tonight issued a proclamation evidently inspired by the disturbance in Havana. He refers to his recent appeal to good citizens to preserve much respect and says: "But there are a few who would provoke those who live tranquilly. If such persons wish to fight the enemy of the republic let them enlist and go to the front, but if they have other designs I shall resist them and shall severely chastise those who resort to force."

Gen. Marco Menocal sent a message to Gomez that he was ready to raise a brigade of 3000 men at his own expense and lead them against the rebels under the direction of Gen. Montenegro. The offer was accepted.

Kenyon May Nominate Cummins

By Associated Press.
Des Moines, Ia., June 8.—Senator Kenyon may nominate Senator Cummins at the Chicago convention, if a plan being discussed by the senior senator's friends materializes.

Oran—A movement is on foot here to build a large reservoir, which will cover 300 acres of land. It is planned to construct a pleasure resort in the near vicinity of the lake.

We Let the Car do the Talking

IT does not take much talking to sell a really good automobile. We believe we could sell Oldsmobiles if the entire population were stone deaf.

The eye is pleased and satisfied with its superb lines, the body comfortably rested in its luxurious and scientifically designed seats;

the sense of motion receives a strong impression from the easy way in which the car glides along, literally leveling the hills and dales with its never-faltering engine

and the smoothness with which its large tires obliterate small obstructions.

To those who can hear, the almost inaudible purr of the exhaust is a fitting accompaniment to this utter expression of power, reduced and refined to the most luxurious form of locomotion known.

AUTO DELIVERY WAGON FOR STAMPFLI BAKERY

Local Factory Constructs Handsome Turnout To Convey Bread and Cakes

Patrons of the Cream Bakery yesterday afternoon received their bread from a brand new auto delivery wagon, which Vic Stampfli has just put into commission to care for his increasing business.

The new machine is a product of the Wichita Falls automobile factory and is one of the finest machines of its kind in the State. It is of the thirty horse power type, with covered box, and frame sitting low on the ground. The cover is handsomely painted and lettered after a special design by F. H. Elliott of the local factory.

The advent of the auto delivery marks an important epoch in the history of the Cream Bakery. Fourteen years ago when Wichita Falls had possibly 2000 population, Mr. Stampfli came here and opened up a little bakery. For a long time he did all his own work, made the bread and pies and cakes and then with a little one horse rig delivered them to his customers. Then as now the motto was always "cleanliness," and from the first the business grew, until today the new auto delivery is scarcely of a capacity to carry its products to the customers. Another feature that is of especial value to Mr. Stampfli is the fact that on his list of customers are some who have been with him from the very first, and hardly a day in all the fourteen years have they failed to eat of the good things he has provided for them.

OF LOCAL INTEREST

Some People We Know, and We Will Profit By Hearing About Them

This is a purely local event. It took place in Wichita Falls. Not in Buffalo or New York. You are asked to investigate it. Asked to believe a citizen's word. To confirm a citizen's statement. Any article that is endorsed at home

is more worthy of confidence. Than one you know nothing about. Endorsed by unknown people.

John Glen, shoemaker, 712 Seventh street, Wichita Falls, Texas, says: "For many years I have been troubled with various difficulties caused by my kidneys and bladder and the only reliable remedy I have ever found to cure me is Doan's Kidney Pills. I had pains in my back and side and was troubled by irregular passages of the kidney secretions. Seeing Doan's Kidney Pills so highly recommended I tried them and found them even better than represented. They cured me entirely and now I seldom have need to use a kidney remedy. When I do, it is Doan's Kidney Pills and they always benefit me."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States. Remember the name—Doan's—and take no other.

STAMFORD WILL TRY DYNAMITE

SHIPMENT OF EXPLOSIVE PASSES THROUGH HERE FOR EXPERIMENT

ALONG SCIENTIFIC LINES

Representative of The Stamford Commercial Club Recently Investigated the Local Attempt

Fort Worth & Denver switching crews handled cars in the freight yards Saturday and Sunday night with more than ordinary tenderness. The reason was that somewhere in the yards was a car of dynamite. It came in Saturday morning and will be taken out Monday morning over the Wichita Valley for Stamford where it is to be exploded in an effort to cause rain.

A representative of the Stamford Commercial Club was here last week to learn about the experiment here ten days ago and upon his return to Stamford an order was immediately placed for the dynamite. The Stamford people have purchased a hydrogenometer and will determine whether there is sufficient humidity before exploding the dynamite. If conditions are favorable the dynamite will be exploded Monday.

Anson, Hamlin and Stamford are joining in defraying the cost of the dynamite and it will be exploded on Skinnon Mountain on the Chittenden ranch which is a point about equally distant from each of the three places named.

Those leading in the enterprise to make the test in Stamford are Captain J. S. Morrow, P. P. Berthelot, R. L. Penick, Chas. Brewington, T. M. Richardson, Jr., J. VanSteenwyk and others, while those in charge of the movement at Hamlin are A. D. McLaughlin, J. J. Shannon, W. A. Whittington and others, and at Anson the committee is headed by A. W. Johnson, assisted by R. J. Barrett, Knox Pittard and others.

Judge Martin Saturday afternoon heard testimony in the suit of Tom Pickett vs Rutella Pickett for divorce. Several witnesses are yet to be put on the stand and the testimony will be completed Monday.

Mrs. J. A. Rowell received a telegram Saturday announcing the death of her aunt, Mrs. B. J. Chambers, at Cleburne. She was the widow of Col. B. J. Chambers, known as the "father of Cleburne," he having given the town its name and donated to it and the county a large amount of land.

SENATE WILL VOTE ON LORIMER CASE JULY 6

Agreement is Reached at Conference Between His Friends and Opponents

Washington, D. C., June 8.—The Senate will vote on the question of unseating Senator Lorimer of Illinois on July 6. This date was agreed upon at a conference late today at which the views of both the pro-Lorimer and anti-Lorimer senators were voiced.

Reward For Autoist.

Nashville, Tenn., June 8.—Gov. Hooper today offered \$300 reward for the arrest and conviction for those in the auto which last night killed Mrs. Horace Childress in the fashionable section of Nashville.

Build Your House for Comfort

We have just received a shipment of fire proof plaster board, which will keep your house cool in summer and warm in winter. We bought this stock at a great bargain, and can sell at a price much lower than that of ordinary ship lap and wall paper. If you are going to build soon it will pay you to investigate this proposition promptly—for this supply will not last long.

VOLCANOES IN ALASKA ACTIVE

THREE ARE THREATENING ERUPTIONS AND HEAVY CASUALTIES FEARED

ONE WAS LONG DORMANT

Had Been Considered Extinct—Rumble and Quakes Attend Spouting of Ashes

By Associated Press
Seattle, Wash., June 8.—Three slumbering volcanoes in the Aleutian mountain range of Alaska, suddenly have come to life and are throwing out great quantities of smoke and ashes. The awakened peaks are in the Cook country and Katmai which overlooks Chilkoot Strait. It is likely the Bostons, Shishaldin and Pavlovsk which which are active volcanoes and are much farther west are also spouting flames.

THE STATE OF TEXAS, COUNTY OF WICHITA: In the Justice Court of Precinct No. 1, Wichita County, Texas. First State Bank and Trust Company of Wichita Falls, Texas, plaintiff, vs L. B. Jenne and Mrs. Alice M. Robertson, defendants.

ROOSEVELT HAS BITTER REBUKE

(Continued from page 1)
"Not only I wish to call the attention now of all good republicans to this type of action means. As yet there is no law to govern National conventions as there is to govern National elections although in some state the nominating of candidates is carried on under the law just as the elections are."

Dispatches from the north say the volcanoes are emitting lava and rock but the discharge from the Alaska craters usually is only ashes and smoke and it is hoped there will be no loss of life. Apparently Katmai and its neighboring islands have been covered by ashes. Since the change of climate in Alaska cattle, sheep and hogs have been able to feed outdoors throughout the year on the island. The ashes if they fall on the island eighteen inches deep as they did on the deck of a steamship must have destroyed the grass which however, will grow again on the ashes. One of the volcanoes is more than 1000 feet high and the red sky above its crater is visible seaward for 100 miles.

EXPECT FIRST NEW WHEAT IN MONDAY

Market For New Crop Expected to Open at 90 Cents or Better—Oats Will Bring 40 Cents

The first loads of 1912 wheat or oats have not yet reached Wichita Falls but are expected in Monday. Threshing is said to have started in some parts of the country Saturday and other outfits will start Monday.

Reports from the harvest fields indicate a wide range in the probable yield. Some fields, it is estimated, will not thresh more than five or six bushels to the acre. Others are expected to yield 20 bushels and more. Oats will yield all the way from 15 to 60 bushels per acre. According to today's quotations in the big centers, new wheat should bring 90 cents per bushel in Wichita Falls. Probably the first loads will bring a higher price. Outside markets would warrant 40 cents per bushel for oats, dealers say but the local demand for feed will probably raise this figure from three to five cents for the oats reaching the market early. Only a small part of the crop, however, will be needed to supply the local demand. The price will then settle down to the basis of the outside markets.

With the mill and the grain companies and local feed dealers in the market the best price the market will warrant is promised in Wichita Falls.

OPINIONS VARY AS TO PAUPERS

RULING BY TWO ASSISTANT ATTORNEYS-GENERAL ON SUBJECT DIFFER

CITY HAS ENOUGH POWER

Authority Exists For It Providing For Indigent Poor, Says One Official

"There is no law that imposes upon the city the duty of providing for the support and burial of paupers." "O. C. Funderbunk, assistant attorney general."

"It is my opinion that the city would be required to take control of and bear the expense of pauper patients suffering from contagious disease within the city limits."

"Walter C. Woodward, assistant attorney general."

In the first opinion quoted the city authorities find their authority for putting all pauper cases up to the county officers. In the second the county officers find authority for placing a portion of pauper cases upon the city.

The first opinion quoted is an excerpt from a letter to County Attorney R. Boone which has been published in full in the Times. The second is from the attorney general's office to W. Ralph Steiner, State Health Officer.

Dr. Steiner enclosed a copy of his letter in a letter to County Health Officer Dr. Coons. Dr. Coons had written to Dr. Steiner about the controversy that had arisen here and the latter expressed an opinion that the letter covered the question in controversy.

"Dr. Ralph Steiner, State Health Officer, Capitol, Dear Sir: We are in receipt of your letter of the 13th instant enclosing to us a copy of a letter received by you from Dr. Hugh S. White, County Health Officer of El Paso, Texas. You request that we advise you with reference to the question submitted by Dr. White which is as follows:

"The question presented is whether the city would be obligated under Rule 1 above referred to take control and management of all contagious diseases in the city, both pauper and patients, or would the care of poor patients suffering from contagious diseases fall upon county health officers. The city has no hospital for contagious diseases nor for any other class of diseases. The county has maintained a hospital and poor farm combined for the care of pauper sick and infirm."

In reply thereto you are advised that the Thirty-Second Legislature passed a law the rules and regulations previously adopted by the State Board of Health and Vital Statistics, and amended Section 10 of Chapter 30 of the General Laws of the Thirty-First Legislature.

By Section 5 of the rules above mentioned, it is provided:

"All health authorities of counties, cities and towns in this State are hereby directed and authorized to establish local quarantine, hold in detention, maintain isolation and practice disinfection as hereinafter provided for all (such infected) persons, vehicles or premises which are infected or suspected of being infected with any of the above named diseases above named wherever found."

Rule 31 reads as follows:

"In all incorporated cities and towns the city health authorities shall assume control management of contagious diseases and exposures and practice quarantine, isolation and disinfection as herein provided. In those portions of all counties in this State, outside of incorporated cities and towns, the county health officer shall assume management and control of contagious diseases and exposures and practice quarantine, isolation and disinfection as herein provided."

Rule 32 provides in substance that nothing in the act is to be construed to prevent any city, county, or town from establishing any quarantine which they may think necessary for the preservation of the health of same.

Article 4340, Revised Statutes, provides for the commissioners' court to establish quarantine, etc., and among other provisions provides:

"The County Physician shall keep an itemized account of all lawful expenses incurred by local quarantine, and his county shall assume and pay them as other claims against the county are paid. Chartered cities and towns are embraced within the purview of this article and the mere fact of incorporation does not exclude them from the protection against epidemic diseases given by the commissioners' court to other parts of their respective counties."

The last named article was enacted prior to the enactment of the other provisions of the law cited above and it is my opinion that by the terms of Rules 5 and 31 above quoted, the city health authorities have the right to assume control and management of quarantine and contagious diseases within the city limits, and this being the case I am of the opinion that the cities would be liable for the necessary expenses incurred. Counties, however, have control and management of such matters beyond the city limits and should bear the expense incurred in such cases. This law does not prevent the county from also establishing a quarantine within the city limits and if in the opinion of the county health authorities, it becomes necessary to strengthen the quarantine, they

BOARD OF EQUALIZATION WILL HEAR COMPLAINTS

Session Will Be Held June 30 When Property Owners May Make Protests

The city board of tax equalization will reconvene on June 30th to hear complaints of property owners whose assessments have been raised by them. Only a few assessments were raised.

RUBY THEATRE BUILDING LEASED FOR SALES ROOM

Bessey Furniture Company Will Occupy It As Soon As Changes Are Made

The Bessey Furniture Company has leased the Ruby Theatre building on Indiana and will occupy the same as its sales room as soon as some necessary alterations are made. The front of the building will be changed and the floor will be lowered. Work is to start as soon as these changes and it is expected that the building will be ready for occupancy about the middle of July. In planning the arrangement of the new front for the building, a plate glass window forty feet wide is included which will permit a display of furniture en suite for several rooms. Mr. Bessey will soon go to market with a large stock for the opening in this new place of business.

THIRTY-SIX CASES IN DISTRICT COURT SETTLED

Rapid Progress To Be Made During First Week of Term. Label Suit This Week. A big hole was made in the district court docket last week, 36 cases (all being disposed of). Going at this rate the docket would be pretty well cleared at the end of the third week, but such rapid progress is not expected from now on as most of the 36 cases last week were uncontested. The week will open with the Kennedy vs. Moore damage suit in which the plaintiff is seeking damages for alleged libel. This case is set for Monday afternoon and if it comes to trial it is probable most of the week will be taken up with this case alone. Evidence in the suit of Martin Lier vs. the Corsicana Petroleum Co. was completed Friday evening and the case was submitted to the court without argument. A decision will be announced early in the week. In the suits of City National Bank vs. Morgan, and Donoghue vs. Roberts judgments were rendered for the plaintiff. Sarah Cain was granted a divorce from Jim Cain.

FLOWERS AND DELICACIES SENT TO ALLEN PRISONERS.

Bristol, Tenn., June 7.—Considerable adverse criticism is heard of people of Wytheville, Va., who are sending flowers and delicacies to members of the Allen gang, in jail there.

The second degree conviction of Claude Swanson Allen is ascribed by many to have turned sentiment in favor of the defendants. Many people believe the Allens acted from a mistaken sense of rights.

SOCIETY BREVITY

(Continued from page 1)

her parents, Mr. and Mrs. Alex Kahn. Mrs. R. R. Robinson left a few days ago for Austin and Llano, where she will visit friends and relatives for several weeks.

Mrs. R. E. Huff and son Robert, made a trip to Lawton, Okla., in an automobile last week. They visited Mrs. English of that city.

Mrs. Mary Orth left a few days ago to spend some time in Dallas, as the guest of her sister, Mrs. B. F. Terry. Miss Willie May-Kell is absent from the city attending commencement exercises of the State University at Austin.

Miss Gladys Trueblood, a student in the University of Texas at Austin, is expected to return to her home in a few days to spend the summer holidays.

Miss Ruth Bullock, a student in the Kidd-Key College at Sherman, has returned here to spend the holidays with her mother.

Miss Mabelle Copton, who is visiting friends in Mineral Wells, is expected to return here in a few days. She

has been absent from the city for nearly three weeks during which time she spent a few days with friends in Fort Worth, and Dallas and attended a house party in Mineral Wells.

Miss Agnes Nicholson of St. Petersburg, Fla., is in the city and will remain for a few days as the guest of Mr. and Mrs. C. W. Bean.

Miss Aileen Waggoner has returned from Fort Worth, where she has been attending Polytechnic College. She is a graduate of the music department of that institution.

Rohatzen's Mineral Water, is highly recommended by physicians, and patrons who have tested its merits, for indigestion, catarrh of the stomach, kidney and bladder trouble. This water stimulates the secretion of the stomach, increases digestion and favors a more complete absorption of the food and prevents the action of germs that cause typhoid and other infectious diseases.

This water can be purchased at the wells or delivered in jugs or cases. This well is located one mile south of Alamo school building in Floral Heights, two deliveries daily morning and afternoon. C. J. Rohatzen, Owner. Phone 1601—1 long—4 shorts.

Wilson Men Claim The Lead

Washington, D. C., June 8.—At the Woodrow Wilson headquarters, 328 votes to date are claimed for the New Jersey man in the National Convention. To Clark is conceded 290 votes. The statement in detail follows.

The standing of delegates already elected to the Baltimore convention follows:

WILSON VOTE TO DATE.

New Jersey	24
Florida	2
New Jersey	24
Pennsylvania	76
Minnesota	24
Oregon	10
N. Carolina	5
Texas	40
Maine	8
Wisconsin	24
Oklahoma	10
Illinois	2
Porto Rica	6
Florida	2
S. Carolina	18
Delaware	6
Utah	6
Michigan	15
Virginia	12
N. Hampshire	8
Ohio	20
Tennessee	12
Total	328

CLARK VOTE TO DATE.

Dist. of Col.	6
Oklahoma	10
Arizona	2
Wisconsin	2
Montana	8
Kentucky	26
Illinois	56
Colorado	12
Nebraska	12
Missouri	2
Maryland	16
Washington	14
Kansas	20
New Mexico	8
California	26
Wyoming	6
Iowa	26
Total	290

In this table the twenty votes from Kansas are conceded to Speaker Clark though the delegates favor the nomination of Governor Wilson, and under instructions will go to him early in the balloting. The ten delegates from North Dakota are put down for Gov. Burke, but it is well known they openly favor the nomination of Governor Wilson in preference to any other candidate. This makes Governor Wilson's actual strength 358 delegates.

HARMON VOTE TO DATE.

Nebraska	4
Ohio	28
Total	32
GOVERNOR FOSS	36
GOVERNOR BALDWIN	14
GOVERNOR MARSHAL	30
GOVERNOR BURKE	10

ENGLISHMEN PLEASED AT OLYMPIC TRYOUTS

Good Records Made in Preliminary Events—Hopeful Outlook For Victory

By Associated Press. London, June 9.—British sportsmen are greatly pleased with the success of the Olympic games tryouts held at Stamford Bridge. This elation was not due in the main to the records which were not startling, but because the games were marked by a large entry list and were attended by 10,000 spectators, in striking contrast of the meagre entries and attendance of the tryouts which preceded the 1908 Olympic trials. Critics declare that there has been a real revival in track and field sports, and while they are hopeless of seeing the Union Jack flying at Stockholm in a majority of the events they feel that the British team will make a good showing.

In the sprints and middle distances several good records were made, notably the time of Sedhouse in the 400 metres. He covered the distance in 49.15 seconds, thereby equalling Hillman's Olympic record. If the Black Heath Harrier can improve his finishing qualities he will be the man the American quarter milers will have to beat at Stockholm.

If John Paul Jones of Cornell, does not appear as a member of the American team the English runners may have a chance of breaking the tape in the mile and half mile runs, and the records made in these events compare favorably with the best American performances over these distances. Many of the Polytechnic Harriers, took the half and Ostrill, of the Hallamshire Harriers, was the first in the 1500 metres, the distance closest to the mile.

In the short dashes, the university sprinters, who were kept out on account of the examinations were missed, and it is quite likely that MacMillan of Cambridge, after a short private trial will be selected by the Olympic committee as the mainstay of the British team in the sprints. His ten flat over a wet track in the annual Oxford Cambridge-field day stamps him as a formidable opponent for any sprinter.

In the longer distances no records worthy of note were made. The Marathon was run in the excellent time of 2 hours 36 minutes 55.25 seconds, but the winner was Corkey, a young Irish Canadian, and the second man across was W. C. Gitscham, a dusky member of the South African Olympic team.

Any average college team in the United States could have beaten the entries in the field events. The only consolation that the critics can draw from this division is the fact that Baker jumped six feet in the high after trying for first place with a leap of five feet eleven inches, but that was before they heard that six feet was not even good for third place in the recent Pacific Coast College Conference meet.

The best that Flaxman could do with the hammer was a toss of 134 feet 3 1/2 inches which is not likely to take better than third place at Stockholm. Quinn, of Dublin, put the shot 41 feet 10 1/2 inches, but the news received here that Rose recently heaved the iron ball 52 feet indicates that he will have to improve vastly in the short time intervening before the games. Henderson with a discus

News From The Oil Fields

Developer's No. 2 is reported to have reached the gas sand and within the next few days should be in the oil sand. The gas sand was found at the same depth as in No. 1, showing that the formation is regular.

Benson & Little's Douglas No. 2 in the shallow sand at Electra has been put on the pump and is making better than ten barrels a day. This well is less than 400 feet deep. Another well is being drilled for the shallow sand on the same lease just south of No. 2.

* John Baban, Manager for the Texas Company at Electra has resigned and will leave soon for Bradford, Pa., where he will spend the summer with relatives. Mr. Strum has succeeded him.

ARNOLD WELL DEVELOPS INTO SALT GUSHER.

Olney Enterprise. The Arnold well will not be sunk deeper with the hope of striking oil. A richer strike has been made—one which eclipses everything of its kind and should return heavy dividends to its owner, Judge R. F. Arnold, of this city. It is a salt gusher, a well which throws up salt instead of oil, at the rate of over ten thousand pounds an hour each day. And this is not all, by any means. Nature has taken a hand in this and furnished an abundance of gas with which the salt works can be operated at no expense for fuel, leaving absolutely nothing to be done by man but to secure a kettle, cap the gas and strike a match, and as Judge Arnold says, secure an umbrella, under which to sit and oversee it. There is nothing like it on earth. Other salt wells have to be operated by pumps and fuel must be used to heat and dry the salt and in every other instance the water is muddy, requiring a rinsing of the mineral before it is saleable. But in this well the water is as clear as crystal, making the work of curing extremely easy and inexpensive.

Finally reach the upper currents and precipitate the moisture which is suspended in the higher strata. The rain-making experiments by General Drenforth about twenty years ago were not based upon such methodical calculations. The explosions were made at a single point; they were not repeated regularly and persistently through several hours. If Mr. Post's theory is correct, they did not set in motion the line or series of air spirals necessary to affect the moisture-laden currents above.

FORT WORTH PAPER HAS COMMENT ON RAIN-MAKING.

Thursday's Fort Worth Record says, editorially: Undismayed by one failure to precipitate rain by explosions of dynamite, the enterprising citizens of Wichita Falls will make another experiment upon a larger scale. They invite citizens of the adjoining counties, Baylor, Clay, Wilbarger and Archer, to unite with them in the purchase of a carload of dynamite for a battle extending over many miles.

They have learned from Mr. C. W. Post, who has made several promising experiments on his great farm in Garza county, that the humidity of the air must be at least 70 per cent in order to bring rain, and they will await such a condition before repeating their effort.

Mr. Post has proceeded upon strictly scientific methods. His theory is that the explosions of dynamite, repeated at intervals during three or four hours throughout a line four or five miles long, cause ascending spirals of vibrations in the air which

Y. M. C. A. CAMP BEGINS MONDAY

FORT WORTH BOYS WILL ARRIVE TOMORROW FOR STAY AT LAKE

CAMP SITE IN READINESS

From Seventy To One Hundred Expected To Attend First Annual Event of Its Kind

With between seventy and one hundred boys already enrolled, the first annual Y. M. C. A. summer camp will begin tomorrow afternoon at Lake Wichita. The preparations have been completed and there is nothing to prevent the boys having the time of their lives.

The Fort Worth contingent will arrive tomorrow afternoon at 2 o'clock over the Fort Worth & Denver and will proceed with little delay to the camping grounds at the lake. G. W. Saan, who will be in charge of the Fort Worth boys, arrived yesterday afternoon to aid in completing the arrangements for the campers.

This is the first association camp to be held at the lake, but it is to be an annual feature hereafter. Although only the Wichita Falls and Fort Worth associations are taking part this year, it is planned to have boys from Sherman, Gainesville, Dallas, Fort Worth and Childress attend in 1913.

All the varied attractions that the lake affords—fishing, boating, swimming, water polo and like sports—will be available for the entertainment of the boys. Secretary Anderson of the association here has completed arrangements for the camp and after tomorrow Lake Wichita will be in possession of the boys.

How Would a Nice Slice of Ham Taste?.....

AUTO DELIVERY PHONES 432 & 232

If you are in doubt as to what kind of meat you really want we can offer many suggestions that will help you to solve the problem. Some days we make a specialty of suggesting one or two different things and it surprises us sometimes, how often such a common thing as ham is forgotten or neglected by customers. To get the best ham means care in selection. We have found that the Swift's Premium brand is the tenderest, most delicate in flavor and the most satisfactory to particular customers. It is 30c per lb. sliced and worth every cent of it. It will go beautifully with fresh eggs.

305 WICHITA BELIEVES IN ADVERTISING.

Wichita Falls is showing lately, as well as for some time past, that it is eagerly seeking every opportunity that is available.

The aid of the entire membership of the Wichita Falls Chamber of Commerce is being enlisted in the distribution of literature and advertising matter setting forth this city's advantages.

Does it pay to advertise? We answer this question by merely quoting an excerpt from a letter from the D-Arcy Advertising Co., St. Louis, which is as follows: " * * * you will remember that last year we conducted an advertising campaign for White Swan Tea."

Wichita Falls believes she winged J. Pulvis and some other place got the game. Undaunted by the failure of the first attempt the progressive citizens will make another effort, going after elements the next time with a carload of dynamite.—Abeline Reporter.

Wichita Falls, not satisfied with the effort at rain-making a few days ago, which resulted in failure, has about decided to "double the dose," and will burn a car load of dynamite or get rain good for Wichita Falls.

One of the striking New York waiters says: "At present we waiters get the degradation of the tip and the boss gets the benefit."

What we can't understand is why Mr. Walters should be offering in the Democratic primaries when his views so nearly coincide with those of the Republicans.—Waco Times-Herald.

Wheat and oat crops throughout Wichita and surrounding counties are the best that have been produced for the past seven years.

Wichita Falls is showing lately, as well as for some time past, that it is eagerly seeking every opportunity that is available.

Wichita Falls, not satisfied with the effort at rain-making a few days ago, which resulted in failure, has about decided to "double the dose," and will burn a car load of dynamite or get rain good for Wichita Falls.

One of the striking New York waiters says: "At present we waiters get the degradation of the tip and the boss gets the benefit."

Wichita Falls is showing lately, as well as for some time past, that it is eagerly seeking every opportunity that is available. They have just shown their game qualities by exploding three thousand pounds of dynamite in order to get rain, and at the same time they are sending out literature through their chamber of commerce.

Senator-Camble, of South Dakota, another one of the forty-six senators who voted to allow Lorimer to hold his seat, has been defeated.

EDITORIAL COMMENT.

GEN. WOODFORD'S PREDICTION

Just before he sailed the other day for a trip to Europe, Gen. Stewart L. Woodford said to an interviewer: "In my opinion the Democratic party never had such bright prospects of electing a President as it has this year."

Stewart L. Woodford is one of the war horses of the Republican party. He has been so for fifty years.

Wichita Falls believes she winged J. Pulvis and some other place got the game. Undaunted by the failure of the first attempt the progressive citizens will make another effort, going after elements the next time with a carload of dynamite.—Abeline Reporter.

Wichita Falls, not satisfied with the effort at rain-making a few days ago, which resulted in failure, has about decided to "double the dose," and will burn a car load of dynamite or get rain good for Wichita Falls.

DRILLERS IN FIRST PLACE BY WINNING FROM DENISON

TAKE LEAD FROM BONHAM FRIDAY AND HOLD BY HARD WORK SATURDAY

VICTORY NOT EASY

Locals Have To Go Some To Take Saturday's Game—Are Heading League By Close Margin

The Drillers were sitting on the healthy end of a seven to six score when yesterday's game ended. Incidentally they were roosting in first place in the percentage column, having crowded the Bonham team out of that place Friday afternoon.

For the benefit of the several thousand people who did not see yesterday's game and who might gain the impression that Denison after letting Wichita Falls have five games was going to make us a present of the sixth, we will state just here that this was not the case. In fact and on the contrary, it was quite the opposite.

Three pitchers—Myers, Morris and Jones—had doffed their jackets and stepped into the box before the Katydids were safely out of the way. The Katydids didn't seem to be very particular about who was in the box and their impartiality in this regard was commendable. They swatted Myers for six safe ones, then initiated Duke Morris with about the same number and just as they were getting Jones into the same place the game ended.

To make it brief, and to be entirely candidly truthful about the matter, Denison ought to have won. She got seventeen hits to Wichita Falls' eleven.

It wasn't all in the hitting, judge, not by considerable. Wichita Falls fielded bad and Denison fielded worse. But there were some fielding stunts that weren't bad. Brown threw two players out at home base from center field and those two runs would have turned the tide.

Clark, whom the locals batted out of the box Friday in one inning, came back for more yesterday. He got what he came for, but he pitched baseball before it was all over.

Thanks to an accommodating bunch of fielders, Denison got off to a mighty good start. Clickinger singled and went to third when Pep Clark bobbled on Bobo's drive. Moore's single scored them both. Brooks sacrificed, Henderson and Covington went out. It was a one-two-three proposition in the second, but there was more trouble in the third. Clickinger was first up once more and once more he singled. This time it was a hot one that got away from Kizlar and he went the full circuit. Bobo was thrown out, second to first. Moore and Brooks singled and Henderson was safe on Brown's error. B. Covington singled, scoring Moore.

With the bases full and one out, Duke Morris went into the box and fanned McCormick and McCulley, retiring in the side. In Wichita Falls' half of this inning, Guthrie and Brown each hit for two bases, netting one score.

In the fourth the locals brought themselves even. Phillips singled and Beckham was safe on Clickinger's error. Naylor whanged one over the left field fence and brought in three tallies, tying the score.

Only for a little while, however, was the score tied. In Denison's half of the fourth Moore singled, was sacrificed by Brooks and scored on hits by Henderson and B. Covington. It was in the seventh that the locals won the game. Guthrie flied out, Kizlar singled and Brown flied out. Lawrence hit one between first and second and was safe on McCormick's error. Clark hit a fast grounder to McCulley, but some fast base-running following and nobody was put out. Kizlar scored on the play. Phillips singled, scoring Lawrence and Clark. Beckham also singled but Naylor fanned for the third out.

But the game wasn't won yet. In the ninth, Denison decided that it would look nice to stop the winning streak and she went in to do it. Jones had replaced Morris in the eighth and Clickinger, Bobo and Moore each singled, netting one score. Brooks walked, filling the bases and things began to look woody for there was one out, but Henderson fanned and B. Covington flew out to Pep Clark and it was all over except the mild rush for the street cars.

Kizlar of the defunct Greenville team was in right field for the locals yesterday. He is a safe fielder, a consistent hitter and a fast man on the bases.

The using of three pitchers yesterday leaves only Mullins and Baxter to work today and the former will probably be chosen. Jones, however, will not work enough yesterday to make him unavailable for today.

Denison rotters will be here in force today and it will probably be a game for blood. The Drillers, with Bonham pressing them so close, cannot afford to lose a game, but Denison isn't exactly the kind of team that you would pick to lose eight straight games, or even seven. Yesterday's score:

Denison	AB	R	H	PO	A	E

ONLY TWO HITS OFF OF BAXTER IN FRIDAY'S GAME

Baxter's pitching was easily the feature of Friday's game, which the locals won 5 to 0. Baxter went the first six innings without allowing a hit and only two, one in the seventh and another in the ninth, were recorded off him during the game. In the seventh, with a man on third and none out, he fanned two men and retired the third on an infield fly.

The locals won in the first inning on a combination of hits and errors. The first three men up, Guthrie, Morris and Brown, singled, filling the bases. Guthrie scored on Lawrence's fly. Clark was safe on an error by the opposing pitcher, Clark. Phillips was hit, Morris scoring. Beckham singled, scoring Brown and Naylor was safe on the first baseman's error, Clark scoring on the play. Baxter fanned and Guthrie went out, second to first. Another run was added in the eighth when Clark hit for two bases and scored on Phillips' single.

McCormick replaced Clark after his first inning and allowed only four hits in the seven innings in which he worked. For four innings he sent the drillers down in one-two-three order, nearly every ball thrown going to the out field on a fly. Henderson in the center field caught three high ones. Five were right into his hands, but he had to work for the sixth and made a pretty catch of it. B. Covington, in the right field also made a beautiful stab after a line foul by Brown.

After the first inning it was one of the prettiest games his season has presented. The score:

Denison	AB	R	H	PO	A	E
Clickinger, lf.	3	0	0	2	0	0
Bobo, c.	4	0	0	2	1	1
Moore, 2b.	4	0	1	2	2	0

MONDAY'S BALL GAME TO BE FREE TO LADIES

No Change Will Be Made For Those Who Attend Accompanied By Escort

Ladies accompanied by escorts will be admitted free to tomorrow's game at the city park and the management expects to see a large number of the fairer sex out to see the Drillers close up the first part of the season. This plan has been tried in other league cities, but this is the first time here. To secure free admission, ladies must be accompanied by escorts. The free admission is to both gate and grandstand.

BASE BALL YARNS

They have called Mr. Murphy the "trouble maker of the American League." In Birmingham Mr. Murphy was starved in the role of peacemaker, says Hugh Roberts in the Birmingham Age-Herald.

It happened some years ago. After witnessing a game on local grounds of Chicago's hitherto impregnable machine, a local scribe made so bold on the following afternoon as to express an opinion that the Cubs on the field failed to display as much ginger as "Muggsy" McGraw's "Joinks."

It was perfectly natural for Mr. Chance to resent the imputation. Especially is this true in view of the fact that he scribe in question possessed but one leg, which handicapped him to such an extent that he could neither fight nor run away.

The scribe in question, however, though ready to admit that Mr. Chance was a magnificent first base man did not admit that he was even justified in so strongly expressing his resentment. At home the reporter possessed one of the latest models of smoke-guns, and he went after it. That night in front of the Hotel Hillman, a great newspaper story was spoiled. Mr. Murphy spoiled it, fortunately for everyone concerned.

After the dove of peace had nestled the three—Mr. Murphy, Mr. Chance and the aforementioned scribe—made merry for many rounds. The affection displayed would have moved the greatest cynic.

In Wichita they are telling a good story on Ira Belden that gets a laugh every time it is repeated. The player was a "holdout" for a long time so far as the Wichita club was concerned. He could not be argued into signing a contract for the coming season. Finally one of the officials of the Wichita club hit upon Belden's weakness. Ira has a ten-year old boy who is saving cigarette coupons so as to get hold of the pennants with which to

decorate his room. The secretary of the club knew this and knew that Belden was continually collecting the coupons for his kidlet. So in closing his contract to Belden he enclosed three of these cigarette coupons. Ira immediately signed the contract and sent it back to headquarters.

How about paying out \$17,000 for an outfielder and an excuse of one at that. Sounds like a dream. But it is based on facts. A year ago last August, Connie Mack invested \$12,000 in cash and players for Lefty Russell. Lefty proved a lemon last year and spent most of the time in having his arm rubbed. Connie Mack, however, decided to give Lefty another trial and having paid Lefty a year's salary and paid sundry expenses, amounting altogether to about \$4,500, brought him down south on the training trip.

Lefty worked rather slow at San Antonio and when Connie brought his first squad northward, he left Lefty behind to pitch for Ira Thomas section. Being short of players, Thomas sent Lefty into right field and what was his surprise a few days ago to hear the couthpaw say:

"I guess I will quit pitching and become an outfielder."

Ira was too much surprised to laugh and he likes his laugh as well as anyone. He merely wondered what Connie would say when he heard the good tidings.

WITHERSPOON IS STILL OWNED BY WICHITA FALLS.

Witherspoon who is now playing with Bonham is still the property of the Wichita Falls club and efforts are being made to collect from the Fort Worth club for him. Bonham got two of Fort Worth's men, Frierson and Witherspoon and there is considerable curiosity among the other club owners in the league how she is doing it and still keeping within the \$1000 salary limit. It is understood that Fort Worth has refused to pay for Witherspoon and the matter may be taken to those higher up in organized baseball. Without Witherspoon and Frierson, Bonham could hardly have kept up the terrific pace to which Wichita Falls forced her, while Wichita Falls' lineup has undergone but one material change since the season opened. That was when Beckham was put on first base.

FREAK PITCHING STUNT WAS PULLED OFF FRIDAY

For a pitcher to allow only four hits in seven innings to a hard-hitting team, and yet use nothing but straight ball, is rather freakish to put it mildly. That is what McCormick, who pitched the last seven innings of Friday's game, did to the locals. McCormick is slightly less than seven feet tall and if there is anything to his pitching out

side of the fast straight one, it was not visible. Nearly every ball was hit, but they went high into the air and were easy picking for the outfielders. Baxter had his underhand ball in almost perfect control and it was unhittable. He also used a fast outside ball which he seemed unable to control at times, but which proved very effective on the whole. There are very few pitchers who can control an underhand ball, but Baxter seemed to have everything he wanted on it Friday. The answer was nine strike-outs and only two hits. That'll pass.

DID TEAM BREAK WORLD'S RECORD WHILE ON ROAD?

Did the Wichita Falls team, by winning eleven straight games on its recent trip, make a new world's record for on-the-road performance? Some of the fans seem to think so and an effort is being made to get the correct dope on the subject. While authentic figures are not available, it is believed that Corsicans about ten years ago won fifteen games on the road without a single defeat. That was the year that Corsicans won twenty-eight straight games, which still stands as a world's record. The writer is not sure of this, however, and has written for definite figures on the subject. Certainly to win eleven games on the

and lose none on a record that is mighty fine, whether it is a world's record or not.

SHERMAN LOSES AGAIN IN SERIES AT BONHAM

Cozine Holds Cubs Safe and One-Time Leaders Nose Out Victory

Special to The Times.

Bonham, Texas, June 8.—By defeating Sherman here this afternoon Bonham kept herself in the running for first honors for the first part of the season. It was another close contest, but timely hits off Dischner, coupled with two errors by Sherman, gave the needed runs. Sherman scored in the third on two hits and an error. The score:

Team	R	H	E
Bonham	3	7	1
Sherman	1	5	2

Batteries—Cozine and Scott; Dischner and Townsend.

We see it all now. George Bailey is working for Harmon because he wants to be American Consul at Munich, where that classy beer grows.—Columbia State.

Your Summer Suit!

MANY men wait until Summer before considering the clothes question. If you are one of those who have waited, let us suggest that you wait no longer.

We are now well prepared to offer for your choice a complete assortment of new styles, new colors and new fabrics in Summer clothing. Michaels, Stern & Co., of Rochester, N. Y., have made for us some very exceptional Summer garments. They have tailored into them an unusual amount of style—they have cut these clothes after the most correct New York models, that is, snug-fitting, shapely, with soft rolling lapels and very little padding. These are the sort of clothes that until now only the highest class custom tailors knew how to produce.

We want you to inspect these clothes at the earliest possible moment, while the stocks are still complete and the widest range of choice is offered.

W. B. McClurkan & Co.

TILLMAN COUNTY WHEAT CROP 600,000 BUSHELS.

(Frederick Leader) A grain dealer who is familiar with conditions in the county, estimates the county's crop at 600,000 bushels. Much of this will come to the market within the next few weeks, and every town in the county will get its share. The market will open at about 85 cents. If it averages 75 cents, it does not require a great deal of figuring to show that, if this estimate is not too high, the wheat

crop will be worth \$450,000 to the county.

The harvest of wheat begun last week, has been in full blast the present week, with orders working every available hour of the day in hundreds of fields. The wheat is the best the county has ever had and the weather for maturing and harvesting it has been ideal. Hot days and cool nights, with but little wind—these are the conditions that the wheat farmers wanted, and have had the past few days.

SINGLE HANDED FIGHT FOR KANSAS SUFFRAGE

New York Woman is Carrying On Campaign But Wants Time To Visit Babies

Topeka, Kansas, June 7.—If the men of Kansas grant equal suffrage to women at the election in November, it will be due more to the efforts of a New York woman than any other single influence. A year ago Dr. Helen Brewster Owens of Ithaca, N. Y., offered her services as State organizer and they were accepted. Dr. Owens told the women who were preparing to fight this year that she felt she owed her native State something, for she was born and reared in Linn county. "All I ask is a few vacations to run back home to visit my babies," she told the Kansas women. She already has traveled 4,000 miles making trips to New York. Dr. Owens will remain in the Kansas fight right up to the November election, making three or four more trips to visit her children at Ithaca.

Dr. Owens has traveled 5,000 miles in Kansas. She spoke to enthusiastic audiences during the coldest weather of the last winter, when she was not snowbound in Western Kansas. "I was snowbound on a freight train for nearly a day and a night," she said. "One man, when told I was a suffrage lecturer, said he hoped I would never get out of the snow-drift."

"The only debate I ever held on suffrage," said Dr. Owens, "was away out in Liberal, in the extreme southwest corner of Kansas, where a man an anti-suffragist editor, said after the lecture that all my arguments could be answered. We were invited to the home of a lawyer. After our debate he promised to give the women of Liberal his paper for one week to use for the suffrage cause. I want to tell you that this paper was an interesting one during the week the women edited it."

OUTLAW HORSES FOR DEWEY'S CELEBRATION

Oklahoma Town Plans Some Real Wild West Stunts And Prairie Sports

Dewey, Okla., June 8.—Joe Bartlesville, Black Bill Hale, Henry Grammer and Bill James are back from Ciudad Juarez, Mexico, where they made arrangements to purchase outlaw horses for the fifth annual revival of the sports of the prairie to be staged here the week of July 4. Mr. Bartles, speaking of their experience in Juarez, said:

"When we reached the Insurrecto capitol the Orozco forces were in absolute possession and we were forced to submit to all sorts of indignities. I never saw such a wild collection of firearms in my experience, and every soldier was loaded down with all the cartridge belts he could strap on. No insurrecto cared to 'start anything' but every little soldier we met would walk round us, look us over, get in our way and try to provoke a quarrel without saying anything. This was a novel experience for the quartette of cowmen who have none of the glint of the matinee performer but all the hard knowledge of handling cows and having a good time. Henry Grammer of Kaw, one of the world's greatest twistlers, could hardly stand the veiled insults of the play-sized soldiers or Orozco. He got into an argument with a soldier in the streets of Juarez and got a tongue lashing well interspersed with questionable adjectives. His friends induced him to keep cool. Grammer is, like the average cowman, a fellow of few words and sudden action. As the quartette passed up the street Grammer suddenly swung about and started back. Bartle and Black Bill Hale caught Grammer and asked what he had in mind. "I'm going back," he said, "and offer that little runt of an insurrecto a century case note to come up on Oklahoma soil and repeat that line of talk."

Before the roping and riding begins at Dewey the first day of the tournament, July 4, an innovation in the way of preliminaries will be introduced in the arena where Art Magill and Kid "Wildcat" Ferns meet in the welter-weight elimination contest at 1:30 in the afternoon. There will be no glove curtain raised, but the crowd will be entertained by expert rope spinners who later will contest for prizes in the riding arena.

QUANAH HAD SOME FLOOD TWENTY-ONE YEARS AGO

(Quanah Tribune-Clay) Last Tuesday was twenty-one years ago since we had the June 2-1908 in this section, which is said to have been the fiercest rainstorm that ever visited Texas in historical times, when the country between Kirland and Quanah received a downpour of fourteen inches within three hours. Any old timer will talk readily about this cloudburst as the worst he had ever seen or heard of. When the prairie was a solid lake everywhere, only the hills sticking out of the water. When a man came near drowning in front of the Quanah hotel, and three tramps did drown near Chillicothe clinging to a bridge across Wanders creek. That was the time when every bridge in the country was washed away including the bridges across Red and Pease river, which had just been completed at a cost of \$40,000. The Denver had its track washed out east of town and railroad passengers had to be transported by hack across the draw, where Commissioner Perry lives now.

A New Way To Heat Houses and Flats At Less Cost

For the apparatus and for operation. A saving of one-third to one-half on each. It is a cellerless gas furnace. The world has had the orange without seeds; the carriage without wires, and now comes a house heating furnace that needs no cellar, no furnace pipes, no registers, no stacks; all heat generated, delivered to rooms; fire regulated in a moment without trouble. Just the thing for this very changable climate.

ORDINARY GAS GRATES and GAS LOGS ARE A FARCE

If you fix them to get heat you have to put up with fumes and moisture. If you fix them to avoid fumes you have do with very little heat. When you figure that you pay from \$15.00 to \$25.00 for one of these useless ornaments it makes the

WHEAT BINDERS WILL DISTURB SABBATH CALM

Farmers Who Want To Get Through While Weather is Good Will Work Today

The whirr and click of the wheat binders will supplant the ringing of church bells in many rural communities in this section of the State today and there will be few preachers who will voice an objection. Farmers who have been toiling in the harvest fields from sunup until dark will take no rest today but will continue to work in an effort to get their wheat and oats in the shock while the weather is favorable. Cool breezes last week made conditions unusually favorable for the harvest.

TWO NEW PASTORS WILL BE IN PULPITS TODAY

Rev. F. F. Walters At Christian Church and Rev. Frank McFadden at Central Presbyterian

Two new pastors will begin regular pastorates with Wichita Falls churches today. One is Rev. F. F. Walters of Independence Mo., who is here to begin his work with the First Christian church, and Rev. Frank McFadden of Denton came in last night and will preach his first sermon this morning as pastor of the Central Presbyterian church. Both of the new pastors are men of more than ordinary ability.

QUANAH HAD SOME FLOOD TWENTY-ONE YEARS AGO

(Quanah Tribune-Clay) Last Tuesday was twenty-one years ago since we had the June 2-1908 in this section, which is said to have been the fiercest rainstorm that ever visited Texas in historical times, when the country between Kirland and Quanah received a downpour of fourteen inches within three hours. Any old timer will talk readily about this cloudburst as the worst he had ever seen or heard of. When the prairie was a solid lake everywhere, only the hills sticking out of the water. When a man came near drowning in front of the Quanah hotel, and three tramps did drown near Chillicothe clinging to a bridge across Wanders creek. That was the time when every bridge in the country was washed away including the bridges across Red and Pease river, which had just been completed at a cost of \$40,000. The Denver had its track washed out east of town and railroad passengers had to be transported by hack across the draw, where Commissioner Perry lives now.

WHEAT BINDERS WILL DISTURB SABBATH CALM

Farmers Who Want To Get Through While Weather is Good Will Work Today

The whirr and click of the wheat binders will supplant the ringing of church bells in many rural communities in this section of the State today and there will be few preachers who will voice an objection. Farmers who have been toiling in the harvest fields from sunup until dark will take no rest today but will continue to work in an effort to get their wheat and oats in the shock while the weather is favorable. Cool breezes last week made conditions unusually favorable for the harvest.

Recent Happenings in New York Town

New York, June 7.—There is no likelihood, dealers say, of any summer reduction in the price of coal in New York, even though the coal miners' strike has been settled. The miners and operators signed an agreement covering four years but the price of coal still is the same to the consumer.

Usually there is a drop of from

ten to fifty cents a ton on New York coal about April 1, but this year there was no such drop and the consumer was told that it was because of the strike. Dealers say that it was more than ten days after the settlement of the miners' trouble in Pennsylvania before coal was received in New York in sufficient quantities to supply the demand. That is

the reason given for keeping up the price now, and when weeks have elapsed and there is plenty of coal, dealers say, the price will still be at the usual winter level, because of the five per cent increase in wages granted to the miners. It is said that even now the public is paying more than 8 1/2 per cent more than the average summer price, to make up the five per cent that the miners got.

Jacob S. Herzog, better known to the sporting fraternity and the

Great White Way as George Graham Rice, fake book maker, tipster and dealer in fictitious mining stock, now doing a term for swindling in the penitentiary at Blackwell's Island, is in the United States District Court show liabilities of \$487,406 while he gives his assets as clothing worth \$159, exempt by law, and some worthless mining stock. When Rice was committed to the penitentiary, it was generally believed that he had cleaned up at least a million dollars in his deals. B. H. Scheffels & Company

was George Rice' most pretentious venture and the one that got him into jail. It was a stock brokerage concern operated by him and Bernard H. Scheffels, and both were indicted for using the mails to defraud. For several months their trial dragged on, witnesses coming from all parts of the country, and Rice ended the trial by pleading guilty.

When Mrs. Victor Britt, of the Bronx, a patient in Fordham Hospital, leaves the institution, she will take with her a boy baby who is perhaps

the most precious child in the world, for he actually never had a mother. He was born ten minutes after his mother, Mrs. Rebecca Lipschitz, died. The woman, who was taken to Fordham Hospital for confinement, suddenly lapsed into a fit of apoplexy and died. A consultation of physicians decided on heroic measures to save the life of the unborn child, and the remarkable operation was performed. The baby is healthy and gives promise of a normal life. The child became a favorite with nurses and patients alike in the hospital and

when he was one week old, the six women patients, each of whom wanted the baby, drew lots for him. Mrs. Britt was the winner.

A new mail pouch catcher for moving-trains uses a chain net as less injurious to the contents of pouches than the generally used steel rods.

GOV. DIX OF NEW YORK PREDICTS TAFT WILL BE NOMINATED

NEW FRENCH EXECUTIVE

Fallieres' Term Expires Before Long and There is Much Talk of Successor

(William Philip Simms, Paris correspondent of the United Press) Paris, June 7.—"I believe that party politics calls for the nomination of Mr. Taft and that he will be nominated."

Governor John A. Dix, of New York, now in Europe on an automobile trip, made this statement to me at the Hotel Meirice where he was stopping for a few days, resting up for his dash down to Cannes thence across to Geneva and on up to Baden-Baden.

"The possibilities in the way of candidates for the nomination for the office of President on the Republican ticket, have been exhausted," he went on, by way of intimating that he did not take any stock in the story so often heard in America that at the last moment, a dark horse would trot up and win out for the nomination at the convention.

"How about a split in the Republican ranks over the activities of Col. Roosevelt?" he was asked.

"I don't believe there will be any such thing under Mr. Roosevelt's leadership," he replied. "Nor do I think there is much of a chance for the formation of a third party. The two old parties will remain in the field and dominate the field and they alone are there to stay."

"What about the so-called Progressive Party and principles they stand for?" I put in.

"The Progressive Party—and I mean by that the Democratic Party—controls the issues upon which the fight must be made and will be made. It is on the right side of these vital issues and will win."

Governor Dix said these things with that air which men have who believe what they are saying to be gospel. Continuing:

"The Democratic party has made great progress. It has made enormous progress. Not only has it raised in late years a big crop of voting Democrats, but (with a smile) we also have a big crop of candidates. The whole tendency of the party is for commercial and industrial stability. No country can have prosperity unless its citizens are guaranteed in their business against interferences and disturbances. The Democratic party has never been in favor of the non-regulation of the great enterprise that involve the necessities of life, nor has it been against the control of commerce between the states. Business in America has become national instead of local, so the Democratic party believes in regulating business not in destroying it."

Governor Dix went on to say that he is delighted with the character of the delegates so chosen to attend the conventions, and feels sure they can be depended upon to vote with the best interests of the country at heart.

Most of the Governor's time will be spent in motor trips through the Black Forest where he will make a close study of forestry questions so well exemplified in that region.

Ambassador Myron T. Herrick, newly arrived from Ohio to take up his duties here, has made a splendid impression on the French. They seem to take to him tremendously, and he to them. He declares he met more people in one week in Paris than he expected to meet in a month.

Many columns have been devoted to the career of Ambassador Herrick. The fact that he is a self-made man appeals to the French with unusual force possibly because self-made men are so few and far between in this part of the world. And speaking of the early struggles of the American ambassador, most of the papers—indeed all of them—figuratively heaved a sigh of relief for the hero when they reached that part of his career when he became Governor of Ohio. This because all this troubles appeared over.

"Along about this time," run the stories, "Monsieur Herrick began to have things more his way. He became the intimate friend of the late President McKinley and was named Governor of the State of Ohio."

Who will be the next President of France?

At the beginning of next year President Fallieres will have ended his seven years of office and will retire to private life. Who will take his place? In spite of the fact that there are not many more than six months left of President Fallieres' term, press and public don't appear to be worrying much about who's to be his successor. Whereas in the United States.

But if one hems a political tinkerer in a corner one can get an idea of what folks will begin to talk about soon in regard to this event, an event more important here, in one way, than it is in America in that it comes but once in seven years. Prime Minister Poincare, it seems,

Lamar Airdome

Entire Change of Program Monday Night

Typewriters New and Second-Hand We do repairing and overhauling. All work guaranteed. Wiffong & Woods 704 Ohio Ave. Phone 19

will not be a candidate. He is about 55 years of age and considers himself too young for the sacrifice. For sacrifice. It is over here. The office of President of France is not unlike that of Vice President of the United States and there one does not find real live politicians breaking a log to obtain this office. The Presidency in France is rather the culmination of a long and successful life in politics and to be held by a man who is done with the game and who, after he has served his seven years, will have nothing further to ask of the voters. So Premier Poincare—who is very much of a live member—is said to be fighting off all those too friendly friends who would see him elected to the office. Later on, perhaps, he might like it, but not just now. Minister of Labor Bourgeois a very able man is looked upon as a probability, or at least a possibility, but he is a little old and is not in the best of health. He would probably refuse the nomination if it came his way on account of these things. There isn't much real work to do, it

We Have Triplets

which is something that should be in every home. Probably you think you know your own business and can tell that you do not want triplets. Triplets—you understand are twins and a half, one-fourth of a dozen or three in number.

Now if you think you do not need triplets come in and if we do not prove to you beyond a reasonable doubt that you are wrong we will give you a season ticket to Henrietta.

These triplets are not as expensive as most of the ones you have met, they cost one dollar and fifty cents and if you want to get in as a charter member of the Association of wise ones wake up the operator and ask for 341 and they are coming right up to sit on your dressing table. They are IMOGENE TOILET WATER, JAPANESE MASATA TALCUM POWDER, and DIKE'S PEROXIDE CREAM. They are all that the dictionary means when it says quality and elegance.

BANKS DISLIKE FINGER PRINT IDENTIFICATION

Plan To Prevent Foreigners Does Not Meet With Much Favor in New York

New York, June 7.—While the heads of large savings banks admit that the adoption of the system of finger prints by the North Side Savings Bank for the identification and protection of depositors is a good thing, they do not believe it will be put into operation by the big institutions.

The president of one important savings bank said that the number of cases where dishonest persons had succeeded in withdrawing money belonging to others was extremely small.

In fact, he said his institution had had practically no trouble during the last ten years. Because of this he believed the work in taking care of the system would be out of proportion with the amount of safety afforded.

Most of the trouble on this score comes from the "black sheep" of families, who, he said, knowing the signature, age and names of relatives, are able to draw money deposited by other members of the family.

The systems now used by savings banks in general make it necessary for the person desiring to make a withdrawal to have a bank book, the

Diamonds Before Orange Blossoms

is apparently the way of the world. It seems that a man regards the queen of precious stones as a fit tribute to the queen of women. OTHER JEWELS are characteristic of other situations in life, and nothing is so pleasing as to have an event signified by a piece of jewelry. Our stock offers a wide range for selection.

signature and to answer test questions. The president said it was much easier to obtain money from a business bank by check, because in the case of a savings institution the person desiring the money had to make a personal appearance and it takes a very brazen and bold individual to go through the necessary examination. He added that there were few forgeries in savings banks.

From a large detective agency, however, a very different story was obtained.

The finger print system inaugurated by the North Side Savings Bank in the Bronx has created considerable interest in that borough and has already secured quite a few new accounts for it.

The opener of every new account is required to put the prints of his three middle fingers on the card bearing his residence, occupation, date of birth, birthplace and other particulars.

In addition to being a safeguard it is extremely useful in cases in which depositors cannot write, but make a cross for their signature.

The finger prints are only used when there is any doubt as to the identification of the persons drawing the money. The ink is rubbed off the fingers with a small rag saturated in benzine.

It was said at the bank that the finger prints of persons doing manual labor are much more pronounced than those doing office work.

MANY ATTEND FUNERAL OF SENATOR G. S. NIXON.

Washington, D. C., June 7.—Funeral services for the late Senator George S. Nixon of Nevada were attended by President Taft and scores of members of both houses of congress.

EMPLOYEES OF BOSTON'S ELEVATED ROAD STRIKE

Violence Marks First Day of Walkout, Following Organization of Union.

By Associated Press Boston, Mass., June 7.—Violence marked the beginning of a strike of several thousand elevated railway employees today. Those refusing to work are members of a recently formed union. The strike came shortly after 4 a. m., with a suddenness and a clash that surprised both the company and police.

The men had been discussing the matter nearly all night at a mass meeting. When the strike was declared a rush was made for the first early morning cars. Windows were smashed, one motorman and one conductor badly beaten and passengers rushed out of one car by strikers. Later in the day about half of the full number of cars was running.
