

DEMOCRATS TO HAVE THE BEST

BALTIMORE WILL BE TURNED OVER TO THEM FOR CONVENTION

CITY GIVES UP \$100,000

Costs That Much To Land Gathering and Much More To Get Ready

By Associated Press. Baltimore, Md., June 11.—The same energy that the citizens of Baltimore displayed in going after the Democratic National convention is evident in the preparations that have been made here for the comfort and entertainment of the convention guests and the convenience of the political leaders and delegates who will name the party's next candidate for President.

The committee that went to Washington to lay the advantages of Baltimore before the Democratic National committee was composed largely of bankers and business men. One of their first arguments was the presentation of a certified check for \$100,000 as a guarantee that Baltimore would do all that it promised.

The committee agreed to furnish one of the best convention halls in the country, to remodel it as the national committee saw fit and to do everything in their power to oil the intricate mechanism of the convention routine and look after the convenience not only of the delegates but also of the guests from all parts of the country who would attend.

Preparations to fulfill these promises and go even further have been carried out here by means of thorough organization. The first step, after the meeting of the convention here was assured, was the appointment of a citizens' committee of 900, which was divided into sub-committees, and to each of these was delegated a certain part of the work.

At the head of the whole organization is the Hon. Robert Crain and Mayor Preston, the latter by virtue of his office and Mr. Crain as chairman of the executive committee of the citizens' general organization. The sub-committees have charge respectively of reception, convention hall, press, visiting merchants, transportation, program, concessions and privileges, entertainments, music, publicity, floral decorations and receiving editors and publishers.

The general municipal convention committee appointed by the mayor is subdivided into state committees, to which the delegates and visitors from the respective states may turn for information and assistance.

HAVANA IS QUIET TODAY NO NEW DISTURBANCES

Many Negroes Arrested On Charges of Conspiracy But No Fresh Outbreaks

By Associated Press. Havana, June 11.—Havana is quiet today. No disturbances in the vicinity of the capital have been reported. Government officials say they have no news from the province of Oriente. During the night the police made many arrests of negroes who are charged with conspiracy.

WASHINGTON PLEASANT AT CONDITIONS IN CUBA

By Associated Press. Washington, D. C., June 11.—Absence of fresh outbreaks in Havana has encouraged the State Department in the belief that the measures already taken to show the purpose of this government to maintain order in Cuba have been sufficient. It has been decided, there shall be no addition to the naval force now in Cuban waters unless unexpected developments make them necessary.

DETECTIVES AT WORK ON EIGHT INDIANA MURDERS

By Associated Press. Villisca, Iowa, June 11.—Detectives working on the case of the eight murders here Sunday night claimed to see in the slaughter of Joseph Moore and seven other persons in his home a similarity to the recent wholesale butchery at Ellsworth, Kansas. Bloodhounds which followed the trail for a short distance yesterday were again put to work today.

COMMITTEE ADDS MORE TAFT VOTES

KENTUCKY'S CONTESTS FOLLOW THOSE PREVIOUSLY TAKEN TO CHICAGO

GOV. HADLEY AT CHICAGO

Prominent Roosevelt Supporter Joins Forces—Ten More Voters For Taft

By Associated Press. Chicago, Ill., June 11.—Ten more votes for President Taft on the temporary roll call of the National Republican convention were added today by settlement of contests by the National committee. Besides the four Kentucky delegates at large, two each were given from the first and second districts and the contest from the fourth district was withdrawn, the Taft men being seated.

Much action was promised today at both the Taft and Roosevelt headquarters, due in a great part to the arrival of William Barnes, Jr., of New York at the President's camp and Governor Hadley of Missouri are the former executives.

The Roosevelt camp welcomed the coming of Gov. Hadley. As one of the original governors who urged the former president to make the race and one whose name has been mentioned frequently as a possible running mate of Roosevelt, his counsel was in demand.

Supporters of Roosevelt held a conference last night which lasted into the early morning hours but what was discussed none of the conferees would tell. Senator Borah another national committeeman who yesterday visited to seat Taft delegates in Indiana were participated in the meeting.

This makes a total of 98 for Taft. Monday's work of the Republican National committee added twelve more delegates to the catalogue of the Taft strength on the temporary roll of the National Republican convention.

The much discussed Indiana contests came before the committee and all were decided in Taft's favor.

With the seventy-two delegates comprised in the southern contests decided last week, in the Alabama, Arkansas, Florida and Georgia cases, today's gains make a total of eighty-four delegates added to the Taft forces by the work of the National committee; and with the 201 instructed and uncontested delegates credited to him, they bring his present total on the temporary roll up to 285.

A large proportion of the contested seats among the 170 cases still to be passed on by the committee represent delegates instructed for Taft; the precise number is the subject of much dispute, nor can it be stated how many of these contests Taft will win.

The cases decided today were those of the Indiana delegation at large, four in number, headed by Colonel Harry S. New, chairman

SCHOOL CENSUS GIVES INCREASE

GAIN OF THIRTY-TWO CHILDREN OVER LAST YEAR IS SHOWN IN REPORT

FEWER NEGRO CHILDREN

Most of Increase Is Inside of City Limits—Enumerator Completes His Work

There are 1904 children of school age in the Wichita Falls independent school district according to the report of W. W. Brown, scholastic enumerator who has just completed the enumeration. This is a gain of about 32 over last year. Of the total 123 live in the city outside the city limits and 1771 within the city. The country shows a loss from last year. There are 136 negro children included in the enumeration. This is a decrease from last year when the negroes numbered 147.

Mr. Brown says that in his rounds this year he has found fewer houses occupied by several families. He attributes this to the decrease in rents allowing some of these families to rent houses themselves.

Children seven years of age comprise the greater number of those of scholastic age the number decreasing with each succeeding year. Girls outnumber the boys of the whites while the male negroes outnumber the females. These details are set forth in the following tables prepared by Mr. Brown:

Table with columns: Years, Whites (Male, Female, Total), Negroes (Male, Female, Total). Rows for ages 7-17.

HEAVY CROP PROMISED ON FARM DOWN RIVER

Conditions on Noble and Henderson Farm and in Vicinity Declared Excellent

Some of the best looking wheat and oat fields in this entire county may be seen about five miles down the Wichita River on land owned by T. B. Noble and N. Henderson, and adjoining farms. This vicinity was visited by a heavy rain storm exactly five weeks ago, and the result is that the crops received precisely the proper amount of moisture which it seems was needed, and wheat and oats in that locality will probably average more bushels to the acre this year than they have averaged during the last ten or twelve seasons.

The particular rain which did the business was entirely local and fell over a radius of only a few miles. It may be recalled in connection with the recent inspection trip of the Katy railroad officials headed by Frank Trimball. The officials while returning to this city from a visit to the Petrolia oil and gas field, were caught in the downpour, and were delayed for several hours before reaching this city which they finally did only by telephoning here for their special train to be sent to Mabledean after them.

It was thought at the time by many that the rain had probably ruined wheat and oat fields, but the reverse has proven the case. On the Noble and Henderson farm may be seen a field containing one hundred and fifteen acres which it is estimated will produce in the neighborhood of forty-five or fifty bushels of oats to the acre. From a fifty acre field of wheat, it is thought that twenty-five or thirty bushels of wheat will be threshed, and two fifty acre fields of corn are looking fine, the plants having already attained a healthy growth.

Fruit trees, sorghum, milo maize, cotton and other crops are all in good condition in the locality, although a rain at the present time would do no harm.

WEATHER FORECAST

Tonight and Wednesday generally cloudy.

CANDIDATES NUMEROUS MANY NAMES ON BALLOT

Large Number of Office-Seekers To Be Voted On at the Primaries Next Month

Paris, Texas, June 11.—The following candidates have filed their names with Chairman Sheb Williams: For United States Senator—Morris Sheppard, Texarkana; C. B. Randall, Sherman; Matt Zollner, Fate.

For Congressmen at Large (two to be elected)—J. K. Street, Dallas; E. W. Bouads, Marlin; S. C. Harris, Winters; A. M. Kennedy, Mart; J. N. Browning, Amarillo; Daniel E. Garrett, Houston; E. I. Kellie, Jasper; Alexander S. Garrett, Springtown; Jeff McLemore, Houston; Joe Y. Lancaster, Plainview; R. E. Yantis, Athens; Hattow W. Summers, Dallas; Method Padral, West; C. M. Cureton, Meridian; W. T. Loudermilk, De Leon; George A. Harmon, Dallas; Frederick Opp, Elano; R. R. Smith, Jourdanton; V. W. Grubbs, Greenville; Frank T. Roach, Georgetown; Will A. Harris, Point; Sebe Newman, Ennis.

For Governor—O. B. Colquitt (re-election), Austin; W. F. Ramsey, Cleburne.

For Lieutenant Governor—W. M. Imboden, Rusk; Will H. Hays, Brownwood.

For Attorney General—B. F. Looney, Greenville; J. D. Walthall, San Antonio; M. B. Harris, Fort Worth.

For Comptroller—Bob Barker, San Antonio; W. P. Lane (re-election), Fort Worth.

For Treasurer—J. M. Edwards (incumbent by appointment), Austin; Frank B. McCammon, Fort Worth; W. N. Adams, Brownwood; W. A. Astor, Sherman.

For Commissioner General Land Office—Charles Geers, Fort Worth; Forrest Gaither, Chilton; James T. Robison (re-election), Austin.

For Railroad Commissioner (unexpired term, two years)—J. L. Wortham, Houston (incumbent by appointment); J. C. Mason, Deport; T. G. Thomas, Houston; Earl B. Mayfield, Temple.

For Railroad Commissioner (full term)—W. D. Williams, Fort Worth (re-election). (Charles T. Zitch of Needville filed application as a candidate for railroad commissioner, but did not designate which place. His application is therefore void.)

For Commissioner of Agriculture—Ed R. Kone, San Marcos (re-election); H. A. Halbert, Coleman; Eugene Irion, Clyde; H. E. Singleton, McKinney.

For Chief Justice Supreme Court (full term)—T. J. Brown, Sherman.

For Associate Justice Supreme Court (full term)—T. J. Brown, Sherman.

For Associate Justice—Supreme Court (unexpired term, two years)—J. B. Dibrell, Seguin (incumbent by appointment); William E. Hawkins, Brownsville.

For Associate Justice—Supreme Court (unexpired term, four years)—Ocie Speer, Fort Worth; J. C. Townes, Austin; Nelson Phillips, Dallas (incumbent by appointment); K. R. Craig, Dallas; R. A. Peasants, Galveston.

For Justice Court of Criminal Appeals (full term)—W. B. Green, Gonzales; A. C. Prendergast, Waco (incumbent by appointment); J. C. Muse, Dallas.

For Superintendent Public Instruction—F. M. Bralley, Austin (re-election).

IRRIGATION ENGINEER FOR STATE IS PROPOSED

Suggestion is Made At Meeting of Texas Welfare Commission This Morning

By Associated Press. San Antonio, Tex., June 11.—In an address this morning before the Texas Welfare Commission W. L. Rockwell, former irrigation expert for Texas, advocated the establishment of a state office of irrigation engineer, the appointment to be made by the chief justice of the supreme court and to hold office for a period of not less than six years. This engineer would be custodian of the water supply of the State and would see that all resources for irrigation were utilized to the best advantage. Mr. Rockwell showed there are about 425,000 acres of land under irrigation at present.

Dallas.—The building permits of this city for the month of May totalled \$310,923.

RAIN-MAKERS TO MEET SATURDAY

CONFERENCE OF REPRESENTATIVES OF NEARBY TOWNS CALLED FOR THAT DATE

TRUST COMPANY PLANNED

Committee Appointed To Attend To Preliminaries—Baptist Educators Are Coming

Towns within a radius of fifty miles of Wichita Falls will be invited to send representatives to a "rain making" conference here next Saturday afternoon at 3 o'clock. At a meeting of the directors of the Chamber of Commerce this morning the secretary was authorized to send out invitations to the towns in the territory outlined to send representatives here for the conference at the time asked.

The Chamber of Commerce will have nothing to do with the "rain making" in an official capacity further than to call the conference. The matter will then be up to the citizens of Wichita Falls and the other towns. By the time of the conference it is expected that quotations can be secured on dynamite in large quantities, so that it can be distributed among the towns joining in the project for simultaneous explosion.

The conference was suggested by the reading of a letter from Stamford saying that a thorough test would be made of the dynamite method near that place either today or tomorrow provided the humidity was great enough.

Several directors stated that they had no confidence in this method for making rain. Others were unconvinced either way but all voted for the motion instructing the secretary to invite representatives from other towns to a conference.

Several other matters were acted upon by the directors. The most important was the appointment of a committee comprised of R. E. Huff, T. C. Thatcher, J. A. Kemp, W. R. Ferguson and Marvin Smith to confer with Secretary Forrester on plan for the organization of a trust company for the purpose of taking stock and making loans to new enterprises. A representative from each of the banks was appointed on this committee because the support of the banks would be necessary and Mr. Smith who is not a director was appointed to represent the merchants of the city.

The sum of \$45 was appropriated for the boys camp at Lake Wichita. The secretary was instructed to notify subscribers to the bottle glass factory bonus that 25 per cent of their subscription is no payable.

Secretary Forrester stated that he had been informed that the educational committee of the State Baptist Association would be in Wichita Falls on Monday, June 24th to discuss the proposition for the establishment of a junior co-educational college here with the Chamber of Commerce. The appointment of a committee to meet with the board was deferred until the meeting next week.

NEXT BATTLE MAY BE NEARER CHIHUAHUA

Movements and Counter Movements Characterize Operations Against Rebels

By Associated Press. Chihuahua, Mexico, June 11.—That the next great engagement between federals and rebels may be fought much nearer the city of Chihuahua than Bachimba is now admitted at General Orozco's headquarters. It is believed not improbable that Gen. Huerta will attempt to move his main column up the valley to the left of the rebel position to a point a few miles south and east of Chihuahua in an effort to get behind the forces fortified in Bachimba.

Anticipating such a movement, the rebels have perfected plans for a counter-movement. Enulo Campa, who has been devastating the country south and west of Torreon for some weeks has been ordered to join the main army. Yesterday he led his forces of six hundred to Orta and today himself should arrive in Chihuahua.

General Argumedo is operating almost independently in the State of Zacatecas.

FLOYDADA VICTORIOUS IN COUNTY SEAT FIGHT

By Associated Press. Amarillo, Texas, June 11.—The final count in Saturday's Floyd county election over the county seat gave the victory to Floydada by twenty-four votes. The proposition was to move the seat to the geographical center.

CONGRESSMAN IS KILLED IN RAILROAD ACCIDENT

Wickliffe of Louisiana Meets Death in Falling From Train at Washington

By Associated Press. Washington, D. C., June 11.—Representative Robert C. Wickliffe of Louisiana, met a tragic death here this morning. His badly crushed body was found on the railroad track in Potomac Park near the entrance to the bridge across the Potomac river. It is presumed he was either knocked off or fell from a train.

Mr. Wickliffe had been away for a day's fishing and was returning this morning when he was killed. The news of the tragic death of the prominent Southern representative did not reach Mrs. Wickliffe before she had started for the capitol, as was her daily custom, to watch proceedings in the House.

The body was about to be removed out of respect for the memory of Mr. Wickliffe when several members happened to catch a glimpse of his wife in the gallery. There was a hurried conference. Representative Estep of Indiana made their way to where Mrs. Wickliffe was sitting and invited her down stairs to Speaker Clark's office. There as gently as they could, they broke the news to her. Mrs. Wickliffe fainted. Later she cried to be taken home.

Immediately after she was seen to leave the gallery the House adjourned at 11:50 until 11 a. m., tomorrow. Memorial services will be held later in the session.

ERUPTION CAUSE OF MUCH DAMAGE

VILLAGES IN ALASKA BURIED UNDER FOOT OF VOLCANIC ASHES

BOAT FURNISHES REFUGE

No Lives Known To Be Lost But Suffering in Inland Settlements Is Feared

By Associated Press. Kodiak, Alaska, June 9, via Tug to Seward (delayed)—June 11.—Kodiak and Woody Island villages are buried under a foot of ashes as a result of the eruption of Katmai volcano beginning Thursday afternoon and lasting 48 hours. No lives have been lost here but many settlements near the volcano must have suffered indescribably.

The revenue cutter Manning was in port here when the eruption began and furnished refuge for all the inhabitants of the town, 500 men, women and children, doubtless saving many lives. Food supplies are not sufficient to last more than two weeks.

DEMOCRATS COMMITTEE TO HAVE FEW CONTESTS

Believed It Will Take Very Short Time To Settle All the Difficulties

By Associated Press. Baltimore, Md., June 11.—Contests to be decided by the Democratic National committee are expected to be settled within a few hours, though the committee has not determined how much time it will allow each side for submission of the cases.

National Committeeman Josephus Daniels of North Carolina said the few contests were simple.

OKLAHOMA JOBBERS WIN IN RATE DECISION TODAY

By Associated Press. Washington, D. C., June 11.—Freight rates on all shipments from Oklahoma into Texas were held today by the Interstate Commerce Commission to be unreasonable and unjustly discriminatory.

The above decision affects class rates only, being in a case where Oklahoma jobbers had complained. It will have little effect, according to local railroad men, upon shipments into and out of Oklahoma through Wichita Falls.

FIFTY-NINE LABORERS MEET DEATH IN RUSSIA

By Associated Press. St. Petersburg, Russia, June 11.—Fifty-nine field laborers were burned to death early today while asleep in a barn near Tambov, in Central Russia.

BOYS ENJOYING SELVES AT LAKE

FISHING, BASEBALL AND ROWING ARE AMONG TODAY'S DIVERSIONS

HAVE TAKEN POSSESSION

Camp Here Has Its Practical Side and Boys Receive Instruction Along Many Lines

By Associated Press. Fishing from the piers near the pavilion, playing baseball in the league park, and rowing boats on the waters of the lake furnished the principal amusements of the members of the summer camp at Lake Wichita this morning. This afternoon swimming, baseball, and other athletics will become the features of the day, and tonight camp fire story telling will be indulged in.

The boys are enjoying themselves to the limit. This morning while in the hottest part of a baseball game, a small cotton tail rabbit ran across the diamond and the result was that both nines temporarily stopped playing baseball and united in chasing bunny from the field. The incident came near breaking up the game but the rabbit escaped, and the sport proceeded.

A number of the boys chose fishing from the piers as their morning's occupation, and one boy was so far successful that he even received a nibble, but failed, however, to land the fish. A young lady fishing nearby was fortunate enough to hook a six pound drump, which she succeeded in landing safely, much to the chagrin on many of the Boy Scouts, who had thought that they were better fishermen than any girl.

The forty-one Fort Worth boys are established in eight snow white tents pitched below the embankment of the dam, almost directly back of the pavilion. They are plentifully supplied with bed clothes, and various camp utensils, and are equipped to make their homes at the lake for a period as long as ten weeks, instead of ten days as their present plans call for.

The visitors were joined at the lake this morning by a delegation of Wichita Falls M. C. A. boys and members of the Boy Scout organizations, who will spend the day with them. Some fifteen or twenty local boys will join the summer camp.

This afternoon a baseball game will be played between a team composed of local boys and a nine from the Fort Worth visitors.

George W. Sheffer, secretary of the Fort Worth Y. M. C. A., is in charge of the summer camp, which will continue until the 18th instance. He is assisted by George Saam, physical director of the Y. M. C. A., at Fort Worth, and by George Hill, scout master of Fort Worth. Those in charge are continually besieged by the boys, who ask their advice on all sorts of propositions. Some difficulty was experienced last night in getting the boys to retire, as many wanted to go in swimming, some wanted to explore the lake and a few even suggested staying up all night in order to witness a sunrise on Lake Wichita.

During the ten days of the summer camp lectures on practical applications of bandages in first aid cases will be given, talks will be made on camp life, and every effort will be made by the leaders to impress upon the boys the essentials and principles of scout life. As far as possible an effort will be made towards letting the boys themselves manage affairs, although this management will be under the direct supervision of either Secretary Anderson or Secretary Sheffer. Several open house entertainments to which the public is invited will be held.

BELIEVES MESSAGE WAS DELIVERED TO ISMAY

By Associated Press. London, June 11.—At the resumption today of the Board of Trade inquiry into the Titanic disaster, the attorney-general announced his intention of submitting to the court that the wireless dispatch which notified that ice had been seen in the route of the Titanic was handed to J. Bruce Ismay in his capacity as managing director of the White Star Company, because of its seriousness.

BIG BEARS ADRIFT OFF NEWFOUNDLAND

One of Them Recently Killed Near the Center of City of St. John's.

SWIM IN FROM FLOES

Fishermen Have Many Encounters With Ponderous Animals—The Sport Is Very Dangerous One—Their Presence There Unusual.

St. John's, N. F.—In remote towns in Canada it is not uncommon for deer occasionally to run at large. In Newfoundland, however, was enjoyed the unique experience of having polar bears doing this, and quite recently one was shot within two miles of the center of St. John's, after being a disturbing element for several weeks, as he prowled about in the back country. Some days ago a second was killed in a village 40 miles from the city; very frequently still others are come upon in various parts of the country and suffer the same fate, though not until they have proved themselves a terror to many timorous persons.

These occurrences do not mean that Newfoundland is in the arctic regions or that it is easy for polar bears to make their way from those areas to this island. They drift down the arctic ice floes and either land on the eastern shore of Newfoundland or float out into midocean, where they perish miserably of starvation or are drowned by the melting of the ice masses on which they stand.

Owing to the exceptional rigors of the past winter along Baffinland and Labrador, the polar bears have had to wander off among the ice floes in greater numbers than usual in quest of the seals upon which they chiefly feed, and the crews of the Newfoundland sealing fleet, now returning from their annual hunt, tell many stories of encounters with these monsters.

When he is well fed the polar bear is easily worsted, but if hungry he fights with fury. Hence, encounters

Found He Had Hit a Polar Bear.

with bears are not sought, unless rifle men are included in the party; but sometimes there is no alternative. This season, on one occasion, seven men armed only with seal clubs had to fight an old male bear.

One man thought he saw a seal behind a hummock and started off after it, a second following him. Just as the first topped the hummock he raised his club and struck, when to his horror he found he had hit a polar bear over the snout. The bear turned on him with an angry growl and would have dismembered him with a single stroke had not the second man got in and hit him on the snout also. This blow half stunned him, and he fell backward into a small water-hole.

Still, though dazed, he struggled to get out, and so there was nothing for it but to fight him, and this the men did successfully, the whole seven joining in the struggle. Yet he broke one man's ankle, lacerated another's thigh and splintered the arm of a third before he gave in. His skin and fat weighed 400 pounds, and his carcass probably as much more, so that he was as bulky as a small horse.

Teamster's Big Roll.

Chicago.—While investigating the death of George Johnston, a teamster, supposed to be indigent, coroner's officers found a bankbook in his effects containing deposits of \$75,000.

City Hall Attached.

Portsmouth, N. H.—The city government is practically at a standstill. Mrs. Ellen Quinn trying to collect a \$100 claim attached the city hall and all the city's movable property.

Required Two Graves.

New York.—It took two graves to hold the body of Frank Larson. He weighed 465 pounds when he died of fatty degeneration of the heart. The coffin was three feet four inches deep.

Beeville—Ten thousand acres of land near this city recently sold for \$100,000.

DEMOCRATS ARE TO HAVE THE BEST

(Continued from page 1)

for the convention week and in order to get them trained, put them at work a week before the convention opens. In addition, the hotel managers have nearly duplicated their equipment of linen and tableware. The rate plan agreed upon is as follows: One of the first class hotels, for instance, where the normal charge for a room and bath varies from \$3 to \$7 a day, will charge as many persons as occupy a \$3 room \$3 each and those in a \$4 room \$4 each, but no one will be charged more than \$4 a day even though he be one of the occupants of a \$5 or \$7 room. The Hotel Managers' Association claims that is a fair arrangement, since otherwise a guest might expect to hire a \$3 room and put in it as many persons as he saw fit, paying only a nominal service charge for each additional person. Such a service charge, the hotel men say, would not compensate them for the outlay for extra equipment and help necessitated by the convention.

The hotel committee reports that none of the hotels has raised rates, and that room rates will run as low as \$1.50 a day. It declares that a comparison with prices of cities that have taken care of previous convention crowds and with the rates scheduled in Chicago for the Republican convention this year shows that hotel charges here are as low as any and in many instances lower.

A booklet issued for the convenience of convention visitors contains the following paragraph regarding this subject of food and lodgings:

"Baltimore is prepared to handle a large crowd. It will be well to make reservations in advance. No one need feel disturbed, however, if reservations have not been secured in advance. A very effective plan has been developed whereby persons arriving, without having made reservations, will be able to secure comfortable quarters at no inconvenience to themselves. All that is needed, after reaching the city, is to make application at the official headquarters. These headquarters are down town in the first floor of the Equitable building, Calvert and Fayette streets. A complete register is on file there of all the various gradations of quarters and accommodations from the dollar room to the more pretentious suites. If notice is sent in advance as to the time visitors expect to arrive in Baltimore, an effort will be made to have some of the reception committee at the particular place of arrival so as to look after those who may come. Any and all information about seats and accommodations can be obtained by writing to Mr. Robert Cain, General Chairman, Calvert Building, Baltimore."

Baltimore has been putting her house in order for the past three months, and today she is spick and span and ready for callers. Many of the streets leading from the convention hall to the railroad stations have been repaved. The street rail way company has laid special tracks and loops to handle the crowds and ordered 60 new cars at a cost of \$300,000.

When the city first began to prepare for the convention, plans were suggested for the erection of street arches and for decorating the public buildings with colored bunting. Later this idea was rejected, because the committee on decorations concluded that it would attain better results by confining its decorations almost entirely to lights and flowers and living green.

At night the stranger in town will have no difficulty finding his way to the convention hall. He need only gaze upward and follow any of the three great beams of light which will be focused on the Fifth Regiment Armory from three different parts of the city. These searchlights will shine forth from the tops of the Emerson and Belvedere hotels and from the tower of the Maryland Casualty Company's building.

The appropriation for this special lighting is \$15,000. The convention hall itself will be a blaze of lights, the ribs of the curving roof being outlined by 10,000 electric bulbs. The block of Bolton street leading to the main entrance of the hall will be brilliant with a colonnade of electric lamps on pillars 50 feet apart. The portico of the city hall will be outlined with electric bulbs and some of the city's principal monuments will be treated in the same way. To supplement this display by the city the proprietors and tenants of all the tall buildings have been asked to leave the lights burning in upper rooms so that the business district at night will be ablaze.

The Park Department, which has charge of the plant and flower decorations, has done much to beautify the exterior of the convention hall by screening the temporary doorway and stairways leading from street to the balconies with trees and shrubs. Among the trees transplanted for this purpose are elms and oaks, some of them 40 feet tall. Baltimoreans are fond of floral displays, and appeal have been made to shopkeepers and occupants of private houses to decorate their windows with flower boxes.

To Baltimoreans the convention itself will be the whole show, but thousands of visitors that come here from all parts of the country will find plenty to occupy their attention when

We Go to Greater Length

Pennington's

They grow weary of watching Democratic celebrities and listening to oratory. One of the most popular trips of the week promises to be down the Patuxent River, which forms the city's flag harbor, and out into Chesapeake Bay. For the accommodation of delegates and visitors who wish to take this excursion the city has refitted the steamers, Annapolis and Latrobe, which are used in winter to keep the harbor clear of ice. Annapolis, the site of the United States Naval Academy, is only half an hour's ride by trolley. Washington on the national capital, is less than an hour away.

DAILY DIET AND HEALTH HINTS

OCCUPATIONS WHICH LEAD IN CANCER STATISTICS.

Statistics drawn from the late census show that the occupations most contributory to cancer are butcher, tailor and gardener. The dietetic theory of the cause of this disease—the material factor in the cause—can readily explain why the butcher and the gardener should be more liable than others, corresponding with the accurate English statistics for fifty years, which place traveling men, coachmen, hotel keepers and domestic servants first, except chimney sweeps. If the tailor has the average bill of fare his lack of exercise favors the accumulation of waste matter in the system—and perhaps his extra worry about his bills magnifies the mental factor in his case. Soot favors the retention of waste more than coal because it, like salt, is less soluble, and being very fine permeates the tissues. The bruises or irritation provides the local ground for the tumor, but the disease is primarily and fundamentally in the blood, and blood is made from food influenced by mental condition and kept pure by normal elimination. Simple diet, right physical and mental exercise will keep one immune from cancer, and all other diseases.

WATER HEATER FOR POCKET

Harnessed to an Electric Fixture, it Quickly Does Its Work—Boils Water in Four Minutes.

Heretofore it has always been supposed that some kind of a stove was required to heat water, even if only a stove the size of your hand. An Ohio genius, however, has demonstrated that this is not so by devising an electric water heater. A little metal cylinder has a cord

Pocket Heater in Action.

which can be fastened to an ordinary electric light socket. The current is then turned on and the cylinder is placed in the water. The receptacle containing the liquid must be brought to the heater, as the latter cannot be moved farther than the length of the cord. The heater will produce hot water in two minutes and boiling water in four minutes. It is useful to heat water for shaving and as a sterilizer is just what is required. At the same time it does not charge the water and may be handled without fear of contact with the current.

USE ELECTRIC CEILING FANS

Being Given Interesting Test by Mobile (Ala.) Merchants to Keep Out Harmful Flies.

Electric ceiling fans as substitutes for screen doors are being given an interesting test by several business houses in Mobile, Ala. The fans are installed over the doorways on the outside and the draft created is said to effectually prevent flies from entering, says the Popular Mechanic. The idea was first tried over the entrance of a store located next to a restaurant, the flies from which were most persistent and annoying in getting past the screen doors. Since the fan has been installed, it is claimed

Keeps Out Flies.

that not a fly passed through the entrance, although the six-foot doorway is wide open and customers are continually passing in and out.

Strengthen Filament.

When it was first put before the public, the filament of the tungsten lamp was so delicate that it would be often shattered by careless handling, and it was impossible to place them where they were subject to vibration, for the life of a lamp under such circumstances was necessarily short. The improvements made in the manufacture of filaments of this character have been very rapid, and at a recent electrical show all sorts of stunts were done with the tiny fire made for use in the lamp. Heavy pieces of furniture were supported by one of these thread-like cords, and they were subjected to other tests of this character and equally severe. It is claimed that a wire of tungsten may now be made with from three to five times the strength of that of the best steel, and has shown a strength of 500 pounds to the square inch.

Electric Light In Lungs.

Delegates to the convention of the American Laryngological Association held at Philadelphia witnessed a remarkable surgical operation when Dr. Chevallier Jackson of Pittsburg with- out the use of a knife, removed a brass paper clip that had been imbedded in a young woman's lung for eight years. He used a bronchoscopic tube, inclosing a tiny electric light, reflector and minute forceps, which was lowered down the patient's throat.

Kept Alive by Currents.

It is claimed that the doctors in Philadelphia kept a patient alive for three hours after heart action had ceased by means of electrical currents.

San Benito—Drainage district number three has voted a \$450,000 bond issue to construct a drainage system.

WINNING STREAK BROKEN AT LAST

DENISON TAKES FINAL GAME OF SERIES BY FAST FIELDING

LOCALS UNABLE TO HIT

Cannot Get To Left-Hander in Pinches—Visitors Put Up Errorless Contest

Well, anyhow, eighteen games is a long enough winning streak and we had first place grabbed, besides. So it was just as well to let Denison have one game, after beating them seven times. The score was 3 to 1.

Denison broke her losing streak of thirteen games by winning yesterday, she having lost pretty near as many as Wichita Falls has won. Kistenmacher of McKinney, a southpaw, pitched for Denison yesterday and his pitching, backed by faultless support, defeated the locals. When he pitched for McKinney against the locals, he fared badly but he came back yesterday.

It was Wichita Falls' tenth defeat out of forty-four games. That's fair enough.

Foley White who was with the McKinney team appeared behind the bat yesterday. He has lots of pep and is a steady hitter, but his pegging to second did not seem to be up to snuff. Jerry Naylor has been released and White is to take his place.

Wichita Falls outdid Denison yesterday but the bingles were safely scattered. The only run came when Lawrence, the first man up in the first inning, hit for four bases. The locals filled the bases in the fifth with only one out, but fast fielding retired the side. Denison played an exceptional fielding game yesterday making no errors. Simpson at short made seven assists in faultless style.

Mullink started for the locals but was taken out after the second inning when two two-baggers and a single netted two scores. Baxter who replaced him, allowed two hits in seven innings. This makes just four hits Baxter allowed Denison in sixteen innings pitched. One run was scored off him in the eighth, but it was not earned.

Beckham made sixteen put-outs in yesterday's game, which is quite a few. The locals' fielding was pretty classy itself. Brown threw Kistenmacher out at the plate in the fifth inning, making the third-time recently that he has pulled off his stunt. It was a perfect throw and Foley White did the rest.

C. Covington of Denison failed to take his time at bat in the sixth inning, but the omission was declared to have been unintentional.

Denison's first two scores came in the second inning. Henderson hit for two bases and went to third on B. Covington's single, the latter stealing second. Henderson scored on Simpson's sacrifice fly and B. Covington came in on Kistenmacher's two-bagger. In the eighth, C. Covington was safe on a force-out, stole second and third and scored on a throw to catch Bobo at second. The score:

COMPLETE SCHEDULE TEXAS-OKLA. LEAGUE

Games to July 28 Provided—Drifters Will Play at Ardmore July 4th Will Close Season There

The schedule for the Texas-Oklahoma league for the second half of the season, provides for three game series throughout and is a much more satisfactory arrangement than was the first schedule of the first half of the season. Under the new schedule, however, there will be no game here on the Fourth of July, the Drifters playing at Ardmore on that date.

The complete schedule follows:

JUNE 11, 12, 13. Denison at Bonham. Durant at Wichita Falls. Ardmore at Sherman.	JUNE 14, 15, 16. Bonham at Wichita Falls. Denison at Durant. Sherman at Ardmore.	JUNE 17, 18, 19. Denison at Durant. Bonham at Ardmore. Sherman at Wichita Falls.	JUNE 20, 21, 22. Ardmore at Durant. Wichita Falls at Bonham. Sherman at Denison.	JUNE 23, 24, 25. Denison at Bonham. Durant at Ardmore. Wichita Falls at Sherman.	JUNE 26, 27, 28. Ardmore at Bonham. Wichita Falls at Denison. Sherman at Durant.	JUNE 29, 30, JULY 1. Ardmore at Wichita Falls. Denison at Durant. Bonham at Sherman.	JULY 2, 3, 4. Wichita Falls at Ardmore. Bonham at Sherman. Durant at Denison.	JULY 5, 6, 7. Denison at Bonham. Durant at Ardmore. Sherman at Wichita Falls.	JULY 8, 9, 10. Denison at Wichita Falls. Ardmore at Bonham. Sherman at Durant.	JULY 11, 12, 13. Wichita Falls at Bonham. Denison at Durant. Ardmore at Sherman.	JULY 14, 15, 16. Wichita Falls at Sherman. Ardmore at Denison. Durant at Bonham. Two Kinds of Meats Which Do You Prefer?

SENT TO YOU BY AUTO PHONES 432 & 233

The first kind of meats that you can buy cost you less money than what my meats will cost you; but they won't give that satisfaction on the table that you are looking for. They will be tough, difficult to cook, practically tasteless when cooked and far from appetizing.

The other kind that I can furnish you, while they will cost a cent or two more per pound perhaps, will be tender, juicy, full of rich flavor; easy to cook; extremely appetizing and will please the whole family.

I know pretty nearly which kind you prefer and want your order for the latter kind at a fair price with the best of service.

Entered at the Postoffice at Wichita Falls as second-class mail matter.

Wichita Falls, Texas, June 11th, 1912.

Wichita Falls is now attracting a great deal of attention, and that counts some in city building.

Let's not forget that there are other than the offices of governor and senator to be filled.

The National Republican committee, has successfully solved the problem of what to do with our ex-presidents.

The scholastic census for Wichita Falls for the year 1912 shows a very substantial increase over that for 1911, which is only another unmisgiving evidence that Wichita Falls is growing in the face of adverse conditions.

If the explosion of immense quantities of dynamite in Wichita Falls did not produce rain, it must have had some effect upon their ball team for they have not lost a game since the explosion occurred.—Bonhan News.

It wasn't dynamite, merely force of habit. Our boys got so accustomed to being in first place last year that it seemed the most natural thing in the world for them to cop first honours again.

We counted our exchanges this week and found that we had 53 weekly papers that come to us. Of the fifty-three there are about three that are supporting O. R. Colquitt for governor. That three, we are compelled to say are not such newspapers.—Byers Her.

When Editor Webster penned the above was he aware of the fact that the People's Review, (Col. Bill Edwards' roasting machine) was one of the three? If he knew it, then we shall not sympathize with him the least bit. The Colonel usually has his gun trained on us, and our only object in publishing the above is in the hope of inducing him to turn them for a short time in another direction.

Dallas is all stirred up over an attempt on the part of the principals of the public schools of that city to discharge one of the lady teachers, and from all the evidence so far given by the prosecuting witness, who is the principal of the school, it would seem there is no just ground for his complaint whatever. Speaking of the matter, the Dallas Times-Herald has the following to say editorially concerning the matter: "The prosecuting witness admitted that Miss De Capree conducted herself as a lady should, that no complaints had been made, by pupils or parents, regarding her scholarship that her work in the class room had no been criticised; and that she had no been discourteous and impertinent to her superiors. What can be the matter at the High School, anyway?"

THE RAIN-MAKERS.

Our good friends, the citizens of Wichita Falls, who bombarded the elements with dynamite a few days ago in the effort to produce rain, have been made the butt of unkind jokes and some serious criticism to thus endeavoring to interfere with the rain god. But, since a copious rain fell in McLennan county following the bombardment, the Times Herald is disposed to place its O. K. on the proceedings and insist upon some more of it—not right now but in the next week or ten days. We have plenty of moisture, now thank you, but it did not come any too soon. Certainly, take another shot at "old jupe." Maybe he will turn his springer loose closer to you next time.—Wichita Times Herald.

That is very kind of you. Just let us know about how much you need, and whether it is desired in the shape of a waterspout, cloudburst or just a nice, slow drizzle. It is always necessary to specify the time also bearing in mind to give us at least twenty-four hours in which to carry out instructions.

Dike Burnside, an employee in the car shop of the Wichita Falls Route had two fingers and the thumb of his right hand cut off in the "planning machine" in the shop this afternoon. The wounded members were dressed by Dr. Miller, the company's surgeon.

Austin—The Imperial Fire Insurance Company of Denver, Colo., has been granted a permit to do business in Texas; capital stock \$250,000.

RECIPES WORTH TRYING

APPETIZING DISHES THAT ARE EASY TO MAKE.

Leftover Vegetables—Can Be Utilized in Russian Salad—Bread Crumbs as Foundation for Orange Pudding—Apricot Biryas Betty.

Russian Salad.—No "leftover" vegetables need ever be wasted, as those not suited to the soup kettles may be utilized in a Russian salad. Chop and cut the vegetables and mix lightly. Add two or three tablespoonfuls of chopped nuts if you have them, or a few spoonfuls of chopped bacon or minced fish. Serve on lettuce leaves, with French dressing. Stirring beans with French dressing, carrots and even turnips. Green peas and cauliflower, seem complementary, and a little bit of celery or a few olives go well with everything.

Orange Pudding.—This is made with bread crumbs as a foundation. Put a good quart of a cupful of dried bread crumbs into a dish with two cupfuls of scalded milk, and stand one side to cool. Beat the yolks of two eggs to a foam with half a cupful of sugar, and add to the soaked crumbs together with a tablespoonful of melted butter, the juice of one large orange and half the thin yellow rind grated. Butter a pudding dish, turn in the mixture, place in a dripping pan of boiling water, and bake until firm. Cover with the whites of the eggs beaten to a meringue, with two tablespoonfuls of sugar and a flavoring of orange, brown slightly and serve cold or hot. This may be varied by baking in individual molds or cups like custard.

Apricot Brown Betty.—An apricot Brown Betty is one of the delicious plain "stand-by" desserts for this season of between fruits. Canned apricots may be used, but the evaporated are cheaper and hold the natural favor of the fruit far better. Soak as many as are needed in cold water twelve hours, then simmer gently in the same water until tender, but not broken. Butter a deep pudding dish, and put a layer of the fruit on the bottom. Sprinkle with sugar, then a layer of dried bread crumbs dotted with butter and cinnamon. Proceed in this way until the dish is full, having the buttered crumbs on top. Cover and bake slowly for three-quarters of an hour, then remove the cover and brown. Serve with cream. Chopped almonds and raisins mixed with apricots make a pleasing change on occasions.

Here and There.

A kitchen bouquet for flavoring soups can easily be made. Take a few sprigs of parsley and wrap them around peppercorns, whole cloves, a bay leaf and other herbs that are at hand. Tie up tightly. This can be removed from the soup without trouble.

Some cooks always add a little potato to the mashed turnips, while others dredge in a little flour before seasoning. When the turnips are large they will have a more delicate flavor if the water is changed at least once during the boiling.

Do not throw away vinegar in which home-made cucumber pickles have been preserved. Keep it and use it in salad dressing instead of the ordinary vinegar. The odor is delicious.

Anise Seed Cookies.

Put a large tablespoonful of butter in the mixing bowl with two-thirds of a cupful of sugar and two well-beaten eggs. Add a tablespoonful of anise seed, two cupfuls of flour, sifted, with two or three tablespoonfuls of baking powder and two or three tablespoonfuls of milk. Mix it into a soft dough, turn it out on the floured pastry board and flatten it out with the rolling pin a little thicker than pie crust. Stamp out pieces with a cookie cutter and arrange them on a greased bake pan. Bake them in a moderate oven about seven or eight minutes.

Old-Time Ginger Snaps.

One cupful of molasses, one-half cupful of butter or lard, one teaspoonful of soda, one teaspoonful of ginger. Roll the molasses five minutes. Remove from the fire and add soda, butter and ginger. When cooled a little, stir in the flour until thick enough to roll, then roll thin as a postage stamp. Cut with a cookie cutter and bake in a hot oven, being careful not to burn. Shut in a tin pan. These will keep for a long time.

Stuffed Celery.

Select tender and fairly sized stalks so curved that the stuffing is possible. Add and stir Roquefort cheese to a cream, putting through a ricer, if necessary. Add thick cream until a paste is made. Fill the hollows of the celery and put the mixture in the icebox to chill. Serve with the salad or as salad, with French dressing, when desired. When served as a relish it is served without dressing.

Cheese Omelet.

Cheese may be introduced into omelets in several ways. An ordinary omelet may be served with thin cheese sauce made in the following proportions: One and one-half tablespoonfuls of flour, one-quarter cupful of grated cheese, one cupful of milk. This sauce may also be added to omelets in which boiled rice, minced meat or some other nutritious material has been included.

Austin—The State received \$67,721.07 from land sales and leases during the month of May.

SOME USEFUL LAUNDRY HINTS

Care in Hanging Clothes on Line Saves Considerable Work When Ironing Process is Reached.

It is one of the most trying ordeals for the woman who does her own laundry work to go from a hot room filled with steam and vapor to the chilling and bitter winds outside. After being put through the wringer every piece should be carefully shaken out, and all pieces of the same kind may be placed together. If clothes are put into the basket in proper order and condition, the work of hanging them out is reduced at least one-half. They also dry in better shape and are easier to iron.

Clothes pressed into folds in the wringer, then hung upon the line still in wrinkles and dried that way, are exceedingly troublesome when they reach the ironing board. It is an axiom of the housekeeper that "work properly begun is half done." Certainly the laundress who flings clothes on the line regardless of the shape in which they dry has lost sight of future advantages that may come from a better way of handling.

HOUSEHOLD QUESTIONS

Garnish macaroni and cheese with slices of hard-boiled eggs.

To potato soup add half a cup of blanched almonds, finely chopped.

Insects like neither salt nor alum, and a small quantity sprinkled on the carpet will keep them away.

Freshness of eggs may be tested by putting them into water. A fresh egg will remain at the bottom, one not so fresh will float a little higher, and a bad one will rise to the surface.

Art muslin curtains should never be washed in warm water. Make a pitcher with hot water and when it is nearly cold wash the curtains. If lilac or pink, ammonia.

There is an old-fashioned cake which is possible if one has at hand a cupful of sour cream. Cream the yolks of three eggs with a cupful of sugar and when the mixture is light beat in a cupful of cream in which has been dissolved a scant teaspoonful of soda. Then add a pint of flour, a little salt and a teaspoonful of lemon extract. Bake in an oblong, shallow tin.

Window Curtains.

Two kinds of curtains at a window are not by any means a necessity, but in almost all cases such an arrangement is extremely attractive, says the Ladies Home Journal. Curtains of silk, linen, cretonne or madras provide the note of color that is desired in the scheme of decoration in the room, and as a rule supply adequate window furnishings; but thin curtains of net, scrim or muslin next to the pane are always a charming addition and have the added value of preserving uniformity in the appearance of the windows from without. In cases where curtains of scrim or muslin are all that is required for the decoration of a room such curtains should not be used.

Gingerbread Diamonds.

These simple, crisp little cookies can be given to even very small children with no fear of ill effects. Take one pound of brown sugar, one-half pound of butter and rub to a cream. Add one well beaten egg, one pound of flour and two teaspoonfuls of ground ginger. Mix thoroughly and knead the whole very lightly. Sprinkle with flour and roll out until only one-eighth of an inch thick. Cut into diamonds and watch carefully while baking in a moderate oven. When properly cooked these little cakes are cinnamon brown and very crisp.

Corn Chowder.

Peel and slice thin onions enough to make a pint, boil an hour, add one-half pint of potatoes cut in dice and boil ten minutes longer. Fry brown a slice or two of salt pork cut into small pieces; add fat and all, then add a pint of corn fresh or canned, boil ten minutes longer, add salt and pepper to taste, a pint of milk, a cup of cream or butter size of an egg. Do not let the cream boil.

Rocks.

Three eggs, 1 1/2 cups granulated sugar, 1 1/2 cups chopped raisins, one cup butter, three cups flour, one teaspoon cinnamon, one teaspoon soda, one tablespoon water to dissolve soda in, one pound English walnuts chopped rather coarse. Roll out, cut and bake in moderate oven.

Spanish Salad.

Six white onions cut in rings and soaked in salted water. Stone pint large black olives and pour over dressing of cup of vinegar and cup oil beaten together and add salt and paprika to the onions.

Mocha Frosting.

Take one cup of pulverized sugar into which sift two dessertspoons of dry cocoa; two tablespoonfuls strong hot coffee, in which is melted a piece of butter the size of a walnut. Beat well and add a little vanilla.

To Keep Parsley Fresh.

Place the bunch of green parsley in an airtight jar, screw the lid on tight and keep it in a cool place. Cared for in this manner parsley will keep in good condition for a week.

PIES OF MANY KINDS

SOME VARIETIES NOT MET WITH EVERY DAY.

Recipes From Which the Competent Pie Builder Can Supply an Agreeable Change for the Dinner Table.

Several varieties of pies, some of them not frequently met with, are recommended for a change by Clara Kelley in Farm and Home. They are made according to the following recipes:

Transparent Pie.—To one cup butter add two cups sugar, one pint sweet cream, one-half teaspoon lemon extract, six eggs, white and yolks beaten separately. Bake very slowly. Enough for two large pies. Should be baked with one crust.

Cocoanut Pie.—Dissolve two tablespoonfuls cornstarch in one pint milk, add one-half cup sugar, one beaten egg, one-half cup shredded cocoanut, and one cup more of milk. Cook until thick and pour into baked crust. Spread with meringue.

Vinegar Pie.—Line a pie tin with pastry and fill with this mixture: To one cup sugar and two heaping teaspoonfuls flour sifted together, add one teaspoon butter, one-half cup vinegar, one teaspoon cinnamon and two cups water. Boil all together until thick, then pour in pie tin. Bake with one crust.

Lemon Pie.—Juice and grated rind of one lemon, one tablespoon corn starch, one cup boiling water, one cup sugar, one egg, piece butter size of egg. Dissolve corn starch in a little cold water, then pour on it the cup of boiling water, stirring starch all the time; add sugar and butter and stir well when cool; add the well-beaten egg, then the lemon, when it is ready to put in the crust.

Chocolate Pie.—To three tablespoonfuls grated chocolate, add one scant cup sugar, one-half cup milk, and beat until dissolved. Boil two cups milk, add two tablespoonfuls flour wet up in milk, and one whole egg, and two egg yolks, all beaten together. Now add the first named ingredients and cook a few minutes until thick. Use whites of eggs for meringue.

To Make "Kisses."

When egg whites have been left over from a dish that calls only for the yolks, they may conveniently be used up in "kisses," which are even a nicer accompaniment to ice cream than cake. An excellent recipe calls for half a dozen egg whites and half a pound of powdered sugar. The sugar should be carefully sifted several times. The egg whites should be beaten until stiff and the sugar cut into them and slowly folded through them. Spread waxed or buttered paper over a pastry board or a broad baking sheet. Drop the whites in large spoonfuls upon it and place in the oven to dry slowly for two hours. If the oven is at all hot the door should be open; if but slightly warm, let the door remain closed. After taking them from the oven let them cool before removing from the paper.

The Virtues of Mint.

Mint has many virtues. Well washed, the leaves pulled from the stems, slightly mashed and boiling water poured over, there results a sovereign remedy for nervous as well as stomach troubles. Served in a thin glass with cracked ice and a little sugar in it, it cools and quiets the system generally.

In preparing the mint tea the bowl is kept closely covered until the contents are cool; then strain, pour into a bottle that can be closely corked and set on the ice; when wanted, ice should be pounded very fine and a little sugar added if liked; some prefer the tea unsweetened.

Tea Biscuits.

Into one pint of sifted flour rub one tablespoon of butter, one tablespoon of lard and one small teaspoon of salt. Dissolve one yeast cake in a pint of lukewarm milk and make a moderately stiff dough. Set in a moderately warm place free from draft to raise. When well risen (which will be in about an hour) make into biscuits, set them to rise and bake in a quick oven. When baked brush over tops lightly with milk.

Fig Tartlets.

Take dry, whole figs, soak thoroughly, add a little extra sugar. Tart pans should be lined with rich puff paste and baked a delicate brown. Then each little tart cup of pastry is filled with four or five of the figs, which had meanwhile been allowed to cool. A spoonful of the rich juice is added, and then a big spoonful of whipped cream dropped on top.

For Nut Frosting.

Young housekeepers, when preparing nuts for frosting, if you put them in a sieve (after they are cut) and shake gently, the small particles will pass through, leaving the nuts clean, says the Woman's Magazine. These will not give the frosting the grayish look that it sometimes has.

Sponge Cake With Fruit.

Place a square of sponge cake on a dish and pour over any fruit on hand, either fresh or canned. Serve with whipped cream. This makes a delicious and pretty dessert when served with fresh crushed strawberries and their juice.

DEFENSE SPRINGS SURPRISE IN CLARENCE DARROW TRIAL.
By Associated Press.
Los Angeles, Cal., June 11.—The defense in the trial of Clarence Darrow sprung a surprise today by declining to cross examine Patrick Cooney, the McNamara defense "investigator." Cooney's place on the witness stand was taken by Keene Fitzpatrick, another former employe of the McNamara defense.

ANTI-ADMINISTRATION MILITARY BILL PASSED.
Washington, D. C., June 11.—The senate by a vote of 27 to 24, adopted the report of senate and house conferees containing a number of anti-administration provisions in the army bill. One of these provisions would legislate out of office Major General Leonard Wood, present chief of staff of the army. As agreed to the bill would require army officers acting as chief of staff after March, next, to have at least ten years in the line with rank below brigadier general.

INDIGESTION
Causes Dizziness, Nervousness, Biliousness, Sick Headaches and Sleeplessness.
You know that most of the ailments named above come from an out of order stomach. When your food reaches the stomach it should digest and furnish nutritious matter to the blood. If it doesn't digest, but lays heavily on your stomach, it has started to ferment. When it ferments it sets loose in the stomach poisonous gases which irritate the great pneumogastric nerve that leads directly from the brain to the stomach. That irritation causes heartburn, dizziness, night sweats, nervousness, and other ailments. MIONA is guaranteed to end all stomach misery, or money back. 50 cents at Poschke & Lylich drug store and druggists everywhere.

WHAT THE EYES TELL
The proper distance between the eyes is the width of one eye.
Set wide apart, the character will be generous; if too wide, careless and extravagant.
Deep set eyes, with wrinkles at the outer corners, show penetration and a sense of humor.
It should never be forgotten that eyes are more capable of misleading than any other feature.
Hazel eyes show steadiness and power of constant affection. Black eyes show strong intellect and passions.
Widely expanded eyelids see much without reflecting greatly. They live in the senses and think little beyond the present moment.
Eyes set near together, especially when there are wrinkles across the nose, are a sign of cunning and meanness in small things.
Eyelids half closing over the eye denote less facility of impression, but clearer insight, more definite ideas, greater steadiness in action.
The eyes of genius are said to be of varying tints like the sea—sometimes blue, tinted with green or orange; in certain lights, or when affected by emotion, deep and almost dark.

TODAY'S MARKET REPORT
Fort Worth Cattle
By Associated Press.
Fort Worth, Texas, June 11.—Cattle receipts 3000. Steers steady, 5.25 to 7.50. Cows steady, 3.25 to 5. Calves steady 4.50 to 7.25. Hogs receipts 150; market nominal. Sheep receipts 1000. Steady.
Kansas City Grain
By Associated Press.
Kansas City, June 11.—Cash wheat No. 2 hard 110 1/2 to 112 1/2. No. 1 red 110 1/2 to 112 1/2. Corn mixed, 75; No. 2 white 81 1/2. Oats No. 1 white, 54 to 54 1/2; mixed 52 and 52 1/2.
New Orleans Cotton
By Associated Press.
New Orleans, June 11.—Spot cotton steady, 18 up. Spot sales 504 bales. To arrive 114 Middling 12 1/8. Receipts 423. Stock 45,000.
New York Cotton
By Associated Press.
New York, June 11.—Cotton spots closed quiet and unchanged. Middling uplands, 11.75, Gulf 12.
To The Public
The undersigned have been duly appointed a committee to solicit donations for the barbecue to be given by the colored people of Wichita Falls on June 19th and those wishing to assist are requested to give to none others: J. W. Riley, Will Shelton, P. Newton, A. Bird, J. Miller, OTIS COTTRELL, Sec. ANDREW BIRD, Chairman. 25-1tp
PANAMA CANAL BILL IS FAVORED IN SENATE.
By Associated Press.
Washington, D. C., June 11.—The Senate committee on Inter-Oceanic canals today favorably reported the House bill to open, protect and operate the Panama canal and govern the canal zone.

Deep set eyes, with wrinkles at the outer corners, show penetration and a sense of humor.
It should never be forgotten that eyes are more capable of misleading than any other feature.
Hazel eyes show steadiness and power of constant affection. Black eyes show strong intellect and passions.

News From The Oil Fields

TWO NEW COMPANIES FORMED AT ELECTRA.

The Cook Oil Company is being organized at Electra with a capital of \$2,000. It will drill on the Skelly lots close to Five Rivers No. 2.

The Sheldon Oil Company was organized last week with a capital of \$25,000 and will also drill on the Skelly lots. Electra, Wichita Falls and Waxahachie capital is in these companies.

THINKS DUNCAN FIELD HAS GOOD PROSPECTS.

W. G. Long is back from Duncan, Okla., where he has been looking over the oil and gas field. While there Mr. Long secured some leases and made locations for several wells. He is enthusiastic over the prospects of opening a good field there.

DOUBLE DAILY DENVER SERVICE TO COLORADO

Service Will Be Resumed June 15, According To Announcements Received Here

Copies of the announcement of the re-establishment of double daily train service between Texas and Colorado by the Fort Worth & Denver have been received here. The same announcement also gives notice of the establishment of through sleeper service between New Orleans and Denver; San Antonio and Denver; Galveston and Denver and Fort Worth and Colorado Springs and Denver.

This service will be established on June 15th. Trains Nos. 1 and 7 will be run through from Fort Worth to Denver and trains Nos. 2 and 8 will be run through from Denver to Fort Worth. Train No. 1 which will leave Fort Worth at 10 a. m., will carry through sleepers from Galveston via the Trinity & Brazos Valley, from New Orleans via the Texas & Pacific and from San Antonio via the Katy to Denver. The sleeper from New Orleans will be of the observation type.

The local schedule of only one train will be changed to any extent. That will be No. 7 which now leaves Fort Worth at 9:30 p. m., and Wichita Falls at 2 a. m. Under the new schedule effective next Saturday it will leave Fort Worth at 10 p. m., and Wichita Falls at 2:45 a. m.

MAKES VERY Dainty DESSERT

Little Caramel Puddings Are Easily Made and the Poika Will Appreciate Them.

Into a clean, dry frying pan put one-half of a cupful of granulated sugar and set on the side of the fire where it will melt slowly. No water is to be added, and by the time the sugar is entirely melted the syrup should be of a clear, golden brown color. If the fire is too hot the syrup will be too dark and the burnt flavor too pronounced. Have ready some small cups or tumbler molds. Pour a little of the caramel in each, turning them round and round in order to coat the sides and bottom as evenly as possible. The amount given should be sufficient for five or six small cups. In a bowl break four eggs, add four tablespoonfuls of sugar and beat enough to mix well. Add one pint of milk and one teaspoonful of vanilla and stir occasionally until the sugar is dissolved. Then fill the molds, set them in a pan of warm water and bake in a moderate oven until they are firm in the center. If baked too fast they will be full of bubbles. When done pass a knife around the sides and turn out on individual plates. The caramel, uniting with a portion of the water in the milk, serves to form the sauce. Serve cold.

AN ELECTRIC CHAFING DISH

Useful Apparatus That Gives Maximum Results With Minimum Currents—Also Used as Toaster.

The chafing dish illustrated consists of an electric stove and a food and water pan, either of which can be clamped to the stove by a simple quick

Chafing Dish.

working device that insures a perfect heating contact. The outer pan is made of heavy copper with inner pans double tin lined and finished in nickel, silver or copper. The electric current passes through wire embedded in fired enamel inside of the stove, fused to the iron plate that forms the top. This gives direct transmission of heat, insuring maximum results with minimum current. A regulating switch

beneath the stove gives three degrees of heat, each one even, steady and dependable. This is an important consideration in successful cooking. The stove can be used by itself for toasting.—Popular Electricity.

Ginger Muffins.

This is one recipe for ginger muffins—there may be others: Into one-half cup of New Orleans molasses stir one-half teaspoonful of soda, one-half teaspoonful of salt, one teaspoonful of ginger, one-half cupful of granulated sugar, and one tablespoonful of melted butter. Into two and one-fourth cups of sifted flour stir one and one-half teaspoonfuls of soda, then add these to the ingredients with molasses, and thin to a batter with a cupful of sour milk. Beat well, fill buttered muffin tins partly full, and bake in a moderate oven for twenty minutes.

Wash In a Case.

To wash crocheted articles, place them loosely in a pillowcase, tie up the top, put into a good tepid soapy solution and press and squeeze with the hands. When the water becomes discolored, use fresh suds, and finally rinse in three clear waters of the same temperature. Squeeze out as much of the water as possible and hang to dry, still in the pillowcase. Washed in this way, says Needlecraft, a sweater will not stretch out of shape, but will have the soft, fluffy appearance of a new garment, and be in good form.

Orange Caramel Sauce.

One-half cup of butter melted, one cup sugar, added to the butter and cooked till it is a thick syrup. About 30 minutes is enough. Prick an orange with a silver fork till the oil is started and put it in the syrup whole turning over now and then with the fork. It should be a rich golden color, something like burnt orange. Very good with poor man's pudding or with rice cooked in the southern style.

To Bake Cakes.

Place the cakes close to the bottom of the oven when cooking, as cakes are better when raised from the bottom first. If the heat strikes the top of the cake first it crusts over the top and then, in order to rise, it breaks the crust and runs through, leaving unsightly cracks in the top of the cake.

Prune Sauce.

Wash, soak and boil the prunes in the usual manner. When tender take out the stones as neatly as possible, crack them and extract the kernels. Throw these into boiling water for a minute and rub off the outer skin. Dip in cold water to preserve their color and add to the fruit. Sweeten the sauce to taste.

The Store That Saves You Money

More Dollars for Jingles

In June, 1912, 50 persons will make \$20.00 each writing short, snappy Post Toasties Jingles most acceptable for a "Toasties" Jingle Book.

This offer for June, 1912, is entirely separate from, and in addition to, the Jingles purchased by us in May, 1912.

Read instructions below, then see how good a Post Toasties Jingle you can write. It's pleasant amusement for Girls and Boys and older folks.

A COMPLETE JINGLE (As an example only.)

Early morning breakfast, sad 'tis to relate,
Servant over-slept today, getting awful late,
Father growing nervous wants a bite to eat,
Calls for his Post Toasties, goodness, that's a treat.

FINISH THIS JINGLE

Old Mother Hubbard's family a happy bunch were they,
Of healthy little kiddies playing all the day,
History hasn't told us, but to me 't would seem,

(Fill in this line, mentioning Toasties and write plainly.)

Sign here—Name..... Date.....
Street..... City..... State.....

Address and mail your Jingles to
Jingle Dept. 767, POSTUM CEREAL CO., LTD., BATTLE CREEK, MICH.

Use of above form of answer is suggested, but not required.

We will buy 50 Post Toasties Jingles acceptable for use in a Jingle Book, received during June, 1912, at \$20.00 each.

Only the Jingles we pay for will be used, but no Jingles, whether purchased or not, will be returned.

The names and addresses of the writers of the 50 Jingles purchased in June 1912, will be printed and mailed to each enquirer who sends us a stamped and addressed envelope for return.

The Jingles will be judged honestly upon merit, so if you are a sensitive person and not a good sportsman, don't try, for we have no time to "pet up" those whose Jingles are not accepted.

Fill in the missing line of the incomplete Jingle printed above, making the last line include the name "Toasties," with correct rhyme and metre.

Or, write an original Post Toasties Jingle of not less than 4 lines, any one line of which must contain "Post Toasties" or "Toasties."

As many Jingles may be submitted as desired. No Jingle submitted in May, 1912, will be considered in this June, 1912, contest.

One can make this a pleasant form of entertainment, may make some extra money, and in addition become acquainted with

ARCHER CITY TO LAKE ROAD MAY BE IMPROVED

Matter May Be Taken Up With County Commissioners at Next Session—Result of Log Book

The publication of the automobile guide and log book by the Wichita Falls Good Roads Club is already bearing good fruit in one way, in that it may result in the building of a good road from Lake Wichita to Archer City. Archer City was not included on any of the important routes out of this city on account of the circuitous and rough road between there and the Lake.

W. C. Young, mayor of Archer City, does not like the idea of Archer City being thus overlooked and he is anxious to destroy the cause. Accordingly at the next meeting of the Archer county commissioners he and a number of other Archer City citizens will bring up the matter of a road to Lake Wichita and they hope to secure definite action. From Wichita Falls to the lake the road is excellent and if a good road can be built from the lake to Archer City it will

mean that tourists can visit Lake Wichita without having to go out of their routes.

At present Lake Wichita is not on any of the principal routes out of this city, owing to the roads beyond it. If Archer City can get the Archer county roads improved, this will be changed.

D. P. Talley, president of the Good Roads Club, has received a letter from R. H. Faxon of Wichita, Kansas, president of the Santa Fe trail, heartily approving of the suggestion made by Mr. Talley that an auto route be laid from Wichita Falls up the old Chisholm trail through Wichita and Garden City, Kansas, thus furnishing connection with the Santa Fe trail. Mr. Talley has received many letters complimenting the Good Roads Club upon the log book.

MEXICAN KILLED IN DUEL IS IDENTIFIED.

By Associated Press.
Victoria, Texas, June 11.—The Mexican killed here Saturday afternoon in a pistol duel with two policemen was today identified as Manuel Rodriguez, an escaped-life term convict.

TEXAS INDUSTRIAL NOTES.

San Angelo—A boy's and girl's hor club has been organized in this city.
Abilene—The first oats of the season were brought into town on the first of June. The grower reports the yield to be 35 bushels per acre.
Beaumont—The first solid car of

members to leave this country was shipped from this city on May 31st.

Fort Worth—The Mutual Cotton Oil Company has filed an amendment to its charter increasing its capital stock from \$75,000 to \$125,000.

Austin—The Merchants' Company, Houston, has filed an amendment increasing its capital stock from \$50,000 to \$120,000.

Eat the Cracker that Brown makes

PAN-TAN The Ginger Snap with Snap

Appetizing—zestful—brittle.
The reason for the goodness of Pan-Tan is the same reason that makes all Brown baked crackers so extra good.
The best of flour—selected. Our own individual recipes. The best of ingredients—the ginger, for instance, is of the purest and best. Mixed and cut by immaculate machinery. Baked in white tile ovens. Packed in packages that are dust, dirt and moisture-proof.
If your grocer says he does not keep "The Crackers that BROWN Make," ask him to get them for you. If he fails you, write us and we will see that you are supplied. And just remember—the factory where are made "The Crackers that BROWN Make" is not controlled by a trust—that's why we say **MADE IN TEXAS FOR TEXANS.**

Try a dish with some milk or cream and a sprinkle of sugar.

Visit the Big Factory Sale

OF TWO SOLID CARLOADS

OF THE World's Famous "Crown" and Concord Pianos

being conducted at our store this week by Mr. Chas. T. Phelan, factory representative. These pianos were especially selected for this sale, and represent almost every style and wood, manufactured by these two large factories.

In order that every piano may be left with some one in Wichita Falls and vicinity, Mr. Phelan says that his factories have agreed to a liberal discount from their regular wholesale prices, and in order to move them quickly, *one fourth off* will prevail as long as they last.

Don't miss hearing the Wonderful "Crown" Combinola, the greatest player-piano ever shown in Wichita Falls. Demonstrations on this player each day during this sale. Store open nights until Nine O'clock.

THE MISSION OF PARTY

(By Savoyard in Houston Chronicle)
"From his rich tongue persuasion flows and wins the high debate."

It was idea set before American thought, and food purveyed for American conscience, when in a powerful address to the voters of New Jersey the other day Woodrow Wilson discussed the mission of a political party. He admitted that there was opposition to him in his home state, which is maliciously engendered and diabolically manipulated "by the great power of corruption centered in one man."

Among other things the governor told his audience:
"This arch-conspirator in the national ruin of his own party years ago now seeks to resume his clutch upon New Jersey's democracy because I can not bring myself to believe that the party was created to give men office."

"We need a rejuvenation, a rebirth of parties in the United States. We want to get down to the foundation and find out what party is made to stand for. What do you, the people, democrats or republicans, get out of this great fetish, so-called party loyalty? Are you supporting this government so that certain men can hold office? Where do you come in? Does the occupancy of public office by a certain set of men fill the mouths of your family with bread? Does it remove any of the great public wrongs that are eating into the hearts and poisoning the minds of the citizens of this republic?"

There is an idea for every man who would use party for the common weal and not for private aggrandizement. The democratic party gained national victories in 1874, 1878, 1882, 1884, 1886, 1890 and 1892. Were democratic principles substituted as public policies for republican dogmas? Not a bit of it. And why? Because the democratic party was and is full of men—thousands of them leaders—whose sole idea of politics is to discharge one set from office and establish another set in their stead. And as long as Jim Smith and other bosses of his kidney are able to control the primaries and conventions of the democratic party that party will be impotent to institute the reforms that patriotic democrats have so long contended for, so earnestly desired.

Take the two antagonistic ideas of taxation for public purposes and taxation for private gain, or tariff reform and tariff protection. There are thousands of republican politicians who care not a rap for protection, except to avail themselves of it to obtain office, and there are just as many

democrats who see no good in tariff reform other than its use to get place and power. These men are statesmen of fortune, who have no convictions upon any public question except the majority on the day of election. That accounts for the bitter and intense hostility of your boss like Smith to leaders like Woodrow Wilson, who stand for nothing unless it be that when the democratic party gains a victory at the polls that victory shall bear fruit—the engrafting of democratic principles upon the policies of a democratic administration and upon the legislation of a democratic congress. It is going to take a giant to bring these things about—to make the party vile and take it out of the ditch of negation.

There is much truth in that notion that a great deal that is good in government is the consequence of "intelligent selfishness," but there is ignorant and vicious! That is why human government is so far from being an exact science. Even good men are prone to think that whatever is their individual advantage is bound to be for the common blessing. Besamor of the part of the public, Tillman expressed that view when he demanded for South Carolina a censure that a majority of congress agrees with action in the near future. More Tillman in that monstrous proposition fifty affidavits have been lodged in this country will be cursed by a by citizens and others charging protective tariff.

What sort of church would it be while one grand jury indictment has that allowed each member to indulge in one sin? It would be a congregation of liars, thieves, blasphemers, hypocrites, gluttons and such—each one perfect, however, except he is indulgent to practice his special sin. That is the sort of party we will have as long as we allow members to preach and practice the Tillmanism of shaming the stealing. The favorite way of exploiting Tillmanism is to glamor for a tariff on raw materials; that is the foundation stone of a protective tariff, without which the dogma of protection could not survive two sessions of any congress we ever had. Take the tariff off raw materials and protection will fall automatically off of finished products ready for the ultimate consumer. That is going to be done some day. Do you know who is likely to do it? Why, the g-o-o-p—it stole the issue of sound money from the democrats and got twenty years of power as a reward. I could name you two of the ablest of the republican leaders now in congress, who expect their party to appropriate and carry out the idea John G. Carlisle and Roger Q. Mills had of the tariff.

The election of Woodrow Wilson as president would put an end to all that; but you put a Joe Baileysite on the tariff question in the White House—Clark and Underwood are of that kidney—and it would not be hazardous to predict that the republican party will steal our tariff idea as it did

our currency idea. And, besides, the party that gives the country genuine tariff reform of the Cleveland-Bryan, Morrison-Mills, John G. Carlisle-William L. Wilson brand will stay in power more than twenty years.

The Hon. Heyburn is in eruption again—this time neglecting the Southern Confederacy, but directing his guns against the brass knuckles. Heyburn is one of the ablest men in public life, but he is an irreconcilable—he and William Alden Smith of Michigan being the last of the bloody shirters. Smith is a talker, and nothing else; but Heyburn is a strong debater, one of the strongest in the senate—a match for Bailey and worthy the steel of John Sharp Williams himself. Next to Burton, Heyburn is the strongest man on the republican side. He is a standpater, one of the few of that ilk from the trans-Mississippi, the others being Warren Smoot, Curtis and Perkins.

Also Making Inquiry
Associated Press.
Houston, Texas, June 12.—Mayor Baldwin Rice has appealed the to be for the common blessing. Besamor of the part of the public, Tillman expressed that view when he demanded for South Carolina a censure that a majority of congress agrees with action in the near future. More Tillman in that monstrous proposition fifty affidavits have been lodged in this country will be cursed by a by citizens and others charging protective tariff.

PERSONAL MENTION

Mrs. Jesse Rawlence from Fort Worth, is in the city this evening...

A. M. White of Westpoint, Miss., is here looking after his business interests.

Dr. G. A. Foote of Byers was a visitor here today.

H. H. Harris and W. C. Sharp of Vicksburg, Miss., and W. B. Robb of Oklahoma City are here in connection with business of the Edmunds Oil Co. with which all are associated.

W. B. Horn of Lexington, Ky., is registered at the St. James.

J. W. Allison, Mrs. B. W. Self and B. M. Pinkston of Crowell are registered at the St. James.

C. E. Brown and Leon B. Kramer of Fort Reno, Okla., are visitors here today.

C. E. Bessey will leave tonight for Chicago and Evansville, Ind., where he will buy furniture stock.

E. T. Barger of St. Louis is expected to arrive here tonight to remain in the city for several days as the guest of his brother, R. A. Barger.

Mr. and Mrs. I. Newton of Seymour, arrived here this afternoon.

W. J. Shelton, editor of the Electra News, returned to that city this afternoon, after a business trip here.

Miss Lilla Boone, a sister of County Attorney T. R. Boone, after remaining in this city for two or three days as the guest of her brother, left this afternoon for her home in Lubbock. She has been a student of the University of Texas at Austin for the last nine months, and stopped off in this city while on route back to her home to spend the summer holidays.

Mr. Criss of the Horrell-Criss Clothing Company at Fort Worth, left this afternoon for that city, after remaining here for a day or two, on business. It is understood that he is contemplating the location in this city of another clothing store.

Miss Bess Barry of Nocona, arrived here this morning, to remain in the city for a day in order to receive instruction at the Wichita Conservatory of Music.

Mrs. H. A. Allen left this afternoon for Fort Worth, to visit relatives for several days.

Miss Gladys Trueblood, a student in the Sophomore Class at the University of Texas in Austin, returned to her home in this city today, to spend the summer holidays. Miss Trueblood has the distinction of being among the ten students in the entire university who made the highest grades during the spring term of school which ended about the first of March.

Miss Geneva Kennedy is absent from the city visiting relatives in Celeste, Texas. From that city she will go to Ardmore, Okla., where she will spend some time with friends. She will return here in two or three months.

Mrs. H. L. Baker expects to leave tomorrow for Denver, Colo., where she goes to place Nolan Bulloch under the care of a prominent physician for a few weeks.

Mrs. W. M. McGregor and daughter, Miss Lillian, left this morning for New York City, where they will remain for several days before going to Poughkeepsie, N. Y., to visit their mother.

Dr. J. W. Du Val Eye, Ear, Nose and Throat. Glasses Fitted, Laid, Adjusted. We Know How.

Dr. Brown, Dentist, Room 306, Kern & Kell Building, Phone 879.

At the German Dance Hall Tuesday night, June 11th the dance starts at 8:30. We keep the best of order, have up-to-date music and a good floor. For transportation phone or call at Overland Garage, 50 cents round trip, on car. Vest & Murray, managers.

Lovely Hair For Girls and Boys. The man who is bald at 30 can usually blame his mother. It is a mother's duty to look after her children's hair; to be sure that a dressing is used that will destroy the microbes of disease, will banish dandruff and promote a growth of hair.

Mothers who use PARISIAN SAGE need never worry about having bald-headed sons at 30 or girls with faded coarse looking hair at any age. For Fooshee & Lynch know PARISIAN SAGE so well that they guarantee it to abolish dandruff; to stop itching scalp and falling hair, or money back.

And children as well as their parents love to use PARISIAN SAGE for it is so refined and pleasant and makes the head feel fine instantly. 50 cents.

Dallas—It is reported that the St. Louis & Southwestern will extend its lines from Waco to Galveston. The cost is estimated at \$10,000,000.

Waco—The contract for the erection of the Missouri, Kansas & Texas Railway's shops and terminals has been let and work is expected to start at an early date.

Lamar Airdome Entire Change of Program Monday Night

Typewriters New and Second-Hand. We do repairing and overhauling. All work guaranteed. Wilfong & Woods. Phone 19.

Mrs. G. E. Boyd left this afternoon for Cleburne, where she will probably remain for two or three weeks as the guest of relatives.

N. Henderson, who has been absent from the city for several days attending a meeting of the Democratic Executive Committee in Austin, is expected home tonight.

W. G. McBride, a prominent independent oil operator who has an interest in the Electra Field, left this afternoon after several days on business.

C. W. McKiernan of the Wichita Falls Motor Manufacturing Co., returned this morning from Oklahoma City, Okla., where he has been for some time on business.

Capt. Frank N. Johnson, state inspector for the Live Stock Sanitary Commission, returned this afternoon from Lake Wilson, in Archer county, where he has been for several days superintending the dipping of some cattle.

Mrs. Edmond Smith is in the city from her home in Leedey, Okla., visiting her parents, Mr. and Mrs. W. A. McClelland, on Burnett street.

NO BASEBALL PARK FOR NEGROES "JUNETEENTH" Can't Use Lake Grounds On Account of Baptists and No Other is Available

Anyone having a baseball park that he does not particularly need can win the undying gratitude of the negro element of this city by lending it to them for the "Juneteenth" celebration. Otherwise, they can't have a ball game on that day and who ever heard of a Juneteenth without a ball game?

The negroes had planned to play at the lake, but it was discovered that the Baptist encampment would be in progress at that time, so permission to use the park was withdrawn. The Wichita Falls team has a game scheduled at City Park for that occasion and no other park is available. The "president" of the celebration was very much up against it this morning and expatiated at some length upon man's inhumanity to man.

An excursion from some of the neighboring points will be run here for the celebration. That is, if they have a celebration, and no more dire calamity could befall the Ethiopian contingent than to have to forego it.

\$50,000 DAMAGE CASE GOES TO TRIAL TODAY Plaintiff's Motion is Overruled, Sought Continuance Owing To Absence of Witness

Judge Martin in the district court this afternoon overruled the motion of the plaintiff for a continuance in the suit of Kennedy vs. Moore and the attorneys were ordered to make their pleadings to the jury.

The plaintiff's attorneys had made a strong fight for a continuance, alleging the absence of a material witness who had been called to Amarillo by the illness of his wife and also that new issues were raised in the defendant's amended answer filed yesterday, to answer which the plaintiff asked for further time.

The jury was completed late yesterday afternoon before the arguments on the motion for a continuance. Those comprising the jury are: C. B. Woods, T. C. Thornberry, R. F. Stewart, Roy A. Taylor, Fred K. Smith, Mack Taylor, A. H. Fletcher, W. A. Soule, J. B. Jones, G. Simmons N. B. Kelly and J. A. Deaton.

Rockdale—The business month of this city have pledged a monthly fund of \$1.00 to be used in improving the highways leading into town.

COMMITTEE ADDS MORE TAFT VOTES (Continued From Page One) of the convention committee on arrangements and including former Vice President Charles W. Fairbanks and the district delegations of two each from the First, Third and Thirteenth districts. The contest in the Fourth district was withdrawn and the committee confirmed the two sitting (Taft) delegates. The real fight of the day came, not on the delegates at large, where it had been expected, the committee would be unanimous in giving them to Taft, but over the seating of two Taft delegates from the Thirteenth or South Bend district. Attempts of the Roosevelt attorneys to introduce certain affidavits to show the unfairness of a majority of delegates to the district convention at South Bend, at which the Taft delegates were chosen precipitated the only sensation interchange of the day and occasioned a sudden reversal of the committee's vote, which was not explained to the satisfaction of the Roosevelt men. Senator Borah taunted the Taft men about it, telling them they changed front because they were scared.

A Pointer on Electric Lighting. We are the only firm in Wichita Falls that handles the "GENUINE DRAWN WIRE MAZDA LAMPS" and do not and would not handle any other lamps under any circumstances, for the "HALL DRAWN WIRE MAZDA LAMPS" are far more efficient and durable than any other lamp ever made. We have always handled the MAZDA since we established our business, "PAID OUR BILLS EVERY THIRTY DAYS" consequently have never had our lamp contract "CANCELLED," thereby enabling us to give the public the very best lamp on the market. Our Street Car Ad for the last two years has proven to the public what our faith has been in the "HALL DRAWN WIRE LAMP." All other high efficiency lamps have proven themselves entirely unsatisfactory, as they are too fragile and delicate to be handled, therefore the manufacturers introduced the famous Mazda Lamp, which we handle exclusively. The Mazda Lamp will out last all other high efficiency lamps, therefore it will pay you well to buy the Mazda. Do not forget that we handle the General Electric Company's Fans of all types. Our books will show that we have sold more "ELECTRIC FIXTURES" for first class residences than all our competitors combined, and have contracted for more first class fixtures to be delivered as fast as the new houses are completed. Carpenter Electric Company EVERYTHING ELECTRICAL, WE LEAD, ALL OTHERS FOLLOW.

AN OUNCE OF PREVENTION WORTH A POUND OF CURE. Why take chances on drinking impure water when you can get CRAZY. The best and purest water on earth—When you use Crazy Water, you are using water that is absolutely pure and the bottles are CLEAN—besides it's the best medical water known. O. W. BEAN & SON GROCERS AND COFFEE ROASTERS. Phones 35 and 640. 608-610 Ohio Ave.
