NUMBER 28

## COUNCIL ADOPTS STAND-PAT PLAN

DECLARES FOR FULL ENFORCEMENT OF ALL ORDINANCES, WITH NO FAVORITES

### LENGTHY SESSION IS HELD

Sewer Rents, Occupation Taxes, Sidewalks and Awnings Receive Aldermanic Attention

Mayor Bell and the City Council last night indicated that they would stand pat on the city ordinances and would play no favorites in their enforcement. This indication was made especially emphatic in cases where it appeared that a precedent might be established that would give others grounds for the belief that they might expect leniency.

Among the things that came up on which this stand was taken were the following:

- Collection of sewer rents.
- Collection of occupation taxes.
- Sidewalk building according to specifications of ordinance.
- Stock law violations.

The first of these came up when Engineer Hinkley reported that a citizen had asked that he be relieved of the payment of a portion of the sewer rent because he had had only a kitchen sink connected with the sewer. Council ordered that the full rent be collected.

Tax Collector Harry Robertson turned in a check for the payment of occupation taxes for the ball park signed by Manager Orth. Mr. Robertson said that Mr. Orth in giving the check had expressed confidence that it would be returned and the tax of \$15.50 be refunded because the ball team was not a paying proposition.

Mayor Bell declared that the Council could not guarantee a profit to anyone engaging in an occupation on which there was a tax levied and the tax was not remitted.

It was reported that the Oil Well Supply Company had laid a wooden sidewalk in front of its store on Seventh street just east of the Fort Worth & Denver tracks.

After a discussion of the matter it was considered that no one could give authority for any kind of a walk than specified by the city ordinances and notice was ordered given to the supply company to remove the wooden walk at once.

The action of the pound keeper in taking up stock staked across sidewalks and allowed to graze on the streets tied to a movable chunk or other object was given the thorough approval of the Council.

Other matters came up on which the Council announced as determined a stand as if the individual rights or business of the members were involved.

The session was a long and tedious one and might have continued much longer than it did had not several members wanted to adjourn to catch the midnight car for their homes.

The early part of the session was taken up with the reports of city officers and the checking of accounts.

The report of the city treasurer showed balances on the funds excepting the sewer fund which was overdrawn \$3,713.87. The net balance for all the funds was \$16,438.49 on June 1. This was better than had been expected. The city will have the paying contractors about \$9,000 next month, this being the amount that was held back for the satisfactory completion of the work.

This draft would go far toward depleting the treasury but it is expected that saloon licenses due next month and the collection of sewer rents which are due July 1 will make up for this drain.

The balances shown by the treasurer's report follow:

General fund, \$7,395.68;	street fund, \$2,314.39;
Interest and sinking, \$8,784.86;	city hall, \$858.38;
street improvements, \$1,299.05.	

## Studying The Science of Boyology at Lake Wichita

The Y. M. C. A. camp at Lake Wichita, where sixty boys from the associations of Fort Worth and Wichita Falls are now gathered has a deeper purpose and strikes at the solution of a more profound problem, than a casual visitor there would suppose. Back of the swimming and the games and the "stunts," back of the lectures and the Bible classes there is being studied the whole boy question.

The camp here is typical of others in many parts of the country. For the boys they are about 80 per cent fun and 20 per cent something else. For the men who act as leaders they are about 25 per cent fun and 75 per cent something else.

This study of the boy problem—"boyology," to coin a word—is receiving the earnest attention today of men throughout the country. They are not all young men, by a great deal; they are going at the problem seriously, sincerely and devotedly. Not a few of them have made it their life work.

To Ernest Thompson-Seton, the author-naturalist, perhaps, belongs the lion's share of the credit for the starting of this movement. It was he who first realized that in the congested cities the opportunity was being rapidly taken away for the boy to develop along natural lines; that something must be done to broaden the young vision, develop the young biceps and strengthen the young character.

In planning an outlet for the exuberance that was being lavished in the darkened streets of the cities, he foresaw that it must be along natural lines. So he seized upon the boy's inherent love of Nature and his admiration of the military. It was thus that the Boy Scouts came into existence.

One purpose of this organization may be readily seen by a visit to the camp now in progress at Lake Wichita. That purpose is to engender a love for Nature where it is lacking

## STORM AND LIGHTNING NEAR PARIS THURSDAY

Two Homes Are Struck and Children Knocked Unconscious. Shade Trees Blown Down

Paris, Texas, June 14.—Wind and lightning played havoc in this section last night in three separate storms. The first, an electrical storm broke five miles here. Lightning struck the home of John Self, shocking the entire family and rendering three children unconscious for several hours.

At ten o'clock the hardest wind in several years blew through Paris, knocking down shade trees in many parts of the town. Later an electrical storm struck the city and a bolt of lightning fired the home of Capt. Sam Wright. The house was destroyed with a loss of \$10,000.

## ARKANSAS BANK LOSES \$14,000 TO FOUR BANDITS.

Fort Smith, Ark., June 14.—The Bank of Huntsville in this State was robbed early today by a band of four cracksmen who escaped with the booty, said to amount to \$14,000.

## ROOSEVELT TO ATTEND

New York, June 14.—Theodore Roosevelt announced at noon today that he had decided to go to Chicago to personally lead his fight for the Republican presidential nomination.

He will leave New York at 5:30 this afternoon.

## Public Investigation of Houston's Police Force

Houston, Texas, June 14.—After an executive investigation covering several days Mayor Rice has announced that he regards the charge brought against the city police force as of sufficient gravity to warrant a full investigation and beginning Monday public hearings will be held.

The charges include stocking the force with non-resident "gun men" from the border by Chief Ransom, himself a former ranger. Unwarranted and brutal attacks upon citizens,—"third degree"—methods that have resulted in lasting injury to persons and in some cases even death, reck-

## CROP OUTLOOK DECLARED GOOD

REPORTS FROM OVER TEXAS GENERALLY OPTIMISTIC IN TENOR.

### SOME POINTS NEED RAIN

Very Little Damage By Drouth So Far. It is Said—Recent Showers Have Helped.

Dallas, June 14.—Texas so far this year is blooming as never before with money producing crops in all parts of the State. There are a few ominous dry spots.

Jobbing men arriving here for nearly two weeks have reported complaints about dry weather and have said conditions were bad, but according to today's report from Associated Press correspondents all over the State very little actual damage has been done.

Cotton is reported in excellent condition nearly everywhere. Oats have been harvested. Corn is the only crop threatened by the dry weather.

During the last three days scattered rains have crossed the entire northern portion of Texas from the Panhandle to Texarkana, covering many of the driest sections.

South Texas reports luxuriant crops, as a rule.

## "STUNT NIGHT" IS HELD AT LAKE WICHITA CAMP

Many Visitors Attend Performances. Boys Take Hike Across The Country Today

The "stunt night" of the Y. M. C. A. camp at Lake Wichita proved to be a very popular feature, a large number of Wichitans going out to get a taste of camp life and to see Young America at play.

Today the campers are taking a long hike across the country near the lake. Tonight Secretary J. G. Anderson of the local Y. M. C. A., will be placed on trial for the alleged bringing of false charges against G. W. Seane who was said to have taken a young lady out road riding.

Last night's stunts include blindfolded boxing matches, a Chinese duel and similar antics that proved very entertaining to the crowd. The tents were open for the inspection of the visitors, who found everything in apple pie order and as neat as a pin.

Yesterday afternoon the Presbyterian Scouts of this city defeated a team composed of Fort Worth boys, in a baseball game, 23 to 16.

## NEGRO GIVEN DEATH SENTENCE FOR MURDER.

Sherman, Texas, June 14.—The death sentence was today passed upon Carl Oliver, a negro, charged with killing Bob Stanley, white, in Franklin county two years ago.

## With Bridegroom in Wichita Falls, Bride in Holland, Wedding Proceeds

Harry von ten Brink, a book-keeper at the Ziegler Manufacturing plant in this city is being married to Miss Helena Swarts of Amsterdam, Holland. Mr. von ten Brink is in Wichita Falls while the bride is at her home in the Dutch capital nearly ten thousand miles away but the wedding is in progress.

The ceremony started last Wednesday when Mr. von ten Brink appeared before Claud Woods, a notary public, and in the presence of witnesses, signed a declaration that he wished to marry Miss Swarts by "proxy." The rites will be completed in Amsterdam in about fifteen days when Miss Swarts will appear before a priest and the Lord Mayor of Amsterdam with Mr. von ten Brink's proxy and formally avow herself his wife.

Although the term "proxy" was used in the papers signed by Mr. von ten Brink before Mr. Woods Wednesday it does not mean that another man will stand before the priest and the Lord Mayor and take the vows in his place. It is simply a formal declaration under oath given by Mr. von ten Brink which will be used the same as if he were present in person.

Mr. von ten Brink's declaration has been forwarded to the Dutch consul at Galveston and will be forwarded by him to Queen Wilhelmina who must give her approval and signature before the marriage can be solemnized.

After the completion of the ceremony the former Miss Swarts will be Mrs. von ten Brink and on July 21 will sail to join her husband in America. She will be met at Galveston by Mr. von ten Brink and together they will come to Wichita Falls to make their home.

As a married woman and the wife of a husband living in America, Mrs. von ten Brink will have no difficulty in securing a passport from Holland and will escape many of the vexatious formalities connected with the admittance of immigrants into this country. This is the reason that Miss Swarts will not come to the United States to be married here. The Dutch government is so strict in its protection of its young women that it is almost impossible for an unmarried woman to secure a passport from that country unless accompanied by her husband or her parents or other relatives.

Mr. von ten Brink has been a resident of America since last November and has lived all that time in Wichita Falls. He has a brother who came over several months earlier. His brother is employed as a machinist at the Wichita Falls Foundry and Machine plant. Both are intelligent, industrious citizens who are highly respected.

The marriage that is now in progress is the culmination of a romance

## Son of Murdered Quanah Man Taken Into Custody

Fort Worth, Texas, June 14.—Percy Belcher, 19, accused of the murder of his father, W. R. Belcher, a well to do resident of Quanah, was taken from Fort Worth to Quanah Thursday by Sheriff Walker of Hardeman county. The boy was arrested under an assumed name in Oklahoma City following the discovery of his father's body in a gully a half mile from the farmhouse where the murder was committed.

Belcher was killed May 31, but his body was not found until this week. Sheriff Walker brought him from Oklahoma City Wednesday night and left him in the Tarrant county jail for safekeeping. As he left the jail Thursday morning, and handcuffed to the officer, young Belcher tipped his hat carelessly to one side and lighted a cigarette.

He refused to discuss his father's death.

The elder Belcher was shot and killed Friday night, May 31, at a farm, which he owned, twelve miles west of Quanah. Though the fact of his death was not definitely settled until the discovery of his body ten days later, his disappearance occasioned much excitement in the neighborhood and Sheriff Walker began an investigation.

The son returned to the family residence Sunday and the following day left town. No trace of him was found until his arrest in Oklahoma City. A laborer employed at the Belcher farm was arrested during the investigation, but later released.

According to information obtained by Sheriff Walker, young Belcher went from Quanah to El Dorado, Okla., where his parents lived up to a few months ago and remained there until his father's body was discovered. He then went to Oklahoma City. It is said that during his brief stay there he changed his residence several times, registering under different names. He was taken in custody by an officer who recognized him

## FAVORS IMPRISONMENT OF DESERTER-HUSBANDS

Speaker at Charities and Corrections Conference Says It is Best Method.

Cleveland, Ohio, June 14.—The imprisonment of wife deserters or husbands charged with non-support is simply legalized and enforced family desertion, unless the convicted husband is placed at hard labor and the proceeds of his labor turned over by the municipality or the state for the support of his family, said Edwin J. Cooley, probation officer of the Supreme and County Courts of Buffalo, in an address before the National Conference of Charities and Corrections.

## ST. LOUIS-TEXAS FREIGHT ADVANCE IS SUSPENDED

Interstate Commerce Commission Ruling Holds It Up For Three Months Longer

Washington, D. C., June 14.—Material advances on through freight differentials on class and commodity rates from Texas common points to St. Louis and beyond were suspended today by the Interstate Commerce Commission from July 7 until October 5.

## STATE WIDE ORGANIZATION OF ST. MARY'S ALUMNAE.

A movement has been started for a statewide organization of the graduates of the colleges conducted by the Sisters of St. Mary. Such an organization would include the alumnae of the institutions at Dallas, Waco, Fort Worth, Denison, Sherman, Wichita Falls and other points. The movement was started at a meeting of the alumnae of the Academy of the Sacred Heart at Waco.

## WICHITA GUN CLUB HAS WEEKLY SHOOT THURSDAY.

The regular weekly shoot of the Wichita Gun Club was held yesterday afternoon on the club grounds at the foot of Seventh street. Two professionals representing the Union Metallic Cartridge Company, shot with the club. The conditions were hard owing to a high wind which made the targets dip and duck.

Jack Gotcher, president of the Wichita Club was high man. He broke 47 out of 50. Following are the scores:

Shooter	Shot at	Broke
Gotcher	50	47
Harry Faust	50	45
Fred Baker	50	41
Fred Barry	50	38
Shumaker	50	21
Arlley	25	20
Clasby	25	19
Hill	25	16
Sherrod	25	16
Gaston	25	18
Lee	25	16

## WEATHER FORECAST

Unsettled tonight and Saturday; cooler tonight.

## PUGILISM ADDS TO CHICAGO ROW

THREE OKLAHOMA VISITORS TIE UP—TEXAS CONTESTS ARE POSTPONED.

### MORE CHARGES BY DIXON

Tennessee Contests Are Divided in Taft's Favor—Original Delegates Being Heard.

Chicago, June 4.—The assurance that Col. Roosevelt will be here at 4 o'clock tomorrow afternoon to lead the fight himself, the decision to postpone the Texas contests, a flit en-counter participated in by three who are attending the hearings, and the rendering of decisions for Taft in Oklahoma and Tennessee cases were this morning's features of the session of the Republican National committee.

Under a tentative agreement reached by the Republican National committee today, the hearings on the Texas contest were put over until tomorrow. It is the expectation to argue the Washington contests late today if the committee can reach them.

The postponement of the Texas hearings was requested by the Taft attorneys, who asked for further time in which to prepare their case.

After the disposal of the Tennessee contests, Virginia will be taken up.

The two Taft delegates from the second Tennessee District were seated by the National committee without a roll call, Roosevelt even voting no. A motion by Committee member Monday to seat the Roosevelt delegates was defeated.

The Ninth Tennessee district, two delegates, were credited to Taft. Senator Dixon said today:

"I have just heard from a reliable source of another case of attempted bribery in the committee. A certain Southern National committeeman has been promised that his brother-in-law will be made postmaster in a Southern city if he will consistently ride on the steam roller.

"I will not mention the committeeman's name yet. So far, he has been voting with the 'stealers,' consistently but I want to give him one more chance to reform."

A fist fight between Grant Victor, United States marshal for the Eastern district of Oklahoma, Taft supporter on the one side and L. G. Disney and Patrick Doore of Westville, Okla., Roosevelt supporters, on the other, occurred outside the room of the Republican National committee today just after the hearing in the third Oklahoma district contest.

In the committee Francis J. Heney, after the argument in the third Oklahoma contest had closed, had asked that Victor, holding the proxy of T. A. Marlow of Montana, be excluded from voting in the case because of his personal interests.

The suggestion was not put to a vote. Victor, however, retired, Loud remarks were made about the Oklahoma case, Disney and Doore upholding the claims of the Roosevelt faction. It was then, according to Disney, that Victor aimed a blow at him. Doore then rushed into the fray. The men were separated and allowed to leave the building. There were no arrests.

Nearly two hours of argument in the Republican National committee today resulted in two delegates from a single Oklahoma district going to Taft. The issue hinged on the regularity of rival delegations at Tulsa, the Roosevelt men appearing as contestants. The decision was by viva voce vote.

The committee then disposed of the first-South Carolina district case in which the "regular" and contesting delegations were both composed of Taft supporters. The contestants were seated.

## MISSISSIPPI FLOOD STILL CAUSING SERIOUS DAMAGE

New Orleans, June 14.—One by one the managers of the big sugar plantations in the Bayou LaPouche district are giving up the fight against the rising Himalya crevasse waters. The bayou is rising at the rate of half an inch an hour. None of the people in that district are reported destitute but the need of seed for replanting is pressing.

The bayou at Donaldsonville is said to be nine feet above gulf level, but falling. Back water at Luling has reached unexpected height because of high winds.

## OFFICERS FIRE UPON STRIKERS AT SMELTER.

Perth Amboy, N. J., June 14.—109 laborers stormed the plant of the American Smelting and Refining Company here early today and were fired on by officers. One striker was killed and three wounded. With the first volley the strikers fell back. All the seats set aside for the world's critics are occupied.

## KICKS GIRL'S DOG AROUND

Landlord Says Tenant's Cur, Not His Own, Scratched Door—Court to Decide.

New York.—Kiekin' Miss Blanche Altman's fox terrier arrou' got Mlle Mogal before Magistrate Voorhees in the New Jersey avenue court on a charge of cruelty to animals. He was paroled, pending trial.

Miss Altman, with her family, occupies part of a two-family house at 675 Smediker avenue, which is owned by Mogal. He lives in the other part. When the Altmans moved into the house eight months ago Miss Altman found a half-starved dog penned in the back yard. She learned the dog belonged to Mogal, but she took care of it and kept it. Mogal had another dog.

One of the dogs contracted the bad habit of scratching the varnish of the hall doors, and Mogal places the blame on the fox terrier. Miss Altman said it might just as well have been Mogal's houn'. Mogal didn't think so, and at 8:30 o'clock in the morning he walked quietly into Miss Altman's bedroom, looking for the terrier. It was under the bed, and when he yanked it out by a leg the dog set up a howl. Miss Altman awoke suddenly and was terrified at finding a man in her room.

The fox terrier escaped for a time and Mogal chased it around the house until he finally cornered it. Then, with a club, it is alleged, he broke one of its hind legs and then he pitched it out the second-story window.

Miss Altman called Officer McMahon of the S. P. C. A., who killed the dog. Then she got out a warrant for Mogal.

To determine whether it was Miss Altman's dog or the one belonging to Mogal that scratched the door, Magistrate Voorhees said he would have detectives measure the claw marks. They may be able then to say which dog was guilty.

## LIVES IN HOLE UNDER BARN

Mourning Wife, Retired Jerseyite With Ample Income, Spurns Society.

Denville, N. J.—Since the death of his wife, four years ago, John D. Cooper has gradually withdrawn from the sight of men. He now lives like a hermit in a hole he has dug underneath the floor of his barn. He has given his farmhouse over to tenants, sees them only when compelled to, and dwells as much out of their sight as possible.

At first Cooper let out a few rooms of his house. One by one he surrendered the remaining rooms to tenants, until last fall, when he migrated to the barn. He found himself unable to keep warm in the barn, yet, spurning the kindly offers of his tenants, he set to work to solve the problem by himself.

Patterning after hibernating animals, Cooper dug a deep hole in the ground and lined it with straw, where he seems to be perfectly satisfied, though he never discusses his own affairs.

Cooper is seventy-one years old. He served the Lackawanna railroad as section foreman for fifty years, and was retired last August on a pension. He is also in receipt of a comfortable independent income from the real estate he owns.

## JOY RIDERS DESTROY AUTO

One of Party Taken Out by Chauffeur Without Owner's Consent Will Die as Result of Smash.

New York.—Four persons were injured when a \$12,000 automobile known as one of the three finest cars in New York city crashed into a telephone pole on Jerome avenue, the Bronx. The machine was owned by Mrs. J. Maxwell of Fifth avenue, and occupied by her chauffeur and three of his friends.

The police say it was a "joy ride" party to which Mrs. Maxwell had not given her sanction. One of the injured, Miss Adeline Callias, a stenographer, will die.

The police say the automobile was making more than 45 miles an hour when it hit the pole. The chauffeur explained the accident by saying that he had temporarily lost control of the wheel. The car is a total loss.

## TRAIN ESCAPED BIG SLIDE

Engineer of Passenger Saw a Mountain Slide in Washington Just in Time.

Ellensburg, Wash.—Barely five minutes before the Chicago, Milwaukee & Puget Sound "Olympian" train from Chicago was due to pass the point an avalanche swept down the mountain between Lacqua and Rockdale, burying the tracks, destroying a bridge and damming a creek. The engineer of the train saw the obstruction and brought his train to a standstill.

## "Moonshine" Starts Fire.

Vancouver, Wash.—Sun shining through a round bottle containing "moonshine" whiskey started a fire in a local liquor store show window.

The rays were concentrated by the lens-like liquor contained on crepe tissue paper with which the window was adorned and a merry blaze was under way when discovered by B. H. Wolfe. The paper was burning nicely when snuffed out by the proprietor.

The fact that the liquor was pure white permitted the passing of the sun's rays and the generation of the heat.

## HOW TO ARRANGE GOOD MENU

Recorded Study of Food Elements is Best Way for Housewife to Avoid Errors.

Every housekeeper should be perfectly familiar with the three food products. This is the foundation of menu-making. Proteids, carbohydrates and fats are the three divisions into which all foods are classed. Proteids are the muscle-builders and are found in meat, beans, peas, eggs and nuts. Carbohydrates are the starches and are found in cereals, sugar and starchy foods. These foods produce fat and energy. Fats, such as oils, butter, lard, etc., give heat to the body. A general knowledge of these food properties as they are found in various foods underlies successful cooking as well as menu-making.

A good menu is a well-balanced menu in regard to these three food principles. A practical study of these foods is the best way to avoid errors in diet.

Do not serve several foods of the same composition at the same meal, such as potatoes, rice and macaroni. Do not serve bean or pea soup with roast meat, salmon salad and custard. Try to vary the regular diet. If a heavy meal is served use a light, easily digested dessert.

Do not eat too much food out of season. It is expensive. If meat is left out of the dinner menu, plan to serve soup made of peas, nuts or beans and a dessert made of eggs.

To avoid serving several foods of the same composition have in mind small groups of foods alike in composition. The first and most important group to consider is that of proteid food: Group one—meats, cheese, eggs, nuts, dried peas, beans.

Any of these foods can be used for meat, or if nuts, beans or peas are used for a puree, meat can safely be left out of the menu.

For every meal select food from each of the groups mentioned—proteid, carbohydrates, fats.

Add to this some fresh fruit or vegetable three times daily and a good beginning will be made toward producing a balanced menu.—Woman's World.

## Copper Casseroles.

Among the novelties for the table are tiny individual copper casseroles. These are highly bronzed and have small, flat handles. Fish, eggs, etc., some of the things that are served in them. They look well on a dinner table and commend themselves because of novelty.

The housekeeper of today is always looking for something new. It is her pride and her delight to set an original table and have something that interests her guests as well as the food.

These little casseroles can be served at any meal. It is not necessary to keep them for a dinner entree. Shredded eggs go in them for breakfast and macaroni with cheese for luncheon.

## Basket Pudding.

Make a spongecake with one tea cup sugar, one tea cup flour, a pinch of baking powder, three eggs and one tablespoonful of milk; beat eggs, add sugar, then flour, milk and baking powder; put in a well-greased oval cake tin and bake a nice brown; turn out to cool; then scoop out inside; brush outside over with two kinds of jelly and sprinkle grated coconut over it while damp; fill the inside with stewed fruit; pile whipped cream on top; decorate with cherries, then take two long strips of angelica twisted together and place over pudding to represent a handle.

## Salad Dressing Without Oil.

One egg beaten, one-half cup vinegar, one-half teaspoon mustard, one-half teaspoon salt, one tablespoon sugar. Stir all together and cook in double boiler until thick as custard. Take off stove and stir in one-fourth cup cream.

Salad Dressing No. 2—Yolks of three eggs, one teaspoon of mustard, two teaspoons of salt, two tablespoons of sugar, two tablespoons of butter, one cup milk, one-half cup hot vinegar, cook in double boiler and add the beaten whites of three eggs last. Will keep for some time.

## Raisin Puffs.

Three tablespoonfuls melted butter, three tablespoonfuls sugar, one beaten egg, one cup sweet milk, one teaspoonful baking powder, half cup chopped raisins, three large spoonfuls of flour. Divide in six cups and steam half an hour.

Sauce—One-half cup granulated sugar, one tablespoonful flour, stirred together, pour boiling water on and put in butter size of a walnut and vanilla to taste.

## Quickly Made Apple Pone.

Fare and chop a quart of sweet apples; pour a pint of boiling water into a pint and a half of white cornmeal; when cool add two tablespoons of sugar, two tablespoons of shortening, and enough sweet milk to make a batter, sift two teaspoons of baking powder with a cup of flour, add a pinch of salt and stir into the mixture, add the chopped apples and turn into a greased shallow pan, bake 40 minutes in a moderate oven.

## Butter Frosting.

Half pound of powdered sugar, butter size of an egg. Put sugar and butter together; then beat the white of an egg stiff and add to the sugar and butter; beat thoroughly. Flavor with vanilla. This will frost two cakes.

Houston—The W. A. Wilson Company of this city has filed an amendment to its charter increasing its capital stock from \$600,000 to \$900,000.

## TILLMAN COUNTY WHEAT FIRST TO REACH MARKET

Shipment From Grandfield Last Tuesday Opens Season For Chicago Trade

(Frederick Leader)

Tillman county has the distinction of having the first wheat for 1912 on the Chicago and St. Louis markets. The car which A. D. Winsor shipped from Grandfield Tuesday to be shipped from anywhere and was the first to arrive there. Yesterday morning Mr. Winsor shipped the first car out of Frederick, this going to the Chicago market, and it will be the first car to arrive there. Tillman county is ahead of Texas with wheat this year, and is outdistancing every other locality.

J. R. Rickie shipped a car from Davidson Wednesday and a car was shipped from Manitou Wednesday by C. F. Barnes.

Nearly all of the wheat that has come in thus far is soft and is of an excellent grade. It is commanding 90 cents a bushel. The thrashing has just begun, and there is every reason to believe that the yield will be fully as large as the estimate made last week—600,000 bushels for the county.

Some fields have threshed out as high as 24 bushels to the acre. It is safe to predict that the crop will average round about 20 bushels. With the good price at which the cereal is selling, farmers have reason to be thankful for the winter and spring rains and their foresight in sowing such a large wheat acreage.

From now on it will be a continuous procession of crops for Tillman county, unless weather conditions should be unexpectedly bad. After the wheat crop has been taken care of, or indeed before it is nearly all bought, oats will be coming on. No oats have been threshed yet. Then will follow the second cutting of alfalfa, corn, more alfalfa and cotton, and feed crops which wise farmers will plant on their wheat and oat stubble fields, and probably a fourth crop of alfalfa.

Robinson's Mineral Water is highly recommended by physicians and patrons who have tested its merit, for indigestion, catarrh of the stomach, kidney and bladder trouble. This water stimulates the secretion of the stomach, increases digestion and favors a more complete absorption of the food and prevents the action of germs that cause typhoid and other infectious diseases.

This water can be purchased at the wells or delivered in jugs or cases. This well is located one mile south of Alamo school building in Floral

### DAINTIES FOR FAMILY PICNIC

Simple Preparations That Will Appeal to the Appetites of Outdoor Frolickers.

**Salad Eggs**—Boil hard as many eggs as will be needed; chill them thoroughly in cold water. Shell, cut each lengthwise and scoop out the yolk. Mash this up to a fine powder in a bowl and season with salt, olive oil, a little lemon juice or vinegar. If only adults are to eat the eggs a little cayenne and Worcestershire sauce will be an addition. Mix well, stuff the yolk back into whites, smooth off top with a knife, and after putting the two halves together wrap in waxed paper.

Cross may be used instead of the oil for wetting the egg yolk.

**Grilled Meat Sandwiches**—Brown lean bacon slices, or ham or salt pork, and put between them slices of gluten or graham bread, pared of crust. A tender lettuce leaf put against the bread will be a delicate addition to these substantial sandwiches. With the same breads delicious fillings can be made with slices of fresh tomato or cucumber or tender lettuce, either of these mixed with mayonnaise.

**Salad in Apple Baskets**—Bright eating apples are scooped out and filled with any salad mixture liked, the top of the apple being afterward put on and fastened with toothpicks. There must not be enough dressing to run, although when fastened up tight the apples hold their contents very neatly.

### ALL AROUND THE HOUSE

Old bread just now takes a new form in bread-crumbs cakes. Soak the bread in buttermilk and use flour to thicken the batter.

Be careful never to use too much butter in cake. Use a scant amount rather than what the rule calls for, and it will save many a poor cake.

Cold water, a teaspoonful of ammonia and soap will remove machine grease when other means would not answer on account of colors running.

A little vinegar put into water in which eggs are poached will keep them white and prevent them from spreading.

A scented bag that will keep moths away is made as follows: One-half ounce each of cloves, nutmeg and cardamom seeds.

When next frying oysters, dip them first in mayonnaise and then in crumbs before immersing in the deep fat. They will be found delicious.

If gilt frames are coated with copal varnish it will preserve them, and they can be washed with water without removing the luster from the gilt.

To remove wallpaper take warm water that is softened with borax or ammonia and apply with a sponge. The paper will soon become soaked and blistered and may be easily stripped off. It is well to do this a day or so before the new paper is put on.

**Bolled Mutton.**

A second appearance of this somewhat insipid dish may be more appetizing than the first. Cut the meat, which should be perfectly cold, into rather thick slices and lay these in the caper sauce which went around with them yesterday, or when the meat was hot. Heat slowly to a boil and send to table together in a hot platter. The sauce imparts richness to the meat.

**O'Brien Potatoes.**

Peel and dice into a baking dish nine cold boiled potatoes, salting well. Chop one green pepper fine and parboil for three minutes. Make a sauce of three cupsful of milk thickened with two tablespoonfuls flour, stir in parboiled shredded pepper, add to potatoes, turning grated cheese over the top and bake 30 minutes. This recipe is for a large family.

**Cucumber Salad.**

Those who are fond of gelatine will like a cucumber salad made by placing thin slices of cucumber and a small quantity of chopped celery in a clear white jelly, serving on lettuce leaves and garnishing with broken nuts. Mayonnaise or a French dressing is good with this.

**Roast Duck.**

Roast duck is considered quite nourishing, healthful and palatable. It is cheaper than beef or pork; costs over one-half less and with dressing and a nice sauce is fit for a king.

**Pampa**—Work has started on a new grain elevator in this city which will accommodate the coming wheat crop in Gray county.

### News From The Oil Fields

#### Oil Prices Advanced

An addition of five cents was made to the price of Pennsylvania oil Wednesday, bringing it up to \$1.60. This is the first time oil has been so high since July 16, 1909, on which date it dropped five cents, to \$1.55.

Five cents was also added to the price of other grades of the Pennsylvania product, making the new prices as follows: Mercer black, \$1.13; New Castle, \$1.10; Corning, \$1.03; Cabell, \$1.20, and Somerset, 91 cents. Three cents was added to the price of Regland oil, bringing it up to 53 cents.

This advance has been generally anticipated for some time. The lack of new fields and the small amount of prospective drilling territory warranted the expectation. The consumption is being maintained by the world's demand, and the increase in the use of fuel oil is taking that production out of competition with the lighter grades.

The anxiety to obtain the best oil by the refiners has caused the private lines to bid higher for the product than the general lines. Some of the private lines are paying over ten cents a barrel above that quoted in the open market. This is due to local conditions and the necessity of getting certain grades to supply their trade. Under a condition of overproduction these lines could care for no more than their present capacity, but with the decline in the output they are obliged to bid higher to supply this, however small it may be.

At the same time it must be remembered that this increase in value applies only to the production from a few wells, and a limited field. It does not affect the great bulk of production. The private lines have only a certain capacity, and that supplied, they can take no more. The producer alongside a lease whose owner is getting a bonus is benefited in no way, because the taking of his output in addition would create an overproduction as to that particular refinery or pipe line. The same old law of supply and demand would operate at once to decrease the value. The field condition is becoming more accentuated each month.

The Derrick on Monday called attention to the small amount of new work under way at this season of the year, and attributed it to the only possible cause—lack of territory. Producers are drilling leases now that were abandoned as unprofitable a few years ago, and are pumping wells and glad to get them, even of which would have been abandoned as a dry hole a few years ago. In Venango county one firm has drilled 20 wells in six months, and rejoices that every one is a producer, and the aggregate production of the whole number today is 18 barrels. Compare this with what would have happened to such a lease some years ago, and the people of the oil country will have reason to expect still higher prices. The situation might bring about such a condition as caused the great jump in values in 1895.—Oil City Derrick.

#### WEEKS' DEVELOPMENTS IN ELECTRA OIL FIELD.

(Electra News)

The Sheldon Oil Company was organized at Waxahachie last week with a capital stock of \$25,000 and has already started two wells in the Electra field. One location is on the Skelly addition about 150 feet from the Five Rivers Oil Company's big well and the other is on the Brocht three-acre tract which adjoins the Skelly addition on the south. The officers of the company are: W. J. Sheldon, president; W. S. Hazard, vice president; A. H. Sheldon, treasurer and Lem Wray, secretary. The directors of the company are: W. S. Hazard, Red Oak, Texas; P. Q. Crockett, P. F. Davenport, and C. F. Wain of Waxahachie; L. C. Hivick, W. J. Sheldon and A. H. Sheldon of Electra.

The Cook Oil Company organization of which is not yet complete, has completed a rig on the Skelly addition two lots south of the Five Rivers Oil Company's big well, which is making about 300 barrels. This company is composed mostly of Electra and Wichita Falls people.

The Badgett and Dale well on Woodruff Heights is down about 700 feet.

The Five Rivers Oil Company's No. 5 is down about 800 feet.

C. P. Company, Sheldon 7 is a new well making about 150 barrels at 825 feet.

Two more locations have been made on the McDermey lease continuing the string of wells east.

The Producers' Oil Company has taken over the holdings of the 99 Pumping Company in the field. This includes a 40-acre lease out of the Sheldon tract, 221. The consideration was not made known.

The Western Oil Company is down about 800 feet in the Eeds well and about 1100 feet in the one on the Sheldon lease.

The Home Oil Company of Waxahachie started their No. 2 on the north end of the Skelly addition this week. Their No. 1 is on the beam but is only a small producer.

### FINE CHICKEN SALAD

SUBJECT THAT WILL MAKE WOMEN AN DROP EVERYTHING ELSE.

New Combination Makes Most Talkative Woman Dumb Until She Tastes It—Here is One That is Worth Trying.

Women will turn eagerly from a magnificent display of spring millinery, from a bargain counter filled with real bargains, or leave a discussion on Browning uninitiated to compare notes and tell their experiences with chicken salad. Before a new chicken salad combination the most talkative woman becomes dumb until it is served and then her tongue runs faster than ever.

Far be it from me to essay to give a recipe for a perfect salad, still I courageously offer the following and say that it suits many: Dice enough chicken meat to fill a pint cup, do not use the meat grinder for cutting the meat, it makes it too fine; use the kitchen scissors and have the dice of uniform size, when cut sprinkle with the juice of a lemon or with not too sharp vinegar, set aside while you prepare as much celery as you have chicken; the celery must be cut finer than the chicken and should be salted lightly and then mixed in with the cold meat. Stand these in the refrigerator to chill. Make a mayonnaise dressing or a boiled salad dressing and soften it with whipped cream, as a chicken salad must be mild and the taste of the chicken predominate.

The chicken and celery may be mixed with the mayonnaise and served on lettuce but a newer, prettier way is to sprinkle olive oil or salad oil over the mixture in the proportion of half as much oil as you have used vinegar, and heap the mixture in individual salad dishes with cream or lettuce beneath and then put in a heaping tablespoon of the stiff, rich-looking dressing. A brilliant pimento or two or any other embellishment may be added. Onion is never used in chicken salad but sometimes the tiny spring onions are used as a garnish. Hard-boiled eggs have gone out of fashion for trimming salads and for this let us be truly thankful.—Henrietta D. Graess, Domestic Science Lecturer.

#### Roiled Round Steak.

Take a nice round steak (cut thin) and cut it into four pieces; pepper and salt both sides; chop a good sized onion very fine and spread over the pieces of steak; grate some hard bread and sprinkle liberally on top of onions. Now roll up each piece of steak so the onion and bread will be on the inside and tie securely with string so they will not unroll in cooking. Put a generous piece of lard in a deep iron frying pan and when it is smoking hot put in your meat rolls; brown them on all sides and then add enough hot water to cover. Boil slowly for one hour. Thicken the gravy with a little flour. Remove strings before serving.

#### Hints for the Farmer's Wife.

To keep celery fresh wrap the stalks in a cloth, wet in cold water and place in a cold place on the ice.

Biting off the thread when sewing, which is a habit with many, scrapes the enamel from the teeth and exposes the nerve, causes suffering, a visit to the dentist and a heavy bill to pay.

To remove scratches on furniture rub with a cloth dipped in boiled linseed oil.

Crisp celery served with cold meat is always appreciated and is a fine nerve tonic.

#### Pepper Salads.

These individual appetizers may be stuffed with any salad mixture, white potatoes and mayonnaise, cucumber and tomatoes, or boiled, sliced made of red cabbage seasoned with caraway seeds, sugar and vinegar. If the last is used it must be drained dry of liquid before it is put in the peppers. A little top is cut off these at the stem end, and after the filling is put in the top is put back and held securely with a bit of clean twine. The seeds and pith must be removed from the peppers of course or else they will be too hot to eat.

#### How to Keep Your Thread.

The following plan is a most satisfactory one for keeping the various spools of thread which accumulate in a sewing machine dresser from getting into an almost hopeless mass of entanglement. Into a small board, which exactly fits the bottom of the drawer, drive at intervals of one and one-half inches two wire nails. Upon the projecting ends of these nails place the spools and they will remain stationary.

#### Mixing Cake.

Always beat the butter and sugar to a cream with the hands, then add a little of the flour before you add the milk; then the milk, then the rest of the flour and baking powder, and last the beaten eggs. This rule applies to all cakes with butter in.

After putting cake in pan lift the pans up by the side and let drop down on the table. This causes the air to rise and prevents cake from falling.

#### Home-Made Maple Syrup.

One cup of brown sugar, one and one-half cups of water. Let it simmer until the sugar is dissolved and it becomes a little thick. Take from the stove and when cool add one teaspoon of vanilla. Tastes like maple syrup.

No, Cordelia, a girl isn't necessarily a jewel just because she is set in her ways.

SENT TO YOU BY AUTO PHONES 432 & 232

Since the stringent food laws have been in operation, much of the Mocha and Java coffee so called has disappeared from the market. As a matter of fact, there is not a great amount of the genuine article produced, which accounts for its high price.

The real Mocha and Java flavor, when properly blended and perfectly roasted is something so uncommonly good and so much sought after that a great many people once they taste it are never satisfied with anything less good. I haven't handled much of this blend of coffee, but in my new line it is put up at 45c per lb. and if you want the world's best coffee, here it is.

Wichita Falls, Texas, June 14th, 1912.

303

Don't forget that on June 18th, his excellency, Gov. O. B. Colquhoun, will address the people of this city.

The complete Scholastic Census of Clay County for the year 1912 shows 3,888 children within the scholastic age of 7 to 17 years, as against 4,298 for the scholastic year of 1911, a decrease of 410.

Will some one that is posted kindly inform us what Morris Sheppard's position on the tariff question is?

The Times is not authorized to speak for Mr. Sheppard, but the Herald has probably noticed that he endorses the position on the tariff question adopted and made a part of the Democratic State platform at Houston on May 29th, which is in line with the Democratic National platform adopted in 1908 at Denver.

Stamford, Texas, June 14.—Anson Hamlin and Stamford joined in a battle for rain Wednesday morning.

The atmosphere conditions seem very much improved and there is every indication that there will be rain to follow shortly.

The promoters of the plan, so far, are not discouraged and some of them are very much elated over the tests.

The methods as suggested by Mr. Post of Post City were followed and the bombardment attracted a large crowd.

The seat of operations was in the famous Larry Chittenden ranch, it being about fourteen miles from Stamford and about ten miles from Hamlin and Anson.

Secretary Forester of the Chamber of Commerce is receiving letters daily from parties acknowledging receipt of the "Wichita Falls Gateway" automobile guide book which is being sent out over the country.

Along other acknowledgments is one from the Outing Publishing Company of Chicago, stating that the book will be placed on their files and will be used in answering queries from subscribers.

Others who have acknowledged receipt of the guide books are the Public Chamber of Commerce, Automobile Club of Kansas City, Texas Magazine and others.

Most of the letters contain complimentary reference to the apparent thoroughness and the practicality of the routings shown therein.

How One Woman Won Her Health and Strength Back Again by the Use of Cardui.

Tampa, Fla.—In a letter from this city, Mrs. E. C. Corum writes: "I was all weakened and worn out with womanly troubles. My husband brought me some Cardui as a tonic, and from the first day, it seemed to help."

Cardui acts specifically on the weakened womanly organs, strengthening the muscles and nerves, and building them up to health.

It helps to refresh the worn-out nervous system and relieves the effects of overwork, both mental and physical.

Fifty years' successful use fully prove the merit of this purely vegetable, tonic remedy for women.

In every community, there live some who have been benefited by Cardui.

The beneficial effects of this time tested woman's remedy, soon show themselves in many different ways.

Try it.

R. B. - Write for Ladies' Advisory Dept., Chattanooga, Tenn., for Special Instructions, and 50-page book, "How I Restored My Health," sent in plain wrapper on request.

## BRINGS RARE BIRDS

Cleveland Huntsman Back With Valuable Specimens.

Will Donate to Zoological Gardens the Game He Jagged From Long Hunting Expedition in Africa and South Sea Islands.

Cleveland, O.—Bronzed by tropic suns, Kenyon V. Painter, prominent Cleveland club man, has just returned from a world tour.

Coincidentally a truck load of boxes and cages were unloaded at his estate on Baker Heights.

The boxes contained live specimens of the rarest tropical birds, the finest collection ever brought to the United States—most of the birds being the first of their kind to reach this country.

Accompanied by his wife, Painter searched the Orient for months. His own efforts brought him scores of specimens, and others he obtained from natives who brought them down to the coast from regions where white men are almost unknown.

Singapore, supplied many of the specimens. Painter's collection arrived in Cleveland in good condition.

Many of the birds will be forwarded to the National Zoological gardens in Washington, to which Painter has been a frequent contributor.

Birds of all sizes and colors fill about the cages in Painter's aviary. Pigeons from Burma, as large as chickens, that lay eggs of proportionate size, are in a cage beside one containing mites of birds from Ceylon, which look more like insects.

Long-legged birds with short bills contrast grotesquely with short-legged birds with long bills, and all in form and coloring look like compe- opera members of the bird kingdom.

The composite sound of bird voices from the collection resembles a Chinese funeral march.

Only one note of discord enters into Painter's satisfaction over his trip. After a long search of Borneo, Sumatra and Java he got three specimens of the Malay water deer, one of the rarest of animals.

At San Francisco government officials would not allow them to be landed because of a prohibitory regulation.

The deer are only ten inches high, but were classified as deer nevertheless. The New York zoological gardens and the San Francisco zoo are now engaged in a competitive effort to cause the government to relent and allow them to take the animals.

YARN MADE FROM NETTLES

German Magazine Says "Stinger" is Boiled into Flax and Used as Cotton Substitute.

Breslau.—The much abused stinging nettle has, it seems, a commercial value. A German magazine says a process has been discovered by which the nettle can be made to yield a supply of smooth, bleached, spinnable yarn at a price considerably less than that of raw cotton.

The nettles are harvested twice a year, and when dry they lose the power to sting and can be handled like flax to remove the leaves and twigs.

The naked stems are then boiled in diluted soda lye in open kettles for half an hour or so, until the fiber, broken to loosen, when it is separated by a revolving brush machine. The process of refinement is completed by repeated boilings, and by thorough washings, also under pressure.

The product now consists of perfectly clean "degummed" lustrous fibers of a yellowish tint. Proper bleaching methods change this color to dazzling white, at the same time heightening the natural luster.

The nettle fiber is now ready to be treated like other textile threads—that is to say, it can be combed, carded and spun. When all is done the finished yarn is as soft and smooth as flax, with only a slight "woodiness" remaining. If there is anything in this process the nettle will certainly cease to be a despised weed.

TRAVELS FAR FOR HIS BRIDE

Nine Thousand Miles Somewhat of a Journey, but Not Too Long for Norton Johnson.

Los Angeles.—Coming 9,000 miles to claim his bride, Norton Johnson arrived in Los Angeles, He reached San Francisco on the steamer Tahiti from New Zealand, and was met by his fiancée, Miss Helen Wells, and her father, Arthur G. Wells, general manager of the Santa Fe, who had journeyed north in his private car for that purpose.

Mr. Johnson, who is a geological expert, is general superintendent of the Consolidated Goldfields of New Zealand, and after the wedding ceremony took his bride for a wedding trip through the east, and will sail the first of May for their future home in New Zealand.

Mr. Johnson is the son of Mr. and Mrs. George Johnson of Birmingham, N. Y. Miss Wells was graduated from the Marlborough and afterward attended Wells college.

Equitable Loss Small.

Albany, N. Y.—Examiners of the state insurance department report that aside from the loss of records, the pecuniary loss from the fire which destroyed the Equitable Life Insurance society's home office last January was insignificant.

A college education will not hurt a young man if he is willing to learn something after he graduates.

We desire to express our heartfelt thanks and sincere gratitude to our friends and neighbors for their many deeds of kindness rendered us during the sickness and death of our beloved daughter, Cella.

Mr. and Mrs. John Flecher.

PRESBYTERIAN SUNDAY SCHOOL PICNICS AT LAKE

More than one hundred members of the First Presbyterian Sunday School enjoyed a picnic at Lake Rebekek Thursday afternoon and evening. The picnickers went out at 3 p. m. and returned on the nine o'clock car. The picnickers took out well filled baskets with them and at six o'clock lunch was spread at the pavilion. Lots of good things were left over from this lunch and they were taken to the Boy Scouts camp where the scouts did ample justice to the eatables. An entertaining feature of the afternoon was a ball game between the Wichita Falls scouts and visiting scouts. The final score was 23 to 15 in favor of the Wichita Falls scouts.

SAYS I. & G. N. LIABLE FOR ALL OLD DEBTS.

By Associated Press.

Austin, Texas, June 14.—Attorney-General Lightfoot holds that the reorganized I. & G. N. railroad is liable for all the debts incurred by the old concern while it was in the hands of the federal receiver.

Wichita Falls—The Henry Oil company of Chicago has been granted a permit to do business in Texas with headquarters in this city; capital stock \$100,000.

CLOSING ARGUMENT IN LIBEL DAMAGE SUIT

Case of Kennedy vs. Moore Will Go to Jury This Afternoon—On Trial Since Monday. Judge Yates began the closing argument for the plaintiff in the suit of Kennedy vs. Moore at 2:45 this afternoon. His argument will close the case and it will be given to the jury before the adjournment of court this afternoon. Hon. L. H. Mathis closed the argument for the defense. Attorney John Kay and C. C. Huff were other speakers for the defense. Other speakers for the plaintiff were Judge A. A. Hughes and Hon. Edg. Scurry of this city. The case has been before the court since last Monday.

Governor's Friends Will Meet—Judge Scurry's Office Saturday Morning. A meeting of citizens and friends of Gov. Colquitt who is to speak here next Tuesday night will be held at Judge Scurry's law office at 10 o'clock in the morning to arrange for the reception of the distinguished visitor. He will speak at 8:30 Tuesday night at the Wichita Theatre.

SUGGESTS BOYS' CLUBS AS DANCE HALL SUBSTITUTE

Cleveland, Ohio, June 14.—The substitution of boys' clubs for public dance halls was urged by George Chamberlain in an address on "Social Adventures of Boy's Clubs" before the National Conference on Charities and Correction here this morning. According to the speaker, "no-return checks" has been a only club used to induce many remedies to put on neckties and themselves before attending boys' club dances. "Accustomed as they had been when attending the ordinary dance halls to refresh themselves at a bar when fancy dictated the young men at first rebelled against the rule of no return checks, they were given to understand that under no circumstances would drinking be allowed, and that anyone leaving the building would not be allowed to return. Reconciled finally to the new order of things, it was perfectly natural that sobriety should beget cleanliness. At the same time a regard for personal appearance manifested itself, and before the first winter passed most of the young men were experiencing for the first time in their lives the fact that a 'good time' is not necessarily associated with rowdiness."

ITALIANS VICTORIOUS IN BATTLE WITH TURKS.

Washington, D. C., June 14.—In a fierce battle between a combined force of Turkish soldiers and Arab forces and the Italian troops at Lebda, near Tripoli City, the Turkish forces were defeated and retreated leaving 421 dead soldiers on the battlefield. The Italians lost thirty-one men killed and fifty-one wounded. This news was contained in a dispatch received today by the Italian ambassador here, announcing that the Italian forces had been attacked yesterday by the Turks and Arabs.

**BURKBURNETT ROUTE IN AUTOMOBILE BLUE BOOK**

Is One of Only Two Lines into Texas as Shown by Motor Publication

The route via Burk Burnett and Wichita Falls is one of the only two routes mapped and logged into Texas by the Automobile Blue Book for 1912. D. P. Talley, through whose instrumentality this route appears in the Blue Book has received a complimentary copy of Volume 5 of that

publication which covers the automobile roads over the territory of the Mississippi to the Pacific coast.

The other route into Texas mentioned above is via Little Rock, Ark. and Texarkana. No other routes into Texas are given in this publication which is regarded as the highest and best authority by automobile tourists. In the issue before this Burk Burnett and Wichita Falls did not appear in the book. Instead the route was laid out via Ringgold, the same as the Glidden tour several years ago. Now this route is not mapped in the Blue Book.

**COUNCIL ADOPTS STAND-PAT PLAN**

(Continued From Page One)

Tax Collector Harry Robertson reported the collection of \$1038 street tax during May. His collection of 10 per cent amounting to \$103.80 was ordered paid.

City Engineer Hinchey reported the completion of the sewer extension at a total cost of \$4255.

Postmaster Bacon appeared to call the attention of Council to the fact that at many of the crossings there were no street signs as is required by the government for the delivery of mail. The matter was referred to the streets and alleys committee for investigation and a report.

Awings with a heavy wooden roll at the bottom suspended into the sidewalk in front of Kahn's store and C. J. Barnards were discussed. The city attorney was instructed to draft an ordinance covering such cases and also regulating the height of street signs and other obstructions.

Inspector Montgomery was instructed to file complaint against certain alleged violators of the sewer ordinance. He suggested that the requirement for grease traps at private residences was unnecessary and that the ordinance amended to eliminate the provision making the construction of such traps compulsory for all buildings. No action was taken on the suggestion.

The collection of the following paving accounts was ordered: Mrs. C. E. Brown, \$318.57; N. Henderson \$150; E. W. Avery, \$159.24; opera house, \$287.15.

The city engineer was instructed to make an inspection of the sidewalks over the city and where walks were in a defective condition to give notice to the property owners to repair them.

At the request of Mr. Rhodes the city engineer was instructed to go with a representative of his to determine what places if any were using the old sewer of which Mr. Rhodes is the owner, so that he could be paid for the same by the city.

Council declined to accept the valuation placed by the commissioners on a strip of ground from a lot on Tenth street owned by Mrs. Day against which the city had instituted condemnation proceedings and the city attorney was ordered to take action as would be necessary to relieve the city of any obligation to take the land at the value assessed.

It was almost midnight when the question of the city buying wagons and engaging in scavenger work was brought up and by consent the matter went over until the next meeting.

**FOR SICK HEADACHE AND CONSTIPATION**

After Old Time Remedies Fail Try Gentle, Blissful Hot Springs Liver Buttons

Don't condemn this wonderful bowel, liver and stomach remedy just because pills, salts, waters and oils have not given satisfaction.

We know you won't be satisfied with common, every-day cathartics after one trial. For sale by Stonecipher & Smith and all first class drug store. 25 cents a box. Hot Springs Chemical Co., Hot Springs, Ark.

Venus—Farmers from the country adjacent to this city have returned from an inspection of the good roads in Ellis and Dallas counties.

**DAILY DIET AND HEALTH HINTS**

By DR. T. J. ALLEN Food Specialist

**APPLYING MONODIET PRINCIPLE.**

"I have been much benefited," says a Georgia minister, by the hints on simplifying the diet, "but I don't see how the monodiet can be applied to eggs or pie or strawberries." The understanding of the principles of the simple diet will be slow and its application slower. The ideal monodiet will be followed only by the invalid, for a short time, or by the athletes who wish to gain the greatest efficiency, but the natural compromise, the eating of only two or three foods at a meal that combine well, can be adopted by anyone; e. g., fruits for breakfast or with green vegetables, bread with nuts (or meat if that is used) and cereals, for dinner; sugar fruits or cereals with milk in the evening. Eggs combine with toast, milk or rice; oil, best with fruit or vegetables; these are fundamental ideas.

**MAN RECORDS HIS ROBBERIES**

Thief Arrested After School Girl Had Tracked Him—Left Old Book in Looted Home.

New York—Marie Rohn, 14, after attending Normal school, returned to her home on the fifth floor of 440 East 156th street. She was climbing the stairs when a man dashed past her, almost knocking her down, and fled to the street. The girl found that the door of her home had been jimmied and the place robbed. She ran to the street, caught sight of the man half a block away and trailed him along Elton avenue to 150th street. There she saw Policeman Frasier and told him her story.

The policeman grabbed the man and took him to the Morrisiana police station. He said he was George Burke, but refused to give his address. According to the police he admitted robbing the Rohns, after several pieces of jewelry found in his pockets were identified by Marie as belonging to her family.

In his hurry to leave the Rohn house the burglar left a small memorandum book behind. On the outside was written Burke's name. It had an alphabetical index and on several pages were found names of persons whose homes have recently been robbed, so the police said. The book also contained a list of valuables taken from each place and the names of pawnbrokers who had bought or loaned money on the articles.

**MULE CHEWS PIANO KEYS**

Gets at Them by Breaking Open Box Containing Instrument and Then Gnaws at Levers.

New Orleans—"Mule ate piano shipped. Send another next boat."

This message was received by a local piano house from an up-the-river purchaser whose \$500 instrument had been forwarded via Mississippi river steambot. In its usual pine box the piano was installed on the lower deck next to a lazy, sleepy-looking mule bound for the cotton fields of the upper bend.

Although provided with plenty of oats and hay, the mule ripped off a portion of the outer box, disposed of six octaves of black and white keys and ran the chromatic scale up to G in the treble clef. He gnawed away the mahogany panels in front, masticated felt dampers and hammers by the dozens and completely wrecked the melodious insides of the instrument.

"Steambot Bill," stoking a boiler twenty feet away, said the mule must have had his foot "on the soft pedal," as he did not bear a note.

When discovered the animal was unconcernedly grazing longly across the river at a grass-covered levee.

**DEATH LURE IN CHEAP WATCH**

Missing Boy Found Blain With Dollar Gift Gone—School Mate Suspected.

North Providence, R. I.—That William Mathers, Jr., 12 years old, was enticed into the woods and murdered by another lad for a dollar watch is the belief held by the police here. A search has been begun for the suspect, a 17-year-old alien.

The Mathers boy disappeared from his home at Marrieville, Feb. 29. Later two lads came upon a child's rubber and sweater in a forest. Search resulted in finding the boy's body, with the skull crushed and the clothing in tatters. Near by was a large stone splattered with blood.

A short time before he disappeared he was in company with the youth suspected. When he left home he carried a dollar watch which his father had given him and which excited the envy of some of the other children in the school. The watch was not in the boy's clothing.

**PHONE SETS ROBBER FLYING**

Yeggan Runs From House as if He Had Been Shot Down From a Gun.

York, Pa.—A telephone in the home of Dr. W. A. Yeagy of Dillsburg made an excellent burglar alarm.

Robert Daily, living not far away, detected a man in the act of crawling through a window into the home of the physician. Not caring to risk an encounter with the would-be thief, he went to his telephone and called up the physician.

Looking out again he saw the burglar make his exit as though fired from a gun. The telephone bell had done the work. Nothing was missing, except a few dollars from a drawer of the sideboard.

Sultan's Son a Woolen Mill Worker, Turkish sultan is now working in a mill here. His identity was recently made known to him by an old Turk, who was given charge of him when he was two weeks old, and who is now hiding in America after spending fifteen years in Turkish prisons. The young mill worker's real name is Prince Salim Abdul Mehid, and he is a nephew of the terrible sultan, Abdul Hamid, who is deposed, and of Sultan Mohammed Rehid, the present ruler.

Epworth League Leases a Farm, Sioux Falls, S. D.—The members of the Epworth league in the village of Rowell, Miner county, have leased twenty-seven acres of land on a farm near Rowell and will cultivate it this season for the benefit of the league.

**INITIATIVE ORDINANCE IS GIVEN TEST IN COURTS.**

Austin, Texas, June 14.—In the submission of the injunction case of the City of Dallas vs. the Dallas Consolidated Street Railway Company, in the Supreme Court the grounds were laid for a test of the right of the electorate of a municipality to fix rates for its public service corporations by the exercise of what is known as the initiative. The proceeding grew out of an election, in which the citizens of the North Texas town voted to compel the street car company to give seven rides for 25 cents, and to provide that if a passenger on a street car is not furnished with a seat within two blocks after he enters the cars, not more than 3 cents shall be collected as

fare. The street-car company took the matter to court and succeeded in obtaining an injunction to restrain the Dallas City Commission from canvassing the result of the election or declaring the result. The case was carried up to the Court of Civil Appeals of Dallas, and by that tribunal sent on up to the Supreme Court on certified questions.

The questions propounded by the Appellate Court are substantially as follows:

1. Did the District Court err in enjoining the canvassing of the votes; that is, does the canvassing of the returns and declaring the result of the election in question involve political questions of which a court of equity will take cognizance?
2. Does the ordinance "purport to fix terms to be enforceable in any

substantial respects without the aid of further ordinances passed by the Board of Commissioners of Dallas?"

3. If ordinance not enforceable in itself but commands specific action by the mayor and Board of Commissioners of the city of Dallas, has the electorate of Dallas power by initiative ordinance to direct or command such action?
4. Do the facts alleged in the petition disclose a imminent danger to plaintiff's rights as would entitle to a writ of injunction granted by the district court?

# Visit the Big Factory Sale

## TWO SOLID CARLOADS

### OF THE World's Famous "Crown" and Concord Pianos

being conducted at our store this week by Mr. Chas. T. Phelan, factory representative. These pianos were especially selected for this sale, and represent almost every style and wood, manufactured by these two large factories.

In order that every piano may be left with some one in Wichita Falls and vicinity, Mr. Phelan says that his factories have agreed to a liberal discount from their regular wholesale prices, and in order to move them quickly, one fourth off will prevail as long as they last.

Don't miss hearing the Wonderful "Crown" Combinola, the greatest player-piano ever shown in Wichita Falls. Demonstrations on this player each day during this sale. Store open nights until Nine O'clock.

# HARRISON-EVERTON MUSIC CO.

## DRILLERS TAKE THIRD OF SERIES

GOOD PITCHING ON BOTH SIDES FEATURE OF THURSDAY'S GAME

### ALL RUNS FROM ERRORS

Baxter Holds Durant To Four Hits—Indian McDaniels Puzzler To Locals

The Drillers made it two out of three yesterday, defeating Durant in a well-pitched game by a score of 4 to 3. Baxter and McDaniels were the opposing slabsmen and both performed in class A style.

A succession of passes and errors gave the locals three runs in the first inning. In the second the Indian McDaniels replaced Flanagan and for six innings he held the locals safe. In the eighth a walk, an error a hit, and two outs gave the visitors three runs, tying the score, but the Drillers scored again in their half on two hits and an error.

Baxter allowed only four hits and no two of these came in the same inning. He used his under-hand ball less than usual, varying it with an overhand, fast one and a slow one. The last was very effective when he could control it. McDaniels had a speedy ball and a wicked grip, both of which he had well in control, making his work very effective.

The game was very nearly broken up in the eighth when Durant had tied the score a wind and dust storm with a few drops of rain sent everybody scurrying to the street cars. It was soon over, however, and the game was finished. Brown worked again at short yesterday, Phillips being back on second.

Guthrie was safe in the first inning on an error; White stopped one with his body and Brown walked, filling the bases. Lawrence hit one too hard for the second baseman and Guthrie scored. Kizzlar poled one to left field and White scored on the error. Brown came in on the play, Hornbuckle dropping the throw. Phillips walked, but Lawrence was caught off third by Hornbuckle and Kizzlar met the same fate at second.

Durant tied the score in the eighth when Hornbuckle walked and McDaniels was safe on Baxter's bad throw to right. Harper drove one to right field, hitting Kizzlar on the leg; he reached second on the play and Hornbuckle scored. Two infield plays, Brown to Beckham, gave McDaniels

and Harper opportunity to score before Tucker fanned. In their half the Drillers tied the score. Lawrence singled and Kizzlar forced him at second. Phillips singled and Guthrie hit one to Graves who caught it and threw to second to catch Kizzlar. The throw went through Wright and Kizzlar scored. Morris replaced Baxter in the final inning and made it a one-two-three proposition.

Jones will probably work this afternoon, leaving Myers for tomorrow and a choice of Baxter and Mullins for Sunday's affray. Yesterday's score:

Durant	AB	R	H	PO	A	E
Harper, 3b	4	1	1	2	1	1
Graves, lf	2	0	1	3	0	1
McCullum, rf	4	0	0	0	0	0

Score by innings: 0-0-0-0-3-3-0-0-0-1x-4

Summary: Hits apportioned—off Flanagan 1 in 1 inning, off Baxter 4 in 8 innings. Stolen bases—Graves, two base hits—McCarty, Hornbuckle, Harper. Base on balls—off Flanagan 2, off Baxter 3. Struck out—by McDaniels 6, by Baxter 5. Left on bases—Durant 2, Wichita Falls 6. First on errors—Durant 1, Wichita Falls 3. Hit by pitcher—White, by Flanagan. Time of game—1 hour and 37 minutes. Umpire—Miller.

### ALLOWS ONLY EIGHT-HITS IN TWENTY-FOUR INNINGS.

In the last twenty-four innings he has pitched, Baxter of the Wichita Falls team has allowed only eight hits to opposing batmen, which is considered a very nice showing. Jones has allowed but fourteen hits in the last thirty-three innings he has pitched and that is some pitching, too.

Jerry Naylor has joined the Ardmore team. His brother, Art, has been with Ardmore since the season opened.

### TEXAS-OKLAHOMA LEAGUE

Bonham 4, Denison 3—Bonham won a featureless game from Denison. Batteries—Kistenmacher, McCor for the visitors but lasted only one inning. Corzine pitched a steady game throughout. Bonham goes to Wichita Falls tomorrow for three games.  
Score by innings: 0-0-0-0-3-3-0-0-0-1x-4

Ardmore 7, Sherman 2—Sherman lost the last game with Ardmore here today by a score of 7 to 2. Sherman had very little show of taking the game at any point and along with a good many errors, the game went to Ardmore.  
Score by innings: 0-0-0-0-0-2-2-0-0-0-0-1x-4

## TUESDAY'S CONVENTION WILL BE FIFTEENTH

First Republican Convention Held in Pittsburg in 1856-1912 Convention Seventh Held in Chicago

Washington, D. C., June 14.—The gathering of delegates at Chicago next Tuesday forms the fifteenth national convention held by the Republican party since its birth in Pittsburg more than half a century ago.

The first convention was in Philadelphia in 1856, and Edward D. Moran called it to order on June 17. Robert Emmet of New York was temporary chairman and Henry S. Lane of Pennsylvania permanent chairman, with David Wilmot as head of the committee on resolutions. The platform declared against the extension of slavery into new States and Territories, demanded the admission of Kansas, and advocated the building of the Union Pacific railroad. The candidates nominated were John C. Fremont—defeating John McLean of Ohio on first ballot—and William L. Dayton of New York. The ticket was beaten by the Democratic ticket nominated at St. Louis and headed by Buchanan.

The second, but in-point of importance really the first, convention of the party was held in Chicago, assembling June 13, 1860. The platform declared for the preservation of the Union, denounced the extension of slavery, and advocated tariff laws "which would encourage the development of the industrial interests of the country." Abraham Lincoln was nominated for President on the third ballot and Hannibal Hamlin of Maine was nominated for Vice President on the second ballot. This ticket was successful in the fall, easily beating the divided Democracy.

The third Republican convention met in Baltimore on June 7, 1864. The platform declared for the carrying on of the war, advocated a constitutional amendment forever prohibiting slavery anywhere in the Union, returned thanks to the Federal soldiers and sailors, and indorsed the emancipation proclamation. Abraham Lincoln was renominated, receiving all the votes except those of Missouri, which were cast for Gen. Grant. Andrew Johnson of Tennessee was named for Vice President. This ticket was successful at the polls.

The record of Republican national conventions and candidates held since the close of the Civil War is as follows: Chicago, May 20, 1868—U. S. Grant, of Illinois, and Schuyler Colfax of Indiana. Philadelphia, June 5, 1872—U. S.

Grant, of Illinois, and Henry Wilson of Massachusetts.

Cincinnati, June 4, 1876—Rutherford B. Hayes, of Ohio, and William A. Wheeler, of New York.

Chicago, June 2, 1880—James A. Garfield, of Ohio, and Chester A. Arthur, of New York.

Chicago, June 8, 1884—James G. Blaine, of Maine, and John A. Logan, of Illinois.

Chicago, June 19, 1888—Benjamin Harrison, of Indiana, and Levi P. Morton, of New York.

Minneapolis, June 7, 1892—Benjamin Harrison, of Indiana, and White-law Reid, of New York.

St. Louis, June 7, 1896—William McKinley, of Ohio, and Garret A. Hobart, of New Jersey.

Philadelphia, June 19, 1900—William McKinley, of Ohio, and Theodore Roosevelt, of New York.

Chicago, June 21, 1904—Theodore Roosevelt, of New York, and Charles W. Fairbanks, of Indiana.

Chicago, June 16, 1908—William H. Taft, of Ohio, and James S. Sherman, of New York.

The convention next week will be the seventh that the Republican party has held in Chicago. Of the Republican candidates nominated in that city, Lincoln and Garfield were assassinated. Blaine died a disappointed, if not a heartbroken, man. Arthur, who succeeded Garfield, lived to realize the full meaning of political ingratitude. Harrison, although renominated at Minneapolis, was defeated. The defeat of Grant in the convention which met in Chicago in 1880 was the occasion of a bitter feud in the Republican party, and incidentally led to the defeat of the party four years later. Mr. Roosevelt was nominated in Chicago in 1904 and Mr. Taft in 1908. These two, of the seven standard bearers named by the Republican party in Chicago conventions, are the only ones living.

## Champ Clark Forces Want Nomination by Majority

By Associated Press.  
Baltimore, Md., June 14.—Chairman Norman Mack and other Democratic National committeemen gathering here expressed the opinion today that to move would be made to abrogate either the unit or the two-thirds rules. Leader Charles Murphy of Tammany Hall with his personal advisers are expected here Friday.

St. Louis, June 14.—Senator William J. Stone declared today that friends of Champ Clark will support a resolution before the Democratic National committee abolishing the two-thirds rule and providing that whenever a candidate receives a majority of the votes cast he shall be declared the party nominee.

A number of State Democratic conventions, including Texas, have declared for the abrogation of the two-thirds rule in the National gathering, and the belief has been generally ex-

pressed that the Baltimore convention would be the last to be governed by the two-thirds rule. The majority rule prevails in Republican conventions.

FAVORS IMPRISONMENT OF DESERTER-HUSBANDS

(Continued from page 1) rection here this morning. The speaker argued in favor of the establishment of courts of domestic relations as distinct from criminal courts and the treatment of offenders of this class by probationary methods rather than commitment to jails and prisons. 'Such courts could and would upon their own initiative and through the probation officers,' said Mr. Cooley, 'get in close touch with all the agencies of the community which make for constructive, preventive work. If it be true that these non-support and desertion problems involve the happiness of the family and the future welfare of the children both morally and materially, as well as the economic interests of the community a persistent effort must be made to utilize to the full the church, the charity organizations, public agencies caring for dependent children, playground associations, settlements, the library, and the other agencies in the community that can help. Same, conservative use of these forces under careful direction and supervision will hasten the time

MERCURY OVER HUNDRED MARK THIS AFTERNOON Was 102 Degrees at Two O'clock. Warm Weather Interferes With Harvest. For the first time this summer the mercury rose above the century mark this afternoon and by two o'clock it had climbed to 102°. A hot wind was blowing from the west. This wind, it is feared, is doing damage to the corn which so far has not been hurt by the dry weather. The heat is also a disadvantage to the harvest which is now on in full blast. When a woman asks a disinterested man for his candid opinion of her the chances are she would consider him a brute if he told her the truth.—Chicago News.

A Pointer on Electric Lighting. We are the only firm in Wichita Falls that handles the 'GENUINE DRAWN WIRE MAZDA LAMPS' and do not and would not handle any other lamps under any circumstances, for the 'HALL DRAWN WIRE MAZDA LAMPS' are far more efficient and durable than any other lamp ever made. We have always handled the MAZDA since we established our business, 'PAID OUR BILLS EVERY THIRTY DAYS' consequently have never had our lamp contract 'CANCELLED,' thereby enabling us to give the public the very best lamp on the market. Our Street Car Ad for the last two years has proven to the public what our faith has been in the 'HALL DRAWN WIRE LAMP.' All other high efficiency lamps have proven themselves entirely unsatisfactory, as they are too fragile and delicate to be handled, therefore the manufacturer introduced the famous Mazda Lamp, which we handle exclusively. The Mazda Lamp will out last all other high efficiency lamps, therefore it will pay you well to buy the Mazda. Do not forget that we handle the General Electric Company's Fans of all types. Our books will show that we have sold more 'ELECTRIC FIXTURES' for first class residences than all our competitors combined, and have contracted for more first class fixtures to be delivered as fast as the new houses are completed. Carpenter Electric Company EVERYTHING ELECTRICAL, WE LEAD, ALL OTHERS FOLLOW.
