CONTESTING BLACK AND TAN DELEGATION GIVE COLOR AT CONVENTION PRELIMINARY

WOMEN ON THE GROUND

Negroes, Cigar Smoke and Women Noticeable—Contests Are Puzzling

By Associated Press. Chicago, Ill., Aug. 3.—The National Progressive party emerged from its swaddling clothes and got down to real political work today. The provisional national committee began framing the temporary roll for the convention that will meet Monday.

Despite certain diffidence and inexperience which made progress slow the committee settled the question of representation of various territories and outlying possessions and heard arguments of some contesting delegations. Many of the women who worked to shape the new party were far from experienced politicians, and approached their duties with timidity.

Senator Dixon asked Howard if he did not think it would be wise to have the negroes in Mississippi who favor Theodore Roosevelt led away from the Democratic party by white men.

Chicago, Ill., Aug. 3.—Col. Roosevelt will leave tomorrow for Chicago to attend the National progressive convention, arriving early Monday.

Chicago, Ill., Aug. 3.—Illinois progressives in State convention selected State Senator Frank H. Funk as their nominee for governor.

Chicago, Ill., Aug. 3.—Representative Henry of Texas today in the House attacked Col. Roosevelt and President Taft.

Chicago, Ill., Aug. 3.—Plans of Democratic leaders for the coming political campaign are beginning to take shape now that early adjournment appears in sight.

TARIFF AND JUDICIAL APPROPRIATION BILLS WILL GET PRESIDENT'S VETO

TARIFF BILL READY

Will Soon Be Sent To White House For President's Action—Veto For All Is Report

By Associated Press. Washington, D. C., Aug. 3.—Taft supporters in the Senate say they have information that the President will veto every one of the tariff bills now under consideration.

The possibility that President Taft will veto the legislative executive judicial appropriation bill if it destroys the Commerce Court, and modifies the civil service was suggested to the Senate today by Chairman Warren of the appropriations committee.

Senator Warren said this would be the effect; that the civil service commission has proposed the system, and still would be in control of all appointments.

Chicago, Ill., Aug. 3.—News is coming in slowly over prostrated rural telephone wires of the greatest electrical storm ever witnessed in this section.

EXECUTE REBELS WITHOUT TRIAL

MEXICAN ARMY GIVEN THIS AUTHORITY IN THREE STATES AND PORTIONS OF OTHERS

FIGHTING IN PROGRESS

Federals Clash With Rebels at Corralitos—Orozco Believed to Be Ready to Burn Juarez

By Associated Press. Mexico City, Aug. 3.—The right to execute rebels without trial was conferred on the Mexican army today when the permanent commission of the Mexican congress approved a bill providing for the suspension of the constitutional guarantees in three states and portions of nine others.

The bill which practically means martial law will apply to the entire State of Morelos and parts of the States of Puebla, Palaxala, Mexico and Oaxaca in the south where Zapata is fighting, and to the State of Chihuahua and parts of Sonora, Durango, Zacatecas, Sinaloa and Chihuahua in the north which is harassed by Orozco.

By Associated Press. Juarez, Aug. 3.—According to rebel advisers here late today, fighting is in progress at Corralitos, 150 miles southwest of here, and fifty miles north of Casas Grandes.

By Associated Press. El Paso, Texas, Aug. 3.—About 50 shots were exchanged between United States soldiers and unknown men from the Mexican side last night between 9 and 10 in the rear of the El Paso country in East El Paso.

By Associated Press. El Paso, Texas, Aug. 3.—One hundred Mexicans armed with rifles which they did not surrender to the rebels last week left Casas Grandes this morning heading westward ostensibly to round up cattle, but the rebels fear they are going to join the federal army and fight with them to avenge their treatment last week at the hands of the rebels.

By Associated Press. San Antonio, Texas, Aug. 3.—The Hexar county convention of the Democratic party today adopted a platform and selected 150 delegates to the State convention; instructed them to vote as a unit to stand by Gov. Colquitt and to assist in shaping the policy of the State convention.

GOV. WILSON VERY DEMOCRATIC

SLIPS INTO NEW YORK ON OBSERVED AND EATS AT A LUNCH COUNTER

CONFERS WITH M'COMBS

Discusses Plans For Campaign and Decides Upon Treasurer For Committee

By Associated Press. New York, Aug. 2.—Gov. Woodrow Wilson came to New York tonight for the first time since he became the presidential nominee of the Democratic party, but scarcely half a dozen persons saw him.

After a busy day at the summer capital the governor slipped away on a train to New York, followed by newspaper correspondents. Few recognized him on the way and when he reached the Pennsylvania station he walked inconspicuously to a lunch-room where he sat perched on a high stool and obtained over the counter a sandwich and a glass of butter-milk.

By Associated Press. El Paso, Texas, Aug. 3.—Disguised as a rebel soldier Sam Jarvis arrived here on a freight train late today from Colonia Dublain, the Mormon settlement 200 miles southwest of the border.

By Associated Press. Chicago, Ill., Aug. 3.—Orin Wright, a city fireman, today climbed down a 60-foot smoke-stack to extricate the body of John Patens, a laborer who had been smothered to death by soot.

SALES PENDING FOR FIVE PLAYERS

Mullins, Baxter, Myers, Phillips and Kizziar Likely To Go to Texas League

Negotiations are pending for the sale of five of the Wichita Falls players to Texas League teams and while no deals had been closed up to last night, it is probable that the sales will be consummated. The players likely to be sold are Pitchers Mullins, Baxter and Myers, Second Baseman Phillips and Rightfielder Kizziar. Offers have been received for those players, but Manager Orth is not satisfied with the amount offered.

These pitchers are said to have as much as many now in the Texas League and there is little doubt that they could make good if given a trial. Phillips, though in his first season of league ball, has done splendidly. He fielded his position well from the start and on the last trip has been hitting like a fiend, making him desirable Texas league material. Kizziar fields his position almost perfectly and has been one of the team's safest and hardest hitters.

Brown, center fielder, has already been bought by the St. Louis-Americans, but does not know when he will report.

Rewards Faithful Service.
By Associated Press.

Washington, D. C., Aug. 3.—Richard T. Underwood's many years of faithful service as a laborer in the postoffice department and his fine family of ten boys and girls reared on a small salary, won him a promotion today at the hands of President Taft who by an executive order waived the civil service rules requiring examination and appointed him a clerk at \$900 a year with right to promotion.

We Owe More Than to Men

By **TALCOTT WILLIAMS**,
Dean of the School of Journalism, Columbia University

WHAT we call the enfranchisement of woman is but a development of what has ALWAYS BEEN HER RIGHTS, sometimes submerged, sometimes triumphant, but never forgotten or unmet by organized society.

IT IS WELL FOR US TO REMEMBER THAT WE OWE MORE TO THE WOMEN THAN THE MEN.

The whole work of woman is properly understood only if it be in its relation to the work of woman in the past. She began the possibilities of civilization. The triumph of Miriam and the song of Deborah came before the lament of Jonathan and the songs of the sons of Noah.

It was HER HAND THAT TAMED THE WILD GOAT AND SOWED THE FIELDS WITH WILD GRAIN. It was her work at the spindle which began manufacture.

The beginnings of civilization were in her hand, and every race as it passes barbarism into civilization selects from its womanhood those who typify the nascent state the motherhood from which the family was born.

Why European Physicians Are Superior to Ours

By **HENRY S. PRICHETT**, President of the Carnegie Foundation For the Advancement of Teaching

SCANDALS in medical education exist in America alone. In no foreign country is a medical school to be found whose students DO NOT LEARN ANATOMY IN THE DISSECTING ROOM AND DISEASE BY THE STUDY OF SICK PEOPLE.

IT HAS REMAINED FOR THE UNITED STATES AND CANADA TO CONFER ANNUALLY THE DEGREE OF DOCTOR OF MEDICINE UPON AND TO ADMIT TO PRACTICE HUNDREDS WHO HAVE LEARNED ANATOMY FROM QUIZ COMPENDS AND WHOSE ACQUAINTANCE WITH DISEASE IS DERIVED NOT FROM THE STUDY OF THE SICK, BUT FROM THE STUDY OF TEXTBOOKS.

In no European country is it possible to find an educational farce of this description. There every school has adequate clinical resources under complete control. If the lowest terms upon which a medical school can exist abroad were applied to America three-fourths of our existing medical schools would be CLOSED AT ONCE, and, let me add, the remaining fourth would be easily and entirely adequate to our need.

Mission of American Women to End War Throughout the World

By **Baroness BERTHA VON SUTNER**, President of Associated Peace Societies of Europe

IBELIEVE THAT IT IS THE MISSION OF AMERICA, AND ESPECIALLY THE MISSION OF AMERICAN WOMEN, TO END WAR THROUGHOUT THE WORLD. FROM YOUR GREAT COUNTRY WILL COME A CRY OF PEACE, PEACE, AND THERE WILL BE PEACE!

The majority of women have always been opposed to war because it is always the WOMEN WHO SUFFER. The victorious nation and the vanquished alike have their toll of desolate widows, mothers and sisters. For every man who dies on the field of battle perhaps six women mourn. And it's so much easier to die swiftly from a bullet than to die slowly from long years of LONELINESS AND GRIEF.

You know America seems to me a world oasis of peace. I cannot imagine your being so silly and wicked as to indulge in a great war. You do supply yourselves with an unnecessary number of ships and guns, but that is undoubtedly due to the influence of the rich men who own stock in the manufactories. However, I think the COMMON SENSE of your people will keep you from using your army and navy.

In America you have the three great advantages—free schools, free press, free speech. I do not exaggerate when I say that such a state of affairs exists nowhere in Europe. Armed to the teeth, central Europe is a GREATER HINDRANCE TO THE WORLD TODAY THAN DARKEST AFRICA EVER WAS in the campaign for progress, for economic unfoldment and for peace.

War is the greatest crime ever perpetrated by humanity.

PACKERS TEAM WILL PLAY HERE TODAY

Game This Afternoon Will Probably Be Last of Season—Bobby Myers May Pitch

What will probably be the last baseball game of the season here will be played this afternoon at the City park when the Packers' team of Fort Worth, will meet the Drillers. The Fort Worth nine is one of the strongest semi-professional teams in the State and is expected to give the locals a run for their money.

Bobby Myers will probably pitch. Efforts were made yesterday to stage other games before the team disbanded but it is not likely that this will be done.

The GREATEST PLAY I EVER SAW
AS TOLD TO
Hugh S. Fullerton

By OSCAR STANAGE.

Catcher Detroit, Tigers, and Who is Regarded as One of the Greatest of the Developing Catchers of the Country.

The greatest play I ever had the pleasure of seeing was one that I came near breaking up through surprise. The play was pulled by Jim Delehanty and Owen Bush and myself—only my part of it was to come near spoiling it. I always have been rather proud that I didn't throw it away after they made it, but even if I had I would have excused myself.

We were playing Boston and at a time when both of us thought we had a chance to beat out Philadelphia and win the pennant. We of the Detroit team were more than anxious, as we wanted another chance at the National league and Boston, at that

OSCAR STANAGE.

time, looked to have even better chances to cop the American league pennant than we did, as our team was all shot to pieces by accidents and sicknesses. We were fighting a tough series and had won one game each, and in the ninth inning of the rubber game we had one run the advantage, the score being 4 to 3 with runners on first and second and not a soul out. Lexia was at bat, and he had been slapping the ball hard all afternoon, and in rather tough luck, as our infielders had cut off two drives from his bat that looked as if they would get through and make more trouble for us. In the eighth inning I kept signaling for balls inside and low, knowing that he was expecting a curve. You know they say he has a weakness in hitting curve balls. We got him on the first ball, and after that I decided to cross him and had the pitcher keep the ball down and in. He fouled one for the second strike and another went wide, so I calculated he was expecting a curve outside and planned to repeat the fast low ball. He outguessed me, or at any rate he hit the ball like a bullet past second base, a little to the first base side, and it looked as if the ball had gone through. Delehanty was moving with the pitch, and when he saw the ball going through he simply took a running dive at it, slid along the ground, grabbed the ball and rolled over flat on his back. It looked as bad, almost, as it did before. Del hadn't time to get up, or even to sit up, but he didn't try. He was still flat on his back when he snapped the ball on the first bound to Bush at second base, forcing the runner who was coming down from first by a step. That alone was a great play, but the moment Bush got the ball he whirled and cut loose a perfect throw to the plate. He threw without stopping or looking, knowing instinctively that the runner who was on second when the ball was hit would try to turn third and score on the play at second. Bush whirled and shot so rapidly that I only half realized what had been done, and the ball was past the pitcher's position before I waked up enough to jump forward, block the plate and grab the ball. I didn't know where the runner was until he slid against my legs as I grabbed the ball and shoved it against his feet.

The play all-around was the most wonderful I ever saw for quickness of thinking and acting, and although Delehanty's stop and throw were great, the wonderful part of it to me was Bush's fast thinking.

A Charming Sound.

Old John was employed at a place where work was hard, and each man had plenty of it. The youngest partner of the firm, having been recently married, invited the employees to a "musical evening."

"Oh, John," exclaimed the bride, "you will come, won't you? We shall have selections from Handel, Beethoven, and all the finest composers. This will be the best music you have ever heard."

"Well, thank'ee, mum," replied the ancient one; "I'll come. I don't know much about Handels and Beethovens an' all the rest of 'em; but I'll have to be pretty good music if it beats the sound of our old 'buzzer' when it whistles to knock off work."

A Meat Service That is Absolutely Clean

PHONES 432 & 232

YOU GET IT QUICK.

There is so much being said at the present time both in newspapers and magazines and at various club meetings about cleanliness in the stores and markets where the food supplies are sold, that I feel it only just to myself and to you to call attention to the extreme cleanliness and neatness of my meat department especially.

It is so easy to permit conditions in meat markets that are not strictly sanitary and that do not appeal to the best and most refined tastes that when that object is accomplished, that is, when the market is so managed as to make it appetizing, neat and attractive to the most particular women, those women should know about it.

Any day in the week is inspection day at my meat department. You will be welcome at any time and will be given an opportunity to see any part of the meat market that you wish and if you can find anything about my meat service that does not meet with your approval, you will do me a great favor by pointing it out and I will see that it is attended to at once, for my meat department is at the public's service and must meet the public's requirements. You are a part of that public and I want your approval because I want your orders. An early visit will be appreciated by myself, and I am sure by yourself also.

Wichita Falls has one of the finest sewerage systems in the State, which was put in at great expense to the taxpayers. It was calculated at the beginning that if all property on the sewerage line would connect up with it, the system would not only be self-sustaining but would pay interest on the bonded debt and have something left over for a sinking fund.

Is Jake Wolters willing now to let the man who secured the plurality of votes in the election for Senator have the office, or does he believe he should have a majority?—Bonham News.

Col. Wolters has already acknowledged defeat, showing that he is a good loser. While the Times did not support Wolters for the senatorship, he has many qualities that even those opposed to him are bound to admire.

Cone Johnson has proposed a plank, that, if adopted into the Democratic State platform at San Antonio, will settle for a number of years at least the question of prohibition in Texas.

It may be that the radical anti will fight to a finish the adoption of such a plank, and in this fight the radical anti may be joined by the radical pro. But the proposed plank is a compromise measure, and if adopted will solidify the two factions.

We demand the passage of a law requiring all places where intoxicating liquors are sold to be closed at night between the hours of 9 o'clock in the evening and 6 o'clock in the morning, and a law prohibiting the sale of whiskey by the drink and only in packages, the same not to be drunk on or about the premises where sold.

Mr. Johnson also goes further and proposes that the selling of whiskey by drinks be prohibited, and that it be sold in packages, which is not to be drunk on the premises, or in the saloon. As to this part, there may be objection, and it is perhaps best not to insist on it just at this time.

Afterwards, or later on, in the event it appears that by adding that clause much crime can be prevented, it will be time enough to take it up. For the present, an early closing of saloons will do all that is necessary to bring the two factions together, and at the same time out down the hours in which liquors can be sold legally.

THE ELECTION OF COLQUITT. Honston Chronicle. Colquitt has been nominated governor by a fair majority.

He has had recorded against him the largest vote ever polled against a governor on the second term proposition.

It is perhaps well for the State that Governor Colquitt has been re-elected. The rebuke administered may be sufficient to teach him the lesson needed, and to bring about changes and reforms for which Ramsey stood without the fear of state wide prohibition that Ramsey inspired.

If Colquitt will assist the next legislature in securing better saloon regulations he may save the State from another prohibition election.

If Colquitt will cease wrangling with the heads of departments and manage to live in peace and harmony with his official family, the people will be deeply grateful and the State will be saved further humiliation.

If Colquitt will stop trying to interpret constitutional law and recognize

his legal limitations, he will save himself and his friends embarrassment and save the State some money. If Colquitt will recognize the right of the people in each city to select their own form of government and not veto every charter that does not meet with his own particular views, he will lessen criticism of his official acts.

Governor Colquitt undoubtedly wants the State to progress and is deeply interested in the material development of Texas. He can do much to bring this about in the next two years, and the Chronicle believes the governor's effort will be in that direction.

Let us all join hands with him in trying to secure two years of peace, harmony and prosperity.

NEW CAMPAIGN EXPENSES BILL

MEASURE RECOMMENDED BY SENATE COMMITTEE BASED ON CULBERSON'S BILL

WOULD FIX A LIMIT

Contributions Will Be Limited to \$5,000 Except by Candidates If Bill Passes

By Associated Press. Washington, D. C., Aug. 3.—An entirely new bill based on Senator Culbertson's measure, to forbid corporate contributions to an election at which a president, senator or a representative is to be voted for, and making it unlawful for any person, other than a candidate to give more than \$5000 to such an election, was prepared today and will be recommended to the Senate by the committee on privileges and elections.

The bill was reported by the senate committee on privileges and elections this afternoon. Predictions were made that it would be passed immediately. Under its terms, all corporations would be prohibited from contributing money or anything of value to the nomination or election of presidential electors, representatives in Congress or state legislators who elect senators. Contributions of individuals to such nominations or elections would be limited to \$5,000, but this provision would not apply to candidates themselves.

Under the present law, candidates for congress are limiting to spending \$5,000 for nomination and election, and candidates for the Senate \$10,000.

GOOD BEHAVIOR WINS PAROLE FOR BANKER

By Associated Press. Leavenworth, Kan., Aug. 3.—Noah P. Marker, former cashier of the First National Bank of Tipton, Ind., convicted of embezzling large sums from that institution, was released from the Federal prison today on a good behavior parole having served three years of a five year sentence. He was a prominent member of the "bankers colony" and was a cell-mate of John R. Walsh, during the latter's incarceration. His brother, William H. Marker, is still serving a seven year sentence in connection with the Tipton shortages. Marker said he expected to continue in financial affairs.

WHOLE RICE VS. MILLED RICE.

The entire grain of rice, unmilled, contains all the elements of nutrition, in proportion nearly the same as they are found in the blood of a normal person, so that for the adult rice is an almost perfect food, deficient only in fat, which can be added as cream and slightly deficient for small but the old; in albumen, a small percentage of which is contained in cream. But the whitened rice of commerce has been stripped of most of its albumen, the tissue forming element, and much of the mineral element, so essential in perfect nutrition. The whole grain could be readily obtained if there were a general demand for it. One grocer in each city where its value is recognized could be induced to keep a supply.

KID MCCOY ASKS AMERICANS TO WITHHOLD JUDGMENT

By Associated Press. London, England, Aug. 3.—Kid McCoy, the American prize fighter who has been released on bail in connection with the charge of alleged larceny at Ostend, made the following statement tonight:

"It was the most unjust and outrageous thing ever perpetrated, to take a man away from his wife, family and business and ruin his name which never had anything against it. If I have to stay here a year I'll stay and ferret it to the bottom. I know how that kind of thing sticks and ask the American press and my American friends to withhold judgment."

He added he had received many messages of sympathy.

ADVANCED STEP OF DEPARTMENT OF JUSTICE

By Associated Press. Chicago, Ill., Aug. 3.—With the filing of an agreed decree in a civil anti-trust suit against the Western Newspaper Union and the American Press Association, the federal government today took an advanced step under the Sherman law to prevent what the department of justice regarded as the possibility of a combination to influence the thought of \$1,000,000 leaders of rural papers.

Ballot Boxes Broken Open.

Belton, Texas, Aug. 3.—Last night some one broke into the room in the court house where Saturday's election returns were stored. Several ballot boxes were broken open but the tally sheets had been taken to another room, hence no changes could be made, if that was the object. There is no clue.

Senate Recedes.

Washington, D. C., Aug. 3.—By a vote of 33 to 28 the Senate today agreed to recess from its Canadian reciprocity repeal amendment on the steel bill. This leaves the bill approved by both Houses. It will go to Taft at once. The progressives who voted with the Democrats were Brantow, Clapp, Crawford, La Follette, Poindexter and Works.

BUCKWHEAT CAKES.

The digestibility and palatability of buckwheat cakes is improved by mixing the buckwheat flour with about ten per cent. corn meal. Pancakes are usually masticated imperfectly and are sometimes a source of indigestion, and appendicitis, especially in conjunction with lean meat, which together favor fermentation and congestion, the conditions necessary for appendicitis. It is especially important that children should be given food that requires thorough mastication.

CHICAGO POLICE LAND SMOOTH CROOK

By Associated Press. Chicago, Ill., Aug. 3.—After an exciting chase through the crowded streets of the business section the police today arrested Jacob F. Guthrie, alias Harry Brown, 35 years old, who is alleged to have robbed the homes of wealthy residents of the South side of valuable paintings, silverware, jewelry, clothing, stocks and bonds worth more than \$150,000.

Guthrie was arrested on a forgery charge as he was about to enter a bank. While being led to Central police station he tripped the detective who had him in custody and fled. He was captured after a chase of several blocks. As he was being locked in a cell, he attempted to swallow the red receipt slips which the police seized and which later led to his identification. One was for a barn and the other for a room in South Orange.

When the police searched these quarters they found many valuable articles stolen from homes of prominent Chicagoans in the last few months.

Guthrie is charged with having forged the name of Mrs. H. O. Stone and Mrs. Ella Wilson to checks for \$12,000 which he deposited to his own credit.

Later the police raided his home on the south side where several additional trunks filled with jewelry silver lace and other valuables were found. Guthrie lives with his mother and brother, Robert W. Guthrie, who is a member of the Chicago police department.

BILL POSTERS ASS'N NOW UNDER FIRE

U. S. Attorney General Files Suit For Dissolution of Associated Bill Posters and Distributors

By Associated Press. Chicago, Ill., Aug. 3. - Suit for dissolution of the Associated Bill Posters and Distributors of the United States and Canada, was filed in the federal district court here today. Attorney General Wickersham charged a conspiracy to destroy competition, fix prices and monopolize the bill posting of this country and Canada.

In addition to the dissolution of the corporation the government seeks a series of injunctions against practices and agreements said to be in violation of the Sherman law.

Among the defendants named is A. A. Edwards of Waco, Texas. It is charged that members of the association have been prevented from accepting National work from advertisers patronizing non-members; that members have been prohibited from engaging in business in opposition to any other member; that a minimum scale has been provided and that members are obliged to contract for work through solicitors licensed by the association and that these solicitors pay a license fee of \$160 and receive 2.5 per cent commission which is increased on advertising for three months or longer.

Plans were made for a more aggressive advertising campaign to begin at once and continue without abatement throughout the entire year. A pleasing feature to which attention was called at the meeting of the board of trustees was that the Assembly this year is making expenses instead of running behind as was the case last year, when those in charge found that the expense account had accumulated until \$350 was needed to make up the deficiency. Such has not been the case this year, and the officers of the Assembly feel very much encouraged with regard to the success of future Assemblies.

ASSEMBLY NEAR CLOSE

Camp Will Be Broken Monday - Organization Perfected For Next Year - Meeting Successful

Today will be the last of the Lakeshore Assembly and tomorrow the guests will begin to pack up their belongings and leave for their homes. Last night one of the largest crowds that has yet been out heard a masterful lecture by Bishop Mouzon. The Jones Sisters' Quartette was another pleasing feature of last night's program. A large attendance is expected this morning when Bishop Mouzon will preach at the Colonade. Tonight Dr. DuBose will deliver his celebrated lecture "Asbury and His Times."

All of the congregations of the city are cordially invited to attend both the morning and evening services at the Lake today and inasmuch as most of the local pastors are absent from the city from one cause or another, it is thought that a large number of people from other congregations will accept the invitation of Rev. Roach, president of the Assembly.

A meeting of the board of trustees was held yesterday afternoon at three o'clock, and the present officers of the Assembly were selected to serve for another year. They are Rev. J. E. Roach of Gainesville, president; Rev. C. M. Woodward of Abilene, secretary; William Turner of Jackboro, treasurer, and Rev. J. W. Hill of this city, press agent. The latter is a new office created yesterday afternoon in order to provide a method of advertisement during the year before the assembly meets again.

Rev. G. M. Woodward was appointed a committee of one to extend an invitation to the Western Oklahoma Conference to join in the Assembly next year, and a committee from that conference will meet in September to decide between joining with this Assembly or establishing a new Assembly of their own in Tulsa, Oklahoma. Presiding Elder Q. P. Sensabaugh of Oklahoma City was present and expressed the opinion that if a cordial invitation from here was extended to the officers of the Oklahoma Conference, they would be glad to join with the Lakeshore Assembly.

Conferences will be held next week on the excise tax bill and the sugar tariff bill. On the former an agreement exists between Senate Democrats and insurgents to endorse the repeal of all the reciprocity law except the free print paper provision now in force. It is expected the House will meet this plan and adopt a compromise without delay.

**ARCHBALD TRIAL
NEXT DECEMBER**

POSTPONEMENT CAME AFTER LONG FIGHT FOR AN IMMEDIATE TRIAL

SECRET SESSION HELD

Majority Influenced in Vote By Plea of Archbald For Time to Prepare Defense

By Associated Press.

Washington, D. C., Aug. 3.—The impeachment trial of Judge Robt. W. Archbald of the commerce court was today set by the senate to begin Dec. 3, the second day of the next regular session. Postponement came after a long fight by several senators for an immediate trial, as desired by the house. House managers who brought the charge against the judge, demanded that the trial open next Wednesday. Judge Archbald through his attorney, A. F. Worthington, presented a formal request that it be deferred until October 15 on the ground that his case could not be prepared before that time.

After two hours spent in secret session, the Senate by a vote of 44 to 19, determined upon the postponement. Proposals were made in the fight behind the closed doors to take the case up August 7, August 14 or November 18 and all friends of all three of these proposals joined in voting against longer postponement.

Those opposing the postponement to December were:

Democrats—Adhurst, Bacon, Daly, Chamberlain, Martine, Myers, Pomereene, Reed, Shively, Simmons, Smith of Georgia, Stone, Thornton and Tillman.

Republicans—Bristow, Clapp, Jones, LaFollette and Works.

The influence the postponement might have on the argument for "recall of judges" in the approaching campaign, figured prominently in the debate. Chairman Clayton of the House committee declared that the remedy of impeachment itself is now on trial.

"Shall we accentuate the charge of ten made?" he said, "that the remedy of impeachment is slow, cumbersome and inefficient?"

The majority of the Senate voted for postponement because of Archbald's declaration that he could not prepare for trial in August. Two of his attorneys are ill and have been unable to aid in his defense. Members of the Senate were convinced it would be impossible to have a full attendance either just before or just after the election.

Judge Archbald has taken no part in the work of the commerce court since the House committee first began the preparation of the case against him, according to statements by his attorneys. The attorneys said the accused jurist would not take part in the court's work until after the charges have been disposed of.

Washington, D. C., Aug. 3.—Leaders of both houses said today that Congress could adjourn in a week or ten days if the Archbald impeachment case was not set for immediate trial. Mr. Underwood was requested to urge 11 o'clock sessions. The senate will be asked to advance its hour to 10 beginning Monday. The sundry civil conference where the tariff board is involved is one of the few important appropriation fights remaining. The postal appropriation bill was before the Senate today.

New Bridge Club.
For the first time in several weeks, the New Bridge Club met last Friday afternoon from five until seven thirty o'clock, Mrs. L. M. Haynie being hostess at the home of Mrs. W. E. Cobb on

Indiana avenue. Mrs. E. L. Smith was awarded the favor of the afternoon, which was a small picture. A salad and an ice course were served by the hostess assisted by Mrs. Charles Barron. There was some talk of disbanding for the summer on account of the hot weather, although nothing definite was decided upon. Those present included Mesdames T. B. Smith, H. O. Craven, T. B. Greenwood, J. S. Binford, Everett Jones, E. L. Smith, Leon Loeb, Luther Webb, R. G. Smith, D. J. White, Piner Avis, and Miss Dennis.

Dinner, Picture Show and Slumber Party.

Miss Jewel Brown at the home of her parents, 1518 12th street, entertained last Thursday evening with a six o'clock dinner followed by a picture show party and a slumber party in honor of several of her friends. Immediately following the dinner, which was a course affair and was very much enjoyed, Mr. and Mrs. Brown chaperoned the entire party to the Gem Theatre where seats had been reserved for them, and after returning to the Brown home, Misses Imogene Brown and Myrtle Hurley served ice cream and cake. The remainder of the night was spent in a progressive slumber party, those present being Misses Ruth Stayton, Ella May Sneider, Stella Bachman, Mabel and Myrtle Morris, Wilma Filgo, Eunice Wells, Beulah Walker, Lois Morgan, and Jewel Brown.

Six O'clock Dinner.

Mr. and Mrs. J. A. Thornton on Seventh street entertained a few friends with a six o'clock dinner last Tuesday evening, those present being J. A. Murphy, treasurer for F. W. & D. C. R. Co., E. E. Booth, master mechanic for the W. F. Route, W. P. Geraghty, manager of the J. C. Hunt Grain Company, A. R. Dickinson, and H. L. Fater, both of the Guffey Petroleum Company, and Mr. and Mrs. J. A. Thornton, the host and hostess. All present did full justice to the many good things set before them, and the latter part of the evening was spent at the Lamar Air dome.

Boy Scouts at Hollister.

A communication from Leon Walkup, one of the Boy Scouts, who left here a few days ago for a two weeks stay at the Presbyterian Chateau in Hollister, Missouri, gives information that the boys have arrived safely in camp, and in the words of the writ-

er, "Are fixed up fine." He says, "Our meals are first rate. We had special cars all the way to Hollister, and everybody is kind to the Scouts. We had our first game of baseball on August first, and are going to Dewey Bald and Marble Cave and other places of interest today. Will send more news later."

Hay Ride at Lake Wichita.

Mesdames Corkill and McDowell chaperoned a few couples of young people on a delightful hay ride Friday evening. The party left town about 7:30 or 8 o'clock and arriving at the lake a lunch was served which had been prepared by the young ladies. After a short stay at the lake the return trip was made arriving in town a few minutes before a light sprinkle of rain fell. Those who composed the crowd were: Mesdames Corkill and McDowell, Misses Greenlee who is from Commerce, as the guest of Miss Grace McDowell, Clara Maricle, Annie Clift, Daisy Stewart, Grace McDowell, Messrs. Ralph and Perry Maricle, Price Newman and J. McDowell.

In Honor of Miss McGehee.

Mr. and Mrs. F. C. Utts entertained a number of young people Thursday night in honor of Miss May McGehee of Fort Worth. Music and forty-two were the features of the evening's entertainment. Cream and cake were served and big juicy watermelons were cut. The guests included Misses Beesie Taylor, Esther Taylor, Gertrude Greenmyer, Mamie Loomis of Sentinel, Okla., May McGehee of Ft. Worth and the Messrs. Neyland, McCarty, McDowell, Billingsley, and Lane and Mr. and Mrs. Smith, Mrs. J. G. Pressley and daughter, Mary, Mr. and Mrs. Utts and son, Ira Lee.

Slumber Party.

Last Tuesday evening at her home in Floral Heights, Mrs. P. E. Phillips entertained several girls with a slumber party and a six o'clock dinner served courses. Watermelon was served. Those present were Misses Imogene Brown, Laela Morgan, Myrtle Hurley, Edna Gaston and Edna Walker.

Amarillo Garage Burned.

By Associated Press.
Amarillo, Tex., Aug. 3.—The Panhandle Cadillac garage burned here just before noon entailing a loss of about \$40,000. This was divided about as follows: Walter Crosssett, owner of the garage, \$10,000; owners of cars \$20,000; owner of building \$10,000. Only small insurance was carried. The fire originated from a back-fire.

MITTMAN GOES WITH IRRIGATION COMPANY.

E. F. Mittman, for the last three or four years a popular draughtsman in the office of the chief engineer of the Wichita Falls Route, has resigned his position to accept a more lucrative position with the American Rio Grande Land and Irrigation Company, for which company he will be designing engineer. He left yesterday afternoon for Colorado Springs to spend a few days with friends after which he will return here, and following a stay of several days will go to his new home in Mercedes, Texas, and will begin work about August 15th.

Mr. Mittman came to this city several years ago from Mexico, where he gained experience as a civil engineer. He is a graduate of the Texas A. & M. College, from which institution he received a degree at the age of sixteen years, and is also a former student of Cornell University, at which place he continued his study of engineering. Although still a very young man, he has climbed high in his profession and has made many friends who will wish him success wherever he goes.

An Excellent Plan.

"I see," said Mrs. De Jones, while Mrs. Van Tyle was calling, "that you have a Chinese chauffeur. 'Do you find him satisfactory?'"

"He's perfectly fine," said Mrs. Van Tyle. "To begin with, his yellow complexion is such that at the end of a long, dusty ride he doesn't show any spots, and then when I'm out in my limousine I have his pig tail stuck through a little hole in the plate glass window and I use it as a sort of bell-rope to tell him where to stop."

Recent measurements have shown that a little known waterfall in South America exceeds the Niagara Falls in size, being nearly two miles wide and 213 feet high.

LYON REPLIES TO PRESIDENT TAFT

INTIMATES RESPECT FOR OFFICE PRECLUDES REPLY OTHERWISE WOULD BE MADE

ABOUT ELECTION LAWS

Texas G. O. P. Boss Instructs President About Texas Election Statutes

By Associated Press. Shegman, Tex., Aug. 3.—Coell A. Lyon replying to a statement from the White House defending Taft's nomination at Chicago, made public today, the following letter to Mr. Taft:

"Sir—Respect for your high office precludes such an answer to your statement on the merits of the Chicago contest as would be made by me to any other citizen of the United States.

"Referring to that portion of your statement dealing with Texas cases, will say that your statement of the number of counties in Texas is correct, but practically the entire statement of facts concerning the Texas cases is incorrect.

"Regarding the delegates at large from Texas these were elected in accordance with Paragraph 1, Section 139 of the election laws of this state. Delegates to the state convention were elected in accordance with the law and the basis of representation was fixed, not by the state committee nor by me, but by section 120 of the election laws which says:

"Each county in the State district convention shall be entitled to one vote for each 500 votes or major fraction thereof for the candidate for governor of the party holding the convention at the last preceding primary election."

"According to your statement covering counties which cast but small votes having a vote in the convention I inform you, sir, that section 120 of the state law further says:

"In case of such primary election there were cast for such candidates for governor less than 500 votes in any county then all such counties shall have one vote."

Col. Lyon denies that he "had been in the habit of controlling the Republican state convention by securing from two federal office holders in each of the ninety counties a certificate granting a proxy to Col. Lyon or a friend of his to represent the county as if regularly conferred by a county convention."

"While speaking of fraudulent contests, you fail to mention the 15th district of Texas composed of 23 counties, twenty-three of these instructed for Roosevelt. The congressional convention met and adjourned and the next day the delegates saw in the papers that a rump convention was held participated in by C. K. McDowell the present democratic county judge of Val Verde county and delegates sent there by managers of the ranches of your brother, G. P. Taft, in San Patricio and Dimmit counties."

Col. Lyon closes by declaring he told the president his position early in September through the president's secretary.

Improvements In German Cities and Indebtedness Grow Apace--Other German News

Berlin, August 3.—A decision of interest to American travelers has been handed down by the Imperial Supreme Court at Leipzig, which rules that the Travelers' Checks issued by a number of American institutions and widely used by American tourists in Europe are subject to the regular stamp tax in Germany. The decision was taken in the suit brought by the German branch of an American expressing company to recover \$50 stamp taxes collected by the Hamburg taxation authorities on Travelers' Checks so cashed, the Supreme Court holding with the courts of lower instance that the so-called "checks" are in reality not checks but bills of exchange. The company will hereafter have to pay the stamp tax.

The Prussian State Railways have installed at the larger railway stations a machine which prints railway tickets "while you wait," enabling them to dispense with the great stock of

tickets to all towns in the empire necessarily kept on hand under the old system. A turn of a large wheel to the name of the desired station and a pressure on a lever and the ticket with its cost is plainly printed on it, drops from the machine. By a self-registering connection, the ticket seller at the end of his period of duty can tell exactly how many tickets he has sold and the amount of money he is to turn over to his successor, while formerly he had to take inventory of the entire stock each time he went off duty, his successor having also to check up tickets on hand, involving sometimes an hour or more hard labor.

German cities are in process of rapid growth, not only in population but also in all sorts of public undertakings to add to the comfort and pleasures of life. The rapid pace at which city halls, school houses, hospitals, asylums, and parks have been built has necessarily caused also a correspondingly rapid increase in municipal indebtedness. According to the latest statistics issued by the Prussian government, the aggregate indebtedness of Prussian towns of more than 10,000 inhabitants increased from \$705,000,000 to \$1,077,000,000, or above 53 per cent, during the five years ended March 31, 1911. During this period the municipal debt of cities with a population of 200,000 or more, except Berlin, increased from \$178,000,000 to \$351,000,000. The debt of Berlin is now \$103,000,000. It increased only about \$11,000,000 in the five years but a further big increase is now planned.

Four Catholic priests have just been sentenced to six months' imprisonment by the military court at Diedenhofen Lorraine, under peculiar circumstances. In April they were called out along with the reserves for a short period of military training. As they were not regular reserves, but substitutes, they appeared in a body at head-

quarters and asked to be excused. The captain in charge curtly refused that request and added: "As long as you are under my orders no God can help you." One of the priests was also sent up to headquarters to answer the grave charge of having, in a petition to the district sergeant, used the word "request" instead of "beg."

Finally the four men drew up a statement of their grievances and sent it to the commanding colonel of the district concluding with the words: "If the matter is not settled in a manner satisfactory to us we shall feel compelled to have it brought up in the Diet" (the new legislature of Alsace-Lorraine.) This was looked upon as contrary to military regulations, which prohibit the handing in of joint complaints by several persons, and the threat was looked upon as an insult to the military power, as well as resistance to authority. The colonel carried the matter before the appropriate military court, which fully sustained his view, and had no option but to inflict the minimum sentence of six months' imprisonment.

A new treatment for cancer, which the experimenters are careful to describe as yet as a "treatment" and not as a "cure" is being tried in Professor Casner's Samaritan Hospital at Heidelberg with results even more favorable than were anticipated.

The treatment is based on a discovery made in investigating the effects of Roentgen and radium rays upon cancer. It was found that the rays transformed lecithin, a phosphorized-fat found in the tissues of the body, into cholin, a substance well known to chemists and it was concluded that it was this cholin which broke down the cancer cells.

Experiments upon animals appeared to confirm this theory, and fifty-six patients in the Samaritan Hospital then received injections of cholin. In every instance an improvement was noted. It is yet too soon to say whether complete cures can be effected, but the physicians in charge are hopeful.

feeds an electro-motor connected with one of the axles of the car. The first road of this kind has just been put into operation at Grunau, on the Spree above Berlin, and it is described as highly successful. Further operation, however, must be carried on to test fully the financial results. If these are wholly satisfactory many small towns, it is predicted, will introduce this system.

SOCIALISTS NAME COUNTY TICKET

Ratify Nominees From Constable to Representative—Also Adopt Declaration of Principles

The Socialists of Wichita county held their convention here Saturday afternoon adopting a declaration of principles and ratifying nominees for county offices previously selected by a referendum vote.

The ticket ratified by the convention follows: Representative 101st district, O. D. Cottrell; county judge, T. P. Roberts; of Burkburnett; sheriff, J. R. Sullivan; Burkburnett; county clerk, R. H. Beat; Electra; tax collector, Albert Weeth, Iowa Park; tax collector, W. R. Speed, Electra; treasurer, E. L. Harrell, Wichita Falls; superintendent of schools, S. J. Knight, Wichita Falls; delegates to State convention at Waco August 10th, Guy L. Smith, Electra.

On the previous Saturday the following precinct officers were nominated: Justice of the peace, J. J. Manley and L. J. Teeters; constable, W. F. Parrish.

The declaration of principles adopted yesterday follows in abridged form: "First--That we believe in international Socialism, which declares for the common ownership and collective use and democratic management of the means of production and distribution to the end that the exploitation of the working classes cease.

Second--That we endorse the State and National platform of the Socialist party and pledge ourselves to support the same in all its demands.

SAME DELEGATES FOR ALL CONVENTIONS

Selection of Delegates Simplified by County Convention--Colquitt Delegation Selected

The Colquitt and Walters men were in overwhelming control of the Democratic county convention Saturday afternoon but they were generous enough to include one or two Ramsey and Sheppard men among the delegates named to attend the state convention at San Antonio, August 13th. Electra and Burkburnett were the only outside boxes represented. The convention was called to order by Edgar Scurry in the absence of County Chairman C. G. Huff. Delegates were placed in nomination for the State convention and upon a motion it was voted to nominate the same delegates to the judicial, district and other con-

ventions. The delegates selected were Edgar Scurry, A. H. Carrigan, Wiley Blair, O. Bullington, N. Henderson, T. F. Toland, Otto Stehlik, St. Clair Sherrod, A. E. Hughes, Fred Hensholder, J. E. Harper, J. W. Stone, Wm. Bonner, Chas. W. Bean, Ed Howard, Gus Furlow, Brannon Smith, Dr. Gault, John Robertson, D. M. Perkins and Sam Sealing.

N. Henderson presented the following resolution which was adopted with one dissenting vote. Resolved That we endorse the administration of Governor Colquitt and instruct our delegation to the State convention to favor a platform in accordance with his well known views, and to vote as a unit on all questions before the convention.

John Bull Losing Interest In Game of Cricket--Too Slow Even For Britons

London, Aug. 3.—Something is so wrong with the British national summer game of cricket that its followers write letters to the papers complaining that the game is becoming decadent. This criticism comes at a time which has been hailed as the banner year for Imperia Cricket, with teams from Australia and South America competing on home grounds with England for the championship of the empire. But thus far the triangular matches have been exceedingly disappointing from the standpoint of attendance. Recently one of the most important county matches attracted only 189 spectators. Most of the critics agree that the fault lies in the slowness of the game and that something must be done to shorten the matches, which now last generally three days. This plan formerly suited the Briton who took his sports as a solid part of the slow-moving English temperament has lost much of its vitality and the metropolitan areas which supply the gates for all games live and play at approximately the high speed which characterizes American cities. The demand for reform is in the air, but the players are apparently satisfied with the present form of the game and in any new rule-making campaign will be able to overrule those who are only interested in the game from the spectators' standpoint. The loss of interest in cricket does not seem to have spread to other sports; on the contrary, other games are enjoying a distinct revival. Even the ancient games of bowls is making great strides, and in Wales the recently introduced game of baseball is becoming very popular.

Sir Roger Casement, who wrote the recent sensational blue book report on the rubber atrocities in Peru, was the man who first brought to light the horrors of the Congo under the Leopoldian rule. He has been in the consular service for many years, but did not gain his knighthood until coronation year. During his investigations in the Congo region he was frequently threatened with assassination and his life was many times in jeopardy. When it was found impossible to scare him out of the Congo, King Leopold's press began a virulent campaign against him, and every effort was made to discredit his reports and to smirch his personal reputation. Since 1908 he has been the British consul-general in Rio Janeiro.

An Imperial exhibition is to be held in London in 1915, the definite plans for which were made at a meeting held in the Royal Colonial Institute. It is planned to hold the fair in the great hall, designed to be the largest in the world, which is to be completed by the date for the opening. The hall is to be started at the conclusion of the Shakespeare England Exhibition at Earl's Court, and it is hoped that it will be large enough to accommodate all the exhibits. The roof is to be of a single span, about twice the size of the span over Olympia, and the hall is to have on the ground floor a superficial area of 375,900 square feet and on the upper floor of 105,900 feet.

The motor ship Belandria, the first internal combustion engine ocean-going passenger and cargo vessel, has concluded its maiden trip to the East Indies, a 21,000-mile voyage during which the engines were stopped only once for a slight adjustment of the valves. In all matters of fuel consumption, ease of maneuver and general behav-

ior, the vessel exceeded all expectations. East of the Suez Canal the motor ship gained the name of "Devil Ship," due to her movement without either sails or funnels. The success of the motor-driven ship has induced her owners to contract for three vessels of the same type, but with greater horsepower and tonnage.

The Royal Archaeological Institute during its next session at Northampton will visit one of the quaintest buildings ever erected in England. The structure, which was built in 1500 by John Tresham, is symbolical of the Trinity, and everything about it is built in threes. There are three sides with three gables on each side and three floors with three windows on each face. Each front is thirty-three feet long and bears a legend of thirty-three letters. The chimney is also three-sided.

Interest centers in the senatorial contest in which Senator Robert L. Owen and former governor C. N. Haskell are the contestants. The fight will go down as one of the bitterest in the history of the new state and both men are claiming a victory. The Muskogee Phoenix has just completed a canvas of the newspapers of the state and the results show that most of them are favorable to Haskell and believe he will have a substantial margin in the election. Plans are being made for the breeding of the rapidly disappearing old Devonshire breed in horse, but it is feared that it may be too late to save this type, as it is almost extinct. Premiums are also to be given to encourage the breeding of the old strain of Welsh cob.

Former Members Planning To Re-askell open Building For At Least Two Nights In Week

A number of former members of the Young Men's Christian Association, who have practically completed arrangements for the reopening of the building, and the privileges will be available for at least two evenings in the week and possibly oftener. The gymnasium and bath room, since the building was closed, will be patrolled by those active in the reorganization. Arrangements are being made to keep the building open during August and September and by that time the plan has proved itself. No sustaining efforts will be made to keep it going through the winter. It is not unlikely that before the end of the year definite steps for permanent organization along substantial lines will be undertaken, but this is as yet unsettled.

Roosevelt Given Enthusiastic Welcome

Chicago, Aug. 3.—Col. Theodore Roosevelt arrived at 8:53 a. m. and was given an enthusiastic welcome and hurried to his headquarters at the Congress hotel. The crowd, as he stepped from the train, every indication that the limit of the National Progressive would be marked by a great enthusiasm. Plans for the convention's important work, however, still tentative. The scrutiny and all of the Colonel were awaited after reading Roosevelt's New statement declaring the convention must accept his views in full, or else leaders thought they had well to hold the platform build abeyance. There appeared to question but that Colonel Roosevelt would get whatever he wanted nomination has been depended to give an auspicious start to the party and if he desires to run platform based on the speech he says may be termed "anarchic" the progressives are more than anxious to give it to him.

Colonel Roosevelt will make "confession of faith" at the convention tomorrow afternoon. The form committee is to appoint day, to report Wednesday. Roosevelt has insisted that his speech be the adoption of the platform. He made another condition that he had a sounding board back of him in order that his might carry to the far corners of the building. This has been done.

No attempt had been made today to crystallize sentiment candidate for vice president. There has been much talk among delegates. It is not likely that any statement of opinion will be filed by that side. Several of the governor's supporters in this county advanced the funds necessary for his entertainment when he was here but the work in his behalf was not by any organization.

School boards of independent districts are respectfully requested to furnish the county board, upon this occasion, with the minimum financial basis upon which transfers for high school purposes will be received.

RETURNS FROM FARM AND RANCH TOUR

Wichita County Farmer Made Splendid Record In Automobile Contest

A. J. Weeth of this city has returned from Dallas from which place he accompanied the Farm and Ranch auto endurance run to San Antonio and return. Mr. Weeth was with Will Raming of Clara in the latter's Ford. Mr. Raming's machine had sustained not a single penalty until on the return trip, when it was within four miles of Dallas. There it collided with another machine, and a broken axle resulted. Mr. Weeth says that cotton is looking fine all the way from Dallas to San Antonio, but that corn is spotted and that in some of the black land counties will not make any more than it will in Wichita county.

SOUTHERLAND DECLARED MAYOR OF CORPUS CHRISTI

Corpus Christi, Texas, Aug. 3.—District Judge Hopkins today handed down a decision declaring H. R. Sutherland, an attorney of this city, duly elected mayor of Corpus Christi over the incumbent, Clark Pease. This is the outcome of quo warranto proceedings. Pease and Sutherland were opposing candidates in the municipal election, April 4, 1911. Pease on the face of the returns was elected by a large majority. Later suits were filed, and when the ballot boxes were opened in court it was found that Sutherland had a majority. In a similar suit last August the court found in favor of Pease. The Fourth Court of civil appeals reversed and remanded the case and today Judge Hopkins reversed his former position. Both Pease and Sutherland are the head of local political factions.

Our community was visited by a refreshing shower Thursday which was welcomed by all on account of the hot weather as well as the crops. W. H. Gwinn left Sunday for College Station, Texas, to attend the Farmers' Congress now in session at that place.

Mr. and Mrs. Arthur Teague of the city spent Sunday with Mrs. Teague's parents, Mr. and Mrs. W. P. Billingsley.

Miss Cora Gwinn who has been confined to her room the past ten days is able to be up now.

Mrs. B. A. Morton and children arrived Tuesday from Grandfield, Okla., for a visit with her mother, Mrs. L. B. Duckett.

Arthur Gwinn is here on a visit from Wellington, Texas, having made the trip in less than two days on his wheel.

Daniel A. Allen, one of the most popular young men of this community is expected to arrive the last of this week with his bride, formerly Miss Mable King of Stratts City, Mo., where they were married last Wednesday evening at 8 o'clock. Before returning home they will visit relatives and friends in Oklahoma. We welcome the new couple in our midst and wish them much happiness.

Taft Rewards Negro Supporter.

Washington, D. C., Aug. 3.—By an executive order of Pres. Taft Mingo Sanders, who was a sergeant of a negro infantry regiment who was discharged without honors for participation in the Brownsville riot today became a messenger in the classified service and went to work at the interior department at \$76 per month. Recently Sanders took part as a spell binder in the Ohio primary fight between Taft and Roosevelt. He spoke for Taft, Rep. Roddey, of Illinois, said he would introduce in the House next week a bill to reimburse Sanders in the army and permit his retirement at once.

\$160,000 In Prizes Offered In Texas Fairs and Races

Fort Worth, Texas, Aug. 3.—One hundred and sixty thousand dollars will be given away as premiums for the best exhibits of agricultural products and livestock at 72 state, district and county fairs which will be held in Texas during the autumn of 1912 and the early spring of next year. A census taken last year by the Texas Commercial Secretaries and Business Men's Association showed that there were 42 of these fairs held in the state in 1911 and the premiums given away approximated \$117,000. This amount does not include racing purses of approximately \$75,000 in 1911 and \$85,000 in 1912. Fifty-three per cent of the prizes offered for this year's exhibits are for the product of the soil and 47 per cent are for livestock. The division of last year's premiums was 52 per cent for products of the soil. The total amount of premiums offered this year exceeds those given away in 1911 by \$43,000 which is an increase of 37 per cent and the number of fairs has increased 30 in number or 71 per cent. Every city holding fairs last year is making arrangements for larger displays this year and to defray the expenses of advertising, which is essential to the holding of any successful fair, they will, in most instances, charge an entrance fee. The management of 31 of the fairs to be held states that they will charge an entrance fee.

A list showing the cities in which the fairs will be held, their date, principal feature and amount of premiums offered follows: Abilene—Agricultural exhibit, Oct. 1—\$1000. Alverado—Old pioneers picnic, July 24-26—No prizes. Alvin—Agricultural products, Sept. 15—\$1000. Beaumont—Agricultural exhibits, parades, special carnival features Nov. 25-30—\$4000. Fords Reconciled - Love Reigns In Their Household

Somebody said, a long time ago, that love laughs at locksmiths. Since that remark was first made, railroads have come into use and love has laughed at them; the telegraph sprang into being and love laughed at it early and often; the automobile appeared on the scene and love has given it the ha-ha, time when love laughed at law, as well. But in these days love and law go in hand. Loving hearts are yoked together by the law and when love is done the law steps into the breach again. And when the law, a few days ago, declared that Mrs. Rosy Ford was not entitled to a divorce from her husband of a few days, Charles Ford, there can be no doubt that the little blind god was lurking somewhere in the court room, looking a little haggard, perhaps, but not yet ready to take the count. Love couldn't get along without the law, but there are times when love and law get woefully mixed up. But this wasn't one of the times. For Mr. and Mrs. Ford have become reconciled and love reigns again in the Ford household. Mr. Ford told a Times reporter yesterday that all differences were at an end and that there was nothing to mar their wedded happiness. The past is forgotten and doubtless to Mr. and Mrs. Ford the events of the past week have never transpired. Mr. Ford declares that interested parties caused his wife to pursue the course she did, but that all that is over now.

LAKE WICHITA WAS INCLUDED

WATER SUPPLY PASSES INTO CONTROL OF PURCHASERS OF WATER AND LIGHT PLANT

THE TRACTION COMPANY

However, Still Remains the Property of Messrs. Kemp and Kell—Deal Pending

Lake Wichita was included in the deal consummated at Dalais Friday in which the Wichita Falls Water & Light Plant property was purchased by the Strickland interests. The trade did not include the traction line which will remain the property of the local concern.

The sale of Lake Wichita does not include the pavilion and amusement structures on its shores, nor will it interfere with the irrigation interests, all right being reserved by Mr. Kemp. The lake was included in the sale merely as the source of the water company's supply and it is not believed that any larger plans are in the minds of the purchasers.

The price paid will not be made public. Lake Wichita came into existence about eleven years ago when J. A. Kemp and associates constructed the dam. It is over seven miles long and three miles wide and is the largest artificial body of water in the Southwest. In addition to supplying water for Wichita Falls it irrigates several thousand acres of truck farms. Three years ago the street car line was completed to it, and the pavilion, hotel, circle building and baseball park were constructed. These improvements are not included in the transaction.

The city of Twin Falls, Idaho, claims to use more electricity for heating and cooking in proportion to population than any other city in the world.

WILSON WILL NOT STUMP THE COUNTRY

Democratic Presidential Candidate Will, However, Follow Program of Scheduled Addresses

By Associated Press. Reagirt, N. J., Aug. 3.—Governor Woodrow Wilson will not stump the country in his presidential canvass; neither will he attempt the use of personalities in his contest against other candidates. He made this plain here today, explaining, however, that he would follow a program of scheduled addresses yet to be arranged on the basis of calls from several states.

Dr. Wilson expressed the hope today that Col. Bryan would make several addresses for the Democratic cause during the campaign.

The governor expects to begin his speech-making about September 1. He asserted that the purpose of his proposed visit to National Chairman McCombs in New York tonight was not to smooth out friction because none existed so far as he was aware. He said difference of opinion might obtain, as was most natural in the organization of any campaign.

Street Duel at Moshim. By Associated Press. Waco, Texas, Aug. 3.—Reports reached here today of a street duel yesterday at Moshim, Bosque county, in which S. The Stewarts are tenants on the Torrance place. Stewart claims self-defense.
