STAGE SET FOR BIG CELEBRATION

EVERYTHING IN READINESS FOR LABOR DAY AND ANNIVERSARY CELEBRATION

BIG CROWDS EXPECTED

Guard Has Already Reached City—Indians are Here and Everything Points to Success

With hundreds of pounds of beef and fish and fixin's awaiting the toothsome touch of the barbecuer's art; with real Indians already here to transport Wichitans to the frontier days again; with a number of race horses on the ground and ready to go; with baseball games and trap-shooting and boxing matches all framed up; with the labor unions and other organizations ready to do their part; with many visitors already arriving and promise of thousands of others before the celebration ends, the stage is set for Wichita Falls' Labor Day and Anniversary celebration to be ushered in tomorrow.

Practically every detail incident to the preparations for the celebration has been completed. Reports from towns within a radius of one hundred miles promise large crowds from all of them when the trains arrive Monday and there is every reason to believe the attendance will run far into the thousands.

At Lake Wichita where many of the features of the celebration will be staged, everything is in readiness. The grandstand has been completed and the race track put in good condition for the events of tomorrow and Tuesday. Many additions were made yesterday to the horses on the ground and there will be no lack of competition for all of the events.

All of the gate proceeds will go into the purse and this generous arrangement has served to stimulate much interest in that part of the celebration's program. J. B. Barlow, under whose particular protecting wing the events were placed, has been in communication with horsemen in many parts of West Texas and Oklahoma since it was decided to hold the races and Wichita Falls' first race meet promises to give an auspicious beginning to what will hereafter be an annual affair.

The baseball games between Stamford College and Wichita Falls will afford plenty of sport to those who care for the National game. Both teams have strong line-ups and those promoting the games say they will be among the best the season has afforded for local fans. The games will be played on the lake park diamond.

Local trapshooters are busy getting ready for their end of the program. A number of prospective contestants arrived yesterday and the trap-shooting events will in reality begin today, as the clay pigeons will be flying at the new traps practically all day long. Many trapshooters from over the State, en route to the big shoot at Denver early this month will stop over here to take part in the local contest. The trap has been arranged so as to give practically a water sky-line for the shooters, which means a pretty series. There is considerable added money over the entrance fees and it will be financially worth while for all who show any skill at all.

The speeches and parade tomorrow morning will serve as an appropriate opening of the two days' of fun. Many merchants and organizations will take part in the parade and it will be much more pretentious than anything of the sort hitherto attempted in this city. There will be a program of speeches and music at the court house, which will give the celebration a formal setting.

A number of the Indians who are to contribute to the racing and war dance features of the celebration arrived yesterday and were the center of much interest. They came overland in wagons and wagons from Oklahoma and announced themselves ready for whatever turned up. Their races and dances promise to be among the most spectacular features of the week's events.

Practically all of the labor organizations of the city will take part in tomorrow's parade and they will be joined by union men from nearby towns, where there is no formal celebration. Balloon ascensions, Cass Tarver's boxing performance, together with numbers of other stunts such as the wild west shows and visiting attractions, will serve to make tomorrow and Tuesday two gala days, in Wichita Falls.

One feature of the celebration is that it is to inaugurate the custom of holding First Monday Trades Day. This will bring many to this city who would not be attracted, perhaps, by the other events. If this can be made a regular monthly feature, it will go

far towards establishing Wichita Falls as a horse and mule center.

On Tuesday the members of the girls' tomato clubs and of the boys' corn and cotton clubs will be here, at the invitation of J. W. Campbell, government agent for this county. J. L. Quicksall of Waco, and William Ganser of Denton, two prominent demonstrators, will be in the city and will probably deliver addresses. These meetings will serve to swell the crowds.

Many visitors are already coming in and this afternoon's and tonight's trains will doubtless add many hundreds to the early arrivals. By noon tomorrow this city will be the scene of one of the largest gatherings ever witnessed in its history.

A "Baby Cry" Is Not Music Was Decision

Washington, D. C., Aug. 31.—A "baby cry" is not music, according to a decision announced today at the treasury department. In pronouncing this verdict the government put the baby cry on the same plane as the "sound of a pistol shot, the jingle of sleigh bells and the noise of tin whistles and such calls."

TILLMAN ADDRESSES LETTER TO BLEASE

Resents Assertion that "Bleasism" is "Tillmanism"—Expresses Hope That Blease Can Clear Himself

SPRINGFIELD, S. C., Aug. 31.—In an open letter to Governor C. L. Blease, Senator B. R. Tillman in characteristic language presents the oft repeated assertion in this State recently that "Bleasism" is "Tillmanism." The senator asks Blease to meet the criminal charges brought against him, denounce his methods and urges him to try to be a "decent governor."

"Tillmanism" means genuine Democracy, the rule of the people, of all the white people rich and poor alike, with special privileges and favors to none with equality of opportunity and equality of burdens to all," said the senator.

"Bleasism on the contrary means personal ambition and greed for office the office to be used not for the welfare of all the people and of the State, but 'Blease and his friends, none other need apply.'"

Further he says: "You never shall, if I can prevent it, carry out your threat to make the people of South Carolina 'sweat blood' because so many of them have not been bamboozled and debauched by our demagogic appeals."

"If you can clear yourself of the four accusations against you in the governor's office and will pursue a wholly different policy hereafter there is some future for you in the State yet. You must be governor of the whole people and not of your friends alone and they will take charge of your future destiny, always supposing that you will clear yourself of the charges against you; for unless you do that you can never aspire to higher promotion for South Carolina will not send to Washington a man not above suspicion. For the honor of the State I hope you can and will clear yourself. May God forgive you for the sins you have committed against yourself and the people of this State."

BELL COUNTY WET BY CLOSE MARGIN

Anti Win in Local Option Election By Only 36 Votes—All Boxes in

TEMPLE, TEXAS, Aug. 31.—At ten o'clock tonight with all voting boxes heard from, Bell county remains wet by the close margin of 36 votes. The prohibitionists have conceded the election though some rumors of a contest are heard.

The anti vote was 2,287, while the prohibition vote was 2,251. The anti is celebrating in an orderly way. The election while hotly contested and close, went off quietly.

GOOD SHOWING IN PETROLIA WELL

EDMUNDS OIL COMPANY DRILLED INTO SAND ON MATLOCK WELL SATURDAY

OIL SHOT INTO DERRICK

Sand Only Penetrated Little More Than Foot, But Well Looks Good for 100 Barrels

Petrolia, Texas, Aug. 31.—The Edmunds Oil Company's well on the Matlock lease four and a half miles southwest of Petrolia, was drilled into the sand this afternoon and a stream of oil was shot high into the derrick. The sand was only penetrated to a depth of a foot and the well will not be drilled in until next week, but the showing indicates a hundred barrel well or better. There is good gas pressure and plenty of oil.

W. H. Ellinger is the drilling contractor. The Edmunds Oil Company is an Oklahoma City corporation in which Dr. H. C. Havis and brother of Vicksburg, Miss., are among the leading stockholders. The Edmunds Co. spent a lot of money last summer in drilling a wildcat in the vicinity of Byers, which was a dry hole and other operators in the field are pleased with their present good prospects.

The location is 500 feet west of Taylor No. 1. It is said to be down about 1725 feet. After the drill had penetrated the sand only a little more than a foot a stream of oil mud and water was shot up into the derrick through the six inch casing. Drilling was stopped to prepare to bring in the well early next week.

WILSON SPEAKS AT BUFFALO MONDAY

Governor Will Address United Trades and Labor Council There—Speaks in New York Wednesday

SEASIDE, N. J., Aug. 31.—Governor Woodrow Wilson tonight wrote the speech on labor questions which he is to deliver Monday at Buffalo, New York, at a meeting to be held by the United Trades and Labor Council.

The governor and Mrs. Wilson will go to Hoboken, N. J., tomorrow, to attend the funeral of Col. Archibald Alexander, his personal aide, who died of fever yesterday.

BUSY WEEK AHEAD FOR PRESIDENT

He will Hold First Political Conference of Importance Aboard the Mayflower, Enroute to New York

By Associated Press. BOSTON, Aug. 31.—President Taft's first political conference of importance since the notification ceremony several weeks ago will be held Thursday and Friday in the yacht Mayflower in the waters of Long Island sound.

Charles D. Hilles, chairman of the Republican National committee and George R. Sheldon, treasurer of that organization will be the president's guests on the yacht en route from New York to New London, Conn.

Mr. Hilles is understood to have important subjects that require the president's advice. Mr. Sheldon it is believed, will be able to give the president some interesting information about contributions to the Republican war chest.

ON WAY TO RACES, ONE KILLED, OTHERS INJURED

Wheaton, Ill., Aug. 31.—One man was killed and two were injured, probably fatally, when an automobile in which they were driving to the automobile races at Elgin was struck by an interurban car near Wheaton today. H. C. Landon, South Elgin, Illinois, owner of the machine was the instantly killed. C. B. Landon also of South Elgin and B. K. Landon of Syracuse, New York were injured.

RALPH DE PALMA SWEEP BOARDS

DRIVING A MERCEDES HE TOOK BOTH ELGIN TROPHY AND 305 MILE FREE FOR ALL

SEVENTY MILES AN HOUR

This Was His Average in the Last Race—Bergdoll Lost Free For All in Last Lap

By Associated Press. ELGIN, Ill., Aug. 31.—Ralph De Palma driving a 90 horse power Mercedes swept the boards in the Elgin races today. He took both the 254-mile Elgin National trophy race and the 305 mile free for all event after Irwin Bergdoll and Ralph Mulford had been put out of the running by hard luck.

De Palma drove the last lap of his race in 6 minutes 49 seconds, the fastest lap of the day. His time for the Elgin was three hours, 43 minutes 26 seconds and for the 305 mile event was 4 hours 15 minutes and 36 seconds.

Only three cars finished in the free for all. Bergdoll who with his Benz up to the last lap and who lost the race by burning up a tire at the last moment was second; Ralph Mulford's Knox Six was brought home third by William Chandler, his mechanic, after Mulford suffered a head stroke and fainted at the wheel. Mulford had finished second on the Elgin National in which Charles Murz, winner of yesterday's Illinois trophy was third, Mortimer Robert's Mason Special was fourth and Bill Anderson's Stutz was fifth.

De Palma average a speed of sixty-eight miles per hour in the first race and in the last six laps of the second increased this average to seventy miles an hour.

The only serious accident occurred in the third lap of the Elgin National race when Geo. Clark of Dallas, Texas, drove his Mercedes through a banker of baled hay and through a fence at a turn. He and his mechanic Malone were injured, but tonight it was said both will recover. Clark's car was wrecked.

COST OF LIVING OUT OF ALL PROPORTION

Champ Clark Tells Bay States Condition Will Not Be Remedied Until Democrats Win

By Associated Press. CAROLINE, N. H., Aug. 31.—Champ Clark told the Democrats of Massachusetts at their outing here today that he believed now and would always believe he was entitled to the Democratic nomination for president this year.

"But under the two third rules Wilson and Marshall were nominated and I never bolted a Democratic ticket and never will."

He declared the formation of a third party at this time was needless.

"If the Republicans believe in progressive ideas, let them come into the Democratic party."

The tariff, high cost of living, direct elections of senators and kindred subjects were discussed at length by Mr. Clark. After praising the work of the Democratic House, Mr. Clark said the cost of living had gone up sixty per cent in the last fifteen years while wages had advanced only 21 per cent and he added, "There is no hope of remedial legislation as long as the three branches of the government are not of the same political faith."

FORMER BANKER IS UNDER ARREST

JOHN C. TANDY UNDER INDICTMENT CHARGING EMBEZZLEMENT

ARRESTED AT EL PASO

Alleged Offense in Connection With Transaction While President of Wichita State Bank

John C. Tandy, formerly president of the Wichita State Bank and later manager of an automobile supply house and garage, was placed under arrest yesterday at El Paso, where he has made his home for the past four months. The arrest follows the indictment of Mr. Tandy by the Wichita county grand jury for embezzlement, on three counts.

It is understood Mr. Tandy will be brought to this city early this week though it is possible that bond will be arranged without his returning here. District Attorney Scurry is out of the city and little is known here of the plans for trying the case.

Mr. Tandy came to Wichita Falls three years ago from Temple, Oklahoma, and organized the Wichita State Bank. He has many friends in this city and in Lawton and Temple, Oklahoma. He retired from the bank about eighteen months ago to become manager of the Northwestern Auto and Supply Company. Last April he left this city for El Paso, which has been his home since.

Two indictments against the former banker were returned August 7 and a third August 8. The papers were forwarded to the sheriff of El Paso county, who yesterday made the arrest. Little was known of the indictments until yesterday when it was learned that the arrest had been made and the news was a complete surprise to Mr. Tandy's many friends here.

Several months ago the Wichita State Bank filed suit against a surety company on Mr. Tandy's bond seeking to collect a sum of money of which the petition alleged the bank had suffered loss while Mr. Tandy was president. This case has never been tried.

ORDER OF MARCH FOR LABOR DAY PARADE

Royal Neighbors Will Head the Line of March—Carmen Will Lead Unions—Indians in Parade

Indians, cowboys, advertising floats and members of local unions will take part in the Labor Day parade tomorrow morning. The line of march was announced yesterday and the rules "ladies first" will apply as the front part of the line will be given to the fair sex.

NEWCASTLE WOMAN TAKES CARBOLIC ACID

Her Daughter Died Monday and Despondency Believed Cause of Act—Left Note for Husband

SPECIAL TO THE TIMES. NEWCASTLE, TEXAS, Aug. 31.—Mrs. Lewis Mills is dying as the result of a dose of carbolic acid, self-administered. The fatal draught was taken at 9 o'clock this morning. Addressed to her husband, who is watchman for the Wichita Falls & Southern, she left the following note:

"I will leave these few lines for you, as I am tired of living. My life is miserable. Somehow, I dreamed of my little darling all night. I want you to come and all the rest that can, and don't you grieve for me. I know it will leave you lonesome, but I am

\$50,000 FOR WHITMAN

This Sum Was Raised by Vice Trust in Effort to "Reach" District Attorney

By Associated Press. NEW YORK, Aug. 31.—Another witness for the state in the Rosenthal murder case has mysteriously disappeared according to information from the office of District Attorney Whitman. The man's identity was not revealed but the value of his testimony to the prosecution is of such importance that detectives were dispatched tonight to Philadelphia on a tip that he went there. The man is said to be able to give sensational evidence on the operations of Lieut. Becker, accused of instigating the Rosenthal murder.

Wild Beasts Attendants At This Wedding

Oakland, Cal., Aug. 31.—Surrounded by a wedding party which included a lioness, a leopard, a puma, a panther and a jaguar, also a trainer armed with whip and revolver, Miss Ruth Kayanough and George W. Lowenstein were married in a den of lions at an amusement park here today. Miss Mae Clark who missed the glory of wedding among the beasts because she could not choose a husband among 250 who proposed was among the spectators.

Miss Clark offered to be married in the den provided the park proprietor furnished the man. He furnished a battalion. Miss Clark could not trim her eligible list down to one.

MUCH INTEREST IN VERMONT VOTE

Strength of Progressives there Will Furnish First Test of Campaign—Notables Spoke

By Associated Press. MONTPELIER, Vt., Aug. 31.—The voting strength of the Progressive party next Tuesday in the election was a live topic throughout the State tonight. The Progressive movement has had the aid of more notable orators than any other party. Col. Roosevelt's three days on the stump ended tonight. Before his tour of the State former Senator Beveridge of Indiana, Judge B. B. Lindsey of Denver and other prominent men addressed the electors. Nearly 70,000 voters, it is estimated, will go to the polls to choose State officers, congressmen and legislators. Interest centers in the contest for governor. The candidates are Allen M. Fletcher, Republican; Harlan B. Howe, Democrat and Rev. Frasier Metzger, Progressive; Clement F. Smith, prohibitionist and Fred W. Butler, Socialist. To win a candidate for State office in Vermont must get a majority of votes. Otherwise the legislature elects.

The discussion of campaign issues was practically closed tonight. It covered a wide range. The Republicans maintained that the prosperity of Vermont has been largely due to their administration. The Democrats with the aid of many speakers from other States including Gov. Foss of Massachusetts, have talked tariff, while chief support to the prohibition campaign has come from Eugene W. Chafin, the candidate for president. The Socialists have been the least active but expect an increase in the party vote over 1910.

In the two congressional districts the contests are confined to Republicans and Democrats as the Progressives have not candidates. The first district Frank L. Greene is opposed by P. M. Weldon of Rutland. In the second, Congressman Frank Plumley has O. C. Sawyer as his opponent. Vermont has never sent a Democrat to Congress.

Says When He Returns to New York He Will Be Prepared to Substantiate Allegations

By Associated Press. ST. JOHNSBORO, Vt., Aug. 31.—"If the crowds turn out on my Western trip as they have done in Vermont, I don't know as I shall live through it," said Col. Roosevelt today as he started out on the last day of his campaign prior to the state election next Tuesday.

"I don't need to keep my hat in the ring now," he added, "there are too many bandannas." All through his Vermont trip he has seen bandannas by the thousand. Men and women waved them at him and in the village houses are decorated with them. Col. Roosevelt was up at 6:30 this morning and before 8 o'clock was in his auto headed for Barre where he was to make his first speech.

Rebels in Vera Cruz Follow Cruelties
Practiced by the Zapatistas
in Morelos

By Associated Press.

Mexico City, Aug. 31.—Assurances that immediate action would be taken to protect the foreign residents of Cananea, Sonora, was given Ambassador Henry Wilson, when acting under instructions from the State Department at Washington, he protested against the withdrawal of troops. Some 2000 Americans in Cananea regard their plight as precarious, according to the ambassador's message from Washington.

Until two days ago the government had maintained troops and the residents and managers of the mining interests felt reasonably safe. Since the removal of the soldiers rebels under the command of Mascarelos and other leaders have drawn close and are sending ahead of them the message that they will soon take possession of the rich mining camp.

The government is depending largely on state troops and volunteer organizations to maintain order in the state of Sonora, although it is presumed Gen. Huerta soon will have in operation in that region a number of flying columns detached from his army now faced along the line of the Northwestern between Chihuahua and Juarez.

Advices to the American embassy are that more bridges along the Southern Pacific between Guaymas and Nogales have been destroyed by rebels. Official advices are that the rebels are being driven from the state and that hunger, thirst and fatigue have made the rebel army a pitiable and feeble enemy.

Rebels in the state of Vera Cruz are displaying the same savage instincts that characterized the Zapatistas in Morelos, Puebla, and the state of Mexico. At Estanzuel, a station on the Vera Cruz and Pacific Railway, a small band hanged a man by the name of Hose Bay to a raft in his house because he refused them money. Death was delayed by the repeated lowering of his body to the floor. The same band later in the day tortured and killed two other men on a ranch. Another band nearby hanged a boy who was ill and apparently dying when they found him.

Reports from Toluca, capital of the state of Mexico, indicate a continuation of conditions almost chaotic in that state in spite of governmental assurance of improvement. With the exception of Zacatlán and Villa Guero, all the villages in the surrounding district are in the power of the rebels and stories of wanton destruction and sacking have been told. Two brothers named Carbagel have offered 10,000 pesos for volunteers to protect their property in that state.

An Americans' Ranch Raided Third Time

By Associated Press.
San Luis Potosi, Mexico, Aug. 31.—The ranch belonging to American vice counsel Frank A. Dickenson of this place, known as "Teraltá" in the district of Abasco, was assaulted by rebels for the third time on the night of August 28. They numbered more than two hundred and entered the ranch with "vivas" for Zapata. No resistance was offered and they took away everything of value on the place.

Here Are Gems to Match Your Birthday

Kansas City, Aug. 31.—What is your birthstone? Here's the official answer if you are in doubt.

To stop the controversies which have been going on since there were birthstones, the American National Retail Jewelers' Association made an official list during a recent convention. A copy of this what's what in birthstones follows:

- January—Garnet.
- February—Amethyst.
- March—Bloodstone and aqua marine.
- April—Diamond.
- May—Emerald.
- June—Pearl and moonstone.
- July—Ruby.
- August—Sardonyx and peridot.
- September—Sapphire.
- October—Opal and tourmaline.
- November—Topaz.
- December—Turquoise and lapis lazuli.

The above stones are correct, so if that disagreeable neighbor who has been coming over and arguing about baby's birthstone shows up again, flash this list. And it would be quite staggering to inform a person born in December that the "lapis lazuli" was the stone to wear.

And figure yourself lucky if in giving a birthstone you find that the young woman was born in February. It is the young men with April sweethearts who should not believe in birthstones.

SOCIETY.

Social Meeting of Aid Society.
The regular monthly social meeting of the Ladies Aid Society of the First M. E. Church was held in the church parlors on last Monday afternoon, the August committee with Mrs. Simonds as chairman, being in charge. Delightfully cool and refreshing, in striking contrast to the hot and dusty streets, were the tastefully arranged rooms, made more beautiful by the masses of vines and cut flowers and the color scheme of green and white that was carried out. After a short business session, a contest in needlework was engaged in, Mrs. F. A. Carlson gaining first place in the contest. The pleasure of the afternoon was greatly marred by the knowledge that Mrs. Carlson and her daughter would soon leave the city, the former to Big Springs with her family to make her home, and the latter, Mrs. Kester, to join her husband in Cleveland, Ohio. Mrs. Carlson has been an active worker in the church and Sunday school almost from the time the organization here was first created and she will be greatly missed.

Complimentary to Mrs. Guthrie.
A very pleasant time was spent with Mrs. J. G. Kearby at her home in Floral Heights last Tuesday afternoon honoring Mrs. S. E. Guthrie, of Comanche, who is visiting here. Tables were arranged in the spacious rooms which were prettily decorated with potted ferns for the very amusing game of "Hearts." The place cards were quite appropriate, being large red hearts tied with red ribbon and the score cards were of the same design although smaller in size. Salted peanuts were served as an appetizer for the delicious ice course consisting of cream and home-made cake which were served by the hostess assisted by her little niece, Miss Elouise Perry. The following guests were present: Mesdames Greenwood, Thomas, Scalling Bullock, Thornberry, Curtis, Bolya, Daniels, McDowell, Kelly, Naylor, C. E. Naylor, Durning, Kelly, Bolding, Orlopp, Prothro, Stokes, Graham, Peery, Miss Cobb and Miss Peery.

House Party at Lake Wichita.
A house party thoroughly enjoyed and numerous attended came to an end last Monday afternoon when the members comprising it returned to town after remaining at Lake Wichita since last Thursday afternoon. The house party was given by Miss Vera Taylor in honor of her cousins, Misses Marge and Bess Mays of Atlanta, Texas, and was chaperoned by Mrs. T. J. Taylor and Mrs. A. L. Lummux. A cottage close to the club house had been secured for the week, and the

young ladies of the party took up their residence in it. Each afternoon a number of boys from town came out, and swimming, fishing, kodaking, boat riding, and other amusements made the time pass swiftly. The young men returned to town each morning on the six o'clock car, and the girls spent the day at the lake. The young ladies, who comprised the party were Misses Marge and Bess Mays; the hostess, and Misses Hoesha Ziegler, Gretchen Zeigler, Elouise Fombie, Margaret Baker, Soudella Roberts, and several others.

Birthday Party.
Mesdames P. M. McNeil, R. E. Strange, and E. L. White entertained a number of the young friends of little Miss Katherine Louise McNeil and Miss Lola Strange at the White residence on Tenth street last Monday afternoon in honor of the fourth birthday of Miss Katherine Louise. The party was a very enjoyable affair, participated in by a large number of children, who played games, ate birthday cake and banana ice cream and were entertained with children's games. Miss Katherine Louise McNeil was the recipient of many pretty presents. Her little friends present were Misses Bernice Gohike, Helen Gresham, Josephine Hughes, Lucile Smith, Beulah Gardner, Lucile Rountree, Mary Presley, Francis Bullock, Grace Thatcher, Rose Stampfl, Francis Adickes, Mary Joe Kell and Hallie Adams. The friends of Miss Lola Strange who were present included Misses Lella Bell Anderson, Cecelia Adickes, Dorothy, Toney, Laura Hall, Josephine Bullock, Ruby Avis, and several others.

In Honor of Mrs. Erwin's Birthday.
On last Wednesday, the 28th of August, Mrs. E. Knight and Mrs. Charles Irwin invited a few of their friends out to their home in Floral Heights to spend the day, it being Mrs. Erwin's birthday. A delicious dinner was served, and in the evening ice cream and cake constituted the refreshments. Among those invited were Mesdames A. B. Crites, E. E. Sanders, Will Stone, Fritz Ernest, W. Joehrendt, Ash, Montgomery, Peuman, Hardesty, R. E. Knight, Mrs. Erwin received many presents.

Picnic at Lake Wichita.
Mr. and Mrs. D. J. White and Mrs. J. D. Avis chaperoned a party of picnickers to Lake Wichita last Monday evening, where an entertaining time was spent. Several of the party enjoyed a swim in the pool, and all enjoyed a splendid supper spread on the tables in the Pavilion. Following supper, dancing became the feature of the evening. The party consisted of

Mr. and Mrs. D. J. White and Mrs. J. D. Avis, the chaperones, Mr. and Mrs. Piner Avis, Mr. and Mrs. Frank Griffin, Misses Hazel Gaston, Icie White, Dola White, Annie Carrigan, Lillian Avis, Evelyn Coffield and Messrs Dr. F. F. Brown, John Walker, H. M. Berry, C. W. Hendricks, J. W. Thomas, and Carter McGregor.

Reception for Teachers.
The Mothers' Clubs of the city will unite in giving a reception to all of the teachers in the public schools next Saturday afternoon from four until six o'clock at the high school auditorium, and every parent who is at all interested in public school work is extended a cordial invitation to be present at the reception, which is being held for the purpose of giving the parents an opportunity to meet the teachers who will have charge of the children in the public schools for the next nine months.

Cupid Club Dance.
A number of local and visiting young people enjoyed another dance under the auspices of the Cupid Club last Thursday evening at Lake Wichita. As usual the music was furnished by the Katz Orchestra, and a most enjoyable time was spent. About twenty or twenty-five couples were in attendance.

Slumber Party.
A slumber party composed of Misses Audrey Adickes, Dorothy Beavers, Ruby Moore, Ruby Buchanan, Lillian Bell, Lillian Fain, Lillian McGregor, Thelma Kahn, and Mabel Simpson, was enjoyed last Tuesday night at the home of Mr. and Mrs. J. A. Richolt on Austin street, Miss Pauline Richolt having invited a number of her friends to spend the night with her. Early in the evening, music was enjoyed by the young ladies. Before retiring watermelons were served with other refreshments.

Six O'clock Dinner.
Mr. and Mrs. D. J. White at their home on Tenth street entertained several of their friends at a six o'clock dinner last Sunday evening, there being present in addition to the host and hostess, Misses Hazel Gaston, Dola White, Icie White, and Messrs. John Walker and H. M. Berry.

Entertainment at Elks Club.
Plans have been perfected for holding a book shower at the Elks Club rooms Monday morning at 9:30 a. m., continuing until 11:30 a. m. The event will be in the nature of an open house function, all Elks and their lady relatives and friends being invited to attend and all are asked to bring or send a book or books. Those who desire to make contributions larger than they can conveniently carry may notify the committee at the club rooms by phone as soon after 8:30 o'clock a. m. Monday and a dray will call for the volumes.

Women and Municipal Affairs

Happily women generally are beginning to recognize the necessity of co-operation in the arena of municipal politics, through our organization known as the Civic League. We as an organization have worked for the practical good of our homes and the families of millions throughout our broad civilization.

The womanly and maternal instincts are of greater value in the up-building of clean civic life than the most profound knowledge of political economy or the deep studied thesis of the medical fraternity. For theory without practical application is of very little actual value. Medical skill may impart to the world in general many ideas as to the care of children, and the hygienic importance of sanitation, the horrors of germs, and the transmission of disease through contact with flies and mosquitoes. But unless the maternal instinct predominates, and makes a fight for cleanliness and health, even the doctors are apt to lose sight of the necessity of this practical application in their homes and every day affairs. Men will screech houses, but women must work to keep the flies and germs out; must urge that the sanitary inspector condemn all filthy fly breeding unsanitary alleys, or places where food is manufactured, or sold.

In all matters pertaining to hygiene and general welfare, whether in the home or in the street, who should be more interested than woman? Married life and the duties concomitant with wifehood constitute a predominant factor in woman's sphere, though they are not necessarily of such a nature as to exclude all other interests or considerations. Indeed modern civilization has shown women that no detail is too small for the exercise of our vigilance to promote health in our families.

There is indeed ample scope for the work of such organizations as the

Civic League. The efforts of our work, though still in its early stage of development, are shown in many cities and towns. Not only in our homes and alleys, but in hospitals, jails, post-offices, schools and places of business. In some towns the members of the Civic League pledge themselves to trade with those merchants only who strictly abide by and enforce the rules of sanitation. They appoint committees to visit the butcher and baker and grocery man, the dairies and candy makers, and report back to the league the conditions as they are found. Such labors for health respond to the noblest teachings of God, and confer happiness upon those who help, as well as all who are benefited, for "cleanliness is next to godliness" and here an ounce of preventative is worth more than the pound of cure.

What nobler mission can there be? Who should be better fitted to contribute towards its fulfillment than woman? Looking back into the annals of time we find much good to humanity through the individual effort of woman.

Like Florence Nightingale, the soldier's ministering angel, who hovered near the battle field, to heal or assuage the suffering of the brutalities of war, we today can be the ministering angel of humanity, and save more lives, eliminate sickness and suffering by our individual effort for cleanliness.

The fly brings more death, with sickness and sorrow than the sword and bullets of battle. "No single act of heroism, no single endeavor to assuage suffering, or to benefit the human race has ever achieved results such as those which are within the possibility of attaining, by a wide combination embraced and carrying into effect the program of our own organization," says Mrs. John Hayes Hammond, chairman of the National Welfare movement.

Wealth In Livestock

H. S. Finney, one of the best posted market and livestock men in the state writes:

"I called attention in a recent article to the Texas sheep grower of putting his sheep on the market throughout the year in the wool, instead of flooding the market for six or seven weeks each year with clipped sheep, to be sold at a lower price. I think our Texas farmers are overlooking a great opportunity for increasing their revenue from their farms by overlooking the value of feeding small flocks of 125 or 250 sheep for market, to be disposed of through the year, as the market is favorable. Conditions Favorable.

"We have crops in this state that are most ideal for sheep feeding. I refer to milo maize, kafir corn and sorghum. This feed produces long staple wool, the kind that the wool merchants want, and the kind that the packer prefers. The farmer can take this number of sheep and with little attention he can put his forage crop into them and produce sheep that are just as good as the best sheep on the Northern markets. More than that, with his small flock he can give them the attention that will make them finished sheep, something that Texas has not had generally from its large flocks up to this year, when the grazing has been exceptionally good.

Feeding and Grazing.
Texas sheep men should not have to depend on grazing for their market sheep; and the small feeder can solve the problem by putting sheep on to this market throughout the year that will command the top market price at all times.

The difference of 1-2 cents or 1-4 cents a pound is the difference sometimes between a profit and a loss, and the small feeder is the man that gets his product, whether it be sheep or melons or any other product of his land, on the market in the best possible condition. We have bought better Texas sheep in Fort Worth this year than we have bought in a long time, and in fact there is always a market for the top kind that the small feeder can always make.

Good Results and Profits.
In addition to this fact, sheep will feed on weeds and coarse grass, and in other words are the cheapest foragers of any livestock except goats,

which further insures their easy fattening, enriches the soil and helps clear the land of weeds. In other words, 50 or 100 ewes are an asset to any farmer and a valuable one too.

Hogs in Texas.
A recent notice in a Fort Worth newspaper called attention to the fact that Armour & Swift in Fort Worth are paying \$75,000 a week to the Nebraska, Missouri, Kansas farmers for hogs which those packers are compelled to bring alive from St. Joe in order to keep their establishments running. It almost seems a reflection on the good farmers of Texas that this condition should prevail. The explanation for it lies in the fact that Texans have not been awake to the fact that we have a substitute for high priced Indian corn that will make just as fat, firm flesh and also cheaper hogs as those corn fed in the North.

Now Growing Cheap Feed.
Last year, in the Panhandle, the farmers raised big forage crops of milo maize and kafir corn, but instead of being able to market it and getting a big profitable price out of it, they were for lack of sufficient swine and other stock to feed, compelled to bargain it away at any price they could get, and in some cases carried it over until this year.

It is an encouraging sign that our farmers are now waking up to the fact that milo maize and kafir corn, sorghum, goobers, field peas and in favorable sections alfalfa, have produced 250 to 350 pound hogs that are just as fine as any hogs grown. Today in the Panhandle the only hogs practically that the Fort Worth market is getting are fed on these forage feeds and the packing houses are buying them at top prices.

Great Opportunity.
The Texas farmer has the greatest opportunity on earth to make money on hogs. With his land worth \$25 to \$50 an acre, he can raise these forage crops for half what it costs to plant and cultivate Indian corn, and in putting his hogs into marketable shape with these crops, he has all the best of the Northern farmer, with his Indian corn and his land worth \$100 to \$150 an acre.

cheap land and cheap feed, what better opening is there for a farmer to make money?

The prize winning load of hogs at the Fat Stock Show last March weighed 356 pounds, and it cost 1-4 cents to make them and deliver them to market. Scientifically fed, with conditions as to price of land and cost of crop considered, hogs can be produced on the farms in Texas at a cost of not over 3-1-2 to 3-1-4 cents and while hogs are not going to bring 8 to 9-1-2 cents a pound all the time, there never will be a time when they will not make the farmers of Texas money on this basis of cost.

Further Information.
We still have a great deal to learn of the possibilities of these semi-tropical fodder crops, and it would be worth while of any farmer who wants to get the best results to study all phases of the conservation of these crops from the food value standpoint. For instance, during the winter, when grass is possibly scarce and green stuff unavailable, a silo can be built to cost not over \$125 to \$150 and it loaded with sorghum at a time when the stalk is green, and all the juices are retained in the plant, the hog feeder can give his hogs the most perfect substitute for green feed.

The A. & M. College and the Experiment Station of Texas are all interested in the development of the livestock industry of the state and are working along the lines I have outlined, in order that the farmers may have the advantage of all the scientific research and practical experiments that the efficient faculty and field men of the A. & M. College can bring to bear on the subjects.

Let the slogan of the Texas farmer be, "Texas Crops for Texas Hogs," and let us remember that Indian corn is not necessary to produce a good hog.

There are other good markets for corn, besides for hog breeding, so that the farmer need not fear that by substituting other feed for hogs he will lower or endanger to any perceptible degree his market for corn of the better grades.

HUSBAND SHOT HIS WIFE; ATTEMPTED OWN LIFE.

By Associated Press.
Central City, Ky., Aug. 31.—When C. O. Ducksinger learned that his bride of two months was at a lawyer's office preparing to sue him for divorce, he seized a hatchet and rushed to the office inflicting fatal wounds on his wife. He went back to his shop, dived through a plate glass window wrecking a gasoline stove and setting fire to the building. He then tried to hang himself with a wire but falling was hacking himself when a fireman dragged him from the building. His wounds are fatal. The lawyer will recover.

TEXAS COWBOYS LEAVE FOR BUENOS AYRES

Captain Frank Johnson at Head of Six Texans Starts On Long Journey

(Star-Telegram)
In order that they may once again lead the lives they did twenty years ago on the Texas ranges, Captain Frank Johnson and a company of six cowboys will travel more than 11,000 miles. Only two thousand miles of this distance will be made upon the land, the rest will be made upon the palace steamships that plough the waters of the Atlantic ocean. They are going to Buenos Ayres, South America. The party will leave Fort Worth tonight.

Captain Johnson is one of the hardy West Texas cattlemen. He has served his time as a Texas ranger and a Texas sheriff. He has seen the grazing lands of the plains gradually disappear before the plow of the Iowa and Illinois farmer and for years he has witnessed the gradual decrease in the big herds until in some instances many of the famous old brands have completely disappeared. But Johnson's experience has been but one better than the experiences of his cowboys. They are all West Texas pro-

The Praise That Comes From Thankful Wichita Falls People.
One kidney remedy never fails. Wichita Falls people rely upon it. That remedy is Doan's Kidney Pills. Wichita Falls testimony proves it always reliable.

C. Willard, 1922 Eighth street, Wichita Falls, Texas, says: "I have had no occasion to use Doan's Kidney Pills for two years. At that time I suffered constantly from my back and kidneys. I got Doan's Kidney Pills from Harrington's Drug Store and although other remedies had failed, Doan's Kidney Pills affected a permanent cure. Although I was never laid up, never the less every move sent sharp twinges through my back. I am all over that now and never tire recommending Doan's Kidney Pills." (Statement given December 9, 1910.)

No Trouble Since.
When Mr. Willard was interviewed on December 27, 1911, he said: "We still use Doan's Kidney Pills when occasion requires a kidney remedy and have always been greatly benefited. You are at liberty to continue using my statement as heretofore."

ducts and sons of the range. They have driven cattle all their lives and they know nothing but cattle.

Frank Wadell, W. H. Harris, C. E. Helcombe, James Cunningham, J. A. Frazier and Clarence Clary compose the company and every one of them is a "cow puncher" from the famous Swenson ranch at Stamford, Texas. Ask one of them when he took up the trail and he will always tell you to ask him something easy. They can't remember. They were born cattlemen and they will tell you that the saddle has been their home since they were babes in swaddling clothes. These Texans are leaving Fort Worth tonight on the Santa Fe train which will carry them to New York. At New York they will climb on board one of the big passenger ships of the Cunard Line, going to Liverpool.

From Liverpool they will sail to Buenos Ayres on one of the big boats of the Royal Mail Steam Packet Company.

Captain Johnson will take charge of "Tex" Ricard's million acre cattle ranch near Buenos Ayres and the "punchers" will be foremen on the different ranches or camps. Each "puncher" can speak a little Spanish which is a prime requisite as the most of their men will use that language.

Fall Lining Up Witnesses.
By Associated Press.
El Paso, Texas, Aug. 31.—A. B. Fall, United States Senator from New Mexico, is busying himself today lining up witnesses whom he wishes to hear in a few days on his return here from Los Angeles. Senator Fall is a

member of the Senate foreign affairs committee investigating whether United States money was furnished the Mexican revolutions of Madero and Orozco. He will be met in Los Angeles next week by Senator Alden Smith, chairman of the committee who will return with him to El Paso to make investigations and interrogate witnesses.

Senator Fall denies vigorously that he had anything to do with stopping peace negotiations between Orozco and the Mexican government, but admits writing to Orozco and says he did so to ascertain if possible what American aid the rebel leader had been receiving.

He had known Orozco for many years when Orozco was proprietor of a pack trail in the mining section of Chihuahua.

With no intention whatever of casting a damper on the spirits of those who are wont to spend their summer vacations at resorts in Colorado, California, or other out of state places, the writer wishes to remind some people that here in our own State of Texas there are scores of places without fame but which nevertheless offer undreamed of pleasures and entertainment if one will but take the time to investigate.

While for certain reasons many seem to prefer northern climates in which to spend their summer vacations, it is not at all necessary to cross any boundary line of this State in search of enjoyable diversions and pastures new. There are any number of places inside this State that are exceptionally attractive in the summer time; places that are entitled to the serious consideration of summer tourists not only from the State, itself, but from surrounding States as well. There are also a few places here where summer tourists every reason spend many enjoyable weeks.

The high altitude of the mountainous sections, the awishing of the mountain brooks, the shade of the great upstate forests; all are indeed desirable and are not to be lightly thought of. Who can speak lightly of a cool gulf breeze or a long delightful swim in the waters of the bays at Galveston, Corpus Christi and other points on the coast. At many places in the State, hunting is offered as an attraction, and ducks of all descriptions literally haunt the inlets along the coast giving the lover of nature an opportunity unexcelled to study the habits of these wary water fowls. The hoak! hoak! of wild geese is a familiar sound that greets the ear of almost every person who inhabits certain sections of Texas and fish may be caught in any numbers not only on the coast but at a large number of inland streams and lakes, according to fishermen of this city who have recently returned from trips to the coast and other places.

Famed more and more each year as a summer resort, is Mineral Wells and visitors from all parts of the country may be found at this season of the year frequenting pleasure places there. Among the prominent amusements offered in Mineral Wells are table games of all kinds, and ball there is made a real entertainment. Dancing is also enjoyed by all who have acquired the art.

To those who love to fish, Sabine Pass, Aransas Pass and similar towns deserve mention and Marlin Springs is fast coming in for a share of the summer tourists' attention. People who have visited these places unite in saying that one's time nor money is never wasted by a stay in any of them. According to one Wichita Falls sportsman who recently returned from Aransas Pass, at least nine hundred pounds of fish of all kinds were caught by him in less than two weeks, including several tarpon. However, this statement has not been substantiated by another sportsman here who was at Aransas Pass at the same time. The fact remains, nevertheless, that there is splendid fishing at numerous places in Texas.

Mineral Wells, Aransas Pass and the rest, are all becoming more and more popular each season as summer resorts, but the resort in Texas that has before it the most glorious future in the opinion of a number of people is situated about six and one-half miles from this city and is known as Lake Wichita. At Lake Wichita, no matter how hot may blow the winds in the city, the breezes there are always cool and pleasant and the weather agreeable. Fishing, boating, swimming, dancing, loafing and prac-

tically every other amusement offered anywhere is to be found at Lake Wichita, which has already proven its worth by attracting the managers of several conventions, assemblies and the like this season, with a prospect that even a larger number of organizations will hold their conventions here next season.

The hotel accommodations at Lake Wichita are of such an excellent class that even the most exacting come away well pleased and every Sunday scores of people make the trip to the lake from this city merely to enjoy the supper at the Lakeside Hotel. Other features too numerous to mention go to make this resort one of the most agreeable in the State, and campaigns of advertising which will be carried out during the next year will go far towards acquainting the people with the existence of Lake Wichita.

So we see that Texas is not so very impossible when one is casting about in search of some pleasant place for a vacation. Within the bounds of this great State are to be found all kinds of climatic conditions, all sorts of fish and game, numerous spots made historic by Indian wars and battles for Texas Independence, thousands of people as hospitable as the country contains, and last but not least, Lake Wichita, situated partly in Wichita County and extending for seven miles or more across a country that once was the land of the buffalo where unconquered savages were wont to roam unrestrained by a single white man. The savages have now disappeared, the buffalo have been wiped from the face of earth, and white men have taken possession of what was once their domain; some of them have built Lake Wichita, and the same men with the assistance of others will continue their efforts until the time will come when people who are contemplating a summer vacation will hide their faces in shame when they reflect that they once thought of going outside of the State of Texas to spend weeks at some resort which probably offers not one half the attractions contained at Lake Wichita.

HEAD OF NEW SCHOOL MUSICIAN OF ABILITY

What Others Say of Mrs. McKee, Director of Wichita Falls College of Music and Art

The Wichita Falls College of Music and Art recently organized for its director, Mrs. J. L. McKee, a musician of ability and experience as will be seen by the following:

"This is to certify that Miss Mary M. Ritchie (Mrs. McKee), has been a student of the Piano-Forte and Theory of Music, in the Normal and Artists Department of the Cincinnati Conservatory of Music. She distinguished herself by her rare talent, as well as by her extraordinary zeal and conscientious labor.

"As a student she commanded the admiration and deep respect of her instructors and when she, after having finished the normal course, filled the position of a teacher in the Conservatory, her course was marked by decided success. She possesses, to a high degree, the ability of imparting knowledge and to inspiring her pupils with enthusiasm for art. Miss Ritchie is a young lady of refined manners, lovely disposition and deep religious principles, who, in every regard, is deserving of the highest recommendation.

"CLARA DAUR, Directress of the Cincinnati Conservatory of Music."

The following notice is taken from the Courier, a musical journal of Cincinnati:

"The stage, 'merit will win' has its exemplification in the marvelous success which has attended Miss Mary M. Ritchie's (Mrs. McKee) efforts in the field of piano instruction since she assumed charge of the music of Caldwell College, Danville, Ky. Besides possessing unusual natural endowments Miss Ritchie has always been a most assiduous and conscientious worker, and her present great proficiency in her art is not a matter of surprise, though it is of gratification to her many well wishing friends in Cincinnati. Her fame is fast spreading throughout the State of Kentucky. The Cincinnati Conservatory of Music points proudly to her as one of its best products."

FORTY CENTS A BUSHEL FOR MILO MAIZE.

Forty cents a bushel is being paid in the local markets for milo maize and some of this feed is being brought in. It takes about seventy-five pounds of the maize to make a bushel. While some of the farmers use headers to harvest the grain, others adopt the plan of cutting the heads off by hand which is a pains-taking and laborious process.

Most of the farmers in this county who have raised milo maize are not

offering it for sale, preferring to keep it for feed. There are many farmers it is said, who have from a year to two years' supply of feed on hand, which means that it will not be necessary to spend any cotton money for corn this fall or winter.

One load of milo maize was brought in this morning from Comanche county, Oklahoma, the market being better here than at Oklahoma points.

T. B. Patterson a well known real estate man of Hillsboro, is in the city today.

703,811 BALES MORE BROUGHT \$8,530,697 LESS

Exports Through Port of Galveston For 1911-12 Season Totalled 3,652,165 Bales

By Associated Press. Galveston, Texas, Aug. 31.—For the cotton season of 1911-12 which ends today a total of 3,652,165 bales of cotton, valued at \$201,677,806 was exported through Galveston for foreign markets. This is an increase of 703,811 bales over the previous season.

Owing to the lower prices prevailing for cotton the values for this season are \$8,530,697 below the previous season. Coastwise shipments of cotton from this port reached a total of \$655,995 bales making the total movement by steamship 4,208,060 bales for the season.

INFORMATION ABOUT SCHOOLS

SUPT. CARPENTER ISSUES LETTER GIVING INFORMATION FOR TEACHERS, PATRONS AND PUPILS

WILL OPEN SEPTEMBER 9

Examinations for New Pupils Will Begin September 6th—Other School News

To Patrons, Teachers and Pupils of Wichita Falls Public Schools: Your attention is respectfully called to the following announcements:

Schools will begin September 9th. Pupils who attended the Wichita Falls public schools last year and who were regularly promoted to the next grade should present their promotion card to the teachers on the first day of the school in order that their names may be regularly enrolled and that they may be given a book list and application blank. The teachers will be instructed not to give application blanks and book lists to children until they have been classified.

Promotion Card. If any child has been so unfortunate as to lose his promotion card, he should get a statement from the superintendent who has the record to the effect that he was promoted in May and present this statement to his new teacher in lieu of his promotion card.

New Pupils. Parents who are newcomers in the city and who did not patronize the schools last session should have their children present promotion cards or statements that were received from the last school attended. If the school is first class, it is probable that the card will be accepted in lieu of an examination.

Examination. Examinations will be held for new pupils who have no promotion cards or statements from former schools, or those who failed in one or more subjects in our schools as per the following schedule:

High School. Thursday, September 6, 9:00 a. m. High School History, first and second year. High School English, first and second year. Thursday afternoon, 1:30 p. m. Latin, third year. Mathematics, first year. German and Spanish. Friday, September 6, 9:30 a. m. History, third year. Mathematics, second and third year. Friday afternoon 2:00 p. m. Physics and Chemistry. Other High School subjects not mentioned in the schedule will be given Friday morning.

Seventh Grade. High school building. Friday morning 9:00 a. m. History, Physiology and Mathematics. Friday afternoon, 2:00 p. m. English and such other subjects as are desired.

Friday, September 6, 9:00 a. m. At the different ward buildings for all pupils below the seventh grade. Examinations will be conducted by the principals, assisted by the teachers of the different grades. Pupils should follow the above schedule and present themselves for examination upon the day appointed. Pupils who enter the first grade need not apply for examination, but can be classified by the teachers when they enter school on the 9th.

Books. All patrons whose children have regular promotion cards may secure new books before the school opens. The book dealer has definite information about the books to be used in each grade.

Meeting of Principals. Thursday morning, September 5, a meeting of the principals will be held in the superintendent's office at the High School building.

Preliminary Teachers' Meeting. On Saturday, September 7 at 10:00 a. m., a general teachers' meeting will be held at the High School building. Matters affecting the interests of the schools and plans for the year will be discussed. All are required to be present. Respectfully, GEO. H. CARPENTER, Supt.

J. R. BABCOCK

J. R. Babcock, Secretary of the Dallas Chamber of Commerce, addressing the Commercial Secretaries' Convention here last week urged that Commercial Clubs encourage cotton factories, and suggested state aid in promoting cotton mills. Many of the southern states have successfully encouraged the cotton manufacturing industry by exempting them from taxation and other favors which have never been practiced in Texas. By manufacturing our cotton crop in Texas, we would add approximately \$200,000,000 to its value. We have 19 cotton mills in the state and they manufacture about one bale out of every seventy we produce.

PRESIDENTIAL YEAR DULLNESS ABSENT

Wichita Falls Merchant Returns From East Where He Found Wilson Sentiment Predominant

That Wall street thinks enough of Wilson's chances to be elected to offer bets of two to one on the New Jersey governor, is told by P. H. Pennington of this city, who returned Friday from a long sojourn in the North and East. While Mr. Pennington left here supposedly to make his stock purchases, he had another mission, as he brought home a bride. Mr. Pennington found a preponderance of Wilson sentiment everywhere. Wall street picks Roosevelt for second place, he says.

The usual "presidential year" dullness is absent in the East, Mr. Pennington found; everyone reported excellent business and the markets seem to be little worried by the outcome of the pending political contests. Mr. Pennington was much gratified to find business conditions at home much improved upon his arrival here and says that Wichita Falls is still his one best bet.

GOVERNOR TURNS DOWN LANE'S BILLS

Colquitt Refuses to Pay Accounts Presented in Behalf of Clerks Who Did Detective Work

By Associated Press. Austin, Texas, Aug. 31.—Governor Colquitt has refused to pay accounts presented by Controller Lane in behalf of four clerks in the controller's department, who did detective work leading up to the prosecutions for violation of the liquor law and the controller's cancellation of licenses in Galveston, and other investigations in San Antonio and Dallas. Letters passed between the executive and Lane, the latter presenting accounts totalling \$402, as "expenses incurred in securing testimony and in the prosecution of complaints."

The governor replied that inasmuch as the controller had refused his offer of ranger service and the services of his appointed assistant attorney general to track down and prosecute such violations unless the executive should give Lane complete control of the investigation, he would not now approve these accounts. He wrote that the rangers conducted the investigation in Galveston on the state's account, furnished evidence to the assistant attorney general and furnished the controller with violator's names.

"I cannot concede your right to incur debts without my knowledge to be paid in this way," the governor wrote. "You will therefore have to present the claims to the claims committee of the legislature when it meets. The accounts presented by you now will not be paid out of appropriations for the governor's office because they are not authorized."

BANK WILL RECEIVE CAMPAIGN CONTRIBUTIONS

First State Bank & Trust Co. Will Receive Contributions For Any of the Political Parties

T. J. Taylor, president of the First State Bank & Trust Company announces that his bank will receive and forward to the proper destinations contributions to the campaign funds of any of the political parties. The bank is just in receipt of a letter from the treasurer of the Democratic National committee asking the bank to receive such contributions for all parties. The suggestion has been adopted and the bank will gladly take care of any contributions that may be offered.

J. D. WALTHALL BECOMES ATTORNEY GENERAL

By Associated Press. Austin, Texas, Aug. 31.—James D. Walthall of San Antonio, for four years assistant attorney general, today took the oath of office as attorney general by executive appointment, following the resignation of Jewel P. Lightfoot. Mr. Lightfoot and two of his assistants, John W. Brady and E. H. Robertson, today left the department to associate in the practice of law in Austin.

Wichita Falls, Texas, Sept. 1st, 1912.

The Republicans supply of dirty linen seems unusually large this campaign year and it is not likely that all of it will be put out on the line to dry before the convening of the next congress.

The president of the Trans Mississippi Congress estimates that the farmers of this country pay annually \$250,000,000 more in transportation charges than they would if there were good roads everywhere to facilitate the marketing of crops.

An early frost would have the effect of killing down to some extent the splendid patches of Johnson grass, sunflowers and weeds that are growing rank along some sidewalks, and even on the edges of some streets in the city. As there seems no other prospect of getting rid of them, Lord, send along the frost, and make it a good one.

Predictions are being made that Congressman Burleson of the Austin district, will be commissioner of agriculture should the Democratic ticket be elected next November. Texas is entitled to a cabinet officer, and Burleson stands among the best men of the state.

Burleson would doubtless make a splendid commissioner of agriculture, but why would it not be better for Texas to elect him as her governor? That name he bears is sufficient guarantee that in him the State would have a good governor—something that would come nearer the James Stephen Hogg stripe of governor's. Wilson, no doubt, will want to pick at least one member of his cabinet from Texas, and there's one Johnson to fall back upon. He would shine some in the position now held by Wickorsham or as postmaster general he could make himself mighty useful.

There are already signs down Austin way that there is to be less scrapping between State officials for the next two years than there has been for the past, all of which has been to the detriment of the State. Gov. Colquitt has extended invitations to Will H. Mayes, who will be our next lieutenant governor, and to Ben Looney, our next attorney general, to make a tour of inspection with him to the State-prison and see what is necessary to be done when the legislature convenes. Doubtless both Mayes and Looney, though not yet elected, will accept the invitation of the governor. They should do so, at least, and even if they are not able to agree fully with the recommendations of the governor it will give them an opportunity to reach an understanding and be in a better position to cooperate with each other when the time comes for action.

There is now a dispute between Land Commissioner J. T. Robison and Will H. Mayes, Democratic nominee for lieutenant governor as to which of them received the largest majority over opposition in the last Democratic primary. Mr. Robison's friends deny the correctness of dispatches from Brownwood saying that Mr. Mayes received the greatest majority, and that his majority was such as to entitle him to consideration as a future gubernatorial possibility. They say that if there is anything in majorities Mr. Robison received the largest and hence he is entitled to the gubernatorial boom.—Austin Statesman.
Mr. Mayes made a splendid race for lieutenant governor, and will doubtless prove a splendid presiding officer over the Senate. Should Gov. Colquitt die, he would then be made governor, but that is about the only way lieutenant governors have heretofore reached the governor's office. There is something about the office that seems to act as a kind of "hoo-doo" to those who hold it. They rarely ever succeed in their political ambitions.

GRAFTERS AT HOME AND ABROAD.
While the country stands aghast at the graft exposures in New York City, as well as the recent revelations in Washington of the contributions by the special interests to the campaign fund of a prominent political party, it should not lose sight of the fact, although not proven, yet all things point directly that way, that there is graft practiced in a more or less degree in the lesser positions of the country's government. There has not been an audit of a single county or city's books within the past five years that has not shown deficits due to the counties or cities by officers who have been charged with the collection of money due such city or town. The loopholes through which they escape is the construction placed upon the fee bill, which seems to be a law that every

officer is permitted to construe to suit himself. Whenever an officer demands and receives more fees than the law says he should demand or receive, or when such officer withholds from the county, city or State any part of the money collected by him that is due the county, city or State, he is guilty of graft, to put it mildly—that would be better. There is no need to say it is not going on in Texas, for it is. It is here and being practiced by Democrats and it should be rooted out; if it isn't we will be up to our eyes in a scandal some of these days. In our opinion, the fee system is the most prolific source of graft known to modern government. It should be abolished and that without delay. Then many evils that we complain of will be eradicated.—Denison Herald.

If the financial affairs of the county and city were conducted like that of a State or National bank, i. e., by the publications of statements quarterly and annually, it would remove to some extent this suspicion of graft. There is a law to the effect that cities and counties shall make publication of their financial affairs, but there is a weak point in the law in that it does not provide a penalty in the event the law is not complied with. It is the people's money that is being spent, and the people have just as much right to know how the financial affairs of their governments are being conducted as they have to know how the banks in which they deposit their money when they have any are being run. There may be no graft; every cent of the people's money may have been expended properly and where it has done the most good, but the best evidence of this is in the way of an exhibit, annually or quarterly, gotten up in such shape that an ordinary man will not have to be an expert accountant or lawyer to understand the figures. Publicity is the greatest cure for graft and suspicion of graft in the world. The lack of it only serves to increase the suspicion that all is not as it should be. The Times, however, does not share in the belief of the Herald, in that a great deal of grafting by Texas county and city officials is being practiced. Doubtless there are some dishonest people elected as Democrats to fill our county and city offices. It would, indeed, be an exceptional state of affairs if the party was free from grafters. They are in all political parties, but Texas, with her brutal Democratic majority, shows up a much cleaner record than Pennsylvania, which is dominated by the Republican party.

BANKS THEMSELVES CANNOT CONTRIBUTE

There is No Law However, That Can Prevent Them From Accepting Campaign Contributions

By Associated Press.
Washington, D. C., Aug. 31.—Reports that one of the political parties was soliciting contributions from National banks for the pending campaign stirred treasury department officials today. "Any National bank making such contribution," Acting Controller Kane said, when his attention was called to the report, "will be subject to a fine and its officers and directors are liable to fine and imprisonment for violating the law passed by Congress in 1907 forbidding such institutions to contribute."
The Washington Post today published a report that E. T. Hooker, National treasurer of the Progressive party in a personal letter to the president of a local National bank with a capital and surplus of nearly a billion dollars had solicited a contribution of \$250,000.

REPUBLICAN CAMPAIGN TEXT BOOK ISSUED.

By Associated Press.
New York, Aug. 31.—The Republican National committee issued today its campaign text book. It is 150 pages shorter than that of 1908. It contains Taft's acceptance speech and several chapters on the tariff, the cost of living, various phases of the labor question and the record of the Taft administration.

The prosecution under the Sherman law are reviewed at length. A chapter is devoted to Woodrow Wilson, the Democratic candidate, with extracts from his writings.

ROOSEVELT ENDS VERMONT CAMPAIGN

In Closing Speech Expressed Belief that he Would Carry State in November

By Associated Press.
Brattleboro, Vt., Aug. 31.—The campaign of ex-President Roosevelt in Vermont came to an end here tonight. After three days of hard fighting the progressive party leader said he felt well repaid for his trip. "It was quite extraordinary," he said. "It looks pretty good here in Vermont."
Col. Roosevelt was well satisfied, he said, with the outlook here over the November election but showed concern over the prospects for the Progressive state ticket.
"I want to send a last message to the people of Vermont," he said, here tonight in the final speech of his tour.
"I have heard all through Vermont from men who have said that they would vote for me in November and I would carry the state but in the state election they would not leave the Republican or Democratic parties to vote for the Progressive ticket."
"Those of you who take this view are playing in the hands of the Archbalds and Pennozes. Outside the state the result of this election is being awaited with eager interest. Those of you who wish to help me can best do so by voting for the Progressive state ticket."
Col. Roosevelt spoke first today at Barre, then went to Randolph and Melow Falls and wound up his tour here tonight. At several towns along the way crowds were out to meet him and he made brief speeches.

The colonel paid his respects to Mr. Everts of New York, who has a country home and a machine shop at Windsor, in his speech here. He said he had been told Mr. Everts was trying to prevent his employes from voting the Progressive ticket.

"I want to touch right here upon the iniquity of any man trying to bully the men in his shops to vote the way they don't want to. I'd like to put it straight that we all have the right to vote as we wish."

After his speech here the colonel left for Oyster Bay. He expects to reach home in the morning to stay over night. At 8 o'clock Monday he leaves on his Western tour.

YOUNG PITCHER MAKES GOOD SHOWING

Struck Out 25 Batsmen in Two Games and Allowed Only Six Hits

The Iowa Park and Harrold ball teams played a series of three games last week. Harrold won the series. The first game on Thursday resulted in a victory for Harrold by the one-sided score of 19 to 1. Iowa Park took the second by a score of 7 to 4 and Harrold won the third yesterday 8 to 2.

The feature of the series was the pitching of a youngster named Myers who comes from Byers for the Harrold aggregation. He pitched the winning games for Harrold and in two games allowed only 6 hits and struck out 25 men.
Another series of three games will be played this week at Iowa Park starting Monday. Myers will probably pitch Monday's game for Harrold.

News From the Oil Fields

Oil Land Sales and Transfers

The Corsicana Petroleum Company has purchased from R. J. Miller and wife of Limestone county, 304.6 acres about a mile and a half northeast of Electric, immediately adjoining the Biekeley tract upon which a 600 barrel well was brought in recently.

The consideration is \$40,000 cash. The land in question is the east half of S. P. R. R. survey No. 2.

Leases were filed today by Frank Cullinan of the Producers Company on two tracts of the Eeds property. The first includes fifty-five acres belonging to Mrs. M. A. Eeds, being out of two surveys in the name of E. M. Gillis. The other takes in 113 acres of the E. M. Gillis survey belonging to County Commissioner, Eeds and wife.

On each lease the consideration is \$100 per acre, with one-eighth royalty on all oil and \$250 per annum for gas wells. The lessor is to begin drilling within forty-five days from August 24 on the R. T. Eeds tract and within sixty days on Mrs. M. A. Eeds' property, the wells to go 2000 feet deep.

The Oil Man's Magazine, published at Parkersburg, West Virginia, has been taken over by the National Petroleum News of Cleveland and will cease to appear after this month. Apropos of which Bill Long of this city had a poem in the last issue of the Magazine. Not that the poem had anything to do with the Magazine's suspension, but one of Long's friends in West

Virginia wrote to him to say that the verse was about the worst he had ever read. However, Bill is not yet worrying about the publication of his writings; his kind of copy doesn't usually go long without a publisher.

If these is of oil gas in the immediate vicinity of Wichita Falls it is in pretty deep sand. The Nortex Oil Company's well just west of the city is now down 2335 feet and is still drilling. The company expects to go considerably deeper, it is said, in the hope of finding pay stuff, before the hole is abandoned.

The Wichita Falls Gas Company's new gasser at Petrolia, on the Lockridge tract is now under control and has been turned into the pipe line. Estimates put the capacity at better than thirty millions, which makes it by far the best six inch well in the Petrolia field, and it may excel the performances of some of the eight-inch producers. Some difficulty was experienced in getting the flow under proper control but it was accomplished early yesterday.

Two new locations have been made in Archer county, the first to be made down there since the initial excitement blew over. One of the wells is about three miles east of the Miller pumper and is the property of the Corsicana company; the other is about five miles east of the Miller and is also understood to be a Corsicana property. Some of the leases secured in the first rush around Atharner have been forfeited and this is reported to include some of that which commanded the fancy figures.

FATHER OF DESERTED CHILD FINED \$200

B. B. Wheeler, Father of Baby Girl Left at Orth Home Pleads Guilty to Vagrancy Charge

B. B. Wheeler, father of the baby girl which was found Wednesday night on the porch of the T. R. T. Orth home, pleaded guilty to vagrancy in the court yesterday afternoon and Mayor Bell assessed a fine of \$200, which Wheeler was unable to pay.

Although there is a state law which fixes the punishment for child desertion, the statute has been held unconstitutional. The law provides for both fine and imprisonment, and provides that the fine collected shall be paid to the mother or guardian of the deserted infant. The higher courts held that any provision paying the fine to other than the State was unconstitutional. Consequently, vagrancy was the only charge upon which Wheeler could be punished.

Wheeler is a young man, well dressed and not at all bad-looking. He declined to discuss the motives which prompted him to leave the child and seemed more interested in getting somebody to stand good for the fine.

This afternoon he obtained the money to liquidate the fine and upon his release left the city. The baby is now at the Orth home.

Gill Will Main in Office. By Associated Press. Austin, Texas, Aug. 31.—Governor Colquhoun said today that Banking and Insurance Commissioner B. L. Gill will retain his office throughout his second administration. The possibility of Mr. Gill's leaving, the service had been announced, but after a conversation with the governor, Mr. Gill said definitely he would remain.

Our Friends Are Coming!

Next Monday in honor of the American laboring man we celebrate a day that should be considered among the greatest of National holidays, in fact it is next to the birthday of American independence. It is a day when the workers of the greatest nation on earth take a holiday.

Out of courtesy to the men who are the backbone of industrial America we open the gates of our city and the doors of our homes to our friends from sister cities who come to visit and celebrate with us.

We join our progressive citizenship in hoping and helping to make the event one long to be remembered by both host and visitor. We request visitors to make themselves at home at the.

A Unique display of Wichita county sorghum in tomorrow morning's parade is suggested by Frank Jenne, the well known farmer. Mr. Jenne has a good crop of sorghum and has offered the Young Men's Progressive League all they desire of it. Owing to the short time in which to prepare for

such a feature, it is doubtful if it will be arranged. Mr. Jenne suggested that a long line of marchers, each carrying a huge stalk of sorghum would be both novel and attractive and would serve to advertise the diversity of Wichita county's resources.

Wichita Falls' growth in four years was a source of much wonderment to R. M. Thomson of Austin who was here this week for a day or two. Mr. Thomson formerly owned property here but disposed of it all some time ago. This, after being shown the improvements and growth which four years have recorded, he wished he had held on to his property longer. Mr. Thomson has extensive ranching interests in Haskell county and other parts of West Texas.

BIG INCREASE IN MANUFACTURING EXPORTS

Statistics For July Show Total of \$61,500,000 Compared With \$48,000,000 Year Ago

By Associated Press
Washington, D. C., Aug. 21.—Manufacturers comprised virtually two-thirds of the total exports of domestic products from the United States in July and more than half of those in the seven months ending with July. Figures just completed by the division of statistics of the Bureau of Commerce shows exportations in July of manufacturers ready for consumption valued at \$61,500,000 against \$48,000,000 in July, 1911.

In Memory of Mrs. Charles McKeehan,
August 29, 1912.

A place in the home is vacant. The voice of a loved one is stilled. The wife and mother has left A vacancy no other can fill.

God call to her, "come higher"
Her work was finished below:
She heard and heeded the summons
And was ready and willing to go.

To those who are nearest and dearest
We would not say, do not weep,
But remember the form you cherished
'Tis only taking rest in sleep.

The sleep that knows no awakenings,
To sorrow, care and pain
But at the Saviour's coming
Will awaken to life again.

The soul, the spirit immortal,
Has returned to its Father and God,
For 'twas at his call and bidding
It left its earthly abode.

You whose hearts are breaking
Press onward and upward still
To the Master your service giving
And calmly submit to His will.

God has called her, oh, so soon!
You cannot understand why,
But patiently and submissively wait,
'Till know in the sweet by and by.
