

UNCLE SAM THREATENS SUMMARY ACTION IN MEXICO

FIRE DEPARTMENT WAS KEPT BUSY

RESPONDED TO THREE CALLS SATURDAY AFTERNOON AND EVENING

GASOLINE CAUSE OF ONE

Use of Inflammable Fluid To Kill Ants Results Disastrously—House Burns in Country

The most serious fire that has occurred here for the last nine weeks took place about 1:30 o'clock yesterday afternoon when a house at 1100 Scott avenue owned by Miss Julia Williams and occupied by three or four families as an apartment house, caught fire and was completely consumed before the flames could be subdued.

It seems that some of the occupants of the house were engaged in attempting to get rid of ants by means of the gasoline treatment, when in some manner which has not been explained the gasoline caught fire and soon the house was a seething mass of flames. Both the house and most of its contents proved a total loss, although both were partly covered by insurance.

The department arrived on the scene promptly but the flames had progressed to such a point that they were unable to save the building although three lines of hose including in all 1600 feet were laid. Members of the department devoted some of their efforts towards preventing the spread of the flames.

SUNDAY CLOSING AT POSTOFFICE

New Regulations Will Go Into Effect in Wichita Falls Office This Morning. The postoffice will comply with the Sunday closing law beginning this morning. This law provides that no mail will be delivered at general delivery, by city carrier or through lock boxes, excepting mail addressed to the care of hotels, to newspapers and to newsdealers. These instructions have been issued in supplemental orders from the postoffice department and it is believed that future instructions will be still more liberal in the construction of the law.

PLENTY COTTON, PICKERS SCARCE

FARMERS ON BOTH SIDES OF RED RIVER ARE VERY SHORT OF HELP

\$1 PER HUNDRED OFFERED

Crop Said To Be In Danger For Lack of Pickers and Farmers Clamoring For Laborers

Work for hundreds of cotton pickers is to be had in the cotton fields of Northwest Texas and Southwest Oklahoma and in some quarters it is said there is danger of serious loss to the farmers unless they can obtain pickers at once. While this danger is not so apparent on this side of Red River farmers in Southwest Oklahoma along the Wichita Falls & Northwestern are clamoring for help. Cotton is opening rapidly in that section and in many farms, the only picking that is being done is by the farmers themselves and the members of their families.

CAMPAIGN FUND GROWING HOURLY

Only \$67 Raised Here Up To Saturday Night To Help Elect Woodrow Wilson

A total of \$67 had been contributed up to Saturday to the Democratic campaign fund. Remittance of all funds received up to Friday night to the treasurer of the national committee was made by W. J. Bullock, who has been active in raising the fund here. Among the contributors since our last report are J. C. Myttinger, Fred W. Householder, Rev. S. C. Littlepage, L. H. Mathis, H. A. Fairchild and F. M. Hull, each of whom contributed a dollar.

NO ARRESTS FOR AUTO ACCIDENT

Reward, However, is Offered For Arrest of Man Who Drove Machine

No arrests has yet been made in connection with the automobile accident of last Monday night, in which G. A. Soule was injured. It is understood that the machine was driven by a local man. J. B. Marlow stated last night that he would give \$10 toward a reward for the arrest and conviction of the driver of the machine and it is possible that others will join in the effort to apprehend the guilty party or parties.

AN UNOFFICIAL CENSUS HERE

MERCHANTS' ASSOCIATION TO MAKE EXHAUSTIVE CANVASS OF CITY SOON

Many Believe Number of Inhabitants Is More Than 12,000 At Present Time. An unofficial census of the city is to be taken within the next few weeks under the auspices of the Retail Merchants Association and it is possible that the directory company which publishes the Wichita Falls directory will also assist in the work. An exhaustive canvass of the city will be made by the census-takers.

MONTANA GIVES WELCOME TO TED

ROOSEVELT'S TOUR THROUGH STATE RESEMBLE PARADE OF WILD WEST SHOW

Helene, Mont., Sept. 7.—Woodrow Wilson and the Democratic party, Col. Roosevelt told the people of Montana today, had nothing to propose for dealing effectively with the trust problem. Wall street was so well protected with the policy of the administration that it was praying, "give us another dissolution." Col. Roosevelt added that Mr. Wilson's proposal was to do exactly nothing by continuing in the same course the Taft administration had pursued. The proposal of the Progressives, he said, was to put a stop to the continuance of the Taft-Wilson program of further legislation of monopoly under the guise of a make believe assault on monopoly.

G. E. COMMITTEE WILL MEET TODAY

Final Arrangements Will Be Made For Union Meeting at Y. M. C. A. Monday Night

A meeting of all members of the committees of the local union of Christian Endeavors will be held at the Y. M. C. A. rooms at 4 o'clock this afternoon to perfect final plans for the reception to be given in the rooms of the Y. M. C. A. tomorrow night, honoring the presence of this city of Rev. G. W. Benn of Dallas, president of the Dallas Pastor's Association and also president of the Texas Christian Endeavor Union.

ROBBERS CRACK SAFE, GET \$3000

BANK AT ALTOGA, COLLIN COUNTY SCENE OF ROBBERY EARLY SATURDAY

YEGGMEN BEING CHASED

Drop Bucket of Dynamite in Their Flight—Cut Telephone Lines Before Starting Work

By Associated Press. Altoza, Texas, Sept. 7.—The safe in the Bank of Altoza was wrecked by dynamite at 1:30 o'clock this morning and \$3000 stolen. It is believed that four robbers did the work. Citizens were awakened by the explosion but no trace could be found of the yegg-men at that time. The interior of the building was badly damaged by the dynamite used by the robbers.

PROGRESSIVE LEAGUE PLANS NEW TRADE TRIP

Wants To Visit Country South of Wichita Falls Early in October—Several Routes

The complete success of the recent trade excursion by the Young Men's Progressive League up the Wichita Falls & Northwestern has led to plans for another trip early next month into the country south of Wichita Falls. Two routes for the trip have been suggested. One is to go down the Wichita Valley to Haskell and return, the other is to go down the Valley to Seymour, then over the Gulf Texas & Western to Olney, then home again by the Wichita Falls & Southern. Either of these would be one-day trips. There is some talk of a two-day trip, but it is not believed that enough excursionists could be enlisted to make this advisable.

WICHITAN IS ARRESTED FOR AUSTIN SHOOTING

Joe Duty, Auto Factory Employee Held At Capital On Assault To Murder Charge

Joe Duty of this city, an employe of the Wichita Falls Motor Company, is under arrest at Austin with a charge of assault to murder docketed against him. The arrest followed the shooting of C. C. Crow of Austin, Duty's brother-in-law. Crow was shot in the left leg, but was not seriously hurt. Duty is employed in the moulding department of the automobile factory and was in Austin on a visit to relatives when the quarrel which preceded the shooting arose.

INTERVENTION SEEMS THE ONLY SOLUTION

MEXICO UNABLE TO COPE WITH INTOLERABLE CONDITIONS FOR AMERICANS

TO CALL CONGRESS

President Will Not Authorize Invasion Without Authority From the Proper Source

By Associated Press. Beverly, Mass., Sept. 7.—Although Mexico without the fullest deliberation upon a step that would mean war, his friends declared that intervention is nearer than it has been since the first American troops were rushed to the border eighteen months ago. It can be stated on the highest authority, however, that should the president decide that intervention is the only course open to him, he will call congress in special session and demand of it the authority to send American troops across the border.

HARDWARE STOCK IN MAN'S STOMACH

Human Tool Box

Chicago, Ill., Sept. 7.—When physicians operated upon John Martiner at the county hospital to learn what had caused "terrible pains in his stomach" they found nineteen pocket knives, seventeen nails, five knife blades, a dozen screws and a silver dollar. Martiner, who has been known to Chicagoans as the "human tool chest" swallowed the articles on wages. "Eating knives and all that stuff never hurt me," said Martiner before the operation, "but sometimes I get terrible pains in my stomach." Physicians pronounced the operation successful.

AUTO AND STREET CAR FIGURE IN COLLISION

Chief Stampfli and Others in Smash-up Going To Fire But No One Is Injured

An argument between an automobile and a street car near the corner of Ninth and Broad Friday night resulted in a decision for the street car. The automobile was occupied by Fire Chief Stampfli and by C. E. Bessey and Bert Penny, the latter being at the wheel. They were going to a fire in Floral Heights and as they crossed Broad street the machine got beyond control, going into the street car track, with a car approaching a few rods away.

ABOUT THE TIPPING GAME

Drummer's Record Showing How He Was Always the Loser in the Proceedings.

"Arrived at Mansion house 8:45 o'clock. House full. Deaw back room over kitchen. Only one chair and one window. Bum bed. Bellhop moved chair twice, opened, then closed window as hint for tip. Next asked if I wanted anything else. Felt like kicking him out of the window, but gave him a dime. He didn't even say thank you," runs comment in the Commercial Travelers' Magazine.

"Washed and went down to office. Nother bellhop jumped for me with whisk broom. Chased me clear across office. Gave up a nickel. Hiked for hotel cafe. Supper slip, 95 cents. Got two halves and nickel back from 33 bill. Left half and cursed myself for it. Hat rack boy outside brushed hat. Got nickel.

"Got shaved next. Barber glared at me; tipped him a dime. Brush boy grabbed my hat. Brushed it some more. Nickel again. Wrote orders and wife. Got chased with whisk broom hornet again. Stung for nother nick. Played pool two hours. Pool keeper kept glaring till I tipped him. Nother sting. Back to the office. Fresh whisk broom hornet got after me. Gave up nother nick.

"Went to bed. Got woke up 5:00 a. m. by rattle of garbage cans. Rang for hot water. boy who brought it asked twice if that was all I wanted. Got mad and told him no. I wanted to see him get kicked down seven flights of stairs, then up again, to curse his tipworker. Breakfast bill just 75 cents. Got quarter back only from dollar. Left it for tip. Paid bill \$2.50.

"When hack for depot came three bellhops grabbed my things. One got grip, one sump case and third my coat. Nother chased me out with whisk broom. Was so mad by now didn't tip any of 'em. Heard 'em mutter 'tightwad' and 'damn skin' when I shut back the door myself. Footed up amount of tips for that one inning on way to depot just \$1.60! Damn this tip game, anyhow!"

SHE HAD MADE A MISTAKE

Questionable Commercial Transaction. However, in No Way Abashed the Old Lady.

Wherever buying and selling go on, there are those who do not scruple to take a little extra profit if it can be done secretly. The deed is not always carried off so boldly as in this amusing adventure related in Mrs. Phillimore's book of travel, "In the Carpathians."

The yellow horse—the Phillimore's journey was made in a peasant's cart drawn by a horse whose skin was the color of honey when the sun shined on it, and driven by a romantic and elegant Pole, whose name was Mlak—the yellow horse was preparing to shake the dust of Jostiska from his heels when an elderly Jewess detached herself from an excited crowd in the market-place and hurried toward the cart.

"My weight!" she demanded in a loud voice.

"What weight?" inquired Mr. Phillimore.

"In the sugar," replied the old lady.

"What sugar?" queried Mr. Phillimore.

Mlak came to the rescue. "I bought loaf sugar," he explained.

"The weight is in the sugar. I made a mistake," volunteered the aggressive lady with much wrath and no embarrassment. "Am I to wait all day?" she continued, impatient at the stupidity of these foreigners.

Guilelessly, Mlak produced the bag of sugar. A more knowing villager offered a bowl, into which the old lady hastily dumped the sugar, disclosing in the bottom a brass weight of three or four ounces.

"That's it," she said, unblushingly. "I forgot to take it out," and hastily restoring the sugar to her customers, she turned and marched back to the market-place.—Youth's Companion.

The Nobel Prizes.
Alfred B. Nobel, inventor of dynamite, died in 1896, and bequeathed his fortune, estimated at \$9,000,000, to the foundation of a fund the interest of which should yearly be distributed to those who had most largely contributed to the "good of humanity." The interest is divided in five equal shares, given away, "One to the person who in the domain of physics has made the most important discovery or invention; one to the person making the most important chemical discovery; one to the person making the most important discovery in medicine or physiology; one to the person who provides the most excellent work of an idealistic tendency; and one to the person who has worked best for the fraternalization of nations and the abolition or reduction of standing armies and the promotion of peace."

Be a Thinker and a Gentleman

Success Will Be Your Reward

By CHARLES F. THWING,
President of Western Reserve University

TO become a successful man BE A THINKER. At the same time BE A GENTLEMAN, using your thinking qualities for the benefit of yourself and for the good of your fellow man.

The one great way of making yourself a thinker is to THINK. Thinking is a practical art. It cannot be taught. It is learned by doing. Yet there are some subjects in the course which seem to be better fitted than others to teach you this art.

CONCENTRATION IN THE THINKER, CLEARNESS, COMPREHENSIVENESS, COMPLEXEDNESS, CONSECUTIVENESS, CONTINUITY—THESE ARE THE SIX BIG C'S WHICH ARE MARKS OF THE SUBJECTS WHICH TEND TO CREATE THE THINKER.

Of course you are and of course you will be a gentleman. In the creation of the gentleman as well as of the thinker the PERSONAL EQUATION COUNTS. In fact, it counts more in the making of the gentleman, for in this making truth is less important than the PERSONALITY.

As a gentleman YOU WILL BE A FRIEND AND WILL HAVE FRIENDS. In this relation of friendship in its earlier stages there is no part of life in which it is more important for you to exercise the virtue and grace of reserve.

All Americans Should Reciprocate the Great Love China Bears This Country

By the Right Rev. J. W. BASHFORD, M. E. Bishop of China

EVERY citizen of the United States must TAKE SOME OF THE RESPONSIBILITY FOR THE ESTABLISHMENT OF THE REPUBLIC IN CHINA.

You Americans who must have been startled at the appearance of the Chinese republic, you Americans who never set foot in China or taught a Chinese boy in America—even you CANNOT ESCAPE SOME RESPONSIBILITY.

YOU HAVE SENT FORWARD MISSIONARIES AND HAVE POURED OUT MONEY FOR SCHOOLS AND CHURCHES AND HOSPITALS AND HAVE NOURISHED THE FAMINE VICTIMS UNTIL YOU HAVE COMPELLED THE CHINESE TO LOVE THE VERY NAME OF AMERICA ABOVE THE NAME OF EVERY OTHER LAND ON EARTH.

You have built up such homes and schools and churches as have made the young Chinese entering them and sharing their blessings return to China tenfold MORE AMERICAN THAN YOU ARE YOURSELVES.

Are not our hearts drawn to China by the fact that in the formation of their constitution they have not drawn a single line from any political document in European history, but have taken our bill of rights and our AMERICAN CONSTITUTION and have made them the constitution of the Chinese republic?

Athletics Have Taken Place of Culture

By the Rev. NEWELL DWIGHT HILLIS of Brooklyn

LORD BACON once said, "Tell me what the young men in our universities are thinking about and I will tell you what the institution will be for the next generation." That is still true of some of the colleges where plain living and high thinking and old fashioned culture and solid scholarship still are cherished.

The sleeping car universities all stand for ATHLETICS AND PERSPIRATION—a few of the poorer colleges for Matthew Arnold's ideas of culture and inspiration. In the old Greece days they CROWNED THE POET with acanthus leaves, being related to the intellect.

NOW THE HONOR MEN ARE ATHLETES OF THE FOOTBALL AND BASEBALL TEAMS. AND THE ONLY PROPER THING FOR THE PRESIDENT OF THE FACULTY TO DO IS TO TIE A BLUE RIBBON AROUND THE CALF OF EACH HONOR MAN'S LEG AND A LINKED SAUSAGE ABOUT HIS WAIST THAT MODERN SCHOLARSHIP MAY HAVE ITS TRUE APOTHEOSIS. ITS FULL RECOGNITION AND APPROPRIATE REWARD.

IN A CLASS BY HERSELF

Odd Position of French Woman Who is Neither Spinster, Wife, Nor a Divorced Person.

According to French law, husband and wife who have been once divorced, and who, after due reflection, have found out that they can do no better for themselves, and have married each other a second time, cannot be divorced again. Sixteen years ago a gentleman who could not put up with the freaks of his wife sought and obtained a divorce, but after a year's reflection he forgave her, and they went again before the mayor. It was not long, however, before madame broke loose again, and tried the patience of her husband beyond endurance. He applied to the court for a remedy, but was told that all it could do for him was to pronounce a separation, although he would be always obliged to pay her alimony. He agreed, and years went on, and the lady also went on disgracing the name she still bore. The man again repaired to the tribunal and said: "My wife, who is separated from me, but who is still my wife and whose husband I still am, continues dishonoring me. What am I to do?" to which the magistrates replied: "You must go on paying her her allowance, because she evidently has need of it, but we will forbid her to use your name." The woman now is in a position that has never been provided for by legislation. She is not divorced, and never can be, and neither she nor her husband can ever marry again. Yet she is more than separated, because she cannot use her husband's name. She comes under no category, being neither spinster, wife, nor divorced, and she stands for a class that may be termed the "semi-divorced."

NAMES OF VARIOUS CLOTHS

Chiefly Derived From Their Place of Manufacture, Though Not in All Cases.

Muslin is named from Mosul, a city on the banks of the Tigris; Cambrie from Cambria, a town of France; Gauze is probably derived from Gaza in Syria, although some authorities hold to the Hindu "gast," meaning thin cloth.

Flax, which is commonly thought of as being of green hue, was named from its original color, a reddish brown. The word is really the plural of "bay," and the color is that of the horse which is known as "bay." A form of the word is common in many tongues.

Damask, quite obviously, is derived from Damascus.

Silk and serge are both derived from the Latin Seres, meaning the Chinese. These fabrics were first imported from that portion of Asia which is now southern China.

Velvet is from the Italian velluto, meaning woolly, this from the Latin vellus, a fleece. Vellum is a derivative of the same root—a pelt or hide.

Bandanna is from the Indian word meaning "bind or tie," and has reference to the manner of tying knots in the fabric to prevent the dye from reaching every part thereof. In this way spots are left white and a rude pattern remains in the cloth.

Alpaca comes from the animal of the same name in Peru. It is of the llama species and its wool is used to manufacture the fabric employed in the making of summer garments.

Calico got its name from Calicut, a town in India, once celebrated for its cotton cloth.

The Code Feminine

As soon as Mrs. Granger was fairly past, Mr. Compton heard an irritated "There! I knew it!" from his wife, and turned to see what was the matter.

"She's just as provoked as she can be to think that Mrs. Lombard and I didn't ask her to go out with us to see the Williams baby!" said Mrs. Compton. "She thinks that it was on account of her having said that she didn't find three weeks' old babies very interesting, when of course she'd make an exception of Lena Williams' baby. But that wasn't the reason we didn't ask her; it was because we decided all in a hurry, and there was just time to catch the train. She's made up her mind she won't propose our names for the book club!"

"How do you know she thinks all these things?" inquired Mr. Compton.

"My dear, didn't you see the way she bowed?" asked his wife in a pitying tone.

"Why, yes," said Mr. Compton. "I thought she gave a rather more pronounced bow than most women do, and smiled quite brilliantly."

"You dear thing," said Mrs. Compton patted his coat sleeve. "Of course she did! That's how I knew exactly what she was thinking."—Youth's Companion.

Index to Intoxication

The late George B. Cluett believed profoundly in temperance.

Mr. Cluett, at a temperance dinner once said:

"In moonshine districts, where the whiskey looks like water and is drunk like water, strange ideas prevail as to what intoxication really is."

"In a moonshine village, one Saturday afternoon, a man lay in the broiling sun in the middle of the road with an empty bottle by his side."

"He's drunk; lock him up," the sheriff said.

But a woman interposed hastily.

"No he ain't drunk," she said. "I jest seen his fingers move."—Philadelphia Bulletin.

A Word About Getting Your Groceries On Time

PHONES 432 & 232

NOTE MY DELIVERY HOURS

Perhaps one of the most difficult things about conducting a really modern and high class grocery store is the matter of deliveries. It is too frequently the case that each woman figures that her order can be given preference over all others and while I would like to do this the impossibility is obvious. When I installed an automobile delivery service I did so in order to hasten deliveries and be able to make them more often without being cruel to horses. I find still however, some women are not as thoughtful about placing their orders in time to catch my regular deliveries as they might be. I therefore wish that you would clip this ad out and paste it or pin it where you can refer to it in a hurry so that you may know just when to place your orders to get them at a certain time. My delivery schedule is as follows:

- 1st Car leaves store at 8 a. m.
- 2nd Car leaves store at 9:20 a. m.
- 3rd Car leaves store at 11 a. m.
- 1st Car leaves store at 2:30 p. m.
- 2nd Car leaves store at 4:15 p. m.
- 3rd Car leaves store at 6 p. m.

Except Saturdays when I will accept orders for delivery as late as 7:30 p. m. All orders must be in 15 minutes before the hour if any delivery in which it is wanted.

Entered at the Postoffice at Wichita Falls as second-class mail matter

Wichita Falls, Texas, Sept. 8, 1932

We suspect those Texas and Arizona cowboys who have been holding secret meetings are hoping not for peace in Mexico, but for some happening that will justify a foray into the Southern Republic. We are of the opinion that if they ever do cross the border there will be a great scattering among the Mexican rebels.

After years of exhortation when their appeals fell upon deaf ears suddenly everybody has awakened to the importance of the farmer getting the best possible price for his cotton and now all the capitalists want to loan money to the farmers on the staple. There is only one explanation to the general awakening to the situation and that is that the effect of all the exhortation and explanation by the farmers has been cumulative and that the results have become evident all at one time.

MORE MONEY FOR COTTON.

On Saturday the 14th, Hon. Peter Radford, president of the Farmers Union, will deliver an address in this city, discussing ways and means by which farmers may be enabled to secure better prices for their cotton

and other produce, which address should be heard by every farmer and business and professional man in Wichita county, as any method which brings increased prosperity to the farmer automatically adds to the prosperity of every merchant or professional man who supplies the wants of the farmer and his family.

President Radford is one of Texas great men and is doing a great work for our State and its people. He has enlisted the co-operation of many business men and bankers in his plan for warehousing early offerings of cotton to prevent prices being depressed through more cotton being forced on the market than the consumers can care for and every citizen of the county should not only avail himself of the opportunity to listen to this address, but feel at liberty to ask questions pertaining to the marketing of farm products in which he is interested or does not fully understand.

INTERVENTION SEEMS THE ONLY SOLUTION

act of the very last resort. In addition to the two regiments, Troop C of the Third Cavalry was ordered to the neighborhood of last night's skirmish on the Victoria ranch and Troop B Fourth Cavalry was ordered from Fort Huachuca to Aravaca, Arizona to strengthen the border patrol there.

The president authorized the export of 500 rifles and 150,000 rounds of ammunition to the beleaguered Americans in the Cananea district.

The United States probably will permit Madero to send troops through Texas and New Mexico into Chihuahua. Inasmuch as the State Department has demanded that Mexico send federal troops into Northern Mexico to protect Americans, it is assumed that the United States will co-operate with Madero in an effort to do this.

The Mexican congress, however, must first authorize the sending of troops out of its country. This was done in the Madero rebellion.

Burkburnett's Melon Carnival Big Success

The Texas-Oklahoma Watermelon Carnival, at Burkburnett came to a close last night in a final splurge of glory after two days of unparalleled success. During the two days' celebration thousands of people visited the town and no one was allowed to leave with less watermelon than he could eat.

The main business street of the city was given over to the carnival and all the merchants put on special sales during the two days and had more customers than they could wait on. The carnival is pronounced not only a great success as an entertainment but as a means of bringing business to the town as well.

At one end of the street there was a wild west show and at the other a merry-go-round and in between were the usual shows that go to make up a carnival.

At one side under a big shed was piled a heap of big juicy watermelons. The pile was sixty feet long and in places was twenty feet high. At all hours of the day a watermelon cutter was in charge waiting to split a fifty pound melon through the center for any one was ready to eat. The melons were free and everybody was urged to eat all they could hold.

Saturday afternoon an unique contest furnished much amusement for the crowd. The contestants were men on ponies. A portion of the street was roped off and boxes containing potatoes were placed at one end and the same number of empty boxes at the other end. The contestants were armed with sharp sticks and the game was to see which could quickest transfer a box of potatoes, one at a time, from one end of the enclosure to the other. There were half a dozen entries and the contest proved more exciting than any polo game imaginable.

One of the big features of the carnival was the display of agricultural products. This was displayed in a store room entirely given up to the purpose. There were more than five hundred entries and the display was the finest ever seen in Northwest Texas.

The prizes were awarded late Saturday evening and a partial list of the prize winners follows:
Indian corn—First prize, H. W. Skaggs; second Mr. Payton.

Pittsburghers In "Contempt" Of This City

When the members of the Pittsburgh trade excursion now touring the south and west arrive at Oklahoma City this week, a sure enough deputy sheriff will serve each member of the party with a "citation for contempt," from the "circuit court of Wichita county" for the failure to accept the invitation to come here and include Wichita Falls in their itinerary.

The invitation was extended by the Young Men's Progressive League, but the Pittsburghers had already arranged their route and were forced to decline. The "citation" follows:

"In the honorable circuit court of said county and state:

"Whereas it appears to this court that on or about the 25th day of July, A. D. 1912, you were extended an invitation to visit the city of Wichita Falls, Texas, said invitation being extended, by The Young Men's Progressive League of said city, and

"Whereas it has been made to appear to this honorable court that said invitation was declined, and

"Whereas it further appears to this honorable court that such a trip would have afforded you an opportunity of inspecting 'the Pittsburgh of the Southwest,' and that you deliberately refused to take advantage of this rare opportunity, now

"Therefore, it is ordered and decreed by this honorable court that you present yourself before the justice bar at the earliest possible moment to show cause why you should not be punished for contempt."

"MAXWELL JONES, Judge of the Circuit Court of the 121st district of Texas.

"Attest: "R. B. PPE Clerk of said court.

(SEAL.) "NOTE:—A waiver of this citation will be permissible provided you read carefully the statistics and study the annexed map of a city which is truly "A Pittsburgh-in-the-making." "JUDGE JONES."

OIL FIELD WORKERS

WIN FIRST CASE

Jury at Electra Finds Defendant Not Guilty of Violating Sunday Law

Hauling lumber for a derrick onto a lease where the contract requires operation to begin within a specified period does not come within the purview of the statute against work six days.

At least that is the view six good men and true in Justice Ashworth's court at Electra took Saturday when a man named Dickey in the employ of the Corsicana Petroleum Co. was on a charge of violating the Sunday law. After a hard fought trial the jury promptly acquitted Dickey.

More than fifty other cases against oil field workers charging the same offenses ran on Justice Ashworth's docket, but it is improbable the others will now be tried, since the jury turned Dickey loose. The rigid enforcement of the statute against Sunday labor would greatly interfere with work in the oil field, it is claimed.

In the trial of Dickey the state was represented by Lorenzo Fulton who is acting for County attorney Boone during the latter's absence. Fred Weeks represented the defendant.

NUMBER 101

Conservatory to Reopen.

The Wichita Falls Conservatory of Music will open for the second session of school work next Monday morning, and will remain open until the first of June or until ten months have passed. The conservatory will begin the session with over one hundred students enrolled, including a number of out of town students. Most of the members of the faculty have already arrived in the city ready for the beginning of the session, and the others will be here in time for the opening. The names of the members of the faculty will be published in a few days. Among the out of town students who have already enrolled in the Conservatory are Miss Meta Lowery of Holliday, Miss Wina Newlan of Frederick, Oklahoma, Miss Beattie Webb of Petrolia, Mrs. W. H. Perkins of Amarillo, Miss Helen Kiddle of Electra, Miss Bessie Barry of Nocona, and Miss E. Flotis of Nocona. Mrs. B. Dunneville has been recalled from a trip to London, where she expected to spend a year of study, and will become an instructor in the conservatory.

Mrs. Bradley Entertains.

An informal and quite enjoyable affair was a Forty Two party given last Thursday evening by Mrs. J. W. Bradley, assisted by her sister, Mrs. F. D. Jones of Fort Worth and by Mrs. J. T. Butts. A number of friends of John Butts were invited in to spend the evening and meet Frank Jones, a cousin of John Butts. They listened to piano music and songs by several young ladies, and attempted to solve a number of puzzles propounded by Mr. Bradley, who seemed to be a past master of the art. Refreshments of ice cream and cake were served to

those present who included Misses Lillian McGregor, Gertrude Orth, Mary Orth, Geneva Kennedy, Ruth Trueblood, Gladys Herron, Pauline Mears, Alice Burnside, and Messrs. John Butts, Frank Jones, Harold Murph, James Kennedy, Leslie Millican, Bert Anderson, Carter McGregor and Jerome Stone.

Kerr-McInnis Nuptial.

At the home of the bride's parents, Mr. and Mrs. Frank McInnis, 1312 Austin street, occurred the marriage of Miss Sue McInnis to Phil Kerr last Thursday evening, the ceremony being performed at eight o'clock by Rev. McFadden, pastor of the Central Presbyterian church. Only a few friends and relatives of the principals attended. Mr. and Mrs. Phil Kerr will be at home to their friends at 1312 Thirteenth street, after October 1st.

High School Instructor Weds.

Prof. F. E. Barr, head of the manual training department at the Wichita Falls High School was united in marriage at Parsons, Kansas, last Sunday to Miss Lena Pearl Smith, daughter of Eliza D. Smith of that city. Miss Smith, it is understood, was a teacher in the public schools at Parsons, and is a very popular young lady. The couple will be at home in Wichita Falls after October 1st.

Baracas Entertain Philatheas.

The Baraca Bible class of the First Baptist church entertained the Philatheas of the same church Thursday night at the home of Dr. and Mrs. R. C. Smith. The evening was spent in playing bunco, forty-two and other games, at the conclusion of which pink and white ice cream and cake were served by the Misses Frances, Emma and Lucile Smith. Those pres-

ent included: Mesdames Phillips and Burgess, Misses May Baker, Alice Saley, Leah Taylor, Ruth El-Hott, Thora Fore, Blanche Lawler, Abbie Thompson, Audrey Adickes, Messrs. Lee, Bernard, Nelson Shumate, Morgan, Lawler, Ferguson, Walker and Brown.

The ladies of the Woman's Mission Society of the M. E. Church, South, will hold a dollar social at the home of Mrs. Jeff Waggoner, 2100 Tenth street, tomorrow at 4 p. m. All members are requested to attend and bring lunch for one.

STIMSON & ANDERSON ACROSS STREET FROM POST OFFICE

International Aviation Meet to Start Monday

By Associated Press. Chicago, Sept. 7.—America's third international aviation meet, which opens Monday will establish a new mark for America in the number of aviators of international fame entered. Chief of these are the pilots of the foreign and American racers who compete in the Gordon Bennett world's championship aeroplane race, the first event of the meet.

The meeting embraces daily monoplane and biplane handicap races, a scratch biplane and monoplane race which is designed to give further demonstration of the skill of the Gordon Bennett drivers, and a 40 kilometer race for all types, handicapped. Other contests are bomb and mail throwing, accuracy landing contests from heights of 1,000 feet without a motor and similar events in which skill of the operator is tested.

This is the fourth time aeroplanes have been matched for the world's championship, as typified by the \$10,000 silver trophy given by James Gordon Bennett in 1908 to be contended for annually by licensed pilots of the Federation Aeronautique Internationale.

Twice before a single American entrant has driven his aeroplane ahead of his competitors and brought the silver trophy to America. Glenn H. Curtis was the first winner, at Rheims, France, Aug. 28, 1909. His biplane finished the 12.4 mile race in 15 minutes 50 seconds, or five seconds ahead of the looked for winner, Louis Bleriot's monoplane. There were five starters but only four of the five were able to cover the distance, which

then was considered an almost impossible journey for an aeroplane.

In New York, on the Belmont Park aerodrome, the second contest was held. The course had been lengthened to 100 kilometers, (62.14 miles) and Claude Grahame White, England's best known aviator, won in 71 minutes four seconds, in the first 100-horsepower Bleriot monoplane built. Alfred Lablanc of France led in the race in a similar machine, up to the last lap of the field, when he ran out of gasoline and in landing, crashed into a telegraph pole and smashed his aeroplane.

Grahame White's victory took the trophy to England, where it was contested for in 1911 on the Isle of Sheppey at Eastchurch, July 1. Charles Terrey Weymann, sole American entrant again, went up in a 100-horsepower Nieuport monoplane and captured the trophy. His time for the 150 kilometers was 81 minutes 36 seconds, a speed of 78 miles an hour, then a world's record. Lablanc again set the world's championship, had to content himself with second, being twelve minutes slower than Weymann.

Speed alone determines the winner, there being no restriction on the construction of the aeroplane. Because of the high speeds attained, few aviators have cared to enter, and in the three events held previously, a total of thirteen entrants only appear on the lists.

This year the race has been lengthened to 200 kilometers (124 miles), and the course was laid out as an ellipse of 4.14 miles, requiring thirty laps to complete the races in

the French elimination trials Jules Vedrines made a speed of 106 miles an hour which established expectation as to what speed would be the choice machines of the six nations competing—America, England, France, Holland, Belgium and Switzerland.

France designated Jules Vedrines and Maurice Prevost, pilots of Deperdussin, and Andre Frey, who drives an Hanriot monoplane, as its representatives. England had named Claude Grahame White, Gustave Hamel and George Dyott, but it was not certain until the last minute just who would make the actual flights.

Belgium's representatives, Charles Morok, died of typhoid fever a few days before the race, and Jan Wymaen, who was to represent Holland, was so disappointed in the showing of his Oertz monoplane he withdrew. Edmund Audemars, Switzerland's representative, was not certain of entering and as for America the choice of pilot will not be definitely settled till the day before the race. An American defender prepared to carry a 160 horsepower motor, the largest aero motor ever designed.

The hydroaeroplane, or airboat, aviation contests are the first ever held, outside of the military competitions held in France for selection of government machines. The contests must continue five days during which races and contests are evolved to demonstrate how the multi-use machine may be guided on the water, be raised into the air and flown as a flying craft.

In addition efficiency prizes have been offered, the contest being: the number of passengers carried, the length of time one, two and three extra persons may remain aloft, and other similar competitions.

News From the Oil Fields

Dismukes Leases Transferred.

E. E. Dismukes, who owns a number of leases in the country between Iowa Park and Electra and between both points and Red River, has sold his interests to the Buffalo Oil company. The deal includes over six hundred acres, and the cash consideration is \$3000. Several of the lease contracts call for the drilling of wells within the year.

C. A. Martin of Tombean, Grayson county, leased 110 acres near Electra, in the Tarrant school land tract, to E. J. Myers of Electra. The consideration was not stated.

To Drill in Jack County.

The Union Oil and Gas Company, which was recently incorporated at Austin with \$100,000 capital stock, intends to put down several wells in Jack county. The company's headquarters will be in this city. Jack county has already been the scene of some exploitation, but no oil was found. It is understood that drilling will begin shortly.

Another Supply House?

It is rumored that another of the supply houses at Electra is shortly to move its offices and warehouse here, so as to be closer to the other parts of the field. Some of the oil men here believe that with the discovery of additional wells to the eastward, still others of the supply concerns will establish their branches here, where they can conveniently serve both the Electra and Petrolia operators.

New Company Chartered.

The Interstate Oil Company has been chartered with a capital of \$50,000. Its incorporators are J. E. Head of this city, R. M. Mayer and F. E. Couch of Fort Worth. Mr. Head will be president and general manager of the company. It has 2400 acres of leases in the Electra fields and will start a well at once northeast of the Eeds well.

Corsicana Lease Closed.

J. R. Brewer of Electra has leased to Corsicana Petroleum company, Blocks 13 and 14 of Granger subdivision of east half of S. A. & M. G. R. R. survey No. 1; \$3100 cash, one-eighth royalty, drilling to start in ten months.

Developers to Shoot Well.

The Developers Oil and Gas company is putting a rig over its No. 3 at Petrolia and will clean out the hole and shoot it. Their theory is that the oil sand was plastered up by the pressure when the hole was drilled with a rotary and that when the hole

is cleaned out and shot that the oil will flow.

All Departments Cited.

Dallas, Texas, Sept. 7.—Word was received here by United States Marshal Green, that service has been secured on the Standard Oil Company of New York at its office, 26 Broadway, in connection with the recent indictment of that and other oil companies charged with violation of the Sherman anti-trust laws in Texas.

Oil Man Loses Watch.

George Sommers, the well known oil man, awoke in his quarters in the Joline flats Friday morning to find that someone had entered his room during the night and had removed his gold watch from his trousers. Nothing else was taken and so far as known none of the other occupants of

the building were disturbed. The watch was valued at \$40.

The town of Texmo, Oklahoma, in Roger Mills county near the line of the Wichita Falls and Northwestern, isn't any more. It has officially ceased to exist. The line of the Northwestern missed Texmo by several miles and now, where there was a few months ago a thriving little inland town, there is now only a few buildings surrounded by the bare prairie. Practically all of Texmo's inhabitants have moved to Leedy and Moorewood, on the Northwestern and Texmo has ceased to exist.

DR. H. A. WALLER DENTIST

Office: Room 207 Kemp & Kell Building. Phone 836.

I take pleasure in announcing to my former friends and patrons that my office is now open on 2nd floor Kemp and Kell building. My new office is equipped with all the latest sanitary dental appliances known to modern dentistry, including two full sets of instruments and an electric sterilizer. This enables me to use sterilized instruments on each patient. It is a well known fact that many contagious diseases, such as tuberculosis, diphtheria, pyorrhea, (that dreaded disease which causes the teeth to become loose and fall out commonly known as scurvy) and many blood diseases can be transmitted from the mouth of one patient to that of another by the dentist. It affords me great satisfaction to give my patients this safeguard. Soliciting a renewal of your liberal patronage of past years, I beg to remain, Yours sincerely, DR. H. A. WALLER.

1908 MURDER CASE IS NOW REOPENED

ARTHUR MILLS INDICTED AT GRAHAM LAST WEEK ON PATRICIDE CHARGE

WITNESS WENT INSANE

Father of Indicted Man Met Death Four Years Ago—Man Who Lost Mind Caused Delay

More than four years after the murder of C. C. Mills near Newcastle, Texas, an indictment has been returned by the Young county grand jury and Arthur Mills, aged 27, son of the murdered man, is to face a jury on a charge of patricide.

Fate, which at first seemed to play into the hand of the slayer of C. C. Mills, after four years turned the tables. When the crime was committed, a man named Patton, wanted by the State as a witness, lost his mind and no indictment was ever returned. But today Patton is again in possession of his faculties after spending a long time in the state asylum and last week the grand jury at Graham returned an indictment against young Mills.

The latter, who at the time of his father's death was superintendent of schools at Seymour, has been studying law for several years. He is married.

The killing took place in 1908. C. C. Mills was temporarily at his ranch in Young county near Newcastle and was killed by a blow on the head apparently with an axe.

Arthur Mills claimed that he was sleeping with his father and that he was awakened by hearing the latter groan. He also claims to have seen another man in the room and says that this man struck at him and then jumped out of the window. Young Mills exhibited bruises which he declared were inflicted by his father's assailant. The elder Mills lived about a week, dying without ever regaining consciousness.

The young Mills was placed under arrest, together with Patton, who lived with his family in the ranch house. Patton gave evidence said to have been very unfavorable to young Mills, who was held for grand jury action. Before the grand jury took action, Patton went insane and was committed to the asylum.

The case was shelved until Patton again had recovered from his attack of insanity and appeared before the present grand jury, which has returned the indictment against Ar-

To The Farmers!

Wichita Falls, Texas Sept. 5, 1912.

Inasmuch as the Red Gin here in Wichita Falls did not operate last season there is an impression prevailing that it will not run this season, so I take this means of informing the public that I have leased this gin, and have during the past two weeks put it in fine shape and am now ginning. This plant is located across the street from the Foundry and near the old compress. You doubtless know that it was thoroughly remodeled with new machinery about a year ago. It has four Pratt Gin stands, latest Cleaner Feeders, a new Murray Cleaner and can do the very best of work. The gin stands are run by Mr. Ben Gardner, a first class, practical ginner of long experience. The office is handled by Mr. A. J. Blackwell who managed a Farmers' Union gin at Celeste, Texas, last season. Prompt and perfect service is guaranteed. This gin will be in the market at all times at full prices for bale cotton, seed cotton and cotton seed. Give me a trial. I will greatly appreciate a share of the ginning that comes to Wichita Falls. Telephone No. 575 for the markets, or come to see us.

Yours truly,
ALAN RUTLEDGE

To any strangers, I will say that I have owned and operated a gin at Randall, Okla., past five years, also one at Burk Burnett last season, and the farmers at those places can tell you of my dealings with them.

Vacation Days Are Over Schools Open Tomorrow

Some Wichita Falls School Buildings.

The public school session of 1912-13 begins tomorrow morning and everything is in readiness for the opening of the session. The teachers hold their preliminary meeting yesterday morning to make plans for the term. While the first day or so of the term will be taken up largely with organization details, purchasing books, and

the like, it is expected to get down to actual class work in a very short time. The boundaries of the various schools are as follows:

High Schools—Fronting Broad street between 11th and 12th streets. All pupils in the High school grades; all 7th grade pupils in the city, and one room of sixth grade from Austin School.

Austin School—Fronting Bluff street, between Thirteenth and Fourteenth streets. All pupils in grades first to sixth, inclusive, residing south of Ninth street and east of Grace street.

Alamo School—Fronting Eleventh street near Floral Heights. All pupils in grades first to sixth, inclusive living southwest of Grace street.

San Jacinto School—Fourth street between Barnett and Austin streets. All pupils in grades first to sixth, inclusive, east of Grace street and north of Ninth street.

Travis School—Adams and Third streets. All pupils in grades first to fourth, inclusive, living east of the Fort Worth & Denver Railway.

Washington School (colored)—Southeastern part of town. All colored pupils of the city will attend this school.

The lines between ward buildings are subject to change from time to time as the change in population or the equipment of schools may demand.

The teachers of the city held their first meeting of the current school year yesterday at the high school building. Nearly all of the teachers were present. Superintendent Carpenter opened the meeting with a short but interesting talk, the keynote of which was "Progress." Among other things he said that stagnation begins where progress ceases. He then urged the teachers to keep themselves abreast of the times by reading the latest literature on educational topics.

Next the teachers elected officers for the ensuing year, and the following were named: Geo. H. Carpenter, president; J. B. Jones, vice president; W. K. Niles, secretary; E. L. Vance, reporter. The work as outlined for the teachers during the year will be a study of the following educational texts: "The Coming Generation," by Forbush and "Genetic Philosophy of Education," by Partridge.

Superintendent Carpenter closed the meeting with a discussion of some particular problems pertaining to school work.

FIREMEN TO GIVE MASQUERADE BALL AT LAKE WICHITA

One of the biggest closing features of the weekly dances at Lake Wichita will be a grand masquerade ball given at the lake pavilion next Friday night for the benefit of the

Wichita Falls fire department. The ball will start promptly at 9 o'clock and proper arrangements have been made with the traction company to have enough street cars to accommodate everyone. The music for the occasion will be furnished by Katz full orchestra. The removal of the masques will take place at 10:30 p. m. The admission will be \$1 for gen-

tleman and ladies will be admitted free.
