VOLUME VI WICHITA FALLS, TEXAS, WEDNESDAY, SEPTEMBER 11th, 1912 NUMBER 104

REBELS DEMAND SURRENDER

REBEL GENERAL ROJAS GIVES AGUA PRIETA 24 HOURS IN WHICH TO CAPITULATE

FEDERALS OUTNUMBERED

Rebels Have Thousand Men and Federals Only 200—Other News From Mexico

By Associated Press. Douglas, Ariz., Sept. 11.—The rebel leader, Col. Antonio Rojas, formally demanded the surrender today of Agua Prieta and unless the town was surrendered within 24 hours Rojas declared he would attack with one thousand men.

The federal garrison numbers two hundred.

INTERVENTION SEEMS FARTHER OFF

By Associated Press. Washington, D. C., Sept. 11.—Intervention in Mexico seems a step farther off today. Rebel raiding on the border is expected to be ended by the federals who will be permitted to travel through Texas and New Mexico to attack the insurgents on the frontier of Chihuahua and Sonora.

FEDERAL GARRISON AT OJINAGA SURRENDERS

By Associated Press. Marfa, Texas, Sept. 11.—The federal garrison at Ojinaga, Mexico opposite Presidio, Texas, surrendered to the rebels last evening at 5 p. m. according to advices reaching here this morning from the scene of the fighting.

Gen. Sanchez in command of the federals was in Presidio at the time of the surrender, trying to secure more ammunition for his men. Five men are reported killed in the Ojinaga but on which side they fought has not been specified in dispatches reaching here this morning.

ESCAPES THROUGH REBEL LINES

By Associated Press. Agua Prieta, Sept. 11.—Walter Douglas who has been missing for two days escaped through the rebel lines south of Cabollona today and arrived here safely with a companion. He fled on a railroad motor vehicle which the two men had to carry past two bridges destroyed by the insurgents.

MEXICO MAY NOT SEND TROOPS THROUGH UNITED STATES

By Associated Press. Washington, D. C., Sept. 11.—A possibility that Mexican federal troops will not be taken from El Paso to Douglas developed today when it was ascertained officials were reluctant to give the rebels the advantage of knowing where federals will enter the United States, time of entrainment and where they are likely to recross the border.

COLQUITT WILL MAKE NO STATEMENT

By Associated Press. Austin, Texas, Sept. 11.—"I have given my permission for the Mexican troops to cross the boundary and travel on Texas soil. There is no other statement for me to make with regard to the matter," was Governor Colquitt's only comment on the transportation of Mexican troops over American soil, permission for which was granted from Washington yesterday.

co where there are daily engagements. The rebels are said to be slowly increasing in boldness.

GEN. STEEVERS DISPATCHES

By Associated Press. Washington, D. C., Sept. 11.—Brigadier General Steever's dispatches to the battle of Ojinaga report the rebels repulsed. Gen. Steever reported the situation on the American side of the line quiet.

Brigadier General Schuyler reported many rebels just across the border. His last night's dispatch says a force of seven hundred men disabled a train south of Naco and took possession of San Pedro. They threatened to dynamite bridges.

CARS ORDERED FOR MEXICAN TROOPS

By Associated Press. El Paso, Texas, Sept. 11.—Cars were ordered to Juarez today by the Mexican federals for use of troops to be moved through the United States to Douglas, Arizona. The troops were expected to be moved from Juarez tomorrow.

PROGRESSIVE ELEMENTS CONTROL IN COLORADO

By Associated Press. Denver, Colo., Sept. 11.—Incomplete returns today indicated the nomination at Colorado's first primary yesterday of Democratic and Republican tickets nominated largely by representatives of the Progressive elements. The vote was extremely light.

HORSE KILLED IN A RUNAWAY

Animal Dashed into a Farm Wagon and Fractured Skull—No One Injured

A runaway horse hitched to a light delivery wagon dashed madly down Seventh street from a point near the railroad tracks yesterday afternoon about six o'clock and turning at Ohio avenue, ran into a farm wagon standing nearby and fell dead on the sidewalk with a fractured skull from which the brains had been spattered.

SCHPEPS MADE STATEMENT TO ASSOCIATED PRESS MAN

By Associated Press. Memphis, Tenn., Sept. 11.—A representative of the Associated Press secured a statement from Sam Schepps in the private office of the chief of police at Hot Springs, Aug. 13. Schepps voluntarily offered to swear to this statement and a copy of it was given at his request to Mr. Ruben for District Attorney Whitman. Schepps declared he had not talked to newspaper men after his arrest until August 12 and said he had not told any persons any part of what he proposed to reveal to Mr. Whitman.

MORE HOGS ALONG THE NORTHWESTERN

Fort Worth Packers Planning Campaign of Education to Encourage Hog Raising

More hogs from the Wichita Falls & Northwestern country are wanted by the Fort Worth packeries who are planning a campaign of education in that section. In the past the Northwestern country has sent many fine porkers to the Fort Worth market and the packers feel that with an organized effort, the hog production could be materially increased. The present is considered an especially opportune time for such a campaign in view of the fact that good weather has given the Northwestern farmers plentiful feed.

HOGS FROM THE NORTHWESTERN COUNTRY ARE OFTEN THE "TOPS"

Hogs from the Northwestern country are often the "tops," that is, the highest priced stock in the Fort Worth market and this has attracted the attention of the packers to the hog raising possibilities of the Northwestern section.

E. W. Grogan of Byers, was in the city today after a trip into Archer county in search of cattle to feed during the coming fall and winter.

DEALS IN CREDIT NOT IN MONEY

SPEAKER AT MEETING OF BANKERS ASSOCIATION DISCUSSES "MONEY TRUST"

TALKS OF THE INQUIRY

Says Banks Should Not Be Forced to Disclose Confidences With Customers

By Associated Press. Detroit, Mich., Sept. 11.—Speaking to the subject "The Money Trust Inquiry," George M. Reynolds, president of the Continental and Commercial National Bank of Chicago today declared, "If a banker can be forced to disclose a confidential relationship between his bank and its customer, it would require but a short step further to capitalize for the gratification of prejudice the confidences between an attorney and his client, as well as the secrets of the confessional."

Mr. Reynolds spoke before the Trust Company section of the American Bankers Association at its annual convention and disavowed any antagonism to the congressional investigation by the House committee.

"Believing as I do," said the speaker, "that open minded, honest agitation of any question in which the public is interested, prompted by a laudable purpose and kept free from animus and prejudice, will tend to secure a proper solution of that question, I desire to disavow any antagonism for or opposition to the impending investigation of the so-called 'Money Trust' by the House Banking and Currency Committee; on the contrary, I shall be glad to do what I can to co-operate with the members of that committee so long as their activities are exerted along the lines of an honest endeavor calculated to promote better methods and higher ideals in business."

Banking conditions were discussed by the speaker, who said in part: "The fact that 95 per cent of the business of this country is done upon credit, and that the use of actual money in transactions has been reduced to the minimum, makes it very easy for people who do not properly discriminate between credit and money itself to become confused in the application of the terms; and especially is this likely to be the case with those who have given so little study to the subject that they look upon a bank as being an institution dealing in money, whereas, in reality a bank deals in credit, and the money it carries in its vaults is only an incident to its business, being carried only in an amount sufficient under the law of averages to make it possible for the bank to pay its obligations upon demand under normal conditions."

"This confusing of credit with money, as it is related to business, has caused much misapprehension on this subject and resulted in more or less honest criticism by those who do not realize that the money power as it is usually applied relates to the power or control of the credit which may be extended against either money or other tangible liquid assets easily or quickly convertible into money; and in view of the temper of the people toward large aggregations of capital, it is not surprising that there has also arisen much confusion and misconception through the use of the words 'Money Power' and 'Money Trust.' Oftentimes, where quotations of alleged statements are made, the word 'trust' is either through confusion or arbitrarily substituted for the word 'power' making it appear as 'money trust' thereby changing the meaning of the statement as it was originally made."

"I disclaim any knowledge, to say nothing of any connection with any money trust of any character, and I feel I would be derelict in my duty if I were not to say to you that I do not believe any such trust exists."

"If a little more of the spirit of fairness were to be injected into a consideration and discussion of this subject, the masses of the people would be less inclined to hold prejudice against or criticize banks, for, after all, the banks are only the warehouses of the credits of the community and the credits they control are subject to the ebb and flow incident to the fluctuations in business."

"I have heard more or less criticism of banks in this country upon the theory that the money power is in the hands of too few people."

"Inasmuch as whatever control individuals may now have of our banking power comes to them under and by virtue of the National Banking law, as the result of a concentration of reserves in the central reserve cities and through legitimate practices in the ordinary trend of business, and not, mark you, through any violation or evasion of the law on their part, would it not be far more becoming

WEATHER FORECAST

Unsettled, showers tonight or Thursday.

to criticize the law which forces this condition rather than to criticize the men who under the law have the condition forced upon them?

"As one who has been accused of admitting that the money power under existing conditions, or the power to extend credit in times of crises, rests in the hands of a few bankers in this country whose institutions carry the surplus banking reserves, I have for three years past been making a plea to the people of this country to assist in securing legislation providing for a system of banking and currency, which it is believed, will very materially decentralize the money power by placing it within the control of several thousand banks, rather than to have it literally controlled by the bankers in the central reserve cities as at present."

"So far as I know and believe, the majority of the bankers in the central reserve cities recognize the enormity of the responsibility which rests upon them under the existing law and would welcome any legislation that is just and fair which would both minimize this responsibility and free them from the unjust accusations that are constantly being made against them."

"The banks of the country are the servants and not the masters of the people, and it is always to their advantage to serve the people provided conditions are such that they can do so without an infraction of the banking law."

OVERALL LEASES FILED FOR RECORD

THREE TO G. W. MASON AND ONE TO F. CULLINAN MAKING 477 1-2 ACRES

Record Shows Mason Made \$7500 On \$1500 Investment in Five Days

Two leases of 150 acres each and one of 77 and a half acres out of survey No. 2 abstract No. 711 Wichita county from H. A. Overall and wife to G. W. Mason were filed for record in the county clerk's office yesterday. The leases were executed on Sept. 5th and for each lease the consideration stated in the instruments was \$500 cash with rental and drilling clauses. Acknowledgement of the cash considerations is contained in the instruments filed for record.

CIVIL SUIT IS RUMORED

An assignment of the same leases by G. W. Mason to W. B. Corlett was also recorded. The consideration is given as \$9,000 cash.

Another lease on 100 acres out of the same survey from H. A. Overall and wife to Frank Cullinan was recorded today. The consideration for this lease was \$7500 cash.

It was reported this afternoon that a civil suit would be filed in connection with the leases made by Overall to Mason but no action had been filed.

The land in question is about midway between the Marriot and the Eeds tracts being a little north of a line between these wells.

OIL NEWS

27 NEW WELLS AT ELECTRA SINCE AUGUST 15

Twenty-seven new wells have been started since August 15 in the Electra field, according to data compiled by those best informed, making the past month one of the most active periods in the way of new work since the field was opened. Activity was stimulated by the Eeds and Marriot wells, and both Electra and Wichita Falls are feeling the good effects of the busy times. There are many new faces among the operators, scouts and leasers both here and at Electra and the field is more than holding its own.

MINISTERS IN BAYLOR'S LINE-UP

By Associated Press. Waco, Texas, Sept. 11.—Several of the men who will try for gridiron honors at Baylor University this fall will be ministers according to the prospects at the first practice yesterday. Capt. L. L. Cooper, is a young minister and D. D. Crimm, who came from Howard Payne College at Brownwood, promises to make a strong addition. He has baptized 427.

WILSON REVIEWS PARADE TODAY

SAYS IS EASY TO MAKE SPEECH BECAUSE THERE IS SO MUCH TO CREATE ENTHUSIASM

"WE ARE ON RIGHT SIDE"

Real Difficulty Has Been That Government Didn't Hear the People Candidate Says

By Associated Press. Jersey City, N. J., Sept. 11.—Gov. Wilson reviewed the parade of the Hudson Democratic Association here at noon and made a brief speech.

"There is so much to create enthusiasm," he said, "that it is very easy to make a speech. There was a time, I dare say, when we had to hump pretty hard to get enthusiasm in expectation of victory; but now we don't have to hump at all, because we are on the right side. We are absolutely united."

"The real difficulty in the government has been not always that it has been deliberately doing wrong, but that it has not known what was right, because it wasn't in real contact with public opinion. It did not hear the people, because it did not listen to the people," he added.

BIG VOTE AGAINST PROHIBITION

By Associated Press. Little Rock, Ark., Sept. 11.—Latest figures on Monday's election indicate that statewide prohibition has lost by at least twelve thousand majority in the State. There may be even a larger vote against the measure.

Previous forecasts as to loss of other measures submitted under initiative and referendum are verified by late reports today, although official returns will not be known until next Monday.

PROGRESSIVES OUTNUMBER REPUBLICANS

By Associated Press. Phoenix, Ariz., Sept. 11.—Progressives in Arizona cast a much larger vote than did Republicans at yesterday's primary according to returns so far received here. The Democratic vote is reported heavy. The complete count is not expected for forty-eight hours.

IMPROVEMENT NEEDED ON PETROLIA ROAD

Joint Action by Wichita and Clay County Commissioners Urged—Road in Bad Shape

The road between this city and Petrolia is the subject of considerable complaint at present and it is possible that some joint action of the Clay and Wichita county commissions will be secured to make needed improvements. While the Clay county end of the road is in bad condition, the worst spots are on the Wichita side of the county line, only a short distance from this city.

A number of Clay county citizens to last week's celebration in automobiles, were bogged in a mud hole about a mile from the city limits. Some were able to back out and go around by way of Jolly, while others had to get teams and be pulled out by that homely method.

One plan suggested is to construct a new road to the oil and gas field of Clay county, cutting off several miles and giving a much more direct line of travel. It is believed that this could be done as cheaply as repairing the present road and the commercial organizations of this city are taking the matter up.

MORE TROUBLE AT CUMMINGS

By Associated Press. Cumming, Ga., Sept. 11.—Race hatred was intensified here and further bloodshed is imminent because of the burning of the store of W. J. Duice early today, supposedly by negroes in retaliation for the lynching of Ed Collins a negro implicated with Ernest Cox, confessed slayer of a young white woman.

The burning of the store was plainly the work of incendiaries and blood-bounds have been put on their trial. In the event of a capture a lynching is almost certain.

AVIATION TAKES ANOTHER LIFE

Lieutenant in German Army Falls With Aeroplane While Scouting During Maneuvers

By Associated Press. Dresden, Saxony, Sept. 11.—Lieut. Selbert, an aviator, attached to the Red army in the Imperial maneuvers now in progress in Saxony, fell with his aeroplane while scouting today and was killed. His companion, Lieut. Zimmerman was seriously hurt.

SPANISH-AMERICAN WAR GENERAL DEAD

By Associated Press. Savannah, Ga., Sept. 11.—Gen. W. W. Gordon, of this place, brigadier general commanding the second brigade first division of the Fourth army corps United States volunteers during the Spanish-American war and a Confederate veteran, died today at White Sulphur Springs, Va., according to a message received here today.

The body will be brought here for burial.

FIREMEN'S BALL AT LAKE FRIDAY NIGHT

Advance Sale of Tickets Has Been Heavy and Preparations Are Being Made For Large Crowd

The Wichita Falls Fire Department Masquerade Ball next Friday evening will probably close the dancing season at the lake pavilion and efforts are being exerted to make it a big success.

The ball will start at 8:45 and the unmasking will not take place until 11 p. m. Katz orchestra will furnish the music. Street cars will leave the city for the lake at 7:26 and the traction company is arranging to take care of a big crowd.

The advance sale of tickets has been heavy. The fire department has placed tickets on sale at the following places: Palace Drug Store, Morris Drug Store, Cream Bakery and Stonecipher and Smith Drug Store.

PLOVER HUNTER INJURED BY ACCIDENTAL SHOT

W. M. Arrington's Shot Gun Discharged and Load Entered Foot—Painful Wound Results

W. M. Arrington is suffering today from a badly injured foot as the result of the accidental discharge of a shot gun. In company with Ed Trevathan, Mr. Arrington was hunting plover near Jolly and was carrying his gun with the muzzle pointed downward. In some way the weapon was discharged and the load entered the front part of his left foot, splintering some of the smaller bones and making a painful wound.

He was quickly driven to this city where Dr. L. P. Amazon gave medical attention. Mr. Arrington was reported doing well today and was able to be about with the aid of a cane.

ELECTRIC POWER AS COMPETITION FOR GAS

Wichita Falls Light & Power Co. Securing Data to Put in Competitive Rate

Competition with the natural gas companies in furnishing power for local factories is among the plans of the water and light company which recently went under new management. Representatives of the power company have been busy for some time securing data on the use of natural gas by local industries. It is understood the company contemplates making a rate on its current that will put it in competition with the gas companies.

Comparatively few of Wichita Falls industrial plants use the electric power on account of the low rate at which the gas may be obtained and the new company's plan is said to be to get its share of the power business.

BURKBURNETT EXHIBIT TO DALLAS FAIR

Farm Products On Exhibition at Burburnett Celebration Donated to Chamber of Commerce

A handsome array of melons, pumpkins and other farm products reached the city this morning from Burburnett, where it was a feature of the melon carnival of last Friday and Saturday. It will be made a part of the Wichita county exhibit at the State Fair at Dallas. The Chamber of Commerce had already secured many excellent specimens of farm and orchard products from over the county and the Burburnett display will make the exhibit still more extensive and more likely to break into the ribbon class.

Meningitis At Gainesville.

By Associated Press. Gainesville, Texas, Sept. 11.—J. A. Robinson who recently moved here from Henrietta, died of meningitis yesterday. This is the only case reported here since the epidemic last fall.

WHITMAN READY BECKER'S TRIAL

DEFENSE EXPECTED TO MAKE FIGHT TO PREVENT OPENING OF TRIAL TOMORROW

MAY ASK VENUE CHANGE

Defense Claims Three Depositions From Hot Springs Are Essential To Its Case

Stay of Trial Granted

By Associated Press. New York, Sept. 11.—Supreme Court Justice Bischoff this afternoon granted a stay in the Becker trial, delaying the case until October 1. This was granted on application of John F. McIntyre, Becker's counsel for appointment of a commission to take the testimony of persons at Hot Springs, Ark., who talked with Sam Schepps, the witness in the case and his captors in Hot Springs.

By Associated Press. New York, Sept. 11.—District Attorney Whitman is ready to bring to trial tomorrow Police Lieutenant Becker on charges of having murdered Herman Rosenthal, the gambler on July 16 by hired gunmen in front of the Hotel Metropole.

The case comes before Justice Goff in the criminal branch of the supreme court. Becker's counsel is trying hard to prevent the opening of the trial and it is expected they will try to postpone proceedings on the ground that the depositions of three witnesses in Hot Springs, Arkansas are needed in the case.

These witnesses it is claimed will give information regarding Sam Schepps that will in effect make him a witness for the defense. Should Becker's lawyers fail it is said they will try to obtain a change of venue.

The decision in the case if former Inspector Cornelius G. Hayes, who was tried for having made false charges regarding Commissioner Waldo is not expected for a week.

BURNS REPRESENTATIVE AT HOT SPRINGS

By Associated Press. Hot Springs, Ark., Sept. 11.—E. D. Burns, representing counsel for Police Lieutenant Becker, has been in Hot Springs, it became known today for the past week, trying to secure testimony through affidavits from persons to whom Sam Schepps talked while he was here.

Schepps was arrested here August 10. He left August 15, accompanied by Assistant District Attorney Ruben and detectives, arriving in New York August 19.

While Burns will not make any specific statements, it is understood, he has been endeavoring to secure statements tending to show that Schepps while here made many statements concerning Lieut. Becker and that these alleged interviews to newspaper men and others will tend to show an express belief on the part of Schepps at the time that Becker was the victim of a conspiracy and that Becker did not instigate the murder of Rosenthal.

It is not definitely known what persons if any in Hot Springs have made affidavits in Burns' instance.

COOKE COUNTY REUNION

By Associated Press. Gainesville, Texas, Sept. 11.—The twelfth annual reunion of Confederate veterans and old settlers of Cooke county will be held Thursday. The speakers included Claude Weaver of Oklahoma City, recently nominated for Congress.

NEARLY HALF CUBA'S FLOUR COMES FROM TEXAS

Wichita and Texas Star Mill of Galveston Supply Forty Per Cent of Flour Used There

Flour from the Wichita mill is sold very extensively in Cuba, according to Frank Kell of this city who returned this week from a business trip to that island republic. Mr. Kell says that forty per cent of the flour consumed in Cuba is supplied by two Texas mills, the Wichita and the Texas Star mill at Galveston, owned by M. Lasker.

"Cuba is one of the most up to date of the western countries," said Mr. Kell, "there is a very high class of foreigners there and they have a good government."

D. M. Perkins of this city will leave this week for Cuba and will make his home there for a year to look after Mr. Kell's and Mr. Lasker's interests.

WILL CALL ATTENTION TO INCREASING GAS SUPPLY

The attention of manufacturers in natural gas regions where the supply is being rapidly depleted will be called to the fact that the gas supply of Petrolia is not only showing no signs of being exhausted, but appears to be increasing steadily. Recent press dispatches have told of opinions by experts that the Oklahoma-Kansas gas fields are being rapidly exhausted and that their pressure is growing weaker, just as was the case of the Indiana fields before them.

In connection with the literature it is preparing to send out in its campaign for new factories and wholesale enterprises, the Young Men's Progressive League will call attention to the fact that the gasers most recently brought in at Petrolia are the wrongest the field has shown and that the

pressure keeps up to the original 750 pounds.

It is believed that the setting forth of these facts will interest prospective manufacturers and will serve to bring some new industries to this city. The information will be disseminated in connection with the railroad rate literature the League is compiling. It is believed that with proper conservation of the gas, without the prodigality which proved the prompt undoing of the Indiana field, there is ample supply in the Petrolia field for many years to come, if not indefinitely.

BIG GAS FIELD IN CANADIAN NORTHWEST

George Robinson, well known here, is back in the States after a trip to the Canadian Northwest where he went to investigate the gas fields now being opened up there. The Independence (Kansas) Daily Reporter has the following to say concerning Mr. Robinson's observations:

Mr. Robinson believes the Bow Island gas field to be the biggest and best in the United States. He has had experience in the West Virginia, Indiana and Kansas gas fields and considers the Alberta field leads them all.

The Canadian Pacific Railway Co. was engaged in drilling wells in search of oil for fuel on its trains when it discovered gas near Bow Island. The company had no use for gas and finally gave up the search. In its employ carrying on this research was a geologist who recognized the value of the discovery and went to England and there organized the Canadian Western Natural Gas, etc., Co. A strip of territory twenty miles square was leased and drilling began. Up to this time thirteen wells have been drilled, covering an area seven miles long and three miles wide, skirting the river and so far not a failure has marked the progress of development. The wells are 1,900 to 2,150 feet deep, have forty feet of sand, 785 pounds rock pressure and a gas flow of 12 to 15 million feet a day per well. The gas is odorless and perfectly dry. The wells are from 3,800 feet to a mile and a half apart.

The company has just finished the construction of 171 miles of gas mains, supplying gas now twelve to fifteen towns, having a population of 85,000 people. The two principal towns are Calgary, 60,000 and Lethbridge, 12,000. Mr. Robinson made record time laying this line. The 171 miles were laid in ninety-two days. The wells are located in a prairie country and are easily handled.

As yet no oil has been found in any of the drilling, but it is believed that somewhere adjoining this heavy gas oil will be found, as has been the experience in respect to practically every other gas field in the world. Mr. Robinson says the gas is the purest he ever saw and he thinks the supply will be lasting, but he does not like the country and preferred to return to Kansas. He thinks, however, that one of these days there will be a big oil development somewhere in that vicinity.

GUFFEY COMPANY WILL DRILL MANY WELLS

The J. M. Guffey Petroleum Company, which only recently began active operations in the Electra vicinity, is breaking into the field with a vengeance. It has nine rigs on the Miller tract near the Marriott well at Electra and will probably put down some other wells on the close-in territory.

In addition this company has leases on approximately eight thousand acres in various parts between Burk Burnett and Electra. While most of this was secured at from \$1 to \$5 per acre, some of it was at considerably higher figures and the total would no doubt make a very tidy sum. These leases call for drilling within twelve months.

BURKBURNETT WELLS NEARING OIL SANDS

The next three weeks should bring more news from Burk Burnett country. The Clint Woods well on the N. B. Chenault tract, about a mile and a half from the Schmocker, is now down 1200 feet and should reach pay sand if there is any there, by the end of next week.

The other wells in that section are at varying depths ranging from 500 to 1000 feet and it will be two or three weeks before they are deep enough to tell what there is in that part of the county.

Sand. Orders for building sand or gravel promptly filled. MORRIS POORE, P. O. Box 456. 50-5c

Freckled Girls

It is an absolute fact, that one 50 cent jar of WILSON'S FRECKLE CREAM will either remove your freckles or cause them to fade and that two jars will even in the most severe cases completely cure them. Are arriving every day, when you are in the store, don't fail to visit our ready-to-wear department, Second Floor.

Pennington's

Backslider

from Wellville to Dingbat-Town

A Slide:—

from health to ill-health

A great many people have tried the slide, who didn't know exactly what they would get in "Dingbat-Town."

The coffee drinker is quite certain to get some kind of a "bat." It may be in stomach, liver, heart, bowels, eyes, kidneys or some other organ, for the bad effects of the caffeine in coffee, locate in a variety of different organs in different people.

Many persons who knew this some time ago quit coffee and commenced Postum. Then, because they found trouble in having Postum prepared suitably at hotels and elsewhere, they gave it up and went back to coffee, thinking, "Now I am well and can stand it."

So they became backsliders and when they slid into "Dingbat-Town," symptoms of the old troubles began to show again, they found it difficult to return to Wellville. Now comes

Instant Postum

as one sure way to get back.

Instant Postum is in powder form—made from regular Postum and contains the same nourishing ingredients; you simply stir a level teaspoonful into a cup of hot water, and instantly have a perfect cup of Postum; it has a delicious mellow flavour and is free from the coffee drug, Caffeine.

It can be made anywhere that hot water can be obtained; in hotels, on the train, in the office—its high, rich quality is constantly uniform.

Tins holding enough for about 100 cups are sold for 50 cents by grocers. Smaller tins at 30 cents, make about 50 cups.

Ordinary coffee cost about twice as much.

A two cent stamp to cover postage will carry to you a 5-cup sample tin free.

Messrs Postum Cereal Co., Ltd., Pure Food Factories, Battle Creek, Michigan.

Fads and Fashions

New York, Sept. 11.—There is one thing clearly noticeable in the latest among the improved new models shown in the fashionable shops. French skirt draperies show a decided tendency toward unevenness; at the foot, being caught up here or there to show the foot and ankle and sometimes even more; and the narrow walking skirts have in many cases been slit up at sides or front or back to allow freedom of movement; the two edges perhaps falling quite together when the wearer is not in motion; but part to give glimpses of silk clad ankles in walking. It is not probable, however, that these effects will gain much favor in this country.

New materials multiply and indicate a coming season of great richness in dress. The new velvets are extremely lovely in texture, design and color, and even the velveteens and corduroys are unusually beautiful in texture and color. The elours de laine exploited somewhat last winter comes back with beauty and with the endorsement of the greatest French dressmakers behind it. The material will undoubtedly be used a great deal, especially in coats and in combination with lighter, more supple material.

The silk plushes, too, with which fashion coquetted last winter, return to the charge in such handsome guise that they will probably win favorable recognition, though they are hard to handle without clumsiness. They are surprisingly soft and supple, but their plush is very rich and deep and necessarily thick. These silk plushes have a beautiful lustre and are offered in exquisite colorings.

Corded velvets must also be mentioned among the handsome materials and all sorts of corded weaves in silk promise to be popular. Especially lovely are certain chameleon silks or poplin weave with a moire finish. Such color schemes as are to be found in these new silks will delight the artistic eye. The changeable two-tone colorings are beautiful, but the four tones of the chameleon weaves afford a broader scope for the designer and the watered moire light and shadow shimmering over the surface adds an indefinable subtlety to the shifting colors. A piece of such silk, when unravelled, shows threads of green, brown, a bright copper of tangerine and a dull blue, but taken together these separate threads produced a surface altogether exquisite, with the mossy green dominating and shot through with wavering gleams of the other tints.

Broche and brocade effects are insistently urged upon the public, as they have been for several years past, and most exquisite things are shown in them, five or six soft colors, shades being beautifully blended in some of them and the whole shot with gold or silver or some one color. Broche crepes all in one tone were taken up last season and will undoubtedly be pushed more energetically this year.

Particularly lovely things of this class are shown in the grays and a wonderful frock just imported for an actress in a premiere next month is of silvery gray broche—chameuse trimmed in chinchilla and relieved by a girde of purplish violet held in front by a bold ornament of heavy tarnished silver embroidery.

Handsome flowered silks, the designs in great sprays or bunches of flowers almost covering the surface are made in beautiful old colorings perfectly harmonized half faded tones, that remind one of certain old brocades seen in museum collections on a ground of yellowed white that carries out the illusion of age. And in contrast are the most minute of prim flowerets thick set on a plain surface and combining many odd old tones.

As for the brocades into which gold and silver enter, they are gorgeous achievements whether in chiffon or silk or velvet. Sheer crepes with crinkly surfaces and with border designs in gold and look as if stencilled on, though the gold thread are really woven in, are particularly effective in the deep yet warm blues, white and some shades of violet and purple.

Cluster pleats, side pleats, box pleats and kick pleats are all noticed in the display of skirts for fall wear. In all of these pleated skirts the straight effect is carried out. Women will no longer tolerate the extremely narrow skirts of a year ago. Which did not permit of any freedom of motion. The modified narrow skirts, measuring from about two to two and one quarter yards, has been found graceful, becoming and practicable that there is every likelihood that it will remain in style for some time to come.

To take the place of the straight back, a flap down the center back or a panel is seen on many of the new skirts. The majority of skirts continue to be mounted on an inside belt, varying from one to two and one half inches. Some are made with belts, but they are sewed on the outside of the skirt and can be removed when desired. A few taffeta, chameuse and velvet skirts are made with pleats or a slightly draped effect which is rather attractive.

Several panier robes have come from Paris for exploitation during the early fall days and there is no doubt whatever that the idea will become popular in this country. The panier robe is a handsome tunic which

may be draped over an ordinary evening gown, effecting in a twinkling a complete metamorphosis of said gown and rendering it suitable for other wear. The tunic comes all ready to clip over the gown and the pattern includes sleeves and is finished off round the neck. But very little alteration and adjusting is needed to make one of these beautiful robes fit any average figure and the finished effect is wonderfully rich.

FLORENCE FAIRBANKS.

HOME ENDORSEMENT

Hundreds of Wichita Falls Citizens Can Tell You All About It

Home endorsement, the public expression of Wichita Falls people, should be evidence beyond dispute for every Wichita Falls reader. Surely the experience of friends and neighbors, cheerfully given by them, will carry more weight than the utterances of strangers residing in far-away places. Read the following:

F. McEnnis, carpenter, 1108 Scott street, Wichita Falls, Texas, says: "I used Doan's Kidney Pills for various kidney troubles and always found them very beneficial. Some time ago I suffered from pains across the small of my back in my sides. I also had to get up frequently during the night to pass the kidney secretions. Seeing Doan's Kidney Pills so highly recommended I got a box and used them as directed and in a short time was cured. I can highly recommend Doan's Kidney Pills to do all they are advertised to do."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States. Remember the name—Doan's—and take no other.

Wichita Falls.

The Young Men's Progressive League presents the following poem for the consideration of the citizens of Wichita Falls:

If you like Wichita Falls best, Tell 'em so! If you'd have her lead the rest, Help her grow! When there's anything to do, Let the fellows count on you; You'll feel bully when it's through, Don't you know.

If you want to make a hit, Get a name! If the other fellow's it, Who's to blame?

Spend your money in the town, Where you pull the sheekles down; Give the mall concern a frown— That's the game!

If you're used to giving knocks, Change your style! Throw bouquets instead of rocks For awhile.

Let the other fellow roast; Shun him as you would a ghost; Meet his hamper with a boast And a smile.

When a stranger from afar Comes along, Tell him who and what we are— Make it strong.

Needs't flatter, never bluff; Tell the truth, for that's enough. Join the boosters—they're the stuff. We belong.

HOW ARE YOUR BOWELS?

Here's The Real Remedy For Constipation and Clogged Up Liver. Tried them all? not yet; you have not given Hot Springs Liver Buttons a chance.

If you want the most efficient, gentle, safe, yes, delightful laxative on earth, go today and get a 25 cent box of Hot Springs Liver Buttons.

Made in Hot Springs, the sanitarium of the world; used the world over by people who demand the best. Take them to end biliousness, coated tongue, dizziness, indigestion and as a general tonic. For sale by Stonecipher & Smith and all first class drug stores. Hot Springs Chemical Co., Hot Springs, Ark.

Roatch's Miner's Water, is highly recommended by physicians and patrons who have tested its merits, for indigestion, catarrh of the stomach, kidney and bladder trouble. This water stimulates the secretion of the stomach, increases digestion and favors a more complete absorption of the food and prevents the action of germs that cause typhoid and other infectious diseases.

This water can be purchased at the wells or delivered in jugs or cases. This well is located one mile south of Alamo school building in Floral Heights, two deliveries daily morning and afternoon. G. J. Roatch, Owner. Phone 1601—1 long—4 shorts.

Many Driven From Home. Every year, in many parts of the country, thousands are driven from their homes by coughs and lung diseases. Friends and business are left behind for other climates, but this is costly and not always sure. A better way—the way of multitudes—is to use Dr. King's New Discovery and cure yourself at home. Stay right there with your friends and take this safe medicine. Throat and lung troubles find quick relief and health returns. Its help in coughs, colds, grip and sore lungs make it a positive blessing. 50 cents and \$1.00. Trial bottle free. Guaranteed by all druggists.

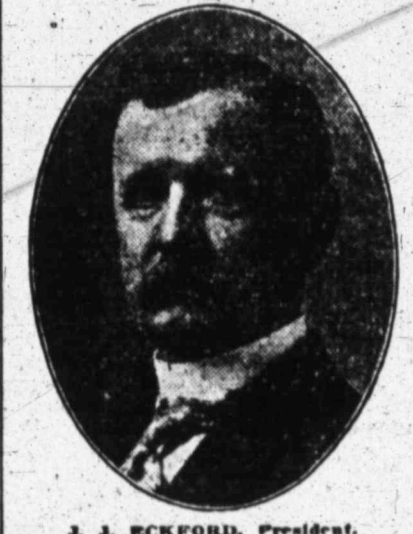

VALUE OF THE FAIR.

Pronounced by All Greatest Builder of Southwest.

A PANORAMA OF TEXAS.

Agricultural Displays From Every Section and Superb Livestock Exhibitions Will Feature Coming Exposition at Dallas, October 12-27.

This is presidential campaign year. But the people of Texas who do things do not confine themselves to political matters. They are interested in the industrial and commercial expansion of their state. From the standpoint of undeveloped resources Texas is a veritable Monte Cristo of wealth. Today the outlook is brighter for Texas than ever before in its history. Building operations are programmed on a large scale than ever before and the agricultural and stock raising interests are enjoying a degree of prosperity never known before. Texas has been called the "Lion of the West" by no less an illustrious American than Theodore Roosevelt, and the homeseekers of America are finding it out. They are not only finding it out, but they are coming here to secure land and to build homes for themselves and their families beneath southern skies. Among the greatest advertisers of civilization are the fair and the greatest of these on the continent of North America is the

J. J. RICKFORD, President.

State Fair of Texas at Dallas. Launched twenty-six years ago it would be impossible to write of the unparalleled strides of Texas along all material and moral lines for more than a quarter of a century without writing a history of this state fair. Eminent citizens at home and abroad have united in saying that the State Fair of Texas during its career has been one of the greatest builders of the Southwest and the verdict of exhibitors from all the states and those at home is that as an advertising medium of the resources of Texas it has no equal.

The fair, without an equal, will open in Dallas Saturday, October 12, and will continue until the night of October 27. Premiums and purses for 1912 aggregate \$75,000 and the demand for space by exhibitors is greater than ever before. In 1911 there were 2236 exhibitors. This year the number will be far in excess of that of 1911. The fixed policy of the management is fire-proof buildings. This year a cafe and restaurant building 500x44 feet has been erected. It is fire-proof, modern in all of its appointments and from a sanitary viewpoint it is unexcelled. The woman's rest building, which is 60x85, cost \$17,500, and is one of the most beautiful on the grounds. A modern elevator with a capacity of 100 tons, has been built for demonstration purposes and is certain to attract the undivided attention of farmers and stock men.

An addition of 100 feet has been added to the dairy demonstration building and the new cattle and swine barns are perfect from every viewpoint. The cafe building is the largest and most modern permanent building of its kind on any exposition grounds in the world, and the woman's rest building is provided with every modern convenience for the comfort of ladies and children. A complete panorama of the state in exhibits from every country and section can be seen at the annual fair and exposition this fall.

President J. J. Rickford and Secretary W. H. Stratton and a large force of employees are devoting all their time to the details and preliminaries for the coming fair. The grounds are in splendid shape and condition. In fact, the Fair Park today is one of the finest in America, and the buildings which cost with the grounds more than \$1,000,000, are a credit to the Empire State of the sisterhood.

There have been many red jetties years in the history of the fair, and some lean years, but the meeting of 1912 promises at this time to be the most interesting from every viewpoint and the most successful in the entire history of the association. In 1911 the attendance was 478,260. Texas is prosperous this year. The grain and fruit crops have been bountiful and the cotton crop promises to be very large. The stock raisers are prosperous and all classes and conditions of men who produce wealth are enjoying an era of peace and plenty. It is known in the country that the fair is the greatest of the past. The skies are clear, the prospects are rosy, and with the magnificent programs offered by the fair management the demands for space this year are the highest received from exhibitors from all sections of the country. The attendance upon the fair in October should be larger than ever before, and the appreciation of visitors and patrons of the fair should be greater than ever before.

The directors this year are Royal A. Ferris, J. C. Duke, E. F. Silvey, E. L. Plippen, A. P. Tenison, Alex. Sanger, E. M. Kahn, W. H. Gaston, R. E. L. Knight, E. J. Kiest, W. L. Yopp and Sam T. Moras. The address are Joseph J. Eckford, president; W. H. Stratton, secretary, and J. B. Adoue, treasurer—all builders, all progressives, and all willing workers for the advancement of Texas and all its interests.

FOOTBALL AT FAIR.

Interesting Contests on Last Three Week Days of Exposition.

College days at the State Fair of Texas at Dallas, October 12 to October 27, will be featured by football games between Austin College and Texas Christian University, Southwestern University and Trinity College, and the Agricultural and Mechanical College of Texas vs. University of Arkansas. The games will be played October 24, 25, 26, on a specially prepared gridiron in front of the race track grandstand.

Next to wool and wheat and the product of its mines, Australia's greatest source of prosperity is butter.

A Baked Bean Shelf--Have You One?

•Phones 432 and 232

I have mentioned this subject frequently and as a result there are now in this part of town a great many baked bean shelves holding from three to a dozen cans of Snyder's baked beans ready for instant use. And what's more, I get orders for half a dozen to a dozen cans of these delicious beans every week or so from the same homes to replenish the bean shelf stock. Once tried, no woman wants her bean shelf empty. The quality of Snyder's beans has a great deal to do with the bean shelf habit and for that reason I want you to let us send you a half dozen cans of these really high-class beans.

Three Size Cans: 10c, 15c and 20c

ARE GETTING TOGETHER.

Wichita Falls has no copyright on the slogan "Pull together" and has the least objection to its use by Governor Wilson, and the Democratic party. It has always been effective in Wichita Falls and there is no reason why it shouldn't work just as well in the affairs of the government.

Whenever the people of Wichita Falls have counseled together and the force of the whole citizenship has been directed to one end good results have been forthcoming. What's good for a town ought to be good for a Nation.

Governor Wilson expressed a great truth in his speech of acceptance when he said:

"No group of directors, economic or political, can speak for a people. They have neither the point of view nor the knowledge. Our difficulty is not that wicked and designing men have plotted against us, but that our common affairs have been determined upon too narrow a view, and by too private an initiative. Our task now is to effect a great readjustment and get the forces of the whole people once more into play. We need no revolution; we need no excited change; we need only a new point of view and a new method and spirit of counsel.

Before our school trustees make other improvements in the school buildings they should first see to it that those we have already are supplied with pure and wholesome water for children. The unfiltered water drawn directly from the hydrants and drunk by the children can hardly be classed as wholesome or pure. A few hundred dollars invested in reliable water filters would be about the best investment that can be made at this time for the benefit of the health of all children who are attending the public schools. Parents should not expect their children to drink water at the schools that they do not permit them to drink at home. The water supplied by the waterworks company should be filtered before being used for drinking purposes. The Times makes this statement on what it considers the best of authority and it is made in the interest of public health.

The individual deposits of the four banks of the city as shown by their statements issued at the close of business September 4, were \$1,555,000, which is the largest ever shown by any previous statement issued by the banking institutions of this city. The total deposits were close to the two million mark. This not only shows the banks are flourishing, but that the people are in better financial shape than ever before.

From present indications the Republican vote of Ohio, or that part of the people who generally vote the Republican National ticket are split just about as bad now as they were at the time the Republican presidential primary was held, in which contest Taft won over Roosevelt by a very narrow margin. This means that the electoral vote of that state will go for Wilson.

The Carpenters and Joiners Union have subscribed \$40,000 with which to build a home for its aged and infirm members. The location for the home has not yet been definitely decided, but it is probable that it will be near Fort Worth or Cleburne. Every organization should do likewise.

Iowa Park Notes.

Miss Helen Dale left this morning for Fort Worth, where she will begin her school work at the T. C. U.

Miss Lula Smith one of the teachers in the school, spent Saturday and Sunday with her parents at Wichita Falls.

Mrs. Margaret Troutman and daughter, Miss Nina, came home Saturday after spending the summer of Colorado.

Rev. L. N. Blankenship went to Tolbert Monday where he is engaged in a meeting.

Miss Lillian Blankenship will go to Tolbert tomorrow where she will visit for some time.

Mrs. J. A. Tanner and son are visiting relatives at Chillicothe.

Fred Hirsch left last week for Poncha, Okla., where he will enter school.

Reaves and Joe Overby left last week for Colorado, where they will attend school.

Light on the Black Republic

CUSTOM HOUSE, PORT AU PRINCE.

THE most curious thing about Haiti is that it has managed to escape American attention all this time. Everybody knows Cuba, or knows all about Cuba, next door on the west, and Porto Rico, across the Mona passage eastward. But if you happen to mention the fact that you have been spending the winter in Haiti, most people will remain a little vague in their minds, writes George Marvin, in Harper's Weekly.

Quite naturally, in inverse ratio to the lack of knowledge about Haiti, prevails the misinformation about the Black Republic. If one were to believe half the stories heard in West-Indian ports or on the steamers that ply between them, one could only approach the Haitian coast with the mingled emotions of a missionary, and a suicide.

But geographically Haiti is not a remote place. The steamers stop there regularly—German, French, English, American and the puffy little Spanish boats from Cuba. A French cable, very useful in the Spanish-American war, connects New York with the cape. But British capital, which has developed Jamaica, Cuba, Trinidad, Barbados and other Caribbean lands less fertile, has never sought investment in Haiti. The United Fruit company, whose fleets from Costa Rica and Jamaica steam by through the Windward passage, never calls at the ports of the island which is said to be the most fertile of the Greater Antilles. The Canadian banks which have within the past decade spread throughout the West Indies, gradually overcoming Spanish-American opposition by their more liberal terms and sounder finance, have passed over Haiti. Yet this is an insular government which, whatever its other shortcomings, has never defaulted in its direct obligations and has, moreover, recently undertaken a railroad enterprise, the completion of which contemplates the expenditure of ten millions of borrowed dollars.

New Policy Adopted.

This reluctance, hitherto, of exploitive capital cannot be altogether attributable to unstable government, for right next door San Domingo has indulged herself in 60 general revolutions while temperate Haiti has confined herself to ten. Venezuela, Colombia and the Isthmian lack of governments have been more constitutionally dissipated than the Black Republic. And yet every one of these Spanish-American territories has been exploited by foreign capital. Race prejudice is the other obvious answer, a race prejudice operative in two ways; in the probable antagonism of the native blacks to white intrusions; and in the unwillingness of white colonists to place themselves on an equality with the black owners of the soil or subject themselves to negro authority. Now the particularly interesting thing about Haiti at the present moment is that these two deterrents are being reduced to a minimum—i. e., a new government, almost universally admitted to be the most enlightened and competent in Haitian history, has adopted and put into motion a progressive policy in the working out of which the matter of race prejudice is already being thoroughly tested.

The new government of Cincinnatus Leconte, which superseded that of Antoine Simon by the revolution of June, 1911, has adopted an ambitious program and started its regime on a high plane.

By far the most important measure to which the government is committed is the American railroad now in course of construction. This is one of the most important projects ever undertaken in the West Indies and ranks with Sir William Van Horne's railway in Cuba. When completed the line will be 350 miles in length, joining all the more important cities of the country and bringing the most fertile agricultural districts of the interior into direct connection with the chief seaports.

In addition to this comprehensive railway development project, the new government has either inherited from the Simon regime, or undertaken on its own account, an irrigation scheme to reclaim the rich plain of the Cul de Sac around Port-au-Prince and the dry lands near Aux Cayes, and has let a municipal contract for the paving of streets in the capital. Both of these concessions are held by Americans and both are now operative. To carry out these and other improvements, such as electric light and power plants and a reorganization of the currency,

By the end of the year the French army expects to have a fleet of 344 aeroplanes. The United States is one of the few large countries in which there are more men than women.

The Gem

the only exclusive Motion Picture Theatre in the city.

Change of program Every Day. Night show at 7:30. Matinee at 2:30.

INDIANS BAFLE

MODERN DOCTORS

Oklahoma Physicians Think Old Time Medicine Men Would Have Better Luck

Chickasha, Okla., Sept. 11.—Mortality has increased twenty per cent among the uncivilized Indians of Western Oklahoma with the advent of the white medicine man, declared Dr. D. M. Johnston, who has been a practitioner in the Indian country for the last twenty-five years.

Dr. Johnston is of the opinion that the death rate would be much lighter if the native medicine men were allowed free swing with their superstitious and herbs, as was the practice in the early days.

Dr. Johnston who lives in Chickasha, began practicing among the Indians in 1887.

Medicine men in all of the Indian tribes long have been accorded honor and respect from the chief down. Today, in spite of government regulations, the Indian medicine man is revered by his tribesmen.

Native medicine men had peculiar methods of treating diseases. Pneumonia was treated in this manner. The patient was put in a tepee and heated until almost prostrate from excessive sweating. Then he was lifted from his pallet and taken to a nearby stream, where he was given a good soaking. This was practiced both winter and summer. Many deaths resulted, yet many lived.

For the white plague the patient was seated on the ground at sunrise facing the east. A conured bowl of

THE FARMERS UNION GIN

Is in Readiness for Business

The machinery has been thoroughly over-hauled and put in first class order. Murray cleaners have been added to the machines, and all cotton will be thoroughly cleaned and graded high when ginned.

DR. H. A. WALLER

DENTIST

Office: Room 207 Kemp & Kell Building. Phone 558.

I take pleasure in announcing to my former friends and patrons that my office is now open on 2nd floor Kemp and Kell building. My new office is equipped with all the latest sanitary dental appliances known to modern dentistry, including two full sets of instruments and an electric sterilizer. This enables me to use sterilized instruments on each patient. It is a well known fact that many contagious diseases, such as tuberculosis, diphtheria, pyorrhea, (that deared disease which causes the teeth to become loose and fall out commonly known as "sour-vey") and many blood diseases can be transmitted from the mouth of one patient to that of another by the dentist.

It affords me great satisfaction to give my patients this safeguard, soliciting a renewal of your liberal patronage of past years, I beg to remind,

Yours sincerely, DR. H. A. WALLER.

Two Big Days

—ON—

Suits Made-To-Order

—AT THE—

"MODEL"

In order to start the season with new life and to get you in touch with the best fitting house in Wichita Falls, on high grade clothes; we will allow 10 per cent discount on all orders placed with us for suits and overcoats; for two days only,

Friday and Saturday, Sept. 13th and 14th

This Means \$20.00 suits for \$18.00 \$25.00 suits for \$22.50 \$30.00 suits for \$27.00 \$35.00 suits for \$31.50 \$40.00 suits for \$36.00 \$50.00 suits for \$45.00

This Special Reduction is for Two Days Only

We want you to know us. We make this sacrifice to induce you to come in and know our ability in fitting good clothes to your particular build. Our reputation for correct fitting during the Spring and Summer season is hard to equal. Not one garment returned, not a single misfit, not even a twenty-five cent alteration. We take all the responsibility. Don't overlook this nice little saving for these two special days. Does not matter if the weather is hot, give us time to have your clothes made up right and let them come in and you can get them when it suits you.
