WICHITA FALLS, TEXAS, TUESDAY, SEPTEMBER 17th, 1912

NUMBER 109

NORTHWESTERN CARMEN STRIKE

OVER ONE HUNDRED CAR REPAIR-
ERS ON WICHITA FALLS
ROUTE ARE OUT

SEVENTY GO OUT HERE

Strike Grows Out of Absorption of
Northwestern by Katy
System

Car-repairers employed on the
Wichita Falls & Northwestern, are
out on strike today, acting under
orders from the headquarters of the
Brotherhood of Railway Carmen of
which they are members. The order
affects about seventy-five men in
this city and about forty employed
at other points on the Northwestern.
The purchase of the Northwestern
by the Katy system is the cause of
the present trouble. It will be re-
membered that last year the car re-
pairers on the Katy struck, owing to
the failure to secure a new working
agreement with the management of
the line. This strike was never set-
tled and the places of the striking
carmen, all of whom belonged to the
Brotherhood, were filled by non-union
workmen.

When the Northwestern became
the property of the Katy, in fact
though not in name, the car-repair-
ers employed here discovered that
they were in reality in the employ
of a railroad system that was at
odds with their organization, the
Brotherhood. The matter was taken
up with the national officers of the
Brotherhood, with the result that the
strike order was received last night.

Today the places of the strikers
were filled with what help the Katy
could secure. It is understood that
other men are to arrive from Deni-
son shortly to attend to the repair
work here.

In this connection, a meeting of
a number of Katy officials is being
held at Denison today and it is un-
derstood the purpose is to adjust a
number of matters with the men. Su-
perintendent Sullivan of the North-
western is among those present and
the meeting may deal with the diffi-
culty here.

The strike is an unusual one in that
it is not based on any desired change
in working conditions or on any de-
mand for better wages. The car re-
pairers belonging to the Brotherhood
do not wish to work for a railroad
that is seemingly unfriendly to the
union organization. It is not consid-
ered likely that there will be any
early adjustment, as no negotiations
between the Katy and the strikers
are at other points are pending.

Another unusual feature of the
situation is that while the carmen on
the Texas Central, another Katy
property, remain at work, in spite of
the unfriendly relations between their
fellow workmen on other parts of the
system and the Katy.

In spite of the conditions which led
to the walkout here, many of the men
are hopeful of an early resumption of
work. They predict that the Katy
officials and the Brotherhood will
come to amicable terms in the near
future.

The men claim they were asked
to repair cars that would ordinarily
have been taken care of at Denison
by the Katy. So long as their work
was strictly confined to the North-
western's repairs they did not wish
to strike, they say.

SUPERINTENDENT MAER TOLD THIS ONE

Fort Worth, Texas, Sept. 17.—Tri-
angular green bugs of diminutive size,
large green bugs with an evil smell,
small black bugs and crickets were
in this city last night in myriads. But
the trouble and annoyance they caus-
ed here was as nothing to the condi-
tion they produced at Childress 220
miles north on the Denver, according
to a report of Superintendent Maer.
Similar bugs, on their way from
Colorado and Kansas, southward
bound, were there in such profusion
they actually stopped the railway
trains, the wheels refusing to take
the track. The report says that the
services of three men with shovels
and wheelbarrows were required for
two hours Sunday morning to clear
the depot platform. The bugs were
drawn by the lights of the station
and were piled several inches deep
all over the platform. Switch engines
were unable to work for several hours
during the early part of the night and
business was suspended in the city.

Fear Repetition of Raids.
Langtry, Texas, Sept. 17.—Three
hundred rebels are opposite this point
in Mexico and there is no border
guard here. The people have asked
Governor Colquitt for protection. They
fear a repetition of the raids which
occurred several months ago in this
section by rebel bandits.

TYPHOID FEVER RESULTS IN DEATH

Joe Bowen of the Credit Department
of Carroll-Brough-Robinson-Gates
Died Tuesday Morning

Joe F. Bowen, aged about 33 years,
employed in the credit department
of Carroll-Brough-Robinson & Gates
wholesale grocers, died at his home
Eleventh and Broad streets at three
o'clock this morning after an illness
of about ten days with typhoid fever.
He had been getting along nicely,
apparently when he took a sud-
den change for the worse last night.
A widow and two children survive
his death.

Accompanied by relatives his body
was taken to his old home at Steph-
enville this afternoon for burial.
Mr. Bowen during his residence
here had made many friends and
was highly respected. He came to
Wichita Falls from Cranbury, Tex-
as.

SECOND ARREST IS EXPECTED

DETECTIVES TRYING TO FIND
MAN WHO RENTED SHACK
FOR SNEED

SNEED EXPECTS LIBERTY

Defendant Expects to Be Released
From Custody Soon After Grand
Jury Investigation

By Associated Press.
Amarillo, Texas, Sept. 17.—J. B.
Sneed said today that he expects to
be released from custody soon after
the grand jury completes its investi-
gation. He said this release would
probably come through a habeas cor-
pus proceeding.

Except for these remarks, Sneed
declined to talk. His demeanor is
quiet, showing no change since he
first entered the jail. Interest today
centered in the question of an alleg-
ed confederate. The man who is said
to have been seen at the rented house
near the point where Boyce was kill-
ed, and which is supposed to have
sheltered Sneed. To what extent, if
any, this third person entered con-
sciously into any design to kill
Boyce, is unknown to the detectives
working on the case. The detectives
made a list of persons who might
have been with Sneed at some time
preceding the killing and they are
narrowing this list by a process of
elimination. None of the names un-
der investigation have been announced.

It is expected that a day, and
possibly longer, will be necessary for
a thorough investigation of the al-
leged third party phase of the case.
The grand jury today also was re-
ported to be investigating the possi-
bility of a confederate. It was said
that the panel intends to follow up
this side of the case, if necessary,
even after they have disposed of
their work in connection with Sneed's
end of the killing. There were reports
in police circles here that another ar-
rest may be made soon.

The grand jury met early again to-
day and examined thirty witnesses
before noon. Numerous witnesses
still remain on the grand jury's list,
so that it may be tomorrow before
these witnesses are through. At-
torneys for both sides meanwhile are
holding themselves in readiness to
follow up whatever grand jury action
may be taken.

Mrs. J. B. Sneed has not come to
Amarillo and it is not likely that she
will. The defense shows no inclina-
tion at present to ask for her pre-
sence. Both the Boyce and Sneed re-
latives and friends remain in Amarillo.
It is believed nearly all of them
will continue to stop here until the
courts make some definite move as
to bail, which may be done tomorrow
or Thursday.

Amarillo seems absolutely quiet
and peaceful. The only feeling ap-
parent is one of general pity at such a
situation for the two families and
their friends. Antipathies are now-
where in evidence.

TO RID RESIDENCE DIS- TRICT OF UNDESIRABLES

By Associated Press.
Houston, Texas, Sept. 17.—Addi-
tional raids were made last night by
police on hotels and rooming houses
in the residence and business sec-
tion against which complaints have
been made. Police Chief Noble is
waging the most trenchant campaign
along this line in the history of the
city.

He announces that no let-up is in
sight and that raids will be con-
tinued until the element in question
is driven to the restricted district.
Among the places under investiga-
tion so far are some hitherto regard-
ed as above reproach.

REAR PLATFORM TALKS BY WILSON

DEMOCRATIC NOMINEE MAKES
NEARLY DOZEN ADDRESSES
TO OHIO AND INDIANA
CROWDS

REPLIES TO BEVERIDGE

Answers Former Senator's Fear that
He Would Be Controlled by
the Bosses

By Associated Press.
St. Louis, Mo., Sept. 17.—
Governor Wilson today was
elected a member of the Tribe
of Sioux, a municipal organiza-
tion, was presented with a
diamond pin and was public-
ly initiated before a big crowd
in an auditorium. He took a
pledge, solemnly promising
on the sacred tomahawk and
pipe to henceforth and for-
ever endeavor to be a good
Indian, whether successful or
unsuccessful in the quest of
Moose or any other game.

Chicago, Sept. 17.—Through Ohio
and Indiana, Gov. Woodrow Wilson
did some impromptu campaigning
yesterday that was as vigorous as it
was unexpected.

No previous arrangement had been
made for speeches, and the train
schedule was twisted by delays early
in the day, but crowds gathered along
the route and Gov. Wilson made
nearly a dozen speeches from his car.

He replied to former Senator Bever-
idge of Indiana, who charged in a
recent speech that Gov. Wilson, if
elected, would be boss controlled.
When the Democratic candidate
reached Logansport he hit at Mr.
Beveridge to a large crowd.

"I understand that in a speech
made last Saturday night," said Gov.
Wilson, "a very much esteemed
friend of mine, namely, Senator Bever-
idge, said that he entertained a
very serious fear about me, namely,
that if I were elected president I
would be controlled by the bosses. I
never suspected before that Senator
Beveridge was a humorist; because
if he didn't know that was a joke
he ought to have known it. When
did he ever hear that I had changed
all my political habits?"

"The way you can tell whether a
man is going to be controlled by the
bosses is to judge whether he is in
reach of a boss. Do you know what
a boss is? A boss is a political agent
of certain special interests, who see
to it that people they can control are
put in office and that laws they don't
want are kept off the statute books
and the men who do that are the men
who are interested in the great mono-
polies of this country.

"I am sorry to observe that where-
as the Republican party has practi-
cally fostered the trusts and the
Democratic party proposes to prevent
monopoly in this country, the third
party represented by Senator Bever-
idge proposes to take the monopoly
into partnership, with the govern-
ment, by accepting it as an inevitable
necessity, and bringing it under the

MAN SHOT DOWN AT ALPINE TODAY

JAMES GILLESPIE, PROMINENT
CATTLEMAN, SHOT AND KILL-
ED ROSELLE PULLIAM

BOTH WERE PROMINENT

Pulliam Was Witness in Government
Suit Against Gillespie—Self
Defense Claimed

By Associated Press.
Alpine, Texas, Sept. 17.—In the
postoffice here this morning, James
Gillespie, a prominent cattleman,
shot and killed Roselle Pulliam.
Gillespie fired five times with an
automatic pistol.

After the shooting Gillespie walk-
ed up to Pulliam's body and took
a pistol from it, stating that Pull-
iam had tried to shoot him. The
killing occurred at 9 o'clock in the
presence of three or four witnesses.
Pulliam was a witness in a suit
of the United States government,
charging Gillespie with smuggling
cattle from Mexico.

Mrs. B. Dineavski, who has been in
Amarillo for the last several weeks,
returned yesterday afternoon to be-
come an instructor in the Wichita
Falls Conservatory of Music.

ally fair.

3 MASKED MEN HELD UP TRAIN

BOUND AND GAGGED MAIL CLERK
AND ESCAPED WITH REGIS-
TERED MAIL

By Associated Press.
Memphis, Tenn., Sept. 17.—Three
masked men held up Southern Rail-
way train No. 25 from New York
near Stephenson, Alabama at 1:30
this morning. They bound and gagged
the mail clerk and escaped with
several pouches of registered mail.

The passengers were not molested.
Posses are pursuing the bandits. The
value of the stolen mail cannot be
estimated.

After holding up the mail clerk
with revolvers, the robbers pulled the
bell cord and leaped from the train,
escaping in the darkness. The con-
ductor discovered the clerk's plight.

FUGITIVES RUBBED ARMS WITH POLICE

"Gyp the Blood" and "Lefty Louie"
Walked the Streets of New York
Daily

By Associated Press.
New York, Sept. 17.—For six days
prior to their arrests, "Gyp the Blood"

they stood almost within the shadow
of the police headquarters, debating
with themselves the question of giv-
ing themselves up.

This is the gist of a statement giv-
en out by their lawyers today. He
declared that they had not been in
hiding. At Coney Island, they rub-
bed elbows with many police on
duty there.

RAINS MAKE PROBABLE BIG WHEAT ACREAGE

Fine Fall and Winter Pastures As-
sured Where Ground Is Ready
For Wheat Sowing

Fine fall and winter wheat pastures
is practically assured Wichita coun-
ty farmers who had their wheat land
broken before the rains of the past
few days. They can sow their wheat
as soon as the ground becomes dry
enough to work and there will be
enough moisture to start the crop off
in good shape.

The abundant feed crops with the
prospect for good pastures and high
prices makes the outlook very prom-
ising for raisers of livestock.

The rains will also make plowing
easy and the prospect now is that the
biggest acreage of wheat and oats in
many years will be sown.

3 MEN CONTROLLED HARVESTER TRUST

PURPORTS TO HAVE BEEN ORIG-
INAL VOTING AGREEMENT

By Associated Press.
Chicago, Ill., Sept. 17.—Govern-
ment attorneys today presented in
court the government's anti-trust suit
against the International Harvester
Company what purported to be an
original agreement by which George
W. Perkins, Cyrus H. McCormick
and Charles Deering formed a voting
trust, which placed them in absolute
control of the \$140,000,000 corpora-

The agreement, dated in 1902, was
for ten years. It expired only a few
weeks ago. It was introduced to
show that these three men had turned
over to them all the stock so that
they had the sole voting power of
the corporation.

Another exhibit purported to show
that Perkins and others of the har-
vester corporation were directors in
the steel corporation.

PERKINS ONE OF THREE

Cyrus McCormick and Charles Deer-
ing Were Other Two—Perkins
Director of Steel Trust

By Associated Press.
St. Paul, Minn., Sept. 17.—The
opening session of the Hungarian Parli-
ament today was marked by a wild outburst
of factional feeling, which only was
prevented from becoming a free for
all fight through the intervention of
party leaders.

The uproar began as the president
of the lower house entered the cham-
ber. He was received with cries of
derision and abuse mingled with his-
sing and whistling. The president
treated the outburst with indifference
but all his efforts to restore order
were unsuccessful. His calls for at-
tention only caused the disorder to
break out with renewed violence. Not
a word could be heard in the cham-
ber. The royal decree opening the
session was read without anybody
hearing a word of it.

An opposition deputy asked a depu-
ty of the government party whether

MONOPOLY ON PRODUCTS FREE TRADE ON LABOR

Gov. Marshall Denounces High Pro-
tective Tariff in Speech at St.
Joseph, Mo.

By Associated Press.
St. Joseph, Mo., Sept. 17.—High pro-
tective tariff was denounced by Gov-
ernor Thomas R. Marshall, Democr-
atic nominee for Vice President, in a
speech here last night. He declared
the policy gave tariff beneficiaries a
monopoly on products and free trade
on labor. The governor said:

"Impressed as I have always been
from the moral and constitutional
viewpoints of the injustice of the
high protective tariff, I have not wast-
ed much time in studying its practi-
cal workings. Revelations, starting
in their character, force themselves
upon us, however. These revelations
furnish economic reasons in abun-
dantly for a change.

"Take the argument that the high
protective tariff has been maintained
for the benefit of the American work-
ing man. What do the facts disclose?
They disclose that we have given the
tariff beneficiaries a monopoly on products
and furnished them free trade
in labor.

"Figures compiled by the United
States Immigration Commission re-
veal that three-fifths of the workers
in our protected industries have come
to the United States from southern
and eastern Europe since the reason
was advanced that we must have a
high protective tariff for the benefit
of the American working man.

"Analysis of the figures reveals that
the average wage per family has been
\$60 per month; that only forty per
cent of the families are supported by
the heads thereof; and that in the
iron and steel industries one-tenth of
the family earnings is made by the
children, while one-fifth comes from
boarders and lodgers. In seventeen
thousand households examined there
were two hundred forty-six persons
for each one hundred sleeping rooms.
The housing conditions challenge ade-
quate description.

"An investigation of the twine plant
at Auburn, New York, of the Interna-
tional Harvester Company, presided
over by that disinterested patriot and
philanthropist, George W. Perkins,
revealed that women worked from ten
to twelve hours each day, standing all
the while in rooms the most unsanitary
and earned a dollar a day. Over-
worked and underfed, they are sap-
ping out their lives and sapping the
lives of posterity that the style may
exist. If the farmers of this coun-
try are as patriotic and humane as I
believe them to be, they will next
year bind their harvests with rag
rarters, unless these conditions
change.

"A word will suffice for the revela-
tion of conditions at Lawrence, Mass.,
where wage earners getting \$7 a week
were insulted by the advice to open
up an account with a trust company.
Such information as the government
has been able to obtain by its tariff
board shows that the labor cost of
weaving a yard of cloth is five cents,
while the tariff duty for the benefit
of the laborer is \$1.02. Who got the
other 97 cents?"

"Governor Marshall then told of
two Indiana implement concerns
which he said had opened branches
in Canada. He added: "I have no
definite knowledge why these indus-
tries opened up in the British domain
but I hazard a guess that the effect
of the protective tariff on raw materi-
al and on trade relations with the
world has convinced them that they
can do more business and make more
money while operating under the Brit-
ish Empire than under the Ameri-
can Government."

Eugene Deal of Ogalla Island, Ne-
braska, is here to look after his real
estate interests in the Burkburnett
county.

A Riotous Outburst Marks Opening Hungarian Parliament

By Associated Press.
Budapest, Sept. 17.—The opening
session of the Hungarian Parli-
ament today was marked by a wild outburst
of factional feeling, which only was
prevented from becoming a free for
all fight through the intervention of
party leaders.

The uproar began as the president
of the lower house entered the cham-
ber. He was received with cries of
derision and abuse mingled with his-
sing and whistling. The president
treated the outburst with indifference
but all his efforts to restore order
were unsuccessful. His calls for at-
tention only caused the disorder to

ty of the government party whether

LIGHTNING DOES SOME DAMAGE

HOUSE STRUCK DURING STORM
TUESDAY MORNING—LIGHT
PLANT INTERRUPTED

INCH OF RAIN FELL HERE

Precipitation Appears to Have Been
General Over This Entire Sec-
tion of the State

Another heavy rain, accompanied
by much lightning, fell in Wichita
Falls early today. The precipitation
appears to have been general through-
out Northwest Texas, reaching a to-
tal of nearly three inches at Chilli-
cote.

Some damage was done locally by
the electricity. The most serious
damage was at the light and power
plant where one of the engines was
put out of commission by a stroke of
lightning. For forty-five minutes the
light service was cut off, but at the
end of that time another engine was
put into use. It was announced that
all the damage will be repaired by
tonight.

Several reports of wires down were
also received, though the damage
from this source appears to have
been light. While the storm lasted
there were vivid flashes of lightning,
followed instantly by deafening thun-
der claps.

The government gauge shows an
inch of rainfall here, being slightly
less than last Friday morning's rain.
The home of T. M. Bartlett on Third
street near the corner of Burnett,
was struck by lightning during the
storm and a number of shingles strip-
ped from the roof, but no further
damage was done and none of the occu-
pants of the house were injured.

All points on the Denver from Fort
Worth to Amarillo reported rains last
night and Yalley and Southern points
were also visited. On the North-
western the rain extended to Elk
City, Oklahoma. This rain will help
the fall plowing and will give a good
season, but it is not needed by the
cotton crop and may do some damage
to the opened bolls.

STREET CAR COMPANY BEGINS FOURTH YEAR

Operations Have Paid Expenses Prov-
ing An Exception to the Rule
In Small Cities

Yesterday was the third birthday
of Wichita Falls street car line. It
was on September 15, 1909, that the
first car rolled down the tracks and
through the business section and on
out to the lake.

The company began service with
four single truck cars. It now has
ten cars available for service, several
of them being large double-trucks,
and it is also well equipped with
trailers for big traffic days.

Figures are not available on the
amount of business done by the com-
pany, or the number of passengers
hailed, during the three years of its
existence. According to Mr. Kell,
the line has paid expenses, although
it has not rolled up any excessive
profits. As a usual thing, street car
properties in towns of this size are
heavy losers financially, but the ser-
vice furnished by the company and
the extent of its patronage have made
it an exception to the rule. In the
matter of equipment, service and op-
eration the line compares favorably
with those in much larger places.
There are comparatively few street
car lines in Texas that operate truck
cars and also few that have cars man-
aged regularly by conductors. The
local car line has both of these fea-
tures.

FIRST REAL PRIMARY TEST IN MINNESOTA

By Associated Press.
St. Paul, Minn., Sept. 17.—The first
statewide primary election in Minne-
sota for the direct nomination of
state officers, congressmen and United
States senator is being held to-
day.

There are four candidates for the
Republican nomination for governor.

Wade Hampton, manager of the
North Texas Gas Company, is in Hen-
rietta, where he will remain for sev-
eral days on business.

STYLE AND QUALITY

Are the two most essential points in a suit. Style that is pressed into a garment after it is made, is not permanent. Will wear out in a few weeks. In our suits the style is tailored in as the suit is made and you can't wear it out. When we tell you that these are Kuppenheimer clothes that is a sure guarantee of their quality. We'll show you why when you come in to look over our assortment of fall and winter models.

ROBBED MAN'S FRIENDS FOR HIS BENEFIT

Confession of Girl Involves Young Man Prominently Connected in Chicago

Chicago, Sept. 17.—Paul Folsom, attaché of the county clerk's office and brother of Master in Chancery Folsom, was arrested here following the confession of Gertrude Sutter, a pretty stenographer, employed as private secretary by State Senator John E. Madigan, in which she declared that Folsom sent her and another girl into the streets to lure, drug and rob his rich acquaintances.

The girl made these revelations after she had been arrested on a charge of robbing Oscar Bird, 4816 North Roby street. He identified her as the young woman who, after an evening of gaiety, had drugged and robbed him of \$250.

A trained before Judge Sabath, the stenographer repeated her confession and accused Folsom.

"I did not want to do it," she sobbed. "But he made me, I have to do what he says."

"Are you his slave?" asked the judge. The girl answered: "Yes."

When arrested Folsom had in his pockets two women's diamond rings and a pearl ring set with diamonds.

He refused absolutely to discuss the charge against him.

The girl was arrested still clothed in the handsome silken gown which had been used as a lure for Bird. She was held in \$2,000 bond and Folsom was held in \$3,000 bond. Both stayed in jail.

Miss Sutter, in a clear, girlish voice which contrasted with her weary eyes and her whitened cheeks, approached the bench and said:

"I didn't drug him. If anybody drugged him it was Folsom. I didn't want the money. Folsom wanted it. I had to get it for him."

"There's another girl—two of us, Folsom told us to go out last night. He told me where I would meet Bird and said Bird was a good friend of his and had money—lots of it—and that I shouldn't be afraid."

"The other girl went on the North Side. I went down town. Bird was brought around and we began drinking. I didn't drug him, though. He was drunk when I met him and he had \$278 in his pockets. Folsom told me this. Then we went to a hotel and I took his money. I gave Folsom \$190."

"How did you happen to meet Folsom?" Miss Sutter was asked. "And why is it that you are so much in his power?"

"I can't tell you," she answered. "I'll tell in court when the case comes up. But I've got to do what he tells me."

"It is the most heinous case that

TARIFF EXHIBITS ATTRACTS THOUSANDS

Tariff Chamber of Horrors Opened in New York City Has Opened Peoples' Eyes

New York, Sept. 17.—New Yorkers are flocking to a big, free show these days in crowds that are making all the theatrical managers green with envy. The new attraction is the Tariff Exhibit or Tariff Chamber of Horrors opened in a big store on Union Square under the auspices of the Democratic National committee. On the first day of the exhibit nearly 10,000 persons crowded in and since then a steady throng has filed in and out of the place.

It has been a cosmopolitan crowd. There are Jews and Italians from the East Side, an army of clerks and salaried men, and women by the score. Now and then an automobile runs up and some prosperous looking folks pile out and mingle with the throng.

The center of attraction is the model flat, fully equipped, with its kitchen, dining room and bedroom. The crowds linger about the flat and study the different articles in common use, each of which is labeled with its price and the tariff tax which shows why the article costs more than it should. On the household articles the tariff taxes range from 25 to 65 per cent and on the clothing displayed—for the flat is inhabited by a small family of wax dummies—from 50 to 90 per cent.

But the things that attract most attention are a baby carriage and a crib, on which the tariff tax is 45 per cent, and some baby clothes, on which the consumer gets stung with a tariff tax of 90 per cent. The women are particularly struck with these articles and express great indignation at what they call "putting a shameful tax on the babies."

"I don't know much about politics," declared one woman, after studying the model flat for half an hour, "but I'm going right home to my husband, who is a Republican, and tell him he must vote for Wilson or the babies and I will go on strike."

Another article that attracts much attention is a dotted Swiss dress. The material, made in New England, costs \$2.75 in the United States and only \$1.87 in England, because of the high tariff.

Congressman William C. Redfield, the Democratic tariff expert, made a big hit at one of the noonday meetings at the exhibit, with a basket of potatoes. After pointing out that the tariff tax on potatoes was 24 times the tax on real estate in New York City, the congressman showed that during the first three months of this year, when the crop shortage made necessary large importations of potatoes from Scotland, Americans paid \$18,733 in tariff taxes on potatoes every day.

"I have never come to my attention," said Senator Madigan, who was standing near by.

"I've known her a long time and she is not that kind. This man Folsom has her in his power."

THE MORGAN INTERESTS BACKING ROOSEVELT

Perkins, However, Has Indicated He Will Step Out if Things Don't Go To Suit Him

New York, Sept. 17.—Collier's, most ardent of all Roosevelt supporters, refuses to swallow all over again the theory that "the government will see that the tariff graft stops in the pay envelope." It was "bad enough when Mark Hanna hoodwinked the public with it sixteen and a dozen years ago; the Third Term's candidate's attempt to palm it off now is the final straw Collier's, in its issue of Sept. 14, serves notice on the Colonel as follows:

"The statement of Colonel Roosevelt, frequently reiterated, that the money powers are fighting against him exclusively, and are satisfied with both Taft and Wilson, is no doubt a perfectly candid statement of his belief, but it seems to us grossly inaccurate. The President, from some source to us unknown, has recently got plenty of money for his campaign.

"We happen to know that Mr. Perkins, while making it clear that he can raise all the money needed by the Bull Moose if he wants to, has held back and indicated that he might step out if things did not go according to his wish.

"We state this not as a surmise but as a fact.

"It doesn't mean anything against Colonel Roosevelt's independence, which is well established, but it does seem to us to constitute a reason for not making charges of probable subversion or helplessness against Governor Wilson. Whether or not big business men would care to help Governor Wilson financially can scarcely be known, as he is so particular about who contributes to his fund.

"Our guess would be that Mr. Jacob Schiff's support of Governor Wilson might be founded partly on the belief that he was going to be elected, as Mr. Schiff could scarcely take much satisfaction in the Governor's intense feelings about the existence of a money trust. We mention this instance because Mr. Roosevelt has chosen to emphasize Mr. Schiff as an indication that high finance fears only him. "As a matter of fact, the Morgan interests in general will probably be backing the Colonel even more heavily than they are now before the campaign is over.

"On the monopoly issue the principal exponents of the Colonel's position are Judge Gary and Mr. Perkins."

"On the tariff issue, the old Republican gag of Mark Hanna's day is served up anew, in the idea that the government will see that the tariff graft stops in the pay envelope. Workingmen have heard that story a long, long time, and meantime the price of living goes up, huge fortunes swell, trusts are created by tariff favors, the city grows at the expense of the country, and "prosperity" means plutocracy.

"To our best belief, Charles R. Crane is the only big business man in the country who has thrown his whole heart into the effort to elect Governor Wilson to the Presidency."

Earrings may be Next Style for Men, is Forecast

New York, Sept. 17.—Walter Creighton, son of the late Bishop of London, arrived yesterday on the steamship Majestic, bringing with him, free of duty, a sample of the whiskers which have become all the rage in England and which threaten to sprout on this side of the Atlantic. Creighton is tall and willowy and his hirsute growth on the sides of his face is distinctly aesthetic.

By the same vessel arrived a letter from a London correspondent, describing the London fashion in whiskers. These same men are becoming wearers of jewelry, he says, and they carry their money in small chain purses of fine gold mesh.

The soft silk collars that grace their necks are held together by brooches decorated with a pearl or twisted love knot. A wrist watch on one arm is balanced by a close fitting bracelet on the other. Quite recently one of the whiskerites appeared in London with a locket pendant hanging about his neck.

A new gold knobbed stick chased and embossed and carried in a dainty fashion and perfect nicety; a gold ring on the first finger of one hand and another on the third finger of the other hand, each with a sparkling diamond, are also features of modern male display.

It is suggested the male evening dress of the near future will include the tiara and earrings.

MORE DANGER IN STREETS THAN IN JUNGLES

Returned Explorer Says Messenger Boys are Exposed to More Dangers Than Travelers

New York, Sept. 17.—"A messenger boy in New York is exposed to more dangers every night than any explorer in the jungles of Africa or Central America," declared Russell Hastings Millward of the National Geographical society, home after a two years' jaunt through the interior of Guatemala.

"Explorers exaggerate the dangers of their work," he said. "Colonel Roosevelt made a great ado about the terrors of his African trip, but a man is much safer exploring in Africa than he would be in going about some parts of New York. The only real danger in the jungle is disease, not wild beasts and snakes."

Mr. Millward was in the consular service for three years following graduation from Columbia in 1902 being stationed in Congo Free State, Natal and Mexico. These residences in tropic lands gave him a taste for the tropics that he has never been able to overcome, and has led him into explorations in Africa and Central America. His Central American expedition occupied most of the last two years.

"I started from Belize, British Honduras, in January, 1911," said Mr. Millward to a World reporter. "We went to El Cayo, then west to Flores then to Rio Usumacinta, and up that river to the southern border of Mexico. Coming back, I passed in as straight a line as possible to Guatemala City."

"On this expedition I was accompanied by about sixty natives, Caribs, and from fifty to one hundred mules. For a short time I had a white man, Billy Farrand. But the malignant malarial fever got him and he died in June, 1911, at San Lazare, Peten. This territory of Peten is the most remarkable country I have ever seen. It is absolutely virgin jungle, and about the richest in the world. Its principal resources are mahogany, rosewood, cacao, chicle, logwood and rubber. Mahogany is the most valuable asset."

"For years the Caribs have been bringing in mahogany from the interior to the trading posts near the east coast. But they kept their interior haunts secret and the sources of their superior white men. My object was to cut right through Peten, which I did, passing through these virgin mahogany forests. I explored four lakes known heretofore only by tradition and made maps of them. The National Geographical society will name the lakes."

"Another lake in which I took much interest is the Lago del Peten, a large lake in the interior of the territory. Tradition has it that into this body of water the Indians dumped the famous white horse of Cortez. The story was, you remember, that Cortez's splendid horse was greatly revered by the natives. They thought it had supernatural power and so they fed it with honey, the food of the gods. When the horse died the waned savages made a great horse of white stone and set it on a pedestal and worshipped it. When Cortez came they pointed out the stone animal as his horse. The idol was dumped into the lake.

"I dragged the lake carefully, but was unable to find anything that would suggest the horse-idol," said Mr. Millward.

"The Caribs are a strange people. They are a mixture of negro and Indian, in which the negro element is predominant. They are black, but when very angry or emotionally aroused a reddish tinge surges over the black. Booker Washington is making an inquiry into the life and habits of this interesting Central American people."

Robatch's Mineral Water. is highly recommended by physicians and patrons who have tested its merits, for indigestion, catarrh of the stomach, kidney and bladder trouble. This water stimulates the secretion of the stomach, increases digestion and favors a more complete absorption of the food and prevents the action of germs that cause typhoid and other infectious diseases.

This water can be purchased at the wells or delivered in jugs or cases. This well is located one mile south of Alamo school building in Floral Heights, two deliveries daily morning and afternoon. G. J. Robatch, Owner. Phone 1601—1 long—4 shorts.

Notice.

We contemplate erecting in the near future a five story office building, located at the corner of Indiana and Eighth. All parties desiring space in the building will be glad to have them call and confer with us. To those who desire making lease for a term of years, we would undertake the arrangement of offices to suit their convenience.

WHAT THEY THINK ABOUT WICHITA COUNTY OIL FIELD

Corralled by W. S. (Bill) Long

(National Petroleum News) Wichita Falls, Sept. 1.—Opinions of the independent oil men as given to your correspondent on the Electra oil field:

So far it has been spotted, but when fortunate enough to get a producing well its longevity furnishes its attractive features. Conditions are better here as to marketing than in Oklahoma. The area that has been developed shows a sympathetic relation between the two extremes of the field. There will be a continuous oil field with barren spots covering the entire thirty miles between Electra and Petrolia.—L. M. Gorham.

Plenty of room for a big pool around Petrolia. A little hard to guess out.—Andrew Gartland.

Good air. Pools will be found almost continuously from Electra to Petrolia.—H. I. Hardenburg.

Vell, Bill, you know vat I've been doing. I blayed twenty thousand dollars on the east Mother Earth, that me and John might side. I see no reason to change. The best wells have not been found.—Carl Buerbaum.

Looks mighty good to me, getting away from the pumpkin seed formation, stretching over considerable territory, and assuming some of the characteristics of Oklahoma. The entire northern part of Wichita county looks good.—Denny O'Connor.

I have drilled 14 wells, and only one dry hole. The wells all have been better than 100 barrels, and the last one is making 500 barrels. I do not look for a long life to the wells, but their richness will more than make up. It will be continuous, but irregular between Petrolia and Electra.—E. W. Morgan, Contractor.

The Wichita county oil field is like the chicken shown in the "Bon Ami" book. It has not been scratched yet.—Ted Smith.

Electra oil field. Oh! H—Tommy Wood.

The north end of the county is a beautiful picture done in oil. I will stay with it if for no other reason than just admiration.—L. C. Hedrick.

There is nothing to it. The whole north side of Wichita county will produce oil. She is bound to be a world beater.—Ed Short.

Looks better than it did eight months ago.—E. L. Fairbanks.

Looks better now than at any period since the original well came in. I have spent my money along the east side, as my leases and development will substantiate. I still think the east side is correct.—A. A. Little.

It is going to be the largest oil field since the Illinois field. I am playing it to the east and backing my judgment with a twenty thousand dollar bet.—B. L. Brookins.

I don't know a d— thing about it. I have been busy in the South with contracts.—J. W. Dyon.

All the sands that produce oil at Electra will produce oil at Burk Burnett and between all those points where it's found between Electra and Petrolia. The big producers have not yet been discovered.—George Summers.

So you want an interview, do you? All right. When the world was young many, many centuries ago there was a great and killing frost, called the glacial period. Vegetation was all, all frozen, and cotton did not yield more than a sixth of a bale to the acre in Wichita county. (However, Wichita county was not separated then). During this time the animal life was driven into the valleys for protection. There being no vegetation, they soon perished from hunger and cold. (Insert here ten chapters on the geology of petroleum—any good book will do). Then came a period divided into a variety of denominations, such as the cretaceous, the devonian, the prepositional, the cutaneous and the spontaneous combustion ages. With these came the subsidiaries with their med-erterganean pulverizers that drove their pointed steel into the under of live and have our being. Then came the drilleries, and the bonuses came. —Robert Cook, Wichita County Geologist.

(Continued in our next)

(Author's Note.—I will get the rest of this when I am taking my vacation).

P. S.—Hey, Bill! Tell your readers that it is the greatest oil field ever.—R. Cook.

Question—What is your opinion of the Electra field?

Answer—I have no opinion.

—Howard Robson.

They have been flirting with the oil field in North Texas for over a year, but now matters have changed and instead of floundering around as the de-

sultory drilling indicates, they have a well defined line—and plan by which this field will come into its own. My candid opinion is that this will be in a class by itself, and the people who have been so shy about putting their money in, if they return now, will find that "procrastination is the thief of time," and they have waited so long that there is no chance.—J. F. Hutson.

This field will extend on a north-easterly line into Oklahoma. The well at Petrolia that came in yesterday is significant that there will be a great extension, and a great field.—S. E. Bell.

Larger Corsets and Hosiery.

Boston, Sept. 17.—Outdoor sports and athletic exercises have so developed the American woman of today that she has bigger legs and feet than the woman of the past, according to the American Wool and Cotton Reporter of this city, the official paper of the textile industries of the country.

As convincing proof of the truth of its assertion, the trade paper avers that the big hosiery mills in New England have given orders for construction of new looms for the production of hose in sizes larger than have ever been placed on counters. The new looms, the paper says, are the result of quiet but urgent "tips" given to the textile mill officials by the hosiery buyers.

"It is these buyers, too," adds the paper, "who, of all others, have the best opportunity of noting the rapid and marvelous progress being made of late years toward the development of the real ideal figure. This is the natural result of our women resorting to outdoor sports and athletic exercises which were for so long enjoyed only by the other sex."

Corset manufacturers, it is said, have been similarly informed by the buyers in their line.

Help For the Country School.

In recognition of the fact that more than eighty-five per cent of the population of the State live in the country, the University of Texas Extension Department has for two years been devoting much attention to the problems of the rural school. Beginning in September, 1912, the entire time of a competent teacher will be given to the study of the rural school as a social center.

Miss Amanda Stoltzfus, the visitor of rural schools, is a country woman herself. She has lived on the farm and worked in the farm kitchen. Since leaving the farm she has studied and done actual teaching. For the year just past she was the principal of the Tuleta rural high school, in Bee county, Texas—a highly successful school that put into practice on Texas soil many of the best features of co-operative social center work.

No position offers better opportunities for leadership than does the country school. The teacher is in the position to secure the first steps in general co-operation through improvement of the school plant. He can further center the interest of his patrons on the school by introducing into the course of study such vital subjects as nature study, practical agriculture, the handling of common tools, demonstrations of home-making and home keeping, schemes for simplifying house work, plans for convenient, attractive country houses, the care of milk, etc. Miss Stoltzfus worked out just such problems successfully in the Tuleta rural high school. Her help is now available for others. She will be glad to confer with teachers and community leaders interested in rural work of the home or the school, either by correspondence, or, whenever possible, by a personal visit.

No More Gray or Faded Hair.

Women and men who use Parisian Sage can be sure their hair will never turn gray.

Parisian Sage will preserve the natural color of the hair; stop it from becoming faded and lifeless, and by nourishing the hair root give to the hair a lustre and radiance that compels admiration.

Parisian Sage stops falling hair; banishes dandruff; makes the scalp clean and free from itches and promotes a growth of heavy hair.

Large bottle 50 cents at dealers everywhere. Sold by Foosee & Lynch on money back if dissatisfied plan.

Removal Notice.

We desire to inform our patrons that we have moved our office from the Kemp and Kell building to the Orth building, 811 Indiana, where we will be pleased to have them call.

See If You Have
Enough Fruits for
Winter Use.....

Quickest
Delivery
In Town

Judging by the limited quantities of fresh fruits that have been sold for canning purposes this year, I feel quite sure that a great many women have not put up a full winter supply, and are figuring on buying fruits ready canned for the purpose. This is just as it should be, for women who have tested and investigated this know that home canned fruits are more expensive and not any more desirable than my Cream of Orchard brand. I am now taking orders, in fact have booked quite a number of good sized as well as small orders for these fruits. There are six different varieties for you to select from and my quantity price is proving a big attraction. Every can is guaranteed. There is no possible chance of your losing on a single can. I'll be glad to open a can or two if you wish to show you the quality.

Wichita Falls, Texas, Sept. 17, 1912

503 UNION LABEL 503

Lemons are high, the daily market report tells us, but it will make no difference. Mr. Tatt and Mr. Roosevelt both will be handed their November 5th.

Will some one please tell us why it is that there are so few canning factories in Texas? There was an abundant fruit crop this year throughout the State, and from the best this paper can gather a greater portion of it was allowed to decay in the orchards.

There is going to be lots more than abundant crops to be thankful for on the Fourth Thursday of this coming November, 1912, but Democrats are most likely to select an earlier date for their celebration.

This is September 17, and up to the present time the managers of the Taft presidential campaign have issued no appeal for campaign funds, and if any contributions have been made the names of the contributors have not been made public. Yet, there is every evidence that the President's campaign for re-election is not suffering for the lack of money.

It is the rule for Republicans to fight among themselves up to a certain stage of the game, and then unite their forces to whip the Democrats. This seems to be the situation in the State of Oklahoma. But Oklahoma is Democratic, anyhow, and it will make no difference to the Democrats that State whether the Republicans prefer to get licked as a whole or in bunches. The uniting of their strength will only make it possible for them to sympathize with each other for the drubbing they are sure to get.

On and after October first all newspapers and periodicals published in this country will be required to make sworn statements as to their circulation. This, presumably, is for the pro-

tection of the advertising public. This action on the part of the government is just, and should have been taken years ago. It is just as wrong to defraud a man by lying to him about the circulation of a newspaper as it is for the publisher to stick his hand in the advertiser's pocket and take money that he has no right to take. No honest newspaper man will resort to such methods in order to get business, but that there are such is evidenced by the fact that the government has taken a hand in the matter and will use its efforts to put a stop to the practice. If all the newspapers and magazines published really had the circulation they tell the prospective advertisers they have, there would not be enough paper mills in the world to supply them with the blank paper, and it would tax the railroads to transfer the paper from the mills to the newspaper and magazine publications. The success of many really worthy publications has been achieved largely by the ability of their circulation liars.

Those West Virginia editors who were lured into a trap by prohibition leaders through an offer of several hundred dollars worth of advertising (the offer coming ostensibly from the liquor trust) doubtless have the sympathy of a few dozen Texas editors who were caught in the same kind of a trap a few years ago. It goes to prove that when fishing for suckers, Texas is not the only state where that sort of game abounds in abundance.

THINKS CONNECTICUT WILL BE FOR WILSON

Mr. R. E. Huff states that he has received a letter from a personal friend of his in Connecticut, a very prominent banker, in which he says: "In regard to the political outlook for Connecticut I feel pretty confident that the State will vote for Wilson and that Wilson will be elected. However, it is sometime before election and war with Mexico or some other happening might make a difference. I feel reasonably sure about Connecticut, though I may be mistaken."

Mr. Huff states that the writer is not a Democrat, but is an independent, who has not voted the Democratic ticket in presidential years since 1892, nor does he say he is intending to vote the ticket this year. Mr. Huff believes, however, that he knows what he is talking about, and that Connecticut is reasonably sure to be in the Democratic column in November.

AN EDITOR'S GOAT STORY.

The editor had an experience with a billy goat last night. The goat entered the yard unbidden between 11 and 12 o'clock and made a great fuss twisting shrubbery with its horns. The editor, sleepy and somewhat timid, appeared on the scene. He did not like the goat and the goat didn't like him. War was instantly declared and the battle set in. The goat was rapped with a stick and then his goatship advanced. The editor backed and kept crawling as the goat kept up its forward movement. Backed up the front steps on the porch brandishing the stick that had broken at the first stroke. The goat pro-

ceeded steadily after the manner of the truly belligerent of his tribe. Into the door the editor backed and the screen went shut with a slap. The goat touched the screen with his horns and then the door was shut with a bang. "I'll have you arrested," muttered the editor and went straight to the telephone. "Central," gave prompt answer, bless her sympathetic heart, when a policeman was asked for and soon had the editor talking to that always accommodating strong arm of the law, Policeman Nutt. The editor asked for the pound man and poured out his troubles into another sympathetic ear. Meanwhile Mr. B. Goat's footfalls could be distinctly heard as he strode defiantly up and down the porch. He must have heard the conversation for he vanished before the pound man could reach the scene, and the editor was glad of it. It wasn't the editor "getting somebody's goat." It was somebody's goat after the editor. That is the editor's goat story and 'tis true.—Corsicana Sun.

New Effects In Furs.

Paris, Sept. 17.—A fur model, which attracted much attention in the display, was a three-quarter length coat of black broadtail (baby lamb) worn over a dress of white crepe de chine having a deep band of the broadtail fur on the skirt so that when the jacket was worn the crepe de chine was not visible and the effect was that of an entire costume of fur.

Fur trimmings are much employed this year from the costly furs, such as sable, chinchilla and seal-skin, to the cheapest, such as opossum and blue rat. While bands of fur appear on the bottom of many of the skirts, they do not generally exceed five inches in width. The wide fur bands introduced by Poiret two seasons ago are not seen this year.

Quite a little civet cat is being used. It is very effective and inexpensive. Many of the smart tailor-made suits at Callor's have a "close fitting fur collar, while others are made with a narrow little scarf tie completing the deck. Drecoll shows a very effective mantle of black velvet and ermine made so that the ermine forms the greater part of the corsage section, while the skirt section is entirely of black velvet.

Some three-quarter length fur coats were introduced at Drecoll's where the display of fur garments is unusually good for this season, yet all the houses, without exception, give preference to the long fur garments again.

Muffs vary in size, though generally speaking, they are not as large as they were last year. Poiret shows some very odd shaped muffs which are only wide enough at the ends to admit the hands and gradually grow wider toward the middle.

ELMER WRIGHT, Manager

A MISSOURI MAN DISAPPEARS THE SECOND TIME

Chillicothe, Mo., Sept. 17.—Sebastian Englart, a former resident of Chillicothe, who disappeared from this city fifteen years ago and reappeared as unexpectedly at the home of a sister in Norborne about a month ago, has again disappeared. Relatives have sent inquiries to many towns in this and adjoining states.

In the fall of 1897 Englart decided to move from Chillicothe and had started to load his household goods in a car. One morning he went to the car, where he was seen by acquaintances, and then mysteriously disappeared. At the time relatives and friends feared an accident and a search was instituted for his body. He was finally given up for dead.

In August, 1912, he appeared at the home of a sister in Carroll county. She immediately recognized him, although he had greatly changed in appearance. He had a hazy recollection of having owned property and stock in Chillicothe, but could not recall having had a family here. Three sons and a daughter live in this county. One of the sons went to Norborne but his father did not recognize him. Arrangements were made for Englart to remain at the home of his sister

DAILY DIET AND HEALTH HINTS

By DR. T. J. ALLEN, Food Specialist

DIET IN OBESITY.

Obesity cannot be controlled entirely by diet, although it is the principal factor. It is customary to reduce the amount of water taken to not more than one quart, the normal quantity being two quarts, including all drinks. The foods to be especially avoided in obesity are: Sweets, pork, veal, prepared dishes, potatoes, white bread, oatmeal, hominy, rice, fats, beets, carrots, turnips, parsnips, cream, soups. Fish and lean beef are the least objectionable of the meats. Stale graham is the best bread.

THE FARMERS UNION GIN

Is in Readiness for Business

The machinery has been thoroughly over-hauled and put in first class order. Murray cleaners have been added to the machines, and all cotton will be thoroughly cleaned and graded high when ginned.

HUSKY SQUAD OUT AT HIGH SCHOOL

BOYS WHO BEGIN PRACTICE FOR FOOTBALL HEAVIER THAN IN FORMER YEARS

HAMMOND THE CAPTAIN

Old Player Is Well Pleased With Bunch That Turned Out At Initial Practice. Football practice was begun at the high school yesterday and the organization of a team is now under way. A husky squad, averaging close to 150 pounds in weight, has turned out and the prospects for a winning eleven are said to be unusually good.

Capt. Hammond is endeavoring to arrange games with Vernon, Henrietta, Frederick, Decatur College, Gainesville and other elevens in this section. Nothing has yet been done towards organizing a town football team such as has been formed here in previous seasons, but it is possible that such a team will be organized later.

The high school players will practice on Monday, Wednesday and Friday of each week. The lineup at yesterday's practice was as follows: Goodnight, center; Robert Tevis, left guard; Murray Walker, left tackle; Self, right end; Crowell, left end; Hammond, right guard; Brown, right tackle; Leonard Smith, quarterback; Hickman, full back; John Tevis, right half; B. Taylor, left half. Lea and Powell, substitutes.

DR. H. A. WALLER DENTIST

Office: Room 207 Kemp & Kell Building. Phone 836.

I take pleasure in announcing to my former friends and patrons that my office is now open on 2nd floor Kemp and Kell building. My new office is equipped with all the latest sanitary dental appliances known to modern dentistry, including two full sets of instruments and an electric sterilizer. This enables me to use sterilized instruments on each patient. It is a well known fact that many contagious diseases, such as tuberculosis, diphtheria, pyorrhea, (that deared disease which causes the teeth to become loose and fall out commonly known as scurvy) and many blood diseases can be transmitted from the mouth of one patient to that of another by the dentist.

It affords me great satisfaction to see my patients thus safeguarded. Soliciting a renewal of your liberal patronage of past years, I beg to remain, Yours sincerely, DR. H. A. WALLER.

The sheriff's department last night arrested J. Rone, a boilermaker's helper at the Northwestern shops on a complaint charging aggravated assault in connection with the cutting of John Gotcher Sunday morning.

News From the Oil Fields

While Electra and Burkburnett and the other scenes of activity continue to witness new locations and busy times, the Petrolia field steadily holds its own. New locations are being made regularly and there is no lack of that part of the Northwest Texas field. The Edmonds Oil company has two new locations on the T. A. Matlock tract and is now rigging up for the first well. The Amarillo Oil company is getting ready to test its well, which is now down to the Miller sand. The Amarillo company has a new location on the Joyce tract in the southern part of the field.

WOMEN AT STATE FAIR.

In its preparation for the twenty-seventh annual meeting of the State Fair of Texas, October 12 to October 27, the management is giving careful attention to the women from the farms and the cities and the towns of Southwest, and when the exposition opens this year members of the fair sex will find much of interest. Women visitors are invited to the various departments, including a number the men overlooked, and each annual meeting has proven a rich source of information to the women of the state.

REDUCTIONS PROMISED IN INSURANCE RATES

State Board Announces New Rules Governing Application of Schedules. By Associated Press. Austin, Texas, Sept. 17.—The State Insurance Board announced today important changes in the regulations governing fire insurance rates by which considerable reduction is expected. The board says the changes have a tendency to reduce the cost of applying these schedules to specific rates, as well as a tendency to an ultimate reduction of rates. The board says it is impossible even to approximate what the general average reduction will be. The most important change is in granting credit for a good fire record of any city, town or village. The credit for good records is based upon the following conditions and may be had from the record of the local agents of any town and must embrace the losses paid by admitted, as well as non-admitted companies doing business in this state. The amendment is as follows: "When a statement showing the loss ratio for a city or town for the three calendar years preceding is filed with the State Insurance Board, and such statement has been approved by the State Insurance Board, the following credits will be allowed: "For each five per cent or fraction the loss ratio for the three calendar years next preceding, three per cent thereof less than fifty-five per cent of maximum credit, fifteen per cent. The above credit is to apply only in cities and towns having a key-ratio of eighty or under, and to apply only to risks located within the corporate limits. The above credit applies to the final rate of risk."

SCHOOL CHILDREN'S Eyes should receive attention. We Know How DR. J. W. DUVAL

PERSONAL MENTION

E. M. Everton left yesterday morning for Vernon, to remain for a day or two on business.

Dr. W. H. Lincoln, wife and child, arrived here yesterday from Minnesota, and will remain in this city for several days prospecting for a location. Dr. Lincoln, who is an experienced surgeon, after a trip all over the country, says Wichita Falls looks good to him.

Mr. and Mrs. Joe Kirby and children Miss Lady Joe, Carl, Jack, and Joe are in the city investigating the advantages here with a view to locating. They arrived here several days ago from Artesia, New Mexico, and are well pleased with prospects here.

Mrs. S. H. Hodges of Fredrick, who has been visiting friends here for several days, left yesterday with Mr. M. C. White for Roswell, New Mexico, to remain for some time as the guest of relatives.

Misses Bertha May Kemp, Mabelle Jackson, Kathleen Stonecipher, and Lillian McGregor, accompanied by W. M. McGregor, left this morning for St. Louis, where the young ladies will enter Lenox Hall for a year of work.

Mr. and Mrs. S. L. Robertson from Haskell are in the city visiting their son, W. L. Robertson, and family. Tom Higgins, of the Fort Worth & Denver railroad at Childress, is visiting relatives in this city for a day or two.

Miss Katherine Wilson of St. Joseph, Mo., is visiting her sister, Mrs. A. W. McCoy at the Westland.

Miss Sarah Haley has returned to her home near Mabledean after a visit with Mrs. L. R. Lunford here.

Mrs. Mae Googler and daughter have returned after a visit with friends at Hereford.

Miss Gera Davis of Iowa Park, passed through this city today enroute to Fort Worth, where she will enter the Polytechnic College for a year of work. Tom Burnett arrived here this morning from his ranch near Electra.

Judge John C. Kay left this afternoon for his former home in Greenville, South Carolina, where his father is seriously ill, according to a message just received.

Judge A. H. Carrigan left this afternoon for Graham, where he goes to defend Arthur Mills charged with murder.

Mrs. Everett Jones left this morning for Lancaster, Texas, to spend several days with relatives.

Dodge Mason, a prominent cattleman with headquarters in Kaufman, was a visitor in this city today.

Emiel Bauch returned this afternoon from Waco, where he has been for several days visiting friends.

Miss Maud Ragsdale, who has been spending several days with friends and relatives in Dallas, returned to her home here this afternoon.

Misses Eddie and Genevieve Carver arrived here this morning to spend a day or two in the city as the guest of Miss Lillian Avis on Tenth street.

Soll Melugin, county judge elect of Archer county arrived here this morning on a short business trip.

Capt. Burke Burnett, one of the most prominent cattlemen of Fort Worth, passed through here this morning enroute to King County, where he has a large ranch.

Miss Luulu McBride, who left this city several weeks ago for her home in Louisiana to spend a vacation, has accepted a position with the Tremont Lumber Company there and will probably not return to this city.

Mr. and Mrs. A. D. Magner, who have been spending the summer at Denver and other points in Colorado, have returned to this city for a few days stay before leaving for their home in Fort Worth.

Miss Tressa Lee left this afternoon for Denver, Colorado, to remain as the guest of friends for a few days. She will probably return here about the first of next week.

Bertress Huff passed through here this afternoon enroute from his home near Devo, Oklahoma, to Fort Worth where he goes to accept a position with the Fort Worth & Denver railroad.

Mrs. M. M. McMurrin of Galveston passed through here this afternoon enroute to Pueblo, Colorado, to visit her sister for several weeks.

Caloway Dean, a prominent citizen of the Mabledean community, left this afternoon for his home, after a business trip to this city.

Mr. D. J. Hooper will return tomorrow from Vernon after visiting his mother friends.

TELL MOTHER GOOD-BYE SAID DYING MAN

Third Shooting Affray in Cotton County Since its Formation Takes Place at Randlett.

Randlett, Okla., Sept. 17.—The third shooting affray in Cotton county since its formation three weeks ago, but the first actual-killing, occurred in Randlett Monday afternoon when W. N. Smith, aged 50, fired a bullet from an automatic pistol through the

heart of Lon Scroggins, 36 years of age. Both men were freighters. Scroggins was unmarried. Their trouble started several months ago in a Wichita Falls and Northwestern grading camp when according to Scroggins's friends, Smith had him arrested. Scroggins was returning from Burk Burnett, Tex., with a load of freight when Smith approached him. Scroggins climbed from his wagon, witnesses say, threatening to fight and Smith shot him. Although one bullet passed directly through his heart, he ran back to his wagon, exclaiming to a companion: "He got me through the heart. Tell mother good-bye. Father is in Burk Burnett." Then he fell and in a few minutes was dead. Smith was arrested and taken to Lawton to be placed in the Comanche county jail. He refused to discuss the killing. Smith is married and has several children.

Dikes Laxative Tablets

Are speedy relief for constipation and since seventy-five per cent of the diseases of the human family are traceable either directly or indirectly to this ailment, this remedy finds favor with all who have used it. Dikes Laxative Tablets are a candy cathartic, mild and pleasant in action do not gripe or nauseate and may be taken without the inconvenience of having your stomach deranged or having to quit work while taking them. Dikes Laxative Tablets are tonic medication of a slightly purgative nature vastly different in action however from the harsher more drastic purgatives that some times have to be given in extreme cases, but that are not indicated in the average case of constipation. Dikes Laxative Tablets are ideal for children, owing to the pleasant taste children take them readily and with highly satisfactory results. This excellent remedy for sale at all times by the

My motto: Miller sells it for less.

T. H. Peery, who was operated on for appendicitis Sunday night and who has been in a critical condition since that time, is reported as a great deal better today.

Dr. Waller, Dentist, Room 207 Kemp and Kell building. Phone 836. 89-4tc

Jacob J. Smyrie et. al. have filed suit against L. C. Hivie et. al. for the cancellation of an oil and gas lease. The plaintiffs allege the defendants have failed to comply with the terms of their contract.

T. H. Peery, who was operated on Sunday night for appendicitis, passed a better night last night and unless unlooked for complications develop will recover.

RACING A FEATURE. Greatest Horses in America at State Fair This Fall.

Rich Purses and Stakes Offerings For Trotters, Pacers and Runners This Year Aggregate \$35,000—Remarkable Performances Assured in Each Event.

Racing of course will be one of the main entertainment features of the twenty-seventh annual meeting of the State Fair at Dallas, October 12 to October 27. In running, trotting and pacing events this fall the management will distribute \$35,000. There are six big harness events—four for \$2500 each and two for \$5000 each. These are the richest offerings in the history of the Fair Association and will result in a racing program that will be brilliant in every respect. The harness stake events are: 2:14 trot, "Chamber of Commerce" purse, \$5000; 2:24 trot, Armstrong Packing Company's "Plover Trot," \$2500; 2:09 trot, "Captain Sydney Smith" purse, \$2500; 2:11 pace, Oriental & Adolphus Hotel's purse, \$5000; 2:29 pace, Dallas Implement, Vehicle and Machinery purse, \$2500; 2:15 pace, The Dallas Brewery's "White Rose" purse, \$2500. Each of these filled with a larger number of entries than the events of any other association in America this year. Out of the horses that have made marks of less than 2:09 this year, six are entered for the State Fair races. This is considered a remarkable showing and but illustrates the fact that big stakes bring the best horses. The six mentioned are Henry H., 2:07 1/4; Jessie Direct, 2:07 1/4; George W. Newton, 2:08 1/2; Pearl Paic 2:04 1/2; The Midget, 2:09; and Warner Hall 2:07 1/4. Henry H. is one of the wonders of the American turf. He is double gaited and holds a trotting record of 2:07 1/4 and a pacing mark of 2:07 1/4. He belongs to Charley Deed and at Kalamazoo recently won the first heat of the 2:14 pace in a contest with the great Pearl Patch. The State Fair futurity events for pacers and trotters are attracting a great deal of attention this year. Only Texas bred and owned colts are en-

GREATEST JEWISH CITY

About one-tenth of the entire Jewish race in the world today resides in the United States, where they form about two-per cent of the population. More live there now than were in the whole of Palestine. Every fifth person one meets on the streets is a Hebrew. In every country the Jews are among the most orderly elements of the population.
