VOLUME VI

WICHITA FALLS, TEXAS, FRIDAY, SEPTEMBER 20th, 1912

NUMBER 112

## NO SETTLEMENT CARMEN'S STRIKE

CONFERENCE YESTERDAY FAILED  
TO RESULT IN ANY AGREE-  
MENT ACCEPTABLE TO  
STRIKERS

## MEN HUNTING OTHER JOBS

Not Expected that Railroad Company  
Will Accede to Strikers Demands  
Soon

The conference between officials of the Wichita Falls Route and representatives of the striking carmen which was in progress yesterday at press time was devoid of results so far as any agreement by which the men would return to work was concerned.

The strike is now on indefinitely and many of the strikers are arranging for other jobs, while the railroad company is bringing in men to fill their places from Denison and other points.

Most of the strikers have little hope of winning soon and for this reason are seeking other jobs. Many of them went out with little hope of winning all they contended for and struck from a sense of duty to their fellow members of the Brotherhood at points on the Katy.

In the final conference yesterday the carmen offered to repair all work originating in the Wichita Falls yard and all had order cars that originated in transit after they had passed the last inspector on the M. K. & T. provided they would not be required to repair had order Katy cars shipped in or originating outside the yard limits here and that they be not required to do any wreck work on the M. K. & T. outside the yard limits here.

## CHAMPIONSHIP SERIES TO BEGIN OCTOBER 7

This Date Has Been Tentatively  
Agreed Upon by the National  
Commission Which Meets Wednesday

New York, Sept. 20.—The world's series baseball game will begin Monday, October 7. This date is said to have been tentatively agreed upon by the National Commission which meets here next Wednesday to draft plans for the games.

The date for the opening of the series was based upon the assumption that the New York Nationals and Boston Americans would win their respective pennants. The Boston club already has won the pennant and the Giants expect to win in the next ten days.

The playing seasons of the Boston Red Sox and the New York Giants close October 5.

## SEVERE STORM IN SOUTHWEST TEXAS

Hail and Wind Cause Damage in  
Vicinity of Coleman and  
Brownwood

Dallas, Texas, Sept. 20.—Reports from last night's storm section about Brownwood and Coleman make it practically certain no lives were lost. The West Texas Telephone company reports that much damage was done at Coleman by a severe hail-storm which broke nearly all windows in the city. At Winchell there was a severe wind-storm.

San Angelo and Ballinger had heavy windstorms and hail, but there was no tornado at those points.

Hard Luck Storm of the "First Order"  
Brownwood, Texas, Sept. 20.—A hard luck storm of the first order struck the vicinity of Coleman, Texas, last night. It did \$100,000 damage to crops, but failed to precipitate enough rain to relieve the drought.

Coleman is still suffering from a water famine today. Not far from Coleman, at Brooksmith, there was a five inch rainfall, but before the rain, hail fattened out thousands of dollars worth of crops. The hail stones were reported to be terrifying in size. They stripped about eight bales of cotton in one field alone.

At Winchell the Methodist church was demolished by wind and the Baptist church was moved eight feet off its foundations.

At Coleman Junction the section house was unroofed.

**WEATHER FORECAST**  
Cooler tonight and Saturday;  
showers Saturday.

## LANE QUOTES LAW TO LIQUOR DEALERS

Parent Unable to Authorize Sale of  
Minors, He Says. Declaration  
by Minor No Defense

Austin, Texas, Sept. 20.—Controller Lane quotes the law in a number of letters from citizens throughout the State calling his attention to the fact that certain saloonkeepers are violating the law by selling intoxicating liquors to minors upon receipt of written authority from the parents of these minors. He said:

"It appears that many of the saloonkeepers themselves are under the impression that they can legally sell intoxicating liquors to a minor when the said minor brings along written authority from his parents authorizing the saloonkeeper to make the sale. This is an error as the law absolutely prohibits the sale or gift of intoxicating liquors, either by the saloonkeeper himself or his agent, to any person under the age of 21 years under any circumstances, and any liquor dealer who sells, permits to be sold or gives intoxicating liquor to a minor, does so at his own risk.

"There also seems to be an impression among the saloonkeepers that when a minor comes into his saloon and attempts to purchase liquor and is required by the saloonkeeper to give his age and in doing so he assures the saloonkeeper that he is 21 years of age, that when the sale is made under these circumstances the saloonkeeper incurs no liability. Such is not the law. The law makes it the duty of the saloonkeeper, whatever may be the representation of the customer, when there is any question of doubt as to his minority, to ascertain the truth about his age before making the sale, and if the saloonkeeper does make the sale without taking this precaution and if afterwards developed that he has sold to a minor, he subjects his license to forfeiture.

"A more strict observance of this provision of the law will keep many liquor dealers out of serious trouble in the conduct of their business."

## \$70,000 STOLEN FROM A TRAIN

FOLLOWING SENSATIONAL HOLD-  
UPS PASSENGER TRAIN ON L.  
AND N. ROBBED NEAR PEN-  
SACOLA, FLA.

## TAKEN FROM A PACKAGE

Slips of Paper Substituted for Bills—  
Money Was to Pay Railroad  
Employees

Pensacola, Fla., Sept. 20.—Following closely a series of robberies by highwaymen on railroads in the South, the westbound Louisville & Nashville train was robbed Wednesday between Pensacola and Flomaton, Alabama.

It is reported that \$70,000 was stolen from express packages sent from Pensacola banks to Flomaton for payment of employees of the Louisville & Nashville railroad in that district. The passenger train left Pensacola at 7 o'clock Wednesday morning, carrying in the express car \$75,000 in currency from a local bank for the railroad men at Flomaton.

The sealed packages containing this sum are said to have been properly received for by express agents and messenger, but when delivery was made to the railroad authorities at Flomaton, it is said only \$5,000 of the shipment remained in the bundles. The \$70,000 is said to have been carefully extracted from the packages and slips of paper, cut from magazines, were substituted.

The shipment is said to have consisted principally of bills of small denomination.

**Cotton Leaf Caterpillar.**  
Austin, Texas, Sept. 20.—E. A. Miller, assistant entomologist of the Texas Department of Agriculture who has just returned from Dublin, Texas, where he went to investigate the ravages of certain moths upon peaches said today: "The moths which are doing damage to late peaches were found to be mostly those producing the cotton leaf caterpillar. There are two methods of control against these moths. The first is the trapping system by means of lights placed above shallow vessels containing water with a film of oil on top. The other is to use poisoned bait, such as apples or over ripe peaches which have been mashed up."

## ON TRAIL WITH BLOODHOUNDS

SCORES OF SOLDIERS SEARCHING  
AT HEAD OF CARBON CREEK  
FOR INCENDIARIES

## SURPRISED BY SENTRY

Men Who Were Attempting to Set  
Fire to Coal Tipple and Resi-  
dence of Superintendent Flew

Charleston, West Va., Sept. 20.—Scores of soldiers with blood hounds are searching the mountains today at the head of Carbon creek for the men who at midnight tried to set fire to the tipple of the South Carbon Coal Company, and the residence of Charles Cable, superintendent of the mine.

Creeping along the paths in a dense forest, unknown persons passed through the lines of guardsmen and making their way to the tipple, saturated portions of it with oil and were ready to apply a match when they were discovered by a sentry, who fired his gun.

The men ran along a railroad for a short distance and then disappeared in the woods. A few minutes later a man was seen trying to set fire to the Cable residence nearby. He also was fired upon, but escaped.

The military forces were reinforced today by an infantry company, bringing the total number of soldiers at Carbon creek to 250. Private Chas. Campbell of Parkersburg, who was mistaken for an intruder by a sentry at Cherokee last night and was shot before he could make his identity known, was improved today. His recovery is expected.

**WOMAN WROTE THE  
PHOTOGRAPHED LETTERS.**

Fort Worth, Texas, Sept. 20.—A woman wrote the letter to Mrs. Lena Sneed, the finding of which caused her husband, Beal Sneed, slayer of A. G. Boyce and A. G. Boyce Jr., to have a photographic copy of the letter made and then disappear, to reappear only after he had taken the life of his second victim in the family warfare that began last year when the younger Boyce eloped with Mrs. Sneed from Fort Worth, where she had been confined in a sanitarium as insane, after she had told her husband that she was in love with Boyce.

Information that the letter was written by a woman came from one of the Dallas persons who, by reason of the fact that Sneed and his wife spent some time in that city after their reconciliation last summer, became acquainted with some of the important facts in the case.

The woman who wrote the letter is connected by blood with one of the principals in the tragic drama, and the letter, it is claimed, contained messages from young Boyce to Mrs. Sneed.

That letter, it will be claimed, was the direct cause of the tragedy last Saturday, when on the main street of Amarillo, Beal Sneed, bearded and dressed so like his close friends did not recognize him, shot to death young Boyce before, so it is claimed, the latter knew who was firing the shots that caused his instant death.

If that contention be true, then the only position to assume is that Mrs. Sneed herself caused the killing of the man for love of whom she left two children and her husband and daring the criticism and scorn of the world, fled to Canada.

Why the letter was not destroyed probably always will remain a mystery for Mrs. Sneed cannot testify against her husband in the murder case against him.

It is thought most likely that sentiment alone caused the procrastination that proved so dangerous. Messages from Boyce to the wife of the man who killed his father this year necessarily must have been few and far between, and if Mrs. Sneed loved Al Boyce, as it seems she must have loved him, it is not hard to understand why she would retain anything that bore news of him or carried the thought of him.

The second possibility is that the messages were disguised in some way that Mrs. Sneed thought would make them safe, even though the letter should be discovered. If such was the case she had fallen to reckon with the discernment of a husband made more than jealous by her actions, and she has on one to blame for the death of Boyce except herself.

There is a third possibility. She may have ceased to love Boyce and turned the letter over to her husband. That theory seems least probable of the three, for if such had been the case it seems unlikely that Sneed would have exacted the life of Boyce as toll after having slain the young man's father, and further, it appears that Mrs. Sneed would have been al-

## STANDARD CROWD STILL MEET DAILY

DIRECTORS AND OFFICERS OF  
DISSOLVED SUBSIDIARIES  
LUNCH TOGETHER

By Associated Press.  
New Orleans, Sept. 20.—A light frost tonight in the Texas Panhandle and the western and extreme northern portions of Oklahoma is forecast in a special bulletin issued by the local weather bureau this afternoon.

## VEIT ON WITNESS STAND

Declares Interlocking Directorates, Ex-  
change of Plans and Business  
Conference Completely Abolished

New York, Sept. 20.—In a dining room at 26 Broadway and at the same table where the heads of the Standard Oil planned and discussed the affairs of the trust 17 years ago, they met daily at luncheon now the men who directed the Standard Oil Company formerly.

So testified Richard C. Veit, in the hearing of the Standard-Waters-Pierce suit today.

"Who meets there?" asked Samuel Untermyer, counsel for the Waters-Pierce interests.

Veit replied, "I don't know all of them."

"Does John D. Archbold still sit at that table?"

"Yes."

"Does Percy Rockefeller?"

"Yes."

Veit named numerous other oil men as attending these luncheons.

"Don't these men discuss their business there daily?" asked Untermyer.

"No."

"You hear them talking, don't you?"

"Yes, they talk on generalities. I hear them laughing and joking."

"How long have you been listening to them as they talked and joked and laughed?"

"Since last December."

This line of questioning met with vigorous objection from the Standard Oil lawyers, and Mr. Untermyer, in reply, dictated the following statement for the record:

"The purpose of this questioning is to show the sham and humbug with which these people who have been segregated into these various companies, meet here daily for the transaction of their business, just as they have met every day in years gone by."

Mr. Veit added in his testimony that the late H. H. Rogers sat at this table and that the Rockefellers always took luncheon there whenever they were in town.

Interlocking directorates, consultations, financial plans and exchange of views between the Standard Oil Company of New Jersey and its former subsidiary companies comprising the oil trust which the United States Supreme court ordered dissolved, have been abolished utterly, according to the testimony of Richard G. Veit in the hearing today.

Since the dissolution Mr. Veit said both the New York and the New Jersey companies have begun the construction of fleets of oil schooners to compete for trade. Several vessels are already under construction by the New York company. The New Jersey company is building a fleet in Germany. Before the dissolution the witness said the New York company could get oil from any other Standard Oil subsidiary merely by requisition.

"But we have to buy our oil now," he said, "wherever we can get it and on the best terms we can make. We have to go into open market for 5,500,000 barrels a year. We sell eight million barrels abroad and two million for domestic use annually, but produce only 4,500,000 barrels."

**48 At Amarillo.**  
By Associated Press.  
Amarillo, Texas, Sept. 20.—This city is in the grip of what promises to be one of the coldest September snaps in its history. At daylight this morning a strong norther began and soon attained a strength of fifty miles an hour, and the temperature dropped to forty-eight degrees. There may possibly be a frost tonight.

**Chilly Norther Here.**  
A norther blew in at noon today that has kept the stove man's telephone a jingling constantly since its arrival and has driven the mercury down to the 65 degree mark.  
Very chilly weather is reported from Panhandle points where a frost is expected tonight and a further drop in temperature is expected here.

Failure to comply with the law's formalities delayed Oscar Vaughan of Dundee in claiming Miss Myrtle Hamilton of Electric. Mr. Vaughan applied for a license this morning and production of a note furnished from Miss Hamilton's parents giving consent to the wedding, she being under age. The note of consent, however, had not been acknowledged before a notary and the license could not be issued until this had been done. Mr. Vaughan left to secure the required acknowledgment.

## 20TH ANNIVERSARY IOWA PARK REBEKAS

Members of Degree Go Up From Here  
to Participate in Celebration  
Tonight

A party of local Rebekas went up to Iowa Park this afternoon where they will participate in the celebration of the twentieth anniversary of the Iowa Park Rebekah lodge.

Among the Wichita Falls Rebekas who will attend the celebration were: Mesdames W. P. Brooks, A. C. Wilson, A. L. Dillard, Selena Hammond, B. C. Williams, L. B. Hardesty, S. C. Johnson, Miss Sadie Brooks and Mr. S. W. Stout.

## DEMAND FOR LABORERS OUTRUNS THE SUPPLY

Freight Congestion Results from In-  
ability to Secure Labor to  
Handle Shipments

By Associated Press.  
Houston, Texas, Sept. 20.—Never before in the history of Texas, it is said today, has there been such a shortage in labor as is shown in certain lines.

From all over the cotton belt comes the demand for pickers and agents of growers are here in force on a hunt for help in the field. Railroads are daily finding more of their equipment tied up owing to inability to get cars unloaded. It is said that at several Texas points sidings near compresses are choked with loaded cotton cars, with no workers to dump the bales.

Here in Houston, compresses have ample room, but sidings about them continue to choke up with loaded cars. Additional conferences were held here today to try to relieve the congestion. The refusal of negroes and others to accept work when offered has brought about a rigid campaign here against all men who decline work, and Recorder Kirlicks is daily confronted in police court with a large crop of vagrants. The determination is to force all idle men who decline to labor to the county farms.

## ROOSEVELT INVADÉS BRYAN'S HOME STATE

Colonel Opens Day and a Half Cam-  
paign in Nebraska at Holdredge  
This Morning

By Associated Press.  
Holdredge, Neb., Sept. 20.—Colonel Roosevelt came into William J. Bryan's home state for a campaign of a day and a half. He reached Holdredge, his first stop, after an all night ride from Denver and remained here two hours.

He was scheduled to stop at Hastings, Fairmount, Crete, and Lincoln on his way to Omaha where he will stop all night.

## A. AND M. GOLLEE IS PROPOSED

AID OF WICHITANS SOUGHT IN  
CAMPAIGN FOR THREE NEW  
STATE SCHOOLS

## WILL INTRODUCE A BILL

Victoria Legislator at Head of Move-  
ment for New Schools in  
Texas

The co-operation of Wichita Falls in securing the establishment of State agricultural and mechanical colleges for Victoria, Wichita Falls and San Angelo has been asked by Leopold Morris, member of the next legislature from Victoria. In a telegram to Secretary Forester of the Chamber of Commerce, Mr. Morris announced that he will introduce a bill in the legislature for the establishment of schools at the towns mentioned and wants to know if he can have the help of Wichita Falls.

Mr. Forester has answered his telegram saying he will lay the matter before the directors of the Chamber of Commerce at their meeting next Tuesday.

Mr. Morris' telegram follows: Chamber of Commerce,  
Wichita Falls, Texas.

As a member of the next legislature I will work to secure three additional Agricultural and Mechanical Colleges of Texas to be located at Victoria, San Angelo and Wichita Falls. State is too large for one and present college is too sectional as student roll will show. Will be pleased to have your co-operation and for you to give the matter all the publicity you can.  
LEOPOLD MORRIS.

## NO NEW DEVELOPMENTS IN THE SNEED TRIAL

By Associated Press.  
Amarillo, Texas, Sept. 20.—The lack of new developments in the Sneed case has not materially abated the interest in that case. Relatives and friends continue to arrive, and it is probable that practically the entire relationship of Sneed and Boyce, together with their close friends will be here in advance of Monday's habeas corpus hearing.

Although Sneed and his counsel say they have implicit faith that the application for bail will not be granted, the State declares bail will not be granted.

Sneed still maintains absolute silence regarding the tragedy.

## MAY SELL PART BELLEVUE PARK

PROPOSED TO INVEST PROCEEDS  
IN SEVEN SISTERS BLOCK  
IF DEAL IS FEASIBLE

## COUNCIL MET LAST NIGHT

Reading of Ordinances Took up Most  
of Session—Building Permits  
Ordinance Proposed

The city council last night discussed a proposal for the sale of half of the Bellevue Park on Ninth street and the purchase of the seven sisters block with the proceeds. No definite action was taken but Mayor Bell was authorized to look into the proposition and see whether such a deal could be made.

It was estimated that a half of the Bellevue park site would bring eight or nine thousand dollars and this amount would go a long way toward paying for the seven sisters block. It was advanced in favor of the proposition that the seven sisters block would be nearer the larger number of people who would take advantage of its opportunities for recreation offered by a park and that trees and other plants could be grown thereon much more easily than on the hill.

In this connection it developed that the members of the council favored a number of small parks scattered over the city where they would be easy of access rather than one or two large parks which could not be reached so easily by a great majority of the people.

The Bellevue Park site was granted to the city by R. E. Montgomery, the man who sold the townsite. His approval of the sale and the re-investment of the money will be necessary for the proposed deal.

The second readings of the two ordinances took up most of the time of council at its session last night. One of these ordinances extends the fire limits of the city to the alley running between Lamar and Scott Avenue and to Sixth street and to Tenth street. The other ordinance is for the regulation of street signs and awnings. The new ordinance provides that all signs must be at least seven and a half feet above the sidewalk. It also prohibits swinging or suspended signs.

Another ordinance creating the office city scavenger and regulating the disposal of garbage and the maintenance of closets, etc. was passed over for its third reading until the next regular meeting.

The city attorney was instructed to draft a building permits ordinance. This ordinance will require that a permit be taken out before new buildings or extensive repairs on old buildings are made. It was the agreement among members of council that no fees should be charged for such permits.

The chief of police was instructed to enforce the ordinance limiting merchants to a space of thirty inches from the building line on the sidewalks for the display of goods for advertising purposes only.

The matter came up on the question of operating vending wagons. A license of \$150 per year is charged for the operations of such wagons.

Answers to notices to property owners to install sewerage connections were read. The most numerous reasons given why sewerage connections had not been made were "no water in the block" and inability to get money with which to defray the cost of the improvement.

## GOVERNOR WILSON CAMPRIGNS IN OHIO

Presidential Nominee Scheduled for  
Five Speeches—Accompanied by  
Senator Gore and Congress-  
man Cox

By Associated Press.  
Columbus, Ohio, Sept. 20.—Gov. Woodrow Wilson arrived here unexpectedly from Toledo at 8:15 this morning. Owing to the change in time of his schedule, there was no crowd to greet him at the local station.

Wilson today opened the Ohio Democratic campaign with a schedule of five speeches, assisted by Congressman James M. Cox, candidate for governor and Senator Gore of Oklahoma.

Gov. Wilson's stay in Columbus was engaged in making speeches, in conferring with lieutenants, in organizing workers and giving a reception. Hundreds of enthusiasts poured into the city this morning on special trains and interurban cars. Practically every member of county, state, district and precinct committees came to Columbus. Wilson will remain here until tomorrow morning.

# STYLE AND QUALITY

Are the two most essential points in a suit. Style that is pressed into a garment after it is made, is not permanent. Will wear out in a few weeks. In our suits the style is tailored in as the suit is made and you can't wear it out. When we tell you that these are Kuppenheimer clothes that is a sure guarantee of their quality. We'll show you why when you come in to look over our assortment of fall and winter models.

## The Globe

### GOOD BILL AT THE LAMAR AIRDOME

One of the best pleased audiences of the season saw the show at the Lamar airdome last night. It was kept in an almost continuous uproar of laughter. Coffey and LeMar pay on an act that certainly reached the funny bones of the audience and brought forth more laughter than anything of the season. Their act was entirely different from the average run of vaudeville. Mr. Coffey is a decidedly clever comedian but he is not the whole team by any means. Miss LeMar's impersonations of the country girl and her dancing made a decided hit.

Wall and Kid who presented a novelty act were also out of the ordinary.

Both of these teams will put on entirely new acts tonight. Coffey and LeMar will appear in a blackface act and Wall and Kid will give a Jewish impersonation act.

The feature picture tonight will be Derby Day at Churchill Downs. This is the story of a Kentucky race horse, the pictures being taken from life on Derby Day at Lexington, Ky.

Orders for building sand or gravel promptly filled. MORRIS POORE, P. O. Box 456.

### NEWS FROM OIL FIELDS

The Marriott-Bickley-Miller section of the Electra field fairly bristles with activity at present and is by far the liveliest part of the field. Where sixty days ago, there were only three derricks, one can now count thirty-six rigs, derricks and drilling wells. Only five wells have been completed on these three tracts.

The Producers yesterday drilled in a good well on the Skinner tract just north of Electra, which it is said will go far towards holding up the production in that section of the field. The new well is good for about 120 barrels.

Rotary rigs are getting to be almost a curiosity in the Electra neighborhood and there are probably not over two or three at work in the entire field, though some of the operators at Petrolia still seem to prefer them to the cable drills. Some of the rotary men were heard to say recently that it was up to them to learn to work the standard rigs or seek other fields where the sentiment against the rotary was less pronounced.

Low Gorham is back in town after a ten days trip to Eastern points.

The third fatal accident since oil was discovered at Electra occurred Wednesday when Tom Jordan, working for Baker and Ralston, was crushed by a beam which had become loosened. The flying timber caught him about the head and shoulders and death was almost instantaneous. The body was sent last night to DeQueen, Arkansas for burial.

W. F. Ward, L. C. Hivick, L. Harben and Charles Clark have organized the Creston Oil Company which will take out a charter shortly. It is understood this concern will operate on the J. A. Fisher property in the Red River country and that members of the company already have considerable acreage under lease.

The report that oil had been found in paying quantities in the Big Pasture well near Loveland, Oklahoma, appears to have been unfounded, and drilling is still in progress there. Slow headway is being made on this

well on account of its distance from the supply houses, but the work is being carried on steadily.

The Pierce-Fordyce Company is expected to begin work shortly on the construction of a new 55,000 barrel tank at Electra to replace that destroyed a number of weeks ago. At present the Pierce-Fordyce has less than three thousand barrels of oil in storage at Electra.

### JUDGE LORY BRINGS BACK HIS BRIDE

Coupe Were Married at St. Norris, Illinois, on the 17th—Arrived Here Last Night

J. J. Lory, who has been spending several months in traveling through the Northern States, stole a march on his friends in this city last night by returning home with a bride, whom he married in St. Norris, Ill., on the morning of the 17th at the home of her sister. Mr. and Mrs. Lory will be at home to their friends at 1211 Teath street after October 15th.

Mr. Lory left this city on last May 14th and has been visiting friends and relatives in Wisconsin, Illinois, Iowa, Minnesota, and other states since that time. Recently he made a trip to St. Morris, Ill., where Miss Etta Kirkpatrick of Plattsville, Wis., was visiting at the home of her sister. Miss Kirkpatrick and Mr. Lory have been acquaintances and friends for a number of years and it was decided in St. Morris that they would be married.

The wedding was held at the home of Mrs. Etta Brunckel, and was a quiet affair followed afterwards by a sumptuous wedding repast at which a few friends and relatives were present. A few hours after the wedding, the bride and groom took the train for Wichita Falls and arrived here last night. Mr. Lory is an old time resident of this city and owns much valuable property here. He is seventy-two years of age and his bride is fifty-six.

FREE SAMPLE OF INDIGESTION REMEDY  
Finest Ever For Gas, Sourness, Fermentation, Heaviness and Upset Stomach

Send name and address to Booth's MIONA, Buffalo, N. Y., and say, "Send me sample of MIONA," and you will have an opportunity to try for yourself a remedy for indigestion, dyspepsia, gastritis or catarrh of the stomach that has relieved and cured thousands upon thousands of people throughout America.

### BARNARD'S STORE WILL GO INTO NEW BUILDING

Will Occupy Building to Be Erected on Ohio Avenue by Messrs. Bacon and Henderson

The building to be erected by Messrs. Bacon and Henderson on Ohio avenue, mention of which was made in yesterday's Times, will be occupied by the dry goods firm of C. J. Barnard & Company, which will move from its present location at the corner of Seventh and Indiana.

The new building, which will be 50 by 150 feet in dimensions, is being constructed to suit the needs of the Barnard store. Mr. Barnard expects to put in a number of new lines when he goes into the new building and to make his store a still more up to date and complete concern.

The upper floor of the building will be occupied by offices.

### PLEASANT TASTING LIQUID MEDICINE

Acts as Quickly as Calomel, Takes the Place of Calomel, and is Absolutely Harmless.

Dodson's Liver Tonic is the name of the new vegetable tonic which Miller's drug store recommends as a perfect substitute for calomel. Without causing any restriction of habit or diet, Dodson's Liver Tonic starts the liver to working and cures constipation, biliousness, etc., without any harmful after effects.

The fact that calomel is mercury has kept many people who are afraid of mercurial poisoning from using it. Calomel is a good thing to let alone. All persons can use Dodson's Liver Tonic whether they have been in the habit of taking calomel or not, for it is entirely vegetable and cannot do harm. Miller Drug Store will give the money back to any dissatisfied purchaser. Price fifty cents.

**WOMEN BATTLE FOR  
POLITICAL SUPREMACY**

Willette Kershaw Opens Western Campaign While Mrs. J. Borden Harriman Fights in East

New York, Sept. 20.—Following the announcement that Jane Adams of Chicago would take the stump in behalf of Col. Roosevelt, Miss Willette Kershaw the founder of the professional Women's Wilson and Marshall League, called a meeting of her fellow workers at the 71st Regiment Armory in New York last Saturday afternoon at which plans were formulated by contract the arguments of the Women Progressives in the west headed by Jane Adams.

It was decided that the most effective method of combating the arguments of the "Moosettes" would be to compare Woodrow Wilson's record of twenty months in office with Roosevelt's seven years.

Miss Kershaw will not touch the tariff question as Mrs. Harriman, the New York society leader is devoting her activities exclusively to this issue, making daily speeches in the east and sending literature throughout the country. Before leaving on her special car for Chicago last evening Miss Kershaw gave out the following letter:

"The campaign conducted by the professional Women's Wilson and Marshall League in the New England States during the past three weeks has been successful beyond our wildest dreams. I found that in the factories employing child labor there existed a total ignorance of the magnificent child labor legislation enacted by Gov. Wilson in New Jersey."

"In the West our efforts will be devoted principally to the child labor question although we will tell of the great benefits of the different factory laws that have been enacted in New Jersey during Wilson's administration such as the laws relating to the employment of women wage earners, the compelling of adequate fire protection in factories and schools and the hours in which children should work in the various industries."

"We will show the benefits of the workmen's compensation act which provides definite sums for injuries and for debts involving varied relations; in other words we will put Wilson's record up against Roosevelt's and let our audience judge for themselves."

"We are having moving pictures made showing by comparison the former miserable conditions in the factory homes in New Jersey and the present conditions. It is up to the workmen to cast his vote for the man who has done so much in his own state to better conditions and I believe the way to reach this vote is through the wife or mother or sister upon whom the greatest burden falls."

Miss Kershaw will conduct an active campaign in Chicago for the next two weeks and will assign speakers from the New York headquarters to the western territory.

**OSCAR STRAUS  
DANGEROUS MAN**

NEW YORK DEMOCRATS REALIZE THAT THEY FACE BATTLE OF THEIR LIVES

**JEW WILL VOTE FOR HIM**

And There are 1,250,000 of Them in New York—Prominent Democrat Sends a Warning

New York, Sept. 20.—Since the nomination of Oscar S. Straus for governor of New York on the Bull Moose ticket, leaders of the Democratic and Republican parties are at sea as to the outcome of the November election, so far as the state tickets are concerned. They admit that the nomination of Mr. Straus has injected an altogether unlooked for element of danger to both the old parties because of his standing in the community as a business man, diplomat and philanthropist.

That he will add strength to the third party movement is admitted. From which of the old parties he will derive most of his strength is the unknown quantity, and it is this uncertainty that is causing Democratic and Republican leaders so little concern.

A political sage whose predictions of political events have been rarely inaccurate, a Democrat known as well in Missouri, as in New York, but who, because of his prominence in the party asked that his name be not used has made this statement concerning the result of the elections in this state:

"Do not delude yourself in the belief that the Democratic party in this state is going to have a walk over. I expect Gov. Wilson will carry New York, but to carry the state ticket through will be a much more difficult task."

"Oscar Straus will poll a tremendous vote. He is well liked and deservedly so. He is a man of the highest integrity in business; he served the Federal government as minister to Turkey with honor to both. His work in Turkey was an extremely delicate one, yet he handled matters so diplomatically that missionary schools which had been closed for a year, were reopened only sixty days after his arrival at Constantinople and the right of missionaries to distribute Bibles, which had been prohibited, was granted."

"For this act he received the thanks of the British government and he was commended by his own."

"Mr. Straus is a Jew and while many regard this as a weakness, I claim that it is his greatest strength. Did you ever stop to think that there are a million and a quarter Jews in New York? This is a greater number than have ever been assembled in any community in the history of the world not even excepting the days of Solomon."

"Now consider the influence these million and a quarter must exert. To begin with they have a voting strength of not less than a quarter of a million. They will vote almost as a unit for the elevation of one of their own to the highest office in the state. What is more, they will trade Wilson for Straus, Taft for Straus and Roosevelt for Straus. They will exhaust all their energies and make any sacrifice to bring about the election of their co-religionist."

"And what is more Mr. Straus will get his full share of those who are not of his faith because of his record, not only in Turkey, but during his entire career, public and private. Since the death of his brother, Theodore Straus and the latter's wife who went down with the Titanic, Oscar Straus has found many sympathizers because of his well known devotion of each member of the Straus family to the others."

**Removal Notice.**

**CREDITS MENTIONED  
BY INSURANCE BOARD**

Austin Will Obtain Maximum Reduced Rate Allowed for Record of Low Fire Loss Ratio

Among the several amendments to the general basis schedule adopted by the State Insurance Board is one which provides a credit of 1 per cent on key rates "for teaching in all public schools the principles of fire insurance and methods of fire prevention from some standard and reliable text book or work on the subject."

"For the maintenance of a so-called standing reward by any city or town, any civic or commercial or other organization, of a sum equal to \$1 for each hundred population, such reward in no cases to be less than \$100 for the arrest and conviction of any one guilty of arson," a 2 per cent credit is given on the key rate.

This credit is applicable only when placards are properly posted at all times, in all public buildings in the city or town, showing that such reward is offered by any party other than the city or town, the party offering same must file a good and solvent bond with the State Insurance Board guaranteeing the prompt payment of the reward.

With reference to the co-insurance requirements, an amendment is adopted also. The schedule now provides 80 per cent co-insurance in towns with a key rate of 40c or less. Where there is less than 80 per cent the insured is penalized and must pay higher rates according to the graduated scale. Regular rates prevail where there is 80 per cent or more on the risk. The new arrangement will give credit above the regular rate of 80 per cent is exceeded, the amendment reading:

"Rates on above classes being used on the basis of 80 per cent reduced rate and co-insurance clause, the following credits may be given where a higher percentage reduced rate and for co-insurance clause is attached to policies: For use of 85 per cent reduced rate and co-insurance clause, deduct from the final rate 3 per cent for use of 90 per cent reduced rate and co-insurance clause, deduct from the final rate 5 per cent."

This takes off a percentage instead of any cents and is more considerable than if made the other way.

There are also amendments cutting down rates on boarding houses, oil tanks, cotton seed oil mills and other classes.

The city of Austin, which is suing for a general reduction, will probably be able to obtain the maximum reduced rate allowed for record showing low fire loss ratio. However, Austin is also after complete elimination of the co-insurance clause. The city authorities of Austin must perfect the fire record. The data is then to be presented to the board when reductions will be ordered. For every 5 per cent or fraction thereof less than 55 per cent loss ratio for the three calendar years next preceding in any town a 3 per cent credit is given, the maximum being 15 per cent. Austin will doubtless make an effort to get the full 15 per cent.—Austin Statesman.

**Practical Engineering Courses For  
Practical Workers**

For a number of years courses in civil, mechanical and electrical engineering have been offered to young men in the State who would come to the University of Texas and take the work; for the past two years a number of studies in these same courses have been offered by correspondence to young men who hoped later to take engineering degrees and who could fulfill the proper entrance requirements. These thorough degree courses will still be offered. But it is now proposed, in addition to offer similar courses, abridged and modified to suit the practical needs of the man who is already making his living as a dynamo tender, a stationery engineer, or a building contractor—the man who never expects to go to school again but who wants to rise in his profession. Such an applicant will not be asked if he is a graduate of an affiliated high school or if he can write graceful English, or even if he can spell, according to Webster, the names of the tools he handles. Instead, he will be given practical instruction about the fundamental principles of his craft. In all about twenty practical courses will be offered by the correspondence method, including mechanical drawing, architecture, with some electrical, mechanical and civil engineering.

**FAITH HEALER HAD  
PLENTY OF DUPES**

Revolting Stories Told by Young Women and Girl Patients—Healer Arrested

Chicago, Sept. 20.—The testimony of three young girls and a young wife resulted in Henry C. Oertle of Chicago Heights, an alleged "faith healer" being held to the grand jury today on a serious charge. Ella Borman, 15 years old, was the complaining witness. She reluctantly told a revolting story of the alleged practices of the "healer." She declared that Oertle claimed to have power by which he could direct the future of his patients, even when they were miles away.

Others who testified to similar alleged practices were Mrs. Maud Johnson, 19 years old; Nettie Levitt, 16 years old, and Lizzie Albright, 15 years old.

**Notice.**

We contemplate erecting in the near future a five story office building, located at the corner of Indiana and Eighth. All parties desiring space in the building we will be glad to have them call and confer with us. To those who desire making lease for a term of years, we would undertake the arrangement of offices to suit their convenience.

Wichita Falls, Texas, Sept. 20, 1912

303 WICHITA FALLS 303

We are far from discouraging legitimate sports. Men as well as boys must have recreation, and clean games are to be approved, but the ordinary pool room these days is far from ideal in respect to health or morals.—Fort Worth Record.

The boys who make the pool halls their rendezvous are not the boys that are likely to be called upon by responsible concerns to hold positions of trust.

We know of a man in a city who repaired his home. It looked so nice that the city assessor raised the assessment on the place \$250. The man who owned a vacant lot next door raised the price of that lot a hundred dollars—and got the advance. But did the city raise the assessment on that lot? Oh, no; it isn't the custom. Enterprise and public spirit should not be taxed.—Waco Tribune.

It's the same the world over. The fellow who tries to do the right thing not only has to pay for the improvements, but has to stand for the extra tax. This, to some extent at least, accounts for so many people allowing their premises to go down instead of keeping them looking fresh and new. The tax assessor and the board of equalizers are on the job, and they reason that if a fellow has money to spend on a little extra paint, he should stand for a raise on the value of his property.

Another sad tragedy in the Boyce-Sneed drama was enacted in Amarillo Saturday afternoon when J. B. Sneed shot and instantly killed Al Boyce, shooting him with a shot gun loaded with buckshot. This is one of the most sensational stories of domestic infelicity that have ever gone out to the world from Texas. Its loathsome details have been bared to the world in mammoth headlines of the daily press and really the importance of the case has been exaggerated. All parties connected with the case have some wealth, but none of them approach anywhere near the millionaire class, and certainly none of them are entitled to distinction from any other cause. Both families in the sad affair have always ranked in the respectable class but are nothing more than ordinary people. None of them have ever rendered any great service to the state or nation, nor have any of them ever, in the past, distinguished themselves in any commendable way. Then why attach so much importance to their disgraceful family troubles?—Childrens Post.

The Times is not particularly an admirer of Roosevelt. All it hopes he will accomplish in this presidential contest is that he will finish a good second over the present incumbent. But there are many things about the Colonel that even a Southerner is bound to admire. One is the time he caused the regiment of negro soldiers that shot up Brownsville to be dishonorably discharged. He could have raised himself still higher in our estimation had he turned the offending negroes over to Texas courts to be dealt with, and had that course been pursued there is little doubt but there would have been a few leather hangings. But there are other things for which the ex-president is to be admired. Years ago a daughter of Gen. Sam Houston was induced to accept the position of postmistress in a small village. At that time the receipts of office were so small that the salary was not sufficient to induce men to apply for the office. But the village grew to be a town of 5000 or 6000 population, and of course the salary of the postmistress grew in proportion. It was then that some fellow who had voted the Republican ticket applied for the job. Petitions protesting against the removal of the postmistress were sent in, but it appears from the following that it would have made no difference to Roosevelt whether any one protested or not. Here's his reply to the petitioners: "I appreciate your interest and loyalty in this matter but advise you that the petition is a needless waste of time. So long as I am President of the United States the daughter of Sam Houston will never be dismissed from government service."

A strenuous effort is being made to cripple the smaller newspapers of the country and to financially embarrass the larger ones. A meeting is to be held in Kansas City tomorrow to try to save the small telegraphic service of the Associated Press papers in cities of this size. Since the Bell Telephone company swallowed up the Western Union Telegraph company it has been trying to force the smaller newspapers to take their newspaper reports by telephone. This means hardship upon the papers and a severe cost to the accuracy of the reports as all realize that it is impossible to get names and dates correctly always by phone. In addition to this the same forces are attempting to discontinue special telegraphic rates to newspapers. What does it mean? Is this a move on the part of the big money interest to throttle publicity and get a strangle hold upon the financial affairs of this country? It would look so. The thing that has done more for the country than other has been the publicity of the newspapers. Take away the telegraphic reports by placing a prohibitive price upon them and the newspapers of the country and one of the best safety devices to the country will have been destroyed. Every effort is being made to cripple and curtail the newspapers of the country. The postoffice rules are being made as irksome as possible. State laws are encumbering them. Is there a secret scheme at work? What of the future when all these plans have worked out?—Independence (Kas.) Reporter.

What the telegraph and telephone trust is doing in Kansas, has already been accomplished in Texas. The Times is required to pay by the minute for the use of the long distance phone, and the number of words received during a specified time depends largely if not altogether on the efficiency of the man at the receiving end to take the report and the working of the wires. It is more often than not that during a ten minutes run some one will cut in on the wire, and then two or three minutes are lost before it is possible to get things straightened out. The result is that the newspaper is required to pay for service it does not receive. The Times has been getting its A. P. report by the telephone for the past six months, and instead of the service improving, it becomes worse. The charges are just about the same as if the report came by telegraph. The saving to the telegraph company is that it can substitute \$5 and \$5 per week girls to handle the telephone business, and these girls take the places of telegraph operators whose salaries range from \$15 to \$25 per week. It is a great saving for the telegraph company, but is hard on the newspapers that are required to pay telegraph tolls for a telephone service that is anything but first-class.

**WILSON THE GENTLEMAN.**  
"In addition to all his other attributes Governor Wilson is a gentleman at all times," says the York (Pa.) Gazette. "The excitement and turmoil of a presidential campaign are not sufficient to overthrow his poise or to excite him to intemperate language. He has been the target of enough misrepresentation, extending all the way from statements based upon a misunderstanding of his position to malicious perversion of facts with intent to deceive, to make excusable some display of temper. But he has kept cool. Particularly galling must have been the language of the Third Term. But he has remained unmoved.

"In his address before the New York Press Club, Governor Wilson took occasion to discuss the Roosevelt Party. Instead of the intemperate and at times insulting manner in which Roosevelt has treated him, the governor paid a high tribute to the really honest members of that party that must make them hang their heads in shame when comparing it to the attacks made upon Wilson and Democracy by their leader and some of their organs. It is a speech that ought to be read by all men. It is the message to real men. It is not the hysterical exclamation of a man with a grievance which he exalts into a cause.

"After paying a high tribute to those who really believe in the Roosevelt cause, Governor Wilson calmly and carefully points out the very obvious fact that, even if their candidate should be elected, he could not at all carry out the program which the party has laid down. He does not feel called upon to denounce any man as a liar or a crook or assert that anyone is guilty of false pretense, but contents himself with calling attention to the great mistake being made by those who hope to accomplish anything through this movement.

"In a gentlemanly manner he tells the public that the Democratic party has been progressive for sixteen years, and that through it, and it alone, can come the relief demanded, which is strictly true. Nor does he feel because he is a real Republican. He lays the blame right where it belongs when he says that that party has been misled by its leaders until now it is helpless and hopeless. He lays no claim to divinity or infallibility on his part or that of his party, but shows that of all parties it is the one best adapted to the present needs of the public. It is no wonder that he is gaining strength so rapidly. He fully deserves it all."

### OPTIMISTIC SENATOR CULBERSON.

Senator Culberson is home "fit and in the best of health," says newspaper accounts, and he is in an optimistic mood. The senator believes that the man he helped to secure the Democratic nomination for the presidency will win a decisive victory this fall. In Charles A. Culberson the New Jersey governor found a valiant friend, a wise adviser and a useful political ally. Senator Culberson did not hesitate long in deciding upon his choice for the nomination when the lists were first opened. He picked the winner then and now he says he is picking the winner for the presidency.

Mr. Culberson is a man of good judgment. When he speaks the public knows that he has thoroughly made up his mind and then all the king's horses and all the king's men couldn't change him. He is most often right and the rest of the time only the bravest attempt to challenge him. The best news Woodrow Wilson has received to date is that Senator Culberson says he is going to win. This means that President Wilson will probably tender to a Texan the portfolio of secretary of state, which will be refused because the Texan believes the position of senator from the Lone Star State, next to president, is the biggest job an American can hold.

Things look optimistic.—Dallas Times-Herald.

**DON'T EAT MORE THAN ONE PER CENT OF YOUR WEIGHT**  
Harvey W. Wiley, formerly chief of the United States Bureau of Chemistry, writes an interesting article entitled "Intelligent Eating" in the October Woman's Home Companion. He says in part:

"Every pound of useless fat which the human being carries is an impediment to proper activity. A man six feet tall should weigh approximately two hundred pounds. If by strict attention to his diet and exercise he can reduce this weight to 150 or 135 pounds, it would probably prove

## The Gem

the only exclusive Motion Picture Theatre in the city.

Change of program Every Day. Night show at 7:30. Matinee at 2:30.

Ghost at Circle X Camp. The Lie of the Wolf. The White Hope. Her Diary.

ELMER WRIGHT, Manager

beneficial, but if his weight is allowed to rise to 210, 220, 230 or even 240 pounds, he unites himself to that extent for his duties.

## THE FARMERS UNION GIN

### Is in Readiness for Business

The machinery has been thoroughly over-hauled and put in first class order. Murray cleaners have been added to the machines, and all cotton will be thoroughly cleaned and graded high when ginned.

beneficial, but if his weight is allowed to rise to 210, 220, 230 or even 240 pounds, he unites himself to that extent for his duties.

Doubtless irregular alliances between blacks and whites will always occur and the birth of an Alexandre Dumas serves only to confute theories. But "marriage under such conditions is bound to prove hateful to either race. Statutes may sanction it, but public sentiment no less than racial instinct never will.

**WHAT ONE WOMAN'S SUICIDE MEANS.**

The suicide of the white wife of Jack Johnson, the negro pugilist, has a sociological interest by reason of its bearing on the question of racial intermarriage. Some time before she killed herself the unfortunate woman is reported to have said: "I am tired of being a social outcast. Even the negroes don't respect me; they hate me."

The white woman who marries a negro husband and the negro wife of a white husband may always expect the contempt of their kind. In that fact lies the country's protection against the boggy of miscegenation which the fears of the South at one time magnified into a real danger.—New York World.

# Now is the Time to Pick Up Bargains in Floral Heights!

Lots for a Quick Turn-in Profits--Look at These:

Single lots within block of car line and sewerage: a ch. .... \$350.00  
Four south front lots Teath Street, on sewer, for quick sale; ..... \$1750.00  
Three lots on car line, this side of bend, sidewalks and sewerage; near best of improvements; will sell single, each, ..... \$600.00

There are more building improvements in Floral Heights than in any other part of Wichita Falls. The completion of the gas factories will mean the employment of 400 men and a subsequent increase in population and demand for property. Figure it any way you want but Floral Heights will and must get the benefit of any expansion of the residence population off Wichita Falls.

After a hard and bitter fight between the Master and Journeyman Horseshoers of Cincinnati, the lock-out terminated in a sweeping victory for the Journeyman. The majority of the horseshoing shop owners requested the men to return to work with an increase of 50 cents a day for floor men and 25 cents a day for firemen.

Dikes Laxative Tablets

Are speedy relief for constipation and since seventy-five per cent of the diseases of the human family are traceable either directly or indirectly to this ailment, this remedy finds favor with all who have used it. Dikes Laxative Tablets are a candy cathartic, mild and pleasant in action do not grip or nauseate and may be taken without the inconvenience of having your stomach deranged or having to quit work while taking them. Dikes Laxative Tablets are tonic medication of a slightly purgative nature vastly different in action however from the harsher more drastic purgatives that some times have to be given in extreme cases, but that are not indicated in the average case of constipation. Dikes Laxative Tablets are ideal for children, owing to the pleasant taste children take them readily and with highly satisfactory results. This excellent remedy for sale at all times by the

THE WRONG MEDICINE

The mistake in bottles or in the drugs used in filling a prescription never happens with us. In our prescription department every prescription we fill is checked and re-checked so there is no possibility of a mistake. We do not leave out one drug or substitute another, for we give your doctor credit for knowing what ought to go into a prescription better than we do. Our system is too well perfected to permit of any bungling accuracy. Positive accuracy and perfect purity, that only properly describes our prescription department.

AT THE CHURCHES

First Baptist Church. Corner Tenth and Austin. Preaching by the pastor at 11 a. m. and 8 p. m. Morning subject, "The Teaching Service of the Church." Sunday school at 9:30 a. m., W. L. Robertson, general superintendent. B. Y. P. U. at 7 p. m., Burton Stayton, president. Sunbeams at 4 p. m., Mrs. J. B. Jones, leader. Juniors at 4 p. m., Mrs. P. E. Phillips, leader. Woman's Alliance will meet Monday at 4 p. m. Bible study session led by the pastor. Prayer-meeting Wednesday at 7:45 p. m. Normal courses Wednesday at 8:20 p. m. Teachers and officers meeting Friday at 7:45 p. m. Choir practice Friday at 8:45 p. m. Strangers and friends are cordially invited to all of these services. JOSEPH P. BOONE, Pastor.

First Presbyterian Church. Corner Twelfth and Travis. Services for worship at 11 a. m., and 8 p. m. Sunday school at 9:30 a. m., J. C. Hunt, superintendent. Christian Endeavor meeting at 7 p. m. Mid-week service Wednesday at 8 p. m. Ladies Aid Society Monday at 3 p. m. Woman's Missionary Society Tuesday at 3 p. m., at the church. Building committee meeting Wednesday at 4:30 p. m. Scouts meeting Friday at 7 p. m. Rally day of Sunday school Sunday, Sept. 29th. J. L. McKEE, Minister.

First M. E. Church. Corner Seventh and Lamar. Sunday school at 9:45 a. m. Epworth League at 7 p. m. There will be no preaching services because the pastor has been called away by the sickness of his father.

Christian Church. All services in the church building, Ninth and Lamar. Bible school at 9:30 a. m.; W. J. Bullock, Superintendent. Good teachers and classes for all ages. Junior Endeavor at 3 p. m. Y. P. S. and C. E. at 6:45 p. m. Ladies Aid Monday afternoon at 4. Prayer meeting Wednesday evening at 8 p. m. The largest number in the history of the church are attending this mid-week service. Join us in the study of John 17 this week. F. F. Walters will preach two sermons Sunday. The morning hour at 10:45 "Our Country For Christ." Let every person bring an offering for Home Missions and church extension. No matter how small your gift will count in this great work. Evening service at 7:45 p. m. Subject "Christ and the Moral Man." This is the first of two sermons upon this topic. Remember all services will be conducted in the church.

First M. E. Church, South. Corner Tenth and Lamar. Preaching at 11 a. m., and 8 p. m., by the pastor.

At the close of the morning service an opportunity will be given to persons desiring to unite with the church. Those wishing to have their children baptized will be ready to present them just before the service begins. The Sunday school opens at 9:30 a. m. P. C. Maricle and T. A. Baggett, superintendents. The Epworth League meets at 7 p. m. A full attendance of the membership is desired, in order to meet some young people who have recently come to the city. On Monday afternoon at 4 o'clock the Bible study class will meet in the Baraca room. The pastor requests all members who know of any Methodist newcomers to the city to apprise him by telephone or through the mails, of their whereabouts. He also wishes to be informed in regard to any that may be sick or who in any way may need his help.

J. W. HILL, Pastor.
