WICHITA FALLS, TEXAS, MONDAY, SEPTEMBER 23rd, 1912

NUMBER 114

TO RID HUMAN RACE OF DISEASE

THIS IS PURPOSE OF INTERNATIONAL CONGRESS ON HYGIENE AND DEMOGRAPHY

MEETING IN WASHINGTON

Ten Thousand Delegates From All Parts of World Attend—Welcomed by President Taft

By Associated Press. Washington, D. C., Sept. 23.—Welcome by President Taft, and attended by some three thousand delegates from all parts of the world, the fifteenth International Congress on Hygiene and Demography, began its session today.

United to rid the human race of disease, these warriors for a new and wider form of freedom gathered for their exchange of greetings in memorial Continental Hall. To President Taft's greeting brief replies were made by the heads of the delegations from each of the thirty three countries represented.

Today there were talks on public health organizations and administrative problems in England and Germany, the hygiene of infancy and childhood, the physiology and pathology of work and fatigue, bacillus carriers and the importance of flies and other insects as the carriers of infectious diseases.

In addition to the three thousand delegates, many of whom have wives and daughters with them, visitors attracted to Washington to the Congress have brought the total guests to probably ten thousand.

GLASS WORKERS COMING IN TO GET READY FOR WORK

Glass workers from points in Kansas and other Central States are arriving in Wichita Falls daily now, to get settled here ready to go to work when the glass factory opens, which is expected to be within the next week.

A number of the employees arrived last week and more are coming in daily. A large number are men of family and these are facing the serious problem of getting houses. The available houses in this city are few and far between and the problem of getting the new-comers may be a serious one before the winter is over. Some of the men have found small places in North Wichita across the street about four miles from the glass factory. When the houses in this section in the industrial addition are completed, the problem will be partially solved.

Specialize to Advertise Texas. Antonio, Texas, Sept. 23.—Advertisement men from every city in Texas gathered here today with railroad men to perfect an organization to advertise Texas in every State in the Union. It is proposed to raise \$10,000 to be spent this year in giving out reliable information of Texas resources.

D. J. Frice, general passenger agent of the International & Great Northern, said the railroads are willing to foster the idea of publicity and would take an active part in the work, if arrangements compatible with the present advertising policy of the railroads are made.

GOOD REBELS CAMPED OPPOSITE LANGTRY

American Cattlemen Report Rebels Charged Them An Export Duty

By Associated Press. Langtry, Texas, Sept. 23.—One thousand rebels claiming to belong to General Orozco's command, are camped opposite this place in Mexico. They are being guarded by American soldiers and Walter Blocker, American consul here, returned here last night charged them an export duty in the name of the Orozco government.

CHARLETON'S APPEAL BEFORE SUPREME COURT

That Tribunal Will Decide Whether Man Who Confessed to Murder of Wife Shall Stand Trial

By Associated Press. Washington, D. C., Sept. 23.—Porter Charleston's long wait behind the bars of a New Jersey prison for final word whether he must return to Italy to answer for the murder of his wife at Lake Como two years ago, is nearing an end. The supreme court will take up Charleston's case during the coming term, beginning October 14.

Charleston's appeal is the most noted murder case before the court, and its decision will be regarded as a guide to future diplomatic intercourse bearing on such affairs. The twenty-three year old prisoner, through his father, Judge Paul T. Charleston of Porto Rico, will challenge the right of the American government to surrender him to the Italian authorities. This right is claimed on account of the peculiar circumstances under which Charleston's body was found in a trunk in Lake Como, search for her husband began. He was arrested at the request of Mrs. Charleston's brother, Captain H. H. Scott of the United States Army, as he stepped off a steamer at Hoboken, New Jersey.

The prisoner had committed no crime in America, but confessed to having murdered his wife, whom he said had refused to obey his order to be quiet one night as they stopped at Lake Como on their wedding trip. Under the treaty between Italy and the United States, Italy repeatedly has declined to grant requests of the United States that Italians who committed crimes in this country and escaped to Italy be returned.

Italy has replied that she would punish them. When the Italian government requested the United States to surrender Charleston, Secretary Knox granted the request. To prevent the removal, Charleston's father brought habeas corpus proceedings before the New Jersey court claiming there was no authority for his arrest and challenging the right of the American government to turn his son over to Italian officers. The New Jersey court held against Charleston and he appealed.

T. P. HICKMAN RECEIVES SAD NEWS

Brother's Wife and Children Perish in Flames That Destroyed Their Home in Montana

T. P. Hickman, the building contractor is in receipt of news from Big Timber, Montana, of the death of the wife of his brother, A. Fitzhugh Hickman and two children who were burned to death in a fire that destroyed their ranch home.

The sad accident happened Tuesday night. Mr. Hickman who is county clerk of Sweet Briar county, has a ranch about thirty miles from Big Timber on which he has an apple orchard. Although the family had made their home in town they went out on a few weeks ago to remain on the ranch until after the apple harvest.

Last Tuesday Mr. Hickman went to Big Timber on business connected with his office and did not return until late at night. Upon his arrival he found the house in ashes and in them the charred bodies of his wife and two older children. The third child, an infant, was found unharmed about fifty yards away from the burned building.

It is evident that the mother awakened to find the house in flames carried the infant to a point of safety and returning to rescue the other two children was burned with them.

Mr. Hickman went to Montana from Grayson county several years ago.

ABOUT DISTRIBUTION OF GOVERNMENT ROAD FUND

Postmaster General McChesney has written the Young Men's Progressive League announcing that as soon as the postoffice department has systematized the method of distributing the governmental post roads fund appropriated by Congress the department will take the matter up with the league at greater length.

Some time ago the Progressive League asked for information concerning the methods of distributing the appropriation. The basis is \$1 furnished by the government for every \$2 spent by a county on the public roads. The league, believing it likely that the special road law of this county will be amended in February and that another bond issue will be held in this county to correct the issue authorized at the last election, have set about securing some of Uncle Sam's money in the event set forth.

STATE FIGHTING BAIL FOR SNEED

HABEAS CORPUS HEARING OPENED AT AMARILLO AT 2 THIS AFTERNOON

MAY LAST ENTIRE WEEK

Fifteen Deputy Sheriffs Search Spectators For Arms As They Enter the Court Room

By Associated Press. Amarillo, Texas, Sept. 23.—All hope of an agreement between the state and defense by which J. B. Sneed, slayer of Al Boyce, might be released on bail, was dissipated this morning. Former State Senator Odell, special prosecutor, said that the state would consent to the abandonment of the habeas corpus hearing scheduled for this afternoon at 2 o'clock on one condition only; that Sneed withdraw his application for bond.

Both the state and defense are expected to put up a hard fight, and the habeas corpus hearing, it was predicted today would last probably throughout the week. Both sides will go in to the case exhaustively and a large number of witnesses will be examined.

Although Sheriff Burrell has fifteen deputies on duty to search everyone entering the court room, for arms, no trouble is anticipated. There are a large number of friends and relatives of both the Boyces and Sneeds on hand but it is said they have been attracted to Amarillo simply through interest in the proceedings and they express no fear regarding further trouble.

The grand jury met this morning and began an investigation of B. Epting's connection with the killing of Boyce. So large is the crowd in and around the county court house today that it was necessary for the United States authorities to move their court to the Woodman of the United States Marshall Greene ordered this transfer.

Besides the Sneed habeas corpus hearing for bond, the grand jury also is probing the Sneed-Boyce affair and the regular term of district court is in session. All trains entering Amarillo this morning, especially from Fort Worth, were crowded with witnesses and lawyers.

One significant fact is the summoning of so many Boyces by the defense; also, the nurse of a Fort Worth sanitarium, where Mrs. Sneed is said to have been a patient five weeks last summer is among the witnesses.

W. B. Scott and W. P. McLean Jr. of Fort Worth, are here for the defense and are joined by Madden, Truelova & Kimbrough of this city for the defense. Senator D. W. Odell of Cleburne and Cooper V. Merrill and Lumpkin of Amarillo will assist District Attorney Henry S. Bishop in the presentation of the case for the state.

A new phase of the Sneed case is suggested in a subpoena served on Terry Thompson, Sneed's brother-in-law. Thompson is a witness summoned by the state. This subpoena instructs him to bring with him a "certain breast-plate used for the protection of the human body."

It is said Sneed took this precaution to prevent injury to himself in an encounter he is generally conceded to have planned with Al Boyce.

Another matter which is mystifying is the recollection of the woman from whom for the furniture of the house on Polk street was purchased. She said the purchaser had a mustache. B. B. Epting has not a mustache, and is not described as having one by either the man from whom the house was rented or by the man at whose store the shades were purchased.

One recollects him with a several days' growth of beard and the other as shaven or with a beard not noticeably long. It is possible the mysterious man, whoever he was, first rented the house, then shaved himself leaving only a mustache, then shaved that off and got the shades.

This is believed to have been possible under the difference of time at which these transactions time.

A legal puzzle has developed as to the possible charge against Epting, provided the grand jury decides he played a knowing part in the tragedy. If Sneed is convicted of murder, the charge against Epting could also be murder. It is said, and he could have no justification as the Sneed defense is expected to claim.

On the other hand, if Sneed should establish such a justification it is asserted there would be no murder to which to establish an accomplice.

In the list of witnesses called by the state are several of Sneed's relatives. Mrs. Sneed At Calvert. Calvert, Texas, Sept. 23.—Beal Sneed, who is at present in jail at Amarillo under indictment on a charge of killing A. O. Boyce Jr.; and his wife, Lena Sneed, while they were

WEATHER FORECAST

Tonight and Tuesday generally fair; warmer tonight.

under the same roof at Dallas during a part of the past summer did not live as man and wife, the reconciliation being made merely to enable her to be with the children.

This, and the fact that she is not detained here by force, but is remaining so that she may be with her children was learned today.

These statements were made by Marvin Sneed, a brother of Beal, who admitted that Beal found a letter or letters, written to Mrs. Sneed, that led to the latest chapter of death in the Boyce-Sneed drama, though he did not say that the correspondence was from Al Boyce.

Sneed and his family are said to have reached the ranch about three weeks ago. Sneed leaving a few days later, his relatives thinking that he was going to Paducah, where he owned a farm, and the first intimation that he was at Amarillo, was when the message of Boyce's death was received.

Mrs. Sneed apparently is devoted to the children, and it is that fact alone that keeps her here, as she is not detained forcibly, having merely been given to understand that although she may go or come as she pleases, the children are to remain where they are until their father makes other arrangements.

She spends her time reading and always is anxious to read of the developments at Amarillo, getting all the newspapers possible. There are many books and magazines at the home where she is staying, and she reads there, also giving a portion of her time to amusing herself with a phonograph.

She is very nervous and while she has not reached the hysterical stage at any time she often indulges in quiet crying.

Immediately after the killing, Sneed asked his uncle, J. W. Sneed, who was in Amarillo at the time, but whose home is at Rosebud, to go to Calvert to comfort her, and he is still here. Mrs. Sneed's sister, who lives at Lake Charles, La., came to visit her soon after the tragedy, remaining but a few days before returning home.

NEWS FROM OIL FIELDS

R. H. Cook and associates are organizing the Florence Oil Co. to prospect and develop for oil about two and one half miles southwest of Electra on the Florence Yarber land. —Electra News.

Field Manager McLoughlin of the Corsicana Company and Production Superintendent R. O. Holleran of the Magnolia Company each received a new Ford roadster last week. Field Manager Wilson of the Producers Company is not going to take their duty as he also received a new Ford. —Electra News.

Drilling will be resumed in the Jack Kelly well at Dean Station the first of the week. Mr. Greenless is in charge of the operations there.

"Doc" Prince is building a rig two miles east of Harrold and expects to be drilling within ten days. The location is about four miles west of the nearest producing well in the Electra field.

The fact that the Guffey Company has thrown its hat into the ring at Electra is taken as a very encouraging sign by W. C. Platt of Cleveland, Ohio, editor of the National Petroleum News. Mr. Platt was here Saturday and Sunday and spent yesterday at Electra, looking over the developments there; he was surprised to see the extent of the operations there and also was surprised to find Wichita Falls as large and metropolitan a city as it is.

Mr. Platt is familiar with the oil business from almost every angle and is considered one of the best informed men in the country.

In his opinion, development work by the Guffey Company and the Pierce-Fordyce interests will do more to make this a great field than almost any other factors. He points out that at present nine-tenths of the production in the Electra field is by two companies, and the numerous smaller companies cannot undertake any great amount of wildcatting or exploitation. The entrance of the Guffey, Mr. Platt believes, means much more vigorous competition in opening up new territory, and he considers it a most encouraging sign.

Mr. Platt believes that should the Guffey wells prove to be producers, it means another pipe line from the Electra field. Mr. Platt left this morning for Tulsa.

REBEL LEADER IS CAPTURED

EMILIO CAMPA APPREHENDED BY DEPUTY SHERIFF ON AMERICAN SOIL NEAR TUSCON

IS TIRED OF FIGHTING

Gen. Tellez Succeeds Huerta in Campaign Against Rebels in Northern Mexico

By Associated Press. Tucson, Ariz., Sept. 23.—One of the ten rebels captured by deputy sheriff on American soil thirty miles south of here yesterday was today positively identified as Emilio Campa, a rebel leader. The Mexican general admitted his identity. He said: "I am tired of fighting."

Tellez Succeeds Huerta. City of Mexico, Sept. 23.—General Tellez has been placed in command of the government troops in the operations against the rebels in the northern part of Mexico, succeeding Gen. Huerta, who has been granted temporary leave in order to have his eyes treated. It is believed that it will be many weeks before Gen. Huerta will be again able to assume command.

That the scene of operations must be shifted rapidly is indicated by the news of rebel movements in Coahuila and in the Laguna district about Torreon. Just where Gen. Pascual Orozco is operating is yet a mystery to the War Department, but apparently excellent reasons lead to the belief that he is either with Carrasco near Musquiqui, or with a new had large group appearing just west and north of Torreon, near the Refugio Mountains. The rebels who appeared in both of these localities are well armed and undoubtedly fighting under the banner of Orozco.

Word was brought to Torreon last night by courier that the rebel force near the Refugio Mountains defeated a small body of Federalist Thursday. Those operating near Musquiqui are said to be more than holding their own.

The situation at Oaxaca has been relieved and its garrison strengthened today by 400 men.

The village of Chapultepec, two miles from Cuernavaca, was sacked again yesterday by Zapatistas and reports of the raiding of haciendas and small towns in all of the States affected are being received daily.

PLOT TO MURDER IS CONFESSED

Tulsa, Okla., Sept. 23.—Thomas Bellew, charged jointly with Guy McKenzie, Joe Baker and Mrs. Laura F. Reuter with the brutal murder of Attorney Charles T. Rueter, the woman's husband, on the night of May 5, has confessed every detail of the terrible crime that shocked the entire state. This confession now is in the hands of County Attorney Pat Malloy, who had done all in his power to keep the confession from the public for official reasons.

News of the confession was given out by Attorneys Campbell and Bid-dison of Tulsa, who represent all four defendants. They have now withdrawn from the defense except as far as Mrs. Reuter is concerned. They will defend her to the last ditch.

The confession which is written in Bellew's handwriting, is in brief as follows:

McKenzie, "friend" of the Reuter family and intimate acquaintance of Mrs. Reuter, planned the murder, paid Joe Baker to commit the horrible deed while he (McKenzie) was safely in Skiatook, to establish an alibi; that Bellew, who was McKenzie's chauffeur, waited in a convenient place and conveyed Baker to Sapulpa by way of Osage Hills after the murder was committed. In the confession Bellew tells how a diamond ring and shirt stud and bank roll belonging to the murdered attorney were taken from the body and hid in Osage Hills when he conveyed Baker to Sapulpa. Reuter was shot and instantly killed in his bedroom at 2 o'clock on the morning of May 2.

Roddy was advanced as the motive, valuables belonging to him being missing, and Mrs. Reuter being rescued from her bedroom across the hall by means of ladders. She agreed to seeing robbers flash a light in her face, shut her door and locked it, and then the man murdered her husband.

The police soon took up other trails and arrested Mrs. Reuter, McKenzie, Baker and Bellew.

Dr. S. A. Waits is in today from his big farm in the Burk Burnett country. A big corn crop and a big cotton crop are requiring the Doctor's attention. He says he has hauled fifteen bales of cotton to the gin already and is just fairly started.

In his laboratory a German scientist has succeeded in making an anthracite coal from peat and even from cellulose in a few hours.

WIFE DEAD, HUSBAND SERIOUSLY BURNED

Mrs. Minerva Alexander, Aged 76, Dead—Capt. Alexander in Critical Condition

By Associated Press. San Antonio, Texas, Sept. 23.—Mrs. Minerva Alexander, aged 76, is dead and her husband, Capt. Robert S. Alexander, aged 80, is seriously burned as a result of a fire which practically destroyed their home this morning. Mrs. Alexander died of heart failure after she had been carried from the burning building by her husband. His injuries were sustained in rescuing his wife.

MAY VISIT CITY IN INTEREST OF WELFARE COMMISSION

It is announced by the secretary of the Young Men's Progressive League that Homer D. Wade will, in all probability, be in the city within the next few days in the interest of the Texas Welfare Commission to take up with local citizens the advisability of a strong Wichita ally delegation being sent to Houston early in October to attend the sessions of the Commission and to hear the reports of committees appointed to prosecute various investigations into the most vital questions affecting the state and her people. Judge R. E. Huff of Wichita Falls is chairman of the committee appointed to report on "The Production and Marketing of Cottonseed Oil and Other By-Products of Cottonseed."

Mr. Wade, in conversation at Fort Worth, with the secretary of the Progressive League, expressed the opinion that the Houston meeting would be the most important public gathering ever held in Texas.

Refugees at Del Rio

By Associated Press. Del Rio, Texas, Sept. 23.—There are about 250 women and children refugees from Llavacas, Mexico, here today. Llavacas is the Mexican town opposite here, which, it was reported, General Orozco was approaching. Today, however, it was reported that Orozco had turned westward again after defeating a small detachment of rebels southwest of here. Llavacas is defended by about one hundred federales.

"We have opened headquarters at Room 1604, Fifth Avenue Building," said Dr. Wiley.

HOPE FOR BIG SAVING IN FIRE INSURANCE

Fire Chief Stamfil Preparing Statistics in Hope of Securing 15 Per Cent Reduction

Wichita Falls fire insurers may be able to secure a reduction of fifteen per cent in their rates if statistics now being compiled by Fire Chief Stamfil show our fire record as good as expected.

The State fire insurance board recently adopted a rule for the reduction of rates for towns which could show losses of only fifty per cent of the premiums paid the insurance companies for a period of two years. It is believed the losses here have been less than half the insurance paid during the past two years. Statistics on the losses and insurance paid are now being compiled.

The reduction of fifteen per cent is from the final rate and where the rate is two dollars will amount to thirty cents.

It is estimated the reduction would save the insurers of Wichita Falls no less than \$7500 annually.

The adoption of the rule has met with hearty commendation from all sources. It will be an additional incentive for the enforcement of every precaution possible to prevent fires.

BACON'S WILLING TO DO WHAT'S RIGHT ABOUT IT

Postmaster Receives Letter From a Militant Progressive Which is Rather Mystifying

This morning's mail brought a rude jolt for Postmaster Bacon. He got a card addressed to "the honorable postmaster," which read as follows:

"My dear sir—In the spring of 1898, I was working as a cook in a hotel in Wichita Falls. I left there to join American army to drive the Spaniards in arms from our North American continent. I now join our new progressive political party to have a better national government and progressive ticket with two best type of American men, Roosevelt and Johnson. (Signed) Louis A. Baird." The card was from an Illinois town.

Mr. Bacon is not quite clear as to what Mr. Baird wants, but he is willing to do what's right about it.

STOLEN MONEY IS RECOVERED

\$55,000 MISSING FROM EXPRESS PACKAGE FOUND AT REAR OF PENSACOLA BANK

NO ARRESTS YET MADE

Telephone Message Received at Bank Saturday Telling Where Money Would Be Found

By Associated Press. Pensacola, Fla., Sept. 23.—The package containing \$55,000 in currency which was mysteriously taken from an express shipment from the First National Bank here for the Louisville & Nashville payroll at Flomont, Alabama, was found this morning at 6 o'clock at the rear of the bank here, by the negro janitor of the building.

No arrests have been made, but detectives are working on several important clues. A telephone message received at the bank Saturday evening, but which was unheeded because it was believed to be from a practical joker, indicated that the valuable package was placed in the rear of the bank that evening.

It is generally believed the robber was pursued so closely that his nerve failed, and he crept to the bank and deposited the money against the iron door. Five bank employees helped to count and wrap the money. A son of the president of the bank accompanied the package to the express company office.

DR. WILEY HAS NEW DOCUMENT AGAINST TAFT AND ROOSEVELT

New York, Sept. 23.—Dr. Harvey W. Wiley, President of the Bureau of Health and Conservation of the Woman's National Wilson and Marshall Organization, completed today a campaign document that promises to have an important bearing on the election in November.

"We have been honored by being made President of the Bureau; Prof. Irving Fisher, Vice President; and Miss Emily E. Robbins as Executive Secretary.

"We have completed a campaign document that I feel will prove to the country the false position of both Taft and Roosevelt on the question of pure foods. All the members of the Bureau have taken part in preparing this document, which will be made public as fast as it can be secured from the printer.

"We quote from the writings of both Taft and Roosevelt on the pure food laws and we demonstrate that they have done all in their power to block legislation towards the proper enactment of laws that would protect the public from fraud.

"We also show the false workings of certain laws that both of these gentlemen have approved. There is no theory or guess work about this document. It is made up of startling facts that every voter in the country should read and know about.

"We will mail one of these documents to every member of the Women's Clubs in this country, but we do not expect to stop there. We want the men to know. Roosevelt has rallied a number of women to his support but when they ascertain his true views as taken from his writings and the laws he favored, they will desert him by the thousands."

Suicide Story a Hoax

By Associated Press. Los Angeles, Sept. 23.—A hoax was perpetrated upon the Los Angeles newspapers at midnight Saturday when the double suicide of Niles C. Folsom, a Los Angeles attorney and Mrs. Phelma Barbee of San Diego, was announced. The story said Folsom and Mrs. Barbee leaped to death in an automobile which Folsom had driven over Topanga Pass in the Santa Monica mountains. The story was a fake.

MANY SOCIALISTS WILL BE HERE TOMORROW

Candidates For Governor and Lieutenant Gov. Will Speak in the Afternoon and At Night

Wichita county Socialists are expecting a big crowd here tomorrow when Reddin Andrews, candidate for governor and T. A. Hickey, editor of the Rebel and candidate for lieutenant governor will speak.

These men are now on a tour of the state. Both are among the ablest speakers in the Socialist party in Texas. Socialist from many points in this section of the state are expected to attend.

The American Federation of Labor is conducting an active campaign of organization among the workers in the iron and steel industry.

Kuppenheimer Clothes

The man who wears extravagant styles today, displays either a disregard of prevailing fashions or a lack of taste and good judgment in selection.

And no man of character cares to be misjudged.

Kuppenheimer Clothes have an impressive individuality, without sacrifice of dignity.

They are such clothes as you'll see at the clubs and on the boulevards of metropolitan cities.

Come in and see them now.

EFFORT TO SECURE BETTER RATE FOR BOTTLE FACTORY

In an effort to secure for the bottle factory of this city the same advantages enjoyed by the only bottle factory in Texas, the Young Men's Progressive League has taken up with the Katy railroad the matter of establishing a 35-cent rate to Texas common point territory on shipments of bottles moving from here. If such a rate can be secured it will give the Wichita factory a distinct advantage over all other factories in the country, as the other Texas factory referred to has shut down, on account of the fuel problem, and will not resume business. This factory is located at Trimble, a small station out of Fort Worth.

When the Trimble factory was established seven railroads joined in an exact reduction of the Trimble rate

to Texas common point territory. The Katy was one of the roads so joining, although Trimble is not located on the Katy road. It is therefore believed that the Katy will be more than glad to establish such a rate for a factory located on her line; hence the communication referred to.

Notice.

We contemplate erecting in the near future a five story office building, located at the corner of Indiana and Eighth. All parties desiring space in the building we will be glad to have them call and confer with us. To those who desire making lease for a term of years, we would undertake the arrangement of offices to suit their convenience.

"The Rosary."

Rowland and Clifford's theatrical success, which will be seen at the Wichita Theatre next Friday night, tells a story of a modern enterpriser, in the form of a rejected suitor, who wrecks the home and happiness of a married couple by playing upon the jealousy of the husband. There is diffused throughout the drama a remarkable air of purity, faith and hope from the opening scene, which pictures the happy couple about to celebrate their second marriage anniversary, and surrounded by all the creature comforts of modern civilization to the last act when the twain, broken in health and fortune, and wrecked by jealousy come like two weary children at the feet of the old priest who has fathered them throughout their troubles. In the days of their prosperity they had built a chapel for their old friend the priest and in their adversity they come back to the little edifice one Sunday morning, just as the chimes send their music rolling through the valley. The story is interestingly told, and with a cast comprising Father Kelly, Wanda Brinkley, Helen Ross, Bethel Barth, Harry O'Leary and Claude Boone, and with scenic effects that are brilliant the production is worth attending.

ONLY ONE PARALLEL TO SNEED TRIAL INVITATION

The following letter has been received by the secretary of the Young Men's Progressive League from D. F. Johnson, secretary of the Brownwood Commercial Club and president of the State Association of Commercial Secretaries. The letter speaks for itself.

"The only parallel to your attempt to land the Beal Sneed trial that I can recall was when several enterprising commercial clubs invited the lady school teacher who was tarred and feathered in Cherrysvale, Kansas, to come to their towns, guaranteeing her immunity from a similar accident."

"I had heard of Babcock being accused of causing murders to be committed in Dallas and that Boldt had encouraged suicides in Houston in order to get date lines, but you have certainly headed the whole bunch off with your latest outbreak. I sincerely hope that the officers will be able to control you before you become violent or raving."

"Put me next to some of those ideas emanating from so fertile a brain. With best wishes, etc."

FREE SAMPLE OF INDIGESTION REMEDY

Finest Ever For Gas, Sourness, Fermentation, Heaviness and Upset Stomach

Send name and address to Booth's MIONA, Buffalo, N. Y., and say, "Send me sample of MIONA," and you will have an opportunity to try for yourself a remedy for indigestion, dyspepsia, gastritis or catarrh of the stomach that has relieved and cured thousands upon thousands of people throughout America.

So certain are MIONA stomach tablets in any case of disordered stomach that Foosee & Lynch will supply you with the distinct understanding that if you are dissatisfied with results they will refund the purchase price. Could anything be fairer? For dizziness, biliousness, headache, nervousness, sleeplessness or any disease arising from an upset or weak stomach. 50 cents a box all over America.

NEW FOOTBALL RULES RECEIVED HERE

Changes Are Few But It Is Said Results Will Be Pleasing to Spectators

The football rules are out. They are called more simple than the old ones, but the reader will wish the committee had drafted its views in regular English and not in phraseology about as clear as a hypothetical question.

The changes are few, the effect important—the spectator will get a better idea of the game.

The actual changes are: A field of 100 yards, instead of 110, the extra ten yards used as end zones, back of each goal, where forward passes may be received.

The addition of a fourth down to gain 10 yards. The kick-off from the 40 yard line. On kickoffs opponents will line up on the 20 yard line instead of the 25.

Intermission between first and second and third and fourth periods reduced to one minute.

Forward passes may be of any length. The outside kick has been discarded.

The rules do away with the checkerboard field, and it is again a gridiron.

Touchdowns count 6 points. Goal from touchdowns, 3 points. Goal from field, 3 points.

Safety by opponents, 2 points. Hurdling in the line is defined as jumping over a man with both knees or both feet foremost within five yards either side of where the ball was put in play.

To prevent shifting strong players from the back field to the line on the defense, the rules forbid playing a so-called center guard or tackle on the defense, as end or back on offense, or any shifting to evade this rule.

If a captain desires to shift one of his line men to the back field, he may do so by speaking to the referee, but the man so shifted may not return to the line. Any of the five center men, however, may be taken back five yards and return to his position at will, under rule 9, section 3, which provides that any one of the five center men may drop back being taken by one of the back field.

One player may be in motion toward his own goal, directly or obliquely, when the ball is put in play. If this player be an end his place must be filled, as seven men must be on the line when play starts.

The rules forbid guards carrying the ball.

If, having signaled for a fair catch, a player takes more than two steps with the ball, his side must put the ball in play five yards behind the mark of the catch.

Each captain may request that time be taken out three during the half without penalty. If time be asked thereafter the side will be penalized unless a player is removed.

No player on the side having the ball shall use his hands, arms or body to push, pull or hold up the man carrying the ball.

Only the runner may ward off opponents with hands and arms. No other player on the side may use his hands or arms, save with arms close to the body, to obstruct an opponent.

This includes grasping an opponent with hands or arms, placing hands upon an opponent to push him away from a play, entangling any part of the arms with an opponent in blocking.

Players on the defense may use their hands and arms only to get at the ball or the runner.

The offense may pass the ball forward any distance from a scrimmage providing the pass is made from five yards back of the line.

Should a forward pass strike the ground in the end zones it counts as a touchback.

After the ball has been legally passed it may first be touched only by such members of the offense as work at least one yard behind the line of scrimmage when the ball was passed or were playing end. Any one of the defense may take a forward pass, and after a defender has touched it any member of the offense may take it. The exception is that when the ball is in the air any eligible player may bat it in any direction, save toward his opponent's goal, to prevent an opponent getting it.

In case of a kickoff, kick-out or kick from a fair catch, the ball must be kicked at least ten yards toward the opponent's goal line, unless blocked.

Striking, kicking, kneeling or roughing the fullback when about to kick is punishable by disqualification.

The position of field judge is dispensed with, leaving but three officials—referee, umpire, and head linesman.

BURKBURNETT'S NEW BANK ELECTS OFFICERS

The stockholders of the new State Bank met Thursday afternoon last and elected officers and directors for that institution. R. E. Moore was chosen president, J. W. Johnson, cashier; W. Daniel, assistant cashier. In addition to the first and second mentioned, S. L. Fowler, T. P. Roberts, R. E. Huff, W. T. Willis and W. C. Myers were elected directors.

The new bank will be ready for business by October 1 and nothing is to be left undone that can be done by those promoting the enterprise to make it a success from the very beginning.—Burkburnett Star.

Special Showing of Autumn Dress Goods

As the Fall season dawns our stocks in every department are rounding into completeness. In this particular we will make special mention of our extensive line of Woolen Dress Fabrics which embraces a variety of the season's new and popular weaves in all the wanted colors. The creams so much in demand are very much in evidence in this exhibition, a special feature of which is the moderate prices. Drop in and allow us the pleasure of showing you. Note below the two very special values in Serges and Broadcloths. Just as good values will be found here in many other weaves.

54 Inch Fine Broadcloths the Year \$1.00

We specialize Broadcloths at this popular price and claim to show the best values in the West. The colorings are beautiful and lustrous including black and all the wanted shades. Let us show you the best at a yard \$1.00

Autumn Dress Suitings 25c

32 inch Fancy Dress Suitings in effective color combinations, Red, Brown and Wine predominating, with the popular Black and White Stripes included. Just the thing for inexpensive street skirts. And the price is so reasonable. A yard 25c

50 Inch Serges Extra Value \$1.00

We will show this week 50 inch all wool Serges in the season's popular and richest shades of Red, Brown, Tan, Grey and Navy. Also Cream and Black that are exceptional values at a yard \$1.00

36 Inch Serges Special Values 50c

Our showing of 36 inch Serges embrace a broad range of colors including the much wanted creams and cream stripes. The most serviceable of all Fabrics at the price. The best possible values at a yard 50c

Cream Stripe Serge a Yard 50c

We show 38 inch Cream Stripe Serge which for stylish, creaseable and economical skirts is best ever. When made up it has every appearance of much higher priced fabric. Its a value that you will appreciate. The best possible values at a yard 50c

36 Inch Messaline Silk, The Yard \$1.00

This is not the usual one dollar quality but much better than you find at other stores at that price. The Fabric is soft and clinging, the colorings rich and lustrous. The best values ever offered at a yard \$1.00

An elaborate line of new fall dress trimmings is now on exhibition, representing the season's fashion fancies.

PENNINGTON'S

Archer County Cattle Sales.

The Archer County News reports the following cattle sales there last week:

Dr. A. B. Edwards of Henrietta, was here this week and purchased 120 steers from Sanford Wilson at \$41 per pound. The bunch was composed of 26 3 year olds and 94 two year olds.

The Dale Land & Cattle Company whose ranch is in Archer and Clay counties, on Monday of this week sold to R. E. Gatewood of Cleburne, 850 four and five year old steers at \$70 each with a ten per cent cut back. The steers are to be shipped to Cleburne and placed on feed.

Charlie McDaniel and Ernest Gruthirds of the Webb ranches near Dunbar, were here Wednesday receiving a bunch of about 50 stock cattle purchased some time ago by Mr. Webb from S. B. Cook.

In making mention last week of the sale of some fine steers by Lewis Herron to Zeri Steen we erred in stating there were 36 head at \$72.50 each. It should have read 49 head at \$72.50 each.

R. Carrow and W. S. Ikard, two prominent stock men of Henrietta, were here Tuesday endeavoring to purchase a lot of big steers from our local breeders. Mr. Carrow states that Archer county is in a class by itself when it comes to producing steers that command fancy prices from the buyers at market. He paid \$70 around for Archer county steers on his last trip here and says he can probably beat that on steers of like quality.

At Pittsburg, Pa., a minimum of \$3.75 a day for molders and core-makers has been secured and an advance of 25 cents a day for all who receive a higher rate than the minimum \$3.75.

The Typographical Union has a total of 691 unions, made up as follows: English, 628; German-American, 19; maffers' unions, 29; newspaper writers, 4; typofounders' union one.

Freckled Girls

It is an absolute fact, that one 50 cent jar of WILSON'S FRECKLE CREAM will either remove your freckles or cause them to fade and that two jars will even in the most severe cases completely cure them. We are willing to personally guarantee this and to return your money without argument if your complexion is not fully restored to its natural beauty. WILSON'S FRECKLE CREAM is fine, fragrant and absolutely harmless. Will not make hair grow, but will positively remove TAN, BLEMES and TECKLES. Come in today and try it. The jars are large and results absolutely certain. Sent by mail if desired, 50c. Mammeth jars \$1.00. WILSON'S FAIR SKIN SOAP 25c. Wholesale by

The Bull Moose in Kansas

(By Savoyard in the Houston Chronicle)

In a political way Kansas has ever been the most turbulent of the states. The war between the North and the South began between her borders. She was the firstborn of the republican party. She was the first commonwealth to give 100,000 majority for a candidate of that faith. It was in Kansas that the g. o. p. attained its zenith. We find it in Holy Writ that as Elijah returned on his way to the wilderness of Damascus he saw Elisha, the son of Shaphat, plowing with oxen, and Elijah passed by him and cast his mantle upon him. And so your pious Kansas republican has it that the mantle of old John Brown descended upon Abraham Lincoln and thus made him a captain for Armageddon. It is pretty tough on old Abe but as it came out of Kansas it must be accepted as same as gospel, or a little samer, by all orthodox republicans, who are not very strong on gospel, anyhow.

Well, there is a grievous schism in the g. o. p. and it began in the state of Jim Lane and "Subaldy Pom" of Kate Bender and Will Allen White. Colonel Theodore Roosevelt received all the honors from the republican party it had to bestow, all any true man would aspire to. But he was not satisfied and appointed himself to perform a task he had flagrantly and defiantly neglected all the years he was president of the United States. His party refused him a nomination for a third term, and then he made discovery that it was all that is base, vile, ignoble in politics, and set up a new party, his own creation, his personal handiwork.

A large majority of the Kansas republicans followed Roosevelt, but they reject the name he gave the new organization. Their platform is the Eighth Commandment, and yet this Kansas set, that pretend to be fit to fight in an Armageddon, lay violent hands on the party paraphernalia, take it and carry it away, and so arrange it that thousands of Kansas republicans can not vote for their party candidate, Mr. Taft, at all.

There was, and yet survives, a Highland clan in Scotland—the MacGregors. Something over two centuries ago there was a political conflict in that country, virulent enough—almost—to meet the cravings of Kansas for that sort of thing. The MacGregors were on the losing side, as usually happens to honest folk in case of political turmoil, and the conquerors sorely oppressed them. So vindictive were the authorities that they made a law that no one in Scotland should bear the name MacGregor and the thing was enforced, cruelly executed, resulting in the massacre of many of the tribe. But they were brave men and oppression made them heroic. Walter Scott makes the chief, Rob Roy, to say: "My foot is on my native heath, and my name's MacGregor," and again the poet hath it: If they rob us of name and pursue us with beagles,
Give their roofs to the flame and their flesh to the eagles.
And that is what they did—invisible clan that it was.

Now the bullmoosers out in Kansas have robbed the Taft men of name. They will not allow a Taft man to vote his ticket. They have fixed it so that he who would vote the republican ticket must vote for Theodore Roosevelt, who declares the republican party to be the most infamous political layout imagination can conceive. But anything can happen in Kansas. Not many years ago when the state constitution denied the elective franchise to a citizen who had been in the Confederate army, a rebel soldier was a democratic senator in congress from the state of the Jayhawker.

And tidings from Kansas are to the effect that the Taft men, denied the right to vote for their man for president, are determined to "give the roofs to the flame" and vote for Woodrow Wilson, which is the most virtuous and patriotic resolution republican ever made. So good continues to come out of Nazareth.

The bull moosers are greatly shocked because the regular republicans refuse to hew wood and draw water for the man who denounces their leaders as liars and thieves. The "honest" party sees a deep, dark, damnable conspiracy in the perfectly natural and perfectly human action of the regular republicans. One of the big men in the present administration has announced that as he votes in a state where the bull moosers have stolen the organization and that it is thus fixed so that if, by possibility, he could vote for Mr. Taft, it would be a shot in the air, he is reduced to a choice between the democratic party that has disfranchised him. He and the party that has disfranchised him. He and thousands in his fix will vote for Woodrow Wilson though their first choice is President Taft.

And the bull moosers call that "a wicked conspiracy" to perpetuate the rule of the bosses! Quay and Platt were bosses but they never dreamed of such bossism as is seen in Kansas and Nebraska when the "honest party" steals the organization of a "rascally" party and disposes of the election machinery so that thousands of citizens can not vote the ticket of their choice. The conduct of the Kansas bull moosers recalls this passage from the philosophy of King Solomon:
"Such is the way of an adulterous

woman; she eateth and wipeth her mouth, and saith, I have done no wickedness."

It was scarce so bad in Virginia when Mahone, who wrought such bloody work at the "Crater," was the republican boss and stationed his henchman at the polls to see to it that the federal veterans employed in the Norfolk navy yard voted the republican ticket.

If it were possible for Kansas to drop into the judicial temper it would give the biggest democratic majority relatively of any state in the Union—the democratic vote would be limited only by the total vote of the state. The supreme issue is whether taxes shall be so laid that Kansas shall continue to "protect" New England and Pennsylvania. A part of the issue is whether the harvester trust shall continue to levy unearned tribute on the farmers of Kansas. The harvester trust is one of the most voracious and insatiate of all the scoundrelly interests to whom the g. o. p. has delegated the taxing power. It is dominated by Perkins and McCormick, who are magnates of the bull moose party and who finance the bull moose campaign. These gentry, protected by the tariff, sell their wares cheaper to the farmer in Canada than they sell the same goods to the farmer in Kansas. They are a part of the steel trust, that sells them material cheaper than any rival concern can purchase it. It is a perfect and a grasping monopoly.

Roosevelt and Taft say that sort of thing is excellent and must continue for both favor a protective tariff without which neither could exist as an odious monopoly.

Well, if Kansas loves to stew in that sort of filthy grease she knows how to do it. Kansas has eaten a heap of garbage in her day.

CONSTIPATION AND SLUGGISH LIVER GO

Banish constipation, wake up your lazy liver, clean up your disordered stomach and drive the poisonous gas and decomposed matter from your bowels.

It's easy with the wonderful Hot Springs Liver Buttons, and best of all they act gently. They are without doubt the most perfect, bileful, satisfying constipation remedy you ever used.

They're fine for men, too—for everybody; and for men who are tired of the slam-bang purgatives, that tear the lining of the bowels and act violently, we say give Hot Springs Liver Buttons a trial—you'll never use the rough and tumble kind again. For sale by Stonecipher & Smith and all first class drug stores. Hot Springs Chemical Co., Hot Springs, Ark.

The Builders Laborers and Hod Carriers of Joplin, Mo., will get a minimum of \$2 per day of eight hours for the coming year. Previous to organization their maximum wages were \$1.25 a day of ten hours.

THE HIGH COST OF MARKETING FARM PRODUCTS

S. A. LINDSEY

Tyler, Texas, Sept. 23.—Mr. S. A. Lindsey, chairman of the sub-committee on Production and Marketing of Farm Products, has been conducting an investigation into the high cost of marketing, on behalf of the Welfare Commission. There have been shipped out from this city this season 1,571 carloads of peaches to out of state points and the last end of the crop rotted on the ground for want of a market, although the consumer was anxious for the fruit.

A great deal of the Texas product goes to Colorado and Mr. Lindsey's investigation into market conditions at Colorado points shows peaches that the Texas producer gets sixty cents per bushel for packed and delivered f. o. b. Tyler at a cost of twenty-seven cents for picking, packing and hauling, sell to the Colorado consumer at \$3.75 per bushel, and when the market drops to \$3.42 per bushel the Texas farmer gets nothing for his peaches. The cost per bushel of marketing a bushel of peaches in Boulder, a common point with Denver, is distributed as follows: Picking, 2 cents; packing, 2 cents; package, 20 cents; hauling, 3 cents; freight, 40 cents; icing, 15 cents; handling after reaching Colorado, \$2.50; total, \$3.42. It follows that peaches which sell to the Colorado consumer for \$3.75 brought the Texas producer 33 cents.

The cost of handling the peaches after they get to Colorado is more than four times the cost f. o. b. Tyler and nearly five times the cost of the freight and icing charges added together.

This situation exists to a greater or lesser degree with all perishable farm products and many that are not strictly perishable.

The high cost of marketing reflects its results upon Texas producers in that it lessens the consumption of the quantity and reduces prices below the cost of production.

SCHOOL CHILDREN'S Eyes should receive attention. We Know How. DR. J. W. DUVAL

Baked Salmon Loaf Will Taste Good to Your Family.....

Among the many really good ways of serving salmon there is none any better than baked salmon loaf. Any good cook book will furnish the recipe and if you will use my Monarch brand Columbia River salmon you will have a real treat for the family.

It is easy to make, inexpensive, very wholesome, and with a dash of catsup or some good-pepper sauce it will be simply delicious.

Monarch salmon is very tender and sweet, can be full of solid meat, no waste. It is red in color and comes in flat cans at 30c. Try a salmon loaf soon or any other particular salmon dish you like and let me send you a can of Monarch for it.

Entered at the Postoffice at Wichita Falls as second-class mail matter
Wichita Falls, Texas, Sept. 23, 1912

503  503

The scholastic census for 1912 in Texas shows there are more than one million school children, and there is nearly \$7 of State school money for each child within the scholastic age.

"Should I be entrusted with the great office of president, I would seek counsel wherever it could be had upon free terms. I know the temper of the great convention which nominated me, I know the temper of the country that lay back of that convention and spoke through it. I heed with deep thankfulness the message you bring me from it. I feel that I am surrounded by men whose principles and ambitions are those of true servants of the people. I thank God and will take courage." — From Woodrow Wilson's Speech of Acceptance.

The talk of a new city hall for Wichita Falls should be continued. While the present building was adequate for all purposes at the time it was constructed, the city has outgrown it, and it is better to secure a site now than to wait until later, when sites will be more scarce and much more valuable. As the Times understands the situation, the present city hall can be sold at a nice profit to the city, and with the purchase money a much more desirable and suitable site can be secured with a few thousand more dollars to spare with which to construct the building.

In Cato Sells Texas has a member of the Democratic National Committee who is doing all and more than he could be expected of him. He is not only devoting his time and energies to raising funds to pay the campaign expenses of Wilson and Marshall, but is spending his own money freely. The Democrats of Texas will remember him!

for the good part he is taking in this campaign. If they do not, they will show ingratitude, and Texas Democrats are not ingrates.

The cotton crop of Wichita county for 1912, earlier in the season, promised, or was estimated to yield between 15,000 and 18,000 bales, but the hot and dry weather caused great damage, and for that reason the total yield for the county will be cut short several thousand bales, yet, there are many crops in the county that will make an average of better than one-half bale to the acre. A Mr. Wallace, a tenant on the farm of Hy Willis near Burkburnett, has in 90 acres of cotton, and so far has picked eight bales. Mr. Wallace says that if he can secure cotton pickers he is sure to get more than three-fourths of a bale per acre. The small part of his crop that he has so far been able to go over averaged more than a half bale to the acre for the first picking. He was in town yesterday trying to secure pickers by offering \$1 per 100, but did not secure them. There are many other cotton crops in the county that will do quite as well as that of Mr. Wallace, the main trouble seems scarcity of help. Cotton, owing to weather conditions, opened earlier this year than usual, and unless pickers can be secured much of it will go to waste by falling to the ground. There is hardly a doubt, however, but that the total number of bales produced this year will be far in advance of the total for any previous year for the county as a whole.

GEORGE W. PERKINS' LETTER.
That great patriot and disinterested citizen, director in the Harvester trust and employer of women and children under unsanitary conditions at starvation wages, multimillionaire financial backer of the Third Termer's political aspirations, George W. Perkins in a letter to the New York American assails the Democratic platform because it proposes to abolish a condition that gives the Harvester trust a special privilege by which it can ship harvesters to Canada and sell them there twenty dollars cheaper than the price paid by the farmers of Texas and Oklahoma.

This virtuous "trusey" waxes indignant because Governor Wilson didn't call Governor Dix and Murphy a few such titles as "Liars," "Thieves," "Malefactors," "Perjurers," etc., when he spoke recently at Syracuse, New York. Governor Wilson let his attitude be known by declining to be photographed with Murphy and by declining a private conference with Governor Dix.

Through his association with the ex-president Mr. Perkins may believe a lot of epithets are necessary on such occasions. Still everybody but Mr. Perkins knows Governor Wilson's attitude in this matter. Yet if Mr. Perkins doubts Governor Wilson's courage he might read his speech delivered Saturday night in opposition to Senator Smith's candidacy.

RAISE MONEY FOR WILSON.
Another distinguished recruit to

The Wilson ranks in the Wisconsin State Journal, which championed the cause of Senator La Follette from the time he first announced his candidacy for the Republican Presidential nomination. So earnest is this paper in its support of Wilson and Marshall that Democratic papers of life-long regularity have cause to be envious. Here is how its editor, Richard Lloyd Jones, asks for funds in a recent editorial:

Nothing has pleased Woodrow Wilson quite so much, not excepting even the nomination itself, as the fact that soon following the Baltimore convention he received a number of checks, running in amounts from \$5 to \$500, for his campaign funds.

There is good reason for this. THE PRESIDENCY IS USUALLY MORTGAGED FOR A CAMPAIGN FUND!

Wilson knows this. Getting money from the plain people is like a drink of pure water to a man who is offered maddening poison instead.

If Wilson is left without a campaign fund save what the interests raise for him, whose fault is it? It is the fault of the average plain progressive who fails to contribute.

Think of the triumph for the people if the new President could make a statement of his campaign expenses in these words:

THE ORDINARY VOTERS—LABORING MEN, BUSINESS MEN, AND PROFESSIONAL MEN, PAID FOR MY CAMPAIGN—WHICH IS THEIR CAMPAIGN?

Are the Socialists the only honest party in the nation? All Socialists pay into their campaign fund.

Are the rest of us as public-spirited as they are?

Are we willing to have the rich and powerful pay our candidate's expenses? And are we fools enough to believe that they will do so IF HE IS REALLY OUR CANDIDATE?

Send Wilson some money, he needs it. Let us, the people, conduct our campaign and elect our President. This is the only way that we, the people, can conduct the people's campaign, and elect a people's President and defeat the trusts' President.

Send your own check for \$5, for \$10, for \$25, or any amount you can give. Send it to Woodrow Wilson at Soagirt, New Jersey, and tell him in your own letter that it is your endorsement of him now and that your vote will be your endorsement of him in November.

A JUST CRITICISM

Editor Times:
The following is a clipping from a recent issue of your valuable paper, under the caption of "Business Picking Up in Police Court."

"The city jail is now full and if the police find many more nights like last night they will have to tie the prisoners on the outside. Twelve cases were docketed in the police court this morning, nearly all of them being drunks. The street gang now contains about

The Gem

the only exclusive Motion Picture Theatre in the city.

The Katzenjammer Kids.

ELMER WRIGHT, Manager

twenty recruits and is growing every day.

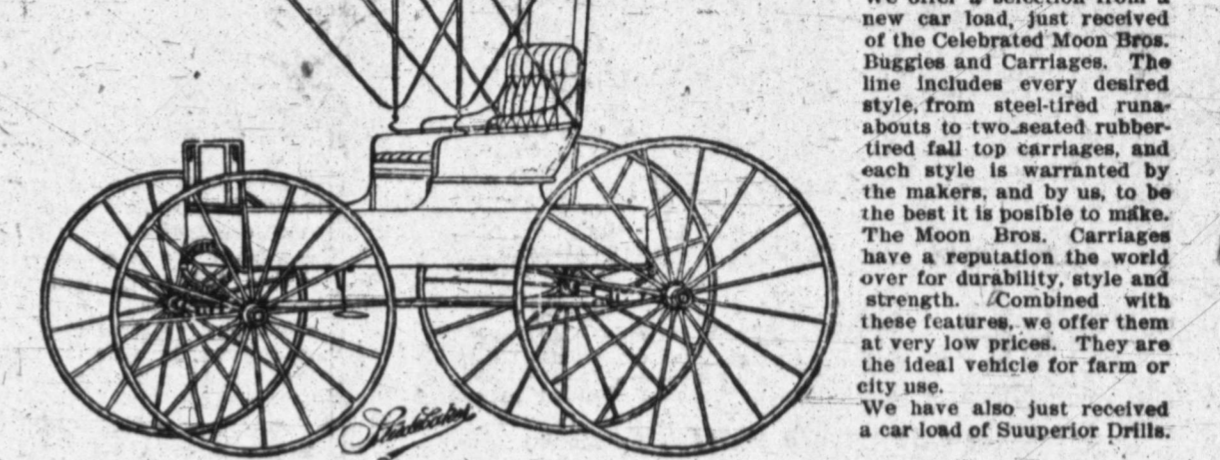

Although the early summer months were considered dull ones by the police the report of Chief Gwinn to the city council last night showed \$1225.20 in cash fines collected from April 10 to July 1st. A larger amount was worked out on the streets by offenders who did not have the cash to liquidate their fines.

Permit me to say that just that kind of "business" is the sort we do not need in order to build up a town in which decent people wish to rear and educate their children. That is the kind of business of which Paris and Greenville and McKinney and Sherman and a number of other towns got so tired of that they "cut in on."

It is a proposition no man can deny, that an element the production and exchange of which produces only the kind of "business" mentioned in this news item from The Times, is not an economic element. It is not constructive, but destructive; it does not build up, but tears down.

I am delighted with the work of our Young Men's Progressive League. I hope they will be able to do much toward bringing good "business" to our city; but let them be careful not to advertise our people as desiring this rowdy and criminal business. I understand that they are going to the Dallas Fair to represent Wichita Falls. Good for that. But be careful boys that you set forth only those things that you can be really proud of, and that would attract not thieves and thugs, but sober, decent, progressive citizens. Dallas has seen and is still seeing quite enough of the "tough sort." Her record for murders and burglaries is a disgrace to her, and all her good people feel that way about it. So, let us impress Dallas and the whole state with our exhibit down there at the fair, that Wichita Falls stands not for rowdyism—organized or unorganized—but for those elements and that class of citizenship that go to build up rather than to tear down a people. I am a

MOON BUGGIES ARE THE BEST

Farmers Supply Company

Mississippi Street. J. T. GANT, Manager. Phone 449

contributing member of the Chamber of Commerce, and am only too glad to contribute my mite to help forward the aims and objects of that worthy institution; but I draw the line at advertising our city as the dumping-ground of thugs and bums, and the "business" that manufactures them. Cordially,
JAMES W. HILL,
Pastor First Methodist Episcopal Church, South, Wichita Falls, Texas.

TEXAS INDUSTRIAL NOTES.

Hallettsville—At a meeting of the business men of this city recently a Business Men's Club was organized.

Smithville—The corner stone of the Methodist church was laid here this week. The building to be of brick and will cost \$15,000.

Celina—Contracts for \$1,200,000 of gravel from gravel pits here have been let by local men. The gravel will be used by the Frisco, for ballasting and by the city of Dallas, and Dallas and Tarrant counties for road building.

Ferris—During the past few months the brick and industry here has necessitated the employment of between three and four hundred men. The annual output is 87,000,000 bricks and the payroll runs about one hundred and fifty thousand dollars per year.

Gaiveston—Plans have been drawn for a fourteen story office building, in this city to cost, approximately \$200,000. It will be located on Tremont and Market streets.

Clarksville—Several miles of concrete sidewalks have been built in Clarksville since the beginning of 1912 and only a few scattering blocks in the city remain without this improvement. Additional orders were made by the city council last week and within another month practically the entire incorporation will be supplied with cement walks.

Gaiveston—The Young Men's Business Association is installing a white way system from the Santa Fe and M. K. & T. depots to Commerce street, extending along six blocks. The system will be completed by October 1st.

Corpus Christi—By referendum vote, H. M. Wallace of Detroit, Mich., was granted a franchise to erect a gas plant the cost of same to be in the neighborhood of \$150,000. Work on this plant is to be started at once and the pipe is to be laid in advance of the paving, which will commence soon.

Gainesville—The Young Men's Business Association will hold a carnival October 14th to 19th. They have engaged the Wortham & Allen United Shows as an attraction.

Clarksville—Plans have been approved for a municipal sewerage system for this city, to cost \$25,000. Bids are being advertised for an October 14th the contract covering the construction of the system will be awarded.

Gainesville—Cotton receipts up to this date are 1240 bales, which is the largest that this market has received at this time for several years.

Terrell—The Terrell Commercial Club has wired Postmaster General Hitchcock making request for \$100,000 of the government funds for the benefit of the roads leading out from Terrell, traversed by the rural routes, pledging itself to spend \$200,000 in return for this appropriation if granted.

Orders for building sand or gravel promptly filled. MORRIS POORE. P. O. Box 455. 40-110

EYE, EAR, NOSE, THROAT Glasses Fitted. We know How DR. J. W. DuVAL

Now is the Time to Pick Up Bargains in Floral Heights!

Lots for a Quick Turn-in Profits—Look at These:

Single lots within block of car line and sewerage: a chance to get rich \$350.00
Four south front lots Tenth Street, on sewer, for quick sale: \$1750.00
Three lots on car line, this side of bend, sidewalks and sewerage: near best of improvements; will sell single; each \$600.00

There are more building improvements in Floral Heights than in any other part of Wichita Falls. The completion of the gas factories will mean the employment of 400 men and a subsequent increase in population and demand for property. Figure it any way you want but Floral Heights will and must get the benefit of any expansion of the residence population of Wichita Falls.

OIL NEWS

John W. Maddox of Austin, a well known land agent of the capital city, was in the city Saturday and Sunday and visited the Electric oil field. Mr. Maddox was enrolled as a subscriber to The Times so as to keep in touch with operations here.

Five Rivers Company No. 1 on the Marriott, which tapped the 1000 foot sand Saturday, is said to look like 100 barrels, perhaps better, although it has not yet been put on the pump.

The Guffey expects this afternoon to drill in its No. 1 and No. 4 on the Miller tract. Both of these wells are in the 1650 foot sand. The tubing is being set this afternoon.

The Producers and the Guffey Company has each leased a total of 640 acres of the Burnett and Loyd ranch and drilling will begin there within the next week, it is announced. The Guffey has the west half of sections 1, 15, 27 and 28, while the Producers Company has the west half of the east half of the same sections. This land is east and a little south of the Marriott and is directly south of the Eeds well. The consideration was not made public. The development of this territory will be watched with interest.

The estimate of 400 barrels for the Producers' well No. 23, which came in Friday, appears to have been conservative. The latest information which appears to be authentic, is that it is good for 600 barrels.

An aerial cable railway is being built in Columbia that will be forty miles long and at one point will reach an altitude of 10,000 feet.

CURIOUS BITS OF HISTORY

UNFORTUNATE JOHN FITCH. By A. W. MACY.

To John Fitch rightfully belongs the credit for having invented the steamboat. In 1786 he built one that went eight miles an hour. A company was formed and a large boat built next year. It was 45 feet long and had twelve paddles worked by steam. This boat made a successful trial trip on the Delaware August 22, 1787. But there were many skeptics, and much fun was poked at Fitch and his boat. His supporters could not endure the ridicule, and deserted him. He went to Paris, but could do nothing there on account of the revolution. While there he entrusted his plans to the American minister, who allowed Robert Fulton to see and study them. Fulton improved on them and built his first boat in 1803. Discouraged and heart-broken, Fitch returned to America, and committed suicide at Bardonia, Kentucky, in 1796. He left a manuscript giving the story of his life, in which he says: "The day will come when some more powerful man will get fame and riches from my invention, but nobody will believe that poor old John Fitch can do anything worthy of attention."

DECLINE OF HORSE, PROBLEM

British Government Makes Grants in Effort to Revive the Welsh Light Roadster.

London.—The rapidly disappearing horse is becoming a serious problem in England, especially in the war of fœe, which finds the question of re-mounts harder to meet each year.

The latest attempt to solve the problem is a movement for the revival of the Welsh light roadster, and, according to a report of the board of agriculture, government grants have been given for the encouragement of the breeding of this type.

Similar arrangements will probably be made for the breeding of the rapidly disappearing old Devonshire pack horse, but it is feared that it may be too late to save this type, as it is almost extinct. Premiums are also to be given to encourage the breeding of the old strain of Welsh cob.

PAYS WITH 40,000 PENNIES

Rochester (N. Y.) Man Turns in 275 Pounds of Coppers in Restaurant Purchase.

Rochester, N. Y.—A chest containing 275 pounds of pennies is on deposit at a bank here to the credit of Carl W. Stordant, a real estate man. The pennies, more than 40,000 in all, were turned over to Stordant as an initial payment to bind the sale of a downtown restaurant. The purchaser, a cafe owner, had taken in the pennies over his bar during a long course of years. He had made a habit of brushing all the pennies he received into a slot which connected with a chest in the cellar.

IRISH STAYING AT HOME

Government Statistics Cited to Show Falling Off of Emigration From the Emerald Isle.

Boston.—Statistics compiled here from British government sources show that emigration from Ireland has declined notably in the last few years. The population of the island shows a decrease during the period from 1901 to 1911 of only 1.2 per cent, compared with 5.2 per cent in the preceding decade.

THE WRONG MEDICINE

The mistake in bottles or in the drugs used in filling a prescription never happens with us. In our prescription department every prescription we fill is checked and re-checked so there is no possibility of a mistake.

We do not leave out one drug or substitute another, for we give your doctor credit for knowing what ought to go into a prescription better than we do. Our system is too well perfected to permit of any bungling accuracy. Positive accuracy and perfect purity, that only properly describes our prescription department.

The gas company folks are not kicking about the present spell of cool weather, which has resulted in a substantial increase in the consumption of gas. Heaters are put into use in the mornings and evenings in many homes and there were some days last week when the gas was kept burning all day. The regulators at the station where the pipe-lines enter the city show a heavy gain in consumption recently, and the monthly meter readings will doubtless indicate a large increase.

My motto: Miller sells it for less. E. G. Hill, undertaker, office and parlors, 900 Scott Ave. Phone 225. Prompt ambulance service. 95 tc

The cowboy band with the Texas Ranger Company that shows here tonight gave a concert at the postoffice corner at noon today. The band is made up of first class musicians and the concert was very pleasing. Another concert will be given this evening.

Bad roads south of Oklahoma City forced the Meridian road automobile party, which was making a tour from Canada to the Gulf, to abandon its trip at Oklahoma City. This party was due in Wichita Falls September 25 and preparations had been made to entertain them on their visit here. Secretary Forrester was advised this morning that the Texas part of the trip had been abandoned, as the roads south of Oklahoma City were impassable.

We do all kinds of cleaning and pressing. Gupton, the tailor. 114 3tp

Robatch's Mineral Water. Is highly recommended by physicians and patrons who have tested its merits, for indigestion, catarrh of the stomach, kidney and bladder trouble. This water stimulates the secretion of the stomach, increases digestion and favors a more complete absorption of the food and prevents the action of germs that cause typhoid and other infectious diseases.

This water can be purchased at the wells or delivered in jugs or cases. This well is located one mile south of Alamo school building in Floral Heights, two deliveries daily morning and afternoon. O. J. Robatch, Owner. Phone 1801—1 long—4 shorts.
