NUMBER 121

## FIRST DEFINITE STEPS FOR SPECIAL CHARTER

FAVOR OF CHARTER-COM-MITTEE APPOINTED

Maximum Fixed at \$1.25, or \$2.00 . If Schools Are Taken Over-No. Agreement On Form

Going on record as favoring a new charter and appointing a committee work of drafting it, last night's mass meeting at the court house took definite steps to secure a new organic law

The committee has already start. Mayor J. M. Bell, chairman; Fred W. Householder, A. H. Brittiain, J. L. Jackson, C. B. Felder, R. E. Huff, T. B. Noble, W J. Bullock, Dr. L. Mac. which motion prevailed, kechney, T. C. Thatcher and Patrick

There was no expresion for or against the commission form of government and the committee will prepare charters for both the commission and the aldermanic. The only show I O. T. Bacon voiced his opposition of sentiment on this question came to the commission and said he wanted when R. E. Huff blamed the old al. the aldermanic. Mr. Huff said the dermanic system for many of the mu- old form had been very productive of nicipal evils of the country today; graft in many cities, but remarked applause greeted this statement.

One limitations was placed upon the work of the committee, in that the maximum tax rate was fixed by the meeting. It is to be \$1.25 on the present plan, or \$2 if the schools pass under the city's financial control.

The meeting was called to order by Mayor Bell, who said that the rapid tion growth of the city had brought about changed conditions, making it incumbent upon the citizens to make ade quate provision for the future; for that purpose, he said, the meeting had been

called. The mayor then quoted figures: showing the increase in taxable val. ues since 1907, the average gain per year being a million dollars. Population had gained in like proportion. The present bonded indebtedness, he an. Mr. Huff answered in the affirmative. Austin, Texas, Oct. 1.—The State nounced, was \$153,000. On present val. J. C. Ward hoped the schools would of Texas will go on a deficiency basis uations only \$200,000 in bonds could be kept out of city politics. Mr. Huff this afternoon according to State be voted for all purposes, he said, and explained that the trustees would be he believed everyone would agree that in control as at present. Mr. Ward something ought to be done to give offered an amendment making the the cfty more money with which to limit one dollar. This was not secwork.

Over his protest, Dr. Bell, was elected chairman of the meeting and schools would be kept separate for John Gould was elected secretary.

The first question, said R. E. Huff, was to find out what was wanted. He moved that organization for a special charter be undertaken. O. T. Bacon wanted to know what was to be the proposed tax rate for the improve from the citizens as to their ideas and FEDERAL TREASURY WILL ments. Dr. Bell replied that it was desires, known that the present limit of 65 cents was too small, but that the necessary revenue had not been calculated. Mr. Bacon asked some further perience showed the wisdom of enlarging the finances as needed.

Mr. Huff said that he wanted to the largest town of any pretensions, he said, without a special charter. He spoke briefly of the city's needs, saying the city must pay for them if she wanted them. There was little doubt of the committee. said Mr. Huff, that it would bring an increase in taxes, but would give many improvements that a city this size charter is the fact that a clear ma-

ought to have. A committee of nine to draft the charter was suggested by Mr. Huff. Replying to a question by O. T. Bacon he said the city limits might be ex- ed and will endeavor to have a comtended under the new-charter.

hat kind of a charter was proposed before he knew whether he wanted TO INSTITUTE SUIT FOR one or not. He asked for information as to the tax rate. Mr. Kemp asked ed for the question. Judge Felder he was interested in the "dehis" before the vote for the charter motion was taken. He said there would be no "gag rule." He was asked to give his views on the charter, but declined. Mr. Huff thought action best be taken after the committee had done its work. Judge Felder wanted to know if a commission form of

government was planned. O. T. Bacon agreed that a new charter was needed, but said he wanted to know what it would cost. No one was prepared to give him the information he wanted.

charter prepared and published so the Wrold employed in the textile mills

ing for. new charter would provide; he wasn't were reported.

MASS MEETING DECLARES IN sure a new charter was necessary. Dr. Bell, answering a question by Judge Felder, said the question of a commission form was up to the citizens. The vote was then taken on the motion, J. C. Ward being the only one in

O. T. Bacon moved the appointment of nine to draft the charter. The committee of nine to be nominated by three. O. T. Bacon, C. C. Huff and F. W. Householder were appointed the nominating committee, and suggested the following: Fred W. Householder, A. H. Britain, J. L. Jackson, C. B. of eleven citizens to undertake the Felder, R. E. Huff, T. B. Noble, W J. Bullock, Dr. L. Mackechney and T. C. Thatcher. Over his own protest again, Dr. Bell was again made chairman.

Frank Kell called attention to the fact that time was snort and wanted to ed to work and hopes to be able to know when a report might be expectreport by October 15. It consists of ed. Fred Householder thought a report might be ready by October 15. C. C. Huff moved that Legislatorelect Henry be added to the committee,

> R. E. Huff said that the question of form of government had been several times raised. Personally, he preferred the commission, but wanted the committee, if possible, to prepare charter for both forms.

that this was a question for the committee. Mr. Huff's motion then pre-

Patrick Henry called attention to the fact that ratification of the charter at an election would be needed. It was explained that the second mass meeting would simply discuss the ques-

the most important charter question. Abilene, he said, had a limit of \$2.50; he thought \$1.25 would be sufficient here under the present plan or \$2.00 door discharging both barrels into if the schools came under the city's the sleeping parents' bodies. control. He put this in the form of a motion, which O. T. Bacon and H. B. STATE OF TEXAS NOW Hines seconded.

T. B. Noble asked If the \$1.25 would cover provision for water and light. By Associated Press.

onded. W. J. Bullock said that while the the present, it might be well to make

provision for it. The tax limit motion was then carried without a dissentive vote. A. H. Britain sad that as a member of the commttee he wanted to hear

Adjournment was then taken. Committee at Work Today. The first meeting of the charter committee was held this morning at questions on city finances, saying ex- the city hail, when organization was effected for the work by electing A. H. Britain chairman and W. J. Bullock secretary. Meetings will be held see the finances under the new char- daily and it is hoped to complete the ter put the city on a liberal and not first draft of the charter by Saturday a nigardly basis. Wichita Falls was of this week. The fact that it will

be necessary to provide two charters, one for the adlermanic the other for the commission form, of city government, will add materially to the labors One feature of interest in connec tion with the preparation of the

jority of the committee favors the commission form of government. The committee will meet as often as possible until its work is finishplete report ready for the mass meet

Mr. Ward said he wanted to see ing not later than October 15.

By Associated Press. Austin, Texas, Oct. 1.-The attor ney general will file this afternoon or tomorrow morning a suit for for feiture of charter and dissolution of corporation against a Dallas concern with a capital stock of \$250,000. It is alleged that the concern did not have properly paid in at least fifty per cent of its capital stock when it organized and that it is now doing a fraudulent business.

........... REDUCED RATES ON BOTTLES

#### Advices have been received by the Young Men's Progressive League that hiterested lines of railroad have joined in the establishment of a rate on

bottles of 43 cents to all points in Oklahoma, whereas heretofore the Spent in Pittsburg Alonerate has been as high as 70 cents to "Practical Politics" some points in that State. This puts the Wichita Falls bottle factories on

with Oklahoma and Kansas bottle factories: Advices have also been received that the Fort Worth & Denver Railroad have established a rate of 50 cents on bottles to Colorado common point territory. These are the same rates enjoyed by the Okmulgee and of which \$28,000 was spent in Pitts-Coffeyville factories, whereas heretoburg. fore the last two named points had an advantage of 15 cents a hundred pounds to all points in Colorado,

whether in common point territory or elsewhere. The league expresses the hope that it will shortly receive notice that their application for a 35 cent rate to Texas common point territory on bottles will be granted by the roads entering this city. An exhaustive study of the rate situation with especial reference to all sorts of glass goods, is being prosecuted by the league and it is already seen that many reforms in rate schedules are needed, especially on Arkansas, Louisiana and New Mexico business. In Oklahoma, Texas and Colorado, Wichita Falls factories making glass goods can hold

their own very nicely.

CHAMBER OF COMMERCE SENDS MAN INTO SOUTH AND EAST TEXAS TO SECURE PICKERS

#### SOIL SURVEY BROGHT

Held Latter Part of Month-Outside Speakers

Relief, for the cotton farmers of Northwest Texas who are unable to secure pickers is in sight, if a plan seems that it will be without cash set on foot at a meeting of the Chamuntil tax collections come in next ber of Commerce directors this morning can be carried out. As a representative of the Chamber of Commerce, Louis Fehler, a farmer of this county, will go to South and East Texas counties to secure pickers and he expected to be able to secure enough to supply the demands in this part of the State.

It is not believed that much difficulty will be experienced in getting pickers, inasmuch as much better pay is offered in this section than can be secured in South and East Texas.

J. W. Campbell, district agricultural agent, and Secretary Forester were authorized to take up with the Department of Agriculture at Washington the matter of a soil survey for posit this fall with the National banks this county. Mr. Kemp urged that some action be taken to secure this survey, saying it was a very important matter.

> County Commissioner Thomas, with whom the Chamber of Commerce has had considerable correspondence anent the conditions of some of the roads near the city, appeared before the directors to explain that the bad places in question had been caused by the releasing of water from the irrigation ditches. He threatened prosecution if the practice was not stopped and told of plans for additional road work in this precinct. It was decided to hold another membership meeting later in this month and the secretary was au thorized to make plans. It is proposed to have some outside speaker of B. B. Cain of Dallas, president of the Gulf Texas & Western Railway will be invited to attend and speak.

Secretary Forester reported sever al new members had been secured recently and this brought up the question of a membership campaign; was felt, however, that it would be diers will be welcome royally and a better to wait until the first of the year. Adjournment was then taken The directors present at the meeting included President R. E. Huff, Myles O'Reilly, M. J. Gardner, T. R. T. Orth, Frank Kell, G. D. Anderson, J. M. Bell, J A. Kemp.

# TO ROOSEVELT

TITTSBURG BOSS TELLS COMMIT TEE HE GAVE \$102,000 FOR ROOSEVELT'S PRIMARY

\$28,000 of Flynn's Contribution Was Acting Upon Colquitt's Request Mex

By Associated Press. Washington, D. C., Oct. 1.—William Flynn of Pittsburg, testified to Colquitt this morning received a teleday before the Senate committee investigating campaign funds that he had personally contributed 90 per cent of the money for Col. Roosevelt's primary campaign in Pennsylvania. He gave \$102,000 to the fund

Flynn testified his total expenditures in the Progressive campaign to date had been \$144,308. This sum includes contributions both before and since the Chicago convention.

Mr. Flynn declared he would proluce to the committee J. G. Felain, man who without his authority and signed Flynn's name to a telegram age of troops through El Paso, when support for a seat in the Senate. endangering lives of American citi This was one of the telegrams pro zens, they had then declined the perduced by Senator Penrose when he mission. nade his sensational charges against

E. H. Hooker, treasurer of the Progressive party, told the committee that Charles R. Crane of Chicago had contributed \$70,000 to Senator a Follette's campaign fund and \$70,000 to Gov. Wilson's fund prior to the Baltimore convention and practically at the same time.

Mr. Hooker placed in evidence a statement of receipts and expenditures in the New York City Roosevelt primary campaign. It showed \$59,126.35 had been contributed and \$52,606.52 spent. Mr. Hooker said in the primaries the Progressive party got about 30,000 votes and Senator Pomerene observed that the primary expenditures was at the rate

'about two dollars a vote." Mr. Hooker vigorously resented any inference that any money was expended in an improper way.

All correspondence between Presiat Roosevelt and the late Edwar H. Harriman, covering the period from Mr. Roosevelt's succession to the office in 1901, until Mr. Harri man's difficulties with him in 1906 was placed in evidence Monday before the senate committee investigating campaign expenditures. Out-of the scores of letters, eav

ering every subject from exhibits of Indian pictures to the appointment of federal judges and territorial governors in Arizona, the senate committee was able to get little new light bearing upon the subject of campaign contributions or the disputed question of whether President Roosevelt specifically had asked Mr. Harriman in 1904 to raise a fund of \$240,000 for the aid of his campaign. C. C. Tegethoff, now agent for the Harriman estate, and former private secretary to Mr. Harriman and Chas. A. Peacock, president of the Mutual Life Insurance Company, and personal attorney for Mrs. Harriman in the administration of the estate, both testified that Mr. Harriman had told them the raising of the big campaign fund had been undertaken at President Roosevelt's request, a statement which Mr. Harriman made before his death, but which was denied by

President Roosevelt. Aside from the file of letters give on the committee, no documentary evidence was offered, and out of the many letters none was produced except that written by Mr. Harriman to Sidney Webster, Jan. 2, 1906, that in any way bore upon the charge that President Roosevelt had asked the railroad man to raise funds.

The Webster letter made public by Mr. Harriman himself during the controversy with President Roosevelt over the fund, intimated Mr. Harriman had been asked by the President to raise the fund: and that it had prominence here for the occasion and been the understanding among financial men, to whom he appealed, that Senator Depew was to be given the ambassadorship of France.

## FLYNN'S DONATION 51 MEN GO ON TRIAL FOR DYNAMITE PLOT

STATE DEPARTMENT SUSPENDS PERMISSION

ican Troops Will Not Be Permitted to Detrain in Texas

Austin, Texas, Oct. 1,—Governor gram from Acting Secretary of State Wilson, advising him that permission for passage of Mexican troops across Texas territory has been suspended. The governor advised that he has no objection to the passage of these roops through Del Rio.

With regard to the dispatch from Washington that his permission for passage of the troops had been asked only as a matter of courtesy and he could not interfere, he said that surely the State Department would not disrespect his wishes, insomuch as they had heretofore considered them, and when he objected to passo the Standard Oil Company, asking a conflict might have, taken place,

His telegram to Mr. Wilson fol

"Your telegram this date answering mine of yesterday in which I withdrew consent for passing of Mexican troops over Texas territory, received. If Mexican government will amend equest so as to eliminate Marathon and detrain Mexican troops at Del Rio, I have no objections to urge, but after reflection I could not give consent to detraining Mexican troops at Marathon and marching them over rough, dry country seventy-five miles and invite a conflict from Orozco's men, who according to my advices are now operating across the Rio Grande in Mexico, opposite Marathon.

"It would be like inviting a slaughter of unarmed foreign troops on Texas soil. I am pleased to note your suspension of permission for Mexican troops to pass through Texas on receipt of my objection. The objection

is amended as suggested. (Signed) O. B. COLQUITT." The following protest against the passage of troops from Marathon to the border was received by the governor from W. W. Turney:

"I most earnestly protest against permission being granted for the Mexican federal troops to detrain at Marathon for the Mexican border. These troops must necessarily pass either through my ranch or that of my neighbors and the passage would be attended with great damage to live stock interests, and in addition might be the means of inciting trouble with rebel sympathizers and possibly others."

Mr. Turney was advised by the governor that the troops will not detrain at Marathon for the Mexican border.

#### INSURANCE CO. WILL JOIN IN BUILDING

Wichita Southern Life Insurance Co. and First National Bank Will Join In New Structure

At a meeting of the directors of the Wichita Southern Life Insurance Company vesterday afternoon, it was decided that this corncern will unite with the First National Bank of this city in the erection of the five story office building at the corner of Eighth and Indiana.

. The offices of the insurance company will be in the new building, upon its completion.

Negotiations whereby the insurance company should become a partner in the new office building have been pending for some time, a final decision being reached yesterday afternoon. All the directors were not agreed as to the advisability of such a step and the decision was not unanimous. The friends of the movement, however, were safely in the majority.

CONTINUED GAIN SHOWN IN POSTAL RECEIPTS

Wichita Falls' postoffice receipts for September totalled \$3190.55, a gain of about seven per cent over the same month in 1911, when the re-

ceipts were \$3062.01. Today marks the end of the first six months of the postoffice year, from the receipts of which the needs of the various offices are figured. Every month since April 1, with one exception, has had larger receipts than the same month in 1911, and the total for the six months was \$19,-476,50.

ON SECOND ANNIVERSARY OF LOS ANGELES TIMES EXPLOSION TRIAL BEGUN

Alleged Operations of Men Charged With Conspiracy Extended Over Whole Country

By Associated Press. Indianapolis, Ind., Oct. 1.—The defendants charged with complicity in the McNamara "dynamite plot" were placed on trial before Federal Judge Anderson today. Judge Anderson called the case at 9:45 this morn-

At the outset of the trial, Ortic E. McManigal pleaded guilty and E. A. Clancy and Olaf A. Tveitmoe, of San Francisco, pleaded not guilty.

A motion to set aside the order consolidating the cases, made on behalf of the defendants, was sustained. This separated the various indictments but left the defendants to be tried together.

McManigal, aged about forty years, short, stubby and of florid complexon, entered the court room grinning. "Ortie E. McManigal, do you plead guilty or not guilty to the charges against you?" asked Judge Ander-

McManigal rubbed the back of his hand across his chin and grinned again.

"I plead guilty, your honor," he said. McManigal's plea qualified him as a witness for the government, for which purpose he had been imprisoned for eighteen months.

On motion of the government cases against J. W. Royan of Petoria, All., Andrew Kavanaugh of Spring eld, Ill. and Patrick H. Ryan of Chicago, were dismissed. The government announced it had no evidence against them to warrant their trial. All of them had been identified with the Iron Workers' Union.

A Review of the Case.

By Associated Press. Indianapolis, Ind., Oct. 1.—Whoever will be withdrawn if the applicationothers in the series of dynamite and nitro-glycerin explosions which preceded and followed the wrecking of the Los Angeles Times building, Oct. 1, 1910, when 21 persons were killed, the government hopes to disclose in the trial which begins today before Judge A. B. Anderson of fifty-one men.

At the head of the list of defendants, who thus are brought into court exactly two years after the Los Angeles disaster, are: Frank M. Ryan, president of the

International Association of Bridge and Structural ironworkers. Ortie F. McManigal, once known as "J. W. McGraw" on the Pacific Coast, a confessed dynamiter and accomplice of the McNamara brothers, who has been kept in custody as a

witness for the prosecution ever since

his arrest in Detroit a year ago last April. Herbert S. Hookin, successor of John J. McNamara as secretary-treasurer of the union, whom McManigal accuses of being the organizer of the dynamiting crew, and one of the originators of the alarm clock scheme by which explosions were set off several hours after the fine was plac-

Most of the other defendants are present or former unions officials whom the government charges were linked together in a conspiracy by an extensive correspondence from 1905 to 1911, during which time more than 100 explosions in states scattered from Massachusetts to California occurred in works under construction by

employers of non-union labor. Fifty-four men were indicted last February, but John J. McCray, of Wheeling, West Va., never has been located and the McNamara brothers are in prison in California.

The courtroom which probably for weeks will be the scene of the trial, has long been ready. Every precaution has been taken to secure quiet. The windows of the small room, located on an outside corner of the second floor of the federal building. have been heavily curtained to exclude the daylight. Recently Judge Anderson had the walls and ceiling thickly padded with felt to improve

the sound conditions. United States Senator John W. Kern has been retained as counsel for the defendants, while the government will be represented by District Attorney Charles W. Miller and his

Sixteen defendants were placed under \$10,000 bonds each, to appear for trial and the others each under \$5,-000 bonds, making an aggregate in bonds of \$350,000,

## 51 MEN GO ON TRIAL

Witnesses are to be called from many parts of the country. While it is not the intention of the government to go thoroughly into the cases which resulted in the imprisonment of the McNamaras, all that part of the evidence of the Pacific Coast explosions as partains to the illegal interstate shipment of explosives has been made available to District Attorney Miller.

last February contains charges against all of the defendants, and the charges are embraced in three groups. They

Transporting dynamite and nitroglycerin in passenger trains from one state to another; as Ortie M. McManigal confessed was done when these explosives were carried in suit cases from hiding places at Muncie, Ind. Rochester, Pa.; Tiffin, O.; and In dianapolis, to cities were jobs were to be blown up.

Conspiring to violate interstate regulations relative to explosives. Concealing knowledge of the con spiracy or abetting the illegal trans portation of explosives.

Most of the explosions of which the government has made a record were directed against members of the Na tional Erectors' Association, an organization of constructors who had broken off realtions with the union and were conducting open shops. The first explosion or attempt recorded was at Miller's Falls, Mass; in the summer of 1905 and the last Oct. 16. 1911 when at 2 a. m. near Santa Barbara, Cal., 39 sticks of dynamite with a fuse were found beneath a bridge just before a special train bearing President Taft passed over. Twenty of the explosions occurred in Ohio.

McManigal's confession was the basis upon which the government founded its case before the federal grand jury which returned the in dictments. And it is expected to fig ure prominently in the present trial.

Pageant of Big Circus Is Said to Have Cost a Million Dollars to Create

It has cost the management of the Barnum and Bailey circus \$1,000,000 e rebuild their street spectacle. Those who turn out on the streets of Wichita Falls in the forenoon of Tuesday, October 15, will see some thing entirely different frof what they have been used to seeing on circus day.

The equipment stretches out for a ength of three miles like a panorama of the world. It was designed by the best artists of France and Italy and built under the direction of the property masters of seven of Europe's largest producing theatres. Over 300 artisans and master mechanics labord in the foreign workshops of the circus for many months, both night and day, to build the various vehicles and floats, howdahs, palanquins, carriages of state, thrones and tableau wagons. The costumes were made in Paris. The laces came from Ireland. The scarfs, flags and banners are expensive works of Japanese art. The rugs and tapestries are from Turkey and Persia. The harness is the only part of the equipment that was made

n America. The foreign agents of the show had great deal to do with this pageant. They have peopled it with strange types of the human race and baye added to its variety a vast collec tion of Italian statuary, the graven iamges of savage tribes and idols of Oriental religions. In fact the parade is a congress of nations, a zoological garden on wheels, a fairyland carnival, a gallery of mythology and a horse fair. Fifty different kinds of music are introduced, from the weird string and reed musicians of the barbarian to the great brass pands of European and American na

Taking part in this parade are 1, 280 people, 40 elephants, 700 horses 40 camels and 500 menagerie animals displayed in open dens.

Some idea of the magnitude of this great circue may be had from the fact that it travels on five long trains, the combined length of which is more than one mile. When the twenty-two nations are represented by the company of 400 performers. The circus has visited every city of size in the civilized world during its fifty-five years of travel. In a single eason it often covers 40,000 miles. It ours may extend from New York City to San Francisco and From Quebec to New Orleans in a single summer. On the show grounds are a dynamo plant furnishing current for 7,000 electric lights; a postoffice, receiving mail daily from all parts of the earth; all the shops found in the average

town, and a hotel where 4,000 meals are cooked and eaten every day in the week. The main tent is the largest audience room in the world. Besides its many grandstands, it has three rings, two stages and a quarter mile hippodrome track. The show carries fifty of the best clowns in the world and the greatest traveling zoo. Among the 1,200 wild animals is the only baby giraffe exhibited in America. With it in the same pen are the three tallest giraffes in cap-

Wichita Falls, Texas, October 1, 1912.

SOS UNION A LABEL 505

October 15th is the day the big circus will be in Wichita Falls. It is also the day set by the mass meeting of citizens for the approval or rejection of a new charter for the city. Both are big events and are likely to come in conflict in the cach other unless the cuivens meeting is changed from the court house to the circus tent.

The mass meeting at the court house last night was attended by a representative bunch of tax-paying citizens and the meeting will result, it is sincerely hoped, in the securing of a special charter for this city, which will make it possible to make desired public improvements. A committee of nine citizens was appointed to draft two charters, bone under the aldermanic form of city government, and the other under the commission form. both of which are to be submitted back to the citizens at another mass meeting to be held on October 15th, and later submitted to a vote of the people at an election to be called for that purpose. This will give the people. an opportunity of choosing between the two forms of government, either of which form can be made good or bad in proportion to the ability, qualification and integrity of those in whose hands such government is entrusted. To say that graft and greed is not possible under either form of gov. ernment is to make an ascrtion that cen be easily refuted.

In denying ball to Beal Sneed Judge Browning took the proper course. He probably reasoned that there were other members of the Boyce family still living, among the number the aged mother widowed by the builets fired into the body of her aged husband by the same man who slew her son. The latter, no doubt, had greatly wronged Sneed and deserved perhaps all that he got. But as for the-elder Boyce. His crime was only that he had attempted to come to the rescue of an erring and wayward son. Had he done otherwise, it would have been unnatural, and he would have been subjected to criticism had he not pursued the course he did. With men at liberty who make of themselves a walking arsenal and with a determination. seemingly to wipe from the face of the earth every being that, through ties of parental or brotherly love, had rendered aid to the man who had wronge ! him and ruined his home is not a healthy condition of affairs for a civilized country, and all such characters should be confined to a jail or an asy. lum for the insane.

It would seem that about all the comfort or consolation the g. o. p. is getting out of this presidential campaign is by indulging the hope that Wilson will be unable to secure a ma, jorty of the electoral vote. In that | event the election of a president would be decided in the House of Represen tatives. If each member of Congress was entitled to one vote, and there being a large Democratic majority in the House, a Democrat would be chosen. The Constitution gives to each State of the Union only one vote in such an election, and the state that has the largest representation in Congress will have no greater voice in the election of a president, than the state with the smallest representation. This being the case, there is an equal number of Democratic and Republican votes in Congress, based on states, making the election of a president in that body impossible in event the electoral college should be unable to make the choice. It would then be up to the Senate to settle the matter by the elec. tion of a vice president, by making a choice between Marshall and Sherman. and the Senate, being Republican by a narrow majority, would naturally elect Sherman, who would be made president in the event that neither the electoral college or the House of Representatives could elect. But from present indications, such an outcome is hardly possible. If the Democrats hold the States they carried in 1908, with the addition of such states as Indiana. Ohio, Michigan, Kansas and more than a half dozen other debatable states where the Republicans are badly split and the chances are more favorable to Wilson than to either Roosevelt or Taft, the probability is that Wilson will be chosen president of the United States by a larger electoral vote than any president since the war. As to which is the stronger, Taft or Roose, velt, or as to which of the two will receive the greatest popular vote or electoral vote seems a question than even

the Wall Street gamblers are not will neither. Taft or Roosevelt stands any fied the Tammany organization, and Democratic president this year. Being so give odds either way. It seems a look up as to which is the stronger and only one thing seems certain; that lead. The Democratic nominee has decident of the Wilson order to preserve its own political powers. It is not essential to the election of a critical power. The column, making his majority in the lead. The Democratic president this year. Be son, and in that event, the vote of New electoral college just that much great sides, Tammany may decide that in York would also be added to the Wilson order to preserve its own political powers.

Placed under this head will bring satisfactory results. One Cent the Word for an insertion; Half Cent the Word each following insertion.

## WICHITA STUDENTS AT

Butcher & Brandt guaranteed razors we have ordered another shipment and All Have Gotten Through Task of Matriculation and Are Enter-ing Activies of Student Life

> Austin, Texas, Oct. 1 .- A week filled with novel and stirring events for first year students and with routine and red tape for upperclassmen came to a close Saturday night at the Uniraity of Texas when hundreds of ndents gathered together in the main building of the University to celebrate college night with yells and sougs and to welcome to the institution all of the freshmen or new

> The week was filled for all alike with tedious delays, which it was necessary for every prospective student to go through with before entering the University. In order to gain admission to the school, it was necessary in fost cases to interview as many as ten or twelve different officials and around each official was gathered crowds so large that numbers were issued and each person was obliged to wait several hours for his or her turn.

However, now that all of the trials and tribulations connected with the work of natriculation have been done away with, the students can settle down to a realization that they are parts of one of the largest Universities in the United States. It was announced yesterday afternoon by President Mezes that when registration was closed at six o'clock, 1863 students had been enrolled in the University, which number is about thee hundred more than were enrolled at the same time last year and fiftysix more than were registered here during the entire session. It is confidently expected that before January 3, or the beginning of the second term of school, more than 2200 men and women from all parts of the state will have been registered which will break all records for this or any other institution in the Southwest. Although several of the . Wichita

Falls candidates for admission experienced some difficulty in mastering the art of matriculation, most of them progressed in a comparatively satis factory manner and practically all of them had completed the work of registering before Saturday afternoon which has been designated as the last day for entering the University.

Wichita Falls is now represented by students on the campus, on the grid-iron, in the halls, and almost everywhere else that students conregate in large numbers. A larger epresentation from the Wichita Falls. high school is now attending the University than ever before and it is probable that every one of them will be back next year with the number increased by new graduates and students from other schools. There is talk of organizing a Wichita Falls club to enter University politics.

Among those attending the University from Wichita Falls are Percy Leucke, oJe Ward, Edison Jalonick, Wayne Somerville, Laverne Somerville, Ralph Mathis, Gerald Pond. Wiley Fuller, Annie Carrigan, Muriel Hickman, Gladys Trueblood, Myrtle Henderson, Clara Parker and Harold Murph, Mracks Hawthorne and Wasee Yeager. A nufber of these students were both pleased and surprised to meet Prof. E. O. McNew of Mineral Wells, former superintendent of public schools at Wichita Falls, who is here for the purpose of placing in the University a son and daughter. Prof. T. L. Toland, who resigned last year as superintendent of the public schools was also a visitors at the University last week and was encountered by several of the Wichita Falls representation, who accorded him a hearty welcome.

Regular work in the University be gan Monday, at which time most of the students had classes scheduled The first part of the week will be devoted to becoming familiar with teachers and rooms and t osecuring divided between the departments of civil engineering, law and the college of arts, with one student in the department of architecture and educa
